Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability\textsuperscript{40} and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability\(^\circ\) and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my
arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing

While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-<as-to-`historiality/ontological-eventfulness `/ontological-aesthetic-tracing> right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating —<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness `/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation behind the

'knowledge becomes increasingly mechanical’ and is rather a secondary and derivational tool for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the imprimaturing so projected and the perceived temporal social—value arising with such imprimaturing and as it is increasingly associated with generalised incuriosity in genuine intellectual development and the substituting of mere imprimatur totalisingly—disentailing—discretion/whim—of—thought over genuine knowledge—reification as to existence—potency—sublimating—nascence,—disclosed—from—prospective—epistemic—digression—as—of—

As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-
of-amplituding/formative–epistemicity-totalising–renewing–realisation/re-perception/re-thought–in-supererogatory–epistemic–confatedness /immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance -<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ inclinations that poorly appreciate existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic–digression-as-of-amplituding/formative–epistemicity-totalising–renewing–realisation/re-perception/re-thought–in-supererogatory–epistemic–confatedness implications of transcendence-and-sublimity/sublimation/supererogatory–de–mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated
behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence—<in-dimensionality-of-desublimating-lack-of”—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> whether by mystifications-outside-existential-contextualising-contiguity—that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism—thus-foiling/undermining-relative-ontological-completeness—implications/conclusions/projections-of-prospective-knowledge-reification—in-a-dumbing-down-posturing—that-implies-that-the-present-is-unchangeable-as-of—presencing—absolutising-identitive-constitutedness, etymological-flouting-as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivety-that-such-stigmatising-representation-will-undermine/override-their-analysable-ontological-veracity and an-approach-as-of-the-ordinary-egotistic-perspective-in-existential-extrication-that-absolutises-the-present-that-is-passed-as-knowledge-reification all undermining informed insight and the requisite human intellectual and emotional sacrifice for genuine knowledge-reification and prospective progress involving the authentic self and social transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious de-
mentative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency~sublimating~nascence~disclosed-from-prospective-epistemic-digression-as-of-
<amplitunding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-

It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existent-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness /relative-ontological-completeness’.
(sublimating-referencing/registering/decisioning,–as-self-becoming/self-conflicatedness /formative-supererogating-<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigmuing–psychologism’ as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutising-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn’t fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification’ implications as of existential-reality’).

We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency–{(transparency-of-totalising-entailing,-as-to-entailing--<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness)} of the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency–{(transparency-of-totalising-entailing,-as-to-entailing--<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness)} subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s2 to ensure that calculations conform
to its expectations for one interest or another; but the reality of that universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>-totalising--in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating–decisionality)–of-ontological-performance-<including-virtue-as-ontology>. The fact is knowledge-reification is of ‘existential <amplituding/formative–epistemicity>-totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening’ and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>-totalising–renewing–realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness over our human-subpotency motives, the same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to
in many ways mathematicians ‘don’t go on to be thinking about the soundness of axioms once these are construed as of existence’ for instance with the axioms-of-addition, but this doesn’t mean that the idea of unsoundness of ‘a priori or axiomatic conception’ (as to invalidate dialogical-equivalence) doesn’t exist especially so when it comes to blurred\(^7\) domains not only in the social sciences but sometimes in the natural sciences as well where lack of \(^{103}\) universal-transparency\(^{23}\)-(transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative-epistemicity}\rangle\text{totalising--in-relative-ontological-completeness }\) arises such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing \(^5\) meaningfulness-and-teleology as of existence’ not only out of good-intent or ontological-good-faith/authenticity\(^6\) but ontological-bad-faith/inauthenticity\(^6\) as well. (In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing \(^5\) meaningfulness-and-teleology\(^9\) pretense of being as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ is effectively central to all prospective institutionalisations in relative-ontological-completeness\(^{87}\) as reflected with the Socratic philosophers putting in question the apriorising/axiomatising/referencing of non-universalising sophists specifically with Socrates during his trial as to his highlighting of the inconsistencies of his accusers sophistic non-universalising apriorising arguments priorly for the notion of a mutual logical coherent engagement to arise in the very first place with Socrates rather purporting that such a possibility of mutual logical coherent engagement could only arise on the basis of his \(^{113}\) universalising apriorising arguments as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{96}\) and budding-positivists equally putting into question the apriorising/axiomatising/referencing of non-positivising/non-rational-empiricists medieval-scholasticism pedants specifically as with Galileo’s implicit dismissal of any such pretence of logical coherence engagement in the face of what he could

While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency~sublimating~nascence, disclosed from-prospective-epistemic-digression as of-<amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness/immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification.

Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowings has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of,<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendentall-enabling/sublimating/supererogatory-de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-ordemting narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology ) in human-subpotency social-aggregation-enabling).

We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves 'direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ meaningfulness-and-teleology”, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective notional–deprocrypticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’ <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in conflatedness herein implied as ontological-prime movers-totalitative-framework involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ meaningfulness-and-teleology as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination’), and we can better understand as such why underlying confliction arises with all registry-worldviews/dimensions transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity because these involve human-
subpotency–aporia/undecidability/dilemma/ought-

projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-
referencing–conceptualisation>; as inevitably the apparently innocuous Copernican, Galilean, Cartesian, Newtonian, etc. conception of the material world in superseding the human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the universalising but non-positivism–medievalism preclusive-consciousness’ have constructive implications about corresponding requisite prospective social-values in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of the social-construct as of the universalising but non-positivism–medievalism preclusive-consciousness’, and the possibility for the further advancement of such material sciences arises from the effectively enabling social-values like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism—or–preempting—disjointedness-as-of-
reference-of-thought protensive-consciousness induced Being-development/ontological-
superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporality/longness as ontology’

fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation–entropy-or-contiguity–or–ontological-preservation’

preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–ontological-preservation as to suprastructural proxying of intrinsic-reality), beyond the deficient mental-devising-representation intradimensional representation of meaningfulness-and-teleology ..............................................................2601

Institutionalisation and formalisation are based exactly on the fact that we don’t have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ .................................................................2721

‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’)

with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, our formalisation mechanisms acknowledge unspokenly/tacitly/by-mere-intuition the veracity/ontological-pertinence of our potential ‘perverting temporal-dispositions inclinations’ by its ‘abstract preemptive mechanisms’

a ‘referential-as-natural’ conceptualisation of knowledge that consciously tautologically subsumes temporal-dispositions and intemporal-disposition

mobilising an ‘ontological-tautologisation/existential-reference conceptual-scheme’ (like a hermeneutics-derived psycho-ontological, bio-ontological, econo-ontological, mathematico-ontological, etc.) construed as of ontological-normalcy/postconvergence teleology thus postdictory (as metaphysics-of-absence—implicit-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence) conceptualisation)

It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round

the tautological/referential/existential-reference nature of intrinsic-reality/ontology/existence allowing for ‘predication or predictive-insight’ and ‘postdication or projective-insights’

with our human limited-mentation-capacity-deepening, we are actually involved in a ‘developmental notional—teleology of ontology’ construed as coherent shallow superseding—oneness-of-ontology to coherent deeper superseding—oneness-of-ontology in reflecting

why spatialisation, indirectness and craftiness are critical to postlogic and conjugated-postlogic mental-dispositions so as to evade their prospective interlocutors ‘putting one and one together’ as will arise in an existentially veridical context

need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations

The notion of temporality/shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions

a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology

readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with its increasing-ontological-completeness or diminishing–human-epistemic-anomaly/diminishing–preconvergence

science’s very own further development in its prospective aporeticism-overcoming/unovercoming (as increasingly appreciated with a postmodern influence on science) and so given that human thought at any given moment as of its aestheticisation-and-aestheticisation-towards-ontology is not absolutely determinative/certain as so-reflected by the enframed–unenframed or enframed-overflowing or re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) veracity that truly underlies all human ‘meaningfulness-and-teleology’ thus enabling the prospective possibility for human emancipation and progress (as even the sciences while ultimately aspiring for exactifying/precisioning–of-sublimation–theoretical,-conceptual-and-operant-implications> scientific accounts, will implicitly adopt practices of inexactitude/tolerances as to the more critical issue of their prospective aporeticism-overcoming/unovercoming wherein for instance it is mostly in the last 30-or-so years that astronomy has arrived at a highly cogent scientific account of astronomical phenomena, in the medical domain because of the critical nature of any developments to human health and preservation of life even the most flimsy statistics are often portrayed as of relevance however the possibility for pseudo-analysis or later retraction, and generally in this respect science at its ‘breakthrough-level of scientific accounts’ is rather of relatively high inexactitude/tolerances as nascent scientific
conceptions even within say the physics domain are contested, with the critical notion of science-in-practice rather being about ultimate aspiration to continually converge towards more and more exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> scientific accounts); but then human limited-mentation-capacity-deepening as to aestheticisation–and–aestheticisation-towards-ontology necessarily priorly conforms to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation–<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence–(implicit–’nondescript/ignorable–void’–as-to-presencing–absolutising-identitive-constitutedness) notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation–and–aestheticisation-towards-ontology notion of overall human knowledge’ (as to any such non-Western social dynamics very own originariness-parrhesia–as–spontaneity-of-aestheticisation inducing of prior reproducibility—mathesis/motif/thrownness-

conception (as can be so-construed in modern day psychology individual augmentation/enhancement notion in existential-extrication-as-of-existential-unthought) but rather ‘a self-development conception de-mentatively/structurally/paradigmatically construed in association with the development of a better world as to the selfless notional–asceticism implied’ (with a confusion as of individual augmentation/enhancement rather arising from a misconstrual of the Socratic philosophers and their successors like stoics and cynics emphasis on self-development as to the fact that their universalising-idealisation as to their given epoch implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporeticism associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporeticisms concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific aporeticisms reflection of human historiality/ontological-eventfulness/ontological-aesthetic-tracing while avoiding an epistemically-flawed complex of presencing—absolutising-identitive-constitutedness along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification orientation further implies that there can’t be any tradition/practice of
knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> cannot be transformed and construed as de-mentative/structural/paradigmatic issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical (failing to attend to prospective existential aporeticisms while construing the framework of human agreeability and agreeing as knowledge rather than the construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as the more fundamental purpose of the intellectual enterprise as to the reality of the fact that true knowledge has ever always been about superseding human limited-mentation-capacity and not defining it as a point of reference however disagreeable the exercise), and in many ways this drawback is reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual way and academic practice of going about knowledge-reification that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-
contiguity as to the proliferation of isms–conceptualisations without any ‘relative-ontological-completeness’

institutional self-preservation over existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as we can easily appreciate that the lack of blurriness in many a natural science as to an untenable constraining of social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) will avert any such relic/artifactual approach to knowledge (say for instance construing modern genetics as a deeper conception of hereditary as anti-hereditary or say quantum physics as a deeper conception of physics as anti-physics along the lines of equating/leveling-down everything across space and time as of naive absolutising conceptual-patterning and isms–conceptualisations because of institutional pre-eminence over relative-ontological-completeness conception as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation), thus speaking of the requisite underlying ontological-good-faith/authenticity and ontological-bad-faith/inauthenticity insight (manifested beyond-the-consciousness-awareness-teleology--<in-existential-extrication-as-of-existential-unthought>) when going about knowledge-reification in domains-of-study subject to blurriness, and critically human knowledge-reification as to organic-knowledge is inherently of existential implications (as to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human<amplituding/formative–epistemicity>totalising~purview-of-construal to which the sublimating

dominance/vested-interest actors as to a circular interest holding down the profound emancipative potential of the humanities and social sciences as of their inherent sublimating nature (and likewise it is critical to grasp that human sublimation as induced from nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving—equally requires corresponding institutional sublimation that doesn’t just assume a relative-ontological-incompleteness—presublimation-construct—of meaningfulness-and-teleology—value-construct and methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition—as we can appreciate for instance that such modern developments like nuclear science, general technical progress and even the Internet today require corresponding human referencing/registering/decisioning social and institutional sublimation that cannot simply be assumed by ‘default of institutional status/pre-eminence’ without profound questioning and reflection for corresponding prospective sublimation); and in this regards as to human limited-mentation-capacity-deepening as being ever always about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising—purview-of-construal (de-mentating/structuring/paradigmimg the veracity of knowledge necessarily as being in ontological-contiguity—), knowledge-reification construed as of interpretation of say a given historical figure’s

regards we can appreciate how the very implications of say universal
human rights supererogatorily becomes more and more profound as from
say the Socratic philosophers (even as slavery, class-seclusion and
female-seclusion was prevalent as to warped collateralisation), budding-
positivists (even as in many ways the practices of serfdom/slavery, social-class discrimination and female-discrimination were equally prevalent as to preclusive collateralisation) and today’s supposedly universal conception of human rights (even as it is marked by occlusive collateralisation of other peoples, cultures and nations as well as gender and age occlusive collateralising biases); actually the specific sense and general sense are thus linked on the basis that both imply totalising-entailing with the specific sense speaking of totalising-entailing as to the specific universalisation registry-worldview/dimension ‘when mankind initially consciously cognised that the profoundness of meaningfulness-and-teleology should be totalising-entailing but without necessarily differentiating such a conception of totalising-entailing between mythological and positivistic/rational-empirist totalising-entailing with both construed as universal meaningfulness-and-teleology, while the general sense of universal implicitly captures and exactifies/precises the conception of totalising-entailing in terms of ‘entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness’, as reflecting the implication of human limited-mentation-capacity-deepening as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process’ (along the same lines as notional–deprocrypticism) thus amplificatorily rendering the conception of totalising-entailing (as to notionally–universal) as more ‘profoundly construed as from perspective

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’-ly predisposed human mind’ as of prelogism—or prelogism-as-of-conviction—as-to-profound-supererogation—{(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at)} so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itsel that determines others behaviour’ in contrast to the normal—as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism—we abide by (and so, even in the case of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or bad prelogism—where the bad logic of the prelogism—as-of-conviction—as-to-profound-supererogation—mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism—or postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—{(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)} by its reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’,
i.e. meaning-as-form or pathologically/compulsively hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism-as-of-conviction,-as-to-profound-supererogation\textsuperscript{78}\textsuperscript{96} minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation\textsuperscript{96}, whether thereafter the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} is rightly or wrongly assumed). Hence prelogism\textsuperscript{78} or prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism\textsuperscript{77} or postlogism\textsuperscript{77}-as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} but rather an issue of perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} is on the basis of a sound reference-of-thought (non–perversion-of reference-of-thought) such that fundamentally ‘the notion of the dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-

The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge\textsuperscript{1} with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism/preconverging-or-dementing -integration (due to psychopathic/postlogism\textsuperscript{77} induced social loss-of-awareness of the social\textsuperscript{103}universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \rangle) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness\(^1\), and so-construed from the conflatedness\(^2\) of notional–deprocrypticism; thus \(^3\)neuterising is specifically ‘a contextually developed perversion-or-derived\(^7\)perversion-of\(^8\)reference-of-thought<&effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(>\), that is secondnatured as of its prior relative-ontological-incompleteness\(^1\)-of\(^3\)reference-of-thought with the consequent implications of relatively defective \(^5\)meaningfulness-and-teleology\(^9\)ontological-performance\(^7\)<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness \(-of-\) reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness \(-of-\) reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism \(^5\)meaningfulness-and-teleology\(^9\)relative to the ‘utter and brute’ animistic interpretation as \(^5\)meaningfulness-and-teleology\(^9\)neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

This is a most elaborate articulation of \(^5\)neuterising but it equally applies where \(^5\)meaningfulness-and-teleology\(^9\)is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of\(^7\)reference-of-thought of the former as it \(^5\)neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism\(^7\)as social psychopathy as in the various illustrations highlighted herein and particularly as more

effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation of meaningfulness-and-teleology’ neuterising’ to be able to then reveal, construe and uphold positivistic Being and ‘meaningfulness-and-teleology’, and this equally applies with regards to overcoming our ‘procrypticism–or–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology’ neuterising’ to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism Being and ‘meaningfulness-and-teleology’. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplitudining/formative–epistemicity>totalising–ratio-contiguity/ratioicination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-
abnormalcy/preconvergence of reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating, as of conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness of reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness of reference-of-thought, so construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as of their respective specific constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of the human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of ‘traditional classical mechanics axiomatic-construct’ given its epistemic-abnormalcy/preconvergence of relative-ontological-incompleteness of reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness of-
reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising~renewing-realisation/re-perception/re-thought as of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative—epistemicity>totalising~devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/ reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendent-enabled/sublimating/supererogatory—de-mentativity
mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the \( \text{warped-consciousness} \)\(-\text{neuterising-induced}\)- reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance \(<\text{including-virtue-as-ontology}>\) across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure-<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring underlying the

as of the same centered–epistemic-totalisation/ reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental <amplituding/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context— meaningfulness-and-teleology reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturering such a prospective institutionalisation ‘reference-of-thought—devolving-teleologicaledge-mentating/structuring/paradigming—of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supertegorical-de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempting—disjointedness-as-of—reference-of-thought—as-to—<amplituding/formative–epistemicity>growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of notional–firstnaturedness—temporal-to-

The implication here is that with say notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order to construe ontological-veridicality; as of conflatedness we can’t simply imply the presence universalisationnon–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as the basis of instigating logical-dueness for elucidation and thereof construing ontologically-veridical meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-representation of the presence as universalisationnon–non-positivism/medievalism uninstitutionalisation will overlook the presence uninstitutionalised-threshold and wrongly represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of elevation/institutionalisation in soundness-or-ontological-good-faith/authenticity–of-reference-of-thought projection’. It is rather the conflatedness projective/anticipative contrast between the said uninstitutionalised-threshold however the mental-reflex complex of presence and the prospective positivism institutionalisation however the mental-reflex complex of the latter’s abstractness as from the presence uninstitutionalised-threshold perspective that enables their respective reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness contrastive fundamental elucidations in grasping ontological-veridicality as of their respective prior relative-ontological-incompleteness-and-completeness-of-reference-of-thought perspective. Thus it is the ‘anticipation/projection/thrownness-disposition of overall fundamental elucidative contrast’ between prior degradation/uninstitutionalised-threshold and prospective elevation/institutionalisation respectively implied reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness so-construed on the basis of ‘conflatedness as of the most ‘sound/profound/complete anticipation/projection’ relative to existence’s imbricatedness/threadedness/recomposuring existential-instantiations,

Such an approach to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as being incremental to the prior registry-worldview's/dimension's \textsuperscript{reference-of-thought} doesn't undermine/unshackle that prior \textsuperscript{reference-of-thought} with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ by the prospective registry-worldview’s/dimension’s \textsuperscript{reference-of-thought} ontological-performance \textsuperscript{-<including-virtue-as-ontology>} given its prospective relative-ontological-completeness -of- reference-of-thought. Rather implying a grounded knowledge-construct commitment merely ‘circularly-complexifies’ the uninstitutionalised-threshold\textsuperscript{14} \textsuperscript{reference-of-thought} as it adopts by mental-

