classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-
constitutedness\(^{(13)}\) enabling the obtention of any such conclusions from the given classical-
mechanics—axiomatic-constructs constitutedness\(^{(13)}\), but rather it is by conflatedness\(^{(12)}\) with
regards to ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—
purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that
the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs
was construed as of nonpresencing.<perspective—ontological-normalecy/postconvergence>.
Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent
with respect to transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to
grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-
of-meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework’
tendental validation as to existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding-formative-
epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-
supererogatory-epistemic-conflatedness’. Such a construal of human transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity will cover the seminal contributions prior
and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-
together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an
ontological-basis for construing sublimation overrides our neuterising laden modern
convention ways of judging breakthroughs overemphasising singular initiative, as it is rather
grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as
the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as
reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-
différance-freeplay, sublimation is achieved rather out of the notional obviating of human
temporal-as-non-ontological neuterising with deneuterising—referentialism and with
correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-
teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity
implications, and so as of protensive-consciousness of notional–deprocrystalism
perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance
as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is necessarily
construed ontologically as of a rearticulated protractedness as futural différance that coincides-
and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalititative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-
knowledge as knowledge as a mere thing to be acted upon for given outcomes. Organic-knowledge as such implies priorly a supplanting conviction as to profound supererogation — postconverging/dialectical-thinking — apriorising-psychologism deference to the prescence of existence-potency sublimating nascence, disclosed from prospective epistemic digression as of <amplituding/formative-epistemicity> totalising renewing realisation/re-perception/re-thought, in supererogatory epistemic conflatedness over any human-as-mortal framing of meaningfulness and teleology including oneself as human-as-mortal, as it is human mortality as temporality that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness of reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness of reference-of-thought, and so by maximaliing-recomposuring <amplituding/formative-epistemicity> totalising renewing realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation ununiversalisation, universalisation non-positivism/medievalism, and positivism procrypticism, are successively wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical knowledge in temporality as of neuterisation relative-ontological-incompleteness existential extrication as of existential unthought. In other words, an intemporal as ontological mental disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness of axiomatic construct or reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as
of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness)’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised–preconverging/dementing—qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather difference-in-nature/difference-in-apriorising-or-axiomatising between
presencing—absolutising-identitive-constitutedness and nonpresencing<perspective—ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness’ notional-contiguity/epistemic-contiguity construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and
prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’
to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first
developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon as of
protensive-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get
that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the
Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they
would have been satisfied with just their personal curiosity and enlightenment and leave it at
that, but rather they surreptitiously undermined many of the prevailing social norms and rules in
trying to expound their knowledge and vision, and more critically so because they knew it is the
‘formation of a positivistic social consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would
enable the anchoring of all such prospective positivistic knowledge, and this sense of things
fully underscored such a more comprehensively directed project-and-purpose undertaken later
by the Encyclopédistes; with the underlying insight that while a social state of generalised prior
relative-ontological-incompleteness\textsuperscript{22}-of-reference-of-thought is enabling to surreptitious
Establishment charlatanism, however with increasing ‘social universal-transparency\textsuperscript{23}-
(transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-
epistemicity>totalising-in-relative-ontological-completeness )’ such charlatanism is exposed
for what it really is, explaining the panickiness and falsehood associated with such charlatanism
as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by
itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-
imaginary, theoretical and conceptual possibility for such futural différance consciousness
development is the notion of \textsuperscript{14} de-mentation–(supererogatory–ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics) which by pointing out an
‘human’amplituding/formative—epistemicity>totalising—purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening; overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology\(^9\) should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^2\), but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising\(^2\) as of prospective relative-ontological-
completeness-of-reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of nonpresencing-<perspective-ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <amplituding/formative–epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of nonpresencing-<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to be constraint to its <amplituding/formative–epistemicity>totalising–self-referencing-
synergetising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence-{implicated–‘nondescript/ignorable–void’-as-to- presencing—absolutising-identitive-constitutedness } of any given <amplituding/formative–epistemicity>totalising–self-referencing-synergetising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks ‘presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing-<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ as of both the ‘meaningfulness-and-teleology’ implications to the so-renewed ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’. metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of nonpresencing-<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism possibilities relation to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>,
such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–
metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence)--or-transcendental-reasoning-of-event-as-prospective-ontology-origination-perspective/framing/reference/horizon-of-positivism-meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojective circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality--of-affirmative-and-unaffirmative--disambiguated--motif-and-apriorising/axiomatising/referencing complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought.
Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative–disambiguated-’motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual
credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-preconverging-or-dementing—apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-
institutionalisation-process \cite{67} retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality \cite{67}’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology \cite{67} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process \cite{67}. As ultimately, it is the prospective relative-ontological-completeness -of- reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments \cite{105} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity \cite{63} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social \cite{10} universal-transparency \cite{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \cite{104})’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically...
accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>
subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional-knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation dementating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-⟨implicated-epistemical-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a ⟨amplituding/formative–epistemicity⟩totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-
preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived ‘meaningfulness-and-teleology’, with the implication that we need to a prospective relative-ontological-completeness of reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of ‘meaningfulness-and-teleology’. In other words, all concepts, notions as of ontologically-veridical ‘meaningfulness-and-teleology’, are made to have their internal-dialectics/différance as of nonpresencing-<perspective–ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity into more profound and more complete ‘meaningfulness-and-teleology’. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical ‘meaningfulness-and-teleology’ comes down to the capacity of arriving at the very essence of ‘meaningfulness-and-teleology’ while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally
Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting-as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating — amplituding/formative supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality of our supererogatory acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-
gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity/sublimation/superceratory-de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising —referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—langle transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness⟩’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras,
and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness-of-reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with
a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and de-mentating/structuring/paradigming of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating/supererogatory-de-mentativity, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism–procrypticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective ontological-prime-movers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism–procrypticism disjointedness-as-of-reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. Thus by its deneuterising —referentialism construed as of historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—epistemicity—relativism—, notional—deprocrypticism enables a fundamental ontology-driven ‘postconverging—dialectical-thinking—psychology or psychology-of-mentation—dynamics or natural—psychological—dynamics’, and so superseding a naïve metaphysics—of—presence—(implicated—nondescript/ignorable—void—as—to—.presencing—absolutising—identitive—constitutedness ) affect—driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence—and—sublimity/sublimation/supererogatory—de—mentativity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising—identitive—constitutedness , and as this speaks of human limited—mentation—capacity prospectively—construed ontologically—flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence—and—sublimity/sublimation/supererogatory—de—mentativity is achieved from the prospective notional—conflatedness of notional—deprocrypticism and so by deneuterising —referentialism, which is equinominal/equivalent to nonpresencing—perspective—ontological-normalcy/postconvergence>. In other words the historial implications of human limited—mentation—capacity—deepening is that ‘as of a less and less ontologically—flawed meaningfulness—and—teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry—worldviews/dimensions <amplituding/formative—epistemicity>totalising/circumscribing/delineating reference—of—thought—devolving’ as of their given neuterisation , construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendence—and—sublimity/sublimation/supererogatory—de—mentativity, is attainable as of deneuterising —referentialism as the

disparateness-of-ontologically-construed-social-reality dynamism comes down to the
limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection
of ‘this organic-knowledge underlying mental-disposition as of Being-

disparateness is increasingly closed-down all along in reflecting holographically-

‘performance-construct of candidity/candour-capacity’ can be garnered as of metaphysics-of-

notional-deprocrypticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness-of-reference-of-thought that underlies reference-of-thought/de-mentative/structural/paradigmatic—ontological-performance—<including-virtue-as-ontology> as a wholly internal process of conflatedness, highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of—meaningfulness-and-teleology and the latter in relative shortness-of-register-of—meaningfulness-and-teleology/distractiveness’ that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. Consider a metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or
disconnected/incoherent/perfunctory/chaotic nature of their relations, this will de-
mentatively/structurally/paradigmatically have degenerative effect on such an animistic social
organisation wherein this isn’t enhancing of the society’s social organisation and relations and
will be possibly disruptive. This example isn’t that farfetched as anthropological evidence of
such cases abounds with many native societies so disrupted by culturally alienating positivistic
material diffusion. Human material/technical development and corresponding mentality as of

instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology} as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing –apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/ reference-of-thought that doesn’t register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/preconverging-or-dementing –apriorising-psychologism by its positivism–procrypticism reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather ‘maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation. Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing –apriorising-psychologism of the postlogism -and-conjugated-
illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional-projective-perspective, it is ‘preconverging-or-dementing’—apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory—dementativity)’ in their conventioning, and thus to the exclusion of prospective ontological profundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been wooden-language—imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications).

However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing’—apriorising-psychologism’). Existential
closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to ‘meaningfulness-and-teleology’ whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding ‘meaningfulness-and-teleology’⁹⁹. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemic>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence-{(implicated-‘nondescript/ignoreable–void ’-as-to-’presencing—absolutising-identitive-constitutedness’}) and goes on articulating ‘meaningfulness-and-teleology’ even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative–epistemic>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating ‘meaningfulness-and-teleology’⁹⁹ from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and so by maximalising-recomposuring-for-relative-ontological-completeness⁸⁷—unenframed-conceptualisation. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity⁸⁷ since the latter is only appropriate in the instance of prospective relative-ontological-completeness⁸⁷-of-‘reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness⁸⁷-induced, ‘threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism’ puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of
meaningfulness-and-teleology (‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of’-reference-of-

Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing –apriorising-psychologism as well. However, to the extent that it is ‘not such
totalising\-self\-referencing\-syncretising/circularity/interiorising/akrasiatic-drag\temporal/shortness-of-register-of\-meaningfulness-and-teleology inclinations’ that drove human registry\-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of\-meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a ‘transversality\-of-affirmative-and-unaffirmative\-disambiguated\-motif-and-apriorising/axiomatising/referencing’ confliction’ resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of\-meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of\-meaningfulness-and-teleology projections.). Critically, the notion of transcendence\-and\-sublimity/sublimation/supererogatory\-de-mentativity and transcendental\-enabling/sublimating/supererogatory\-de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of
ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and de-mentating/structuring/paradigming ‘meaningfulness-and-teleology’ in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening, as institutionalising ontological-primemovers-totalitative-framework successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in supererogatory–epistemic-conflatedness. (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework of ‘meaningfulness-and-teleology’ going by their limited-mentation-capacity-deepening). transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogue speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory-de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory-de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of
human condition’, and so with respect to ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism’>, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory–de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology/<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality
in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity
— of-the-human-institutionalisation-process
of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and the ontological-contiguity —of-the-human-institutionalisation-process
in the first place; with the notional–deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
its conventioning limits as being the absolute ontological determinant of ‘meaningfulness-and-teleology’
ontological-performance
—<including-virtue-as-ontology>, and that ‘meaningfulness-and-teleology’ as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual
projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{71} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{7}meaningfulness-and-teleology\textsuperscript{99} as of prospective \textsuperscript{1}deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence-{(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>)} for the conception of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology\textsuperscript{6}¢<in-existential-extrication-as-of-existential-unthought> naively construed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological determinant of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{99} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–
(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness ’of-notional–deprocrypticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology ‘<in-existential-extrication-as-of-existential-unthought>’) weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, however unintelligible, as a prospective institutional percolation-channelling-<in-deferential-formalisation-transference> exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology’, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing ‘apriorising-psychologism. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the
temporal, and so beyond-the-consciousness-awareness-teleology\textsuperscript{\textregistered}-<in-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology’ -<in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology’ -<in-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism by its relative-ontological-incompleteness—of—reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-
accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology⁹⁻<in-existential-extrication-as-of-existential-unthought>⁰. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness⁸⁻of⁻⁹ reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology⁹⁻<in-existential-extrication-as-of-existential-unthought>⁰ as when eliciting ignorance (as of ‘lack of constraining social universal-transparency⁻¹⁻⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ⟩ of the psychopath’s mental-disposition of postlogism⁻¹⁻ ⟨perverted-outcome-sought-precedes-existentially-veridical-logical-dueness⟩), and while construed as beyond-the-consciousness-awareness-teleology⁻¹⁻<in-existential-extrication-as-of-existential-unthought>⁰ as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness⁸⁻of⁻⁹ reference-of-thought, as it leads to ‘lack of constraining social universal-transparency⁻¹⁻⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ⟩, associated with the successive uninstitutionalised-threshold states, the
This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation) transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but
they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought. <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposurer-as-to–historiality/ontological-eventfulness’/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>, which may wrongly imply being out of the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from–
perspective–ontological-normalcy/postconvergence–existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–

(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation) transcendental ideas (transcendental in terms–as-of-axiomatic-construct of putting in question the prior <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which makes it unsurprising that even socially <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant–as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-
thought→devolving-as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology→transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation ⟨amplituding/formative–epistemicity⟩totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling→(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective→meaningfulness-and-teleology⟩ as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology→＜in-existential-extrication-as-of-existential-unthought＞). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests (for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity→reifying/elucidating-of-prospective-relative-ontological-completeness→reference-of-thought→devolving-as-of-instantiative-context as to existence-potency→sublimating–nascence→disclosed-from-prospective-epistemic-digression→rules-of-
compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation – (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)) and prelogism – (prelogism-as-of-conviction,-as-to-profound-supererogation – (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at)) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency – (transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-
measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying $6 + 3$ instead of $5 + 2$ (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as $5+2$) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) is flawed since B is not committed due to its perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s– reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that
they consciously perceive it can be socially-functional-and-accordant\textsuperscript{23} to them wherein lack of ‘social \textsuperscript{101}universal-transparency\textsuperscript{100}’-{\textsuperscript{amplituding/formative–epistemicity}}-\textsuperscript{totalising–in-relative-ontological-completeness} which protects the internal-coherence of meaning for virtue’ enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism \textsuperscript{77}, i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism\textsuperscript{77}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{95} re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (perversion-and-derived- ‘perversion-of- reference-of-thought<-as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’>–as-to- uninstitutionalised-threshold \textsuperscript{97}-self-referencing-syncretising–and–subtransversality–of-motif- and-apriorising/axiomatising/referencing) elicited by B in terms–as-of-axiomatic-construct of B’s postlogism \textsuperscript{-as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold- of-shallow-supererogation\textsuperscript{96} and C, D, E and F relative-ontological-incompleteness\textsuperscript{88}-induced,- ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism’ that is ‘in-wait as of prior relative-ontological-incompleteness\textsuperscript{88}-of- reference-of-thought defective \textsuperscript{88}reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{99} to enable their conjugated-postlogism\textsuperscript{77}, where it is socially-functional-and-accordant\textsuperscript{77} to do so. It should be qualified that postlogism\textsuperscript{77} (psychopathy) and conjugated-postlogism \textsuperscript{(as social psychopathy) are enabled, endemised and
enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical "meaningfulness-and-teleology"). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social transparency ⟨transparency-of-totalising-entailing, as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ of perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how prelogism-as-of-conviction, as-to-profound-supererogation minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation and its
protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (even when other prelogism—as-of-conviction,—as-to-profound-supererogation minds do lack a social universal-transparency—{transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} of the veridical postlogism/psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived—perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation> as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism—as-of-conviction,—as-to-profound-supererogation minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as adhering or not-adhering to the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in
specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance
induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism—as-of—compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vicious postlogism—as-of—compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism—as-of—compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’ vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-

By derivation the subsequently induced conjugated-postlogism\textsuperscript{[13]}/social-psychopathy, as of human temporal-dispositions will exploit unconsciously (as ignorance), expediently (as affordability) or consciously (as opportunism/exacerbation/social-chainism-or-social-discomfitter-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) the lack of such social \textsuperscript{[10]}universal-transparency\textsuperscript{[10]}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness ) of the psychopathic/postlogism\textsuperscript{[13]}\textsuperscript{[10]}perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{[10]}>, and thus its own derived\textsuperscript{[10]}perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{[10]}>; wherein even in the case of occasional elucidation of specific postlogism\textsuperscript{[13]}-set-of-narratives-and-acts of the psychopath as being rather of compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{[10]} and preconverging-or-dementing—apriorising-psychologism, this does not necessarily transform the mental-dispositions of temporal-dispositions in their conjugation to psychopathic postlogism as conjugated-postlogism\textsuperscript{[13]} since the induced-deception is fundamentally of reference-of-thought-elements/registry-elements (implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \textsuperscript{[10]}), with the conjugated-postlogism\textsuperscript{[13]} interlocutor as of \textsuperscript{[10]}reference-of-thought—degraded-devolving-as-

In other words, ‘psychopathic/postlogism\textsuperscript{77} and social-psychopathic/conjugated-postlogism\textsuperscript{77} vicious acts-and/or-narratives’ as of perversion-and-derived-\textsuperscript{77}perversion-of-\textsuperscript{77}reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> take the form of mental ‘misconception of meaningfulness-and-virtue’ that such \textsuperscript{96}postlogism\textsuperscript{96}\textsuperscript{96}-as-of-\textsuperscript{96}compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{16} vicious acts-and/or-narratives’ based on their systematic
combination with ‘compensating directed pseudo-virtue acts-and/or-narratives’ directed to relevant significant others will enable the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism’-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ as of an association between the ‘postlogism’-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’, and ‘compensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, wherein that compensating is not a trite equivalence but rather involves ‘high-proportionality of overcompensating directed pseudo-virtue acts-and/or-narratives’ relative to ‘specific or given postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ in order to enable the postlogism-psychopathic manifestation achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and subsequent sense of social allegiance with relevant significant others and then corresponding ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, whether relevant individuals and/or relevant social network, as overall ‘social investment’ that should allow its instigated ‘postlogism’-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at
childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism’–as-of–compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of ‘perversion-of–reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism–as-of-conviction,-as-to-profound-supererogation’ come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism’–as-of–compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (which are actually outside existential-contextualising-contiguity’–s-

sublimity/sublimation/supererogatory/de-mentativity can be further elucidated with regards to two remarkable historical developments which while inherently exceptional, to say the least, aren’t truly transcendental. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/supererogatory/de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/supererogatory/de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩ (which is exactly what Descartes’ thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an elaboration well within the psychical framework established by dimensionality-of-sublimating—<amplituding/formative>supererogatory/de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation ‘extended rationalism’ thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that psyche/mentation, though in many ways it is a more profound elaboration of meaningfulness-and-teleology issues. So it is actually an
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument), and prospectively bringing about preemtion—disjointedness-as-of-reference-of-thought,—as-to-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument}; and wherein the successive mindsets/references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology'-<in-existential-extrication-as-of-existential-unthought> ). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation of its limited-mentation-capacity-deepening’. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish ‘universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening'. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency~sublimating–nascence, disclosed from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing–that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency~sublimating–nascence, disclosed from-prospective-epistemic-digression—
rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
ontologically-same-existential-reality existential reality nature that is preceding-and-
superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering
such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to
constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification),
and so when not employing a referentialism reflex that is naturally inclined to be contiguous
with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication
thus that an apriorising/axiomatising/referencing exercise of human mental understanding only
starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s
reference-of-thought as if it is the only one that had existed, against the anthropological and
historical trend, and without explaining how previous meaningful-frames developed into the
positivistic/rational-empiricism and how the latter could develop prospectively. Besides the
Kantian argument that the transcendent (in all its connotations beyond direct experiences)
cannot be known is equally anthropologically and historically erroneous as even in his days,
with respect to adopting of a positivistic/rational-empiricism worldview over non-
positivistic/althemic/essences/medieval registry-worldview/dimension certainly does has a
name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is
more the case that from an <amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-
worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-
teleology as absolute, then prospective transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-
awareness-teleology–<in-existential-extrication-as-of-existential-unthought> notion. Besides,
Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
abstractiveness-of-presencing-in-‘protensive-consciousness’ with deprocrypticism. Basically, Kant lacked a notion of metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-⟨perspective-ontological-normalcy/postconvergence⟩) (to overcome ⟨amplituding/formative-epistemicity⟩totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding–oneness-of-ontology construed as transcendental-enabling/sublimating/supererogatory–de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating/supererogatory–de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex
basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating/supererogatory~de-mentativity for new prospective relative-ontological-completeness of reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking —psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psyche as
‘amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–"meaningfulness-and-teleology")’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework\textsuperscript{72} as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework\textsuperscript{72} that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they
increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic constitutedness is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology conflatedness as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger ‘transcendental-enabling/sublimating/supererogatory-de-mentativity positivism psyche-and-thereof-philosophy’ (construed rather as of an organic depth of ontological coherence/contiguity that is
de-mentatively/structurally/paradigmatically transcendental-enabling/sublimating/supererogatory-de-mentativity contiguously as from the deeper apriorising/axiomatising/referencing enabling/sublimating/supererogatory-de-mentativity of positivism ‘transcendental-psyche-and-thereof-philosophy’ and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualised/construed relations), and so as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology, and so as of its meaningfulness-and-teleology. The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification—as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism when the implications of such notions are examined as of metaphysics-of-absence{(implicit-epistemic-veracity-of nonpresencing—perspective–ontological-normalcy/postconvergence}) not only in terms of one registry-worldview’s/dimension’s meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their ‘supposed ontological status’ turn out to be ridiculous.

The underlying contention of both such a present ‘transcendental-enabling/sublimating/supererogatory–de-mentativity positivism psyche-and-thereof-philosophy’ and prospective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity notional–deprocrypticism psyche-and-thereof-philosophy’ as of their respective relative ontologically-veridical psychical background referencing as of conflatedness for knowledge/meaningfulness-and-teleology has to do with the bigger ontological-normalcy/postconvergence reality (of ontologically valid knowledge/meaningfulness-and-teleology) as of its notional–conflatedness/constitutedness–to-conflatedness as the de-mentative/structural/paradigmatic basis by which ‘ontological-deficiency (conceptually represented as subsuming of virtue-defect or vices-and-impediments ‘with virtue not truly differentiated from ontology’ but rather such a conceptual-differentiation being represented as of our notional <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag animate-existential-referencing/subjectification emotional-involvement implications)’ is construed fundamentally going by a registry-worldview’s/dimension’s reference-of-thought relative deficiency as prior relative-ontological-incompleteness–of–reference-of-thought (as its uninstitutionalised-threshold) thereby resolvable de-mentatively/structurally/paradigmatically by the prospective registry-worldview’s/dimension’s reference-of-thought prospective relative-ontological-completeness–of–reference-of-thought; thus validating with regards to both reference-of-thought respectively as the ‘transcendental-enabling/sublimating/supererogatory–de-mentativity positivism psyche-and-thereof-philosophy’ and the ‘transcendental-enabling/sublimating/supererogatory–de-mentativity notional–deprocrypticism psyche-and-thereof-philosophy’ their relative ontologically-veridical background referencing as of conflatedness as of ontological-normalcy/postconvergence. Since we can perfectly
conceptualise with both reference-of-thought the articulation of coherent meaningfulness-and-teleology respectively in non-positivism terms—as-of-axiomatic-constructs and non-deprocripticism/procripticism terms—as-of-axiomatic-constructs, or rather in terms—as-of-axiomatic-construct that do not grasp de-mentatively/structurally/paradigmatically the respective reference-of-thought organic grounding as of underlying ontological-normalcy/postconvergence implications, and so beyond just a question of vague ad-hoc mechanical patchwork of non-transcendental-enabling/subliming/supererogatory-de-mentativity conceptualised/construed relations. This elucidation points out that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ‘must truly’ involve an de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with the utter decentering of understanding itself by the prospective/transcending/superseding reference-of-thought over the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism of the prior/transcended/superseded at its uninstitutionalised-threshold as an epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling—(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective—meaningfulness-and-teleology) eliciting a new apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument of prospective/transcending/superseding reference-of-thought as candored/straight, postconverging-or-dialectical-thinking—apriorising-psychologism and dialectically/contendingly-in-phase over the prior/transcended/superseded reference-of-thought as decandored/oblongated, preconverging-or-dementing—apriorising-psychologism and dialectically/contendingly out-of-phase. even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview’s/dimension’s reference-of-thought like Doctor –Patient, Parent –Child, Server –Customer, Teacher –Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology -in-existential-extrication-as-of-existential-unthought to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-reference-of-thought as beyond-the-

they may operate on a logic that once such a situation as A induced additionality defect

The fact is that registry-worldviews/dimensions operate meaningfulness-and-teleology as of their ontological representation of reality within the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/ reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideisim induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as

Further, even more decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-dispositions or vices-and-impediments as arising mainly as of their conscious choices, de-mentatively/structurally/paradigmatically a registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought as a beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> notion is the more decisive/salient notion as to human ‘objectively construed/analysed virtuous-dispositions or vices-and-impediments’ even though individual ‘conscious choices’ will tend to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments arising’; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is de-mentatively/structurally/paradigmatically susceptibility as a state of ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for the vices-and-impediments so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> as of human limited-mentation-capacity-deepening in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic

By mental-reflex a postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation stand is a ‘mental-shortcut’ that is fundamentally perverted as it perceives meaning as ‘deterministic of others behaviours by its empty-form’ while a prelogism-as-of-conviction,-as-to-profound-supererogation stand is one that relates to meaning on the basis of its assumed existential validity, or at worst involves omissions or exaggerations relative to such fundamental existential validity, but doesn’t countenance by mental-reflex the projection of empty-form of meaningfulness which is ‘existentially invalid’ in the very first place. Consequently, where there is ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–

This is the case beyond just any such specific instances and such specific postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation character(s) and specific conjugated-postlogism character(s) but rather as of dynamic-

This conceptualisation as a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ is empirically more true of human development which by a flawed metaphysics-of-presence—(implicit—nondescript/ignoreable—void—as—to—presencing—absolutising-identitive-constitutedness) overly construes in <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag the positivistic psyche almost as if it is the sole and genuine one without factoring in the notion of a continuous ‘<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought—as—utter-placeholder—setup—ontological-rescheduling—(by—a—renewing—of—apriorising/axiomatising/referencing—psychologism—as—the—new—referencing—basis—of—prospective—meaningfulness-and-teleology)’ in successions of human psyches arising with human limited-mentation-capacity-deepening, with the further implication of a prospective ‘postconverging-or—dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as a notional—deprocrypticism psyche and its corresponding memetism or suprastructural meaningfulness-and-teleology. Though metaphorically in the mortal’s temporal/shortness-of-register-of-meaningfulness-and-teleology terms, that ‘low-life’ of universal import may be utterly oblivious to the practicalities of B, C, D, E and F so engrossed in a world of ‘high-life’ of temporality/extrication as the ‘fullness of meaningfulness-and-teleology’ over the appreciation of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation dementating/structuring/paradigmimg, be it that the latter disposition as philosophically intemporal is what creates-and-enables the being in civilisation/institutionalised-being-and-craft in the first place, as the metaphorically ‘high-life’ of temporality/extrication cannot count on an overall principle of temporality/extrication for its existential sustainability (as B, C, D, E and F needs that the Donor grants the rewards by not factoring in the deceit, thus their existential principle doesn’t sustain the ‘civilisation/institutionalised-being-and-craft setup’ in which they are living

Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be de-mentatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of-reference-of-thought structured to inherently supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocrypticism superseding positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/supererogatory–dementativity over any temporal extricatory de-mentating/structuring/paradigming, however, the enculturation and mass thinking behind temporal extricatory dementating/structuring/paradigming. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent intemporality/longness but for the disposition for maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior registry-worldview/dimension institutionalised-being-and-craft setup. Hence such intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation need its <amplituding/formative-epistemicity> totalising–renewing-realisation/re-perception/re-thought in inducing secondnatured institutionalisation given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations as to the-ontological-contiguity —of-the-human-

The implication is that acting as-of-a—‘secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought’ for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not ‘intemporal as of—universal-and-abstractive originariness-parrhesia,—as—spontaneity-of-aestheticisation nature’ but is rather in ‘<amplituding/formative—epistemicity>totalising—self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence-{implicated—nondescript/ignorable—void ’—as-to—presencing—absolutising-identitive-constitutedness }. Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness—induced,—‘threshold-of—

This equally explain why the notion of human transcendental progress is relatively ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation- (imbued-postconverging/dialectical-thinking -‘projective-insights’/’epistemic-projection-in-conflatedness’-of-notional–deprocrypticism-prospective-sublimation)’ driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-ofexistential-reality of thought more than just institutionalised secondnaturing such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure{(as-to- historiality/ontological-eventfulness)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism’>} that had tended to fundamentally put into question their present with new de-mentating/structuring/paradigming shifts. representation-perversion has various shades of ‘temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies’. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a ‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking –apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking –apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism –as-of-conviction,-as-to-profound-supererogation’ (‘poor or bad supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking –apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of- reference-of-thought- devolving-as-of-instantiative-context. Lying as such is ‘an ad-hoc defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-

In fact, besides ‘lying’ such poor characterisation of the psychopath extends to other notions like ‘bullying’, ‘manipulating’, ‘fooling’, etc. which are all in prelogism—as-of-conviction-as-to-profound-supererogation—\(<\text{poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—\(<\text{as-effectively-apriorising-psychologism’s}^\rangle\) (‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—\(<\text{as-effectively-apriorising-psychologism’s}^\rangle\—\text{or-prelogism})\) construed as wrong \(\text{logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation}^\rangle\) or wrong
operation of prelogism -as-of-conviction,-as-to-profound-supererogation but nonetheless prelogism -as-of-conviction,-as-to-profound-supererogation). Fundamentally, psychopathic slanting is particular in that it departs from a relation to the ‘empty-form-of-meaning-as-inherently-deterministic outside the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s reference-of-thought’s-devolving-as-of-instantiative-context’ contrasted with ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’ which departs with a relation to ‘omitting or exaggerating within the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s reference-of-thought’s-devolving-as-of-instantiative-context’. But while poor-or-bad prelogism may be what is perceived from a ‘normal’ social and supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. The psychopath is in a state of compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or ‘compulsive-dementing’ (not recognising/giving-up-on the sound operation/processing of logic as the basis for deriving essence of meaning but rather perceiving meaning as just a hollow mimicking form that determines how others will act, more like a projection of form, i.e. compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation being a state of ‘conscious, unprincipled and instrumentalised threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism in veridical unsoundness-or-ontological-bad-faith/inauthenticity’s-reference-of-thought as the psychopathic mindset’s-reference-of-thought ontological-primemovers-totalitative-framework value-reference reflected by its

This is the fundamental fact that explains the evasiveness in grasping the psychopath in its motive and orientation as the psychopath’s actions can be as simple as a basic formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated-or-postlogism -formulaic slanting—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism) understanding of the effects on interlocutors of endearing, pleasing, laughter, etc. in inducing distraction, empathy, suspension-of-profound-reasoning or /*reference-of-thought teleological-degration in relation to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism in undermining an prelogism—as-of-conviction,-as-to-profound-supererogation perspective which /*reference-of-thought is veridical. All the ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a ‘deliberative prelogism—as-of-conviction,-as-to-profound-supererogation mental process’ with respect to its end purpose, and thus wrongly implying it is in ‘prelogism—as-of-conviction,-as-to-profound-supererogation’ with the wrong idea that
being postlogic—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness or pathologically/compulsively hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is not lying (or manipulating or bullying), in fact the psychopath will prefer that normal supplanting-conviction-as-to-profound-supererogation —postconverging/dialectical-thinking apriorising-psychologism minds think it is lying (or any notion of a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —postconverging/dialectical-thinking apriorising-psychologism’ as it wrongly elicits just a defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation rather than the idea of ‘compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’), as at least they will then wrongly realign prelogically/(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) again to it with respect to its subsequent narratives to examine the pertinence of its logic/logical-processing, i.e. engaging logical operating/processing and wrongly granting it supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking apriorising-psychologism (be it even ‘poor or bad supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking apriorising-psychologism’ as this will then wrongly imply its wrong or poor performance of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, rather than its hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>/vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging/slanting of empty narratives that are flawed or non-existent as postlogism -as-of- compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation) thus wrongly involved in prelogism hence wrongly validating as real its ‘fundamental faulty-
mentation-procedure-deception-or-urge which is its ‘apriorising—reference-of-thought-elements/apriorising—registry-elements, that in reality are out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context’, of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology (instead of examining in the very first place their relevance/pertinence or its soundness-or-ontological-good-faith/authenticity—reference—of reference-of-thought); in so doing, analysing its meaning as essence instead of analysing it as non-veridical hollow mimicking form or vague-rhyming-or-copied-mimicry—or-formulaic-projection—or-projection-of-form—or-hollow-and-vague-vocalisation—or-subknowledging or meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated or non-veridical hollow mimicking narratives.

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing—apriorising. That is to arrive at a sought-outcome by subknowledging—mimicking the non-veridical hollow-form of the meaning of other persons supplanting—conviction—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism—as-of-conviction—mind’, i.e. the psychopath is ‘narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting—conviction—postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing —integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of
meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking \textendash{} apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory-as-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism\textsuperscript{77} and its derivation/adoptions by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\textsuperscript{77}. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{96} and the notion of a lie which is prelogism -as-of-conviction,-as-to-profound-supererogation\textsuperscript{96} (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation\textsuperscript{96}—postconverging/dialectical-thinking \textendash{} apriorising-psychologism’) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96}. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s),
and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism -opportunism and conjugated-postlogism -exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of- reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), with respect to construing meaningfulness as prelogism -as-of-conviction,-as-to-profound-supererogation, but instead construes meaningfulness as postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation.
explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction,-as-to-profound-supererogation mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism /preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism interlocutors is not a ‘coherent
whole of narratives’ but a deliriousness/delirious-effect/cingle-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction,-as-to-profound-supererogation alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaningfulness as of prelogism-as-of-conviction,-as-to-profound-supererogation with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism alignment to its postlogic compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as prelogic supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism narratives, and this is what
actually occurs by inducing conjugated-postlogism /preconverging-or-dementing -integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing –apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought/preconverging-or-dementing –apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity reference-of-thought. Insightfully, it points out as well that the basis of the postlogism /psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism -as-of-conviction,-as-to-profound-supererogation interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation’ as it will ‘normally do’ with other prelogic supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking –apriorising-psychologism minds to a postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind, and then wrongly validates that the postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mind is in
In order words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaningfulness as based on prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{78} but rather as based on postlogism -as-of- compuling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{78} with its personality development into adulthood on this basis, paradoxically leads to the prelogism\textsuperscript{78}-as-of-conviction,-as-to-profound-supererogation\textsuperscript{78} mind’s deception since the latter operates on the basis that everyone must be of supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking\textsuperscript{78}—apriorising-psychologism (be it ‘poor or bad supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking —apriorising-psychologism’ at worst) and the notion of postlogism -as-of- compuling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\textsuperscript{78} doesn’t register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is\textsuperscript{10} universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity\textsuperscript{38} by its dereification\textsuperscript{86} on a mental-processing disposition that is rather a ‘dereifying bivalent-

bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} of its acts, at adulthood psychopathy the lack of such universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} of the postlogism-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-

Thus this implied human ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>⟩ peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and
prospectively notional-deprocrypticism psychology equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing’—apriorising-psychologism’ as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional-deprocrypticism as decentering and preconverging-or-dementing—apriorising-psychologism the positivism-procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional-deprocrypticism worldview/dimension reference-of-thought
prospective notional–deprocrypticism registry-worldview reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect–as-Being-or-ontological-or-existential–defect>, so construed in order to supersedes its dementative/structural/paradigmatic vices-and-impediments. Structural/paradigmatically/dementatively, this idea extends to all issues implying metaphysics-of-absence–(implicated-epistemic-veracity-of/nonpresencing–<perspective–ontological-normalcy/postconvergence>) ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality
constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-
realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence-{implicated-nondescript/ignorable–void ‘as-to-presencing—absolutising-identitive-constitutedness } and metaphysics-of-absence- {implicated-epistemic-veracity-of nonpresencing-<perspective–ontological-normalcy/postconvergence>} onontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s
institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present ‘meaningfulness-and-teleology’ frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/references-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic ‘meaningfulness-and-teleology’ to engage the non-positivistic social-setup in terms–as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-
of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have differentreference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought’s-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding<as-of-apriorising/axiomatising/referencing> rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-(as ‘first-level’ presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for base-institutionalisation–ununiversalisation, ununiversalisation failing/not-upholding<as-of-apriorising/axiomatising/referencing> universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-(as ‘second-level’ presencing—

Supposed there was no apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect (no perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) with social universal-transparency<transparency-of-totalising-entailing,-as-to-entailing<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness> of the calculations to be done, it is fair to say ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ in this reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling<indeferential-formalisation-transference>). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect–of- logical-processing-or-logical-implicitation—
supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{8} of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening\textsuperscript{9} with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social\textsuperscript{10} universal-transparency\textsuperscript{11}—(transparency-of-totalising-entailing—as-to-entailing—\langle amplituding/formative—epistemicity\rangle totalising—in-relative-ontological-completeness ) required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold\textsuperscript{12}, it is naïve to construe human mental-disposition as of quasi-intemtemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold\textsuperscript{12} mental-disposition’ as of existential-contextualising-contiguity\textsuperscript{13}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{14}—of—reference-of-thought—devolving—as—of-instantiative—context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the \langle amplituding/formative\rangle wooden-language—(imbued—temporal—mere—form/virtualities/dereification—/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{15}—narratives—of—the—reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{16} ) (failing/not-upholding—\langle as-of-apriorising/axiomatising/referencing—\textsuperscript{17} intemporal-preservation-entropy—or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{12} by a re-equilibrating metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—\langle perspective—ontological-normalcy/postconvergence—\rangle/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview
reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that de-mentatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the- reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of- maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of- meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-
worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity <profound-supererogation>–of-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporality /temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-

This fundamentally highlights a ‘notional–conflatedness’/constitutedness-to-conflatedness dynamic relationship’ with meaningfulness-and-teleology as directly reflecting ‘ontological-normalcy/postconvergence dynamics (in abstractly elucidating any given registry-worldview’s/dimension’s ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’, and so by the successive registry-worldviews/dimensions in corresponding snowballing succession of synopsising-depth of meaningfulness-and-teleology reconstrual going by ontological-normalcy/postconvergence implications); involving successively, <amplituding/formative–epistemicity>totalising–random-as-impulsive-phenomenal-abstractiveness-of-presencing-in–trepidatious-consciousness’-enabling-

Consider as of metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) or ontological-normalcy/postconvergence analysis the case of notions-and-accusations-of-sorcery in a non-positivistic social-setup uninstitutionalised-threshold\(^{102}\) which is rather in want of positivistic meaningfulness-and-teleology\(^{99}\). Effectively establishing deconstructive ontological-veridicality implies recognising the overall registry-worldview’s/dimension’s relative-ontological-incompleteness_of-reference-of-thought as superstitious/non-positivistic inclined, its postlogism\(^77\) and conjugated-postlogism\(^77\) as acknowledging and contending about notions-and-accusations-of-sorcery (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>) thus leading to perversion-and-derived- perversion-of- reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, with this succinctly reflecting the reality of temporal-dispositions as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^96\)—preconverging/dementing—anteriorising-psychologism as of such non-positivism reference-of-

Such that it is not a logical exercise (‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’\textsuperscript{3}) that is in order which will rather be circular as fundamentally operating on false non-positivism registry-worldview’s/dimension’s institutionalisation \textsuperscript{23} reference-of-thought—categorical-imperatives/axioms/registry-teleology of superstition but rather one of determination of temporal individuations threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

preconverging/dementing\textsuperscript{24} apriorising-psychologism as this reflects postlogism\textsuperscript{77} denaturing\textsuperscript{75} and conjugated-postlogism\textsuperscript{77} derived- perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as deconstruction of ontological-veridicality in implying and projecting about the prospective institutionalisation as of positivism meaningfulness-and-teleology\textsuperscript{8}\textsuperscript{,} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism\textsuperscript{77} and derived conjugated-postlogism, human reference-of-thought—prelogism\textsuperscript{78}—as-of-conviction,—as-to-profound-supererogation\textsuperscript{85} tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>) given our relative-ontological-incompleteness—of—reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\textsuperscript{22}. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute \textsuperscript{83} reference-of-thought—prelogism-as-of-conviction—as-to-
profound-supererogation\textsuperscript{6} has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-

preconverging/dementing –apriorising-psychologism and \textsuperscript{9}reference-of-thought–prelogism\textsuperscript{78}–

Such a distinction particular at the uninstitutionalised-threshold\textsuperscript{102} is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-\textsuperscript{reference-of-thought\textsuperscript{96} as of \textsuperscript{reference-of-thought\textsuperscript{83} categorical-imperatives/axioms/registry-teleology\textsuperscript{99} in the first place to establish or not persion-and-derived- persion-of-\textsuperscript{reference-of-thought\textsuperscript{<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >. This delineation is in line with the idea of human temporal (shortness-of-register-of\textsuperscript{meaningfulness-and-teleology\textsuperscript{7} to intemporal (longness-of-register-of\textsuperscript{meaningfulness-and-teleology\textsuperscript{8} individuations nature as implicitly recognised in the de-mentating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that \textsuperscript{meaningfulness-and-teleology\textsuperscript{59} construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of \textsuperscript{reference-of-thought\textsuperscript{prelogism\textsuperscript{78} -as-of-conviction,-as-to-profound-supererogation\textsuperscript{85} as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold\textsuperscript{102}’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{10}—preconverging/dementing\textsuperscript{77}—apriorising-psychologism mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-

This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold \textsuperscript{92} has to do with the possibility of attaining or not attaining social universal-transparency\textsuperscript{99}\textemdash (transparency-of-totalising-entailing,\textemdash as-to-entailing-<amplituding/formative–epistemicity>totalising\textemdash in-relative-ontological-completeness \textemdash ). Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing \textemdash apriorising-psychologism) with regards to \textsuperscript{81}reference-of-thought\textemdash prelogism\textemdash as-of-conviction,\textemdash as-to-profound-supererogation\textsuperscript{96}. This will explain why the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—
preconverging/dementing –apriorising-psychologism within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency –(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness of reference-of-thought. This imbued potency in social universal-transparency –(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought–prelogism as-of-conviction,-as-to-profound-supererogation to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism –as-of–compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mindset threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism arises out of its temporal individuation’s
surreptitiousness (‘lack of constraining social{universal-transparency}{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}’) such that it can induce threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing {apriorising-psychologism rule} as of marginal social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness {of reference-of-thought as social procrypticism–or–disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogism’s derived threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing{apriorising-psychologism, and so overall, on the flawed mental-reflex that such protraction of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —
preconverging/dementing{apriorising-psychologism is supposedly reference-of-thought–prelogism–as-of-conviction, -as-to-profound-supererogation} (as to the lack of constraining social{universal-transparency}{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing {apriorising-psychologism doesn’t socially take hold then, as such childhood postlogism perversion-of-reference-of-thought-<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation" hasn’t superseded the social universal-transparency - (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) in further inducing temporal-dispositions derived- perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation">. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory dementating/structuring/paradigming, and not by ontological-veridicality insight as of dementative/structural/paradigmatic causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency - (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) is dementatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness of reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness of reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness of reference-of-thought induced distactive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing> and
override any such sense of relative pure-ontology conflatedness as of prospective relative-

meaningfulness-and-teleology implied as of projective-insights about the prospective
registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going
by its prospective relative-ontological-completeness -of- reference-of-thought doesn’t
supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights
for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart
Okonkwo returning from his long banishment construes meaningfulness-and-teleology in
terms of the old/prior whereas his Umuofia village which had the same inclination as his as of
prior relative-ontological-incompleteness -of- reference-of-thought before he was banished
and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent
prospective relative-ontological-completeness -of- reference-of-thought had moved on to the
new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his
confliction with his circular-pervasiveness wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–
meaningfulness-and-teleology>-as-of-'nondescript/ignorable–void '-with-regards-to-
prospective-apriorising-implications>) which is equally a reflection of the confliction the
village had had with the same prior circular-pervasiveness wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–
meaningfulness-and-teleology>-as-of-'nondescript/ignorable–void '-with-regards-to-
prospective-apriorising-implications>) when the foreign cultural diffusion arrived before
superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G.
Well’s The Country of the Blind which also highlights the implications of relative contrast of
ontological-completeness-by-incompleteness-of-reference-of-thought with regards to
meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’
reference-of-thought as of it prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of- meaningfulness-and-teleology>-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) that hardly entertains its own transcendability/dementability, and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing> from an ontological-normalcy/postconvergence epistemic/notional—projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing— as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic
and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism–procrysticism as of its disjointedness-as-of- reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> notwithstanding any notion of relative prospective ontological-completeness-of- reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-<of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-<of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-<of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/ reference-of-thought meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought- devolving-as-of-instantiative-context— meaninglessness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions
pervasiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring–
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty
is that ‘no given
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and
by reflex circularly undertakes predicative-insights from its
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and
it is only the long run crossgenerational habituation construed as of \(\text{de-mentation-}
\text{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-}
attributive-dialectics) with the prior ontologically construed as decentered and preconverging-
or-dementing –apriorising-psychologism as of distractive-alignment-to– reference-of-thought-
<of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness
doesn’t exist just as the logical-dueness of the animist –reference-of-thought with their God of
plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-
satellite-level-height
perspective/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for
predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective ‘reference-of-thought (as the author in here with a supposed
notional–deprocrypticism reference-of-thought construal as implying a prospective relative-
ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the
fact is that any transcendental analysis is caught in two worlds as two different reference-of-
thought in striving to explicate the ontological pre-eminence of the prospective reference-of-
thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-
reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as
‘preconverging-or-dementing–apriorising-psychologism and not thinking’, and so whether
speaking of being construed within our positivism–procrypticism uninstitutionalisation as
preconverging-or-dementing–apriorising-psychologism and not thinking, within non-
positivism/medievalism uninstitutionalisation as preconverging-or-dementing–apriorising-
psychologism and not thinking, within ununiversalisation uninstitutionalisation as
preconverging-or-dementing–apriorising-psychologism and not thinking, and recurrent-utter-
uninstitutionalisation uninstitutionalisation as preconverging-or-dementing–apriorising-
psychologism and not thinking. We can grasp this by imagining how a non-positivism
uninstitutionalised-threshold will react when construed as preconverging-or-dementing–
apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it
considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-
dementing–apriorising-psychologism and not thinking representation of ourselves construed
from futural Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of
prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought
and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procrypticism–or–disjointedness-as-of-reference-of-thought. But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding-formative-epistemicity>totalising-self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or-dementing –apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage "meaningfulness-and-teleology" in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of- reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing –apriorising-psychologism with respect to an implied prospective mental-state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, issues of perversion-and-derived- perversion-of reference-of-thought—<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > rather render such notions as forgiveness/overlooking/resetting nothing more but vague <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments(25) as when so construed as a <amplituding/formative> wooden-language-
(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought–

leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications}> starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such transcending enabled by the ontological-contiguity—of-the-human-institutionalisation-process. In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived—perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > is rather vague, as the
more fundamental issue here is that human meaningfulness-and-teleology\textsuperscript{59} as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness\textsuperscript{77}-of-\textsuperscript{2} reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocripticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening\textsuperscript{72} enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics. Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\textsuperscript{78}-of-\textsuperscript{2} reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{77} as human limited-mentation-capacity-deepening\textsuperscript{72} retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived- perversion-of-\textsuperscript{-} reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}> not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with
positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity within the framework in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology¬<in-existential-extrication-as-of-existential-unthought> naïve perpetuation in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments with both uninstitutionalised-threshold, thus explaining the fundamental dilemma of all institutional Establishments in their <amplituding/formative>wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology¬as-of–nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications>). Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), which implies

placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-ontological-good-faith/authenticity–of–reference-of-thought’. Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions

placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of their prior relative-ontological-incompleteness–of–reference-of-thought while our positivism registry-worldview/dimension

explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of de-mentative/structural/paradigmatic nature of the- Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence-(implicated-‘nondescript/ignorable–void ‘-as-to-’ presencing— absolutising-identitive-constitutedness ) construed as postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity-of-reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing<>perspective–ontological-normalcy/postconvergence>) construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a preconverging-or-dementing -and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought by the latter as a
postconverging-or-dialectical-thinking\textsuperscript{10}-and-centered-prospective-institutionalisation’s—

dueness/logical-pertinence as of logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp
retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our
positivism and the non-positivism/medieval registry-worldview/dimension going by our
prospective relative-ontological-completeness\textsuperscript{8}-of-'reference-of-thought with respect to its
prior relative-ontological-incompleteness \textsuperscript{88}-of-'reference-of-thought. But since we have been
habituated as of our existential formation within our \langle amplitude/formative\rangle wooden-

logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} by
default and thus always contendingly relevant on the basis of sharing a mutual positivism
reference-of-thought, we will hardly entertain though a notional-deprocrypticism cross-
engagement implied invalidation of our logical-dueness for logical-processing-or-logical-
implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} and thus
rendering us contendingly irrelevant on the basis of our prior relative-ontological-
incompleteness \textsuperscript{88}-of-'reference-of-thought construed as disjointedness-as-of- reference-of-
thought. But then ironically such a unde-mentability posture could as well be adopted by a non-
positivism/medievalism reference-of-thought in its own existential formation that recognises
non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-
or-dialectical-thinking\textsuperscript{10}-and-centered-prospective-institutionalisation’s—

aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology for

mentative/structural/paradigmatic causality—as-to-
projective-totalitative–implications,—for-explicating-ontological-contiguity of vices-and-
impediments of our prior relative-ontological-incompleteness–of—reference-of-thought that
does not focus on substantive critiquing/assessment of the arguments made but is rather geared
to imply beforehand that such arguments are impropriety, is actually nothing more than our
falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a
status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to
wrongly imply no such argumentation is admissible. This is often a choice deterrent of
institutional and eruditical Establishments of presence failing to recognise that more profound
human insights arise from Dionysian dispositions and not just a reflex of looking at the
presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the
mortals that we are and we can’t advance our mortal statuses as superseding inherent
reality/ontology, but we are rather bound to be much more substantive than that to avoid
‘human closure of’ meaningfulness-and-teleology which easily arises given our temporal-to-
temporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-
referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is
such an articulation is not idle but rather the requisite fervour associated with many an
enlightening thought, however qualified as impropriety, as a <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/resentment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications) start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional-deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-prime-movers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a
Meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of ‘meaningfulness-and-teleology’ which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution construed as of ‘dementation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) by superseding the prior non-positivism prior relative-ontological-incompleteness–of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness–of-reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-totalitative-

That is, it is by turning the non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness” of reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of” reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidententing-predicative-insights of “meaningfulness-and-teleology” as conceptualising, articulating and preempting such disjointing/disparateness/disentailing “meaningfulness-and-teleology” of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness -of- reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of” reference-of-thought’ and the enculturation/endemisation of the manifest postlogism” and-conjugated-postlogism” in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of” reference-of-thought’ of “meaningfulness-and-teleology”, beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-

This explains how and why re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness’ -of-notional–deprocrypticism-prospective-sublimation} ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness unenframed-conceptualisation) of a reference-of-thought’s-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of conflation that enables such a certitude at uninstitutionalised-threshold of an epistemic-totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency \(^6\)-(transparency-of-totalising-entailing,-as-to-entailing-</amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \(\langle\) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold \(^2\) situation which is necessarily beyond-the-consciousness-awareness-teleology \(-<\text{in-existential-extrication-as-of-existential-unthought}>>\) and without social \(^1\) universal-transparency \(-<\text{transparency-of-totalising-entailing,-as-to-entailing}</amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \(\rangle\) of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology \(-<\text{for-aposteriorising/logicising/deriving/intelligising/measuring}>\) meaningfulness-
and-teleology needed for construing postlogism /psychopathy and conjugated-postlogism\(^{99}\) as of its social model at uninstitutionalised-threshold\(^{102}\), and so by way of maximising-recomposuring-for-relative-ontological-completeness\(^{77}\)—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity\(^{38}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{99}\)’s-reference-of-thought\(^{83}\) devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\) which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\) on the basis of the established reference-of-thought\(^{83}\)’s-categorical-imperatives/axioms/registry-teleology\(^{99}\),-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\(^{99}\). Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology\(^{99}\) before the institutionalisation of such a specific uninstitutionalised-threshold\(^{102}\) takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{38}\). At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism /psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism /social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} by formality dynamics; with the implication of lack of social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) as the manifestation is beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional-deprocrpticism
as-prelogism-as-of-conviction-as-to-profound-supererogation thus leading to caricaturing-hollow-staging-and-performance; and so construed as of ‘themes-driven underlying-agency-orous-sous-agencement dynamics for narration-construed-as-instantiative-moulting’). However, we can still get a sense of such de-mentative/structural/paradigmatic causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness-reference-of-thought perspective but it is more difficult to grasp from a notional-deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing–apriorising-psychologism, given our state of metaphysics-of-presence-(implicitd-‘nondescript/ignorable-void-as-to-presencing—absolutising-identitive-constitutedness). Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of
and-teleology will be difficult to countenance but for a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold—and-defect—as-Being-or-ontological-or-existential–defect>. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procypticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema>-with superstitious claims in its “meaningfulness-and-teleology”. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism—as-of-conviction,—as-to-profound-supererogation—conflatedness—as of positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology”, going by their familiarisation with the childhood psychopathy ‘logically-undue postlogism—as-of—compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow—

It is effectively derived-denaturing\textsuperscript{15} that induces threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}—preconverging/dementing –apriorising-psychologism as of uninstitutionalised-threshold\textsuperscript{29}, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology\textsuperscript{9} are in effect ontologically-speaking threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism\textsuperscript{77} analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism\textsuperscript{78}–as-of-conviction,-as-to-profound-

This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. This insight equally explains the pertinence of understanding postlogism/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\textsuperscript{13} disruptive nature on human ‘meaningfulness-and-teleology’\textsuperscript{12} and with the de-mentating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism\textsuperscript{7} in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism\textsuperscript{7} individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional-deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. That insight then brings up the idea of how does a registry-worldview/dimension-level
dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\(^7\)/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing>-\(^7\) as undermining conflatedness\(^7\) induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\(^7\)-of- reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism\(^7\) as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of- reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative–epistemicity>-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^7\) that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism -as-of-conviction,-as-to-profound-supererogation -of- reference-of-thought’ is in an ‘intemporality\(^7\)-asymmetric-subsumption-of-temporality\(^7\)/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness\(^7\) as of its asymmetrisation with respect to the visitor whose \(^7\)reference-of-thought ontologising-deficiency/relative-ontological-incompleteness\(^7\)-of- reference-of-thought as not factoring in the childhood psychopathy postlogism -as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^7\)-of- reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of

We can further get a sense with respect to the implications of what is meant by ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’\(^{19}\),
construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the ‘emotional involvement’ in conflatedness within the same positivism registry-worldview of appraisal is way low compared to the high ‘emotional involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and notional–deprocrypticism as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of ‘emotional involvement’ thus requiring rather a crossgenerational adjustment as conflatedness over the prior distinctive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>.... In conclusion, such a construal/conceptualisation as of notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology over our positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of our ‘lived social’ uninstitutionalised-threshold with respect to psychopathy and social psychopathy and procrypticism in general is a wholly new dramatically different depth of understanding, and from our present inclination of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity within the positivism institutionalisation framework. Beyond the above contrastive individuation-level and registry-worldview/dimension-level of analysis with respect to the uptake of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-

This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology conflatedness for prospective relative-ontological-completeness —of—reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wanes as the reality of human notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> nature sets in as it is related to at the uninstitutionalised-threshold by the registry-worldview’s/dimension’s least common denominator as <amplituding/formative> wooden-language—(imbued—temporal—mere-

Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of meaningfulness-and-teleology. The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as allowing for the endemisation/enculturation of the denaturing\textsuperscript{25} of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability” is circumstantially relevant even in our positivistic registry-worldview wherein ‘lack of constraining social universal-transparency\textsuperscript{15}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{25}\textsuperscript{26}\textsuperscript{27}\textsuperscript{28}\textsuperscript{29}\textsuperscript{30}\textsuperscript{31}) induces a ‘human temporal uninstitutionalised-threshold mental-disposition’ temporality /shortness or shortness-of-register-of\textsuperscript{25} meaningfullness-and-teleology\textsuperscript{27} drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold with respect to perceived--social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-deepening\textsuperscript{25}, truly reflect the inherent nature of 'human temporal uninstitutionalised-threshold mental-disposition'; and the
deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychology with respect to positivism–deprocrypticism registry-worldview/dimensions vices-and-impediments (just as with all previous transcendence-and-sublimity/sublimation/superroratory-de-mentativity of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality—as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’, rather than a naïve metaphysics-of-presence-(implicited-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ) mental complex that only serves ‘flawed egos’ and is of no ontologically-veridical import). The point of this distinction made between the nature of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ registry-worldview’s/dimension’s reference-of-thought and ‘human temporal uninstitutionalised-threshold mental-disposition’ registry-worldview’s/dimension’s reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous successive registry-
worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold’ mental-disposition as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension ‘meaningfulness-and-teleology’ as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold facet, so-construed by metaphysics-of-absence—(implicated-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>), carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Such metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—<perspective–ontological-normalcy/postconvergence>) considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling—<in-deferential-formalisation-transference> and transversality—of-affirmative-and-unaffirmative–disambiguated—‘motif-and-apriorising/axiomatising/referencing’\[101\]. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentativity is grounded on institutionally-determined peerage/collégiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic “meaningfulness-and-teleology” (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific “meaningfulness-and-teleology” as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic “meaningfulness-and-teleology” in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-prime-movers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-
granting-of-power-exercise with respect to the virtue of true knowledge, as of the social
percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling
promising ideas, however institutionally-outlying or institutionally-central, to take hold in
society depending on their relative intrinsic-reality/ontological-veridicality transcendental-
ening/sublimating/supererogatory–de-mentativity as of veracity/ontological-pertinence;
without heed given to mere centrality as veracity/ontological-pertinence but decentering if the
centrality is not ontologically pertinent, and rather further secondnaturing prospective
institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-
veridicality transcendence-enabling; very much highlighting the prospective institutionalisation
pertinence of such notions articulated by this author like deferential-formalisation-transference,
ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and
transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’101. In another respect, with regards to scientific
meaningfulness-and-teleology19 and as it informs the social-construct of knowledge and
deferential-formalisation-transference (as power relations with respect to knowledge as socially
empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory–de-mentativity that induces social
dereference to formal knowledge constructs and other formal constructs, on the basis that that
will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold19 when
such domains lacked or were deficient with respect to formal knowledge constructs or other
formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all
opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic
contending mental-dispositions on the basis of the determining or non-determining need for
‘social consensus as of social-aggregation-enabling by human temporal
<amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-
leveling/ressentiment/closed-construct-of–‘meaningfulness-and-teleology’\textsuperscript{\textcircled{a}}, as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness -of- reference-of-thought increasingly defer domains of ‘meaningfulness-and-teleology’ more and more to formal constructs while increasingly reducing the sphere of the extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to–‘meaningfulness-and-teleology’) as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific ‘meaningfulness-and-teleology’ terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-
determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the
attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal amplituding/formative wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications) mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-(implicit-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ) instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>) we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-
positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of
institutionalisation’. Virtue is essentially about the intemporality\(^\text{drive}\) as ‘maximalising-recomposuring-for-relative-ontological-completeness\(^{-}\)―unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^{12}\) by a re-equilibrating metaphysics-of-absence-{implicated-epistemic-veracity-of-\(^{=}\)nonpresencing-<perspective–ontological-normalcy/postconvergence>}/postdication with reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\) subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{9}\) as these are failing/not-upholding<{as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\(^{12}\) by a re-equilibrating metaphysics-of-absence-{implicated-epistemic-veracity-of-\(^{=}\)nonpresencing-<perspective–ontological-normalcy/postconvergence>}/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness\(^{11}\)-of-reference-of-thought, by ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\(^{13}\)-or-ontological-reprojecting its mental-disposition will be to unleash its ‘maximalising-recomposuring-for-relative-ontological-completeness\(^{9}\)―unenframed-conceptualisation intemporality\(^{11}\)-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-
teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity—in-reification/dereification as of their prior relative-ontological-incompleteness—of—reference—of—thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity—in—reification as-seeking—a—cure as of its prospective relative-ontological-completeness—of—reference—of—thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism—procrpticism registry—worldview/dimension as of its prior relative-ontological—incompleteness—of—reference—of—thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity—reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; just as postmodern—thought notional-contiguity/epistemic-contiguity —<profound—supererogation of—mentally—aestheticised—postconverging/dialectical-thinking —qualia-schema> in decentering the
‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ of the prior relative-ontological-incompleteness of reference-of-thought and the contorted prospective relative-ontological-completeness of reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness of reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-
being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness-of-reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness-of-reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, as a gesturing of metaphoricity that is ‘beyond the prior relative-ontological-incompleteness-of-reference-of-thought full meaningfulness-and-teleology implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity possibility for prospective relative-ontological-completeness-of-reference-of-thought’; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-ontological-incompleteness-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity—gesturing for prospective relative-ontological-completeness—of-reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness—towards-ontological-completeness—of-deprocrypticism’ as of their specific reflection of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as—to ‘human-amplituding/formative—epistemicity>totalising—purview-of-construal’ (just as implied with the case highlighted herein of the ‘ill-health <amplituding/formative—epistemicity>totalising—devolved—purview/domain—of-construal—as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif—and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance’—<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as—of—its-coherence/contiguity’ and construed as of ontologically-veridical difference-conflatedness—as-to-totalitative-reification—even—singularisation—as-veridical-epistemic-determinism ; with the assertion by this author that there is no accidental human meaningfulness-and-teleology as all prior meaningfulness-and-teleology imply futural deferred traces of their prospectively more ontologically-complete constructs as of grander ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so—
Worldview/dimension is of a reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument that by its reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation falsely implies that its ‘meaningfulness-and-teleology’ is necessarily as of ‘identitive <amplituding/formative—epistemicity> totalising/circumscribing/delineating postconverging-or-dialectical-thinking—apriorising-psychologism’ even at its uninstitutionalised-threshold where it is effectively preconverging-or-dementing—apriorising-psychologism as its reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation fails to induce an ontologically-veridical reifying trace/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> of existential-contextualising-contiguity. We can imagine as of a non-positivistic social-setup reference-of-thought identitive-constitutedness—as—epistemic-totality—dereification—in-dissingularisation—as—flawed-epistemic-determinism <amplituding/formative—epistemicity> totalising/circumscribing/delineating meaningfulness-and-teleology, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold, much like as from futural Being-development/ontological-framework-expansion—as—to—depth—of—ontologising-development—as—infrastructure—of—meaningfulness-and-teleology as of prospective notional—deprocrypticism perspective we can imagine the ‘candid existential expressiveness’ in our positivism—procrypticism that ‘integrates procrypticism—or—disjointedness—as—of—reference-of-thought as-thinking’ as of its uninstitutionalised-threshold; and in both cases the trace/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> of ontological wholeness/nested-congruence as of existential-contextualising-contiguity knowledge-reification breaks down at the uninstitutionalised-threshold thus assuming a nondescript/ignorable—void (actually speaking of akrasiatic-drag-denatured-and—

Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojective psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and medieval-scholasticism-like pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism but not yet as of rational-empiricism’; with such budding-positivism rather a metaphoricity instigation of ontological-faith-notion-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic soul-searching for the psychoanalytic-unshackling of the human subject as of a de-mentative/structural/paradigmatic Lacanian displacement/decentering of the human subject from its prior epistemic-totality//reference-of-thought/epistemic-totalising~self-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as the fundamental de-mentative/structural/paradigmatic resolution of the ‘positivism–procrepticism human subject superegoic vices-and-impediments’

It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. In this regard, we can construe that even the wooden-language-<ampituting/formative>wooden-language- (imbued—averaging-of-thought=<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>) mental-disposition in a non-positivism/medievalism social-setup has a sense of human knowledge development and emancipation but with a mental-reflex that such a conception is necessarily by way of the non-positivism/medievalism social-setup reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring.

