Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\textsuperscript{40} method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\textsuperscript{40}, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’; more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing \(^{15}\) <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification\(^{10}\)/akrasiatic-drag/denatured/preconverging-or-dementing\(^{10}\)—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{19}\)> stifling prospective possibilities, thus requiring prospective fundamental reconception. ‘knowledge becomes increasingly mechanical’ and is rather a secondary and derivational tool
for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the
imprimaturing so projected and the perceived temporal social-value arising with such
imprimaturing and as it is increasingly associated with generalised incuriosity in genuine
intellectual development and the substituting of mere imprimatur totalisingly-disentailing—

<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-deficient-reflexivity of our <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-‘reference-of-thought—categorical-imperatives/axioms/registry-teleology} it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications>}; with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretenses to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for
advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating–nascence-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>-totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness~immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology <-in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-(uninstitutionalised-threshold//presublimating–desublimating–decisionality)–of-ontological-performance<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’> inclinations that poorly appreciate existence-potency~sublimating–nascence-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>-totalising–renewing-realisation/re-perception/re-thought–in–supererogatory–epistemic-conflatedness~implications of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In many ways this
intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-<-in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> whether by mystifications-outside-existential-contextualising-contiguity—that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness -implications/conclusions/projections-of-prospective-knowledge-reification -in-a-dumbing-down-posturing-that-implies-that-the-present-is-unchangeable-as-of—presencing—absolutising-identitive-constitutedness', etymological-flouting-as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivety-that-such-stigmatising-representation-will-undermine/override-their-analysable-ontological-veracity and an-approach-as-of-the-ordinary-egotistic-perspective-in-existential-extrication-that-absolutises-the-present-that-is-passed-as-knowledge-reification9 all undermining informed insight and the requisite human intellectual and emotional sacrifice for genuine knowledge-reification9 and prospective progress involving the authentic self and social transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then provides paradoxically the underlying 5‘meaningfulness-and-teleology’ infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly
addressing human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint of society that ultimately have serious de-
mentative/structural/paradigmatic consequences associated with institutional failures (which
such intellectualism is hardly inclined to address). Critically, such a ‘self-contented
intellectualism’ increasingly focuses not on knowledge-reification as to existence-
<amplituding/formative–epistemicity>–totalising–renewing–realisation/re-perception/re-
thought–in–supererogatory–epistemic–conflicatedness or the critical analysis of such
knowledge-reification but in the face of criticism rather consciously substitutes strategies of
institutional ascendency as of a strategy of influence by default imprimatur status rather than
genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a
common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when
appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7,
speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but
a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that
anyway dialogical-equivalence is ever always assumed to then adopt an
apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as
to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual
reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of
correctness or incorrectness or any other evaluation in-between on the basis of ontological-
good-faith/authenticity’, but beforehand ‘to equally evaluate the
apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-
faith/inauthenticity (beyond-the-consciousness-awareness-teleology –<in-existential-
extrication–as–of–existential–unthought>) as of underlying existential-contextualising-
contiguity elucidation/deblurring as well as whether the veracity of such
apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness’/relative-ontological-completeness

We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity)—totalising—in-relative-ontological-completeness of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity)—totalising—in-relative-
ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s\(^2\) to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising--in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-threshold/ presublimating–desublimating-decisionality)--of-ontological-performance-<including-virtue-as-ontology>. The fact is knowledge-reification is of ‘existential <amplituding/formative–epistemicity>totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening’ and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of- <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-supernumerary–epistemic-conflatedness over our human-subpotency motives, the
same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought—in—supererogatory—epistemic-conflicatedness dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and—sublimity/sublimation/superrgatory—de-mentativity as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought—in—supererogatory—epistemic-conflicatedness implications. can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory-epistemic-conflatedness over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are 'naturally' constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s amplituding/formative-wooden-language-imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding/formative-epistemicity-totalising-renewing-realisation/re-
perception/re-thought,-in-supererogatory-epistemic-confoundedness/imortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent—as-in-dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory-dementativeness/epistemic-growth-or-confoundedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrow has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-confoundedness consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in
a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory-de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology ) in human-subpotency social-aggregation-enabling).

We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology, and so in transvaluation; as for instance, it can hardly be
imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective notional–deprocrypticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in conflatedness’ herein implied as ontological-primemovers-totalitative-framework involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ ‘meaningfulness-and-teleology’ as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-
of-prospective-deprocrypticism-dissemination’), and we can better understand as such why underlying confliction arises with all registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogation/de-mentativity because these involve human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendental/transvaluating conception is universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs by the underlying fact that these are the very same human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility –<imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>; as inevitably the apparently innocuous Copernican, Galilean, Cartesian, Newtonian, etc. conception of the material world in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the universalising but non-positivism–medievalism preclusive-consciousness’ have constructive implications about corresponding requisite prospective social-values in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of the social-construct as of the universalising but non-positivism–medievalism preclusive-consciousness’, and the possibility for the further advancement of such material sciences arises from the effectively enabling social-values like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein
contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective depro crypticism—or—preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so over our present procrypticism—or—disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> as such reflects the successively induced originariness-parrhesia,—as—spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of ontological-performance’—<including-virtue-as-ontology>’ so-construed as of notional—protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such specific construction-of-the-Self and its given registry-worldview/dimension —reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology as of secondnatured institutionalisation. The ‘destructuring cut-offs/thresholds of ontological-performance’—<including-virtue-as-ontology>’ reflect prospective lack of dimensionality—of—sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth—or—conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit—

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

The use of ‘human mental-dispositions/individuations’ as of notional~firstnaturedness—temporal-to-intemoral-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemoral ..........................................................................................................................................................2751
By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals’.

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction).

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism’.

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning.

‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise.

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it.

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality de-mentativity/structuring/paradigming.

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former.

The application of the universal technique of human transcendence-and-sublimity/sublimation/supereorogatory/de-mentativity to procrypticism-notional—deprocrypticism transcendence-and-sublimity/sublimation/supereorogatory/de-mentativity can be basically be articulated as follows (the ontological entrapment).

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’.
Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality)

By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature.

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>

Technically, it can be said that the underlying psychopathic phenomenon known as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is associated with all the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>) by its eliciting of ‘protracted slantedness’ in temporal-dispositions.

the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow.

ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’

The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-

blurriness\textsuperscript{7} blurriness speaks to ‘lack of intellectual lucidity/clarity with respect to supposed knowledge articulation as of existential-reality’ wherein a given human-subpotency registry-worldview/dimension supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument so-construed as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproduciability-of-aestheticisation is rather wrongly construed in ‘presencing—absolutising-identitive-constitutedness\textsuperscript{11} as superseding ecstatic-existence/intrinsic-reality at its prospective destructuring-threshold–(uninstitutionalised-threshold\textsuperscript{2}/presublimating–desublimating-decisionality)–of-ontological-performance\textsuperscript{2}–<including-virtue-as-ontology> and so as of a lack of insight about <amplituding/formative–epistemicity>causality–as-to-projective-totalitative-implications,–for-explicating-ontological-contiguity\textsuperscript{5} as of ‘relative-ontological-incompleteness\textsuperscript{2}/relative-ontological-completeness\textsuperscript{7}–(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness\textsuperscript{13}/formative–supererogating–<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity\textsuperscript{2}–as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{8}, and blurriness
is reflected aporetically with such conundrums as existence-in-existence, disparity-of-conceptualisation—unforegrounding-disentailment, failing-to-reflect—immanent-ontological-contiguity—immanence—ought problem, and logical issues of elaboration-as-mere—extrapolating/constituting/abstracting/deducing/inferring—outside-existential-contextualising-contiguity

blurriness thus fundamentally speaks of a ‘closed-minded unilateral-conceptualisation-of-knowledge’ wherein the human Self is wrongly construed as of a presencing—absolutising-identitive-constitutedness reference for the conception of knowledge rather than reflecting ontological-veracity with an ‘open-minded bilateral-conceptualisation-of-knowledge’ wherein the human Self itself has to prospectively be developed/constructed-out-of-its-prior-shiftiness-of-the-Self in ‘epistemic-conflatedness’ construed as epistemic-ricochetting/transepistemicity construct (so-construed as projective-insights) to then be able to register the entailing implications of prospective knowledge (so-construed as predicative insights), in the sense that for instance without implying the need for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as of prospective positivism construction-of-the-Self/self-consciousness a non-positivism mindset as animistic or as medieval in its non-positivism ‘closed-minded unilateral-conceptualisation-of-knowledge’ (thus lacking the positivistic projective-insights as of apriorising/axiomatising/referencing—psychologism) will only end up ‘complexifying the mechanical outcome of positivism meaningfulness-and-teleology on the basis of its non-positivism as animism or as

‘a projection of aestheticising depth’ that speaks of its specific generative, elucidative and exactifying/precisioning—of-sublimation—<as-to-entailing-theoretical,-conceptual-and-operant-implications> aspects as to specific human perception of artistic sublimation; and in this regards human limited-mentation-capacity-deepening needs to factor in that much of the institutional confusion associated with the artistic, philosophical and scientific speaks more of presencing—absolutising—identitive-constitutedness, existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conscious and unconscious institutional politics of self-preservation whether from 'institutionalised philosophy' or 'institutionalised science' as to the overall politicisation of knowledge given that human limited-mentation-capacity warrants human institutional specialisations as subdividing the overall human knowledge aestheticisation—and—aestheticisation-towards-ontology (while factoring that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting—of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism—overcoming/unovercoming'> is not beholdening to any such human-subpotency institutionalising) implying that scientific achievements are de facto philosophical achievements as inherent to the practice of science is notionally/epistemically ‘implicated philosophy’ whether the scientist is explicitly conscious or not of this such that faced with scientific dilemma
some of the most novel philosophies are implicitly articulated in scientific works in need for their philosophical explicitation (as herein explicated as to the fact that nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving actually point to an overall reference-of-thought/grandest-axiomatic-construct-as-to-referencing/registering/decisioning sublimation as for instance with Newtonian physics pointing to an overall positivism/rational-empiricism reference-of-thought/grandest-axiomatic-construct-as-to-referencing/registering/decisioning), and likewise the scientific methods/methodologies/approaches were developed by philosophers involved in natural philosophy knowledge-reification—gesturing firstly as thought experiments and thereafter articulating effective practical methodologies not because they gave up on natural philosophy but because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to ‘exactifying/precisioning-of-sublimation—as-to-entailing-theoretical,-conceptual-and-operant-implications’ framework of controlled experiences involving control methods as extension of their normal living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but rather extension of philosophising into methodologically framed and
controlled experiences known as experiments (with the naïve perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument–for–conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest–subpotency–<in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> pertinence to which any such scientific methods/methodologies/approaches are rather subjected):¶ human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification orientation associated with the overall philosophical and exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,—conceptual-and-operant-implications> orientation associated with science rather fundamentally speaks to the pre-eminence of their aetiologisation/ontological-escalation purpose so-reflected in the succession of ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment’) as narrowing-down selectivity of the intemporal-disposition as of

implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporeticism associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporeticisms concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific aporeticisms reflection of human historicality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism'> while avoiding an epistemically-flawed complex of ‘presencing—absolutising-identitive-constitutedness’; along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification orientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-conceptualisation<u>unforegroundingdisentailment</u>,-failing-to-reflect-

regards we can appreciate how the very implications of say universal
human rights supererogatorily becomes more and more profound as from
say the Socratic philosophers (even as slavery, class-seclusion and
female-seclusion was prevalent as to warped collateralisation), budding-
positivists (even as in many ways the practices of serfdom/slavery, social-
class discrimination and female-discrimination were equally prevalent as
to preclusive collateralisation) and today’s supposedly universal
conception of human rights (even as it is marked by occlusive
collateralisation of other peoples, cultures and nations as well as gender
and age occlusive collateralising biases); actually the specific sense and
general sense are thus linked on the basis that both imply totalising-
entailing with the specific sense speaking of totalising-entailing as to the
specific universalisation registry-worldview/dimension ‘when mankind initially consciously cognised that the profoundness of “meaningfulness-and-teleology” should be totalising-entailing but without necessarily differentiating such a conception of totalising-entailing between mythological and positivistic/rational-empirist totalising-entailing with both construed as universal “meaningfulness-and-teleology”, while the general sense of universal implicitly captures and exactifies/precises the conception of totalising-entailing in terms of ‘entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness’, as reflecting the implication of human limited-mentation-capacity-deepening as to the ‘notionalisation/notional-conception/amplituding of totalising-entailing so-reflected by the ontological-contiguity—of-the-human-institutionalisation-process’ (along the same lines as notional–deprocrypticism) thus amplificatorily rendering the conception of totalising-entailing (as to notionally–universal) as more ‘profoundly construed as from perspective relative-ontological-completeness as of the ontological-normalcy/postconvergence of existence/intrinsic-reality’ so-underlied by perspective ‘nondisjointing totalising-entailing’ or deprocrypticism

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ly predisposed human mind’ as of prelogism or prelogism-as-of-conviction-as-to-profound-supererogation-{existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at} so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal—as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction—as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism-as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—{perverted-outcome-sought-precedes-existentially-veridical-logical-dueness} by its reference-of-thought—developing-as-of-instantiative-context—meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’,

Hence prelogism or prelogism-as-of-conviction,-as-to-profound-supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism-as-of compulsion–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of perversion-of-reference-of-thought, as-effective-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, as logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation is on the basis of a sound reference-of-thought (non–perversion-of-reference-of-thought) such that fundamentally ‘the notion of the dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’ would

The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism /preconverging-or-dementing -integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing<-amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness )) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfure-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

Insightfully and counterintuitively for elucidative construal, neuterising as of epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness–of–reference-of-thought is rather ‘a derived-construction as deficient of ontological-normalcy/relative-ontological-completeness–of–reference-of-thought’, as it is the elucidation of ontological-normalcy/relative-ontological-completeness–of–reference-of-thought as truly reflecting intrinsic-reality/ontological-veridicality, whether we are aware of it as of postconverging-or-dialectical-thinking–apriorising-psychologism or unaware beyond-
‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}> in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism—or—disjointedness-as-of—reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional—referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness —of—reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative—epistemicity>totalising—ratio-contiguity/ratiocination-as—
referentialism’ as of their respective epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness -of- reference-of-thought, so-construed as their ‘neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply
the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supercritical—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising -induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidacious-consciousness $^5$neuterising-induced)-$^7$reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which is non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness $^5$neuterising-induced)-$^7$reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of $^5$meaningfulness-and-teleology $^9$ as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance$^7<$including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying $^7$reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument, individuals
cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure—as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring underlying the transcendence-and-sublimity/sublimation/supererogatory—de-mentativity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67}. The fact is that all “meaningfulness-and-teleology\textsuperscript{79} ontological-performance”—<including-virtue-as-ontology>, whether teleologically-degraded or teleologically-elevated, implied as of within a given “reference-of-thought are necessarily in ontological-contiguity\textsuperscript{66}, construed as of a difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} of the same <amplituding/formative—epistemicity>totalising/circumscribing/delineating—“reference-of-thought—devolving. of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments crossgenerationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity<-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity<-profound-supererogation-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of
non-positivistic superstition and its vices-and-impediments\(^{105}\). The same applies from a notional–deprocrypticism perspective with regards to a procrypticism–or–disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology\(^{19}\) in the same disjointedness-as-of-reference-of-thought terms as-axiomatic-construct by which the procrypticism–or–disjointedness-as-of-reference-of-thought arises in the first place is in circular amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/ reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments\(^{105}\) as of that fundamental amplituating/formative-epistemicity totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturung such a prospective institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supercrogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical reference-of-thought construction of meaningfulness-and-teleology\(^{19}\), as of the succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-

As a further elaboration, the circularity and <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{18} mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-de-mentating/structuring/paradigm/teleological-possibilities established as of its \textsuperscript{18}reference-of-thought and—\textsuperscript{18}reference-of-thought—devolving—meaningfulness-and-teleology\textsuperscript{19} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. It is only a crossgenerational psychoanalytic-unshackling/memetic-

This explains as of metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing—perspective—ontological-normalcy/postconvergence) why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivist social-setup; since their existentially habituated state of animism or medievalism teleological-de-mentating/structuring/paradigming/teleological-possibilities as of ⟨warped-or-preclusive-consciousness—neuterising-induced⟩—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of—reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’! We can get a projected sense of this as of metaphysics-of-absence-\{implicit-epistemic-veracity-of\} nonpresencing-\{perspective-ontological-normalcy/postconvergence\} in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness\^*\> of reference-of-thought, and falling back to construe/conceptualise meaningfulness-and-teleology\^*\> in non-positivistic animistic or medieval terms-as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived-perversion-of-reference-of-thought-\<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\^*\> as of unsoundness-or-ontological-bad-faith/inauthenticity\^*\> of reference-of-thought. As broadly speaking, a registry-worldview’s/dimension’s reference-of-thought is as of ‘the existential individuations possibilities as to reference-of-thought-prelogism-as-of-conviction,-as-to-profound-supererogation and threshold-of-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing –apriorising-psychologism’ reflecting the teleological-dementating/structuring/paradigming/teleological-possibilities, established as of its reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology\^*\> as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue; and it is nevertheless so made-up/bottomlined nihilistically, notwithstanding a prospective registry-worldview’s/dimension’s reference-of-thought that points prospectively to its relative ontologising-deficiency/epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness –of-

Such a threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{19}—preconverging/dementing –apriorising-psychologism being rather as of a temporal extricatory de-mentating/structuring/paradigming and that naively considers the mutual intersubjective eliciting of temporal extricatory de-mentating/structuring/paradigming to be intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{87}—unenframed-conceptualisation de-mentating/structuring/paradigming, given a failure to de-mentatively/structurally/paradigmatically grasp intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and rather confusing this with social-aggregation-enabling implications. This is clearly made obvious when ‘the very same motif of reasoning’ is construed as of metaphysics-of-absence-(implicated-epistemic-veracity-of-\textsuperscript{60}nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle-implications (as to ontological-normalcy/postconvergence) say with respect to an animistic or medieval non-positivistic registry-worldview’s/dimension’s threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing –apriorising-psychologism <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{99}-as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}>{}\) rather in social-aggregation-enabling, implying no possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity so-construed from a positivistic perspective of analysis in ontological-normalcy/relative-ontological-completeness -of- reference-of-thought. This further points out
that, as herein implied with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology

Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supercategorical—dementativity notion as of the (given consciousness’s neuterising-induced)—reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought of meaningfulness-and-teleology which establishes its ‘grounded knowledge construct’, and so because of its denaturing—of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology by way of elaboration—as-mere-

Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-dementating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness-of-reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness-of-reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought, and thus rather implies an de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-

It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which will just induce their <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions for non–transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional–deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness. that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation

Such a transcendental engagement recurrently put into question in conflatedness\textsuperscript{12} the prior institutionalisation ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of \textsuperscript{8}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ at its uninstitutionalised-threshold\textsuperscript{102} by substituting it with the prospective institutionalisation ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of \textsuperscript{8}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its prospective relative-ontological-completeness\textsuperscript{11}-of-\textsuperscript{8}reference-of-thought, before effecting any ‘operant-or-incidenting-predicative-insights or logical-coherence’ for prospective institutionalisation \textsuperscript{5}meaningfullness-and-teleology\textsuperscript{9}, and this explains its reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{8},-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfullness-and-teleology\textsuperscript{9};
while on the other hand the grounded uninstitutionalised-threshold recurrently overrides as of constitutedness beyond-the-consciousness-awareness-teleology as-of-existential-unthought any notion of its ontologically deficient ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded ‘meaningfulness-and-teleology’, and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, and explaining why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence⟨implicit-epistemic-veracity-of-nonpresencing⟨perspective–ontological-normalcy/postconvergence⟩⟩ analysis does apply with respect to superstitions, universal human rights, free society, modern science,
etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness—reference-of-thought of same <amplituding/formative-epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/sublumination/supererogatory–de-mentativity as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation but presences in their <amplituding/formative-wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology)—as-of-nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications> consider maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as of exceptional-askance and unordinary due to their <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing—apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-
aggregation-enabling’ when expounded by a prior \textsuperscript{2}reference-of-thought going by its prior relative-ontological-incompleteness \textsuperscript{-of-} reference-of-thought, since there is no sound/authentic knowledge and judgements outside the prospective \textsuperscript{2}reference-of-thought relatively sound/authentic knowledge and judgements as of its ontological-normalcy/relative-ontological-completeness \textsuperscript{-of-} reference-of-thought in an intemporal/ontological/social/species/\textsuperscript{23}universal/transcendental/\textsuperscript{24}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{2}—unenframed-conceptualisation de-mentating/structuring/paradigming; and so de-mentatively/structurally/paradigmatically as of the relationship between non-positivism and positivism as well as our procrypticism–or–disjointedness-as-of- reference-of-thought and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{29} as of prospective notional–deprocrypticism as preempting—disjointedness-as-of- reference-of-thought. This underlying notion of ‘notional–conflatedness\textsuperscript{1} /constitutedness\textsuperscript{12}–to-conflatedness\textsuperscript{12} construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising\textsuperscript{27}–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{2} thus rather eliciting atomising/taking-to-pieces constitutedness that induces relatively poor ontological-performance\textsuperscript{1}<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-
totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory—de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness of reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation driven
by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising ~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied-’prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-thought-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising
whichever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of ‘meaningfulness-and-teleology’ conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of
intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–⟨imbued-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocripticism-prospective-sublimation⟩) originary/event–of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-of-reference-of-thought–devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework’s interconnectedness as this is often not the primary driving focus, as it is naively
assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness\(^1\) rather than striving to expand the transcendental-enabling/sublimating/supererogatory\(^2\) de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory\(^2\) de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory\(^2\) de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\(^2\) de-mentativity ontological-primemovers-totalitative-framework\(^1\) nature and differences as well as their divergence in meaningfulness-and-teleology\(^3\) implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of\(^5\) maximalising-recomposuring-for-relative-ontological-
completeness—an unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime movers-totalitative-framework renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness\(^1\) undermining requisite creativity as of conflatedness\(^2\), as it ‘critically presupposes beyond-the-consciousness-awareness-teleology’-<in-existential-extrication-as-of-existential-unthought>\(^3\) that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^4\)-of-”reference-of-thought” devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional–deprocrypticism (protensive-consciousness deneuterising\(^5\)-induced)-”reference-of-thought”—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness analysis as of its prospective relative-ontological-completeness\(^6\)-of-”reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness\(^1\) wherein a more profound view
mentation-capacity can most pertinently accede to by ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of ontological-normalcy/postconvergence insight. Thus existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’> implies it is as of the entire ‘conflatedness’ for human construction of ontologically veridical ‘meaningfulness-and-teleology’ implied as of notional—deprocrypticism; this is notionally known as ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>. The implication here is that conceptualisations/construals not only of consciousness but virtue, aesthetics, episteme and nature together with their derived human notional <amplituding/formative–epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag notions like psychologisms, ethics and moralities, arts, epistemologies and methodologies, and natural sciences are but as of the (given consciousness’s neuterising-induced-or-deneuterising -induced)—reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness knowledge-constructs/theories/interolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as derived conceptualisations/construals of the very conflatedness that is as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology or existence-as-existence-potency—sublimating-nascence,—disclosed-from-prospective-epistemic-digression—as-of—<amplituding/formative–epistemicity> totalising—renewing-realisation/re-perception/re-

