Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my
arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/a krasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology} stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-{as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'>} right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating—<amplituding/formative> supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-

As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for
advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness~/immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> ) as this only leads to a destructuring-threshold-{uninstitutionalised-threshold ~/presublimating–desublimating-decisionality}–of-ontological-performance ~/<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity ’> inclinations that poorly appreciate existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness ~/implications of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In many ways this
intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence←in-dimensionality-of-desublimating-lack-of

It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought> ) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such

We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-
ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-`immanent-ontological-contiguity>` not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance-<including-virtue-as-ontology>. same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-

Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as to existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-

Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent—as-in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-confoundedness / transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory epistemic-confoundedness consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in
a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) in human-subpotency social-aggregation-enabling).

We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology, and so in transvaluation; as for instance, it can hardly be
imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatice-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective notional–deprocripticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in conflatedness’ herein implied as ontological-prime movers-totalitative-framework involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ ‘meaningfulness-and-teleology’ as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocripticism-dissemination and thus the knowledge for that right mindset-as-

respect science at its ‘breakthrough-level of scientific accounts’ is rather of relatively high inexactitude/tolerances as nascent scientific conceptions even within say the physics domain are contested, with the critical notion of science-in-practice rather being about ultimate aspiration to continually converge towards more and more exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> scientific accounts); ¶ but then human limited-mentation-capacity-deepening as to aestheticisation–and–aestheticisation-towards-ontology necessarily priorly conforms to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation–<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism–overcoming/unovercoming’> (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence–(<implicit–‘nondescript/ignorable–void ’–as-to–presencing—absolutising-identitive-constitutedness ) notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation–and–aestheticisation-towards-ontology notion of overall human knowledge’ (as to any such non-Western social dynamics

and furthermore such a misnomer as to its metaphysics-of-presence-(implicit-'nondescript/ignorable–void ‘-as-to- presencing—absolutising-identitive-constitutedness’) seem to supersede the more fundamental notion of human underlying ontological-commitment° (as instigatively driving the human out of animality) as to the more pivotal/critical human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,-in-suppererogatory–epistemic-conflatedness” (as reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity°—of-the-human-institutionalisation-process° beyond any identitive conception as Western or non-Western or even differentiation internal to any such Western conception or non-Western conception), thus overlooking the dynamic underlying human constructive and cultural diffusionary process critically leading to various socialsetups dynamics of relative-ontological-completeness° in renewing of human meaningfulness-and-teleology°;¶ human limited-mentation-capacity-deepening thus implies that ultimately the actual knowledge attitude is
that of the creative generation, elucidation and exactifying/precisioning-of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> of human ‘meaningfulness-and-teleology’ and so as to the requisite originariness-parrhesia,–as–spontaneity-of-aestheticisation supererogatory–acuity/perspicacity/astuteness/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation within the artistic framing, philosophical framing or scientific/ontological framing as to their respective aporeticism need for aestheticisation (generativity potential) and/or aestheticisationtowards-ontology (ontological-performance -<including-virtue-as-ontology> potential), and so as we can appreciate that even the artistic as to aestheticisation is much more than just mere patterning but ‘a projection of aestheticising depth’ that speaks of its specific generative, elucidative and exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> aspects as to specific human perception of artistic sublimation,\footnote{\label{footnote1}and in this regards human limited-mentation-capacity-deepening needs to factor in that much of the institutional confusion associated with the artistic, philosophical and scientific speaks more of ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13} existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) conscious and unconscious institutional politics of self-preservation whether from ‘institutionalised philosophy’ or ‘institutionalised science’ as to the overall politicisation of knowledge}
given that human limited-mentation-capacity warrants human institutional specialisations as subdividing the overall human knowledge aestheticisation—and—aestheticisation-towards-ontology (while factoring that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting—of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism—overcoming/unovercoming> is not beholdening to any such human-subpotency institutionalising) implying that scientific achievements are de facto philosophical achievements as inherent to the practice of science is notionally/epistemically ‘implicated philosophy’ whether the scientist is explicitly conscious or not of this such that faced with scientific dilemma some of the most novel philosophies are implicitly articulated in scientific works in need for their philosophical explicitation (as herein explicated as to the fact that nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> actually point to an overall —reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning sublimation as for instance with Newtonian physics pointing to an overall positivism/rational-empiricism —reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning), and likewise the scientific methods/methodologies/approaches were developed by philosophers involved in natural philosophy knowledge-reification —gesturing firstly as thought experiments and thereafter articulating effective practical
methodologies not because they gave up on natural philosophy but because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to ‘exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> framework of controlled experiences involving control methods’ as extension of their normal living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but rather extension of philosophising into methodologically framed and controlled experiences known as experiments (with the naïve perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest–subpotency–<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence> pertinence to which any such scientific
dispensing-with-immediacy-for-relative-ontological-completeness-by-reification-/contemplative-distension epistemic attitude, such that the philosophical nor the scientific cannot be construed as a self-serving conception (as can be so-construed in modern day psychology individual augmentation/enhancement notion in existential-extrication-as-of-existential-unthought) but rather ‘a self-development conception de-mentatively/structurally/paradigmatically construed in association with the development of a better world as to the selfless notional–asceticism implied’ (with a confusion as of individual augmentation/enhancement rather arising from a misconstrual of the Socratic philosophers and their successors like stoics and cynics emphasis on self-development as to the fact that their universalising-idealisation as to their given epoch implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporetism associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporetisms concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific aporetisms reflection of human historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> while
avoiding an epistemically-flawed complex of ‘presencing—absolutising-identitive-constitutedness’; along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-retification orientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation-<unforegroundingdisentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> cannot be transformed and construed as de-mentative/structural/paradigmatic issues of inherent knowledge as of the inherent nature of science or inherent nature of the philosophical (failing to attend to prospective existential aporeticisms while construing the framework of human agreeability and agreeing as knowledge rather than the construal of ontological-veracity as of the impersonal manifestation of the sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as the more fundamental purpose of the intellectual enterprise as to the reality of the fact that true knowledge has ever always been about superseding human limited-mentation-capacity and not defining it as a point of reference however disagreeable the exercise), and in many ways this drawback is
reflected in the modern practice of philosophical interpretations in the humanities as to a relic/artifactual way and academic practice of going about knowledge-reification— that equates/level-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity— as to the proliferation of isms—conceptualisations without any ‘relative-ontological-completeness’

general sense universal/universalised/universalising actually and
precisely refers to ‘totalising-entailing of implied knowledge-

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ ly predisposed human mind’ as of prelogism or prelogism -as-of-conviction,-as-to-profound-supererogation -{existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at} so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation”—postconverging/dialectical-thinking”—apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation”—postconverging/dialectical-thinking”—apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism -as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation -{perverted-outcome-sought-precedes-existentially-veridical-logical-dueness} by its reference-of-thought–devolving-as-of-instantiative-context—meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’
i.e. meaning-as-form or pathologically/compulsively hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism-as-of-conviction,-as-to-profound-supererogation minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation, whether thereafter the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation is rightly or wrongly assumed). Hence prelogism or prelogism-as-of-conviction,-as-to-profound-supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, as logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation is on the basis of a sound reference-of-thought (non–perversion-of-reference-of-thought) such that fundamentally ‘the notion of the dueness for logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation’
normalcy/postconvergence epistemic/notional-projective-perspective, a teleologically-degraded-as-preconverging-or-dementing-apriorising-psychologism differentiation of existential meaningfulness-and-teleology unlike prelogism which ‘induces as of ontological-normalcy/postconvergence perspective, an elevated-as-sound-thinking differentiation of existential meaningfulness-and-teleology’. The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism/preconverging-or-dementing-integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness )) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional~confoundedness of notional~deprocrypticism can be reinterpreted operantly as of ‘notional~referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional~deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-confoundedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional~deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-confoundedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing—apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness -of- reference-of-thought of ‘meaningfulness-and-teleology’’. Neuterising thus refers to human attribution of ‘meaningfulness-and-teleology’ as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its ‘reference-of-thought/dementative/structural/paradigmatic—ontological-performance’-<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional—deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived—perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, that is secondnatured as of its prior relative-ontological-incompleteness -of- reference-of-thought with the consequent implications of relatively defective ‘meaningfulness-and-teleology ontological-performance’-<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness—of—reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness—of—reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism ‘meaningfulness-and-teleology’ relative to the ‘utter and brute’ animistic interpretation as ‘meaningfulness-and-teleology’ neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing —apriorising-psychologism. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,—as-of-its-specific-constitutedness

Basically neuterising as so articulated is the conception of ‘the ontological-performance’–<including-virtue-as-ontology> of the various institutionalisations references-of-thought-devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ so-conceptualised from the notional–conflatedness\textsuperscript{12} of notional–deprocrypticism protensive-consciousness, and such an ontologically-veridical evaluation of neuterising is construed as a deneuterising—referentialism reflecting-ontologically-veridical–affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring–<as-to-postconverging-or-dialectical-thinking\textsuperscript{7}–apriorising-psychologism>’–and-ontologically-flawed–preconverging-or-dementing–apriorising-psychologism/deassertion’ as of the various institutionalisations references-of-thought-devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’. The implication here being that neuterising ‘can be disambiguated as of the fundamental human

This insight equally explains why it is ‘through the deficient derived-construction of conflatedness\textsuperscript{\textcircled{12}}’ that is construed the ontologically-veridical nature of distractive-alignment-to\textsuperscript{\textcircled{2}} reference-of-thought<of-apriorising/axiomatising/referencing>\textsuperscript{\textcircled{29}} destructuring. Understanding and overcoming \textsuperscript{\textcircled{7}}neuterising as such reveals the beyond-the-consciousness-awareness-teleology\textsuperscript{\textcircled{9}}-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{\textcircled{9}} dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of \textsuperscript{\textcircled{1}}de-mentation-(supererogatory\textsuperscript{\textcircled{1}}-ontological\textsuperscript{\textcircled{1}}-de-mentation-or-dialectical\textsuperscript{\textcircled{1}}-de-mentation—stranding-or-attributive-dialectics). apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology", pointing out that the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument has been superseded as of its revealed perversion-and-derived- perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation"> and so as of the uninstitutionalised-threshold rule. This explains why at uninstitutionalised-threshold which are subject to ‘meaningfulness-and-teleology’ neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology’ neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness of reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social—universally-non-transparent—thus-non-constraining-element of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of meaningfulness-and-teleology individuation without temporal/shortness-of-register-of meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived- perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >; as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation—non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness

effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation

Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be
made between a construct of ‘notional–referentialism’ disambiguated as referentialism,
categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive
neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-
contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal
pseudo-referencing and random pseudo-referencing. We can grasp that effectively data
conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as
of ontological-normalcy/relative-ontological-completeness–of–reference-of-thought but then
we don’t always have the capacity to reference ratio-contiguous data and so the other types of
data conceptualisations are available to us as well ‘as of the limitations of our measuring
capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of
<amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-
referentialism’ as of their respective epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness -of- reference-of-thought, so-construed as their ‘neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply
by constitutedness\(^3\) by elaboration-as-mere-

reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-
ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-
reality/ontological-veridicality is a conflatedness\(^3\) of ‘traditional classical mechanics
axiomatic-construct’ by an epistemic-totalising\(^7\)-renewing-realisation/re-perception/re-thought

‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-

in their reflection of the very same <amplituding/formative–epistemicity>totalising–devolved–
purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that
ontologically-veridical meaningfulness is a construction or derived-construction as of inherent
intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it;
the insight here being that ‘relative completeness/profoundness of axiomatic-construct/\textsuperscript{5} reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘\textsuperscript{5} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory-de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of \textsuperscript{5} meaningfullness-and-teleology\textsuperscript{99} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of \textsuperscript{5} meaningfullness-and-teleology\textsuperscript{99} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising -induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of \textsuperscript{5} meaningfullness-and-teleology\textsuperscript{99} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. This explains why it is de-
mentatively/structurally/paradigmatically impossible for either such a non-positivistic social-
setup or our procrypticism social-setup to resolve the vices-and-impediments associated with the corre-
of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments crossgenerationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity(epistemic-contiguity)<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity(epistemic-contiguity)<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of
non-positivistic superstition and its vices-and-impediments\(^{(105)}\). The same applies from a notional–deprocrypticism perspective with regards to a \(^{(8)}\) procrypticism–or–disjointedness-as-of–reference-of-thought mental disposition as an argument seeming to articulate \(^{(9)}\) meaningfulness-and-teleology\(^{(9)}\) in the same disjointedness-as-of–reference-of-thought terms-as-axiomatic-construct by which the procrypticism–or–disjointedness-as-of–reference-of-thought arises in the first place is in circular <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(^{(3)}\) as of the same centered–epistemic-totalisation–reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments\(^{(105)}\) as of that fundamental <amplituding/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology\(^{(9)}\) reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturung such a prospective institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology\(^{(9)}\)’, as of the succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-

Such ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> as of its notional—conflatedness\(^{12}\) as it implies the conflatedness\(^{12}\) of the most ‘sound/profound/complete anticipation/projection/thrownness-disposition as rather of elevation-as-of-prospective-institutionalisation—and—degradation-as-of-uninstitutionalised-threshold\(^{102}\)—de-mentative/structural/paradigmatic-contrastive-devolving-analysis as of their respective reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation and reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold\(^{102}\)’ brings out
in anticipation/projection/thrownness-disposition the overall fundamental elucidative contrast between the ‘degradation/uninstitutionalised-threshold’ unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought projection’ and the ‘elevation/institutionalisation soundness-or-ontological-good-faith/authenticity’ of reference-of-thought projection’ at their respective reference-of-thought devolving-level of analysis; as can be elucidated contrastively between ‘recurrent-utter-uninstitutionalisation uninstitutionalisation and base-institutionalisation institutionalisation’, ‘base-institutionalisation–ununiversalisation uninstitutionalisation and universalisation institutionalisation’, ‘universalisation–non-positivism/medievalism uninstitutionalisation and positivism institutionalisation’ and prospectively ‘positivism–procrypticism uninstitutionalisation and notional–deprocrypticism institutionalisation’. The implication here is that with say notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order to construe ontological-veridicality; as of conflatedness we can’t simply imply the presence universalisation–non–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as the basis of instigating logical-dueness for elucidation and thereof construing ontologically-veridical meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-representation of the presence as universalisationnon–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness will overlook the presence uninstitutionalised-threshold and wrongly represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of elevation/institutionalisation in soundness-or-ontological-good-faith/authenticity–of-reference-of-thought projection’. It is rather the conflatedness projective/anticipative contrast between the said uninstitutionalised-threshold however the mental-reflex complex of presence and the prospective positivism institutionalisation however the mental-reflex complex of the latter’s abstractness as from the presence uninstitutionalised-threshold perspective that

Such notional-conflatedness for ontological-performance<-including-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence-(implicated-epistemic-veracity-of->nonpresencing<-perspective-ontological-normalcy/postconvergence>) when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms–as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought–categorical-imperatives/axioms/registry-teleology ^,-for-,aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. This explains as of metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>) why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-de-mentating/structuring/paradigming/teleological-possibilities as of ⟨warped-or-preclusive-consciousness–neuterising-induced⟩–reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of–reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’! Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/superceratory–dementativity notion as of the (given consciousness’s neuterising-induced)–reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought of meaningfulness-and-teleology which establishes its ‘grounded knowledge construct’, and so because of its denaturing of the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology by way of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity at the registry-worldview’s/dimension’s uninstitutionalised-threshold inducing prior relative-ontological-incompleteness reference-of-thought in need for prospective relative-ontological-completeness reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-dementating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought, and thus rather implies an de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neutering-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neutering-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-

But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations—maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation construed from a succession of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ so implied by an ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ enabling successive prospective relative-ontological-completeness—of-reference-of-thought/ontological-normalcy/postconvergence with respect to human notional limited-mentation-capacity-deepening as of institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism⟩); such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological conflatedness’, and this is important ‘to avoid unduly considering our whole psychical-nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-presence⟨implicited–nondescript/ignorable–void ’-as-to–presencing—absolutising-identitive-constitutedness ⟩’, but rather grasp that

that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation

while on the other hand the grounded uninstitutionalised-threshold recurrently overrides as of constitutedness\footnote{\textsuperscript{13}} beyond-the-consciousness-awareness-teleology\footnote{\textsuperscript{14}}-\textless in-existential-extrication-as-of-existential-unthought\textgreater\  any notion of its ontologically deficient ‘\textless amplituding/formative-epistemicity\textgreater totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of \textless reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold\footnote{\textsuperscript{102}} and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded ‘meaningfulness-and-teleology’, and this explains its ‘\textless reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold\textgreater’, and explaining why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a \textless maximalising-recomposuring-for-relative-ontological-completeness\textgreater\—unenframed-conceptualisation behind the ontological-contiguity\textless of-the-human-institutionalisation-process\textgreater enabling the human existential tale in successive institutional-cumulation/institutional-recomposure-\{as-to-\ \textless historiality/ontological-eventfulness\textless \textgreater ontological-aesthetic-tracing-\} analysis does apply with respect to superstitions, universal human rights, free society, modern science,
etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness —reference-of-thought of same epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/sublimation/supercerogatory—de-mentativity as of opened-construct-of—meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation but presences in their wooden-language—(imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) consider maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as of exceptional-askance and unordinary due to their syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing—apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being—

totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory-de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven
by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising ~devolved~purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising
whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory-de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of
intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–⟨imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness –‘of-notional–deprocrypticism-prospective-sublimation⟩) originary/event–of-prospective-ontology-origination projection into existential-contextualising-contiguity’s–reifying/elucidating-of-prospective-relative-ontological-completeness–of-reference-of-thought–devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework’s interconnectedness as this is often not the primary driving focus, as it is naively
assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness rather than striving to expand the transcendental-enabling/sublimating/supererogatory de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-
completeness\textsuperscript{87}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supereorogatory-dementativity ontological-prime movers-totalitative-framework\textsuperscript{72} renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness\textsuperscript{13} undermining requisite creativity as of conflatedness\textsuperscript{12}, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{99} that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{87}–of–reference-of-thought–devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional–deprocrypticism (protensive-consciousness deneuterising\textsuperscript{16}-induced)-\textsuperscript{83}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness analysis as of its prospective relative-ontological-completeness\textsuperscript{87}–of–reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness\textsuperscript{13} wherein a more profound view
mentation-capacity can most pertinently accede to by "maximalising-recomposuring-for-relative-ontological-completeness"—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of ontological-normalcy/postconvergence insight. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>
imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s neuterising-induced-or-deneuterising—induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising—induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as