The idea that ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ articulation of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in prospective relative-ontological-completeness as of positivism reference-

mental-disposition in our positivism–procrypticism effectively do has a sense of human knowledge development and emancipation but as of a mental-reflex that such a conception is necessarily by way of our positivism–procrypticism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for "meaningfulness-and-teleology" aposteriorising/logicising/deriving/intelligising/measuring. In the same vain, the idea that ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ articulation of prospective ontologically-uncompromised—referentialism notional–deprocrypticism reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for "meaningfulness-and-teleology" aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism is very much alien to our positivism–procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that
necessarily faces the fact that the human mind is ever always entrapped in an existentially-
invested ‘epistemic-totality’/reference-of-thought/epistemic-totalising~self-referencing-
syntesising/circularity conception of ‘meaningfulness-and-teleology’ which effective
dislodgment/displacement/decentering is of a crossgenerational instigation, but then
wouldn’t happen just by accident and thus has to be instigated for prospective relative-
ontological-completeness! In fact such an insight can be extended across ‘intemporal

uninstitutionalised-threshold implies that the human psychological reflex as of its limited-
imentation-capacity at any such uninstitutionalised-threshold ‘is not geared to adhere to
abstract ontological-veridicality’ as it will operate its state of dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of singularisation /epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocripticism—or—preempting—disjointedness-as-of- reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness reference-of-thought meaningfulness-and-teleology state is downright ontologically ridiculous and the manifestation of an <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation /epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-
or-dialectical-thinking – apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing – apriorising-psychologism as of prospective postconverging-or-dialectical-thinking – apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic/reprojective psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema>; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity, on the same token that a natural scientist is in a transversality—of-affirmative-and-unaffirmative–
disambiguated-‘motif-and-apriorising/axiomatising/referencing’ reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s² on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s² but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation"—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology’/reference-of-thought—devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-
dementing\(^1\)–apriorising-psychologism uninstitutionalised-threshold\(^2\) which it tends to represent as nondescript/ignorable–void (actually speaking of akrasiatic-drage-denatured-and-preconverging-or-dementing\(^1\)-narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory–de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the possibility of prospective relative-ontological-completeness–of–reference-of-thought. Human supererogatory–de-mentative constraint is fundamentally associated with poor universal-transparency\(^1\)–(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^1\)) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\(^1\). This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative> wooden-language–(imbued—temporal–mere-form/virtualities/dereification\(^8\)/akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\)) as of the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) that stifle the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness–of–reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness\(^8\), for resolving a given registry-worldview/dimension vices-and-impediments\(^10\); this notion of human supererogatory–de-mentative constraint is critical for the psychoanalytic-
implications of the trace/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of reifying existential-contextualising-contiguity, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness’). Such a human disposition to decontortion at uninstitutionalised-threshold arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation /epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually preconverging-or-dementing –apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality gesturing. The ontological-contiguity of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>), decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal
existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework\(^7\) in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency\(^7\) -(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^7\)).

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism\(^{13}\) as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance-<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness\(^{13}\)-as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification\(^{13}\) as of singularisation/epistemic-immanence/veridical-
epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness’ as ‘epistemic-totality’-dereification -in-dissingularisation -as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme’. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already
precedingly/supersedingly as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing, and producing relatively ontologically-flawed “meaningfulness-and-teleology”. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness /relative-ontological-completeness - (sublimating~referencing/registering/decisioning,-as-self-becoming/self-conflatedness /formative-supererogating<-projective/reprojective—aestheticising-re-motif— and-re-apriorising/re-axiomatising/re-referencing,-in-perspective—ontological-normalcy/postconvergence>) with respect to temporal-to-intemporal ontological-performance - <including-virtue-as-ontology> which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying conflatedness connotative nature of ‘speech
activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity posture that is as of ecstatic-totalising-entailing/nested-congruence as with the latter. Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative ontological-performance’-<including-virtue-as-ontology>’ as of its reifying conflatedness connotative nature reflecting the ontological-veracity/ontological-performance <-<including-virtue-as-ontology> of human-subpotency epistemic/notional~projective-perspective meaningfulness-and-teleology articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction exposing it to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of<-amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness epistemic/notional~projective-perspective of ontological-primemovers-totalitative-framework as of prospective relative-ontological-
completeness, causality as to projective-totalitative-implications, for explicating-ontological-contiguity, and so construed as of difference-conflatedness as to totalitative-reification in singularisation as veridical-epistemic-determinism. Causality as to projective-totalitative-implications, for explicating-ontological-contiguity; thus further articulating meaningfulness-and-teleology as from prior relative-ontological-incompleteness to prospective relative-ontological-completeness, and so from the epistemic/notional perspective of existence-potency-sublimating-nascence, disclosed from prospective-epistemic-digression as of totalising-renewing-realisation/re-perception/re-thought, in supererogatory-epistemic-conflatedness as to ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism and this ‘ontologically-hegemonising-narrative ontological-performance’ orientation is theoretically, conceptually and operantly ontologically efficacious inherently by its ecstatic-totalising-entailing/nested-congruence as it reflects totalisingly-entailing the ‘notional-firstnaturedness—temporal-to-intemporal-dispositions—as of the social epistemic-totality of meaningfulness-and-teleology. This totalising-entailing insight is reflected in the Derridean deconstruction orientation with its obvious narratology implications pertinence to literary studies as of its conflatedness with existential-contextualising-contiguity in contrast to such a notion like language games when construed rather in constitutedness. This difference of conceptualising comes down to the atomising/taking-to-
uncritically of its right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset,-in-positivism–procrpticism/disjointedness and goes on as of its categorising constituting to construe knowledge for completeness without questioning its mindset,-in-positivism–procrpticism/disjointedness as if it has got an absolutely veridical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this is exactly what is implied by displacement/decentering-of-the-human-subject as of its relative-ontological-incompleteness\(^6\). This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment\(^5\) as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking\(^6\)–apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical \(^9\) meaningfulness-and-teleology\(^9\) that exists is about existential-contextualising-contiguity \(^8\) knowledge-reification\(^8\) as of ontological-prime-movers-totalitative-framework\(^2\) \(^4\)<amplituding/formative-epistemicity> causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^6\) of supposedly coherent ontological-commitment\(^5\) implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, ‘speech activity’ discourse speaks of an supposedly coherent ontological-commitment\(^5\) as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-
mentativity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of this articulated ontological-as-existential-commitment having to do with such social contextualisation’. Likewise the underlying notion of ontological-performance `<including-virtue-as-ontology>` as herein articulated by this author is as difference-conflatedness `<as-to-totalitative-reification>` in-singularisation `<as-veridical-epistemic-determinism>` causality `<as-to-projective-totalitative-implications>` for-explicating-ontological-contiguity `<as-from-existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of>` `<totalising–renewing–realisation/re-perception/re-thought,–in-suprerogatory–epistemic-conflatedness>` as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’; articulating knowledge as ontologically-veridical `<meaningfulness-and-teleology>` as of the existential-contextualising-contiguity `<knowledge-reification>` `<causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity>` of human underlying relative-ontological-incompleteness `/relative-ontological-completeness` `<sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness>` `<formative–supererogating<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>>`. This underlying notion of ontological-performance `<including-virtue-as-ontology>` speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity/sublimation/supererogatory-dementativity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-
poorly-appreciate the fact that just as scientific studies are transformative the study of the social
rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to

“<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-
for-explicating-ontological-contiguity”. Whereas the analytic tradition posture as with ‘speech

the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific
interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of
ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent
ontological-commitment” in want of existential-contextualising-contiguity” knowledge-

be validated and falsified by ontological-primemovers-totalitative-framework”
“<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-
for-explicating-ontological-contiguity”. This fundamental difference of conceptualisation very
often underlies the disagreements between the analytic philosophical orientation and other
philosophical traditions, in the sense that while the latter might be implicitly implying
supposedly coherent ontological-commitment about ‘axiomatic-construct construal of
ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendancy of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity as of ontological-primemovers-totalitative-framework as of ontological-primemovers-totalitative-framework, and goes on to naively deploy outside existential-contextualising-contiguity knowledge-reification such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment for knowledge elucidating/reifying which validation and falsifiability is rather a matter of ontological-primemovers-totalitative-framework. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of ontological-primemovers-totalitative-framework. With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning, it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like
spacetime, force, atoms, etc. in the physics <amp;formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-prime-movers-totalitative-framework causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is falsifiable by ontological-prime-movers-totalitative-framework causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-
world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as
of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment in producing knowledge as ‘meaningfulness-and-teleology’; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of <amplituding/formative–epistemicity>totalising–devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-
epistemic-veracity of constitutedness of knowledge. The implication here is that the epistemic-veracity of knowledge as meaningfulness-and-teleology is rather as of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating construal as of existence’ with <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality rather ‘narrowing-construals of their specifically-implied human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -<imbued-and-'hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, and hence of nested-congruence with existence’. This further points out that the traditional explicited constitutedness conception of the notion of cause-and-effect so-implied herein as ontological-primemovers-totalitative-framework is actually epistemically-impertinent and flawed; as this traditional conception tends beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to imply unconnectedness-with/not-in-nested-congruence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality, hence implicitly-or-explicitly liable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This constitutedness nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the ‘inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-
to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal–as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness, this unexplicited implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–
oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity\(^{18}\) as of conflatedness ; so-implied as of their supposedly coherent ontological-commitment\(^{65}\) reflected by ontological-primemovers-totalitative-framework\(^{72}\) as to existence-potency~sublimating~nascence,-disclosed-from-prospective-epistemic-digression-as-of-

\(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing–realisation/re-perception/re-thought,–in–supererogatory–epistemic–confoundedness}^{12}\). In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the \(<\text{amplituding/formative–epistemicity}>\text{totalising–devolved–purview–as–domain–of–construal–as–intrinsic–reality/ontological–veridicality–of–natural–sciences};\) with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoricisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a

the social domains-of-study along the natural sciences, is the fact that more than mere adoption-
and-mimicking of scientific methods and approaches, the truly pertinent and decisively
scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from
whence statistical, mathematical and other scientific methods become interpretatively
intelligible; such that merely adopting-and-mimicking such methods without precedingly
construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is
‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic
misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of
existential-contextualising-contiguity conflatedness that points to the specific scientific
methodology of relevance or irrelevance, given that in certain cases the qualitative nature of
things will for instance render statistical and mathematical methods irrelevant. This further
explains why Derridean deconstruction and Foucauldian discourse analysis have been found in
many social domains-of-study, including domains like medical and healthcare practice for
instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social
issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-
knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-

This explains why postmodern-thought cannot truly be understood in terms as-of-axiomatic-construct of naïve identitive positivistic modern thought because the meaningfulness-and-teleology of postmodern-thought only arise rather in the reification process/gesturing involving the displacement/decentering-of-the-human-subject implied as of its causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness - (sublimating-referencing/registering/decisioning,-as-self-becoming/self-conflicatedness/formative-supererogating-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing,-in-perspective—ontological-normalcy/postconvergence) for elucidating, deriving and knowledge-reification of its concepts and conceptualisations; as naïve identitive positivistic modern thought in its totalising SELF-referencing-syncretising/circularity/interiorising/akrasiatic-drag very often and systematically rather construes of such postmodern concepts and conceptualisations substitutively in its predisposition of presencing—absolutising-identitive-constitutedness by its mere referring, mentioning and synonymising of postmodern concepts and conceptualisations thus undermining the inherent postmodern-thought implied elucidation, derivation and knowledge-reification of concepts and conceptualisations, and as such identitive positivistic modern thought fundamentally fails to recognise and factor in the aforementioned postmodern-thought knowledge-reification process/gesturing as of causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness
Such a recurrent ontologically-flawed predisposition is tantamount to say construing Newtonian physics in the absolute terms—as-of-axiomatic-construct of its concepts and conceptualisations of say space, time, force, etc. to then project this predisposition by mere referring, mentioning and synonymisation of these Newtonian physics concepts and conceptualisations as if of Einsteinian physics in the hope that this will enable the elucidation, derivation and knowledge-reification of Einsteinian physics, whereas the latter implies an utterly different reification process/gesturing for its specific physics elucidation, derivation and knowledge-reification as of its causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness—(sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>). It is rather the suprastructuralism/postmodernism reification process/gesturing as of causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness—(sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) that supersedingly induces postmodern-thought implied concepts and conceptualisations elucidation, derivation and knowledge-reification, just as the same can...
be said of Einsteinian physics reification as process/gesturing as of causality~as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness-(sublimating~referencing/registering/decisioning,--as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) in supersedingly inducing its specific implied concepts and conceptualisations elucidation, derivation and knowledge-reification of say space-time, force, etc. In both instances, when interpreted from the relative-ontological-incompleteness perspective in ontologically-flawed presencing—absolutising-identitive-constitutedness of naïve positivistic modern thought or Newtonian physics respectively, suprastructuralism/postmodern-thought and Einsteinian physics will be ‘qualified negatively as relativistic’ since the latter do not assume a presencing—absolutising-identitive-constitutedness with concepts like truth, space, time, force, etc. and the latter rather perceive these as ontologically-flawed elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as from the relative-ontological-completeness perspective which emphasises construing existential-reality as it manifests itself as of existential-contextualising-contiguity in conflatedness; and likewise, the fact that existential-contextualising-contiguity in conflatedness ‘epistemically implies human limited-mentation-capacity-deepening for construing ontological-veracity’, thus ‘putting-in-question/deflating by difference-conflatedness-as-to-totalitative-reification—in-singularisation-as-veridical-epistemic-determinism’ all presencing—absolutising-identitive-constitutedness traditional conceptions beyond their simplistic conceptual-patterning to reflect underlying ecstatic-existence, will tend to be construed from the relative-ontological-incompleteness perspective
in "presencing—absolutising-identitive-constitutedness as nominalistic rather than as of "foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity”),–as-operative-notional–deprocrypticism supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as from the relative-ontological-completeness perspective. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification of Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. In both cases, the "amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness of sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating:<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) implied displacement/decentering-of-the-human-subject points to different sense-of-conscious-representation-of–meaningfulness-and-teleology between the relative-ontological-incompleteness and relative-ontological-completeness such that the former is rather in pseudo-edginess/pseudo-incisiveness implying the need for its unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-

A further naivety is the appreciation of postmodern knowledge-reification process/gesturing arises as of a general misunderstanding of what is generally implied with regards to any given knowledge-reification process/gesturing. As indicated before all subject-matters/domains-of-study effectively reflect existence’s overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-implied-and-

(sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating–/projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>/relative-ontological-incompleteness , such that for instance even a naïve traditional conception of the physics domain-of-study as of atomising/taking-to-pieces constitutedness is shown to be veridically rather as of existential-contextualising-contiguity
going by the successive relative-ontological-completeness\textsuperscript{87} physics conception of such notions as space, time, etc. in totalising/circumscribing/delineating development of successive theories say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same notions and derived-notions but with different implications. This totalising/circumscribing/delineating nature of all domains-of-study in existential-contextualising-contiguity\textsuperscript{18} conflatedness\textsuperscript{7} as of causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{16}, speaks of the epistemic-veracity of the fact that ‘all knowledge is truly developed as of a hermeneutic/reprojective circle for relative-ontological-completeness\textsuperscript{89}’ that involves human limited-mentation-capacity-deepening\textsuperscript{72}. This hermeneutic/reprojective circle knowledge-reification\textsuperscript{86} process/gesturing is furthermore reflected in both human scholarly-and-pedagogic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojective insight as of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification\textsuperscript{86} process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification\textsuperscript{86} process/gesturing at its ‘appropriate hermeneutic/reprojective circle level of postmodern knowledge-reification’\textsuperscript{86} no different from say top-level physicists and natural scientists articulating their knowledge-reification\textsuperscript{86} process/gesturing at their ‘appropriate hermeneutic/reprojective circle level of top-level physics/natural-science knowledge-reification’\textsuperscript{87}. In both instances, the knowledge-reification\textsuperscript{87} process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojective circle levels of knowledge-reification’\textsuperscript{87}. Such a supposed scholar or student cannot depart from ordinary/banal
level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a wooden-language--(imbued—averaging-of-thought--as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>–as-of—level of predisposition to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojective circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a ‘totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojective circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojective circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal wooden-language--(imbued—averaging-of-thought--as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>–as-of—level
of knowledge conception, and implicated in its knowledge-reification—gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojective circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojective circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojective circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-prime-movers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation—<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> but
rather implying a furtherance of the overall hermeneutic/reprojective exercise involved in the
advancement of all human knowledge as of <amplituding/formative–
epistemicity> totalising–renewing–realisation/re-perception/re-thought, wherein all such
knowledge-reification is a hermeneutic/reprojective circle involving: the
analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-
conceptualisation–(imbued-postconverging/dialectical-thinking–‘projective-
insights’/‘epistemic-projection-in-conflicatedness’–of-notional–deprocrypticism-prospective-
sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge
area as of inherent existence/ontological implications whether say with a natural science
domain like hereditary as of its given specificity or philosopher’s thought as of the general
ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence
of the given prior contribution on the basis of the analyst’s/philosopher’s baseline re-originary–
as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-
thinking–‘projective-insights’/‘epistemic-projection-in-conflicatedness’–of-
notional–deprocrypticism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the
analyst’s/philosopher’s reflection on the shortfall in the ontological-performance of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity ’), as-
operative-notional-deprocrypticism with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-immanent-ontological-contiguity orientation driven by the cultivation of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-immanent-ontological-contiguity epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity in conflatedness, an issue that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-
process but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic/reprojective insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of being-as–historiality/ontological-eventfulness/ontological-aesthetic-tracing-
<perspective–ontological-normalcy/postconvergence- reflected–epistemicity-relativism’>, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist wooden-language—(imbued—averaging-of-thought—meaningfulness-and-teleology—as-of-
‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) in its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in conflatedness; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojective insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness—as–‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojective
conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojective analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojective and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental-instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its
induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth—
or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation that then feeds into prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification’–gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve ‘presencing—absolutising-identitive-constitutedness’ basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure-(as-to–historiality/ontological-eventfulness/)ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process”) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification –gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojective development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-
intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojective insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojective insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly
lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of
meaningfulness-and-teleology infrastructure’, something which a ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as of a
amplituding/formative wooden-language-{imbu—averaging-of-thought-as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-
‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications}> is not
de-mentated/structured/paradigmed to do! But then the phenomenological question arising with
respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’—epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the
realisation of the full knowledge-reification potentiality of domains-of-study as of their
supposedly coherent ontological-commitment as reflected by ontological-primemovers-
totalitative-framework as of existence-potency—sublimating—nascence? Insightfully, this
fundamentally has to do with the contrastive implications in construing ontological-
primemovers-totalitative-framework as of good-practice/epistemic-veracity and bad-
practice/epistemic-impertinence for knowledge-reification; wherein objectifying
foregrounding—entailment—postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-
ontological-contiguity’,—as-operative-notional—deprocrypticism as good-practice/epistemic-
veracity of knowledge-reification involves the construal of ontological-primemovers-
totalitative-framework as of ‘cogent-unifying-operant-dynamics of primemovers’ so-
construed veridically as ‘ontological-primemovers-totalitative-framework as of existential-
contextualising-contiguity conflatedness’, whereas disparateness-of-conceptualisation—
unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’ as
bad-practice/epistemic-impertinence of knowledge-reification\textsuperscript{16} involves the construal of ontological-primemovers-totalitative-framework\textsuperscript{12} as ‘disjointing/disparateness/disentailing of primemovers’ so-construed wrongly as ‘ontological-primemovers-totalitative-framework\textsuperscript{12} in constitutedness\textsuperscript{12} outside existential-contextualising-contiguity\textsuperscript{19}’. Underlying the ontological-
performance\textsuperscript{7} of human-subpotency conscious-able aestheticisation of ecstatic-existence is both the human instigative-drivenness construed as originariness-parrhesia,–as–spontaneity-of-aestheticisation and human reproducibility—
epistemicity>totalising~renewing-realisation/re-perception/re-thought’ human aestheticisation process with respect to living-development–as-to-personality-development \( ^{2} \) meaningfulness-and-teleology \(^{3} \), institutional-development–as-to-social-function-development \( ^{2} \) meaningfulness-and-teleology \(^{4} \) and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology \(^{5} \) meaningfulness-and-teleology \(^{6} \), and so epistemic-ricochettingly/transepistemically as of ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’ with respect to unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance \(^{7} \) -<including-virtue-as-ontology> wherein originariness-parrhesia,—as–spontaneity-of-aestheticisation re-stakes/puts-back-at-stake the reconstruing of existential-reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,—as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ \(^{8} \)), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation’. For instance with regards to living-development–as-to-personality-development \( ^{2} \) meaningfulness-and-teleology \(^{9} \), human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ \(^{10} \) involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness’ -by-
reification \dagger /contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness \dagger-by-reification \dagger /contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of ‘meaningfulness-and-teleology’ (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’) in existential-contextualising-contiguity \dagger conflatedness \dagger involving ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement
of language, as of the implied ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojective reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ in difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{12}–in-singularisation\textsuperscript{12}–as-veridical-epistemic-determinism\textsuperscript{86} ). This is so because ‘human \textsuperscript{6} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{8} purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{7} orientation’ supersedes any such human ‘institutional-development–as-to-social-function-development\textsuperscript{9} meaningfulness-and-teleology\textsuperscript{99} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language’, in its existential-contextualising-contiguity\textsuperscript{18} conflatedness\textsuperscript{12} (even as the latter had been precedently contributive to that purposefulness-reflexivity) such that such a human ‘institutional-development–as-to-social-function-development\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{99} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language’ is more critically a passive ready-at-hand conception that is epistemically/notionally ever always critical only in existential-contextualising-contiguity\textsuperscript{18} conflatedness\textsuperscript{12} as it is adapted to ‘human \textsuperscript{4} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{9} purposefulness-reflexivity for prospective relative-ontological-completeness\textsuperscript{7} orientation’. This basically explains the constantly developing nature of human ‘institutional-development–as-to-social-function-development\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{99} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness\textsuperscript{12} conceptions like language’ which are not truly absolutely of
present-at-hand as to wrongly imply \textsuperscript{7} presencing—absolutising-identitive-constitutedness \textsuperscript{13} of—meaningfulness-and-teleology \textsuperscript{99} (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it is ‘human \textsuperscript{44} \textless \text{amplituding/formative–epistemicity}\textgreater \textless \text{causality–as-to-projective-totalitative-implications,–for-explicating-ontological-contiguity}\textgreater purposefulness-reflexivity for prospective relative-ontological-completeness \textsuperscript{137} orientation’ implied as of maximalising-recomposuring-for-relative-ontological-completeness \textsuperscript{137}—unenframed-conceptualisation that fundamentally renders/makes human institutional-development–as-to-social-function-development \textsuperscript{135} meaningfulness-and-teleology \textsuperscript{99} outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions’ to be necessarily as of existential-contextualising-contiguity \textsuperscript{118} in conflatedness \textsuperscript{12} and not in constitutedness \textsuperscript{13} as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existentialexistential-contextualising-contiguity \textsuperscript{38}. In another respect, ‘living-development–as-to-personality-development meaningfulness-and-teleology \textsuperscript{99} aestheticisation’ is of ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology \textsuperscript{99} aestheticisation’ that rather cumulatively holds-on-to and complexifies the culturally cumulated outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating,–so-reflected-as-institutional-manifestations from historically accrued ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ construed as of human institutional-cumulation/institutional-recomposure–(as-to–)historiality/ontological-
directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development—as-to-social-function-development ‘meaningfulness-and-teleology’ aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human ‘meaningfulness-and-teleology’ aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and-

That is, between reasoning as reasoning from results/afterthought and reasoning as reasoning through/messianic reasoning is ‘aporetic underdetermined madness’ that renders a pretence of hanging unto prior reproducibility—mathesis/motif/thrownness disposition, as reproducibility of aestheticisation more like ‘a pretence of already grasping the complete implications of ecstatic-existence while ignoring/not-referencing/registering/decisioning the epistemic-ricochetting transepistemicity implications of prospective relative-ontological completeness’ and rather speaks in effect of a nihilistic wooden-language (imbued—averaging of thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness and teleology as of ‘nondescript/ignorable—void ’ with regards to prospective apriorising implications); and this temporal nihilism at uninstitutionalised threshold has ever always been associated with a corresponding intemporal asceticism for opened-construct-of—meaningfulness and teleology (not partaking as of transversality of affirmative and unaffirmative disambiguated ‘motif and apriorising axiomatising referencing’ in any such ‘wooden language’) that is the sine qua non for the habituation of the possibility of prospective transcendence and sublimity/sublimation supererogatory de-mentativity. ‘immanent-ontological-contiguity’ along the very same reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of an ontologically-flawed human-subpotency dialogical-equivalence that ‘allows the mortals that we are to average our thoughts’ rather than existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supерerogatory–epistemic-conflatedness imposing ontological-veracity as of prospective ontological-primemovers-totalitative-framework. This explains why the universalising-idealisation of Socratic philosophers, budding-positivists thought and herein as well suprastructuralism/postmodern-thought are all characterised in their knowledge-reification not by an articulation along the prior established reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather prospective existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supерerogatory–epistemic-conflatedness constraining parrhesiastic aestheticisation of prospective reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, that in all three cases looks down upon the notion of human-subpotency sophistic/pedantic pretence of foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism that is no more than complexification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>. In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author
laments a covert practice of an intellection that has been critical of postmodern-thought but in
latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such
practices supposedly passes their institutional thresholds of admissibility with the caveat though

that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification—gesturing/process as of disparateness-of-conceptualisation—unforegrounding-disentailment—failing-to-reflect-‘immanent-ontological-contiguity’ implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification—gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of ancient sophists or medieval-scholastic pedants, as of naïve shallow-minded incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation as of a poor sense of intemporality /longness beyond earthly materialism. The transepistemic/epistemic-ricochetting veracity of all singularising/immanenting subject-matters/domains-of-study ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’—as-operative—notional—deprocrypticism’ reflecting existence’s overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility <imbued-and—hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>, as of the implications of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or—

In another respect this author’s re-elaboration of postmodern difference conception, as of ontologically-veridical difference-confoundedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism contends that this effectively captures-and-reflects the evolving reality of existential-contextualising-contiguity knowledge-reification of human meaningfulness-and-teleology, and so over analytic atomising/taking-to-pieces formalisation approach as of identitive-constitutedness-as–‘epistemic-totality’-.
dereification\textsuperscript{\textdegree}-in-dissingularisation -as-flawed-epistemic-determinism that goes on to analyse as if all the analysis that has ever been is as of presencing—absolutising-identitive-constitutedness\textsuperscript{13} while ignoring the causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{66} of human underlying relative-ontological-incompleteness\textsuperscript{86}/relative-ontological-completeness\textsuperscript{48}-(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) with respect to temporal-to-intemporal ontological-performance -<including-virtue-as-ontology> as from past to present to future with regards to existential-contextualising-contiguity\textsuperscript{38} knowledge-reification\textsuperscript{87}. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness -as-‘epistemic-totality’-dereification\textsuperscript{86}-in-dissingularisation -as-flawed-epistemic-determinism\textsuperscript{48} that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity\textsuperscript{38} and then reifies-out conceptualisations as of difference-conflatedness\textsuperscript{\textdegree}-as-to-totalitative-reification\textsuperscript{86}-insingularisation\textsuperscript{\textdegree}-as-veridical-epistemic-determinism\textsuperscript{92}. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification\textsuperscript{\textdegree}/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language-\{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{99}-as-of-‘nondescript/ignorable–void ‘-with-regards-to-
prospective-apriorising-implications⟩ that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology/knowledge as of existential-contextualising-contiguity knowledge-reification’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational

Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness’<amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of ‘presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on wooden-language—{imbued—averaging-of-thought—<as-to—

It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-

‘prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity actually
points to appropriate attitude/mental-disposition/care—and—episteme as of ontologically-
veridical difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-
veridical-epistemic-determinism for existential-contextualising-contiguity knowledge-
reification of every domain-of-study; as the fact remains that the domain-of-study of the social
world is utterly different as of existential-contextualising-contiguity from the domain-of-study
of the natural world, and not to mention that even within the natural world or social world there
are equally subject-matters peculiarities that require their own specific approaches to
elucidation/reification as of existential-contextualising-contiguity—and this said without
undermining the idea of the ecstatic singularity of existence from which all such subject-matter-
human-specialisms ecstatically arise as veridically implied by singularisation/epistemic-
immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness
though not common phenomenality. Thus, in all cases the overall implications for the optimum
advancement of human knowledge is most critically about constraining knowledge to
existential-contextualising-contiguity elucidation/reification rather than just mere
formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are
already naturally constraint to existential-contextualising-contiguity knowledge-reification
by the implicit immediate-constraining ontological-primemovers-totalitative-framework
transcendence-and-sublimity/sublimation/supererogatory de-mentativity whereas the human
world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification. Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicated creative process of existential-contextualising-contiguity knowledge-reification. This process is one of human limited-mentation-capacity-deepening as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification’, inducing successive differences of ontological-performance —<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness’ reflected as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic—
determinism\textsuperscript{21}, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{38} reflected as of identitive-constitutedness\textsuperscript{14}-as-‘epistemic-totality’\textsuperscript{49}-dereification\textsuperscript{95}-in-dissingularisation\textsuperscript{77}-as-flawed-epistemic-determinism\textsuperscript{21}; with ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{27}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{10} knowledge-reification\textsuperscript{79}, inducing successive differences of ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> of meaningfulness-and-teleology\textsuperscript{109} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human\textsuperscript{amplitudes}<formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness\textsuperscript{85} rather reflected as of ontologically-veridical difference-conflatedness\textsuperscript{17}-as-to-totalitative-reification -in-singularisation\textsuperscript{99}-as-veridical-epistemic-determinism\textsuperscript{17} which implied singularisation\textsuperscript{77}/epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity/sublimation/supererogatory~de-mentativity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity\textsuperscript{38} guise’ as of the insight of their existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{76} of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity\textsuperscript{18} initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity\textsuperscript{18} insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{27}—unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{10} knowledge-reification\textsuperscript{79}, inducing successive differences of ontological-performance\textsuperscript{71}—<including-virtue-as-ontology> of meaningfulness-and-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness\textsuperscript{99}’ construed as occurring within the very same scientist, across scientists of the same interest-of-study in a generation, and across scientists of the same developing interest-of-study crossgenerationally as of the ‘very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. In this regard, we can appreciate that as of their differing ontological-performance\textsuperscript{7}–<including-virtue-as-ontology> the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness\textsuperscript{27} is considered as postconverging-or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness\textsuperscript{3} is effectively preconverging-or-dementing—apriorising-psychologism; even
though both address the ‘very same physics’—amplituding/formative-epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-verifydicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness—as-‘epistemic-totality’-dereification—in-dissingularisation—as-flawed-epistemic-determinism implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor conflatedness’ of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective-ontological-
normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularity /epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag33 and logocentrism as of constitutedness13. Critically, no concepts have any veridical meaningfulness-and-teleology99 but only rather as of their conflatedness12 with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism48. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This failure in fully appreciating the import of ontologically-veridical difference-confoundedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ‘repeating/repetition of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification’, inducing successive differences of ontological-performance-including-virtue-as-ontology of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality-as-to-human-amplifying/formative-epistemicity-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’ as of implied singularisation/epistemic-immanence/veridical-epistemic-determinism has fundamental amplifying/formative-epistemicity causality-as-to-projective-totalitative-implications-for-explicating-ontological-contiguity, as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity. Consider in this regard that the repeated maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a
creative existential-contextualising-contiguity perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originally/ as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity knowledge-reification causality-as-to-projective-totalitative-implications, for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification’, inducing successive differences of ontological-performance -<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with
increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness-as-of–reference-of-thought ontologically-veridical difference-conflatedness-as-to-totalitative-reification—in-singularisation-as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to ‘continually select’ rational-
empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism human subject is rather undecentered’ relative to the prospective postmodern–notional–deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity to ‘continually select’ postmodern–notional–deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective positivistm/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied–
‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-
contiguity\textsuperscript{2} knowledge-reification\textsuperscript{2} for transcendence-and-sublimity/sublimation/superroratory-de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{18} here implies human displacement/decentering even though our temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{9} dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology\textsuperscript{9}. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology\textsuperscript{9} of trite existential-contextualising-contiguity\textsuperscript{18} knowledge-reification\textsuperscript{18} \textlangle amplituding/formative–epistemicity\rangle causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity\textsuperscript{1}, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity\textsuperscript{1} knowledge-reification\textsuperscript{1} is ever always a ‘conflatedness totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology\textsuperscript{9} as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human\textlangle amplituding/formative–epistemicity\rangle totalising—purview-of-construal’; with such construal in reality rather very much as of singularity\textsuperscript{2}/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation\textsuperscript{2}/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’ develop as and aspire to be
whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying depocrypticism–or–preempting—disjointedness-as-of—reference-of-thought conflatedness totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation’/epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. Unlike the constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped.
all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity’/knowledge-reification of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimiting-withdrawal, eliciting-of-prospective-supererogation/“as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporetic-overcoming/unovercoming’ in its ecstatic singularity. The naivety of implied constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—human<amplituding/formative—epistemicity>totalising-purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly de-

What is misjudged by many naturalistic methodologies with regards to the social is the fact that the very reality as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⁻<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> of an outright social emanance as arising from ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications—for-explicating-ontological-contiguity’ as of ‘abstract cumulation of human memorisation and knowledge immanence’ is beyond the human neuropsychological background, and as human consciousness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ⁻<imbued-and-‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> is of an altogether social and socio-psychological immanence; with the implications that a hypothetical instantaneous erasure of all humans memory and knowledge will lead to humankind’s retrograding to its most basic animalistic background potential for social emanence as of the
of immanence-function-conflatedness insight as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility -<imbued-and-
perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>. This immanence-function-conflatedness insight is effectively what marks prospective deprocryticism/preempting—disjointedness-as-of-reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity <amplituding/formative–epistemicity> causality-as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity of singularisation /epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed constitutedness’ or ‘we are as potently immanent as of our virtuous conflatedness’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–
procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of dementative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional−deprocrypticism immanence-function-conflatedness as of dementative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework as of singularisation/epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive
predisposition to make of its objectifying/contending discursivity as de-
mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively
elevating prior relative-ontological-incompleteness\(^1\)\(^5\) meaningfullness-and-teleology\(^9\) as if of prospective relative-ontological-completeness\(^7\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-
function-conflatedness\(^1\) equally highlights knowledge as of its essential organic construct implications. As a constitutedness\(^1\) predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-
reshaping-as-transforming the de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-
positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-
completeness\(^7\)-of- reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism

invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to
assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\(^{(40)}\)-or-deferring-falsifiability\(^{(40)}\) and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity\(^{(13)}\) knowledge-reification\(^{(3)}\) in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\(^{(13)}\) knowledge-reification\(^{(3)}\). This insight equally informs this author’s supplanting-conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\(^{(13)}\) knowledge-reification\(^{(3)}\), as well as existential-contextualising-contiguity\(^{(13)}\) knowledge-reification\(^{(3)}\) as of the disposition for advancing the metalevel transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’\(^{(43)}\) foregrounding—entailment-(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{(50)}\) in reflecting ‘immanent-ontological-contiguity ’),—as-operative-notional—deprocrypticism of the ‘de-mentative/structural/paradigmatic disseminative
implications of postmodern and other human sublimation-inducing—
textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-
existence’ thought, that the ontological-pertinence assumes ontological-primemovers-
totalitative-framework unassailability; and so, not for the mere sake of research-programme
extensiveness but as of its internal constraining to falsifiability -or-deferred-falsifiability and
validation-or-deferred-validation as of existential-contextualising-contiguity knowledge-
reification as implied by the articulation of ontological-good-faith/authenticity herein as of
reasoning-through/messianic-reasoning attitude/mental-disposition/care—and—episteme ‘
‘implicitation of ontological-primemovers-totalitative-framework’, on the basis that the very
first epistemic frontier for ontological-pertinence lies with the scholarly developed creative
insight for existential-contextualising-contiguity knowledge-reification as knowledge.
Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-
faith/inauthenticity criticism exactly because of its strong scholarly research-programme
existential-contextualising-contiguity knowledge-reification, and thus an immanence-
function-conflatedness insight in the study of the social as of its inherent complex nature is
certainly justified to adhere to a research-programme epistemic model as herein articulated. In
another respect, while intellectualism as of organic knowledge implications in many ways
commands massive social deference and adherence, it is equally important not to naively
assume that at uninstitutionalised-threshold, human existential-investment as of its
temporality /shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent
in the sense that transcendental knowledge is articulated mostly as of its undermining of human
temporal existential-investment. The bigger point here being that the possibility of prospective
transcendence-and-sublimity/sublimation/supererogatory de-mentativity lies in upholding-and-
defending authentic intellectualism even as of metaphoricity beyond wooden-language-(imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^{a}\)-as-of—

intelligible ‘meaningfulness-and-teleology’ conceptualisation in \(<\textit{amplituding/formative–}

metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any
temporality\(^{b}\)/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-
existential-reality solipsistic intemporality\(^{c}\)/longness parrhesiastic askance, and as of
immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for
prospective authentic intellectualism by undermining its blending with inauthentic
untransvaluated–temporal-intemporality\(^{d}\) manifestations that usurp and undermine human
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Further, while
‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived
absolutely as within an only same institutionalisation ‘reference-of-thought’, with their merits
at least for expanding human mastery of its environment at their given level as well as their
defects as of undermining the possibility for prospective knowledge, for instance as of the
animistic social-setup to perceive its animistic knowledge system as absolute, as of the
medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of
our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic
knowledge system as absolute; it is immanence-function-conflatedness\(^{e}\) by its implied internal-
necessity construct that best reflects the reality of human knowledge cumulation by the
ontological-contiguity\(^{f}\)—of-the-human-institutionalisation-process\(^{g}\) as of Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology\(^{h}\) conception, recognising the underlying
retrospective and prospective epistemic dynamics behind knowledge as of protracting self-
consciousness over the cloistering self-consciousness of falsely absolutising specific registry- worldviews/dimensions’ reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism—procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic de-mentating/structuring/paradigming as of their ultimate existential-contextualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation /epistemic-immanence/veridical-epistemic-determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism—procrypticism. Thus, if immanence- function-conflatedness reveals that it is the ‘projected research-programme of any given
knowledge construct as of its prospective relative existential-contextualising-contiguity to knowledge-reification, that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity knowledge-reification are nothing more but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation -<as-to-perspective-ontological-normalcy/postconvergence-implies‘prospective-aporeticism-overcoming/unovercoming’>, and institutionalised, such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity occurs as to conflict with the naïve social sense of presence as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-amplitudes/formative-epistemicity>totalising-purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness /relative-ontological-completeness - (sublimating-registering/decisioning—as-self-becoming/self-conflatedness /formative-supererogating-<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective—ontological-normalcy/postconvergence>). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought; and
justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality~of-affirmative-and-unaffirmative–disambiguated~motif-and-apriorising/axiomatising/referencing’ relation induced as of ontological-primemovers-totalitative-framework between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality~of-affirmative-and-unaffirmative–disambiguated~motif-and-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional–deprocrypcticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness<amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity, and so as of the de-mentative/structural/paradigmatic implication of singularity~epistemic-immanence/veridical-epistemic-determinism over dissingularisation~epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective relative-ontological-completeness is inherently bound with its very own epistemic <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in
knowledge-reification\textsuperscript{16}. This inherently projects a ‘practical picture of human epistemic
determination’ of ‘maximal disseminative human epistemic articulations at relative
uninstitutionalised-threshold\textsuperscript{12}’ and ‘minimum select human epistemic articulations at
prospective institutionalisations’, and so as of existence/existential-possibilities as the
transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity

notional–deprocrypticism epistemic-veracity as of such disseminative research-programme
coherence and ontological-contiguity equally imply an underlying falsifiability^40-or-deferred-falsifiability^40 and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework^72 <amplituding/formative–epistemicity>causality~as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity^72 knowledge-reification^86 for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Such a notional~deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework^72, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality~of-affirmative-and-unaffirmative–disambiguated~‘motif-and-apriorising/axiomatising/referencing’^101 constraining to the ‘superior party’ that is.
existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation— and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation -<as-to-perspective-ontological-normalcy/postconvergence-implied— ’prospective-aporeticism-overcoming/unovercoming’ >.

Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the notional—deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity that the deprocrypticism—or—
preempting—disjointedness-as-of-reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the notional–deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating—amplituding/formative/supererogatory de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as de-mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism ‘meaningfulness-and-teleology’ is the need for a notional–deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as
of a natural human predisposition to \textit{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency-sublimating–nascence-disclosed-from-prospective-epistemic-digression-as-of\textit{totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-conflatedness} absolutising epistemic reference, specifically as so-construed from our positivism–procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of our \textit{totalising–thrownness-in-existence}. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance\textit{<including-virtue-as-ontology>}. Such a human-subpotency flawed absolutising epistemic reference for ‘meaningfulness-and-teleology’ can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency

It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’ that raises-the-charge that and reflects-the-notion that the mental-disposition of recurrent-utter-uninstitutionalisation is dementatively/structurally/paradigmatically bound to fail the ontological-performance71 -<including-virtue-as-ontology> of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of universalisation mental-disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of notional–deprocrypticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-incompleteness98 -of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective of analysis as of singularisation77/epistemic-immanence/veridical-epistemic-determinism. akrasia-susceptibility-or-akrasiatic-drag complex ‘<amplituding/formative–

is reflected as of the ‘<amplituding/formative–epistemicity>totalising–self-referencing-

Thus fundamentally the \textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a notional~deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulation/institutional-recomposure~as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing~perspective–ontological-normalcy/postconvergence-reflected~epistemicity-relativism) with successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative \textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity of de-mentation\textless supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-
omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag', and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-prime movers-totalitative-framework. Thus intemporal ontological-performance <-including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance <-including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance’ <-including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s-sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human
the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory-de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology”-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance”-<including-virtue-as-ontology> as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence4 induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. it is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity”—of-the-human-institutionalisation-process as of difference-conflatedness ’-as-to-

This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the
basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency-sublimating-nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflicatedness). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold (uninstitutionalised-threshold]/presublimating–desublimating-decisionality)~of-ontological-performance</include-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and
as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective dimensionality-of-sublimating —

<amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating —

and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity from a—presencing—absolutising-identitive-constitutedness perspective is not actual ‘meaningfulness-and-teleology’ but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective ‘meaningfulness-and-teleology’ mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of meaningfulness-and-teleology as of prospective notional-deprocrypticism transcendence-and-sublimity/sublimation/supererogatory de-mentativity, this author is of the opinion that any intellectual endeavour must procedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency-sublimating-nascence disclosing from prospective-epistemic-digression as of amplituding/formative-epistemicity totalising-renewing-realisation/re-perception/re-thought, in supererogatory-epistemic-conflatedness reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The
last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–

Ontological-fracturing as such is a reflection of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology\textsuperscript{74}–<in-existential-extrication-as-of-existential-unthought> only human intemporal ontological-performance\textsuperscript{75}–<including-virtue-as-ontology> by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performance\textsuperscript{75}–<including-virtue-as-ontology> of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is de-mentatively/structurally/paradigmatically bound to be ontological-fractured as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling–<in-deferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the
temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance-including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance-including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling-in-deferential-formalisation-transference> doesn’t substitute for the <amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening\textsuperscript{16}; and this notion of relative truth is reflected in their works/research-programmes that undermine our causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{17} identitive-constitutedness\textsuperscript{18} as ‘epistemic-totality’–dereification –in-dissingularisation –as-flawed-epistemic-determinism\textsuperscript{19} perspective. Further, the implication as well is that the adjudicator as to transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-mentativity with regards to

Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very
much unlike what we may naively imagine the prior human ‘meaningfulness-and-teleology’ to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal ‘meaningfulness-and-teleology’ for say a suprasocial or <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications⟩ human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity’ as of a self-consciously instigated prior suprasocial or <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications⟩ comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our <amplituding/formative–epistemicity> totalising~thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective
relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>)

epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation. Just as we can appreciate that in ‘the very same physics totalising—devolved—purview/domain-of-construal-as-intrinsic-
reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-
thinkers sharing a common emancipatory metaphoricity\textsuperscript{56} mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their \textsuperscript{19} universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for meaningfulness-and-teleology\textsuperscript{99} that is instigative, metaphoricity\textsuperscript{56} is critically about the prospective ricochetting de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology\textsuperscript{99} implications on the fabric of the social as an epistemic-totality\textsuperscript{76} framework beyond-the-consciousness-awareness-teleology\textsuperscript{99}-<in-existential-extrication-as-of-existential-unthought>, as the supposedly coherent ontological-commitment\textsuperscript{65} of 'self-assuredness-of-ontological-good-faith/authenticity-as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction' of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity\textsuperscript{56}. This is so because in the long run transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{101} of temporal-to-intemporal–ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>-of-narratives is rather as of ontological-primemovers-totalitative-framework\textsuperscript{72} selecting/skewing-towards intemporality\textsuperscript{7} ontological-veracity as to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising–renewing–realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{7} as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its
conventioning-referencing and its presencing—absolutising-identitive-constitutedness, Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology.

implied as of singularisation /epistemic-immanence/veridical-epistemic-determinism over
dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism, just as with the
natural sciences and so beyond the notion of subjectivity as of ontological-primemovers-
totalititative-framework validation and falsifiability implications. It is important to grasp that
since every registry-worldview/dimension social-construct is involved in a constructive (as of
its institutionalising disposition) and destructuring (as of its disposition at its
uninstitutionalised-threshold relationship with ontological-veracity, this is exactly what
inevitably validates the articulation of ontological-veracity/ontological-veridicality as more
completely involving the displacement/decentering-of-the-human-subject priorly as implied
with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-
discourse narrative in reflecting the need to undermine human destructuring-threshold-
(uninstitutionalised-threshold /presublimating–desublimating-decisionality) ~ of ontological-
performance <including-virtue-as-ontology> to further advance its
constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming
underlying logocentrism as of prospective relative-ontological-completenesss implications;
reflecting the fact that human knowledge is more completely a two-fold process involving
building the right mindset-as-of-prospective-relative-ontological-completeness and thus the
knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as
of projected conflatedness. This is very much unlike the Ricoeurian narrative theory
conception that while of palliative and practical significance is in relative constitutedness
since it poorly deals with logocentrism implications as of prior relative-ontological-
incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social
conditions’ as inherently ontological or beyond ontological treatment while failing to
countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent
‘logocentric habituated social conditions’ in enabling the ontological-contiguity —of-the-
human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold–{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance

⟨including-virtue-as-ontology⟩ nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold–{uninstitutionalised-threshold/presublimating–desublimating-decisionality}–of-ontological-performance

⟨including-virtue-as-ontology⟩ nature is effectively what underlies in ontologically neutral/objective terms–as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering
narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supercerogatory–epistemic-conflatedness to supersede human temporality/shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—'with-regards-to-prospective-apriorising-implications'); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding-positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism—procrpyticism prior relative-ontological-incompleteness—human social-stake-contention-or-confliction as of its disjointedness-as-of—reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness—notional—deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality/longness and temporality/shortness as to human limited-mentation-capacity relative ontological-performance—<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness—notional—deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness—notional—deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly
emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness / contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness 87 positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold-(uninstitutionalised-threshold / presublimating–desublimating-decisionality)–of-ontological-performance -<including-virtue-as-ontology> nature inherently points out why human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of intemporal metaphoricity 86 epistemic pertinence doesn’t lie with any inherent suprasocial

The insight here is that the epistemic possibility for human prospective aetiologisation/ontological-escalation as reflected in all prior transcendence-and-sublimity/sublimation/supererogatory–dementativity is more decisively about such intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning exploiting of the supposedly coherent ontological-commitment\textsuperscript{7} so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’, rather than a naïve reliance on <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{9}–as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) or suprasocial epistemic relevance which is actually the outcome as reasoning-from-results/afterthought of secondnatured institutionalisation poorly inclined to such requisite prospective reasoning-through/messianic-reasoning. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. <conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process with respect to destructuring at all uninstitutionalised-threshold; as so-implied by de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). The comprehensive social susceptibility to destructuring-transitoriness—as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’—<including-virtue-as-ontology>’ arises because of destructuring-transitoriness—as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold—(uninstitutionalised-threshold /presublimating—desublimating—decisionality)—of-ontological-performance—<including-virtue-as-ontology> parasitism <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag, as beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-unthought> this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’—<including-virtue-as-ontology>’, and is further reflected in a social dynamics of dual overt and covert implicated interpretations of social phenomenality arising as of beyond-the-consciousness-awareness—teleology—<in-existential-extrication-as-of-existential-unthought>cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social ‘meaningfulness-and-teleology’. Insightfully, it can be appreciated that the ontological-contiguity —of-the-human-institutionalisation-process is one long process involving the undermining of destructuring-transitoriness—as-of-deratiocination/deratiocontiguity at
uninstitutionalised-threshold with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’-<including-virtue-as-ontology>’ as of ontologically-hegemonising-narrative implied as of prospective ‘<amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation /epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening implications the destructuring-transitoriness -as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’-<including-virtue-as-ontology>’. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of reference-of-thought destructuring-transitoriness -as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively superseded by notional–deprocrypticism preempting—disjointedness-as-of reference-of-thought ontologically-hegemonising-narrative thus rendering human ontological-performance-<including-virtue-as-ontology> correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

This destructuring-threshold (uninstitutionalised-threshold \( \frac{\text{presublimating–desublimating-decisionality}}{\text{of-ontological-performance}} \)) analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social
construction-of-the-Self and as it remains a transitive and constant notion in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process as to the destructuring implications at uninstitutionalised-threshold implied human-subpotency epistemic/notional-projective-perspective in dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression-as—of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re—thought,—in—supererogatory—epistemic—conflicatedness epistemic/notional—projective-perspective in singularisation /epistemic-immanence/veridical-epistemic-determinism. This overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—'hermeneutically/reprojectively-educing'—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re—axiomatising/re-referencing—conceptualisation> of the social-construct as from the elucidation/reification as ‘destructuring-threshold—{uninstitutionalised-threshold /presublimating—desublimating—decisionality}—of-ontological-performance—<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance—<including-virtue-as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically reflects the ontological-contiguity —of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct ontological-primemovers-totalitative-framework \(^2\) \(\langle\text{amplituding/formative–}
\text{epistemicity}\rangle\text{causality~as-to-projective-totalitative–implications,~for-explicating-ontological–}
contiguity\rangle\) elicits low emotional-involvement, but for the case where with regards to high and
conflicting human social-stake-contention-or-confliction even the natural domain is not
immuned from high emotional-involvement as with the climate change issue for instance. The
point being made here is that sober analyses of the social as herein articulated tends to elicit
naïve criticism that human progress happens anyway, but then such naïve criticism only
recounts the fact of human progress while failing to be reifying and is actually dereifying when
by its ‘implicated passivity implications for prospective human progress’ it fails to account for
how human progress occurs in the very first place or even whether there is any underlying
process for its occurrence or non-occurrence. Actually, human progress occurs because of
effective human constructive disposition to supersede identified-and-defined destructuring-
threshold\(^{(\text{uninstitutionalised-threshold})/(\text{presublimating–desublimating-decisionality})}\)~of-
ontological-performance\(^{(\text{including-virtue-as-ontology})}\) and as reflected at
uninstitutionalised-threshold \(^{(\text{uninstitutionalised-threshold})/(\text{presublimating–desublimating-decisionality})}\)~of-ontological-performance\(^{(\text{including-virtue-as-ontology})}\), and it is this
difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-
ontological-performance\(^{(\text{including-virtue-as-ontology})}\) for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology”. The implicit passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> need to be integrated into the very core of such secondnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance—<including-virtue-as-ontology> and institutionalisation is ever always a process of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation to prospectively recapture the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating

It is the possibility for the human mind to dement as of a ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ by its self-conscious <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{4} that de-mentatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism—procrypticism disposition is all-encompassing as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking—apriorising-psychologism as of their constructiveness-of-ontological-performance —<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking—qualia-schema’ at their relative-ontological-completeness and preconverging-or-dementing—apriorising-psychologism as of their destructuring-threshold<(uninstitutionalised-threshold)/presublimating–desublimating-decisionality>—of-ontological-performance’—<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’ at their relative-ontological-incompleteness, we equally manifest the same and so-perceived from the prospective relative-ontological-completeness of dep recreationalism—or—preempting—disjointedness-as-of reference-of-thought. Ultimately, human \(^ {19}\)de-mentation–(supererogatory–ontological–de-mentation–dialectical–

cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing de-mentating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-empiricism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation was relayed by other budding-positivists, and so over the deconstructing-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)—of-ontological-performance —<including-virtue-as-ontology> of traditional medieval no-trouble disposition to perceive and take comfort in traditional medieval-scholasticism reasoning-from-results/afterthought pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as if critical reification will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supereboratory–de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of —incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supereboratory–epistemic-conflatedness level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supereboratory–de-mentativity. Whether of low or high emotional—
involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducbility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each
and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness⁷⁻by-reification ⁸⁻/contemplative-distension⁹ which is ‘never always the easiest of notion’ for human disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness⁻dereification⁸ for disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity, and so beyond-the-consciousness-awareness-teleology⁴⁻<in-existential-extrication-as-of-existential-unthought>. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-
degradation-in-notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation>of-
mentally-aestheticised–preconverging/dementing –qualia-schema’ rather than ‘apriorising-
teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-
equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-
ontological-completeness as of the underlying registry-worldview/dimension reference-of-
thought <amplinding/formative–epistemicity>totalising–devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as
of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>’ closed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance -<including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is about the ‘reasoning-through transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-

suprasocial-constructs are mainly secondnatured whether as sovereign representation or

in prior relative-ontological-incompleteness with respect to social-stake-contention-or-

We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic asksis-or-acumen for originary/as-of-event\[37\] reasoning-through/messianic-reasoning’, is nothing but

The fact is, it is this possibility of the universalising–idealisation philosophers Socrates/Plato/Aristotle and the budding–positivists putting into question their conventioning-referencing ‘meaningfulness–and–teleology’ and value that allows for prospective institutionalisation to arise as of universalising–idealisation and positivism/rational–empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry–worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being–development/ontological-framework–expansion–as–to–depth–of–ontologising–development–as–infrastructure–of–meaningfulness–and–teleology leading to the establishment of their given registry–worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being–development/ontological-framework–expansion–as–to–depth–of–ontologising–development–as–infrastructure–of–meaningfulness–and–teleology; and in this regards, we can appreciate that the pre–Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological
insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications) and underpinning-suprasocial-construct integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–
procrypticism is equally subject to our <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignoreable—void’—with-regards-to-prospective-apriorising-implications>} and underpinning-suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating–decisionality)–of-ontological-performance--<including-virtue-as-ontology> which is the grander issue of aetiology/escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism/rational-empiricism manifestation of procrypticism—or–disjointedness-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ to the given registry-worldview/dimension conventioning-referencing. In this regards, we can appreciate that our own projection of

This coherently explains the inevitability of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness-of-reference-of-thought; as when the organic-knowledge avails it is much more than just an idea of choice but rather an obligation as of the implied inherently antiakrasiatic disposition that can’t afford to overlook as if lacking the organic-knowledge for degrading into <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existential-extrication-as-of-existential-unthought. When the dialecticism of human ‘meaningfulness-and-teleology’ as of its prospective ontological-performance’—<including-virtue-as-ontology> implications as of virtue at constructiveness-of-ontological-performance—<including-virtue-as-ontology> and vices-and-impediments at destructuring-threshold—{uninstitutionalised-threshold/presublimating–desublimating–decisionality}—of-ontological-performance—<including-virtue-as-ontology> shows itself to be definitely determinable and is no longer the bigger issue for prospective human emancipation but rather the bigger issue becoming one of human psychological cognisance and adjustment to any such prospective emancipatory meaningfulness-and-teleology as so-reflected across the successive registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–dementativity. The underlying difficulty of all such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is all about how can a mindset adjusted as of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence as of its given <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for construing

Such <amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity construal points out that disparateness of meaningfulness-and-teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective’ given that all
human "meaningfulness-and-teleology" are of supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity – as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn’t override the notion of inherent ontological-veridicality as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-confledatedness epistemic/notional–projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, do not override the pre-eminence of supposedly coherent ontological-commitment as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-confledatedness epistemic/notional–projective-perspective, in which case no human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supererogatory–epistemic-confledatedness over the mortals that we as human beings
are in order for transcendence-and-sublimity/sublimation/supererogatory de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal equally points out that the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or any <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality does not imply the de-mentative/structural/paradigmatic change of existence-as-of-existential-contextualising-contiguity but rather that change is the outcome of human limited-mentation-capacity-deepening maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation involving de-mentation (supererogatory ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of prospective postconverging-or-dialectical-thinking—apriorising-psychologism representation and prior preconverging-or-dementing—apriorising-psychologism representation; with the implication here that the issue of knowledge is all about developing human-subpotency towards existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising~renewing–realisation/re-perception/re-thought,—in–supererogatory–epistemic-conflatedness. The conflatedness of existential-contextualising-contiguity in the natural sciences is often poorly perceived inherently because of their subject-matter/domain-of-study implicated nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-
intuition-or-foresight-as-of-embodied-consciousness'; such that it is often wrongly construed in atomising/taking-to-pieces constitutedness\(^3\) as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^8\) but with little consequence since such an atomising/taking-to-pieces constitutedness\(^3\) is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology\(^6\)-<in-existential-extrication-as-of-existential-unthought>\(^5\) scientists generally adopt a conflatedness\(^1\) of existential-contextualising-contiguity\(^8\) posture. The reality of existential-contextualising-contiguity conflatedness\(^1\) here is validated by the fact that ‘abstract scientific notions are not the point-of-departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity\(^8\) in <amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications,,-for-explicating-ontological-contiguity\(^6\) conflatedness\(^1\) to then reflect abstract scientific notions in existential-contextualising-contiguity\(^8\) knowledge-reification\(^9\) or depart from existential-contextualising-contiguity\(^8\) already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity\(^8\) knowledge-reification\(^9\)’. For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology/knowledge as physics knowledge-reification\(^9\). Rather we can better appreciate the occurrence of existential-contextualising-contiguity\(^8\) knowledge-reification\(^9\) as of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications,,-for-explicating-ontological-contiguity\(^6\) construal in the sense that our ordinary thought process itself is as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity\(^8\) construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces constitutedness\(^3\) even when we may harbour such a
confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of totalising-renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity of such notions like space, time, force, etc. in for-explicating-ontological-contiguity conflatedness to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always epistemic-retotalising/re-totalising-entailing of ‘the very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity in conflatedness involving human limited-mentation-capacity-deepening hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility’—effusing/ecstatic—inlining nature of existential-contextualising-contiguity in epistemic-conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existential-contextualising-contiguity’ in causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in epistemic-
conflatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity)—as-operative-notional—deprocrypticism orientations which drives their knowledge-reification—gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility—effusing/ecstatic—inlining nature of existential-contextualising-contiguity supervening-conflatedness thus rendering its methodology more explicitly totalising-entailing and teleological even as it is often naively and wrongly construed as ‘a relatively weaker natural science’ from a naïve epistemic constitutedness perspective. This underlying <amplituding/formative—epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity insight reflects ecstatic-existence’s supervening-conflatedness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—

contextualising-contiguity\(^2\) conceptualisation nature in epistemic-confoundedness\(^1\) that speaks to the need for their appropriate totalising-entailing hermeneutic/reprojective depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening\(^6\) hermeneutics involved in avoiding-and-superseding any \(^7\) presencing—absolutising-identitive-constitutedness\(^3\) for construing their veridical \(^8\) historiality/ontological-eventfulness\(^9\)/ontological-aesthetic-tracing-\(<\text{perspective–ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'}\>\). In many ways the natural sciences by the immediate constraining of their ontological-prime-movers-totalitative-framework implicitly avoid atomising/taking-to-pieces constitutedness\(^1\) but the misunderstanding that their knowledge-reification—gesturing is effectively as of atomising/taking-to-pieces constitutedness\(^1\) in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification\(^8\) and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. It is herein contended that this poor self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is the de-mentatively/structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains are turned into technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-sets-ups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-

In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with

narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology as deterministic thus subknowledging /mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold\(^2\), represented ontologically as decentered and preconverging-or-dementing\(^2\)–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective \(^3\)reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s \(^3\)reference-of-thought (as the prior/transcended/superseded), as transcendental ‘meaningfulness-and-teleology\(^3\) involves psychical and institutional recomposuring of high contrariety implications to human temporality\(^2\)/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is the more profound origination of
reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional–deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory–dementativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intempestoral-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic
modern scientific knowledge and liberal thinking of reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or
the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness -of- reference-of-thought. Hence it is rather ontological-completeness-of- reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of retrospective registry-worldviews/dimensions but reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency-〈transparency-of-totalising-entailing, as-to-entailing-〈amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness 〉 hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> while prospective uninstitutionalising-facet insight will rather overlook such
implied denaturing as of beyond-the-consciousness-awareness-teleology as of existential-extrication-as-of-existential-unthought. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemoral/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemoral with the implication that such intemoral mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemorality asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the
bigger framework of prospective relative-ontological-completeness -of- reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional-deprocrypticism conflatedness\textsuperscript{2} and so over procrypticism disjointedness-as-of- reference-of-thought denaturing\textsuperscript{15} and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing\textsuperscript{1}. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold\textsuperscript{12} mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold\textsuperscript{12} dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness -of-\textsuperscript{8}reference-of-thought issue wherein the incidental denaturing\textsuperscript{15} of such manifestations reflected a social denaturing\textsuperscript{9} of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation conflatedness\textsuperscript{1} directed to the bigger and subsuming issue of relative-ontological-incompleteness\textsuperscript{8,10}reference-of-thought for inducing notional–deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism’s conflatedness\textsuperscript{12} as such
implies an utter shift as the curve-of-prospective-relative-ontological-completeness of reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness of reference-of-thought now being construed as preconverging-ordementing-and-decentered-prior-institutionalisation’s categorical imperatives/axioms/registry-teleology as denaturing.