Such a transcendental engagement recurrently

For instance, the maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{\textdegree}—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence-\{implicated-epistemic-veracity-of-nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle\} analysis does apply with respect to superstitions, \textsuperscript{\textdegree} universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold\textsuperscript{\textdegree} and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{\textdegree}—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness-of-reference-of-thought of same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{\textdegree}—unenframed-conceptualisation at the uninstitutionalised-threshold\textsuperscript{\textdegree} but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of opened-construct-of-meaningfulness-and-teleology\textsuperscript{\textdegree} arise only by maximalising-recomposuring-for-relative-

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion\textsuperscript{—}as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human meaningfulness-and-teleology is ‘often actually imbued with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the ‘maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{—}unenframed-conceptualisation necessary for human development and progress. Being-development/ontological-framework-expansion\textsuperscript{—}as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and progress requires ontologically-veridical as intemporal/ontological/social/species/universal/transcendental maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{—}unenframed-conceptualisation de-
‘notional–conflatedness’/constitutedness construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primemovers-totalitative-framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces relatively poor ontological-performance.<refra心血管g>&</refra心血管g>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness—of—reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human—reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness—of—the—de-mentating/structuring/paradigming of human—reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness‘ but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising—devolved—purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,
eliciting-of-prospective-supererogation\textsuperscript{\textdegree}<-as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity\textsuperscript{\textdegree}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{\textdegree}-of-'reference-of-thought\textsuperscript{\textdegree}-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness\textsuperscript{\textdegree} defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness\textsuperscript{\textdegree} but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness\textsuperscript{\textdegree} as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity\textsuperscript{\textdegree}'s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought\textsuperscript{\textdegree}-devolving-as-of-instantiative-context is then the preceding and transformative element of ‘meaningfulness-and-teleology\textsuperscript{\textdegree} conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective
relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding-formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory-de-mentativity dynamism and implied organic-knowledge’ as of conflatedness\textsuperscript{12}. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness\textsuperscript{12} in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-\langle imbuend-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation\rangle) originary/event\textsuperscript{90} of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}-of-reference-of-thought-devolving-as-of-instantiative-context, it emphasises mere de-
mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness, rather than striving to expand the transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory–de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-
enabling/sublimating/supererogatory—de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework

implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the
idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in order to achieve ontological-veracity requires a rather counterintuitive mental-reflex of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional-deprocrypticism (protensive-consciousness deneuterising\)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness -of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercallevatory—de-mentativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; consciousness defined as of ‘notional <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\> human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—

This can be expanded upon as follows, the reason why relative-ontological-incompleteness–reference-of-thought/epistemic-abnormecy/preconvergence/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness–reference-of-thought/ontological-normalcy/conflatedness’ lies in the fact that the construal/conceptualisation of an epistemic-totalising/devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological
The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring with the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often
wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance as-of-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance as-of-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology as-of-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness and as relatively-perfect/near-perfect/perfect conflatedness, construed as notional~conflatedness as of constitutedness-to-conflatedness of human limited-mentation-capacity. Insightfully, it highlights that constitutedness arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory—human—subpotency>—effecting can
subsuming the reality of the perceived whole and parts within the incisive conflatedness
down to its extent in the sense that the fundamental issue is how human limited-mentation-capacity effectively
construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin
to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness
meaningfulness-and-teleology. That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness, with no intermediating construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness
meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its
notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology—and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of—reference-of-thought perspective of notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising.

historiality/ontological-eventfulness /ontological-aesthetic-tracing as of the notional—conflatedness of notional—deprocrypticism highlights that humankind in its projected-or-anticipated relationship with existence as-the-absolute-a-priori is rather in

This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness’. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Basically, existence
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; such that all that is left of permanence determination about existence is its transcendental construct as of human limited-mentation-capacity-deepening. Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness of reference-of-thought as of ontological-performance <including-virtue-as-ontology> arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence{(implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness }’ what is existence/existential-possibilities not factoring Being conflatedness <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in reflecting

Existence is rather a 'potency construct of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance—<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness—of—reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought—categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-
historiality/ontological-eventfulness/ontological-aesthetic-tracing’ fundamentally grasps that the Derridean critique of centered–epistemic-totalisation as impossible to achieve and postulation instead of decentered-infinite-freeplay is actually a critique arising on the implied assumption of finite human limited-mentation-capacity as of its impossibility as finitely limited to come into the full terms of grasping the full potency of existence/existential-possibilities; but then this author construes that human limited-mentation-capacity is not finite as it deepens as of the possibility of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity enabled as of de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ thus involving de-mentative/structural/paradigmatic transformations/shifts of human limited-mentation-capacity reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ to grasp existence/existential-possibilities, such that as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity of the-human-institutionalisation-process retrospectively to prospectively, centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology as of its attaining of ontological-completeness-of-reference-of-thought is/can-be achieved as ‘involving the superseding/transcending of successively defining human finitudes as the destructuring-threshold ⟨uninstitutionalised-threshold/presublimating–desublimating-decisionality⟩–of-ontological-performance–<including-virtue-as-ontology> towards attaining successive prospective relative-ontological-completeness–reference-of-thought as the institutionalisations’. This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance’-
prospectively the problem of human limited-mentation-capacity by its deepening thus inducing successive human transcendenence-and-sublimity/sublimation/supererogatory–de-mentativity of human finitudes as destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{102}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{77}-<including-virtue-as-ontology>.

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology\textsuperscript{99} of theoretically perfect/sound ontological-performance’ - <including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness\textsuperscript{13} as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness\textsuperscript{71} - of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness\textsuperscript{72} that prospectively ultimately grasps the centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{99} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67} or notional~deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness\textsuperscript{13}, it perfectly grasps the implications to meaningfulness-and-teleology\textsuperscript{99} ontological-performance -<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology\textsuperscript{99} in relative deficient/flawed ontological-performance’ -<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology\textsuperscript{99} ontological-performance’ -<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because of an axiomatic-construct is a circularity of meaningfulness-and-

‘human\( <\text{amplituding/}formative–\text{epistemicity}>\) totalising–purview-of-construal’, with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of \( <\text{meaningfulness-and-teleology}>\) of ‘the very same physics \( <\text{amplituding/}formative–\text{epistemicity}>\) totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness\( ^*\) of less ontological-performance \( <\text{including-virtue-as-ontology}>\) of ‘the very same physics \( <\text{amplituding/}formative–\text{epistemicity}>\) totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, while with human limited-mentation-capacity-deepening\( ^*\) the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs brings about a new ‘centered–epistemic-totalisation/circularity of \( <\text{meaningfulness-and-teleology}>\) of ‘the very same physics \( <\text{amplituding/}formative–\text{epistemicity}>\) totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander \( <\text{meaningfulness-and-teleology}>\) ontological-performance\( ^*\) -\( <\text{including-virtue-as-ontology}>\); and interestingly,
physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved–purview–as-domain–of–construal-as–intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance17-<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to– ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance17-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s ‘reference-of-thought-as-of-‘ reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical
breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency{(transparency-of-totalising-entailing, as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)} as of prospective relative-ontological-completeness reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to
of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of ‘meaningfulness-and-teleology’ of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation —<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance —<including—virtue—ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to—
postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism\textsuperscript{> as of \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{>—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity\textsuperscript{18} of other applied and transcendental-enabling/sublimating/supererogatory–de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and
more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other
hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest–subpotencies–<in-transitive-conflatedness–reflexivity,–in-the-full-potency-of-existence’s–sublimating–nascence> given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory–de-mentativity of the physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory–de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory–de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs,
quantum phenomena, black holes, etc. as to existence—as-sUBLIMATING-woRkdown,-ELICITING-OF-
proSPECTive-SUPEREROGATION. The naivety of logicism lies exactly in this respect of construing
formalisation as most of what is supposed to be achieved, and failing to grasp that when it
comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-
mamentativity has to be ‘creatively construed’, and this in many ways explains the frustrated
conclusion that will often then arise from such a naïve formalisation perspective that the
philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-
mamentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-
worldview/dimension reference-of-thought—as-of—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the
fact that the various registry-worldviews/dimensions operate their own conception of logic as of
their prospective relative-ontological-completeness of reference-of-thought; as we can
appreciate inherently as of metaphysics-of-absence-{implicitepistemic-veracity-of-

that each registry-worldview/dimension does have its own sense of logic as of its self-conscious

coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocripticism psychoanalytic-unshackling metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>) and conflatedness1, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness1 construal of meaningfulness-and-teleology9 that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmning–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procripticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology9, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures meaningfulness-and-teleology9 as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process9 as of difference-
conflectedness as to totalitative-reification in singularisation as veridical-epistemic determinism. Being as of its implied notional deprocrypticism’s conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague totalising self-referencing syncretising circularity interiorising akrasiatic drag as of each registry-worldview/dimension, and it is rather the emanant insight of the Good/understanding/knowledge-reification ontological-prime movers totalitative framework conceptualisation as of Being-development/ontological-framework-expansion as to depth of ontologising-development-as-infrastructure-of meaningfulness-and-teleology that carries the prospective transcendence and sublimity sublimation supererogatory de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised threshold vices and impediments, and so by successive Being-development/ontological-framework-expansion as to depth of ontologising-development-as-infrastructure-of meaningfulness-and-teleology in reflecting holographically conjugatively and transfusively the ontological-contiguity of the human institutionalisation process as base institutionalisation universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s directedness as Being thus enables the superseding of totalising self-referencing syncretising illusion of the present present consciousness mirage as metaphysics of presence implicated nondescript ignorable void as to as to presencing absolutising identitive constitutedness. Further, the fact is that it is rather axiomatic constructs whether explicit or implicit that are supposedly in a correspondence relation with an epistemic-totalising devolved purview domain of construal as intrinsic-
reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology\(^9\) ontological-performance\(^{-}\langle\text{including-virtue-as-ontology}\rangle\) as validated by ontological-prime movers-totalitative-framework\(^7\); so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/supererogatory-de-mentativity when prospective relative-ontological-completeness\(^7\)-of-axiomatic-construct-or\(-\langle\text{reference-of-thought}\rangle\) avails prospectively with regards to their meaningfulness-and-teleology\(^9\) ontological-performance\(^7\)-\langle\text{including-virtue-as-ontology}\rangle. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity\(^7\); as axiomatic-construct\(/\langle\text{reference-of-thought}\rangle\) in relative ontological-contiguity\(^7\) of \langle\text{amplituding/formative–epistemicity}\rangle totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality. An axiomatic-construct is in such relative ontological-contiguity\(^7\) by its conflatedness\(^7\) as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity. An ‘axiomatic-construct/ reference-of-thought of notional-discontiguity/epistemic-discontiguity\(^7\)–\langle\text{shallow-supererogation}\rangle of mentally-aestheticised–preconverging/dementing–qualia-schema> as of an epistemic-totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ highlights two points of failure/as-discontinuity of “meaningfulness-and-teleology\(^9\) ontological-performance\(^{-}\langle\text{including-virtue-as-ontology}\rangle, having to do with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument unsoundness-or-ontological-bad-faith/inauthenticity\(^3\) and by derivation the
like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing—qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening , whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the ‘maximalising—recomposing—evolving—ontological-completeness—unenframed—conceptualisation affirmation/projection/assertion/dueness-validating—logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or—dialectical-thinking—apriorising-psychologism> of
operant implications construing/conceptualising in reflecting holographically-<conjugatively- and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness as of human limited-mentation-capacity-deepening. Such that human phenomenological ≤amplituding/formative–epistemicity≥totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity implications construed from notional-deprocrypticism perspective as ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-≤amplituding/formative–epistemicity≥totalising–renewing-realisation/re-perception/re-thought,–supererogatory–epistemic-conflatedness, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of
intemporality /longness over temporality /shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality\textsuperscript{1}\-to-intemporality\textsuperscript{1} were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness\textsuperscript{12} \textsuperscript{<amplituding/formative–epistemicity>} causality\-as-to-projective-totalitative–implications,\-for-explicating-ontological-contiguity\textsuperscript{6} as of maximalising-recomposing-for-relative-ontological-completeness —unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual constitutedness\textsuperscript{2} possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{10} implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness’ as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness\textsuperscript{12} upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically\textsuperscript{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{5}—of-the-human-institutionalisation-process\textsuperscript{11} as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness\textsuperscript{1} as of successive opened-constructs-of—meaningfulness-and-teleology\textsuperscript{9} superseding \textsuperscript{<amplituding/formative>} wooden-language\textsuperscript{<imbued—averaging-of-thought<} as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{2}—as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>} and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{8} exercise we can’t as of soundness-or-ontological-good-faith/authenticity\textsuperscript{5} exculpate ourselves to then pretend ours is the registry-worldview/dimension reference-of-thought that is non-transcendable as of our

ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of—meaningfulness-and-teleology on <amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing)—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology as of uninstitutionalised-threshold failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory—de-mentativity implications, and failing to
fathom that conceptual patterning is no substitute for transcendent-
enabling/sublimating/supererogatory~de-mentativity work required for all knowledge
notwithstanding setbacks and failures that may be involved, given the reality that human
meaningfulness-and-teleology ontological-performance-including-virtue-as-ontology
arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound
and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-
very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human-amplituding/formative–epistemicity’-totalising-purview-of-construal’ or
<amplituding/formative–epistemicity>totalising-devolved-purview-as-domain-of-construal-as-
intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against
post-structuralism and specifically Derridean deconstruction as simply convoluted expressions
of familiar and trite ideas. But then the effective transcendent-
enabling/sublimating/supererogatory~de-mentativity insight as of their applications arising in
the social sciences and literal studies clearly demonstrate otherwise. Further many such
critiques have tended to be naïve about what passes for theory whereby naïve conceptual
patterning of general knowledge are articulated devoid of ‘new theory’, with little or no
transcendent-enabling/sublimating/supererogatory~de-mentativity implications, which in
reality is nothing more than a sophistry of argument from authority. This conception of
relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-
contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve
created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-
discontiguity-shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of axiomatic-construct but rather a
problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-
limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for

equation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein

say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/ reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity →<shallow-supererogation of-mentally-aestheticised–preconverging/dementing –qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity→<shallow-supererogation of-mentally-aestheticised–preconverging/dementing –qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity.
Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s-sublimating-nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation-\{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics\} with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/supererogatory-de-mentativity brings about prospective relative-ontological-completeness-of-reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking—apriorising-psychologism the prospective institutionalisation’s reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of its prospective relative-ontological-completeness-of-reference-of-thought to override the circularity as notional-discontiguity/epistemic-discontiguity—<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing—qualia-schema> of meaningfulness-and-teleology implications of the uninstitutionalised-threshold reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of its prior relative-ontological-incompleteness-of-reference-of-thought with respect to the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’, and thus broadening human-subpotency in the full-potency of existence/existential-possibilities as implied retrospectively to prospectively with the ontological-contiguity—of-the-human-institutionalisation-process as of notional—deprocrypticism. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness—reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness—reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness—reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions.
as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect
to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of "meaningfulness-and-teleology" within their social-setup and are predisposed on critical occasions as of syncretising-effecting to 'reinvent', circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal 'self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of "meaningfulness-and-teleology” with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups
whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity occurs notwithstanding a seemingly self-referencing centered—epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness—of—reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal—as-ontological nature as of longness-of-register-of—meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-primemovers-totalitative-framework validation as to existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression—as-of—amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-confusedness, as re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—‘projective-insights’/‘epistemic-projection-in-confusedness’—of—notional—deprocrypticism-prospective-sublimation), that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological—
commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>- with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness} about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived
existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency~sublimating~nascence~-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness validating ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in order to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework.<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity’–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably
and objectively uphold and function going by its specific registry-worldview/dimension as of superstition or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphority to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness epistemic/notional–projective-perspective of relative-ontological-completeness–of-reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphority undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphority and by that token elicit sophistic/pedantic inclinations to such prospective metaphority meaningfulness-and-teleology. Further any such prospective metaphority ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphority which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its amplituding/formative wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—}

Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition.

More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrysticism metaphoricity implications are necessarily spurious and associated with our positivism–procrysticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for
the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism in meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity—shallow-supererogation—mentally-aestheticised—preconverging/dementing—qualia-schema> with their prospectively implied metaphoricity; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation.

In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or-disjointedness-as-of reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/suprerogatory—de-mentativity as of conflatedness actually construes of more profound reference-of-thought—categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, and so as of differing references-of-thought in transversality—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing ontological unintelligibility. This operantly defines procrypticism—or–disjointedness-as-of- reference-of-thought as beyond just the construal of new supposedly intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^9\) of the prospective institutionalisation to preempt the temporally denaturing\(^1\) reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^9\) of the prior institutionalisation, but rather the deneuterising\(^1\) construal of the very ‘limited-mentation-capacity as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-

Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation’–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human

neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-

Being as implied as of \(^7\)deprocrypticism–or–preempting—disjointedness-as-of-\(^7\) reference-of-

onologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^9\) or Being
underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existent-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of– meaningfulness-and-teleology’ mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existent-reality upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that is behind organic-knowledge. Human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of– meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity —of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturiing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness– induced,–threshold-of–nonconviction/madeupness/bottomlining-as-to-
knowledge agents’. For instance as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporal/longness-of-register-of—meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-
enabling/sublimating/supererogatory de-mentativity not only to science but transcendent-
enabling/sublimating/supererogatory de-mentativity as well to the open society equally
required for the sound functioning of science. It is this dynamic relationship as of ‘immediate,
cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached,
contemplative and blurry human social-construct of knowledge’ that is behind Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology with respect to the prospective registry-
worldview/dimension as resolving the vices-and-impediments of the prior registry-

ontologising-development-as-infrastructure-of—meaningfulness-and-teleology given human
limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-

We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of <amplituding/formative> wooden-language-{imbued—averaging-of-thought=<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications>’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social <amplituding/formative> wooden-language-{imbued—averaging-of-thought=<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications> as improper and unqualified. This was to avoid a circularity of <amplituding/formative> wooden-language-{imbued—averaging-of-thought=<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications> undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion—as-to-depth-of—
ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^9\). The point here is that at uninstitutionalised-threshold\(^0\) the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by wooden-language-\{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-\^\(0\)-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>\} but rather ontological-pertinence, and the point in reflecting holographically-\langle conjugatively-and-transfusively> the ontological-contiguity\(^0\)—of-the-human-institutionalisation-process\(^6\) as knowledge-led is to harness ontological-pertinence and not wooden-language-\{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-\^\(0\)-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>\}, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalitative-framework\(^7\)-overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance\(^7\)-<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-
teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—totalising—totalising—in-relative-ontological-completeness).’ This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of—totalising—self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness—reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—totalising—in-relative-ontological-completeness )’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism—causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity’ associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. However, all along this
ontological-contiguity—and-of-the-human-institutionalisation-process—a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—as of various pertinent social manifestations: —wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory—de-mentativity in formal institutional deferential-formalisation-transference and percolation-channelling—<in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; —wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory—de-mentativity as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness ; —the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative> wooden-language—{imbued—