Thus, the ontological-veracity as prospective relative-ontological-completeness reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>

imbricatedness/threadedness/recomposuring’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue implied as —meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of conflatedness, thus enabling the ontological-contiguity —of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding-oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal
of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recompusuring; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construed as of naïve constitutedness\(^1\). Of course, it is rather prospective relative-ontological-completeness\(^2\)-of-\(^3\) reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology\(^9\) mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^5\)-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^5\) of existential-instantiations, this points out that existence inherent superseding–oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology\(^9\) is effectively as of a natural transcendental-enabling/sublimating/supererogatory–de-mentativity existential-contextualising-contiguity\(^3\)-of-all-ontologically-veridical-meaningfulness ‘in wait’ to be elucidated however imbricated/threaded/recompusured such an exercise, explaining why our knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of a given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in conflatedness\(^12\) need to be as of a \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\),-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\(^9\), and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating/supererogatory–de-mentativity contextualising-contiguity-
of-all-ontologically-veridical-meaningfulness. existential-For all the above elucidations highlighting the ontological-veracity implications of constitutedness and conflatedness, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness’ lies in the fact that the construal/conceptualisation of an epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology and the inherent ontological-veracity/intrinsicness of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring with the inherent intrinsicness of the
of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness\(^{13}\) and as relatively-perfect/near-perfect/perfect conflatedness\(^{12}\), construed as notional–conflatedness as of constitutedness\(^{13}\)-to-conflatedness\(^{12}\) of human limited-mentation-capacity. Insightfully, it highlights that constitutedness\(^{13}\) arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’. Notional–conflatedness \(^{12}\)/constitutedness\(^{13}\)-to-conflatedness\(^{12}\) as such highlights an underlying historiality/ontological-eventfulness\(^{12}\)/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of the constitutedness\(^{13}\)-to-conflatedness\(^{12}\) dynamism of human limited-mentation-capacity with respect to human ontological-performance \(^{-}<\text{including-virtue-as-ontology}>\)-as-of-its-broadest-implications amenable to human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing

All knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity, universal human rights, etc. doesn’t add anything to ‘abstract/imaginary existence as a pre-given’ pointing to the fact that human existence is about human-subpotency construed as of successive defining transcendentally-enabled-institutionalisation-levels-of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism as levels of human dispensing-with-immediacy-for-relative-ontological-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately supererogatory human-subpotency—effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. supersedingly enlightens the idea of totalising-entailing which is often somewhat articulated as
in the statement ‘the whole is greater than the sum of its parts’ but failing to specifically clarify
that ‘limited-mentation-capacity constitutedness\textsuperscript{13} conceptualisation construes of an
‘ontologically-compromised-mediating,-as-of-its-specific-constitutedness\textsuperscript{3} that is relatively
shoddy and incomplete’ and generates virtuality-or-ontologically-flawed-construal when it construes of parts and whole in a given <amplituding/formative–epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-vericality and so as a derived/unoriginal mental-reflex as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas limited-mentation-capacity conflatedness conceptualisation as of notional-deprocrypticism-as-preempting—disjointedness-as-of-reference-of-thought construes of a ‘non-mediating incisive as referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness profoundness/completeness’ by an incisive <amplituding/formative–epistemicity>totalising-renewing-realisation/re-perception/re-thought that further expands human grasp of the given <amplituding/formative–epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-vericality as a non-derived/original mental-reflex of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the <amplituding/formative–epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-vericality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-vericality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-vericality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a
conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\(^\text{13}\) induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness\(^\text{3}\) meaningfulness-and-teleology\(^\text{99}\). That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness\(^\text{12}\), with no intermediating construct as of constitutedness\(^\text{13}\), thus achieves ontologically-uncompromised-mediating,-as-of-conflicatedness\(^\text{2}\) meaningfulness-and-teleology\(^\text{99}\). While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness\(^\text{13}\) on conflatedness\(^\text{12}\) induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\(^\text{3}\) meaningfulness-and-teleology\(^\text{99}\). This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness as a notional conception in construing meaningfulness-and-teleology\(^\text{99}\), while avoiding its ontologically-flawed constitutedness\(^\text{13}\) construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness\(^\text{13}\) towards ontologically-uncompromised-mediating,-as-of-conflicatedness\(^\text{12}\) is what is effectively and
ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology and-longness-of-register-of-meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective'. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective'. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by 'ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> as of the notional-conflatedness of notional-deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness’ of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historiality/ontological-eventfulness/ontological-aesthetic-

Existential-extrication-as-of-existential-unthought thus highlights the overall constitutedness\textsuperscript{17} of humankind’s access to existence given the ‘imbricatedness/threadedness/recomposuring as of iterating-of-existential-instantiations’, such that humankind’s axiomatic-construct/theory of existence/existential-reality/intrinsic-reality/ontological-veridicality as of its ‘projected-or-anticipated-grandest-existing-axiomatic-construct as \textsuperscript{8}reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ is rather as of various successive relative constitutedness\textsuperscript{18} implied with the successive institutionalisations, and explains a natural human mental-disposition to nihilism as of each of such institutionalisation’s <amplituding/formative> wooden-language-\textsuperscript{-imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{19}–as-of-‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications}> at its uninstitutionalised-threshold\textsuperscript{20} in a mental-reflex aversion of an opened-construct-of–

In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/superoerogatory-de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism-procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for transcendence-and-sublimity/sublimation/superoerogatory-de-mentativity. empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness of reference-of-thought as of ontological-performance of including-virtue-as-ontology arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence-(implicit-nondescript/ignorable-void-as-to-presencing—absolutising-identitve-constitutedness )’ what is existence/existential-possibilities not factoring Being conflatedness totalising-renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity —of-the-human-institutionalisation-process, and further in contradiction to the notion of human totalising-thrownness-in-existence (I exist therefore

Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness-reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology<meaningfulness-and-teleology> for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-meaningfulness-and-teleology<meaningfulness-and-teleology> on such renewed reference-of-thought–categorical-imperatives/axioms/registry-teleology<meaningfulness-and-teleology> and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold! historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflectedor-epistemicity-relativism’>’ fundamentally grasps that the Derridean critique of centered–epistemic-totalisation as impossible to achieve and postulation instead of decentralized-infinite-freeplay is actually a critique arising on the implied assumption of finite human limited-mentation-capacity as of its impossibility as finitely limited to come into the full terms of grasping the full potency of existence/existential-possibilities; but then this author construes that human limited-mentation-capacity is not finite as it deepens as of the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity enabled as of de-mentation⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics⟩ thus involving de-mentative/structural/paradigmatic transformations/shifts of human limited-mentation-capacity ”reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ to grasp existence/existential-possibilities, such that as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-processRETROSPECTIVELY TO PROSPECTIVELY, CENTERED-<amplituding/formative–epistemicity>totalising/circumscribing/delineating ”meaningfulness-and-teleology” as of its attaining of ontological-completeness-of-reference-of-thought is/can-be achieved as ‘involving the superseding/transcending of successively defining human finitudes as the destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance”-<including-virtue-as-ontology> towards attaining successive prospective relative-ontological-completeness—of-reference-of-thought as the institutionalisations’. This thus undermines the implications of a Derridean decentralized-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of meaningfulness-

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance–<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness–of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered–amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance–<including-virtue-as-ontology> in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process or notional–deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance–<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance–<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology ontological-performance–<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemically–

However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same \textsuperscript{amplituding/formative–epistemicity}totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance - <including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human\textsuperscript{amplituding/formative–epistemicity}totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology\textsuperscript{9} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the
cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural difféance is the notion of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation’s reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness of reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as of prospective relative-ontological-completeness of reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-
world/existence and infinity showing up in mathematical models/axiomatic-constructs point to
the fact that there is a circular or undefined or undecidable problem arising from poor human
limited-mentation-capacity conceptualisation implying the given mathematical
model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-

discontiguity/epistemic-discontiguity as of the axiomatic-construct relative notional-
aestheticised-preconverging/dementing ~qualia-schema~ in constitutedness1, and thus a need
for a more ontologically-complete mathematical model/axiomatic-construct that as of human
limited-mention-capacity-deepening then resolves/overcomes the circularity/circular-
existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior
mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-
undecidable with a new mathematical model/axiomatic-construct in relative ontological-
contiguity as of conflatedness, and so as of the very same totalising-devolved-purview-as-domain-of-construal-as-intrinsic-

of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as-to—human totalising-purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as-to—human totalising-purview-of-
construal’ or \(<\text{amplituding}/\text{formative–epistemicity}>\) totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of \(\text{meaningfulness-and-teleology}\) of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/ reference-of-thought’, as the axiomatic-construct/ reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \(<\text{as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’}>\) for human-subpotency possibilities for devolving \(\text{meaningfulness-and-teleology}\) as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, with increasing ontological-performance \(<\text{including-virtue-as-ontology}>\) as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-
validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory—de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory—de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative—epistemicity> totalising—devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity for knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence> with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–
conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibility setup/measuring instrument—for—conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest—subpotencies—in-transitive—conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibility setup/measuring instrument—for—conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory—de—mentativity of the physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain—of—construal—as—intrinsic-reality/ontological-veridicality/existential-reality created axiomatic—constructs with mathematics being accessory to the transcendental—enabling/sublimating/supererogatory—de—mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain—of—study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental—enabling/sublimating/supererogatory—de—mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential
phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory~de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory~de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative—epistemicity>totalising>purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness—of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence—(implicated-epistemic-veracity-of-nonpresencing—<perspective—ontological-normalcy/postconvergence>) that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought
registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working
coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-
world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein
by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective
notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence-{implicated-
epistemic-veracity-of-}nonpresencing-{perspective–ontological-normalcy/postconvergence} and
conflatedness , and further subsumed in the word candidity or candour-capacity. Such
‘suprastructural logic’ is even more damning about the naïve constitutedness construal of
meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a
conception of logic and logical analysis points to the <amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
naivety and vagueness involved when construing logic and logical analysis as absolute without
any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-

usually in our case, in a non-transcendental <amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
that is unconsciously implied as of our positivism–procrypticism registry-
worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical
notions like good, essence and truth as being naively construed as of a given registry-
worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag of ‘meaningfulness-and-teleology’, and
in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and
captures ‘meaningfulness-and-teleology’ as of ‘intemporal ontological-faith-notion-or-

Being as of its implied notional–deprocrypticism’s conflatedness \(^{12}\) provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) as of each registry-worldview/dimension, and it is rather the emanant insight of the Good/understanding/knowledge-reification\(^{66}\)/ontological-primemovers-totalitative-framework\(^{72}\) conceptualisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) that carries the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold \(^{62}\) vices-and-impediments\(^{105}\); and so by successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\(^7\) as base-institutionalisation, \(^{25}\) universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence-(implicitd-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\(^{13}\)). Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology\(^{99}\) correspondence relation with
relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised-preconverging/dementing—qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-verbatimality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-verbatimality/existential-reality and thus carry transcendentally enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening", whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the maximalising—recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or—
conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant implications construing/conceptualising in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process¹, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness¹ as of human limited-mentation-capacity-deepening². Such that human phenomenological<br>²<amplituding/formative–epistemicity>totalising–thrownness-in-existence³<br>(I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance '¬<including-virtue-as-ontology>') is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the conflatedness¹ of human limited-mentation-capacity implications construed from notional–deprocrypticism perspective as ¦historiality/ontological-eventfulness²/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness¹, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence,−disclosed-from-prospective-epistemic-digression-as-of¬<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought,−in-supercerogatory–epistemic–conflicatedness ¹, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology³ as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness¹ as of
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality /longness over temporality /shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality-to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness as of amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications, for-explicating-ontological-contiguity as of maximalising-recomposing-for-relative-ontological-completeness —unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual constitutedness possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness’ upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness as of successive opened-constructs-of—meaningfulness-and-teleology superseding <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology exercise we can’t as of

Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory—de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate
meaningfulness-and-teleology\textsuperscript{99} in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology\textsuperscript{99} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/\textsuperscript{10} reference-of-thought in ontological-contiguity\textsuperscript{66} of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity\textsuperscript{66} can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity\textsuperscript{74}-<shallow-supererogation-of-mentally-aestheticised~preconverging/dementing~qualia-schema> of axiomatic-construct but rather a
problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity /contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought-of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing –qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity”-
Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s-sublimating-nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of \(\text{de-mentation} - (\text{supererogatory} - \text{ontological} - \text{de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics})\) with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/suberogation-de-mentativity brings about prospective relative-ontological-completeness-of-reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking—apriorising-psychologism the prospective institutionalisation’s reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of its prospective relative-ontological-completeness-of-reference-of-thought to override the circularity as notional-discontiguity/epistemic-discontiguity of shallow-supererogation of-mentally-aestheticised-preconverging/dementing–qualia-schema> of meaningfulness-and-teleology implications of the uninstitutionalised-threshold reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of its prior relative-ontological-incompleteness-of-reference-of-thought with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human<amplituding/formative-epistemicity>totalising-purview-of-construal’, and thus broadening human-subpotency in the full-potency of existence/existential-possibilities as

Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness–of–reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness–of–reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the amplituding/formative–epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness–of–reference-of-thought conflatedness which will be unintelligibly to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendent dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the
prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory-de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency ⟨transparency-of-totalising-entailing, as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or
adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as \(<\text{amplituding/formative–epistemicity}\text{-}\text{totalising–self-referencing-syncretising}^\text{33}\) with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as \(<\text{amplituding/formative–epistemicity}\text{-}\text{totalising–self-referencing-syncretising}^\text{33}\) human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\(^\text{99}\) within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness\(^\text{87}\)–of-ref-of-thought occurs because de-
mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of—meaningfulness-and-teleology—given their supposedly coherent ontological-commitment as of more profound ontological-primemovers-totalitative-framework validation as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity—totalising—renewing-realisation/re-perception/re-thought,—in—suppererogatory—epistemic-conflatedness, as re-originary—as—unenframed/unbeholdening/outlier-conceptualisation—imbued-postconverging/dialectical—thinking —projective-insights/epistemic-projection-in-conflatedness —of—notional—deprocrypticism-prospective-sublimation)—that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation—meaningfulness-and-teleology—as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought—with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of—meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of—social-stake-contention—or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of
minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^9\) with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity\(^1\) as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency\(^2\)—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative–epistemicity)totalising—in-relative-ontological-completeness\(^3\) about such metaphoricity\(^5\) instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity\(^6\), also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\(^7\) that is subject to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as—amplituding/formative–epistemicity)totalising—renewing—realisation/re-perception/re—thought—in—supererogatory—epistemic—conflatedness\(^8\) validatory ontological-primemovers-totalitative-framework\(^7\). As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology\(^9\) allows for the possibility for prospective metaphoricity\(^6\) to reconstrue-and-redefine the social-setup meaningfulness-and-teleology\(^9\). Such prospective
metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-
thought,-in-supererogatory-epistemic-conflicatedness epistemic/notional-projective-perspective of relative-ontological-completeness -of- reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism 'meaningfulness-and-teleology'. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophist/pedantic inclinations to such prospective metaphoricity 'meaningfulness-and-teleology'. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—'meaningfulness-and-teleology’-as-of-’nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications>)} means that it doesn’t necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally–collateralising-beholdening-protohumanity’-to-‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-

More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus
undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks dementatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity -<shallow-supererogation –of- mentally-aestheticised–preconverging/dementing –qualia-schema> with their prospectively implied metaphoricity ; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of respectively non-universalising and non-positivism/medievalism dogma prior relative-ontological-incompleteness –of- reference-of-thought warranting their unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring –as-to-preconverging-or-dementing –apriorising-psychologism> for the affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring –as-to-postconverging-or-dialectical-thinking –apriorising-psychologism> of prospective Socratic philosophers universalising-idealisation and prospective positivism

Broadly speaking thus, the amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{66} of prospective relative-ontological-completeness–of reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness–temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ as in effect as of conflatedness\textsuperscript{17} this simply wrongly elevates temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{19} mental-dispositions teleologically-degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{12} and wrongly degrades the intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{19} mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality denaturing\textsuperscript{11} of reference-of-thought–
categorical-imperatives/axioms/registry-teleology while the latter is upholding reference-of-thought for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological- reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of reference-of-thought as of the prospective relative-ontological-completeness-of reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-of reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in

It is most critical because at any registry-worldview/dimension, human self-consciousness is a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a—meaningfulness-and-teleology— that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold—and-its-assorted-and-conjugated-temporal—meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is always perceived as unnatural when <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied prior institutionalisation ‘projected reflex of entailing-