The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of reference-of-thought<as-effectively-apriorising-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold<as-Being-or-ontological-or existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processssing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent
as candored/straightness (wrongly ignoring/overlooking and setting-aside to reassert a candoring/straightness-of-thought as to postconverging-or-dialectical-thinking<sup>20</sup>–apriorising-psychologism<sup>–</sup>stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> over the ontological-veridicality of preconverging-or-dementing<sup>20</sup>–apriorising-psychologism<sup>–</sup>stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>). Thus the registry-worldviews/dimensions which are in epistemic-decadence (notional-discontiguity/epistemic-discontiguity –<shallow-supererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema>–as-of-epistemic-decadence in hollow-constituting<sup>–</sup>as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking<sup>–</sup>iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’<sup>–</sup>) with respect to ontological-veridicality (ontological-contiguity<sup>–</sup>of-reference-of-thought in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and ‘wrongly being temporally integrated intradimensionally’ as candored/straightness rather than decandored/oblengagedness are recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively, procrypticism. The conscious or unconscious exercise of ‘subknowledging /mimicking the non-veridical hollow/empty form of the meaning of narratives’, whether by a psychopath or a temporally-inclined mental-disposition pedestal, in view of getting interlocutors to wrongly align prelogically/in-prelogic supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking<sup>–</sup>apriorising-psychologismly and perceive the non-veridical hollow mimicking form of the meaning of narratives as veridical/true/real is known as perversion-of-reference-of-thought<sup>–</sup>as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, requiring ontologically, at the ‘uninstitutionalised-threshold<sup>–</sup>’, ‘distractive-alignment-to-reference-of-thought<sup>–</sup>of-apriorising/axiomatising/referencing> which is decandored/oblengaged as of

This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-as-to-profound-supererogation mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism with respect to meaningfulness). Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction,-as-to-profound-supererogation mind to wrongly elevate psychopathic ‘meaningfulness-and-teleology’ as of veridical ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought-
understanding’ over the relatively ontologically-incomplete-reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ construed as ‘preconverging-or-dementing—apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising—reference-of-thought-elements/apriorising—registry-elements, and thus falsely implying the apriorising—reference-of-thought-elements/apriorising—registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought—(reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied—reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising—registry-elements to start with as not of being/ontological/existential veridicality’.

For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-
or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity’ sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness as of its unsound-reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought-apriorising/axiomatising/referencing and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema)—as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking—iterative-looping—set-of-dereifying—

The dialecticism involves de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normalcy/postconvergence pointing to the skewing (‘intemporality’/asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for intemporalisation/institutionalisation over the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor individuations in transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’), and enabling ontological-escalation or aetiologisation as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-locales’/aetiologisation/ontological-escalation. The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the ‘reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (‘reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-
imperatives/axioms/registry-teleology which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! It should be noted that both psychopathic postlogism\textsuperscript{76} and conjugated-postlogism\textsuperscript{77} cases of unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’, involve ‘disjointedness-as-of- reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) narrative is apparently coherent but ‘construed together as of the retracing of set-of-narratives’ these reveal ‘unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought as preconverging-or-dementing\textsuperscript{19}-apriorising-psychologism’. conjugated-postlogic conjoining of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-effect/cinglé-effect’ as unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought inducing the preconverging-or-dementing—apriorising-psychologism which is particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) are constantly modified with circumstantial hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> by ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’; and so in order to wrongly imply the apriorising—reference-of-thought-elements/apriorising—registry-elements as the foundation for its faulty-mentation-procedure-deception-or-urge. However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting—conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking—apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context projection’ by which interlocutors deduce circumstantially. Thus the postlogic-and-conjugated-postlogic habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought and perversion-and-derived-perversion—of-reference-of-thought—<as-effectively-apriorising-in-
thought-devolving-as-of-instantiative-context’). The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{33}), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability \textsuperscript{9}, and in the big picture in all likelihood can only be ‘weaned from’ crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation-inducing-the-uninstitutionalised-threshold-as-of-procrypticism’, thus equally implying a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{33} circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold \textsuperscript{92} or procrypticism—or–disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism \textsuperscript{77} and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. That revealing unsoundness-or-ontological-bad-faith/inauthenticity-reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first
equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by ('ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as 'reference-of-thought–categorical-imperatives/axioms/registry-teleology', for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such 'reference-of-thought–categorical-imperatives/axioms/registry-teleology' are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-normalcy/postconvergence to then articulate the necessary 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought–devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ over naïve elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (as of <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification]/akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology)) that is only pertinent when it is of the existential existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression—
on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity to be had/entertained nor any logical analysis but rather "maximalising-recomposuring-for-relative-ontological-completeness"—unenframed-conceptualisation invalidating that the implied-logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentionation-procedure-deception-or-urge of the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context)’. This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing—apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping—set-of-dereifying-hollow-narratives-and-acts’>-with—successive-shifting-of-the-narratives-and-acts-foci—construed—as—deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for
the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’ (entitlement folie/folie raisonnable)’ as opposed to a logical motivation of a supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism -as-of-conviction,-as-to-profound-supererogation logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illlogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements
(out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating 5 logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction-as-to-profound-supererogation’ since that will validate the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism-as-of-conviction-as-to-profound-supererogation’ re-engaging reflex wrongly turning the issue into one of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation instead of construing a perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > ‘preconverging-or-
dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought-manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism—basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> as absolving/fleeting/escaping-reflex—logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> are an outlying phenomenon) with one
flawed-existential-elevation-of-reference-of-thought and developing a supplanting-conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism or prelogism out of them), to the psychopath’s ‘denaturings’ postlogic-backtracking—<iterative-looping—set-of-dereifying-hollow-narratives-and-acts’—with—successive-shifting-of-the-narratives-and-acts-foci’-construed-as—‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism—as-of-conviction,—as-to-profound-supererogation mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath’s perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism—retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target,
‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the 
target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the 
psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of 
alienation from the target’. The psychopath then strives to settle on the whole of this process 
circularly doing likewise with other new and pertinent interlocutors as well (commitment). By 
and large this circularity /perversion-of-reference-of-thought-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/ thus involves these 
four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with 
its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various 
level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive 
nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding 
‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-
conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this 
mental process in the psychopath has to do with its ‘mere formulaic constrained/unconstrained 
perception and relation to /meaningfulness-and-teleology/ (vague-rhyming-or-copied-
mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-

alienation’ by inducing the alienation of its ‘perceived social-stake-contention-or-confliction
target’ over a social-stake-contention-or-confliction de-mentating/structuring/paradigmning.
Critically, it should be understood that passive or suggestive alienation is actually the sumnum
of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral
narrations). It should be noted that the mental state of the psychopath’s interlocutor as
‘ignorance-temporal-disposition conjugated/infllected/derived/mimicked/in-protracction-to-
psychopathic-preconverging-or-dementing –apriorising-psychologism’ is not really
ontologically-speaking a prelogic/conviction-as-to-profound-supererogation mental state but
rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental
state’. There are two stages at which an interlocutor can be in relation with the psychopathic
manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting-<as-
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which
the interlocutor aligns prelogicly and then miscues, and then secondly (in addition), as
‘committed-by-temporality’/interest over intrinsic-veridicality’ whether in the form of
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that
this psychopathic manifestation process can be mimicked in the context of social psychopathy,
and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/infllected/derived/mimicked/in-protracction-to-psychopathic-preconverging-or-
dementing –apriorising-psychologism’. Over a given or extended period the underlying effect
sought by the psychopath might stick, especially where the social target, interlocutors and
others are utterly unaware of the mental state of the psychopath, and so evolving more like a
social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-
or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or
deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > will annul temporal-dispositions pedestals/statures/presumptuousness as postconverging-or-dialectical-thinking – apriorising-psychologism/‘logically contending’, more like a medieval mind with a superstitious registry-worldview doesn’t has the stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism – reference-of-thought–categorical-imperatives/axioms/registry-teleology in its supposed articulation of logic). Paradoxically, the normal prelogism –as-of-conviction,-as-to-profound-supererogation – mind is so attached by supplanting–conviction-as-to-profound-supererogation –postconverging/dialectical-thinking –apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profound-supererogation –postconverging/dialectical-thinking –apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism -as-of-conviction,-as-to-profound-supererogation in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-
or-arrogation, assumptions, value-reference and teleology of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism’s/outcome-sought-precedes-logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism’, contrasted to the psychopath’s ‘compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or compulsively-dementing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction,-as-to-profound-supererogation mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism (it has qualms/conscience) while the psychopath’s ‘compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction,-as-to-profound-supererogation dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-
formulaically-narrated which ‘subknowledging’/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking—apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction,-as-to-profound-supererogation mind deterministic of other prelogism-as-of-conviction,-as-to-profound-supererogation minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallelisation of mere formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) with their corresponding prelogism-as-of-conviction,-as-to-profound-supererogation—or-intrinsic-attribution veridical-meaningfulness elements (which are subknowledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’ as subknowledging ‘prelogism-as-of-conviction,-as-to-profound-supererogation’ toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as subknowledging ‘prelogism-as-of-conviction,-as-to-profound-supererogation’ suppositions’; ‘folie-raisonnante/non-veridical assumptions’ as subknowledging ‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex–logic’ as subknowledging ‘prelogism-as-of-conviction,-as-to-profound-supererogation’ logical operation narratives’; inductive/contextual limitation as subknowledging ‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledging ‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledging ‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-
self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.’ as subknowledging ‘intrinsic-attribution of acts as inherently right or wrong’. On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism’ construed as ‘reverting deduction’ whereas ‘supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking –apriorising-psychologism deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ‘revert or postlogic compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation backtracking—iterative-looping–set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking –apriorising-psychologism mind’s
intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism /preconverging-or-dementing -integration and supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity/reification/superseding—oneness-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism-as-of-conviction, as-to-profound-supererogation’ without factoring the ‘postlogism mere formulaic slanting—compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mental-disposition’ of the postlogic/psychopathic and conjugated-postlogism /preconverging-or-
dementing integration mindsets/ reference-of-thought. It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnable, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism-as-of-conviction,-as-to-profound-supererogation mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing’ postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> - with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to-reference-of-thought/insanity). In fact, the psychopath’s faulty-mentation-procedure-deception-or-urge occurs because of overthinking (elevating its perverted registry/mimicking-subknowledging to wrongly contend with it) rather than underthinking downgrading the perversion-of-reference-of-thought-as-effectively-apriorising/in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and not contending with it, just as is naturally done with a ‘childhood cinglé’ who is not yet
surreptitious and the delirium is rather obvious. Actually, instead of being ‘deliberate of thought’/‘conviction-as-to-profound-supererogation’\(^5\) logical motive’, the psychopath ‘compulsively learns’ as of its postlogic \(^6\) compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation faultymentation-procedure-deception-or-urge\(^7\) from the successive experiences of its failing/not-upholding-<as-of-apriorising/axiomatising/referencing> childhood postlogism\(^7\)-slantedness as it grows into an adult by learning first to be socially-functional-and-accordant\(^8\) while being maturated, indirect, spatialising, credulous and crafty about its postlogism\(^7\)-slantedness so that it starts becoming effective in inducing supplanting–conviction-as-to-profound-supererogation\(^9\)—postconverging/dialectical-thinking \(^2\)–apriorising-psychologism minds to align in-conviction-as-to-profound-supererogation to its compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^6\) hollow narratives. Thus, social \(^1\) universal-transparency\(^2\)-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^8\)>’ of its slanted/postlogic narratives mental-disposition at childhood ‘gets lost’ socially at adulthood to many a supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking \(^2\)–apriorising-psychologism mind just getting acquainted but this is basically the same hollow-formulaic structure. This social loss-of-awareness of the social \(^1\) universal-transparency\(^2\)-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\(^8\)> as being of postlogism\(^7\) mere formulaic slanting \(^7\) compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation\(^6\) further elicits a ‘sense of temporality’ as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in many an
acquainted or non-acquainted (ignorance) supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism minds to the psychopathic postlogism mere formulaic slanting compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation of preconverging-or-dementing—apriorising-psychologism narratives as if it was truly of supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising-psychologism as to ontologically-veridical reality thus inducing the phenomenon of social-psychopathy threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. Thus, a non-ignorant temporal pedestal mindset/ reference-of-thought whether affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation may find it in their temporal-self-interest to cynically elevate the psychopath’s postlogism—compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or slantedness/threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism-or-mimicking-or-subknowledging, when this is not socially universally transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is ‘more than just the drive of a pathological individual’ but inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large
general education diminishes social egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the more common mental-disposition in the extended-informality- (susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—
meaningfulness-and-teleology”) including the ‘informal spaces’ of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism-as-of-compulsing—
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiological/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—~in-relative-ontological-completeness)—but-rather-select-transparency—
to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism-as-of-conviction,—as-to-profound-supererogation’ interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at the point of lack of social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—
about the psychopathic postlogism /slantedness compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (and wherein there is no universal-transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness> about notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation/unequivalences/alienative-hierarchisation), becomes ‘affordable’ (as it doesn’t think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds a temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives to copy it adhocly, as a successful way of going about one’s temporal-self-interest). There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism as-of-conviction,–as-to-profound-supererogation alignment to psychopath-and/or-the-protracted-postlogism ’ comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing—apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emmanent template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding—<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing—apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’—>—absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-
functional-and-accordant state within any given social space as it develops into adulthood'. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting-conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting—conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting—conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing -apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing —apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-
slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-<as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality’-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism or ‘uninstitutionalised-threshold’) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism): Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism—as-of–compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation construes meaningfulness as a hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> construct driven as an threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism exercise (with respect to same-terms-of-expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as determining of others/conviction-as-to-profound-supererogation interlocutors behaviours and
mental-dispositions; this is rather crude with the childhood-psychopath/cinglé such that it fails to elicit supplanting-conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism in others as the postlogic-effect is rather ‘delirious’ then (as in the case of wetting a chair) but the postlogism at adulthood psychopathy becomes rather polished/less-crude in its effect ‘with maturation/indirectness/spatialisation/credulity’ to the point then of eliciting a prelogic/conviction-as-to-profound-supererogation mental-disposition as conjugated-postlogism /preconverging-or-dementing—integration (conjugated-ignorance, conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation) which is hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> with respect to the meaningfulness of reference-of-thought—categorical-imperatives/axioms/registry-teleology from the threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing —apriorising-psychologism. The psychopath perceives instances of rebuttal of its postlogism not essentially in terms—as-of-axiomatic-construct of the rightness or wrongness of the postlogic acts as a prelogic supplanting-conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism mental-disposition will but rather in terms—as-of-axiomatic-construct of not delivering well and failing/not-upholding—<as-of-apriorising/axiomatising/referencing> in its compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation postlogic narratives with the idea of how to further confound/muddle hence the reason it is recursive (postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> ) as absolving/fleeting/escaping-reflex—logic to the point of faking remorsefulness or being a victim as long as fundamentally it ‘succeeds in placing its interlocutor in a prelogism—as-of-conviction,—as-to-profound-supererogation relation to its compelling—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-
supererogation or postlogism mental-disposition’ in order for the former to conjoin to its postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'>.

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-

And this fundamental faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction of its postlogic ‘compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation'
mindset/reference-of-thought then goes on to account for the developmental psychology of the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism/failing/not-upholding-as-of-apriorising/axiomatising/referencing experiences at childhood and early adolescence to achieve the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the prelogic supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking—apriorising-psychologism mindset/reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter’s deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as prelogic supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking—apriorising-psychologism with respect to meaningfulness as of ‘requisite existentially veridical logical-dueness (of apriorising—reference-of-thought-elements/apriorising—registry-elements) and logical-processing-soundness driven construct’. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-suprerogation—postconverging/dialectical-thinking—apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) of our acts at ‘uninstitutionalised-threshold’ thus there is not ‘intemporal social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative—
epistemicity>totalising~in-relative-ontological-completeness⟩ of notional~firstnaturedness—
temporal-to-intemporal-dispositions<-so-construed-as-from-perspective~ontological-
normalcy/postconvergence⟩ disambiguation/unequivalences/alienative-hierarchisation,’ thus
creating an ‘induced-ring-of-gyges-effect/solipsistic~point-of-temporal-thresholding/point-of-
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing~as-so-being-as-of-existential-reality’ derived from the
psychopath’s initiated postlogism in hollow-constituting<-as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation>). That is, abstractly, with respect to
'socially-perceived-value as of social-stake-contention-or-confliction' humans do
solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold ’,
from the temporal-dispositions of slantedness (the psychopath),
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor
solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome
with institutionalisation/intemporalisation and formalisations with corresponding internalisation
of values or secondnaturing. However, at circumstances where the
institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the
‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to–meaningfulness-and-teleology⟩’, then ‘a induced-ring-of-gyges-
effect/solipsistic~point-of-temporal-thresholding/point-of-ontological-faith-notion-or-
ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing~as-so-being-as-of-existential-reality’ will elicit the
‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when
‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-
conviction-as-to-profound-supererogation⟩) will often perfectly elicit an ‘induced-ring-of-
gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness⟩ of its postlogism-slantedness to many a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology) or temporal (shortness-of-register-of–meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised
The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge-(preconverging-or-dementing-as-if-of-sound-knowledge)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional-deprocrypticism (preempting procrypticism, so construed by ‘notional-deprocrypticism onto logically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality–of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought–categorical-imperatives/axioms/registry-
teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective \(^2\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\)). To grasp this better say for instance the normal arithmetic we know \(2+2=4, 5+1=6, 7-3=4\), etc. was to be undermine by a new human perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > caused by a disease wherein we tend to say \(2+2=5, 5+1=7\) and \(7-3=3\), then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\(^\ast\) as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\) are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging /mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to reference-of-thought-as-of-apriorising/axiomatising/referencing of mental-devising-representation and the articulation of new reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^9\),for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal-disposition behind the institutional-cumulation/institutional-recomposure-{as-to-`historiality/ontological-eventfulness}/ontological-aesthetic-tracing-{perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism’}) transcendental/psychoanalytic-unshackling process’, which skews (’intemporality-asymmetric-subsumption-of-temporality”), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojective psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall
perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>)’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation -> that is). Hence ‘our homework’ is to articulate our very own perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation -> for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism’, as-it-is-thus-in-wait’-for-perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ->,–or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distraction-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing> of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing—apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while
‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposing
show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) de-mentating/structuring/paradigming, utilising the outcome of previous institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) effort. Hence dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation instigation recurrently inducing the institutionalisation/intemporalisation process (is not analogical but a contiguous notion by it intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) applies universally across space and time (beyond the institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposition-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation

This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation\textsuperscript{14}–{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}. Hence we know of the following \textsuperscript{14}de-mentation-
(supererogatory—ontological—de-mentation—dialektical—dementation—stranding—attributive—dialectics) de-mentated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism—or—disjointedness-as-of-reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure—which-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflect—epistemicity-relativism>) process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently—preconverging—or-dementing—apriorising-psychologism—or-subknowledging—perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—and-corresponding—<amplituding/formative—epistemicity>totalising—self-referencing-syncretising—relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of base-institutional
prospective de-mentation—(supererogatory—ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics) of our perversion-of- reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as of the reference-of-thought—categorical-imperatives/axioms/registry-teleology—or-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procrypticism—or—disjointedness-as-of—reference-of-thought. Noting as well that uninstitutionalised-threshold like recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications de-mentating/structuring/paradigming as we do in our positivistic/procrypticism registry-worldview, within the ambits of their the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation. But then their stranding from their prospective institutionalisation/intemporalisation represents them as oblongated/decandored/dialectically-or-contendingly-out-of-phase/dialectically-primitive as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional—projective-perspective). This equally explains why uninstitutionalised-threshold equally carried a
complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposurer-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/ontological-normalcy/postconvergence-epistemicity-relativism/ontological-normalcy/postconvergence-epistemicheritage/ontological-aesthetic-tracing/perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism> process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema>(undisambiguation as notional-firstnaturedness-temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence are wrongly given the same elevation), and relevantly so at the procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint–imbued-‘notional-firstnaturedness-temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence’–existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional-firstnaturedness-temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence’ disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition-reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are
actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing—qualia-schema>. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality—asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)’ for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing -dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiaic-drag ‘postconverging-or-dialectical-thinking—apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or
suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency{(transparency-of-totalising-entailing,-as-to-entailing-amplitude-formative–epistemicity>totalising–in-relative-ontological-completeness } of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendent-able/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity<-shallow-supererogation–of-mentally-aestheticised–preconverging/demitting–qualia-schema> of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology ) which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendent-able/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the
intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–implications which is more than just reactionary to the possibility of temporality /shortness (shortness-of-register-of–meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of–meaningfulness-and-teleology) that
takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, notional—deprocrypticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness as dialectical transformation as-prospective ‘reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness as dialectical transformation,
illumination driven institutionalisation over an impression-driven/good-naturedness/wishfulness conceptualisation as the-Good sticks by essence to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and reinvents reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for prospective/transcending/superseding registry-worldview to comply with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when the prior one fails, while the latter sticks by form to reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether this fails intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not. The conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology refers to the same deconstructed/ontological-reconstituting–as-to-conflatedness notion; axioms emphasises and hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology (short for the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing meaningfulness-and-teleology. The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology, and is capable of ontological-reconstituting–as-to-conflatedness /deconstruction involving de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with corresponding de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) hermeneutically/reprojectively-educing-human–meaningfulness-and-teleology-into-the-existentialism-becoming of personhoods-and-

More precisely, deviation-of-reference-of-thought<as-effectively-apriorising-in-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > has to do with the
defect of the reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity (which is rather a logical-process/implication-of-act-execution defect and which implies an ‘implication-of-notion-of-agreement-or-disagreement’), as can be reflected as from ontological-normalcy/postconvergence. A reference-of-thought speaks of the fundamental appropriateness/soundness-or-ontological-good-faith/authenticity—of—reference—of—thought of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for positivism or prospectively, positivism is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> preempting—disjointedness-as-of-reference-of-thought,-as-to-‘amplituding/formative–epistemicity>growth-or-conflatedness/ transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism required for deprocrypticism. Thus fundamentally preconverging-ordemnting—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought is still relevant where there is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expeditiously or unconsciously). Soundness-or-ontological-good-faith/authenticity-of-reference-of-thought on the other hand implies being-or-ontological-or-existential-or—meaningfulness-and-teleology disposition as of supplanting-conviction-as-to-profound-
supererogation—postconverging/dialectical-thinking—apriorising-psychologism (reflecting sound logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect—of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation ) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) nature of intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation)’, in reflecting/perspectivating/highlighting ‘the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the de-mention—supererogatory—ontological—de-mention-or-dialectical—de-mention—stranding-or-attributive-dialectics)) whether as of registry-soundness and thus as ‘postconverging-or-dialectical-thinking—apriorising-psychologism representations’ (postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase) or as of perversion-of reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and thus as ‘preconverging-or-dementing—apriorising-psychologism representations’ (preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase), and so as de-mention—supererogatory—ontological—de-mention-or-dialectical—de-mention—stranding-or-attributive-dialectics) hermeneutically/reprojectively-educing-human—meaningfulness-and-teleology—into-the-existentialism-becoming of personhoods-and-socialhood-formation. Such dialectical articulation of mental-devising-representations can be

being in supplanting-conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism (whether the act is defective or not) implies a ‘mental-disposition’ of the performer to be intemporal/ontological, and the defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation simply have to do with inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and not unsound-mental-disposition or perversion-of- reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (which in this latter case will speak of a mental-disposition to act as of threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism with regards to subsequent acts of similar context by their performers). Hence the postconverging/dialectical-thinking—apriorising-psychologism mental-devising-representations of either sound logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity —of— reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing—apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity —of— reference-of-thought) in implying the ‘upholding of their sound—reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect—of—logical-processing-or-logical—
implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness ) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

preconverging/dementing—apriorising-psychologism performers subsequent acts of-similar-or-protracted-contextualisation to their prior acts verified to be of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

preconverging/dementing—apriorising-psychologism are priorly projectively invalidated by reflex as ‘possibly-of-preconverging-or-dementing—apriorising-psychologism’/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought and not ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism’/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in implying the ‘revoking of their sound reference-of-thought status’. To illustrate, suppose X above rather slyly and deliberately (preconverging-or-dementing—apriorising-psychologism mental-devising-representation) miscalculated (non-ontological-reference/non-contending-reference) the answer (in notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised-preconverging/dementing—qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still ‘genuinely’ engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-protracted-contextualisation, with respect to the upheld context behind X’s sly and deliberate basis for miscalculating. The ‘de-
preconverging/dementing —apriorising-psychologism acts ‘of-similar-or-protracted-contextualisation’ implies ontological-normalcy/postconvergence/postdication/ontological-normalcy/postconvergence deploying of ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ in enabling full mastery/grasp of such ‘convolutedness of social dynamics’ as of personhoods-and-socialhood-formation with respect to existence-potency–sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very- ontologically-same-existential-reality, and so based on ‘a deconstruction/ontological-reconstituting–as-to-confoundedness perpetuation of a hermeneutic/reprojective circle as ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding- or-attributive-dialectics) of ‘reference-of-thought analysis’, which is technically non- thresholding/doesn’t-technically-succumb-to-any-socially-betraying-threshold-of-ontologising- depth-of-analysis in its ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity proxying/approximating exercise; as when the socially-betraying-threshold-of-ontologising-depth-of-analysis (which can equally be qualified as the ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’, given that ‘ontologising-depth-of-analysis’ can be construed as ‘intemporal-preservation/intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ which is actually ‘ontologically-reconstituting’, reconstituting from the base-institutionalisation-to-notional–deprocrypticism registry-worldviews/dimensions) is attained the reflex is to imply a mental-devising-representation of ‘soundness-or-ontological-good-faith/authenticity’-of-

The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-as ‘first-level ‘presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) was set/given however skewed towards the dominance of say a leader or family/clanic group or priestly class or outright social class; with positivism though, while relatively universal and empirical, the weakness lies in the ontological-contiguity of the contextualisation of rules and rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) (hence not ‘absolutely rational’ with regards to its socially-betraying-threshold-of-ontologising-depth-of-analysis) which preempting—disjointedness-as-of-reference-of-thought,-as-to-*\texttt{amplituding/formative-epistemicity}growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold-(uninstitutionalised-threshold-presublimating–desublimating-decisionality)–of-ontological-performance-<including-virtue-as-ontology> ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-

Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing –apriorising-psychologism in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification'/ontological-primemovers-totalitative-framework construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold-{uninstitutionalised-threshold}/presublimating–desublimating-decisionality}–of-ontological-performance—of postlogism -slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance’–<including-virtue-as-ontology> on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold of the registry-worldview/dimension (procrypticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-
Good/understanding/knowledge-reification\$/ontological-prime movers-totalitative-framework\$/construct’ preempting the said perversion-of-reference-of-thought\$<\!\langle\text{as effectively apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\!\rangle$ phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to $\langle\text{perversion-of-reference-of-thought-as effectively apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle$ phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional
levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation de-mentating/structuring/paradigming, contrasted with a temporal extricatory de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought-like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the
registry-worldview’s/dimension’s recomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-
normalcy/postconvergence (as to epistemic relative-ontological-completeness) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional~deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative unsound/ontologically-impertinent reference-of-thought status’, and so going by the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same ‘human form-factor’ with their ‘snowballed differences’ arise solely due to limited-mentation-capacity-deepening involving institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>). Ontological-normalcy/postconvergence as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-normalcy/postconvergence (shifts-in-the-curve-of-human-grasp-of-one-ontology/‘ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-veridicality/ontological-completeness’ as the institutional-cumulation/institutional-recomposure-(as-to-‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-

It should be noted that a defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance (unlike a perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) implies movement-along-the-same-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought of a given registry-worldview’s/dimension’s reference-of-thought whether as an inappropriate/poor-or-bad or appropriate/good or any other variation of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation, and doesn’t fundamentally voids the ‘sound reference-of-thought status’ with regards to the possibility of an appropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in another instance. This insight is critical because the defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-

Typically, such an insight with regards to compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is obvious and transparent with respect to the childhood psychopathy/cingleé mental-disposition, given that an initial encounter often involves a natural ‘postconverging-or-dialectical-thinking – apriorising-psychologism reflex’ by the interlocutor with respect to their initial narratives but after some familiarisation we come to understand that the initial narratives are in fact preconverging-or-dementing – apriorising-psychologism and thus our expectation of the subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-representation as a ‘preconverging-or-dementing – apriorising-psychologism reflex’. This preconverging-or-dementing – apriorising-psychologism veridicality explains both the childhood and adult psychopath disposition for absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic-attribution wherein the mental-disposition is to move postlogically/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ’ and not an articulation of supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking – apriorising-psychologism or existential-contextualising-contiguity principle of reification, be it by adhering to the mere

explains our mental-devising-representation preconverging-or-dementing –apriorising-

It should thus be noted that the preconverging-or-dementing–apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-to-conflatedness /deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting–as-to-conflatedness /deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness’-of- reference-of-thought defective reference-of-thought–categorical-
imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanism, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness)/ontological-aesthetic-tracing-(perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’), as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojective circle exercise of ontological-reconstituting–as-to-conflatedness/deconstruction (of our notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing–apriorising-psychologism as to mere formulaic positivistic ‘meaningfulness-and-teleology’) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness)/ontological-aesthetic-tracing-(perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’)> and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing ‘reference-of-thought and ontological-veridicality/ontological-contiguity’

A ‘postconverging-ordialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (as to ‘postconverging-ordialectical-thinking—apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing—apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-ordialectical-thinking—apriorising-psychologism’ or of preconverging-or-dementing—
apriorising-psychologism as so-reflecteda so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any "presencing—a absolutising-identitive-constitutedness" \[a][3] distorted "meaningfulness-and-teleology" \[a][9]. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s "reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ "reference-of-thought—categorical-imperatives/axioms/registry-teleology",-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/knowledge-reification"/ontological-primemovers-totalitative-framework" sound "reference-of-thought—categorical-imperatives/axioms/registry-teleology",-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in ontological-reconstituting—as-to-conflatedness"/deconstruction); wherein no amount of ‘good-naturedness’ of any individuation based on the former (prior/transcended/superseded) "reference-of-thought can fundamentally supersede its de-mentative/structural/paradigmatic vices-and-impediments" \[a][10], but for the ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring) into "reference-of-thought of the latter (prospective/transcending/superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. That is why there is no ontologically-veridical intradimensional resolution of issues and notions of sorcery for instance in a non-positivism/medievalism social-setup with any such pretence being nothing but a ‘temporal extricatory de-mentating/structuring/paradigming’ to satisfy temporal preservation’, but for implying a prospective need for a positivistic registry-worldview/dimension as

veracity/ontological-pertinence of our notional—firstnaturedness—temporal-to-intemporal-
dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as
individuations of shortness-to-longness-of-register-of—meaningfulness-and-teleology, such
that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-
teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are
institutionalised/intemporalised, human temporality in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (ontological-reconstituting—as-to-conflatedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating—amplituding/formative>supererogatory-dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of—meaningfulness-and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of—meaningfulness-and-teleology—or-hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuations dispositions); with
corresponding percolation-channelling-<in-deferential-formalisation-transference> facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>/decandoring with three de-mentative/structural/paradigmatic teleologies: - subknowledging-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing-apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing-apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging-impulse/compulsive-dementing-temporal-disposition (psychopath) and the subknowledging-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) backdrop of new recomposuring-reference-of-thought-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—

temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’

prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of- reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > existential mental orientation to avoid postconverging-or-dialectical-thinking–apriorising-psychologism<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms–as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-

It is more like (a knowledge-driven/not impression-driven) ‘intemperal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemperalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively depocryptic being/ontology over procrypticism—or-disjointedness-as-of-reference-of-thought. The dynamism of social psychopathy and the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing’ at ‘uninstitutionalised-threshold’) can be resumed as follows. Basically, the psychopath is involved in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemperal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemperal-preservation, conjoining and conjugating to temporal-dispositions of
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-

fundamentally referenced from base ontologising effectivity (intemporal preservation); in
ephemeral/temporal and ontologic/intemporal contrast, thus
reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the dem-

‘medieval mindset’ with respect to the positivist mental frame. This obviously calls for an ‘intellectual/scientism detachment’ towards the ‘perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomling-as-to-shallow-supererogation’ registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct). This way of hermeneutic/reprojective ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’ devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as ‘perversion-of-reference-

just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence
referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation
ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the
conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing\textsuperscript{12} of
reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{9} as of ontological-
normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of conflation rather than constitutedness (notwithstanding the instances of the latter’s contingent approximating-nature for conceptualisation/construal rather construed as presencing—absolutising-identitive-constitutedness). constitutedness tend to fallaciously imply ‘existence of things in existence’ whereas conflation rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness of reference-of-thought’ perpetually when aware of its deficiency. conflation takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening as of metaphysics-of-absence-(implicit-epistemic-veracity-of nonpresencing-<perspective–ontological-normalcy/postconvergence>, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond <amplituding/formative> wooden-language-<imbued—temporal—mere-form/virtualities/dereification>–/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology> which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-
normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-{implicit epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>}/postdication. Thus, constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a contingent resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-construct/ reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity) that will then require another contingent resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency-sublimating–nascence-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by constitutedness in categorisation schemes, thus
fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology <-in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existentialexistence-elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing-reflexive/entailing-teleology-differentiation-as-of-subtransversality-of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >; and as such,
constitutedness will speak of subtransversality-of-motif-and-apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘constitutedness and conjugated-constitutedness of reference-of-thought’ including psychopathic slantedness constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening induced constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold mental-disposition’ (since such a construal fully reflect the reality of a human temporal-to-intemporal reference-of-thought nature, with high ‘constitutedness and conjugated-constitutedness of reference-of-thought’ of temporal-dispositions reference-of-thought, much like the ‘conjugated-constitutedness of reference-of-thought’ of the other BODMAS characters to A’s fundamental postlogism-slantedness pathological condition/constitutedness as when insisting on upholding the <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification)’a krasiacic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ and not factoring in A’s underlying condition and defect as constitutedness, and so out of sync with the existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context as the more fundamental a priori whose imbricatedness/threadedness/recomposuring reveals the fundamental defect of applying additionality reference-of-thought—categorical-imperatives/axioms/registry-teleology by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity). The resolution by imbricatedness/threadedness/recomposuring is most telling of the inherent nature of conflation which is conceptually associated with ‘human
registry-worldview’s/dimension’s institutionalisation mental-disposition’; as conflation speaks of a more profound relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-{implicit-ed-epistemic-veracity-of nonpresencing-<perspective–ontological-normalcy/postconvergence>}/postdication, and so even when elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity is denaturing as exposed by existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context, to further construe new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation factoring in the imbricatedness/threadness/recomposuring reflecting the existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context. conflation, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context, and so grasped as conflation emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation. Hence conflation will tend to avoid systemic defects of analysis associated with constitutedness requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. conflation is thus naturally inclined to induce ‘appropriate-existential-elevation-of-reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality-of-motif-and-apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>. Further, constitutedness and conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-

construal/conceptualisation of language development as well as aesthetics and virtue as reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. In a further elaboration of constitutedness and conflation with respect to psychologism, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct-reference-of-thought psychologism has to do with the fact that every registry-worldview/dimension has ‘its own specific constitutedness/conflation psychological complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct-reference-of-thought which thus needs its own corresponding psychologism for its superseding—meaningfulness-and-teleology, achieved by ‘presencing—absolutising-identitive-constitutedness’ as constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior constitutedness of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup-reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-
together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in conflation\textsuperscript{12} or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of constitutedness\textsuperscript{13}), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework transcendental-enabling/sublimating/supererogatory-de-mentativity and corresponding meaningfulness-and-teleology\textsuperscript{99}. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology\textsuperscript{99} as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procripticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology\textsuperscript{99} as arising and determined by its specific limited-mentation-capacity-(as of relative constitutedness\textsuperscript{13} in relation to conflation\textsuperscript{12}) construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening\textsuperscript{52}, can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc.
available for individual and collective intersolipsistic exploitation and renewal). Noting that at
stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of
existential possibilities, on the basis of its limited-mentation-capacity-deepening determining
its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the
‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic
deambulation’ is highly linear as of the possibilities for construing human psychical and
institutional readjustments in inducing successive institutional-cumulation/institutional-
recomposurer-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-
perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism
which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic
deambulation’ harkens back to that of human registry-worldview’s/dimension’s
institutionalisation by its socially-functional-and-accordant thresholds of
notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-
perspective–ontological-normalcy/postconvergence> further redefining the possibility of
uninstitutionalised-threshold as the threshold for failing/not-upholding the
institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-
teleology and the possibility of prospective institutionalisation as renewing reference-of-
thought–categorical-imperatives/axioms/registry-teleology for upholding intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-
ormalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further
redefining successive prospective socially-functional-and-accordant thresholds as successive
prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of
human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-
of-presence–implicated–nondescript/ignorable–void–presencing—absolutising-
identitive-constitutedness, the present registry-worldview’s/dimension’s reference-of-
thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. Such a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ by its contiguity in grasping the implications of human temporal (pseudointemporal)-to-intemporal mental-dispositions as a contiguity of shortness-to-longness-of-register-of meaningfulness-and-teleology should be predicative of human meaningfulness-and-teleology (much the same way that the notion of temporality-to-intemporality thresholds driven construal enables an existentially operant <amplituding/formative–epistemicity>totalising-ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

As we come to recognise that such an approach renders the meaningfulness-and-teleology\textsuperscript{99} as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness\textsuperscript{37}/ontological-aesthetic-tracing–\textless perspective–ontological-normalcy/postconvergence-reflected–\textless epistemicity-relativism\textgreater ) as the absolute determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence-and-sublimity/sublimation/supererogatory–\textunderscore de–mentativity, as it doesn’t factor in the said registry-worldview/dimension prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought to then project that there may be a prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought which meaningfulness-and-teleology\textsuperscript{99} as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it establishes prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought by social universal-transparency\textsuperscript{103}–(transparency-of-totalising-entailing–as-to-entailing–\textless amplituding/formative–epistemicity\textgreater totalising–in-relative-ontological-completeness ) as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness–of reference-of-thought– devolving–as-of-instantiative-context. successively across all registry-worldviews/dimensions, whether retrospectively or

the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in
both instances, human mentation capacity is construed as absolutely given at all times, with that

Thus, with notional\textsuperscript{3} deprocrypticism further enabling the abstract intemporal/ontological contiguity grasp of human ‘individuation-level and registry-worldview/dimension-level \textsuperscript{55} meaningfulness-and-teleology’\textsuperscript{99} as it can accrue at the intradimensional-level of individuals-notionally-as-receptacles-of-temporal-to-intemporal-individuations and individuals-as-institutionally-constrained-actors-as-of-intersolipsistic-deambulation, and hence ontologically-adjoins in its construal/conceptualisation the construct of the individual and the social as of ‘notional\textsuperscript{3} deprocrypticism suprastructuration’ or ‘notional\textsuperscript{3} deprocrypticism suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology\textsuperscript{99} synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’ (just as in the natural sciences, physics ontologically-adjoins chemistry and chemistry ontologically-adjoins biology). This is in contrast with an ontologically non-contiguous stigmatic/mented psychology construct which relative ‘third-level presencing—absolutising-identitive-constitutedness’ largely limits its notion to ‘affect’, and not a full-blown ontological-contiguity\textsuperscript{66} as conflation\textsuperscript{12}
notional-deprocripticism conflation is rather bound to be perceived and construed as of the (recomposured)-consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of conflation (including ‘presencing—absolutising-identitive-constitutedness’) can be conceptualised across all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) as the prospective registry-worldview/dimension institutionalisation of reference-of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold’s-reference-of-thought in its ‘constitutedness and conjugated-constitutedness’ of reference-of-thought with respect to the prospective registry-worldview/dimension institutionalisation of reference-of-thought overall existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context ‘meaningfulness-and-teleology’; (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective conflation) supersede mythical/supernatural/alchemic explanations psychologism (as of prior constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating/supererogatory-de-mentativity’; interestingly, highlighting how and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective institutionalisation is construed in transcendental-enabling/sublimating/supererogatory-de-mentativity terms as its strive for a prospective relative-ontological-completeness-of-
reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold. Prior relative-ontological-incompleteness-of-reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of conflation will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness and conjugated-constitutedness’ of ‘reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; notional-deprocripticism by its very transcendental essence comprehensively comes into grips with the constitutedness in positivism–procripticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness’ but an overall comprehensive conflation insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procripticism. Conflation as of ontological-normalcy/postconvergence referentialism in superseding constitutedness, provides resolution
as of 3 aspects of meaningfulness-and-teleology: firstly, with respect to temporal instigating as constitutedness like psychopathic-slantedness insane-fitment ‘disjoinedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation and its derivation with respect to temporal reprisings of such constitutedness as ‘conjugated-constitutedness of reference-of-thought’ associated with conjugated-postlogism temporal reprisings by construing/conceptualising such perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon, and re-establishing social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-amplituding-formative–epistemicity>totalising-in-relative-ontological-completeness) that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiologisation/ontological-escalation as of ontological-reconstituting-as-to-conflatedness; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as
centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics’). The point of this statement is that when procrysticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence—(implicitied-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrysticism meaningfulness-and-teleology will be represented as decentered and in de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ushering in notional—deprocrysticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrysticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking—apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional—deprocrysticism
institutionalisation as it points to the decentering and de-mentation-
(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of conflation as of centering and postconverging-or-dialectical-thinking—apriorising-psychologism reference-of-thought implied with institutionalisations and constitutedness as of decentering and ontologically/preconverging-or-dementing—apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold, prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism—procrypticism from a notional–deprocrypticism perspective, just as we’ll recognise for instance that a universalisation—non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—
stranding-or-attributive-dialectics) of an uninstitutionalised-threshold is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Intellectual courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness–of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory–de-mentativity rather than a conventioning sovereign construct-choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of &lt;amplituding/formative–epistemicity&gt;totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity’s-
reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought-devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/ reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising–representation/mentation/consciousness-awareness–teleology) requisite knowledge or meaningfulness–and–teleology reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence–and–sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as–of–axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological–primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as–of–axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference–of–thought/psychologism construed as including the discretional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence–and–sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying reference–of–thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-
positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology conjoin explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework outcomes as its mechanical-knowledge aspect but further requires a development of the discreitional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsising-depth as of the overall registry-
worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold\textsuperscript{102} psychologism. Such organic-knowledge gets institutionalised to an extent by the habitation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of meaningfulness-and-teleology\textsuperscript{99} as of crossgenerational psychoanalytic-unshackling involving <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{96} towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview\textsuperscript{8} reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework\textsuperscript{72} validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality across all the successive registry-worldviews as at all their uninstitutionalised-threshold\textsuperscript{102} temporal-individuations-as-shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{99} are a drawback to transcendence-and-sublimity/sublimation/supererogatory de-mentativity (by adherence to ‘<amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19} narratives—of-the—reference-of-thought–categorical-imperatives/axioms/registry-teleology’) of prior/transcended/superseded registry-worldviews/dimensions’ inducing their successive

and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human

In which case while such intemporality/longness cannot be construed as of a social commonness of ‘reference-of-thought, it’s occurrence if it does occur can only be construed in transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{101} (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of conflation in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{67}’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. the reference-of-thought, in articulating ontological-normalcy/postconvergence and the suprastructural nature of intrinsic-reality/ontological-veridicality, moves away from a positivistic registry-worldview registering/dueness to a notional–deprocrypticism registry-worldview registering/dueness with the corresponding de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) stranding the prospective/superseding/transcending registry-worldview/dimension transdimensional-meaningfulness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as organic-comprehension-thinking and the prior/superseded/transcended registry-worldview/dimension intradimensional-meaningfulness as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism (just as successive registry-worldviews/dimensions reference-of-thought, in a conceptual grasp of ontological-normalcy/postconvergence and the suprastructural nature of intrinsic-reality/ontological-veridicality, had priorly moved from an utter-institutionalisation registering/dueness/existentialism to a base-institutionalisation registering/dueness/existentialism, to a universalisation registering/dueness/existentialism and then presently a positivistic registering/dueness/existentialism, with corresponding de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) stranding prospective/superseding/transcending registry-worldviews/dimensions meaningfulness as organic-comprehension-thinking and the prior/superseded/transcended registry-worldviews/dimensions meaningfulness as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism; as-and-when-it-is-established that a registry-worldview’s/dimension’s institutionalisation is no longer intemporal-preservational, when it is perversion-of reference-of-thought—<as-effectively-apriorising-in-

It should be noted that human uninstitutionalised-threshold refers to the point where a specific institutionalisation is failing/not-upholding<&-as-of-apriorising/axiomatising/referencing-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation by a formulaic adherence (lip-servicing) to reference-of-thought—categorical-imperatives/axioms/registry-teleology,,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation hence attaining its uninstitutionalised-threshold wherein the ontological-veridicality of the mental-devising-representation is ‘in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing–apriorising-psychologism and not organic-comprehension-thinking’, and we can envision retrospectively the points of de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of preceding registry-worldviews/dimensions from our vantage point of being at the backend of the institutional-cumulation/institutional-recomposure–historiality/ontological-eventfulness /ontological-aesthetic-tracing-&<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism‘> process like an insight in the recurrent-utter-institutionalised ‘so-called savage’ mindset/ reference-of-thought or the medieval mindset, for instance. Likewise such a threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism registry-worldview projection though of a different nature of the positivistic registry-worldview/dimension can be made prospectively from a notional–deprocrypticism insight that overrides our illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/present-consciousness/mirage given its more suprastructural and ontological-normalcy/postconvergence vantage perspective in relation to
analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-

analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-

representation. Equally, with regards to human mentation capacity, the effect of limited
mentation capacity characterising a given registry-worldview/dimension or intradimensional
level and its social-construct not only defines its inherent vices-and-impediments but such a
social-construct further and critically structures and stifles the natural renewal of human
emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to
think outside of medieval mental-dispositiona and likewise with regards to our procrypticism.
The bigger point of successive institutionalisations has to do overall with their specific
emancipative registry-worldview/dimension framework as fertilising the cross-section of
human practical and conceptual incidental issues and endeavours as well as the virtue
constructs at the said registry-worldview/dimension. What is interesting with regards to an
incidental study like psychopathy and social psychopathy with respect to the grander
notional–deprocrypticism institutionalisation level within the treatment of the institutional-

backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation issues (issues arising from the tempering or false implying of the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of
cause’ due fundamentally to mediocrity principle of humans having in reality ‘notional-firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogation—de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogation—de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogation—de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogation—de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no
preconverging/dementing —apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as ↑reference-of-thought supersedes/precedes ↑logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation ), so you rather have a reinvention as <amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to liberate themselves before secondnaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with
remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness ‘-or-ontological-reprojecting/longness-of-register-of– meaninglessness-and-teleology’), the psychopath’s and other postlogic articulations have a nefarious effect, on social ‘meaninglessness-and-teleology’ particularly in ‘spheres of extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and incompleteness-to– meaninglessness-and-teleology’)’ of society in general and social institutions, as the postlogic perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation induces threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— preconverging/dementing –apriorising-psychologism with many an interlocutor, and which by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness ‘-or-ontological-reprojecting/longness-of-register-of– meaninglessness-and-teleology’), and often leads to a social dynamism of plainness and mediocrity which is subpar and corrupting to social and institutions teleological potential. In-conviction-as-to-profound-supererogation (prelogically), threshold-of–nonconviction/madeupness/bottomlining-as-to-
entropy to preserve intemporality\textsuperscript{\textsuperscript{1}} known as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with the idea that reference-of-thought–categorical-imperatives/axioms/registry-telelogy\textsuperscript{\textsuperscript{2}}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are as pertinent only as these preserve intemporality\textsuperscript{\textsuperscript{1}}, and are collapsed/overridden by new reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{\textsuperscript{2}}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, when shown not to be preserving intemporality\textsuperscript{\textsuperscript{1}}, as when of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing –apriorising-psychologism with regards to the preceding reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{\textsuperscript{2}}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding<as-of-apriorising/axiomatising/referencing> reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{\textsuperscript{2}}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness\textsuperscript{\textsuperscript{1}}, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to shallow-supererogation\textsuperscript{\textsuperscript{1}}—to—profound-supererogation\textsuperscript{\textsuperscript{1}} that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-
comprehension-thinking (organicism/‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology”) that reflects/perspectivates the protracted threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind

postconverging/dialectical-thinking —apriorising-psychologism or prelogism⁹ (normal prelogism —as-of-conviction,—as-to-profound-supererogation —mind) will speak of a pathological liar, by liar wrongly granting the psychopath a supplanting–conviction-as-to-profound-supererogation —

It is rather a flaw in the prelogism —as-of-conviction,—as-to-profound-supererogation —mind’s perception (prelogism —

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic/reprojective approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emmanent projections of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought—devolving ontological-performance—<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew (‘intemporality -asymmetric-subsumption-of-temporality ’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition
to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology”) than temporal (shortness-of-register-of—meaningfulness-and-teleology”) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation with a de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) highlighting organic-comprehension-thinking (organicalism/intemporal-prioritisation-of—reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology”) and the distracting

preconverging/dementing –apriorising-psychologism. Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a de-mentating/structuring/paradigming of the human present as modern into a de-mentating/structuring/paradigming of across-and-of-all-times! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure-{as-to-1 historiality/ontological-eventfulness /ontological-aesthetic-tracing-{<perspective–ontological-normalcy/postconvergence-reflected-{epistemicity-relativism⟩}) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–unununiversalisation, universalisation–non-

positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-

decandoring where mental-devising-representation is a wrong/flawed perverted representation

The philosophical conceptualisation of stranding is rather ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence disambiguation’ which serves to avoid the supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal.

Prospectively, the de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) of our own mental-devising-representation by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism as oblongated and decandored at our uninstitutionalised-threshold requiring notional—deprocrypticism institutionalisation/unintemporalisation will equally meet with an epistemic-totalising—self-referencing-syncretising wrong reflex of postconverging-or-dialectical-thinking—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling—in-deferential-formalisation-transference as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as of preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase notwithstanding their wrongly projected postconverging-or-dialectical-thinking—apriorising—
psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology hence wrongly implying candored and straightness, whereas these are in effect <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’. Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum \((5 \times 5)+5–5\), and make the mistake to say \(5 \times 5 = 24\) but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24.

the teleology of human de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) reflects the human-subpotency for attaining crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity with corresponding dialectical and psychoanalytic existential reorientations (‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and it is well beyond the idea of just a ‘de-mentative/structural/paradigmatic argumentation convincing’ intradimensionally as to ‘presencing—absolutising-identitive-constitutedness’ (based-on-the—categorical-imperatives/axioms/registry-teleology—of-the-registry-worldview/dimension as absolutised) as to a registry-worldview/dimension in relative-ontological-incompleteness that is ontologically-deficient/preconverging-or-dementing—apriorising-psychologism as of its reference-of-thought—categorical-imperatives/axioms/registry-teleology—of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, in the first place; as teleology as such reflects human-subpotency sublimation-over-desublimation possibilities in existence as to underlying supposedly coherent ontological-commitment. relative sublimating efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism when it is demonstrated that it is perversions-of- reference-of-thought–as-effectively-apriorising-in–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as perversions-of-the–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and rather syncretises in operating those same reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold. The reason for the human ‘transcendental/transdimensional/interdimensional/maximising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when &lt;amplitudding/formative–epistemicity&gt;totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own &lt;de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to elucidation-and-superseding-of-its- perversion-of-reference-of-thought&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation &gt;,–as-to-preconverging-or-dementing–apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposing for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding.&lt;as-of-apriorising/axiomatising/referencing&gt; its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–&lt;perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’&gt;) ontological-contiguity—of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-
realism as notional–deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Such a rational-realism as notional–deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which involves de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by decandoring/oblongating (representation of perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as to preconverging-or-dementing-apriorising-psychologism<-stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) on the basis

The notion of the social-construct as intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> human reality, and thus the need for institutionalisation to skew (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) towards intemporality/intemporal-preservation as human secondnaturing. articulating meaningfulness within the dimension in need of transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity. For instance, a positive mind’s
articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in
terms—as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful
purposefulness but rather to project a positivistic worldview’s transcendental meaningful
purposefulness. In that sense, actually for the social scientist and philosopher words like
dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the
ordinary and temporal connotations of stigmatising under a temporal extricatory de-
mentating/structuring/paradigming. Rather, these are critical and actively sought after notions
that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity by psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical
notions that apply in all transcendence-and-sublimity/sublimation/supererogatory—de-
mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words,
our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-
representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the
opportunity for the contrastive construction of a superseding/transcendental registry-

worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional–deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology to longness-of-register-of—meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} process. ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional–firstnature—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconsciousability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism>

In this regard, the hermeneutic/reprojective exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an
idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojective design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojective insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional-deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as prospective reference-of-thought of renewing existentialism/full-depth-of-existential-implications of transdimensional-meaningfulness-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in various shades is just as critical for the necessary reconstitutive insight (deconstruction) that can be highly evasive and difficult to fully grasp at different registry-worldviews/dimensions meaningful-references or rather dialectically successive existentialisms. - A ‘circular dialectical dynamism of organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) by virtue of intemporal higher teleologies, distracted by threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism, due to temporal and/or perverted/subknowledging/mimicking degraded-teleologies; in the psychoanalytic-unshackling process that explains transcendental-dialecticism transdimensionally/across-registry-worldviews as reflected/perspectivated as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candoring-and-dialectically-in-phase with regards

To further elucidate, the underlying idea of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without notional-discontiguity/epistemic-discontiguity<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>-as-of-epistemic-decadence in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping–set-of-dereifying-hollow-narratives-and-acts’> that matters.’ What’s the meaning of being good-natured/kind/humble/responsible/friendly/sociable/etc. in a subknowledging or perverted or corrupt social-setup or a philosophically-underdeveloped but presumptuous meaningful context (H.G. Well’s country of the blind de-mentating/structuring/paradigming, for instance), or worst still in teleologically-degraded social situations that may be mobbish or genocidal, wherein by our illusion-of-the-present/present-consciousnessas <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag we apparently demonstrate such qualities but ontologically we aren’t veridically intemporal-
preservational? And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocripticism, with their evolving reference-of-thought-categorical-imperatives/axioms/registry-teleology wherein prospective meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought The only answer that cuts it in all ways, is inevitably intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality (mentation-capacity-wise, as longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology, more than just an abstraction as it carries the notion of a contiguous existentialism/full-depth-of-existential-implications transdimensional-meaningfulness/memetic-refinement as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). all registry-worldviews will simply ‘out of goodnaturedness and naivety’ provide an

Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as \(1+3=5\), \(2+5=8\), \(5+6=12\), etc., the ontological-veridicality/ontological-contiguity\textsuperscript{6} of \textsuperscript{8}reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional—projective-perspective) of additionality with regards to this character will always involve as of \textsuperscript{8}reference-of-thought—\textsuperscript{8}categorical—imperatives/axioms/registry-teleology\textsuperscript{9} that subtracts \(1\) from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of—
thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance \(7(\sqrt{64} + 3 - 1) - (6 + 4 - 2) ÷ 2\). Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, \(\sqrt{64} = 8\) and then addition \(8 + 3 = 11\), then subtraction \(11 - 1 = 10\). For the second brackets, addition as \(6 + 4 = 10\), then subtraction as \(10 - 2 = 8\). The division operation then follows with the second brackets result as \(8 ÷ 2 = 4\). Then the multiplication operation with the first brackets result as \(7 × 10 = 70\). Finally, comes the subtraction with \(70 - 4 = 66\) as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence).

But then, in this particular case where character A (Addition) operation of additionality is
perverted as stated above as a result of its condition, the equation will resolve as $\sqrt{64}=8$, $8+3=12$, $12-1=11$, for the first brackets, and $6+4=11$, $11-2=9$, for the second brackets. The division operation with the second brackets yields $9\div2=4.5$, and the multiplication operation with the first brackets yields $7\times11=77$. Finally, subtracting both brackets gives $77-4.5=72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced,- ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation — preconverging/dementing –apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective), as ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived–perversion-of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation” > as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of–reference-of-thought, as ontological-veridicality/ontological-contiguity of ‘reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) precedes projected <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the–reference-of-thought–categorical-imperatives/axioms/registry-teleology }, with ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology” nothing more
but human mental inventions (construed by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) for the sake of achieving ontology/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and pertinent in that regard only when not-failing/upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing<<perspective–ontological-normalcy/postconvergence>>)/postdication. Hence the notion of ontological-normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as superseding/preceding over projected <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification\textsuperscript{a}/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{a}—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{b}) in affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification\textsuperscript{a}/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{a}—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{b})). In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over projected <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{b}) in affirming ontology/ontological-
veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflatedness over A’s induced preconverging-or-dementing-reference/ perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation). Thus the new categorical-imperatives/axiom/registry-teleology -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger
choose to act because of one temporal reason or the other whether by ignorance of the need for this new reference-of-thought—categorical-imperatives/axioms/registry-teleology—(for-intemporal-preservation-entropy) or affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (i.e. induced-ring-of-gyges-effect/solipsistic—point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality); and so, fail to follow the latter reference-of-thought—categorical-imperatives/axioms/registry-teleology—(for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation that are intemporally-preservational. That is, choosing circumventive/distractive-temporal-prioritisation-of-reference-of-thought and thus failing/not-upholding—as-of-apriorising/axiomatising/referencing> the possibility of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. That being the case, this doesn’t in anyway undermine the intrinsic reality/ontological-veridicality/ reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal to with the need for new requisite reference-of-thought—categorical-imperatives/axioms/registry-teleology—(for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—> as-of-unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought thus requiring de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) of all such temporal-dispositions. temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from
similar individuations in such situations as a registry-worldview/dimension problem, in order to
ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontology.
In the bigger scheme of things, this calls for a prospective registry-worldview/dimension
institutionalisation articulation that supersedes/overrides such a temporal dynamism of
perversion-of- reference-of-thought-<as-effectively-apriorising-in-

various social roles going from A’s condition, and the potential overlooking of the intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation disposions by all the other
characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that
fundamentally the conjugation of such an de-mentation-(supererogatory–ontological–de-
mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and subsequent
conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension
speaks fundamentally of the uninstitutionalised-threshold of that registry-worldview/dimension, reflected/perspectivated by the marginal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defect of its reference-of-thought-categories/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblengated/decandored-and-dialectically-or-contendingly-out-of-phase, with a prospective institutionalisation reference-of-thought-categories/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase. de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) doesn’t confuse appropriateness of the prior reference-of-thought-categories/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing—apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-

think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-

this is that ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-

<amplituding/formative–epistemicity>totalising~self-referencing-

representation as so-manifested at institutionalised/intemporalised-thresholds-of-intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation while rather reflecting the uninstitutionalised-threshold that requires renewed mental-devising-representation, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity with the present registry-worldview/dimension corresponding to the superseded perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought—categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic—as-to—transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ going beyond the reference-of-thought—categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought—categorical—

Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking–apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing–apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity-⟨as of relative constitutedness⟩ to deeper limited-mentation-capacity-⟨as of relative conflation⟩ behind the successive institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’⟩, wherein the dialectically transcending/superseding institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’⟩ of relatively deeper limited-mentation-capacity-⟨as of relative conflation⟩ is the shifted reference-of-thought (dialectically-in-phase) and is thus of ‘postconverging-or-dialectical-thinking–apriorising-psychologism mental-devising-representation’ as it is in (postconvergence) ontological-veridicality/ontological-contiguity while the prior transcended/superseded institutional-cumulation/institutional-recomposure-⟨as-to-historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’⟩ of relatively shallow limited-mentation-capacity-⟨as of relative constitutedness⟩ is no longer the reference-of-thought (dialectically-out-of-phase or dialectically-primitive) and is thus of ‘preconverging-or-
dementing—a-priorising-psychologism mental-devising-representation’ as it is of notional-
discontiguity/epistemic-discontiguity —<shallow-supererogation —of-mentally-

grips with a shifting but more and more profound notion of —reference-of-thought (in-phasing)
and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-
normalcy/postconvergence. The conceptual pertinence in this Arithmetic ontological-
contiguity comparison can be rearticulated as follows for greater clarity. As previously
highlighted the developmental psychology of the psychopath from childhood to adulthood,
involves a child psychopath who is dysfunctional as its subknowledging —impulse/compulsive-
dementing/postlogism in hollow-constituting—<as-disjointed-misappropriation-of-
meaningfulness-and-failing-intemporal-preservation> is relatively transparent to interlocutors
and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet
spatialising, is not yet credulous and is not yet crafty in ‘its postlogism—as-of—compulsing—
nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation’;
conditions which it increasingly attains from adolescence to adulthood with a corresponding
inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-
mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation, in an
absolving/fleeting/escaping-reflex—logic eliciting social psychopathy involving moving from
various non-veridical/hollow sets-of-postlogic-in hollow-constituting—<as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-
backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> as
absolving/fleeting/escaping-reflex—logic, to others and from different sets of interlocutors to
others. It is obvious that A’s condition/subknowledging—impulse/compulsive-dementing
disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism -slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result \( 72.5 \) for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from \( 72.5 \) to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference/ontologically-veridical/ontological-contiguity registry-worldview/dimension) is known as de-mentation\( ^{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}} \). Even though going by its illusion-of-the-
present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold\textsuperscript{102} of ‘ontological-thinking (not preconverging-or-dementing –apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> which is ontologically wrong, just as all <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness registry-worldviews/dimensions do at their uninstitutionalised-threshold\textsuperscript{102}. For instance, the recurrent-utter-uninstitutionalisation mindset/\textsuperscript{87}reference-of-thought doesn’t think of itself that way but rather as a nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing \textsuperscript{19}-narratives) or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness -of- reference-of-thought-as-an-ontologically-flawed-neuterisation -or-bracketing-or-epoché of <amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology\textsuperscript{99}-as-of-notional–deprocrypticism-reflected- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> with respect to its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{5}—preconverging/dementing\textsuperscript{19}–apriorising-psychologism, and such a representation of its mentation is the invention/mental-devising-representation of the base-institutionalisation mindset by its better ontological-completeness-of- reference-of-thought, likewise with ununiversalisation and \textsuperscript{10}universalisation, non-positivism/medievalism and positivism, and prospectively with procrypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a preconverging-or-dementing\textsuperscript{5}–apriorising-psychologism mental-devising-representation of our \textsuperscript{15}perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{15}>, with respect to the denaturing\textsuperscript{15} of the reference-of-thought–categorical-
imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity -of- reference-of-thought/candored-and-dialectically-or-contindingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as preconverging-or-dementing–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality-of-affirmative-and-unaaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing pedestals of meaningfulness. Firstly, A’s condition with respect to additionality with the idea that it is bound to fail any arithmetic calculation involving additionality. Thus the subknowledging-impulse/compulsive-dementing pedestal is of notional-discontiguity/epistemic-discontiguity-<shallow-supererogation of-mentally-

meaningfulness as extrinsic-attribution (the temporal eliciting of the temporality’s/shortness of
others is the sufficient basis for getting one’s way) as opposed to intrinsic-attribution wherein
the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its
pertinence and upholding. This subknowledging⁻impulse/compulsive-dementing disposition
points out that the actual and given meaningfulness being subknowledged/pervertedly-
represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-

operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/subknowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding—as-of-apriorising/axiomatising/referencing—intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in .5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’<shallow-supererogation-of-mentally-aestheticised—preconverging/dementing—qualia-schema>’ rather than which is ontologically veridical. This is the threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and so fundamentally its logical-contention is voided (as apriorising—registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging—or-mimicking—
impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/'intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>-with-consequential-positivistic-meaningfulness-perversion preconverging-or-dementing—apriorising-psychologism, resolved by deprocrypticism. Comparatively, for instance, articulating new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to resolve the uninstitutionalised-threshold from .5 to the ontologically-veridical, and so not only with regards to the specific but as a de-mentative/structural/paradigmatic institutionalisation/intemporalisation for perpetuating intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This pedestalled articulation points out that the organic-comprehension-thinking (organicalism/'intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) pedestal (ontological-veridicality/reference-of-thought) is
going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality\textsuperscript{41}/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’\textsuperscript{51} and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms–as-of-axiomatic-construct of country-of-the-blind temporality\textsuperscript{40}/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{99} nature. But that will still be temporality\textsuperscript{40}/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality /longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism\textsuperscript{7} and conjugated-postlogism\textsuperscript{7} across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism –as-of- compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-
shallow-supererogation like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks. Rather this then points to the nature of postlogic perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfitter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicalism/-intemporal-prioritisation-of-reference-of-thought′–as-conflatedness′′-or-ontological-reprojecting/longness-of-register-of′′′meaningfulness-and-teleology′′) pedestal, both in apriorising-registry and registry-worldview terms as it is reflected/perspectivated as de-mentation (supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation), and has nothing to do with issues of defect–of- logical-processing-or-logical-implicitation—supposedly-
apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional-deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-dementing –apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as present day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/ reference-of-thought who is in a non-positivism/medievalism society
was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging\textsuperscript{94}-impulse/compulsive-dementing) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging\textsuperscript{94}-impulse/compulsive-dementing pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or universal across all times (postlogism\textsuperscript{\textsuperscript{7}}-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}— preconverging/dementing –apriorising-psychologism pedestal which is rather an extricatory de-mentating/structuring/paradigming (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/'intemporal-prioritisation-of- reference-of-thought’–as-conflicatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-
teleology) pedestal will rather be an inclination to see that the lack of empirical and rational
reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation of the non-
positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of
things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so
with this individual but its general integration as a socially viable and entertained notion in this
locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/
maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
dementating/structuring/paradigming to be intemporally-preservational, more than the notion of
just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal

prioritisation-of/reference-of-thought’–as-conflatedness—or-ontological-
reprojecting/longness-of-register-of—meaningfulness-and-teleology) the problem is now the
insight about the intellectually and morally wrong in metaphorically-a-million-and-one-
instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the
implications across all societies of the human species qualified as non-positivism/medievalism,
with the bigger ontological implications of this specific accusation rather being how is this
enlightening de-mentatively/structurally/paradigmatically about the endemisation and
enculturation of vices-and-impediments associated with superstition in the said registry-
worldview/dimension. That is, the problem is now about the aetiologisation/ontological-
escalation that can be made to address such lack of positivistic empirical and rational notions in
all possible human societies qualified as non-positivism/medievalism. In other words, the
graver ‘de-mentation–supercerogatory–ontological–de-mentation-or-dialectical–de-

prioritisation-of reference-of-thought as the former is ‘utter’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling—in-deferential-formalisation-transference> and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturing (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding).

Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of reference-of-thought will very well do with an outcome (other than ) whether it is failing/not-upholding<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation>–of-mentally-aestheticised–preconverging/dementing—qualia-schema>) with respect to the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being about intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and so,
subknowledging pedestal for which the hollow form of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of reference-of-thought and meaningfulness is a sound existential construct. That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective preconverging-or-dementing apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, procrypticism–or–disjointedness-as-of reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as postconverging-or-dialectical-thinking apriorising-psychologism<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> of base-institutionalisation, universalisation, positivism and prospectively deprocryptic. In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising–

This involves maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as enabled by de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness-of-reference-of-thought and relative-ontological-completeness-of-reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on
fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing–apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncrretising/mirage) herein construed as the prospective protensive-consciousness<deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or- attributive-dialectics) effectively will seem to place human (recomposuring)-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-
Actual, registry-worldviews/dimensions are rather prospectively wooden-language-(imbued—temporal—mere-form/virtualities/dereification\textsuperscript{\textsuperscript{\textsuperscript{formative}}}/akrasiatic-drag/denatured/preconverging-or-dementing—\textsuperscript{\textsuperscript{\textsuperscript{amplituding/formative}}}—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving de-mentating/structurizing/paradigmimg), and with specific evolving percolation-channelling<in-deferential-formalisation-transference> for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Fundamentally, without the possibility of de-mentality-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation<supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics>, no registry-worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology is possible. This is because de-mentation<supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics> as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dents the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging—or-dialectical-thinking—apriorising—
psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought but preconverging-or-dementing—apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing—apriorising-psychologism/dialectically-preconverging-or-dementing—apriorising-psychologism in a de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) wherein its mental-devising-representation is preconverging-or-dementing—apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference)’ over the former which is ‘no longer reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-ontological-good-faith/authenticity-of-reference-of-thought today but rather ontologically-preconverging-or-dementing—apriorising-psychologism’. This
dialectical conceptualisation equally applies regarding procrysticism and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrysticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intradimensional—reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ (i.e. de-mentation—ontological—de-mentation—or—dialectical—de-mentation—stranding-or-attributive-dialectics), perversion-of—reference-of—thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow—supererogation>, registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect>, unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of—thought, mental-perversion, subknowledging, mimicking; and-their-corresponding—<amplituding/formative—epistemicity>totalising—self-referencing-syncretising) indicates that de-mentation—ontological—de-mentation—or—dialectical—de-mentation—stranding-or-attributive-dialectics) is ultimately the ‘ideal reference term’ for the simple reason that unlike the other terms it ‘beats’ the ‘intuition for intradimensional/non-transcendental/non-transdimensional reasoning’ and succeeds to convey, overcoming the counter-intuition, the requisite transdimensional/transcendental reasoning that achieves ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging—normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present—
consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, subknowledging—impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect-<as-Being-or-ontological-or-existential–defect> brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that carries the intuition of an uninstitutionalised-threshold, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential–defect> term thereafter, we grasp that it is the ‘<amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of- reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing–apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> (and not about defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation ) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology –for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Specifically, de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such implies
registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect–as-Being-or-ontological-or-existential–defect> /not-just-a-logical-processing-or-an-implicitation-of-act-execution-or-a-implicitation-of-notion-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness-induced,—threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own dimension procrypticism’s (the—preconverging-or-dementing—apriorising-psychologism of positivistic-meaningfulness) de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) (with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) provides the better overarching conceptualisation from an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference). Furthermore, by its de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) is the only notional term that operantly and deterministically projects the requisite psychoanalytic-unshackling/memetic-reordering/recomposuring/new-mentation with regards to the implied veridical existentialism/full-depth-of-existential-implications taking into
perverting/undermining ontological-normalcy/postconvergence, thus highlighting the follow
dichotomies that are always associated with ontological-normalcy/postconvergence dialectics
(underlied by teleological-inflections-(as-to-more-profound-nondisjoining–

intemporality/longness whether by temporal circumventing or distraction of institutionalisation/intemporalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. Central to intemporal-preservation-entropy-or-contiguity—or-ontological-preservation is an ontological-normalcy/postconvergence that doesn’t recognise any uninstitutionalised-threshold to the projected wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) considered circumventive/distraction-temporal-prioritisation-of-reference-of-thought over inherent ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting of intemporal-preservation-entropy—or—contiguity—or—ontological-preservation; at which point of uninstitutionalised-threshold, de-mentation—(supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or—attributive-dialectics) is implied (in organic-comprehension-thinking over mechanical comprehension or as a de-mentation—(supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or—attributive-dialectics)) for a renewed/prospective mentation for intemporal-preservation-entropy—or—ontological-preservation in ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or—ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distraction-temporal-prioritisation-of-reference-of-thought. That is de-mentation—(supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding—or—attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the
articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory-de-

institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-

fact that the de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-

superseded/transcended registry-worldviews/dimensions mindsets due to their
<amplituding/formative–epistemicity>totalising–self-referring-syncretising/illusion-of-the-

analysis of our contiguous human mental-devising-representation/consciousness-awareness-

earth, the effective linkage as new-mentations between those successive recomposuring

mentation—stranding-or-attributive-dialectics) in de-mentation-(supererogatory-ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather
postdates as well our own registry-worldview/dimension de-mentation-
(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-
thought–categorical-imperatives/axioms/registry-teleology-, for-intemporal-preservation-
entropy-or-contiguity—or—ontological-preservation (procrypticism) and implying a prospective need for deprocrypticism. Postdication, when alluding to an 1-de-mentation-
(supercrrogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-
attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing 19—apriorising-psychologism social of personhoods-and-
socialhood-formation in existentialism/full-depth-of-existential-implications of notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-
perspective—ontological-normalcy/postconvergence>, from a prospective registry-
worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-
dementing —apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity’-of-
reference-of-thought’ while the prospective/transcending/superseding registry-
worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking—apriorising-psychologism/soundness-or-ontological-
good-faith/authenticity—of—reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of—reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal)
cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\(^1\)-reference) can only be the pedestal of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising-registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing\(^1\)-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation dialectically implying an de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (in our present case, notional-deprocrypticism of procrypticism–or–disjointedness-as-of-reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the de-
mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance<including-virtue-as-ontology> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately universalising and detached meaningfulness by percolation-channelling-in-deferential-formalisation-transference’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendancy of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from procrypticism to notional–deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging / perversion-of-reference-of-thought-as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(\rangle\) may be to think, given our own illusion-of-the-present/present-consciousness as amplituding/formative–epistemicity/totalising–self-referencing- syncretising/circularity/interiorising/akrasiatic-drag \(^\rangle\), that such an analysis applies only to prior institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological- eventfulness \(^\rangle\)/ontological-aesthetic-tracing-<perspective–ontological- normalcy/postconvergence-reflected–‘epistemicity-relativism’\>). But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods- and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meet with some resistance or the other and thus a reason for transversality–of-affirmative-and- unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^\rangle\) reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social- and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but
rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-sociably-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigmising are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigmising that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling-in-deferential-formalisation-transference> wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality/longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting-conviction-as-to-profound-suplerogation—postconverging/dialectical-
thinking—apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceding/superseding, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) is the reason for human registry-worldview/dimension perversity-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect at uninstitutionalised-threshold; implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond the defective ‘intradimensional-subknowledging-normalcy or reflex-normalcy’ which is rather an totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrypticism—or—disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as deprocrypticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> defect as de-mentation(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as against the defective reflex-normalcy/intradimensional subknowledging-normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> is more than just the instigating effect of the subknowledging-impulse/compulsive-dementing (psychopathic postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) but harkens back to the notion of the intraregistry-worldview/dimension limited-mentation-capacity-deepening/uninstitutionalised-threshold in the very first place. As this is the dementating/structuring/paradigming disposition for the possibility of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> requiring ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation. For instance, such 'perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation' as witchcraft in the non-positivism/middleageism registry-worldview/dimension is fundamentally implying de-mentatively/structurally/paradigmatically a need for the right human mentation-capacity as the prospective transcendence-and-sublimity/sublimation/supererogatory-de-boonativity of a positivistic registry-worldview/dimension, and likewise de-mentatively/structurally/paradigmatically regarding procrasticism— or—disjointedness-as-of-reference-of-thought with notional—deprocrasticism (as the-Good/understanding/knowledge-reification /ontological-prime-movers-totalitative-framework and not good-natured/vague-impress construct). Ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, beyond defective intradimensional-subknowledging—normalcy/reflex-normalcy, points to factoring in notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. Knowledge-notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposing/animality-thresholds-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (intradimensional-subknowledging—normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy/postconvergence). It should
be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure-\{as-to-\}historiality/ontological-eventfulness/ontological-aesthetic-tracing-\langle\text{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}\rangle is about bringing the prior registry-worldview/dimension perversion-of reference-of-thought-\{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\} to its placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening\(\frac{1}{2}\)-threshold (uninstitutionalised-threshold\(\frac{1}{2}\)). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism\(^{75}\). For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism\(^{75}\). Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing –apriorising-psychologism-\langle\text{stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase}\rangle, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recomposure-\{as-to-\}historiality/ontological-eventfulness/ontological-aesthetic-tracing-\langle\text{perspective–ontological-}

normalcy/postconvergence-reflecteard-‘epistemicity-relativism’)> of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling-<in-deferential-formalisation-transference> as setup from positive-opportunism\textsuperscript{73} for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling-<in-deferential-formalisation-transference> (undermining <amplituding/formative>\textsuperscript{8} wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{99}—as-of–nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}) or banality-of-thought to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recomposure-{as-to—historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflecteard-‘epistemicity-relativism’>}, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology); all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of—meaningfulness-and-teleology) over temporal-dispositions (shortness-of-register-of—meaningfulness-and-teleology) as percolation-channelling-<in-deferential-formalisation-transference> not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/dem-entativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework to construe knowledge and virtue conceptualisations as this is what proxies/syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their <amplituding-formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag but are often defective by lack of universality, not ontologically-driven in terms-as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of-meaningfulness-and-teleology. In this light, the articulation of the ontological-veridicality/reference-of-thought of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint-imbued-'notional-firstnaturedness-temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence-existentialism-form-factor-pedestals-disambiguation of our mental-devising-representation in explication of our ‘mentation capacity limitations’ accounting for our perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that ‘structurally-explain’ the vices-and-impediments peculiar to our own registry-worldview/dimension (procrypticism–or–disjointedness-as-of-reference-of-thought) or perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of positivistic meaningfulness, beyond our illusion-of-the-
present/present-consciousness (just as non-positivism/medievalism ‘structurally-explains’ the peculiar vices-and-impediments and de-mentative/structural/paradigmatic inhibitions to human emancipation requiring prospective positivism with its corresponding de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)). The idea is not to assume an idling-temporal-disposition of stigmatising intradimensionally but rather an intemporal/ontological disposition (longness-of-register-of—meaningfulness-and-teleology), that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the requisite ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism (wherein procrypticism is preconverging-or-dementing–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it subknowledges-or-mimics/perverts-the-registry-of positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). The idea of limited-mentation-capacity-deepening (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) fundamentally implies that reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are limited at the uninstitutionalised-threshold of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-
normalcy/postconvergence and thus need to be cumulated-upon (or rather more precisely be recomposured institutionally), wherein new \[ \text{reference-of-thought} \text{-categorical-imperatives/axioms/registry-teleology -for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation} \] allow for the furtherance of intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated
the result (the ontological-veridicality) failing/not-upholding-as-of-apriorising/axiomatising/referencing> ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and subknowledging-impulse/compulsive-dementing whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as notional–firstnaturedness—temporal-to-intemporal-dispositions-as-so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuations predictable and
That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion of reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism > are analagical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging–impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging–impulse/compulsive-dementing of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging\(^{-}\)-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging\(^{-}\)-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought--categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional–deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation and subknowledging\(^{-}\)-impulse/compulsive-dementing with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold, for a suprastructural resolution to human perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation disposition, enabling the ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the
collective-consciousness towards knowledge-notionalisation; as the recognition of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor-pedestals-disambiguation then allows for acknowledging, accounting for and the structural-superseding of our vices-and-impediments, thus enabling ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving the \(\text{de-mentation}^{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}\) preconverging-or-dementing–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of temporal-dispositions perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, as \(\text{de-mentation}^{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}\) is the effective psychological tool for ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The implications for the science of psychology can thus be drawn out. The articulated notion of \(\text{de-mentation}^{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}\) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this \(\text{de-mentation}^{\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}}\) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a
superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. De-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) terms of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought (de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/ reference-of-thought of transdimensional-meaningfulness–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/present-consciousness/mirage
referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) over reflex-normalcy or intradimensional-subknowledging

Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity -reification/superseding-oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation for an appropriate de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) exercise wherein the reference-of-thought (‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness —or-ontological-reprojecting) is always a moving target (due to the institutionalisation/intemporalisation process) in need for prospective dialectical reconstitution (deconstruction), which then puts a science of psychology in phase with the dialectical development of ontological-depth/profoundness-of-reference in superseding relative-ontological-incompleteness-induced, ‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism’, as-it-is-thus—‘in-wait’-for—perversion-of—reference-of-thought—<as-effectively-apriorising-in—

relatively in circumventive/distractive-temporal-prioritisation-of- reference-of-thought and
fails to factor in human limited-mentation-capacity-deepening and the consequent

intradimensionally set in stone and across all moments whereas an ontologically-driven
psychology acknowledges and recomposes to the dialectical evolution of 2 reference-of-

This ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness-suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) of reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the conventioning—superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking—apriorising-psychologism—<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning—superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of present day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-
representation’ (in reflecting preconverging-or-dementing –apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an ‘de-mentionation’ (supererogatory –ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective reference-of-thought. A dialectical ontological-reconstituting–as-to-conflatedness /deconstruction of ‘reference-of-thought (recognising human limited-mentation-capacity-deepening and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure–as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’)> as articulated above is not only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of present day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as fundamentally the ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently
superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy de-mentating/structuring/paradigming with respect to positivistic chemistry de-mentating/structuring/paradigming, a flat-world de-mentating/structuring/paradigming with respect to a round world de-mentating/structuring/paradigming, a creationism de-mentating/structuring/paradigming with respect to an evolution de-mentating/structuring/paradigming, a universal humanity de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal de-mentating/structuring/paradigming, a science de-mentating/structuring/paradigming with respect to a superstition de-mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in de-mentating/structuring/paradigming, prospectively. This brings forward fundamentally the limited-mentation-capacity-deepening/uninstitutionalised-threshold construct of our times (procrysticism) and the de-mentative/structural/paradigmatic implications specifically for such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as highlighted) over a relatively mented-psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-devising-representation processing exercise’; rather it is an intrinsic ontological-normalcy/postconvergence notion that doesn’t respond to human mental-devising-representation processing. The role of de-mentation-(supererogatory–ontological–de-
mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as a mental-
devising-representation mechanism that syncs with evolving ontological insight (insight about
intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the
dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the
capability as its mental-devising-representation of a registry-worldview/dimension
(uninstitutionalised-threshold\textsuperscript{102}), which otherwise any \textlt{amplituding/formative–

registry-worldview will overlook as it is a \textlt{amplituding/formative> wooden-language-

very own \textlt{reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-

thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central
to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be
overcome/superseded. Supposed B was to stick to resolving the BODMAS equation
overlooking A’s condition on the basis that the \textlt{reference-of-thought–categorical-
imperatives/axioms/registry-teleology\textsuperscript{99},-for-intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an de-mentation ⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ of the BODMAS characters at that uninstitutionalised-threshold 102. In the bigger picture, ‘knowledge-deadends—de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a de-mentative/structural/paradigmatic–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or preconverging-or-dementing –apriorising-psychologism/subknowledging / perversion-of- reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of positivistic meaningfulness) psyche as being ontologically-preconverging-or-dementing –apriorising-psychologism/dialectically-preconverging-or-dementing 19–apriorising-psychologism from futural Being-development/ontological-framework-expansion–

as of prospective notional–deprocrypticism as reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing -reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ has to do with the foundational nature of mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold; much the same way like a positivistic world opened up from the de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of a non-positivism/medievalism registry-worldview/dimension at its uninstitutionalised-threshold. To further elucidate the criticality as indicated of such a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). In other words, it overrides the mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic mentation de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-

the community, and not in a prospective positivistic de-mentating/structuring/paradigming that

popular axioms, vagueness and personal however well-meaning; with the idea of
meaningfulness that goes beyond just a conventioning \textsuperscript{\textregistered} reference-of-thought and is rather
inherently upheld by ontologically-veridical insight and pertinence. Further, such a
‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ that is ontologically-driven will go beyond an exercise of
mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given
settings-of-time, but grasp that human personality is critically involved in the \textsuperscript{\textregistered} de-mentation-
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) hermeneutically/reprojectively-educing-human– meaningfulness-and-
teleology\textsuperscript{\textregistered}–into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-
reflecting ontological-reconstituting–as-to-conflatedness \textsuperscript{\textregistered}/deconstruction as the more profound
\textsuperscript{\textregistered} reference-of-thought and analysis, and with a more fundamental
interdimensional/transdimensional/transcendental insight of the human existentialism form-
factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and confictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite de-mentative/structural/paradigmatic shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of constitutedness in lieu of conflatedness as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure-(as-to-’historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) very much explains human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-
dynamics or natural-psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening). Such a ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdictory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-recomposure-(as-to-“historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism”>) has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology’, and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought past and future, with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturesdness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-conflatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-conflatedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-
teleology\textsuperscript{-}\textsuperscript{-in-existential-extrication-as-of-existential-unthought} of prior registry-worldview mindset\textsuperscript{/} reference-of-thought (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of ‘de-mentation\textsuperscript{-}(supererogatory\textsuperscript{-}ontological\textsuperscript{-}de-mentation-or-dialectical\textsuperscript{-}de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{-}driving mechanism. Considering that deconstruction as ‘ontological-reconstituting-as-to-conflatedness\textsuperscript{-}" necessarily implies not one but two dialectically opposed registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology\textsuperscript{-}-in-existential-extrication-as-of-existential-unthought\textsuperscript{-}of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of de-mentation\textsuperscript{-}(supererogatory\textsuperscript{-}ontological\textsuperscript{-}de-mentation-or-dialectical\textsuperscript{-}de-mentation—stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking\textsuperscript{-}apriorising-psychologism’ and the preconverging-or-dementing\textsuperscript{-}apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirage\textsuperscript{-}amplituding/formative\textsuperscript{-}epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{-}as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation,\textsuperscript{6}universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-
sublimity/sublation/supererogatory—de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/’reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation and not a secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive). Suprastructuring allows for the necessary transcendent-al-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence-{implicated-epistemic-veracity-of-’nonpresencing-<perspective–ontological-normalcy/postconvergence}>’ projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirageas <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as ‘metaphysics-of-presence-{implicated–‘nondescript/ignorable–void ’-as-to–’presencing—absolutising-identitive-constitutedness }’. Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting—as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the ‘reference-of-thought and meaningfulness of the seemingly ‘reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given ’reference-of-thought and projecting the appropriate ”reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected ”reference-of-thought. This is akin to the idea of a positivistic mindset/”reference-of-thought articulating chemistry rules and principles to an alchemic mindset/ reference-of-
thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as de-mentation—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a notional—deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the ontological-deficiency with respect to ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such
thus for ‘ontological-reconstituting–as-to-conflicatedness’/deconstruction. In other words, in representing the veridically uninhibited/decomplexified nature of ‘de-mentation-
<conjugatively-and-transfusively> the ontological-contiguity\(^{16}\)—of-the-human-institutionalisation-process\(^{17}\) points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting–as-to-conflicatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides
and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)? Further isn’t it possible to make the contribution of present day psychology more complete in constructing a more thorough and dynamic understanding of mentation/psyche in relation to individual-social-humanity aspiration, where psychology evolves in a complete existentialism cadre. In other words, so placed in a becoming/existential cadre, is psychology not meant rather than just encapsulating what the human psyche/mentation is all about as if it is a set and determinate construct (strangely enough inadvertently and often mirroring schemes of social classification, and hence of social power relations) equally involve in articulating aspiratory models for human mentation/psyche? And such a de-mentating/structuring/paradigming shift with regards to present day mented/stigmatic psychology can actually be implied by prospective ontological-normalcy/postconvergence as notional–deprocrypticism (involving ‘ontologically-reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by ‘overriding failing/not-upholding-<as-of-apriorising/axiomatising/referencing> and renewing ever sound and appropriate’ “reference-of-thought–categorical-imperatives/axioms/registry-teleology ‘,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’) over the ‘conventioningly-driven/conventionalised hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> “reference-of-thought–categorical-imperatives/axioms/registry-teleology ‘,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether the latter is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Insight from ontological-normalcy/postconvergence as it matches placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-
natural–psychological-dynamics’ can perfectly represent the mentations/mental-devising-representations of all registry-worldviews/dimensions both as implied and driven by ontological-veridicality by way of ontological-reconstituting–as-to-conflatedness/deconstruction and point out their peculiar mented/stigmatic specificities in their hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation involving with all mented/stigmatic mental-devising-representations a circular preconverging-or-dementing-temporal-manifestation (subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the various institutionalisations/institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism are actually the levels at which their specific quality (whether as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism) actively and comprehensively define and characterise each of the institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-of-existent-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the
graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered attainment of positivism, and effectively by a prospective insight, proto-notional–deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were actually very thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their de-mentating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexity of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the-Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of a temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal
notions and virtues (as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) without institutionalisation design or conceptualisation! This is an unspoken recognition of the inherent reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence–existentialism-form-factor

individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation conceptualisation of the-Good (positivistic ontological-primemovers-totalitative-framework). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of–meaningfulness-and-teleology) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and
dialectically preconverging-or-dementing—apriorising-psychologism mental-devising-representation of the present procrypticism registry-worldview/dimension (which is prior) from the prospective registry-worldview/dimension (deprocrypticism) as the new reference-of-thought, which will seem unintelligible to the prior even though it is actually more real suprastructurally and in ontological-normalcy/postconvergence, just as our representation of medievalism though more ontologically-veridical will seem unintelligible/existentially-suprastructural to a medieval mindset/ reference-of-thought in its closed mental-devising-representation of intrinsic-reality. Central to the notion of deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought as the ‘veridical reference-of-thought’ articulation of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over the positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> as of its perversion of ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and so in a prospective de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontology) supersedes intradimensional-subknowledging —normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue reference because to start with all conventioning institutionalisations are de-
mentatively/structurally/paradigmatically in want of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity whether as recurrent-utter-institutionalised, ununiversalisation, non-positivism/medievalism or procrypticism in a prospective insight. Conventioning as such could only prospectively reflect ‘sound reference-of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; the holy grail of the notional–deprocrypticism institutionalisation ideal. But actually a conventioning construct in contrast to attaining such a prospect of ‘utter-purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-value-reference-denominator for that conventioning construct, and the latter is thus the ‘effective meaningfulness-or-value-reference’ of the said conventioning construct notwithstanding any grander ontological meaningfulness-or-value-reference striving for utter-purism-of-ontology. The implication here is effectively that grander ontological and philosophical meaningfulness-or-value-references are no more pertinent in a conventioning construct than its least acceptable meaningfulness-or-value-reference-denominator but for discrecional or prestige basis of discrecional and disparate recognition, out of discretionary formalisation in inducing the secondnaturing and internalisation for that recognition. This insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-references of intellectual grounding (purism-of-ontology), it is important to grasp that the social integration of meaningfulness-and-value-references in a conventioning construct is effectively a least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it is by an effective utilisation of the institutionalisation percolation-chanelling-in-deferential-formalisation-transference mechanism that such ‘purism-of-ontology’, by it’s the-Good, can stand out in bringing to bear its human and social emancipation potential. In the same token, thus it is equally important to grasp that primacy of meaningfulness-or-value-reference
orientations in conventioning constructs do not necessarily has to do with a primacy of ontological-veridicality pertinence especially where it is not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity but by social-aggregation-enabling, notwithstanding that such a conventioning construct may be seen as the social reference of grander meaningfulness-and-value-references in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-value-reference play-out notion and not an-utter-purism-of-ontology-reference notion. Thus the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of meaningfulness in our positivistic registry-worldview/dimension should prospectively be subject to de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with corresponding de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) even though it won’t be intelligible from our vantage superseded/transcended registry-worldview/dimension point just as with all transcended/superseded registry-worldviews/dimensions. The narrative/storying technique for a comprehensive postconverging-or-dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectical representation involves articulating a comprehensive organic-comprehension-thinking narrative in ‘intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting by which varied induced threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism narratives in circumventing/distractive-temporal-prioritisation-of- reference-of-thought naively arise, and over which an organic-comprehension-thinking analysis dents the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

By the way this operant conceptualisation is relevant with phenomena of persion-of-reference-of-thought—<as-effectively-apriorising-in—

supererogation in any registry-worldview/dimension is well beyond the notion of resolving just an underlying causative subknowledging -impulse/compulsive-dementing (condition from say a physiological cause), like psychopathy in the positivistic registry-worldview/dimension or a sorcerer accuser in a medieval registry-worldview/dimension. That may explain the initiation of a loss of intemporal social universal-transparency (transparency-of-totalising-entailing, as-to-entailing <amplituding/formative–epistemicity> totalising~in-relative-ontological-completeness ) arising from postlogism in hollow-constituting as-disjoined-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance which is then at the base of a registry-worldview’s/dimension’s uninstitutionalised-threshold (which is overall the de-mentative/structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a ‘deferential-formalisation-transference’/skewed (’intemporality -asymmetric-subsumption-of-temporality ‟, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity) institutionalisation setup, whether at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional~disjointedness, as it is up to us to proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-way (as reference-of-thought–categorical-imperatives/axioms/registry-teleology) to naively imply that reality will and should comply, as failing/not-upholding as-of-apriorising/axiomatising/referencing reference-of-thought–categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-
ends and the need for de-mentating/structuring/paradigming shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the (recomposured)-consciousness-awareness-teleology or mental-devising-representation of a registry-worldview/dimension reference-of-thought-categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporality /longness as ontology’. preconverging/dementing –apriorising-psychologism distraction. In fact, the technique for
preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism involves mentally interceding/intermediating the reflected/perspectivated insight of a postlogic interlocutor’s hollow-narratives or derived-hollow-narratives with emptiness to reflect/perspectivate its unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{22}–of–reference-of-thought as a manifestation of registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{10}–defect–<as-Being-or-ontological-or-existential–defect>\textsuperscript{25} given the narrative notional-discontiguity/epistemic-discontiguity –<shallow-suprererogation –of-mentally-aestheticised–preconverging/dementing –qualia-schema>. It is critical to note that this EMPTINESS of mental-devising-representation of perversion-of- reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprererogation\textsuperscript{8}> as the uninstitutionalised-threshold\textsuperscript{12} of ( de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)) \textsuperscript{14} de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) mentally-representing prior transcended/superseded registry-worldviews/dimensions as oblongated/decandored-and-dialectically/contendingly-out-of-phasing-or-dialectical-primitivity with respect to prospective transcending/superseding registry-worldviews/dimensions mentally-represented as mentally-straight/candored-and-dialectically-or-contendingly-in-phase; is the underlying process that permits the ‘transcendental shifting of ’reference-of-thought (enabling ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) to the apriorising–registry of the prospective/transcending/superseding registry-worldview/dimension while the transcended/superseded registry-worldview/dimension is no longer a dialectically-in-phase \textsuperscript{5}reference-of-thought but of dialectically-out-of-phase \textsuperscript{7}meaningfulness-and-teleology\textsuperscript{9} perversion-of– reference-of-thought–<as-effectively-apriorising-in-

This process basically explains ontologically why and how humans from the very beginning to today are the same as it fundamentally grasps the dynamism of institutional-cumulation/institutional-recomposure–{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>/memetic-reordering/psychoanalytic-reorientation that elucidates our human contiguous anthropological-continuity or anthropopsychology. Further, in the practical elucidation of social issues having to do with an issue of ‘perversion-of- reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > like psychopathy- and-social-psychopathy, it points out that the critical point is to understand what meaningful apriorising–registry is the ‘veridical reference-of-thought’ as reflected/perspectivated by soundness-or-ontological-good-faith/authenticity/of- reference-of-thought/candoring-and-dialectically-or-contendingly-in-phase and what is rather non-ontological-and-non-contending-referencing–<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of- preconverging-or-dementing–apriorising-psychologism> and hence preconverging-or-dementing–apriorising-psychologism as reflected/perspectivated by mental-slantedness/decandoring-and-dialectically-or-contendingly-out-of-phase; and so in an underlying conceptual framework of ontology as an ideal that pulls the social towards the intemporal and the real nature of the social rather as a ‘conventioning construct’ that while susceptible to ontological/intemporal influence is equally the milieu of temporal drawbacks that need to be critically undermined including with ‘knowledge-notionalisation’ involving not only the study of the ideal but ‘understanding how temporal-dispositions arise and work’ to better skew/deferential-formalisation-transference for intemporality/ontology as institutionalisation/intemporalisation together with differentiating between good-naturedness

Noting as well that teleologically, the transcending/superseding and the transcended/superseded are in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{10}. That is, the two ‘reason pass

It is the cause-and-effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-incoherence/institutional-constraining and social\textsuperscript{103}universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) imposes crossgenerationally the dominant as transcending/superseding meaningfulness over the dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries is suprastructural and ontological-normalcy/postconvergence and doesn’t adjust to the mortals, that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying ‘reference-of-thought to intrinsic-reality, to start with. Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s\textsuperscript{2}, but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ in upholding a mental-devising-representation of temporal-dispositions as preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> is rather a comprehensive intemporality–preserving ontological-entrapment of the ‘notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ (i.e. absolving/fleeting/escaping-reflex–logic–by-psychopathic-in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in

The bigger point is that fundamentally it is impossible to conjugate/inflect/protract intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity) as then one is just in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence-and-sublimity/sublimation/supererogatory–dementativity or is non-transcendable (hence unde-mentable/still-of-postconverging-or-dialectical-thinking–apriorising-psychologism) when in fact it is preconverging-or-dementing–apriorising-psychologism/subknowledging/registry-perverting-in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This latter idea is actually the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex of all prior/transcended/superseded registry-worldviews/dimensions with respect to the suggestion of prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate

<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>)
process to be rather not true with prior transcendence-and-sublimity/sublimation/supererogatory–de-mentativity though we’ll in turn obviously act by reflex in

meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of-reference-of-thought in shortness-of-register-of—meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence. ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness—or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness—or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (‘perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’) in wrongly implying that a notional–deprocrypticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense
them from ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infailibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications}> perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy/postconvergence in contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework reference of ontological-contiguity but for naively and wrongly implying good-natured
qualities as being ontological (rather than the-Good/understanding/knowledge-reification^/ontological-primemovers-totalitative-framework^ conceptualisation validated by ontological-contiguity^ or a ratio-conguity notion), and since the ontological-contiguity—of-the-human-institutionalisation-process shows that ‘good-naturedness’, without the-Good/understanding/knowledge-reification^/ontological-primemovers-totalitative-framework^ as of ontological-contiguity^, fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophets (working rather more assertively on supernatural de-mentating/structuring/paradigming) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/ontological-primemovers-totalitative-framework^/ontological-contiguity^ they actually aspired for ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting, that is, they were prioritising and focussing on that which establishes universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-(as-of-relatively-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness^/reference-of-thought^ devolving-as-of-instantiativate-context) the golden mean into ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively notional–deprocrypticism which are of transcendental nature as ‘shaping the human psyche’ and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather
non-transcendental and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms—as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting will be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally (as to the fact that it is on this basis that human institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism) has been self-perpetuating in explicating the ontological-contiguity—of-the-human-institutionalisation-process). Briefly, such an anthropopsychological/the-anthropological-continuity conceptualisation as articulated above further enables the insightful conceptualisation of ‘ontological-primemovers-totalitative-framework’ retracing (for notional—firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> disambiguation articulation) analysis’ as expanded upon below, in the ‘ephemerality that is the social-construct’, on the basis of an ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation understanding of the social-construct. This is central in articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of procrypticism): - Institutionalised/uninstitutionalised thresholdings of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation - de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics),—in-a-contiguity-of-increasing-ontological-normalcy/postconvergence in dialecticism of contrastive <amplituding/formative—epistemicity>totalising—self-referencing-syncretising-wrongfully-as-straight/candored and stranding-rightfully-as-rightfully-oblongated/decandored. - ontological-normalcy/postconvergence (as ontological-

Further, such utter organicalism (organic-comprehension-thinking) in implying registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogation—de-mentativity takes stock of human perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in full dispositional capacity (as such manifestation in dispositional perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> fullness in particular highlights a highly compromised and teleologically-degraded social-construct validating such utter organicalism even if it seem counterintuitive to the transcended registry-worldview’s/dimension’s illusion-of-the-present perception. * So it is important to understand with regards to psychopathy and social psychopathy that the level of profoundness of its manifestation and consequences is directly related to the level of the associated perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> compromised and degradation of the social construct!) - the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> disambiguation (straightness-toslantedness/candored-to-decandored) human ontological-primemovers-totalitative-framework disposition which is ontological correct as contrasted to an ontologically wrong impression-driven/good-naturedness/wishfulness conceptualisation which wrongly references as human ontological-primemovers-totalitative-framework just an intemporal-disposition universally among all humans (straightness/candored only), at uninstitutionalised-threshold; while the

imperatives/axioms/registry-teleology\textsuperscript{-}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness at the procrypticism registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{102}. Of course, this is more like a ‘notional template’ in a ‘dynamics of benign implications to grave existentialism/full-existential-depth-implications’ articulated over a functional social-construct which however ‘endemises psychopathy and social psychopathy rather at the uninstitutionalised-threshold\textsuperscript{102} of the positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{-}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perversion-of- reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > known as procrypticism preconverging-or-dementing–apriorising-psychologism, requiring futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{95} as of prospective notional–deprocrypticism institutionalisation/intemporalisation (for the furtherance of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-contiguity\textsuperscript{-}/ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality–(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology\textsuperscript{95}), and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-primemovers-totalitative-framework\textsuperscript{2} demonstrate that such formal constructs are
the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as metaphysics-of-presence–(implicated–'nondescript/ignorable–void–as-to– presencing—absolutising-identitive-constitutedness ), of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-
veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity\(^\text{6}\). One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ perspectives of individuals existentialism/full-depth-of-existential-implications of shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendent ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology \(<\text{in-existential-extrication-as-of-existential-unthought}>\) of the <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a mindset/reference-of-thought as a secondnaturedness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring
induced from intemporal-disposition individuation disposition, and correspondingly differentiate between being so-institutionalised with a secondnaturised and internalisation mindset/reference-of-thought and the intemporal–individuation disposition that will equally be responsible out of mere intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existentia-rality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure-{as-to-} historiality/ontological-eventfulness/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism’⟩, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials. This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and creative application of the de-mentation-⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ as to ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates postconverging-or-dialectical-thinking/apriorising-psychologism-
and preconverging-or-dementing apriorising-psychologism of mental-devising-representation by which human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social-stake-contention-or-confliction behind the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring history but a ‘consciously directed’ abstract understanding, more like deprocriptism-over-procriptism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendence-and-sublimity/sublimation/supererogatory-de-mentativity like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation-channelling.<in-deferential-formalisation-transference>. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation. It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions, and so as to nonpresencing.<perspective–ontological-
normalcy/postconvergence> epistemicity. (By ontological meaning is implied intemporal/veridical/purism/operant-construct/predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment) meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical/compromised/non-operant-and-vagueas/amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaning or metaphysical/speculative/banality/social-discomfiture/temporal-human-centered meaning). Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method herein qualified as ‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of ‘point-referencing’ notions
and concepts in a contiguously dynamic, evolving and ontological-reconstituting—as-to-conflatedness*/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation (herein underlied by conceptivity/epistemic-reflexivity as to human limited-mentation-capacity-deepening®).

This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on ‘the organic dynamics of understanding’ wherein a child for instance doesn’t necessarily grasp outright the fullness of concepts-of-meanings but rather the ‘relevant dynamic contextualisation of meanings’ ensuring a strongly operant and ‘wealthy’ relationship with meaning in the social context. ‘Intemporal-preservation-entropy-or-contiguity—or—ontological-preservation re-institutionalisation’ with respect to uninstitutionalised-threshold® of registry-worldviews/dimensions, can be construed as follows: Supposed all humanity across space and time that ever existed was just ‘one human temporal-to-intemporal individuation’, the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation—ununiversalisation to ununiversalisation—non-positivism/medievalism to positivism—pro-crypticism, and prospectively to depro-crypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp notional—depro-crypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation—ununiversalisation to ununiversalisation—non-positivism/medievalism to positivism—pro-crypticism as convergent concepts towards notional—depro-crypticism (as ‘longness-of-register-of—meaningfulness-and-teleology® over shortness-of-register-of—meaningfulness-and-teleology® in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process®, as induced by maximal-as-intemporal-operating-modality-of—reference-of-thought-as-of-
‘maximalising-recomposuring-for-relative-ontological-completeness’ — unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with notional–deprocrypticism thus implying a ‘full-cycle ontological-contiguity’ — of-the-human-institutionalisation-process undermining of subknowledging /mimicking/emanant-uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-deepening to handle the requisite transcendence-and-sublimity/sublimation/supererogatory/de-mentativity even if from the very start the human doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on the successive challenges of base-institutionalising, then universalising, then positivising, and finally with notional–deprocrypticism absolute ontological-contiguity by undermining ‘disjointedness-as-of-’reference-of-thought’-as-misappropriated–meaningfulness-and-teleology –in-arrogation’ (longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology). It should be noted that the issue of procrypticism had always been present at all times of human existence but the natural priority going by human shallow limited-mentation-capacity—(as of relative constitutedness  ) to deeper limited-mentation-capacity—(as of relative conflation  ) was first to have a base-institutionalisation institutionalisation, universalisation institutionalisation, positivism institutionalisation before prospectively notional–deprocrypticism institutionalisation; more precisely, previous psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring are indirectly (skewing towards) addressing base-institutionalisation, universalisation, positivism and deprocrypticism, up to the point of the respective
institutionalisation/intemporalisation-recomposure where the reference-of-thought-as-the-registry-worldview is directly addressed. This thus explains ontological-normalcy/postconvergence across human mental-devising-representation as changes to accommodate intrinsic reality by psychoanalytic-unshackling/memetic-reordering/institutional-recomposurings of successive illusions-of-the-present/present-consciousnesses/epistemic-totalising~self-referencing-syncretising/mirage at these successive institutionalisation/intemporalisation levels including the positivism–procripticism institutionalisation/intemporalisation, towards intrinsic-reality/ontological-veridicality; that has and will never change, and by way of the-Good/understanding/knowledge-reification/ontological-primer-movers-totalitative-framework inducing of social universal-transparency~(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) and internal logical coherence/contradiction this then validates the need for human psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In the bigger scheme of things, it points to the fact that ontologically for the full potential of human science, this should be ‘rising from this fundamental philosophical depth/profoundness of thought’ to then transversally address the issues it raises while projecting prospectively. A further insight can be grasped regarding the relationship between psychopathy, anthropopsychology/the-anthropological-continuity, veridicality (intrinsic reality/ontological representation), non-veridical reality (illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as metaphysics-of-presence~(implicated~'nondescript/ignorable–void~'as-to~presencing—absolutising-identitive-constitutedness)), human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, and registry-worldviews/dimensions (of institutionalisation/intemporalisation, universalisation, positivism, and prospectively deprocripticism). Psychopathy points to the psychopath’s
imperatives/axioms/registry-teleology that end up endemising/enculturating such superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ of the medieval mindset/reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the notional–deprocrypticism registry-worldviews/dimensions).

In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism or prelogism minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to reference-of-thought<of-apriorising/axiomatising/referencing>’ is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms–as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool’ whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-primemovers-totalitative-framework). For instance, while the traditional reflex of the human mental-devising-
representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its ontological-primemovers-totalitative-framework, thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-utter-uninstitutionalised earlymen to our current positivism–procrypticism registry-worldview, with the insight that our mental-devising-representation will evolve when prospective abstract reality ontological-primemovers-totalitative-framework shows that it is defective/perverted as procrypticism–or–disjointedness-as-of-reference-of-thought, from a deprocryptic mental-devising-representation. In the same vain, why we perceive the recurrent-utter-uninstitutionalised mind as that of ‘a savage’, the recurrent-utter-uninstitutionalised in its ‘⟨amplituding/formative–epistemicity⟩totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence-{implicated–nondescript/ignorable–void’-as-to-presencing—absolutising-identitive-constitutedness } perceives its mind as straight/candored and as of organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology ) and soundness-or-ontological-good-faith/authenticity–of-reference-of-thought. It is the prospective base-institutionalised mind that ‘invents’ the representation of mental-slantedness/decandored-and-dialectically-or-contendingly-out-of-phase/dialectically-primitive) of the recurrent-utter-uninstitutionalised mind; and likewise with the ununiversalised mind and universalised mind, non-positivism/medievalism mind and positivistic mind, and prospectively, procrypticism mind and notional–deprocrypticism mind. This variance of straightness/candored as organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-
mentative/structural/paradigmatic preemption of a defective/perverted registry-worldview, in this case procrypticism–or–disjointedness-as-of-reference-of-thought. Such an emanant insight can be garnered from the fact that, positivism was established by the ‘diktat’/ordered-construct of the Descartes, Comtes, Galileos, Rousseaux, Newtons, Darwins... of the world, and the rest of humanity complied to the formalisms that ensue, by virtue of their proxying-to-intrinsic-reality and the positive-opportunism that led to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (towards human formalisation and internalisation)! As registry-worldview/dimension defects or denaturing are responsible for the vices-and-impediments of the said registry-worldview/dimension; noting that the fundamental construction is a ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation’ making reference to ontological-primemovers-totalitative-framework and not a vague ‘impression/good-naturedness/wishfulness conceptualisation’ making reference to the banal wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) as may illusionary be projected intradimensionally/intra-registry-worldview (the latter being represented as oblongated non-veridical narratives by the prospective intemporal-disposition-worldview)! The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’. For instance, no non-positivism/medieval mindset is ‘good-natured/vague by the registry-worldview/dimension impression’ enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address ‘the-Good/understanding’ of a positivistic mindset which will resolve or structurally-rendered-inoperant the problems of superstition and witchcraft as the former will always make reference to the defective/perverted reference-of-
thought–categorical-imperatives/axioms/registry-teleology of non-positivism/medievalism no matter how ‘good-natured/impression-driven’ it is. The same applies with procrypticism and deprocrypticism. No procrypticism (preconverging-or-dementing–apriorising-psychologism) mindset as of impression-driven/good-naturedness/wishfulness has the requisite ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ construct’ insight to resolve/structurally-rendered-inoperant the issues of the vices-and-impediments of procrypticism as it is the deprocryptic mindset of ‘the-Good/understanding/knowledge construct’ that is the virtue that carries the sound registry-worldview/axiomatic construct/categorical-imperatives to be able to do this. - the-Good is an intemporal/ontological articulation referencing intemporality/longness in a contiguous emanance of ‘transcendental/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ and corresponding derived reference-of-thought–categorical-imperatives/axioms/registry-teleology; and is imbued with the ‘memetic reordering contiguity’ of institutional-cumulation/institutional-recomposure–as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism) (base-institutionalisation-to-universalisation-to-positivism-to-deprocrypticism, and thereafter). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework is notionally more of ‘a capacity and scientific construct’ (high or low mentation-capacity) rather than a ‘stigmatising construct’ (positive or negative impressions). - ‘Good-naturedness’ is a temporal articulation that wrongly references (distractively) for temporality­-sake registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology priorly-and-over ‘transcending/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’; and is imbued with the memetic notional-discontiguity/epistemic-discontiguity–shallow-supererogation–

Good-naturedness is notionally more of a 'stigmatising construct' (positive or negative stigmatising) rather than 'a capacity and scientific construct' (high or low mentation-capacity). - Virtue (retrospectively to prospectively) is not determined by 'good-naturedness'/impression-driven construal/conceptualisation of meaning but rather by the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation of meaning as validated by ontological-primemovers-totalitative-framework (the emanant/becoming ontological-normalcy/postconvergence determinant of veridicality/the-quality-of-being-emanantly-real). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) as per veridicality demonstrated by ontological-primemovers-totalitative-framework is the complete and sufficient elaborative framework for conceptualising virtue! Such ontological-primemovers-totalitative-framework is rather tangentially the purview of increasing realism of the institutional-cumulation/institutional-recompose-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as it is contiguous with 'human transcending across shifting virtue de-mentating/structuring/paradigming for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring); going from recurrent-utter-uninstitutionalisation (impulsive-or-accidented-or-haphazard-or-random mental-disposition), base-institutionalisation (mythologies de-mentating/structuring/paradigming, which is of <amplituding-formative–...

universalisation and ununiversalisation, positivism and non-positivism/medievalism, and prospectively, notional–deprocrypticism and procrypticism–or–disjointedness-as-of-reference-of-thought. In the present world, we no longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners. Basically, human ‘supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism deductive reasoning’ as prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and hence virtue; that is, so long as it is adhered to properly. However, this is not the case on two grounds. It is critical to distinguish a defect in improper processing/operating of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism which is rather construed as a singular/ad-hoc ‘implicitation-of-act-execution defect’ and can be then qualified as a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’; it being nonetheless a supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism as it holds the teleological aim of ‘intemporal preservation with a principled adherence to supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ even though it delivered an inappropriate/poor-or-bad ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’. On the other hand, a
defect of postlogism /psychopathy ¹compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation in hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates on the ‘parasitising/co-opting’ basis that intemporal-preservation-entropy-or-contiguity–or-ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology ²are mere formulaic determinants of human thought and action and is the basis for "perversion-of reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation". Such a defect is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential–defect>³ as it rather holds the teleological aim of ‘temporal preservation/undermining-of-intemporal-preservation without a principled adherence to prelogism²—as-of-conviction,-as-to-profound-supererogation” and thus speaks to the disposition to act likewise technically in a large or infinite number of cases (syncretising). It should be noted that temporal-dispositions (“ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) are in-of-themselves act defects and not being defects. However, such temporal-dispositions are registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential–defect>⁴ when these relay postlogism in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as of formulaic slanting ¹compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation⁵ as to threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⁵—preconverging/dementing –apriorising-psychologism (whether of the psychopath or not) inducing narratives that are slanted/preconverging-or-dementing—apriorising-psychologism/dialectically-or-contendingly-out-of-phase/non-ontological—
initiates a crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-
mamentativity. Ontologically, the mental-devising-representation of such perversion-of-
phenomenality that doesn’t have any place for our thresholding discrete incrémentalism-in-relative-ontological-incompleteness—enframed-conceptualisation notions but even for the cases where such discretion is artificially devised/implied, it is applied as operant and deterministic (consider quantum-mechanics). So ontologically, the mental-devising-representation of perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as strands-of-perverting-temporal-dispositions is definitely accurate on two insightful grounds. Reality's bluntness/incisiveness doesn’t leave room for discretionary judgments about ‘good-natured’/impression-driven conceptualisations of virtue and virtuous judgment within the overarching framework of such the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reality determinism, and such impressions can only pass for an illusion-of-the-present/present-consciousness mirage and/or <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (attempting to operate logic in a superseding registry-worldview on the basis of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a superseded registry-worldview; for instance, God of plane type of statement in say an animistic society that comes in contact with foreigners and a plane). The second reason is that we can garner insight on prior/superseded institutionalisations and understand that the vices-and-impediments are actually cross-sectional to the registry-worldviews/dimensions as of beyond-the-consciousness-awareness-teleology <->in-existential-extrication-as-of-existential-unthought> and it is intemporal philosophical development that goes on to liberate/enlighten/moult-out ‘actors of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ who in turn then shine the light across society, i.e. institutionalisation/intemporalisation by skewing (‘intemporality’-asymmetric-subsumption-of-temporality, for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference for the supersedingness of the intemporal-disposition over temporal-dispositions for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation’/notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence), rather than a transcendental understanding of the-Good, i.e. knowledge/virtue-as-institutional-cumulation/institutional-recomposure–as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism–for-intemporal-preservation.

This points to the fact that necessarily the de-mentative/structural/paradigmatic virtue construct (knowledge-driven) of recurrent-utter-uninstitutionalisation is base-institutionalisation, ununiversalisation is universalisation, non-positivism/medievalism is positivism, and prospectively, that of our positivism/rational-empiricism manifestation of procrypticism—or–disjointedness-as-of–reference-of-thought is depocrypticism—or–preempting–disjointedness-as–of–reference–of–thought; and so as a veridical and contiguous deterministic-and-operant psychoanalytic-unshackling/memetic-reordering/institutional-recomposing for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, that knows no discretion! There are ‘traditionally 4 human mental projections/representations/dispositions’
impediments given that the veridicality of reality (reflected by the-Good/understanding/knowledge-reification /ontological-primumovers-totalitative-framework conceptualisation) is all the virtue enabler that there is and other conceptualisations are rather distractions that are in effect vice-ridden and an impediment, and more specifically when these undermine the-Good/understanding/knowledge-reification /ontological-primumovers-totalitative-framework conceptisation. Impression-driven/good-naturedness/wishfulness conceptualisation lack veridical ontological-contiguity. One may query what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification /ontological-primumovers-totalitative-framework conceptisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism., i.e. Increasing knowledge-as-virtue understanding, as of reference-of-thought—categorical-imperatives/axioms/registry-teleology , -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of their respective elucidation-of-existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-

Practically, however ‘good intentioned or good-natured’ a non-positivism/medievalism mindset/7-reference-of-thought it is bound to rely on medieval-8-reference-of-thought–categorical-imperatives/axioms/registry-teleology of sickness like a curse or witchcraft rather than a positivist notion like infection, and the virtuous outcome is fundamentally a question of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework of positivistic understanding, and not any vague impression! Not only is impression-driven/good-naturedness/wishfulness conceptualisation at best vague, ontologically speaking, it is bound to be extricatory (temporal/circumstantial/self-interest de-mentating/structuring/paradigming) rather than intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming. Alignment should rather be in transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing—as strands-of-perverting-temporal-dispositions as the backdrop for prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework conceptualisation. Further, impression-driven/good-naturedness/wishfulness conceptualisation induces both ‘logical and unconscionability-drags. A drag is a vague meaningful articulation arising out of veridical incongruence due to the nonreality of initiating narratives or propositions, and subsequent de-mentative/structural/paradigmatic contiguity of narratives and propositions thereafter from such initial miscues and/or intermittent miscues. For instance, supposed going by the example where a psychopath had wrongly accused someone of being a paedophile (not in terms–as-of-axiomatic-construct of ‘poor or bad supplanting–
preconverging/dementing — apriorising-psychologism due to the non-existence of the psychopath’s implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, suppose the interlocutor was to go on to in-conviction-as-to-profound-supererogation relay these distortions with other interlocutors, we will talk of a ‘miscue’, and where other meaning grounded fundamentally on this miscue were to develop, we talk of ‘logical-drag’, further where comprehensive generation of social meaningfulness were to arise out of this, we talk of ‘unconscionability-drag’, and finally sub-par/formulaic-association/temporal/alibi conventioning-rationalising refers to the temporal mental-disposition to use conventioning thinking as alibi for temporal-motivated dispositions (over the inherent sense of ontological meaningfulness). Actually, strands-of-perverting-temporal-dispositions are the characteristic backdrop mental-devising-representations of superseded/transcended registry-worldviews/dimensions when we think from an ontological perspective of the soundness-or-ontological-good-faith/authenticity —of— reference-of-thought projection/representation that captures the meaningful framework of a registry-worldview teleology whether regarding a society at its ununiversalisation whether as recurrent-utter-uninstitutionalisation, ununiversalisation, and medieval/non-positivisitic, and prospectively, we can garnered such strands-of-perverting-temporal-dispositions with respect to procrypticism from futural Being-development/ontological-framework-expansion— as-to-depth-of—ontologising-development-as-infrastructure-of— meaningfulness-and-teleology as of prospective notional—deprocrypticism institutionalisation. Memetic-reordering (psychoanalytic-unshackling) is actually the institutionalisation/intemporalisation process at uninstitutionalised-threshold requiring dimensionality-of-sublimating—\(<\text{amplituding/formative}>\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness}>\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection to overcome temporal-dispositions (to supersede preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase), and so in a pedestalled disambiguation of ontologically veridical intemporal-disposition pedestal, slanting/postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as subknowledging impulse by psychopath pedestal and slantedness/postlogic-integration as \( \text{perversion-of-} \text{reference-of-thought-}<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}>\) by the temporal-dispositions pedestals. Memetic-reordering (psychoanalytic-unshackling) is thus the central notion of a new and comprehensive human psychology wherein the human psyche is more of a ‘mental devising tool’ involving candoring/prelogism/organic-comprehension-thinking and decandoring/distractive-alignment-to—\( \text{reference-of-thought-}<\text{of-apriorising/axiomatising/referencing}>\)/threshold-of—nonconviction/madeupness/bottomlining—as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. The former (candoring/prelogism/organic-comprehension-thinking) mental orientation points to supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism within any registry-worldview/dimension at

These fundamental human mental-devising-representation or apriorising—registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to reference-of-thought—categorical-imperatives/axioms/registry-teleology for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-threshold whereby there is divergence in reference-of-thought construed
meaningfulness-and-teleology construed as transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’\(^1\). At uninstitutionalised-threshold\(^2\), given the veridicality of human emanance as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology\(^9\) in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^9\) with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-prime movers-totalitative-framework\(^7\) veridicality and carries a positive-opportunism\(^8\) that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> in the medium to long-run. It is only after such uninstitutionalised-threshold\(^2\) is superseded/dominated/preceded/overridden/uttered by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturing as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology\(^9\) that establishes the substantive/existential-contextualising-contiguity\(^8\) (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors’ articulations. Thus the basis for Rational-Realism as the initial institutionalisation/intemporalisation recompose orientation that goes beyond just articulating reference-of-thought–categorical-imperatives/axioms/registry-teleology’,-for-intemporal-preservation but involves anticipating human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological–

This raises two dilemma with respect to the conceptualisation of virtue as rational-realism implies that at the \textsuperscript{9}procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold\textsuperscript{102}, we have to register/acknowledge priorly our inclination to subknowledge–(preconverging-or-dementing\textsuperscript{12}–as-if-of-sound-knowledge) positivistic registry-worldview’s/dimension’s institutionalisation \textsuperscript{8}reference-of-thought–\textsuperscript{2}categorical-imperatives/axioms/registry-teleology\textsuperscript{9} to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for \textsuperscript{7}perversion-of-reference-of-thought–\textsuperscript{<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textsuperscript{>}/mental-perversion/preconverging-or-dementing–apriorising-psychologism by temporal-dispositions: (i) \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside (as being in denial of \textsuperscript{7}perversion-of-reference-of-thought–\textsuperscript{<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textsuperscript{>}/mental-perversion at the uninstitutionalised-threshold \textsuperscript{9}, and hence remains candored/integratively-aligned; contrasted with the instance of the adoption of a new registry-
worldview’s (superseding the uninstitutionalised-threshold<sup>vi</sup>) reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation and preemption of the afore perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview. This latter instance involves supererogatory—ontological—de-mentation—or—dialectical—de-mentation—stranding-or-attributive-dialectics or Coring (in reflection/perspectivation and acknowledgment of perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) with corresponding decandoring/distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing and is what enables memetic-reordering/psychoanalytic-unshackling whereas amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside at best induces ‘memetic-inching/psychoanalytic-realigning’ which are not of an immediate transcending nature. (ii) Conventioning metaphoricity involving in a continuum on one side ontologising rationalising though ontological-veridicality is not the sufficient reason for the social acceptance of rightness for rightness sake (as explained previously) and on the other side intemporality/ontology distractive sub-par/formulaic-association/temporal/alibi conventioning-rationalising. ‘Rational-Realism as of notional—deprocrypticism or institutionalisation/intemporalisation full-cycle’ can thus be construed as a contiguous cumulation of successive memetic-reordering (as institutional recomposuring) for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; with such successiveness due to the limitation of human mentation-capacity to be able to mimeticly (across suprastructural-meaningfulness) come full-cycle in one transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, explaining the recomposuring of the
(‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity) towards institutionalisation/intemporalisation (iii) temporal-dispositions for perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > at uninstitutionalised-threshold (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing –apriorising-psychologism eliciting slanting/miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi as to temporal-dispositions elicited act defects of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) Hence intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation, construed as ‘postconvergence memetic recomposuring’; recomposure is defined as ‘ontological-representation/ontological-memetism of intrinsic-meaningfulness (whether implying, on the one hand, an integrative/candor/organic-comprehension-thinking alignment or on the other hand, a distractive/deandored alignment as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing –apriorising-psychologism) towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (as validated by veridicality/ontological-prime-movers-totalitative-framework). This definition explains the succession of the recomposuring of institutionalisations with the notion that where intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is lost at a registry-worldview’s/dimension’s uninstitutionalised-threshold, a prospective registry-worldview/dimension is implied/recomposed that will ensure intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation, and undermines notional-discontiguity/epistemic-discontiguity\textsuperscript{2}\textsuperscript{-}\textsuperscript{62}\textsuperscript{-}\textsuperscript{-}shallow-supererogation -of-mentally-aestheticised-preconverging/dementing\textsuperscript{1}\textsuperscript{-}\textsuperscript{qualia-schema}/epistemic-totalising\textsuperscript{7}-self-referencing-syncretising/setting-aside by appropriate stranding/coring representation (-of-perverting-temporal-dispositions) as the backdrop for the prospective registry-worldview’s/dimension’s institutionalisation \textsuperscript{8}\textsuperscript{-}\textsuperscript{reference-of-thought\textsuperscript{-}\textsuperscript{categorical-imperatives/axioms/registry-teleology\textsuperscript{9}. That is, ‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—\textsuperscript{as-dialectical-stranding-backdrop-for-prospective-transcendence once it is shown that it subknowledges-or-mimics (as \textsuperscript{perversion-of\textsuperscript{-}\textsuperscript{reference-of-thought\textsuperscript{-}\textsuperscript{-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >}}} its \textsuperscript{-}\textsuperscript{reference-of-thought\textsuperscript{-}\textsuperscript{categorical-imperatives/axioms/registry-teleology\textsuperscript{10},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold\textsuperscript{10}, even though this from the temporal-dispositions mindset\textsuperscript{10}reference-of-thought is always an unpalatable proposition. But then the state of being in a transcended registry-worldview/dimension (as in our present positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—\textsuperscript{as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, at their uninstitutionalised-threshold\textsuperscript{10}; and so, going back to the recurrent-utter-institutionalised early men who left the caves and trees, thus any denial of prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as articulated above is an argument which incoherence emanantly imply ‘we should go back to the caves and trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had transcended up to our very

preconverging/dementing –apriorising-psychologism provides the dynamic association for
psychopathic/postlogic subknowledging/mimicking impulse leading to the vices-and-
impediments of the registry-worldview/dimension from an intemporal/ontological
perspective; and ontological-normaley/postconvergence intemporal-preservation-entropy-or-
contiguity—or—ontological-preservation veridicality (as ontological-prinemovers-totalitative-
framework ) is the drive that resolves lack of human mentation-capacity for intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation (at uninstitutionalised-
threshold ) by stranding-backdrop-for-transcendence and then recomposuring prospective
registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-
imperatives/axioms/registry-teleology. The example highlighted on page provides an excellent
‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold. To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human subknowledging caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging /mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> of mental-devising-representation as to its unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought arising from the perversion-and-derived–‘perversion-of–reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, and the articulation of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology reflecting the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as intrinsic reality. In practical terms, human/social
VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal-disposition philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge-(preconverging-or-dementing -as-if-of-sound-knowledge) intemporal reference-of-thought– categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering). It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves universal projection to grasp universal principles and is not meant to ‘equivocate and idle’ with perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-totalitative-framework). Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-worldview’s/dimension’s institutionalisation reference-of-thought– categorical-
registry-worldview/dimension that is defective as of ‘perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ in the first place), and so with transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing (of temporal-dispositions and the intemporal-disposition, as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-range-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human ‘dimensionality-of-sublimating—amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness'/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation disposition’. Rather it is a secondnatures/ontological-contiguity—of-the-human-institutionalisation-process as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-