However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrasturcture-of—meaningfulness-and-teleology\textsuperscript{3}, the insight about human <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{10} psychoanalytic-unshackling positive-opportunism can
crossgenerationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} despite the inherent circular distractiveness of temporality\textsuperscript{98}, and ultimately so as enabled by ‘social universal-transparency\textsuperscript{102}-(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness’)’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory–dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism\textsuperscript{55} meaningfulness-and-teleology\textsuperscript{99} constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity<of-the-human-institutionalisation-process\textsuperscript{67}, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency\textsuperscript{102}-(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness’)’. As it
is the latter that induces that social positive-opportunism\(^5\) for deferential-formalisation-transference and institutional percolation-channelling\(<\text{in-deferential-formalisation-transference}\)>., as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential \(^3\) reference-of-thought, transcendental knowledge is of a circular but consistent exercise of \(<\text{amplituding/formative–epistemicity}\>\text{totalising–renewing–realisation/re-perception/re-thought}, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistem-discontiguity\(^3\)-\(<\text{shallow-supererogation}\>\text{–of-mentally-aestheticised–preconverging/dementing}–\text{qualia-schema}\>\text{reference-of-thought} \quad \text{and introducing the prospective ontological-contiguity}\(^6\) reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to- ‘human\(<\text{amplituding/formative–epistemicity}\>\text{totalising–purview-of-construal}’. reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity of reference-of-thought as deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought implies a transcending reification gesturing that not only affirms notional—deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of its ontological-completeness-of—reference-of-thought de-asserts/dements our positivism—procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional—deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating—decisionality)—of-ontological-performance—<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal—to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness—of—reference-of-thought is veridically in an
implied as of prospective institutionalisation’s deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which is ‘ontologically flawed and wanting’ but rather is as of a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporal-projection transcendental-enabling/sublimating/supererogatory–de-mentativity for prospective institutionalisation relative to such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised–preconverging/dementing–qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism—or–disjointedness-as-of-reference-of-thought reasoning’ is not admissible to prospective ‘deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought reasoning’ and so from the moment of the event–construed-as-the-prospective-ontology-origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event–construed-as-the-
prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity<shallow-supererogation> of mentally-aesthetised—preconverging/dementing —qualia-schema> of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event’—as-prospective-ontology-origination is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory~de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event’—as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of—meaningfulness-and-teleology rather in
appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold\textsuperscript{12} as nondescript/ignorable–void\textsuperscript{13} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives) as of our \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}. The point here is that the \textit{meaningfulness-and-teleology}\textsuperscript{13} so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{12} perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising–recomposuring-for-relative-ontological-completeness\textsuperscript{13}—unenframed-conceptualisation de-mentating/structuring/paradigming and not temporal extricatory de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent \textit{meaningfulness-and-teleology}\textsuperscript{13} as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme\textsuperscript{5} underlying its \textit{meaningfulness-and-teleology}\textsuperscript{13} thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{6} to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human \textit{meaningfulness-and-teleology}, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation \textit{reference-of-thought. attitude/mental-disposition/care–and–episteme} as such carries a registry-worldview’s/dimension’s ‘underlying

For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-
development—as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension is construed as the more profound attitude/mental-disposition/care—and—episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care—and—episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care—and—episteme’ dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension’, for achieving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension so- implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care—and—episteme dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism—<amplituding/formative—epistemicity> causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity’ with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-

Such an ‘assumed-and-unflinching transversality of affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care–and–episteme in detachment from <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications> as we know that, everything being equal legitimately, it is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-as-dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension attitude/mental-disposition/care–and–episteme whose workmanship is guaranteed to produce the best and safe outcome for electrical installations; and so dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) dispositions thus expanding human needs and desires possibilities. arise with the successive prospective institutionalisations in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care—and–episteme of say a Galileo or Descartes is circularly beyond the
contention framework of scholasticism "meaningfulness-and-teleology", speaking of the
impossibility of logical-congruence between the positivists and scholastics with only the utter
dominance of positivism arising as of its ontological-primemovers-totalitative-framework
induced positive-opportunism as of scientific, medical, technical advancements, free society,
etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here
that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism
but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to
create internally-coherent positivist networks and societies for the perpetuation of positivistic
meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-
contiguity/epistemic-contiguity —<profound-supererogation—of-mentally-
aestheticised—postconverging/dialectical-thinking —qualia-schema> with scholasticism. But
rather implying notional-discontiguity/epistemic-discontiguity —<shallow-supererogation—of-
mentally-aestheticised—preconverging/dementing —qualia-schema> given the latter’s flawed
de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness —of-
reference-of-thought. The insight here is that more fundamentally knowledge is not about
‘interhuman negotiating or agreeableness’ but more critically about a third party validator
known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory—de-mentativity above the mortals that are humans, and
that the exercise of knowledge construction is rather an interhuman transversality—of-
affirmative-and-unaffirmative—disambiguated—motif—of—
apriorising/axiomatising/referencing’ exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-prime movers-totalitatively-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling <amplitudizing/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology’-as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>}. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought> denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion—<as-to—depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’>, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising—recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness’-of-
reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective superseding as of its prospective relative-ontological-completeness of reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing-perspective–ontological-normalcy/postconvergence. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold reference-of-thought
scholasticism and positivism are rather in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the ‘presencing—absolutising-identitive-constitutedness’ attitude/mental-disposition/care—and—episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the ‘meaningfulness-and-teleology’ within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective ‘nonpresencing—perspective—ontological-normalcy/postconvergence’ sublimity/sublimation/supererogatory—de-mentativity episteme transcendence-and-attitude/mental-disposition/care—and—reference-of-thought

In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology—attitude/mental-disposition/care—and—episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge—
as of prospective maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the nonpresencing‹perspective–ontological-normalcy/postconvergence› of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation that in many ways could just as well validate wounds-language⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications⟩ and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that
usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness—<as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care—and—episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological—bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a
predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ <amplituding/formative–epistemicity> causality as to projective-totalitative–implications, for explicating-ontological-contiguity’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness by reification / contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality / shortness as of <amplituding/formative> wooden-language- (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as of ‘nondescript/ignorable—void ’with-regards-to-prospective-apriorising-implications>) and untransvaluated—temporal-intemporality social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness by reification / contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory/–de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory/–de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness by reification / contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-

In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-‘epistemic-totality’ with recurrent-utter-uninstitutionalisation) circumscribing-as-‘epistemic-totality’-or-delineating-as-‘epistemic-totality’ existential–epistemic-totalisation-scheme-of–‘meaningfulness-and-teleology’ speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional~deprocrypticism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism> stranding dialectics. Insightfully, the foregoing points out that human meaningfulness-and-teleology\(^9\) is ‘a metaphoricity\(^3\) of social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective that is fundamentally already an epistemic-totalising\(^2\)/circumscribing/delineating \(\langle\text{reference-of-thought}\rangle\) devolving—différance/internal-dialectics/difference-deferral as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human\(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising~purview-of-construal’ with the shifts in human meaningfulness-and-teleology\(^9\) induced by human limited-mentation-capacity-deepening\(^2\) as of prospective relative-ontological-completeness\(^7\)—of—reference-of-thought’, such that human meaningfulness-and-teleology\(^9\) is not absolutely identitive but shifting as of \(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising/circumscribing/delineating \(\langle\text{reference-of-thought}\rangle\) devolving—différance/internal-dialectics/difference-deferral, given that human limited-mentation-capacity-deepening\(^2\) is in a constant \(\langle\text{amplituding/formative–epistemicity}\rangle\) totalising—renewing-realisation/re-perception/re-thought of meaningfulness-and-teleology\(^9\); with the implication that the ontological-performance\(^7\)\(\langle\text{including-virtue-as-ontology}\rangle\) of human meaningfulness-and-teleology\(^9\) as to sublimation-inducing—

Such that in the final analysis, there is an underlying tendency of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology that decomposes-as-of-conflatedness ‘human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology’ induced neuterising into the underlying limited-mentation-capacity manifestation disambiguation basis for their ontologically-veridical construal’, and so-construed from a notional–deprocrypticism ontological-normalcy/postconvergence epistemic/notional–projective-perspective. This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing> due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial

Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposure<as-to-historiality/ontological-eventfulness>/ontological-aesthetic-tracing> as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional~deprocrypticism/<amplituding/formative>notional~preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising —referentialism enabling the full transparent ontologically-veridical elucidation of human ‘meaningfulness-and-teleology’ construed as of ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing; as of the possibility of deneuterising’. In the bigger scheme of things, as of the notional~conflatedness of notional~deprocrypticism as deneuterising —referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—as-to-conflatedness’—différance/internal-dialectics/difference-deferral’ and as implied as-of-the-construal-of-différance/internal-dialectics/difference-deferral-of—meaningfulness-and-teleology’; and so with respect to the more ontologically-veridical reality of human conceptualisation of ‘meaningfulness-and-teleology’ always from a position of limited-mentation-capacity as of prior relative-ontological-incompleteness—of—reference-of-thought, thus in need for its prior deepening so-captured in the ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as of the notional~conflatedness of notional~deprocrypticism différance/internal-

Such a ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as of the notional~conflatedness of notional~deprocrypticism différance/internal-dialectics/difference-deferral’, by its insight with respect to the implications of human limited-mentation-capacity for ontologically-veridical meaningfulness-and-teleology construal, is best predisposed to grasp the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of nonpresencing-reference-of-thought as this enables transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, thus fulfilling the full implications of knowledge as of its ontologically-veridical knowledge-notionalisation and organic-knowledge nature. Fundamentally this all has to do with human limited-mentation-capacity, as if at a given (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -’projective-insights’/’epistemic-projection-in- conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) ) originary/event-of-prospective-ontology-origination moment humankind-as-of-its-integrant-individuals had a profound-and-complete mentation-capacity, then human meaningfulness-and-teleology will be absolutely identitive with no implied-différance/internal-dialectics/difference-deferral-of- meaningfulness-and-teleology requiring as of existential-constraint human limited-mentation-capacity-deepening as the circular driving notion of différance/internal-dialectics/difference-deferral. Différance as internal-dialectics/difference-deferral, beyond just an ontological conception as expressed herein, had already always been existent notionally as a
notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\(^{103}\)-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness ), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^9\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising-purview-of-construal’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness\(^8\)-of-reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\(^6\) between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\(^9\) with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising-purview-of-construal’ with respect to social universal-transparency\(^{103}\)-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness ); and so more than just as of beyond-the-consciousness-awareness-teleology\(^9\)-<in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency–

being contested by a new shaman in a hunter-gatherer society’ with possible accusations of
witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods
of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for
what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic
knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human

traditions are put into question as of Being-development/ontological-framework-expansion–as-
antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity
knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting
become inevitable wherein the prior knowledge episteme de-
mentatively/structurally/paradigmatically loses its way as of its initial justification as
safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-
directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-
threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-
awareness-teleology underlines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly
the prior epistemic disposition is one that overlooks prospective inherent transcendental-
enabling/sublimating/supererogatory de-mentativity of meaningfulness-and-teleology ontological-performance turning rather towards social-
aggregation-enabling implications as meaningfulness-and-teleology ontological-
performance, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-
resetting is justified in that even the-old is predicated on upholding Being-
intemporal/ontological/social/species/universal/transcendental/maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-
mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of
temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-
to-intemporal individuations with variance of mental-dispositions among individuals an issue of
variance as of skewness towards temporality⁄shortness or intemporality⁄; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. Thus aetiologisation/ontological-escalation is not about transforming the reality of human-subpotency−aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional−firstnatures—temporal-to-intemporal-dispositions−<so-construed-as-from-perspective−ontological-normalcy/postconvergence>′−existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness−of-reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory−de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating−<amplituding/formative>supererogatory−de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness−equality exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of meaninglessness-and-teleology are as of a projected-or-anticipated conflatedness of social universal-transparency ⟨transparency-of-totalising-entailing,-as-
to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness⟩ for institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation. It is such a ‘conflatedness’ structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation’ that holds together in social universal-transparency—⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness⟩ temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured

‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most
profound reflection of social ontological-veridicality. Consider with respect to a most profound
emotional-involvement the issue of human imperilment as a test for the capacity for such
requisite depth of transcendental contemplation. Consider for instance that tens of millions
including soldiers killed in both the first and second world wars pass for mere victims of the
wars in a bizarre twist of mutual <amplituding/formative–epistemicity>totalising–self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the
odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible
for killing about 25 millions of his own citizens is still considered a national hero by the
majority. Consider that the first president of the United States in position of power was a slave-
owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but
he is venerated by a majority as the greatest U.S. President. Consider in a different sense though
non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later
with hardly any critical influence on the party and is universally condemned today. Consider
as well that many an intellectual or public figure today actively or passively voiced for the
recent wars killing millions whether in the Middle-East or elsewhere with a corresponding
social indifference and mental shut-off. These profound considerations highlight the
contemplative depth to which the social thinker needs to get to in order to truly be engaged in a
transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-

disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{73} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{74}-<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{75} in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{76} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{77}-<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of\textsuperscript{78} universal projection as intemporality\textsuperscript{79}-or-longness-of-register-of–meaningfulness-and-teleology\textsuperscript{80} as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative\textsuperscript{81} universal implications as beyond presence issues and complexes as it sublimes presence out of its
failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–dementativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaninglessness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’.

This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-{perspective–ontological-normalcy/postconvergence}> as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-{implicated-’nondescript/ignorable–void ’-as-to- presencing—

Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology reference-of-carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in constitutedness as of any of the
taking its cue from the conflatedness\textsuperscript{12} of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of \textsuperscript{12}reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness\textsuperscript{12} of existence as of prospective relative-ontological-completeness\textsuperscript{3} of reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity\textsuperscript{6} and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness\textsuperscript{1}, and this issue is recurrent-beyond- historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing-with-the-latter-only-a-bi-manifestation-of-the-reccurence,-as-psychically-recurrent as of human shallow-to-deepening–limited-mentation-capacity,-as-as-limited-mentation-capacity-deepening\textsuperscript{5} due to inherent human temporality\textsuperscript{4}/shortness and intemporality\textsuperscript{5}/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as \textsuperscript{8}historiality/ontological-eventfulness\textsuperscript{4}/ontological-aesthetic-tracing as of the notional~conflatedness\textsuperscript{12} of notional~deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold\textsuperscript{3} mental-dispositions. &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity/-significations of the prior ‘underlying &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity -significations of the prior ‘underlying &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity -significations to which other adjunctive-metaphoricity/-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity/-signification can be construed as of the historicality/ontological-eventfulness/ontological-aesthetic-tracing of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis metaphoricity as its very own ‘underlying &lt;amplituding/formative–epistemicity&gt;totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant &lt;amplituding/formative–
precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening. Such adjunctive-metaphoricity-significations conflatedness causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity-significations conflatedness induced ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential
situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment’ for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of
human personality development all along the various existential stages as of a notion of the
dynamics of social-construct existential situations/instances, stakes, institutions and processes
from childhood to adulthood’, notwithstanding the fact that the privileged social
conceptualisation of language is as of ‘language as the complete possibilities of language as of
an absolute present conception usually of a privileged end-institution purpose’. metaphoricity
is thus rather construed as of its overall conflatedness

conflatedness as of syncretising-effecting as ultimately converging towards a deprocripticism–or–preempting—disjointedness-as-ofreference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive
is not only about the successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional–knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality , and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically
uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness\textsuperscript{13}. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} is the existentially veridical and effective basis for reflecting \textsuperscript{4}historiality/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful \textsuperscript{6}meaningfulness-and-teleology\textsuperscript{99}. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity\textsuperscript{63} ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology\textsuperscript{99}\textsuperscript{<in-existential-extrication-as-of-existential-unthought>}; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality\textsuperscript{17}/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99}. Basically, just as the adjunctive-metaphoricity\textsuperscript{17}-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99}, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-
metaphoricity -signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness of notional–deprocrypticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the privileging of <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness /ontological-aesthetic-tracing. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that
meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding-formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différence-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing-<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so contradictorily as if both are of the presencing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. With the reality
explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective nonpresencing-perspective-ontological-normalcy/postconvergence in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-mentation-capacity-deepening as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument about coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework); as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’. It is interesting again to note that the so-renewed ‘underlying <amplituding/formative—epistemicity>totalising/circumscribing/delineating of physics’ as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as
of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, is not arbitrarily arising from any human-subpotency-presencing—absolutising-identitive-constitutedness but is rather divulged-as-of-relative-ontological-contiguity from existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in—

perfectly satisfies the ‘foreboding concern for ontological-veracity’ critically pursued by the

sublimity/sublimation/supererogatory—de—mentativity is the full conflatedness reflecting
existence—as—the—absolute—a—priori—of—conceptualisation—and—existence—as—sublimating—

in its nonpresencing—<perspective—ontological—normalcy/postconvergence>, and so beyond just a
Derridean freeplay difféance which is then in constitutedness as not factoring in the process
of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—implied–‘prospective-aporeticism-overcoming/unovercoming’. So because at the point of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—implied–‘prospective-aporeticism-overcoming/unovercoming’ and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—implied–‘prospective-aporeticism-overcoming/unovercoming’, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-
basis for understanding the new physics as of its prospective relative-ontological- completeness—reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather cross-generationally as of human beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance—including-virtue-as-ontology; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–
and–episteme of dual-language/split-mentality as of \( <\text{amplituding}/\text{formative–}\text{epistemicity}>\text{totalising–thrownness-in-existence} > \) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance \( ^{\sim} _{\sim} <\text{including–virtue-as-ontology}> \)). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\(^{\text{th}}\) century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\(^{\text{th}}\) and 19\(^{\text{th}}\) centuries the dual-language/split-mentality of \( ^{\sim} \text{universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern \( ^{\sim} \text{deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought} \) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as
of underlying human beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology^9 is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology^9. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology^9 as grounded on a given registry-worldview’s/dimension’s reference-of-thought amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<established existential–epistemic-totalisation-of—meaningfulness-and-teleology>^9’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology^9 as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology^9 as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology^9 beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>-arising as of human prior relative-ontological-incompleteness–of—reference-of-thought. The fact is the ontological-faith-notion-

that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness-reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-prime-movers-totalitative-framework by existence-potency~sublimating-nascence,disclosed-from-prospective-epistemic-digression-as-of-amplituding/epistemicity>totalising~renewing-realisation/re-perception/re-thought,in-superrerogatory~epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation' as of human limited-mentation-
capacity-deepening' bringing about a more profound and complete grounding for human
construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The
postmodern insight here is rather that what is relevant to humankind is human-subpotency
development towards the abstract full-potency of existence-otherwise-it-is-ultimately. So the
notion of 'human-subject-emancipatory-relativism-driven-recomposuring-constructivism-
towards-singularisation' has nothing to do with the inherent nature of existence/intrinsic-
reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-
emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of
human limited-mentation-capacity which needs to be deepened before humankind embarks on
the task of ‘conceptualising meaningfulness-and-teleology’ that increasingly reflects
existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more
objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-
together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-
mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-
relativism-driven-recomposuring-constructivism-towards-singularisation' that led to human
limited-mentation-capacity-deepening'. Quite the contrary, it is that exercise in inducing
prospective relative-ontological-completeness\textsuperscript{67} of axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity\textsuperscript{67} of the human-institutionalisation-process\textsuperscript{67} behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{67}. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology\textsuperscript{99}; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence-{implicit—nondescript/ignorable—void—as-to—presencing—absolutising-identitive-constitutedness}/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology\textsuperscript{99}. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{92} limited-mentation-capacity-deepening\textsuperscript{92} to see it. This fundamentally underlies the idea of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/'reference-of-