The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for constitutedness\(^1\) lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^9\)-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s neuterising-induced-or-deneuterising\(^1\)-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness\(^7\)—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process\(^7\). Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^9\) of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising\(^1\)-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as

imbricatedness/threadedness/recomposuring’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal

This can be expanded upon as follows, the reason why relative-ontological-incompleteness\(^8\)-of-\>reference-of-thought/epistemic-abnormalcy/preconvergence \(/\)destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency \(\text{‘rather as a constructed-deficiency of prospective relative-ontological-completeness}^{87}\text{-of- reference-of-thought/ontological-normalcy/conflatedness }\) \(\text{‘lies in the fact that the construal/conceptualisation of an epistemic-totalising}^{22}\text{-\>devolved\>purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised \text{‘meaningfulness-and-teleology }\) \text{and the inherent ontological-veracity/intrinsicness of the <amplituding\>formative\>epistemicity-totalising\>devolved\>purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology }\text{-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it’} \) \(\text{The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness}^{87}\text{-of- reference-of-thought/ontological-normalcy/conflatedness }\). Since there is no direct correspondence between relative-ontological-incompleteness\(^8\)-of-\>reference-of-thought/epistemic-abnormalcy/preconvergence \(/\)destructuring with the inherent intrinsicness of the

A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness<sup>-of- reference-of-thought/epistemic-abnormalcy/preconvergence</sup>/destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’–as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism<sup>77</sup> and conjugated-postlogism<sup>77</sup>. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance<sup>-<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance</sup> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology<sup>-<in-existential-extrication-as-of-existential-unthought>-</in-existential-extrication-as-of-existential-unthought></sup>

All knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity, universal human rights, etc. doesn’t add anything to ‘abstract/imaginary existence as a pre-given’ pointing to the fact that human existence is about human-subpotency construed as of successive defining transcendentally-enabled-institutionalisation-levels-of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism as levels of human dispensing-with-immediacy-for-relative-ontological-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory—human-subpotency>—effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and ‘meaningfulness-and-teleology’ construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness\textsuperscript{13} conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. supersedingly enlightens the idea of totalising-entailing which is often somewhat articulated as
in the statement ‘the whole is greater than the sum of its parts’ but failing to specifically clarify
that ‘limited-mentation-capacity constitutedness conceptualisation construes of an
‘ontologically-compromised-mediating,-as-of-its-specific-constitutedness that is relatively
conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the "reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\(^{13}\) induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\(^{5}\) meaningfulness-and-teleology\(^{99}\). That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness\(^{12}\), with no intermediating construct as of constitutedness\(^{13}\), thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness\(^{5}\) meaningfulness-and-teleology\(^{99}\). While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness\(^{13}\) on conflatedness\(^{12}\) induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness\(^{3}\) meaningfulness-and-teleology\(^{99}\). This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\(^{5}\) as a notional conception in construing meaningfulness-and-teleology\(^{99}\), while avoiding its ontologically-flawed constitutedness\(^{13}\) construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness\(^{13}\) towards ontologically-uncompromised-mediating,-as-of-confaltedness\(^{12}\) is what is effectively and
ontologically defining of issues of 'reference-of-thought of 'meaningfulness-and-teleology' given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology—-and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of—reference-of-thought perspective of notional—deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,—as-of—conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional—deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,—as-of—conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,—as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising.

The historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'> as of the notional—conflatedness of notional—deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in present—absolutising-identitive-constitutedness’ of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historiality/ontological-eventfulness /ontological-aesthetic—
In other words, existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t make sense/is unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrystalicism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness\(^a\) of reference-of-thought as of ontological-performance \(\langle\text{including-virtue-as-ontology}\rangle\) arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\>^b\) about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence-(implicated-’nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ’)’ what is existence/existential-possibilities not factoring Being conflatedness\(^2\) \(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought}\) as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\(^2\), and further in contradiction to the notion of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^4\) (I exist therefore

Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance-<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness-of-reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought– categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-of–meaningfulness-and-teleology on such renewed reference-of-thought– categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold! In

historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ fundamentally grasps that the Derridean critique of centered–epistemic-totalisation as impossible to achieve and postulation instead of decentered-infinite-freeplay is actually a critique arising on the implied assumption of finite human limited-mentation-capacity as of its impossibility as finitely limited to come into the full terms of grasping the full potency of existence/existential-possibilities; but then this author construes that human limited-mentation-capacity is not finite as it deepens as of the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity enabled as of de-mentation{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) thus involving de-mentative/structural/paradigmatic transformations/shifts of human limited-mentation-capacity "reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ to grasp existence/existential-possibilities, such that as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-"reference-of-thought in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(^\text{83}\) retrospectively to prospectively, centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating "meaningfulness-and-teleology\(^\text{99}\) as of its attaining of ontological-completeness-of-"reference-of-thought is/can-be achieved as ‘involving the superseding/transcending of successively defining human finitudes as the destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance\(^\text{71}\)–<including-virtue-as-ontology> towards attaining successive prospective relative-ontological-completeness ‘of- reference-of-thought as the institutionalisations’. This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of ‘meaningfulness-

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance--<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered-amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance--<including-virtue-as-ontology> in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process or notional–deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance--<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance--<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology ontological-performance--<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-
teleology\textsuperscript{9} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved–purview/as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance - <including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology\textsuperscript{9} ontological-performance\textsuperscript{71}-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s reference-of-thought-as-of-\textsuperscript{99} reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the
cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-reativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of \(<\text{amplituding/formative--epistemicity}>\text{totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)\textsuperscript{33}, as of beyond-the-consciousness-awareness-teleology \(<\text{in-existential-extrication-as-of-existential-unthought}\)\textsuperscript{6}, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold\textsuperscript{102} temporal individuations circular undermining of the prospective institutionalisation \<\text{reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory--de-mentativity as of prospective relative-ontological-completeness} of reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\textsuperscript{102} reference-of-thought which is in \<\text{amplituding/formative--epistemicity}>\text{totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} with its ultimate crossgenerational collapsing for the prospective institutionalisation’s \<\text{reference-of-thought}; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency\textsuperscript{103} (\text{transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative--epistemicity>totalising--in-relative-ontological-completeness}) as of prospective relative-ontological-completeness of reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-
world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-<shallow-supererogation>-of-mentally-aestheticised-preconverging/dementing-qualia-schema> in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology ontological-performance-<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human<amplituding/formative-epistemicity>totalising-purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human<amplituding/formative-epistemicity>totalising-purview-of-
construal’ or ‘amplituding/formative–epistemicity’ totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of ‘meaningfulness-and-teleology’ of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/ reference-of-thought’, as the axiomatic-construct/ reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation=<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving ‘meaningfulness-and-teleology’ as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, with increasing ontological-performance ‘<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-
validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory—de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory—de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity> totalising~devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidated of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidated of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest~subpotency-in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating–nascence> with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidated of mathematics as of a ‘very existentially nominal
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest–subpotencies--<in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence> given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory–de-mentativity of the physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory–de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory–de-mentativity; and we can appreciate in this regards how
the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⁹⁶. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought-as-of—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology⁹⁹. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology⁹⁹ as of
prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional—deprocrypticism psychoanalytic-unshackling metaphysics-of-absence-{implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>}

and conflatedness, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naïvety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism—procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and—

Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory–de-mentativity implications as of human limited-mentation-capacity-deepening, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the ‘maximalising-recomposuring-for-relative-ontological-completeness’ — unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-

The further implication is that human ‘prior existential-reality insight as arising by conflatedness as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity<of-the-human-institutionalisation-process as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness as of successive opened-constructs-of—meaningfulness-and-teleology superseding <amplituding/formative> wooden-language{(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications}> and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

This explains why dimensionality-of-sublimating—supererogatory de-

transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation-of-mentally-

The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought-of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of—mentally-aestheticised–preconverging/dementing–qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of

conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness–equalisation> ‘direct convincing’ at individuals-level underlying deferring to
in institutional and formal \textit{meaningfulness-and-teleology} as of the need for profoundness and rigour that doesn’t avail in ordinary thought for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological \textit{meaningfulness-and-teleology} could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness-of-reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the <amplituding/formative-epistemicity>totalising–self-referencing-syncertising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness-of-reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational \textit{meaningfulness-and-teleology} psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of \textit{meaningfulness-and-teleology}, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity conflictedly implying
overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human-<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social-conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and
are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology’ with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective

with regards to such transcendental implications! Despite the fact that all social-setups tend to
be surreptitiously permeated with individuals temporal/shortness-of-register-of-
meaningfulness-and-teleology\textsuperscript{19} social-dispositions and mental-dispositions of suboptimal
ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-

long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought– categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology allows for the possibility for prospective metaphoricity to
reconstrue-and-redefine the social-setup ‘meaningfulness-and-teleology’. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of ‘meaningfulness-and-teleology’ needs this supposedly coherent ontological-commitment in other to affirm itself over any spontaneously arising disruptive ‘meaningfulness-and-teleology’ that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive ‘meaningfulness-and-teleology’ is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism ‘meaningfulness-and-teleology’ or scholasticism pedantic dogmatism ‘meaningfulness-and-teleology’, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension ‘meaningfulness-and-teleology’, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding ‘meaningfulness-and-teleology’ as from existence-potency~sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-
of-amplituding/formative–epistemicity-totalising-renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness epistemic/notional–projective-perspective of relative-ontological-completeness -of-reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism ‘meaningfulness-and-teleology’. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity ‘meaningfulness-and-teleology’. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its amplituding/formative-wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-ofmeaningfulness-and-teleology-as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) means that it doesn’t necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its amplituding/formative–epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity'-to-'attain-sublimating-humanity'-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of-

Ultimately, prospective metaphoricity\(^6\) in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a
question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-in-deferential-formalisation-transference, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional-deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism-procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude
the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity<shallow-supererogation>-of-mentally-aestheticised–preconverging/dementing–qualia-schema> with their prospectively implied metaphoricity<qualia-schema>; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of respectively non-universalising and non-positivism/medievalism dogma prior relative-ontological-incompleteness<reference-of-thought warranting their unaffirmation/deprojection/de-assertion/dueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing–apriorising-psychologism> for the affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> of prospective Socratic philosophers universalising-idealisation and

‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its

only such a conflatedness perspective as of notional–deprocrypticism that can articulate a

avoiding totalising-formative−epistemicity totalising−self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstrual as of constitutedness.

performance\textsuperscript{1} -\textsuperscript{<including-virtue-as-ontology>} is equally vouched by transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality at its given uninstitutionalised-threshold\textsuperscript{1}, as its own reference-of-thought--categorical-imperatives/axioms/registry-teleology\textsuperscript{9} can also be denaturing as of beyond-the-consciousness-awareness-teleology\textsuperscript{6} -\textsuperscript{<in-existential-extrication-as-of-existential-unthought>\textsuperscript{1}} as of their \textsuperscript{amplituding/formative} wooden-language–\textsuperscript{imbu...form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing}–narratives–of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9}. The overall implication here as implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing-\textsuperscript{perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’} is that only a contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology\textsuperscript{1} as reflected as of the conflatedness of notional-deprocrypticism can reveal-the-ontological-veridicality of such inherent systemic beyond-the-consciousness-awareness-teleology\textsuperscript{6} -\textsuperscript{<in-existential-extrication-as-of-existential-unthought>\textsuperscript{1}} perversion-and-derived- perversion-of- reference-of-thought-\textsuperscript{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation} associated with every institutionalisation in prior relative-ontological-incompleteness–of-reference-of-thought since it ultimately depends on ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to transcendentally-complement its reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9} at its uninstitutionalised-threshold\textsuperscript{1} for upholding intemporality-as-of-ontology that reflects the ‘inherent centered–epistemic-totalisation-as-existence’. Hence the notional–deprocrypticism registry-worldview/dimension institutionalisation as notionally construed as in full fulfilment of transcendentally-
institutionalisation; as the former is in reality denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology beyond-the-consciousness-awareness-teleology in existential-extrication-as-of-existential-unthought while the latter is upholding reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness-of-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness of reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective

Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’\(^{(1,2)}\) of human limited-mentation-capacity in temporal constitutedness\(^{12}\) mental-reflexes at presence \(^{53}\) reference-of-thought, and so reflected by the implied intemporal conflatedness\(^{12}\) of phenomenological transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of notional-deprocrypticism. the notional-deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional-deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perception-and-relation to ‘meaningfulness-and-teleology’ over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation and temporal/shortness-of-register-of—meaningfulness-and-teleology individuations of postlogism.

rather come to terms with the reality of human limited-mentation-capacity dynamics as of
temporal-to-intemporal mental-dispositions resolved beyond just the notion of ‘reference-of-

tonologising-development-as-infrastructure-of–meaningfulness-and-teleology or Being
underdevelopment is associated with that of the construal of knowledge as organic-knowledge
or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting

mechanical-knowledge as of ‘temporal/shortness-of-register-of–meaningfulness-and-

induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining
the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that is behind organic-knowledge. Human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporality mental-dispositions as of beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of– meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturizing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism’ is in a state of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism / perversion-of- reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate
basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as ‘prelogic supplanting—conviction-as-to-profound-supererogation’—postconverging/dialectical-thinking—apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the de-mentative/structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional–deprocrypticism worldview. We can appreciate such metaphysics-of-absence-(implicitized-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>) insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existentia—induced intemporal-testedness behind the ‘inventing of the base-institutionalisation culturally
value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

rather ontological-pertinence, and the point in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{\textcopyright } as knowledge-led is to harness ontological-pertinence and not <amplituding/formative> wooden-

prospective-apriorising-implications>\textsuperscript{\textcopyright }, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-
basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality
and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-

equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-
performance'-\langle\text{including-virtue-as-ontology}\rangle'-implications. The implication of this dilemma is
the reality that society is always subpar to a knowledge social determination as well as subpar
to a sovereignty social determination. This dilemma is unavoidable by the very implications of
a society: every social-setup as a conventional-construct can only be held together in the long-
term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of
minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said
institutionalisation-level’s \textsuperscript{'}reference-of-thought–categorical-imperatives/axioms/registry-
teleology\textsuperscript{’},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-
and-teleology\textsuperscript{’} with regards to meeting a basic level of individuals and social existential-
possibilities expectations; such that the notions of knowledge and sovereignty can only be
‘socially effective’ within this articulated framework as enabled by ‘social universal-
transparency\textsuperscript{\textcopyright }-(transparency-of-totalising-entailing, as-to-entailing,<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness \textsuperscript{\textcopyright }). This articulation can be
elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness’-of-’reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social
knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory-de-mentativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism “meaningfulness-and-teleology” constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness’}. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling-<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a
circular but consistent exercise of <amplituding/formative–epistemicity>totalising–renewing–
realisation/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it
is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-

While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprecrypticism—or-preempting—disjointedness-as-of reference-of-thought implies a transcending reification gesturing that not only affirms notional–deprecrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating—
logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking-apriorising-psychologism as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional–deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance-including-virtue-as-ontology with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness-of-reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness-of-reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivistic/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in ontological-contiguity and ‘traditional classical
ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event’-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event’-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology
<in-existential-extrication-as-of-existential-unthought> of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism
perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming and not temporal extricatory de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology. It further implies a ‘the human toddling potential’ for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology; with the ‘human toddling potential’ implying the human potential to develop from a relative-
attitude/mental-disposition/care–and–episteme'; and so, whether such a framework is a
reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a
reference-of-thought like a social projection <amplituding/formative–
epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality or specifically with living-as-of-human-personality-developing.
For instance, with respect to coming across and living say in an early hunter-gather society with
its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-
unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–
episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-
theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-
conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-
teleology\textsuperscript{9}-<in-existential-extrication-as-of-existential-unthought>\textsuperscript{7} as when we publicly
pretend to act otherwise by subscribing to the interpretation within such a social-setup. As
construed within a given reference-of-thought, say in our positivism/rational-empiricism
reference-of-thought we can further have the conception of the physics or biology or law or
literature or even just entrepreneur or accountant or technician specific attitude/mental-
disposition/care–and–episteme, and further at the individual level as of changing
attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-
developing. attitude/mental-disposition/care–and–episteme as so-construed is critical
fundamentally because the notionally inherent human capacity for aetiologisation/ontological-
escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as

With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification\textsuperscript{9}/contemplative-distension\textsuperscript{5} as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification\textsuperscript{9}/contemplative-distension\textsuperscript{5} that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification\textsuperscript{9}/contemplative-distension\textsuperscript{5} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification\textsuperscript{9}/contemplative-distension\textsuperscript{5} is construed as the more profound attitude/mental-disposition/care–and–episteme’ for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-

reification\textsuperscript{8}/contemplative-distension\textsuperscript{9} as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. that are responsible for the underlying ontological-normalcy/postconvergence epistemic
perspective in nonextricatory-existential-preempting–of–existential-unthought behind the
ontological-contiguity\textsuperscript{109}–of–the–human–institutionalisation-process\textsuperscript{110}; and so construed as of an
abstract notion of perpetual/eternising preservation of Being, and so beyond
temporality /shortness existential-extrication-as-of-existential-unthought lack of the projecting attitude/mental-disposition/care–and–episteme for prospective institutionalisations as mainly concerned with the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as absolute reference of \[5\] meaningfulness-and-teleology\[99\] ‘with little sense of coherence as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\[7\] meaningfulness-and-teleology\[99\]’, and thus the latter cannot unlike the former be the framework for aetiologisation/ontological-escalation as of \[10\] universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality’/shortness as intemporality /longness or eliciting of \(<amplituding/formative>\) wooden-language-(imbued—averaging-of-thought-\(<as-to-leveling/ressentiment/closed-construct-of–\) meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications\(>\)’. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s \(5\) reference-of-thought as of prospective relative-ontological-completeness\(5\)-of-axiomatic-construct-or-\(5\) reference-of-thought and thus its corresponding \(5\) meaningfulness-and-teleology\(5\), and the other doesn’t as of prior relative-ontological-incompleteness\(8\). This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(5\), wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism —meaningfulness-and-teleology\(5\), speaking of the
impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework\(^7\) induced positive-opportunism \(\) as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology\(^9\) while averting its denaturing\(^5\) by wrongly implying notional-contiguity/epistemic-contiguity\(\)\(\) in profound-supererogation of mentally-aestheticised–postconverging/dialectical-thinking -qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\(\)\(\) in shallow-supererogation of mentally-aestheticised–preconverging/dementing –qualia-schema> given the latter’s flawed de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing \(\) exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework\(\)\(\), and so beyond institutional-being-and-craft and social-aggregation-enabling wooden-language\(\)\(\) imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\(\)\(\) as-of–nondescript/ignorable–void-with-regards-to-prospective-apriorising-implications\). Where
these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology\textsuperscript{99} denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–"meaningfulness-and-teleology", and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology\textsuperscript{99} prior relative-ontological-incompleteness\textsuperscript{83} reference-of-thought construes of ‘implied grounding of ‘meaningfulness-and-teleology’ in terms–as-of-axiomatic-construct of ‘presencing—absolutising-identitive-constitutedness’ while the new/prospective/superseding as of its prospective relative-ontological-completeness reference-of-thought construes of ‘implied grounding of ‘meaningfulness-and-teleology’ in terms–as-of-axiomatic-construct of prospective ‘nonpresencing–<perspective–ontological-normalcy/postconvergence>. This brings home the reality that it is
inevitable that all uninstitutionalised-threshold are necessarily ‘de-
mentatively/structurally/paradigmatically conflicted’, with prospective transversality-of- affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ ontological-primemovers-totalitativa-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ) scholasticism and positivism are rather in transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the ‘presencing—absolutising-identitive-constitutedness’ attitude/mental-disposition/care—and—episteme’ as of its social-stake-contention-or-confliction while the very notion of perceiving highly the ‘meaningfulness-and-teleology’ within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective ‘nonpresencing—<perspective—ontological-normalcy/postconvergence> sublimity/sublimation/supererogatory—de-mentativity episteme transcendence-and-attitude/mental-disposition/care—and—reference-of-thought

supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ‘meaningfulness-and-teleology’ attitude/mental-disposition/care—and—episteme’. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional—conflatedness of deprocrypticism—or—preempting—disjointedness—as—of—reference—of—thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency—{(transparency—of—totalising-entailing,-as—to—entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness’); for
existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-prime movers-totalitative-framework, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation that in many ways could just as well validate <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications> and untransvaluated–temporal-intemporality attitude/mental-disposition/care— and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-
effectiveness’, has existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturung for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy–for-relative-ontological-completeness–by-reification /contemplative-distension
a perfidious ontological-bad-faith/inauthenticity\(^3\) scepticism involves eliciting a sense of immediacy and temporality /shortness as of \(<\text{amplituding/formative}>\) wooden-language-

and-sublimity/sublimation/supererogatory—de-mamentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness\(^1\) as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness\(^7\)-by-reification /contemplative-distension\(^{26}\), and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\(^7\). ontological-bad-faith/inauthenticity\(^3\) ad-hoc pretences extolling social practices as of \(^7\) presencing—absolutising-identitive-constitutedness\(^3\) but of a poor conception outside the prospective relative-ontological-completeness\(^7\) behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—<as-to-depth-of-ontologising-development-as-