Just as we work with the reality that all humans are disposed to have cancer and the virtue of curing is not denying but anticipating and preempts the possibility of having cancer with medicines, lifestyle, research, etc., i.e. ‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as this highlights ontological-primemovers-totalitative-framework. It is bluntly speaking a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise involving the skewing (‘intemporality’ - asymmetric-subsumption-of-temporality, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, to ‘pedestally dominate and override’ temporal-dispositions in the cross-section/averageness/banality of solipsistic human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor. Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully, human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor speak of ‘the-real-nature-of-man’ that can be skewed with institutional recomposuring/memetic-reordering/psychoanalytic-
unshackling towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a specific ‘institutionalisation/secondnaturing level’ which is in ‘existential immediacy’ this may seem to indicate that we are talking about ‘different species’ with ‘different ontological determinants’, which is naïve and false. The anthropopsychological approach to psychology is analogical to the development of physics which is not only on the basis of what is immediately at the conscious operational level of physicists but equally projecting into a physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm (particle physics) in other to place the subject on a comprehensively sound footing. Central to such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the social domain is the idea of notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> and institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected~‘epistemicity-relativism’>). On another note, it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans, so that the intellectual exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so doing undermine its work by naively projecting universal intemporality /longness and failing/not-upholding<-as-of-apriorising/axiomatising/referencing> to articulate a realism that takes account of temporal mental-dispositions (knowledge-notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality~of-affirmative-and-unaffirmative–disambiguated~‘motif-and-apriorising/axiomatising/referencing’ to potential
temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing). It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. Intemporality/longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to reality-referencing and the ontology pedestal) while temporality/shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag and metaphysical pedestals)’. Intemporality/longness and temporality/shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality/longness and temporality/shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of–meaningfulness-and-teleology (intemporality) and shortness-of-register-of–meaningfulness-and-teleology (temporality). That is, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar 'socially-perceived-value as of social-stake-contention-or-confliction' setup across space and time; while temporal minds under the same notion (intemporality-temporality) conceptually assume lower and lower shades ‘in mentation-capacity terms’ of such an intemporal universal-depth concept articulation stressing in lieu of ‘all humans’ various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-
primemovers-totalitative-framework\textsuperscript{27} in the notion of intemporality\textsuperscript{25}-temporality\textsuperscript{26} that doesn’t need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms–as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of\textsuperscript{27} meaningfulness-and-teleology\textsuperscript{28} and longness-of-register-of\textsuperscript{29} meaningfulness-and-teleology\textsuperscript{30} as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended/superseded reference-of-thought rather than the prospective/transcending/superseding\textsuperscript{31} reference-of-thought; since shortness-of-register-of\textsuperscript{27} meaningfulness-and-teleology\textsuperscript{28} and longness-of-register-of\textsuperscript{29} meaningfulness-and-teleology\textsuperscript{30} are a contiguous value construct as in $<$amplituding/formative–epistemicity$>$totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in\textsuperscript{24} ‘protensive-consciousness’-enabling–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity\textsuperscript{32}$’$s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{24}–of–reference-of-thought\textsuperscript{33}–devolving-as-of-instantiative-context of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond just $<$amplituding/formative–epistemicity$>$totalising–random-as-impulsive-phenomenal-abstractiveness-of-presencing-in\textsuperscript{24} ‘trepidatious-consciousness’-enabling–apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity\textsuperscript{32}$’$s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{24}–of–reference-of-thought\textsuperscript{33}–devolving-as-of-instantiative-context (impulsive-or-accidented-or-haphazard-or-random mental-disposition), $<$amplituding/formative–epistemicity$>$totalising–nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in\textsuperscript{24} ‘warped-consciousness’-enabling–

Good intemporal-disposition (i.e. beyond just an intradimensional ‘good-natured’ conceptualisation) of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with the memetic-reordering directly associated with the referential entropy in institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}/transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus by intemporality/longness as a the-Good conceptualisation as ‘longness-of-register-of-meaningfulness-over-shortness-of-register-of–meaningfulness-and-teleology’, that specificity (as pursued in this paper) that informs ontological understanding of not idling and articulating meaningfulness in equivalence of temporality/shortness in its various shades, but rather with intemporal purpose and intent, and an ultimate quest for validation only as an ontological-primemovers-totalitative-framework conceptualisation will be qualified as ‘longness-of-thought’; and it strives to achieve a prospective de-mentative/structural/paradigmatic existential registry-worldview/dimension conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wherein aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the underlying drive. The non-implication of an equivalence between (‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling) with temporality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and–social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to
shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocrypticism-over-procrypticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development). The use of ‘human mental-dispositions/individuations’ as of notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> mental-dispositions/individuation potential possibilities that can incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> s, and hence the possibility of ontological-primemovers-totalitative-framework or scientism), and is the more scientific notion over
‘individual’ (which is just the receptacle of individuations). By pedestal is meant the ‘temporal-
to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition
individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-
temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-
pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-
disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-
aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-

dispositions-registries individuations-pedestals imply and point to the underlying ontological-
primemovers-totalitative-framework basis of ‘the specific temporal-disposition

the ‘specific temporal-disposition’. Such postlogic temporal-dispositions individuations-

These will include ‘postlogic ignorance-temporal-disposition individuation-pedestal’, ‘postlogic affordability-temporal-disposition individuation-pedestal’, postlogic opportunism-temporal-disposition individuation-pedestal, postlogic exacerbation-temporal-disposition individuation-pedestal, postlogic social-chainism/negative-social-aggregation/social-discomfiture-temporal-disposition individuation-pedestal, and postlogic temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal). While the prelogic/conviction-as-to-profound-supererogation ‘ontologically-reconstituting’ intemporal-disposition-teleology is rather the ontologising individuation-pedestal as it strives perpetually to define-and-redefine categorical-imperatives (by its ontologically-veridical associated registry-teleology—mentation elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) for ‘intemporal/ontological preservation entropy/contiguity’ as it perpetuates institutionalisation/intemporalisation/longness-of-register-of-meaningfulness-over-shortness-of-register-of—meaningfulness-and-teleology despite the natural reflex at every registry-worldview/dimension, whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, to temporally arrive at entropy on the basis of temporal-dispositions teleologies or shortness-of-register-of—meaningfulness-and-teleology (with the associated non-veridical temporal implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), i.e. temporal preservation teleologies are inclined to forego intemporal-preservation-entropy-or-contiguity—or-ontological-preservation teleology (ontological-veridicality/ontological-contiguity of reference-of-thought) at a registry-worldview’s/dimension’s uninstitutionalised-threshold, which should definitely be resisted by ‘intellectual responsibility’ which for the positivistic registry-worldview/dimension holds that
the intellectual disposition is all too willing to be ‘romantic’ about the idea of human firstnature cross-sectional inclination for the intemporal-disposition and that intellectual responsibility is to acknowledge the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatures—temporal-to-intemporal-dispositions—so construed as from perspective–ontological-normalcy/postconvergence’—existentialism-form-factor and be preemptive of the ‘non-ontological/non-knowledge/non-virtue temporal-dispositions threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing—apriorising-psychologism’ by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation based on absolute ontological-contiguity and taking account of temporal-dispositions perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ≥; just as the present positivism institutionalisation had been preemptive of human cross-sectional disposition for superstition by emphasising rational-empiricism, and the universalisation institutionalisation had been preemptive of human disposition for ad-hoc social-stake-contention-or-confliction resolutions along whims and interests to imply a sense of universalisation, and base-institutionalisation had been preemptive of human disposition for recurrent lawlessness to imply a sense of institutionalised living with mutual expectations. ‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction) with the psychopath’s compulsive-dementing insane-fitment/slantedness/mere-possibility narratives which are as dialectically-or-

Unconscionability-drag (from an ontological/intemporal reference) also points to the fact that at any institutional registry-worldview/dimension, there can be two mental alignments; whether the apriorising–registry is at the institutionalised/intemporalised threshold of meaning (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) or at the uninstitutionalised-threshold 12 of meaning involving 27 perversion-of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > requiring distractive-alignment-to–<reference-of-thought–<of-apriorising/axiomatising/referencing>29, and in the latter case the reflex to be integratively aligned is lost across all the temporal-dispositions of the 1 perversion-of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > dimension, and what is called for with the unconscionability-drag is a distractive-alignment-to–<reference-of-thought–<of-apriorising/axiomatising/referencing>29 which will explain a dialectically-or-contendingly-out-of-phase or dialectically-primitive alignment by oblongating/decandoring/downgrading. *, i.e. Remember ‘mental-devising-representation’ is a devising construct of preceding-superseding abstract reality/veridicality (postconvergence) as
the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by ontological-primemovers-totalitative-framework. In the bigger scheme of things, ‘unconscionability-drag’ as a notion points to ‘ontological abstraction and mental-devising-representation of reality/veridicality defect’ whether dealing with psychopathic postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or temporal-dispositions conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or simply plain temporal-dispositions ‘defective mental-devising-representation of ontological reality/veridicality’. The notion of ‘unconscionability-drag’ thus extends to all mental-devising-representation of 'perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation'> of all registry-worldviews/dimensions with respect to the prospective transcendental as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation registry-worldview/dimension, which is the point of ontological referencing (point-referencing). The reason why the ‘study of the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing the two elements of ontological meaning ('reference-of-thought and logic); with ‘reference-of-thought being hitherto undisambiguated in the social construction of meaning, thus leading to a ‘lack of constraining social universal-transparency-<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness> of temporal-dispositions prior relative-ontological-incompleteness-induced,-threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism’. However as articulated above, the ‘unconscionability-drag’ carries the resolution for disambiguating ‘reference-of-thought in the
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > will be ‘utterly referenced’ from universalisation, and thus that of prosopticism–or–disjointedness-as-of-reference-of-thought perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > has to be ‘utterly referenced’ from deprosopticism/longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology. The reason for the above is that you can’t address a registry-worldview/dimension perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomenal defect (psychopathy) without addressing the defects of the registry-worldview/dimension (prosopticism) that endemises it from the reference of the prospective transcendental dimension, just as you can’t address witchcraft without fundamentally addressing a non-positivism/midievalism registry-worldview that will necessarily and readily endemise superstitions and witchcraft. The peculiarities of successive institutionalisations is that these address the successive emanant dimensional defects of: recurrent-utter-uninstitutionalisation by emphasising ‘base-institutionalising’, ununiversalisation by emphasising ‘universalising’, superstition/non-positivism/midievalism by emphasising ‘positivising’, and prosopticism–or–disjointedness-as-of-reference-of-thought preconverging-or-dementing –apriorising-psychologism by emphasising the ‘undermining of disjointedness/subknowledging/mimicking’ and so as to ‘longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology construed as deprosopticising/preempting—disjointedness-as-of-reference-of-thought’ (noting that the latter institutionalisation/intemporalisation contains the sublimating–nascence of the previous institutionalisations up to its own threshold of institutionalisation/intemporalisation, with notional–deprosopticism being organically imbued with all the prior/superseded institutionalisations); all these, pointing to ‘an ontological
psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present
treatment of psychology doesn’t recognise: (i) Psychopath narrative teleology**: an adult
psychopath meets a stranger and speaks to him about another stranger whom it knows nothing
about, saying logically that it is a bad thing for this guy to be molesting children (ii) temporal-

different interlocutor knowing truly that the accused is not a child molester but for a favour or
sense-of-favour they owe to the psychopath articulates the following narrative: (c) this guy has

‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-

advantage by acting likewise as the psychopath and articulates the following narrative (d) they
had actually witnessed the accused shoplifting. A ‘conjugated/inflected/derived/mimicked/in-
protraction-to-psychopathic-preconverging-or-dementing’ –apriorising-psychologism social-

arise where (e) such narratives are purposefully and consistently relayed in the social sphere
based on ignorances, affordabilities, opportunisms and exacerbations, and individuals come to
make it a reference for their relation with the accused. And finally, a
‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-

temporal-disposition defect’ arises where (f) individuals come to learn that by having the
appropriate social relations and social support network they can then initiate such narratives if
they were to have competing 'socially-perceived-value as of social-stake-contention-or-

accepting and giving up on the principle of the intemporality/longness and intrinsicness of
meaning. It is important to distinguish all the above ‘temporal instances

Whereas with ‘a defect of logical operation/processing/contention’ (which is not the case here), an interlocutor perfectly projects intemporally (i.e. projects in terms–as-of-axiomatic-construct of longness-of-register-of—meaningfulness-and-teleology or a universal ontological sense of meaning) but poorly operates/processes the logic adhocly. This latter case unlike the former doesn’t imply registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect but rather ‘an adhoc defect—of—logical-processing—or—logical-implicitation—supposedly—apriorising—on—conviction—as—to—profound—supererogation of the registry-worldview’s/dimension’s—reference—of—thought—for—social—functioning—and—accordance whereas the former is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect that speaks to the unprincipled-or—derived-unprincipled disposition of the interlocutor’s individuation that is, with respect to an infinite number of cases in the same situation (i.e. comparatively the disposition to go about answering math questions by figuring out their answers then ‘artificially’ trying to work out equations to yield the answers). Thus establishing the ontological—primemovers—totalitative—framework of this slantedness/postlogic individuation defective nature ontologically, hence enabling its aetiologisation/ontological-escalation. This also requires the disambiguation of the registries (involving stranding-of—perverting—temporal—dispositions which refers to mental—devising—representation of temporal—dispositions—registries teleologies registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or—

Very much counterintuitively with regards to ‘unconscionability-drag’, the transcendental requirement for a
‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought–categorical-imperatives/axioms/registry-teleology’ is rather ‘unfathomable’ for the prior wooden-language–(imbued—temporal—mere-form/virtualities/dereification–/akrasiatic-drug/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the so-called ‘perversion-of- reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ dimension’; this applies with regards to recurrent-utter-uninstitutionalisation and base-institutionalisation, ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively for upcoming times, procrypticism and deprocrypticism. The explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-worldview/dimension are formed by the memetic-ordering/psychoanalytic-construction at that registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms–as-of-axiomatic-construct of ‘reference-of-thought and logic’) to the individuals and so right up to their subconscious mind. But then a prospective transcendental memetic-reordering/psychoanalytic-unshackling is placing such a prior memetic-order/psychoanalytic-construction of their existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation in jeopardy, and it is only the ontological-primemovers-totalitative-framework social universal-transparency–(transparency-of-totalising-entailing–as-to-entailing–wooden-language–formative–epistemicity) of the prospective intemporal dimension inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining with corresponding percolation-channelling–impact from the prospective registry-worldview/dimension on the overall social-construct over a generation or two or more that
allows for any such ‘habituation’ to a prospective registry-worldview’s/dimension’s transcendence-and-sUBLImity/sublimation/supererogatory-de-mentativity with its new recomposuring ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’. This will explain the difficulty of medieval minds (including institutions like the church) over centuries to come to terms with positivism and scientism such that the positivistic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is still ongoing. Counterintuitively, every successive institutionalisation/intemporalisation registry-worldview/dimension naively thinks it being at the backend of the ‘institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) process’ means it is beyond transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as it doesn’t project of itself as being superseded by a prospective registry-worldview with its new recomposuring ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’ (as of supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking–apriorising-psychologism) at the point where the former starts perversion-of–reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> its own reference-of-thought–categorical-imperatives/axioms/registry-teleology, and does not tend to represent itself as oblongated/decandored/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing–apriorising-psychologism from a prospective dimension perspective in the sense that. the decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase insight we think of non-positivism/medievalism with corresponding phenomena like superstitions, witch-hunts, etc. has
never been the way they represented themselves as they are candored/straight/integratively-aligned/‘dialectically-or-contendingly-in-phase’ in their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present mental-devising-representation of themselves. Rather it is the more profound grasp of reality from positivism that initiates that decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase mental-devising-representation of non-positivism/medievalism in the positivistic mind, and this is the case as well with all other dialectic institutionalisations across the institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>/anthropological-continuity/anthropopsychology. The reason for making the above point is that we will most possibly as of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present act likewise when it is time to imply our own decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase procrypticism–or–disjointedness-as-of- reference-of-thought mental-devising-representation of our reference-of-thought–categorical-imperatives/axioms/registry-teleology with respect to a prospectively candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase notional–deprocrypticism new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology that is revealed by the ‘unconscionability-drag’ disambiguation of our temporal-dispositions-perversion associated with perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in our dimension (procrypticism) including psychopathy-and-its-social-psychopathy-corollary subknowledging/mimicking! For instance, in the case mentioned before with regards to B (Brackets), where B was to stick with the same temporal-dispositions individuation disposition that delivered the wrong results with respect to subsequent equations of a similar context (uninstitutionalised-threshold ) this will be epistemic-decadence, as conjugated/inflected/derived from A’s defective condition which is in epistemic-decadence, and the both A and B are of notional-discontiguity/epistemic-discontiguity-><shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema> defining the registry-worldview/dimension apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect. This implies de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) of B to such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology ) is the effective backdrop for ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring for the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and this is rather crossgenerational in nature (rather than instant intra-generational registry/registry-worldview transformation) as personhoods-and-socialhood-formation are rather grounded on the superseded/transcended/unsound reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The above analysis shows that soundness-or-ontological-good-faith/authenticity of reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). Unconscionability-drag (from an ontological/intemporal reference) ensures the disambiguation of registries so that the psychopath’s and temporal-dispositions are not elevated to the intemporal level which then allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect being in terms–as-of-axiomatic-construct of the apriorising–registry-elements, implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of the registries, i.e. rather the unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought or the dialectically-or-contendingly-out-of-phase meaningful construct). Unconscionability-drag (from an ontological/intemporal reference) is thus central to resolving the rational-realism de-mentating/structuring/paradigming as it accounts for the defect of temporal-dispositions teleologies of meaning (shortness-of-register-of–meaningfulness-and-teleology) while projecting intemporally/ontologically. The notion of ‘unconscionability-drag’ also explain how and why banal temporal-dispositions are not readily ‘integrative of psychopathic postlogism-slantedness as conjugated-postlogism/preconverging-or-dementing-integration’ (hence no distractive-alignment-to-
reference-of-thought-of-apriorising/axiomatising/referencing to the childhood and early adolescent psychopaths but come to develop a ‘mental-unconsciousness’ (unconscionability) to be ‘integrative of psychopathic postlogism-slantedness’ during the stage of late adolescence and adult psychopath. Antipodal to the idea of ‘unconscionability-drag’ is the idea of ‘conventioning’/social-temporal-thresholding. ‘Unconscionability-drag’ points to an abstract but more veridical ontological construct of the ‘social construction of meaning’ that is ontological-normalcy/postconvergence, based on intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by using categorical-imperatives of the prospective superseding/transcendental registry-worldview/dimension whether such a representation is aligned or not with the society’s collective-social-psyche or present-consciousness. (For instance, we can generate an unconscionability-drag of a medieval society on the basis of a positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic mental-dispositions of individuations in such a society. While such a representation, with its corresponding subknowledging/mimicking, is ontologically more accurate about such a society, however, the collective-social-psyche/present-consciousness of individuations in the said society will not recognise any such decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase representation of themselves, rather the medieval society will represent itself as candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-temporal-thresholding representation of the social construction of meaning’).

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it. Transcended and ontological meaningfulness of reality (contrary to conventioning/social-temporal-thresholding
meaningfulness of reality which is rather towards amplituding/formative-epistemicity>totalising-self-referencing-syncretising/temporality-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to ‘prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation-channelling-in-deferential-formalisation-transference of ‘any social construction of meaning’ for there to be collective institutionalised social adherence (and by the relative positive-opportunism elicited). Institutionalisation/Intemporalisation percolation-channelling-in-deferential-formalisation-transference are the institutionalised relays for human survival-and-flourishing-teleology, whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocrypticism, such that abstractions that will normally hardly be socially integrated going just by averaging human temporal-to-intemporal nature, can actually come from re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-imbued-postconverging/dialectical-thinking-projective-insights/epistemic-projection-in-conflatedness-notional-deprocrypticism-prospective-sublimation-intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation-channelling-in-deferential-formalisation-transference are for institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism beyond just the consciousness appraisal of temporal-dispositions. Institutionalisation/Intemporalisation percolation-channelling-in-deferential-formalisation-transference imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over ‘social-and-temporal-trading’ and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied
positive-opportunism for human survival-and-flourishing imbued in institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference>. This implies that an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality de-mentating/structuring/paradigmimg (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather ‘conventionalised from institutionalisation/intemporalisation (secondnatured), and has not evolved as of dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness</transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection; as it may be inclined to make references to temporal ”reference-of-thought–categorical-imperatives/axioms/registry-teleology ”, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are preconverging-or-dementing “–apriorising-psychologism/of-perverted-registry/subknowledging ”/mimicking–and–epistemic-totalising ”~self-referencing-syncretising-these. This brings forth the idea of ‘ordered construct’ between the intemporal firstnature/intemporal (organic-comprehension-thinking as to intemporal supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking”–apriorising-psychologism) and temporal-and-poorly-secondnatured/institutionalised (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing”–apriorising-psychologism, in relation to transcending meaning. Such ordered construct ensures precedence of the former as it skews (‘intemporality”–asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) solipsistically towards
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while the latter skews (‘intemporality -asymmetric-subsumption-of-temporality’", for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) for temporal preservation. Anecdotally, moral philosophy as dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness'/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (organic-comprehension-thinking) creates law/legal-conventions but then questions of justice cannot be attended to by populist-social-construct (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing '–apriorising-psychologism) since only a developed sense of moral philosophy as dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness'/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation (organic-comprehension-thinking) ensures sound jurisprudence as a human intemporal/ontological/social/species/"universal/transcendental/"maximalising-recomposuring-for-relative-ontological-completeness"—unenframed-conceptualisation de-mentating/structuring/paradigming rather than a temporal extricatory de-mentating/structuring/paradigming. ‘Prior or circumstantial social integration gatekeeping construals or institutionalisation/intemperalisation percolation-channelling<-in-deferential-formalisation-transference‘ that can enable the superseding of conventioning in the social integration of ontological veridicality include existing percolation-channelling<-in-deferential-formalisation-transference> of formalisms/officialdom which have naturally been instituted to allow for the supersedingness of intemporal/ontological constructs and intemporal-dispositions. For instance, formal institutions selectivity mechanisms; and where the latter fail or are fallacious, basic positive-opportunism" wherein the ontologising construct elicits positive-
opportunism\textsuperscript{7} for the undermining of defective conventioning/social-temporal-thresholding constructs/categorical-imperatives of meaning (for instance, a natural causes disease conception leading to more cures such that positive-opportunism\textsuperscript{7} then undermines a superstitious-driven disease theory which leads to more pain and deaths). The big idea here is that, it is naïve philosophically to operate mainly on the basis of \textquoteleft ontological rightness of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity\textquoteright{} with respect to a species whose construct is structured to be temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) to intemporal (longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99}) requiring skewing (\textquoteleft intemporality\textsuperscript{95}-asymmetric-subsumption-of-temporality\textsuperscript{98}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference to the latter. And any such \textquoteleft ontological transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by mere rightness\textquoteright{} has never been acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never took off even though it was ontologically right (as the medieval conventioning/social-temporal-thresholding construct and strongly ingrained social dispositions). It is the generated untenability/internal-contradiction/internal-incoherence/institutional-constraining together with positive-opportunism\textsuperscript{7} coming from sailors sailing around the world on this idea to seek for spices and create wealth that constrained/institutionalised the medieval world into such an ontological transformation/transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Part and parcel of ontological transformation/transcendence is the existential cynicism to grasp the human sense of internal contradictions and positive-opportunism\textsuperscript{7} to introduce and uphold these by the mechanism known as institutionalisation/intemporalisation. Regarding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} as of prospective
notional-deprocrypticism undermining of procrypticism, it is doubtful that pertinent ontological constructs and generally the ‘perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > dynamics of procrypticism’ are by themselves a sufficient basis for the direct and immediate social integration of notional-deprocrypticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence-and-sublimity/sublimation/supererogatory–dementativity wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolation-channelling—<in-deferential-formalisation-transference> for intemporal transcendence-and-sublimity/sublimation/supererogatory–dementativity. However, it should be noted that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective temporality—/shortness undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism—slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to _reference-of-thought—categorical-imperatives/axioms/registry-teleology_—, for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation of the intemporal meaning), and on the other hand, how prospective intemporality—/longness is regenerated to supersede/transcend such perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and bring about new recomposuring _reference-of-thought—categorical-imperatives/axioms/registry-teleology_, for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation). Organic-comprehension-thinking (as to supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking—apriorising—**

driven, with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
points to the fact that the articulation of meaning referenced/registered/decisioned differently in
two registry-worldviews/dimensions, the “perversion-of” reference-of-thought<as-effectively-
apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as
retrospective and transcendental as prospective, is/should be wholly
referenced/registered/decisioned intemporally from the superseding transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity that upholds intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation; as the ‘intemporal mind’ can’t go after the
value reference of both registry-worldviews/dimensions since transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity is about ‘subverting’ "perversion-of-
reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation”> by psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring. For instance, the non-positivism/medievalism value
references of aristocracy/class are contrarian to positivistic value references for the possibility
of equal opportunities; and the intemporal projecting positivistic mind in medieval times has no
business trying to appear ‘great and wonderful’ with respect to ‘conventioned’ value reference
of aristocracy/class in the medieval world even though it is the dominant and encultured
collective mental-disposition. Likewise, such logic will apply regarding notional-deprocrypticism and procrypticism requiring a reasoning that goes beyond the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncertising/illusion-of-the-present’ mindset/reference-of-thought of our current procryptic mental-disposition, i.e. ‘the limit of ontological thought is not the banal <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology- as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ of a registry-worldview/dimension’. Otherwise no progress is possible as a dimension progresses exactly because it has defects which when overcome enables the progress to occur! So the intemporal mind cannot as such ‘be impressionable’ by the banal <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ of a registry-worldview/dimension. It points to the fact that it is ‘perfectly ok’ to be ‘unintelligible/existentially-suprastructural and value-reference-wise unresponsive’ to the subknowledge-⟨preconverging-or-dementing-as-if-of-sound-knowledge⟩ apriorising–registry but rather alienative as to the possibility for its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The ‘apparent profoundness’ of such temporal reference of thought is rather ‘depth-of-ignorance’ rather than ‘depth-of-elucidation’. threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism arises as a result of shallow mental-dispositions induced by temporal-dispositions, and their disambiguation should be called for, and not candored/straightened/integratively-aligned as if intemporal/longness in nature but rather decandored / oblongated / transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{[01]} as temporal/shortness.
threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation  —

involving temporality, ‘mental triteness’ and ‘gullibility’ with respect to, in the case of
psychopathy, insane/slantedness integration as social psychopathy; and more generally, ‘lack of
intemporal-disposition philosophical depth’, i.e. lack of spontaneous dimensionality-of-
sublimating — <amplitude/formative>supererogatory–de-mentativeness/epistemic-growth-

consequence an inclination to compromise intemporality /longness as ‘conventioning (social-
temporal-thresholding) of meaning’ rather than ‘ontologising (intemporal-uncompromising) of
meaning’. Overall threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation  —preconverging/dementing –apriorising-psychologism points to the
fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal
consequences whether regarding defective enculturation or defective social
ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires
‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation exercise of undermining conventioning at
uninstitutionalised-threshold (due to the inescapable veridicality of human individuation
temporal/shortness-to-intemporal/longness which inevitably induces perversion-of-
reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-

skews (‘intemporal/asymmetric-subsumption-of-temporality’, for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentativity) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. An essential element underlying the psychopathic and other postlogic relationship with meaning has to do with the nature of attachment to meaning. A postlogic mind doesn’t view meaning articulations as ‘inherently sanctuous’ and thus is inclined to produce mechanically whatever deductions that may engage an interlocutor in-prelogic supplanting—conviction-as-to-profound-supererogation—as-postconverging/dialectical-thinking—as-apriorising-psychologismly/prelogicly even if these are hollow mimicking non-veridical narratives, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated). On the other hand, prelogism-as-of-conviction—as-to-profound-supererogation-or-thinking imply more of an organic alignment view of meaningful articulations as ‘inherently sanctuous’, i.e. ‘existential-contextualising-contiguity/meaningful-projection-of-intrinsicness’. Going by these two facts, the postlogic and psychopathic mindset/reference-of-thought is readily inclined to call upon a broad base of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging narratives (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) whereas the prelogic/conviction-as-to-profound-supererogation mindset/reference-of-thought is inclined to call upon just the narratives it sincerely thinks are relevant/due and intrinsically real. So it is critical not to confuse the over-articulation of postlogic narratives (vague mechanical stylising-of-locution) with an organic depth-of-thought or profoundness, given that these involve postlogism-slantedness, disjointed-logic, miscuing, inventions and platitudes from the postlogic mindset, requiring decandoring/oblongating/distractive-alignment-to-reference-of-thought/of-apriorising/axiomatising/referencing. (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring universalisation), and to the recurrent-utter-uninstitutionalised apriorising–registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation). Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifacts (institutions with their formal rules) by the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of our collective thought process in the medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt temporal dispositions. This explains why modern man (positivistic registry-worldview) is apparently more evolved/developed than he/she should normally be compared to previous generations (recurrent-utter-uninstitutionalised men, ununiversalised men, non-positivism/medievalism men, and prospectively, how he/she will be superseded by the deprocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is different from the others. The difference is the cumulated ‘software’ or institutionalisations and formalisations that have been internalised into modern man. Anthropologists know that if you were to take a newly born child from a society like those that do not have contact with the modern world, and raise the child in a modern family, there is no different outcome on average as with any other child bred in the modern world. So our faith in
virtue is not in our inherent excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation that has cumulated, and insightfully, which creative template we will prospectively develop! Incidentally institutionalisation and formalisation ensures that we take the best form of human individuation thinking/capacity potential and constrain society and individuals to that individuation thinking/capacity potential, and inherently so, by the overall positive-opportunism to the cross-section of the species since it better grasp intrinsic reality and its virtues! Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality), and this author notionally interpret solipsism as the deepest sense of existence and meaning available to an individual in its spontaneous emanance or becoming, and as it projects itself ‘purely and universally’. It is a firstnature/intemporal construct beyond and ‘inventing the possibility’ of secondnatured institutionalisation, and places all humans at all times at the same pedestal of virtuous and ontological appraisal, as it is about our ‘transcendental valour’ irrespective of the level of institutional-cumulation/institutional-recompose-{as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} at which we are. It contrasts with institutionalisation/intemporalisation which is ‘a negotiated and secondnatured or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction’. Institutionalisation/intemporalisation as such, by way of positive-opportunism and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity which is upheld by formalisation and internalisation. By ontological-normaley/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 5000 AD might be worlds apart, but the intrinsic nature of reality never changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the-Good/understanding/knowledge-reification/font=italic/ontological-primemovers-totalitative-framework for ontological-primemovers-totalitative-framework and thus a better grasp of the world; hence proxying mentation-capacity level as the various institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normaley/postconvergence-reflected-‘epistemicity-relativism’>). That idea that intrinsic reality is preceding/superseding is known as ‘postconvergence’ (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of ontological-primemovers-totalitative-framework is known is the human psyche (whether by candoring/straightness/prelogism when pertinent or decandoring/slantedness/distractive-alignment-to- reference-of-thought<-of-apriorising/axiomatising/referencing> when impertinent), intrinsic reality never gives in (that’s why we are mortals and our hope is to always give-in to intrinsic reality for the possibilities of the future). This latter point is important as by reflex an epistemic-totalising~self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its registry-worldview/categorical-imperatives (setting-aside of perversion-and-derived-

By ‘intemporal transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence as so articulated above is ontologically veridical but that does not necessarily imply the metaphysical framework temporal mental-dispositions will recognise that (i.e. there is no ontological-contiguity between registry-worldviews references-of-thought as this falsely implies ‘no temporal-to-intemporal disambiguation, i.e. equivalence of references-of-thought/no-alienative-hierarchisation, whereas what is warranted is ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling’); and that it is transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–meaning’ by rendering them untenable/internal-contradiction and inoperant (not a ‘convincing’ at the philosophical or emanance level, rather a ‘constraining’ at the institutionalisation/intemporalisation secondnaturing level out of ontological-primemovers-totalitative-framework); noting that ‘temporal perverted-transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–meaning’
imply temporal existentialising–frame 'meaningfulness-and-teleology' cannot-be-referenced/registered/decisioned as-of/having-the same reference-of-thought/registry of the intemporal-disposition which is ontological, and is thus rather preconverging-or-dementing—apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase'>, i.e. in distractive-alignment-to reference-of-thought<of-apriorising/axiomatising/referencing>, (and so all along the apriorising–registry-elements: implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) of the mental-devising-representation from the intemporal-disposition/ontological perspective. Ontology being of the intemporal-disposition, the exercise of ‘directing logical convincing’ to temporal-dispositions is inherently unwarranted and is rather <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards ontological-primemovers-totalitative-framework which induces the positive-opportunism and untenability/internal-contradiction/internal-incoherence/institutional-constraining for its supersedingness in the ‘institutionalisation/intemporalisation percolation-channelling<in-deferential-formalisation-transference>’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) and allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. This is underlying transcendental-enabling/sublimating/supererogatory–de-mentativity notion while often obscured in the social <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality due to their ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal
validation but impose themselves because natural truths inherently supersede human egotistic or
totalising–self-referencing-
syncretising/circularity/interiorising/akrasiac-drag opinionatedness! Postconvergence, in the
bigger scheme of things, implies that knowledge has to do with the development of our
‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling
exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic
reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern
is about ‘us’; in the appropriateness of the registries we make of intrinsic-reality across
retrospective-and-prospective history or rather shifting dialectical moments of relative-
onological-completeness! The articulation of reality, registry-worldviews/dimensions, mental
strands (perverted or not), and other constructs of ontological-primemovers-totalitative-
framework is ‘at-a-superseding-pedestal and incisive/blunt’ by the very nature of ontological-
normalcy/postconvergence reality. For instance, supposed a society with a non-
positivism/medievalism belief system attributes the cause of a disease to say witchcraft, that
doesn’t stop the reality of bacteria causing the disease even if such a representation of reality
isn’t in the present-consciousness/illusion-of-the-present of that society. Such an ontological
conceptualisation of reality equally applies in our times where it can be demonstrated
prospectively that our mental-devising-representation of meaning regarding a phenomenon is
out of kilter, and reality won’t stop to accommodate us or our banality of thought. Thus the
conceptualisation of reality is rather articulated at this depth-of-thought whether it
accommodates our present-consciousness/illusion-of-the-present or not (reality personality),
and operates by an ordered construct based on ontological-primemovers-totalitative-
framework and not a disposition of averageness/banality/popularity/extrinsic-attribution-of-
thought recurrent in uninstitutionalised-threshold in the extended-informality-(susceptible-to-
effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-
teleology), allowing for the possibility of transcendental meaning, institutionalisation/intemporalisation (skewing (‘intemporality’-asymmetric-subsumption-of-temporality”), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) for intemporal domination) and human progress; given human temporal/shortness-to-intemporal/longness dispositions. Such an articulation of reality introduces the concept of ‘reasoning-through/utterion’ over ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-disjointedness’. Reasoning-through/utterion refers to the uncompromising and non-negotiable nature of reality with respect to the meaningful frames of mortal creatures that we are as reality doesn’t adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-through/utterion then implies that meaning is articulated exclusively in terms—as-of-axiomatic-construct of ontological-primemovers-totalitative-framework and anything else is defined, whether to be candored or to be decandored, at that ordered construct point-of-reference or point-referencing. Reason is thus ontologically a ‘reasoning-through’ as allowed through in a ‘pure, organic and intemporally uncompromising state’ by reality ontological-primemovers-totalitative-framework ‘at-a-superseding-pedestal and incisively/bluntly’. ‘Incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought refer to the human reflex to average minds or make reference to extrinsic elements rather than meaning by its inherence as can be predicated effectively, and involves ‘reasoning with’, as it introduces ‘temporal and social trading’ elements over or clouding or compromising inherent intemporal veridicality. ‘Incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought as such is patently wrong; as can be perceived from point-referencing superseding registry-worldviews/dimensions such that the ontological representation of the veridicality is different from the different perspectives of an
recurrrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding depcryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising–registry point-referencing threshold’, and implying rather the need for our psychoanalytic-unshackling/memetic-reordering/institutional-recomposing by distractive-alignment-to- reference-of-thought<of-apriorising/axiomatising/referencing>. Fundamentally, incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional–disjointedness-as-of–reference-of-thought in human thinking as indicated above with the various institutional-cumulation/institutional-recompose ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing←perspective–ontological-normalcy/postconvergence-reflected‘epistemicity-relativism’⟩ is superseded by reasoning-through/utterion; in transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and- apriorising/axiomatising/referencing’ at-a-superseding-pedestal, and represented as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism as oblongated/decandored or failing-intemporal-preservation-or-misappropriation-of-meaningfulness or transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and- apriorising/axiomatising/referencing’, given the fact that this reflects apriorising–registry defect and not logical defect. More precisely, how can ‘meaningfulness-and-teleology’ be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as ‘meaningfulness-and-teleology’
‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? This fundamentally has to do with our dimensionality-of-sublimating—supererogatory-dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/tranepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection irrespective of the uninstitutionalised-threshold, and calls for PEDESTALLED CONSTRUAL or PEDESTALLED DISAMBIGUATION to skew/deferential-formalisation-transference meaning towards the intemporal/longness disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, as institutionalisation/intemporalisation. Pedestalled disambiguation thus involves at a given uninstitutionalised-threshold translating the ‘apparently prelogism-as-of-conviction, as-to-profound-supererogation’ or prelogic teleological finality of a temporal-disposition into its veridical preconverging-or-dementing—apriorising-psychologism as postlogic perversion-of-referenceto-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> teleological finality, and so successively in reflecting the notional-discontiguity/epistemic-discontiguity—shallow-supererogation -of-mentally-aestheticised—preconverging/dementing—qualia-schema> of temporal-dispositions registries (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as rather referenced/registered/decisioned from the prospective intemporal-disposition in postconverging-or-dialectical-thinking—apriorising-psychologism to reconstrue new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while superseding the prior registry-worldview/dimension as backdrop of temporal perversion of the prior reference-of-
thought—categorical-imperatives/axioms/registry-teleology. Technically, pedestalled disambiguation should involve reflecting/perspectivating/highlighting from the intemporal-disposition pedestal teleology\(^9\) finality/questioning mental-profundness (deep candor) the relative longness/shortness-of-teleology\(^9\) of temporal-dispositions teleologies finalities/questioning mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which is the psychopath’s insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology\(^9\) finalities/questioning (\(^9\) ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled disambiguation points to the fact that the social representation of meaning is transversal/logically incongruent at uninstitutionalised-threshold \(\gamma\) as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of ‘questioning depth-of-thought’ and ‘strands of depth-of-meaningfulness’ to reflect effective meaningful representation from the intemporal-disposition point-of-reference). Where meaning is not articulated within an institutionalised/intemporalised framework, the idea of logical-congruence (a common reference of meaning in terms—as-of-axiomatic-construct of \(^\gamma\) reference-of-thought and logic) should be avoided due to \(^\gamma\) perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > whether psychopathic or not, and pedestalled disambiguation is then required using \(^\gamma\) distractive-alignment-to-reference-of-thought-as-apriorising/axiomatising/referencing to establish the ontological pre-eminence of the intemporal-disposition. Instances of perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > rather point to uninstitutionalised-threshold \(\gamma\), whether retrospectively or prospectively, as there is wrong equivalence of notional–firstnaturedness—temporal-to-
ontological-preservation of the intemporal-disposition anticipation and preemption of these for
the institutionalisation/intemporalisation. Pedestalled disambiguation explains the dynamism of
human institutional-cumulation/institutional-recomposure-(as-to-’historiality/ontological-

For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor universal rules (mob situations as well as social psychopathic situations will fall under such an interpretation as well). (2) Pedestalling (‘intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting pedestalling) articulates the relative grandor and virtuous consequence of the pedestalled supersedingness of the intemporal-disposition by its intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that then leads to society’s temporal-to-intemporal cross-sectional ‘dimensionality-of-sublimating’—amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection induced deference; whether deference with regards to a superstition/belief system/religion, essences/universal-notions, positivist idealism/principles-rationalism (and prospectively rational-realism as of deprocrypticism), involving a posture (institutionalised disposition) of the sort ‘the-say-that or it-is-said-that’ as ‘dimensionality-of-sublimating’—amplituding/formative>supererogatory—dementativeness/epistemic-growth-

Hence the very place of the averageness/banality-of-human-thought-and-meaning in history has been for it to defer to superseding intemporal-disposition construal by ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling. There is no such thing as allowing thought-and-meaning to the whims of masses thinking but rather deference to ‘reality/veridicality predicating constructs’; as enabled abstractly and existentially by the human individuation intemporal-emanant-registry in superseding human individuations temporal-dispositions. ‘Intemporal-prioritisation-of- reference-of-thought’–as-conflatedness–or-ontological-reprojecting pedestalling carries the implication that ‘reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and hence the precedence of higher intemporal teleologies over low temporal teleologies of ‘reference-of-thought and meaningfulness; and that subpar de-mentating/structuring/paradigming of ‘reference-of-thought and meaningfulness not for

pedestalling underlines the fundamental nature of institutionalisation/intemporalisation not as a
temporal-dispositions-to intemporal-disposition transformation (not emanance transformance)

for institutionalisation/intemporalisation to take place is critical in inducing the requisite

institutionalisation/intemporalisation of ‘scientific chemistry’ comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the meaningful frame, on the justification that they explain and account more about the material world than any other alternative. This justification goes on to make them formalism and officialdom percolation-channelling-<in-deferential-formalisation-transference> to the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology}) such that over time alchemic and superstitious conceptualisations of material meaning are effectively destroyed while equally seeing to it that pseudo-scientism is kept at bay. ‘Delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> processes’; because such a pedestalled supersedingness is only as valid as to when it is the grandest construal of material meaning until, and if, it is shown not to be the case. A further and nonetheless important reason for such delegation is the relative superficiality generally associated with averageness/banality-of-thought dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation projection construal of meaning, and not to speak of its discomposure to the convolutedness often required in articulating and grasping intemporal meaning as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming. Besides, this raises other issues related to a more or less temporal take of an ontological/intemporal enterprise with regards to articulations that are meant to have 10 universal import (import of metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation across space and time) rather than for the sake of any particular circumstantial/temporal take/extricatory-situation in whichever locale, that is, an extricatory de-mentating/structuring/paradigming. A failure to grasp the intellectual-analyst
posture rather as a proxying-of-intrinsic-reality-as-ontology as per ontological-primemovers-totalitative-framework\(^2\) validation and that there-is-no-discretionary-construal-of-ontology/ontological-reality since intrinsic reality is superseding of all mortals including the intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping such an intrinsic-reality is a proxying one superseded by the ontological-primemovers-totalitative-framework\(^2\) of reality ‘which in no way depends on any notion of the intellectual-analyst’s choice/luxury’ (as the intellectual-analyst might actually have by another individuation chose not an intemporal/ontological projection but a temporal posture ‘in moral/intellectual equivalence with temporal mental projections’ with nefarious temporal consequences). Basically, there is nothing like an intemporal temporality\(^7\)/shortness whereby there is any intemporal\(^7\)/longness in accommodating human temporality\(^7\). Likewise, supposedly the intellectual-analyst was to come short in its intemporal projection or other\(^9\) universal values by temporal manipulation, it is very naïve to ‘reason and projecting temporally’ that eliciting such ‘an inductive-limitation (the-paradox-of-a-universal-rule-that-doesn’t-apply-universally-but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset/ reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally, temporal-dispositions as eliciting temporal vices-and-impediments\(^9\) are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but \(<\text{amplituding}–\text{formative–epistemicity}>\text{totalising}–\text{self-referencing–syncretising}/\text{circularity}/\text{interiorising}/\text{akrasiatic-drag}>\) mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal

Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won’t mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn’t have the choice/luxury of deciding from his insight that evolution doesn’t exist in placating any temporal mortals or Galileo doesn’t have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their ‘aggrandised mortality’. The blunt/incisive reality is that they being in that position to affirm intemporality/ontology/intrinsic-reality-as-providing-future-universal-possibilities-for-the-
human-species are the ‘very tip of the possibility of human civilisation’ and their
civilizational virtue is to ‘bluntly look down’ to the ‘little mortal creatures of
temporality’ and ‘shepherd the sheepishness-of-the-species’ to grander civilisational grounds.

It is an ontological ‘moral and intellectual responsibility and privilege’, actually, to be in any
such position, going by the eudaemonic-contemplation which is what ‘effectively grants
existential moral and intellectual superiority’ and not naïve temporality/shortness

That is why psychopathy is better dealt with as ‘social psychopathy’ given that what is often and mostly overlooked is not with regards to the psychopath and its postlogic impulse to ‘hollow-constitute’/fail-intemporal-preservation as perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > but rather the ‘distortional effect on analysis’ arising from ‘postlogic/psychopathic elevation wittingly or unwittingly’ by prelogism -as-of-conviction,-as-to-profound-supererogation mental-dispositions in conjugated-postlogism /preconverging-or-dementing -integration (by ignorance, at best, then affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) which then wrongly provide ‘supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking –apriorising-psychologism credulity’ to elevate and integrate the perversion-of reference-of-thought-<as-effectively-apriorising-in-

As of, virtuous construal arises de-mentatively/structurally/paradigmatically from a universal/intemporal projection which is operant and deterministic with no room for ‘temporal discretion’ regarding the manifestation of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in any registry-worldview/dimension. The coherent and recurrent manifestation of phenomenal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect in a registry-worldview/dimension speaks of the registry-worldview’s/dimension’s disposition to endemise/enculturate it. More like we don’t have issues of sorcery and so in the positivistic society as de-mentatively/structurally/paradigmatically the positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology do not endemise/enculturate the notion and the social vices-and-impediments arising from it thereof. On the contrary, de-mentatively/structurally/paradigmatically the non-positivism/medievalism registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology endemises/enculturate this with the consequent social vices-and-impediments. It is very naïve to think that psychopathy as a social phenomenon is limited in scope to contexts where psychopaths are involved rather than involving a much wider social basis to explain how the positivistic registry-worldview/dimension integrates, enculturates and endemises it as ‘social psychopathy’. Just as prior/superseded registry-worldviews/dimensions have undergone their prospective institutionalisation/intemporalisation/transcendence once it is established that the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are subknowledge/registry-
human or social qualities which just serve to confuse and distort the fundamental knowledge/lack-of-knowledge/understanding issue. This is very much in line with the virtues of all human subject-matter formalisms which are the-Good/understanding/knowledge-reification\(^\text{15}\)/ontological-primemovers-totalitative-framework\(^\text{12}\) and not vague impression-driven/good-naturedness/wishfulness. This elucidation shows that intrinsic-reality, accessible by ‘reasoning-through transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\(^\text{16}\) only at-a-superseding-pedestal that is ontologically utter and incisive/blunt over human ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and notional–disjointedness-as-of-reference-of-thought and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness, is graspable in transcendence-and-sublimity/sublimation/sup ererogatory–de-mentativity only by an active transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\(^\text{16}\) construal involving ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling (beyond ‘temporal-and-social trading’) by distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>\(^\text{9}\). As a reminder to the fact that pedestalled disambiguation is with respect to perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversion (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation)—preconverging/dementing–apriorising-psychologism defect or a defect outside the logical de-mentating/structuring/paradigming of the said registry-worldview) and not logical defect (conviction-as-to-profound-supererogation\(^\text{96}\) defect or a defect in the operation/processing of the logical de-mentating/structuring/paradigming of the said registry-worldview); it is critical to note that the mental state of the registry-worldview/dimension
involved with the psychopath’s slantedness-integration is not a ‘poor or bad supplanting-conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking—apriorising-psychologism’ (which is a supplanting-conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism nonetheless) but an elicited threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism, construed by the slanted social protraction of the psychopath’s slantedness inducing a social psychopathy; and it is these strands-of-perverting-temporal-dispositions including that of the psychopathy that are the subject of every institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) level’s psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Technically, it can be said that the underlying psychopathic phenomenon known as postlogism—as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is associated with all the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) by its eliciting of ‘protracted slantedness’ in temporal-dispositions (‘ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), and so given the de-mentative/structural/paradigmatic relative-ontological-incompleteness-of-reference-of-thought induced threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism. Hence, the need for ‘dimensionality-of-sublimating’—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-

This ‘institutionalisation template’ as articulated above implying ‘a next best case approach’ in ‘construing the institutionalisation/intemporalisation of human virtue’ where we are face with the reality that man is not as of intemporal-disposition but rather temporal/shortness-to-intemporal/longness dispositions may be counterintuitive with respect to our illusion-of-the-present/present-consciousness, as any present-consciousness is shaped to perceive itself as intemporal with the notion that its reference-of-thought–categorical-imperatives/axioms/registry-teleology are perfectly sound. But we simply need to take a ‘postconvergence’ look of such ‘ontological strands-of-perverting-temporal-dispositions’ regarding recurrent-utter-uninstitutionalisation from base-institutionalisation institutionalisation/intemporalisation reference, ununiversal from universalisation institutionalisation/intemporalisation reference, non-positivism/medievalism from positivism institutionalisation/intemporalisation reference, and prospectively our procrypticism from notional–deprocrypticism institutionalisation/intemporalisation reference; to appreciate that such a representation is not farfetched and its implication of the need of our psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring over our perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> strands-of-perverting-temporal-dispositions at our uninstitutionalised-threshold of procrypticism (involving our endemisation/enculturation of the protracted-slantedness of positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation along the various temporal-dispositions from ignorance to temporal enculturation/endemisation).

Technically,
distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing> by the temporal-dispositions involves simply conjugating/inflecting the underlying ‘(as dialectically-or-contendingly-out-of-phase or hollow-mimicking) insane/slantedness fitment’ of the postlogic mind of the psychopath to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. In the bigger scheme of things, the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained with the concept of unconscionability-drag) as ‘it enables mental-devising-representation contiguity in recomposuring’ across all institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}). The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposuring how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-
and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’. The insight we can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as ‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought–in-superceratory–epistemic-conflatedness (deconstruction/ontological-reconstituting–as-to-conflatedness possibilities)–subexistence-in-existence being that which holds existential possibilities or existential potency for existential reality or ontological veridicality, as allowed by referential-depth or (‘allant’ or ‘fugue’ in French) or ‘natural emanant dynamic creative vitality/drive’, i.e. ontological-normalcy/postconvergence ‘unwinding’ as deconstruction/ontological-reconstituting–as-to-conflatedness (more like the subconscious is that which holds existential possibilities/existential potency for ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation consciousness reality/veridicality, or more like quantum-mechanics is actually an ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation about evasive atomic-level physical reality, more like musical and/or artistic creativity hermeneutics is the subexistence-in-existence possibilities or existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-

Thereafter, the ontological exercise is about having ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘an ontologically-veridical abstract and infallible referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on the one hand, candoring/prelogism /organic-comprehension-thinking ontologising, or on the other hand, decandoring/distractive-alignment-to- reference-of-thought—apriorising/axiomatising/referencing>/threshold-of–nonconviction/madeupness/bottomlining—as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism, even as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implies a continually-evasive/ephemeral social world dynamics but that is graspable in referential terms. This allows for a truly universal and dynamic psychological science (and sound foundation for grasping ‘the veridicality of meaning’). The tools for such an ontological entrapment is basically about ‘de-mentation–supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics’ of ‘reference-of-thought’ of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications ‘transdimensional-meaningfulness/memetic refinements’ as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as prospective reference-of-thought involving fundamentally the organic harnessing of the notions of candoring/prelogism, dialectically-or-contendingly-in-phase, organic-comprehension-thinking, prelogism-as-of-conviction, as to profound-supererogation on the one hand and on the other hand decidandoring, distractive-
alignment-to-reference-of-thought, dialectically-or-contendingly-out-of-phase, non-ontological-reference, non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing—apriorising-psychologism, not-veridical-thinking-reference-rather-preconverging-or-dementing-reference, perversion-of-reference-of-thought—preconverging/dementing—apriorising-psychologism (mechanicalism, alchemic-like-reasoning, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, shortness-of-register-of—meaningfulness-and-teleology); which allows the human mind to project beyond just its illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage, and truly have a fulsome picture of universals. Postdication (as an abstract and infallible referencing/correction-tool) allows for the ‘ontological liberation of human mental-devising-representation (of meaning) from any present (recomposured)-consciousness-awareness-teleology’ (whether in the bigger scheme of reference of specific consciousness-awareness-teleologies like recurrent-utter-uninstitutionalisation–base-institutionalisation, ununiversalisation-universalisation, non-positivism/medievalism-positivism, and prospectively procrypticism-deprocrypticism) as ‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated (recomposured)-consciousness-awareness-teleology’ (given that these consciousness-awareness-teleologies are the recomposured outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-deepening’) but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normacy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/utter understanding by the very
nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness inherent in any (recomposured)-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension. Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding—or-attributive-dialectics) hermeneutically/reprojectively-educing-human—meaningfulness-and-teleology ‒into-the-existentialism-becoming of personhoods-and-socialhood-formation (existential-storying-in-contiguity). An analogical case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology. However, the bigger picture is that if prior/superseded institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness]/ontological-aesthetic-tracing<-perspective—ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩ have effectively occurred and so, counterintuitively to their natural (recomposured)-consciousness-awareness-teleologies, as anticipated by postdication right up to our present positivistic institutionalisation/intemporalisation owns (recomposured)-consciousness-awareness-teleology’; there isn’t any particular ontological reason for intemporal/ontological meaning not to be construed in ontological-normalcy/postconvergence (postdication) as more veridically/ontologically real, beyond and counterintuitively to the positivistic mind’s temporal (recomposured)-consciousness-awareness-teleology (even if it is unintelligible/existentially-suprastructural to it). Such counter-intuitiveness arises because a prospective transcendental psychoanalytic-unshackling/memetic-reordering/institutional-recomposing implied by
comprehension-thinking (organicism /'intemporal-prioritisation-of- reference-of-thought’–as-conflatedness -or-ontological-reprojecting/longness-of-register-of– meaningfulness-and-teleology )-ontologising from the prospective registry-worldview/dimension’. For instance, where a positivist mind might see a forest as a subject of scientific inquiry/understanding, a non-positivist/medieval mindset/ reference-of-thought might rather see a mentally unconscious man going into the ‘evil forest’. Such ‘existential parochial perspectives’ will arise anyway from procrysticism viewed from deprocrysticism, though of a different nature than the example expressed above. In that sense, the deprocrystic mind might actually seem ridiculous in the procrptic registry-worldview/dimension but ‘there should be no temptation to want to appear great or adjust in such a perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perspective but rather to make it irrelevant’ otherwise the deprocrystic mind compromises the essence of its purpose, just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise its positivist stance’ by trying ‘to be wonderful’ in a non-positivism/medievalism perspective that is rather ‘in want of transcendence-and-sublimity/sublimation/supererogatory–mentativity’; as it is exactly because the temporal non-positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendence-and-sublimity/sublimation/supererogatory–mentativity, requiring that such an intellectual analyst be of ‘ presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality–of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ with temporal meaningful
frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-worldview/dimension in need of transcendence-and-sublimity/sublimation/supranatural/sublimation/supernatural (procrysticism) to avoid dividing its meaningful-referencing instead of taking it prospectively (deprocrysticism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the de-mentative/structural/paradigmatic conceptual limits (uninstitutionalised-threshold) of the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy—or-contiguity—or—ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then arises is that it doesn’t carries the meaningfulness sought for transcendentally. On the other hand, transdimensional/transcendental meaningfulness-and-teleology is precedingness/supersedingness/ascendency accruing as ‘existential psychoanalytic ontological form (in full blossoming of the transcending dimension)’ beyond the superseded intradimensional de-mentative/structural/paradigmatic conception limits (uninstitutionalised-threshold) of the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of that registry-worldview/dimension (which itself had been the
outcome of a preceding existential psychoanalytic ontological form). Memetism as to
suprastructural \textsuperscript{55} meaningfulness-and-teleology \textsuperscript{7} will refer to the projective conceptualisation of \textsuperscript{55} meaningfulness-and-teleology \textsuperscript{11} beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation); highlighting as ontologically wrong any relation to intradimensional meaningfulness as (intemporally/ontologically)-sanctuous-by-reflex (as this wrongly undermines the \textsuperscript{14} de-
mentation-\{supererogatory\-ontological\-de-mentation-or-dialectical\-de-mentation—stranding-or-attributive-dialectics\} of temporal-dispositions-postlogic-backtracking-<iterative-looping-

referencing-syncretising-as-straight/candored)' at that registry-worldview\'s/dimension\'s uninstitutionalised-threshold \textsuperscript{102} requiring prospective memetic-reordering. (As a side note, this will explain while ‘referentialism’ in contrast to ‘categorisation’ is the appropriate knowledge-
cadre for such a more or less deconstructive articulation in ontological-
normalcy/postconvergence and suprastructural, as is the case with this paper, by the fact of the need for a requisite ‘habituation-into and repeatability-from-different-textual-meaningfulness-
perspectives’ that is necessary to get-to-and-grasp not only an explanation but critically as well the requisite psychoanalytic-state of a construed existential psychoanalytic ontological form, in full blossoming of the transcending dimension, as ontological meaningfulness.) Finally, it is just a matter of fact going by the institutional-cumulation/institutional-recomposure-(as-to-
\textsuperscript{45} historiality/ontological-eventfulness \textsuperscript{37}/ontological-aesthetic-tracing-<perspective\-ontological-
normalcy/postconvergence-reflected-`epistemicity-relativism’>} process that human cross-
sectional mentation-capacity in relation to the intemporal-preservation-entropy-or-contiguity–
meaningfulness (as rather intradimensional or a registry-worldview constructs), and arrives at the
grander notion of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument which grasp
should enable greater human transcendental possibilities. Of course, ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how
do our development and institutionalisation/intemporalisation of true knowledge ‘save us from
potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value
as of social-stake-contention-or-confliction’, rather than how do we over-idealise ourselves and
thus fail to be preemptive (as the ‘human cross-sectional mental equilibrium disposition’, at any
successive transcendence-and-sublimity/sublimation/supererogatory—dementativity/institutionalisation in the ‘human essential notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-
normalcy/postconvergence> equilibrium nature which is ontologically true’, under-accounts for
‘temporal-nature which is not ontologically true’, and over-accounts for ‘intemporality /longness nature which is equally not ontologically true’—the insight for this is
that institutionalisation/intemporalisation is a psychoanalytic-unshackling/memetic-reordering/institutional-recomposing tool, it doesn’t transform temporal-dispositions which is
the exclusive purview of individual sense of dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and by its very nature is ‘beyond a philosophical transformation
exercise’ as the latter exercise is mainly to ‘construct articulations for secondnaturing’ at best
(articulate new institutionalisation/intemporalisation deterministic-and-operant possibilities for

