Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\(^\text{15}\) \(<\text{amplituding/formative}>\) wooden-language-(imbued—temporal—mere-form/virtualities/dereification\(^\text{9}\)/akrasiatic-drag/denatured/preconverging-or-dementing\(^\text{10}\)—narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^\text{17}\)) stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification\(^\text{27}\) of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating\(^\text{11}\) \(<\text{amplituding/formative}>\) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-

This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing→\textsuperscript{amplituding/formative–epistemicity}\textsuperscript{totalising~in-relative-ontological-completeness \textsuperscript{7}}) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-
deficient-reflexivity of our <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology) it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications>); with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in
dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>) as this only leads to a destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance ~<including-virtue-as-ontology> habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity ~ rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity' inclinations that poorly appreciate existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence<-in-dimensionality-of-desublimating-lack-of ~<amplituding/formative>supererogatory de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> whether by mystifications-outside-existential-contextualising-contiguity -that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness -

This then provides paradoxically the underlying \textsuperscript{9}meaningfulness-and-teleology\textsuperscript{10} infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious demeanative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification\textsuperscript{7} as to existence-potency\textsuperscript{8}—sublimating–nascence,-disclosed-from-prospective-epistemic-digression or the critical analysis of such knowledge-reification\textsuperscript{16} but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification\textsuperscript{17} pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve
mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology<br/>&lt;in-existential-extrication-as-of-existential-unthought&gt;) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness’

⟨sublimating–referencing/registering/decisioning–as-self-becoming/self-conflatedness /formative–supererogating-&lt;projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence&gt;) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming–psychologism’ as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutising-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn’t fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification’ implications as of existential-reality’).

We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without
questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness) of the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is $7 \text{ m/s}^2$ to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-
The fact is knowledge-reification is of ‘existential totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening’ and nothing can be construed in totalisingly—disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression over our human-subpotency motives, the same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency—aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sUBLImity/sublimation/supererogatory—de-mentativity as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression implications. The fact is the ‘a priori or axiomatic conception’ is effectively what precedes and validates logic as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, however there is no logical-basis for the ‘a priori or axiomatic conception’ but for ‘its ontological-faith-notion-or-ontological-fideism—imbued-

(In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing meaningfulness-and-teleology pretense of being as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ is effectively central to all prospective institutionalisations in relative-ontological-completeness as reflected with the Socratic philosophers putting in question the apriorising/axiomatising/referencing of non-universalising sophists specifically with Socrates during his trial as to his highlighting of the inconsistencies of his accusers sophistic non-universalising apriorising arguments priorly

work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency\textsuperscript{38}--sublimating--nascence, disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency\textsuperscript{38}--sublimating--nascence, disclosed-from-prospective-epistemic-digression over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure\textsuperscript{\langle as-to-\textsuperscript{46} historiality/ontological-eventfulness \textsuperscript{/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}\rangle}, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s \textsuperscript{\langle amplituding/formative\rangle} wooden-language\textsuperscript{\langle imbued—temporal—mere-form/virtualities/dereification\textsuperscript{/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the-‘reference-of-thought—categorical-imperatives/axioms/registry-teleology’\rangle} with asceticism does exist as has existed throughout sublimating \textsuperscript{‘historiality/ontological-eventfulness \textsuperscript{/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>‘. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification\textsuperscript{87} rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as
superseding existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of—anamnestic-residuality/spirit-drivenness–equalisation> mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a
Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <amplituding/formative–epistemicity>-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology (<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language–(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology) in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersed our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology, and so in transvaluation; as for instance, it can hardly be imagined that the

Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective ‘meaningfulness—and-teleology’ is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives) human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic–as-to—transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’.

our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality

when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species).

The use of ‘human mental-dispositions/individuations’ as of notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal ......................................................................................................................................2732
By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals’

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism’

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversions teleologies of meaning is accounted for

‘an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present treatment of psychology doesn’t recognise

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality de-mentativity/structuring/paradigming

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former

The application of the universal technique of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to procrypticism-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can be basically be articulated as follows (the ontological entrapment)

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’
Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality)

By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature.

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the institutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

Pedestalled disambiguation explains the dynamism of human institutional-cumulation/institutional-recomposure—(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) going by a recurrent emanance/becoming template

There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ (as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation) are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect—<as-Being-or-ontological-or-existential–defect>

Technically, it can be said that the underlying psychopathic phenomenon known as postlogism—as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation is associated with all the institutional-cumulation/institutional-recomposure—(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) by its eliciting of ‘protracted slantedness’ in temporal-dispositions

distractive-alignment-to-reference-of-thought—<of-apriorising/axiomatising/referencing> (mental-slantedness or decandoring-of-the-mind or denaturing, and not soundness-or-ontological-good-faith/authenticity-of-reference-of-thought/candor)

the articulation of reality as referentially of ontological-normalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow

the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft

Memeism as to suprastructural meaningfulness-and-teleology will refer to the projective conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation)

ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’

The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-

‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’)

a ‘referential-as-natural’ conceptualisation of knowledge that consciously tautologically subsumes temporal-dispositions and intemporal-disposition.

mobilising an ‘ontological-tautologisation/existential-reference conceptual-scheme’ (like a hermeneutics-derived psycho-ontological, bio-ontological, econo-ontological, mathematico-ontological, etc.) construed as of ontological-normalcy/postconvergence teleology thus postdictory (as metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-

not allowing for the ‘breaking of the threadedness/thread of ontologically-veridical meaningfulness (as such a breaking induces virtuality-or-ontologically-flawed-construal leading correspondingly to the false uptake as ontologically-veridical of the wrongly implied soundness/non-perverted-reference-of-thought

a traditional approach of analysis of psychopathy (as so construed from this papers totalising-entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery

humans actually come into existence which avows an existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of imbricated-becoming-transitioning within which they come to grasp rules and principles

knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as to ‘intrinsic-reality/ontological-veridicality transcendental enabling’

virtue is a ‘The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ and not ‘impression-driven/good-naturedness/wishfulness construct’ as reality is above all ‘effectivity’ by its manifestation

ascetic intemporal-prioritising/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value.
‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism

‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subjectmatters (or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least afford to be of normal trade

Existence/existential-reality is thus a teleological-contiguity/oneness-of-teleology ‘with teleological-discretion being defined only by epistemic choice/differentiation’

decentering is what divulges all the uninstitutionalised-threshold as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism by maximalising-recomposuring—unenframed-conceptualisation

the idea of pivoting/decentering extends to the notion of the ‘self’s own pivoting/decentering for understanding’

ontological-normalcy/postconvergence points out that paradoxically the transcendental mindset/reference-of-thought associated with a ‘knowledge construct of intrinsic-reality’ should priorly be established (‘centered’ over the prior meaningful-frame which is ‘decentered’) for the knowledge construct to take hold by the continuing ‘moulting’ of its proponents and corresponding social construct

the Social is much more than aggregativity (social-aggregation)

existence is the absolute a priori, the ‘becoming of existence as ecstatic—

where ecstatic-existence manifestation is rather as of an ‘overall

and furthermore such a misnomer as to its metaphysics-of-presence-
(implicitd-'nondescript/ignorable–void–as-to-presencing—

fundamental notion of human underlying ontological-commitment (as

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ ly predisposed human mind’ as of prelogism or prelogism -as-of-conviction,-as-to-profound-supererogation –(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —postconverging/dialectical-thinking —apriorising-psychologism’ or bad prelogism – where the bad logic of the prelogism -as-of-conviction,-as-to-profound-supererogation mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism -as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation –(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its reference-of-thought- devolving-as-of-instantiative-context— meaningfulness-and-teleology construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’. 
i.e. meaning-as-form or pathologically/compulsively hollow-constituting—(as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation), contrasted to the normal prelogism—(as-of-conviction,-as-to-profound-supererogation) minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical—logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation, whether thereafter the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation is rightly or wrongly assumed). Hence prelogism or prelogism—as-of-conviction,-as-to-profound-supererogation is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism—as-of—compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather an issue of perversion-of-reference-of-thought—(as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation), as logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation is on the basis of a sound reference-of-thought (non—perversion-of—reference-of-thought) such that fundamentally ‘the notion of the dueness for logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation’.

Further, the dynamics of such a graduated human consciousness as of notional–conflatedness of notional–deprocrypticism can be reinterpreted operantly as of

‘notional–referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness’ mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology←〈in-existential-extrication-as-of-existential-unthought〉 preconverging-or-dementing→ apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective ‘neuterising construed as of ‘their prior relative-ontological-incompleteness’-of-reference-of-thought of ‘meaningfulness-and-teleology’. ‘Neuterising thus refers to human attribution of ‘meaningfulness-and-teleology’ as of human limited-
mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/dementative/structural/paradigmatic—ontological-performance —<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,—as-of-its-specific-constitutedness 1, and so-construed from the conflatedness 2 of notional~deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived—perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, that is secondnatured as of its prior relative-ontological-incompleteness —of—reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology 00 ontological-performance —<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness —of—reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness —of—reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology 00 relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology 00 neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —— preconverging/dementing —apriorising-psychologism. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology 00 is ‘just about miscued’ say between positivism—procrypticism and notional—deprocrypticism with the latter

incompleteness of reference-of-thought as it is construed in its ontological-veridicality as ‘a deficient derived-construction of ontological-normalcy/relative-ontological-completeness of reference-of-thought’. This insight equally explains why it is ‘through the deficient derived-construction of conflatedness that is construed the ontologically-veridical nature of distinctive-alignment-to reference-of-thought<of-apriorising/axiomatising/referencing> destructuring. Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). The ontological-veridicality of a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ as associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existing-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism'amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’ is one grounded as of de-mentation<supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics> on ‘decentering/pivoting around the uninstitutionalised-threshold rule’ as a remaking of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, pointing out that the prior
social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism–or–disjointedness-as-of-reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the
‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity/ontologically-veridical-meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflicatedness and apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require their ontologically-veridical meaningfulness-and-teleology restoration by a conflatedness as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness-of-reference-of-thought, so-construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of ‘traditional classical mechanics axiomatic-construct’ given its
epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness-of-reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a conflatedness of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising ~renewing-realisation/re-perception/re-thought as of ‘maximalising-recomposing-for-relative-ontological-completeness’—unenframed-conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness-of-reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological
This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which refers to the transcendental-enabling/sublimating/suprerogatory–de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–refferential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–refferential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising -induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–refferential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–refferential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-
induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness which is non-rules—apriorising/axiomatising/referencing–psychologism—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the ⟨warped-consciousness-neuterising-induced⟩-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness; given that
devolving-as-of-instantiative-ontological-performance\textsuperscript{99}–<including-virtue-as-ontology> as of ‘conscious–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{97} as teleologically-degraded’ or ‘naïve-conviction-as-to-profoundsupererogation\textsuperscript{97} as flawed supposedly teleologically-elevated’ relationship with its centered<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\textsuperscript{99} implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{99}. This explains why it is de-
vices-and-impediments\textsuperscript{106} crossgenerationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification\textsuperscript{117} as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying \textsuperscript{8} meaningfulness-and-teleology\textsuperscript{100} implied same/common/shared \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, which then inherently points to the inappropriateness of \textsuperscript{9} logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity\textsuperscript{8}–\textsuperscript{9}<profound-supererogation\textsuperscript{97}–of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious \textsuperscript{9} meaningfulness-and-teleology\textsuperscript{100} centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity–\textsuperscript{9}–\textsuperscript{9}<profound-supererogation\textsuperscript{97}–of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments\textsuperscript{106}. The same applies from a notional~deprocrypticism perspective with regards to a \textsuperscript{8} procrypticism–or–disjointedness-as-of- reference-of-thought mental disposition as an argument seeming to articulate
meaningfulness-and-teleology\textsuperscript{100} in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism—or-disjointedness-as-of-reference-of-thought arises in the first place is in circular <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments\textsuperscript{100} as of that fundamental <amplituding/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology\textsuperscript{100} reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiolagination/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturung such a prospective institutionalisation\textsuperscript{101} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology\textsuperscript{100}’, as of the succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempting—disjointedness-as-of-reference-of-thought, as to–\textsuperscript{111}<amplituding/formative–epistemicity>growth-or-conflatedness/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-
formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-
on-rules—apriorising/axiomatising/referencing—psychologism. Furthermore, within a registry-
worldview/dimension for the disambiguation of notional—firstnatures—temporal-to-
temporal-dispositions—so-construed-as-from-perspective—ontological-
normalcy/postconvergence, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its (given consciousness’s neuterising-induced-or-deneuterising-induced) as reference-of-thought—

The implication here is that with say notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order to construe ontological-veridicality; as of conflatedness we can’t simply imply the presence universalisation non–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness as the basis of instigating logical-dueness for elucidation and thereof construing ontologically-veridical meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-representation of the presence as universalisation non–non-positivism/medievalism uninstitutionalisation will overlook the presence uninstitutionalised-threshold and wrongly represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of elevation/institutionalisation in soundness-or-ontological-good-faith/authenticity–of-reference-of-thought-projection’. Such an approach to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as being incremental to the prior registry-worldview's/dimension's<sup>84</sup> reference-of-thought doesn't undermine/unshackle that prior<sup>84</sup> reference-of-thought with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human—amplituding/formative—

notional-conflatedness for ontological-performance<including-virtue-as-ontology> implication is easily understood as of metaphysics-of-absence-(implicated-epistemic-veracity-of nonpresencing-perspective-ontological-normalcy/postconvergence) when we grasp that a mindset as of a non-positivistic social-setup needs to ‘wean off organically beyond mere mechanical adjustments’ its non-positivism before the notion of ‘a credible logical engagement in terms-as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup’ can be genuinely entertained. In this regard, the budding-positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to avoid the circular problem of their positivism knowledge and science being interpreted in mystical and alchemic terms-as-axiomatic-construct of reference-of-thought-categorical-imperatives/axioms/registry-teleology—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common universal human potential available to all individuals while true is not inherently existentially fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-temporal/mortal-superseding-endeavouring unleashed as of a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation <amplituding/formative-epistemicity>totalising-renewing-realisation/re-perception/re-thought. This explains as of metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence) why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-dementating/structuring/paradigming/teleological-possibilities as of \textit{(warped-or-preclusive-consciousness-neuterising-induced)-reference-of-thought-devolving-teleological-dementating/structuring/paradigming-meaningfulness} as intradimensional existential-instantiations derived/devolved axiomatic-constructs of \textit{meaningfulness-and-teleology} as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-reference-of-thought-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of-reference-of-thought-degraded-devolving-as-of-uninstitutionalised-threshold! This equally explains the \textit{amplituding/formative-epistemicity}totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inherent in our prospective \textit{procrypticism-or-disjointedness-as-of-reference-of-thought uninstitutionalisation}, together with its inherent manifestations of psychopathic postlogism-slantedness and social psychopathy conjugated-postlogism, when construed from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness-of-reference-of-thought, and falling back to construe/conceptualise meaningfulness-and-teleology in non-positivistic animistic or medieval terms—as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived—perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as of unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought. As broadly speaking, a registry-worldview’s/dimension’s reference-of-thought is as of the existential individuations possibilities as to reference-of-thought—prelogism—as-of-conviction—as-to-profound-supererogation and threshold-of—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation — preconverging/dementing—anapriorising-psychologism reflecting the teleological-de-mentating/structuring/paradigmating/teleological-possibilities, established as of its reference-of-thought—and—reference-of-thought—devolving—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue; and it is nevertheless so made-up/bottomlined nihilistically, notwithstanding a prospective registry-worldview’s/dimension’s reference-of-thought that points prospectively to its relative ontologising-deficiency/epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness—reference-of-thought, as it is in the bigger picture de-mentatively/structurally/paradigmatically ‘a lifetime mental and existential investment as of the specific prior relative-ontological-incompleteness—reference-of-thought beyond-the-consciousness-awareness-teleology—
need for prospective relative-ontological-completeness of reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness of reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness of reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, and thus rather implies an de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism axiomatic—