The latter as deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as of its ontological-completeness-of reference-of-thought/ontological-normalcy/postconvergence is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneuterising referentialism that breaks-down the various neuterising to their basic human limited-mentation-capacity dynamics implications. In this regard, their successive profoundness as of their `successive (uncircumscribing/undelineating-as-`epistemic-totality`) with recurrent-utter-

It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional–deprocrypticism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing–apriorising-psychologism> stranding dialectics. Such that in the final analysis, there is an underlying tendency of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—‘meaningfulness-and-teleology’ that decomposes-as-of-conflatedness ‘human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology’ -<in-existential-extrication-as-of-existential-unthought>’ induced neuterising into the underlying limited-mentation-capacity manifestation disambiguation basis for their ontologically-veridical construal’, and so-construed from a notional–deprocrypticism ontological-normalcy/postconvergence epistemic/notional–projective-perspective. This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>} due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of ‘meaningfulness-and-teleology’ as of ‘their

To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency→\langle transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \rangle, an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology' with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising~purview-of-construal’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness -of- reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology' with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with respect to social universal-transparency→\langle transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \rangle; and so more than just as of beyond-the-consciousness-awareness-teleology -\langle in-existential-extrication-as-of-existential-unthought\rangle, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional~episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-
mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology ontological-performance –<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance –<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the
thus failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Thus the ontological effectiveness of such intemporal-projection as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{99} lies rather in undermining the existential possibility of the successive uninstitutionalised-threshold\textsuperscript{157}/uninsitutionalisations as of bringing about prospective relative-ontological-completeness\textsuperscript{158}-of–reference-of-thought driven by ontological-faith-notion-or-ontoligical-fideism thus inducing social\textsuperscript{100} universal-transparency\textsuperscript{101}-(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{98}) which renders untenable temporality\textsuperscript{98}/shortness as of the given uninstitutionalised-threshold instigated from the prior institutionalisation’s\textsuperscript{2}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{9} denaturing; as implied with base-institutionalisation prospective relative-ontological-completeness\textsuperscript{155}-of–reference-of-thought over recurrent-utter-uninstitutionalisation, universalisation prospective relative-ontological-completeness\textsuperscript{155}-of–reference-of-thought over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-completeness\textsuperscript{155}-of–reference-of-thought over \textsuperscript{158}universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism prospective relative-ontological-completeness\textsuperscript{155}-of–reference-of-thought over positivism–procrypticism. Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{155}-of–reference-of-thought social\textsuperscript{100} universal-transparency\textsuperscript{101}-(transparency-of-totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{98}) that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality\textsuperscript{8}. Likewise, prospectively it is a notional–deprocrypticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\textsuperscript{155}-of–reference-of-thought social\textsuperscript{100} universal-transparency\textsuperscript{101}-(transparency-of-totalising-
completeness) for institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation. It is such a ‘conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation’ that holds together in social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-
transference as of percolation-channelling-<in-deferential-formalisation-transference>. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness-reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>} in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>} in the non-positivism social-setup. Ultimately, such a profound phenomenological <amplituding/formative> totalising-conflicated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-
historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>/ontological-performance/<including-virtue-as-ontology> construal faced with the inherent dogmatic and psychological biases of human<br>amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency/hyperbole-of-temporal-to-intemporal-ontological-performance/<including-virtue-as-ontology>) in many ways necessarily has to project out of<br>‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual<br>amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a
transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework\(^2\) construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human \(<\text{amplituding/formative–epistemicity}\text{totalising–thrownness-in-existence}>\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^7\)-<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our \(<\text{amplituding/formative–epistemicity}\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\) in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human \(<\text{amplituding/formative–epistemicity}\text{totalising–thrownness-in-existence}>\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^7\)-<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of universal projection as intemporality\(^5\)-or-longness-of-register-of–meaningfulness-and-teleology\(^9\) as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its
failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–dementativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{71}<-includin̷g-virtue-as-ontology>) as spirit failed to \textsuperscript{109}universalise and so Heidegger couldn’t carry the effective implications of his work to its true \textsuperscript{109}universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a \textsuperscript{109}universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation \textsuperscript{79}meaningfulness-and-teleology\textsuperscript{99} in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and \textsuperscript{109}universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides amplituding/formative–epistemicity\textsuperscript{33}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo \textsuperscript{109}universal projection. Basically, a phenomenological extended metaphysics-of-absence-(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>) as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-(implicated-'nondescript/ignorable–void ’-as-to- presencing—
absolutising-identitive-constitutedness) framework which in reality is just presence 'hyperbolic dazing effect' utterly distinct from the radical ontology possibilities of existence/existential-possibilities. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to "reference-of-thought/epistemic-totalisation level 'reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness/reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveveness’ as the basis/grounding to then construe/conceptualise ‘meaningfulness-and-teleology’ failing to factor in that ‘existential phenomenal-abstractiveveness conflates-in-effecting-wholeness-as-of-profundness-and-completeness-to—meaningfulness-and-teleology’ all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of ‘meaningfulness-and-teleology’ to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveveness as of 'meaningfulness-and-teleology’ in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-
instantiations and contextualisations in forming knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue; thus explaining by this ‘explicated-focusing and implicated-coherencing/contiguity existential dynamics for producing knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue’, the constitutedness\textsuperscript{14} of the Kantian understanding of concepts and intuitions as being mutually dependent for \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{9} articulation. In other words, constitutedness tend to fallaciously imply existence-in-existence or existence-of-things-in-existence whereas conflatedness\textsuperscript{12} rightly implies becoming-in-existence-rather-as-subsumed-in-existence or things-becoming-in-existence-rather-as-subsumed-in-existence as of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment\textsuperscript{2} as of ontological-primemovers-totalitative-framework\textsuperscript{7} for-explicating-ontological-contiguity\textsuperscript{6} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or ‘consciousness’s ontological-performance\textsuperscript{7}<-including-virtue-as-ontology> construed in amalgamation as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

This notion of conflatedness\textsuperscript{12} construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness\textsuperscript{11} as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness\textsuperscript{11}. constitutedness\textsuperscript{13}, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the conflatedness\textsuperscript{12} of existence/existential-possibilities given the imbricatedness/threadedness/recomposing of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness\textsuperscript{12} of existence as of prospective relative-ontological-completeness-of-reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity\textsuperscript{6} and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness\textsuperscript{13}, and this issue is recurrent-beyond- ‘historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing-\textless perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism\textgreater , with the latter only a bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening–limited-mentation-capacity,-as-limited-mentation-capacity-deepening\textsuperscript{2} due to inherent human temporality\textsuperscript{9}/shortness and intemporality\textsuperscript{5}/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as ‘historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing-\textless perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism\textgreater as of the notional–conflatedness\textsuperscript{12} of notional–deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold\textsuperscript{10} mental-dispositions. developing “meaningfulness-and-teleology” as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the
conflatedness of existential-instantiations successions as it construes of existence/existential-

axiomatic-constructs are explicit and implicit/intuited as of a living-being
<amplituding/formative–epistemicity>totalising–conflated–“meaningfulness-and-teleology” in
coherence/contiguity-of-superseding–oneness-of-ontology. The above conception
fundamentally underscore the development and how all human knowledge-
constructs/theories/intersolipsistic-intercessory-notions/notional–referential-
notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as
of language development which is the ‘signifying mirroring’ of human “meaningfulness-and-
teleology”. The implication here is that “meaningfulness-and-teleology” as of ‘existential self-
referencing’ and ‘existential syncretising-effecting’ construed as <amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
 corresponds to language as of its ‘underlying <amplituding/formative–
epistemicity>totalising/circumscribing/delineating signifying-construct’ and its
‘metaphoricity’; in reflecting how human social-stake-contention-or-confliction induces
human transcendence-as-of-full-transcendental-potent-an underlying knowledge-
metaphoricity is rather an ‘adjunctive incorporation’ to the ‘underlying totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of totalising—renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness’. Such centered meaningfulness-and-teleology construed as reference-of-thought, and its signification as implied by an ‘underlying totalising/circumscribing/delineating signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-
teleology is as of a ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising~purview-of-construal'; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening adhocly produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness of reference-of-thought when conceptualising about such an ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaphoricity -signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and thus
positivism/rational-empiricism reappropriation of the ancient mathesis \textsuperscript{5} as its very own ‘underlying \textsubscript{amplituding/formative–epistemicity} totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant \textsubscript{amplituding/formative–epistemicity} totalising/circumscribing/delineating construct of meaningfulness-and-teleology \textsuperscript{9}. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence \textsuperscript{90} as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying \textsubscript{amplituding/formative–epistemicity} totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying \textsubscript{amplituding/formative–epistemicity} totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated

induced ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the
supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential
situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay\(^2\) with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. metaphoricity\(^5\) is thus rather construed as of its overall conflatedness \(<\text{amplituding/formative–epistemicity}>\text{causality~as-to-projective–totalitative–implications,–for-explicating–ontological-contiguity}\>\(^6\) of full consciousness development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^9\) underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\(^8\), beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology\(^9\) as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective/supererogating/zeroing rhetorical-stylistic-semantic delivery, and as such metaphoricity\(^7\) induces \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay}, ‘underlying
totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity\textsuperscript{-}-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity\textsuperscript{-}-significations conflatedness\textsuperscript{2} reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity\textsuperscript{-}-significations conflatedness\textsuperscript{2} as of syncretising-effecting as ultimately converging towards a \textsuperscript{1}deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{2}reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} construed as différance in conflatedness’\textsuperscript{1} associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence \textsuperscript{1}historiality/ontological-eventfulness\textsuperscript{3}/ontological-aesthetic-tracing-\textsuperscript{<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>}. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions
apriorising/axiomatising/referencing’ of various temporal-to-intemporal perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness /relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> of the différance. The implication here resonates with the idea that knowledge is much more than the
construal of conceptual knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of
disposition, and so beyond just reflecting such `presencing—absolutising-identitive-constitutedness`, privilege undermining as of transcendental outcomes implied by `historiality/ontological-eventfulness`/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>`.

While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence-(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event–as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to
factor in that human limited-mentation-capacity has to establish the appropriate 'perspective/framing/reference/horizon implications' with regards to 'meaningfulness-and-teleology', and so as disambiguating 'presencing—absolutising-identitive-constitutedness' from 'nonpresencing-<perspective–ontological-normalcy/postconvergence>' by their respective supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', such that unsuspectingly the 'Derridean quasi-transcendental-freeplay différance' not doing that rather represents the 'presencing—absolutising-identitive-constitutedness' as the common perspective/framing/reference/horizon for both, thus falsely pointing to 'difference-in-kind/difference-in-aposteriorising-or-logicising' between 'presencing—absolutising-identitive-constitutedness' and 'nonpresencing-<perspective–ontological-normalcy/postconvergence>' (rather than difference-in-nature/difference-in-apriorising-or-axiomatising'), and so contradictorily as if both are of the presencing supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'. With the reality that 'nonpresencing-<perspective–ontological-normalcy/postconvergence>' is wrongly-and-unsuspectingly given as of common 'presencing—absolutising-identitive-constitutedness', thus inducing a relative ontologically-flawed quasi-transcendental freeplay as 'nonpresencing-<perspective–ontological-normalcy/postconvergence>' is rather in notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> when analysed as of 'presencing—absolutising-identitive-constitutedness'. Consider in this regard 'the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' with the articulation as of prior relative-ontological-incompleteness being 'traditional classical mechanics axiomatic-
construct’ and the articulation as of prospective relative-ontological-completeness—of-
axiomatic-construct-or-reference-of-thought being the theory-of-relativity-together-with-
quantum-mechanics—axiomatic-constructs; now,articulating meaningfulness-and-teleology of ‘the very same physics—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of ‘traditional classical mechanics axiomatic-construct’ construed as presencing—
absolutising-identitive-constitutedness makes the theory-of-relativity-together-with-quantum-
mechanics—axiomatic-constructs construed as nonpresencing—
ontological-normalcy/postconvergence to wrongly be of notional-contiguity/epistemic-contiguity—
<profound-supererogation—of-mentally-aestheticised—postconverging/epistemic-break> to wrongly be of notional-contiguity/epistemic-contiguity—
<shallow-supererogation—of-mentally-aestheticised-preconverging/mentally-aestheticised—qualia-schema> between the two as of their distinct supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics
intrinsic-reality/ontological-veridicality/existential-reality’ transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which points to a prospective relative-ontological-completeness /ontological-contiguity as of the very same <amplituding/formative–epistemicity>totalising—devolved—purview—as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-mentation-capacity-deepening as of de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) involving ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity metaphoricity thus perfectly satisfies the ‘foreboding concern for ontological-veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so implying human limited-mentation-capacity-deepening; and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the full conflatedness reflecting existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> in its nonpresencing—<perspective—ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay différance which is then in constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'>. So because at the point of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously
become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation"—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> and not make any determination priorly, even as of freplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation"—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency—sublimating—nascence—disclosed—from-prospective—epistemic—digression—as—of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re—perception/re—thought,—in—supererogatory—epistemic—conflicatedness as validatable by ontological—primemovers—totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality—of-affirmative—and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is
de-mentation—stranding-or-attributive-dialectics) which at once draws out the renewed implications of what qualifies as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing—apriorising-psychologism> respectively as of prospective relative-ontological-completeness—of-axiomatic-construct-or- reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics <amplituding-formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness—reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation developments in physics since then, even though its ‘meaningfulness-and-teleology’ remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’
cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather cross-generationally as of human beyond-the-consciousness-awareness-teleology\textsuperscript{2}<-in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance\textsuperscript{-<including-virtue-as-ontology>}; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding-formative-epistemicity>totalising–thrownness-in-existence\textsuperscript{14} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{-<including-virtue-as-ontology>}). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-
language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology’<in-existential-extrication-as-of-existential-unthought>, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically
implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought >amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of–meaningfulness-and-teleology as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deproscripticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression–as-of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in-suprerogatory–epistemic-conflatedness is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing–<perspective–ontological-normaley/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in
of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior \(^6\) nonpresencing-<perspective–ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold \(^2\) despite its notional-discontiguity/epistemic-discontiguity \(^7\) <-shallow-supererogation -of-mentally-aestheticised–preconverging/dementing \(^2\)-qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific \(^2\) neuterising as it fails to construe of \(^5\) meaningfulness-and-teleology \[^5\] projectively as of prospective existence-potency–sublimating–nascence–dislosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in–supererogatory–epistemic-conflatedness \(^3\) relative-ontological-completeness \(^7\) of apriorising/axiomatising/referencing. The implied \(^3\) maximalising-recomposuring-for-relative-ontological-completeness \[^5\]—unenframed-conceptualisation notion also underscores the postmodern conception of \(^4\) human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation \[^2\] with regards to any <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, as fundamentally driven as to existence-potency–sublimating–nascence–dislosed-from-prospective-epistemic-digression-as-of-<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in–supererogatory–epistemic-conflatedness \[^3\] as so validatable by their ontological-primemovers-totalitative-framework \[^2\]. Hence it is ‘more real in its \(^4\) human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation \[^2\] understood as a double-gesture reification \[^6\] for prospective relative-ontological-completeness \[^7\]–of-axiomatic-construct-or-reference-of-thought’ by its \(^5\) maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as to existence-potency–sublimating–
nascence, disclosed from prospective epistemic digression as of supererogatory epistemic conflatedness than any other prior non-constructed meaningfulness-and-teleology simply because of the profoundness of its phenomenological depth of projection/anticipation in the quest for ontological-primemovers-totalitative-framework validation, which ordinary wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) doesn’t even bother contemplating about by its incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as of existence’s presencing—absolutising-identitive-constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness—
construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology’ that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology’; and failing to project/anticipate prospectively the
implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence-⟨implicit:ˈnondescript/ignorable–void’-as-to-ˈpresencing—absolutising-identitive-constitutedness ⟩/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument/ˈreference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as underlying a given registry-worldview/ˈmeaningfulness-and-teleology conceptualisation and ontological-performance/ˈincluding-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought in terms of the prior registry-worldview/dimension
uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness -of- reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness -of- reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’-<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with ‘historicity-tracing—of-the-presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness -of- reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmary in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness -of- reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness’, and it is much more
disposition/care–and–episteme ’ which prospectively represents the modern as preconverging-or-dementing –apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking—or–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism-or–preempting—disjointedness-as-of–reference-of-thought is actually a point of prospective de-mentation-(supererogatory–ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care–and–episteme ’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constatations’ as of human limited-mentation-capacity prospective relative-ontological-completeness –of–reference-of-thought <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity ; wherein for instance, for the recurrent-utter-uninstitutionalisation reference-of-thought ill-health is as of an existential-contextualising-contiguity–lowest-level-reification perceptivity–as-of-bad-omen while for the positivism
reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the ‘hitherto ontologically-flawed postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ in its relation with modernity wrongfully implied that it seeks the validation of modernity, and so as ridiculously as implying that budding-positivism/rational-empiricism should have sought for its validation from medieval-scholasticism. In both cases, the fundamental issue once universal-transparency\(\langle\)transparency-of-totalising-entailing,—as-to-entailing—\(</amplituding/formative—epistemicity>\rangle\) avails as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-suprerogation\(\langle\)for relative-ontological-completeness\(</\rangle\), as herein implied originarily/as-of-event with the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’; is mostly about dismissing the prior relative-ontological-incompleteness—of—reference-of-thought as when a critique of notional-discontiguity/epistemic-discontiguity—<shallow-suprerogation—of-mentally-aestheticised—preconverging/dementing —qualia-schema> exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to
institutionalisation. Critical for the social validation and institutionalisation of any de-
mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent
ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human
temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the
uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of
such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-
framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-
framework’ of the prospective positivism/rational-realism transcendental knowledge
articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as ‘meaningfulness-and-
teleology’ of prospective relative-ontological-completeness reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-
framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a
sufficient basis for their ideas to be socially adopted by the medieval establishment social-
stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-
positivism/medievalism. The point being made here is that within a given registry-
worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-
primemovers-totalitative-framework’ is only more or less determinant as of the
institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-
thought–categorical-imperatives/axioms/registry-teleology–for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as
of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-
of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective
‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective
institutionalisation’s basis of validation of knowledge grounded on the reference-of-
categorical-imperatives/axioms/registry-teleology–for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative-epistemicity>totalising/circumscribing/delineating <reference-of-thought—devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal <reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of its <amplituding/formative-epistemicity>totalising/circumscribing/delineating <reference-of-thought—devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of its <amplituding/formative-epistemicity>totalising/circumscribing/delineating <reference-of-thought—devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-
contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–{imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation’} originary/event–of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating — <amplituding/formative> <supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the
case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental ‘meaningfulness-and-teleology’ superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ de-mentating/structuring/paradigming of ‘reference-of-thought-categorical-imperatives/axioms/registry-teleology’, for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology’, as of successive prospective relative-ontological-completeness -of- reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-
stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness’-of- reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness’-of- reference-of-thought supersedes the prior relative-ontological-incompleteness’-of- reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance’-<including-virtue-as-ontology> of any ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology’,-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology”. Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern
deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme' as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care—and—episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care—and—episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care—and—episteme. In this regard, attitude/mental-disposition/care—and—episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notional~conflatedness as implied by its ‘assumed-and-unflinching transversality~of-affirmative-and-unafirmative—disambiguated—'motif-and—
performance<sup>71</sup>-<including-virtue-as-ontology>. Where beyond-the-consciousness-awareness-teleology<sup>71</sup>-<in-existential-extrication-as-of-existential-unthought>, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness<sup>99</sup>-of- reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness<sup>99</sup>-of- reference-of-thought, this induces constitutedness<sup>99</sup> ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme ’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme , as of deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought is rather a notional~conflatedness<sup>12</sup> as of deneuterising<sup>16</sup> protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness -of- reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own
‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of—reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness—re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—‘projective-insights’/epistemic-projection-in-conflatedness—‘of-notional—deprocrypticism-prospective-sublimation)’ appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ thus implying rather a notional—deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation’ parameterisation/reparameterisation—(reflecting—a—supererogatory—decisionality-of-socioinstitutional-conceptions-as-to—‘their—
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening. We can garner insight about how we tend to misconstrue any attitude/mental-disposition/care—and—episteme that is different from our own ‘present attitude/mental-disposition/care—and—episteme’, whether it is a ‘prior/old/superseded attitude/mental-disposition/care—and—episteme’ or a ‘prospective/new/superseding attitude/mental-disposition/care—and—episteme’. For instance, in the previous articulation of the existential-contextualising-contiguity—lowest-level-reification perceptivity-as-of-bad-omen with ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care—and—episteme’ given its ‘non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition’, the reality is that our mental-devising-representation still remains in our ‘present positivism—procripticism attitude/mental-disposition/care—and—episteme’ as of its ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’, and only ‘adhocly-and-scantily identifies’ the ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care—and—episteme’ as it is wholly immersed-and-engrossed in its ‘positivism/rational-empiricism
attitude/mental-disposition/care–and–episteme for the construal of “meaningfulness-and-teleology”; which it ‘skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme’ of wholly immersed-and-engrossed “meaningfulness-and-teleology”. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed “meaningfulness-and-teleology” between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the
other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising -as-of-prospective-relative-ontological-completeness-of reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ construed as of deprocrypticism–or–preempting—
disjointedness-as-of-reference-of-thought is thus in its potenti-ation the very summum for the
‘conception of human-subpotency existential scope’ implied as of Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infras-tructure-of—meaningfulness-and-teleology’. In reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-
depth-of-ontologising-development-as-infras-structure-of—meaningfulness-and-teleology,
successive institutionalisations reflect ‘successive and changing conceptions of human-
subpotency existential scope’, and so from recurrent-utter-uninstitutionalisation as ‘the most
supernatural/mythical/idolised conception of human-subpotency existential scope’ to futural
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infras-structure-of—meaningfulness-and-teleology as of prospective
notional–deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-
principle conception of human-subpotency existential scope’. Insightfully, what is critical about
‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more
waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency
mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-
to—human<amplituding/formative–epistemicity>totalising–purview-of-construal’, while the
more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more
potent has been human-subpotency in its mastery of the the-very-same-immanent-
existence/intrinsic-reality/ontological-veridicality,-as-to—human<amplituding/formative–
epistemicity>totalising–purview-of-construal’. Effectively, ‘postmodern deprocrypticism–or–
preempting—disjointedness-as-of—reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogation-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness -of- reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold 11 which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold 02. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporal at its ontologically-veridical uninstitutionalised-threshold 02, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold 02 pointing to its prior relative-ontological-incompleteness -of- reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold 02 are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology 99 posture in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag , rather than a recognition of it prior relative-ontological-incompleteness -of- reference-of-thought, implying recognising its uninstitutionalised-threshold 02 with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew ‘meaningfulness-and-teleology’ towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to—
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, the ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness of reference-of-thought; and so beyond just <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care—and—episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care—and—episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of
teleology <-in-existential-extrication-as-of-existential-unthought-> attitude/mental-disposition/care–and–episteme’ which is inclined to pass on to ‘a certain Messiah’ the possibility of our Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology with the paradox of assuming the pretence of understanding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated–temporal-intemporality notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of ‘notional–deprocrypticism attitude/mental-disposition/care–and–episteme’ as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought’, as much more than just with regards to a resolutory conception of acts and miscuings in temporality /shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind’s temporal ontological-contiguity as beyond-the-consciousness-awareness-teleology <-in-existential-extrication-as-of-existential-unthought-> attitude/mental-disposition/care–and–episteme with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity –in-reification /dereification cognisant-and-integrative of such acts and miscuings in temporality, thus endemising and enculturating the reference-of-thought vices-and-impediments. Such an orientation is no more different from an interpretation that every registry-worldview/dimension “reference-of-thought is the absolute framework of “meaningfulness-and-teleology” as of its given practices and habits failing to account retrospectively and prospectively for the succession of institutional-cumulation/institutional-recomposure–(as-to–historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological–