mentativity)/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), hence the need to refer analytically to human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> s as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existentialexistential-contextualising-contiguity–reification/superseding–oneness-of-ontology by maximalising-recomposing–for-relative-ontological-completeness—unenframed-conceptualisation highlighting the uninstitutionalised-threshold and not analytically implying by reflex solely on the basis of a human intemporal-disposition mental-disposition); and prospectively, do our part of the ‘transcendental homework’ that has brought the human species this far taking cue from retrospective transcendence-and-sublimity/sublimation/superego–de-mentativity. By extension this explains how the notion of ‘knowledge problem’ is to be apprehended transcendentally/transdimensionally/interdimensionally (as a contiguous intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as ‘social problem/questioning’ is an ‘intradimensional focus’ around logical operation/processing/contention based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with the temporal defect of possible denaturing of such reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. However, ontological-normalcy/postconvergence (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge problem as ‘social problem/questioning’ on the ‘intemporal-preservation-entropy’ itself-and-
uninstitutionalised-threshold is articulated, with contention then being about reflecting/perspectivating/highlighting and aetiologising/ontologising this, even if it is intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this regard, the development of positivism from non-positivism/medievalism). It should be noted then that the de-mentating/structuring/paradigming is an intemporal/ontological projection referencing de-mentating/structuring/paradigming beyond-and-the-non-implication of an equivalence between (‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness’-or-ontological-reprojecting pedestal ing) with the intradimensional ‘consciousness-awareness frame-of–social-stake-contention-or-confliction’ of the temporal/preconverging-or-dementing –apriorising-psychologism dimension, more like the positivist ontological biology and medicine de-mentating/structuring/paradigming is beyond/supersedes-and-is-a-non-implication of an equivalence with the ‘consciousness-awareness frame-of–social-stake-contention-or-confliction’ of say non-positivism/medievalism temporal value dispositions with respect to the notion of disease, that is, it’s point is to define an altogether different and superseding meaningful frame or de-mentating/structuring/paradigming and is not involved in an idle exercise of elevating and articulating its meaning in terms–as-of-axiomatic-construct of and implying an equivalence with non-positivism/medievalism meaningfulness. That is equally the relation between a transcending notional–deprocripticism registry-worldview and the transcended procrypticism worldview. Postdication as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (postconvergence), as an ontological-reconstituting–as-to-conflatedness psychoanalytically/memetically/meaningfully allows for a purist (candored/decandored) ontological grasp/predication of the veridicality of any institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) (retrospectively to
prospectively); avoiding the defect of intradimensional-referencing of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and consequently a superseded/transcended registry/registry-worldview-or-dimension as preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> undermining ontological veridicality. This transcendental insight is in line with the idea of low teleologies or temporal concerns in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism, and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought’–as-confalatedness –or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology”), and ontologically long in an intemporal/species-possibilities/abstract-eternity-of-being-mental-projection/eudaemonic-contemplation), and their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/characteral-disposition whether of low or higher teleology; hence any such ‘storied/articulated’ absolutely specific-individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of individuation aetiologies’, though all such storied/narrated specific individuation aetiologies represent the full possibilities of any and all individuals ‘as receptacles of individuation aetiologies’). By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a profound-supererogation disposition that is beyond just one institutionalised/intemporalised registry-worldview/dimension reference–
of-thought–categorical-imperatives/axioms/registry-teleology but abstractly and supererogatorily across all transcendental retrospective-and-prospective institutionalisation/intemporalisation registry-worldviews/dimensions as so-reflected by dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-
mentativeness/epistemic-growth-or-conflicatedness/transvalutative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation); with the implication that the highest teleologies of Base-institutionalisation (as percolation-channelling-
in-deferential-formalisation-transference> undermining of recurrent-utter-
uninstitutionalisation and its vices-and-impediments ) –equivocates as of profound-
supererogation to the highest teleologies of universalisation (as percolation-channelling-
in-deferential-formalisation-transference> undermining of ununiversalisation and its vices-and-impediments ) –equivocates as of profound-supererogation to the highest teleologies of Positivism (as percolation-channelling-
in-deferential-formalisation-transference> undermining of non-positivism/medievalism and its vices-and-impediments ) –and prospectively, equivocates as of profound-supererogation to the highest teleologies of notional–deprocrypticism (as percolation-channelling-
in-deferential-formalisation-transference> undermining of procrypticism–or–disjointedness-as-of-reference-of-thought and its vices-and-impediments ). It should thus be noted as such that ‘higher teleologies’ are ‘equivalences of existential’ (in terms–as-of-axiomatic-construct of notional–firstnaturedness—
temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-
ormalcy/postconvergence>), and not equivalences of institutionalisation/intemporalisation levels. That is, being in a transcended institutionalised/intemporalised registry-worldview/dimension (internalisation and formalisation induced as a secondnature) doesn’t equivocate as highest teleologies to the existential projection that ‘had the vision’ in the prior/superseded subknowledging/mimicking/untranscended registry-worldview/dimension
(‘with-no-elicited-positive-opportunism /much-more-likely-temporal-negative-disincentive’ and ‘out-of-the-blue’) to articulate-and-uphold-for-percolation-channelling-<in-deferential-formalisation-transference> the prospect of the transcended-registry-worldview/dimension-with-its-prospective-universal-virtue-over-the-likes-and-impediments-of-the-prior-registry-worldview/dimension even as it seem unintelligible/existentially-suprastructural to the prior/superseded untranscended/preconverging-or-dementing-apriorising-psychologism registry-worldview/dimension. So in terms-as-of-axiomatic-construct of ‘higher teleologies’ (emphasising the existential intemporal-disposition as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an institutionalised/intemporalised positivistic world doesn’t necessarily equivocate us to the Galileos, Descarteses, Newtons, Leibnizes, Rousseaux, Darwins … behind the articulation-and-upholding-for-percolation-channelling-<in-deferential-formalisation-transference> of a positivistic registry-worldview/dimension (even though together with them we all may recognise and operate within a positivistic world). That is, the ‘existential profound-supererogating that enables the articulation-and-upholding-for-percolation-channelling-<in-deferential-formalisation-transference> of a transcending registry-worldview/dimension as to dimensionality-of-sublimating-amplituding-formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ is the higher teleology‘over the mere-institutionalised-being-and-craft’ in such a transcended registry-worldview/dimension. And why is this distinction critical? Because prospective (intemporality) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation necessarily calls upon the (intemporal)-kind that articulated-and-upheld-for-percolation-channelling-<in-deferential-formalisation-transference> the superseding
institutionalisation/intemporalisation/transcendence; and the condition of mere-institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn’t speak of a disposition to prospectively articulate-and-uphold-for-percolation-channelling\textless in-deferential-formalisation-transference\textgreater an intemporally requisite prospective registry-worldview/dimension institutionalisation/intemporalisation that is intemporally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for ‘human registries-disambiguation at uninstitutionalised-threshold’, and as being notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>. The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemporal virtue as civilisational over temporal vices-and-impediments\textsuperscript{105} (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/memetic-reordering with respect to the base physical animal selectivity process (genetics) of the human species generational succession. On other issues of pertinence in the bigger scheme of things: (i) Meaningfulness of notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to ‘existential idealism/success’ as these define mental orientations or registry-worldview teleological-dispositions. Going by the human ‘institutional-cumulation/institutional-recomposure-{as-to-}historiality/ontological-
eventfulness\textsuperscript{7}/ontological-aesthetic-tracing-\langle\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism}\rangle^* \text{ process involving variously candored/straightness/prelogism and decandored/oblongated/distractive-alignment-to-reference-of-thought-\langle\text{of-apriorising/axiomatising/referencing}\rangle^* \text{ mental-devising-representation of registry-worldviews dependent on which registry-worldview is considered perversion-of-reference-of-thought-\langle\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle^* or transcendental/superseding; in any given registry-worldview’s social context, the notion of ‘existential idealism/success’ is averagely viewed invariably as ‘living to the ‘opportunistic ideals or conventioning/social-temporal-thresholding’ of the inherent registry-worldview’ irrespective of whether it is perversion-of-reference-of-thought-\langle\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\rangle^* or transcending/superseding, and not necessarily by its veracity/ontological-pertinence. But then given that what allows for the institutional-cumulation/institutional-recomposure-\langle\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-\langle\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism}\rangle}\rangle^* \text{-process transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to take us from an uninstitutionalised animal to now a positivistic one and prospectively a deprocryptic one; it is difficult to contemplate ‘existential success/idealism’ from a knowledge/ontological perspective (in contrast to a temporal <amplituding/formative> wooden-language-\langle\text{imbued—averaging-of-thought-\langle\text{as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications}\rangle}\rangle^* perspective) without identifying that intemporal-disposition in contrast to temporal mental-dispositions is what is ‘truly existential success’ as the intemporal-disposition is very much what allows for human transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity and subsequent institutionalisation/intemporalisation, much as the distilling process allows for the lightness of hydrocarbons, ‘where lightness is virtue’. Basically, it can be said that without the human quality of the ‘aetiologisation/ontological-escalation individuation of the intemporal’ we’ll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the ‘percolative impact’ of the ‘firstnature/intemporal’ (which is not readily available to the immediacy/shortness-of-register-of—meaningfulness-and-teleology of minds of temporal-dispositions). For instance, men did not ‘by magic’ develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding ‘psychoanalytic liberation’ that allowed for such a development induced by philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profoundly applicative enough’ and more or less cultic (available more or less to a priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolation-channelling-&lt;in-deferential-formalisation-transference> effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was outlying without scale and time and the sufficient lack of chaos and war). As the establishment of a registry-worldview’s/dimension’s ‘(re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking}–‘projective-insights’/‘epistemic-projection-in-conflatedness’′-of-notional–deprocrypticism-prospective-

registry-worldview memetic-reordering’ and has as merit a realistic and hence more ontological-primemovers-totalitative-framework² conceptualisation over ontologically-flawed-intemporal-construction-with-the-drawback-of-temporal-dispositions–preconverging-or-dementing—apriorising-psychologism underlying the suprastructural and practical introduction of notional–deprocrypticism postconverging-or-dialectical-thinking–apriorising-psychologism rules/principles (postconvergence referentialism entropy of institutionalisation/intemporalisation). The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from the superstitious/religion, universal-notions/essences, principles-rationalism/positivist-idealism and then rational-realism as of notional–deprocrypticism is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain its world, but then realises across institutional-cumulation/institutional-recomposure–⟨as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing–⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism⟩⟩ that successive introduction of more and more ‘realistic’ conceptualisations enable a grander ontological-primemovers-totalitative-framework² and grasp of its world. Further, what differentiates principles-rationalism/positivist-idealism and rational-realism as of notional–deprocrypticism is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the disambiguation of dispositions in meaning construal and subsequent logical operation/processing/contention at reference-of-thought (on the basis that human dispositions are temporal-to-intemporal/shortness-to-longness; with human registers/registry-teleologies involving subknowledging—impulse/compulsive-dementing/slantedness/psycopath, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-

sublimity/sublimation/supererogatory~de-mentativity is most probably an outrightly blunt/incisive utter construct, and why, because higher institutional-cumulation/institutional-recomposure-(as-to-\(^{45}\) historiality/ontological-eventfulness\(^{37}\)/ontological-aesthetic-tracing-\(<\)perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’>\) imply higher perversion of ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology^-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are ‘not readily perceived as undermining intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in their ontological-primemovers-totalitative-framework\(^{72}\) and are often wrongly analysed as being intemporally preservational’ but for a very insightful ontological reflecting/perspectivating/highlighting exercise of organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of–’reference-of-thought’–as-confalatedness’-or-ontological-reprojecting/longness-of-register-of–’meaningfulness-and-teleology’) ontological-escalation/aetiologising over threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing\(^{19}\)–apriorising-psychologism; requiring a corresponding intellectually decisive and utter articulation for procryptic-to-deprocryptic crossgenerational deprocryptic transcendence-and-sublimity/sublimation/supererogatory~de-mentativity supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking –apriorising-psychologism, as the procryptic ‘perversion-of–’reference-of-thought’–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’> is weakly graspable in the cross-section of the social-construct for the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to work effectively by ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation as to notional~disjointedness-as-of–’reference-of-thought even though such ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and
notional-disjointedness-as-of-reference-of-thought might later arise in social integration from institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> following an intellectually utter and decisive articulation, or possibly with successive other such intellectual articulations, of the perpetuation-of-notional–depropycrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Methodologically, it should draw on phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full-existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence-and-sublimity/sublimation/supererogatory–de-mentativity should be similar to say a literary work like Things Fall Apart by Chinua Achebe even though the latter is rather more about cultural-diffusion-from-Western-philosophical-transcendence which positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity integration into the society’s institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> undermines-psychoanalytically/psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring the society’s existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation allowing for positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. But then unlike Things Fall Apart, such a perpetuation-of-notional–depropycrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity being not a cultural-diffusion-from-another-society’s-philosophical-transcendence but rather a universal-human-intradimensional-philosophical-transcendence can be creatively devised as being in substitution to an ‘abstract cultural-diffusion-from-another-society’s-philosophical-transcendence transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, for an in-depth insight. However, the latter storying will have to be more deterministic, operant and of aesthetic
dementing –apriorising-psychologism/decandoring/distractive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing>/dialectically-or-contendingly-out-of-phase to represent registry-worldview/dimension ontological-veridicality ‘as thinking’ or perversion-of reference-of-thought-<as-effectively-apriorising-in nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ‘as preconverging-or-dementing –apriorising-psychologism’ respectively, as is implied in all the transcendence-and-sublimity/sublimation/supercogatory–de-mentativity from recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism, and prospectively perpetuation-of-deprocrypticism. This serves to provide the perspective/reflection to the present positivistic mindset/ reference-of-thought explaining while the ‘seemingly unlikely preconverging-or-dementing –apriorising-psychologism mental-devising-representation of its mind’ at its uninstituionalised/unintemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as procrypticism–or–disjointedness-as-of reference-of-thought so reflected/perspectivated from notional–deprocrypticism is more veridical than its illusion-of-the-present/present-consciousnessas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ representation. In the bigger scheme of things, such a ‘creative existentialism (full-existential-depth-implications) storying construal’ on perpetuation-of-notional–deprocrypticism re-elaborated to a ‘creative existentialism (full-existential-depth-implications) storying construal’ of all the transcendence-and-sublimity/sublimation/supercogatory–de-mentativity provides an even more profound and emanant-insight understanding of the anthropological continuity/anthropopsychology and the proper place of the present positivistic mind in the bigger scheme, and what is prospectively implied, as a perpetuation-of-notional–deprocrypticism transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity). Another ontological element of the perpetuation-of-notional-deprocripticism transcendence-and-sublimity/sublimation/supererogatory/de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct. Prior/superseded transcendence-and-sublimity/sublimation/supererogatory/de-mentativity are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence-and-sublimity/sublimation/supererogatory/de-mentativity from recurrent-utter-uninstitutionalisation being the strongest in its positive-opportunism as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of: ‘organising rules/principles’/base-institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where such organising/rules/principles/laws are constantly being remade competitively with respect to survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation-channelling in-deferential-formalisation-transference for intemporal transcendence-and-sublimity/sublimation/supererogatory/de-mentativity in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is a highly-diffusionary-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-
social intemporal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the ambits of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these institutionalisations transcendence-and-sublimity/sublimation/supererogatory—de-mentativity can elicit, in effect, a grander sense of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming rather than a temporal extricatory de-mentating/structuring/paradigming in their cross-section of the social-construct. However, it will probably be more facile for such a cross-section of the social-construct to be strongly disposed to adopt an extricatory/temporality de-mentating/structuring/paradigming rather than intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming regarding the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> accountability as intemporality—skewing (‘intemporality—asymmetric-subsumption-of-temporality—’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) rules/principles’ or notional—deprocrypticism with regards to their temporal direct/immediate survival opportunism
statistically to individuals on the cross-section of the social-construct. An intemporal disposition as ontological projecting that may elicit a sense of positive-opportunism\textsuperscript{5} for survival itself with base-institutionalisation will not necessarily have the same adherence effect on the cross-section of the social-construct when it comes to a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which temporal directness/immediacy for ‘individuals sense of survival-and-flourishing’ is not so obvious but for its abstract ontological veridicality and abstract intemporal transformation implications as is the case with deprocrypticism; but is rendered possible because of the relatively ‘strong preset institutionalisation/intemporalisation percolation-channelling-&lt;in-deferential-formalisation-transference&gt; for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ (on the basis of its untenability/internal-contradiction/internal-incoherence/institutional-constraining generation capacity); more like it would be fair to say that many an abstract and boring scientific efforts do not necessarily appeal temporarily but for the strongly preset institutionalisation/intemporalisation percolation-channelling-&lt;in-deferential-formalisation-transference&gt; for their social integration. Basically, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as temporal directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolation-channelling-&lt;in-deferential-formalisation-transference&gt; for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) in assuring prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity strengthens. To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. That is, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its
supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive). To the extent that transcendence-and-sublimity/sublimation/supererogation-de-mentativity highlights critically that it is what is the best enabler for survival-and-flourishing then it is a force of social transformation. Equally, an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with regards to human temporal practicality, by mere ontological-veridicality be a basis for its social integration, if the insight that it provides a grander survival-and-flourishing scheme isn’t immediately palpable. As in this case human temporal practicality disposition is perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-threshold. But then with an increasing cerebral grasp of our nature and our surrounding world rather than just passive endurers of nature-in-action, we can fairly anticipate and supersede intellectually our human temporal practicality dispositions, in this case with regards to deprocrypticism, and attain prospective knowledge-and-virtue generally. Meaning (defined previously as what defines/predicates value, thought and action) is actually a referential memetic construct in the referential exercise of the entropic preservation of preceding-intemporality/intrinsic-reality as validated by ontological-primemovers-totalitative-framework. This leads in the instance of ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ to the notion of ‘memetic-corruption or psychoanalytic-misrepresentation of reference-of-thought–categorical-imperatives/axioms/registry-teleology’; requiring a referential ‘memetic reordering/psychoanalytic-unshackling reference-of-thought–categorical-imperatives/axioms/registry-teleology’ for the entropic preservation of intemporality/intrinsic-reality as validated by ontological-primemovers-totalitative-framework. The referential memetism as suprastructural-meaningfulness implying that meaning is in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-
reality) and it is grounded on its validation/veridicality by its ontological-primemovers-totalitative-framework in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-ontological-good-faith/authenticity -of-reference-of-thought/candored, and then mentally-oblongated/decandored with respect to new/superseding soundness-or-ontological-good-faith/authenticity -of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold whether from recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-positivism/medievalism to positivistic, and prospectively procrypticism to deprocrypticism. More than just an exercise of grasping the possibilities of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it is critical that for future transcendence-and-sublimity/sublimation/supererogatory-de-mentativity we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of mortals’ (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity that enabled its world, the positive worldview from non-positivism/medievalism, but has been rather ‘institutionalised and secondnated there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential idealism/success’ must be the exclusive purview of the aetiological individuation of the
intemporal-disposition whose organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-‘ reference-of-thought’–as-confaltedness’-or-ontological-reprojecting/longness-of-register-of-‘meaningfulness-and-teleology’ )’s 10 universal projection/intemporality 51 keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through 103 universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional–deprocrypticism (to thwart ‘procrypticism–or–disjointedness-as-of-‘reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract eternity’ that is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the bigger scheme of things, all the vices-and-impediments 105 of successive registry-worldviews can be directly ascribed as corresponding 74 perversion-of–reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of temporal-dispositions at the registry-worldviews uninstitutionalised-threshold 02 whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework 72 constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent an recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments 105 of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as subknowledging /mimicking/perverting positivistic meaningfulness) those
of procrypticism. Virtue is plainly and simply about the-Good/understanding/knowledge-reification\textsuperscript{5}/ontological-primemovers-totalitative-framework\textsuperscript{7} construct with corresponding virtuous consequences of knowledge or lack-of-knowledge thereof. It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendental possibilities, otherwise we syncretise and preserve and articulate our temporality\textsuperscript{9}/shortness as being intemporal! (ii) ‘Intellectual solipsistic/emanant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing’ and subknowledging’ with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of human/social progress de-mentating/structuring/paradigming. While intellectual ontological/intemporal meaningfulness may strive to articulate a\textsuperscript{10} universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism\textsuperscript{7}-slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the-Good/understanding/knowledge-reification\textsuperscript{9}/ontological-primemovers-totalitative-framework\textsuperscript{7} and not impression/good-naturedness/wishfulness vagueness) the supersedingness of the intemporal-disposition-worldview (as ontological and upholding virtue in the medium to long perspective) over the cross-section of human mental notional--firstnaturedness—temporal-to-
intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—s, i.e. secondnaturings as formalisation and internalisation. For instance, if men were of an intemporal-disposition we will only need ‘moral philosophy’ and ‘no law’ as the institutionalising principle of the law is a tacit recognition that realistically we need ‘dominating/superseding artifices’ or ‘institutions and their rules and narratives’ whether the human subjects have a grasp of the ‘philosophical’ universal end purpose or not). This is the attitude that preserves the virtue inherent in the intemporal conceptualisation of meaning and ‘not any temporal romantic idealism’ which only leads to perversion-of-reference-of-thought—effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in particular in the ‘extended-informality—susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology’ (informal settings) where the constraining social universal-transparency—transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness— (usually introduced in formal settings) is not available. Hence intellectual responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought—effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation— as to preconverging-or-dementing—apriorising-psychologism. This involves avoiding the naivety of articulating meaning only in the sense of the intemporal ideal but including a constraining and notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—disambiguating realism that upholds/preserves intemporality—longness and stifles temporal-dispositions
perversion-of reference-of-thought-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > inclinations. Such an approach is known as the ‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances’/temporal-dispositions to knowledge/intemporality which then allows for scrutinising and preempting ‘the ignorances’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct). ‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturting and internalisation. ‘Intemporal and temporal disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional meaningfulness for instance respectively as notional-deprocrypticism and as procrypticism (perversion-of reference-of-thought-as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of positivistic meaningfulness), just as there is mutual unintelligibility between positivism and non-positivism/medievalism meaningfulness. This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or
prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews share the same reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); wherein it is transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing that plays out to enable the utter superseding/transcendence of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension over the prior/transcended/superseded intradimensional meaningfulness. For the simple reason that intrinsic-reality being preceding as ontological-normalcy/postconvergence it won’t let the positivistic mindset/reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> of the mortals that we are, in the sense that a cholera epidemic that was to occur say in 100 b.c. Will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; thus naivety will be to strive to syncretise in temporal-and-social-trading our discomfort/unpalatability in construing intrinsic-reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with ‘reasoning-through/utterion’ with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as preconverging-or-dementing–apriorising-psychologism
(where the non-positivism/medievalism registry-worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-Good/understanding/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling-<in-deferential-formalisation-transference> mechanism. This ontological insight (transversality~of-affirmative-and-unaffirmative–disambiguated~`motif-and-apriorising/axiomatising/referencing” that plays out to enable the utter prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendence-and-sublimity/sublimation/supervolatory–de-mentativity, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-worldview/dimension as notional~deprocrypticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter superseded/transcended as of ‘reasoning-through/utterion’ and represented as preconverging-or-dementing”–apriorising-psychologism in line with the preceding ontological-normalcy/postconvergence nature of intrinsic-reality/ontology, likewise with the idea that notional~deprocrypticism validation will arise from the untenability/internal-contradiction/internal-incoherence/institutional-constraining of procrypticism as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology” as of prospective notional~deprocrypticism takes hold in the the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework institutionalisation percolation-channelling-<in-deferential-formalisation-transference> mechanism. So deterministically and operantly, without any discretion allowed, from the intemporal/ontological perspective, it is a
crossgenerational collapsing/overriding-and-superseding of temporal-dispositions and a registry-worldview/dimension-intradimensional-meaningfulness that is perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation construed in transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ involving reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as the backdrop of new reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposing that enables prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Thus technically, preconverging-or-dementing—apriorising-psychologism arises simply by a shift of reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be more intemporally-preservational); with the preconverging-or-dementing—apriorising-psychologism reflected/perspectivated in the mental-devising-representation fully implied by the new transcending/superseding reference-of-thought (of postconverging/dialectical-thinking—apriorising-psychologism) about the prior transcended/superseded reference-of-thought (and so, beyond the latter’s registry-worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated ontological-impertinence as of notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised-preconverging/dementing—qualia-schema> and go on to be of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag this now shown-to-be-wrong reference—
of-thought). preconverging-or-dementing –apriorising-psychologism as such is easily and spontaneously reflected of a prior/superseded/transcended registry-worldview/dimension like for instance a positivistic registry-worldview/dimension mental-devising-representation reflecting the preconverging-or-dementing –apriorising-psychologism of a medieval registry-worldview/dimension. But then this is because the positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-of-the-present/present-consciousness/epistemic-totalising –self-referencing-syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension personhoods-and-socialhood-formation has to deal with. However, implying similarly the preconverging-or-dementing –apriorising-psychologism of the positivistic registry-worldview/dimension from its intradimensional perspective where its own reference-of-thought is superseded/transcended by a prospective reference-of-thought as notional–deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-consciousness/epistemic-totalising –self-referencing-syncretising/mirage that its personhoods-and-socialhood-formation has to deal with, lead to the positivistic registry-worldview/dimension by reflex setting-aside/ignoring the prospective and veridical reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity, and go on to self-reference-syncretise its transcended/superseded reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/reference-of-thought will likely shift the reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A’s illness, the mental-devising-representation of the positivistic mindset/reference-of-thought will be that A is preconverging-or-dementing–apriorising-psychologism and that a germ and biological functioning theory of the human body is the reference-of-thought for A’s disease. But then intradimensionally, A and B and their society
reification\textsuperscript{7}/ontological-primemovers-totalitative-framework\textsuperscript{7} conceptualisation. The reason why ontological-normalcy/postconvergence indicates that ‘good-naturedness constructs’ are defective is quite simple as it is based on adhering to a registry-worldview’s/dimension’s institutionalisation temporal–mere-form/virtualities/dereification\textsuperscript{7}/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9}, which along the institutional-cumulation/institutional-recomposure-(as-to- historicality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) are successively shown to be defective-as-always-being-sub-par-to-intrinsic-reality and defining the uninstitutionalised-threshold\textsuperscript{10}. Virtue and ontology/intrinsic-reality rather lies in the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and not its reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{8}, with the latter only being pertinent in the sense where it relays intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Such a relaying is not within the ambits of good-naturedness constructs but rather the-Good as a continuous refinement of ontological-primemovers-totalitative-framework\textsuperscript{1} that ensures re-institutionalisation/re-intemporalisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when ontological-primemovers-totalitative-framework\textsuperscript{7} so reveals it. Thus supposed an individual shows good-naturedness following the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{1}, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalised registry-worldview/dimension that warrants that one simply gets one’s way no matter the situation even if it means committing murder to have some food for oneself and close ones; a good-natured quality that is highly rated for survival in an recurrent-utter-uninstitutionalised setup. That is perfectly within the good-naturedness ambits of a survival-driven registry-

Thus it is the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework” that carries the mantle of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and not good-naturedness/vague-impression drive which temporal-mimicking (unconscious or conscious) shouldn’t be confused with preserving ontology and virtue. Thus the basic reason for this counter-intuition about the veridical nature of good-naturedness construct is that it is intradimensionally <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag” with the wrong implications of inherently representing the “reference-of-thought–categorical-imperatives/axioms/registry-teleology”",-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension as absolute intrinsic-reality/ontology without any factoring of intrinsic-reality/ontology ontological-normalcy/postconvergence and suprastructural nature as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework” does. This fundamentally explains why all prior/transcended/superseded registry-worldview’s/dimension’s present-consciousness/illusion-of-the-present/epistemic-totalising ~self-referencing-syncretising/mirage are necessarily preconverging-or-dementing “–apriorising-psychologism from the mental-devising-representation of the prospective/transcending/superseding registry-worldview/dimension in the requisite ‘postconverging-or-dialectical-thinking”–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise that enables the existentialism (full-depth-of-existential-implications) deconstructed/’ontologically-reconstituted’ becoming of the

Thus this insight in transcendental analysis is that by its very nature in that it puts into question ways, assumptions and traditions of thought and practices, the possibility of truly profound insights that go well beyond more or less platitudes and inevitably requires taking stock of the full-depth-of-existential-implications/existentialism of transcendental-meaningfulness—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, given the need to boldly overcome intellectual dead-ends and introduce de-mentating/structuring/paradigming shifts often with inconvenient and unpalatable implications to the given registry-worldview/dimension personhoods-and-socialhood-formation. It requires more than just a sense of professional and technical craft but often more critically a profound sense of
rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation-effect) towards profound-limited-mentation-capacity/longness-of-register-of-meaningfulness/intemporality\(^{-1}\)-potency/registry-soundness which is behind the generation of ‘ontological/intemporal reference-of-thought and meaningfulness’ and the institutionalisation/intemporalisation process. This convergent selectivity is perpetually directed by ‘the-Good/understanding/knowledge-reification /ontological-prime-movers-totalitative-framework’ (not to be confused with good-naturedness/impression-drive) towards the validation of intemporality-potency and the dismissal of temporality-potency, and so in dialectical succession of registry-worldviews as the successive/snowballing institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>\). Thus establishing a human approximating/proxying/aligning relationship with the ‘potency of intrinsic-reality/ontological-veridicality (ontological-normalcy) which is a coherent oneness’ that can very much be anticipated as ontological-normalcy/postconvergence. In this regard, it should be reiterated that ‘registry (categorical-imperatives/axioms/registry-teleology) establishes reference-of-thought, and acts as the basis for and defines the operation of logic or logical processing’, and it is notionally all about registry-soundness (reflected as soundness of thought) when we are of supplanting–conviction-as-to-profound-supererogation\(\leftarrow\)–postconverging/dialectical-thinking\(\rightarrow\)–apriorising-psychologism or \(\rightarrow\) perversion-of-reference-of-thought\(\rightarrow\)–apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation when we are of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(\leftarrow\)–preconverging/dementing –apriorising-psychologism as with the hollow and formulaic narratives slanted by psychopath and mimicked by temporal-dispositions (beyond-the-consciousness-awareness-teleology\(\leftarrow\)–in-existential-extrication-as-of-existential-

Unlike the ‘notion of agreement-disagreement’ dealing with soundness/unsoundness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9} wherein a common apriorising–registry of interlocution is already established, there is no logical-basis for one apriorising–registry disposition as a prospective/superseding/transcending reference-of-thought like a positivistic registry-worldview to convince another apriorising–registry disposition as a prior/superseded/transcended reference-of-thought like a non-positivism/medievalism registry-worldview that it is the former’s reference-of-thought that is sound, other than for the fact that its better ontological-primemovers-totalitative-framework\textsuperscript{7} will in the middle to long-run be untenable with respect to the latter thus ‘collapsing’ it; and so reflecting ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism>’ over ‘desublimation unaffirmation/deprojection/des-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing—apriorising-psychologism>’ so-underlining existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>.

Intradimensionally within a registry-worldview like positivism, this could be construed as there is no basis for a mindset/ reference-of-thought advocating for scientific medicine as practiced
in hospitals to ‘logically convince’ another mindset/reference-of-thought advocating rather for traditional medicine (involving a mix of herbalism, incantations, spirits, etc.) that the former is more ontologically-veridical on purely logical terms (as the traditional medicine interlocutor operates logic according to the apriorising-registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology behind its traditional medicine meaningful-frame while the scientific medicine interlocutor operates logic according to the apriorising-registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology of a positivistic meaningful-frame), and it is purely the ontological-primemovers-totalitative-framework fact in that by and large more patients survive/get-cured by going to hospitals which then collapses the traditional medicine interlocutor’s reference-of-thought in the middle to long-run to impose the scientific medicine interlocutor’s reference-of-thought as a common one, and it is only when this common reference arises that the ‘notion of agreement-disagreement’ with regards to logical processing is now relevant, and it is irrelevant and non-applicable before that. The implication is that a ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> (aetiological ontological-primemovers-totalitative-framework construct), and so whether with regards to the epiphenomenon of psychopathy and social psychopathy (or with respect to ontological-veridicality or issues of reference-of-thought and meaningfulness generally): - As the ‘intemporal-disposition’ disposition which is prelogism–as-of-conviction,–as-to-profound-

Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought! So with the psychopath, you don’t watch the logic, you watch out for the apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought do protract and an ignorant prelogism mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogic (outcome precedes logical process) non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts’. The insight here is that without having at hand a ‘Différance-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation,—of-meaningfulness’ technique which is able to disambiguate the underlying existential reality of the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with regards to the various interlocutors, whether unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought and preconverging-or-dementing—apriorising-psychologism as

So without existential-contextualisation, the hollow forms of the essence-of-
meaningfulness are available for arrogation/impostoring by slanted/postlogic as of preconverging-or-dementing—a priorising-psychologism and in protraction/conjugation by the temporal-dispositions (beyond-the-consciousness-awareness-teleology ←<in-existential-extrication-as-of-existent-unthought>). - As previously explained, it is important to grasp that temporal-to-intemporal individuations dispositions are within the receptacles that are individuals, and hence there is no contradiction in saying that all individuals potentially have both the intemporal-disposition and temporal-dispositions, with the major existential/contextual difference among individuals with regards to the existential/contextual inclination to preserve-intemporality or fail-intemporality / temporality as social-stake-contention-or-confliction arise varying with regards to the implications of graver and graver temporal consequences (wherein as an archetype elucidation for instance, Socrates or Galileo will strive to keep on preserving intemporality / longness even when the conventional social-stake-contention-or-confliction threaten as they view the perpetuation of the ideas and principles they stood for were more critical for human posterity, but again ‘a sense of intemporality’ may vary from an intellectual nature where for instance an ordinary person may spontaneously save from drowning or defend another or others at risk to themselves, etc., implying that individuals ‘solipsistic or secondnatured philosophies’ with respect to the acuteness of social-stake-contention-or-confliction is more critical in determining their dispositions to preserve-intemporality or fail-intemporality / temporality); thus explaining a same notional and contiguous conceptualisation (rather as a variation of degree and not different notions) construed as notional—firstnaturedness—temporal-to-intemporal-dispositions←so-construed-as-from-perspective—ontological-normalcy/postconvergence> as shortness-of-register-of—meaningfulness-and-teleology to longness-of-register-of—meaningfulness-and-teleology, and equally explaining why institutionalisation/intemporalisation is possible, as the framework/social-construct wherein social-stake-contention-or-confliction arise can be
construed/designed to skew (‘intemporality\textsuperscript{51}-asymmetric-subsumption-of-temporality\textsuperscript{51}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{96}–de-mentativity) towards and encourage the intemporal-disposition to preserve-intemporality\textsuperscript{51} over failing-intemporality\textsuperscript{51}/temporal-dispositions of postlogism \textsuperscript{-slantedness (postlogism \textsuperscript{-as perversion-of reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{96}>,–instigation-at-a-given-registry-worldview/dimension, that is instigative to the turning of the prospective ‘temporal defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance into registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{102}–defect<-as-Being-or-ontological-or-existential–defect\textsuperscript{85}), and its subsequent conjugation with \textsuperscript{\textsuperscript{5}ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Critically, this accounts for how individuals arrive at their various teleologies/finalities of the intemporal-disposition as ‘logically sound acts’ or temporal-dispositions as ‘logically unsound acts’ or defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (in the latter case, which are more or less incidental and salvable as just contingent). Further in a ‘dynamic-cumulative-aftereffect of subontologisation’ induced when such defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{96} of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance conjugate to (psychopath or other character) instigated postlogism\textsuperscript{77} as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness (a mental-disposition that from its

However, no institutionalisation construct, going by its implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity alienating ‘present as prior/transcended/superseded ontological-reference conceptualisation’ for ‘future as prospective/transcending/superseding ontological-reference conceptualisation’, has ever been acquiesced to socially without resistance even in instance induced by diffusion involving the power dominance of one cultural entity over another, with such resistance being at least in the short-term of a covert nature and of a ⟨amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag nature as well. Resistance is even stronger where transcendental institutionalisation is implied within a same cultural entity. Thus it might just be the case that the more or less itinerating clanic or tribal groups of early humans were the perfect model for a sort of complementary diffusion of transcendentalism that quickly enabled a hominid to achieve the core assets for its perpetuation of civilisation as complex meaningfulness enabled by language and culture. Insightfully as well the possibility of positivism/rational-realism arising in Western Europe was greater by this same mechanism of complementary diffusion of transcendentalism given the mutually feeding diffusionary dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent.
Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and this author thinks that applies to us as of the positivism–procrypticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of–social-stake-contention-or-conflicton the basis of common/same/shared registry-worldview of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, however, at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor, and so at the threshold between recurrent-utter-uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, non-positivism/medievalism and positivism, and prospectively
procrypticism and deprocrypticism. The implication is that naturally all prospective institutionalisations by their implied transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity are ‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that their intemporal valor is inestimable (at least when we are looking retrospectively in appreciating that a positivistic outlook should supersede a non-positivism/medievalism outlook, and in the case where we are not uninhibited/decomplexified to equally construe that prospectively as a notional–deprocrypticism outlook should supersede a procrypticism outlook). This insight equally highlights that institutionalisation/intemporalisation is implied with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and is critical for would-be emancipation-inducing intemporal individuations in grasping the whys and hows of social reaction to transcendental conceptualisation going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, how temporal ‘resistance’ is superseded, the mechanism of percolation-channelling—<in-deferential-formalisation-transference> and how transcendental ideas are taken up over time and induce untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the middle to long run construed as of supererogatory—ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics). The fact is that while the social-construct is by and large a conceptualisation that determines individuals possibilities, the reality is equally that the social-
construct does have ‘powerful channels’ that enable individuals to drastically redefine what is the social. The individual, it is often ignored, is an abstract-atomic-social-construct, as in the individual is priorly implied in the social, beyond just in terms—as-of-axiomatic-construct of social aggregation in implying a meaningfulness and value-reference construct relationship to the abstract summative social. Such insight on the nature of human transcension-and-sublimity/sublimation/supererogatory-de-mentativity will certainly highlight why the Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect contributing in transforming medieval European societies mindsets into a positive worldview by cynically putting together all the positive knowledge they could muster and disseminating it throughout Europe, and so over the forces of obscurity of the days who understood the implications of such a venture. The fact here as well as with all issues of perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (by the prior relative-ontological-incompleteness-induced—‘threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism’, as-it-is-thus—‘in-wait’—for—perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ,—or-temporal-preservation-as-pseudointemporality—preservation, say of a medieval mindset/reference-of-thought with respect to a prospective positivistic mindset, as implied by ontological-normalcy), is that there was obviously no mutually common/same reference-of-thought between the Encyclopédistes as positivists and many in the medieval establishment as non-positivists for any mutually intelligible logical exercise. But rather it was a case of transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ wherein the ontological-primemovers-totalitative-framework of positivistic meaningfulness over non-positivism/medievalism ontologically
imposed the positivistic reference-of-thought, as the former elicits untenability/internal-contradiction/internal-incoherence/institutional-constraining in the latter as well as its relative positive-opportunism from its relative ontological effectiveeness such that it ends up being secondnatured further by percolation-channelling-<in-deferential-formalisation-transference>. Insightfully, in an intellectual conceptualisation exercise which, though conceptually contiguous, and while not necessarily implying similar dramatisation, in addition to its relatively diffuse implications in the sense of the contention being rather about human-mentation-capacity-furtherance and the fact that as a latter institutionalisation it is apparently less dramatic, at least as of its apparent negative social consequence given it is so focussed on human individuations as atomic-level point-of-departure of transformation but rather finding its radicalness more in the boldly implied décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}) emancipation of the positive/procryptic human, and as with all other institutionalisations, it is thus not an issue that notional–deprocrypticism meets in the short-term and temporary with ‘resistance’ or rather criticism (possibly by and large more in terms–as-of-axiomatic-construct of intellectual agreement/disagreement, as obviously every notion seriously contemplated about is); such that focus should be relatively more about construing veracity/ontological-pertinence and percolation-channelling-<in-deferential-formalisation-transference> thereof, as an objectively engaged intellectual/emancipatory exercise. - As the above circularity/recurrence/repetition/repeatability (of temporal-dispositions acting-recurrently-in-temporal-preservation …) is the basis for the registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect–<as-Being-or-ontological-or-existential–defect> reflected/perspectivated as the perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >

Insightfully again, going by the first example, it might (wrongly) be argued, by human ‘temporal extricatory de-mentating/structuring/paradigming’, that notions-and-accusations-of-sorcery in a non-positivism/medievalism setup should imply that any such accused should equally ‘make-up’ accusations in their own defence to neutralise and possibly defend their own interests. But such a stance is a temporal extricatory de-mentating/structuring/paradigming that faces human temporality\(^a\)/shortness with human temporality\(^b\). Intemporal/ontological/social/species/universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming will garner the insight that humanity-at-large at all such non-positivism/medievalism setups is rather in need (as the resolution) of a renewed institutionalisation prospectively as the positivistic registry-worldview based on rational-empiricism as the de-mentating/structuring/paradigming for superseding the vices-and-impediments\(^c\) that the enculturation/endemisation of the notions-and-accusations-of-sorcery speak of inherently, together with the social-structural implications and derivations arising, with regards to the non-positivism/medievalism registry-worldview. The vocation of the intemporal-disposition (intemporality\(^d\)/ontological-construct/longness-of-register-of meaningfulness-and-teleology\(^e\)) is not-to-come-to-and-construe meaningfulness-and-teleology\(^f\) at a same pedestal as a temporal-dispositions extricatory de-mentating/structuring/paradigming, and this invariably means that its on-occasion/incidental insight about temporal-dispositions defects (temporality\(^g\)) is ‘necessarily escalated ontologically at a humanity-at-large scale of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity ~’. This differs from issues in relation with existentially veridical logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supерerogation that ‘comes only after the notion of a sound reference-of-thought is established in the first place’ and are intradimensional, and doesn’t put-into-question/imply the soundness/unsoundness of registry/axioms/ontological-reference/contending-reference/meaningful-reference/anchoring-of-meaning/soundness-or-ontological-good-faith/authenticity—of-reference-of-thought-or-soundness-of-mind/registry-worldview, and furthermore are grounded on a same/common reference-of-thought/implied-registry-worldview. Thus if strictly speaking a postlogism phenomenon (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) like a psychopathic disposition is not the causation of a reference-of-thought perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supеrерerogation>, then what is its relevance and pertinence? The fact is with or without postlogism including psychopathic individuations, human limited-mentation-capacity-deepening warrants that our temporal-dispositions will nonetheless still fail the intemporal-preservation-entropy-or-
contradiction/internal-incoherence/institutional-constraining of that perversion, thus facilitating the referencing/registering/decisioning or stranding of the implied dialecticism in the social-psyche/collective-consciousness of what is effectively ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’ and what is preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism, with the latter being alienated in the operation of meaningfulness as the new institutionalisation is established. This straightforwardness, directness and definitiveness is fundamentally undermined by the iterability/iteration nature (of ontologically-veridical-meaningfulness-and-ontological-reference) induced by the postlogic hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> distorting effect including psychopathic which renders establishing social \textsuperscript{10}universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or registry-worldview-perversion together with the untenability/internal-contradiction/internal-incoherence/institutional-constraining of such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to other temporal-dispositions rather obscure, and further so as conjugated-postlogism\textsuperscript{7} mental-dispositions equally assume a distortional purposefulness with respect to ontologically-veridical-meaningfulness of their own. mentativity as the most important thing/purposefulness of humanity-at-large. But then, our human intemporal-disposition responsible for the institutionalisation/intemporalisation process is equally inclined to focus-the-mind-more-thoroughly when dealing with phenomena that undermine ontological-veridicality and so specifically with the undermining of soundness of reference-of-thought, and so across the various institutional-cumulation/institutional-

recomposeur-(as-to—historiality/ontological-eventfulness'/ontological-aesthetic-tracing-

effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{9}> phenomena as postlogic effect including psychopathic may actually have been a boost for more rapid human registry-worldview’s/dimension’s institutionalisation/intemporalisation as our intemporal-disposition going by its own intemporal preservational individuation disposition (in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is rather prone to apprehend and deal with \textsuperscript{9}perversion-of-\textsuperscript{9}reference-of-thought-\textsuperscript{9}as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{9}> issue at the humanity-at-large scale for the need of human registry-worldview’s/dimension’s institutionalisation as secondnaturing given that with human limited-mentation-capacity-deepening \textsuperscript{9}it is naïve to operate on the basis of a ‘human transformation on the wrong dependence of our intemporal-disposition as firstnatureness’, thus the reason why we institutionalise as secondnaturing taking cognisance of the reality of our temporal-to-intemporal individuations dispositions. Just as implied elsewhere in this paper, the skewing (‘intemporality\textsuperscript{-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity) (from shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{9} to longness-of-register-of–meaningfulness-and-teleology\textsuperscript{9} of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the transcendental construct of human virtue, and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recomposure/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as well. Seemingly, such a temporal approach will more or less be more effective in preempting the ‘incidental resolution of temporal-preservation-as-pseudointemporality\textsuperscript{-preservation’ (with respect to themselves in
incidentals of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation are construed and resolved by deferential-formalisation-transference of the intemporal-disposition approach as institutionalisation/intemporalisation. It is only such an intemporal approach that suprastructurally (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existent-unthought> -of-temporal-dispositions) allows for the requisite base-institutionalising of recurrent-utter-uninstitutionalisation, universalisation of ununiversalisation, positivising/rational-empiricism of non-positivism/medievalism, and prospectively deprocrypticising/preempting—disjointedness-as-of-reference-of-thought of deprocrypticism—or—disjointedness-as-of-reference-of-thought. The fact has always been that throughout the various institutionalisations this human intemporal-disposition individuation disposition has always been an indispensable re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—projective-insights/epistemic-projection-in-conflatedness—of-notional—deprocrypticism-prospective-sublimation) (as longness-of-register-of—meaningfulness-and-teleology) with respect to human social-stake-contention-or-confliction and-confliction and the reason for its conceptualisations to be construed as institutionalisation-as-virtue even though going by temporal-dispositions inclinations, ‘such abstract projection basically would hardly make sense’. The fact is that this intemporal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic/reprojective orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation” and more precisely psychopathy and social psychopathy in the social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’ going by its customary perception), since it doesn’t accommodate temporal/incremental/’disjointedness-as-of- reference-of-thought’ ways of thinking and instead strives for a universal implications depth-of-thought. Basically, on the same token the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation of formal constructs is all about construing human transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of human health. The reason for this deferential-formalisation-transference disposition is simple, as formal constructs ‘reason’ on the basis of intemporality/utter-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by
vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness-induced,‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—apriorising-psychologism’ of ordinary day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly universalising, poorly insightful, and with elevated subjectivity (not only with regards to facts but with the purported reference-of-thought as well as the apriorising-reference-of-thought-elements/apriorising-registry-elements which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), and so beforehand/as-of-a-priori even without the instigating effect of any ‘perversion-of-reference-of-thought’ reasoning is best left for inconsequential and trite matters of day to day living, as validated by the processes and procedures of our formal institutions however approximate in their success given the pervasiveness of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) even in formal setups, with its susceptibility to undermine or overlook ‘formal effectiveness’ (which can sometimes be naively construed as weakness of formalism rather than insufficiently effective formalism or extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) disruption of formal effectiveness). Abstractly — maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation meaningfulness carries an intemproal/longness-of-register-of—meaningfulness-and-teleology and universal coherence that incremental meaningfulness doesn’t, and thus maximalising-recomposuring-for-relative-ontological-completeness —

Whereas incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation tends to operate as if at any one instance human meaningfulness is absolutely set (and so rather as a mere form) and thus ”incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation is non-transcendental, and so with reference to the underlying intemporality’/longness (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) that ontological development from ‘shallow limited-mentation-capacity-{as of relative constitutedness}’ to deeper limited-mentation-capacity-{as of relative conflation}’/relative-ontological-completeness’/diminishing–human-epistemic-abnormalcy/diminishing–preconvergence elicits, and in lieu it is rather of a temporality’/shortness reflex mental-disposition such that correspondingly developed ”reference-of-thought–categorical-imperatives/axioms/registry-teleology”, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is related to in virtuality-or-ontologically-flawed-construal (being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference) terms, whether unconsciously (ignorance), expediently (affordability) or consciously. Thus as mental-disposition, ”incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation across all registry-worldviews involves teleological-decadence<-in-dimensionality-of-desublimating-lack-of —<amplituding/formative>superceratory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> at the uninstitutionalised-threshold’/2, speaking fundamentally of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal–
teleology—to–intemporal (longness-of-register-of—meaningfulness-and-teleology) as of human existential-form-factor. Thus the implication is that the ontological-contiguity—of-the-human-institutionalisation-process succumbs to uninstitutionalised-threshold due to the dynamic-cumulative-aftereffect of human temporality/temporal-dispositions as of shortness-of-register-of–meaningfulness-and-teleology in inducing uninstitutionalised-threshold which can only further be de-mentatively/structurally/paradigmatically resolved by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation recomposre as transcendental-enabling/sublimating/supererogatory-de-mentativity. Basically, incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation relation to meaningfulness as ‘a comprehensive additionality exercise’ thus fails to account for human temporality/temporal-dispositions as ‘not transformed’ and will tend at uninstitutionalised-threshold towards the perversion/derived-perversion of the institutionalisation reference-of-thought or reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—ontological-preservation (whether unconsciously, expediently or consciously), involving flawed-existential-elevation-of–reference-of-thought. This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology grasp of the same intrinsic-reality-as-ontological-veridicality in construing meaningfulness-and-teleology/teleological-differentiation involving rather a ‘continuous maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity—as of relative conflation arising from the overall and specific

effectively an existentialism construct; existentialism in the sense that our limited-mentation-

Furthermore, the precedingness nature of ontological-normalcy/postconvergence with respect to human existential-reference/existential-tautologisation pivoting to ontology/ontological-veridicality speaks of a ‘decentering’ to the prospective ontological-construct that —maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation effectively enables by placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology rescheduling (as it perpetually recompose to the intemporal as the relative absolute in value and ontology) over —incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation which wrongly falls back to the relatively limited-mentation-capacity-deepening of the temporal presencing-as-if-definitely-set in wrongly construing it as the relative absolute ‘reference-of-thought. Insightfully with respect to the notion of —maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for example) in effectively construing optimal prevention of criminality in society as a de-mentative/structural/paradigmatic construct that more vitally shapes human action and its ‘effective enforcement’ is actually a minor portion of the de-mentative/structural/paradigmatic construct of law over lawlessness; as it carries an inherent intemporality/longness that is further summonable in improving the law with human ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) reconstrual/reconceptualisation’. Like all formal constructs it wouldn’t rely on incremental-dispositions or temporal-accommodation of wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void'-with-regards-to-

Rather the limit of such intemporal thinking is not the wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications) but operates and is based in effect on intemporal projection-of-thought in an intersolipsistic relation to intrinsic-reality/ontology/ontological-veridicality on the validity of the intercession of ontological-primemovers-totalitative-framework implied predicative-effectivity—sublimation—as-to-underlying-ontological-commitment and by extension the intercession of formal/conventioning rules as institutionalisation arising in validation of the former, and their corresponding percolation-channelling—in-deferential-formalisation-transference in deferential-formalisation-transference. The notion of intersolipsism is actually the notional validation of the solipsistic argument as it frames the question in the right manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism question, which by so doing naively and wrongly implies that ‘individuals precede and/or are in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than the idea of becoming solipsistically in existence which subsumes their individuality and projecting of the same about others in an intersolipsistic recognition arising from individuals’ own solipsistic insights of predication-and-projection as so-reflected as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-imbued-and—‘hermeneutically/reprojectively-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing~conceptualisation), since it priorly implies existential emanance-or-becoming validated by ontological-primemovers-totalitative-framework about a superseding—oneness—
of-ontology as the intercessory basis for mutual-solipsism/intersolipsism. This author equally conceptualise a difference between solipsism and subjectivity in that solipsism is rather purely ontological as it implies notionally the individual’s perspective in existential becoming as of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought, in supererogatory epistemic-conflatedness (however effective-as-solipsistically-intemporal or ineffective-as-solipsistically-temporal such perspectival performance), whereas subjectivity refers to our animate-existential-referencing-as-subjectification which is not necessarily oriented to the ontological appropriateness/veridicality of that reference but rather is a notional construal of the reality of ‘human condition of perceived ontological appropriateness/veridicality’ irrespective of whether it can be said of such perception as being objectively right or wrong going by inherent ontological-veridicality. So solipsism speaks of the human projection in notionally construing ontological veridicality/appropriateness notwithstanding the perspectival effectiveness or ineffectiveness of such a construal as of solipsistic-temporality to solipsistic-intemporality and as such solipsism as of solipsistic-intemporality is the drive behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Whereas subjectivity speaks notionally of a human condition orientation with respect to perceived ontological veridicality/appropriateness no matter whether right or wrong. This possibility of distinguishing an inherently ontological foundation of existential meaning different from an ontological as human epistemic-conception reflexivity of perceived existential meaning is central to a notional—deprocrypticism mindset in enabling the most elaborate transcendentally-enabling-level-of-ontological-good-faith/authenticity/objectification/desubjectification-as-
objectification—<as to ontological-faith-notion or ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as so being as of-existential-reality as antinihilism> construal since necessarily intrinsic-reality/ontological-veridicality is inherently tautologuous, and ‘human capacity to grasp the possibilities of referential relations to inherent existential tautology as of human animate-existential-referencing/subjectification’ in conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of notional~knowledge. Supposed for instance a child comes to learn the rules of addition for all types of number additions such that the child understands the addition principle, but then there is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate 2+2 as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into existence alone in an intersolipsistic relationship with others interceded with ontological-primemovers-totalitative-framework inducing projective-insights and predicative-insights) will become a self-made revolutionary and question the teacher indicating the correct answer to 2+2 as being 4; depending equally on its notional sense of intemporal-projection/longness-of-register-of—meaningfulness-and-teleology relative to temporality/shortness-of-register-of—meaningfulness-and-teleology as to the child’s underlying ‘conception of the ontological-good-faith/authenticity—dementating/structuring/paradigming—seeding/incipient—profound—supererogation,—as—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema’, further explaining in the bigger picture why maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation pursuits, apparently unnecessary from a temporal interest point of view, are intemporal-solipsistically undertaken. Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of the ordinary as with respect to its construal of all other meaning including other additions, the child’s knowledge
and learning has always been about confirming any such meaning by its notional sense-of-solipsism as of superseding–oneness-of-ontology; but this particular solution for the addition rather becomes outlying for the child because despite the ‘social affirming’ of 2+2 as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of superseding–oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic confirmation as 2+2=4! Thus this points out that our interrelationship to meaningfulness is most authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in each of us to access intrinsic meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-construct/intersolipsistic-intercessory-notion/notional~referential-notion/articulation (enabled obviously by language as well as any human meaning relaying medium like signs, whether active or passive or implied or direct)’. By extension, our consciousness-awareness-teleology as of a solipsistic epistemic/notional~construct is equally the result of our animate-existential-referencing/subjectification as of our existential underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-
commitment as of ontological-primemovers-totalitative-framework for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns-and-accrues projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’, and existentially so as of our ‘social framework of intersolipsistic deambulation’. So there is no medium for intersolipsism but for the fact of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in-supererogatory–epistemic-conflatedness accruing to each individual, implying our limited-mentation-capacity enables us at any given phase of our existence to mutually be able to ‘solipsistically reference a common sense of inherent existential-reality’, and so increasingly as of our common species, common registry-worldviews, common communities, common institutions and common personhoods and socialhood; and so, however ontologically-veridical our ‘meaningfulness-and-teleology’ within institutionalisation-threshold or as of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism at uninstitutionalised-threshold. This will equally explain why in the rare cases reported in the media of infants abandoned and adopted by animals like dogs and monkeys, such infants often tend to adopt behaviours of the animals as of ‘mutual solipsism or intersolipsism of reference to underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework
and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), as the capacity for the infant to act and behave like a human effectively requires its personality development in a mutual solipsism or intersolipsism of underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primum movers-totalitative-framework and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) with other humans from whence the existential specificity/instantiation basis as of the family, neighbourhood, local institutions, sociocultural context and increasingly in a globalised world social trends of all sorts whether fashion, cultural, educational, intellectual, political, environmental, social media, etc. are now critical determinants of its subjective and intersubjective meaningfulness-and-teleology. Supposed again in a non-positivism social-setup a case of accusation-of-sorcery was to be brought up, wherein as of the relative-ontological-incompleteness-of-reference-of-thought implied beyond-the-consciousness-awareness-teleology→<in-existential-extrication-as-of-existential-unthought> of the registry-worldview/dimension, it is a generalised certainty that sorcery and sorcerers/sorceresses do exist (as of the non-positivism social-setup own threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism at their non-positivism uninstitutionalised-threshold→). This conception speaks of that registry-worldview/dimension subjectivity and intersubjectivity as of ‘a wooden-language-
human condition of construal of intrinsic-reality/ontological-veridicality supposedly as knowledge’ across all the successive registry-worldviews/dimensions (including the subjectivity and intersubjectivity in our positivism–procrypticism) with respect to their respectively relative-ontological-incompleteness of reference-of-thought implied uninstitutionalised-threshold. However, without a solipsistic notion of construal of intrinsic-reality/ontological-veridicality as of inherent intrinsic-reality/ontological-veridicality, and so beyond subjectivity and intersubjectivity, arising as of purely ‘solipsistic-and-intersolipsistic insights in referencing underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) as a potential capacity in all individuals, then the construal of intrinsic-reality/ontological-veridicality will tend to actually be defined whether beyond-the-consciousness-awareness-teleology of-in-existential-extrication-as-of-existential-unthought as implied by subjectivity and
totalitative-framework causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), will largely be jeopardised since the ‘putting-into-question’ as a solipsistic exercise with the possibility of getting at the very core of what is ‘further divulge-able’ by intrinsic-reality/ontological-veridicality, is largely compromised by a subjectivity and intersubjectivity wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications) mental-disposition. This distinction between subjectivity and intersubjectivity as referencing human condition of construal of intrinsic-reality/ontological-veridicality from solipsism and intersolipsism as referencing human effective/ineffective construal of intrinsic-reality/ontological-veridicality as to ontological-performance—including-virtue-as-ontology, is actually important because (while less critical to elucidate this in the natural sciences given the immediacy of constraint from intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity hence implicited), the implications for its comprehensive and conscious understanding in the social world (for conceptualising knowledge while superseding human temporality/shortness as ignorances, so-construed as ‘knowledge-notionalisation’) is decisive as it requires both an understanding of ‘the human condition in its construal/relation to intrinsic-reality/ontological-veridicality’ and ‘understanding of inherent intrinsic-reality/ontological-veridicality’; and so, as a prerequisite for the organic-knowledge necessary for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism registry-worldview institutionalisation. For instance, the concepts of constitutedness, first-level ‘presencing—absolutising-identitive-constitutedness’,
second-level presencing—absolutising-identitive-constitutedness, third-level presencing—absolutising-identitive-constitutedness and conflatedness of temporal-to-intemporal individuations as of reference-of-thought–prologism-as-of-conviction, as to profound-supererogation to threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism so-articulated previously as of ‘notional–conflatedness/constitutedness-to-conflatedness’ perspective of ontologically-veridical dynamic-cumulative-aftereffect/aftereffect’ in enabling a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation insight, can only be properly construed as of such a disambiguation in conceptualising not only ‘inherent intrinsic-reality/ontological-veridicality’ but equally ‘the human temporal-to-intemporal conditions/states of perception/relation with intrinsic-reality/ontological-veridicality’ (so-underlying human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications). This is fundamentally so because ‘inherent existential-reality/intrinsic-reality/ontological-veridicality is already what it is as given whether humankind knows about it or not’ but rather the point of human knowledge is an emancipatory/sublimating exercise involving the need to decenter/pivot and supersede our animate-existential-referencing/subjectification as of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human condition to derive knowledge-and-virtue, and so as human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression-as-of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-sup ererogatory–epistemic-conflatedness). Solipsism as such is truly the foundational notion of all phenomenological conceptualisations and derivation of value and meaningfulness as
intersolipsistic teleological constructs from a transversal-and/or-common perceived existential-reference/existential-tautologisation and derived-representations of existential-reference/existential-tautologisation. It is what allows for the possibility of human construal of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity to supersede social-aggregation-enabling as a knowledge and virtue construct. The implication being that there is a contiguity in solipsistic insight as simplistically elucidative in the relatively more simpler experimental framework of natural phenomenon studied by the natural sciences (which practice is categorisation-driven, more like elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity but then with a high risk of inducing virtualities thus explaining the continually reshaping/re-categorisation/re-optimising of experimental content when the virtualities come to be seen as unreal or deficient or suboptimal, and so more critically with the practitioner’s experience tend to be driven heuristically actually as of presencing—absolutising-identitive-constitutedness or conflatedness but such solipsistic insight extends to the more convoluted social phenomenon studied by the social sciences, as well as the phenomenal convoluted equally inherent in scientific domains like quantum-mechanics, as herein contemplated should ideally be understood as of referentialism implied ontological-normalcy/postconvergence epistemic-projection perspective, more like maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation from the most profound of conceptualisation which is intemporality/longness or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, as of inherent superseding—oneness-of-ontology, and so on the basis of the absolute a priori, ‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context as to existence—
potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality, construed as of increasing human limited-mentation-capacity-deepening in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’, in the staggered elucidation of less and less profound but critical conceptualisations as undertaken in this hermeneutic/reprojective design. Furthermore, solipsism will equally explain why human meaningfulness-and-teleology is developed rather by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation of the same superseding–oneness-of-ontology as of our limited-mentation-capacity-deepening (whereby successive generations take a shot at the superseding–oneness-of-ontology that is existence like Ancient Civilisations like Greece establishing that matter is made up of water, fire, air, earth and ether critically establishing the psyche of matter as composed of basic elements and successive recomposurings right up to our modern day quantum-mechanics recomposing as of historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity–relativism'>), rather than it erroneously being construed as an incremental exercise; as it is only incremental in the literal sense but in the ‘operant sense’ it is an exercise of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as of transversality~of-affirmative-and-unaffirmative–disambiguated–'motif-and-apriorising/axiomatising/referencing’ overall reconstruing/reconceptualising rather than just incrementing. This insight is important for critical thought and analysis as oftentimes it is naively assumed that prospective knowledge is to be simply obtained by ‘additioning’ or ‘cumulating’ to prior works rather than the more pertinent insight of amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of a same superseding–oneness-of-ontology that is existence. On the same token, this tautological insight
about the precedingness of existence can be extended to the notion of nothingness with nothingness rather existing in existence as there is no nothingness or for that matter anything out of existence which is ‘conceptually’ emanation-as-to-the-all-defining-ontological-primemovers-totalitative-framework\(^72\)-intercession, with nothingness rather the ‘conceptual devising of the metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) of existence’ with existence conceptually construed in metaphysics-of-presence-(implicit-'nondescript/ignorable–void \(^\cdot\) as-to-\(^\cdot\) presencing—absolutising-identitive-constitutedness\(^\cdot\) ) but then with existence being its very own metaphysics-of-presence-(implicit-'nondescript/ignorable–void \(^\cdot\) as-to-\(^\cdot\) presencing—absolutising-identitive-constitutedness\(^\cdot\) ) and metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) implying that nothingness is likewise tautologically the emanation-as-to-the-all-defining-ontological-primemovers-totalitative-framework\(^72\)-intercession of existence. Basically a nothingness conceptualisation is necessarily and tautologically an existential conceptualisation as ‘existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ which is necessarily ‘the absolute a priori’ (as ‘existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-

meaningfulness and just as well the notion of nothingness can’t ‘conceptually’ exist out of the
notion of meaningfulness which references existence and all that is in existence as ontological.
Actually nothingness is rather a ‘constructive tautological device’ as is actually the case with all
human knowledge (mental-devising-representation of teleological reorientation), as it doesn’t
speak of any inherent change in intrinsic-reality but rather of change of human

That is, such ‘conceptual devices’ are reformulations arising from ‘grander/transcendental insights’ about the same question but implying a radical transformation of ontological/meaningful conceptualisation of the human mind and human teleology. The idea is that ‘intrinsic-reality/ontology is not changed’ but rather it is ‘human epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology) that is changed’. Technically, the implication is that existence/being cannot be thought outside of human thought/limited-mentation-capacity); as a conclusion driven by the insight that human thought/limited-mentation-capacity in construing existence/being implies human meaningfulness-and-teleology is necessarily of ontological-prime movers-totalitative-framework or contingent. However the disavowal rather than renewal/deconstruction/ontological-reconstituting–as-to-conflatedness of human thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of meaningfulness-and-teleology’ as the alternate logical outcome, but then with this latter construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation is a human growth activity and not an absolutely achieved activity’, besides abandoning the notion of human existentialism/thrownness/facticity behind human strife itself thus
contradictorily undermining again the assumption of such an alternate logical outcome as itself a ‘contemplated strife’ construed as arising only by the implication of such existentialism/thrownness/facticity, and further failing to factor in that deepening human thought/limited-mentation-capacity increasingly narrows the framework of human existential contingency/ontological-primemovers-totalitative-frameworkay ‘enabling human existential development as less and less a question of fate’ on the basis of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

Thus the bigger issue is not existence/being in itself as it is given, whatever it is that is given. Rather the bigger issue of concern is our human thought/limited-mentation-capacity in apprehending existence/being as of our ontological-primemovers-totalitative-frameworkay/contingent reconstruals/reconceptualisations of existence/being as of human deepening thought/limited-mentation-capacity so enabled by our capacity for\textsuperscript{14} de-mentation-\langle\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\rangle behind the successive institutional-cumulation/institutional-recomposure-\langle\text{as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>}\rangle narrowing the framework of human existential contingency, with the further possibility of prospective \langle\text{amplituding/formative–epistemicity}\rangle\text{totalising~renewing-realisation/re-perception/re-thought as notional–deprocrypticism as of ontological-normalcy/postconvergence. Such maximalist intemporal projection reasoning doesn’t entertain banal ordinary logic (that is all too readily}
incremental, ‘disjointedness-as-of-reference-of-thought’ and temporally-preservational-as-pseudo-temporality-preservation) of the sort: she deserves to be raped because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. The intemporal reasoning maximalist approach (non-incremental, non-disjointedness-as-of-reference-of-thought’ and striving for the ontologically-utter) that permeates many a formalised construct does not entertain meaningfulness within the sphere of temporal-and-social-trading and is rather transcendentally inherently, as it simply supersedes and skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendentally-enabling/sublimating/supererogatory—de-mentativity) ‘meaningfulness-and-teleology’ towards the universal/intemporal as of implication. In other words, ‘maximalising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation is construed as of the apparently least possibly perceived constraining context in order to truly affirm the universalism of rules or any ontological-constructs; as the test of incrimination with respect to the above apparently least possibly perceived constraining specific crimes contexts is effectively what validates the universalism for all other contexts of such specific crimes. ‘maximalising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation, across all institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected‘epistemicity-relativism’), is effectively the projective mechanism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that reinvents new reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as a metaphysics-