thought—devolving-teleological-de-mentating/structuring/paradigmimg-of-meaningfulness’ as

underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance—including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness’ reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness’ reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness’ reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’ including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing’—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness’ reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism
over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness—of reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity—conflatedness, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness’ re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking—‘projective-insights’/‘epistemic-projection-in-conflatedness—‘of-notional-deprocrypticism-prospective-sublimation’ appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepiestemic/anamnestic-residuality/spirit-drivenness–equalisation’ thus implying rather a notional-deprocrypticism institutionalisation
‘unenframed/unbeholdening/bechancing–supererogation’ parameterisation/reparameterisation-(reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to-‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)–as-so-operationalising-‘scalarisation-as-to-rescalarisation-as–re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of- reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging-or-dementing –apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought is actually a point of prospective de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency – ⟨transparency-of-totalising-entailing,-as-to-entailing –<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as of relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of universal-transparency – ⟨transparency-of-totalising-entailing,-as-to-entailing –<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven pervers
representation of postmodern-thought. The reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions-&lt;so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency—{(transparency-of-totalising-entailing,—as-to-entailing—&lt;amplituding—formative—epistemicity&gt;—totalising—&lt;in-relative-ontological-completeness&gt;) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as ‘meaningfulness-and-teleology’ of prospective relative-ontological-completeness —of— reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-
worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-
primemovers-totalitative-framework’ is only more or less determinant as of the
institutionalisation’s internal basis of validation of knowledge grounded on its ‘reference-of-
‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective
institutionalisation’s basis of validation of knowledge grounded on the ‘reference-of-thought–
categorical-imperatives/axioms/registry-teleology’, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating ‘reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-
primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal ‘reference-of-thought–
categorical-imperatives/axioms/registry-teleology’, for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving', however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology—, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–imbued-postconverging/dialectical-thinking—‹‘projective-insights’/‘epistemic-projection-in-conflatedness’—of-notional–deprocrypticism-prospective-sublimation) originary/event—of-
prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental ‘meaningfulness-and-teleology’ superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-
totalitative-framework” de-mentating/structuring/paradigming of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology”, as of successive prospective relative-ontological-completeness–of-‘reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness–of–reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness–of–reference-of-thought supersedes the prior relative-ontological-incompleteness–of–reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-
transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance.’-<including-virtue-as-ontology> of any ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought> in terms—as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care—episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care—episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care—episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care—episteme. In this regard, attitude/mental-disposition/care—episteme is fundamentally the

consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness'–of–reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own 'postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness<as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of- reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity
disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness -and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed ‘meaningfulness-and-teleology’ between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed ‘meaningfulness-and-teleology’ as of their given ‘neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising ‘as-of-prospective-relative-ontological-completeness’–of–reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or
neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care—and—episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care—and—episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care—and—episteme’. ‘Postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought

‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibility/setting/measuring-instrument attitude/mental-disposition/care—and—episteme’ implied notional—deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of—meaningfulness-and-teleology and intemporal/longness-of-register-of—meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation prospective relative-ontological-completeness—of—reference-of-thought and uninstitutionalised-threshold prior relative-ontological-incompleteness—of—reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care—and—institutionalisation’,
which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity’ of the human institutionalisation-process as of difference-conflatedness as-to-totalitative-reification in-singularisation as-veridical-epistemic-determinism causality as-to-projective-totalitative-implications, for explicating ontological-contiguity as of Being-development/ontological-framework-expansion as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and is rather caught up, beyond the consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to
recognise any such uninstitutionalised-threshold\textsuperscript{12} pointing to its prior relative-ontological-incompleteness \textasciitilde of reference-of-thought. Thus, the manifestations of temporality\textsuperscript{9}/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold\textsuperscript{10} are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{9} posture in \texttt{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, rather than a recognition of it prior relative-ontological-incompleteness \textasciitilde of reference-of-thought, implying recognising its uninstitutionalised-threshold\textsuperscript{12} with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supercratory–de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew \texttt{meaningfulness-and-teleology} towards intemporality\textsuperscript{5}/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,\textasciitilde of to–human\texttt{amplituding/formative–epistemicity} totalising–purview-of-construal’, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold\textsuperscript{12} is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality\textsuperscript{9}/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness \textasciitilde of reference-of-thought; and so beyond just \texttt{amplituding/formative–}
and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploys an altogether empowering perspective of prospective relative-ontological-completeness–of-reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation–(supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme which from our modern take attitude/mental-disposition/care–and–episteme we rather construe as vague scholastic pedantic dogmatism with regards to budding-positivism/rational-empiricism, but then such a conclusion as of their non-

This underscores Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology¹⁹ implied notion of responsibility as reflected by the Nietzschean metaphor ‘God is dead’, castigatory of ‘beyond-the-consciousness-awareness-teleology’—<in-existential-extrication-as-of-existential-unthought>³ attitude/mental-disposition/care—and—episteme’ which is inclined to pass on to ‘a certain Messiah’ the possibility of our Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology¹⁹ with the paradox of assuming the pretence of understanding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology¹⁹ on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated—temporal-intemporality¹¹ notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of ‘notional—deprocrypticism attitude/mental-disposition/care—and—episteme as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought’; as much more than just with regards to a resolutory conception of acts and miscuings in temporality¹¹/shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated
<amplituding/formative—epistemicity>causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity’. It is this naivety that underlines the Heideggerian techne concern as we fail to appreciate that the technical and organisational possibilities preceding and associated with a registry-worldview/dimension prospective institutionalisation transitioning of meaningfulness-and-teleology need to be rethought as of the prospective institutionalisation attitude/mental-disposition/care—and—episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so superseding that of the uninstitutionalised-threshold. We can appreciate in this regard that budding-positivism/rational-empiricism and its associated liberality that was the backdrop for technical and organisation possibilities that actually required their interpretation in terms—as-of-axiomatic-construct of advancing human emancipation and bringing an end to serfdom in Europe for instance, but as of a perverted twist due to poor appreciation of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology led to the opportunistic undermining of human emancipation elsewhere not as of positivistic/rational-empiricism attitude/mental-disposition/care—and—episteme
It is to be noted here that the precedence of attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology while seemingly counterintuitive, simply speaks of the implications of the notion of prospective relative-ontological-completeness–of–reference-of-thought/prior relative-ontological-incompleteness–of-axiomatic-construct as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in that our appropriate-or-inappropriate-at-various-successive-levels conception as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ has nothing to do with inherent existential reality but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology in order to reflect ontologically-veridical signification as of existence. Such altogether new metaphoricity⁶ as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity⁶ further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of "nonpresencing-<perspective–ontological-normalcy/postconvergence>); as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limitation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. In this regard, the ontologically—veridical ‘postmodern deprocrypticism—or—preempting—disjointedness—as—of—reference—of—thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental—disposition/care—and—episteme’ with respect to our modern take <amplituding/formative> wooden—language—(imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—and—teleology\textsuperscript{9}—as—of—‘nondescript/ignorable—void ’—with—regards—to—prospective—apriorising—implications>) reasoning—from—results/afterthought logocentric constitutedness\textsuperscript{13} is rather as of ‘reasoning—through or Derridian messianic reasoning’ over our positivism/rational—empiricism manifestation of procrypticism—or—disjointedness—as—of—reference—of—thought, and so as of a
postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supercracy—de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In both cases, the

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-prime movers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existentia-realty’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating — <amplituding/formative–supererogatory–de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking’—apriorising-psychologism as positivism/rational-empiricism thinking or
notional-deprocriptism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of “procripticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory-de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocriptism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–‘notionally–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of–‘nondescript/ignorable–void”–with-regards-to-prospective-apriorising-implications>) depth/profoundness of human posterity; projecting well beyond the narrow and decadent obsessions of shallow as of extricatory/temporal de-mentating/structuring/paradigmging of social-stake-contention-or-confliction, as it actively strives as of its prospective reference-of-

Reasoning-through/messianic-reasoning metaphoricity brings about the prospectively renewed reasoning-from-results/afterthought instigating the secondnaturing of prospective institutionalisation, and so as of implied reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of-de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) enabling its prospective relative-ontological-completeness. many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes and Plato—and—Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation

However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-

of philosophy, it is herein contended that this relatively deficient analysis reflects the

In this regards, we can appreciate that all human meaningfulness-and-teleology\(^9\) arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance –<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and
Mathematical innovations were of lateral civilizational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignoreable—void—with-regards-to-prospective-apriorising-implications>)); pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given

We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology\textsuperscript{9} infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology\textsuperscript{9} infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual
transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic
society will rather be construed as of deficient value-construction as from a prospective perspective of causality~as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality~as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-
veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional–deprocrypticism or notional–preempting–disjointedness-as-of reference-of-thought appropriate foregrounding–entailment (postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity ’)–as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect–immanent-ontological-contiguity ’> of our rational-empiricism/positivism occlusivity in its wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignorable–void ’–with-regards-to–prospective-apriorising-implications>) tend to rather reflect our <amplituding/formative–epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag ’. The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism–or–preempting–disjointedness-as-of
reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance—including-virtue-as-ontology> dynamics of notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-

Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as—spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in \textsuperscript{12} presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation simply reflects the \textsuperscript{4} foregrounding—entailment-(postconverging–narrowing-down~sublimation as to existence—as-sublimating-withdrawal,
axiomatising/re-referencing-conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -<imbued-and-'hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aesthetising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance -<including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance -<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance -<including-virtue-as-ontology>. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather
grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance (including-virtue-as-ontology) (reflected as of constructiveness-of-ontological-performance and destructuring-threshold (uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ and then ‘the individual dimensionality-of-sublimating —<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-

Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historicity/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression—of—<amplituding/formative–epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness/existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'>, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of—the-human-institutionalisation-process dimensionality—of—sublimating —<amplituding/formative–epistemicity>supererogatory—de-mentativeness/epistemic-growth—or—conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to difference-conflatedness<as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism<amplituding/formative–epistemicity>causality—as-to-projective-totalitative—implications,—for—explicating-ontological-contiguity successiveness of registry-worldviews/dimensions. The point here is that, ‘the
individual dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation mental-disposition and expression’ driving the deferential-formalisation-transference knowledge-reification and empowerment from the knowledge-reification as of ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing, even as of poor ontological-performance —<including-virtue-as-ontology> of social—value-construction so-construed as destructuring-threshold—(uninstitutionalised-threshold /presublimating—desublimating-decisionality) —of-ontological-performance —<including-virtue-as-ontology>, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social—value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment that gives the teleological orientation of human meaningfulness-and-teleology in reflecting holographically—<conjugatively— and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, as it then exposes human meaningfulness-and-teleology as of human limited-mentation-capacity-deepening to the prospective constraint to be as supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence— and-sublimity/sublimation/supererogatory—de-mentativity when its any given meaningfulness— and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening. Thus the bigger picture here with regards to social—value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity—of-the-human-institutionalisation-process —

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-

meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—<as-to-existence-potency—sublimating—nascence,—disclosed-from—
driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond
more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of
sovereign choice is much more rigidly tied to political action unlike the relative ability for
direct disengagement from private entities. However, the fundamental fact that human
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans
sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond

holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-
institutionalisation-process; going by the phronesis/practicality as of our positivism–
procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of
contending frameworks and policy frameworks as reflective of socially-perceived
commendation and disapprobation’, as advancing human sovereignty and free-will as of
deferential-formalisation-transference implications, can be rather straightforward with regards
to relatively compact/self-contained institutional functions and roles usually involved in direct
public service delivery but it is much more difficult with spurious/supporting institutional
functions and roles. We can appreciate in this regards that public scandals generally tend to
arise out of public services and private services delivery institutional frameworks as of their
relatively compact/self-contained institutional functions and roles, and that issues of
transparency rendering such assessment difficult generally arise with regards to underlying
spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect
concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty
and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’ as to the ‘relative-ontological-completeness’ -

coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-
contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness ’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness/relative-ontological-completeness -(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating-<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism as to their
existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and
free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-
grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-
ontological-completeness. Consider in this regards for instance as of the ‘presencing—
absolutising-identitive-constitutedness’ notion of ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human
social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-
arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently
making a claim on existential-reality which rather more aptly reflect a manifestation of power-
grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human
being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-
coercion/given-discrete-social–value-construction’ argumentation can arise from the
perspective of relative-ontological-completeness as what is then implied from the relative-
ontological-completeness perspective is the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of-

discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing>–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primestmovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken
to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness'/relative-ontological-completeness-(sublimating-referencing/registering/decisioning,—as-self-becoming/self-confiliatedness'/formative—supererogating<-projective/reprojective—aestheticising-re-motif— and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>) as to human-and-social—expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument— in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable—measuringinstrument-invalidating-measuring—<as-to-preconverging-or-dementing—apriorising—psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as
the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–<as-to-preconverging-or-dementing–apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of
apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity,<discreately-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity,<discreately-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness and not subject to prospective ‘relative-ontological-incompleteness/relative-ontological-completeness’-

Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness” in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness” and this is the very legitimation for any intellectualism

Ultimately, the very possibility for prospective knowledge-reification as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound to be undermined, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–

The underlying point here is that there is no inherent meaningfulness-and-teleology\(^4\) but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^5\)-<imbued-and-`hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^7\), however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^8\). The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in
limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and—teleology—as-of-‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications}>’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating–
the direct relation between human-subpotency and existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity—totalising—renewing-realisation/re-perception/re-thought—in-supercerogatory—epistemic-conflatedness) is effectively what underlies human institutional paralysis and social-vestedness/normativity—discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating ‘meaningfulness-and-teleology’ capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in
presencing–hyperrealisation/hyperreal-transposition presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition thus involves a <amplituding/formative–epistemicity>totalising/circumscribing/delineating conception of social-vestedness/normativity-<discretely-implied-functionalism> as to an underlying human psychological entrapment (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology out of its historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition social-vestedness/normativity-<discretely-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic/notional-projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening. Such social and institutional social-vestedness/normativity-<discretely-implied-functionalism> for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness ) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance’<including-virtue-
to-intemporal-dispositions<so-construed-as-from-perspective-ontological-normalcy/postconvergence>—existentialism-form-factor>; and so in all situations particularly those poorly constrained to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness. Such that such ontologically-flawed presencing—absolutising-identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/aloofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of presencing—absolutising-identitive-constitutedness-of—
meaningfulness-and-teleology

Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology ) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘‘presencing—absolutising-identitive-constitutedness’’-of–meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the
comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> ); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as \textsuperscript{99}meaningfulness-and-teleology\textsuperscript{99} with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{65}-by-reification\textsuperscript{66}/contemplative-distension\textsuperscript{68}. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events\textsuperscript{37} like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness\textsuperscript{13}-of—meaningfulness-and-teleology\textsuperscript{55} given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness\textsuperscript{37}/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs–of—meaningfulness-and-teleology\textsuperscript{59}—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ \textsuperscript{79}presencing—absolutising-identitive-constitutedness\textsuperscript{13}/constitutedness\textsuperscript{13} apriorising/axiomatising/referencing–

Effectively, human decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). The idea of superseding the human registry-worldview’s/dimension’s institutionalisation decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation (as to ‘abstractly projected finality in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of—the-human-institutionalisation-process”) for prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing, patently makes obvious what the true implications of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought project with respect to its dispensing-with-immediacy—for-relative-ontological-completeness—by-reification/contemplative-distension re-originariness/re-origination conceptualisation in relation to our present positivism—procrypticism aestheticisation—and—aestheticisation-towards—
possibility for the later aestheticisation); such that the notional–deprocrypticism potential is ‘a wholly other of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ as to the implications of its re-originariness/re-origination for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing beyond foregone aestheticisation–and–aestheticisation-towards-ontology in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process (in truly reflecting the ‘full human-subpotency potentiation’ as to the most profound human capacity for dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naivities and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening–protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation–and–aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening before any construable human panoramic-sublimating-criticality outcome of meaningfulness-and-teleology) has ever always been bound to take ‘a notionally-

), can be reflected historically with respect to say ‘an engrained traditional non-positivism/medievalism conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care–and–episteme implied by Galileo and further conceptually articulated by Descartes’ thinking proposition as to its mathematic\(^\text{103}\) universalis implications, such that it is as of a crossgenerational transformation/supererogatory–de-mentativeness that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) to grasp the full de-mentative/structural/paradigmatic implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with regards to the prospect of positivism/rational-empiricism aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology\(^\text{99}\). Likewise, this insight can be extended in reflecting the historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic philosophers as to its apriorising/axiomatising/referencing–psychologism (as of psychoanalytic–

apriorising/axiomatising/referencing–psychologism ‘wanting of human consciousness

the underlying apriorising/axiomatising/referencing–psychologism ‘wanting of human

reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social “meaningfulness-and-teleology”, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social “meaningfulness-and-teleology” in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient “presencing—absolutising-identitive-constitutedness” analyses that fail to factor in that the very notion of ‘positivistic science experimental framework’/historiality/ontological-eventfulness/ontological-aesthetic-tracing’ was developed and encultured/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-

<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation effectively projects the possibility of boundless human aestheticisation—and—aestheticisation-towards-ontology well beyond our present contemplation of what is implied by ‘meaningfulness-and-teleology’, as in many ways the reality of our past and present aestheticisation—and—aestheticisation-towards-ontology as ‘meaningfulness-and-teleology’ has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to—historicity-tracing—inhhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination—as-to—historiality/ontological-eventfulness/of ontological-aesthetic-tracing—disinhibited-mental-aestheticising as of originariness-parrhesia,—as—spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity—of-the-human-institutionalisation-process possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating

This contrast is very much aligned with the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—anamnestic-residuality/spirit-drivenness—equalisation and dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness / transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced presencing—absolutising-identitive-constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvalutative-rationalising / sublimating-thoughtfulness / historiality-or-ontological-eventfulness—or-ontological-aesthetic-tracing / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold as to dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness / transvalutative-