In practicality such human temporal mental-dispositions involve ‘rationalising threads of part-conviction-as-to-profound-supererogation\textsuperscript{96}–or–part–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96} perception-and-relation to meaningfulness-and-teleology\textsuperscript{99} as of social-stake-contention-or-confliction constraints social-functioning-and-accordance of temporal postlogism -slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance\textsuperscript{74}¬<including-virtue-as-ontology>, and so as of beyond-the-consciousness-awareness-teleology\textsuperscript{99}¬<in-existential-extrication-as-of-existential-unthought> reflecting uninstitutionalised-threshold\textsuperscript{92} Being undervelopment; wherein with specific regards to a postlogism\textsuperscript{77}–slantedness/psychologism mental-disposition and less and less so as of temporal exacerbation/opportunism/affordability, such instigated part-conviction-as-to-profound-supererogation\textsuperscript{96} is rather as of a relevant generalised social projection as ‘<amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification\textsuperscript{96}/akrasiatic-drug/denatured/preconverging-or-dementing\textsuperscript{92}—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology \textsuperscript{99}) of veridical supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism’ in relevant social engagement not perceived as of critical social-stake-contention-or-confliction as providing a ‘supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism credibility backdrop’ for subsequent targeted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing\textsuperscript{20}–apriorising-psychologism mental-disposition in relation to specific
implied notional–deprocrypticism. Overall, the fact is that given that what is most relevant to
the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-
profound-supererogation—or–part–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation perception-and-relation to meaningfulness-and-teleology over just abstract
universal propositions, when it comes to social-stake-contention-or-confliction social-
functioning-and-accordance constraints such temporal part-conviction-as-to-profound-
supererogation—or–part–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation mental-dispositions tend to be ultimately translated decisively onto issues of
public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to
imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-
exansion underdevelopment, individuals in positions of social-stake-contention-or-confliction
with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-
habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-
institutional-constraints-and-penalties to perceive such universal propositions as mere
linguistic appendages of relative practical insignificance. The notion of beyond-the-
consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>
is the effective and credible deneuterising enabling articulation that grasps such an ontologically
flawed mental-reflex that recurrently permeates consciously and unconsciously human
phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any
neuterising, the full and complete possibilities of human mental-dispositions as of the
exclusive dynamics of human limited-mentation-capacity across all registry-
worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of–
meaningfulness-and-teleology individuation and temporal/shortness-of-register-of–
meaningfulness-and-teleology individuations of postlogism slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance<including-virtue-as-ontology>. Ultimately, the notion of beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> given its psychoanalytic-unshackling as of prospective deprocryicism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness of Being as implied as of deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of–meaningfulness-and-teleology’ mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that is behind organic-knowledge. Human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology\(^\text{10}\)<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold\(^\text{20}\) in temporal/shortness-of-register-of– meaningfulness-and-teleology\(^\text{20}\) terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity —of-the-human-institutionalisation-process\(^\text{17}\) arises exactly to ensure deferential-formalisation-transference seconndnatureing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness\(^\text{18}\)-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing\(^\text{18}\)—apriorising-psychologism’ is in a state of <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism\(^\text{15}\)/perversion-of–reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(>\) (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking –apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/ reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought that is ontologically-speaking to be construed as the de-mentative/structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism worldview). We can appreciate such metaphysics-of-absence-(implicated-epistemic-veracity-of nonpresencing–<perspective–ontological-normalcy/postconvergence>) insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced intemporality/longness behind the ‘inventing of the base-institutionalisation culturally diffused knowledge’ for an optimum accrual of the Being-development/ontological-framework-
reference, like a mystical knowledge construal, of the very same physics—amplituding/formative—epistemicity—totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicus, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory—de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory—de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology with respect to the prospective registry-
worldview/dimension as resolving the vices-and-impediments of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, there is an ever present issue of Being underdevelopment as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor wherein institutionalising reference-of-thought—categorical-imperatives/axioms/registry-teleology are always subject at uninstitutionalised-threshold to their denaturing as of their <amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology), as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturung of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that
the ‘normal social temporal-to-intemporal mental-dispositions as of

appropriate framework for engaging their subject-matter, as they rather promoted formal
knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal

<amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-

derminating of the intemporal-projection of their specific knowledge/science, as they
contribute in overall Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of– meaningfulness-and-teleology09. The point
here is that at uninstitutionalised-threshold102 the idea of ‘equal opinionatedness’ doesn’t apply
by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by
<amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-

but rather ontological-pertinence, and the point in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity —of-the-human-institutionalisation-process—as knowledge-led is to harness ontological-pertinence and not <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}—as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primumov-em-totatiative-framework—overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance—<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—<for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency’—(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing
institutional deferential-formalisation-transference and percolation-channelling, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendent-deliminating/sublimating/supererogatory–de-mentativity as to existence-potency–sublimating–nascence, disclosed from prospective-epistemic-digression as of <amplituding/formative–epistemicity> totalising–renewing–realisation/re-perception/re-thought, in supererogatory–epistemic-confoundedness; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative> wooden-language–(imbued—temporal–mere-form/virtualities/dereification /akrasiac-drag/denatured/preconverging-or-dementing”–narratives—of-the “reference-of-thought” categorical-imperatives/axioms/registry-teleology ),–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind prior
‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; –ultimately the very paradox of human \(<\text{amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing ‘meaningfulness-and-teleology’ value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation to presence, rather than as of \(<\text{amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought}\) of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity\(^\text{21}\)-\(<\text{shallow-supererogation}–\text{of-mentally-aestheticised–preconverging/dementing}–\text{qualia-schema}\). However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’, the insight about human \(<\text{amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag}\) as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of–meaningfulness-and-teleology\(^\text{99}\) psychoanalytic-unshackling positive-opportunism\(^\text{75}\) can crossgenerationally be induced for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’\(^\text{99}\) despite the inherent circular distractiveness of temporality\(^\text{98}\), and ultimately so as enabled by ‘social universal-transparency\(^\text{103}\)–(transparency-of-totalising-entailing,-as-to-entailing–\(<\text{amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}\)’). The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is
instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory-de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency —{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}’. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling—in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity of shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity of reference-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same
registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism
meaningfulness-and-teleology mindset as well as its distance rather with respect to physical
reality, such a transcending reification gesturing as of the grandest axiomatic-constructs
having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein
the prospective ontological-contiguity reference-of-thought as deprocrypticism—or–
preempting—disjointedness-as-of reference-of-thought implies a transcending reification
gesturing that not only affirms notional–deprocrypticism prospective registry-

dialectical-thinking as of its ontological-completeness-of-reference-of-thought de-asserts/demuts our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional–deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold–(uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance–<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common-reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness-of-reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness-of-reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same-reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in ontological-contiguity and ‘traditional classical mechanics axiomatic-construct’ of notional-discontiguity/epistemic-discontiguity—<shallow-

This insight reflects the reality of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67} associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfullness-and-teleology\textsuperscript{9}, wherein uninstitutionalised-threshold\textsuperscript{02} mental-reflexes of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in their incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{08} tend to perpetuate the representation of prospective institutionalisation as nondescript/ignorable–void\textsuperscript{7} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing\textsuperscript{19}-narratives) in an ontologically-flawed dereification\textsuperscript{06} gesturing of neuterisation\textsuperscript{04}, rather than maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{07}—unenframed-conceptualisation as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought implied as of prospective institutionalisation’s deneuterising\textsuperscript{16}. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold\textsuperscript{02} mental-reflexes of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{19} which is ‘ontologically flawed and wanting’ but rather is as of a maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{07}—unenframed-conceptualisation intemporal-projection transcendental-enabling/sublimating/supererogatory-de-mentativity for prospective
reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’
over the ‘transcendental-reasoning-of-event’-as-prospective-ontology-origination’ is
fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential
investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-
and-sublimity/sublimation/supercerebration-de-mentativity that fully brings about the adaptation
of the induced ‘transcendental-reasoning-of-event’-as-prospective-ontology-origination’ as the
‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a
circular predisposition arises due to human temporal-dispositions as of Being
underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology-
<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as
mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to
as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the
mere positive-opportunism it engenders at best’ with little or no cognisance that there is an
attitude/mental-disposition/care–and–episteme as of intemporality/longness behind
‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’
and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-
knowledge requires the articulation of meaningfulness-and-teleology rather in
nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct
as the profound-and-complete articulation of knowledge, and as the very attitude/mental-
disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-
unshackling for its reception. In other words, we can’t seriously contemplate a profound
positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset
without the idea of priorly eliciting the appreciation-and-adoption of a positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness of reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of reference-of-thought terms–as-of-axiomatic-construct as of prior relative-ontological-incompleteness of reference-of-thought meaningfulness-and-teleology, even though in the latter case our \(<\text{amplituding/formative–epistemicity}>\) totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence\(\{\text{implicated}–\text{nondescript/ignorable–void}\}–\text{as-to– presencing}–\text{absolutising-identitive-constitutedness}\) blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives) as of our \(<\text{amplituding/formative–epistemicity}>\) totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming and not temporal extricatory de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation/reference-of-thought. attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology. It further implies a ‘the human toddling potential’ for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology; with the ‘human toddling potential’ implying the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–
reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <amplituding-formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-

able to achieve transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, and
so as of intemporality. With regards to living-as-of-human-personality-developing, we can
appreciate in the case of a child’s personality development as of its given attitude/mental-
disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-
ontological-completeness -by-reification/contemplative-distension as of its more direct
focus on instant-sensations-and-carefreeness requiring that the child is directed to end at
successive stages infantile habits as it grows up with an increasing sense of dispensing-with-
immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility,
and developing into an adult with even greater dispensing-with-immediacy-for-relative-
ontological-completeness-by-reification/contemplative-distension as for instance the notion
of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-
development—as-to-personality-development as dispensing-with-immediacy-for-relative-
ontological-completeness-by-reification/contemplative-distension is construed as the more
profound attitude/mental-disposition/care–and–episteme for human optimum living, and so
over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living.
With regards to the second-level of social aetiologisation/ontological-escalation associated with
‘attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-
ontological-completeness-by-reification/contemplative-distension’, for achieving
apriorising/axiomatising/referencing’\textsuperscript{101} inducing a given specific ‘nonpresencing-

relative-ontological-completeness\textsuperscript{7}–or-incompleteness-of–reference-of-thought as of the
construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding
the underlying framework of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9} associated with that
attitude/mental-disposition/care–and–episteme\textsuperscript{5}. It can be construed with regards to prospective
transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity as a de-
mentative/structural/paradigmatic adjunctive-metaphoricity\textsuperscript{6}–signification inducing-and-
upholding a prospective ‘underlying \textsuperscript{83}amplituding/formative–epistemicity\textsuperscript{83}–
totalising/circumscribing/delineating signifying-construct as
\textsuperscript{amplituding/formative–epistemicity}–totalising/circumscribing/delineating ‘reference-of-

thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly
apprehended decisively by its given attitude/mental-disposition/care–and–episteme as of the
‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated-
‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{101}. This insight is critical as for instance with
appreciating what is implied by futural Being-development/ontological-framework-expansion–
as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9} as
of prospective \textsuperscript{1}deprocrypticism–or–preempting—disjointedness-as-of–reference-of-

attitude/mental-disposition/care–and–episteme by its given specific nonpresencing-
<perspective–ontological-normalcy/postconvergence> outcome; as we simply have to
project/anticipate its ‘assumed-and-unflinching transversality–of-affirmative-and-
unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\textsuperscript{101} implied as of
preempting—disjointedness-as-of–reference-of-thought construed as thinking as it remains
attitude/mental-disposition/care–and–episteme for prospective institutionalisations as mainly concerned with the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as absolute reference of ‘meaningfulness-and-teleology’ ‘with little sense of coherence as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’, and thus the latter cannot unlike the former be the framework for aetiologisation/ontological-escalation as of universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as intemporality/longness or eliciting of wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-ofmeaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications’. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness—or–reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter
dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity\textsuperscript{61} -<profound-supererogation\textsuperscript{96} -of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\textsuperscript{ } -<shallow-supererogation\textsuperscript{96} -of-mentally-aestheticised-preconverging/dementing –qualia-schema> given the latter’s flawed de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness-of-reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating\textsuperscript{supererogatory} –de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\textsuperscript{103} exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling \textsubscript{amplituding/formative}\textsubscript{wooden-language-}\textsubscript{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>\textsuperscript{}}). Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology\textsuperscript{}}.
denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness—of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness—of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing—<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-
mentatively/structurally/paradigmatically conflicted’, with prospective transversality-of affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naïveté of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ) scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology <-in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the
very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the ‘presencing—absolutising-identitive-constitutedness’ attitude/mental-disposition/care—and—episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the ‘meaningfulness-and-teleology’ within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective ‘nonpresencing—<perspective–ontological-normalcy/postconvergence> sublimity/sublimation/supererogatory—de-mentativity episteme transcendence-and-attitude/mental-disposition/care—and—reference-of-thought supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfullness-and-teleology—and—attitude/mental-disposition/care—and—episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notion—conflatedness of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency—<transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness>}; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-
advancing such an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>) and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory-de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-
presencing–hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation.

While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of
immediacy and temporality /shortness as of <amplituding/formative> wooden-language-

The notion of beyond-the-consciousness-awareness-teleology \textsuperscript{4}—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{4} also highlights theoretically why the Husserlian epoché or bracketing method construed as eidetic reduction is ontologically-flawed by its constitutedness\textsuperscript{11} as it naively imply circumscribing-as–‘epistemic-totality’/delineating-as–‘epistemic-totality’\textsuperscript{11}—meaningfulness-and-teleology\textsuperscript{19} for its essence in presence, rather than the fact that presence \textsuperscript{11}reference-of-thought as ‘metaphysics-of-presence–(implicated–‘nondescript/ignorable–void’–as-to–’presencing—absolutising-identitive-constitutedness’) is de-mentatively/structurally/paradigmatically an ontologically-flawed bracketing or epoché as of ontological-normalcy/postconvergence, and is representing metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>) implications as nondescript/ignorable–void \textsuperscript{12} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives)’ when it comes to presence uninstitutionalised-threshold \textsuperscript{12}—<shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema>/relative-ontological-
drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-
directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology\textsuperscript{-\textless in-existential-extrication-as-of-existential-unthought\textgreater } undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of \textsuperscript{-\textless meaningfullness-and-teleology\textgreater } ontological-performance\textsuperscript{-\textless including-virtue-as-ontology\textgreater } turning rather towards social-aggregation-enabling implications as \textsuperscript{-\textless meaningfullness-and-teleology\textgreater } ontological-performance\textsuperscript{-\textless including-virtue-as-ontology\textgreater }, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{-\textless meaningfullness-and-teleology\textgreater } as of ontology's-directedness-as-Being going by the human intemporal/ontological/social/species/\textsuperscript{-\textless universal/transcendental\textgreater } maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{-\textless unenframed-conceptualisation de-mentating/structuring/paradigming\textgreater }. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality\textsuperscript{-\textless shortness or intemporality\textgreater }; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a

uninstitutionalised-threshold such intemporal-as-ontological meaningfullness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating —<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal percolation-channelling—<in-deferential-formalisation-transference> to attain social approbation. It is such a ‘conflatedness’ structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling—<in-deferential-formalisation-transference> to attain social approbation’ that holds together in social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity> totalising—<totalising—in-relative-ontological-completeness⟩ temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfullness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfullness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfullness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling—<in-deferential-formalisation-transference>. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler
<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance <-including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional–deprocrypticism as preempting—
disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our \footnote{amplituding/formative–epistemicity}totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence \footnote{amplituding/formative–epistemicity}totalising–thrownness-in-existence) implies the need for a sound perpetuating construct of \footnote{meaningfulness-and-teleology}universal projection as intemporality \footnote{meaningfulness-and-teleology}universal projection as intemporality−or-longness-of-register-of−\footnote{meaningfulness-and-teleology}meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative \footnote{meaningfulness-and-teleology}universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as
a positive act a reactionary construal is hardly of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–dementativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective
implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing--<perspective–ontological-normalcy/postconvergence>) as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-perceiving/re-thinking beyond our apparently constricted metaphysics-of-presence-(implicit-'nondescript/ignorable–void 'as-to- presencing—absolutising-identitive-constitutedness ) framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of
existence/existential-possibilities. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—human<amplituding/formative–epistemicity>totalising—purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further conflatedness as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of

Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a conflatedness’ and so construed from the perspective of totalising–conflated–meaningfulness-and-teleology—as-of-notional–deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ actually ended up inducing constitutedness in striving to construe meaningfully—that vaguelly from phenomenal-abstractiveness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This notion of conflatedness\textsuperscript{12} construed of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness\textsuperscript{13} as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness\textsuperscript{13}. handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in
the naïve human mental-reflex of implying that ‘a given human determination of the effecting

for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities
of existential-instantiations outside any such reference-of-thought determination; such
reference-of-thought determination being affixed rather in constitutedness as of any of the
taking its cue from the conflatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness of existence as of prospective relative-ontological-completeness of reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>-with-the-latter-only-a-bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening-limited-mentation-capacity,-as-limited-mentation-capacity-deepening due to inherent human temporality/shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> as of the notional–conflatedness of notional–deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology-as-of-notional–deprocrypticism-reflected–historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> ontological-performance <including-virtue-as-ontology>, so-derived as it solipsistically constructs-and-reconstructs underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-
The ‘underlying totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of totalising–renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always totalising/circumscribing/delineating and is effectively signifying a ‘reference-of-thought as of ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’. Such centered-meaningfulness-and-teleology construed as ‘reference-of-thought, and its signification as implied by an ‘underlying totalising/circumscribing/delineating signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-teleology is as of a ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or—

But then an adjunctive-metaphoricity–signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/cross-generationally to be of an even greater meaningfulness-and-teleology <amplituding/formative–epistemicity> totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct of language’; and so as
epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of ‘meaningfulness-and-teleology’. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe ‘meaningfulness-and-teleology’ as not self-referentially covered by the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity -significations to that prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human ‘meaningfulness-and-teleology’ and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay constrained here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-

another respect with regards to language acquisition as mirroring a child’s existential

perspective, develops as of a dynamics of adjunctive-metaphoricity -significations in

existential overtures constraining-and-cohering the child’s adoption-of/integration-with the
supposedly ‘underlying <amplituding/formative–

peculiar, intuitive and dynamic developing metaphority where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating signifying-construct of language}\) as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’!’

Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\) dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human
existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. metaphoricity is thus rather construed as of its overall conflatedness of full consciousness development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social ‘meaningfulness-and-teleology’ as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective rhetorical-stylistic-semantic delivery, and as such metaphoricity induces totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay, ‘underlying signifying-construct of language’ and together with its associated adjunctive-metaphoricity -significations. Overall, human explicit
and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity\textsuperscript{significations conflatedness} reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity\textsuperscript{significations conflatedness} as of syncretising-effecting as ultimately converging towards a deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différence-freeplay’ construed as différence in conflatedness associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différence-freeplay as underlying human limited-mentation-capacity induced différence highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-
of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supercratory-de-mentativity. accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-
as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différence-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporalitý-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différence-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-

Basically, just as the adjunctive-metaphoricity –signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’\>, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity\^–signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’\>. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising —referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness\^ that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\> as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such \^presencing—absolutising-identitive-constitutedness\> privilege undermining as of transcendental outcomes implied by
While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence– or–transcendental-reasoning-of-event–as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-
teleology\textsuperscript{9}, and so as disambiguating \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13} from \textsuperscript{6}nonpresencing-\textsuperscript{<}perspective–ontological-normalcy/postconvergence\textsuperscript{>} by their respective \textsuperscript{supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-}
\textsuperscript{apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument}, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13} as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{2} between \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13} and \textsuperscript{6}nonpresencing-\textsuperscript{<}perspective–ontological-normalcy/postconvergence\textsuperscript{>}} (rather than difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{3}), and so contradictorily as if both are of the presencing \textsuperscript{supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-}
\textsuperscript{apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument}. With the reality that \textsuperscript{6}nonpresencing-\textsuperscript{<}perspective–ontological-normalcy/postconvergence\textsuperscript{>} is wrongly-and-unsuspectingly given as of common \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13}, thus inducing a relative ontologically-flawed quasi-transcendental freeplay as \textsuperscript{6}nonpresencing-\textsuperscript{<}perspective–ontological-normalcy/postconvergence\textsuperscript{>}} is rather in notional-discontiguity/epistemic-discontiguity –\textsuperscript{<}shallow-superegeration –of-mentally-aestheticised–preconverging/dementing –qualia-schema\textsuperscript{>}} when analysed as of \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13}. Consider in this regard ‘the very same physics \textsuperscript{amplituding/formative–epistemicity} totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior relative-ontological-incompleteness\textsuperscript{18} being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness\textsuperscript{19}–of-axiomatic-construct-or- reference-of-thought being the theory-of-relativity-together-with-

Consider in this regard that the ‘Derridean quasi-transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity—of-mentally-aestheticised~preconverging/dementing—qualia-schema> between the two as of their distinct supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument. Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics’ transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the theory-of-relativity-together-
with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-
<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean
quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences
with respect to presencing—absolutising-identitive-constitutedness since it is reflected with
the Glas experimental project, but it fails to recognise the possibility of a futural différance
where meaningfulness-and-teleology is construed as of the prospective nonpresencing-

explains such a Derridean conclusion that human sublimation is an always evasive notion given
its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of

Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation~<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. So because at the point of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-
absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re—thought,—in—supererogatory—epistemic-conflatedness as validatable by ontological—primemovers—totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is more than just imagination which rather comes prior to and is exhausted-and-superseded-by-reasoning. Such a lack of prior certitude explains why transcendence—and—
logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> and unaffirmation/deprojection/deassertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism> respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its meaninglessness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-
thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology^6<in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme^7 from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance ^7<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative–epistemicity>totalising~thrownness-in-existence^72 (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance^71<including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the
American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology’ <-in-existential-extrication-as-of-existential-unthought>, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals
perception/re-thought, in supererogatory epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness -of-axiomatic-construct-or reference-of-thought formative–epistemicity causality-as-to-projective-totalitative--implications, for explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity--or--ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness of reference-of-thought; and so, of the successive base-institutionalisation, universalisation, positivism and notional-deprocrypticism registry-worldviews/dimensions respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-
afterthought of prior nonpresencing-perspective-ontological-normalcy/postconvergence even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising as it fails to construe of meaningfulness-and-teleology projectively as of prospective existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-

amplituding/epistemicity totalising-renewing-realisation/re-perception/re-thought-in-suprerogatory-epistemic-conflatedness as so validatable by their ontological-primemovers-totalitative-framework. Hence it is ‘more real in its human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation understood as a double-gesture reification for prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought’ by its maximalising-recomposing-for-relative-ontological-completeness-unenframed-conceptualisation as to existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-

supererogatory-epistemic-conflatedness\(^2\) than any other prior non-constructed
meaningfulness-and-teleology\(^9\) simply because of the profoundness of its phenomenological
depth of projection/anticipation in the quest for ontological-primemovers-totalitative-framework\(^2\) validation, which ordinary \(<\text{amplituding/}	ext{formative}\>\) wooden-language-(imbued—
averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology\(^9\)-as-of-‘nondescript/ignorable–void\(^{17}\)-with-regards-to-prospective-apriorising-implications>) doesn’t even bother contemplating about by its \(^\text{incrementalism-in-relative-ontological-incompleteness}\) —enframed-conceptualisation reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^8\) as of existence’s \(^9\) presencing—absolutising-identitive-constitutedness\(^4\). This social knowledge \(^4\) human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(^2\) insight translate the reality that
‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue
that they are departing, as of their \(^8\) reference-of-thought, from a less real position to evaluate a
more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of \(^4\) human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(^2\). For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness\(^9\)-of-\(^9\) reference-of-thought. It is human limited-mentation-capacity-deepening\(^2\) as of prospective relative-ontological-completeness\(^9\)-of-\(^9\) reference-of-thought as subsequently assuming as more
real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given—whatever—it—is—that—is—given’, but about human limited-mentation—capacity—deepening for human emancipation. Thus implying existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence—as—of—existential—reality/existence-potency—sublimating—nascence,—disclosed—from—prospective—epistemic—digression—as—of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflatedness/intrinsic—reality/ontological—veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity—deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains—whatever—it—is—ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency
development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising ‘meaningfulness-and-teleology’ that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective ‘meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ that led to human limited-mentation-capacity-deepening”. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of—the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective ‘meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is
susceptible to construe of the presence as of metaphysics-of-presence-(implicated-
‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-
constitutedness'/illusion-of-the-present/present-consciousness/mirage, with hardly any
contemplation of the retrospective and prospective projective-insights for construing
ontologically-veridical ‘meaningfulness-and-teleology’. This paradox for human knowledge,
as implied with the postmodern double-gesture reification, highlights that the human de-
mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country
of the blind narrative, with the more critical issue being about ‘human blindness which needs to
be resolved first before proceeding to see’, as what is to be seen as of the world is already
given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary knowing-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the
idea of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/’ reference-of-
thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as
underlying a given registry-worldview’s/dimension’s reference-of-thought for
‘meaningfulness-and-teleology’ conceptualisation and ontological-performance’<including-
virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise
that human limited-mentation-capacity deepens by knowing-subject-emancipatory-relativism-
driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously
amounts rather to construing of a prospective registry-worldview/dimension
institutionalisation’s reference-of-thought as of its prospective relative-ontological-
completeness -of- reference-of-thought in terms of the prior registry-worldview/dimension
uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it
prior relative-ontological-incompleteness -of- reference-of-thought. The argument
traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness -of- reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’-<including-virtue-as-ontology> as to presublimation and nascent-sUBLimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness -of- reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness—of—reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness −’, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness-{as-to—historicity-tracing—in-presencing–

The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of—reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging-or–dementing –apriorising-psychologism while the postmodern is postconverging-or-
dialectical-thinking---apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought is actually a point of prospective de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme ’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-mentation-capacity prospective relative-ontological-completeness -of- reference-of-thought <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity ; wherein for instance, for the recurrent-utter-uninstitutionalisation —reference-of-thought ill-health is as of an existential-contextualising-contiguity —lowest-level-reification perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the ‘hitherto

In both cases, the fundamental issue once universal-transparency–(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) avails as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness , as herein implied originarily/as-of-event with the ‘prospective/new postmodern deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought

The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\( \rangle \), at the uninstitutionalised-threshold\( \rangle \), is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of \( \) universal-transparency\( \rangle \) \( \langle \) transparency-of-totalising-entailing,-as-to-entailing-\( \langle \) amplituding/formative–epistemicity\( \rangle \) totalising--in-relative-ontological-completeness\( \rangle \) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent
ontological-primemovers-totalitative-framework” is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness of reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the <reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–
epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology<-<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–⟨imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation⟩) originary/event–of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating–⟨amplituding/formative⟩supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’
framework over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ de-mentating/structuring/paradigming of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’, as of successive prospective relative-ontological-completeness–of–reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness–of–reference-of-thought given its prior lack of ‘detour to social...
goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness-of-reference-of-thought supersedes the prior relative-ontological-incompleteness-of-reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance-including-virtue-as-ontology of any ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern depoprocrpticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness of reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness of reference-of-thought, this induces constitutedness as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought is rather a notional~conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness of reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of- reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary–as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness‘of-notional–deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating —<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative- rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ thus implying rather a notional–deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation parameterisation/reparameterisation—(reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)-as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-

‘human<ampelicity/formative–epistemicity>totalising~purview-of-construal’, in defining which
reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed meaningfulness-and-teleology. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present
attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising -as-of-prospective-relative-ontological-completeness-of reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ construed as of deprocrypticism—or–preempting—disjointedness-as-of reference-of-thought is thus in its potentiation the very summum for the
subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness of reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporal at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness of reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness of reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual
ignorances to better skew ‘meaningfulness-and-teleology’ towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

But then with respect to the possibility of prospective human transcendence-and-

ununiversalisation only, universalisation–non-positivism/medievalism only or in our case positivism–procrypticism only, with a rather poor inkling for appreciating meaningfulness-
and-teleology\(^9\) as of a protracted-consciousness associated with grasping Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as–
exercise to resolve the technical problem. This outlook is actually ‘seeded’ within dimensionality-of-sublimating — supererogatory—de-mentativeness/epistemic-growth-or-confatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology . Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is ‘appropriate prospective institutionalisation secondnaturung metaphoricity ’. Consider in this regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as of its reasoning-from-results/afterthought logocentric constitutedness . Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics
purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity\textsuperscript{56} further even when we contemplate that in many ways these metaphoricity\textsuperscript{56} relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity\textsuperscript{56} possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of \textsuperscript{56}nonpresencing-\textsuperscript{perspective–ontological-normalcy/postconvergence}; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{87}/by-reification\textsuperscript{86}/contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor,—in-overcoming—’notionally–collateralising-beholdening-protohumanity’—to—’attain-sublimating-humanity’—as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory–epistemic-conflatedness\textsuperscript{12} to supersede human temporality\textsuperscript{98}/shortness <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{99}—as-of—’nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>)) with respect to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, the further insight of ‘out
of thin air’ metaphoricity as of human limited-mentation-capacity-deepening comes with the possibility of its ontological-prime mover-totalitative-framework validation by existence-potent subliming-nascence, disclosed from prospective epistemic digression as of-amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought, in supererogatory-epistemic-confoundedness. In this regard, the ontologically-veridical ‘postmodern deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility setup/measuring instrument attitude/mental-disposition/care—and—episteme’ with respect to our modern take<amplituding/formative> wooden-language (imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—’nondescript/ignoreable—void ‘-with-regards-to-prospective-apriorising-implications)> reasoning-from-results/afterthought logocentric constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of ‘procripticism—or—disjointedness-as-of-reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness-of—reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive—constitutedness consummated/non-feiting posture’ with respect to establishment social stakes,

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-
framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative–epistemicity>–totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental ‘meaningfulness-and-teleology’, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating —<amplituding/formative> supererogatory—de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking’—apriorising-psychologism’ as positivism/rational-empiricism thinking or notional–deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory—de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived
secondnaturing of prospective institutionalisation, and so as of implied ‘reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of-de-mentation-{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} enabling its prospective relative-ontological-completeness’. dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness⟩/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation articulation of reasoning-through/messianic-reasoning cannot be construed as amenable to the contending disposition of prior deferential-formalisation-transference secondnatured institutionalisation, thus the irrelevance/impertinence of any such implied contending as of prior reasoning-from-results/afterthought, as any such contention can only re-arise as of the reasoning-through/messianic-reasoning renewing of secondnatured prospective ‘reason-from-results’/afterthought. Thus the direct implication of reasoning-through/messianic-reasoning is that it can only call upon ‘a kindred sense of things’, as of dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness⟩/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation contemplation that can surpass/overcome temporal nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void ’with-regards-to-prospective-apriorising-implications>} as of a protracted-consciousness cognisant of the prospective ontological-performance—⟨including-virtue-as-ontology⟩ and human emancipation implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology⟩. It
should be noted here that the notion of \textit{amplituding/formative} wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) as of its nihilism rather speaks to social apathy towards veridical prospective ontological possibilities of emancipation as of aetiologisation/ontological-escalation implications going by the very implications of knowledge-reification\textsuperscript{86} as being as of the relative-ontological-completeness\textsuperscript{87} perspective, and is not to be confused with naïve and literal interpretations in ‘untransvaluated–temporal-intemporality\textsuperscript{11} non-ontological terms of social-stake-contention-or-confliction conceptualisations’ that wrongly seem to imply that knowledge-reification\textsuperscript{86} can be contemplated paradoxically as being as of the relative-ontological-incompleteness\textsuperscript{97} perspective as may be reflected by mere conceptual-patterning in \textit{presencing—absolutising-identitive-constitutedness}\textsuperscript{13} without contemplating that the underlying knowledge-reification process/gesturing implications is definitely as of the relative-ontological-completeness\textsuperscript{87} perspective since a untransvaluated–temporal-intemporality\textsuperscript{11} non-ontological interpretation will rather imply knowledge dereification\textsuperscript{86} and endemising/enculturating of temporal-dispositions as of vices-and-impediments\textsuperscript{15} for the simple reason that the latter ‘cannot be ignored and then by magic become virtue’ as the overall for knowledge-reification is to understand human destructuring-threshold-(uninstitutionalised-threshold\textsuperscript{15}/presublimating–desublimating-decisionality)—of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> and then bring about prospective constructiveness-of-ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—‘hermeneutically/reprojectively-educing’–human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>. This tendency to misconstrue the meaning of

But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of the Socratic philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia—as—spontaneity-of-aestheticisation disseminative events induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-as—existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought,—in-

fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as—sublimating-withdrawal,—eliciting-of-prospective-supererogation and so as of prospective projection as implied with the ontological-contiguity—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—immanent-ontological-contiguity—> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ failing to conceive of the ontological-veracity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process—dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-

In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of
aestheticisation before converging towards ontologisation, just as rightfully implied by
Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively
implied with Nietzschean thought) since aestheticisation convergence towards ontologisation
leads to grander ontological-performance ⟨including-virtue-as-ontology⟩. In this regards, we
can appreciate that while from our vantage modern perspective the ontological-veracity of the
Egyptian cultural system aestheticisation behind the construction of the pyramids will seem
inherently impertinent, but that specific human aestheticisation induced technical, scientific and
mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can
appreciate that while for the atheist the ontological-veracity of religion is unproven, however
various specific religions human aestheticisation in many ways relayed laterally the
ontological-veracity of universalising-idealisation thinkers as of the relatively conducive
social conditions allowing for the arrival of medieval thinkers who then instigated the
possibility for modern day science ontologisation; and besides, it can equally perfectly be
claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient
ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern
activities (even those associated with technological development) held as of higher
interest/worth which ontologisation value is questionable with respect to other possible
activities of grander ontologisation but not necessarily held as of higher interest/worth (with the
very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to \(<amplituding/formative>\) wooden-language–(imbued—averaging-of-thought–\(<as-to-leveling/ressentiment/closed-construct-of–‘meaningfulness-and-teleology’–as-of–‘nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>));

philosophers' universalising-idealisation and budding-positivists projected meaningfulness-and-teleology infrastructure rather met initially with the antipathy of their underpinning-suprasocial-construct and *amplituding/formative* wooden-language-(*imbued—averaging-of-thought-*as-to-leveling/ressentiment/closed-construct-of-*meaningfulness-and-teleology*-*as-of-*nondescript/ignorable–void*-*with-regards-to-prospective-apriorising-implications*) and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation-*unforegrounding-disentailment,-failing-to-reflect-*immanent-ontological-contiguity>* whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with *transvaluation as* *amplituding/formative–epistemicity>* causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity in reflecting holographically-*conjugatively-and-transfusively* the ontological-
contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness -as-to-totalitative-reification -in-singularisation -as-veridical-epistemic-determinism underlying the human construction-of-the-Self and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>) in <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for
social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a
capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive ‘presencing—absolutising-identitive-constitutedness’ is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating "historiality/ontological-eventfulness"/"ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-
ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective "meaningfulness-and-teleology" infrastructure transvaluation so-implied as of notional–deprocrypticism or \(<amplituding/formative>\text{notional–preempting—disjointedness-as-of-} reference-of-thought \text{appropriate foregrounding—entailment—(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation)} \text{in reflecting ‘immanent-ontological-contiguity’})—\text{as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect–‘immanent-ontological-contiguity’> of our rational-empiricism/positivism occlusivity in its <amplituding/formative> wooden-language—(imbued—averaging-of-thought—\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-} \text{‘nondescript/ignorable–void’—with-regards-to—prospective-apriorising-implications)>\text{tend to rather reflect our <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}}. The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of \text{deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought} can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying \text{‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’} thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and excluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and
in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—<including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-\(\text{uninstitutionalised-threshold}\)\!/presublimating–desublimating-decisionality)~of-ontological-performance—<including-virtue-as-ontology> dynamics of notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ . But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation inducing its deficient ontological-performance—<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process is critically of dimensionality-of-sublimating—<amplituding/formative> supererogatory~dementativeness/epistemic-growth-or-confalatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications of
indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness\(^6\) registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment\(^7\); pointing to the ontological-veracity of a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\(^8\) “meaningfulness-and-teleology”\(^9\). This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness\(^1\) ontologically-flawed de-mentating/structuring/paradigming’ as to imply human sovereignty and free-will supersed-and-override existence—as-the-absolute-apriori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^1\) -<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> so-reflected as of <amplituding/formative>formative–epistemicity>totalisingly~preceding-and-redefining-existential-contextualising-contiguity\(^1\). We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a \(^2\)reference-of-thought\(^3\) devolving-level manifestation of the primacy of existence equally extends to \(^2\)reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\(^4\) ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-