Even when it comes to the social integration of \(^5\) maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming, it is often the case that such \(^5\) meaningfulness-and-teleology\(^9\) is bound to the denaturing in many ways as of human ordinariness \(<\text{amplituding/formative}>\) wooden-language-{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications}>\) temporal extricatory de-mentating/structuring/paradigming concatenation to it, if the requisite percolation-channelling-<in-deferential-formalisation-transference> institutionalisation and formalisation constructs are not priorly attended to. Even such that notions like exceptional, genius, prophesying, etc. associated with \(^5\) maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions, as recognised by the Niezschean imagination are more often than not construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as ‘derogation to the fact that such \(^5\) maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming can hypothetically be incumbent of all humans as to their choice of intellectual-and-moral orientation and their
transcendental possibilities. On the basis of such hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation circularity, one may perfectly argue that any of the institutionalisations are just as good so long as people are relatively satisfied but such an argument is never made of lower/prior institutionalisations with the implications that its elicitation within a registry-worldview as present is nothing more but an act of 'ontological-bad-faith/inauthenticity', but then a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation approach is one that doesn’t reason in temporal-accommodation but provides the opportunity for prospective institutional possibilities. maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation was what was in the minds of the Copernicuses, Galileos, Rousseaux, Darwins and the enlightenment Encyclopédistes led by Denis Diderot in cynically vouching for the possibilities of the future of positivism over a non-positivism/medievalism worldview. Such that vague arguments of the type we’ve been living well without such ideas are nothing but avowals of temporal-dispositions poor grasp of how their present institutionalisation came about and future institutionalisation possibilities; since we can project that all humans in recurrent-utter-uninstitutionalisation were recurrent-utter-institutionalised, all humans in ununiversalisation were ununiversalised, all humans in medieval non-positivism were non-positivistic, and by extention (but for the complexes arising from our metaphysics-of-presence-implicit-'nondescript/ignorable—void—as-to—presencing—absolutising-identitive-constitutedness) all humans in our procrypticism–or–disjointedness–as-of–reference-of-thought are procryptic and it is no use turning around to our fellow mortals to do social-aggregation-enabling; with the more criticial issue being what is the ontological-contiguity—of-the-human-institutionalisation-process implication as from the prospective epistemic-projection perspective! Such temporal-dispositions are characteristically draggy across all registry-worldviews/dimensions explaining why all transcendence-and-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

ontological-preservation due to their temporal-preservational nature with respect to their own nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > threshold. It is only the ontological-primemovers-totalitative-framework and positive-opportunism of the prospective/transcending/superseding reference-of-thought in the middle to long run construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) that will induce its untenability/internal-contradiction/internal-incoherence/institutional-constraining and the collapsing/overriding of the prior/transcended/superseded (as ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so going by their ‘relative ontological-effectivity’. This explains why a recurrent-utter-uninstitutionalised, an ununiversalised, a non-positivism/medievalism, or prospectively a procrypticism mindset, by
uninstitutionalised-threshold of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation). However, contrary to the ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation <amplituding/formative> wooden-language- (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>’ disposition, it is only solipsism-of-thought by its emphasis on intrinsicness (I come to reality alone solipsism) that has the requisite and socially-uncompromised backdrop for construing ontologically-veridical-meaningfulness, that is, ‘at such uninstitutionalised-threshold requiring prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’, by the possibility for its adherence to ontological-normalcy/postconvergence, and hence the requisite transcendental limited-mentation-capacity-deepening to put the prior/transcended/superseded into question (including and priorly, the transcendental emancipator own’s mentation) for the prospective/transcending/superseding reference-of-thought; and so, with the notion that the prior/transcended/superseded is preconverging-or-dementing –apriorising-psychologism as dialectically-out-of-phase/dialectically-primitive, with no place for its ‘<amplituding/formative—epistemicity>totalising—self-referencing-syncretising’ which is no more than its ‘internal myth/metaphysics’ that has nothing to do with ontological-veridicality/ontological-contiguity. As such, solipsism enables the requisite ‘moulting’ of human limited-mentation-capacity-deepening of notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> to allow for successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity; and as a social conceptualisation operates as ‘a relation of intersolipsistic mindsets in transversality—of-affirmative-and-
unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ led by the preceding/superseding intercession of intrinsic-reality/ontological-veridicality as validated by ontological-primemovers-totalitative-framework. (Noting that beyond this point of solipsistic contemplation is the end of ontology, as of ontological-primemovers-totalitative-framework /contingent-projective-and-predicative-validation, and metaphysics arises though metaphysical constructs tend to harken back towards ontology in trying to explain the metaphysical-as-of-existential thus explaining the blurring that often arises between metaphysics and ontology as there is hardly any metaphysical construct that doesn’t strive to be existentially relevant as of the present, thus carrying ontological implications of conceptualisation whether it is demonstrably ontologically-veridical or not; and this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity—of-the-human-institutionalisation-process which is rather about ‘successions of metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) insights as the successive transcendental-enabling/sublimating/supercratory-de-mentativity rules in reflecting holographically-<conjuguatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process yielding in-lockstep the successively more ontologically profound metaphysics-of-presence-(implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness’) construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the notional–deprocrypticism registry-worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure-ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions

In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of subontologisation’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-
mentation-procedure-deception/‘urge’/entitlement-folie of postlogism -slantedness effect) or progressive alterity/alterations which could be regular (like an exacerbation or opportunism interlocutors in conjugated-postlogism ) or regressive alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism ). The notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting-<as-disjointed-misappropriate-of-meaningfulness-and-failing-intemporal-preservation> and the intemporal-disposition compensation-alterity/alteration by ‘ontological-reconstituting–as-to-conflatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-threshold), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of an dimensionality-of-sublimating —<amplituding-formative>supererogatory-de-
dentativeness/epistemic-growth-or-conflatedness/transvaluative-
rationaising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation exercise but rather institutionalisation/intemporalisation or secondnaturing, which is about ‘skewing (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-

Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emanance’ but actually the result/effect of human limited-mentation-capacity-deepening coming-into-grips with intrinsic-reality as existence-emanance, and so in the succession of institutionalisations. The implication
of this iterability (due to temporality -preservational-alterity/alterations in distraction/circumvention of intemporality -preservation-iteration for construct of intemporal/ontologically-veridical meaningfulness) is that all issues of \textsuperscript{7}perversion-of-

(as opposed to issues of logical-processing-or-logical-implicationation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\), can only be construed as implying ‘a perpetual construct for upholding intemporality -in-preservational-compensation-alterity/alteration over temporality\'-in-preservational-distorting-alterity/alterations’ hence validating the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy/postconvergence; and that the ‘illusion-of-definitiveness-of-ontological-construal-on-the-basis-of-an-intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ is wrong, as this simply allows for temporality\'-in-preservational-alterity/alterations to ‘hollow-constitute’ at that supposed ‘intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’. And just as we grasp this notion of ‘the-upholding-of-intemporal/ontologically-veridical-meaningfulness’ at the-interdimension level where the registry-worldviews/dimensions are intemporally ‘ontologically-reconstituted’/deconstructed, only to be temporally ‘hollow-constituted’ requiring prospective intemporal ‘ontological-reconstituting–as-to-conflatedness '/deconstruction explaining the successive institutional-cumulation/institutional-recomposure-(as-to-\textsuperscript{4}historiality/ontological-eventfulness'/ontological-aesthetic-tracing-

Ultimately the philosophical pessimism of many a philosopher stems from this confusion about
the achievement of human emancipation and virtue, in naively construing that such an
achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-

This latter point is to highlight that ontological focus should rather be placed on the ‘abstract conceptualisation that enables institutionalisation-as-virtue and not any naïve purported presencing—absolutising-identitive-constitutedness poorly appreciative of dimensionality-of-sublimating—amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation, as in the bigger scheme of things the latter is delusional (for an animal whose potency under social-stake-contention-or-confliction is rather as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor thus needing its secondnatured skewing (‘intemporality–asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as deferential-formalisation-transference to the intemporal for its transcendence-and-sublimity/sublimation/supererogatory—de-
mentativity) and that’s why society and more specifically formal organisations ‘operate on the clairvoyance of institutionalising principles and rules’, and ‘not the purported impression-driven/good-naturedness dispositions of the one or the other’, as this is an unsustainable construct and is simply a call for institutional failure in the middle to long run. A human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation in individuals purporting prospective emancipation comes from and are from the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality/longness is a ‘potential construct of orientation’ as implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and it is only a devised institutionalisation construct as secondnaturing that achieves that potential-construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no notional–deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are ‘moulting’ their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. - As the notion of ‘dynamic-cumulative-aftereffect of ontology and subontologisation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways
mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving intersubjective valuation). Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as an ontology-driven <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in–‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity”’s-reifying/elucidating-of-prospective-relative-ontological-completeness”’of-”reference-of-thought–devolving-as-of-instantiative-context conceptualisation); but rather a ‘psychology of qualifications’ as is equally the case with social psychology. The author as previously implied with the notion of a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ perceives the need for defining human psychology from a transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification–<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism> and thus operant perspective of ontologically-dynamic-and-coherent construal/conceptualisation, as a profound superseding–oneness-of-ontology. This is implied in ontological-normalcy/postconvergence, and should be more precisely invigorated in the construal/conceptualisation of the ‘reference-of-thought as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–‘meaningfulness-and-teleology’ as of prospective notional–deprocrypticism

driven implying that our placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology is just a ‘placeholder-setup’ that
doesn’t has any inherent ontological validity, but is rather as valid as its representation/schedule
of ontology/ontologically-veridical-meaningfulness/intemporality, such that with the insight
of more profound ontology/ontologically-veridical-meaningfulness/intemporality, the
‘placeholder-setup’ as placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology is accordingly rescheduled
psychoanalytically (‘postconverging-or-dialectical-thinking’—psychology or psychology-of-
mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring), validating and explaining why our placeholder-
setup/mental-devising-representation/mentation/consciousness-awareness-teleology has been
developing all along from the mindset/reference-of-thought of an recurrent-utter-
institutionalised, base-institutionalised, universalised and positivised, with the implication that the latter’s mindset/reference-of-thought is not beyond prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity where such prospectively more profound ontology is demonstrated to imply a renewal of human reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor induced dynamism of shallow limited-mentation-capacity—(as of relative constitutedness) to deeper limited-mentation-capacity—(as of relative conflation). In fact, psychoanalysis is actually a natural existential human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology process with the difference that such comprehensively conceptually-directed constructs as is implied with notional—deprocrypticism with respect to the present positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and parcel of the human psychoanalytic experience with regards to passive to conceptually-directed constructs of human teleological projection. transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (prospective) as a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology effectuation, is not technically achieved as may naively/counterintuitively be implied by construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (from the present) but rather, on the basis of ‘prospective reference-of-thought transcendental insights’, it correspondingly implies ‘construing the present as metaphysics-of-present as the
transcended/superseded/prior placeholder-setup/mental-devising-representation/mentation’ to be represented as ‘preconverging-or-dementing’–apriorising-psychologism ‘reference-of-thought’, and so implied by the ‘prospective ‘reference-of-thought transcendental insights’, such that the prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism ‘reference-of-thought’ is naturally implied as being the new and prospective suprastructuring, (beyond-the-consciousness-awareness-teleology ⟨in-existential-extrication-as-of-existential-unthought⟩) of the ‘old present’/retrospective as prior. That is it is critical to grasp that ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’ and preconverging-or-dementing’–apriorising-psychologism is never about generating a prospective ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’ (with respect to the present as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’), but such ‘de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is rather about decentering and preconverging-or-dementing’–apriorising-psychologism/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the present as preconverging-or-dementing’–apriorising-psychologism which becomes ‘old-present’/retrospective as prior’ and dialectically ushering contrastively from that backdrop a new and prospective ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’. This is actually about ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-
existential-contextualising-contiguity which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior reference-of-thought as veridical. maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation being about optimally rescheduling the ‘placeholder-setup’ (as placeholder-setup/mental-devising-representation/mentation) with regards to ontologically-veridical-meaningfulness, on the ontological backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context. This involves a pointedness-of-prospective reference-of-thought which maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation then ‘upholds in contiguity’ the ‘trace of disambiguated-mental-dispositions-and-meaningfulness implied by intemporal/conviction-as-to-profound-supererogation mental-dispositions, postlogism/psychopathic mental-dispositions and conjugated-postlogism/preconverging-or-dementing-integration mental-dispositions’ as universal and aetiological ontological-primemovers-totalitative-framework construct, (while equally reflecting the flaws induced in misrepresenting ontological-references arising from elaborative elucidation), on the backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation. As maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation achieves this by not letting non-veridical/vacuous hollow-constituting—reference-of-thought by postlogism/psychopathic and conjugated-postlogism/preconverging-or-dementing-integration mental-dispositions wrongly being implied as sound reflection of existentialist/ontologically-reconstituting reference-of-thought and thus wrongly implying their ontological-veridicality, and equally avoiding their perversion-of-representation of supplanting–conviction-as-to-profound-supererogation —

transcendentally/transdimensionally/interdimensionally, as needing a prospective registry-worldview/dimension; for instance, capable of putting in question medieval intradimensional superstition in the first place supersedingly/transcendentally by implying the need for positivising rather than a usual temporalities-drives reciprocity of superstitious contentions or capable of putting into question positivism–procrypticism postlogism -and-conjugated-postlogism in the first place supersedingly/transcendentally by implying the need for notional–deprocrypticism rather than temporalities-drives reciprocal equivalence of procrypticism–or–disjointedness-as-of-referential-thought. Further the notion of deeper superseding–oneness-of-ontology conceptualisation and shallow superseding–oneness-of-ontology conceptualisation, central to a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, can be demonstrated as follows: supposed A has the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogicly-enculturated, and supposed some other interlocutors, not only by ignorance but affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation further engaged in such vilifying (as social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-amplituding-formative-epistemicity}-totalising-in-relative-ontological-completeness) of their mental denaturing disposition is socially opaque); engaging meaningfulness at a same reference-of-thought will wrongly imply that there is an issue of
notional-deprocrypticism registry-worldview ontological point-of-reference (as the deeper superseding–oneness-of-ontology construal/conceptualisation, rather than a transcendent/utter nature in line with intrinsic-reality/ontology, and not incremental). A rule of thumb with maximalising-recomposuring-for-relative-ontological-completeness—one enframed-conceptualisation will be to void the wrongly implied existentialist-as-ontologically-veridical-meaningfulness by perceiving the reference-of-thought of postlogic/psychopathic and conjugated-postlogism /preconverging-or-dementing-integration mental-dispositions as purely non-veridical/vacuous hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>. Effectively, reality/existence/being as becoming is actually an ‘unwinding elucidation’ model construct. However, since meaningfulness involves an interceding placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as reference-of-thought in relation to intrinsic-reality/ontology and given our limited-mentation-capacity-deepening, there thus tend to develop a mix-up of our representation (with unsound/vacuous/denaturing hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of reference-of-thought–categorical-imperatives/axioms/registry-teleology) when reflecting/perspectivating ontologically-veridical existential reality, such that there is a rule of recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology defined by the uninstitutionalised-threshold which arises de-mentatively/structurally/paradigmatically and accounts for vices-and-impediments. This is more than just a question of acts-execution/logical-processing defects but registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential–defect>, that speaks of the registry-worldview’s/dimension’s inherent relative-ontological-incompleteness—induced, ‘threshold-of–nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’, as-it-is-thus-‘in-wait’-for- perversion-of- reference-of-thought.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >,—or-temporal-preservation-as-pseudointemporality-preservation. That is at the basis of the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag nature of a registry-worldview/dimension vices-and-impediment. This is equally why epistemologically-speaking categorisation schemes tend to be incomplete and requiring further re-categorisations and readjustments as rather construed/conceptualised on an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag basis of organisation that isn’t in the full potency for grasping intrinsic reality and requiring further adjustments all along (the whole exercise actually being ‘ad-hoc referentialism’), and why referentialism as previously articulated, though ‘relatively abstract as a notion of representation’ is a conceptualisation basis needing constant insights, it is actually a better conceptualisation scheme of prospective being/becoming notions particularly of an ephemeral nature. Just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as utterly preconverging-or-dementing—apriorising-psychologism and unintelligible/existentially-suprastructural and being as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity with it will wrongly imply the ontological-veridicality of its meaningfulness, a notional-deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of a procrypticism mindset/reference-of-thought will rather be utterly preconverging-or-dementing—apriorising-
psychologism and unintelligible/existentially-suprastructural of ‘our procrypticism terms of meaningfulness’ and will equally avoiding elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^\text{\textsuperscript{a}}\) recognition of the soundness of our procrypticism—or-disjointedness-as-of-reference-of-thought at the (deprocrypticism) unintemporalised/solipsistic/recomposing/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in other to effectively and adequately reflect the requisite metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing:<perspective—ontological-normalcy/postconvergence>) necessary to act as the referenced/registered/decisioned—psychical-backdrop for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as uninstitutionalised-threshold\(^\text{\textsuperscript{a}}\)-suprastructuring de-mentation-(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) that is the mechanism that enables ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing. *The fundamental ontological/meaningful question is: which is the ‘superseding reference-of-thought, from where meaningfulness is aligned as ‘thinking and contending’ over the ‘perverting/superseded reference-of-thought’ aligned to as ‘preconverging-or-dementing—apriorising-psychologism and not-contending’? ‘Anchoring-of-meaning as base-institutionalisation’ over recurrent-utter-uninstitutionalisation, ‘anchoring-of-meaning as universalisation’ over ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation >,'—of-
base-institutionalisation-as-ununiversalisation, ‘anchoring-of-meaning as positivism’ over nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, of-universalisation-as-non-positivism/medievalism or ‘anchoring-of-meaning as deprocrypticism’ over nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, –of-positivism-as-procrypticism. A ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ will actually be about a novel construal of the social as ‘metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication of the individual as ‘metaphysics-of-presence-(implicit-'nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness’); with the implication that the concepts and conceptualisations of the individual of the current ‘psychology of qualification and qualification schemes’ are actually and effectively construed by the ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ as of an ontological-normalcy/postconvergence cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>/postdication (as the existential social) articulation. Insightfully, a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ rather mobilises maximalising-recomposuring-for-relative-ontological-completeness —

and leading to the registry-worldview’s/dimension’s uninstitutionalised-threshold endemised/enculturated temporal-preservation-as-pseudointemporality—preservation. This aspect of postlogism/preconverging-or-dementing—integration temporal-preservation-as-pseudointemporality—preservation endemisation/enculturation is thus the more salient construal for the de-endemisation/de-enculturation of ontological/being-construal-defect as unsound reference-of-thought of meaningfulness, as defined by recurrence and ‘non-transient transcendability’ at the uninstitutionalised-threshold; (in contrast with either a state of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that doesn’t speak of recurrence of perversion/unsoundness of reference-of-thought or an ‘abstract’ state of inherent uninstitutionalised-threshold but which is ‘transiently transcendable’ as it is not in temporal-preservation-as-pseudointemporality—preservation instigated by postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-suprererogation). Thus it is the condition of ‘recurrence’ and ‘non-transience’ transcendability arising from postlogism/preconverging-or-dementing—integration that is ontologically relevant for ontological-reconstituting—as-to-conflatedness/deconstruction for prospective transcendability (as it conceptually defines the successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism), and it basically encapsulates the phenomenality of preconverging/dementing—apriorising-psychologism mental-devising-representation of postlogism and temporal-dispositions-conjugated-postlogism so-construed as threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-suprererogation—preconverging/dementing—apriorising-psychologism (and so-reflected of the registry-worldview’s/dimension’s social-construct of
notional–firstnaturedness—temporal-to-intemporal-dispositions—so construed as from perspectived onto logical-normalcy/postconvergence at its uninstitutionised-threshold defined by recurrence and ‘non-transient transcendability’). Thus subontologisation is induced as threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism so-associated with postlogism—and-conjugated-postlogism leading to temporal-preservation, and so at a registry-worldview’s/dimension’s uninstitutionised-threshold defined by recurrence and ‘non-transient transcendability’. The ‘maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation construct’ for prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is thus fundamentally grounded on the ‘backdrop’ of the construal of the threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—

The so-reflected ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism and supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ is actually central to suprastructuring or a conceptualisation that can integrate both relevant metaphysics-of-presence-(implicated-‘nondescript/ignorable—void’–as-to–presencing—absolutising-identitive-constitutedness) and metaphysics-of-absence-(implicated-epistemic-veracity-of—nonpresencing—<perspective–ontological-normalcy/postconvergence>), with the capacity of easily reflecting both preconverging-or—dementing—apriorising-psychologism and postconverging-or-dialectical-thinking—
apriorising-psychologism as implied from a renewed human mentation transcendental insights (in reflexivity) about intrinsic-reality/ontological-veridicality. Threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism implies that at registry-worldview’s/dimension’s uninstitutionalised-threshold at which they are prospectively reflected/perspectivated as being in epistemic-abnormalcy/preconvergence (as shallow superseding–oneness-of-ontology construal/conceptualisation) with respect to ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as deeper superseding–oneness-of-ontology construal/conceptualisation), correspondingly the ontological-veridicality of human dispositions is construed as requiring a notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation of reference-of-thought (rather than naively, an assumption of universal human intemporal-disposition as reflected/perspectivated within a functional institutionalised registry-worldview existentialising—enframing/imprintedness—<as-to– historicity-tracing—in-presencing– hyperrealisation/hyperreal-transposition’), with the implication that the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ are actually of disambiguated notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> reference-of-thought and meaningfulness. This broadly sums up the importance of elucidating the threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism when it comes to registry-worldviews/dimensions construed as to their uninstitutionalised-threshold as being in epistemic-abnormalcy/preconvergence, as it enables the conceptual articulation of meaningfulness that the ‘perspective of a functionally institutionalised registry-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaks otherwise (even though such an axiom of ‘a universal human intemporal-disposition’ is only surreptitiously implied, as a necessary ‘functional pseudo-conceptualisation’ which functionally assumes intemporality/longness to avoid the cumbrous need for disambiguating reference-of-thought of meaningfulness into notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> (at any singular instances) ‘within established institutionalised registry-worldview/dimension’ but virtue cannot be assumed beyond the uninstitutionalised-threshold; that is, virtue is de-mentatively/structurally/paradigmatically the result of intemporalisation-as-institutionalisation secondnaturing, for instance, we can broadly argue that the positivistic registry-worldview/dimension implies more or less a ‘universal positivistic intemporality’ as a functional pseudo-conceptualisation of intemporality/longness ‘as people do not act medieval by and large’ but at our uninstitutionalised-threshold wherein procrypticism—or—disjointedness-as-of-reference-of-thought arises our positivistic registry-worldview/dimension can only be qualified as of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> since the requisite intemporalisation-as-institutionalisation as dep_procrypticism—or—preempting—disjointedness-as-of—reference-of-thought secondnaturing is wanting), but virtue should rather be construed as the superseding/transcendental institutionalisation/intemporalisation design/conceptualisation that by inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the long run enables the prospective registry-worldview/dimension institutionalisation; it is this focus on institutionalisation/intemporalisation that is effectively institutionalisation-as-virtue given that in the succession of human institutional-
cumulation/institutional-recomposure-\{as-to-\} historiality/ontological-eventfulness /ontological-aesthetic-tracing-\{perspective-\} ontological-normalcy/postconvergence-reflected-\{epistemicity-relativism\}\,<\{\}

\{so-construed-as-from-perspective-\} ontological-normalcy/postconvergence nature into an absolutely intemporal-disposition nature, but rather reduces human epistemic-\{abnormalcy\}/preconvergence towards ontological-normalcy/postconvergence as deeper and deeper superseding–oneness-of-ontology construal/conceptualisations. The bigger point being that it is by effectively grasping that any human intemporal-disposition individuations that can ‘spontaneously’ arise in whatever concern there is should be directed/skewed (‘intemporality’/asymmetric-subsumption-of-temporality\,’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) (as deferential-formalisation-transference of meaningfulness) for institutionalisation/intemporalisation-as-virtue for secondnaturing, and not a wrong implication of functionally grounding virtue on human ‘temporal disposition’ which will inevitably bring about temporal-and-social-trading with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. The fact is that our institutional and organisational constructs at their very core, unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our notional–firstnatedness—temporal-to-intemporal-dispositions-\{so-construed-as-from-perspective-\} ontological-normalcy/postconvergence\,), however, the notion of ‘consciously-spoken’ as herein highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the requisite ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring required in fully assuming the reference-of-thought of any prospective registry-
worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply ‘a new psychological orientation as positivistic’ that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, ‘<amplituding/formative–epistemicity>totalising rationalism’ by Descartes based on methodical thinking, ‘universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/’reference-of-thought as a de-mentative/structural/paradigmatic shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposure-{as-to-}historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton’s involvement with alchemy, for instance. This point to the critical importance of the psychological state of the mind for the very possibility of prospective ontologically-veridical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moul itself’ (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) towards a more profound construal/conceptualisation as of that superseding–oneness-of-ontology, however strongly we
might naively believe in our ideas in any given epoch as of its metaphysics-of-presence-
(implicated-‘nondescript/ignorable–void’-as-to-‘presencing—absolutising-identitive-

An ‘existential-decontextualised-transposition (threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism defect) of ontology/ontologically-veridical-meaningfulness/intemporality\textsuperscript{11} conceptualisation’ is equally critical, along with the implied psychological uninhibitedness/décomplexing for a prospective
registry-worldview/dimension as deprocrypticism, with respect to the central concept of ‘knowledge-notionalisation’ wherein understanding is much more than about grasping the ideals but equally preemptively construing the possibilities of ‘the ignorances’/temporal-dispositions as part and parcel of knowledge construct, not for an idle temporal motive, but to better skew (‘intemporality -asymmetric-subsumption-of-temporality ’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) for institutionalisation/intemporalisation-as-virtue, as a specific necessity for a notional–deprocrypticism registry-worldview/dimension preempting—disjointedness-as-of-reference-of-thought,-as-to-’<amplituding/formative–epistemicity>growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as deprocrypticism. Ultimately the purpose of ‘maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as an intemporal conceptualisation of transcendental implication should be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ and is not for the sake of ‘immediate intelligibility’ within a given uninstitutionalised registry-worldview/dimension in want for a prospective corresponding institutionalisation registry-worldview/dimension, as such a purpose will wrongly and paradoxically imply that the logical-dueness/logical-pertinence of the uninstitutionalised-threshold is sound as its reference-of-thought is prospectively defective (for instance a positivistic implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be logically intelligible to a medieval setup that harkens back to medieval reference-of-thought–categorical-imperatives/axioms/registry-teleology for its logic, i.e. ‘Issue of articulating chemistry rules and principles for the evaluation of an alchemist not logically cognisant of chemistry rules and
principles, in the very first place’), but rather it is a middle to long run construed as of ‘de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding— or-attributive-dialectics) instigation of prospective registry-worldview/dimension institutionalisation—reference-of-thought as of a ‘postconverging—or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (though we can mostly grasp such an insight not from instances of ‘natural intra-society transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’ since this takes a longer time to occur and is relatively obscure, but transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by cultural diffusion associated with conquests where the dominant is at a more advanced stage of institutionalisation or in the rare cases where it is the reverse like Ancient Egypt or Ancient Greece, with the dominated actually relatively dominating or in parity with the dominant culturally as of divergent aspects). The implication here is that transcendental maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation is rather grounded on a relatively intemporal-and-deeper existential-reference-of-meaningfulness with the positive-opportunism of the prospective institutionalisation ontological-primemovers-totalitative-framework over its corresponding uninstitutionalised-threshold to put in question the latter’s reference-of-thought—categorical-imperatives/axioms/registry-teleology for the ones of the prospective institutionalisation, and it is only after that that the notion of mutual logical intelligibility arises (it is only after the alchemist ‘psychoanalytically-unshackle’ into a positivistic-inclined mindset/reference-of-thought with respect to appreciating notion of natural cause-and-effect and experimentation as well that the notion of mutual intelligibility of chemistry rules and principles makes sense, until then there cannot be much of intelligibility without such a ‘postconverging-or-dialectical-thinking —psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional- recomposuring exercise from the perspective of the prospective chemist). That explain why ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation construct are meant to be detached and totalisingly-entailing so as to act as a backdrop for prospective institutionalisation, and not to necessarily make sense in terms–as-of-axiomatic-construct of ‘the now temporal mental-disposition reference-of-though’ which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. In the bigger scheme of things, it is inevitable that suprastructuring (the conceptualisation that renders de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) relative-mutual-construal of the prospective/superseding/transcending registry-worldview/dimension as deeper superseding–oneness-of-ontology construal/conceptualisation over the prior/superseded/transcended registry-worldview/dimension as shallow superseding–oneness-of-ontology construal/conceptualisation by (suprastructurally) reflecting/perspectivating, beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> of the prior/superseded/transcended, respectively the ‘postconverging-or-dialectical-thinking’—apriorising-psychologism as dialectically-in-phase’ and the ‘preconverging-or-dementing’—apriorising-psychologism as dialectically-out-of-phase’), is rendered operant by the notion of ‘existential-decontextualising-transposition (threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’— preconverging/dementing –apriorising-psychologism defect) of ontology/ontologically-veridical-meaningfulness/intemporality’ in operantly grasping such suprastructuring transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/transdimensional/interdimensional construct; as it perpetually upholds ontological-veridicality by its ‘existential-reality’ (not non-veridical/vacuous hollow-constituting–<as-
disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) on the basis of, first and critically, the validity of the reference-of-thought so-reflected as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought if valid and unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought if invalid (before even recognising whether the ‘implicitation-of-notion-of-agreement-or-disagreement’ or ‘of logical-processing’ arises) to determine the ‘postconverging-or-dialectical-thinking–apriorising-psychologism and dialectically-in-phase’ over the ‘preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase/dialectically-primitive’. It is critical to grasp that the notion of threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing–apriorising-psychologism is rather of conceptual metaphysics-of-absence-(implicitied-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) (meant to ensure a natural maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation to avoid mix-up of reference-of-thought) with such a mix-up arising from the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (whether wittingly or unwittingly) induced subontologisation (in-a-social-dynamism-of-meaningfulness-misappropriation) so-construed as metaphysics-of-presence-(implicitied-nondescript/ignorable–void-as-to-presencing—absolutising-identitive-constitutedness). So both notions are conceptually the same but implying different approaches with respect to the temporal undermining of ontological-veridicality; with subontologisation referencing/biased within the contextual perspective of institutionalised registry-worldview/dimension, with existential-decontextualised-transposition referencing/biased within the contextual perspective of uninstitutionalised registry-worldview/dimension, thus the latter enabling an appropriate disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-

Ultimately, the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all}{\text{2996}}
second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding–oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of–‘meaningfulness-and-teleology’) for human-mastery-of-reality or knowledge, as inherently implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipatory ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition individuation within the recurrent-utter-uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,–(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) as a de-mentating/structuring/paradigming for superseding the vices-and-impediments inherent to recurrent-utter-uninstitutionalisation is a necessity-for-its-own-and-by-extension-the-registry-worldview’s/dimension’s ‘moultling’ in the middle to long run construed as of de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) into a base-institutionalisation registry-worldview. Such solipsistic insight is the effective ‘transcendental virtue conceptualisation’ that drives ontological-normalcy/postconvergence across all the successive institutionalisations and by that token
temporally-inclined recurrent-utter-institutionalised individuation is non-cognisant of any such thing as base-institutionalisation and the ontological possibilities availing to it, likewise with the temporally-inclined ununiversalised individuation with respect to universalisation and its ontological possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to the positivistic and its ontological possibilities, and prospectively the temporally-inclined procrypticism individuation with respect to notional–deprocrypticism and its ontological possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A question that arises will be how can a society deliver an Einstein or a Bohr respectively that will articulate the theory-of-relativity or quantum-mechanics without it having the necessary institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual mindset/reference-of-thought and associated other contributing mindsets) that allows for the possibility of such discoveries? In other words what was the possibility for the theory-of-relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather improbable. As a side note, such an insight equally attends to such a debate we currently entertain with respect to coming into contact with an advanced alien civilisation. A transcendental virtue conceptualisation will hold that in the very first place such a civilisation won’t be able to exist without the necessary virtue construct (as successions of metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-⟨perspective– ontological-normalcy/postconvergence⟩} insights yielding in-lockstep the successively more ontologically profound metaphysics-of-presence-{implicit-’nondescript/ignorable–void ’-asto- presencing—absolutising-identitive-constitutedness ) as implied by ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a medieval age, for instance, going by the mere human-subpotency–
Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms–as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity-⟨as of relative constitutedness⟩ to deeper limited-mentation-capacity-⟨as of relative conflation⟩ by enabling ‘solipsistic moulting’ (as ‘intemporal-disposition individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at uninstitutionalised-threshold states, with a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩’–existentialism-form-factor mental-disposition due to lack of social universal-transparency ⟨transparency-of-totalising-entailing, as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness⟩ about virtue inducing supplanting–conviction-as-to-profound-
supererogation)—postconverging/dialectical-thinking—apriorising-psychologism’) and the secondnaturing of the social-construct (as institutionalisation-as-virtue) including the requisite human psychical pivoting/decentering. In another respect, ontological-consistency as highlighted previously is in coherence with the notion of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, and as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity—reification/superseding—oneness-of-ontology with the implication that ‘the reflected/perspectivated notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ disambiguation’ (at the uninstitutionalised-threshold) as ontological-primemovers-totalitative-framework, underlines the iterability/iteration nature of ontologically-veridical-meaningfulness, grasped from the perpetuating intemporal-disposition ‘ontological-reconstituting—as-to-conflicatedness’/deconstruction realteration over the perpetuating hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation alteration by temporal-dispositions. Fundamentally, a normally institutionalised functional disposition warrants that there is ‘a common/same ontological-reference of ontologically-veridical-meaningfulness’ but this is voided at the uninstitutionalised-threshold where temporal-dispositions become temporally-preservational-as-pseudointemporality-preservation whether by recurrence registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential—defect (whether beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>), as may arise with postlogism—and-conjugated-postlogism’, with the effective consequence of ‘temporal-to-

This disambiguated-mental-dispositions as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology develops, with changing contextualisation, at the registry-worldview/dimension or intradimensional level as the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect), and is equally characteristic across registry-worldviews; with the implication that this is an attribute of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. That is, the uninstitutionalised-threshold is characterised by the ‘trace of disambiguated-mental-dispositions as notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—ontological-primemovers-totalitative-
framework. It is mainly a ‘Différence-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ that can establish the ontological-veridicality-of-meaningfulness precisely by disambiguating the effective ontological-references of the various notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence individuations, and so not only at an instant or act or specific circumstance or context (which is rather an act construal and not a being/ontological construal) but projectively in their retrospective-to-present-to-prospective existentialism-deambulation/meandering which provides the full insight of notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence individuations mental-dispositions/meaningful-references/ontological-references/contending-references as ontological-entrapment. Such a being/ontological-basis, as described above, of a ‘Différence-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ is in line with and further elucidates the ‘Différence-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, of-meaningfulness’ technique. Going respectively by the Sartrean and Derridean principles for establishing ontologically-veridical-meaningfulness, that is, ‘existence precedes/defines essence’ or ‘there is nothing outside the text’ in evaluating ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with respect to their veridical-ontological ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation in- various-instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity–reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-
completeness—unenframed-conceptualisation. What is critical to understand here is to distinguish between: (i) recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation basis of meaningfulness that is grounded on grasping that reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are deterministic by virtue of reflecting/perspectivating/highlighting their recurrent context of reality and thus subjects them to ‘ontological-reconstituting–as-to-conflatedness’/deconstruction in upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and (ii) an elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity basis of meaningfulness that is purely and wrongly grounded on grasping that ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ are by themselves abstractly deterministic, even as this fail intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence–(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>)/postdication, and thus subjects meaningfulness to hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>. Intemporal-disposition as supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism disposition (whether appropriate/good or inappropriate/poor-or–'poor or bad supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’) are construed as of the circularity/recurrence/repetition/repeatability delineating existential-

In other words, the postlogic/psychopathic individuation character gets that there is a human mental-reflex to grasp ontologically-veridical-meaningfulness on ‘static-or-abstract non-veridical/vacuous-state (abstract ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’) of essence-of-meaningfulness terms, so long as their existential basis is established, including and critically for its purpose, where it is so deceptively implied’, to artificially or opportunistically construe a plausible existential-context-of-reference-narrative which then ‘provides licence’ to articulate existentially-unreal-and-abstract-narratives in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> concurrently-false-premising on the initial plausible existential-context-of-reference-narrative, with the idea that that human mental-reflex will by reflex naively-and-wrongly imply the existential/contextualisation ontological-veridicality of its generated slanted-and-formulaic hollow existentially-unreal-and-abstract-narratives; and so, in terms—as-of-axiomatic-construct of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought–devolving-as-of-instantiative-context)’ as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as highlighted priorly. This preconverging-or-dementing–apriorising-psychologism is in contrast with a postconverging-or-dialectical-thinking –apriorising-psychologism (when the latter is of inappropriate/bad or appropriate/good supplanting–conviction-as-to-profound-supererogation — postconverging/dialectical-thinking –apriorising-psychologism) which is always inclined to

Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about,...) In the bigger perspective with regards to the institutionalisation of notional–deprocrypticism for instance, it is such an existentialism construal from a transcendental intemporal \textit{\textsuperscript{(2)}}-\textit{reference-of-thought over temporal \textit{perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >} that allows for the superseding of vices-and-impediments \textsuperscript{25} as prospective registry-worldview/dimension structural-resolution of positivism–procrypticism preconverging-or-dementing \textsuperscript{19}–apriorising-psychologism. It should be noted that as earlier articulated, intemporal/ontological/social/species/\textit{universal/transcendental/\textit{maximalising-recomposuring-for-relative-ontological-completeness/~unenframed-conceptualisation dementating/structuring/paradigming (in contrast to a temporal extricatory dementating/structuring/paradigming) can only be transcendental as superseding (by implying an}
altogether different reference-of-thought as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’), and not incremental/disjointedness-as-of reference-of-thought (wrongly operating on the same temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect–reference-of-thought which is actually preconverging-or-dementing–apriorising-psychologism/oblongated and dialectically/contendingly-out-of-phase). Taking the previously articulated case of sorcery in a non-positivism/medievalism setup, it has no ontological structural-resolution by reciprocity of sorcery accusations on the same reference-of-thought terms but rather by the transcendental undermining of such non-positivism/medievalism mindset/reference-of-thought with an altogether superseding positivistic reference-of-thought that is in transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing with a non-positivism/medievalism ontological-reference (registry-worldview). Even though, inevitably (and as in the ‘present as-present-consciousness’ of all registry-worldviews with regards to their own corresponding perversion-of reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomena), there is bound to be more or less a dumb-and-dumb effect of summative social acquiescence to a superstitious mindset/reference-of-thought in a non-positivism/medievalism setup, that will in the short term temporal perspective be a drawback to such a transcendental projection of positivistic mental-disposition, and likewise there will inevitably be more or less be a dumb-and-dumb effect of summative social discontentment where a transcendental notional–deprocripticism mental-disposition is implied in a procripticism setup. This shows that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological–

That is, by transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is meant dispose to construe the ontological resolution of an intradimensional ontological/being-construal-defect transcendentally/transdimensionally/interdimensionally; for instance, capable of putting in question non-positivism/medievalism intradimensional superstition as of the registry-worldview defect in the first place supersedingly/transcendentally rather than a usual attendant/incidental reciprocity of superstitious contentions or capable of putting into question procrypticism/perversion-of-positivistic-meaningfulness with its corresponding postlogism/-and-conjugated-postlogism of psychopathy and social psychopathy as of the registry-worldview in the very first place supersedingly/transcendentally rather than a temporally reciprocal equivalence. Basically, such an intemporal-disposition/ontologically-veridical transcendental disposition storied-construct/ontologically-valid-narration will be of imbricatedness/threadedness/recomposuring as existential-tracing of ontologically-veridical-meaningfulness reflecting temporal-dispositions rather in ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised
individuation has no place for the ‘transcendental rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—(as ‘first-level presencing—absolutising-identitive-constitutedness of ‘reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded ununiversalised individuation (in base-institutionalisation) has no place for the ‘transcendental rules universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the subontologisation moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthly life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is de-mentatively/structurally/paradigmatically responsible for present ‘reference-of-thought to project to the de-mentative/structural/paradigmatic need of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. This further points out that with regards to ‘metaphysics-of-absence—(implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normaley/postconvergence>)’ projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising—self-referencing-syncretising), across all registry-worldviews from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness—
teleology works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the (positivistic) uninstitutionalised-threshold of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect> is non-transcendable/unsupersedable by its <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as ‘metaphysics-of-presence—(implicated—nondescript/ignorable—void—as—to—presencing—absolutising—identitive-constitutedness )’ thus upholding its soundness-or-ontological-good-faith/authenticity—of—reference-of-thought by ignoring the registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect> while the prospective registry-worldview/dimension implying a new reference-of-thought that dementatively/structurally/paradigmatically resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect> represents the prior as prior/transcended/superseded and hence unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of-thought/preconverging—or-dementing—apriorising-psychologism/suprastructurable (at that uninstitutionalised-threshold). The bigger point here is that just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its
amplituding/formative–epistemicity>totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as utterly preconverging-or-dementing—apriorising-psychologism and unintelligible/existentially-suprastructured, a notional–deprocrypticism-placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology of procrypticism–or–disjointedness-as-of-reference-of-thought-mindset/reference-of-thought will rather be construed as decentered and preconverging-or-dementing—anteriorising-psychologism, unintelligible/existentially-suprastructured with respect to ‘our positivism–procrypticism terms of meaningfulness’ that is, at the (deprocrypticism) uninstitutionalised-threshold in order to effectively and adequately reflect the requisite metaphysics-of-absence-{implicitied-epistemic-veracity-of-nonpresencing-{perspective–ontological-normalcy/postconvergence}> necessary to act as the referenced/registered/decisioned–psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, as implied by de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} as-uninstitutionalised-threshold-suprastructuring de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} that is the mechanism of a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective institutionalisation. This latter notion is important as with all psychoanalysis whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—as-Being-or-ontological-or-existential–defect is central to superseding it, and so the idea of implying preconverging-or-dementing—
apriorising-psychologism/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not carry the poorer connotations of temporal/banal mental-dispositions, but rather it is technically a necessary and useful ontological conceptualisation in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring from our shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation). Thus psychoanalysis is actually in effect an existentialism process of human skewing towards intemporal-disposition as we construe meaningfulness and value-referencing, and so beyond the Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’ conceptualisation of psychology we know of when we talk of psychoanalysis in the subject matter of psychology, but rather construed as a natural ontologically-driven ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ behind human secondnaturing across the successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As a side note though, it is important to grasp that the registry-worldviews as the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) are actually broad categorisations and that actually human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality/ontologically-veridical-meaningfulness varies (though not varying in terms–as-of-axiomatic-construct of the central defining conceptualisation of each registry-worldview/dimension) within each registry-
thinking—apriorising-psychologism individuation characters. Basically the ontological-veridicality of meaningfulness is construed in ‘non-veridical/vacuous’ terms of reference-of-thought—categorical-imperatives/axioms/registry-teleology ‘supposedly’ in intemporal-preservation-entropy-or-contiguity—or-ontological-preservation and this ‘supposedly-ness’ is only validated if ‘existentially real’ as ontologically-veridical. However there is an ‘existentialist-shortfall’ of the human supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—and apriorising-psychologism mind with respect to assuring the ‘existential-reality’ in the face of ‘non-veridical/vacuous terms of reference-of-thought—categorical-imperatives/axioms/registry-teleology’. This ‘existentialist-shortfall’ has to do with the fact that it will be ‘a waste of too much mental energy’ to be verifying in detail the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology—of every interlocutor, and so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and can be undermined and usurped, but it is standard as it ‘saves mental energy and time’. This ‘existentialist-shortfall’ is relatively inconsequential where interlocutors are mutually of prelogism—as-of-conviction—as-to-profound-supererogation or existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context and even better when mutually of good supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—and apriorising-psychologism (than when one or the other is of ‘poor or bad supplanting—conviction-as-to-profound-supererogation —
postconverging/dialectical-thinking—even though the latter is relatively circumspect and ad-hoc in its misrepresentation of reality, and so its consequence with respect to the ‘existentialist-shortfall’ is rather limited as defect–of–logical-processing-or-logico-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance rather than registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect associated with postlogism, whether pathological/psychopathic or enculturated, and conjugated-postlogism  

However, with the psychopathic/postlogic and social psychopathic case where compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation or postlogism as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness is the underlying principle as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowleging, this ‘existentialist-shortfall’ is highly consequential as it is the basis of the induced registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect–as-Being-or-ontological-or-existential–defect; by wrongly and so comprehensively implying the ‘existential-reality’ of ‘non-veridical/vacuous wooden-language ⟨imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ articulated in hollow-constituting–as-disjointed-misappropriation-of-meaningfulness-and-failing-intemoral-preservation or otherwise by the rather non-veridical/vacuous implied meaningfulness and reference-of-thought or otherwise by the non-veridical/vacuous implied meaningfulness and reference-of-thought based on inductive limitation nature or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing–amplituding/formative–epistemicity totalising—in-relative-ontological-completeness as they
require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In other words meaningfulness and reference-of-thought is only veridical as an ‘ontologically-veridical construct’ validated in the construal of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity reprehension/superseding–oneness-of-ontology by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation that establishes ontologically-veridical-meaningfulness. The human ‘existentialist-shortfall’ with respect to ontologically-veridical meaningfulness and reference-of-thought thus allows for an overall existential/being framework/cadre of ‘non-veridical/vacuous distortion/perversion’ of meaningfulness in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation induced from postlogism/psychopathic and temporal-dispositions-conjugated-postlogism which is wrongly projected as of the recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity reprehension/superseding–oneness-of-ontology by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as ontologically-veridical-meaningfulness, and particularly so as the postlogism/psychopathic disposition is basically recursive (recursive denaturing alteration of the essence-of-meaningfulness and so ‘pathologically iterative’, in the form of hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation ‘denaturing postlogic-backtracking-<iterative-looping→set-of-dereifying-hollow-narratives-and-acts’<successive-shifting-of-the-narratives-and-acts-foci’ construed as ‘deception of successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-

The nature of how ‘concurrently-false-premising-of-meaning thread/tracing’ arises can equally conspicuously be understood at childhood psychopathy situation wherein the childhood psychopathy blatantly attempts to initiate a dereifying narrative like in the case of spilling water on a chair highlighted before to which if concurred to by the interlocutor will be the basis for the child to assume apparently normal logical contentions but fundamentally based on this distorted deceptive high-point of concurrently-false-premising as of reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. For instance, there is no logical-basis for a positivistic mindset/reference-of-thought to convince a non-positivism/medievalism mindset/reference-of-thought that it reference-of-thought is better but for the fact that its better ontological-primemovers-totalitative-framework will in the middle to long-run be ontologically untenable thus ‘collapsing’ the non-positivism/medievalism mindset/reference-of-thought; and so reflecting ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism’ so-underlining existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’. The grander insight being that
‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’ that just induces ‘vain-temporality’ passing for intemporality ’), and just as previous institutionalisations prospered, due to increasing realism, because they did away with deities and spirits in recognising that human potential lies in what humans can do themselves, and strived even more by doing away with essences in recognising that understanding effectively what happens in the world is what gives power and effectiveness over nature, a further extension of rational-realism is to do away with the ‘false feel good’ naivety of construing man by reflex in intemporal terms (not recognising or rather taking full cognisance of the implications that we have notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as shortness-to-longness-of-register-of--meaningfulness-and-teleology or perversion-of- reference-of-thought--as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation teleologies) which failure only leads to unrealistically grounded reference-of-thought and meaningfulness (characterised by the readiness to overlook vices-and-impediments of our registry-worldview/dimension as side notes rather than the idea that these point to our deficiencies and ‘that these are actually the necessary pathway for superseding/transcending’ for prospective de-mentating/structuring/paradigming, just as preceding registry-worldviews had to deal with their de-mentating/structuring/paradigming that led up to our positivistic registry-worldview) and aspiring for the intemporal while factoring in the temporal. disjointedness-as-of- reference-of-thought as well as knowledge-notionalisation undermining the prospective denaturing of institutionalisation possibilities as subknowledging. Going by our mirage/illusion-of-the-present/present-consciousness we will possibly think otherwise, but this rather points to how our forerunners felt psychologically when their worlds built of deities and later essences were being put into question by ‘an increasing realism insight’ of an intrinsic-reality that is ontologically given and in ontological-normalcy/postconvergence with respect to us, with the implication that it is our psyche that ‘gives-in’ to intrinsic-reality and not the other way around. As central to an overall Suprastructuralism conceptualisation that subsumes all the transcendental concepts highlighted with regards to grasping ontology/ontologically-veridical-meaningfulness/intrinsic-reality, and corresponding perversion-of- reference-of-thought-as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to ushering in the requisite preempting—disjointedness-as-of- reference-of-thought-as-to-‘amplituding/formative–epistemicity>growth-or-conflatedness /transvaluative- rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’—in-superseding-mere- formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over- non-rules—apriorising/axiomatising/referencing–psychologism that should define and conceptualise the notional–deprocrypticism registry-worldview/dimension (as the effective attainment of ontological-normalcy), is the idea of a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’. Basically, a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ (in defining individual, summative intradimensional and transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-

Thus, such a ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ involves, mobilising an ‘ontological-tautologisation/existential-reference conceptual-scheme’ (like a hermeneutics-derived psycho-ontological, bio-ontological,
econo-ontological, mathematico-ontological, etc.) construed as of ontological-normalcy/postconvergence teleology\textsuperscript{72} thus postdicatory (as metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) conceptualisation), is of ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of ontology/intrinsic-reality/of-referential-nature/of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{7}, as the given subject-matter in a full-blossoming unison of second-order ontology with first-order ontology. Insightfully, superseding–oneness-of-ontology points out that human ascription of knowledge into various categories as science, humanities, arts, etc. is actually an unnatural differentiation that has to do with arbitrary human categorisation out of practicalities of division of labour and organisation, while equally leading to confusions. Actually knowledge as a whole imply the two basic elements: its conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge conceptualisation and causal effectiveness can successively be construed in three respects; specific, intermediary and general, with all aspects of conceptualisations being notionally philosophical as providing meaningful insights while all aspects of causal effectiveness provide confirmatory and predicative-insights to meaningful insights. (Interesting it is important to note that empiricism speaks of the possibility of knowledge revelation by the inherent nature of the subject-matter and not an abstract approach as often naively construed; with the implication that empiricism can be construed as deriving from a confirmatory analysis of a mere insight, observation or experiment depending on the inherent nature of the said subject-matter, so long as this then allows for ontological-primemovers-totalitative-framework\textsuperscript{72}.) Thus notionally
speaking all human knowledge is philosophical knowledge as being about meaningful insights. For practicalities, the general basis for establishing conceptual pertinence as of the more general abstract notions of knowledge is attributed to the philosophical disciplines (involving philosophy and the philosophies of subject-matters including sciences, and its extension in the humanities and social sciences) even though in further practical terms such construal will be punctually undertaken as well when relevant to specific disciplines of immediate cause-and-effect construals/conceptualisations. This equally practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic), the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation –logical-coherence –causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasising or overemphasising doesn’t speak of a change of ontological-veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied
studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of meaningfulness-and-teleology but naively purported to be answered wholly as of a second-order ontology terms. Broadly speaking philosophy as the first-order ontology (acting as a cog) has been more about providing the overall scope for meaningful insights and the broader conceptual background for other subject-matters while science and other second-order ontology disciplines (as the wheel that meets the ground) draws on a sound and broad philosophical conceptual background to articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round. The reality is that if science was the best method to answer philosophical questions as of its subject-matter, then it would have already taken over from philosophy as practised and the reverse holds true as well, as in reality it is all about human practical organisation in construing a superseding–oneness-of-ontology while dealing with our given limited-mentation-capacity-deepening. The fact is science is dementatively/structurally/paradigmatically bound to construe causal effectiveness as of the inherent nature of its domains of reality and philosophy is fundamentally conceptualising by its very nature and providing the broad conceptual background for all human knowledge with the implication that without such conceptualisation the historical insight for the need and upholding of the sciences and scientific method wouldn’t have come about while equally defining the limits of what science can achieve. Insightfully and beyond their practical differentiations, with all knowledge actually being conceptually philosophical, a lot of science is actually a sort of impromptu and punctual heuristic philosophy at sciences subject-matter level. So it is rather critical here to distinguish between a human denotative and segmenting exercise (as not
determining inherent reality) which is conventioned knowledge and the inherent connotation of the reality of knowledge as the superseding knowledge ontology inherent structure. In that sense, one often misconstrued notion with respect to notional philosophy is that it is not as successful as the sciences, which is a naïve conceptualisation as the very idea of such notional philosophy is its conceptualising irrigation of second-order ontology with the more immediate and ontological-primemovers-totalitative-framework success being not only a success of the second-order ontology but a percolated success of notional philosophy as of its historical development of human conceptualisation in inducing the second-order-ontologies and irrigating them with meaningful-insights, whether we talk about the sciences, jurisprudence and law, ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of philosophy as mainly about great philosophical thinkers is incomplete as we equally need to understand the ‘organic-knowledge’ as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of other thinkers as they were developing second-order ontologies, and analyse such thoughts in philosophical terms and make these part and parcel of philosophy without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-
notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and now’.) ‘Notional philosophy’ as articulated above is the very profundity behind the human (‘social framework of intersolipsistic deambulation’) imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today’s second-order ontologies, as inventing the overall knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of a prospective mindset/ reference-of-thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically
contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn’t recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the superseding drive behind the ‘inventing/creating’ of all human technicalities/mechanical-knowledge refers to the mental-disposition to break from ‘ordinary apathy and constraining framework of secondnatured institutionalisation’ to rearticulate dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection underlying the ‘inventing/creating’ of prospective secondnatured institutionalisation possibilities as prospective knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. Ultimately and beyond shallow technicalities/professions of presences as has been variously and decisively the case throughout humankind history, the most important philosophical work is the preservation of the human existential tale in prolongation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality by ‘maintaining a contemplative distance/detachment from ordinary human blithe’ susceptible to render ‘meaningfulness-and-teleology a closed-structure (as merely-exploiting-Being-as-of-its-presence-state-with-poor-regards-for-Being-underdevelopment-and-development-potential-construed-as-nihilism as of <amplituding/formative> wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of–

That is the most important work of all human jobs whether it is done as of ‘institutionally secondnatured construed technical/professional philosophy’ or not, as secondnatured institutionalisation by itself doesn’t guarantee such a requisite dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation projection even though the latter does ensue in any case as of notional philosophy. Central to such ‘ontological-tautologisation/existential-reference conceptual-scheme’ is the idea of superseding–oneness-of-ontology, as obviously there can’t be any predication-and-postdication without a ‘sole ontology’ with a ‘sole intrinsic ontologically-veridical-meaningfulness’ (otherwise meaningfulness will be chaotic-and-meaningless), not to be confused with human constantly evasive meaningful grasp of intrinsic-reality/ontology having to do with our relative-ontological-incompleteness-induced-‘threshold-of–

The reason why ‘separate dots as separate narratives’ lead to postlogic and conjugated-postlogic faulty-mentation-procedure-deception-or-urge is that their extrapolation is actually an extrapolation of perversion-of-reference-of-thought — as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness as if supplanting—conviction-as-to-profound-supererogation — postconverging/dialectical-thinking — apriorising-psychologism’ whereas retracing of the mental-disposition foregoes elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation—outside-existential-contextualising-contiguity of separate dots as separate narratives, and thus is existentially involved in construing the reality to the point of revealing ‘disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation in the trace-of-successive-dots-as-(hollow)-narratives that shines the light on the fundamental driver/ontological-primemovers-totalitative-framework of the postlogic and/or conjugated-postlogic interlocutor as well as the threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing — apriorising-psychologism as vague-
rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of its narratives. That’s why spatialisation, indirectness and craftiness are critical to postlogic and conjugated-postlogic mental-dispositions so as to evade their prospective interlocutors ‘putting one and one together’ as will arise in an existentially veridical context and so that their interlocutors should rather undertake elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of the purely abstract meaning as seemingly sound separate dots as separate narratives but which are non-existentially real, rather than existentially trace the successive dots as separate narratives. This is what enables the establishment, as of the circularity/recurrence/repetition/repeatability as of existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology, at the relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing –apriorising-psychologism’-threshold (as-it-is-thus-‘in-wait’-for-‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–or-temporal-preservation-as-pseudointemporality-preservation), defining the typical threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —

procrysticism—or-disjointedness-as-of-reference-of-thought preconverging-or-dementing-psyche. This equally reflect how the childhood psychopathy psyche is preconverging-or-dementing—apriorising-psychologismly perceived though at childhood temporal-dispositions-conjugated-postlogism/preconverging-or-dementing-integration to psychopathy is not significant as its perversion-of-reference-of-thought-as-effectively-apriorising-innonconviction/madeupness/bottomlining-as-to-shallow-supererogation is still universally transparent as delirious and thus it doesn’t elicit temporal-preservation by conjugated-postlogism/preconverging-or-dementing-integration, since it is not spatialising, maturating, and being sufficiently indirect, credulous and crafty to be non-transparent by its motives and acts. Ultimately, this highlights generally that at relative-ontological-incompleteness-induced—threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’-threshold (as the-relative-ontological-incompleteness—is-inherently-thus—‘in-wait’ for perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or temporal-preservation-as-pseudointemporality—preservation) as so-manifested at the uninstitutionalised-threshold, hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/extrapolating/inferring to derive essence-of-meaningfulness is not a credible notion with respect to a human animal of notional—firstnatedness—temporal-to-intemporal-dispositions—as-so-construed-as-from-perspective—ontological-normalcy/postconvergence

wherein ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ is bound to be perverted by temporal-dispositions, though within institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation secondnaturing, for instance, with respect to the fact that a medieval postlogic phenomenon like witchcraft cannot be credibly implied both in terms—as-of-axiomatic-construct of eliciting
abstract/extrapolating/inferring hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation nor existential-transitioning/iterability-tracing-of-dots-as-hollow-narratives in our present institutionalised positivistic registry-worldview. Vitally, with regards to postlogism and conjugated-postlogism, it is always about ‘falsely and parasitically/co-optingly’ staking a claim to the reference-of-thought in order to wrongly elicit its implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology to a prospective interlocutor, and so recursively (psychopathic/postlogic-character), progressively (conjugated-exacerbation and conjugated-opportunism characters) and regressively (conjugated-ignorance and conjugated-affordability characters). Generally, this insight harkens back to the previous elucidation with regards to the BODMAS characters where the pure arithmetic operation as a deductive/inferring/extrapolation exercise is no longer valid when the fundamental axiom is breached due to a pathological condition, and with the ‘lack of constraining social universal-transparency-(transparency-of-totalising-entailing, as-to-entailing-amplituding-formative–epistemicity) resulting in other temporal characters, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, operating arithmetic as if the condition never existed; and thus there is a need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness representation, this further confirms the fact that temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) and intemporality/longness (longness-of-register-of-meaningfulness-and-teleology) are both basically the same notion of intemporality, but with temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-
temporal-endemisation) being rather in various grades of poor execution of intemporality\(^3\)/longness (longness-of-register-of–meaningfulness-and-teleology\(^3\)) but that in so doing such temporal-dispositions of individuation ‘falsely retaining their teleology\(^7\)/purposefulness’ as if of intemporal-disposition leading to their ‘pseudointemporality ’ (and so with respect to their apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \(^9\)), inducing de-mentative/structural/paradigmatic registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^{\text{[52]}}\)-defect-<as-Being-or-ontological-or-existential–defect>\(^5\) where such false-retention construed as temporal-preservation-as-pseudointemporality\(^3\)-preservation is rather in conjugated-postlogism \(^7\); with the idea that this ‘false-retention’ by temporal-dispositions individuations results in ‘disjointedness-as-of-reference-of-thought’ misappropriated \(^{55}\)meaningfulness-and-teleology \(^9\) in arrogation with respect to ontologically-veridical-meaningfulness as meaningfulness become ‘an exercise in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{\text{[59]}}\)—preconverging/dementing\(^{12}\)–apriorising-psychologism’ (whether-consciously-or-unconsciously), as can be so established as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\(^7\)-reification\(^7\)/superseding–oneness-of-ontology \(^{19}\) by \(^{54}\)maximalising-recomposuring-for-relative-ontological-completeness\(^2\)—unenframed-conceptualisation. This conceptualisation of temporality\(^7\)/shortness as being about failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporality\(^7\)/longness (which perfectly syncs intemporality\(^7\)/longness and temporality\(^7\)/shortness as longness-of-register-of–meaningfulness-and-teleology \(^{19}\) and shortness-of-register-of–meaningfulness-and-teleology\(^9\), beyond just a qualification notion but rather a \(<\text{amplituding/formative–epistemicity}>\text{totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal–}\)

The notion of temporality/’shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality/’shortness is much more than morality as derived from intemporality/’longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporality’ of such individuations induces ‘notional-disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation (at individuation-level as relative-ontological-incompleteness-induced,- ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism’, as-it-is-thus-‘in-wait’–for- perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’,—or-temporal-preservation-as-pseudointemporality/-preservation, which when taken into preservation, as temporal-preservation, is rather in pseudointemporality’, while with respect to a traditional conceptualisation it is wrongly ‘vaguely imbued with a dispositional-drive-as-teleology’ as
bad, as evil, as wicked… etc. Now, the consequences of pseudointemporality\(^1\) individuations (postlogism -slantedness, postlogism -slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance -<including-virtue-as-ontology>) are reflected developmentally in the social fabric which is a ‘framework of social-stake-contention-or-confliction’ as the transference, in dynamic-cumulative-aftereffect, of such pseudointemporality\(^1\) individuations into ‘individual personalities dispositions and social dispositions’ induces correspondingly subontologisation in ‘disjointedness-as-of- reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (at individuation-level relative-ontological-incompleteness -induced,-'threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”— preconverging/dementing—apriorising-psychologism’, as-it-is-thus-‘in-wait’-for- perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation”>,—or-temporal-preservation-as-pseudointemporality^-preservation, on ‘social ontologically-veridical-meaningfulness’ and is the basis, in dynamic-cumulative-aftereffect, of given registry-worldviews/dimensions vices-and-impediments , and how these can be superseded/transcended, because the reality is that humans have transcended retrospectively to the present and there is no particular reason to think that there can’t be prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional--firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor. Such a ‘postconverging-or-
dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ will further highlight in contrast to the present ‘psychology of qualification/qualification-schemes’ that human psychology is actually much more of a becoming dynamic construct, rather than static, which wholly readjusts to human deepening grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective, present and prospective development; that collectively-and-inclusively-individuals-and-their-social-constructs do have latitude for the choices they make in existence more than and beyond the limits of personality traits and social character, and further that the human mind is ‘not irresponsible’ with respect to given personalities dispositions (whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a ‘psychology of qualifications/qualification-schemes’ induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting holographically-\texttt{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67}, human secondnaturing is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled ‘an animal in many ways’ to emancipate itself developmentally across epochs such that the ‘insightful depth’ of such a developmental understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} as it recognises that (and
explains why) the mental-disposition/consciousness-awareness-teleology of a recurrent-utter-
institutionalised mindset/ reference-of-thought varies from that of a based-
institutionalised/ununiversalised mindset, the latter from that of a universalised/non-
positivistic-or-medieval mindset, the latter from that of a positivistic/procrypticism mindset/ reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein ‘de-mentation⟨supererogatory–ontological–de-
mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩’ is the central concept for such a succession of human ‘postconverging-or-dialectical-thinking⟨–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics⟩’ renewal retrospectively, presently and prospectively, with ontological-normalcy/postconvergence teleology being the central determinant driving and defining human psychology construed by its metaphysics-of-absence⟨implicated-epistemic-veracity-of⟨nonpresencing–<perspective–ontological-normalcy/postconvergence⟩⟩ as diminishing–human-epistemic-abnormalcy/diminishing–preconvergence. Interestingly, psycho-ontological-