Thus the reality of prospective human emancipation in reflecting holographically—conjugatively and transfusively—the ontological-contiguity of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation—and–aestheticisation-towards-ontology’); and so critically as to the ‘presencing—absolutising-identitive-constitutedness’ human amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. At the root of this undermining of prospective ‘requisite human dimensionality-of-sublimating’— supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ is the social dilution/enfeeblement of value-construction/value-aspiration as to their ‘ad-hoc and incoherent totalising/circumscribing/delineating implications supposedly non-ontological as to non-metaphysical’ (with regards to conceptualising the social-construct prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity value-construction/value-aspiration), as associated particularly with ‘the specious usurpation of the
overall social-construct’s intellectual–function/posture as to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity-<discretely-implied-functionalism> constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of ‘de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes’, as the often sparing instantiating existential frames of day-to-day social, political and media landscapes decision-making/editorialising processes are poorly amenable naturally to such ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance’ and end up assuming social-vestedness/normativity-<discretely-implied-functionalism> defaulting postures with occasional clamours for equanimity/balance of the decision-making/editorialising processes quite often the niggling exceptions to entrenched and existentially-unthought reflex. Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing -of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-
technological sublimation momentously induced historiality/ontological-eventfulness /ontological-aesthetic-tracing inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accordning-{as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance<including-virtue-as-ontology>} at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing possibilities’ and the idea of prospective human

capacity’ as of a ‘supposed human-subpotency abstract self-determinative ontological-performance’ capacity as to the full-potency of existence’. This reflects the reality that the transcendental ‘meaningfulness-and-teleology’ of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively are effectively only marginally integratable respectively to prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought (as to crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so only as the former induce their ‘prospective predicative-effectivity–sublimation–⟨as-to-underlying-ontological-commitment⟩’ constraining that prospectively transforms human ontological-performance capacity; thus reflecting the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation–⟨as-to-underlying-ontological-commitment⟩ as the critical enablers for the possibility of prospective transcendental ‘meaningfulness-and-teleology’. Such an insight divulges the underlying de-mentative/structural/paradigmatic possibility that arise for sophistic/pedantic dispositions across all registry-worldviews/dimensions as to the prior ‘social-construct’ when not subjected to ‘prospective predicative-effectivity–sublimation–⟨as-to-underlying-ontological-commitment⟩’

In other words, the human as ‘manifesting presencing—absolutising-identitive-constitutedness’ is intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction’; as we can appreciate that the state of prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought (so-construed as of ‘supposed human-subpotency abstract self-determinative ontological-performance—as to the full-potency of existence’ in their presencing—absolutising-identitive-constitutedness) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively. worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment ) as critically enabling prospective sublation. In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment )’ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment ) associated with the physical sciences and as generally reflected by the social-stake-contention-or-confliction disinterested natured of ‘much of the basic/fundamental and natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment )’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing’ is either indirectly or directly undermined with social-vestedness/normativity-discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology ) over existence-potency–sublimating–nascence, disclosed-from-prospective-

This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s foregrounding—entailment—(postconverging–narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s foregrounding—entailment—(postconverging–narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism’; and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest–subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating–nascence") to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating–nascence”. In many ways taking such ontologically-flawed
interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’ with the ‘supposedly profound phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity—discretely-implied-functionalism—disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—immanent-ontological-contiguity—of-the-human-institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, and so comprehensively articulating human organisational and institutional driven/potent sociocultural, economic, political, legal, etc. manifestations on such biological/neurological and evolutionary substitutive/reductionist basis of supposed sublimation as to their ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’ foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional–deprocrypticism in elucidating ontological-contiguity—<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’. The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) work paradoxically only by impliciting the reality of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies—in-transitive-conflatedness–reflexivity,—in-the-full-potency-of-existence’s–sublimating–nascence> (as to their implied sublimating existence’s
necessitating implications and consequences), and then surreptitiously project/select/pop-up (in
substitute for and override the inherent physics epistemic-conception phenomenal/manifest-subpotency–<in-transitive-conflatedness–reflexivity–in-the-full-potency-of-existence’s–sublimating–nascence>). The consequence of such vague disparateness-of-conceptualisation–<unforegrounding-disentailment–failing-to-reflect–‘immanent-ontological-contiguity’> as to failing ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ (as implied as of the requisite ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’–foregrounding–entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism in elucidating ontological-contiguity–<as-from-prospective-ontological-normalcy/postconvergence–epistemic/notional–projective-perspective>’), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating
perspective’ and ‘not about the constancy of any notion of intemporal individual’

Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ failure to directly grasp their very own <amplituding/­formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring).

In other words, the ‘effective equilibration of human sublimating <meaningfulness-and-teleology> across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality—of-affirmative-and-­unaffirmative–disambiguated—motif-and-apriorising/­axiomatising/referencing’ of the ontological-performance—<including-virtue-as-ontology> of human notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> narratives’: and so as to human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-

This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity—<discreetly-implied-functionalism>’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity—<discreetly-implied-functionalism>’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—

perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the
episteme (in this case reflecting sophistic/pedantic procrypticism–or–disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic philosophers and budding-positivists it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and notional-deprocrypticism the effective ‘world that exists to the majority people (as of ‘human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> according to the redounding/wavering/waveforming—of-their-referring-and-their-devolved-referencing-imbued-ontological-performance)—(including-virtue-as-ontology>) at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought to go on cynically eliciting <amplituding/formative> wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications> as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be
underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) as to an epistemically-decadent wooden-language-(imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology ); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-
uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—totalising—renewing—realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more than totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall
differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and
‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of
veracity/truth’ lies with their constraining whether towards inherent existence projected
implications or towards human-subpotency projected implications respectively. This underlying
point has de-mentative/structural/paradigmatic implications with regards to human
meaningfulness-and-teleology as to human living-development–as-to-personality-
development, institutional-development–as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology. This differentiation can be rearticulated in
aestheticisation terms to imply that existence (as to existence-potency–sublimating–nascence,-
disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–
epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-

human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-
subpotency (as to human presencing—absolutising-identitive-constitutedness-
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag) is ‘a non-scalar conception that induces
prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively
implied ontological-normalcy/postconvergence construed as of ‘maximising-recomposuring-
for-relative-ontological-completeness—unenframed-conceptualisation epistemic-projection
perspective while ‘human-subpotency non-scalarity/beholdening<as-to-what-has-gone-before-
aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-

abnormalcy/preconvergence construed as of ‘incrementalism-in-relative-ontological-

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating—a<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as the inherent ontological-good-faith/authenticity~de-mentating/structuring/paradigming—<seeding/incipient—profound~supererogation—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> effectively reflected as of notional~deprocrypticism. notional~deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance—<including-virtue-as-ontology> as to sublimating ‘historiality/ontological-
eventfulness\textsuperscript{1}/ontological-aesthetic-tracing as of ‘scality/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating historicity-tracing—\textsuperscript{2}\textsuperscript{3}in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in \textsuperscript{4}presencing—absolutising-identitive-constitutedness\textsuperscript{5}. Translated, this ‘scality/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance -<including-virtue-as-ontology> with regards to human \textsuperscript{6}meaningfulness-and-teleology\textsuperscript{7} speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening\textsuperscript{8} in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} is strongly prone to desublimating \textsuperscript{9}historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in \textsuperscript{10}presencing—absolutising-identitive-constitutedness\textsuperscript{11}, while the former strongly constrained to high predicative-effectivity–sublimation-{as-to-underlying-ontological-
commitment) is rather relatively amenable to sublimating $^{*}\text{historiality/ontological-eventfulness/ontological-aesthetic-tracing}$ as of ‘scality/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating $^{*}\text{historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition}$) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating $^{*}\text{historiality/ontological-eventfulness/ontological-aesthetic-tracing}$). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s–sublimating–nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs
prospective notional~deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment’ (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity~sublimation~(as-to-underlying-ontological-commitment) (reflecting ‘scality/immanency of existence’s ontological-normalcy/postconvergence’). In this regards, the de-mentative/structural/paradigmatic implications of ‘human notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective~ontological-normalcy/postconvergence> accordioning-(as-of-varying-individuations-contextually-transverse-desublimation/sublimation, as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance⟩<including-virtue-as-ontology⟩ at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’, reflect the fact that the originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness for prospective knowledge-reification implying a projection out of a prior human registry-worldview’s/dimension’s institutionalisation framework cannot be construed as of any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly implying that there is an underlying absolute sound basis for human knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas in reality such grounds are recurrently rede-mentated/restructured/reparadigmed for relative-ontological-completeness as to re-motif—and—re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-

We can appreciate in this regards that budding-positivists ’meaningfulness-and-teleology however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration— as—mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside— existential-contextualising-contiguity’ but the fact is that such budding-positivism in its rede-mentating/restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our present day positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. In this respect with regards to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary ~meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical ~meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming–<seeding/incipient–profound ~supererogation,~as-mentally-aestheticised–postconverging/dialectical-thinking ~qualia-schema> existential-condescension–<of-apriorising/axiomatising/referencing–psychologism> of

genuine social intellectual–function/posture as such is not about a naivist social-

presencing–hyperrealisation/hyperreal-transposition> actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought> – positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation – profundity – de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness – by-reification / contemplative-distension for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly dementated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology – <in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given ‘presencing—absolutising-identitive-constitutedness’ ‘immediacy supposed absolute sublimating value and ontological-veracity
disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness’ mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development—as-to-personality-development and institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and dementated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying

This insight can be illustrated as follows: supposed say in 00 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming<seeding/incipient–profound-supererogation,~as-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity.
We can appreciate that the human species on Earth as to its relative-ontological-incompleteness\(^8\) doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding-formative-epistemicity>totalising–thrownness-in-existence\(^6\)’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment \(^7\)) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness\(^9\) articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^10\). Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness\(^87\) avails rather than ontological-bad-faith/inauthenticity\(^7\) in upholding relative-ontological-incompleteness\(^8\) (given that immortality/existence-perspective as to intemporality\(^51\) cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing\(^19\)–apriorising-psychologism and not postconverging-or-dialectical-thinking\(^7\)–apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness\(^8\) as to dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluitive-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation takes precedence in defining human intellectual-and-moral ontological-performance<sup>71</sup>-<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<sup>71</sup>. This <amplituding/formative–epistemicity>totalising–thrownness-in-existence<sup>34</sup> implied existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’~de-mentating/structuring/paradigmiging<sup>96</sup>-seeding/incipient–profound<sup>96</sup>-supererogation<sup>96</sup>,-as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> existential-condescension<sup>69</sup>-<of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness<metaphoricity>–disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology<sup>19</sup> veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance<sup>71</sup>-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence<sup>34</sup>’. This insight puts into perspective our ‘presencing—absolutising-identitive-constitutedness’ conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness<sup>87</sup> (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a
supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness\textsuperscript{17} aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness\textsuperscript{26} specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given \textit{amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{34}’ is not of neutrally/objectively sound ontological-performance\textsuperscript{17}—\textit{including-virtue-as-ontology}>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our \textit{amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{4} and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness\textsuperscript{17} as to overall existential dimensionality-of-sublimating — \textit{amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{9}, existential-discursivity—implicitedsUBLIMATION-OVER-DESUBLIMATION as to ‘ontological-good-faith/authenticity ~dementating/structuring/paradigming—seeding/incipient–profound –supererogation,–as-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> existential-condescension(of-apriorising/axiomatising/referencing–psychologism>’, thus points to the primacy of ‘the very \textit{amplituding/formative–epistemicity>totalising–thrownness-in-
existence of human discursivity as to the possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia, as-spontaneity-of-aestheticisation supererogatory acuity/perspicacity/astuteness/edginess/incisiveness projection as to overall existential dimensionality-of-sublimating —<amplituding/formative>supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. The bigger point here is that prospective human sublimation underlying prospective knowledge-reification in relative-ontological-completeness cannot be engaged with any given registry-worldview/dimension in relative-ontological-incompleteness as if the latter is of a ‘neutrally/objectively sound human ontological-performance’—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative—epistemicity>totalising—thrownness-in-existence’ with regards to the fact that human <amplituding/formative—epistemicity>totalising—thrownness-in-existence is already engaged in existential-discursivity—implicited-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming—seeding/incipient—profound supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ (and so very much countering the deceptive eliciting in desublimation of <amplituding/formative> wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) by dominance/vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). In this regards, and in the bigger scheme of things existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-
faith/authenticity-de-mentating/structuring/paradigming-seeding/incipient–profound-supererogation-as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema-existential-condescension-of-apriorising/axiomatising/referencing–psychologism’ implies that as to existence–as-sublimating-withdrawal–eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance’–including-virtue-as-ontology-state failing to factor in human specific apriorising/axiomatising/referencing–ontological-deficiency arising from its specifically given amplituding/formative–epistemicity-totalising–thrownness-in-existence with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating—amplituding/formative-supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation. Unlike it is often assumed from a sloppy conception of human sublation in existence (caught up in any given presencing—absolutising-identitive–constitutedness self-justification of uncertainty of prospective human sublation), the comprehensive coherence of human sublation in existence as to existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of existence as of its immanently tautologuous coherence speaking to its ontological-contiguity as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening). This confliction in the perception and relation to human
sublimation in existence between metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ’ as-to- presencing—absolutising-identitive-constitutedness } <amplituding/formeative—epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ on the one hand and on the other hand difference-conflatedness ‘-as-to-totalitative-reification’-in-singularisation’-as-veridical-epistemic-determinism as to relative-ontological-completeness’’ ‘<amplituding/formeative—epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formeative>disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formeative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed ‘presencing—absolutising-identitive-constitutedness’ given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness’ sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-
sublimation as such in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology’ instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving>. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing
animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of
the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-
empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards
even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this
discrepancy of prospective material and technical sublimation positivistic science in relative-
ontological-completeness and the immaterial/social overall relative-ontological-
incompleteness—presublimation-construct—of—meaningfulness-and-teleology of medieval-
scholasticism associated with alchemic/magical thinking, to the point that in many ways their
actions were directed towards articulating at the very least an underlying ‘scientific—
apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-
framing—of—predicative-effectivity—sublimation—(as—to—underlying—ontological—commitment’)
the requisite immaterial/social sublimation for enabling positivistic science as we know it
today to arise. This very insight explains the enlightenment struggle against feudalism and
slavery as to the fact that the technical and scientific progress as to relative-ontological-
completeness weren’t the occasion to put such technical and scientific progress like
shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded

humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that
the positive-opportunism driving the secondnatured institutionalisation of human sublimation
induces discrepancy as to immediate material and technical possibilities of sublimation and the

reification\textsuperscript{}/contemplative-distension \textsuperscript{immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with ‘meaningfulness-and-teleology’ of our positivism—procrysticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination—<so construed as to ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional—deprocrysticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology’ instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness\textsuperscript{13} to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—<including-virtue-as-ontology> reflected in their failing effective outcomes of equanimity/balance; wherein their

Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve *presencing—absolutising-identititive-constitutedness* *presencing—absolutising-identititive-constitutedness* epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and–aestheticisation-towards-ontology underlying the overall ontological-contiguity —of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the *historiality/ontological-eventfulness* /ontological-aesthetic-tracing rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). hyperrealisation/hyperreal-transposition>’ (however their de-mentative/structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendance. Such a beholding “presencing—absolutising-identitive-constitutedness existingness—enframing/imprintedness<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> skews the fundamental ontology question by its inherent <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity<discretely-implied-functionalism>. This latter issue is the ultimate challenge to prospective notional–deprocrypticism institutionalisation ‘unenframed/unbeholding/bechancing–supererogation’ parameterisation/reparameterisation{(reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)-as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/ meaningfulness-and-teleology}; as of the paradox that a social-setup as to its <amplituding/formative–epistemicity>totalising–thrownness-in-existence is so pragmatically self-focussed that its aestheticisation and hence aestheticisation-towards-ontology dynamic-potential as to existence—

This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag” posture; and this very much explains the double epistemic orientation to notional–deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation” parameterisation/reparameterisation- (reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–’their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)–as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-ontologisation’ for prospective aestheticisation–and–aestheticisation-towards-ontology/ meaningfulness-and-teleology as highlighted above (as to the need to feed our <amplituding/formative–epistemicity>totalising–thrownness-in-existence decisively globalising world with aestheticising re-originariness/re-origination to uphold the capacity for pure-ontology as to re-ontologisation). In other words, existentialising–decisionality and sublimating–nascence perspectively-reflect respectively ‘notional–\(^7\) presencing—absolutising-identitive-constitutedness\(^1\) and notional–\(\text{nonpresencing-}\langle\text{perspective–ontological-normalcy/postconvergence}\rangle\) transversal continuum’, as to ‘thresholding conception of the relationship between perspective decisionality/human-decisionality–\(\text{as-to-play-of-valid/invalid-decisionality-imbued-}\)
sublimation/desublimation> and perspective sublimation/desublimation in existence’. Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-reflexive psychological reorientation of human relation with “meaningfulness-and-teleology” as to the contrast between ‘blurriness’ in existentialising–decisionality’ and ‘universal-transparency’ (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of sublimating–nascence’; wherein ‘universal-transparency’ (transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of sublimating–nascence (as to nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving>) is relatively bound to elicit individual and social positive-opportunism deferential-formalisation-transference of existentialising–decisionality while ‘blurriness’ in existentialising–decisionality is relatively bound to undermine individual and social deferential-formalisation-transference as to relative-ontological-incompleteness—presublimation-construct–of–“meaningfulness-and-teleology” desublimating–existentialising–decisionality (thus undermining the requisite relative-ontological-completeness—reference-of-thought–and—reference-of-thought—devolving—meaningfulness-and-teleology comprehensiveness of prospective sublimating–nascence’ as of the sublimating–nascence teleological-inflection–(as-to-more-profound-nondisjointing–<amplituding/formative–epistemicity>totalising/circumscribing/delineating)). That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation—
transference existentialising–decisionality psychological-disposition as to the positive-opportunism\textsuperscript{75} consequences of deferring to ‘universal-transparency\textsuperscript{103}’-(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{amplituding/formative–epistemicity}totalising–in-relative-ontological-completeness\textsuperscript{87}) of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with the lack of such ‘universal-transparency\textsuperscript{103}’-(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{amplituding/formative–epistemicity}totalising–in-relative-ontological-completeness\textsuperscript{87}) of sublimating–nascence’ as to when ‘blurriness’ in existentialising–decisionality’ arises inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{99} desublimating–existentialising–decisionality). The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} of ‘blurriness’ in existentialising–decisionality’ as rather poorly amenable to profound ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ as it is relatively the case in the natural sciences (and so beyond-the-consciousness-awareness-teleology\textsuperscript{-in-existential-extrication-as-of-existential-unthought}); as to the fact that existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{-as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming}> more readily makes ‘desublimating nonsense’ of human existentialising–decisionality\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} failing ‘genuine knowledge-reification’ framework involving an immediate potent detour to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-\textsuperscript{amplituding/formative–}

herein contended that the most fundamental issue with regards to human prospective

has to do with this ‘human existentialising–decisionality dual psychological-dispositions

often of ‘restricted and directly transparent/potent existentialising–decisionality scope of