We can appreciate in this regard that budding-positivism/rational-empiricism and its associated liberalty that was the backdrop for technical and organisation possibilities that actually required their interpretation in terms–as-of-axiomatic-construct of advancing human emancipation and bringing an end to serfdom in Europe for instance, but as of a perverted twist due to poor appreciation of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology led to the opportunistic undermining of human emancipation elsewhere not as of positivistic/rational-empiricism attitude/mental-disposition/care–and–episteme

while seemingly counterintuitive, simply speaks of the implications of the notion of prospective relative-ontological-completeness–of–reference-of-thought/prior relative-ontological-
incompleteness\textsuperscript{2} of axiomatic-construct as of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human <amplituding/formative–epistemicity> totalising–purview-of-construal’, in that our appropriate-or-inappropriate-at-various-successive-levels conception as of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human <amplituding/formative–epistemicity> totalising–purview-of-construal’ has nothing to do with inherent existential reality but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} in order to reflect ontologically-veridical signification as of existence. And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate that prospectively we are equally in such a beheld positivism–procrypticism attitude/mental-disposition/care–and–episteme\textsuperscript{5} ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}, for our positivism–procrypticism aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99}, which when shown to be of prior relative-ontological-

This outlook is actually ‘seeded’ within dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology . Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativness is ‘appropriate prospective institutionalisation secondnaturc metaphoricity’. Consider in this regard, that the instigative matesis {universalis metaphoricity} by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as of its reasoning-from-results/afterthought logocentric constitutedness. Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme further inspired its subsequent radicalisation by latter thinkers;
wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of ‘nonpresencing-perspective–ontological-normalcy/postconvergence’; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity—to–attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of–amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in–supererogatory–epistemic-conflatedness to supersede human temporality/shortness wooden-language-(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) with
respect to Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—, the further insight of ‘out of thin air’ metaphoricity as of human limited-mentation-capacity-deepening comes with the possibility of its ontological-prime movers-totalitative-framework validation by existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of:<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought,-in-supero ratory-epistemic-conflicatedness. In this regard, the ontologically-veridical ‘postmodern deprocrypticism-or-preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care-and—episteme’ with respect to our modern take <amplituding/formative> wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—-as-of—nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications>) reasoning-from-results/afterthought logocentric constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of—reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought prospective relative-ontological-completeness—of—reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supero ratory—de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established
arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. In both cases, the prospective institutionalisation attitude/mental-disposition/care–and–episteme is ontologically validated as of its prospective relative-ontological-completeness–of—reference-of-thought, divulging the <amplituding/formative–epistemicity>totalising~self-referencing–syncretising/circularity/interiorising/akrasiatic-drag vagueness and futility of the pretences and judgments of the destructuring-threshold–(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance—including-virtue-as-ontology>. We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supercratory-de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating — <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking—apriorising-psychologism’ as positivism/rational-empiricism thinking or notional–deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of–reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory–de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of
prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—‘notionally–collateralising-beholdening-protohumanity’-to—‘attain-sublimating-humanity’-as-to-existence-potency—sublimating-nascence—disclosed-from-prospective-epistemic-digression-as-of-

But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of the Socratic philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia, as spontaneity-of-aestheticisation disseminative events induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications of a supererogatory epistemic-confoundedness as to the ontological-normalcy/postconvergence-projective-perspective, to which latter human-subpotency-projectively-conflates to in-order-to-overcome our prospective-epistemic-abnormalcy/preconvergence involving transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-universalising sophistry and medieval-scholasticism pedantic dogmatism respectively; and so as to the fact that dimensionality-of-sublimating as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia, as spontaneity-of-aestheticisation to both Descartes thinking-proposition for budding-positivism and Socrates’s universalising-idealisation in then secondarily inducing their respective reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a
reasoning as from reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation perspective whereas Descartes and Plato—and–Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation[6] and so as of prospective projection as implied with the ontological-contiguity—of-the-human-institutionalisation-process[6], but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity[6]. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ failing to conceive of the ontological-veracity in reflecting holographically–<conjugatively-and-

It is this underlying misconception that induces subsequent philosophical misinterpretations of notions like <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>), ressentiment and leveling failing to appreciate that these are ontologically-driven as of underlying relative-ontological-completeness knowledge-reification basis of such conceptualisations arising as to the need for prospective emancipatory inspiration of prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation inducing human limited-mentation-capacity-deepening. In this regards, we can appreciate that all human ‘meaningfulness-and-teleology’ arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher
interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of— meaningfulness-and-teleology— as-of—'nondescript/ignorable—void—'-with-regards-to-prospective-apriorising-implications>)); pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological—<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering— reflexivity-of-the-full-potency-of-existence’s—sublimating—nascence> and the more salient point is in instigating their more profound ontologisation/ontological-veracity/aestheticisation-towards-ontology as of relative-ontological-incompleteness /relative-ontological-completeness -(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising-re-motif— and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological—

It is thus not odd that as of human emotional-involvement implications, Socratic philosophers universalising-idealisation and budding-positivists projected ‘meaningfulness-and-teleology’ infrastructure rather met initially with the antipathy of their underpinning–suprasocial-construct and <amplituding/formative> wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications>) and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation<unforegrounding-disentailment,—failing-to-reflect–‘immanent-ontological-contiguity‘> whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as’ <amplituding/formative–
epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^6\) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^6\) anamnesis as of difference-conflatedness\(^11\)-as-to-totalitative-reification\(^16\)-in-singularisation\(^17\)-as-veridical-epistemic-determinism\(^21\) underlying the human construction-of-the-Self and on the other hand ‘the effective ontological-impertinence/dereification\(^2\) arising in the conceptualising of human value-construction as of a <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^9\)-as-of—’nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>) in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness\(^1\)-of—meaningfulness-and-teleology\(^9\) and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (‘universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment\(^7\) and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-
institutionalisation-process\textsuperscript{7} points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of \textit{\textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity} comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of \textit{\textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity}

epistemicity>causality~as-to-projective-totalitative~implications,—for-explicating-ontological-contiguity\textsuperscript{10}, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness\textsuperscript{13} is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment\textsuperscript{15} to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification\textsuperscript{17} of social–value-construction thus lies with its ‘priorly
implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism—<as—preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbedded with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and excluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation.
that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiac-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance-<including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating-desublimating-decisionality)-of-ontological-performance’ <-<including-virtue-as-ontology> dynamics of notional~firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence’). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation inducing its deficient ontological-performance-<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments. <imbued–and ‘hermeneutically/reprojectively/supererogatingly/zeroingly–edu-

priori framework that is existence, humankind can construe of existence becoming/emancion
manifestations allowing for human knowledge-reification and empowerment from the
knowledge-reification within existence, with this in itself inducing a human reflexivity as of a
human reflexive influence within existence (wherein for instance, a positivistic disease theory
of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a
whole set of human existential disposedness of emancipatory and curative implications in
existence as of human sovereignty and free-will, but also in the very first place the fundamental
human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’<imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>’; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance <including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance and destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance <including-virtue-as-ontology>. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance <including-
virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-threshold/presublimating–desublimating–decisionality}–of-ontological-performance<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology’ and then ‘the individual dimensionality-of-sublimating’—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality> mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming> reflected in <amplituding/formative–epistemicity>totalisingly–preceding-and-redefining-existential-contextualising-contiguity implications upon human sovereignty and free-will’). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective-ontological-
performance\(^1\)-<including-virtue-as-ontology> of social–value-construction so-construed as destructuring-threshold-(uninstitutionalised-threshold \(\langle\)presublimating–desublimating-
decisionality\(\rangle\)-of-ontological-performance \(\langle\)-<including-virtue-as-ontology>, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment\(^9\), whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment that gives the teleological orientation of human \(^5\)meaningfulness-and-teleology\(^9\) in reflecting holographically-<conjunctively-and-transfusively> the ontological-contiguity —of-the-human-
institutionalisation-process\(^6\), as it then exposes human \(^3\)meaningfulness-and-teleology\(^9\) as of human limited-mentation-capacity-deepening \(^1\) to the prospective constraint to be as supposedly coherent ontological-commitment\(^9\) thus inducing the possibility for prospective transcendance-and-sublimity/sublimation/supererogatory–de-mentativity when its any given \(^3\)meaningfulness-
and-teleology\(^9\) is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening\(^2\). Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness\(^7\) as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity — of-the-human-institutionalisation-process\(^2\) dimensionality-of-sublimating\(^2\)—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency–sublimating–nascence–disclosed–from–prospective–epistemic–digression–as–of–amplituding–formative–epistemicity–totalising–renewing–realisation/re-perception/re-thought–in–supererogatory–epistemic–conflicatedness manifestation of 9.8 m/s² and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation–unforegrounding–disentailment,–failing-to-reflect–immanent-ontological-contiguity. The conception of human sovereignty and free-will so-implied as of ‘the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’–imbued-and–hermeneutically/reprojectively/supererogatingly/zeroingly-educing–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation’ basically underlies all human knowledge-reification whether with regards to philosophy as first-level ontology pertaining to ‘overall existence phenomenal appraisal of meaningfulness-and-teleology’ as of the-overall
existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification ’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications—<as-to-existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression-as-of—<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,—to-which-latter-human-subpotency-projectively-conflates-to-in-order
knowledge-reification\footnote{^1} rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\footnote{^2}<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-
extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness\(^\langle\)–(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–\(<\)projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,–in-perspective–ontological-normalcy/postconvergence\rangle\(\rangle\)\(^\rangle\) causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^66\) in reflecting holographically–\(<\)conjugatively-and-transfusively\(\rangle\) the ontological-contiguity —of-the-human-institutionalisation-process\(^67\); going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics.
accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when
considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’ as to the ‘relative-ontological-completeness’ -

epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our positivism–procrypticism and will equally vary with prospective depocrypticism–or–preempting—disjointedness-as-of- reference-of-thought as of human limited-mentation-capacity-deepening. This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework confating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness’ in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness, reflecting a human-causative-construction conception in conflatedness /projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional–projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness as of any given ‘presencing—absolutising-identitive-constitutedness’ apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of ‘presencing—absolutising-identitive-constitutedness’ conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness/relative-ontological-completeness’-

But then such pretence of ‘presencing—absolutising-identitive-constitutedness¹ veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the ‘meaningfulness-and-teleology’ infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to
relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness'/relative-ontological-completeness-
existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the ‘presencing—absolutising-identitive-constitutedness’ notion of ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness. perspective is the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing—apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-
<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-
discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing—apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-prime movers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken
to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of ‘relative-ontological-incompleteness/relative-ontological-completeness)—(sublimating-referencing/registering/decisioning,—as-self-becoming/self-conflicatedness/formative—supererogating—projective/reproductive—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence)—as to human-and-social—expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity—discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—<as-to-preconverging-or-dementing—apriorising-psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as
the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness, but rather as of the relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–<as-to-preconverging-or-dementing–apriorising-psychologism> of such implied ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of
apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendancy of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness and not subject to prospective ‘relative-ontological-incompleteness/relative-ontological-completeness’

The fact is ‘wonkiness-of-secondnaturizing as of the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ implies that any given registry-worldview/dimension is in a conception of value-construction and overall meaningfulness-and-teleology that is subpar to prospective possibilities of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativeness; and this particular point is critical for the awareness that social thought can be developed that transepistemically overlooks the presencing—absolutising-identitive-constitutedness conception of value-construction and overall meaningfulness-and-teleology (as to its destructuring-threshold—{uninstitutionalised-threshold/presublimating—desublimating-decisionality}—of-ontological-performance)—<including-virtue-as-ontology> induced wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void }—with-regards-to-prospective-apriorising-implications>) for the possibility of prospective transvaluation as of dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality, as so-reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence—

<amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-
thought-in-supererogatory-epistemic-confutedness (so underlied as of the parrhesiastic
its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for
dispensing-with-immediacy-for-relative-ontological-completeness-by-
reification/contemplative-distension in its construction-of-the-Self with respect to
prospective human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no
inherent meaningfulness-and-teleology but rather as of the specific human-subpotency as to
overall reifying-empowering-reflexivity-of-ecstatic-existence-as-panintelligence-
<imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing–human-

apriorising/re-axiomatising/re-referencing–conceptualisation>, that is, as to ‘human-subpotency
potential to epistemically converge to the full-potency of existence’; and this underlying
structure of reflexivity is the very structure in reflecting holographically-conjugatively-and-
transfusively the ontological-contiguity—of-the-human-institutionalisation-process,
however, the surreptitious and opportunistic temporal interpretations to exploit its positive
consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-

development, institutional-development-as-to-social-function-development and Being-
development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology. The implication here is that all human
knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the
social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating —<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, with such human dimensionality-of-sublimating —<amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective
originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality’/shortness <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology’-as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment’). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology’-as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective—ontological—
normalcy/postconvergence>–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening ). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity—discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ), dementatively/structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)—or-understanding-of-ontological-prime movers-totalitative-framework—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very
first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as to the possibility for genuine human reification\[6\] and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression—as-of—<amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in-supererogatory—epistemic-conflatedness ) is effectively what underlies human institutional paralysis and social-vestedness/normativity—<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very
own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historicity/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism relevant to deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooiness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness’—of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-conflicion (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional~projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their
thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness’ of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ meaningfulness-and-teleology, the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification/conemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness’ of—meaningfulness-and-teleology given
historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ presencing—absolutising-identitive-constitutedness /constitutedness apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment^1^ with regards to the ‘full-conflatedness’ of apriorising/axiomatising/referencing—conceptualisation as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression—as-of—amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness ), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-vestedness/normativity—<discretely-implied-functionalism>^2^; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness^3^ manifestation of human presencing—absolutising-identitive-constitutedness /constitutedness (as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications of human limited-mentation-capacity). Desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition aestheticisation—and—aestheticisation-towards-ontology decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation (as construed from the prospective notional—deprocrypticism ontological-normalcy/postconvergence epistemic/notional—projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historiciality/ontological-eventfulness—ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of—meaningfulness-and-teleology—for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective) of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment with respect to
the-human-institutionalisation-process (in truly reflecting the ‘full human-subpotency potentiation’ as to the most profound human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension). Its defining question is whether and how can the human reconstrue meaningfullness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfullness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation–and–aestheticisation-towards-ontology framework; such that the propensity for human meaningfullness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening before any construable human panoramic-sublimating-criticality outcome of meaningfullness-and-teleology) has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation–and–aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance’,<including-virtue-as-ontology’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-menting/restructuring/reparadigming–frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of– meaningfullness-and-teleology of prospective human-

In this regards, this author construes such gimmicky pretences of intellection in our present day rather ‘intimating of existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective’ with regards to otherwise de-mentative/structural/paradigmatic human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint issues (requiring the ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought), which articulation and constructive addressing should actually be the very conceptualisation of intellection. In this regards, we can appreciate that the Socratic philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency–sublimating–nascence–disclosed–from–prospective–epistemic-digression-as-of<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought, in–supererogatory–epistemic–conflatedness ) undermining their respective gimmickiness-of-thought (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective) associated with sophists and medieval-scholastics then respectively defining the ‘thought/intellectual Establishment’, and that the possibility for such sublimating intellectualism as to its crude and unsavoury social discomfort implications is hardly a question of eliciting human temporality/shortness <amplituding/formative> wooden-language–(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) as of

Such meaningfulness-and-teleology in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective as to dimensionality-of-desublimating-lack-of—
rather speaks of a parasitising conception of intellection that warrants that by some miracle the possibility of human sublimation induced as of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification-contemplative-distension should arise, for that sublimation to be then parasitised with gimmickiness-of-thought as to social-stake-contention-or-confliction eliciting of human temporality-shortness

In many ways, this dimensionality-of-desublimating-lack-of — explains a poor inclination-or-capacity to effectively interpret the projected meaningfulness-and-teleology of many a past thinker as to presencing—absolutising-identitive-constitutedness institutional and social-vestedness/normativity-discretely-implied-functionalism-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that naively think that being at the backend in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with overall existence beholden frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science

In many ways the underpinning—suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating — <amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning—suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with dimensionality-of-sublimating — <amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning—suprasocial-construct
aestheticisation–and–aestheticisation-towards-ontology well beyond our present contemplation of what is implied by "meaningfulness-and-teleology", as in many ways the reality of our past and present aestheticisation–and–aestheticisation-towards-ontology as "meaningfulness-and-teleology" has 'paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human' rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our 'beholdening-becoming—distortive-originariness/distortive-origination—as-to—historicity-tracing—inhhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility—of—aestheticisation' rather than contemplate about prospective possibilities of 'bechancing—becoming—originariness/origination—as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—'epistemicity—relativism'—disinhibited—mental—aestheticising as of originariness—parrhesia,—as—spontaneity—of—aestheticisation'. Interestingly, in this regards in many ways the ontological-contiguity of-the-human-institutionalisation-process possibility is hardly just about human 'mere technical capacity potential' but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality—of—sublimating—and—amplituding/formative—supererogatory—de-mentativeness/epistemic—growth—or—conflatedness/transvaluative—rationalising/transepistemicity/anamnestic—residuality/spirit—drivenness—equalisation capacity 'to project in disseminative—sublimating—selectivity—of—ontological—good—faith/authenticity—over—desublimating—deselectivity—of—ontological—bad—faith/inauthenticity' (as to the underlying human ontological—faith—notion—or—ontological—fideism—imbued—underdetermination—of—motif—