It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions for non–transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional—deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation construed from a succession of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ so implied by an ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ enabling successive prospective relative-ontological-completeness reference-of-thought/ontological-normalcy/postconvergence with respect to human notional limited-mentation-capacity-deepening underlying the institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness⟩/ontological-aesthetic-tracing⟨perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism⟩; such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological conflatedness’, and this is important ‘to avoid unduly considering our whole psychical-nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-presence{(implicit—nondescript/ignoreable—void—as-to—presencing—absolutising-identitive-constitutedness}’, but rather grasp that there are teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency of our mental-projection and mental-disposition as of deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ beyond just what we can imagine as of our presence as positivism–procrypticism. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the prospective relative-ontological-completenessmatch of reference-of-thought of the (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation—existence as the absolute a priori of conceptualisation—and existence as sublimating-withdrawal, eliciting of prospective supererogation, imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology as of ‘operant-or-incidenting-predicative-insights or logical-coherence’ and beyond-the-consciousness-awareness-teleology—<in-existential-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of "reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’
at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded ‘meaningfulness-and-teleology’, and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, and explaining why transcendence-and-sUBLIMITY/sublimation/supererogatory—de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'>} is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence—{implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>} analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective
institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness —of- reference-of-thought of same <amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal—as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/superrerogatory—de-mentativity as of opened-construct-of—meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation but presences in their <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void —with-regards-to-prospective-apriorising-implications>) consider maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as of exceptional-askance and unordinary due to their <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing—apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature
misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory—de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naive by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness—of—reference-of-thought, as of the incompleteness of the de-mentating/structuring/paradigming of human—reference-of-thought. Such that a naive categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the de-mentating/structuring/paradigming of human—reference-of-thought; with the consequence that it is not ‘notionally de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s—reifying/elucidating-of-
prospective-relative-ontological-completeness\^{88}-of-\^{34}reference-of-thought--devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising\^{57}~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\^{97}\<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness\^{88}-of-\^{34}reference-of-thought–devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness\^{13} defines the entire existential
possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given amplituding/formative-epistemicity-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory-de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory-de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even
to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking} ‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) originary/event–of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of-reference-of-thought–devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/de-mentative/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework’s interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness rather than striving to expand the transcendental-
enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory—de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory—de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously
undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology<sup>100</sup>-<in-existent-extrication-as-of-existential-unthought>⁹⁰</sup> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the 
‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-

and so as of the maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation behind the ontological-contiguity —of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>
imbricatedness/threadedness/recomposuring’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-threshold. Thus, the ontological-veracity as prospective relative-ontological-completeness of reference-of-thought of ‘the axiomatic-

It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy—and—incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness—of—reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-

in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness\textsuperscript{89}-of- reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness\textsuperscript{88}-of- reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{12}’ lies in the fact that the construal/conceptualisation of an epistemic-totalising ~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology\textsuperscript{100} and the inherent ontological-veracity/intrinsicness of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness\textsuperscript{88}-of- reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{12}. Since there is no direct correspondence between relative-ontological-incompleteness\textsuperscript{89}-of- reference-of-thought/epistemic-abnormalcy/preconvergence/destructuring with the inherent intrinsicness of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness\textsuperscript{88}-of- reference-of-thought/ontological-normalcy/conflatedness\textsuperscript{12} which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-
incompleteness\textsuperscript{89}-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructured can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism\textsuperscript{78} and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology\textsuperscript{60}-<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness\textsuperscript{11} and as relatively-perfect/near-perfect/perfect conflatedness\textsuperscript{11}, construed as notional-conflatedness\textsuperscript{11} as of constitutedness\textsuperscript{11}-to-conflatedness\textsuperscript{11} of human limited-mentation-capacity. Insightfully, it highlights that constitutedness\textsuperscript{11} arises as of human limited-mentation-

that further expands human grasp of the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,—as-of-their-specific-constitutedness induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,—as-of-conflatedness meaningfulness-and-teleology. That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in
its referencing of conflatedness, with no intermediate construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meanings-and-teleology. This ultimately points to the centrality of the implications of the ‘notion of limited-mentation-capacity’ as of its notional—deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meanings-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meanings-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of—reference-of-thought perspective of notional—deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally
underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness 3 protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness 3 consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of 3 neuterising.

Derridean critique of centered–epistemic-totalisation as impossible to achieve and postulation
instead of decentered-infinite-freeplay is actually a critique arising on the implied assumption
of finite human limited-mentation-capacity as of its impossibility as finitely limited to come
into the full terms of grasping the full potency of existence/existential-possibilities; but then this
author construes that human limited-mentation-capacity is not finite as it deepens as of the
possibility of transcendence-and-sublimity/sublimation/superoerogatory–de-mentativity enabled
as of de-mentation-{superoerogatory–ontological–de-mentation-or-dialectical–de-mentation—

the attainment of notional–deprocrypticism ‘centered–epistemic-totalisation circularity of

<including-virtue-as-ontology>; given that the ‘succession of institutionalisation

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a
conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of
meaningfulness-and-teleology of theoretically perfect/sound ontological-performance’—
<including-virtue-as-ontology>, as implied by this author’s notion of ontological-
normalcy/postconvergence, operantly displays the philosophical tradition problem of
constitutedness as failing to project of the transformational implications of human limited-

For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology\(^{30}\) of ‘the very same physics <amplituding/formative–epistemicity> totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness of less ontological-performance <including-virtue-as-ontology> of ‘the very
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology>
has been as of our positivism–procrypticism registry-worldview’s/dimension’s ‘reference-of-thought-as-of-reference-of-thought—devolving-teleological-demtating/structuring/paradigming–of-meaningfulness’ horison and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory–of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>, as of beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation ‘reference-of-thought/de-mentative/structural/paradigmatic implied transformation/shift as transcendence-and-sublimity/sublimation/supererogatory–dementativity as of prospective relative-ontological-completeness reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate crossgenerational
collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-formative-epistemicity-totalising-in-relative-ontological-completeness) as of prospective relative-ontological-completeness-reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-(shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema) in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity-as-of-conflatedness, and so as of the very same totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-
ontological-performance -<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to ‘reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or <amplitunding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/’reference-of-thought’, as the axiomatic-construct/ reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation -<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-
notions/articulations/virtue, with increasing ontological-performance—<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an
exercise of mathematical formalisation. The fact is that mathematics have always been
developed implicitly or explicitly in association with or inspired from the context/existential-
contextualising-contiguity\(^{39}\) of other applied and transcendental-
enabling/sublimating/supererogatory--de-mentativity activities as of their axiomatic-constructs
development and mathematics very own existential-reality of developed axiomatic-constructs
applicative orientation, including developing together with heavily dependent mathematics
domains like physics, engineering, other applied sciences and statistical studies. This latter
situation which is more real than generally said and makes of mathematics ‘a
<amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-
intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and
more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers
and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking
cue from the formalisation of mathematics as if it will enable the inherent transcendental-
enabling/sublimating/supererogatory--de-mentativity of any discipline is bound to lead to
disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of
the existential domain in question have to be critically developed as of existential-
contextualising-contiguity\(^{39}\) knowledge-reification\(^{1}\) for logic and mathematics to then be
relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly
mathematical proof’ (over and above any formal mathematical proof) is rather about
sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-
demonstrable in the occurrence of existential phenomena/manifestations; even as such a
mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest
veracity of mathematics is often for all practical purposes mostly overlooked by
mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to
the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is
so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> with regards to the ontological-contiguity of existence) is not priory subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal
supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative
supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest-subpotencies—<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> given ‘human corresponding-sublimation-inducing,-profound-and-creative
supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory-de-mentativity of the physics <amplituding/formative-epistemicity>totalising—devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory~de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory~de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory~de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory~de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension ‘reference-of-thought-as-of‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of
their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-\langle implicitepistemic-veracity-of-nonpresencing-\langle perspective–ontological-normalcy/postconvergence \rangle \rangle \text{that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology\textsuperscript{100}.} The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \textsuperscript{8}reference-of-thought-as-of-\textsuperscript{8}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism—or–preempting—disjointedness-as-of–reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence-\langle implicitepistemic-veracity-of-nonpresencing-\langle perspective–ontological-normalcy/postconvergence \rangle \rangle and conflatedness\textsuperscript{12}, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness\textsuperscript{11} construal of meaningfulness-and-teleology\textsuperscript{100} that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated \textsuperscript{8}reference-of-thought, construed as ‘ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–
reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’; for instance, with regards to the relative ontological-contiguity of reference-of-thought implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity of shallow-supererogation-of-mentally-aestheticised–preconverging/dementing –qualia-schema> of reference-of-thought implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing–apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity of shallow-supererogation-of-mentally-aestheticised–preconverging/dementing –qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to ‘reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–
epistemicity>totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory–de-mentativity implications as of human limited-mentation-capacity-deepening, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the ‘maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism’ of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’. Such a logicism disposition is rather in constitutedness and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory–de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’. In the bigger scheme of things, this author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in the conception of meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology as of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reflected by metaphysics-of-absence-{implicated-epistemic-veracity-of-
implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echonesty/existence-in-reverberation/existence-potency/sublimating--nascent,/disclosed-from-prospective-epistemic-digression but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality-to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness <amplituding/formative-epistemicity> causality–as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity as of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual constitutedness possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness’ upholding prospective
coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency

This further explains why there is need for corresponding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be ‘thought through and effectively conceptualised’ with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental—
enabling/sublimating/de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising-purview-of-construal’ or <amplituding/formative–epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in
the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory/de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology>, as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity/contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential
completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation/of-mentally-aestheticised-preconverging/dementing–qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation/of-mentally-aestheticised-preconverging/dementing–qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/supererogatory–de-mentativity brings about prospective relative-ontological-completeness–of-reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking–apriorising-psychologism the prospective institutionalisation’s reference-of-thought-as-of—devolving—

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological \textit{meaningfulness-and-teleology} could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness—of—reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness—of—reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the \textit{amplituding/formative—epistemicity} totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness—of—reference-of-thought conflatedness which will be unintelligible to the prior value construct,
such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory-de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag as social universal-transparency—(transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say
cultural-diffusion’, as ‘syncretising-effecting’ on ‘meaningfulness-and-teleology’ with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered-epistemic-totalisation-facticity of ‘meaningfulness-and-teleology’ within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology’ with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because
human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory-de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-prime-movers-totalitative-framework validation as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression, as re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—⟨imbued-postconverging/dialectical-thinking ‘-‘projective-insights’/epistemic-projection-in-conflatedness ‘-of-notional—deprocrypticism-prospective-sublimation⟩, that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any
given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative—epistemicity)totalising—in-relative-ontological-completeness about such metaphoricity instigative reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and
external metaphoricity\(^1\), also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\(^2\) that is subject to existence-potency\(^3\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework\(^4\). As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment\(^6\) threshold of a social-setup meaningfulness-and-teleology\(^10\) allows for the possibility for prospective metaphoricity\(^5\) to reconstrue-and-redefine the social-setup meaningfulness-and-teleology\(^10\). Such prospective metaphoricity\(^5\) possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology\(^10\) needs this supposedly coherent ontological-commitment\(^6\) in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology\(^10\) that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\(^5\) in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology\(^10\) is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework\(^4\) causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\(^6\) as of the social-setup given supposedly coherent ontological-commitment\(^6\). We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment\(^6\) respectively as of superstitious spiritualism meaningfulness-and-teleology\(^10\) or scholasticism pedantic dogmatism meaningfulness-and-teleology\(^10\), as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity’–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-
faith/authenticity as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency sublimating nascence disclosed from prospective epistemic digression epistemic/notional projective perspective of relative-ontological-completeness of reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of ‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications) means that it doesn’t necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its totalising self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to dispensing-with-
immediacy-for-relative-ontological-completeness-by-reification\textsuperscript{8}/contemplative-distension\textsuperscript{6} (as of human self-surpassing—existentialism-form-factor,—in-overcoming—'notionally–collateralising-beholdening-protohumanity’-to—'attain-sublimating-humanity’-as-to-existence-potency\textsuperscript{9}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{10}—as-of—'nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications>}), as of its beyond-the-consciousness-awareness-teleology\textsuperscript{11}—<in-existential-extrication-as-of-existential-unthought> manifestation. The abstract notion of antinihilism as implied by such prospective metaphoricity\textsuperscript{12} is not construed in human temporal terms—as-of-axiomatic-construct as a ‘living notion’ going by an <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} elicitation of value as of untransvaluated—temporal-intemporality\textsuperscript{5}. In this regard, as of the temporal ‘mental and existential investment’ of recurrent-utter-uninstitutionalisation prospective base-institutionalisation antinihilism\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} is basically nothing and worthless, likewise as of the temporal ‘mental and existential investment’ of base-institutionalisation—ununiversalisation prospective \textsuperscript{100} universalisation antinihilism meaningfulness-and-teleology\textsuperscript{100} is basically nothing and worthless, same with \textsuperscript{100} universalisation—non-positivism/medievalism and prospective positivism, and equally so for positivism—procrypticism and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} as of prospective depprocrypticism. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated—temporal-intemporalit\textsuperscript{7}. 
Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment\textsuperscript{6} -disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-\langle in-deferential-formalisation-transference\rangle, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology\langle in-existential-extrication-as-of-existential-unthought\rangle\textsuperscript{9} with respect to prospective metaphoricity\textsuperscript{7} as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of\langle meaningfulness-and-teleology\rangle\textsuperscript{10} as of prospective notional-deprocrypticism metaphoricity\textsuperscript{1} implications are necessarily spurious and associated with our positivism-procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity\textsuperscript{7} implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework\textsuperscript{7}, so long as it is socially and institutionally credible to uphold non-positivism\langle meaningfulness-and-teleology\rangle\textsuperscript{10} in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity\textsuperscript{7} that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we
can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity-of-shallow-supererogation-mentally-aestheticised~preconverging/dementing–qualia-schema> with their prospectively implied metaphoricity; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound

This arises because fundamentally as of notional–correspondence with existence, a registry-worldview’s/dimension’s institutionalisation in prior relative-ontological-incompleteness -of- reference-of-thought meaningfulness-and-teleology\textsuperscript{\textcircled{100}} ontological-performance\textsuperscript{\textcircled{10}}-<including-virtue-as-ontology> is ultimately rather vouching of such a notional–correspondence with existence on the basis of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as transcendentally-
uninstitutionalised-threshold and wrongly degrades the intemporal/longness-of-register-of-meaningfulness-and-teleology mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality denaturing of reference-of-thought-categorical-imperatives/axioms/registry-teleology beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> while the latter is upholding reference-of-thought-categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological–reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness-of-reference-of-thought in intemporal/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-of-reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-
perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological
projection’ and so, as of an uninstitutionalised-threshold and the prospective
institutionalisation; given the variance of temporality /shortness rather as respectively in
recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and
prospectively procrypticism–or–disjointedness-as-of- reference-of-thought with
intemporality /longness rather as respectively in base-institutionalisation, universalisation,
positivism and prospectively deprocrypticism–or–preempting—disjointedness-as-of-
reference-of-thought. The bigger point here being that the very notion of transcendence-and-
sublimity/sublimation/superrogatory–de-mentativity as of conflatedness actually construes of
more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology that
override the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology as
as failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-
preservation’, and so as of differing references-of-thought in transversality–of-affirmative-and-
unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing ontological
unintelligibility. neuterisation of analysis as so articulated is effectively a deficient human
mental-reflex as of its naïve predisposition to imply ‘equivalence of consideration’ without

ontological-completeness–of-reference-of-thought ultimately reflects the fact that the
apparent ordinarily assumed ‘axiomatic commonness-in-sharedness of human

Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality\(^\sim\)of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’\(^1\) of human limited-mentation-capacity in temporal constitutedness\(^1\) mental-reflexes at presence\(^5\) reference-of-thought, and so reflected by the implied intemporal conflatedness\(^2\) of phenomenological transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of notional–deprocrypticism. We can appreciate the metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}\>) insight about such a deneuterising\(^5\) storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)’ to positivistic/rational-empiricism \(^5\) meaningfullness-and-teleology\(^0\) with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfullness as of the latter’s prospective relative-ontological-completeness ‘of- reference-of-thought. ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its

Overall, the fact is that given that what is most relevant to the individual is the practicality as of their "rationalising threads of part-conviction-as-to-profound-supererogation" or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to "meaningfulness-and-teleology" over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology--<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it "credibly" grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of--

rather come to terms with the reality of human limited-mentation-capacity dynamics as of
temporal-to-intemporal mental-dispositions resolved beyond just the notion of "reference-of-

Being as implied as of "deprocryticism–or–preempting—disjointedness-as-of-"reference-of-

ontologising-development-as-infrastructure-of–meaningfulness-and-teleology or Being
underdevelopment is associated with that of the construal of knowledge as organic-knowledge
or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting
possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’

underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a
mechanical-knowledge as of ‘temporal/shortness-of-register-of– meaningfulness-and-
teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that
induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation that is behind organic-knowledge. Human temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology—are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of—meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturuing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness -induced,-‘threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation —preconverging/dementing—apriorising-psychologism’ is in a state of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism / perversion-of- reference-of-thought-<as-

vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that
endemises and enenculturates notions-and-accusations-of-sorcery. It is rather the
crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring
transforming of the non-positivism/medievalism mindset/ reference-of-thought into a
positivistic mindset/ reference-of-thought that is ontologically-speaking to be construed as the
de-mentative/structural/paradigmatic resolution of the vices-and-impediments arising from a
non-positivism/medievalism worldview with respect to such notions-and-accusations-of-

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology as of prospective
notional–deprocrypticism worldview). We can appreciate such metaphysics-of-absence-
implied-epistemic-veracity-of-nonpresencing-perspective–ontological-normalcy/postconvergence insight as of say in a situation of cultural diffusion the
requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping
mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to
individuals, are much more better off equally coming into terms institutionally with the
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding-formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached,
institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturering of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social as improper and unqualified. This was to avoid a circularity of undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by

rather ontological-pertinence, and the point in reflecting holographically—<conjugatively-and-

as of institutional percolation-chanelling. This point is central and critical to the very notion of
society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-

and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-

the reality that society is always subpar to a knowledge social determination as well as subpar
to a sovereignty social determination. This dilemma is unavoidable by the very implications of
a society: every social-setup as a conventional-construct can only be held together in the long-
term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of

possibilities expectations; such that the notions of knowledge and sovereignty can only be
‘socially effective’ within this articulated framework as enabled by ‘social—universal—
transparency^{10}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness)’. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative-epistemicity>totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness –of– reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency^{10}-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness)’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process^{18} as of difference-conflatedness^{12}–as-to-totalitative-reification—in-singularisation^{13}–as-veridical-epistemic-determinism^{4}–<amplituding/formative-epistemicity>causality~as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity^{19}’ associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology{20}. However, all along this ontological-contiguity^{17}—of-the-human-institutionalisation-process^{18} a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology^{20} as of various pertinent social manifestations: –wherein sovereignty is affirm
over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory-de-mentativity in formal institutional percolation-channelling-<in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory-de-mentativity as to existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akastratic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology),—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior

that the social-construct-as-society is not necessarily of immediate receptivity and is of a

explain why the mere articulation of positivism/rational-empiricism—meaningfulness-and-

constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaus, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other
half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting
‘social—universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing-

is the latter that induces that social positive-opportunism for deferential-formalisation-

knowledge as empowering various institutional domains. Further, as implying the superseding

destabilising the underlying existential reference-of-thought, transcendental knowledge is of a
circular but consistent exercise of <amplituding/formative–epistemicity>totalising—renewing—

This can’t be the case because dialogical-equivalence can only arise where there is ‘common \textless reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness–of–reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold\textsuperscript{47} as of prior relative-ontological-incompleteness–of–reference-of-thought, and not such a flawed notion of dialogical-equivalence. reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supercritical de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology~ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology~<in-existential-extrication-as-of-existential-unthought>~denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme~as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology~rather in nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-
sublimity/sublimation/supererogatory/—de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation de-mentating/structuring/paradigming and not temporal extricatory de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme5 underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme5 with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview/s/dimension’s institutionalisation reference-of-thought. attitude/mental-disposition/care–and–episteme as such carries a registry-worldview/s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology. It further implies a ‘the human toddling potential’ for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; with the ‘human toddling potential’ implying the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care–and–

For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. attitude/mental-disposition/care–and–episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme’ as dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity’-to–attain-sublimating-humanity’–as–to–existence-potency ~sublimating–nascence,-disclosed-from-

With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness \textlt-by-reification\textlt/contemplative-distension\textsuperscript{5} as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness \textlt-by-reification\textlt/contemplative-distension\textsuperscript{5} that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness \textlt-by-reification\textlt/contemplative-distension\textsuperscript{5} as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness \textlt-by-reification\textlt/contemplative-distension\textsuperscript{5} is construed as the more profound attitude/mental-disposition/care–and–episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme’ dispensing-with-immediacy-for-relative-ontological-completeness \textlt-by-reification\textlt/contemplative-distension\textsuperscript{5}’, for achieving transcendence-and-sublimity/sublimation/supererogatory~de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^r\) as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness\(^r\)-of-reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness\(^r\)-of-reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme can pertinently be defined as the ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\(^v\)\(^r\) inducing a given specific ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective

This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care—and—episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care—and—episteme5 of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought and thus its corresponding meaningfulness-and-teleology50, and the other doesn’t as of prior relative-ontological-incompleteness7. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity57—of-the-human-institutionalisation-process58, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology59, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework5 induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology10 while averting its denaturing by wrongly implying notional-

This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/superradicality dementativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology\textsuperscript{103}—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{102} prior relative-ontological-incompleteness\textsuperscript{102}—of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology\textsuperscript{102}’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness\textsuperscript{102} while the new/prospective/superseding as of its prospective relative-ontological-completeness\textsuperscript{103}—of-reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology\textsuperscript{102}’ in terms—as-of-axiomatic-construct of prospective nonpresencing—<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold\textsuperscript{103} are necessarily ‘dem- entatively/structurally/paradigmatically conflicted’, with prospective transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} ontological-primemovers-totalitative-framework\textsuperscript{102} being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold\textsuperscript{103}; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care—
and—episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care—and—episteme reference-of-thought supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care—and—episteme reference-of-thought supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) scholasticism and positivism are rather in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> . This is equally reflected with regards to the prospective transcendence-and—sublimity/sublimation/supereorogatory—de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the “presencing—absolutising-identitive-constitutedness” attitude/mental-disposition/care—and—episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the “meaningfulness-and-teleology” within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective “nonpresencing—perspective—ontological-normalcy/postconvergence” sublimity/sublimation/supereorogatory—de-mentativity episteme

In addition, the
disruptive uninstitutionalised-threshold
contextualisation as of such divergent commitments
and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’
further radicalises the human disposition to act temporally beyond-the-consciousness-

such intellectual undermining which must necessarily be understood as of knowledge-

chainism, on the conation of upholding ontological-bad-faith/inauthenticity-contentions; by its deflating of the conception of ontologically-veridical-meaningfulness-and-teleology as of human mortals contentions in transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought>, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the ‘nonpresencing,<perspective—ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent
ontological-primemovers-totalitative-framework⁷, rather as of its commitment to incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation that in many ways could just as well validate <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications} and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturising for prospective institutionalisation. Rather the attitude/mental-disposition/care—and—episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-
ontological-completeness of human meaningfulness-and-teleolgy, given human limited-
mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge
by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-

relative scepticism as of prospective relative-ontological-completeness, thus enabling the
upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality,
which as of its transcendence-enabling nature brings about prospective human emancipation.
While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility
and scepticism framework as of prospective relative-ontological-completeness, ontological-
bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a
predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-

that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual
scepticism. Effectively while genuine intellectual transformation involves dispensing-with-
immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension,
a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of
immediacy and temporality/shortness as of <amplituding/formative> wooden-language-

To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency—{(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness }, an
scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity—of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory—de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory—de-mentativity of meaningfulness-and-teleology.
ontological-performance^{72}-<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as \textit{meaningfulness-and-teleology}^{70} ontological-performance^{72}-<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemmic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—\textit{meaningfulness-and-teleology}^{100} as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposing-for-relative-ontological-completeness^{99}—unenframed-conceptualisation demnetating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality^{97}/shortness or intemporality^{97}; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor implies that it is impossible for the
inherently, but rather it is about bringing about prospective relative-ontological-completeness\textsuperscript{88}\,-of- reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold\textsuperscript{81} mental-dispositions imply that at the uninstitutionalised-threshold\textsuperscript{81} prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory--de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating\textsuperscript{81}\,–<amplituding/formative>supererogatory--de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> exercise engaging with intemporal-as-ontological \, meaningfulness-and-teleology\textsuperscript{100}. Such prospective intemporal-as-ontological \, meaningfulness-and-teleology\textsuperscript{100} is not necessarily perceived at the uninstitutionalised-threshold\textsuperscript{81} as any more pertinent for attaining social approbation than other temporal \, meaningfulness-and-teleology\textsuperscript{100} as of the said uninstitutionalised-threshold\textsuperscript{81}. This point out that \, maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation mental-dispositions in their intemporality\textsuperscript{7}/longness or longness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} are as of a projected-or-anticipated conflatedness of social \, universal-transparency\textsuperscript{10}–(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-

That is at the uninstitutionalised-threshold\textsuperscript{81} such intemporal-as-ontological \, meaningfulness-and-teleology\textsuperscript{100} is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating \,–<amplituding/formative>supererogatory--de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism \, as of institutional
and formal percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation. It is such a ‘conflatedness\(^1\) structuring/paradigmatic secondnatured construct of positive-opportunism\(^7\) of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation’ that holds together in social\(^{10}\) universal-transparency\(^{\langle}\) (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^8\) ) temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness\(^1\) structuring/paradigmatic secondnatured construct, intemporal-as-ontological\(^5\) meaningfulness-and-teleology\(^{10}\) is not necessarily perceived as any more pertinent for attaining social approbation than other temporal\(^5\) meaningfulness-and-teleology\(^{10}\). In other words, the ideal articulation of base-institutionalisation\(^5\) meaningfulness-and-teleology\(^{10}\) in recurrent-utter-uninstitutionalisation, just as that of\(^{10}\) universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in\(^{10}\) universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness\(^1\) structuring/paradigmatic secondnatured construct of positive-opportunism\(^7\) of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference>. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness\(^{13}\) to engage a registry-worldview/dimension at its uninstitutionalised-threshold\(^{10}\) rather by an incrementalism-in-relative-ontological-incompleteness\(^8\)—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness\(^8\)–of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold\(^{10}\) a more complex but ontologically-veridical\(^5\) maximalising-recomposuring-for-relative-ontological-
profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual *mutual* <amplituding/formative–epistemicity>*totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag* that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-prime movers-totalitative-framework construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>*totalising–thrownness-in-existence* (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance - <including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight
points out that existence/existential-possibilities is inherently a radical ontology beyond our
<amplituding/formative–epistemicity>totalising–self-referencing-
synergetising/circularity/interiorising/akrasiac-drag in existence/existential-possibilities as
‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging
and constructive approach for arriving at such a depth of radical ontology warranted by
existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of
our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative–
epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency /
hyperbole-of-temporal-to-intemporal-ontological-performance –<including-virtue-as-
ontology>) implies the need for a sound perpetuating construct of universal projection as
intemporality -or-longness-of-register-of– meaningfulness-and-teleology as the opportunity
for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a
construct is a ‘response construal’ that inherently enables transformative universal
implications as beyond presence issues and complexes as it sublimes presence out of its
failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in
presence as it is presence-serving and so whether as of positive or negative reaction; as even as
a positive act a reactionary construal is hardly of entailing-<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness thus hardly as of
aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may
perfectly prevent a crime from happening and save the day but then such action is not
dependable and the outcomes are unreliable as well together with the possibility on occasion of
wrong judgement and/or wrong action or usurpation; thus the social construction of crime
prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance <-including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was
being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation of meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-(implicit-epistemic-veracity-of-nonpresencing-<perspective-ontological-normalcy/postconvergence>) as of notional-deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-(implicit-nondescript/ignorable-void-as-to-presencing—absolutising-identitive-constitutedness) framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. transcendence-and-sublimity/sublation/supererogatory-de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming-of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human<amplituding/formative-
epistemicity>totalising~purview-of-construal’ in epistemic-conflatedness\(^1\) as of underlying relative-ontological-incompleteness\(^2\) and relative-ontological-completeness\(^3\) reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory_de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory_de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory_de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology\(^10\) failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology\(^10\) to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology\(^10\) in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening\(^5\) arising in further conflatedness\(^1\) as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—human<amplituding/formative–epistemicity>totalising~purview-of-construal’, and so as of a retrospective to prospective insight. Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a conflatedness and so construed from the perspective of <amplituding/formative–
‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness. Rather existence—as-the-absolute-a-priori-of-conceptualisation~and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–