‘blurriness in existentialising—decisionality’ as of relative-ontological-incompleteness—
presublimation-construct—of—meaningfulness-and-teleology desublimating—existentialising—
decisionality. We can for instance appreciate this ‘human existentialising—decisionality dual
psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in
inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-
positivistic like animistic social-construct wherein positivistic technical and material nascent-
sublimations can relatively be easily appreciated/grasped in a short timeframe by their
immediate sublimating—nascence but the more profound notion of a positivistic registry-
worldview/dimension (as to social-and-institutional-frameworks-of—
referencing/registering/decisioning of positivistic meaningfulness-and-teleology) reflecting a
positivising referencing/registry/decisioning is more problematically conceptualisable and
mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic
presencing—absolutising-identitive-constitutedness existentialising—decisionality
psychological-disposition of defaulting individual and social ‘beholdening as sovereignising—
imbued-subontologisation/subpotentiation’); and this ‘human existentialising—decisionality dual
psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in
inducing desublimation or sublimation’ applies in the succession of registry-
worldviews/dimensions with regards to the possibility for their prospective
sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising—
decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—
ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non—
epistemicity>totalising/circumscribing/delineating)’, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations–blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving> as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ in the sense that the technician and natural scientist are unconcerned with ‘any social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality imbuement’ supposedly superseding existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation given that any such social and institutional pretense-of-sublimation cannot generate any inherent technical and scientific sublimating–nascence (wherein if such social-and-institutional-frameworks-of—referencing/registering/decisioning pretense-of-sublimation warrants gravity on earth to be considered as 7 m/s2 for instance for one reason or another but for existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ), rather the natural scientist and technician will view such social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality pretense-of-sublimation as the
very de-mentative/structural/paradigmatic undermining of the possibility of natural science and technical development as to sublimating–nascence beyond just the specific instance but as to a fundamentally underdeveloped social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating–existentialising–decisionality that must be overridden (so that similar intellectual decadent pretense-of-sublimation should not arise) for the prospective possibility for science and technical development sublimating–nascence to flourish; and likewise it is herein contended that absolutising social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality pre-eminence as to imprimatur and the dynamics of imprimatur (with regards to ‘blurriness’ in existentialising–decisionality’ associated with social-and-institutional-frameworks-of—referencing/registering/decisioning) as ‘precedingly defining the possibility of prospective knowledge over inherent knowledge’ is itself the very de-mentative/structural/paradigmatic desublimating undermining of the possibility of veridical social and institutional prospective sublimation/emancipation as to sublimating–nascence, and in that respect no mortal (including the one mortal making this articulation herein) can pretend to a status bigger than existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation to then imply that genuine knowledge-reification cannot cross-it/has-to-bow-to-it (for one reason or another), and in that regards the more profound knowledge-reification as to the de-mentative/structural/paradigmatic upholding at all instances of the possibility for prospective genuine knowledge-reification inducing sublimation/emancipation as to sublimating–nascence is more than just the specific knowledge-reification—gesturing for sublimation but rather more critically overt articulation of the ‘veridical de-mentative/structural/paradigmatic intellectual underdevelopment underlying any such a mortal claim’ as to the fact that no human can claim that 2+2 is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in
prospective construction-of-the-Self) so-reflected in the fact that the underlying existentialising–frame of knowledge is the very requisite condition for eliciting the true meaningfullness-and-teleology of any given specific knowledge-reification – gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising–decisionality specific knowledge-reification – gesturing for sublimating–nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness – reference-of-thought– devolving>

than veridically ‘knowledge-reification’ as of its very own deriving/manifest/ensuing/event 'uating sublimating–existentialising–decisionality' and as so- reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘for– conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining—universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) as to a de-mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating—existentialising—decisionality gesturing of attenuating/devaluing, blurring and
trivialising wherein there is ‘supposedly no totalising-entailing conception of ‘meaningfulness-and-teleology’’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existentialising—decisionality (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism over/under of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality); with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence as to prospective social-stake-contention—
or-confliction (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—⟨amplituding/formative–epistemicity⟩totalising—in-relative-ontological-completeness⟩) as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—⟨amplituding/formative–epistemicity⟩totalising—in-relative-ontological-completeness) of knowledge-reification’ (and so as to self-serving social-vestedness/normativity—⟨discretely-implied-functionalism⟩) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising—decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism
end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding}/\text{formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\rangle) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness-<as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition> as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as herein underlied with notional–self-distantiation-\langle\text{imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing}\rangle implied formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of–meaningfulness-and-teleology in nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle epistemic-projection, and so similar to a Derridean ‘heterogeneous
genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating-existentialising-decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning-of-sublimation-as-to-entailing-theoretical,-conceptual-and-operant-implications as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of
prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relation-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<amplituding/formative>suprerogatory—dementativeness/epistem-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<amplituding/formative>suprerogatory—dementativeness/epistem-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition>). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—{uninstitutionalised-threshold /presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> conception of the ‘overall possibility of human existentialising—decisionality as to catchmenting-by-rejection’. In this respect, it is important to
grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence is reflected by an inherent human referencing/registering/decisioning of shallow-supererogation—to—profund-supererogation conception of social-stake-contention-or-confliction with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness—as-to–historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally–collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence—

the positive-opportunism arising thereof (as of a minimum) for human secondnaturing

making nonsensical the idea that there is any ‘generalised human deterministically constraining

always be about intemporal individuations imagination-and-capacity–for-prospective-

doesn’t count (given the latter associated temporal desublimating–existentialising–decisionality
in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-

This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development–as-to-personality-development and institutional-
development—as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct’s meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existent-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct’s meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicated exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-teleology -<in-existent-unthought>-<in-existential-extrication-as-of-existent-unthought>) about substituting a different and desublimating—existentialising—

It is no wonder that periods following heights of acute hegemonic strifes especially as associated with warfare come to be tempered with a genuine social intellectual–function/posture obverse/self-deprecatory to such hegemonic manifestations; more like symbolising a sense of failing a more critical human purposefulness usurped in the fantasy of such hegemonic strife. In another respect, exactly because of this disillusionment arising from hegemonic strifes the very genuine social intellectual–function/posture (as to its abstract notional/epistemic possibilities for prospective sublimation/emancipation so-undermined by dominion/statal–logic-(preconverging/shallow-supererogating-\textsuperscript{\textdegree}human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism\textsuperscript{\textdegree}as-to-its-specific–collateralising-beholdening-\textsuperscript{\textdegree}<\text{whether–trepidatious-or-warped-or-preclusive-or-occlusive}\textsuperscript{\textdegree}>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-\textsuperscript{\textdegree}<\text{discretely-implied-functionalism}\textsuperscript{\textdegree}>\textsuperscript{\textdegree}) tend to be paradoxically reconstrued (on the basis of dominion/statal–logic-(preconverging/shallow-supererogating-\textsuperscript{\textdegree}human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism\textsuperscript{\textdegree}as-to-its-specific–collateralising-beholdening-\textsuperscript{\textdegree}<\text{whether–trepidatious-or-warped-or-preclusive-or-occlusive}\textsuperscript{\textdegree}>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-\textsuperscript{\textdegree}<\text{discretely-implied-functionalism}\textsuperscript{\textdegree}>\textsuperscript{\textdegree})

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness basis for such supposedly ontological insight so-critically provided by the veridical genuine social intellectual–function/posture. Critically, such dominion/statal–logic-(preconverging/shallow-supererogating-‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>-and–its-

The fact remains that the genuine social intellectual–function/posture (even as to when it is undermined with punctual pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimatingly pandering to the powers of the day) remains the only human conduit to sublimating ontological-veracity that cannot be substituted but rather supererogated as to undermining such pedantic incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a de-mentative/structural/paradigmatic issue of intellectual irrelevance no less than punctual

such vague argumentations for subverting the genuine social intellectual–function/posture is
rather all about the ruthless adoption of a perambulatory course for institutional and political
ascendancy rather than a question of genuine preoccupation as to the requisite dispensing-with-
immediacy-for-relative-ontological-completeness–by-reification/conTEMPLative-distension
associated with veridically profound genuine social intellectual–function/posture and its
sublimating implications of ‘intemperial unbeholding sublimating–nascence ontologising-
depth of the full-potency of existence (implied as to the very inherent knowledge-reification—
gesturing as determining sublimating–existentialising–decisionality’). In our modern day
context, the very essential ‘public-sovereignty–giving function/posture as associated with the
centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic-
(preconverging/shallow-supererogating-'human-and-social–expectations/anticipations—de-
mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-

consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-
vestedness/normativity-<discretely-implied-functionalism>) subverting the
sublimating–existentialising–decisionality of the genuine social intellectual–function/posture;
and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as
associated with the centrality of elections, voting and party politics’ is incomplete without an
adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a
genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic
public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural
ascendancy over ‘the supposedly democratic platforming and stakeholding in defining the very
issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically
skewed media debates and socio-econo-political thought-makers/thought-making overtly
associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and
media influence). Critically, in this context such skewed platforming and stakeholding ends up
alienating supposed sovereign electors as to a platforming and stakeholding process that
mediatically and politically take a self-contained course (as to dominance/vested-interest
defaulting issues that can be debated as to the underpinning–suprasocial-construct
existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition> socio-econo-political social-stake-contention-or-
confliction) with the consequence that the so-politically-alienated sovereign electors are
increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true
policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct existentialising—enframing/imprintedness<-as-to-`historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> (as to as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology`) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-ontologisation of alternative institutional aestheticising contemplation ‘given dominion/statal–logic-{preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’-as-to-its-specific—collateralising-beholdening<-whether—trepidatious-or-warped-or-preclusive-or-occlusive>–and—its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity<-<discretely-implied-functionalism>} calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving

Critically (beyond just the present democratic crisis as it reflects upon prospective human socio-econo-political sublimation/desublimation), all human societies arrive at their desublimating–existentialising–decisionality destructuring-threshold-(uninstitutionalised-threshold—presublimating–desublimating–decisionality)—of-ontological-performance’ -<including-virtue-as-ontology>, and so as to the fact that human technical-and-associated-organisational-development central to human social formation and social-enhancement is prospectively ‘apprehended/locked-in by the dominion/statal–logic-(preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—dementating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising-beholdening—<whether—trepidatious-or-warped-or-preclusive-or-occlusive>--and—its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism>) dominating over such technical-and-associated-organisational-development as to imply its inherent mystic of social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality’ (seeming to thus wrongly imply that there isn’t any prospectively requisite de-mentative/structural/paradigmatic sublimating–existentialising–decisionality of ‘human sovereign—function/posture as to public-sovereignty—giving function/posture’ as determining the valid sublimating–existentialising–decisionality or invalid desublimating–existentialising–

In many ways, we can appreciate that the modern day genuine social intellectual—function/posture as to its relatively genuine sublimating—existentialising—decisionality critically ‘operates mostly in the wake of the social-and-institutional-frameworks—of—referencing/registering/decisioning—desublimating—existentialising—decisionality of dominion/statal—logic—(preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—de-mentating/structuring/paradigming—psychologism’—as-to-its-specific—collateralising—beholdening—<whether—trepidatious—or-warped—or-preclusive—or—occlusive>—and—its-consociated—dominance/vested—interest—subontologising—skewed—influence—as—to-social—vestedness/normativity—<discretely—implied—functionalism>)’; as to the fact that the
critical aftereffects of political, economic, social and mediatic strategic policy orientations reflected in socio-econo-political and legal decision-making associated with various crises whether decadal economic crises, media and information crises, political accountability, etc. are effectively related by the genuine social intellectual–function/posture but very much after the facts (often decades after the social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating–existentialising–decisionality of dominion/statal–logic-(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>)), and so as to the sublimating impotence of such genuine social intellectual–function/posture. Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of
pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations—blind-to-their-relative-ontological-completeness—reference-of-thought—devolving renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness—in-perspective—epistemic-abnormalcy/preconvergence of social-and-institutional-frameworks—referencing/registering/decisioning existentialising—decisionality prone to presencing—absolutising-identitive-constitutedness). Thus the genuine social intellectual—function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality (however the remoteness to immediacy/punctual human social-stake-contention-or-confliction presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as this is exactly what makes-available/keeps-open prospective human sublimating–nascence (as a requisite sublimation-over-desublimation function/posture that is most important and cannot be allowed to be undermined by the immediacy-driven/nombrilistic positive-opportunism of presencing—absolutising-identitive-constitutedness social-vestedness/normativity—as-discretely-implied-functionalism) and so especially in opening-up prospective registry-worldviews/dimensions as to human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure—meaningfulness-and-teleology and the positive-opportunism then arising with the corresponding living-development—as-to-personality-development and institutional-development—as-to-social-function-development. What is thus implied herein as most critical about the human and humanity is the capacity for profound-superrigation (as to human limited-mentation-capacity-deepening implication of nonpresencing—<perspective—ontological-normalcy/postconvergence>) and so ‘more than just a positive-opportunism relation to meaningfulness-and-teleology’ as of the registry-worldview/dimension station/locus of <amplituding/formative–epistemicity>totalising—thrownness-in-existence‘.

In this respect, we can appreciate that appropriate notional—self-distantiation—imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing is effectively what is bound to bring about momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing as to a human genuine social intellectual—function/posture (underlied by ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being—as-of-existential-reality) wherein without such a ‘submission and making up to existence’s ontological-normalcy/postconvergence’ the transition say between classical-mechanics—axiomatic-constructs and theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs would have been problematic (if the proponents of the former as of human institutional social-stake-contention-or-confliction adopted a distractive-alignment-to-reference-of-thought—as-of-apriorising/axiomatising/referencing as to ‘submission and making up in contrastive equivalence to human-subpotency epistemic-abnormalcy/preconvergence’ in relative-ontological-incompleteness, but then the very healthy intellectual environment meant that even the proponents of the superseded classical-mechanics—axiomatic-constructs were already involved in a healthy notional—self-distantiation—imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing that would be receptive to such an eventual anarchic-growth/anarchisation for re-ontologisation) while in contrast such transformation implied (with respect to the relative blurriness of ‘social-and-institutional-frameworks-of—

are then reconstrued in epiphenomenal terms as to biology supervening) and likewise the reflection of biological and neurological embodiment processes in human and social consciousness speaks to an overall consciousness supervening determination (explaining why the human and social sciences are effectively practiced in phenomenal supervening conflation and not as to constitutive biology and neurology even as biology and neurology relevant insights are then reconstrued in epiphenomenal terms as to human and social sciences supervening), and such secondary epiphenomenalities as of various levels of phenomenal/manifest-subpotencies-in-transitive-conflatedness—reflexivity—in-the-full-potency-of-existence’s—sublimating—nascence—critically explains existence’s ‘phenomenality—by—epiphenomenalities supervening-as-supererogating imbued superseding—oneness-of-ontology’ (as so-epistemically underlying supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation as to de-mentating/structuring/paradigming effective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity). For that matter in-effect all such subject-matters are actually for-human-studies/for-human-constructs of conceptivity/epistemic-reflexivity as to ‘human consciousness point-of-departure for their knowledge-reification and appraisal’), and so as the more ‘empirically exact’ supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness conception of overall science reflection of the full-potency of existence (with the implication here that it is human genuine social intellectual—function/posture as to human consciousness supervening-as-supererogating determination that hold the sublimating-over-desublimating key for prospective re-ontologisation/omnipotentiality as of human conceptivity/epistemic-reflexivity); as to the fact that the enlightening ushered as of intemporal firstnaturedness across the successive registry-worldviews/dimensions and reflected sparingly/thinly with the Socrates, Descartes,