It is important to grasp here that such a construal of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought highlighting the prospective implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process<sup>17</sup> as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-<imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation> (as to underlying human construction-of-the-Self) is not ‘a metaphysical/ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any ‘metaphysical/ideological advocacy’, but rather just as modern day science such a conception speaks to ‘the inherent ontological implications as to human knowledge-reification<sup>16</sup> and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-

That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced presencing—absolutising-identitive-constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising / sublimating-thoughtfulness / historicality-or-ontological-eventfulness—ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—‘epistemic-relativism’ / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold as to dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism—disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of
ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment\textsuperscript{68},’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’); and so critically as to the ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13} human <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{66}—of-the-human-institutionalisation-process\textsuperscript{67} (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity\textsuperscript{56} potentiation’ when

At the root of this undermining of prospective ‘requisite human dimensionality-of-sublimating — <amplituding/formative> supererogatory~de-mentativity/epistemic-growth-or-conflatedness’/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ is the social dilution/enfeeblement of value-construction/value-aspiration as to their ‘ad-hoc and incoherent <amplituding/formative—epistemicity>totalising/circumscribing/delineating implications supposedly non-ontological as to non-metaphysical’ (with regards to conceptualising the social-construct prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity value-construction/value-aspiration), as associated particularly with ‘the specious usurpation of the overall social-construct’s intellectual–function/posture as to prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity—<discretely-implied-functionalism> constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism> (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of ‘de-mentative/structural/paradigmatic <amplituding/formative—epistemicity>totalising/circumscribing/delineating operant considerations for
equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes’, as the often sparing instantiating existential frames of day-to-day social, political and media landscapes decision-making/editorialising processes are poorly amenable naturally to such ‘<amplituding/-formative–epistemicity>totalising/circumscribing/delineating operant considerations for equanimity/balance’ and end up assuming social-vestedness/normativity-<discretely-implied-functionalism> defaulting postures with occasional clamours for equanimity/balance of the decision-making/editorialising processes quite often the niggling exceptions to entrenched and existentially-unthought reflex. Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing -of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-and-indirect-sponsorship-distortive-influence, blatant-intellectual-misanalyses-and-sophistry, public-influence-and-lobbying-overtaking-inherent-intellectual-veracity, politicised-institutional-stakes-overtaking-inherently-objective-social-knowledge-production-in-higher-academia, a-consciously-aware-intellectual–function/posture-impotence-that-cynically-construes-of-the-possibility-for-prospective-sublimating-social-knowledge-as-the-opportunity-for-its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and archiving, etc. These all contribute in making-more-and-more-of-an-empty-shell the supposed intellectual transparency and sovereign independence of the social-construct in present day democracies. But then more than just the more consciously immediate emancipation possibilities for momentous human prospective historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> with regards to ‘present-day

This difference between a ‘purist science/ontology epistemic conception of veracity/truth’ and the conception of veracity/truth as from the latitude of human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given discrete social–value-construction’ is critically reflected in the fact that the former orientation is priorly and ultimately concerned with existence’s foregrounding—entailment—postconverging—narrowing-down—sublimation as to existence—as sublimating-withdrawal, eliciting of prospective supererogation in reflecting ‘immanent-ontological-contiguity’, as operative notional—deprocrypticism imbedded sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration as—merely extrapolating/constituting/abstracting/deducing/infering of elucidation outside existential—contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s foregrounding—entailment—postconverging—narrowing-down—sublimation as to existence—as sublimating-withdrawal, eliciting of prospective supererogation in reflecting ‘immanent-ontological-contiguity’, as operative notional—deprocrypticism’; and so peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic conceptions of their respective epistemic conceptions phenomenal/manifest subpotencies—in transitive conflatedness—reflexivity—potency of existence’s sublimating nascence) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies—in transitive conflatedness’—reflexivity—potency of existence’s—sublimating nascence).
existence’s~sublimating–nascence>’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest–subpotencies~<in-transitive-conflatedness>–reflexivity, in-the-full-potency-of-existence’s~sublimating–nascence>’ with the ‘supposedly profound phenomenal/manifest–subpotencies~<in-transitive-conflatedness>–reflexivity, -in-the-full-potency-of-existence’s~sublimating–nascence>’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity~<discretely-implied-functionalism> disparateness-of-conceptualisation~<unforegrounding-disentailment, -failing-to-reflect~‘immanent-ontological-contiguity’>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency~sublimating–nascence~disclosed-from-prospective-epistemic-digression-as-of<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought,-in-supererogatory~epistemic-conflatedness~sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity~of-the-human-institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies~<in-transitive-conflatedness>–reflexivity, -in-the-full-potency-of-existence’s~sublimating–nascence> to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest–subpotencies~<in-transitive-conflatedness>–reflexivity, -in-the-full-potency-of-existence’s~sublimating–nascence>’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>) work paradoxically only by impliciting the reality of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies<in-transitive-conflatedness–reflexivity,-in-the-full-

Such flawed and surreptitious representation that biological/neurological and evolutionary substitutive/reductionist interpretations are the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of the social and socio-psychological (rather than the truly inherent social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies→<in-transitive-conflatedness→reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence> as of their ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’) in effect wrongly implies a dialogical-equivalence ‘nature versus nurture debate’ between these two perspectives as to a ‘naïve academicism mere procedural argumentation reflex’. The reality at best is that of ‘biological/neurological and evolutionary interpretations transverse epistemic-conception phenomenal/manifest–subpotency→<in-transitive-conflatedness→reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>’ in relation to the social and socio-psychological frame–of–ontological-contiguity⁷⁶ (and not such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception overriding the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies→<in-transitive-conflatedness→reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>, just as the transverse epistemic-conception phenomenal/manifest–subpotency→<in-transitive-conflatedness→reflexivity,-in-the-full-
potency-of-existence’s–sublimating–nascence> of mathematics in relation to physics doesn’t substitute for and override the inherent physics epistemic-conception phenomenal/manifest–subpotency–<in-transitive-conflatedness>–reflexivity,–in-the-full-potency-of-existence’s–sublimating–nascence>). The consequence of such vague disparateness-of-conceptualisation–<unforegrounding-disentailment,–failing-to-reflect–immanent-ontological-contiguity as to failing ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ (as implied as of the requisite ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’–<as-from-prospective-ontological-normalcy/postconvergence–epistemic/notional–projective-perspective>’), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to
constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag , even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaninglessness-and-teleology’ across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of the ontological-performance <including-virtue-as-ontology> of human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> narratives’: and so as

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen
within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) as to an epistemically-decadent <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification^]/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—\textsuperscript{categorical-imperatives/axioms/registry-teleology}); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification^]/contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression-as-of—amplituding/formative—epistemicity>totalising—renewing-realisation/re-perception/re-thought,—in—supererogatory—epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to
necessity for the bifurcation of the construal of prospective human ontological-performance\textsuperscript{7}—<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'>’ and ‘a non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. reflected as of notional–deprocrypticism. notional–deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance\textsuperscript{1} as to sublimating \textsuperscript{4} historicity/ontological-eventfulness\textsuperscript{2}/ontological-aesthetic-tracing\textsuperscript{2} as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ in presencing—absolutising-identitive-constitutedness\textsuperscript{1}. Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ underlying prospective human ontological-performance\textsuperscript{1} with regards to human meaningfulness-and-teleology\textsuperscript{5} speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the dementative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening\textsuperscript{5} in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-discretely-implied-functionalism’ epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity—sublimation-as-to-underlying-ontological-commitment is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-
transposition of ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ in ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13}, while the former strongly constrained to high predicative-effectivity—sublimation—as-to-underlying-ontological-commitment\textsuperscript{+} is rather relatively amenable to sublimating \textsuperscript{4}historiality/ontological-eventfulness/ontological-aesthetic-tracing-\langle\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}\rangle as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-\langle\text{discretely-implied-functionalism}\rangle epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-\langle\text{discretely-implied-functionalism}\rangle epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating \textsuperscript{4}historiality/ontological-eventfulness/ontological-aesthetic-tracing-\langle\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}\rangle). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist

What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness<sup>13</sup> &lt;amplituding/formative–epistemicity&gt;totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag&lt;/sup&gt;; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification<sup>66</sup> is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment<sup>65</sup> (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as critically enabling prospective sublimation’ so-implied as to existence-potency–sublimating–nascence–disclosed–from-prospective-epistemic-digression-as-of-&lt;amplituding/formative–epistemicity&gt;totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness<sup>1</sup>. The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology<sup>99</sup>-&lt;in-existential-extrication-as-of-existential-unthought&gt;) is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers<sup>103</sup> universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity<sup>17</sup> meaningfulness-and-teleology<sup>9</sup> by eliciting presencing—absolutising-identitive-constitutedness<sup>9</sup>.
sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism `meaningfulness-and-teleology` respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of `presencing—absolutising-identitive-constitutedness` `<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag` that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their `presencing—absolutising-identitive-constitutedness` `existentialising—enframing/imprintedness<(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)`. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment ‚)’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a ‚presencing—absolutising-identitive-constitutedness’ sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic ‚presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,–in-suprerogeratory–epistemic-conflatedness allowing for prospective Socratic philosophers universalising-idealisation and budding-positivism as to their respectively induced ‘universalising-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment ‚)’ and ‘positivism/rational-empricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment ‚)’ constraining in the face of ‘human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’accordioning–(as-of-varying-individuations-contextually-transverse–desublimation/sublimation–and-to-the-redounding/wavering/waveforming—of-their-referencing–and-their-devolved-referencing-imbued-ontological-performance’–<including-virtue-as-
ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>, effectively reveals its non-scientific nature notwithstanding the confusion of vague academicism proceduralism with true sublimating science/ontology. All the knowledge-reification that effectively can be is of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation having to do with human limited-mentation-capacity-deepening as enabling human-subpotency epistemic-projection towards the full-potency of existence so-construed as intemporality, and not a “presencing—absolutising-identitive-constitutedness” human-subpotency epistemic-projection in <amplituding/formative–epistemicity>totalising–self-referring-syncretising/circularity/interiorising/akrasiatic-drag so-construed as temporality. But then the inclination to assume an ontologically-flawed sophistic/pedantic “presencing—absolutising-identitive-constitutedness” sensibility/decorum strategy is ever always associated across all registry-worldviews/dimensions with blurriness of “meaningfulness-and-teleology” as to “meaningfulness-and-teleology” rather unconstrained to predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment’) as to lack of ‘relative-ontological-completeness”—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment’). Consider in this regards, the de-mentative/structural/paradigmatic possibility of such an abstract human sophistic/pedantic “presencing—absolutising-identitive-constitutedness” sensibility/decorum strategy exercise with regards to say Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs if there was ‘no positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment’) (as produced by the efforts of budding-positivists even as during their own epoch this was contested by their Establishment) that allowed for sublimating scientific thought to be integrated or rejected by its mere predicative-effectivity–

desublimating ontological implications as most profound construal of human
<amplituding/formative–epistemicity>causality inevitably highlights the requisite ‘ontological-

supererogation\textsuperscript{95}, as mentally-aestheticised\textsuperscript{postconverging}\textsuperscript{dialectical-thinking}\textsuperscript{qualia-schema} existential-condescension\textsuperscript{of-apriorising/axiomatising/referencing–psychologism}\textsuperscript{96} of sublimating base-institutionalisation, \textsuperscript{universalisation, positivism/rational-empiricism and notional-deprocrypticism respectively over desublimating recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively, and the failure to articulate this requisite ‘ontological-good-faith/authenticity\textsuperscript{de-mentating/structuring/paradigmig-seeding/incipient–profound \textsuperscript{supererogation\textsuperscript{mentally-aestheticised\textsuperscript{postconverging/dialectical-thinking}\textsuperscript{qualia-schema} existential-condescension\textsuperscript{of-apriorising/axiomatising/referencing–psychologism}’ is a failure to meet the ‘prospectively warranted organic-knowledge epistemic-veracity’ as failing to reflect supererogatory\textsuperscript{acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing–psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness\textsuperscript{as base-institutionalisation, \textsuperscript{universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human \textsuperscript{reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity of the respective prior relative-ontological-incompleteness\textsuperscript{of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human \textsuperscript{reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublation as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional-asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic<as-to—transversality~of-affirmative-and-
unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{10} > is in transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{11} with the relative-ontological-incompleteness\textsuperscript{15} logical-basis/logic<as-to—transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{11}>, it is only the sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\textsuperscript{86} that affirmatively upholds the relative-ontological-completeness\textsuperscript{17} over the relative-ontological-incompleteness\textsuperscript{18} (as to their supposedly coherent ontological-commitment\textsuperscript{19}). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity ~de-mentating/structuring/paradigming–<seeding/incipient–profound\textsuperscript{79}–supererogation\textsuperscript{96}–as-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity ~de-mentating/structuring/paradigming–<seeding/incipient–profound\textsuperscript{79}–supererogation\textsuperscript{96}–as-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as to the positive-opportunism\textsuperscript{75} implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{99} of such ‘ontological-good-faith/authenticity ~de-mentating/structuring/paradigming–<seeding/incipient–profound\textsuperscript{79}–supererogation\textsuperscript{96}–as-mentally-aestheticised–postconverging/dialectical-thinking –qualia-schema> existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology. In this respect with regards to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary ‘meaningfulness-and-teleology’ desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical ‘meaningfulness-and-teleology’ (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity’~de-mentating/structuring/paradigming~<seeding/incipient–profound ~supererogation~,~as-mentally-aestheticised–postconverging/dialectical-thinking~—qualia-schema> existential-condescension~<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity~de-mentating/structuring/paradigming~<seeding/incipient–profound ~supererogation~,~as-mentally-aestheticised–postconverging/dialectical-thinking~—qualia-schema> beyond-and-above the desublimating ontological-good-faith/authenticity~de-mentating/structuring/paradigming~<seeding/incipient–profound ~supererogation~,~as-mentally-aestheticised–postconverging/dialectical-thinking~—qualia-schema> of ordinary ‘meaningfulness-and-teleology’. However, this sublimating knowledge ‘ontological-good-faith/authenticity’~de-mentating/structuring/paradigming~<seeding/incipient–profound ~supererogation~,~as-mentally-aestheticised–postconverging/dialectical-thinking~—qualia-schema> existential-condescension~<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to

In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning–suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning–suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite ‘ontological-good-faith/authenticity’ existential-condescension–<of-apriorising/axiomatising/referencing–psychologism>’ and naïve present day presencing–absolutising-identitive-constitutedness interpretation in terms of the supposed arrogance of the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of–<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> (as to the failure to appreciate that the surpassing of human-subpotency aporeticism is all about originariness-parrhesia–as–spontaneity-of-aestheticisation supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–

regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-

genuine social intellectual–function/posture. Intellectualism as such is much more than just
about presencing—absolutising-identitive-constitutedness
methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all
given registry-worldviews/dimensions as presencing—absolutising-identitive-
constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-
and-teleology in absolute terms whereas in reality there are veridically relative
subontologisation/subpotentiation of ontology as metaphysics-of-presence-{implicited-
‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ’};
and it is here that the genuine social intellectual–function/posture comes in to veridically reflect
the reality that a social-construct is not of absolute scalarisation of human ontological-
performance <including-virtue-as-ontology> for the possibility for its prospective
scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-
or-amplifying–scalarisation-as-to-existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation”, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation –profundity–de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly de-
mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{99}–\textless in-existential-extrication-as-of-existential-unthought\textgreater\ positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13}’ ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human ‘presencing—absolutising-identitive-constitutedness’ mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose ‘meaningfulness-and-teleology\textsuperscript{99}’ infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human ‘meaningfulness-and-teleology\textsuperscript{99}’ (and so not only with human Being-development/ontological-
meaningfulness-and-teleology\textsuperscript{19} but is equally reflected in a poor-spirited bland conception of
human living-development–as-to-personality-development and institutional-development–as-
to-social-function-development). This insight is critically important not as an idle exercise of
merely stating the appropriateness of sublimating value and ontological-veracity disposition but
in reflecting that the skewed underpinning–suprasocial-construct projected and de-
mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and
ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately
prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and
ontological-veracity disposition’ that acts as the backbone for human value and ontological-
veracity sublimation (as has always been the manifest case for surpassing the
uninstitutionalised-threshold\textsuperscript{02} of registry-worldviews/dimensions). The fact is ‘immediacy
supposed absolute sublimating value and ontological-veracity disposition’ as underlying
presencing—absolutising-identitive-constitutedness\textsuperscript{13} end up as the registry-

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity’–de-mentating/structuring/paradigming–<seeding/incipient–profound’-supererogation’,-as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> existential-condescension–<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity.

We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human
ontological-commitment\textsuperscript{3} with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness\textsuperscript{13} articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{14}. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness\textsuperscript{3} avails rather than ontological-bad-faith/inauthenticity\textsuperscript{3} in upholding relative-ontological-incompleteness\textsuperscript{3} (given that immortality/existence-perspective as to intemporality\textsuperscript{1} cannot be construed as arising from our prior mortals whims superseding of existential sublation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness\textsuperscript{3} as to dimensionality-of-sublimating\textsuperscript{3}—<amplituding/formative–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> takes precedence in defining human intellectual-and-moral ontological-performance\textsuperscript{3}—<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\textsuperscript{3}. This <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{3} implied existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming<seeding/incipient–profound--supererogation>,-as-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema> existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’.
effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness-&metaphoricity- disposed—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘dementatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance -<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance -<including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-
moral responsibility as to their existence within the meaningful sovereign frameworks that de-
mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other
words, our intellectual-and-moral responsibility is already engaged as to our
\[<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–thrownness-in-existence}\]
and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus;
and human intellectual-and-moral responsibility starts at the very least with an orientation to
relative-ontological-completeness\(^{27}\) as to overall existential dimensionality-of-sublimating —
\[<\text{amplituding}/\text{formative}>\text{supererogatory–de-mentativeness/epistemic-growth-or-

development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-

primacy of ‘the very \[<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–thrownness-in-

so-reflected in originariness-parrhesia,–as–spontaneity-of-aestheticisation

mentativeness/epistemic-growth-or-conflatedness }/\text{transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}>. The
bigger point here is that prospective human sublimation underlying prospective knowledge-
reification\(^{8}\) in relative-ontological-completeness cannot be engaged with any given registry-
deficiency arising from its specifically given $<$amplituding/formative–epistemicity$>$totalising–thrownness-in-existence$^{14}$ with respect to prospective base-institutionalisation, $^{10}$universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively; and as relative-ontological-completeness$^{47}$ avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating — $<$amplituding/formative$>$supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluable-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation$>$. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given ‘presencing—absolutising-identitive-constitutedness$^{13}$ self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation$^5$ is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity$^{66}$’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity$^{66}$—of-the-human-institutionalisation-process$^{67}$ so-associated with human limited-mentation-capacity-deepening$^2$). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence-{implicated–nondescript/ignorable–void ’-as-to$^{79}$presencing—absolutising-identitive-constitutedness $\langle$amplituding/formative–epistemicity$>$totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag $\rangle$ on the one hand and on the other hand difference-conflatedness$^{12}$—as-to-totalitative-reification$^{86}$-in-singularisation$^{92}$-as-veridical-epistemic-determinism$^{21}$ as to relative-ontological-completeness$^7$ $<$amplituding/formative–epistemicity$>$causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity$^{66}$, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-
contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting disposedness{(as-to-orientation/value-construct/valuation–and–derived-parameterising) and entailment{(as-to-totalising-contiguous/coherent–factuality-of-variability)})’ (as reflecting the implications of human limited-mentation-capacity-deepening underlying the ontological-contiguity —of-the-human-institutionalisation-process ); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility—of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origin—<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal—of-existence> perspective of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought which purportedly escapes any such reflexive presencing—absolutising-identitive-constitutedness <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation. The so-implied notional—deprocrypticism as such points out that the ontological-contiguity—of-the-human-institutionalisation-process is rather associated with a ‘directly relevant trace of prospective human effectively-purist-sublimation—<reflecting—
opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness’—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this
discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\(^7\) and the immaterial/social overall relative-ontological-incompleteness\(^8\) –presublimation-construct–of– meaningfulness-and-teleology\(^9\) of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment ‘\}’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness\(^7\) weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\(^8\) –presublimation-construct–of– meaningfulness-and-teleology\(^9\) value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism\(^{75}\) driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness\(^8\) by-reification\(^{86}\)/contemplative-distension\(^{26}\) immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘ historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with
meaningfulness-and-teleology of our positivism–procripticism, for instance as associated
with an ‘underlying dumbing-down public intellection and media industry’; as media-access
and its commercialisation function in many ways rather adhocly substitutes-for/undermines a
profound genuine social intellectual–function/posture as to social-stake-contention-or-
confliction implications. The further implication of this discrepancy is in highlighting that the
supposed equanimity/balance of the overall politico-institutional system as to sublimating
notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the

centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’

Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve ‘presencing—absolutising-identititive-constitutedness’ epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science-ideology poor appreciation of the implications of the ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> rendering the scientific adventure as of a living existential-contextualising-contiguity exercise. In this regard, relic/artifactual conception of veridical human historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identitive-constitutedness as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual—function/posture indifference or betrayal to dominance/ vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendance. Basically, notional—asceticism is ever always associated with the successive relative-ontological-completeness registry-worldviews/dimensions possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to arise (as to the notional—asceticism) instigating originariness-parrhesia,–as—spontaneity-of-aestheticisation supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness projection of prospective methods/methodologies/approaches as from prospective sublimation induced methodologising/mutualising/organising/institutionalising), and so because all the ‘existential and contemplative internal adequation’ available for any given relative-ontological-incompleteness registry-worldview/dimension is as of its inherent apriorising/axiomatising/referencing—psychologism imbued logical-basis/logic¬as-to—

But then with such notional–asceticism associated with notional–deprocrypticism factoring in that the projective-insights ‘out of thin air’ (as of reasoning-through/messianic-reasoning) that go on to contemplate of prospective relative-ontological-completeness sublation is potentially a universal human capacity as of discretionary human disposition (as to when relative-ontological-completeness avails) for opting for sublimating ontological-good-faith/authenticity ~dementating/structuring/paradigming/~seeding/incipient–profound–supererogation,–as-mentally-aestheticised~postconverging/dialectical-thinking ~qualia-schema> or opting for desublimating ontological-bad-faith/inauthenticity ~de-mentating/structuring/paradigming~<seeding/incipient–shallow–supererogation>,–as-mentally-

The implication here is that human ‘epistemic-constructs of sublimation-over-desublimation’ are not-and-never optional/discretionary representations about existence (but for when ‘deliberately of mere aestheticisation as mere motif implications’ with no relative reference to any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) with regards to human epistemic aestheticisation—and—aestheticisation-towards-ontology of immanent existence; reflected in the fact that all such epistemic-constructs as knowledge-reification (as referencing any ontological-contiguity conception of relative-ontological-completeness as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation) speak to an underlying human ontological-commitment as to the possibility for prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment). Such that the manifested postlogism–(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) is directly related to the presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning <amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) to be cognisant-and-integrative in prelogism–as-of-conviction,-as-to-profound-supererogation (construed as if of postconverging-or-dialectical-thinking–apriorising-psychologism) of the same meaningfulness-and-teleology articulated as of postlogism manifestation (articulated rather as preconverging-or-dementing–apriorising-psychologism) thus inducing the conjugated-postlogism; and so as to the fact that for instance a postlogism manifestation grounded in a social-setup as of say an animistic social-setup cognisant-and-integrative of notions-and-accusations-of-sorcery in prelogism–as-of-conviction,-as-to-profound-supererogation (as if of postconverging-or-dialectical-thinking–apriorising-psychologism) is susceptible to the postlogism of notions-and-accusations-of-sorcery–meaningfulness-and-teleology (articulated rather as preconverging-or-dementing–apriorising-psychologism) which will be de-mentatively/structurally/paradigmatically impossible to manifest in a non-superstitious positivistic registry-worldview/dimension. As of practical existential implications —maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation means that the positivistic disposability-disposedness-(as-to-orientation/value-construct/valuation—and–derived-parameterising) cannot be responsive to the social-stake-contention-or-confliction projected as of such a non-positivistic meaningfulness-and-teleology, as to a fundamental positivistic disavowal of its non-positivistic disposibility-disposedness-(as-to-orientation/value-construct/valuation—and–derived-parameterising) as non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of its non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation). By extension, maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation psychologistic and apriorising implications (so-construed as from the technical ontological-veracity of originariness/origination–so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence) speaks to the fact that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the respective registry-worldviews/dimensions in relative-ontological-completeness (base-institutionalisation, universalisation, positivism and deprocrypticism respectively) are projected in disavowal of their respective prior registry-worldviews/dimensions in relative-ontological-incompleteness (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively) destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> of ontological-performance—<including-virtue-as-ontology> as reflected by their disposability-disposedness-(as-to-orientation/value-construct/valuation—and–derived-parameterising), implying the latter are effectively non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the

Inherently the requisite originariness-parrhesia,—as—spontaneity-of-aestheticisation for human reframing given human limited-mentation-capacity is rather more forthcoming with directly graspable contextually restricted frameworks-of-conceptualisation with human reframing capacity increasingly of apriorising/axiomatising/referencing—re-originariness/re-origination impotence with frameworks-of-conceptualisation of overwhelming scale inducing increasing ‘sovereign-deference with lack of universal-transparency—⟨transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity⟩totalising—in-relative-ontological-completeness ⟩’ and leading to direct/indirect dominance/vested-interest—drivenness dementative/structural/paradigmatic domination/pre-eminence over social-stake-contention-or-confliction. The grander issue in this regards (as to optimal human reframing capacity with regards to the equanimity/balance of human theoretical-conceptual-operant institutionalised-conceptualisations) as of the present thus has to do with ‘generalised-and-representative human appreciation of its reifying and empowering reflexivity potential giving the perplexing/passivising modern day scale of organisationally and institutionally dementated/structured/paradigmed ‘meaningfulness-and-teleology’ as to the fact that modern day organisational and institutional structure and purposes (by their social-stakes-contention-or-

various stages across all human societies/cultures and diffusible likewise across all human

In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory-unbeholdening-conflatedness/historyiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for

The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of ‘meaningfulness-and-teleology’, a ‘human psychological-disposition for supererogatory–unbeholdening-conflicatedness’ historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’ of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. human knowledge-reification project as was so understood and propounded by such mid-twentieth century thinkers like Bertrand Russell, A.J. Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’ rather than veridically ‘knowledge-reification as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so-reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)—as to a de-mentative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating—existentialising—decisionality gesturing of attenuating/devaluing, blurrying and trivialising wherein there is ‘supposedly no totalising-entailing conception of ’meaningfulness-and-teleology’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existentialising—decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising—imbued—

prospective knowledge-reification rather than ‘unbeholding sublimating–nascence

conflicting of ‘beholding as sovereignising–imbued-subontologisation/subpotentiation’ and

knowledge-reification’ (and so as to self-serving social-vestedness/normativity—<discretely-
implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly
reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieux of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising—decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,-amplituding-formative—epistemicity>totalising—in-relative-ontological-completeness) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating—existentialising—decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness—as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating—existentialising—
decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification$^{95}$ to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation$^{96}$ as herein underlied with notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> implied formativeness–<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>–of–meaningfulness-and-teleology$^{99}$ in nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemic-projection, and so similar to a Derridean ‘heterogeneous genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating–existentialising–decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation$^{96}$ as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness$^5$ of the social which can effectively be brought to exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification$^8$ process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the
pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation”. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiolgisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relating-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to—historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold (uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance→<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—historicity-tracing—existentialising—hyperrealisation/hyperreal-transposition) conception of the ‘overall possibility of human existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> is reflected by an inherent human referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-
ascendancy. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholding-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence-potency—sublimating—nascence.—disclosed-from-prospective-epistemic-digression-as-of—

It is this fact that explains why no underpinning–suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression—as-of—<amplituding/formative—epistemicity>—totalising—renewing—realisation/re-perception/re-thought,—in-supererogatory—epistemic—conflatedness in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity of—the-human-institutionalisation-process, since it will always be caught-up in its presencing—absolutising—identitive—constitutedness existentialising—enframing/imprintedness—{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal—transposition} as to its underlying presencing—distorted—meritocracy/totalising—sovereign—approportioning—of—human-ontological—performance—<including—virtue—as—ontology> desublimating—existentialising—decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating—existentialising—decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating—withdrawal,—eliciting—of—prospective—supererogation and the positive-opportunism arising thereof (as of a minimum) for human secondnaturings institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity—for—prospective—sublimation (as to living—development—as—to—personality—development, institutional—development—as—to—social—function—development and Being—development/ontological—framework—expansion—as—to—depth—of—ontologising—development—as—infrastructure—of—meaningfulness—and—teleology implications) and in that regards the triteness of human

The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation vague proceduralism (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> ) as to the simple fact that human prospective destructuring-threshold—{uninstitutionalised-thresholdÒ/presublimating—desublimating-decisionality}—of-ontological-performanceÒ—<including-virtue-as-ontology> means that human Æmeaningfulness-and-teleologyÆ is ever always caught up prospectively between intellectualism sublimating—existentialising—decisionality and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimating—existentialising—decisionality. or-conflatedness /transvalvative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> of the said prospective sublimating knowledge-reification ; as to imply that (say with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) it is supposedly possible to understand the veracity of any specific positivistic meaningfulness-and-teleology while remaining of non-positivistic mindset, which inevitably induces a relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology desublimating–existentialising–decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the

This critical pure-ontology analysis point out that ‘meaningfulness-and-teleology’ cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity ~dementating/structuring/paradigming–seeding/incipient–shallow–supererogation, as-mentally-aestheticised–preconverging/dementing –qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition, as–reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality proned to ‘presencing—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness–{as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology

Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering—reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective—of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility — effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation. This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation’ in a soulless ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’), with this shallow-supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating–referenced/registered/decisioned self-presence/self-constitutedness -<in-perspective–epistemic-abnormalcy/preconvergence> (without or poorly appreciating the profound-supererogation involved in true science and ontology as to ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>’) leads to dominance/vested-interest prodded social-stake-contention-or-confliction determination of knowledge as of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern day think-tank and secret
institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of genuine knowledge, in ‘temporal beholdening as sovereignising—imbued—subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’). It is herein contended that in many ways as to human ontological-good-faith/authenticity ~de-mentating/structuring/paradigming—<seeding/incipient—profound—supererogation—,—as-mentally—aestheticised—postconverging/dialectical-thinking—qualia-schema>, it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>), as to the fact that ontology is absolutely bound to its course come-what-may ‘with such contrivances rather notionally integrated as herein into ontological-veracity as part-and-parcel of ontological-elucidation’ that allows no room for any pedantic ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ and not even when it elicits <amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} as of shortsighted social power play. Such ‘fraudulent conception of knowledge’ thrive not only as to punctual thematic issues like climate change science and disenfranchisement/swindling/corruption/dispossession implications but even worst carry ideological dehumanising implications as to covertly/implicitly putting in question the humanity of other peoples/nations/cultures/races. In many ways this latterly identified manifestation of ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’, wherein political purpose supposedly supersedes human intellective potency is the very crème-de-la-crème de-mentative/structural/paradigmatic and defining basis for social-and-institutional-frameworks-of—referencing/registering/decisioning of desublimating—existentialising—decisionality as to ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’); so-reflected with dominion/statal—logic—(preconverging/shallow-supererogating—‘human-and-social—expectations/anticipations—dementating/structuring/paradigmig—psychologism’—as-to-its-specific—collateralising—beholdening—<whether—trepidatious-or-warped-or-preclusive-or-occlusive>—and—its—

In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity–<discretely-implied-functionalism>) subverting the sublimating–existentialising–decisionality of the genuine social intellectual–function/posture;
and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious
representatives come to be surreptitiously given their marching orders as to what is politically possible or not). the more profound reality that the truer problem of a democratic crisis lies in the fact that it is poorly interceded by the genuine social intellectual–function/posture as it enables ‘human sublimating/desublimating—modalisation-<as-to-absolute-referencing–of–’ meaningfullness-and-teleology’> upon inherent existence’s sublimating–nascence inducing of ontologisation/omnipotentiality’ to then go on to concretely resolve socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming and rather disenfranchisingly interceded by a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that is enabling de-mentatively/structurally/paradigmatically (whether by wrong/flawed analysis or cynical ontological-bad-faith/inauthenticity/misanalysis) to ‘occlusive discrete inherence of sublimating/desublimating—modalisation-<as-to-absolute-referencing–of–’ meaningfullness-and-teleology’> on the basis of ‘presencing—absolutising-identitive-constitutedness=social-vestedness/normativity-<discretely-implied-functionalism> inducing of subontologisation/subpotentiation’, especially-so as to an economically driven media landscape that can hardly discriminate between intellection and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and in many ways passes the latter for the former as-so associated with overall social banalisation-of-thought with foils/stooges of pop-intellectuals as the ‘greatest thinkers’ of our present intellectually shameful epoch). In this regards, distractive-alignment-to<reference-of-thought<of-apriorising/axiomatising/referencing>‘ ever always involves a false elevation of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation to falsely imply a constrastive equivalence with veridical intellectual re-ontologisation/omnipotentiality (as to imply a common framework of contemplation) in order to then drag-down such veridical intellectual re-ontologisation/omnipotentiality to the immediacy/punctual framework of human social-stake-contention-or-confliction underlied by human limited-mentation-capacity manifest temporality (as of the underpinning–suprasocial-construct existentialising—enframing/imprintedness—as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) with its manifest pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and

Critically in this regards, knowledge itself as to organic-knowledge is inherently and truly as of an existential-contextualising-contiguity hermeneutic/reprojective/supererogating/zeroing dynamics of notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/’distantiation of contemplative existentialising–frame as to transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ (with regards to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of–’meaningfulness-and-teleology’) and not just about isolated mere-formulaicity, wherein for instance we can starkly appreciate that it makes little sense articulating university-level knowledge as to university-level competence to say secondary-education level pupil or electronics knowledge as to electronic technician competence to an accountant as to the fact that in both instances there is associated existential

down to the exercise of underlining simultaneously a prospective threshold of

What is thus implied herein as most critical about the human and humanity is the capacity for profound-supererogation (as to human limited-mentation-capacity-deepening implication of nonpresencing<perspective—ontological-normalcy/postconvergence>) and so ‘more than just a positive-opportunism relation to meaningfulness-and-teleology’ as of the registry-worldview/dimension station/locus of <amplituding/formative—epistemicity>totalising—thrownness—in-existence, imbued-projective-arbitrariness/waywardness<as-to-the-human—projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing-process-of—‘<amplituding/formative—epistemicity>totalising—conceptualisation’> in existential-extrication—as-of-existential-unthought. Fundamentally, the ‘contrastive inequivalence relation’ implied as of notional—self-distantiation<imbued—re-motif—and—re-apriorising/re-axiomatising/re-referencing>’/distantiation of contemplative existentialising—frame as to transversality<of-affirmative—and—unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ is critically ‘the manifestation of the very ontological-normalcy/postconvergence nature of existence but for the confusion of human limited-mentation-capacity induced presencing—absolutising-identitive-constitutedness’. conception of <supererogatory—human-subpotency>—effecting is critically relevant in
appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a
modern day unnecessary ‘social-and-media reflex of facility/convenience’ shunning
technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source
of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a
practice of public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern day
training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional–self-distantiative contemplative profundity/technicity that inherent existence sublimating–nascence warrants to make available appropriately sublimating <supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or appropriate percolation-channelling<-in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of profundity/technicity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by- reification /contemplative-distension ‘ of the individual as to their ‘appropriate notional–self-distantiation<-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-
relative-ontological-completeness"/reification /contemplative-distension’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-totalising preformulating/preframing/premeaningfulness of notional–originariness-parrhesia,–as–spontaneity-of-aestheticisation’ before the incipience of metaphoricity and then meaningfulness-and-teleology as to existentialising–frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (noting here that what is key here is ‘the existence constrained educed sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence
constrained educated sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of-social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification’/contemplative-distension’’ implications of ‘constraining existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation’/imbuing human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification’/contemplative-distension’/that are closely attached-and-driven directly or indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t necessarily generate less public interest but should primarily be motivated with inherent knowledge-reification sublimating–existentialising–decisionality implications). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content
driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradadation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojective/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension’ to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology’) due to the overly denatured and insufficiently challenging—and—dependence—eliciting existentialising—frame of meaningfulness-and-teleology (as to veridical hermeneutic/reprojective/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective existential-contextualising-contiguity—in-reification of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration
of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so rather than ‘an elicited conformity/trending/voguing/fashionability/resonance relation to ‘meaningfulness-and-teleology’ with a poor sense of the prospective existential-contextualising-contiguity-in-reification of knowledge content). Where the cultivated ‘passive integration of schema of thinking/contemplation and engagement’ is rather as of ‘an elicited conformity/trending/voguing/fashionability/resonance relation to ‘meaningfulness-and-teleology’ over eliciting an active thought/contemplative engagement that is sufficiently challenging to the true human intellectual growth potential (as to veridical hermeneutic/reprojective/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective existential-contextualising-contiguity-in-reification of knowledge content) enabling appropriate social ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension,’ then the supposed outcome of a seeming public disinterest and disengagement with technicity/profundity is rather an issue induced as to our procrypticism/disjointedness-of-reference-of-thought social <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in its 7-presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) (starkly reflected as to the temporal-advantageousness and manifest in-effect absolution of ratings and/or

relative blurriness of social-and-institutional-frameworks of—
referencing/registering/decisioning existentialising—decisionality, and critically in many ways
the cultivation of shallow technicity/profundity (as to poor ‘epistemic-

But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification’ so-underlying <supererogatory–human-subpotency>–effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology’ technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory–human-subpotency>–effecting) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification’/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete ‘meaningfulness-and-teleology’ technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in public spaces by such a direct or deferential capacity for notional–self-distantiation-<imbued—re-motif-and-ref-apriorising/re-axiomatising/re-referencing> to cultivate ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification’/contemplative-distension’ over a facility/convenience mental-reflex). In this regards, the sovereign–function/posture ontologising-aptness is truly realised as
to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness(by-reification/contemplative-distension as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation–imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>). The sovereign–function/posture ontologising-aptness warrants that it doesn’t fall prey to falsehoods of ‘contrastive equivalence’ implied as of distractive-alignment-to-reference of thought<of-apriorising/axiomatising/referencing> manifested with ontologically-flawed process/processive bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social
engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc.), and further requires that effective public and institutional intellectual contestation of aptitudinal-substantive-pertinence are not be subverted by monopolising/quasi-monopolising/networking existentialising-frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine social intellectual-function/posture involves striving for a protracted continuum with the sovereign-function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising-frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immidiacy-for-relative-ontological-completeness by-reification /contemplative-distension’ (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating-nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness-reference-of-thought-devolving existentialising-decisionality or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising-decisionality); and so to fundamentally bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-traction—of-desublimating—meaningfulness-and-teleology—(as-perspective-lost-of—supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking—of—notional—deprocrypticism—(in-dimensionality-of—sublimating —<amplituding/formative—epistemicity—growth-or-conflatedness—/scalarisation—<rescalarisation—as—re-ontologisation)) wherein ‘an elicited
conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology undermines the individual’s and social ‘conscious-and-active epistemic-totalising’ re-processing of the existentialising-frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology while overemphasising rather a ‘subconscious-and-passive epistemic-totalising’ re-automatism relation with the existentialising-frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology as elicited with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with the consequent contemplative disorientation, estrangement and lip-servicing/trivialising-relation to veridical social-stake-contention-or-confliction existentialising-decisionality evaluation-and-coherence’). This eventually means that the genuine social intellectual-function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling—<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in a ‘framework of de-mentated/structured/paradigmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—<discretely-implied-functionalism> rendering the
‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on sideling salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/ vested-interest-subontologising-skewed-influence-as-to-social- vestedness/normativity-<discretely-implied-functionalism> has paradoxically effectively-and-preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellection-aptitude body that is the public university as to its underlying social-construct ontological-commitment’ implied self-assuredness-of-ontological-good-faith/authenticity –as-being-as-of-existentia- reality so-reflected as of social notional–self-distantiation-<imbued—re-motif-and-re-apriorising/ re-axiomatising/re-referencing> with regards to socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming’ in falsehoods terms of ‘contrastive equivalence’ implied distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> and so-undermining its ‘neutral sovereign–function/posture upholding’, and with a failed public consciousness about the sovereign importance of the public university practically subjecting them to increasing private funding deeply eroding-and/or-corrupting their capacity for ‘neutral sovereign–function/posture upholding’ and most critically-so not necessarily in quashing ideas but inducing social apprehension and contestive inactivity). In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political
subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human \(<\text{amplituding/formative–epistemicity}>\text{totalising–thrownness-in-existence}\), ‘human meaningfulness-and-teleology’ is effectively of epistemic-totalising consequence (thus implying its profoundness/ontologising-depth is of notional-nondisjointedness/contiguity/coherence as of \(<\text{amplituding/formative}>\text{disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising)}\) and \(<\text{amplituding/formative}>\text{entailment–(as-to-totalising-contiguous/coherent–factuality-of-variability)}\)’ underlined as to its given prospective \(^4\) foregrounding—entailment—(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^5\) in reflecting ‘immanent-ontological-contiguity’—\(^6\),—as-operative-notional–deprocrypticism); with the implication here that institutional process/processiveness as of mere-formulaicity as to mere-formulaic–methodologising/mutualising/organising/institutionalising cannot be construed as the all-be-all of human institutions but rather process/processiveness has to be associated with institutional outcomes and purpose reappraisal as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness conception of social-stake-contention-or-confliction to avoid their pedantising skewing into numbing-traction—of—desublimating—‘meaningfulness-and-teleology’—(as-perspective-lost-of—supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness as to the imbued-postconverging/dialectical-thinking—of—notional–deprocrypticism—in-dimensionality-of—sublimating—\(^{—1}\)<amplituding/formative–epistemicity>growth-or-conflatedness /scalarisation—as-to-rescalarisation-as–re-ontologisation\(^3\)). Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–function/posture contemplative pertinence/capacity in epistemic-totalising growth/conflatedness/postconvergence allowing for appropriate coherence between concrete social reality and overall public perception of

concrete social reality with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ so-underlined by manifest social-stake-contention-or-confliction issues should as to human epistemic-growth/conflatedness/postconvergence instigatively drive public debates rather than ‘the naivety that the balancing of human-subpotencies as of vague process/processive bothsidesism mental-reflex in constitutedness/preconvergence will then reflect sublimating social ontological-veracity’ so-underlined by issues of relatively little relevance to general social-stake-contention-or-confliction with the latter just making room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation induced distractive-alignment-to-<of-apriorising/axiomatising/referencing> and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-<of-apriorising/axiomatising/referencing> issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—with~as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticm-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of–meaningfulness-and-teology reflective of nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflatedness’ in pointing out the prospect of desublimating social outcomes and implications rather than the passive deification of process/processiveness (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating social outcomes as if it is most critically about reflecting upon such cumulating desublimating outcomes rather than truly a posture of anticipative preemption). Such a disontologising pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern day democratic process as it shuts-off requisite sovereign ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification/contemplative-distension’ so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’); as to when such pedantry openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediatically and socially popularised’ inducing (given direct-and-indirect epistemic-totalising consequence of human ‘meaningfulness-and-teleology’) ‘incoherence between concrete social reality and overall public perception of concrete social reality’. The implications of such dereification gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness <-in-perspective–epistemic-abnormalcy/preconvergence> of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’ and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with
regards to human limited-mentation-capacity-deepening. Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality and so in a cogent percolation-channelling-