This however doesn’t imply the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-

for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human \(<\text{amplituding/}formative-\text{epistemicity}>\text{totalising-}\text{thrownness-in-existence}\)’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^{34}\)-<imbued-and-'hermeneutically/reprojectively-educing'–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>; and so, as it applies to human knowledge-reification\(^{86}\) and empowerment from such knowledge-reification\(^{86}\) within existence as this defines human ontological-performance -<including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance\(^{77}\)-<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-threshold \(^{102}\)/presublimating–desublimating-decisionality}–of-ontological-performance\(^{77}\)-<including-virtue-as-ontology>. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human \(<\text{amplituding/}formative-\text{epistemicity}>\text{totalising-}\text{thrownness-in-existence}\) is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment\(^{65}\). Thus, on this basis, the reality of human ontological-performance -<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance\(^{77}\)-<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-

Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’ character that extends right up to the very first humans and as with the production of language and human institutions, with
decisionality→of-ontological-performance→<including-virtue-as-ontology>, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment^6, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment that gives the teleological orientation of human \( ^5 \)meaningfulness-and-teleology^9 in reflecting holographically→<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process^7, as it then exposes human \( ^5 \)meaningfulness-and-teleology^9 as of human limited-mentation-capacity-deepening to the prospective constraint to be as supposedly coherent ontological-commitment^5 thus inducing the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory→de-mentativity when its any given \( ^5 \)meaningfulness-and-teleology^9 is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening^7. Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness^7 as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity —of-the-human-institutionalisation-process^7 dimensionality-of-sublimating^7—<amplituding/formative→supererogatory→de-mentativity/epistemic-growth-or-conflatedness⟩/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to difference-conflatedness—as-to-totalitative-reification—in-singularisation^9—as-veridical-epistemic-determinism^1 <amplituding/formative→epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity^6 in reflecting both destructuring-threshold—(uninstitutionalised-threshold ^9/presublimating—desublimating-decisionality)—of-ontological-performance^1—<including-virtue-as-ontology> as of prior relative-ontological-incompleteness implied

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-verity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s2 rather than the existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness’ manifestation of 9.8 m/s2 and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation–<unforegrounding-disentailment,—failing-to-reflect–‘immanent-ontological-contiguity’>. The conception of human sovereignty and free-will so-implied as of ‘the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’–<imbued-and–‘hermeneutically/reproductively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>’ basically underlies all human knowledge-reification whether with regards to philosophy as first-level ontology pertaining to ‘overall existence phenomenal appraisal of ‘meaningfulness-and-teleology’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to–‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or with regards
aestheticised-preconverging/dementing –qualia-schema> explaining the unintelligibility of the explanation of epiphenomena as contrasted crossgenerationally with various superstitious beliefs in the past compared with modern day science epiphenomenal explanations (for instance with the appraisal of ‘health epiphenomena of existence’ as of ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’> ranging from perceptivity-as-of-bad-omen, perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period, perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-socioeconomic,-hermeneutically-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of ‘overall existence phenomenal appraisal of ‘meaningfulness-and-teleology’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness ) appraisal of ‘meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally
interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification”). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—<as-to-existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of—<ampliuiting/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supercerogatory–epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,—to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human
sovereignty and free-will can only be construed in conflatedness\(^\text{12}\) as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^\text{4}\) revealing the epistemic-impertinence of dispositions for ‘presencing—asolutising-identitive-constitutedness\(^\text{12}\) as wrongly implying human sovereignty and free-will supersedes existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^\text{4}\) rather than the epistemic-veracity of difference-conflatedness\(^\text{12}\)–as-to-totalitative-reification\(^\text{12}\)–in-singularisation\(^\text{12}\)–as-veridical-epistemic-determinism\(^\text{4}\) <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^\text{8}\) of human\(^\text{5}\) meaningfulness-and-teleology\(^\text{7}\). We can garner for instance that there is and has never been any truly ‘presencing—asolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^\text{4}\) to manifest itself in determining ontological-primemovers-totalitative-framework\(^\text{72}\); and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening\(^\text{52}\) implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity\(^\text{8}\) knowledge-reification\(^\text{88}\) rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,
eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'>. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so
especially as the idea of human sovereignty and free-will increasingly becomes abstracted and
diffused in the overall social-construct and its institutions as so-associated with ‘the protraction
of political and institutional performance, evaluation and accountability’ as reflective of human
sovereignty and free-will. However, with regards to the latter as of social protraction of political
and institutional action, the possibility of protracted human sovereignty and free-will while
indirect comes to be increasingly associated with the sense of ‘equanimity/balance of
institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy
frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as
garnered ‘politically from the equanimity/balance of competing policies and politics as from
polling and/or polls trends’ and ‘professionally with the equanimity/balance of
mainstream/conventional complementary professional policy-recommendations and
professional practices’. The question about the effectiveness of such implied
equanimity/balance as reflecting of human sovereignty and free-will is often raised critically
with regards to political and institutional performance particularly during crises. In many ways,
the systemic interrelatedness of large institutions as to their complementary end purposes and
practices, renders such an assessment of implied equanimity/balance rather de-
mentative/structural/paradigmatic to the overall politico-institutional system itself; and
particularly so as in many ways the possibility of readjustment is much more practically
instigated politically especially as with public institutions the individual manifestation of
sovereign choice is much more rigidly tied to political action unlike the relative ability for
direct disengagement from private entities. However, the fundamental fact that human
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans
sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond
transvaluation implications as of the broader overall ‘expected equity of all individuals for
social–value-construction’ in relative-ontological-incompleteness / relative-ontological-completeness -(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness / formative–supererogating<-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence) ⟨amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process; going by the phronesis/practicality as of our positivism–procrystalism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement
with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political
policies while undermining sound analytic public debate. It is no small wonder that a public
opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party
politics narrative entrapment, has been turning to protest voting as an expression of political
disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately
tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-

This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’, reflecting a human-causative-construction conception in conflatedness /projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional–projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness /relative-ontological-completeness’

effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity-/discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity-/discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-/discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-/discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-
completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity\(^{18}\) which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness\(^{18}\) and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology\(^{19}\) (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity\(^{18}\) thus subject to analysis as of ‘relative-ontological-incompleteness\(^{17}\)/relative-ontological-completeness\(^{17}\)- (sublimating-referencing/registering/decisioning,-as-self-becoming/self-conflatedness\(^{17}\)/formative–supererogating-\(<\text{projective/reprojective—aestheticising-re-motif—}

Consider in this regards for instance as of the “presencing—absolutising-identitive-constitutedness” notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing—apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of
apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring instrument-invalidating-measuring<as-to-preconverging-or-dementing>–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating
implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness’ false sense of logical-dueness as of ‘relative-ontological-incompleteness’/relative-ontological-completeness’-(sublimating~referencing/registering/decisioning,—as-self-becoming/self-conflatedness’/formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity—as-re-de-mentating/restructuring/reparadigming—psychologism’ may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing’—apriorising-psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpary/arrogating implications construed as ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsel implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing–apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpary/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world
war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity-<discreetly-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity-<discreetly-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of identitive-constitutedness and not subject to prospective ‘relative-ontological-incompleteness/relative-ontological-completeness’ argumentation.

The fact is ‘wonkiness-of-secondnaturining as of the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ implies that any given registry-worldview/dimension is in a conception of value-construction and overall ‘meaningfulness-and-teleology’ that is subpar to prospective possibilities of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; and this particular point is critical for the awareness that social thought can be developed that ‘transepistemically overlooks the presencing—absolutising-identitive-constitutedness conception of value-construction and overall ‘meaningfulness-and-teleology’ (as to its destructuring-threshold—{uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance}—<including-virtue-as-ontology> induced wooden-language (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) for the possibility of prospective transvaluation as of dimensionality-of-sublimating—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/trans valuative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation, as so-reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—as-of— <amplituding/formative—epistemicity> totalising~renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance—<including-virtue-as—

In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications⟩’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–’notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of
such falsehoods) given that in the very first place the issue has nothing to do with inherent and
genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—
meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal

mentatively/structurally/paradigmatically marks all human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the

defining as without the latter there wouldn’t be any human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very
first place; and this very much explains the defining relevance of human-subpotency–
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–
‘notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-
perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as to the
possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness) is effectively what underlies human institutional paralysis and social-vestedness/normativity—<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the
shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historicity/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> relevant to deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus foregoes the construal of human meaningfulness-and-teleology as a construct of re-originariness/re-origination of meaningfulness-and-teleology as to human limited-mentation-capacity-deepening so-implied from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective as to maximalising-recomposuring-for-relative-

hyperrealisation/hyperreal-transposition (as of living-development—as-to-personality-
development, institutional-development—as-to-social-function-development and Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology) as to the relation with human lopsided
material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing
remoteness/aloofness and alienation of the generalised human subject from such
material/equipment/accoutrement sublimation captured under abstract institutional frameworks
of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be
attended-to and accommodated/unaccommodated by the lopsided
material/equipment/accoutrement sublimation) in order to maximise passive enculturation and
merchandising as of ‘presencing—absolutising-identitive-constitutedness’-of—
meaningfulness-and-teleology given historicity-tracing— in-presencing—
hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human
subject capacity for consciousness sublimation is seized up and constrained in such socially and
institutionally bureaucratising and deterministic frameworks that now de-
mentatively/structurally/paradigmatically determine the possibilities of human consciousness
sublimation as to their abstracted defining conception of human stake-contention-or-confliction
(as of living-development— as-to-personality-development, institutional-development— as-to-
social-function-development and Being-development/ontological-framework-expansion— as-to—
) such that the generalised human subject re-originariness/re-origination sublimation imaginary
possibilities are already truncated as from prospective ontological-normalcy/postconvergence
epistemic/notional—projective-perspective of re-originariness/re-origination as implied with
prospective deprocrypticism—or—preempting—disjointedness—as-of— reference-of-thought.
Today, many agile initiatives allowing more or less for the expression of the human subject
imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many
ways traditional social-and-institutional- frameworks—of—referencing/registering/decisioning
are suboptimal conceptualisations of human consciousness sublimation possibilities as to their
thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness’-of—
meaningfulness-and-teleology given historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and
blanking of human consciousness sublimation possibilities. In many ways because of poor
appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> ); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation–and–aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-organiciness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology’ given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>. While a traditional conception

This dimensionality issue in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^\text{66}\)—of-the-human-institutionalisation-process\(^\text{67}\) can be reflected in the recurrent variance of ‘dimensionality-of-desublimating-lack-of’—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^\text{66}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^\text{66}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’, as implied contrastively say with the-sophists/medieval-scholastics lack-of-dimensionality-of-sublimating\(^\text{12}\)—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^\text{66}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as reflected say in an ordinary non-universalising/non-positivism–medievalism world inclined to construe of its ‘normality’ (notional-contiguity/epistemic-contiguity\(^\text{61}\)—<profound-supererogation\(^\text{96}\)—of-mentally-aestheticised~postconverging/dialectical-thinking –qualia-schema>) as given even in the face of its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity\(^\text{62}\)—<shallow-supererogation\(^\text{96}\)—of-mentally-aestheticised~preconverging/dementing –qualia-schema>) from the projected\(^\text{103}\)universalising-idealisation/rational-empiricism implications. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing–psychologism to project of the <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of prospective base-institutionalisation–ununiversalisation, just as the latter with prospective universalisation–non-positivism/medievalism, likewise the latter with prospective positivism–procrypticism, and likewise our positivism–procrypticism with prospective deprocrypticism. More than just about abstract knowledge-reification but the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework /historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval
societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere
disinclination and incuriosity to even look through a telescope and draw contemplative

Ultimately, the notional—deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming dimensionality-of-desublimating-lack-of—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness^{/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation effectively projects the possibility of boundless human aestheticisation—and—aestheticisation-towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and-teleology, as in many ways the reality of our past and present aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology has paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to—historicity-tracing—inhibited-mental-aestheticising as of reproducibility—

Such a notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation—and—aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while and this very much explains the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

Thus the reality of prospective human emancipation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable

But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity’ potentiation’ when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ‘<imbued-and-

overall social-construct’s intellectual—function/posture as to prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity-<discretely-implied-functionalism> constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of ‘de-mentative/structural/paradigmatic <amplituding/formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes’, as the often sparing instantiating existential frames of day-to-day social, political and media landscapes decision-making/editorialising processes are poorly amenable naturally to such ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance’ and end up assuming social-vestedness/normativity-<discretely-implied-functionalism> defaulting postures with occasional clamours for equanimity/balance of the decision-making/editorialising processes quite often the niggling exceptions to entrenched and existentially-unthought reflex. Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing -of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-

In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatic-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment )’ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment ) associated with the physical sciences and as generally reflected by the social-stake-contention-or-confliction disinterested natured of ‘much of the basic/fundamental and natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment )’ with the result that such a ‘purist ontological and scientific framing

reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a
gimmicky exploitation of the sublimation of the natural sciences as to their inherent

conception of science/ontology lies in the fact that such approaches do not project any
‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is
rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity66 of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology69→<in-existential-extrication-as-of-existential-unthought>) work paradoxically only by impliciting the reality of the ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity66 of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies→<in-transitive-conflatedness→reflexivity,→in-the-full-potency-of-existence’s→sublimating–nascence> (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame–of–ontological-contiguity66, and so as of vague disparateness-of-conceptualisation→<unforegrounding-disentailment,→failing-to-reflect→‘immanent-ontological-contiguity’>. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences).

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital
importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogancy and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional~projective-perspective) as to an epistemically-decadent <amplituding-formative> wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology ); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness by-reification /contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and deprocrypticism—or—disjointedness-as-of—reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the
subterfuges available to such desublimation whether as of sophistry and mere-institutional-appending as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in–supererogatory–epistemic-confratedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification 86 exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more tha <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag . Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human 5 meaningless-and-teleology as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology . This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–
epistemicity>totalising–renewing–realisation/re-perception/re-thought,—in-

human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-
subpotency (as to human-presencing—absolutising-identitive-constitutedness
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag ) is ‘a non-scalar conception that induces
prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively
implied ontological-normalcy/postconvergence construed as of ‘maximalising-recomposuring-
for-relative-ontological-completeness’—unenframed-conceptualisation epistemic-projection
perspective while ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetic-d-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-
ontologisation>’ is reflected with regards to its prospectively implied epistemic-
abnormalcy/preconvergence construed as of incrementalism-in-relative-ontological-
incompleteness—enframed-conceptualisation epistemic-projection perspective. Basically,
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-
subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetic-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus
speak to the fact that human prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity implied limited-mentation-capacity-
deepening (as to dispensing-with-immediacy-for-relative-ontological-completeness
-by-reification /contemplative-distension ) is actually induced as from human uncontemplative-
distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-
completeness’—by-reification /contemplative-distension imbued prospectively of both
sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace and
desublimating ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’; as to prospective sublimating  

historiality/ontological-eventfulness /ontological-aesthetic-trace 

‘scality/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ prospective desublimating  

historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness ), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance—<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of  

historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>,’ and ‘a non-scalarity/beholdening<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of  

historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. 