Thus in both instances inherent existence exudes of a deterministic constraining that is not beholdening to any given human registry-worldview/dimension "presencing—absolutising-identitive-constitutedness" existentialising—enframing/imprintedness-<as-to- historicity-tracing—in-presencing— hyperrealisation/hyperreal-transposition>, with this constraining as of existence-potency~sublimating—nascent,andisclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought—in-supererogatory—epistemic-conflatedness implying that it is the human placeholder-setup/mental—devising—representation/mentation/consciousness-awareness—teleology that adapts/adjusts to existence (and not the other way round as flawedly projected with ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service’) explaining fundamentally the conceptualisation herein of de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or—attributive-dialectics) of human placeholder-setup/mental—devising—representation/mentation/consciousness-awareness—teleology as to relation-to-the-world in reflecting holographically:<conjugatively—and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. profundity/technicity in public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite epistemic-growth/discomfort/disquiet of the individual as to their ‘appropriate notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> for acquisition in epistemic-growth’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public epistemic-growth in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). Ultimately, technicity/profundity is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness→reference-of-thought→devolving> existentialising–decisionality or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor epistemic-growth requiring appropriate notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>) in public spaces is not detached from public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity.
But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification’ so-underlying <supererogatory–human-subpotency>–effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology’ technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory–human-subpotency>–effecting) is the sovereignty/independence giving possibility for human epistemic-growth relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningfulness-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in public spaces by such a capacity for notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> to cultivate epistemic-growth/discomfort/disquiet over a facility/convenience mental-reflex). In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of epistemic-growth/discomfort/disquiet’ as such a flawed conception is very much prone to disenfranchising public, media and institutional pedantising/muddling/formulaic-hollowing-
out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal substantive pertinence educing layers of deferential-formalisation-transference as of percolation-channelling:<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation:<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’ and not enter into falsehoods of ‘contrastive equivalence’ implied distractive-alignment-to-reference-of-thought:<of-apriorising/axiomatising/referencing> manifested with ontologically-flawed bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc.)’, wherein effective public and institutional intellectual contestation of aptitudinal substantive pertinence is not subverted by monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine social intellectual–function/posture strives for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of
epistemic-growth/discomfort/disquiet’ (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness>” reference-of-thought–devolving> existentialising–decisionality or with the relative blurriness of social-and-institutional-frameworks–of—referencing/registering/decisioning existentialising–decisionality); and so to fundamentally bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-trauction—of-desublimating—meaningfulness-and-teleology” as-perspective-lost-of—supercorogatory—acuity/perspicacity/astuteness/edginess/incisiveness—as-to-the-imbued-postconverging/dialectical-thinking—of-notional—deprocripticism—(in-dimensionality-of—sublimating —<amplituding/formative—epistemicity> growth-or-conflatedness /scalarisation-as-to-rescalarisation-as–re-ontologisation’> wherein ‘an elicited conformity/trending/voguing/fashionability/resonance relation to ‘meaningfulness-and-teleology’ undermines the individual’s and social ‘conscious-and-active epistemic-totalising’ re-procession of the existentialising–frame re-apriorising/re-axiomatising/re-referencing of ‘meaningfulness-and-teleology’ while overemphasising rather a ‘subconscious-and-passive epistemic-totalising” re-automatism relation with the existentialising–frame re-apriorising/re-axiomatising/re-referencing of ‘meaningfulness-and-teleology” as elicited with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with the consequent contemplative disorientation, estrangement and lip-servicing/trivialising-relation to veridical social-stake-contention-or-confliction evaluation’). This eventually means that the genuine social intellectual–function/posture (adduced knowledge-reifying-and-empowering
conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling-<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on sideling salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> has paradoxically effectively-and-preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellection-aptitude body that is the public university as to its underlying social-construct ontological-commitment’ implied self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation-<imbued—re-
motif-and-re-apriorising/re-axiomatising/re-referencing> with regards to socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming’ in falsehoods terms of ‘contrastive equivalence’ implied distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> and so-undermining its ‘neutral sovereign–function/posture upholding’, and with a failed public consciousness about the sovereign importance of the public university practically subjecting them to increasing private funding deeply eroding-and/or-corrupting their capacity for ‘neutral sovereign–function/posture upholding’). In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) has often failed to appreciate the implications of the fact that (given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence,--imbued-projective–arbitrariness/waywardness-(as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of–‘<amplituding/formative–epistemicity>totalising–conceptualisation’), ‘human meaningfulness-and-teleology is effectively of epistemic-totalising consequence (thus implying its profoundness/ontologising-depth is of non-disjointedness/contiguity/coherence as of ‘<amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability)’ underlined as to its prospective foregrounding–entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’,–as-operative-notional–deprocrypticism). Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–function/posture contemplative pertinence/capacity in epistemic-totalising’
conflatedness/postconvergence allowing for appropriate coherence between concrete social reality and overall public perception of concrete social reality with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ should in-conflatedness/postconvergence instigatively drive public debates rather than ‘the naivety that the equilibrating of human-subpotencies as of vague bothsidesism mental-reflex in-constitutedness/preconvergence will then reflect social ontological-veracity’ as the latter just makes room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation induced distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ and particularly so when elicited distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> undermines the naturally sublimating–existentialising–decisionality ‘(as of epistemic re-originariness/re-origination projective/reprojective cross-subjection to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”) underlied with notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> implied formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-
prospective genuine social intellectual–function/posture as to its projected re-ontologisation/omnipotentiality drive; as so-critically reflected with a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that in many ways openly-assert having nothing to do with present human and social aporeticism overcoming/unovercoming or superficially gloss over such human and social aporeticism overcoming/unovercoming in a confusion between advocacy/ministration/sermonising and intellection going on to trivialise and undermine the profound enlightening implications of true intellection (as to a fundamental dearth of knowledge-reification gesturing however crude as knowledge becomes an issue of ‘personalised and free-floating mentioning’ incapable of true objectifying knowledge-reification gesturing as to ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ enabling the conceptualisation of momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing), and further contriving to undermine anti-intellectually (as to confusion between intellectual engagement and bland media-driven influence) a genuine social intellectual–function/posture projective resolutioning of such prospective human and social aporeticism overcoming/unovercoming as so-fraudulently directed against the prospective sublimating–existentialising–decisionality of many a postmodern thought and other critical thinkers. Such a disontologising pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern day democratic process as it ‘shuts-off requisite sovereign epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-
completeness-by-reification/contemplative-distension’ so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’; as to when such pedantism openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediationally and socially popularised’ inducing (given direct-and-indirect epistemic-totalising consequence of human meaningfulness-and-teleology) ‘incoherence between concrete social reality and overall public perception of concrete social reality’. The implications of such dereification gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness-in-perspective–epistemic-abnormalcy/preconvergence of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with regards to human limited-mentation-capacity-deepening. Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality and so in a cogent percolation-channelling—in-deferential-formalisation-transference existentialising–frame allowing for human and humanity’s epistemic-growth/disquiet/discomfort as to construction-of-the-Self (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). We can
appreciate in this regards that the specialist whether astronomer, technician, electronician, etc. is more critically sublimating/emancipating as to a ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ acting upon the breadth of socially cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising-frame involving first-level technicity/profundity elucidation (as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding–formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-conflicatedness ) with fellow specialists and then of derived-knowledge implications percolating to the appraisal of ‘overall social intellection-aptitude body’, and not a directly normalised/stereotyped/selfhelping/feel-good conception of knowledge relation with the general public in distinctive-alignment-to-<reference-of-thought-<of-apriorising/axiomatising/referencing> (undermining such a sublimating/emancipating cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising-frame imbued notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> conception which is exactly what best defines and upholds human sovereign–function/posture as to appropriate coherence between concrete social reality and overall public perception of concrete social reality with respect to public outcomes of social-stake-contention-or-confliction). In this regards, a prevailing and counterintuitive naivety as to human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality is that the mere communication of knowledge (without appropriate eliciting of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by- reification /contemplative-distension as an exercise that is behind knowledge-production in-the-very-first-place and is required for knowledge-transference) suffices without factoring that this is exactly what allows for pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation desublimation; as knowledge effectively requires a sound grasp-of and referencing-to its sublimating/emancipating cogent percolation-channelling-in-deferential-formalisation-transference> existentialising–frame given human limited-mentation-capacity (as to the fact that the ordinary citizen doesn’t need to be a physicists or astronomer or engineer but rather have the appropriate fundamentals-and-distance to be able to sovereignly relate-to and reference-to the implications of such knowledge-reification and so rather than vague conceptualisation inducing disorientation, estrangement and trivialisation of the veridical public outcomes of social-stake-contention-or-confliction aporeticism overcoming/unovercoming). Critically, it is herein contended that in many ways despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, there are just as well subject to appropriate constraining deblurring analysis with respect to their aporeticism overcoming/unovercoming as to a ‘translating insight’ as from nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> sublimating–existentialising–decisionality; and critically-so as of a relation to momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing. At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a conceptualisation may seem frivolous but then the work/job of doing philosophy and thinking is not for those of ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’; that is why such pettiness-of-minds cannot recognise true work/job when they see it and it is herein contended are better off elsewhere rather than ‘merely hanging to the thread of institutional prescience’ devoid of ‘aptitudinal substantive pertinence reflected in a predisposition for totalisingly-disentailing—discretion/whim-of-thought’ that fails prospective human re-ontologisation/omnipotentiality. Thus beneath any supposedly underpinning—suprasocial-construct (reflected in the modern-day underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a more fundamental ‘ nonpresencing—perspective—ontological-normalcy/postconvergence notion of supererogatory—progressivity’ (however the ‘shallow-supererogation of supererogatory—progressivity’) accounting for the possibility for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as in effect creatively permeating all such ‘underpinning—suprasocial-construct of presencing—absolutising-identitive-constitutedness existentialising—entailing’; and so (especially potent when such ‘ nonpresencing—perspective—ontological-normalcy/postconvergence notion of supererogatory—progressivity’ is manifested as of profound-supererogation entailing—amplituding/formative—epistemicity totalising—in-relative-ontological-completeness as to dimensionality-of-sublimating —amplituding/formative supererogatory—de-

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfullness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national
supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a dementative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and
skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to
make such markets stable and sustainable). But then in reality when push-came-to-shove the
fact is that the postwar history of all modern developed governments was hardly about their
naïve subjection to a purist capitalistic model to rebuild themselves as in reality their
redevelopment involved initial and massive public-driven investments in association with
already matured nation-building human resource as to the reality of their supererogatory–
progressivity national development programmes (especially as in the middle of the 20th century
international trade accounted for just a small part of economic growth) and it is this that
purportedly then gave way in later years to a the rising capitalistic model associated with
privatisations and private equitisation; and this supererogatory–progressivity model applied in
the postwar governments of Western Europe, the United States as well as China, Japan and
South Korea as to their initial economic redevelopment. Paradoxically one of the most
deleterious postwar economic policy stances advanced with respect to many a third world
country as to the prodding of international economic organisations and as ‘abstractly and
vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third
world following their postwar independence on the basis of the purist capitalistic model, thus
leading in many ways to perpetuating the dependence of these nations on these international
economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of
supererogatory–progressivity’ as so-associated with debt servitude and de-
mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations
in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic
model as devoid of any national supererogatory–progressivity investment-drive and social
programmes mitigation for the consequences of the capitalistic model’ are in many ways third
world countries of limited human and natural resources to be capable of instigating national
supererogatory–progressivity with respect to their incipiently disadvantageous circumstances
-especially compounded by their limited nation-building human resources) and this in many
ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation’ omni-potential commensurability with inherent immanent-existence’s sublimation-structure/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation
and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of “presencing—absolutising-identitive-constitutedness” social-vestedness/normativity—<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to “presencing—absolutising-identitive-constitutedness” social-vestedness/normativity—<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to...
trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any

Critically, scalarisation analysis operantly implies projecting the implied ‘scaling/scalar of reference’ as from ontological-normalcy/postconvergence epistemic-projection perspective implications of analysis as to the
instance the notion of length is already caught up in the notion of width in the ‘sublimating

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity—profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion—meaningfulness-and-teleology

Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness of-reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place.
and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity\textsuperscript{66} of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity\textsuperscript{66} is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity\textsuperscript{66}-<profound-supererogation\textsuperscript{96}-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness\textsuperscript{66}-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments\textsuperscript{66}. This existential reality about ontological-primemovers-totalitative-framework\textsuperscript{72} is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{96}-<as-to-perspective-ontological-normalcy/postconvergence-implied-prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of \textsuperscript{30}s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity\textsuperscript{66} as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-

Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}\textsuperscript{-<profound-supererogation\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}}-of-mentally-aestheticised-postconverging/dialectical-thinking\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}\textsuperscript{-qualia-schema} as of prospective relative-ontological-completeness\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}-of- reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocripticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}\textsuperscript{-<profound-supererogation\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}}-of-mentally-aestheticised-postconverging/dialectical-thinking\textsuperscript{-qualia-schema} as of prospective relative-ontological-completeness\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine}-of- reference-of-thought implied as of deprocripticism—or—preempting—disjointedness-as-of- reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards- singularisation\textsuperscript{\textordmasculine}\textsuperscript{\textordmasculine} thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care—and—episteme’ vices-and-impediments. institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation>—of-mentally-aestheticised–preconverging/dementing—qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity—<shallow-supererogation>—of-mentally-aestheticised–preconverging/dementing —qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating —<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation—⟨supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics⟩ implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating—⟨amplituding/formative⟩supererogatory—de-mentativeness/epistemic-growth-or-conflatedness⟩/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought
‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis\textsuperscript{16} universalis metaphoricy rationalism schema/dissemination\textsuperscript{27} that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity\textsuperscript{16} implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\textsuperscript{6}, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic— disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/suberogatory—dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. recognising that there is ‘an underlying metaphoricity’-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human ‘meaningfulness-and-teleology’ as of prospective relative-ontological-completeness -of- reference-of-thought; and so, as of retrospective and prospective ‘meaningfulness-and-teleology’ interpretation construed as ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme conception, and specifically as relevant for understanding prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’. In this regard, ‘human attitude/mental-
When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a ‘deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing), as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the notional-deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. This reality of the need to construe of human-subpotency ontological-performance—including-virtue-as-ontology—correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularity/epistemic-immanence/veridical-epistemic-determinism over dissingularity/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularity/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularity/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-mentating/structuring/paradigming singularity/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularity/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the
subject-domains of scientific study as of their existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{8} rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{9}<-\textvisiblespace as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'>’. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity\textsuperscript{8} knowledge-reification\textsuperscript{5} of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity\textsuperscript{9}, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{9}<-\textvisiblespace as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{9} that determines science practice, and so in existential conflatedness\textsuperscript{1}. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of
‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional–confutedness/singularisation/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation/epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance—including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more often than not geared to ontologically-flawed dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism that tend to be absolutised in constitutedness of prior reasoning-from-results/afterthought mental-reflexes of <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-

This insight about ontological-performance\textsuperscript{71} -<including-virtue-as-ontology> as of prospective relative-ontological-completeness of human-subpotency can be garnered with respect to any axiomatic-construct as the ‘meaningfulness-and-teleology’ representation of human-subpotency ontological-performance\textsuperscript{71} -<including-virtue-as-ontology> correspondence with the full-potency-of-existence’s-sublimating-nascence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the ‘reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that at uninstitutionalised-threshold\textsuperscript{83} , human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existential-contextualising-contiguity\textsuperscript{38} -in-reification\textsuperscript{38} ’ suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71} -<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s-sublimating-nascence-as-of-its-coherence/contiguity’ for prospective institutionalisation as of difference-conflatedness\textsuperscript{12} -as-to-totalitative-reification\textsuperscript{12} -in-singularisation -as-veridical-epistemic-determinism\textsuperscript{21} protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity\textsuperscript{66} —of-the-human-institutionalisation-process\textsuperscript{67} -so-construed-as-singularisation /epistemic-immanence/veridical-epistemic-determinism’; since this potential for such singularisation\textsuperscript{92} /epistemic-immanence/veridical-epistemic-determinism is denaturing as of

This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity -in-reification’\textsuperscript{9} at uninstitutionalised-threshold\textsuperscript{0} actually highlights that from a prospective perspective of prospective relative-ontological-completeness\textsuperscript{9}\textsuperscript{-of-}\textsuperscript{10}reference-of-thought our positivism–procrystalicism registry-worldview/dimension is very much imbued with a flawed ontological-performance’-<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology\textsuperscript{99} is coherent, failing to factor in that it is preconverging-or-dementing\textsuperscript{9}–apriorising-psychologism at its uninstitutionalised-threshold\textsuperscript{0} as reflected as disjointedness-as-of- reference-of-thought preconverging-or-dementing\textsuperscript{9}–apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} as of prospective deprocrystalicism–or–preempting—disjointedness-as-of- reference-of-thought’; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness –of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <amplituding/formative–epistemicity>totalising–self-referencing-

Such ‘excogitative-blanking of prospective existential-contextualising-contiguity—in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating ‘meaningfulness-and-teleology’ falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity—in-reification\textsuperscript{1}, and likewise with regards to a
positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity—reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism—slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness reference-of-thought, it always systemically faces notional—procrypticism/notional—disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance—including-virtue-as-ontology as wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation
‘perceptual perspective/framing/reference/horizon of “meaningfulness-and-teleology” about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology”<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing”–apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance”<including-virtue-as-ontology> as <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing} narratives—of-the”reference-of-thought”categorical-imperatives/axioms/registry-teleology” in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing”–apriorising-psychologism representation as temporal denaturing ontological-performance”<including-virtue-as-ontology> of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of “meaningfulness-and-teleology” about existential-contextualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance’<including-virtue-as-ontology> as <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing} narratives—of-the”reference-of-thought”categorical-imperatives/axioms/registry-teleology” of the prior registry-worldview/dimension in usurpation”, which understanding is actually what empowers the possibility for prospective institutionalisations that surpass/transcend it. In
other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of "meaningfulness-and-teleology" is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance-including-virtue-as-ontology correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation/epistemic-immanence/veridical-epistemic-determinism ontological-performance-including-virtue-as-ontology correspondence with the full-potency of existence is a notion of teleology in notional~conflatedness as of ontological-normalcy/postconvergence (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting disposedness-as-to-orientation/value-construct/valuation–and–

It is further critical to understand that while universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness ) with associated nested-congruence and harmony is brought about as of prior institutional secondnaturing, this should not be naively expected at uninstitutionalised-threshold as we very much know that all uninstitutionalised-threshold are conflicted as of their framework of ‘recurring dimensionality-of-sublimating’—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation temporal-to-intemporal’ for prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought. unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of—meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—as-of-the-human-institutionalisation-process,-so-construed-as-singularisation /epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity—in-reification’ as of singularisation /epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with
regards to the construal of ‘meaningfulness-and-teleology’ as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of ‘meaningfulness-and-teleology’ varies as of underlying relative-ontological-incompleteness and relative-ontological-completeness of reference-of-thought; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, the meaningfulness-and-teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness of reference-of-thought despite the existential-contextualising-contiguity and knowledge-reification ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness of reference-of-thought. The fundamental implication here is that transcendental meaningfulness-and-teleology is hardly construed in any presence registry-worldview/dimension of reference-of-thought as of its rather prospective relative-ontological-completeness of reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness of reference-of-thought <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity arising as of crossgenerational induced metaphoricity. determinism, while dissingularisation as of notional-reification as to human shallow-to-deepening-limited-mentation-capacity, as to human shallow-to-deepening-limited-mentation-capacity-deepening effectively reflects the ontological-contiguity of the human institutionalisation-process as of prior successive institutional-cumulation/institutional-recomposure as to the attainment of deprocrypticism. Thus reification aetiologisation/ontological-escalation is implied as of human ontological-performance including-virtue-as-ontology potentiative-aspiration for singularisation /epistemic-immanence/veridical-epistemic-determinism. Ultimately, it is the reification of meaningfulness-and-teleology as of the prospective relative-ontological-completeness of reference-of-thought that reflects intemporal value reference, and not the wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void —with-regards-to-prospective-apriorising-implications) as of the prior relative-ontological-incompleteness of reference-of-thought as of temporal-to-intemporal ontological-performance including-virtue-as-ontology which is rather in totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. reification as such points out intellectual-and-moral inequivalence thus dismissing as ontologically-flawed a cross-examining/mutual-contending of the prospective relative-ontological-completeness of reference-of-thought and the prior relative-ontological-incompleteness of reference-of-thought; as the latter is in ‘notional-discontiguity/epistemic-discontiguity —with/falling-short-of prospective institutionalisation existential-contextualising-contiguity in-reification’ and so,

Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good life’ as of its <amplituding-formative–epistemic>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag, as they reify meaningfulness-and-teleology by their peregrinations to construe of the de-mentative/structural/paradigmatic underdevelopment/unenlightenment of their society as in need of prospective positivistic reflection of the notional-discontiguity/epistemic-discontiguity–shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of non-positivism/medievalism as of their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality singularisation/epistemic-immanence/veridical-epistemic-determinism reified insight. The insight here about reification is that all their intemporal value references are rather as subsumed in their ‘positivistic reification’ of meaningfulness-and-teleology as of their prospective relative-ontological-completeness–of-reference-of-thought with the corresponding implications of human ‘prospective positivistic transcendence-and-sublimity/sublimation/supereoratory–de-mentativity ontological-performance’ —<including—
virtue-as-ontology’ as aetiologisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments. By that token they are effectively of the most intellectually-and-morally inclined persons of their society. Contrastively, the temporal value reference as of non-positivism/medievalism wooden-language (imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—was-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) mental-dispositions of persons like ‘honourable aristocrats’ simply reified to the universalisation—non-positivism/medievalism registry-worldview/dimension with its prior relative-ontological-incompleteness—of-reference-of-thought vices-and-impediments, while favourably looked upon as of non-positivism/medievalism society totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a prospective singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness—of—reference-of-thought, as so implied from singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal

However, this ‘ontologically-veridical reification of value reference as of prospective relative-ontological-completeness’ and the ‘ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness’ is associated with a fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold ⟨uninstitutionalised-threshold/presublimating—desublimating-decisionality⟩—of-ontological-performance—<including-virtue-as-ontology>. As this reification/dereification of meaningfulness-and-telelogy paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency— ⟨transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness⟩. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <amplituding/formative> wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>) advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency—aporia/undecidability/dilemma/ought—.
indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-
to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-

This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativity/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness—of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness—of-reference-
of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking”-‘projective-insights’/‘epistemic-projection-in-conflatedness’”-‘of-notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness”-of- reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag”, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness”-of- reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag”, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying
irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of ‘meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiology/ontological-escapation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-verity over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-verity meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance- <including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply
moral-and-intellectual inequivalence together with dialogical inequivalence, and so between
temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed
ontological-performance -<including-virtue-as-ontology> manifestation of psychopathy and

On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness of notional~deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of ‘human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation’. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its

The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-
positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness -of- reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness -of- reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of
humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding ’meaningfulness-and-teleology\textsuperscript{10} as of any specific human society relative-ontological-incompleteness\textsuperscript{12}-of-reference-of-thought as fundamentally denaturing\textsuperscript{13}, and likely to induce transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{14} dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency\textsuperscript{15}-(transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness >). Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{16}—of-the-human-institutionalisation-process\textsuperscript{17} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification\textsuperscript{18} of virtue will project that we do have the potential for
further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency—(transparency-of-totalising-entailing, as-to-entailing—⟨amplituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness ⟩. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care—and—episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold—reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity—⟨shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema⟩. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care—and—episteme event—or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the
framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding-formative-epistemicity-totalising–thrownness-in-existence> (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary–as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-
conflatedness-as-to-totalitative-reification-as-to-singularisation-as-veridical-epistemic-determinism-as-amplituding-formative-epistemicity-causality-as-projective-totalitative-implications-for-explicating-ontological-contiguity shows that there has always been beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity-undermining of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-epistemicity-totalising-in-relative-ontological-completeness}’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-
referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of-meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics subamplituding/formative-epistemicity—totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-prime-movers-totalitative-framework, and so divulged by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative-epistemicity>—totalising—renewing-realisation/re-perception/re-thought,—in-supernatural—epistemic-conflatedness; as prior human—presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as—presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-
mechanics—axiomatic-constructs constitutedness\textsuperscript{12}, but rather it is by conflatedness\textsuperscript{12} with regards to ‘the very same physics $<$amplituding\textsuperscript{-}formative\textsuperscript{-}epistemicity$>$totalising\textsuperscript{-}devolved\textsuperscript{-}purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing-$<$perspective-ontological-normalcy/postconvergence$>$. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{-}de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology\textsuperscript{7} individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework\textsuperscript{7} tendential validation as to existence-potency\textsuperscript{-}sublimating\textsuperscript{-}nascence\textsuperscript{-}disclosed-from-prospective-epistemic-digression-as-of-$<$amplituding\textsuperscript{-}formative\textsuperscript{-}epistemicity$>$totalising\textsuperscript{-}renewing-realisation/re-perception/re-thought,-in-supererogatory\textsuperscript{-}epistemic-conflatedness\textsuperscript{7}$$. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{-}de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our \textsuperscript{5} neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening\textsuperscript{7} analysis; and insightfully, as reflected in the underlying conflatedness\textsuperscript{12} of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{1}, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological \textsuperscript{5} neuterising with deneuterising\textsuperscript{4}—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of \textsuperscript{5} meaningfulness-and-
teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocripticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of
human mental-disposition with respect to the prescience of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-
supererogatory–epistemic-conflicatedness so-implied as of ontology's-directedness-as-Being.