Ultimately, our human "presencing—absolutising-identitive-constitutedness\langle as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition \rangle (as to the high emotional-involvement associated with social ontological-performance \langle including-virtue-as-ontology \rangle and low emotional-involvement associated with non-social ontological-performance \langle including-virtue-as-ontology \rangle elicited prospective transcendence-and-sublimity/sublimation/supererogatory-supernatural–de-mentativity) seem to take the easy-way-out/contrivance to imply that ‘we are just as perfect as we are (implying the impertinence/non-veracity for prospective human ‘epistemic-

It is thus critical for humanity as a whole and as of social science practice to inculcate the attitude that despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, that doesn’t mean this gives leeway for political and other dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>; as to the fact that the pretense of a social science/ontology dies (with respect to the emancipation/sublimation possibilities for the 8.5 billion humans on Earth) when such an illegitimate pretense is not bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their intellectual soul when they acquiesce to the wooden-language—imbued—temporal–mere-form/virtualities/dereification”/akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the—reference-of-thought—’categorical-imperatives/axioms/registry-teleology’ of any such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> that thrive as to temporal advantageousness on eliciting the lowliness of human contemplation in inducing consciously or unconsciously prospective human

For such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation, the punctual/immediate temporal advantageousness for eliciting the lowliness of human contemplation consciously or unconsciously prospective human desublimation/disempowerment as inherently validatory of a decadent conception of human self-referencing-syncretising in terms of self-presence/self-constitutedness <-in-perspective–epistemic-abnormalcy/preconvergence> of presencing—absolutising-identitive-constitutedness\(^\d\) existentialising—enframing/imprintedness-⟨as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⟩; but then in reality it is herein contended that in the middle to long run such posturing falsehoods are untenable notwithstanding their apparent punctual/immediate impression for the simple reason that veridical knowledge is not built on eliciting human sovereignising beholdening but rather eliciting human ontological-commitment as to ontologising-depth in epistemic re-originariness/re-origination projective/reprojective cross-subjection to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^\d\) (and it is in this regards that human history speaks of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-⟨imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness’ -‘of-notional–deprocrypticism-prospective-sublimation⟩ as to human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-⟨amplituding/formative–epistemicity⟩totalising–renewing-realisation/re-perception/re-thought,-in-

At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a conceptualisation may seem frivolous but then the work/job of doing philosophy and thinking is not for those of ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’; that is why such pettiness-of-minds cannot recognise true work/job when they see it and it is herein contended are better off elsewhere rather than ‘merely hanging to the thread of institutional prescience’ devoid of ‘aptitudinal-substantive-pertinence reflected in a predisposition for totalisingly-disentailing—discretion/whim-of-thought’ that fails prospective human re-ontologisation/omnipotentiality. The above insight provides a relevant backdrop for a truer appreciation of what is entailed by prospective ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ since critically any registry-worldview/dimension is rather of ‘self-referencing-syncretising forward-facing projection of mere-formulaicity as to social-stake-contention-or-confliction’ such that it reflects of itself mainly as of postconverging-or-dialectical-thinking—apriorising-psychologism while qualifying its prospective uninstitutionalised-threshold (as of preconverging-or-dementing—apriorising-psychologism) as nondescript/ignorable–void and so in a presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). But then ontology/science being as of existence doesn’t kowtow—and—subject-to the ‘little human mortal’ thresholds about existence, and it is up to the human to undertake its ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by-reification'/contemplative-distension’ for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—

Critically thus, the ‘knowledge-notionalisation backdrop of entailing-formative-epistemicity-totalising-in-relative-ontological-completeness’ of knowledge-reification in reflecting "historiality/ontological-eventfulness"/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as implied both scientifically and by many a postmodern thinker doesn’t need to ‘take a page into any ideological unknown’ to effectively contemplate of the practical implications for prospective re-ontologisation; and as herein contended with regards to ‘nonpresencing-<perspective-ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ that the fundamental idea for such prospective social re-ontologisation lies with ‘appropriate constraining deblurring analysis in profound-supererogation of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality aporeticism overcoming/unovercoming as to a translating-insight as from nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> sublimating—existentialising—decisionality’ (given the very ontological-normalcy/postconvergence nature of existence reflected as existence—assUBLIMATING—WITHDRAWAL,—ELICITING—OF—PROSPECTIVE—SUPEREROGATION ). We can appreciate in this regards the role of constraining existence in the ‘nonpresencing-<perspective—ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ driving the natural sciences as to the ‘transversal and cross-subjecting sublimating—selectivity—and—desublimating—deselectivity as to manifest sublimation of scientific ideas’ effectively building up the various fields in perpetuative re-ontologisation (and so-construed as to a ‘science supererogating exactifying/precisioning—of—sublimation—<as—to—entailing—theoretical,—conceptual—and—operant—implications> conception’ that is not undermined by a false conception of science reflected by ‘a science ideology desublimation in existentialising—

However, because of the high emotional-involvement in the social, the default posturing one way or the other is ever always to adopt a self-reflexive-willed–will ideological stance (integrating amplituding/formative wooden-language-imbued—temporal—mere-form/virtualities/dereification akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology explaining the discomfort induced when such conscious or unconscious ideological stances are subjected to deconstruction analysis or genealogical/archaeological analysis as to nonpresencing-perspective—ontological-normalcy/postconvergence implications of human limited-mentation-capacity-deepening and so over an existence-driven self-reflexive-willed–thought; in a flawed knowledge-reification gesturing that poorly appreciates the two-sided epistemic-veracity of human self-reflexive-instigative-eventuating-as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,—preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidation so-reflected by the ‘supererogating/willing side’ and the ‘existence sublimating-validation/desublimating-invalidation side’ for sound human intelligibility to arise (and critically the reality of a truly social scientific insight is one that necessarily has to take a considerable distance from the immediate/punctual high emotional-involvement as inherently manifested in the direct socio-econo-political processes of social-stake-contention-or-confliction and its associated directed ideologies with such a truly scientific endeavour not about pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation but ‘rather most thoroughly involved in social-stake-contention-or-confliction aporeticism overcoming/unovercoming’ along the lines of a more profound human and social sublimation arising as from human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in

This should not be construed as a weakness as often wrongly implied of the anti-ideological stance of postmodern thought but rather speaks of a strength in the sense that it is naïve to think the pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of presencing—absolutising-identitive-constitutedness’ social-vestedness/normativity-<discretely-implied-functionalism> can be veridically undermined/superseded by a ‘corresponding antipodal/diametrical compensatory subontologisation’ (as manifested between the conflicting capitalistic and communistic ideologies), rather than a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself so-implied as of supererogatory-progressivity as to human aporeticism overcoming/unovercoming in enabling prospective sublimating–nascence for human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality. ‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to
the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective deprocrypticism/nondisjoining’ but for ‘the inherent nonpresencing-<perspective-ontological-normality/postconvergence> nature of existence’ instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest in-effect absolution as to their given ⁷⁹ presencing—absolutising-identitive-constitutedness as so-fraudulently implied by positivism–procrypticism anti-relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further claim that humanity should rather recommend going back to the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution ⁷⁹ presencing—absolutising-identitive-constitutedness’ as a more coherent anti-relativism stance as so-expliciting the idea that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism proponents seem to project progressive views without truly grasping the contradictory implications of progressivism and anti-relativism explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas ‘true knowledge has to carry its sublimation within itself as to its notional–nondisjointing totalising-entailing’ for it to be socially potent and effective, as we can appreciate that the potency of a scientist is not in themselves but rather their inherent knowledge formulation which then has to avoid explicited or implicated contradictions). In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important

In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation\textsuperscript{\textcircled{96}} entailing-$<\text{amplituding/formative–epistemicity}>\text{totalising~in-relative-ontological-completeness}$\textsuperscript{\textcircled{87}} as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction-of-desublimating\textsuperscript{\textcircled{55}} meaningfulness-and-teleology (as-perspective-lost-of-‘supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking’-of-notional–deprocrypticism-(in-dimensionality-of-sublimating\textsuperscript{\textcircled{24}}-$<\text{amplituding/formative–epistemicity}>\text{growth-or-conflatedness}$/$\text{scalarisation-as-to-rescalarisation-as–re-ontologisation}$)). Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindedness as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine
the requisite social and institutional prospective aporeticism overcoming/unovercoming as to profound supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness”-by-reification”/contemplative-distension”’.

Basically, we can garner that ‘the very epistemic condition inherent to human limited-mentation-capacity in relation to the <nonpresencing-<perspective–ontological-normalcy/postconvergence> of inherent existence sublimating–nascence’ induces (as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence’) ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ (so-reflected in mere-formulaicity as to mere-formulaic methodologising/mutualising/organising/institutionalising implied prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation)

It is herein contended that the veracity of human intelligibility for ontologisation is of necessity (given human limited-mentation-capacity) ‘epistemic-totalisingly educing as from human supererogation’ as so-reflected in the very incipient ‘<supererogatory–human-subpotency>—effecting imbued epistemic-totalising preformulating/preframing/premeaningfulness of notional–originariness-parrhesia,—as–spontaneity-of-aestheticisation’ as of human self-reflexive–instigative-eventuating–(as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,—preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidation); with the implication that a human mental-reflex of ‘formulaic ruling and rule-making as to apriorising/axiomatising/referencing’ is ever always of wanting ontological-veracity in need for ‘corrective human profound-supererogation’ imbuing human limited-mentation-capacity-deepening’. In other words human ‘potential of profound-supererogation’ (as corrective potentiality of human limited-mentation-capacity) is veridically what carries an abstract equivalence association/relation with existence’s inherent ontological-normalcy/postconvergence (and so rather than any human limited-mentation-capacity educing mere-formulaicity which rather induces ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’). But then, all social-setups ‘as specifically instantiated social-constructs of human intelligibility’, are wedded whether as of relatively shallow-supererogation or relatively profound-supererogation (as to living-development–as-
to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ) to ‘their given mere-formulaicity as to mere-formulaic methodologising/mutualising/organising/institutionalising implied prior secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ for their ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’ so-reflected in their existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) with their ontological-performance—<including-virtue-as-ontology> so-thresholding between their given ‘second-level human-subpotency driven self-referencing-syncretising human-existential-tautology as to desublimating derivation of intelligibility’ and their given ‘first-level existence-potency driven self-referencing-syncretising human-existential-tautology as to sublimating derivation of intelligibility’. Hence registry-worldviews/dimensions ‘self-referencing-syncretising forward-facing projection of mere-formulaicity’ speaks to their inclination for ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction’ that will formatively drift into prospective disontologisation over prospective ontologisation/re-ontologisation; with the ultimate notional~deprocrypticism aporeticism overcoming/unovercoming cognisance and implication that ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ is inevitably given as to a mere-formulaicity relation to intelligibility, thus requiring a deprocrypticism ‘rehabilitated conceptualisation of human purposeful profound-supererogation’ together with ‘rehabilitated conscious reflexion about the inherent prospective deficiency in mere-formulaicity of human intelligibility’ (rather than a convenience-seeking defaulting individual and social mental-reflex into mere-formulaicity as to elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity”). In this regards, human ‘fundamental ontologising/disontologising confliction’ (with regards to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’) undermines the notion that human social-setups are in ‘an absolute ontologising predisposition of sublimating–existentialising–decisionality relation with inherent existence sublimating–nascence’ (as is wrongly projected by presencing—absolutising-identitive-constitutedness\(^1\) social-vestedness/normativity-<discretely-implied-functionalism>) and manifest a disontologising disposition at prospective uninstitutionalised-threshold\(^2\), and so even as ‘counterintuitively we may think as from our positivism/rational-empiricism registry-worldview/dimension that we are naturally predisposed to relate to the dementating/structuring/paradigming implications of prospective true knowledge in terms of their veridical entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness’ without a disontologising disposition; but then the ‘fundamental ontologising/disontologising confliction’ (as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology\(^3\)) rather arises as of ‘a prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> change in knowledge-reification gesturing’ (as we can appreciate that the state of recurrent-utter-uninstitutionalisation construed of its non-rules—apriorising/axiomatising/referencing–psychologism knowledge disposition in terms of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^4\) but for the prospective base-institutionalisation change in knowledge-reification\(^5\) gesturing for prospective ontologisation/re-ontologisation as to rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism which highlighted the uninstitutionalised-threshold\(^6\) of recurrent-utter-uninstitutionalisation at which point it is of a

The implication of this human ‘fundamental ontologising/disontologising confliction’ (with regards to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’) is that the mental-reflex of ‘a mutual logical coherent engagement’ is only as pertinent when speaking of ‘a common knowledge-reification gesturing as of apriorising/axiomatising/referencing—relation-to-the-world conceptivity/epistemic-reflexivity’ but where prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> intimates a fundamental variance in knowledge-reification gesturing as to relative-ontological-incompleteness by relative-ontological-completeness, then such a supposed ‘a common knowledge-reification gesturing as of

This ‘fundamental ontologising/disontologising confliction’ (as to ‘prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> changing in knowledge-reification gesturing for prospective ontologisation/re-ontologisation’ implications) very much reflects the Socratic-philosophers ‘universalising-idealisation ontologising/re-ontologising’ with respect to Ancient-sophists ‘non-universalising disontologising’, budding-positivists ‘positivism/rational-empiricism ontologising/re-ontologising’ with respect to medieval-scholastics ‘non-positivising disontologising’ and it is herein claimed as well postmodern thought ‘nondisjointing totalising-entailing ontologising/re-ontologising’ (objectifying knowledge conception say with incipient deconstruction or genealogy/archaeology as to such explicited knowledge-reification gesturing even as other 20th century thinkers expressed varyingly similar notions without expliciting their knowledge-reification gesturing or as herein construed in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process”) with respect to present-day ‘disjointing totalisingly-disentailing—discretion/whim-of-thought disontologising’ (personalising knowledge conception as of institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation). In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the
expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a
globalised framework of totalising-entailing interlocking corporate interests and corporate
welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of
runaway financial and economic disaster and/or state political-economy retrogradadion for non-
compliance) the very possibility for their full-capacity for supererogatory–progressivity while
being well aloof of the public accounting that political actors running states have to fulfill thus
speaking to a most fundamental globalised capitalistic induced democratic-deficit while
relatively disempowered governments are left to pick-up-the-pieces (while de-
mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the
capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to
media-driven impressionable narratives rather than to the protracted implications of the roguish
capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic
international capitalistic system usurpation and undermining of the possibility for social
supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with
the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the
supererogatory–progressivity potential of the global economy presents more opportunities than
the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of
individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic
model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can dementatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their
naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of
socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory-progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation\textsuperscript{96} economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-\textless as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation\textgreater\textendash omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory-progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception
of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/ vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests, -as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ‘presencing—absolutising-identitive-constitutedness’ social-vestedness/normativity-<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supерerogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to ‘presencing—absolutising-identitive-constitutedness’ social-vestedness/normativity-<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S.
there is atleast a critical level of strategic supererogatory–progressivity with local states
definitely adopting incentives-driven approaches of supererogatory–progressivity; all this
speaking from an totalising-entailing perspective analysis of the purist capitalistic model as
poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility
with regards to foundational externalities like education, infrastructure, well thought-out
policies, collective social advancement, etc.). The bigger question that then arises has to do
with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism
and geostrategy/states-competition muddled framework’ that is de-
mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of
supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality
of the very fundamental notion of the capitalistic model speaking of perfect markets do not
exist, and rather ‘markets themselves develop as advantageously created situations after the
facts’ as to the requisite human creative supererogatory–progressivity for a market to even
arise; and in this respect the supposed fittest notion of capitalistic competition as to
punctual/immediate fitness tends to underperform the more advantageous supererogative
contemplative deliberation of markets for critically efficient/optimising resource
allocation/utilisation/development (as to the fact that de-
mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of
markets associated with say German, Japanese, Chinese, South Korean public-policy
supererogatory–progressivity economic models participate in their competitive edge over
‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an
overall deliberative optimalising potential of human supererogatory–progressivity beyond any

The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments\(^c\). singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care–and–episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity<profound-supererogation>-of-mentally-aestheticised-postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness of reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation-(supererogatory—ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity<shallow-supererogation>-of-mentally-aestheticised-preconverging/dementing—qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity<shallow-supererogation>-of-mentally-aestheticised-preconverging/dementing—qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating <amplituding/formative> supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluable-

Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity

dentativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity –<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> analysis, implied as of prospective relative-ontological-completeness –of–reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness –of–reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the –reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical –meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency–sublimating–nascence–disclosed–from–prospective-epistemic-digression–as–of–<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought,—in–supererogatory–epistemic-confatedness ; with such adjusting being construed as of prospective relative-ontological-completeness². But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness–of–reference-of-thought/relative-ontological-completeness–of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of –dementation–(<supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding–or-attributive-dialectics) with regards to the –reference-of-thought transcendence-and-sublimity/sublimation/–supererogatory–de-mentativity. In lieu the poor intuition is to imply that
we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of amplituding/formative—epistemicity totalising—renewing-realisation/re-perception/re-thought in conflatedness, such that this leads to constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of de-mentation—supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics that our human amplituding/formative—epistemicity—totalising/circumscribing/delineating reference-of-thought is transcended for prospective relative-ontological-completeness—of—reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity —shallow—supererogation —of—mentally—aestheticised—preconverging/dementing —qualia-schema}. In this regard, ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity —of—the—human—institutionalisation-process as of difference-conflatedness —as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity ’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology is essentially one of shifting attitude/mental-disposition/care—and—episteme by the successive institutionalisations reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, even though beyond-the-consciousness-awareness-teleology despite human induced bias leads to a wholly immersed-and-engrossed focussing only at its given present institutionalisation’s reference-of-thought ‘present attitude/mental-disposition/care–and–episteme’ as if other retrospective-and-prospective institutionalisations’ reference-of-thought do not have their own attitude/mental-disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is an underlying metaphoricity-induced relative-emancipatory migration from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘ad hoc–and–scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-

with the latter construed as postconverging-or-dialectical-thinking–apriorising-psychologism and the former construed as preconverging-or-dementing–apriorising-psychologism. Thus a registry-worldview/dimension institutionalisation ‘reference-of-thought always operates as if it is the absolute framework of meaningfulness-and-teleology’, that is, by its ‘interiorisation attitude/mental-disposition/care–and–episteme’, notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness–of reference-of-thought at its uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension institutionalisation ‘reference-of-thought in an ‘exteriorisation attitude/mental-disposition/care–and–episteme’ towards it. Consider in this regard the ontologically-veridical reflected immersed-and-engrossed attitude/mental-disposition/care–and–episteme with respect to the ‘ill-health <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ wherein the ‘to be or existing as wholly immersed-and-engrossed’ recurrent-utter-uninstitutionalisation existential-contextualising-contiguity–lowest-level-reification perceptivity-as-of-bad-omen attitude/mental-disposition/care–and–episteme could involve a conversational stance of the sort, ‘I have been stricken by a spirit’, in an effusive-conversational-as-of-existential articulating of what can be done to allay such a spirit; or with respect to our positivism–procrypticism, in an effusive-conversational-as-of-existential articulating of a clinical analysis mainly as a patient ill-health state; or with respect to prospective postmodernism, in an effusive-conversational-as-of-existential articulating of associated socio-economic and socio-

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness /ontological-aesthetic-tracing-

That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–‘devolving’ ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–‘devolving’, singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>, points out that dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance <-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation/epistemic-
immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascent(as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-‘devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. This reality of the need to construe of human-subpotency ontological-performance<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-mentating/structuring/paradigming singularisation/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence.
with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation /epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such
notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity\superscript{13} knowledge-reification\superscript{38} that determines science practice, and so in existential conflatedness\superscript{12}. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ’supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying

This fundamentally points out that at uninstitutionalised-threshold^102, human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existential-contextualising-contiguity’-in-reification’ suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-performance^71^-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating~nascence-as-of-its-coherence/contiguity’ for prospective institutionalisation as of difference-conflatedness^12-as-to-totalitative-reification^17-in-singularisation^1-as-veridical-epistemic-determinism^1 protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process^15-so-construed-as-singularisation^7/epistemic-immanence/veridical-epistemic-determinism’; since this potential for such singularisation^27/epistemic-immanence/veridical-epistemic-determinism is denaturing^32 as of identitive-constitutedness-as-‘epistemic-totality’-dereification^36-in-dissingularisation-as-flawed-epistemic-determinism^48-as-cloistered-within-the-same^59 reference-of-thought at its uninstitutionalised-threshold^82. We can appreciate that with regards to ‘the very same ill-health <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human-subpotency ontological-performance^-<including-virtue-as-ontology> of prior perceptivities as successive uninstitutionalised-threshold^52 are rather in ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity ’-in-reification’ (by their identitive-constitutedness^11-as-‘epistemic-totality’-dereification^36-in-dissingularisation-as-flawed-epistemic-determinism^48-as-cloistered-within-the-same- reference-of-thought), as