Effectively, with the positivism/rational-empiricism self-referencing totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis universalis as its very own ‘underlying totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant totalising/circumscribing/delineating construct of meaningfulness-and-
precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening\(^{\text{2}}\). Such adjunctive-metaphoricity\(^{\text{3}}\)-significations conflatedness\(^{\text{4}}\) \(\prec\) amplituding/formative–epistemicity\(\triangleright\) causality–as-to-projective-totalitative–implications,\(\prec\) for-explicating-ontological-contiguity\(\triangleright\) mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity \(\prec\) significations conflatedness\(^{\text{5}}\) induced ‘underlying amplituding/formative–epistemicity\(\triangleright\) totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\(^{\text{3}}\)-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying amplituding/formative–epistemicity\(\triangleright\) totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity\(^{\text{5}}\) where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying amplituding/formative–epistemicity\(\triangleright\) totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential
situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of “meaningfulness-and-teleology”! Thus phenomenologically, language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–self-referencing–}
\text{syncretising/circularity/interiorising/akrasiatic-dr}a\text{g} \text{ dynamics of individual and collective-social “meaningfulness-and-teleology”}, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay’ with regards to such a phenomenological conception of language as a lockstep veridical reflection of
human personality development all along the various existential stages as of a notion of the
dynamics of social-construct existential situations/instances, stakes, institutions and processes
from childhood to adulthood’, notwithstanding the fact that the privileged social
conceptualisation of language is as of ‘language as the complete possibilities of language as of

above is equally reflected in human aesthetics/arts like music and even science. Ultimately,

its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-

highlights the phenomenological reality all along humanity’s existence of ‘the privileging of
ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose
of the various relevant dominant social agencies and social institutions, and so as reflected as of
humanity’s existence ‘historiality/ontological-eventfulness\textsuperscript{37}/ontological-aesthetic-tracing-
<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’>.
While such a privileging as of immediate/instant existential implications like say parents and
society privileging the conception of what is language in terms–as-of-axiomatic-construct of its
end-purpose as of the perspective of the child’s integration in various social structures and
institutions; however, in the bigger picture the fact that social structures and social institutions
dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of
fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-
perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a
putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-
complete existential effecting possibilities accountability for ontological-construction’, and
rather assuming the approach of a ‘select privileged ‘historiality/ontological-
eventfulness’/ontological-aesthetic-tracing–<perspective–ontological-
theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay' is not only about the successive <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness /relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional—knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality—as-ontological-construal as of accreting-substitutive-subsumption-as-futural-différance-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality—as-ontology but involves
grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential ‘meaningfulness-and-teleology’ signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful ‘meaningfulness-and-teleology’. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existent-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality /longness doesn’t take its due place, it is occupied by ignorance as of human temporality /shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocripticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the privileging of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by ’historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-
transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence-(implicitied-epistemic-veracity-of nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing–<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather
represents the \textsuperscript{13}presencing—absolutising-identitive-constitutedness\textsuperscript{13} as the common perspective/framing/reference/horizon for both, thus falsely pointing to \textquote{difference-in-kind/difference-in-aposteriorising-or-logicising} between \textsuperscript{2}presencing—absolutising-identitive-constitutedness\textsuperscript{13} and \textsuperscript{7}nonpresencing-\textlangle perspective–ontological-normalcy/postconvergence\textrangle\textsuperscript{61} (rather than difference-in-nature/difference-in-apriorising-or-axiomatising\textsuperscript{80}), and so contradictorily as if both are of the presencing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{1}. With the reality that \textsuperscript{61}nonpresencing-\textlangle perspective–ontological-normalcy/postconvergence\textrangle\textsuperscript{61} is wrongly-and-unsuspectingly given as of common \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13}, thus inducing a relative ontologically-flawed quasi-transcendental freplay as \textsuperscript{7}nonpresencing-\textlangle perspective–ontological-normalcy/postconvergence\textrangle\textsuperscript{61} is rather in notional-discontiguity/epistemic-discontiguity\textsuperscript{63}-\textlangle shallow-supererogation\textsuperscript{97}-of-mentally-aestheticised-preconverging/dementing–qualia-schema\textrangle when analysed as of \textsuperscript{7}presencing—absolutising-identitive-constitutedness\textsuperscript{13}. Consider in this regard ‘the very same physics \textlangle amplituding/formative–epistemicity\textrangle totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior relative-ontological-incompleteness\textsuperscript{89} being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness\textsuperscript{84}-of-axiomatic-construct-or-reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} of ‘the very same physics \textlangle amplituding/formative–epistemicity\textrangle totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of ‘traditional classical mechanics axiomatic-construct’ construed as \textsuperscript{7}presencing—absolutising-identitive-constitutedness makes
the Glas experimental project, but it fails to recognise the possibility of a futural différance where ’meaningfulness-and-teleology’ is construed as of the prospective non-presencing-

It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective non-presencing-

It is interesting again to note that the so-renewed ‘underlying \(<\text{amplituding/formative–epistemicity}>\) totalising/circumscribing/delineating of physics’ as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, is not arbitrarily arising from any human-subpotency\(^8\) presencing—absolutising-identitive-constitutedness\(^7\) but is rather divulged-as-of-relative-ontological-contiguity\(^7\) from existence-potency\(^9\) sublimating–nascence,-disclosed-from-prospective-epistemic-digression by the fact of ‘human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality led projection/anticipation’ ultimate validation by ontological-primemovers-totalitative-framework\(^7\). This \(^5\) meaningfulness-and-teleology\(^10\) centered–epistemic-totalisation-inducing-transcendence-and-sublimity/sublimation/supererogatory–de-mentativity metaphoricity\(^7\) thus perfectly satisfies the ‘foreboding concern for ontological-veracity’ critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\)-<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and so implying human limited-mentation-capacity-deepening\(^7\); and thus, this point that enables the
Derridean freeplay diffère as of tendential-deliberation-of-decidability to achieving transcedence-and-sublimity/sublimation/supererogatory-de-mentativity is the full conflatedness reflecting existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—who-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ in its ‘nonpresencing—<perspective—ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay diffère which is then in constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—who-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’. So because at the point of transcedence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—who-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued—
‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency</sublimating–nascence,-disclosed-from-prospective-epistemic-digression as validatable by ontological-prime-movers-totalitative-framework". Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality–of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’</sub> depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is more than just imagination which rather comes prior to and is exhausted-and-superseded-by-reasoning. Such a lack of prior certitude explains why transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ‘are not really reasoned-out’ but rather discovered-as-divulged by existence, with the human-subpotency concern being one of adopting the right attitude/mental-disposition/care–and–episteme that allows existence-as-full-potency to come up with the divulgation. Ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as such is equally the basis for implying a correspondence theory of

very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs — maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness — reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care—and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care—and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care—and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology — <in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care—and–episteme from earlier
crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme\(^4\) renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance\(^5\)-<including-virtue-as-ontology>\(^6\); as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative–epistemicity>totalising–thrownness-in-existence\(^7\) (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^8\)-<including-virtue-as-ontology>\(^9\)). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme\(^4\) of warring nations in the early 20\(^{th}\) century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\(^{th}\) and 19\(^{th}\) centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology’, that reflects a human tacit awareness that the grounding of its ‘meaningfulness-and-teleology’ is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete ‘meaningfulness-and-teleology’. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into ‘meaningfulness-and-teleology’ as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of– ‘meaningfulness-and-teleology’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness –of- reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing-<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought <amplituding/formative–epistemicity> causality as to-projective-totalitative–implications, for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness –of- reference-of-thought; and so, as of the successive base-institutionalisation,
universalisation, positivism and notional–deprocrypticism registry-worldviews/dimensions nonpresencing-<perspective–ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology\textsuperscript{100} grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, \textsuperscript{104}universalisation–non-positivism/medievalism, and positivism–procrypticism\textsuperscript{102} presencing—absolutising-identitive-constitutedness\textsuperscript{12}. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology\textsuperscript{100}. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought as of its prospective relative-ontological-completeness\textsuperscript{10} of reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior nonpresencing-<perspective–ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold\textsuperscript{12} despite its notional-discontiguity/epistemic-discontiguity\textsuperscript{10}–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising as it fails to construe of meaningfulness-and-teleology\textsuperscript{100} projectively as of prospective existence-potency\textsuperscript{10}–sublimating–nascence,–disclosed-from-prospective-epistemic-digression relative-ontological-completeness\textsuperscript{10} of apriorising/axiomatising/referencing. The implied maximalising-recomposuring–for-relative-ontological-completeness\textsuperscript{10}—unenframed-conceptualisation notion also underscores the postmodern conception of human-subject-
with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness-of-reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-prime movers-totalitative-framework by existence-potency ~sublimating-nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency ~sublimating-nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency ~sublimating-nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains- whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence- whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding-formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong
assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfullness-and-teleology; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence-(implicit-'nondescript/ignorable–void '-as-to-presencing—absolutising-identitive-constitutedness )/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfullness-and-teleology.

This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfullness-and-teleology conceptualisation and ontological-performance-<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension
institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness of reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’-<including-virtue-as-ontology> as to presupilation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism.

Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness of reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness of reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-
emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of- reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional—procrypticism—prospective—sublimation)’ appraisal of human narratives as to dimensionality—of—sublimating—amplituding/formative> supererogatory—dementativeness/epistemic-growth—or—conflatedness/transvaluative—rationalising/ transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> thus implying rather a notional—procrypticism institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation parameterisation/reparameterisation—(reflecting—a supererogatory—decisionality—of—socioinstitutional—conceptions—as—to—‘their—nascent—sublimations—dynamic—preempting—of—presublimatory—decisionality—numbing—traction—desublimation’)-as—so—operationalising—‘scalarisation—as—to—rescalarisation—as—re—ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care—and—episteme’ as of its procrypticism—or—disjointedness—as—of—reference—of—thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern
deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ which prospectively represents the modern as preconverging—or-dementing—apriorising-psychologism while the postmodern is postconverging-or-dialectical-thinking—apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-mentation-capacity prospective relative-ontological-completeness—of—reference-of-thought <amplituding/formative—epistemicity>causality—as—to-projective-totalitative—implications,—for-explicating-ontological-contiguity’; wherein for instance, for the recurrent-utter-
uninstitutionalisation⁷ reference-of-thought ill-health is as of an existential-contextualising-contiguity⁷ reference-of-thought ill-health is as of a perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the ‘hitherto ontologically-flawed postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’ in its relation with modernity wrongfully implied that it seeks the validation of modernity, and so as ridiculously as implying that budding-positivism/rational-empiricism should have sought for its validation from medieval-scholasticism. In both cases, the fundamental issue once universal-transparency¹⁰ (transparency-of-totalising-entailing,-as-to-entailing-＜amplituding/formative—epistemicity＞totalising—in-relative-ontological-completeness⁷) avails as of overall underlying human ontological-commitment⁶ as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⁷ for relative-ontological-completeness⁷, as herein implied originarily/as-of-event¹ with the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’, is mostly about dismissing the prior relative-ontological-incompleteness—as-of-reference-of-thought as when a critique of notional-discontiguity/epistemic-discontiguity-＜shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema＞ exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-
consciousness-awareness-teleology\(^2\)<in-existential-extrication-as-of-existential-unthought>\(^6\).

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for \(^1\) universal-transparency\(^2\)<(transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness\(^8\)> as of overall underlying human ontological-commitment\(^8\) as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^9\) for relative-ontological-completeness\(^9\); it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern \(^6\) deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of \(^1\) universal-transparency\(^2\)<(transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness> as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective dementative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\(^2\), at the uninstitutionalised-threshold\(^2\), is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of \(^1\) universal-
transparency\(^{10}\)-\{transparency-of-totalising-entailing,-as-to-entailing-\(<amplituding/formative–epistemicity>\)totalising-in-relative-ontological-completeness \} for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework\(^{17}\) is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold\(^{03}\) cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework \’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework \’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as ‘meaningfulness-and-teleology\(^{00}\) of prospective relative-ontological-completeness -of- reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework \’. Such ‘concurrent ontological-primemovers-totalitative-framework\(^{11}\) was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\(^{03}\) as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework\(^{17}\) is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{00}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) as of its \(<amplituding/formative–epistemicity>\)totalising/circumscribing/delineating \{reference-of-thought\}-devolving’. However, at its uninstitutionalised-threshold\(^{03}\) the prospective ‘concurrent ontological-primemovers-totalitative-framework\(^{11}\) as of the prospective
institutionalisation’s basis of validation of knowledge grounded on the &reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating &reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold\textsuperscript{93}, and so as of mutually beyond-the-consciousness-awareness-teleology\textsuperscript{100}-<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness\textsuperscript{90}. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’\textsuperscript{97} as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal &reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating &reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\textsuperscript{93} as external/prospective &reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating &reference-of-thought–devolving’, which
should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such

is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ de-mentating/structuring/paradigming of reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology’, as of successive prospective relative-ontological-completeness-of-reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective
de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness-of-reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness-of-reference-of-thought supersedes the prior relative-ontological-incompleteness-of-reference-of-thought, just as positivism/rational-empiricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance-including-virtue-as-ontology of any ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’. Already, postmodern interpretations have increasingly been much more relevant practically to
‘prospective-aporeticism-overcoming/unovercoming’ for the given attitude/mental-disposition/care–and–episteme true meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>. Where beyond-the-consciousness-awareness-teleology <-in-existential-extrication-as-of-existential-unthought>, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness reference-of-thought, this induces constitutedness ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme ’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is rather a notional~conflatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness reference-of-thought requiring its own
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation‘ as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness—{as-to- historicity-tracing—inp-presencing—hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—{imbued-postconverging/dialectical-thinking ‘-‘projective-insights’/‘epistemic-projection-in-conflatedness ‘-of-notional—deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>’ thus implying rather a notional—deprocrypticism institutionalisation

reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ should equally enable the avoidance of the erroneously
implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to 83 human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation93 is so with regards to the inherent ontological sublimating human possibility in
existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human
potential, and so as emphasised and reflected with regards to the need for human limited-
mentation-capacity-deepening 6. We can garner insight about how we tend to misconstrue any
attitude/mental-disposition/care–and–episteme that is different from our own ‘present
attitude/mental-disposition/care–and–episteme’, whether it is a ‘prior/old/superseded
attitude/mental-disposition/care–and–episteme’ or a ‘prospective/new/superseding
attitude/mental-disposition/care–and–episteme’. For instance, in the previous articulation of
the existential-contextualising-contiguity19–lowest-level-reification7 perceptivity-as-of-bad-
omen with ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care–and–
episteme’ given its ‘non-rules—apriorising/axiomatising/referencing–psychologism–as-
impulsive-or-accidented-or-random-mental-disposition’, the reality is that our mental-devising-
representation still remains in our ‘present positivism–procrypticism attitude/mental-
disposition/care–and–episteme’ as of its ‘perceptivity-as-of-full-disease-and-scientific-theory-
construct-as-the-exclusive-cause-and-effect-conceptualisation’, and only ‘adhocly-and-scantily
human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of- reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-
and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising -as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’.