This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism deference to the prescience of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-
supererogatory–epistemic-conflicatedness over any human-as-mortal framing of
meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness -of- reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness -of-
reference-of-thought, and so by maximaliing-recomposuring <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought as of organic-knowledge.

A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality -as-of-neuterisation /relative-
ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency-(transparency-of-totalising-entailing,-asto-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity.<shallow-supererogation>
aestheticised-preconverging/dementing –qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather difference-in-nature/difference-in-apriorising-or-axiomatising between ‘presencing—absolutising-identitive-constitutedness’ and ‘nonpresencing—<perspective–ontological-normalcy/postconvergence>’. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness’ notional-contiguity/epistemic-contiguity construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’;

As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency⟨transparency-of-totalising-entailing, as-to-entailing⟨amplituding/formative–epistemicity⟩totalising~in-relative-ontological-completeness⟩’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism.
as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différence consciousness development is the notion of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising /ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> of the consciousness in ontological-contiguity /relative-ontological-completeness’-of- reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-denmenting—apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity -<shallow-supererogation—of- mentally-aestheticised–preconverging/dementing—qualia-schema>/relative-ontological-incompleteness—of- reference-of-thought as of ’maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation, and not incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal”. As futural différence is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différence’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-
deepening; overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising as of prospective relative-ontological-completeness of reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal
‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of nonpresencing—<perspective–ontological-normalcy/postconvergence>.

herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity\textsuperscript{56} is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. metaphoricity\textsuperscript{56} as such simply refers to signification adjunctiveness to ‘underlying \textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’ as of both the ‘meaningfulness-and-teleology\textsuperscript{99}’ implications to the so-renewed ‘underlying \textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’ and the specific adjunctive-metaphoricity's-signification within such renewed ‘underlying \textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’. metaphoricity\textsuperscript{56} is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology\textsuperscript{99} as an epistemic-totalising\textsuperscript{52}/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{56} arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of ‘nonpresencing-\textit{<perspective–ontological-normalcy/postconvergence>} by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework\textsuperscript{72}. Further, metaphoricity\textsuperscript{56} as such speaks of the evasiveness of all human meaningfulness-and-teleology\textsuperscript{99 at uninstitutionalised-threshold\textsuperscript{102} as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing\textsuperscript{71}—apriorising-psychologism possibilities relation to \textsuperscript{83}reference-of-thought–\textsuperscript{2}categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring— meaningfulness-and-teleology\textsuperscript{99} as
of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective—ontological-normalcy/postconvergence>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism—procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our —procrypticism—or—disjointedness-as-of—reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had
possibly recasted his implied positivism [meaningfulness-and-teleology] in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event–as–prospective-ontology-origination perspective/framing/reference/horizon of positivism–meaningfulness-and-teleology [meaningfulness-and-teleology] we entertain today. Likewise, as of such metaphoricity episteme, the [meaningfulness-and-teleology] herein implied as of its essence cannot do without this hermeneutic/reprojective circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness ; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay . This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification [reality for construing human knowledge amounts to a quasi psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-
gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality–of-affirmative-and-unaaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality–of-affirmative-and-unaaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern
theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void with-regards-to-prospective-apriorising-implications>), such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing—apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship
with \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{5}, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{5} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67} retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{5}meaningfulness-and-teleology\textsuperscript{5} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67}. As ultimately, it is the prospective relative-ontological-completeness -of- reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{105} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity\textsuperscript{63} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social\textsuperscript{107}universal-transparency’\textsuperscript{104}–(transparency-of-totalising-entailing,-asto-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{8}\textsuperscript{8})’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured
immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critics with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>') ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is
much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—in-dimensionality-of-desublimating-lack-of—supererogatory—dentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>

subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional-knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation—dentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence—(implicit-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence) will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness—of-axiomatic-construct-or-reference-of-thought over a totalising—self-referencing—
syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/ reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-<perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed
effectively as of deprocryption—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflicatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating—amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation of our supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—and apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with
the ontological-contiguity of the human institutionalisation-process congruent, cogent, and operant entailment framework of ontological-contiguity. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity of the human institutionalisation-process as of Being-development/ontological-framework-expansion as to depth of ontologising-development-as-infrastructure-of meaningfulness-and-teleology and so construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/supercerebrally—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrysticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—⟨transparency-of-totalising-entailing, as to entailing—amplituding/formative—epistemicity⟩totalising—in relative ontological-completeness ⟩’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-prime movers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-
notions/notional–referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness-of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others
works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree \textsuperscript{10} universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness\textsuperscript{7} is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and de-mentating/structuring/paradigming of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory–de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of \textsuperscript{3} deprocrypticism–or–preempting–disjointedness-as-of- reference-of-thought ‘ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ conceptualisation as of ontological-escalation or aetiolisation, with respect to our present positivism–procrypticism disjointedness-as-of- reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework\textsuperscript{7} transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold\textsuperscript{02} of knowledge-construct possibilities and vices-and-impediments\textsuperscript{10} imbued in our positivism–procrypticism disjointedness-as-of- reference-of-thought ‘ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’. Such a paradox of human ontological-performance\textsuperscript{7}–<including-virtue-as-ontology> is effectively construed as arising out of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{4} (I exist therefore

However, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
dispositions, by way of deneuterising — referentialism, in lieu of neuterising. Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance —<including-virtue-as-ontology>) has always involved a disparateness-of-ontologically-construed-social-reality as of on the one hand a dichotomy of ‘intemporal-projection transcendental-enabling/sublimating/supererogatory–de-mentativity abstraction of prospective Being and meaningfulness-and-teleology construal as of organic-knowledge implications and so as reductive construction however non-mechanical and intemporal-as-ontological-its-projection and hence as an open-ended-incompleteness/nonachievement-of-ontological-normalcy/postconvergence construal of social reality’, and on the other hand ‘an ad-hoc open-ended summative hotchpotch conventioning of temporal projections and intemporal projection grounding of social reality construction including organic-knowledge as well as mechanical-knowledge implications’; such that from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective, the overall social Being and meaningfulness-and-teleology transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification—<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

Thus by its deneuterising\^— referentialism construed as of \^ historiality/ontological-eventfulness /ontological-aesthetic-tracing, notional\-- deprocrypticism enables a fundamental ontology-driven \^ postconverging-or-dialectical-thinking\^— psychology or psychology-of-mentation-dynamics or natural\-- psychological-dynamics\’, and so superseding a naïve metaphysics-of-presence\{- implicit\^' nondescript/ ignorable\-- void \^ as-to\^ presencing— absolutising-identitive-constitutedness \} affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of \^ universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory\-- de-mentativity, is that from a creative perspective: the notion of a given \^ neuterising is equinominal/equivalent with a given \^ presencing— absolutising-identitive-constitutedness \^, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this \^ neuterising that human transcendence-and-sublimity/sublimation/supererogatory\-- de-mentativity is achieved from the prospective notional\-- conflatedness \^ of notional\-- deprocrypticism and so by deneuterising\^— referentialism, which is equinominal/equivalent to \^ nonpresencing\^< perspective\-- ontological-normalcy/postconvergence>. In other words the historical implications of human limited-mentation-capacity-deepening\^ is that ‘as of a less and less ontologically-flawed \^ meaningfulness-and-teleology\^ towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions \^ amplituding/formative\-- epistemicity> totalising/circumscribing/delineating \^ reference-of-thought\^ devolving’ as of their given neuterisation\^, construed as equinominal/equivalent with their successively given \^ neuterising. From the above insight, transcendence-and-

However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-

Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to ‘meaningfulness-and-teleology’ whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding ‘meaningfulness-and-teleology’. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness}) and goes on articulating ‘meaningfulness-and-teleology’ even in the new existential transcendental/superseding contextualisation in terms—as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating ‘meaningfulness-and-teleology’ from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. (animistic) prior relative-ontological-incompleteness\-induced,’threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism’ puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology (‘existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of reference-of-thought– devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality construed as of increasing human limited-mentation-capacity-deepening in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’) with respect to the base-institutionalisation (animistic) registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect<as-Being-or-ontological-or-existential–defect>. Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing—apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking—apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-
or-dementing –apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of–
meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to
universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the
temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–
meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no
upholding of transcendental possibilities), to that extent the intemporal-disposition should
rather construe/conceptualise its intemporal-disposition as the tip of human transcendental
institutionalisation possibility and thus inherently that it transversally takes precedence over
human temporal complexes (and such a ‘transversality–of-affirmative-and-unaffirmative–
disambiguated–motif-and-apriorising/axiomatising/referencing’ confliction resolved
intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of
transcendental human progress involving a prior/transcended/superseded reference-of-thought
and a prospective/transcending/superseding reference-of-thought; given the blunt fact that
‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human
progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-
of-register-of–meaningfulness-and-teleology distraction’ with respect to the
institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–

sublimity/sublimation/supererogatory–de-mentativity and transcendental-
enabling/sublimating/supererogatory–de-mentativity associated with intemporality /longness
and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework\textsuperscript{22} as it propounds the supersedingness/primacy/ascendancy of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework\textsuperscript{22} is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and de-mentating/structuring/paradigming \textsuperscript{2}meaningfulness-and-teleology\textsuperscript{99} in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{2}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{22} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflicatedness\textsuperscript{12}. (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework\textsuperscript{22} of \textsuperscript{22}meaningfulness-and-teleology\textsuperscript{99} going by their limited-mentation-capacity-deepening\textsuperscript{52}). transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’\textsuperscript{22} implies more and more profound
reconstruals/reconceptualisations (<amplituding/formative–epistemic>totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogue speaking thus of human sublimation-inducing—textuality/ermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s2 on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporal/asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of
their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology to existential-extrication-as-of-existential-unthought to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality
in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity — of-the-human-institutionalisation-process of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity — of-the-human-institutionalisation-process in the first place; with the notional–deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the "intellectual
projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology of prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} for the conception of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> naively construed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-

exercise as validated by ultimate ontological-primemovers-totalitative-framework with
subsequent corresponding formalisation and secondnaturing. The point of this
construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further
contended going by the reality of human-subpotency—poria/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatedness—temporal-
to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-

a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter
will wrongly imply that we are only intemporal-as-longness-of-register-of—‘meaningfulness-
and-teleology’, which is obviously false since we are temporal-to-intemporal by our mental-
disposition and our virtue with the notional—deprocrypticism registry-worldview/dimension
institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be
superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an
artificial projection that is not real and hence will be ineffective and circular as threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing —apriorising-psychologism. Thus human knowledge is a dynamic
secondnated construct in upholding-and-vouching for the intemporal while preempting of the
temporal, and so beyond-the-consciousness-awareness-teleology-as-of-existential-unthought.

[The notion of ‘beyond-the-consciousness-awareness-teleology-as-of-existential-unthought’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology-as-of-existential-unthought’ speaks of the mental state as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism by its relative-ontological-incompleteness—of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology-as-of-existential-unthought implies ‘conscious’ and/or ‘unconscious’ as of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-
accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology<sup>*</sup>-<in-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-or-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology<sup>*</sup>-<in-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of ‘lack of constraining social universal-transparency<sup>+</sup>-{transparency-of-totalising-entailing,-as-to-entailing}<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) of the psychopath’s mental-disposition of postlogism - (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)), and while construed as beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existentinal-unthought> as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness<sup>-</sup>-of-reference-of-thought, as it leads to ‘lack of constraining social universal-transparency<sup>+</sup>-{transparency-of-totalising-entailing,-as-to-entailing}<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ), associated with the successive uninstitutionalised-threshold states, the
This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking−projective-insights/epistemic-projection-in-conflatedness−of-notional–deprocrypticism-prospective-sublimation) transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but
they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the mechanism by which re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness/of-notional–deprocripticism-prospective-sublimation) transcendental ideas (transcendental in terms–as-of-axiomatic-construct of putting in question the prior reference-of-thought–devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking–apriorising-psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own which makes it unsurprising that even socially is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant-(as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s–reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought–devolving-as-of-instantiative-context) the prior ontological-primemovers-totalitative-
framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology\textsuperscript{9} transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology\textsuperscript{9}) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology\textsuperscript{9}-<in-existential-extrication-as-of-existential-unthought>). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{9-of}-reference-of-thought-‘devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-

and prelogism \textsuperscript{96} (prelogism\textsuperscript{96}-as-of-conviction,-as-to-profound-supererogation -(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at)) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (‘meaningfulness-and-teleology’) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as \textsuperscript{96} perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (more like the ‘covert negative vista’ of the hidden-nature/unavailable social \textsuperscript{103} universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (‘meaningfulness-and-teleology’), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its \textsuperscript{96} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements to be undertaken (as to \textsuperscript{96} logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this
speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect–of–logical-processing–or–logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of
‘social universal-transparency’ which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism-as-of-conviction,-as-to-profound-supererogation re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >=as-to-uninstitutionalised-threshold-self-referencing-syncretising–and–subtransversality–of-motif-and-apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B’s postlogism-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and C, D, E and F relative-ontological-incompleteness-induced-threshold–of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism’ that is ‘in-wait as of prior relative-ontological-incompleteness–of- reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology to enable their conjugated-postlogism, where it is socially-functional-and-accordant to do so. It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant
without negative consequences to its agents so long as it is not socially transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) of perversion-and-derived-perversion-of-reference-of-thought—effective-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > determines how prelogism-as-of-conviction,-as-to-profound-supererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomftrue-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and its protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-
postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism /psychopathy and conjugated-postlogism /social-psychopathy), and as the mere recurrence of such social conflctions associated with the postlogism /psychopathy and conjugated-postlogism /social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (even when other prelogism-as-of-conviction,-as-to-profound-supererogation minds do lack a social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative–epistemicity>totalising~in-relative-ontological-completeness ) of the veridical postlogism /psychopathy and conjugated-postlogism /social-psychopathy underlying phenomena of perversion-and-derived- perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism-as-of-conviction,-as-to-profound-supererogation minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind
(based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vivious postlogism—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—
relevant significant others will enable the registry-worldview’s/dimension’s—reference-of-
thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this 
faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism
-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation vicious acts-and/or-narratives’ as of an association between the ‘postlogism
-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation vicious acts-and/or-narratives’, and ‘compensating directed pseudo-virtue acts-
and/or-narratives’ towards relevant significant others, wherein that compensating is not a trite 
equivalence but rather involves ‘high-proportionality of overcompensating directed pseudo-
virtue acts-and/or-narratives’ relative to ‘specific or given postlogism
-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation vicious acts-and/or-narratives’ in order to enable the postlogism
/psychopathic manifestation achieve the registry-worldview’s/dimension’s—reference-of-
thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and 
subsequent sense of social allegiance with relevant significant others and then corresponding 
‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ towards 
relevant significant others, whether relevant individuals and/or relevant social network, as 
overall ‘social investment’ that should allow its instigated ‘postlogism
-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, 
to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-
deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc 
trite association between committing a given vicious act and initiating a given limited 
‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at 
childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of
association is relatively inefficient for attaining the registry-worldview’s/dimension’s—
reference-of-thought-for-social-functioning-and-accordance (but rather requires a more
profound association of the ‘postlogism -as-of- compelling–
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious
acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As
then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are
relatively universally transparent socially for what these truly are, as rather being associated
with its faulty-mentation-procedure-deception mental-disposition of ‘perversion-of reference-
of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation’ >, ‘than just merely or confused with innocent virtue acts-and/or-
narratives’; and as ‘interlocutors in prelogism’-as-of-conviction,-as-to-profound-
supererogation come to grasp the deliberateness/consciousness of the artificial and
fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’
as a crude-trite-compensating mechanism for its urge to commit ‘postlogism -as-of-
compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood.
Whereas at adulthood psychopathy the overcompensating involves a surreptitious
upending/undermining/blurring of this underlying insight that the ‘high-proportionality
overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality
development derived-from and connected-with such fallacious crude-trite-compensating at
childhood; such that it is then adopted and relayed as contending thus wrongly validating its

This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ systematically enabling the possibility for committing ‘postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation-vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology} (failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism/psychopathy and conjugated-postlogism/social-psychopathy with respect to ontologically-veridical—meaningfulness-and-teleology arises disjointedness-as-of-reference-of-thought; inherent in temporality/shortness and as of postlogism and conjugated-postlogism mental-dispositions (shallowness-of-thought construed as of temporal-extricatory reasoning as well as incoherent and awkwardly implied universal projections, but which actually speaks of totalising—self-referencing—