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension

underlying prospective human ontological-performance \(<\text{-including-virtue-as-ontology}>\) with regards to human meaningfulness-and-teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the dementative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-\(<\text{as-to-underlying-ontological-commitment}>\) is strongly prone to desublimating \(<\text{historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—\(<\text{as-to-what-has-gone-before—aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation}>\)>’ in \(<\text{presencing—absolutising-identitive-constitutedness}>\), while the former strongly constrained to high predicative-effectivity–sublimation-\(<\text{as-to-underlying-ontological-commitment}>\) is rather relatively amenable to sublimating \(<\text{historiality/ontological-eventfulness}>\) \(<\text{ontological-aesthetic-tracing—\(<\text{perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’}>\)> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’). That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\)
epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s~sublimating–nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective notional–deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ (reflecting ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’). positivists ‘meaningfulness-and-teleology’ however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outsiderelative-ontological-completeness’ but the fact is that such budding-positivism in its rede-mentating/restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our present day positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Such a rede-mentating/restructuring/reparadigming for relative-ontological-completeness induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring equally applies with respect to prospective ‘deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards, just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness ‘by-reification /contemplative-distension’ that projected of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment )’ by budding-positivists allowed for the enculturation of a human positivism/rational-empiricism social orientation with regards to the natural sciences (then more-or-less subsequent ‘aspirational sciences’) epistemic-conceptions phenomenal/manifest~subpotencies<in-transitive-conflatedness ‘reflexivity,-in-the-full-potency-of-existence’s—sublimating—nascence> as to their implicated ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity as foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—
disjointedness-as-of-reference-of-thought sublimation over procrypticism–or–disjointedness-as-of-reference-of-thought desublimation, thus prospectively inducing a strongly enculturated predicative-effectivity–sublimation–as-to-underlying-ontological-commitment constraining of deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology, (and so overriding disparateness-of-conceptualisation–unforegrounding-disentailment, -failing-to-reflect-‘immanent-ontological-contiguity’ as to the latter’s implied procrypticism–or–disjointedness-as-of-reference-of-thought). But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation–(blurring/undermining-of-prospective-totalising-entailing–as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness). What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation–as-to-underlying-ontological-commitment as critically enabling prospective sublimation’ so-implied as to existence-potency–sublimating–nascence,–disclosed–from-prospective-epistemic-digression-as-of–amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-
supererogatory-epistemic-conflatedness. The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment’) and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment’) to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity meaningfulness-and-teleology by eliciting presencing—absolutising-identitive-constitutedness sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially
dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their ‗presencing—absolutising-identitive-constitutedness‘13 existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment )’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a ‘presencing—absolutising-identitive-constitutedness‘ sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification‘. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic ‗presencing—absolutising-identitive-constitutedness‘ sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in-

psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology‘) which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that
convinced/converted the non-positivism/medieval world into our positivism world’ but rather
decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism
reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-
mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-
eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the
world for spices and trade eliciting a positive commercial opportunism that is decisively
responsible for destroying the collective social myth of a flat world; the bacteria theory that will
ensure that one lives or die if we believe in it or not and draw the health implications
constrained the destruction of a collective superstitious medical worldview; the scientific tools
and knowledge that ensured that nation A or nation B will triumph if they believe in it or not,
constrained the collective need to adopt a scientific worldview, etc.). Since the relative-

the relative-ontological-completeness over the relative-ontological-incompleteness (as to

In this respect with regards to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary ~meaningfulness-and-teleology\(^9\) desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical ~meaningfulness-and-teleology\(^9\) (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity\(^6\)~de-mentating/structuring/paradigming<seeding/incipient–profound \(-supererogation\(^7\),-as-mentally-aestheticised–postconverging/dialectical-thinking ~qualia-schema> existential-condescension<of-apriorising/axiomatising/referencing–psychologism> of

Intellectualism as such is much more than just
about presupposing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presupposing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation of ontology as metaphysics-of-presence-{implicit—‘nondescript/ignorable–void ’-as-to- presupposing—absolutising-identitive-constitutedness }’; and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance <-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as---re-ontologisation/supererogatory—involuting-or-guilding-or-amplifying—scalarisation<-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory—de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presupposing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} conception of sublimating value and ontological-veracity disposition; and so as to the fact that presupposing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-{as-to—historicity-tracing—in-
presencing–hyperrealisation/hyperreal-transposition) actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> positive-opportunism\(^\text{25}\) of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation\(^{\text{96}}\)-profundity–de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness\(^{\text{75}}\)-by-reification\(^{\text{86}}\)/contemplative-distension\(^{\text{26}}\) for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology\(^{\text{99}}\)), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> positive-opportunism\(^{\text{25}}\) of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given ‘presencing—absolutising-identitive-constitutedness\(^{\text{14}}\) ‘immediacy supposed absolute sublimating value and ontological-veracity
disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublation (reflecting the ‘non-immediacy prospective sublating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness’ mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and dementated/structured/paradigmed ‘immediacy supposed absolute sublating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublating value and ontological-veracity disposition’ as underlying
surmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by
dulling the social-construct’s conscience in this way rather distracts from the realisation and
contemplation of the full possibilities for profound de-mentative/structural/paradigmatic
transformation of ‘non-immediacy prospective sublimating value and ontological-veracity
disposition’. The subtle manifestation of the social implications of ‘immediacy supposed

that unlike the flawed mental-reflex associated with ‘presencing—absolutising-identitive-

human <amplituding/formative–epistemicity>totalising—thrownness-in-existence’ as to human

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming<-seeding/incipient–profound-supererogation,–as-
mentally-aestheticised-postconverging/dialectical-thinking<qualia-schema>existential-condescension<of-apriorising/axiomatising/referencing-psychologism> with regards to the human species on Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding-formative-epistemicity>totalising—thrownness-in-existence but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-
some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness\(^a\) aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence \(^b\) is not of neutrally/objectively sound ontological-performance <-<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that dementatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative–epistemicity>totalising–thrownness-in-existence \(^c\) and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness\(^c\) as to overall existential dimensionality-of-sublimating\(^c\)—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness\(^c\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. dominance/vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). In this regards, and in the bigger scheme of things existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’—de-mentating/structuring/paradigming—<seeding/incipient–profound>–supererogation,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ implies that as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrpticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance’—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative—epistemicity>totalising—thrownness-in-existence with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional—deprocripticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentattiveness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity’—
as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence-{implicated-‘nondescript/ignorable-void ’-as-to- presencing—absolutising-identitive-constitutedness } <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ on the one hand and on the other hand difference-conflicatedness -as-to-totalitative-reification’-in-singularisation‘-as-veridical-epistemic-determinism‘ as to relative-ontological-completeness ‘<amplituding/formative-epistemicity>causality–as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speakers of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human
appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination-
ontological-incompleteness-presublimation-construct-of-meaningfulness-and-teleology induced desublimating of the effectively-purist-sublimation-reflecting-prospective-historiality/ontological-eventfulness-ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflect-epistemicity-relativism⟩ as to the concreteness/concretism/existentialising—enframing/imprintedness-(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)—of-human-ontological-performance-including-virtue-as-ontology of overall prospective sublimation. Human sublimation as such in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity-of-the-human-institutionalisation-process is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness-presublimation-construct-of-meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-
incompleteness\textsuperscript{8}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9} of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\textsuperscript{10}–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\textsuperscript{11} and the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9} of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific–apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\textsuperscript{12})’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness\textsuperscript{11} weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\textsuperscript{8}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{9} value-
construct and shallow-supererogating methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness—(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology of our positivism—procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional—deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness—

concrete common sovereign narrative of social transformation possibilities’ as so-reflect with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itsel precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’).

Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve ‘presencing—absolutising-identitive-constitutedness’ epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation—
towards-ontology underlying the overall ontological-contiguity of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. Such that by this token science-ideology conception of science the requisite dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension as to human limited-mentation-capacity-deepening implications in fully appreciating human underlying aestheticisation scheming in conceptualising existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation behind the ultimate development of human knowledge and science is lost to a flatminded interpretation of human progress based on the mere elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity conception of methods/methodologies/approaches as to mere reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with a poor appreciation for the prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation behind the supererogatory invention and validation of any such methods/methodologies/approaches. sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension; the possibility for ontology/science is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing construction’ (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest-subpotency—in-transitive-conflicatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence) and so as to the subject-matter underlying existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity ~de-mentating/structuring/paradigming—

In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency—in-transitive-conflicatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency existentialising—
enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)’. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> rather speaks to deficient knowledge-reification—gesturing caught up in ‘presencing—absolutising-identitive-constitutedness’ as of beholdening-becoming—distortive-originariness/distortive-origination—as-to- historicity-tracing~inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of
institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification\(^{66}\) (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-{as-to-underlying-ontological-commitment}’ to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification\(^{65}\)–gesturing, the ultimate possibility for our positivism–procrypticism overcoming its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) lies with the prospective ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—{as-to-underlying-ontological-commitment}’ imbued—foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^{96}\) in reflecting ‘immanent-ontological-contiguity’)–as-operative-notional—deprocrypticism (enabling the true and profound attainment of ontological-contiguity\(^{66}\) in the social domain beyond the present practices of disparateness-of-conceptualisation.<unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological—

for prospective aestheticisation—and—aestheticisation-towards-ontology/meaningfulness-and-teleology can be understood in the sense that just as we can appreciate that if supposedly we are found in say an exclusively animistic social-setup with supposedly no possibility to rejoin a positivistic social-setup, while at the very least we appreciate that the material/technical capacity of a positivistic social-setup overall ‘meaningfulness-and-teleology’ will enhance such an animistic social-setup as to existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation, the fact remains that our thrownness in the animistic social-setup requires at least a basic engagement tolerable to its ‘meaningfulness-and-teleology’ before any pretense to a projection of positivistic ‘meaningfulness-and-teleology’ (as can so be appreciated with the cultural diffusion encounters throughout human history). In this regards as to a decisively globalising world we can’t conceive that ours will be the human generation bereft of ‘profound diffusionary/non-diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation’ given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human ‘meaningfulness-and-teleology’ (as so-construed as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation), as to the fact that overall human beholdening inclination (as to any defining overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology concerned mostly with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development in

Such a beholdening presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-{as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition} skews the

As of practical existential implications maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation means that the positivistic disposedness—(as-to-orientation/value-construct/valuation—and—derived-parameterising) cannot be responsive to the social-stake-contention-or-confliction projected as of such a non-positivistic meaningfulness-and-teleology, as to a fundamental positivistic disavowal of its non-positivistic disposedness—(as-to-orientation/value-construct/valuation—and—derived-parameterising) as non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of its non-positivistic apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument—for—conceptualisation). By extension, maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation psychologistic and apriorising implications (so-construed as from the technical ontological-veracity of originariness/origination—⟨so-construed—as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence⟩ perspective of notional—deprocrypticism), speaks to the fact that the psychoanalytic—

Thus, as to their respective <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasias–drag, all relative-ontological-incompleteness registry-worldviews/dimensions as of their preconverging-or-dementing apriorising-psychologism pretend to articulate what can prospectively be possible and impossible (in such a way that ‘conveniently’ imply that theirs is the registry-worldview/dimension that ‘thinks right’ while ignoring projective-insights as of the overall ontological-contiguity —of-the-human-institutionalisation-process implications as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-suprerogation ) with respect to all corresponding prospective relative-ontological-completeness projective-insights implications of transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity; failing to factor in that their paradoxical contemplation in relative-ontological-incompleteness is exactly what renders their supposed

In a further elucidation, the ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance -<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with human temporal inclination to ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has to do fundamentally with the very nature of human sublimation (notwithstanding its constraint by human limited-mentation-capacity). the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology —in-existential-extrication-as-of-existential-unthought). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity)—totalising—in-relative-ontological-completeness ) as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-
knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of knowledge-reification (and so as to self-serving social-vestedness/normativity-<discretely-implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublating universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublating–existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublating thought’ is rather turned around into ‘a framework that supposedly inherently create sublating thought by mere
access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness-(as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising–imbued-subontologisation/subpotentialisation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating–existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as herein underlied with notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> implied formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of–meaningfulness-and-teleology in nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection, and so similar to a Derridean ‘heterogeneous genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating–existentialising–decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be
brought to exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual- and-operant-implications> as to the requisite self-criticality overcoming as well as emotional- involvement overcoming rather than assuming a relatively false social and institutional pre- eminence driven relation to knowledge); with the further implication of such ‘totalising- entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification’ process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiolisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional~firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from- perspective–ontological-normalcy/postconvergence>) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relating-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non- positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de- mentativeness/epistemic-growth-or-conflatedness/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—\textlangle\textamplituding/formative\textrangle supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\textrangle/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to-\textlangle\texthistoricity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textrangle). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance\textlangle\textincluding-virtue-as-ontology\textrangle) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to-\textlangle\texthistoricity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conception of the ‘overall possibility of human existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to
prospective knowledge-reification⁶. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality going beyond just neutral knowledge-reification⁶’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation⁶ desublimating—existentialising—decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of any shallow-supererogation⁶ social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation⁶ may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnatures positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’-to—‘attain-sublimating-humanity’-as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re—thought,—in—supererogatory—epistemic-conf一旦edness ; as to the fact that all human sublimation is instigated as of re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking—‘projective-insights’/epistemic-projection-in—conf一旦edness—of-notional—deprocrypticism-prospective-sublimation) before secondnaturing positive-opportunism institutionalisation, as so-reflecting Derridean messianicity wherein
even when the messiah comes they still have to come (inevitably-so given prospective human notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective-ontological-normalcy/postconvergence> to whatever induced supererogation<supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality). It is this fact that explains why no underpinning-suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—supererogatory—epistemic-conflatedness in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity<ontological-performance—<including-virtue-as-ontology> desublimating—existentialising—decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating—existentialising—decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation and the positive-opportunism<arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity
making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology implications) and in that regards the triteness of human pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology⟩ as of ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩) patently doesn’t count (given the latter associated temporal desublimating—existentialising—decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating—nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment ). The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation vague proceduralism (beyond-the-consciousness-awareness-teleology ⟨in-existential-extrication-as-of-existential-unthought⟩) as to the simple fact that human prospective destructuring-threshold-(uninstitutionalised-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology implications, is reflected in the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification (on the basis of desublimating prior apriorising/axiomatising/referencing–psychologism in epistemic-abnormalcy/preconvergence) failing to grasp the underlying dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation of the said prospective sublimating knowledge-reification; as to imply that (say with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) it is supposedly possible to understand the veracity of any specific positivistic meaningfulness-and-teleology while remaining of non-positivistic mindset, which inevitably induces a relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology desublimating–existentialising—decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating
elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition (beyond-the-consciousness-awareness-teleology - <in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating —<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating —<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ and is of no inherent prospective issue in that respect. Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising–decisionality’ is ontologically flawed given human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> to arrive at desublimating–existentialising–decisionality/sublimating–existentialising–decisionality overlooking organic-knowledge implications (whether by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation’ implied ‘pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’ or ‘intemporal unbeholdening sublimating–nascence
ontologising-depth of the full-potency of existence’ implied ‘as to the very inherent knowledge-reification—gesturing as determining sublimating~existentialising~decisionality’). Thus as to critical pure-ontology (underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>) the fact is rather that inherent to human temporality is its ‘ephemeral purpose beholdening’ that ‘do not truly know-of/carry a universal-transparency—<(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness’) project’ as to its beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> existentialising—frame. This prospect of human temporality induced increasing incoherence (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) is a fundamental factor to be taken into consideration for ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating~existentialising~decisionality)’ in overcoming/superseding ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating~existentialising~decisionality supposedly taking precedence over inherent prospective knowledge-reification’), and specifically such an overcoming/superseding is rather crossgenerational when it comes to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology (given the more profound ‘germinative intensification—amplituding of aestheticisation—beholdening-out-of-bechancing’ /

This critical pure-ontology analysis point out that ‘meaningfulness-and-teleology’ cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification 3 ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity/∼dementating/structuring/paradigming-<seeding/incipient–shallow–supererogation , as-mentally-aestheticised–preconverging/dementing –qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality proned to presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to– historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) needs to be critically brought to the consciousness-

Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility –<imbued-and-
‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility—even effusing/ecstatic–inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. It is important to note in this regards that ‘knowledge-reification—gesturing historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ is the more profound conception of ontology and science (as to human dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-

This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation’ in a soulless ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification), with this shallow-supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating–referenced/registered/decisioned self-presence/self-constitutedness —<in-perspective–epistemic-abnormalcy/preconvergence> (without or poorly appreciating the profound-supererogation involved in true science and ontology as to ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness’/formative–supererogating-<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) leads to dominance/vested-interest prodded social-stake-contention-or-confliction determination of

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness basis for such supposedly ontological insight so-critically provided by the veridical genuine social intellectual–function/posture. In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de–
mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>⟩ subverting the sublimating–existentialising–decisionality of the genuine social intellectual–function/posture; and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct existentialising—enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as
to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct existentialising—enframing/imprintedness–(as-to–historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) (as to as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) poses a major challenge as public-sovereignty is existentialisingly—enframed/imprinted to be wary of prospective re-ontologisation of alternative institutional aestheticising contemplation ‘given dominion/statal-logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation/suboptimisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance’–<including-virtue-as-ontology> as well as generalised social apprehension which is then

normalcy/postconvergence of inherent existence as to an impasse/break between relative-ontological-incompleteness\(^{87}\) and relative-ontological-completeness\(^{87}\) (with regards to their varying projection of \(<\text{amplituding/formative}}\) disposedness-{as-to-orientation/value-construct/valuation—and—derived-parameterising} and \(<\text{amplituding/formative}}\) entailment-{as-to-totalising-contiguous/coherent—factuality-of-variability}) as to foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^{89}\)). This can starkly be appreciated in the instance of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology wherein for instance the notion of God-of-plane in an animistic social-setup speaks of a fundamental redefining/restructurig/reparadigming notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/>distantiation of contemplative existentialising—frame as to transversality—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing’ as to the fact that the positivistic/rational-empiricist meaninglessness-and-teleology\(^{99}\) is of utter ‘<amplituding/formative}> disposedness-{as-to-orientation/value-construct/valuation—and—derived-parameterising} and <amplituding/formative}> entailment-{as-to-totalising-contiguous/coherent—factuality-of-variability}’ break/impasse (with the animistic meta-conceptualisation scheme of meaninglessness-and-teleology\(^{99}\) as to its prospective uninstitutionalised-threshold\(^{99}\) for inducing the appropriate perspective onto logical-normalcy/postconvergence (to enable the eventual epistemicity growth/conflatedness\(^{12}\) of the animistic social-setup into a positivistic/rational-empiricist conceptivity/epistemic-reflexivity); and this is effectively the critical posture of the genuine social intellectual—function/posture as to its prospective registry-worldview/dimension opening-up function as to perspective ontological-normalcy/postconvergence not constrained to the immediacy/punctual human social-stake-

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness—in-perspective—epistemic-abnormalcy/preconvergence> of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality prone to presencing—absolutising-identitive-constitutedness). Thus the genuine social intellectual—function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality

Ultimately, technicity/profundity is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving>
existentialising–decisionality or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/deciding existentialising–decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor epistemic-growth requiring appropriate notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>) in public spaces is not detached from public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification\(^*$\) so-underlying \(<\text{supererogatory–human-subpotency}>–\text{effecting}\) as to the formative-and-enabling formulative backdrop for sovereignly appraising meaningfulness-and-teleology\(^{99}\) technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of \(<\text{supererogatory–human-subpotency}>–\text{effecting}\) is the sovereignty/independence giving possibility for human epistemic-growth relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningfulness-and-teleology\(^{99}\) technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in public spaces by such a capacity for notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> to cultivate epistemic-growth/discomfort/disquiet over a facility/convenience mental-reflex). In this regards, the sovereign–function/posture
ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of epistemic-growth/discomfort/disquiet’ as such a flawed conception is very much prone to disenfranchising public, media and institutional pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal substantive pertinence educing layers of deferential-formalisation-transference as of percolation-channelling–<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’ and not enter into falsehoods of ‘contrastive equivalence’ implied distractive-alignment-to–reference-of-thought–<of-apriorising/axiomatising/referencing>” manifested with ontologically-flawed bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc.’, wherein effective public and institutional intellectual contestation of aptitudinal substantive pertinence is not subverted by
monopolising/quasi-monopolising/networking existentialising–frame of public and institutional
discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine
social intellectual–function/posture strives for a protracted continuum with the sovereign–
function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–
frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good
knowledge being brought at the sovereign’s service without any underlying conception of
epistemic-growth/discomfort/disquiet’ (that ultimately undermines technicity/profundity which
is inescapable for achieving sublimating–nascence whether as more readily appreciated with
nascent-particular/incipient-and-material/technical-sublimations-&lt;blinded-to-their-relative-
ontological-completeness – reference-of-thought-&lt;devolving> existentialising–decisionality
or with the relative blurriness of social-and-institutional-frameworks-of—
referencing/registering/decisioning existentialising–decisionality); and so to fundamentally
bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with
 technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal
of the veridical relationship between sovereignty and technicity/profundity is mostly enabled
with social-and-media induced numbing-traction—of-desublimating—‘meaningfulness-and-
teleology –&lt;as-perspective-lost-of-

as-to-rescalarisation-as–re-ontologisation).’ wherein ‘an elicited
conformity/trending/voguing/fashionability/resonance relation to ‘meaningfulness-and-
teleology” undermines the individual’s and social ‘conscious-and-active epistemic-totalising
re-procession of the existentialising–frame re-apriorising/re-axiomatising/re-referencing of
‘meaningfulness-and-teleology” while overemphasising rather a ‘subconscious-and-passive

epistemic-totalising re-automatism relation with the existentialising-frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology as elicited with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with the consequent contemplative disorientation, estrangement and lip-servicing/trivialising-relation to veridical social-stake-contention-or-confliction evaluation’). This eventually means that the genuine social intellectual-function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling—<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on sideling salient and relevant narratives as to technicity/profundity (such that in effect through the
decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-
vestedness/normativity-<discretely-implied-functionalism> has paradoxically effectively-and-
preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social
intellection-aptitude body that is the public university as to its underlying social-construct
ontological-commitment’ implied self-assuredness-of-ontological-good-faith/authenticity –as-
being-as-of-existential-reality so-reflected as of social notional–self-distantiation-<imbued—re-

terms of ‘contrastive equivalence’ implied distractive-alignment-to- reference-of-thought-<of-
apriorising=axiomatising=referencing> and so-undermining its ‘neutral sovereign–
function/posture upholding’, and with a failed public consciousness about the sovereign
importance of the public university practically subjecting them to increasing private funding
deply eroding-and/or-corrupting their capacity for ‘neutral sovereign–function/posture
upholding’). In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for
‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university
or the press body or the ‘overall backdrop of the professional class intellectualism’) has often
failed to appreciate the implications of the fact that (given human <amplituding/formative–
epistemicity>totalising–thrownness-in-existence,<imbued-projective-
arbitrariness/waywardness-(as-to-the-human–projective/reprojective—aestheticising-re-motif–
and–re-apriorising/re-axiomatising/re-referencing-process-of–‘<amplituding/formative–
epistemicity>totalising–conceptualisation’), ‘human <meaningfulness-and-teleology> is
effectively of epistemic-totalising consequence (thus implying its profoundness/ontologising-
depth is of non-disjointedness/contiguity/coherence as of
‘<amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–
derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-

Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–function/posture contemplative pertinence/capacity in epistemic-totalising’ conflatedness/postconvergence allowing for appropriate coherence between concrete social reality and overall public perception of concrete social reality with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ should in-conflatedness/postconvergence instigatively drive public debates rather than ‘the naivety that the equilibrating of human-subpotencies as of vague bothsidesism mental-reflex in-constitutedness/preconvergence will then reflect social ontological-veracity’ as the latter just makes room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation induced distractive-alignment-to-reference-of-thought—in-apriorising/axiomatising/referencing and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ and particularly so when elicited distractive-
social-stake-contention-or-confliction as reflected above is so-critically at the very core of
‘human social-and-institutional-frameworks-of—referencing/registering/decisioning
existentialising–decisionality’ intellectual theorising as to a human social-and-institutional-
frameworks-of—referencing/registering/decisioning existentialising–decisionality characterised
by blurriness allowing for the relative pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation de-mentated/structured/paradigmed undermining of
prospective genuine social intellectual–function/posture as to its projected re-
onologisation/omnipotentiality drive; as so-critically reflected with a
pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that in
many ways openly-assert having nothing to do with present human and social aporeticism
overcoming/unovercoming or superficially gloss over such human and social aporeticism
overcoming/unovercoming in a confusion between advocacy/ministration/sermonising and
intellection going on to trivialise and undermine the profound enlightening implications of true
intellection (as to a fundamental dearth of knowledge-reification gesturing however crude as
knowledge becomes an issue of ‘personalised and free-floating mentioning’ incapable of true
objectifying knowledge-reification gesturing as to ‘knowledge-reifying-and-empowering
conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ enabling
the conceptualisation of momentous historiality/ontological-eventfulness/ontological-
aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-

intellectual engagement and bland media-driven influence) a genuine social intellectual–
function/posture projective resolutioning of such prospective human and social aporeticism
overcoming/unovercoming as so-fraudulently directed against the prospective
sublimating–existentialising–decisionality of many a postmodern thought and other critical
thinkers. Such a disontologising pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern day democratic process as it ‘shuts-off requisite sovereign epistemic-growth/disquiet/discomfort as to construction-of-the-Self’ in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’); as to when such pedantism openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediatically and socially popularised’ inducing (given direct-and-indirect epistemic-totalising consequence of human meaningfulness-and-teleology) ‘incoherence between concrete social reality and overall public perception of concrete social reality’. The implications of such dereification gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness-in-perspective–epistemic-abnormalcy/preconvergence of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to–historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)’ and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with
regards to human limited-mentation-capacity-deepening\(^2\). Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment\(^2\) implied self-assuredness-of-ontological-good-faith/authenticity\(^3\)–as-being-as-of-existential-reality and so in a cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame allowing for human and humanity’s epistemic-growth/disquiet/discomfort as to construction-of-the-Self (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). We can appreciate in this regards that the specialist whether astronomer, technician, electronician, etc. is more critically sublimating/emancipating as to a ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ acting upon the breadth of socially cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame involving first-level technicity/profundity elucidation (as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-superegotary–epistemic-conflatedness\(^3\)) with fellow specialists and then of derived-knowledge implications percolating to the appraisal of ‘overall social intellection-aptitude body’, and not a directly normalised/stereotyped/selfhelping/feel-good conception of knowledge relation with the general public in distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> (undermining such a sublimating/emancipating cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame imbued notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> conception which is exactly what best defines and upholds human sovereign–function/posture as to appropriate coherence between concrete social reality and overall public perception of concrete social reality with respect to public outcomes of social-stake-contention-or-confliction). In this regards, a prevailing and counterintuitive naivety as to
human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality is that the mere communication of knowledge (without appropriate eliciting of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension as an exercise that is behind knowledge-production in-the-very-first-place and is required for knowledge-transference) suffices without factoring that this is exactly what allows for pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimation; as knowledge effectively requires a sound grasp-of and referencing-to its sublimating/emancipating cogent percolation-channelling—<indeferential-formalisation-transference> existentialising–frame given human limited-mentation-capacity (as to the fact that the ordinary citizen doesn’t need to be a physicists or astronomer or engineer but rather have the appropriate fundamentals-and-distance to be able to sovereignly relate-to and reference-to the implications of such knowledge-reification and so rather than vague conceptualisation inducing disorientation, estrangement and trivialisation of the veridical public outcomes of social-stake-contention-or-confliction aporeticism overcoming/unovercoming). Critically, it is herein contended that in many ways despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, there are just as well subject to appropriate constraining deblurring analysis with respect to their aporeticism overcoming/unovercoming as to a translating-insight as from nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> sublimating–existentialising–decisionality; and critically-so as of a relation to momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>. Such a translating-insight (rather derived from the more potent ‘human
knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-

instantiated as to overall reference-of-thought-devolving sublimating–nascence (and so-
reflected in prospective human social-and-institutional- frameworks-of—

relevant issue for such an aporeticism overcoming/unovercoming (in the face of constraining
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”) has to do
with human epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-

It is important here to appreciate that such a translating-insight prompted as from nascent-particular/incipient-and-material/technical-sublimations/<blinded-to-their-relative-ontological-completeness—reference-of-thought–devolving> sublimating–existentialising–decisionality for a deblurring and enabling perspective for prospective human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality (as to nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemic-projection), effectively speaks to their ‘dynamically reinforcing sublimating–nascence relationship’ wherein we can appreciate that ‘budding positivism/rational-empiricism nascent-particular/incipient-and-material/technical-sublimations/<blinded-to-their-relative-ontological-completeness—reference-of-thought–devolving> sublimating–existentialising–decisionality’ involved a claim for a ‘corresponding budding positivistic social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality’ as manifested socially by the Copernicuses, Galileos, Descartes, etc. inducing a social environment further reinforcing the possibility for the furthering of positivistic natural science and eventually bringing about positivistic social emancipation/enlightenment and social science. This ‘dynamically reinforcing sublimating–nascence relationship’ as reflective of the ever relevant constraining dynamics of presencing–absolutising-identitive-constitutedness and nonpresencing–<perspective–ontological-normalcy/postconvergence>, points to the requisite knowledge-notionalisation (as herein reflected with the fact that profound knowledge must ‘understanding the dynamics of both human temporal and intemporal ontological-performance’—<including-virtue-as-ontology>’) for such a translating-insight; herein construed as to prospective re-originariness/re-origination ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ (in conflatedness) epistemic-projection perspective reflection upon a

Critically thus, the ‘knowledge-notionalisation backdrop of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness of knowledge-reification in reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ as implied both scientifically and by many a postmodern thinker doesn’t need to ‘take a page into any ideological unknown’ to effectively contemplate the practical implications for prospective re-ontologisation; and as herein contended with regards to anarchic-growth/anarchisation for re-ontologisation the fundamental idea for such prospective social re-ontologisation lies with ‘appropriate constraining deblurring analysis of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality aporeticism overcoming/unovercoming as to a translating-insight as from nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought–devolving> sublimating–existentialising–decisionality’ (given the very ontological-normalcy/postconvergence nature of existence reflected as existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ). We can appreciate in this regards the role of constraining existence in the ‘anarchic-growth/anarchisation for re-ontologisation’ driving the sciences as to the ‘transversal and cross-subjecting selectivity-and-deselectivity as to manifest sublimation of scientific ideas’ effectively building up the various
fields in perpetual re-ontologisation. However, because of the high emotional-involvement in
the social, the default posturing one way or the other is ever always to adopt a <self-reflexive>-willed–will ideological stance (integrating <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification”/akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought–”categorical-imperatives/axioms/registry-teleology”) explaining the discomfort induced when
such conscious or unconscious ideological stances are subject to deconstruction) and so over an

that poorly appreciates the two-sided reality of human self-reflexive–instigative-eventuating-

‘existence validation/invalidation side’ for sound intelligibility to arise. Such a postmodern
philosophical anti-ideological stance of ‘anarchic-growth/anarchisation for re-ontologisation’
(just as is the case relatively with the natural sciences) is all about human candidity/candour-
capacity for effectively tackling prospective aporeticism overcoming/unovercoming as to
profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of

doesn’t carry false promises of shallow supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness as to mere-formulaic
methodologising/mutualising/organising/institutionalising; and so critically because the more
salient point for aporeticism overcoming/unovercoming though it may seem counterintuitive is
not ideological solutions of ”presencing—absolutising-identitive-constitutedness” but rather
appropriate human development as to psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring as to non-presencing-<perspective-ontological-normalcy/postconvergence> as a prerequisite speaking of a change in human relation-to-the-world than mere-formulaicity as of an already prospectively poor relation-to-the-world and as we can appreciate that budding-positivists critical philosophical insight was more than just their effectively instigative/incipient budding science but a critical appreciation that the medieval-scholasticism non-positivism relation-to-the-world wouldn’t countenance-and-cultivate the true prospect of scientific knowledge. It is only thereafter that a prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought imaginary (just as the presently developed positivism/rational-empiricism imaginary over the prior non-positivist imaginary) will drive a veridical ‘deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought specific human conceptivity/epistemic-reflexivity-(<amplituding/formative–epistemicity>totalising-<so-’hermeneutically/reprojectively-educing’-from– ‘(supererogatory–de-mentative–amplituding-<mental-aestheticising-attuning/amplituding>)-interlay/organicalism/aestheticising-handle’,-as-to-supererogatory–projective–arbitrariness/waywardness-of-transversalisation/tandemisation/abstractive–conjugation/perspectivation/depthing>)’ making-available future human re-ontologisation/potentiation/optimisation potential and so beyond our occlusive presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> ‘minimum-and-balancing expectation/anticipation of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ (as just inducing more and more a complexification of our procrypticism—or—disjointedness-as-of-reference-of-thought that is increasingly being marked by a very dynamic, sophisticated and networked institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation threatening the future possibility for genuine intellectualism and genuine social intellectual—function/posture). This ‘human existentialising–decisionality dual psychological-dispositions
continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjointing tends to be <amplituding/formative–epistemicity>totalisingly–absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of /presencing—absolutising-identitive-constitutedness\textsuperscript{13} social-vestedness/normativity-<discretely-implied-functionalism>’ that-drives/is-behind such subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of /presencing—absolutising-identitive-constitutedness\textsuperscript{13} social-vestedness/normativity-<discretely-implied-functionalism>’ manifest themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ but also persistently across time in more subtle ways). Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness\textsuperscript{18}—presublimation-construct–of– meaningfulness-and-teleology’ desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying
manifestations of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening ’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation >) is de-mentatively/structurally/paradigmatically closed-off, and there is ‘supposedly no sublimating/emancipating existentialising–decisionality ‘meaningfulness-and-teleology’ that can arise outside the underpinning–suprasocial-construct existentialising—enframing/imprintedness-{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as putting into question the very ontological-veracity of the subontologisation/ideology-over-ontology ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as the underpinning–suprasocial-construct becomes an enclosing/hemming-in religiosity inculcated as defining the very notional/epistemic framework of human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology and so consciously/unconsciously as supposedly superseding pure-ontology) as we can appreciate that the very supposedly abstract notions of say social-science or economics-science or political-science do not actually socially exist in their ‘abstract semantic sense’ but are ‘already pragmatically deferring into the religiosity of the underpinning–suprasocial-construct catchmenting-by-rejection of value and value-possibilities’, such that in effect all thought gravitates around the religiosity whether critical or praising as to
artifice-of-human-imaginary/metaphysical-conceptualisation beneath which in effect
supererogatory–progressivity (however the ‘shallow-supererogation\(^{96}\) of supererogatory–
progressivity’) ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of
existence’ existentialising–decisionality is notionally operating but rather operating as to the
enframing of that underpinning–suprasocial-construct ‘beholding as sovereignising–imbued-
subontologisation/subpotentiation’ (as reflecting the reality of human ‘shallow-supererogation\(^{96}\)
of supererogatory–progressivity’). Thus beneath any supposedly underpinning–suprasocial-
construct (reflected in the modern-day underlying socio-econo-political
subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a
more fundamental ‘nonpresencing-<perspective–ontological-normalcy/postconvergence>
notion of supererogatory–progressivity’ (however the ‘shallow-supererogation\(^{96}\) of
supererogatory–progressivity’) accounting for the possibility for prospective human social-and-
institutional-frameworks-of—referencing/registering/decisioning sublimation/desublimation as
in effect creatively permeating all such ‘underpinning–suprasocial-construct of ‘presencing—
absolutising-identitive-constitutedness\(^{13}\) existentialising–entailing’; and so (especially potent
when such ‘nonpresencing-<perspective–ontological-normalcy/postconvergence>
notion of supererogatory–progressivity’ is manifested as of profound-supererogation\(^{6}\) entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^{67}\) as to
dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-
mentativeness/epistemic-growth-or-conflatedness\(^{17}\)/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation over
‘shallow-supererogation\(^{96}\) of supererogatory–progressivity’), as more critically superseding
human delusions as to desublimating beholding-becoming—distortive-originariness/distortive-origination–as-to-\(^{46}\) historicity-tracing–inhibited-mental-aestheticising
(and thus reflecting the sublimating possibility for prospective ‘bechancing-backdrop of
nonpresencing-<perspective–ontological-normalcy/postconvergence>’ as to ‘bechancing-becoming—originariness/origination–as-to—historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected ‘epistemicity-relativism’>—disinhibited-mental-aestheticising sublimation reclamation/recovery from beholdening-becoming—distortive-originariness/distortive-origination–as-to—historicity-tracing—inhibited-mental-aestheticising’, so-construed as ‘reclamation/recovery of unenframed-conceptualisation’—(as-to—maximalising-recomposing—for-relative-ontological-completeness—unenframed-conceptualisation>). In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory—progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory—progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory—progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining
capitalistic model of social ascendency with respect to public externalities, taxation and public
debt’ as such a capitalistic model increasingly developed in later years into a de-
mentative/structural/paradigmatic parasitising renting economic model associated with the
explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate
formative supererogatory–progressivity initiatives (as it can now be appreciated that in many
ways much of the postwar economy arose as of strong public and local governance directed
investment in public infrastructure, housing and property which supererogatory–progressivity
in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-
model that thrives upon creating winners and losers as to asset inflation strategy for skewed
value-extraction). In a critical respect all the creative social supererogatory–progressivity after
the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from
the capitalistic model all other social supererogatory–progressivity possibilities are now
effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with
respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial
gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity
with the supererogatory–progressivity for individual and social creative initiatives construed as
lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic
model makes available as supposedly an absolutely determining construct of human
supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting
parasitising of social value and value possibilities). This in effect speaks to ‘a renting and
skewed value-extraction capitalistic colonising of the social capacity for supererogatory–
progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into
the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a
globalised framework of totalising-entailing interlocking corporate interests and corporate
welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of
runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory-progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory-progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory-progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory-progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory-progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory-progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social
supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–
progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation© of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a
true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation’ omni-potential commensurability with inherent immanent-existence’s sublimation-structure/omnipotentiality) is to reflect the reality today of underlying human supererogatory-progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mecchanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social—
desublimation> of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to<br>presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as
poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is dementated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that dementatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). the so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} as to the overall ontological-contiguity—of-the-human-institutionalisation-process provides
the requisite basis for prospective human ontological-performance\textsuperscript{7}-\textsuperscript{10}-\textsuperscript{11} convergence towards ‘scality/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct\textsuperscript{12}’-\textsuperscript{13} \textit{amplituding/formative–epistemicity} totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold\textsuperscript{14} imbued secondnaturings) technically equates to ‘supposed human-subpotency abstract self-determinative ontological-performance\textsuperscript{15}-\textsuperscript{16}’ capacity as to the full-potency of existence’ so-implied with the protensive-consciousness ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness\textsuperscript{17} of notional–deprocrypticism deneuterising\textsuperscript{18}—referentialism’; and so as to the effective construal of the possibilities of human \textsuperscript{19} meaningfullness-and-teleology\textsuperscript{20} beyond ‘mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening\textsuperscript{21}–as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation\textsuperscript{22} in \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’.