Postmodern deprocrypticism—or—
preempting—disjointedness-as-of-reference-of-thought
preempting—disjointedness-as-of—reference-of-thought

apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme’ implied notional—deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional—as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality.,-as-to—

‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’.

This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of—meaningfulness-and-teleology and intemporal/longness-of-register-of—meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation prospective relative-ontological-completeness—and—reference-of-thought and uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought.

meaningfulness-and-teleology\textsuperscript{100} and is rather caught up, beyond-the-consciousness-awareness-teleology\textsuperscript{100}-<in-existential-extrication-as-of-existential-unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness\textsuperscript{89}-of-\textsuperscript{84} reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold\textsuperscript{103} which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{103}. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} untransvaluated–temporal-intemporality\textsuperscript{52} at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{103}, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold\textsuperscript{103} pointing to its prior relative-ontological-incompleteness\textsuperscript{89}-of-\textsuperscript{84} reference-of-thought. Thus, the manifestations of temporality\textsuperscript{7}/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold\textsuperscript{103} are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} posture in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}, rather than a recognition of it prior relative-ontological-incompleteness -of- reference-of-thought, implying recognising its
uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/suprerogatory-de-mentativity, as knowledge-notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative-epistemicity>totalising–purview-of-construal’, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness -of- reference-of-thought; and so beyond just <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-
conceiving of the implied prospective need for deneuterising —referentialism. Put another way in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —
meaningfulness-and-teleology implied notion of responsibility as reflected by the Nietzschean metaphor ‘God is dead’, castigatory of ‘beyond-the-consciousness-awareness-teleology’—<in-existential-extrication-as-of-existential-unthought> attitude/mental-disposition/care—and—episteme’ which is inclined to pass on to ‘a certain Messiah’ the possibility of our Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated—temporal-intemporality notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of ‘notional—deprocrypticism attitude/mental-disposition/care—and—episteme’ as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought’; as much more than just with regards to a resolutory conception of acts and miscuings in temporality /shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind’s temporal ontological-contiguity as beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> attitude/mental-disposition/care—and—episteme with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification cognisant-and-integrative of such acts and miscuings in temporality, thus endemising and enculturating the reference-of-thought vices-and-impediments. Thus such Being underdevelopment, construed as of dynamic social-chainism of human temporality /shortness endemisation and enculturation as of

can be grasp when we contemplate that in a secondnatured institutionalisation framework of deferential-formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don’t get involve in wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignoreable-void-with-regards-to-prospective-apriorising-implications} exercise to resolve the technical problem. This outlook is actually ‘seeded’ within dimensionality-of-sublimating—supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is ‘appropriate prospective institutionalisation secondnaturings metaphoricity’. Consider in this regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as of its wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignoreable-void-with-regards-to-prospective-apriorising-implications} reasoning-from-results/afterthought logocentric constitutedness. Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument attitude/mental-
disposition/care–and–episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing-perspective–ontological-normalcy/postconvergence; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—notionally—collateralising-beholdening-protohumanity—to—attain-sublimating-humanity—as-to-existence-potency~sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as—of—‘nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>)) with respect to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{10}, the further insight of ‘out of thin air’ metaphoricity as of human limited-mentation-capacity-deepening comes with the possibility of its ontological-primemovers-totalitative-framework\textsuperscript{22} validation by existence-potency\textsuperscript{24}—sublimating—nascence, disclosed-from-prospective-epistemic-digression. In this regard, the ontologically-veridical ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ with respect to our modern take <amplituding/formative> wooden-language-(imbued—averaging-of-thought)<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{100}—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>) reasoning-from-results/afterthought logocentric constitutedness\textsuperscript{13} is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of—reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology\textsuperscript{100} weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought prospective relative-ontological-completeness—of—reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity implied meaningfulness-and-teleology\textsuperscript{100}, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘p presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity/
for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating’—<amplituding/formative>supererogatory–de-mentativity/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking–apriorising-psychologism’ as positivism/rational-empiricism thinking or notional–deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory–de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its
thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of- de-mentation-(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) enabling its prospective relative-ontological-completeness. dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> articulation of reasoning-through/messianic-reasoning cannot be construed as amenable to the contending disposition of prior deferential-formalisation-transference secondnatured institutionalisation, thus the irrelevance/impertinence of any such implied contending as of prior reasoning-from-results/afterthought, as any such contention can only re-arise as of the reasoning-through/messianic-reasoning renewing of secondnatured prospective ‘reason-from-results’/afterthought. Thus the direct implication of reasoning-through/messianic-reasoning is that it can only call upon ‘a kindred sense of things’, as of dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> contemplation that can surpass/overcome temporal nihilistic <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology>as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) as of a protracted-consciousness cognisant of the prospective ontological-performance—<including-virtue-as-ontology> and human emancipation implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. It should be noted here that the notion of <amplituding/formative> wooden-language-(imbued—

This tendency to misconstrue the meaning of wooden-language—{imbued—averaging-of-thought-
and associated philosophical notions like leveling, critically arises because of a poor construal of philosophy as ontologically-driven just like any other knowledge as of ‘baseline re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking'-projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional–deprocriptivism-prospective-sublimation) up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications’ subject to validation and falsifiability rather than a naïve construal of philosophy as an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’. It is herein contended that the critical notion underlying <amplituding/formative> wooden-language-(imbued-averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of- meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>, ressentiment and leveling specifically with reference to Heideggerian and Nietzschean thought can actually be interpreted critically as relating rather to ‘originariness-parrhesia,–as–spontaneity-of-aestheticisation over the human atrophying tendency for prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ with regards to ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the Socratic philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia,–as–spontaneity-of-

These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—
as-spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^\prime\) and so as of prospective projection as implied with the ontological-contiguity\(^\prime\)—of-the-human-institutionalisation-process\(^\prime\), but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity\(^\prime\). However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ failing to conceive of the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^\prime\)—of-the-human-institutionalisation-process\(^\prime\) dimensionality-of-sublimating\(^\prime\)—<amplituding/formative>supererogatory–de-transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as to difference-conflatedness\(^\prime\)-as-to-totalitative-reification -in-singularisation\(^\prime\)-as-veridical-epistemic-determinism\(^\prime\),\(^\prime\) <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity successiveness of registry-worldviews/dimensions, with the result that Kantian implied transcendental idealism is veridically ‘phenomenal-abstractiveness within the very same intelligible rational-empiricism/positivism registry-worldview/dimension\(^\prime\) reference-of-thought’ (as the true reality of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather one of
conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation> implications beyond just ‘transformation from Roman/Master/Hierarchising/Aristocratic value-construct to Judeo-Christian-Islamic-monotheisms/Slave/Dehierarchising/Commoner value-construct as of the very same universalising-idealisation’ speaking rather more of revaluation than transvaluation. It is this underlying misconception that induces subsequent philosophical misinterpretations of notions like <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{10}-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>, ressentiment and leveling failing to appreciate that these are ontologically-driven as of underlying relative-ontological-completeness\textsuperscript{8} knowledge-reification\textsuperscript{17} basis of such conceptualisations arising as to the need for prospective emancipatory inspiration of prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation inducing human limited-mentation-capacity-deepening\textsuperscript{23}. Thus <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{10}-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) is herein rather construed as <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{10}-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) or ontological-bad-faith/inauthenticity\textsuperscript{4} with respect to ‘mechanical practice’ of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation. In this regards, we can appreciate that all human ‘meaningfulness-and-teleology\textsuperscript{10} arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively
implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance—including-virtue-as-ontology. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to amplitude/formative—wooden-language—imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>);
thinking of projective-insights of epistemic-projection-in-conflatedness of notional-deprocrypticism-prospective-sublimation) and epistemic-ricochetting/transepistemicity nature of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity instigation as of prospective dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> originariness-parrhesia, as spontaneity-of-aestheticisation and subsequent prospective secondnatured reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation. In this regards, it is important to grasp that human secondnaturing capacity is just as critical as human dimensionality-of-sublimating —<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> capacity for the ontological-contiguity of-the-human-institutionalisation-process to be able to materially/substantively arise, notwithstanding the contradiction that secondnatured reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation is ‘bound to be reflected as teleologically-degraded’ prospectively as a destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)–of-ontological-performance—<including-virtue-as-ontology> as of mere ‘mechanical practice’ that fails prospective anamnesis as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation. In this regards, we can appreciate that when base-institutionalisation ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing—

or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spiritedrivenness—equalisation> induced self-consciousness ‘meaningfulness-and-teleology’ infrastructure’. It is thus not odd that as of human emotional-involvement implications, Socratic philosophers universalising-idealisation and budding-positivists projected meaningfulness-and-teleology infrastructure rather met initially with the antipathy of their underpinning-suprasocial-construct and <amplituding/formative> wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>) and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’> whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their
core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity’ in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>) in <amplituding/formative–epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to
reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social-value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as
of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality~as-to-projective-totalitative–implications, for explicating ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing in postconvergence-reflected ‘epistemicity-relativism’ notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-
as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification\(^{10}\) of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective ‘meaningfulness-and-teleology\(^{10}\) infrastructure transvaluation so-implied as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of- reference-of-thought appropriate foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{17}\) in reflecting ‘immanent-ontological-contiguity ’,—as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect–‘immanent-ontological-contiguity ’ of our rational-empiricism/positivism occlusivity in its <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^{10}\)—as-of–‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>) tend to rather reflect our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{3}\).

The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral
aspects take the form of economic dysfunction and inequities as occlusively-collateral to
economic ideologism, social dysfunction and discriminations as occlusively-collateral to
domineering and secluding social narratives, sophist/pedantic and vested interest undermining
genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation
that undermines individuals sovereign competence and choice with regards to increasingly
skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and
in the bigger global framework of competing politico-cultural values with individuals and
societies rather construed occlusively as collateral damages. Transvaluation analysis thus
ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the
very state of unwariness with respect to prior relative-ontological-incompleteness as of a
nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the
grandest deeds of ontological-performance—including-virtue-as-ontology>/morality/ethics,

the construal of social–value-construction is cogently obvious, however the fact remains that
the human subject as of its limited-mentation-capacity exists in circumstances of human-

successive registry-worldviews/dimensions in reflecting holographically—<conjugatively-and-

critically of dimensionality-of-sublimating —<amplituding/formative>supererogatory-

successive human construction-of-the-Self as from based animality to trepidatious—self-
consciousness, warped—self-consciousness, preclusive—self-consciousness, occlusive—self-

mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of
transvaluation, social—value-construction is rather accomplished phronetically/in-practicality as
of the specific social-setup universal-transparency—{(transparency-of-totalising-entailing,—as-
to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-

contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-
justified inequity’ narrative(s) where such universal-transparency—{(transparency-of-
totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-
ontological-completeness} is muted and where such universal-transparency\(^\text{105}\) (transparency-of-totalising-entailing,-as-to-entailing-\langle\text{amplituding/formative–epistemicity}\rangle\) is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in ‘presencing—absolutising-identitive-constitutedness’ as of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation simply reflects the \langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of \(^4\text{foregrounding—entailment—(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation}^5\text{ in reflecting ‘immanent-ontological-contiguity’ })\),—as-operative-notional–deprocrypticism lies with the-Good/understanding/knowledge-reification\(^7\)/ontological-primemovers-totalitative-framework\(^8\) as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency\(^9\)–sublimating–nascence,—disclosed-from-prospective-epistemic-digression required prospective rational-empiricism/positivism registry-worldview/dimension construction-of-the-
relative-ontological-completeness\textsuperscript{88} \& meaningfulness-and-teleology\textsuperscript{85}'. This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness’ ontologically-flawed de-mentating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{17}<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> so-reflected as of <amplituding/formative–epistemicity>totalisingly–preceding-and-redefining-existential-contextualising-contiguity\textsuperscript{39}. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{1} ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{1} in grasping existential reality manifestations than a preceding ununiversalisation registry-
worldview/dimension. This however doesn’t imply the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression, so-construed as ‘human-subpotency ontological-performance’—<including-virtue-as-ontology> within the full-potency-of-existence’s—sublimating–nascence—as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<including-virtue-as-ontology> human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative—epistemicity>totalising—thrownness-in-existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’—<imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—

In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment©. Thus, on this basis, the reality of human ontological-performance©-<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance -<including-virtue-as-ontology> and destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}–of-ontological-performance -<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification© and empowerment from such knowledge-reification© as enabling the framework of living-development–as-to-personality-development, institutional-development–
as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—and then ‘the individual dimensionality-of-sublimating —<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> reflected in <amplituding/formative—epistemicity>totalisingly—preceding-and-redefining-existent-contextualising-contiguity implications upon human sovereignty and free-will’). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a "historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’> character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’>, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries

social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-

sovereignty and free-willing disposedness for claiming social—value-construction for social-
functioning-and-accordance as of supposedly coherent ontological-commitment that gives the
teleological orientation of human *meaningfulness-and-teleology in reflecting
holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human—
and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as $6 \text{ m/s}^2$ rather than the existence-potency\textsuperscript{7}--sublimating--nascence, disclosed from prospective-epistemic-digression manifestation of $9.8 \text{ m/s}^2$ and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation-unforegrounding-disentailment-failing-to-reflect-‘immanent-ontological-contiguity’. The conception of human sovereignty and free-will so-implied as of ‘the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’-<imbued-and-

‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’-human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>’ basically underlies all human knowledge-reification\textsuperscript{87} whether with regards to philosophy as first-level ontology pertaining to ‘overall existence phenomenal appraisal of ‘meaningfulness-and-teleology’\textsuperscript{100} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-

mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-hermeneutically/reprojectively/supererogatingly/zeroingly:-socioeconomic,-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of ‘overall existence phenomenal appraisal of meaningfulness-and-teleology’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to
interpretation’ is the more critical basis for a profound knowledge-reification than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/throwedness-disposition—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/throwedness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness as of human <amplituding/formative–epistemicity>totalising–throwedness-in-existence revealing the epistemic-impertinence of dispositional presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness—super-singularisation-as-veridical-epistemic-determinism<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly presencing—absolutising-identitive-constitutedness of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency—sublimating–nascence,-disclosed-from-prospective-
epistemic-digression to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’>. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-
mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound
advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and
practices, renders such an assessment of implied equanimity/balance rather de-
mentative/structural/paradigmatic to the overall politico-institutional system itself; and
particularly so as in many ways the possibility of readjustment is much more practically
instigated politically especially as with public institutions the individual manifestation of
sovereign choice is much more rigidly tied to political action unlike the relative ability for
direct disengagement from private entities. However, the fundamental fact that human
sovereignty and free-will is ever always a question of the ‘transverse relation of all humans
sovereignty and free-will in society’ inherently implies the underlying possibility for the
undermining of human sovereign choice as of inherent social differentiation. Beyond
transvaluation implications as of the broader overall ‘expected equity of all individuals for

holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-
institutionalisation-process ; going by the phronesis/practicality as of our positivism–
procrystalism occlusivity, the assessment of institutionally implied ‘equanimity/balance of
contending frameworks and policy frameworks as reflective of socially-perceived
commendation and disapprobation’, as advancing human sovereignty and free-will as of
deferential-formalisation-transference implications, can be rather straightforward with regards
to relatively compact/self-contained institutional functions and roles usually involved in direct
public service delivery but it is much more difficult with spurious/supporting institutional
functions and roles. We can appreciate in this regards that public scandals generally tend to
arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically
prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness-
panintelligibility—<imbued-and—'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>; as the fact is the conception of human sovereignty and free-will effectively varied in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as from the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation> of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, our positivism—procrypticism and will equally vary with prospective depcrypticism—or—preempting—disjointedness-as-of—reference-of-thought as of human limited-mentation-capacity-deepening. This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness’ in superseding/overcoming/transcending human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’, reflecting a human-causative-construction conception in conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional—projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness as of any given ‘presencing—absolutising-identitive—
constitutedness\textsuperscript{13} apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness\textsuperscript{89}. This insight about human sovereignty and free-will effectively points to the ontological-flaw of ‘presencing—absolutising-identitive-constitutedness’ conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness /relative-ontological-completeness’ - (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity ‘as-rede-mentating/restructuring/reparadigming–psychologism’\textsuperscript{90} that effectively and empirically underline sublimating \textsuperscript{4}historiality/ontological-eventfulness\textsuperscript{37}/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity\textsuperscript{39} as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity\textsuperscript{39} implications of relative-ontological-incompleteness to relative-ontological-completeness’. But then such pretence of ‘presencing—absolutising-identitive-constitutedness’ veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly
rational argumentations as of knowledge-reification\textsuperscript{87} implications. Such ‘human social-vestedness/normativity-\textless discretely-implied-functionalism\textgreater implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the ‘meaningfulness-and-teleology\textsuperscript{100} infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-\textless discretely-implied-functionalism\textgreater implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity’ implications of relative-ontological-incompleteness\textsuperscript{89} to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness\textsuperscript{89} and relative-ontological-completeness\textsuperscript{88} but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity’ which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness\textsuperscript{88} and so on the basis of merely projecting the term ‘human social-vestedness/normativity-\textless discretely-implied-functionalism\textgreater implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-\textless discretely-implied-functionalism\textgreater implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all ‘meaningfulness-and-teleology’ (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-\textless discretely-implied-functionalism\textgreater implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing
and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness’/relative-ontological-completeness -

Consider in this regards for instance as of the ‘presencing—absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the
perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing–apriorising-psychologism of any such implied slavery ‘human social-vestedness/normativity–discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity–discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing–apriorising-psychologism of any such implied slavery ‘human social-vestedness/normativity–discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity–discretely-implied-functionalism implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for
true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness’ false sense of logical-dueness as of ‘relative-ontological-incompleteness/relative-ontological-completeness-(sublimating-referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating-<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming—psychologism’ may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is

In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification\(^3\) as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification\(^3\); and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness\(^1\) apriorising/axiomatising/referencing of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness\(^2\), but rather as of the relative-ontological-completeness\(^1\) perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument\(^3\) in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring–<as-to-preconverging-or-dementing\(^1\)–apriorising-

In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. The fact is ‘wonkiness-of-seconddaturing as of the social-and-institutional-dissipative-integration of originariness/reifying/intelectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ implies that any given registry-worldview/dimension is in a conception of value-construction and overall ‘meaningfulness-and-teleology’ that is subpar to prospective possibilities of human transcendence-and-sublimity/sublimation/superoerogatory—de-mentativity; and this particular point is critical for the awareness that social thought can be developed that ‘transepistemically overlooks the presencing—absolutising-identitative-constitutedness conception of value-construction and overall ‘meaningfulness-and-teleology’ (as to its destructuring-threshold-(uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance<including-virtue-as-ontology> induced wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) for the possibility of prospective transvaluation as of dimensionality-of-sublimating—superoerogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>, as so-reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence’s—sublimating—nascence—as-of-its-coherence/contiguity), and this is effectively
instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness\(^1\)-by-reification\(^2\)/contemplative-distension\(^3\) in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology\(^{10}\) but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^7\)-<imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^9\)—of-the-human-institutionalisation-process\(^8\), however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^8\). The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in
existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confalatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> given the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>'—existentialism-form-factor, with such human dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confalatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic "presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation bluntly profess that 'human temporality'/shortness <amplituding/formative>wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignoreable—void ’—with-regards-to-prospective-apriorising-implications>’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human
limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/ constraint is a predilection for eliciting the idea that ‘human temporality/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology[100]-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/ constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—
meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity-<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification”/contemplative-distension“ is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of←meaningfulness-and-teleology), dementatively/structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency{
}{\text{-}{\text{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness)})-or-understanding-of-ontological-primemovers-totalitative-framework→-of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to
the direct relation between human-subpotency and existence-potency—sublimating-nascence, disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity—discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of
living-development–as-to-personality-development, institutional-development–as-to-social-

and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-

eventfulness ontological-aesthetic-tracing-perspective—ontological-
normalcy/postconvergence—reflected—epistemicity-relativism relevant to deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity.

Institutionalised historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus foregoes the construal of human meaningfulness-and-teleology as a construct of re-originariness/re-origination of meaningfulness-and-teleology as to human limited-

mentation-capacity-deepening so-implied from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective as to maximalising-recomposuring-for-relative-

Historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition thus involves a <amplituding/formative—epistemicity> totalising/circumscribing/delineating conception of social-vestedness/normativity—<discretely-implied-functionalism> as to an underlying human psychological entrapment (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{1}) that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology\textsuperscript{10} out of its historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition social-vestedness/normativity—<discretely-implied-functionalism> in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence epistemic/notional—projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening\textsuperscript{7}. Such social and institutional social-vestedness/normativity—<discretely-implied-functionalism> for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) is bound to “make its own weather” rather as from human-subpotency temporality\textsuperscript{7}/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance—<including-virtue—as-ontology> in a renewing originariness-parrhesia, as spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation, and so failing to be responsive to the fact
that human limited-mentation-capacity-deepening\textsuperscript{53} rather invokes prospective dimensionality-of-sublimating\textsuperscript{19}—<amplituding/formative> supererogatory-de-mentativeness/epistemic-growth-or-conflicatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\textsuperscript{54} for re-originariness/re-origination (and as ever always such destructuring-threshold—{uninstitutionalised-threshold\textsuperscript{103}/presublimating—desublimating-decisionality}—of-ontological-performance\textsuperscript{79}—<including-virtue-as-ontology> across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness\textsuperscript{7}/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’\textsuperscript{75} as speaking to its own exceptionalism in a naïve <amplituding/formative—epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drop posture instead of the true instigative exceptionalism of the underlying ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68}). This temporal/shortness disposition to fail re-originariness/re-origination is of overall social recurrence as to human temporality\textsuperscript{77}/shortness <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{100}—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>} as of ‘varying magnitudes/scales—as-to-successively-profound-remdentating/restructuring/reparadigming—frames—as-from-living,—institutionalising,—and-Being—ontologising/infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} of prospective human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-constructed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor’; and so in all situations particularly
those poorly constrained to existence-potency~sublimating–nascence,—disclosed-from-prospective-epistemic-digression. Such that such ontologically-flawed ~presencing—absolutising-identitive-constitutedness becomes a psychological entrapment of an overwhelming presence hardly capable of profound re-originariness/re-origination but for its thresholding to the accrued historicity-tracing—hyperrealisation/hyperreal-transposition perception of temporal/shortness human stakes-contention-or-confliction framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooftness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of presencing—absolutising-identitive-constitutedness —of—meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-

such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional–projective-perspective of re-originariness/re-origination as implied with prospective deprocripticism–or–preempting—disjointedness-as-of—reference-of-thought.

Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology’ given ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ ‘meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness—
teleology^1^<in-existential-extrication-as-of-existential-unthought>^2^; and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as ^5^meaningfulness-and-teleology^3^ with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy—

for-relative-ontological-completeness—by-reification^4^/contemplative-distension^5^. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events^6^ like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—

apriorising/axiomatising/referencing–conceptualisation as to existence-potency—sublimating–nascent-disclosed-from-prospective-epistemic-digression), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human socialized/normativity—discretely-implied-functionalism’; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness manifestation of human presencing—absolutising-identitive-constitutedness (as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications of human limited-mentation-capacity).

This patent elucidation of the decoherencing-structure—of–meaningfulness-and-teleology\textsuperscript{100}–for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating historiality/ontological-eventfulness\textsuperscript{111}/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–relativism’> (which de-mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-originariness). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency ~ sublimating – nascence, - disclosed-from-prospective-epistemic-digression) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing — discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency ~ sublimating–nascence, - disclosed-from-prospective-epistemic-digression), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-

More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in
different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology\textsuperscript{10} in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness\textsuperscript{13} analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness’/ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification\textsuperscript{15} exercise that doesn’t factor in human limited-mentation-capacity-deepening\textsuperscript{53} as of relative-ontological-incompleteness\textsuperscript{89} to ‘relative-ontological-incompleteness’/relative-ontological-completeness\textsuperscript{88}– ⟨sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness⟩/formative–supererogating-⟨projective/reprojective—aestheticising-re-motif– and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence⟩ as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming–psychologism\textsuperscript{90} as to

Thus it is such an ideological conception of science and knowledge-reification\(^7\) on the latter basis (as of prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis>\(^8\)) that ultimately translates into the ‘methodological, epistemic, institutional and social sagging of human knowledge-reification\(^7\)’ reflected abstractly in crises of methodology, epistemicity and scholarship as well as derived human institutional and social crises as to underlying meaningfulness-and-teleology\(^10\) infrastructure; and critically so with regards to our own positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought relevant-level of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence—>’—existentialism-form-factor that has to be addressed. In another respect, given the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension involved in true human consciousness sublimation, dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism\(^7\), as ‘the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-
ontological-completeness-by-reification\textsuperscript{7}/contemplative-distension’ that brings about sublimation needs to be construed as to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism\textsuperscript{5} elicits parallel competing meaningfulness-and-teleology\textsuperscript{10} (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of dimensionality-of-desublimating-lack-of — <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation>) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension\textsuperscript{5} inducing sublimation as of the secondnaturing institutionalisation exercise. In many ways the underpinning–suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism\textsuperscript{7} inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating\textsuperscript{5} — <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning–suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with dimensionality-of-sublimating — <amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning–suprasocial-construct
framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is our modern day presencing—absolutising-identitive-constitutedness politically clouded historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition underpinning—suprasocial-construct environment the contemplative beholder of the panacea for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity potential; as so reflected in their ever always hardly-adaptable/inflexible reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation frameworks of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition. This in many ways explains why ultimate responsibility lies with the abstract individual as to the requisite human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as—to—existence-potency—‘sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>). Ultimately, the notional—deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming dimensionality-of-desublimating-lack-of—amplituding/formative> supererogatory—de-mentativity/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality effectively projects the possibility of boundless human aestheticisation—and—aestheticisation-towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and-teleology, as in many ways the reality of our past

It is important to grasp here that such a construal of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought highlighting the prospective implications in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity"—of-the-human-institutionalisation-process as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility"-<imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation> (as to underlying human construction-of-the-Self) is not ‘a metaphysical/ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any ‘metaphysical/ideological advocacy’, but rather just as modern day science such a conception speaks to ‘the inherent ontological implications as to human knowledge-reification" and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced presencing—absolutising-identitive-constitutedness (while effectively contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising/sublimating-thoughtfulness / historiality-or-ontological-eventfulness—or-ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism> / prospective-ontological-projection / ideality as to prospective originariness–parrhesia,–as–spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold as to dimensionality-of-desublimating-lack-of —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness / transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism-disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-

Such undermining of the possibility of ‘requisite human dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-

Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing -of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-and-indirect-sponsorship-distortive-influence, blatant-intellectual-misanalyses-and-sophistry, public-influence-and-lobbying-overtaking-inherent-intellectual-veracity, politicised-institutional-stakes-overtaking-inherently-objective-social-knowledge-