This conceptually implies that the ‘all-in-one/oneness’ (of ontology) implied of existence supersedes our elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity conceptualisations, and while these are ‘mental tools of analysis’ we have in grasping knowledge, as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity these are rather ‘sub-par to the full grasp of existential reality’ (given that our limited-mentation-capacity-deepening as of our relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’, will often fail to reference the underlying being-construal/existential-reference/existential-tautologisation ‘for a contextualising-contiguity of existence-potency~sublimating–nascence, disclosed from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality that syncs with existential reality’. For instance say in the case of the BODMAS characters highlighted before, where the other characters ignore the given pathological condition in simply operating arithmetic rules, however, the inherence of existential reality will not be superseded simply by such elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of arithmetic rules in protraction as ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-

and string phenomenology approaches intuitively develop the same insight about the need for
‘creative-spaces-of-expression/metaphors’ to be able to conceptualise by projective-insights on

It is important to grasp here that elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity\(^1\) are not ontologically wrong concepts in themselves as of abstract-construal but are ontologically wrong when implied in lieu of being-construal/existential-reference/existential-tautologisation as this leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. Philosophically, this critically brings up the reality of how the ontological-veridicality of an ‘abstract-construal’ and a ‘being-construal’ can be established; going by human limited-mentation-capacity-deepening\(^2\) as of our relative-ontological-incompleteness\(^3\)-induced,\(\ldots\)—preconverging/dementing—apriorising-psychologism’. An abstract-construal is of vague-reference/vague-tautologisation, and is of existential import only as of a being-construal, and is effectively conceptualised by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity\(^1\) and this is ontologically-veridical by abstract-construal/abstractly. Being-construal on the other hand is of existential-reference/existential-tautologisation as of becoming/being (as practically qualified by our consciousness-awareness-teleology\(^4\)). This is one of the reasons for its misapprehension as it implies an overall change in the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’ into question, contrary to the traditional analytical expectation of selective-or-limited
critique/contestation usually of a non-transcendental nature. Insightfully, the overall relation of deconstruction as ontological-reconstituting–as-to-conflatedness\textsuperscript{12} to the existential framework of ontological-veridicality should further allay the confusion. Deconstruction is actually tautological with respect to intrinsic reality/ontological-veridicality because it is always about the same existential reality being dealt with by improving human limited-mentation-capacity-deepening\textsuperscript{52} as shallow-mentedation-capacity to deeper-mentedation-capacity ontological-reconstituting–as-to-conflatedness\textsuperscript{12}; generating differing consciousness-awareness-teleology\textsuperscript{99} outcomes of the same existential reality whether talking of deconstruction at the registry-worldview/dimension or intradimensional level or individuation-level. Since it is always about the same existential reality, in effect the readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposing) with its increasing-ontological-completeness or diminishing–human-epistemic-abnormalcy/diminishing–preconvergence as implied by an ontology-driven ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, wherein placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} scheduling ‘is not inherently sanctimonious’ (the naïve way every registry-worldview tends to relate to its mental-disposition) but is determined and shaped (by way of ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of \textsuperscript{8}reference-of-thought’) by construed ontological-veridicality. This presencing—absolutising-identitive-constitutedness and conflatedness compensation mechanism, given our limited-mentation-capacity for the construal/conceptualisation of intrinsic-reality/ontological-veridicality/ontology, equally clarifies why maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) takes precedence over elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity (as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-

(It is important in this regard to distinguish what is implied by ‘incidenting’ not to be confused with ‘instantiation’, as incidenting implies an ‘abstract construction’ of the implication of logic or any ‘knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’ that may or may not be of existential-instantiation, whereas instantiation refers actually to ‘actual existential instance’. It is critical to uphold this distinction with respect to the existentially contingent nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all ‘intersolipsistic-intercessory-notions/notional-referential-notions’/knowledge including our grasp of logic or mathematics. As ‘abstractly-speaking’ there is no absolute certitude that in say a million years from now ‘a given as of yet unelucidated notion’, as a further imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the ‘existential-instantiations’ validity of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue including logic and mathematics as we know of them today. Such distinction as of more immediate concern is to point out the subsuming precedence of existence as of its inherent intrinsicness beyond-and-over human construal/conceptualisation of ‘meaningfulness-and-teleology’ about it as at best the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation of existence’; noting here as well for coherence sake that such a statement cannot be made about existence itself as the absolute a priori, simply because any arising existential-
notions/articulations/virtue like ‘mere research methodologies lacking critically the requisite ontological cogency’ can by themselves develop a ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, -for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology’ of a given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by such vague methodological mimicry. The latter at best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-study where the positive or negative sanctioning by ontological-primemovers-totalitative-framework of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is not immediately perceptible but rather remote like in the human sciences and to some extent as well with some studies in the natural sciences (where for instance the overall cogency of the whole experimental framework relative to the conclusions advanced of many a research study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or statistical methodological analysis was to be introduced with regards to the underlying articulation herein and based say on an ‘arbitrary historiality/ontological-eventfulness’/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> grounded methodology on the basis of just vague impression’ it will rather be conceptual patterning. What is required is an underlying ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology’, -for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology’ (as implied by this author herein, as of ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>})/Doppler-thinking as it elicits human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal–
The contention being that studies and research that do not develop their conceptual formulations validly and succinctly as the underlying framework of the totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but simply expect to dangle/associate methodologies including statistical and mathematical analyses are rather involved in vague conceptual patterning as of reference-of-though constitutedness. This insight is critical with respect to the validity of interpretations and conclusions in many experimental and study frameworks in the social sciences often ‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’ to which the implications of statistical and mathematical methodologies and analyses are naively brought to bear. This further speaks in the bigger scheme of things, of the need for the articulation of what will be a ‘fully intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity constraining social science’ as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview psychologism should fully enable (rather as an overall grounding of ‘meaningfulness-and-teleology’ that overcomes disjointedness-as-of–reference-of-thought-as-misappropriated-meaningfulness) just as the positivism registry-worldview psychologism relatively enabled an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity natural sciences including an emerging and upcoming social science. Thus it may be useful for ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining (as we are more likely to have complexes about our positivistic/procrypticism registry-worldview/dimension as untranscendenable) by articulating the same aetiolagisation/ontological-escalation storied-construct/ontologically-valid-narration at a ‘notional–deprocrypticism imbricatedness/threadedness/recomposuring as against procrypticism-virtuality’ as well as ‘positivism imbricatedness/threadedness/recomposuring as against non-positivism-or-medieval-virtuality’ wherein from our vantage positivistic position we’ll recognise the suprastructurally implied preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase state of non-positivism/medievalvirtuality-or-ontologically-flawed-construal putting us in a paradox with respect to recognising the same from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism about the suprastructurally implied preconverging-or-dementing–apriorising-psychologism and dialectically-out-of-phase state of our

The fact is all constructs as transcending or implying transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are always by definition in confliction with the constructs being transcended. A registry-worldview’s/dimension’s-uninstitutionalised-threshold \(\)–defect–\(\) reference-of-thought needs a more fundamental transformation as a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the reference-of-thought, and so a decentering of meaningfulness; the causality–as-to-projective-totalitative–implications, for explicating ontological-contiguity being more like what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing –apriorising-psychologism’ is in a state of causality–as-to-projective-totalitative–implications, for explicating ontological-contiguity of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking –apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of

Ultimately, the very transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{101} between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought is ‘the very paradox of meaningfulness-and-teleology’\textsuperscript{99} explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. In other words, if the former had a grasp
of its state ‘as to its prior relative-ontological-incompleteness\(^8\)-of-\(^2\) reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\(^5\) arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology\(^9\) might seem arbitrary when meaningfulness-and-teleology\(^9\) is rather interpreted in terms of the prior reference-of-thought. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so as of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor; but then humankind has always been called upon to show itself capable of surperseding/surpassément for prospective possibilities to avail. This is exactly what underlies the notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in that relative-ontological-incompleteness\(^7\)-of-\(^7\) reference-of-thought ‘is not a logical issue/problem’ but ‘a Being/existential/ontological/axiomatic-construct problem’ with its de-mentative/structural/paradigmatic implied vices-and-impediments\(^6\), as it is rather an issue of uninstitutionalised-threshold as of recurrent-utter-uninstitutionalisation uninstitutionalisation requiring base-institutionalisation institutionalisation, ununiversalisation uninstitutionalisation requiring universalisation institutionalisation, non-
maturation/indirectness/spatialisation/credulity/craftiness is associated with bringing about social lack of social\textsuperscript{101}universal-transparency\textsuperscript{102}-(transparency-of-totalising-entailing,-as-to-entailing-\langle\textit{amplituding/formative–epistemicity}\rangle\textsuperscript{103}) inducing the conjugated-postlogism\textsuperscript{104} of temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as a grounding for the social extension of ‘denaturing\textsuperscript{105} of the form of ‘meaningfulness-and-teleology’’. Thus at that uninstitutionalised-threshold\textsuperscript{106} which highlight ‘denaturing\textsuperscript{107} of the form of ‘meaningfulness-and-teleology\textsuperscript{108} as temporality /shortness in concatenation with ‘conflatedness\textsuperscript{109} as intemporality\textsuperscript{110}, it is only a renewed ‘conflatedness\textsuperscript{111} as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that induces a prospective ‘universally-transparent constraining mechanical-knowledge as new bare reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{109} as axiomatic-construct’ and ‘its social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as the creating-and-essence-attributing drive for knowledge-and-virtue’ that brings about prospective relative-ontological-completeness\textsuperscript{112} -of- reference-of-thought; construed as ‘ontological-resetting’ of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{113} of relative epistemic-abnormalcy/preconvergence\textsuperscript{114} for relative ontological-normalcy/postconvergence as of ‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) stranding dynamics ‘which is effectively the concatenated mechanism that engenders sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing–\langle\textit{perspective–ontological–}\rangle\textsuperscript{115}

Obviously a traditional approach of analysis of psychopathy (as so construed from this papers totalising-entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery were individuals will equally be wary of non-positivism/medievalism perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and will equally be inclined to palliation regarding notions-and-accusations-of-sorcery depending on circumstances; though obviously the ontologically de-mentative/structural/paradigmatic resolution in both instances is with respect to the necessary ontological-completeness-of-reference-of-thought in overcoming <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by prior/transcended/superseded non-positivistic or procrypticism reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are failing/not-upholding<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with prospective/transcending/superseding positivistic or notional-deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. So perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> has always been recurrent in reflecting holographically<conjugatively-and-transfusively> the ontological-

It is the idea of the ontological-primemovers-totalitative-framework of the latter over the former that will existentially/ontologically impose the latter, and not common/mutual logical-processing as logic is then ‘a lower, inappropriate and inherently defective level of meaningfulness-and-teleology processing’ in relation to ‘appropriateness-of-reference-of-thought-as-of-confatedness processing’ (just as there can’t be logical intelligibility between a non-positivist/medieval mindset/reference-of-thought of meaningfulness-and-teleology with a positivistic one); by its ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining as the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments functioning (the appropriateness-of-reference-of-thought-as-of-confatedness) in the middle to long run construed as of de-mentation (supererogatory ontological de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). This process can be qualified as the ‘blunt act of existence over the human temporal egotistic/self-referential complex to prospective transcenence-and-sublimity/sublimation/supererogatory de-mentativity superseding ontological-veridicality/intrinsic-reality reference-of-thought’, and is the actual basis for all transcenence-and-sublimity/sublimation/supererogatory de-mentativity for prospective institutionalisations since the successive institutional-cumulation/institutional-recomposure-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism do not arise because of the reality of a ‘human intemporal-emanance philosophical acquiescence’ but rather by ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of existential reality as a constraint for the secondnating of institutionalisation, without transforming the underlying reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-

supposedly-apriorising-in-conviction-as-to-profound-supererogation (mutually intelligible measuring), but rather by the superseding supratransversality-of-motif-and-apriorising/axiomatising/referencing reference-of-thought (as-of correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) in intemporal/longness projection for aetiologisation/ontological-escalation over the subtransversality-of-motif-and-apriorising/axiomatising/referencing reference-of-thought (as-of defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) of temporal extricatory de-mentating/structuring/paradigming incidental construal in wrong equivalence to the supratransversality-of-motif-and-apriorising/axiomatising/referencing reference-of-thought. This equally validates the notion of transversality-of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ as logical-incongruence of appropriateness-of reference-of-thought-as-of-conflatedness and perversion-and-derived—perversion-of reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >. This is de-mentatively/structurally/paradigmatically the most elevated construct for the production of human knowledge as transcendental knowledge and as implied in its dissemination along formal constructs based on a de-mentating/structuring/paradigming for skewing (‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) towards intemporality, and not wrongly averaging of human thought in equivalence as logical-congruence of temporality/shortness and intempolity/longness-of-meaningfulness, such that knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is
rather the outcome of an enabling process as to ‘intrinsic-reality/ontological-veridicality transcendental enabling’ that allows what is intemporal as of mental-disposition to be effective by ontological-primemovers-totalitative-framework as of ontological and virtue constructs, and be imposed as knowledge. Thus it is critical to understand that the exercise of reconstituting ontological veridicality is a wholly maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in grasping ‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’—reference-of-thought devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’, even when it would seem weird due to metaphysics-of-presence-(implicit–nondescript/ignorable–void—as-to-presencing—absolutising-identitive-constitutedness), and is creatively grounded on ‘on phased phases construed in mirroring the fundamental insane/postlogism-fitment of the childhood-psychopath perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-disposition structure as it induces conjugated-postlogism/preconverging-or-dementing-integration later on and most effectively at adulthood psychopathy’. This fundamental structure of the denaturing nature of postlogism and conjugated-postlogism/preconverging-or-dementing-integration can be demonstrated with the blatantly obvious case of the childhood-psychopath even though the denaturing of its mental-disposition is relatively socially-universally-transparent (enabling an understanding-of-ontological-primemovers-totalitative-framework–of-the-underlying-phenomenon). In the case were in a ‘dereifying act’ water is spilled on a chair, and a visiting stranger (as-of-pseudointemporality by ignorance) not aware of the mental-disposition of the childhood-psychopath coming into the scene after the event and
sitting unknowingly on the soaked sofa, and was to frown and remonstrate against or possibly smack the innocent brother, such a stranger is in ignorance-conjugated-postlogism or conjugated-ignorance as its relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing –apriorising-psychologism’ led it to align in-prelogic supplanting–conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologismly (as-of-pseudointemporality) to the childhood-psychopath’s postlogic narrative, and so in ‘ignorance-temporal-preservation-as-pseudointemporality-preservation’, that it was the brother that spilled the water on the chair on purpose (noting that even at this level, for all practical purpose the visiting stranger’s meaningfulness is ‘supposedly in prelogism’-as-of-conviction,-as-to-profound-supererogation (as-of-pseudointemporality) but is rather effectively ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ with respect to the ‘denaturing’ postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>‘-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase, of the childhood-psychopath’s meaningfulness is effectively in conjugated-postlogism and has ‘joined the childhood-psychopath in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’—preconverging/dementing –apriorising-psychologism and is preconverging-or-dementing –apriorising-psychologism and dialectically-out-of-phase’ with respect to ontologically-veridical existential-reality as construed from ontological-normalcy/postconvergence, and further it state of ignorance speaks of its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-
shallow-supererogation —preconverging/dementing—apriorising-psychologism’ as procrypticism—or—disjointedness-as-of—reference-of-thought which can’t be overlooked for aetiologisation/ontological-escalation conceptualisation by the fact that the visiting stranger or more precisely an individuation of the type expressed by the visiting stranger (as-of-pseudointemporality by ignorance) might act the same way he acted in ‘metaphorically-a-million-and-one-instances-and-locales’ as aetiologisation/ontological-escalation, and this particular example symbolises why virtue is a ‘The-Good/understandingknowledge-reification’/ontological-prime-movers-totalitative-framework construct’ and not ‘impression-driven/good-naturedness/wishfulness construct’ as reality is above all ‘effectivity’ by its manifestation. But then given the relative social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—totalising—in-relative-ontological-completeness) at this childhood stage, it is more likely that the whole situation will be explained to the visiting stranger (as-of-pseudointemporality) and will assume mostly an incidental/on-occasion conjugated-postlogism effect in the contingent social space. The fact is at this childhood stage conjugated-postlogism will tend to be incidental and mostly arise as ignorance-conjugated-postlogism. (Such a construal can further be articulated not only in the case of ignorance as ignorance-conjugated-postlogism but equally as the child-psychopath develops into adulthood and is less and less socially-dysfuntional and social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—totalising—in-relative-ontological-completeness) of the postlogism is lost socially with its maturation/spatialisation/indirectness/credulity/craftiness, giving rise to the conjugated-postlogism cases of conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation by temporal-dispositions where the effect is ‘more than just benign and incidental/on-occasional with dramatic social consequences and as there is further eliciting of

Thus it is generally not surprising that the transcendental first-order-ontology/ontological-construal by an ascetic intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value with the true worth and value of such implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity grasped, at least expediently, mostly in the prospective institutionalised-being-and-craft setup it ushers, the same could be said of a an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Copernicus, an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Rousseau, an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Galilei or an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Darwin, and so as a fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor. But then mental-dispositions that come to intemporal notions by expediency cannot truly have the pretence of engaging such on the basis of shallow temporal extricatory de-mentating/structuring/paradigming as of institutionalised-being-and-craft setup whose

It equally speaks of the ‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters (or-as-it-protrudes-into-subject-

The conceptual background for this tone-as-temperament and thematic teleological conceptualisation (for the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation) lies in the notion that human construal of meaningfulness/memetism defines and structures its teleology/teleological-differentiation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations whether in ‘notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> individuation terms’ and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendentally/transdimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects will fundamentally be predisposed to a defining teleology/teleological-differentiation of animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology/teleological-differentiation, and likewise a meaningfulness/memetism that is mostly secular-inclined will be predisposed to the defining teleology/teleological-differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining

Thus, decentering is what divulges all the uninstitutionalised-threshold\textsuperscript{102} as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism by\textsuperscript{14} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{107}—unenframed-conceptualisation, while ‘centering’ divulges all the institutionalisations as base-institutionalisation,\textsuperscript{108} universalisation, positivism and prospectively deprocrypticism; and so with their ontological possibilities and limits as well as corresponding ‘postconverging-or-dialectical-thinking—psychology or psychology-orientation-dynamics or natural—psychological-dynamics’ or registry-worldview/dimension orienting/pivoting/decentering psyches (by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring),\textsuperscript{8} reference-of-thought and teleologies/teleological-differentiations. Insightfully from metaphysics-of-absence-(implicit-as-perspective–ontological-normalcy/postconvergence), we’ll certainly grasp that a non-positivism/medievalism mindset//reference-of-thought ‘is not qualified/sound’ by virtue of its relative-ontological-incompleteness\textsuperscript{11}-induced,—‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{87}—preconverging/dementing –apriorising-psychologism’ as not being positivising/rationally-empirical given that its meaningfulness is based on its non-positivism/medievalism\textsuperscript{8} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation thus failing/not-upholding-as-of-apriorising/axiomatising/referencing> any meaningfulness requiring prospective positivising/rationally-empirical reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{9},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and that its pretence otherwise is nothing but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage that simply goes on to uphold/enculturate/endemise the
syncretising/illusion-of-the-present/present-consciousness/mirage, and thus the ‘rational need’ for our own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to supersede the vices-and-impediments\textsuperscript{105} associated with a positivism–procrypticism mental frame, even though we’ll possibly carry-complexes/complexé about the blunt fact, as all registry-worldviews/dimensions prior to ours had equally done. Decentering thus fundamentally speaks of human shallow-limited-mentation-capacity to deeper-limited-mentation capacity recomposuring from ontological-normalcy/postconvergence point of reference \textsuperscript{quot}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{quot}—unenframed-conceptualisation across all institutional-cumulation/institutional-recomposure\textsuperscript{⟨as-to⟩} historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩. The notion of pivoting/decentering as fundamentally psychoanalytic actually extends to the construal of understanding itself with regards to the underlying rescheduling of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, as the idea of pivoting/decentering extends to the notion of the ‘self’s own pivoting/decentering for understanding’. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mentation-capacity-deepening with corresponding recomposuring of ontological import) that is being implied given the ontological-normalcy/postconvergence nature of transcendental text doesn’t concede to a human temporal complex of its established metaphysics-of-presence-⟨implicit=-nondescript/ignorable–void ‘as-to’ presencing—absolutising-identitive-constitutedness ⟩ conventioning/traditional-ways of understanding as superseding but rather superseded, and having to cave in’. In other words the aporetic nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-
and-teleology etc. as of prospective deprocrypticism, with the necessary de-mentation-
(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) involved in such a pivoting/decentering as psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring. Suprastructuralism as such will
also explain the underlying logic of Bruno Latour’s famous criticism of the notion that
scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with
the organisation of an official ceremony in full honours in celebration of Ramses II corpse and
the discovery, as being an entanglement of references-of-thought between the modern frame-of-
reference/collective-consciousness-awareness-teleology etc. and the Ancient Egypt pharaonic era
frame-of-reference/collective-consciousness-awareness-teleology etc. (a mix-up that must not
occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its
very own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of
understanding the past and projecting to the future); as if it were ‘possible and desired’ that the
modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and
fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such
highlights the ‘mental complex of all present mindsets as metaphysics-of-presence-(implicit-
nondescript/ignoreable–void –as-to–) presencing—absolutising-identitive-constitutedness’ etc.
and going by ‘projective-insights’/postdication/metaphysics-of-absence-(implicit-epistemic-
veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>) is equally
what can enable our own prospective transcendence-and-
sublimity/sublimation/supertagory–de-mentativity in grasping a more profound intrinsic-
reality/ontological-veridicality as notional–deprocrypticism which is deeper than our present
positivism–procrypticism registry-worldview @ reference-of-thought. As implied in this paper,
the implication of pivoting/decentering for understanding itself is that our metaphysics-of-
presence-(implicit–nondescript/ignorable–void –as-to–) presencing—absolutising-
identitive-constitutedness \rangle\rangle\rangle\rangle\rangle traditional/conventioning \langle reference-of-thought–categorical-imperatives/axioms/registry-teleology is put into question, and the notion of understanding itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic/reprojective design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation also construed as ontological-normalcy/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation constituting elaboration) to retain its cross-referencing coherence of prospective meaningfulness. The recognition for the need to disambiguate human mental-dispositions as of temporal-to-intemporal is not an exception here as all our formalisations implicitly operate on this basis as deferential-formalisation-transference, tacitly confirming its veracity/ontological-pertinence. It should be noted that the representation of registry-worldview’s/dimension’s uninstitutionalised-threshold as of ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing —apriorising-psychologism’ based on their respective relative-ontological-incompleteness–induced,‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing —apriorising-psychologism’ while most ontologically-veridical from an ontological-normalcy/postconvergence epistemic/notional–projective-perspective, such a suprastructural-meaningfulness/memetism is rather unordinary and suprastructural (beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought>) to the given uninstitutionalised-threshold registry-worldview’s/dimension’s reference-of-thought; since in our positivism–

This is the intemporal-disposition individuation decentering mechanism with respect to ontology/ontologically-veridical-meaningfulness in a dynamic-cumulative-aftereffect at the registry-worldview/dimension or intradimensional level that brings about prospective institutionalisations by rescheduling the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{7} with respect to construed prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) explaining why we are able and do transcend; or else as in all prior registry-worldviews, the pseudointemporality\textsuperscript{1} logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity\textsuperscript{6} that construes of the present (by its\textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9}, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding\textsuperscript{<as-of-apriorising/axiomatising/referencing>} to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental\textsuperscript{1} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{7}—unenframed-conceptualisation as longness-of-register-of-meaningfulness/intemporality\textsuperscript{7} that accounts for the becoming from all the priors to the present to the prospective registry-worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of\textsuperscript{10} universal import with temporal extricatory dementating/structuring/paradigming contentions (more like metaphorically an apple falling on Newton’s head and his projection of this in grasping the\textsuperscript{11} universal implications of the laws of
motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be ‘temporally’ undermining in one way or the other). Critically, it isn’t idle idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution, universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-unshackled/mimetically-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that notional–deprocrypticism (by its imbricatedness/threadedness/recomposing as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality) is an inherent meaningfulness that is perfectly construable within just a positivism–procrypticism mental-disposition and the latter’s many compromised assumptions as articulated in this paper, as notional–deprocrypticism is priorly implying futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psyche/mindset. This equally raises the fundamental issue with post-structuralism, does it fully make sense in a ‘modern mindset’ of reference or reference-of-thought or rather it is implying priorly a prospective ‘postmodern mindset’ of prospective reference or reference-of-thought as its existential-reference/existential-
construct of intrinsic-reality’ should priorly be established (‘centered’ over the prior meaningful-frame which is ‘decentered’) for the knowledge construct to take hold by the continuing ‘moulting’ of its proponents and corresponding social construct, as intrinsic-reality doesn’t adjust its inherent meaningfulness to us but rather humans need to achieve a given psychical development to have-access-to or be-able-to-register the knowledge construct of the more profound existential-reference/existential-tautologisation to intrinsic-reality/ontological-veridicality that that psychical development allows for, in meaningfulness-and-teleological terms. This is rather a difficult task as it implies ‘de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) of reference-of-thought’ behind the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, and no registry-worldview/dimension sees itself as de-mentable prospectively, as being decentered for a prospective centering, even where it acquiesces to the notion retrospectively up to its own institutionalisation; pointing that ontological-normalcy/postconvergence is the genuine perspective for construing the dynamism of knowledge-and-virtue or meaningfulness-and-teleology. The fundamental point of a knowledge construct (which is necessarily tautological as intrinsic-reality/ontology is already given) is rather an exercise of ‘human <amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought—as-utter-placeholder—setup—ontological—rescheduling—by—a—renewing—of—apriorising/axiomatising/referencing—psychologism—as—the—new—Referencing—basis—of—prospective—meaningfulness—teleology} as subpotent-mimetic—echoness—derivation—within—the—full—potency—of—existence—as—of—its—mimetic—echoness/existence—in—reverberation/existence—potency—sublimating—nascence,—disclosed—from—prospective—epistemic—digression—as—of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re-thought—supererogatory—epistemic—confaltedness wherein we pivot/decenter (psychoanalytic—

temporal-finitude on the basis of referencing ‘social-aggregation-enablers over intrinsic-

Insightfully, for a storied-construct/ontologically-valid-narration aetiology/ontological-escalation, such a ‘dynamic-cumulative-aftereffect of individuation/intradimensional/transcendental-or-transdimensional-or-interdimensional levels of conceptualisation’ ontologically validates ‘a deterministically teleological-differentiated storied-construct/ontologically-valid-narration’ of projectable/predictable-relative-existential-implications of the various ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-dispositions incremental/shortness-disposition-relative-finitudes’ and ‘maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporal-disposition superseding/longness-disposition-tofinitude’; finitude being the full-depth-of-existential-implications/existentialism arising when acting (as-being/as-existing) with regards to one’s prior relative-ontological-incompleteness/relative-ontological-completeness of sublimating-referencing/registering/decisioning—as-self-becoming/self-conflatedness/formative—supererogating—projective/reprojective—aestheticising—motif— and—re-apriorising/re-axiomatising/re-referencing—in-perspective—ontological-normalcy/postconvergence) of reference-of-thought. As a side note, such a notion of mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of reference-of-thought associated with human languages from ancient ones to modern ones (as
of the registry-worldview/dimension-levels of the corresponding societies), facilitating the
deciphering and understanding of ancient languages, as well as the reconceptualisation of
meaningfulness-and-teleology across history, which conceptual exercise tends to be rather
biased towards a modern perspective metaphysics-of-presence-{implicated-

Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation
will need to take cognisance of the very peculiar nature of the social world (in contrast to the
natural world) that makes the social ‘susceptible to incorrect understanding and analysis’
particularly at a practical and operant level by the fact that it is highly emotionally-
involved/politically-driven especially so with disturbing issues, and this is further compounded
by the ‘blurriness’ and distance of ontological-primemovers-totalitative-framework\/intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-
mentativity’, and finally from a transcendental/’ maximalising-recomposuring-for-relative-
ontological-completeness —unenframed-conceptualisation perspective human mental-
disposition with regards to the social can be poorly ontological with unconscious, expedient or
conscious emphasis on significant others basis of logic as well as
<amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-

dispositions (social-aggregation-enablers) undermining the solipsistic relationship with
intrinsic-reality required for veracity/ontological-pertinence (transcendental-
enabling/sublimating/supererogatory-de-mentativity). In this regard, it will actually be naïve to
assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all
that is necessary in achieving effectiveness. With the weaknesses highlighted above with
regards to grasping the social, it is important that such veracity/ontological-pertinence is
effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’
driven by social-aggregation-enabling, wherein for instance the transcendental-enabling/sublimating/supererogatory–de-mentativity that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between a universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating/supererogatory–de-mentativity that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between a universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a universal construct but
targeted, avowing its reality as fake, etc.). The ‘blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/‘interested’/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French poststructuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be countenanceable in the promptness of effectiveness driven natural science of ontological-primemovers-totalitative-framework, for instance, holding that Einstein’s theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ with the transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality ontological-primemovers-totalitative-framework. This weakness actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution.
‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as driven by postlogism—a—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness backtracking-<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> postlogic-and corresponding conjugated-postlogism conjugating-looping-set-of-narratives of such postlogic-backtracking-<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’> respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to demonstrate veracity/ontological-pertinence of the conceptualisations highlighted in this paper not purely by themselves as transcendental-enabling/sublimating/supererogatory—de-mentativity-of-intrinsic-social-reality but rather such conceptualisation in a supratransversality—of-motif-and-apriorising/axiomatising/referencing should be over-and-face-off a subtransversality—of-motif-and-apriorising/axiomatising/referencing of temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ such as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and this is the realistic developing social contextualisation within which psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler mechanism is what brings about social-chainism/social-discomfiture/negative-social-aggregation as well as the temporal-
endemisation/temporal-enculturation of psychopathy and social psychopathy by eliciting of
differentness, infamy, status, significant-others basis of logic, repute, social authorities and
influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity,
imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between
universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes,
derunderhandedness, inductive-limitation, etc., to induce subontologisation or existential-
decontextualised-transposition. Ontologically, thus the construal/conceptualisation of the Social
de-mentating/structuring/paradigmning is necessarily a construct that harkens to the intemporal-
projection enabling the thoughtfulness as the imbued intemporal-preservation consciousness-

being that the Social is much more than aggregativity (social-aggregation) wherein a mental-disposition of ‘overt aggregative social disposition’ that conceives that a social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation are simply ‘perceptively-and-formulaically deterministic’ for ‘its purpose of temporal extricatory dementating/structuring/paradigming relating with the reference-of-thought—categorical-imperatives/axioms/registry-teleology (as perversion-and-derived- perversion-of- reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >)’ that undermines the imbued intemporal-preservation-entropy-or-contiguity—or–ontological-preservation of the social-setup ‘is not ontologically social’ (as aggregativity construals and mental-dispositions about social relations of extricatory temporal-dispositions are perfectly construable as of varying covert to overt reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold). Likewise a mental-disposition of ‘overt non-aggregative social disposition’ conceiving the social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation ‘as of inherent essence and to be upheld and maximalisingly recomposured’ (as appropriateness-of reference-of-thought—as-of-conflicatedness ) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather the opportunity for transcendental construal of our potential for intemporality. Paradoxically and across all registry-worldviews this has always imply sociologically that uninstitutionalised-threshold are in a transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ of these two divergent mental-dispositions with respect to ‘meaningfulness-and-teleology’ whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative

This insight can be grasped from ontological-normalcy/postconvergence epistemic/notional—projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of—meaningfulness-and-teleology’ in a non-positivism/medievalism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing anchoring for prospective positivistic institutionalisation construed ‘reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology’ mindset’ of such a ‘social ontology insight about prospective positivism’ (as ‘maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) may lead to its very own circumspection with the registry-worldview’s/dimension’s ‘meaningfulness-and-teleology’ and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued ‘meaningfulness-and-teleology’ with respect to the prospective as the posivistic registry-worldview/dimension and the prior as the non-positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of ‘meaningfulness-and-teleology’. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue

temporality individuation disposition, by its contemplative reappraisal, is exactly what can provide the opportunity for such transcendental possibilities (when we come to grasp that the true profoundness of knowledge is more than just ‘mechanical as something construed
soullessly’ without a more complete appreciation of knowledge as ‘organic as something construed with a profound sense of intemporal projection philosophy as to profound-supererogation’ with the idea that the type of knowledge construed as of first order transcendental-enabling/sublimating/supererogatory—de-mentativity is not based on an ordinary notion of ‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of intemporal philosophical projection and more than just a ‘product’ for a materiality purpose but a driven sense of human emancipation). In fact, this equally points to a major flaw of the inherently implied value judgement in a lot of what passes for social sciences today explaining the vagueness, platitude and emptiness of little or no relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity implication as an circular exercise, wherein the unabated recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology”-as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} ideas should be the basis for construing its social science! In fact, technically Newton might be the most inclined person for social engagement but then will he as of intemporal projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> ‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/mented psychology of the present, as of any ‘present registry-worldview/dimension’, with value

In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on a social relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construal but identify objective reality by its naturally constraining ontological-primemovers-totalitative-framework, as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-enabling/sublimating/supererogatory–de-mentativity basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and
inventions given that their transcendental-enabling/sublimating/supererogatory-de-mentativity as of a positivism outlook psychologism of the world had taken place both in philosophical and practical scientific terms with the Descartes, Hobbes’s, Kants, Copernicus, Galileos, Newtons, of the past. Whereas a lot of present day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism insight, wherein positivism–procrypticism is decentered and notional–deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author’s or anyone’s chosen but rather that the test for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context, induced by prospective relative-ontological-completeness-of-reference-of-thought is what counts as true knowledge beyond the blurriness -in-reflecting-and/or-coming-to-terms-with-implied-transcendence that often tends to arise with all institutionalisations institutionalised-being-and-craft erudition! By and large, this will often arise within the scope of blurry institutional setups not construed for operant effectiveness. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a supplanting-conviction-as-to-profound-supererogation —postconverging/dialectical-thinking-apriorising-psychologism-mind). The fundamental issue, going by the postlogism\textsuperscript{114}–and-conjugated-postlogism\textsuperscript{77}/perversion-of-reference-of-thought\textsuperscript{77}/reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{77} is then one that at the transcendental/transdimensional/interdimensional/maximalising-level defines the uninstitutionalised-threshold\textsuperscript{02} vices-and-impediments\textsuperscript{105} construct of the registry-worldview/dimension, more than just on-occasionally/incidentally. As with all prospective institutionalisations, a human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation individuals, purporting (by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation) prospective emancipation come from and are of the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality/longness is a ‘potential construct of orientation’ as implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) and it is only a devised institutionalisation construct that achieves that potential-construct-of-orientation and not any implied inherent emanance intrinsicusness (though the meaningfulness as articulated as such, and as the meaningfulness in this entire paper, is rather of an intemporal register validation and not of any temporal register validation, since an authentic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is what underlies transcendence-and-sublimity/sublimation/supererogatory de-mentativity as a ‘deeper limited-mentation-capacity—(as of relative conflation’) existential-tautologisation/existential-reference pivot/decenter to reconstrue/reconceptualise meaningfulness-and-teleology; more like a jurisprudential
maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation contention for rehabilitation is not of the same meaningful-framework as a temporal mental-disposition of illicitness for shifty expectation of rehabilitation which it should necessarily anticipate and preempt). By that token there is no base-institutionalised individuation in recurrent-utter-uninstitutionalisation, no universalised individuation in ununiversalisation, no positivistic individuation in non-positivism/medievalism, and prospectively no notional-deprocrypticism individuation in procrypticism; as at best such emancipating intemporal individuation are ‘moulting’ and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. The notion of threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing apriorising-psychologism as defining the registry-worldviews/dimensions uninstitutionalised-threshold is rather a most real idea from an ontological-normalcy/postconvergence epistemic/notional-projective-perspective wherein we can very much fathom out that the successive relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing apriorising-psychologism’ as the successively reducing-ontological-abnormalities of recurrent-utter-uninstitutionalisation uninstitutionalisation, ununiversalisation uninstitutionalisation, non-positivism/medievalism uninstitutionalisation and procrypticism uninstitutionalisation effectively speaks of their threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing apriorising-psychologism as the respective uninstitutionalised-threshold with respect to the superseding–oneness-of-ontology which as existential-reality isn’t changed but rather the respective cumulating/recomposuring uninstitutionalised-threshold are due to ‘changes in human meaningfulness and the teleological implications

validation of Derridean hauntology/hantologie conceptualisation of the social in
cinematographic terms of meaningfulness (and will seem very much akin, from an ontological
perspective, to the central notion of ‘intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as the superseding referential conceptualisation of ontology and inherently imbued with ontological-reconstituting—as-to-conflatedness as a centering/decentering mechanism’ as implied in this paper, though hauntology/hantologie is not quite articulated in such more precise ontological terms but imbricatedness/threadedness/recomposuring notion of existential-reality in there can be grasped), and equally highlights the fundamental ‘paradox of post-structural deconstruction by its transcendental implications’, in that the mental-disposition/psychical-orientation of the present registry-worldview/dimension as positivism–procrypticism is not developed enough (in terms–as-of-axiomatic-construct of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) to grasp its implications (in want of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought–devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation), just as the core non-positivism/medievalism mindset/reference-of-thought wasn’t developed enough to grasp the implications of created-and-accruing positivistic meaningfulness and redefined mindset/psyche inducted by the Descartes, Copernicuses,
Galileos, Newtons, Kants, Rousseaux and it had to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure over generations ‘for what were re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking’-‘projective-insights’/‘epistemic-projection-in-conflatedness’-’of-notional–deprocrypticism-prospective-sublimation) outlying ideas to become the defining ideas of modernity’. Thus the apparent issues today raised with post-structuralism have as much to do with the psychical orientation (as underdeveloped) of its critiques as well as the requisite effort required to further develop, elucidate and focus it; and in this regard why there have been many serious and constructive criticisms of post-structuralism as required for any subject-matter, most of the ‘popular criticisms’ levied against post-structuralism fail to past the test of intellectual criticism and have mostly been populist and media-driven attacks, gaining traction by social trending than genuine intellectual validity. The most popular being an initiative on an unrecognised social science journal which by that mere token disqualifies the so-called criticism but has turned out to be the most populist ploy by all accounts for condemning post-structuralism. Furthermore and critically, the intellectual exercise as with all institutional processes operate fundamentally on a basis of mutual trust. However the methodologies, theories and concepts, what can be articulated as new knowledge is not necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the
overall peer review process is to channel potentially admissible and debatable knowledge towards further elucidation in the overall scheme of establishing overall human knowledge as of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer review though that point tends to be a ‘highly political point nowadays’ as of the increasing bean-counting institutional reflex of funding implications and sometimes at the detriment of novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals approval and extends with the continual critiquing of knowledge whether dominant or outlying. Ultimately, the more fundamental test in such a negotiated process is a strive for consistency and validatory clues with no guarantees of effectiveness but for the overall consistency, as of the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might equally be argued that peer-reviewing and by extension all epistemological and their corresponding methodological activities are not natural knowledge activities as of inherent pure-ontology in of itself but derived activities as of human norms, practices and policies for establishing thresholds that then enable articulated qualifications as of pure-ontology; in other words, any such epistemological and methodological activity is irrelevant if pure-ontology can be arrived at without it. Consider for instance that mathematicians hardly make use of experimental designs or that many secret research by corporations and government aren’t peer reviewed, at least not publicly. Besides at a more fundamental level the question can be asked what are the metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\} implications of knowledge epistemology, methodologies and peering as to the weightier construal of the successive human ontological developments involving increasing prospective relative-ontological-completeness\textsuperscript{7}-of- reference-of-thought associated with the overall institutional-cumulation/institutional-recomposure-\{as-to-\textsuperscript{8}historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’\}\}. in

between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness~of-**reference-of-thought** and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness~of-**reference-of-thought** is ‘the very paradox of **meaningfulness-and-teleology** explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness~of-**reference-of-thought**’ with the transcendental de-mentative/structural/paradigmatic causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of a crossgenerational exercise and why such implied transcendental **meaningfulness-and-teleology** might seem arbitrary when **meaningfulness-and-teleology** is rather interpreted in terms of the prior registry-worldview’s/dimension’s **reference-of-thought** not factoring its prior relative-ontological-incompleteness~of-**reference-of-thought**. But this is simply valid on the fact that a more profound axiomatic-construct on a given domain of reality as of prospective relative-ontological-completeness~of-**reference-of-thought** is of intemporal-or-ontological prioritisation as of its conflatedness relative to a less profound axiomatic-construct on that same given domain of reality as of prior relative-ontological-incompleteness~of-**reference-of-thought** as of its constitutedness, as the latter is rather in shortness-of-register-of–meaningfulness-and-teleology /distractiveness to the former as of **reference-of-

called upon to show itself capable of superseding/surpassément for prospective possibilities to
avail. A second weakness of many critiques is by naively misrepresenting post-structural
meaningfulness, and going on to criticise this. For instance, such arguments about post-
structuralism as a theory that has no worldview are not made by poststructuralists who in their
transcendentally-enabling-level–of-ontological-good-
faith/authenticity~/objectification/desubjectification-as-objectification<-as-to-ontological-faith-

have been rather questioning openly what the reality of the meaningfulness they construct
implies, as a basis for further intellectual development. This explains the convoluted responses
of say Derrida because that is the intrinsic-reality insight at hand, and the issue is rather how to
further develop. This will be tantamount to criticising early quantum physics for contending
that the fundamental particles are rather like waves and evasive without yet establishing an
advanced basis of the science. Knowledge is not an exercise of one set of individuals arguing
against another nor is it a popularity contest but rather it is all about finding out what constitutes
intrinsic-reality as it permits ontological-prime movers-totalitative-framework \*; intrinsic-reality
being the superseding transcendental enabler, and not any humans no matter their statuses. A
third weakness has been by relating to poststructuralists as if they have got to get all their ideas
right on by the instant, as if the theoretical framework isn’t in development like all theoretical
frameworks (by the same token imagine all the unanswered questions that underlie quantum
physics for over half a century that are still being elucidated, for instance, string theory which is
so highly speculative but is still credibly a basis for research and analysis). The purpose of a theoretical framework is not to provide an immediate answer for everything but rather to provide a framework for constant critical development of ideas. Otherwise, it will be best to develop a correlational construct that may statistically be coherent with many arguments at any given point in time but is of little predicative or projective value because it hasn’t got a profundity as a genuine theoretical construct which may actually be mostly incoherent with many arguments at its earlier stage but provides a wealthy framework for the continuous articulation of ideas and resolutions, and this is actually the point of a theory in the very first place. It is thus no accident that many other disciplines have found post-structuralism as a relatively ideal tool for invoking much needed insight. A fourth criticism has to do with the ‘political nature’ of human affairs obviously, and even the intellectual is not beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been the case throughout human history) and further so in a social domain that is not immediately amenable to predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as with the natural domain even though the latter equally faces similar issues but to a lesser extent. When we come to reflect that the leading poststructuralist of his time had an entire school, rather than focusing on developing research criticisms of his work and other poststructuralists (which would have been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think that intellectualism and ideas occur in an absolute neutral environment particularly when of socially-perceived disturbing implications. While it is generally recognised that knowledge is determined on its own merits as an interest-free principle, the fact is in the real world of ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and extra-intellectual meaningfulness becomes fair game. Fifthly, the argument of
unintelligibility of post-structural meaning is outright ridiculous with respect to the exegetical
aims of its authors, and no less so as expecting advanced chemistry, biology and physics
writing to be popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-
transference permeating all subject-matters and disciplines, which speaks to the idea that the
‘ordinariness of thought’ is not the sound basis for construing issues raised in terms—as-of-
axiomatic-construct of profoundness of contemplation. The ontological-contiguity\textsuperscript{66}—of-the-
human-institutionalisation-process \textsuperscript{67} by its deferential-formalisation-transference is an exercise
of shrinking the melee of common sense wherein spheres previously opened for common
opinionionatedness are shoved away as ‘deferred to’ specialisms whether institutional or
subject-matters by the mere effectiveness, with ‘informed common and individual opinions’
being the panache for the expression of sovereignty whether about the polity or individual
choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that
there is a common sense social science is a falsehood no more than there is no common sense
natural science, and intellectuals are irresponsible when peddling the notion that readers
shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness
and rather expect that they should be able to satisfactorily engage at the same intellectual level
(‘reference-of-thought) involving advanced studies and research on the basis of ordinariness of
thought. This should not be confused with a popularising exercise meant to stir popular interest
like popular science, though in fact there is no truly popular science for that matter but
serious/candid science. Such a confusion can hardly arise in the natural sciences because of the
‘promptness of ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ in
constraining veracity/ontological-pertinence of thought by the immediate effectiveness of
studies, discoveries and inventions wherein a flaw thought proposition will be proven wrong by
its ontological ineffectiveness with relatively little concern for third-party convincing over the
transcendental-enabling/sublimating/supererogatory~de-mentativity that is existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness’ and distance of ontological-prime-movers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity’ in the social sciences allows for propositions to crop up that are hardly constrained by immediate effectiveness of studies, discoveries and inventions, such that such propositions will often border on popular thinking or the political (technically) or a concern priorly driven with garnering support and agreement, rather than of genuine intellectual strife for ontological-prime-movers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity. In this regard, the central tenet of poststructuralists with respect to their pursuit has been transcendentally-enabling-level–of-ontological-good-faith/authenticity /objectification/desubjectification-as-objectification—as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism> with respect to their reflections, studies and research at all cost, even at the cost of many poststructuralists not recognising explicitly that they are poststructuralists or not recognising similarities in their works with other poststructuralists, so because fundamentally they can only vouch for their authentic reflections and analyses without a ‘surreptitious pretence’ for such amalgamation which will undermine their ontological-good-faith/authenticity with regards to conceptualising intrinsic-reality/ontological-veridicality, with the idea that the notion of a commonness of their ideas and as a movement will take care of itself if they are truly articulating an intrinsic-reality/ontological-veridicality that reflects that commonness; more like the Indian story of blind men who came across an elephant and each one sincerely/authentically said what their capacity enabled them to say, no more no less, with the idea that if what they say is of-the-reality of an elephant, that notion will take care of itself but their first posture is to
say authentically what is in front of them. This speaks of the essential nature of all sciences wherein the researcher considers the most determinant element to be not itself or other humans (who are together mortals; mortal because they/humans don’t really invent any rules of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or utilise them as ‘supposed inventions’ –and the scientist is all about a validation by intrinsic-reality/ontological-veridicality-as-the-transcendental-enabling/sublimating/supererogatory-de-mentativity in contrast to a mental-disposition of social-aggregation-enabler where the emphasis is naively about convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-veridicality transcendental enabler thus leading to subontologisation in-a-social-dynamism-of-meaningfulness-misappropriation, rather than the supersedingness/precedingness of intrinsic-reality/ontological-veridicality transcendental enabler) but the superseding transcendental-enabling/sublimating/supererogatory-de-mentativity which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by effectiveness of ontological-primemovers-totalitative-framework and projection; with the latter wholly the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating/supererogatory-de-mentativity that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘sovereignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the transcendental-enabling/sublimating/supererogatory-de-mentativity whatever the jargon
required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating/supererogatory-de-mentativity of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of ontological-primemovers-totalitative-framework ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Sixth, thus the idea of deferential-formalisation-transference behind formal predicates of institutions and subject-matter specialisms is all about construing meaningfulness in a depth-of-thought (intemporality) that is not available to ordinariness of thought, wherein there is a disambiguating of the supratransversality—of-motif-and-apriorising/axiomatising/referencing as a construct of formalised —reference-of-thought that is of intemporal-projection/longness-of-register-of-meaningfulness/totalisingly-entailing/maximalising/transcendental over the subtransversality—of-motif-and-apriorising/axiomatising/referencing informal —reference-of-thought as melee of common sense of temporality—/non-totalisingly-entailing/non-maximalising/non-transcendental constructions. The idea is that such a disambiguating is a necessity going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological—
normalcy/postconvergence—existentialism-form-factor requiring skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards the intemporal/longness-of-register-of—meaningfulness-and-teleology as the ontological construct that institutionalises (intemporalises). Hence such a skewing (‘intemporality’-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) in the ontological-contiguity—of-the-human-institutionalisation-process of shrinking the melee of common sense involves developing institutional and subject-matter specialisms as supratransversality—of-motif-and-apriorising/axiomatising/referencing narratives (for instance, the developing sciences and institutional specialisms) that induce corresponding untenability/internal-contradiction/internal-incoherence/institutional-constraining by effectiveness on the subtransversality—of-motif-and-apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that…, physicists say that…, etc. and not a common sense posture of the sort I think that…, thus relegating the melee of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness. Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality—of-motif-and-apriorising/axiomatising/referencing intellectual criticism but raising subtransversality—of-motif-and-apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted
above. The fact is the melee of common sense as subtransversality~of-motif-and-apriorising/axiomatising/referencing hasn’t got the requisite intemporality/longness in terms—as-of-axiomatic-construct of universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper’s purported construct for aetiological/ontological-escalation in grasping the phenomenon of postlogism in general and the general background human science conceptualisation; together with its exposure for falsifiability/validation from subsequent critical analyses). Such that there will tend to be ‘confusion of reference-of-thought’ where such subtransversality~of-motif-and-apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than ‘to defer’, or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As our melee of common sense defers when it comes to the natural sciences, it defers when it comes to the legal science, it shouldn’t expect otherwise but to defer when it comes to rigorous post-structural and other social science constructions however their approximations, and so as the best construction potential of human meaningfulness and teleological possibilities. On that same token the notion of validation of supratransversality~of-motif-and-apriorising/axiomatising/referencing with respect to subtransversality~of-motif-and-apriorising/axiomatising/referencing is not one of contending/argumentative validation at a same contending pedestal but rather as a validation of the supratransversality~of-motif-and-apriorising/axiomatising/referencing reference-of-thought as intellectually-and-morally institutionalising and not implying its equivalence with subtransversality~of-motif-and-apriorising/axiomatising/referencing melee of common sense reference-of-thought, wherein for instance a consistent demonstration of a chemistry science (as supratransversality~of-motif-
and-apriorising/axiomatising/referencing) effectiveness earns chemistry science the deferential-formalisation-transference of no longer being engaged at a same contending pedestal as the melee of common sense with respect to human social contention about material constitution in order to avoid the circular drawback of constantly making arguments in terms-as-of-axiomatic-construct, such that social deference is now institutionalised as ‘chemists say that/it is said in chemistry that’ rather than a social melee of common sense equivalence of ‘chemists think that but I also think that going by my common sense’. This argumentation is not idle as the social sciences as ‘being closest to human conscious sense of sovereignty’ tend to be most affected by such fallacies as highlighted that should be superseded by all knowledge whether natural or social-construct, and while such notion are often intuitively grasped with other formalisms whether institutional, legal or in the natural sciences subject-matter specialisms, for the social sciences there is a need to actively bring this notion to the consciousness-awareness-teleology in order to circumvent such nature of knowledge fallacies with regards to an emotionally charged domain that is the social. This equally explain why the studies of the social are easiest prone to ontological-bad-faith/inauthenticity, whether beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought, as even where contending intellectual postures are of relative elevated formal knowledge de-mentating/structuring/paradigming, it is quite easy for a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with terms-inamplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications

mentality in order to advance one intellectual posture, and so as intellectual politics rather than genuine intellectualism. Seventh, as advanced by this author the ontological-normalcy/postconvergence of intrinsic-reality as reflecting holographically-conjugatively-and-transfusively\(^a\) the ontological-contiguity\(^b\) of-the-human-institutionalisation-process\(^c\) validates and restores the notion of essential meaningfulness (the notion of a center –be it conceptualised as an ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’\(^d\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^e\) of reference-of-thought\(^f\) devolving-as-of-instantiative-context as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’) to post-structural thought as its scholars had rather previously mostly focussed on disambiguating/clarifying the certitude/lack-of-certitude of human meaningfulness and thought. Even then the practical application and conceptualisation of post-structural meaningfulness has always been one that has tended to restore a sense of re-equilibrium with respect to perceived vested interest and skewed power relations whether with regards to its articulation in feminist studies, postcolonial studies, power relations in social settings with regards to appropriate deliverance and more responsive public services, etc. as post-structuralism has often been a framework giving weaker and subjected meaningful frames public voice. Thus the so-called ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(^g\) of post-structuralism’ has been in real and practical world terms more a question of abstract reconstructive thinking since such practical applications have tended to be effective further highlighting the need rather for more decentering contemplations. Besides, post-structuralism practical emphasis has mostly been methodical rather than dogmatic. In the bigger scheme of things, this author further highlights that post-structuralism by implying ‘decentering’ is implying transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity or an ‘existential-reference/existential-tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of analysis/knowledge-construct has moved to the prospective/transcendental/superseding reference-of-thought putting into question the now-and-present way of thinking as prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract articulation of principles is of existential-tautologisation/existential-reference neutrally. For instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining meaningfulness-and-teleology from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency/sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-Amplituding/formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness. In other words, abstract post-structural construct as any other theoretical constructs have no commitments to upholding any value-disposition and teleology but rather construe the ontological possibility conflated as of existential reality. The idea of discretely eliciting value-disposition and teleology choices/options is a secondary exercise of human social application (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting disposedness-as-to-orientation/value-construct/valuation–and–derived-parameterising) and
entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so with regards to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ’<imbued-and-
‘hermeneutically/reprojectively-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>), and specifically with regards to the practical application of post-structural thought as a re-equilibrium exercise derived from the ‘theoretic reshuffling-of-the-cards/putting-into-question’. Thus post-structuralism being so construed as ontologically-driven (having a center as of ontological-normalcy/postconvergence graspable by ‘the dynamics of metaphysics-of-absence-(implicit-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>) or postdication insight with respect to metaphysics-of-presence-(implicit–‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness )’ involving diminishing–human-epistemic-abnormalcy/diminishing–preconvergence/increasing-relative-ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness”-of–reference-of-thought”-devolving-as-of-instantiative-context due to human limited-mentation-capacity-deepening as ‘shallow limited-mentation-capacity to deeper limited-mentation-capacity-(as of relative conflation ’ development’) effectively heralds post-ideology as ideas and notions are validated/invalidated by their demonstrated ontological-veracity/ontological-pertinence. In order words the supposed ontological-terms of notions and ideas are the basis for their analysis as ontologically-pertinent or impertinent, and so more than just perfunctory analyses constrained by the limiting framework of institutionalised-being-and-craft constructs and setups but at an existentialism/full-depth-of-existential-implications level highlighting the precedingness/supersedingness/ascendency of ontologically-driven analysis
over ‘habits’, ‘conventions’ and rights-of-precedence/entitlement fallacies. Post-structuralism as such should posit to remedy and supersede the inherent ‘conceptual hyperbole’ imbued in the often ‘poorly-ontological, non-ontological or metaphysical constructions permeating ideologies’ and projected as worldviews, to ‘restore existential veracity/ontological-pertinence as the central notion behind worldview construction and representation’, and so beyond just ‘present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and anthropological depth with respect to human mentation, meaningfulness and institutional-development–as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting–as-to-conflatedness'/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency–aporia/undecidability/dilemma/ought- indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnatures—temporal-
to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor and a social world is inherently hampered by a blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendentale-enabling/sublimating/supererogatory~de-mentativity’. Thus approaching a scientific study of the Social on the same operational basis as that of the natural world is necessarily deficient as the latter’s immediacy of concurrent ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendentale-enabling/sublimating/supererogatory~de-mentativity as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the ‘very strength’ of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is this author opinion, is not strong enough (of sufficient ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness/of-reference-of-thought’s-devolving-as-of-instantiative-context for the further development today of the study of the Social as of its fleeting nature (on such terms of what predicates should take precedence). It must be said that the notion of transcendental enabler with regards to the Social today is rather relatively weak such that critically a lot of the basis for the social sciences today is
influenced rather by practice, authority, and more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology, rather than truly ontological-primemovers-totalitative-framework deterministic ontological ‘projected constructs’. Consequently despite the projected candour, the study of the social is inevitably permeated with ‘intellectual-ontological-bad-faith/inauthenticity’ (unconsciously or consciously), and by this is meant it will be naïve to think that all issues of intellectual disagreements with respect to the study of the social are necessarily in purely logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant constraining of the natural world can do to thinking by mere ontological-primemovers-totalitative-framework under the rational-empiricism de-mentating/structuring/paradigming is often weakly possible with the Social particularly where there is perceived interest to act otherwise. This is particularly the case with regards to the undermining of social criticism and especially post-structuralism with the intellectual standards of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by ‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-teleology abused as objective bases of intellectual criticism get discarded easily for highly subjective ones); and this author equally holds that a ‘fully emancipated social science’ will only prevail with the requisite pivoting/decentering of understanding as deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, which should enable the attainment of a suprastructural/beyond-the-consciousness-awareness-teleology level of social thought involving notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. More like in many ways the level of thought in the natural sciences is wholly divorced from our consciousness-awareness-teleology and is fully transcendental-
enabling/sublimating/supererogatory~de-mentativity by confirmatory existence/intrinsic-reality/ontological-veridicality with little or no social-aggregation-enabling but say for human organisational issues and wrong preconceptions induced by social-aggregation-enabling. This arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently strong transcendental-enabling/sublimating/supererogatory~de-mentativity. While in the natural and mathematical sciences the subject-matter by itself is highly transcendental-enabling/sublimating/supererogatory~de-mentativity this is not the case with the subject-matter of the social due to its high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction requiring rather a further strengthening of ontologising rules as of knowledge-notionalisation and utter-ontologising-recomposuring (notional~deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-reference-of-thought) beyond the present just positivistic/rational-empiricism striving social science bringing together profound insight with causal effectiveness. This doesn’t necessarily imply a naïve mimicry of the experimental approach as is often the case it can be argued as prevalent in the psychological sciences, and even in the natural sciences there is need for thorough insight when experimenting like say much of quantum physics is often based on elaborate abstractness of thought that is merely validated by critical confirmatory experiments. In fact, this author will contend that the overall ‘insightful empirical’ conceptualisation of this paper is actually more profound than catches the eye in a naïve empirical sense that cannot see beyond our positivistic registry-worldview to recognise human successive transcendental states like recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires insight and it is more than just a
matter of obtaining results because an experiment has been made which is certainly simplistic as the very existential state of things when disambiguated is actually a more profound notion of experiment. It is interesting to note that this argument on the specific basis of (conscious or unconscious) ontological-bad-faith/inauthenticity\(^{13}\) for the requisite condition of a ‘fully emancipated social science’ is more than just of circumstantial and idle implication but is rather construed as a de-mentative/structural/paradigmatic notion much like saying it is impossible to have a fully emancipated science in a transitory non-positivism/medievalism to positivistic social-setup still emphasising essences and supranatural causations over a transcendental-enabling/sublimating/supererogatory–de-mentativity of rational-empiricism/positivising based knowledge of intrinsic-reality, as transcendental-enabling/sublimating/supererogatory–de-mentativity positivistic contentions will still be undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity\(^{-}\langle\text{shallow-supererogation of mentally-aestheticised-preconverging/dementing}\rangle\) in the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of reference-of-thought/axiomatic-construct. Likewise, the positivism–procrypticism meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology\(^{-}\langle\text{in-existential-extrication-as-of-existential-unthought}\rangle\) of social-aggregation-enabling with respect to its social reality subject-matter as of its spurious/remote nature, for a more profound transcendental-enabling/sublimating/supererogatory–de-mentativity (unlike the relative case with the physical reality subject-matter as immediate) as required for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{10}\) as of prospective notional–deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only credible logic this author can think of is that post-structuralism as one of the major critical theories given its potential ontological vigour has been seen as a threat with a deliberate covert non-intellectual effort to
stifle it and limit its influence often having to do with misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one of the central issue with regards to post-structural thinking with respect to other intellectual postures has had to do with the unusually high level of accusations of its proponents of misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather ‘a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis’. Consider in this case one media-driven and popularised argument that Karl Rove ‘we make our own reality’ quote during the Bush mandate, is due to post-structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes-rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical applications of post-structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity’ of ‘parodying’ of poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in ontological-good-faith/authenticity. Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value.
judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding cure for diseases. This is no more different with post-structural thought which is not a metaphysical/ideological advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science issues but political economy issues that require a criticism with respect to social choice about the political economy, but this has been usurped uncritically as if of a natural economic allocation mechanism (a falsehood). This author makes this latter point on the belief that knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in
fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of speculative thinking allowed to this author in this paper, it is such a proposition together with the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism since the 80's arises out of such (it is herein contended) ‘intellectual triteness’ by such critics particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual standards they have been able to show elsewhere, together with the notion that these have tended to be unusually media driven in inducing a populist effect. Imagination will point to the idea that something much more ‘cynical and non-intellectual’ must be at work but passing for legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment more or less grasping the true implications of a non-medieval positivistic thinking on the whole intellectual, belief system and social-construct, and cynically upholding notions they knew better to be wrong but for their overall sense of preservation of their present and their present interests. This impression can be extended as well with respect to the idea of the social implications of postlogism as of compelling–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation as of its ontological-resolution (aetiologisation/ontological-escalation) in all the successive registry-worldviews given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor. Now the criticism of populism-driven critiques of post-structuralism is not raised idly, as an
eexercise that purports to articulate such breadth and depth of novel ideas as this paper does
necessarily requires that the authorship effectively assume the profile and presumption that the
implied knowledge construct warrants (which obviously every truly intellectual spirit will
appreciate for what it is, if not agree with the arguments). Such an articulation is driven by the
idea that knowledge as a transcendence-enabling construct is more than just about its
craftiness/technique but part and parcel of the intellectual exercise is to articulate
meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced
with the evasive nature of quantum theory the physicists never said reality is wrong since it is
difficult to understand, likewise it is naïve to imply that the reality reflected by post-
structuralism is wrong because it doesn’t quite fit into our ordinary everyday way of thinking
(that is exactly the point, our ordinary everyday way of thinking is in want of its further
development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-
unshackled)!