However, in effect despite the reality of ‘human-subpotency non-scalarity/beholdening\textsuperscript{23}–as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation\textsuperscript{24}’, the human psychology in any of its registry-worldview/dimension \textsuperscript{17} presencing—absolutising-identitive-constitutedness\textsuperscript{25} paradoxically projects a notional-contiguity/epistemic-contiguity\textsuperscript{26}–\textsuperscript{27} profound-supererogation\textsuperscript{28} of-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema wrongly implying it is actually as of ‘scality/immanency of existence’s ontological-normalcy/postconvergence’, as to its ontological-performance\textsuperscript{7}–\textsuperscript{10}-\textsuperscript{11}; and so as the very manifest

constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme ’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised-postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness—of- reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of ’30s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme ’ in ontological-

As a further elucidation, prospective notional-contiguity/epistemic-contiguity of reference-of-thought actually points out that the uninstitutionised-threshold is rather a point of de-mentation-
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—<amplitudizing/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as–spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—
attributive-dialectics) construed herein as of prospective postmodern deprocripticism—or-preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any
existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency~sublimating–nascence,~disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in-supererogatory–epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme and postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory—dementativity; as we can effectively appreciate that the very mathesis \(^{18}\) universalis schema/disseminative metaphoricity\(^{22}\) engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme\(^{28}\) is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity\(^{23}\)-<shallow-supererogation\(^{36}\)-of-mentally-aestheticised—preconverging/dementing —qualia-schema> analysis, implied as of prospective relative-ontological-completeness\(^{17}\)-of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of
prospective relative-ontological-completeness\(^\text{1}\)-of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising\(^\text{2}\)/circumscribing/delineating construct being the \(^\text{3}\)reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical \(^\text{5}\)meaningfulness-and-teleology\(^\text{6}\) but rather human-subpotency adjusting as to existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative--epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflicatedness\(^\text{12}\); with such adjusting being construed as of prospective relative-ontological-completeness\(^\text{2}\). But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness \(^\text{1}\)-of-reference-of-thought/relative-ontological-completeness \(^\text{1}\)-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^\text{8}\), implied as of de-mentation\(^\text{7}\)-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with regards to the \(^\text{3}\)reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective \(^\text{5}\)meaningfulness-and-teleology\(^\text{6}\) is an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our already established psychoanalytic disposition rather than a \(^\text{5}\)maximalising-recomposuring-for-relative-ontological-completeness\(^\text{1}\)—unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of <amplituding/formative--epistemicity>totalising~renewing-realisation/re-perception/re-thought in conflatedness\(^\text{12}\), such
that this leads to constitutedness\textsuperscript{13} when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation-⟨supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics⟩ that our human <amplituding/formative-epistemicity>totalising/circumscribing/delineating \textsuperscript{8}reference-of-thought is transcended for prospective relative-ontological-completeness\textsuperscript{1}-of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity\textsuperscript{9}-<shallow-supererogation\textsuperscript{10}-of-mentally-aestheticised-preconverging/dementing –qualia-schema>. In this regard, ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} as of difference-conflatedness\textsuperscript{11}-as-to-totalitative-reification\textsuperscript{68}-in-singularisation\textsuperscript{12}-as-veridical-epistemic-determinism\textsuperscript{21} \textsuperscript{44}<amplituding/formative-epistemicity>causality–as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{69}’ as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{99} is essentially one of shifting attitude/mental-disposition/care–and–episteme by the successive institutionalisations \textsuperscript{8}reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for aposteriorising/logicising/deriving/intelligising/measuring \textsuperscript{44}meaningfulness-and-teleology\textsuperscript{99}, even though beyond-the-consciousness-awareness-teleology \textsuperscript{13}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{4}human induced bias leads to a wholly immersed-and-engrossed focussing only at its given present institutionalisation’s \textsuperscript{8}reference-of-thought ‘present attitude/mental-disposition/care–and–episteme’ as if other retrospective-and-prospective institutionalisations’ \textsuperscript{8}reference-of-thought do not have their own attitude/mental-
disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphority'-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human ‘meaningfulness-and-teleology’ as of prospective relative-ontological-completeness reference-of-thought; and so, as of retrospective and prospective ‘meaningfulness-and-teleology’ interpretation construed as ‘historiality/ontological-eventfulness'/ontological-aesthetic-tracing-/perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme conception, and specifically as relevant for understanding

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>), as of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the notional—deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed
singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism. That is singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating}\textsuperscript{83} reference-of-thought–devolving’ \textsuperscript{47}human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{92}. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening\textsuperscript{52} of ‘axiomatic-constructs as of \textsuperscript{<amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’}. singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of \textsuperscript{<historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–<epistemicity-relativism>}, points out that dissingularisation\textsuperscript{92}/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness\textsuperscript{87} reflects that singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance\textsuperscript{71}–<including-virtue-as-ontology> equivalence/correspondence with the full-
potency-of-existence’s-sublimating-nascence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-‘devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension '. This reality of the need to construe of human-subpotency ontological-performance -<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation /epistemic-immanence/veridical-epistemic-determinism over dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation /epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation /epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-mentating/structuring/paradigming singularisation /epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation /epistemic-immanence/veridical-epistemic-determinism, as of the ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct
of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>’. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the
natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional-conflatedness/singularisation/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation/epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance-including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-

We can appreciate that with regards to the very same ill-health <amplituding/formative-epistemicity> totalising devolved purview as domain of construal as intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human subpotency ontological-performance\textsuperscript{1} <including-virtue-as-ontology> of prior perceptivities as successive uninstitutionalised-threshold\textsuperscript{2} are rather in ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity in-reification’ (by their identitive-constitutedness as ‘epistemic-totality’ dereification in-dissingularisation as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought), as overlooking their successively prospective perceptivities which are actually in prospective relative-ontological-completeness of reference-of-thought as enabling/cogent-with difference-conflatedness as-to-totalitative-reification in-singularisation as-veridical-epistemic-determinism protracted teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity —of-the-human-institutionalisation-process so-construed-as-singularisation /epistemic-immanence/veridical-epistemic-determinism’. The notion of human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-
contiguity\textsuperscript{18}-in-reification can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity\textsuperscript{19}-in-reification\textsuperscript{10}’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness\textsuperscript{8} reflects the former’s prior relative-ontological-incompleteness\textsuperscript{8} as dialectically out-of-phase/preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity\textsuperscript{19}-in-reification\textsuperscript{10}’ at uninstitutionalised-threshold\textsuperscript{10} actually highlights that from a prospective perspective of prospective relative-ontological-completeness\textsuperscript{8}-of-reference-of-thought our positivism–procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology\textsuperscript{99} is coherent, failing to factor in that it is preconverging-or-dementing –apriorising-psychologism at its uninstitutionalised-threshold\textsuperscript{10} as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} as of prospective “deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought”; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness\textsuperscript{8}-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
institutionalisation framework of a registry-worldview/dimension human construal of its existential-contextualising-contiguity\textsuperscript{19} knowledge-reification\textsuperscript{20} is only as effective as of the institutionalisation \textsuperscript{1} of reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{19}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{20} in universal-transparency\textsuperscript{22}—(transparency-of-totalising-entailing, as-to-entailing—amplitude/variable—epistemicity—totalising—in-relative-ontological-completeness\textsuperscript{10}) \textsuperscript{4}, thus providing a ‘perceptual perspective/framing/reference/horizon of’ meaningfulness-and-teleology\textsuperscript{19} about its existential-contextualising-contiguity\textsuperscript{20} knowledge-reification\textsuperscript{20}. But then at uninstitutionalised-threshold\textsuperscript{102} where meaningfulness-and-teleology\textsuperscript{19} is denaturing\textsuperscript{2}, this prior institutionalisation ‘perceptual perspective/framing/reference/horizon of’ meaningfulness-and-teleology\textsuperscript{19} about existential-contextualising-contiguity\textsuperscript{20} gives a false certainty/assurance, such that human-subpotency existentially-constrained temporal ontological-performance—(including-virtue-as-ontology)—as of form/virtualities/dereification\textsuperscript{2}/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{2}—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology—\textsuperscript{10}, in usurpation of that ‘perceptual perspective/framing/reference/horizon of’ meaningfulness-and-teleology\textsuperscript{19} about its existential-contextualising-contiguity\textsuperscript{20} knowledge-reification\textsuperscript{20} tend to be overlooked as of mental-reflex since existentially the bulk of meaningfulness-and-teleology\textsuperscript{19} within the given registry-worldview/dimension as of its institutionalisation conforms-to/complies-with its ‘perceptual perspective/framing/reference/horizon of’ meaningfulness-and-teleology\textsuperscript{19} about existential-contextualising-contiguity\textsuperscript{20} knowledge-reification\textsuperscript{20}, but with a shadowy uninstitutionalised-threshold\textsuperscript{102} always eloping to such institutionalisation conforming/complying as of prior relative-ontological-incompleteness—of—reference-of-thought, and as lack of universal-transparency\textsuperscript{10}—(transparency-of-totalising—
entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ as to ‘excogitative-blanking of prospective existential-contextualising-contiguity -in-reification’ elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity -in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity -reification, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism—or-disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity -reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism -slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity ’; but then at its uninstitutionalised-threshold where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional–procrypticism/notional–disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially

This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology \(<\text{in-existential-extrication-as-of-existential-unthought}>\) preconverging-or-dementing –apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance as \(<\text{amplituding}/\text{formative}>\) wooden-language-\(<\text{imbued—temporal—mere—form/virtualities/dereification}/\text{akrasiatic-drag/denatured/preconverging-or-dementing}—\) narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology \(\rangle\) in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing –apriorising-psychologism representation as temporal denaturing ontological-performance of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency- aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued— notional—firstnaturedness—temporal-to-intemporal-dispositions <so-construed-as-from-

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure-{as-to–historiality/ontological-eventfulness}/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’) of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supercorrogatory–de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of

Rather it is more candid to relate to the ontological-contiguity — of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening, and so as of prospective intemporal secondnatures institutionalisation induced universal-transparency — (transparency-of-totalising-entailing, as-to-entailing) <amplituding/formative—epistemicity> totalising— in-relative-ontological-completeness>, deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory—de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness —of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of-meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of
such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity-of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’. truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness—of—reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness—of—reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—imbued-postconverging/dialectical-thinking—projective-insights/epistemic-projection-in-conflatedness—of—
notional-deprocripticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness-of-reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness-of-reference-of-thought naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold
transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-of-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising–devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so

Consider in that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, its reification as ‘apriorising-teleological resetting of <amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-physics-axiomatic-construct’ implies that de-mentatively/structurally/paradigmatically ‘traditional classical mechanics axiomatic-construct’ is dereified as of its prior relative-ontological-incompleteness to theory-of-relativity-together-with-quantum-mechanics–axiomatic-constructs which is rather reified as of its prospective relative-ontological-completeness; such that interestingly to construe, as of ontological-veridicality, the reality of ‘traditional classical mechanics axiomatic-construct’ requires rather assuming/departing-from
dementing\textsuperscript{7}–apriorising-psychologism as of its relative-ontological-incompleteness\textsuperscript{8}. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism–or–disjointedness-as-of- reference-of-thought that speaks of our prospective preconverging-or-dementing\textsuperscript{7}–apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold\textsuperscript{17}, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{9} as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness\textsuperscript{17}. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism–slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification arise as of their temporal threshold–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism–slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so–disambiguated as of reference-of-thought–devolving ontological-performance<including-virtue-as-ontology> leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this author that more critically manifestations of postlogism–slantedness across all the registry-worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-incompleteness\(^{10}\)–of–reference-of-thought, with transcendental implications that goes well beyond the ad-hoc conception of

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus the former is a reflection as of its postconverging-or-dialectical-thinking—apriorising-psychologism of the Being underdevelopment of the latter as of the latter’s preconverging-or-dementing –apriorising-psychologism. Ultimately, human limited-mentation-capacity-deepening speaks to the ontological-veridicality that human ‘meaningfulness-and-teleology’ ‘is ever always about successive reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-
beyond just any associated incidental existential problems, as requiring

of-thought beyond-the-consciousness-awareness-teleology, that we provide the ontologically-veridical aetiologisation or ontological-escalation resolving the vices-and-impediments\textsuperscript{95} of our ‘so-prospectively deprocrypticism-construed’ procrypticism—or—disjointedness-as-of—reference-of-thought as of its underlying \textless amplituding/formative—epistemicity\textgreater totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{92}, and so beyond just our ad-hoc palliative construals of virtue. Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event—or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human <amplituding/formative> wooden-language\{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications\} mental-dispositions as of ‘mutual temporal/shortness-of-register-of—meaningfulness-and-teleology’ eliciting’ construed as ‘intemporal temporality\textsuperscript{98}’. Such tendencies are hardly of aetiologisation/ontological-escalation as their emphasis lies in existential-extrication-as-of-existential-unthought, rather than nonextricatory-existential-preempting-of-existential-unthought in enabling Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{99} as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event’—or—operant implications to all and sundry’; such that fundamentally, such <amplituding/formative> wooden-language\{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—
disposition/care–and–episteme ’ with regards to social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—enframing/imprintedness-(as-to-‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks, are no different to say ‘non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal ‘meaningfulness-and-teleology’ existentialising—enframing/imprintedness-(as-to-‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks as reflected from ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension , the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness—of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> . The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold\(^{(10)}\). Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\), as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{99}\) need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendent ontological sublimating-over-desublimating implications of existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness : will question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) and lack of dispensing-with-immediacy-for-relative-ontological-completeness\(^{(9)}\)-by-reification\(^{(8)}\)/contemplative-distension\(^{(25)}\)-of- reference-of-thought-by-reification\(^{(9)}\)/contemplative-distension implications; ask whether by definition a registry-worldview/dimension \(^{(x)}\)reference-of-thought is dementated/structured/paradigmed to sponsor/promote/endorse its very own prospective
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness of notional~deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-

The latter points to an inappropriate attitude/mental-disposition/care—and—episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care—and—episteme and organic-knowledge attitude/mental-disposition/care—and—episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care—and—episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care—and—episteme as of its prior relative-ontological-incompleteness—of—reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of
positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing’, and likely to induce transversality-of-

universal values, and so as of \textsuperscript{[103]}universal-transparency\textsuperscript{[104]}-(transparency-of-totalising-

reflecting holographically-\textsuperscript{[66]}conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{[67]}—of-the-human-institutionalisation-process\textsuperscript{[67]} as of Being-development/ontological-framework-

and-teleology \textsuperscript{[133]}as pertinent for all humankind, whether as of internal social-progress, cultural
diffusion or cultural-reappropriations. This practically translates, say considering an instance of
a given traditional practice that is abhorrent to modern positivism/rational-empiricism
attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective
that emancipation truly arises when the humans come to assume as well by themselves a
universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in
transforming their society. We can appreciate that supposed a space civilisation come to earth,
implying for instance in a position of strength that we are too violent, disorganise, etc. and thus
morally inferior, and that our best interests was just to take our cue from them. Here as well, the
postmodern double-gestures reification\textsuperscript{[86]} of virtue will project that we do have the potential for
further development, and that to be ourselves we cannot be utterly alienated from ourselves like
robots in our relationship with them, and that our curiosity and openness will correspondingly
bring about our functional moral equivalence with \textsuperscript{[103]}universal-transparency\textsuperscript{[104]}-(transparency-
of-totalising-entailing-as-to-entailing-\textsuperscript{[324]}amplituding/formative–epistemicity>totalising–in-
relative-ontological-completeness ). Further arguing that if they are truly more advanced than
us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity & &lt;shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a universal projection implications attitude/mental-disposition/care–and–episteme event or-operant to all and sundry. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness
and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices, and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness’ -‘of-notional–deprocrypticism-prospective-sublimation)’ creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity of-the-human-institutionalisation-process as of difference-conflatedness -as-to-totalitative-reification -in-singularisation -as-veridical-epistemic-determinism <amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity ’ shows that there has always been beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to
undermined prospective knowledge as of its prospective relative-ontological-completeness of axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology due to ‘lack of social universal-transparency–(transparency-of-totalising-entailing–as-to-entailing–amplituding/formative–epistemicity)totalising–in-relative-ontological-completeness’). In other words, medieval charlatanic eliciting of old ways, convenioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of meaningfullness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-

crossgenerational transcendental implications and as reflected from the insight in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-