In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-

However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-
effectivity–sublimation-{as-to-underlying-ontological-commitment }’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification’ issues as to prospective sublimating ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing-

reflected in the fact that the former orientation is priorly-and-ultimately concerned with

peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is
no physics reductionism of physics or say mathematics reductionism of mathematics or biology
reductionism of biology as to being the real and natural orientation for the specific physics,
mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest–subpotencies–<in-transitive-conflatedness→reflexivity,→in-the-full-potency-of-existence’s–sublimating–nascence>) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies–<in-transitive-conflatedness →reflexivity,→in-the-full-potency-of-existence’s–sublimating–nascence>’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest–subpotencies–<in-transitive-conflatedness→reflexivity,→in-the-full-potency-of-existence’s–sublimating–nascence>’ with the ‘supposedly profound phenomenal/manifest–subpotencies–<in-transitive-conflatedness→reflexivity,→in-the-full-potency-of-existence’s–sublimating–nascence>’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity–<discretely-implied-functionalism> disparateness-of-conceptualisation–<unforegrounding-disentailment,-failing-to-reflect→immanent-ontological-contiguity>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency→sublimating–nascence,–disclosed-from-prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity→of-the-human-institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest–subpotencies–<in-transitive-conflatedness→reflexivity,→in-the-full-potency-of-existence’s–sublimating–nascence> to then ‘utilise the clout to falsely imply substitutive/reductionist sublation over the social and socio-psychological
phenomenal/manifest-subpotencies-in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence's-sublimating-nascence’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbued foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation) in reflecting ‘immanent-ontological-contiguity’—as-operative-notional—deprocrypticism of their respective inherent sublimating phenomenal/manifest-subpotencies-in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> wherein for instance with the physics frame–of–ontological-contiguity succession of theories are developed aspiring cogently for ontological-contiguity of the whole physics epistemic-conception phenomenal/manifest-subpotency-in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence> as from say Galilean/Cartesian/Newtonian/Leibnizian physics to present day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly—disentailing—discretion/whim-of-thought (if truly of science/ontology as to ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating necessitation frame—of—ontological-contiguity> of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>—work paradoxically only by impliciting the reality of the ‘<amplituding/formative—
phenomenal/manifest–subpotencies–<in-transitive-conflatedness–reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence>, just as the transverse epistemic-conception phenomenal/manifest–subpotency–<in-transitive-conflatedness–reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence> of mathematics in relation to physics doesn’t substitute for and override the inherent physics epistemic-conception phenomenal/manifest–subpotency–<in-transitive-conflatedness–reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence>). The consequence of such vague disparateness-of-conceptualisation–<unforegrounding-disentailment, failing-to-reflect–immanent-ontological-contiguity as to failing ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ (as implied as of the requisite ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’–foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation) in reflecting ‘immanent-ontological-contiguity’–as-operative-notional–deprocrypticism in elucidating ontological-contiguity<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically
‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding/formative–epistemic>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’ as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’, and thus in many ways further undermine/distract-from the social ‘<amplituding/formative–epistemic>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification’ privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency)~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of
the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublation/supererogatory-dementativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity/sublation/supererogatory-dementativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaninglessness-and-teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ of the ontological-performance—<including-virtue-as-ontology> of human notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-

latter insight is critical for all prospective human sublimation as ‘a false sense of a
categorically/absolutely sublimated social-construct ordinariness/commensicality and social-
vestedness/normativity—<discretely-implied-functionalism>’ effectively renders any prospective
human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact
that even such advocates turn out to be incoherently muted-and-muddled with regards to such
an argument about ‘a false sense of a categorically/absolutely sublimated social-construct
ordinariness/commensicality and social-vestedness/normativity—<discretely-implied-
functionalism>’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—<in-
existential-extrication-as-of-existential-unthought>). The ‘purist science/ontology epistemic-
conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-
potency’—sublimating—nascence,—disclosed-from-prospective-epistemic-digression and de-
mentatively/structurally/paradigmatically so-explains the very possibility for human progress.
In contrast the conception of veracity/truth as from the latitude of ‘human social-
vestedness/normativity—<discretely-implied-functionalism> implied contract/political-
arrangement-or-political-coercion/given-discrete-social—value-construction’ is rather more bent
upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such
notions of veracity/truth without articulating existence-potency—sublimating—nascence—
disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation-
<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>, and
worse still when accompanied by claims of humility as to inherent institutionalised prescience
are more often than not mere manifestations of intellectual entitlement; (as to imply the society
is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it
projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-

academic careerism at the very antipode of genuine sublimating intellection) and so as
reflecting the modern day intellection relevant prospective human-subpotency—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.
Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects
prospective sublimating existence’s necessitating implications and consequences to implicitly
underscore ‘interlocutory humility’ induced as to existence-potency—sublimating—nascence,—
disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued

the majority people (as of ‘human notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given ‘presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior
recurrrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or-disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) as to an epistemically-decadent wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiac-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/conTEMPLATIVE-DISTENSION out of concern about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or-disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—
or—preempting—disjointedness—as-of—reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more tha <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity—<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development—as-to-personality-
development, institutional-development—as-to-social-function-development and Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology. This differentiation can be rearticulated in
aestheticisation terms to imply that existence (as to existence-potency~sublimating—nascence,-
disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables
prospective human sublimation as of aestheticisation-towards-ontology’ while on the other
hand human-subpotency (as to human—presencing—absolutising-identitive-constitutedness
<amplituding/formative—epistemicity>totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag ) is ‘a non-scalar conception that induces
prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively
implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-
for-relative-ontological-completeness—unenframed-conceptualisation epistemic-projection
perspective while ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-
aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-
ontologisation>’ is reflected with regards to its prospectively implied epistemic-
abnormalcy/preconvergence construed as of incrementalism-in-relative-ontological-
incompleteness—enframed-conceptualisation epistemic-projection perspective. Basically,
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-
subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus
speak to the fact that human prospective transcendence-and-
sublimity/sublimation/superrogatory—de-mentativity implied limited-mentation-capacity-
deepening (as to dispensing-with-immediacy-for-relative-ontological-completeness—by-
reification/contemplative-distension ) is actually induced as from human uncontemplative-
of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’

underlying prospective human ontological-performance\(^\text{72}\)‐<including-virtue-as-ontology> with regards to human \(^\text{50}\)meaningfulness-and-teleology \(^\text{90}\) speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening \(^\text{43}\) in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment } is strongly prone to desublimating \(^\text{47}\)historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in “presencing—absolutising-identitive-constitutedness \(^\text{11}\), while the former strongly constrained to high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment } is rather relatively amenable to sublimating \(^\text{46}\)historiality/ontological-eventfulness \(^\text{37}\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist
science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s~sublimating–nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective notional~deprocrypticism appraisal of the ‘tight-and-entwined relationship between the overall human ontological-commitment’ (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) (reflecting ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’). In this regards, the de-

But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold\(^\circ\) is a fertile spot for sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics or today institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation\(\{\text{blurring/undermining-of-prospective-totalising-entailing, as-to-entailing–amplituding/formative–epistemicity} \text{totalising–in-relative-ontological-completeness}\}\). What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness\(^\circ\) amplituding/formative–epistemicity\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^\circ\); explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification\(^\circ\) is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment\(^\circ\) (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation\(\{\text{as-to-underlying-ontological-commitment}\}\) as critically enabling
prospective sublimation’ so-implied as to existence-potency\textsuperscript{13} sublimating–nascence, disclosed-from-prospective-epistemic-digression. The strategic problem faced by the Ancient sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology\textsuperscript{10} -<in-existential-extrication-as-of-existent-unthought>) is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment'} and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment'} to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic philosophers\textsuperscript{10}\textsuperscript{6} universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology\textsuperscript{10} by eliciting \presencing—absolutising-identitive-constitutedness\textsuperscript{13} sensibility/decorum as of non-universalising Ancient sophistry and non-positivism medieval-scholasticism meaningfulness-and-teleology\textsuperscript{10} respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of \presencing—absolutising-identitive-constitutedness\textsuperscript{13} <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should
enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their ‘presencing—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness—{as-to-‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—{as-to-underlying-ontological-commitment ‘}’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a ‘presencing—absolutising-identitive-constitutedness’ sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification’. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic ‘presencing—absolutising-identitive-constitutedness’ sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency—sublimating—nascence,—disclosed-from-prospective—

apriorising/axiomatising/referencing—psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology which rather requires instigative notional–asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather
decisive in the second-naturing of positivism/rational-empiricism was the notional-asceticism

This is more obviously grasped with respect to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming-<seeding/incipient–profound ~supererogation,-as-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. In this respect with regards to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary ~meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical ~meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming-<seeding/incipient–profound ~supererogation,-as-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–

However, this sublimating knowledge ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming~<seeding/incipient–profound ~supererogation~–qualia-schema> existential-condescension~of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing –qualia-schema of ‘the God of plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming~<seeding/incipient–profound ~supererogation~–qualia-schema> existential-condescension~of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing –qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing –qualia-schema of our procrypticism–or–disjointedness-as-of–reference-of-thought uninstitutionalised-threshold as from a prospective notional–deprocrypticism perspective
projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity - <shallow-supererogation> - of mentally-aestheticised-preconverging/dementing -qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness’ — apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment’)’ imbued foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity’—dementating/structuring/paradigming—<seeding/incipient—profound—supererogation>,—as-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ as to prospective living-development—as-to-personality-development and institutional-development—as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning—suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning—suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite

Intellectualism as such is much more than just about \textsuperscript{7}presencing—absolutising-identitive-constitutedness \textsuperscript{7}.
methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all
given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness’ underpinning—suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence-{implicit—‘nondescript/ignorable—void’—as-to—presencing—absolutising-identitive-constitutedness}’; and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance—<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory—involting-or-guilding—or-amplifying–scalarisation—<as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation>, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity—<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence—and-sublimity/sublimation/supererogatory—de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—<as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> actually tend to be skewed towards
‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology→<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation→profundity→de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness→by-reification /contemplative-distension for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology→<in-existential-extrication-as-of-existential-unthought> positive-opportunism of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development—as-to-personality-development and institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-

This insight can be illustrated as follows: supposed say in \(^{10}\)00 BC an asteroid or virus could
bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening
to human appreciation of the existential implications of the notion and science behind the
asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable
Mars’ had achieved our present day civilisational and technological level, it is inevitable that
they will effectively adopt ‘ontological-good-faith/authenticity~de-

We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’—including-virtue-as-ontology state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding—formative—epistemicity>totalising—thrownness-in-existence but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated—sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicated—sublimation-over—desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere—extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential—contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative—ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging—ordementing—apriorising—psychologism and not postconverging—dialectical-thinking—apriorising—psychologism). It is this pre-eminence of existential-discursivity—implicated—sublimation-over—desublimation that explains why the availing of relative-ontological—

its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-

into perspective our presencing−absolutising-identitive-constitutedness conception of
intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective

some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given totalising—thrownness-in-existence is not of neutrally/objectively sound ontological-performance; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative–epistemicity>totalising—thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>. implies that as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-

intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating —
<amplituding/formative—supererogatory—mentative/epistemic—growth—

sublimation in existence (caught up in any given presencing—absolutising-identitive-

comprehensive coherence of human sublimation in existence as to existence—as-sublimating-

consistent (and this can only be fully appreciated from an ontologically sound conception of

as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} so-associated with human limited-mentation-capacity-deepening ). This confliction in the perception and relation to human sublimation in existence between metaphysics-of-presence-{(implicitd-‘nondescript/ignoreable-void ’-as-to-presencing—absolutising-identitive-constitutedness } <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag\textsuperscript{72}’ on the one hand and on the other hand difference-conflatedness’-as-to-totalitative-reification’-in-singularisation\textsuperscript{89}—as-veridical-epistic-determinism\textsuperscript{21} as to relative-ontological-completeness \textsuperscript{90}’ <amplituding/formative-epistemicity>causality–as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’\textsuperscript{77}, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}. This is so fundamentally because of human teleology\textsuperscript{100} speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative-disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative-entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ (as reflecting the implications of human limited-mentation-capacity-deepening\textsuperscript{75} underlying the ontological-contiguity—of-the-human-institutionalisation-process ); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed \textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{13} given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness\textsuperscript{79} de-mentatively/structurally/paradigmatically impacts reflexively on human
appraisal of its prospective relative-ontological-completeness in sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination-
ontological-incompleteness\textsuperscript{89} – presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100} induced desublimating of the effectively-purist-sublimation\textsuperscript{<reflecting-prospective-historiality/ontological-eventfulness }/ontological-aesthetic-tracing\textsuperscript{<perspective–ontological-normalcy/postconvergence-reflected--'epistemicity-relativism'}/> as to the concreteness/concretism/existentialising—enframing/imprintedness–(as-to–' historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)—of-human-ontological-performance\textsuperscript{<including-virtue-as-ontology> of overall prospective sublimation. Human sublimation as such in reflecting holographically\textsuperscript{<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{—of-the-human-institutionalisation-process\textsuperscript{[5]} is existentially susceptible instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism\textsuperscript{76} social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology\textsuperscript{100}. But the overall de-mentating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness\textsuperscript{88} and ‘immaterial/social overall relative-ontological-incompleteness \textsuperscript{–presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100} instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations\textsuperscript{<blinded-to-their-relative-ontological-completeness }\textsuperscript{–‘reference-of-thought’<devolving’}. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-
incompleteness\textsuperscript{89}–presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100} of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\textsuperscript{89}–apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\textsuperscript{88} and the immaterial/social overall relative-ontological-incompleteness \textsuperscript{89}–presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100} of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific–apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmaticsframing-of—predicative-effectivity–sublimation{(as-to-underlying-ontological-commitment\textsuperscript{89})}’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness\textsuperscript{88} weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\textsuperscript{89}–presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100} value-
construct and shallow-supererogating methodologising/mutualising/organising/institutionalising existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology100’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology100; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness—
and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving—that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance—including-virtue-as-ontology reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications—displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholding relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the healthier political framework in the years following the second world-war, as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding the even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the present day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and relatively aporetically irrelevant beholding narratives of identity as a divide-
and-conquer strategy for undermining the real and concrete common sovereign narrative of social transformation possibilities’ as so-reflected with commonly held objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc/arbitrary popping-up in the media at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve “presencing—absolutising-identitive-constitutedness” epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to
the aestheticisation–and–aestheticisation-towards-ontology underlying the overall ontological-contiguity\(^{10}\)–of-the-human-institutionalisation-process\(^{11}\), so-reflected from such science-ideology poor appreciation of the implications of the “historiality/ontological-eventfulness”/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> rendering the scientific adventure as of a living existential-contextualising-contiguity\(^{8}\) exercise. Such that by this token science-ideology conception of science the requisite dispensing-with-immediacy-for-relative-ontological-completeness\(^{8}\)-by-reification\(^{7}\)/contemplative-distension\(^{5}\) as to human limited-mentation-capacity-deepening \(^{7}\) implications in fully appreciating human underlying aestheticisation scheming in conceptualising existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \(^{8}\) behind the ultimate development of human knowledge and science is lost to a flatminded interpretation of human progress based on the mere elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existent existential-contextualising-contiguity \(^{9}\) conception of methods/methodologies/approaches as to mere reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation with a poor appreciation for the prospective originariness-parrhesia,—as spontaneity-of-aestheticisation