The notion of human 'excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity -in-reification' can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to 'the very same physics amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality', the perceptivity of 'traditional classical mechanics axiomatic-construct' had rather been in 'excogitative-blanking of the prospective construal of existential-contextualising-contiguity -in-reification', reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness reflects the former’s prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-dementing apriorising-psychologism. This insight about human 'excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity -in-reification' at uninstitutionalised-threshold actually highlights that from a prospective perspective of prospective relative-ontological-completeness of reference-of-thought our positivism—procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, 'when we seem to perceive-and-think that our social world of meaningfulness-and-teleology is coherent, failing to factor in that it is preconverging-or-dementing apriorising-psychologism at its uninstitutionalised-threshold as reflected as

Such ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity-reification, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its

But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold\textsuperscript{4} but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance\textsuperscript{5} as <amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification\textsuperscript{6}/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{7}–narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{8}) of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that supersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, \textsuperscript{9}universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness\textsuperscript{10}/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism\textsuperscript{11}> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that

That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective relative-ontological-completeness-of-reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of-reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening) that can imply human-subpotency ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation /epistemic-immanence/veridical-epistemic-determinism ontological-performance-<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology in notional–conflatedness as of ontological-normalcy/postconvergence (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment–(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so as to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility–<imbued-and–hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—atheisticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, as utterly different from a traditional conception of teleology as of dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism that is rather in constitutedness as it reflects prior relative-ontological-

teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology varies as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought; for instance with regards to the very same immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human amplituding/teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness reference-of-thought despite the existential-contextualising-contiguity knowledge-reification ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness reference-of-thought. The implication here is that the social-construct has ever always been a threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold\textsuperscript{102}; wherein respectively there is positive-opportunism\textsuperscript{75} for prior institutionalisation and no positive-opportunism\textsuperscript{75} for prospective
human individuation quality that avails potentially to all individuals as temporal-to-intemporal-individuations-receptacles but as of existential-constraint of ontological-performance—<including-virtue-as-ontology> has not hitherto been de-mentatively/structurally/paradigmatically defining of ontological-contiguity—even of-the-human-institutionalisation-process even as it has rather been instigative as of a re-originary-as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/epistemic-projection-in-conflatedness -‘of-notional–deprocrypticism-prospective-sublimation) human intemporal-disposition. The basis for this ‘human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification’, is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance—<including-virtue-as-ontology> given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold’ as of ‘no positive-opportunism for prospective institutionalisation’ is a threshold at which there is a de-mentative/structural/paradigmatic lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of uninstitutionalised-threshold dereification threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification —<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity. further explains why vague classification schemes of value like good-naturedness, kindness,

As this reification\textsuperscript{67}/dereification\textsuperscript{46} of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of \textsuperscript{10}universal-transparency\textsuperscript{104}- (transparency-of-totalising-entailing, -as-to-entailing -<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{85}). The idea of ontological-bad-faith/inauthenticity\textsuperscript{6} raised herein by this
author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating—

supererogatory—de-mentativity/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness-of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter
wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied
transcendental knowledge as of prospective relative-ontological-completeness\(^{-}\)-of-\(^{\text{reference-of-thought}}\); and in due course, by its ontological-primemovers-totalitative-framework\(^{\text{constraint}}\) constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-unenframed/unbeholdening/outlier-conceptualisation\(^{\text{⟨imbued-postconverging/dialectical-thinking⟩}}\)^{-}-projective-insights/epistemic-projection-in-conflatedness\(^{-}\)-of-notional-deprocrypticism-prospective-sublimation\(^{-}\)} potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness\(^{-}\)-of-\(^{\text{reference-of-thought}}\) with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{-}\)}, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\(^{-}\) constraint as of ontological-primemovers-totalitative-framework\(^{-}\) for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intelectulation but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\(^{-}\)-of-\(^{\text{reference-of-thought}}\) naïve non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{-}\)}, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is
rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of ‘meaningfulness-and-teleology’\textsuperscript{55}. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\textsuperscript{59} transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing\textsuperscript{15} mortals that we are for our prospective emancipation. Without an insight about reification\textsuperscript{55} and dereification\textsuperscript{86}, the notion of singularisation\textsuperscript{92}/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology\textsuperscript{99} is easily misconstrued since denaturing\textsuperscript{15} of meaning in dereification\textsuperscript{86} will be teleologically-elevated and meaning produced as of reification\textsuperscript{86} will be teleologically-degraded; as so blatantly obvious particularly with the dereification\textsuperscript{86} manifestation of childhood psychopathy postlogism \textsuperscript{-slantedness} but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance\textsuperscript{71}<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{99} reflecting dereified and reified construals of existential-contextualising-contiguity\textsuperscript{38} is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal
mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance--<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding-formative–epistemicity>totalising–devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism -slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology’ as-
of-prospective-relative-ontological-completeness -postconverging-or-dialectical-thinking – apriorising-psychologism and as-of-prior-relative-ontological-incompleteness -preconverging-or-dementing –apriorising-psychologism respectively; it is only ontologically-veridical difference-conflatedness -as-to-totalitative-reification -in-singularisation -as-veridical-

Note that on the imaginary supposition that no such prospectively projected ‘notional—singularisation\(^7\)/epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying \(^9\) meaningfulness-and-teleology\(^9\)’, mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive-constitutedness\(^6\)-as–‘epistemic-totality\(^3\)-dereification -in-dissingularisation\(^7\)-as-flawed-

But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness -as-‘epistemic-totality’-dereification-in-dissingularisation-as-flawed-epistemic-determinism is in reality preconverging-or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism-procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism—or—disjointedness-as-of- reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism—procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising~devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism social-setup is ‘de-

Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event—or—operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) mental-dispositions as of ‘mutual temporal/shortness-of-register-of—meaningfulness-and-teleology’ eliciting’ construed as ‘intemporal temporality’. Such tendencies are hardly of
the vices-and-impediments of each registry-worldview/dimension in want of its ‘pure-ontology’ virtue resolution as of aetiological/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying de-mentative/structural/paradigmatic ontological implications about our ‘modern take attitude/mental-disposition/care–and–episteme’ reflected by the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ with regards to social-stake-contention-or-confliction changing temporal constraints, temporal ‘meaningfulness-and-teleology’ existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks, are no different to say ‘non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal ‘meaningfulness-and-teleology’ existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks as reflected from ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness –by-reification”/contemplative-distension”, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and are

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold\textsuperscript{i}. Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{b}, as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{a} need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of–<amplituding/formative–epistemicity>totalising–renewing–

mentated/structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of the need for the subversion of its reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the very same non-
positivism/medievalism in need for prospective positivism transcendence-and-
sublimity/sublimation/supererogatory de-mentativity to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology existentialising—

hypperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks; and, hence the ontologically-veridical paradox of the very de-
mentating/structuring/paradigmign implications of human limited-mentation-capacity-
deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon’ constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori”; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional-deprocrypticism of notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural

The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial
supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms—as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care—and—episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate
meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness -of- reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness -of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}. Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth,
implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification\textsuperscript{86} of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with \textsuperscript{103}universal-transparency\textsuperscript{104}-\langle\text{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}\rangle. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the \textsuperscript{47}human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme\textsuperscript{5}. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{82} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{99} as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity\textsuperscript{97}-\langle\text{shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema}\rangle. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘\textsuperscript{103}universal projection implications attitude/mental-disposition/care–and–episteme event –or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms
has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human <amplitude-formative-epistemicity>totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-projective-insights/epistemic-projection-in-conflatedness-of-notional-deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-
or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism<amplituding/formative–epistemicity>causality—as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness—of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology due to ‘lack of social universal-transparency’<transparency-of-totalising-entailing,-as-to-entailing<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness’). In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness—of—reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a
sense of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of—meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued—underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as—intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency—sublimating—nascence—disclosed-from-prospective—epistemic-digression-as-of—<amplituding/formative—epistemicity>totalising—renewing—realisation/re-perception/re—thought,—in—supererogatory—epistemic-conflicatedness; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale,
etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as \textsuperscript{79}presencing—absolutising-identitive-constitutedness\textsuperscript{13} enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs constitutedness\textsuperscript{13}, but rather it is by conflatedness\textsuperscript{12} with regards to ‘the very same physics $<$amplituding/formative–epistemicity$>$totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of \textsuperscript{77}nonpresencing-$<$perspective–ontological-normalcy/postconvergence$. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{77} individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework\textsuperscript{72} tendential validation as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression-as-of-$<$amplituding/formative–epistemicity$>$totalising–renewing-realisation/re-perception/re-thought,-in-supererogatory–epistemic-conflatedness\textsuperscript{12}. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our \textsuperscript{5}neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening\textsuperscript{2} analysis; and insightfully, as reflected in the underlying conflatedness\textsuperscript{12} of accreting-substitutive-subsumption-as-futural-
différance-freeplay, sublimation is achieved rather out of the notional obviating of human
temporal-as-non-ontological neuterising with deneuterising —referentialism and with
correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-
teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity
implications, and so as of protensive-consciousness of notional—deprocripticism
perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance
as of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is necessarily
construed ontologically as of a rearticulated protractedness as futural différance that coincides-
and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness
of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of
inherent spontaneous identification and occurrence of decisional act’ but that decidability in
enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is as of an
‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-
capacity-deepening process. Thus sublimation is equally reflected in the deliberateness
involved in cultivating artistic, educational, technical or research capabilities/skill in the final
outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to
deepen itself; and this translates into human contemplation of the existential-possibilities
attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central
ontological insight attached to différance as ‘a contiguously theoretical and operant
phenomenological construct involving necessarily the deliberateness as of Derridean freplay
différance, as a putting into question exercise, and subject to ontological-primemovers-
totalitative-framework validation before attaining defining-transcendence and defining-
sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific
and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well
beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-
decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflicatedness so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting-conviction-as-to-profound-supererogation — postconverging/dialectical-thinking—apriorising-psychologism deference to the prescience of existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-as-of-amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought-in-supererogatory-epistemic-conflicatedness over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness of reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness of reference-of-thought, and so by maximaliing-recomposing amplituding-formative-epistemicity-totalising-renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation,
universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality\(^\text{as-of-neuterisation}\) /relative-ontological-incompleteness\(^\text{as-existing-extrication-as-of-existential-unthought}\). In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension \(^\text{reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension \(^\text{reference-of-thought in prior relative-ontological-incompleteness}\), even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency’\(^\text{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness}\)’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\(^\text{reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay}\) comes into terms with both \(^\text{presencing—absolutising-identitive-constitutedness}\) and nonpresencing–<perspective–ontological-normalcy/postconvergence> on
the basis of the prospective relative-ontological-completeness\textsuperscript{10} of the latter over the prior relative-ontological-incompleteness\textsuperscript{11} of notional-discontiguity/epistemic-discontiguity\textsuperscript{12} -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather ‘difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{13}’ between 
presencing—absolutising-identitive-constitutedness\textsuperscript{13} and nonpresencing-<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness’ notional-contiguity/epistemic-contiguity\textsuperscript{12}’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic ‘meaningfulness-and-teleology\textsuperscript{16}’ grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation \textsuperscript{5} ‘meaningfulness-and-teleology\textsuperscript{16}’ without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp
universalisation ‘meaningfulness-and-teleology’ without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic ‘meaningfulness-and-teleology’ without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness ‘of’ reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency’
transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising--in-relative-ontological-completeness}’ such charlatanism is exposed for what it really is, explaining the paniciness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of \(\text{de-mentation-}(\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics})\) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising/ontological-discontinuity, underscore at once ‘boths as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring--<as-to-postconverging-or-dialectical-thinking/>–apriorising-psychologism> of the consciousness in ontological-contiguity/relative-ontological-completeness -of- reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring--<as-to-preconverging-or-dementing –apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity/<shallow-supererogation/>–of-mentally-aestheticised–preconverging/dementing –qualia-schema>/relative-ontological-incompleteness/of- reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation, and not incrementalism-in-relative-ontological-incompleteness/of—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay-différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-
of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality
involving human mental-disposition successive apriorising/axiomatising/referencing
reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-
deepening(7); overriding the idea that the perspective/framing/reference/horizon of
contemplation is absolutely given-and-determined as of the implication that all
meaningfulness-and-teleology(9) should be as of ‘difference-in-kind/difference-in-
aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-
nature/difference-in-apriorising-or-axiomatising(23) as of prospective relative-ontological-
completeness -of- reference-of-thought bringing about transcendence-and-
sublimity/sublimation/supereogatory-de-mentativity as of ‘nonpresencing-<perspective-
ontological-normalcy/postconvergence>. Thus such a phenomenology associated with
accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the
‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation.
Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with
‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-
quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in
prior relative-ontological-incompleteness(8) and prospective relative-ontological-completeness(7),
with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same
physics <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a
‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-
nature/difference-in-apriorising-or-axiomatising(7); with human-subpotency aligning towards the
full potency of existence which thus divulges the possibility of human sublimation as of the
physics science implications today. It is interesting to note that the difference-in-
nature/difference-in-apriorising-or-axiomatising\textsuperscript{22} bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/supersublimate\textsuperscript{23} of ‘nonpresencing-\langle\textit{perspective-ontological-normalcy/postconvergence}\rangle$. In other words, human consciousness tends to be constraint to its \langle\textit{amplituding/formative–epistemicity}\rangle totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} mental-disposition as of ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13}’. But existence/ontology’s-directedness-as-Being as of ‘nonpresencing-\langle\textit{perspective–ontological-normalcy/postconvergence}\rangle is beyond and not constraint by human consciousness as of its \langle\textit{amplituding/formative–epistemicity}\rangle totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supersupersublimate\textsuperscript{23} as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence-\langle\textit{implicitied-‘nondescript/ignorable–void }\textit{as-to-}\textit{presencing—absolutising-identitive-constitutedness}\rangle of any given \langle\textit{amplituding/formative–epistemicity}\rangle totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{22} from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising\textsuperscript{22} posture; such that humankind then overlooks ‘presencing—
and re-projects/re-anticipates nonpresencing-
<perspective–ontological-normalcy/postconvergence> enabling human transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity as highlighted
herein is actually construed as of ‘its natural ontology implications’, and this natural ontological
notion of metaphoricity is construed herein as superseding-and-englobing all other
differentiated adjunctive significations including conventional figures-of-speech.
metaphoricity as such simply refers to signification adjunctiveness to ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ as of both the meaningfulness-and-teleology implications to the so-
renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’. metaphoricity is very much a mirroring of existential ‘syncretising-
effecting’ going by the latter’s existential implications on ‘human underlying self-referencing
meaningfulness-and-teleology as an epistemic-totalising/circular construal’. This
‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated
existentially with syncretising-effecting as mirrored in metaphoricity arises because of human
limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
mentation-capacity as of growing certitude from the opening up of nonpresencing-
<perspective–ontological-normalcy/postconvergence> by human re-projection/re-anticipation
ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-
totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human
meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-as-to-
prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism \(^{55}\) meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence–(implicit-epistemic-veracity-of–nonpresencing–perspective–ontological-normalcy/postconvergence–)–or–transcendental-reasoning-of-event–as–prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology\(^{99}\) we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojective/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a
quasi psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing cumulative complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/superrerogatory-dementativity implications, and by not
appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>), such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-postconverging-or-dialectical-thinking–apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-
incompleteness\textsuperscript{83}-of- reference-of-thought-preconverging-or-dementing\textsuperscript{12}–apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology\textsuperscript{83} while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology\textsuperscript{99}, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{67} retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality\textsuperscript{51}’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{99}. As ultimately, it is the prospective relative-ontological-completeness -of- reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{105} as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity\textsuperscript{63} can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivistic
social-setup ‘lack of social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟨amplituding/formative–epistemicity⟩totalising~in-relative-ontological-completeness ⟩’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive ⟨amplituding/formative⟩wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical
publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—<-in-dimensionality-of-desublimating-lack-of—<amplituding-formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/ transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional~knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation—dementating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-(implicated-epistemic-
veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>) will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought over a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/ reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness of reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différance as of nonpresencing-<perspective–ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as
simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différence-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting—as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> of our supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument ) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with
the latter construed by this author as ‘not founded-on-and-constrained-by ontological- 
veridicality/intrinsic-reality as of ontological-prime movers-totalitative-framework’ , but rather 
dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-
operant entailing framework of ontological-contiguity’ as herein implied by this author with 
‘the ontological-contiguity —of-the-human-institutionalisation-process’ congruent,-cogent-
and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-
mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture 
reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, 
a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-
gesture reification for perspective and insight, given the problematic of human limited-
mentation-capacity that itself needs to be factored in and thus actually strengthen the human 
thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, 
such an internal-dialectics/différance is what explains the ontological-contiguity —of-the-
human-institutionalisation-process as of Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-
and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of 
suprastructuralism as of postmodernism with respect to modernism. This internal-
dialectics/différance as of successive transcendence-and-
sublimity/sublimation/supercerogatory—de-mentativity is behind the respective registry-
worldviews/dimensions as of their given reference-of-thought specific neuterising as well as 
the ultimate deneuterising —referentialism of deprocrypticism. But then ontological-bad-
faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—
(transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—
epistemicity>totalising—in-relative-ontological-completeness’) as of a cynicism of 
institutional-being-and-craft. The transcendental implications of a registry-
worldview/dimension of thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional--referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicus, Galileo and Diderot of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness—of—reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>). Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given
that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly
takes a back seat, with intellectual postures increasingly defended with non-intellectualism
obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests
itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others
works, as there are little common stakes for breakthroughs but rather the stakes are increasingly
of institutions academic visibility and tenure with emphasis on likeminded networks and
forums driven increasingly by influence than carefree universal intellectual curiosity.
Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to
social and economic interests undermining its obligation for enabling social clairvoyance, with
a resultant sense of socioeconomic and socio-political impotence as such a blurriness is
increasingly undermining the relevance of intellectualism in its public discourse and
enlightenment mission. Ultimately, the epistemic and de-mentating/structuring/paradigming of
academic institutional setups are not dissociated from the effective possibility for
transcendental-enabling/sublimating/superceratory—notification, especially as such
breakthroughs require the spontaneity of Dionysian arrangements. This author’s construes of

<in-existential-extrication-as-of-existential-unthought>, and so elucidated from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-confalatedness’ protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of ‘meaningfulness-and-teleology’ as of notional–deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising —referentialism, in lieu of neutering. Thus this notion of human limited-mentation-capacity as the basis of diﬀérence/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness’ consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of ‘neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridity or teleological degradation-as-of-failing-ontological-veridity respectively either as of conflatedness or destructuring respectively. This overall disparateness-of-ontologically-construed-social-reality dynamism is reflected in ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ as of their neuterising: wherein recurrent-utter-uninstitutionalisation has the deepest reference-of-thought/de-mentative/structural/paradigmatic as ‘impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness consciousness flawed conceptualisation perspective’ neuterising by its trepidatious-consciousness, while on the other extreme in

disparateness-of-ontologically-construed-social-reality dynamism comes down to the
limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection
of ‘this organic-knowledge underlying mental-disposition as of Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology rather defectively as of mechanical-

disparateness is increasingly closed-down all along in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process from recurrent-utter-uninstitutionalisation to positivism–
procrypticism, with the underlying tenet for achieving futural Being-development/ontological-
meaningfulness-and-teleology as of prospective notional–deprocrypticism as preempting—
disjointedness-as-of- reference-of-thought being a full and cogent reflection of ‘human

Overall, such a notional—confoundedness reference-of-thought/dementative/structural/paradigmatic—ontological-performance—<including-virtue-as-ontology> ‘performance-construct of candidity/candour-capacity’ can be garnered as of metaphysics-of-absence—(implicated-epistemic-veracity-of- nonpresencing—<perspective—ontological-normalcy/postconvergence>) wherein across the successive registry-worldviews/dimensions a notional—deprocripticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness reference-of-thought that underlies reference-of-thought/dementative/structural/paradigmatic—ontological-performance—<including-virtue-as-ontology> as a wholly internal process of confoundedness, highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing—deprojections-in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of—meaningfulness-and-teleology and the latter in relative shortness-of-register-of—meaningfulness-and-teleology /distractiveness’ that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This speaks of the very nature of all threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—preconverging/dementing—apriorising-psychologism with regards to the limits of a registry-worldview’s/dimension’s institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the ununinstitutionalised-threshold of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence-{implicated-‘nondescript/ignore−void ’-as-to-’ presencing—absolutising-identitive-constitutedness ’}): illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional~projective-perspective, it is ‘preconverging-or-dementing’—apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating/supererogatory—dementativity)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-

However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism’). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to ‘meaningfulness-and-teleology’ whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding ‘meaningfulness-and-teleology’. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence-{implicited–nondescript/ignorable–void –as-to- presencing—absolutising-identitive-constitutedness }) and goes on articulating ‘meaningfulness-and-teleology’ even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension.