Along the same line of intellectual appreciation of prospective sublimation implications as to the fact that nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness\textsuperscript{100–11}reference-of-thought–\textsuperscript{17}devolving> ‘critically points to an overall
nascent knowledge-reification—gesturing directly or indirectly prescient of a comprehensive sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension; the possibility for ontology/science is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing construction’ (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest~subpotency-reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence) and so as to the subject-matter underlying existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity~de-mentating/structuring/paradigming-seeding/incipient–profound–supererogation’, as-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema existential-condescension-of-apriorising/axiomatising/referencing–psychologism’ (and so as effectively reflected by the overall reference-of-thought and reference-of-thought–devolving/subject-matter ‘relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation (as-to-underlying-ontological-commitment’)). In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest–subpotency-reflexivity,-in-the-full-potency-of-existence’s~sublimating–nascence> (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-formulaic–
methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to-\textsuperscript{history}-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to-\textsuperscript{history}-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to-\textsuperscript{history}-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human \textsuperscript{historiality/ontological-eventfulness}/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> rather speaks to deficient knowledge-reification\textsuperscript{7}–gesturing caught up in \textsuperscript{presencing—absolutising-identitive-constitutedness\textsuperscript{4}} as of beholdening-becoming—distortive-originariness/distortive-origination—as-to-\textsuperscript{history}-tracing~inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification\textsuperscript{7} for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–
function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification\(^{87}\) (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-{as-to-underlying-ontological-commitment\(^{66}\)} to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification\(^{87}\)—gesturing, the ultimate possibility for our positivism–procrypticism overcoming its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness\(^{88}\)) lies with the prospective ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-{as-to-underlying-ontological-commitment\(^{66}\)}’ imbued foregrounding—entailment-(postconverging–narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{97}\) in reflecting ‘immanent-ontological-contiguity ’),—as-operative-notional~deprocrypticism (enabling the true and profound attainment of ontological-contiguity\(^{67}\) in the social domain beyond the present practices of disparateness-of-

Critically thus the veracity of human sublimation is rather as to the originariness/origination—perspective of notional—deprocrypticism as effectively reflecting existence—as sublimating—withdrawal,—eliciting—of—prospective—supererogation, and so as to the fact that the notional—deprocrypticism given ‘directly relevant trace of prospective human effectively—purist—sublimation=<reflecting—prospective—historiality/ontological—eventfulness—ontological—aesthetic—tracing—<perspective—ontological—normalcy/postconvergence—reflected—‘epistemicity—relativism’> as to existence—as—sublimating—withdrawal,—eliciting—of—prospective—supererogation is not ‘beholdening wrongly upon the overall relative—ontological—incompleteness—presublimation—construct—of—meaningfulness—and—teleology’. This projected notional—deprocrypticism ontological—normalcy/postconvergence perspective points out that human sublimation in existence actually reflects the overall ontological—contiguity as
human sublimation is not inherently haphazard as the wrong perception of haphazardness arises as from the varying presencing—absolutising-identitive-constitutedness epistemic-projection perspectives whereas from a comprehensive notional–deprocrypticism epistemic-projection perspective in ontological-normalcy/postconvergence human sublimation is rather wrongly apparently haphazard because of human limited-mentation-capacity epistemic-projection perspectives of apprehension of prospective sublimation with ‘the ontological-veracity of

Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. Such a beholding presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to-4) historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) skews the fundamental ontology question by its inherent <amplituding/formative–

The psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation, is de-mentatively/structurally/paradigmatically already validating the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation as paradoxically valid for all instances of aposteriorising/logicising/deriving/intelligising/measuring warranting positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–

As of practical existential implications maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation means that the positivist disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising) cannot be responsive to the social-stake-contention-or-confliction projected as of such a non-positivistic meaningfulness-and-teleology, as to a fundamental positivistic disavowal of its non-positivistic disposedness-(as-to-orientation/value-construct/valuation—and—derived-parameterising) as non-aposteriorising/non-logicising/non-derived/non-intelligising/non-measuring (as from the holding-forth of its non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation). epistemic-projective perspective of omnipotentiality points to the relic/artifactual–beholdening-
mented/structured/paradigmed meaningfulness-and-teleology as to the fact that modern day organisational and institutional structure and purposes (by their social-stakes-contention-or-confliction) in critical ways render the sovereign human increasingly more of a mere cog within systems that as of their technical, bureaucratic and socially-defining presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) purposes are already in many ways decisively de-mentatively/structurally/paradigmatically predefined as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable frameworks as not subject to prospective aporeticism‐overcoming/unovercoming analysis, and thus increasingly undermining generalised-and-representative human appreciation of deconstructive acuity and reappraisal (but for such institutional and organisational predetermined distorted conception of paucity/deficiency as to their very presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conceptualisations), as well as more fundamentally undermining the capacity for human re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—projective-insights’/epistemic-projection-in-conflatedness—of-notional—deprocrypticism-prospective-sublimation) engagement with existence as to all‐encompassing <amplituding/formative—epistemicity>totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic—conflatedness in the contemplation of omnipotentiality. Ultimately (as to human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression in reflecting holographically—)<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process’), omnipotentiality is ever always directly and truly contemplatable as from the ‘absolutely‐
institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—‗meaningfulness-and-teleology‘), as the more critical drawback to overarching reframing of ‘human-decisionality—<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality. This insight can be translated by the fact that nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought— devolving>) as to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence ‘beyond and unbeholding to any human merely-beholdening—aestheticising-reflex of ‗meaningfulness-and-teleology'100, and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’97 as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment96 of ‗meaningfulness-and-teleology'; so-reflecting the fact that overall human civilisation (notwithstanding any given societies/cultures of naïve ’presencing—absolutising-identitive-constitutedness’ as to presencing-distorted—meritocracy,totalising—sovereign-approportioning—of-human-ontological-performance—<including-virtue-as-ontology> ‘merely-beholdening—aestheticising-reflex of ‗meaningfulness-and-teleology‘) could only be possible by the cumulating/recomposuring of all such ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’97 manifested at various stages across all human societies/cultures and diffusible likewise across all human
organizations/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence— as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ more fundamentally speak to ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory–unbeholdening-conflatedness/historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence— as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for

The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’\[97\] as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment\[96\] of \[56\] meaningfulness-and-teleology\[100\], a ‘human psychological-disposition for supererogatory–unbeholdening-conflectedness\[12\] historicity/ontological-eventfulness\[37\]/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’\[97\] as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. This overall insight is particularly salient in the sense that the ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness\[1166\] historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of presublimating intelligibility’ (so-perpetuative as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-

This overall conception underlies the conceptivity/epistemic-reflexivity of both ‘existentialising–decisionality and sublimating–nascence’ with regards to induced sublimation/desublimation (beyond naïve presencing—absolutising-identititive-constitutedness existentialising—enframing/imprintedness<as-to history-tracing—in-presencing—hyperrealisation/hyperreal-transposition}) as from nonpresencing<perspective–ontological-normalcy/postconvergence> epistemic-projection perspective just as so-reflected ‘between reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation and originariness-parrhesia,—as—spontaneity-of-aestheticisation’ and so as of ‘relative-ontological-incompleteness/relative-ontological-completeness—\(\text{sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence}>\) as to human-and-social–expectations/anticipations—metaphoricity—as-re-de-mentating/restructuring/reparadigming—psychologism (just as for instance the notion of length is already caught up in the notion of width in the ‘sublimating<amplituding/formative–epistemicity>totalising/circumscribing/delineating manifestation of a
rectangle’ and so with regards to the fact that human aestheticisation–and–aestheticisation-towards-ontology of meaningfulness-and-teleology\(^{100}\) is ever always about ‘idealised-typification in epistemic-conflatedness\(^{12}\) sublimation or epistemic constitutedness\(^{27}/\text{pseudoconflation }\text{desublimation/gimmickiness’ for eliciting sublimation/desublimation from the ‘full-potency of existence withheld as from ontological-normalcy/postconvergence epistemic projection-perspective’). In other words, existentialising–decisionality and sublimating–nascence perspectively-reflect respectively ‘notional~presencing—absolutising-identitive-constitutedness\(^{3}\) and notional~nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}\>\) transversal continuum’, as to ‘thresholding conception of the relationship between perspective decisionality/human-decisionality-\(<\text{as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation}\>\) and perspective sublimation/desublimation in existence’.

Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-reflexive psychological reorientation of human relation with meaningfulness-and-teleology\(^{100}\) as to the contrast between ‘blurriness in existentialising–decisionality’ and ‘universal-transparency\(^{104}\text{–}(\text{transparency-of-totalising-entailing,-as-to-entailing-}\text{<amplituding/formative–epistemicity}\text{totalising–in-relative-ontological-completeness }\text{of sublimating–nascence}’; wherein ‘universal-transparency\(^{104}\text{–}(\text{transparency-of-totalising-entailing,-as-to-entailing-}\text{<amplituding/formative–epistemicity}\text{totalising–in-relative-ontological-completeness }\text{of sublimating–nascence}’ (as to nascent-particular/incipient-and-material/technical-sublimations-\(<\text{blinded-to-their-relative-ontological-completeness}\>	ext{–}\text{reference-of-thought}\text{–}\text{devolving}\>) is relatively bound to elicit individual and social positive-opportunism deferential-formalisation-transference of existentialising–decisionality while ‘blurriness in existentialising–decisionality’ is relatively bound to undermine individual and social deferential-formalisation-transference as to relative-

desublimating–existentialising–decisionality (thus undermining the requisite relative-ontological-completeness
\textsuperscript{88}–reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology\textsuperscript{100} comprehensiveness of prospective sublimating–nascence’ as of the sublimating–nascence teleological-inflection–(as-to-more-profound-nondisjointing–<amplituding/formative–epistemicity>totalising/circumscribing/delineating)). That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism\textsuperscript{79} consequences of deferring to ‘universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing, as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{88}) of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation ) with the lack of such ‘universal-transparency\textsuperscript{104}–(transparency-of-totalising-entailing, as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{88}) of sublimating–nascence’ as to when ‘blurriness in existentialising–decisionality’ arises inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness\textsuperscript{89}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} desublimating–existentialising–decisionality). The implications of this dual existentialising–decisionality psychological-dispositions is critical particularly with regards to the social-and-institutional-frameworks-of—referencing/registering/decisioning of human \textsuperscript{50}meaningfulness–
and-teleology of ‘blurriness’ in existentialising–decisionality’ as rather poorly amenable to profound ‘unbeholdening sublimating–nascent ontologising-depth of the full-potency of existence’ as it is relatively the case in the natural sciences (and so beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>); as to the fact that existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> more readily makes ‘desublimating nonsense’ of human existentialising–decisionality meaningfulness-and-teleology failing ‘genuine knowledge-reification’ framework involving an immediate potent detour to existence-potency ~sublimating–nascent,-disclosed-from-prospective-epistemic-digression while the relative ‘blurriness’ in existentialising–decisionality’ of social-and-institutional-frameworks-of—referencing/registering/decisioning induce a relative orientation in the social towards presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism> existentialising–decisionality meaningfulness-and-teleology (so-enabled by poor direct/immediate potent constraining to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’). In this regards, many such social-and-institutional-frameworks-of—referencing/registering/decisioning can be construed as ‘frameworks of relatively shallow-ontologisation/subontologisation’ as to the existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ due to ‘blurriness’ in existentialising–decisionality’. It is herein contended that the most fundamental issue with regards to human prospective comprehensive emancipation/sublimation (as promptly reflected with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness — reference-of-thought—devolving> and requisite expansive relative-
presencing—absolutising-identitive-constitutedness existentialising—decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’); and this ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising—decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic ‘meaningfulness-and-teleology’ ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ with regards to sublimating–nascence teleological-inflection-(as-to-more-profound-nondisjointing–<amplituding/formative–epistemicity>totalising/circumscribing/delineating)’, likewise prospectively with regards to nascent-particular/incipient-and-material/technical-sublimations->blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving> as underlying many a technical and natural sciences it is ever always the ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ in the sense that the technician and natural scientist are unconcerned with ‘any social-and-institutional-frameworks-
given that any such social and institutional pretense-of-sublimation cannot generate any inherent technical and scientific sublimating—nascence (wherein if such social-and-institutional-frameworks-of—referencing/registering/decisioning pretense-of-sublimation warrants gravity on earth to be considered as $7 \text{ m/s}^2$ for instance for one reason or another but for existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ), rather the natural scientist and technician will view such social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality pretense-of-sublimation as the very de-mentative/structural/paradigmatic undermining of the possibility of natural science and technical development as to sublimating—nascence beyond just the specific instance but as to a fundamentally underdeveloped social-and-institutional-frameworks-of—referencing/registering/decisioning desublimating—existentialising—decisionality that must be overridden (so that similar intellectual decadent pretense-of-sublimation should not arise) for the prospective possibility for science and technical development sublimating—nascence to flourish; and likewise it is herein contended that absolutising social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality pre-eminence as to imprimatur and the dynamics of imprimatur (with regards to ‘blurriness’ in existentialising—decisionality’ associated with social-and-institutional-frameworks-of—referencing/registering/decisioning) as ‘precedingly defining the possibility of prospective knowledge over inherent knowledge’ is itself the very de-mentative/structural/paradigmatic desublimating undermining of the possibility of veridical social and institutional prospective sublimation/emancipation as to sublimating—nascence, and in that respect no mortal (including the one mortal making this articulation herein) can pretend to a status bigger than existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation to then imply that genuine
knowledge-reification\textsuperscript{17} cannot cross-it/has-to-bow-to-it (for one reason or another), and in that regards the more profound knowledge-reification as to the de-mentative/structural/paradigmatic upholding at all instances of the possibility for prospective genuine knowledge-reification\textsuperscript{17} inducing sublimation/emancipation as to sublimating–nascence is more than just the specific knowledge-reification –gesturing for sublimation but rather more critically overt articulation of the ‘veridical de-mentative/structural/paradigmatic intellectual underdevelopment underlying any such a mortal claim’ as to the fact that no human can claim that \(2+2\) is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in prospective construction-of-the-Self) so-reflected in the fact that the underlying existentialising–frame of knowledge is the very requisite condition for eliciting the true meaningfulness-and-teleology\textsuperscript{100} of any given specific knowledge-reification –gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising–decisionality specific knowledge-reification –gesturing for sublimating–nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness – reference-of-thought- devolving> where the underlying registry-worlview/dimension existentialising–frame of knowledge is of non-positivistic desublimating–existentialising–decisionality and is not addressed/dealt-with as the Galileos, Descartes, etc. understood with respect to non-positivising medieval-scholasticism desublimating–existentialising–decisionality or the \textsuperscript{101}universalising-idealisation Socratic-philosophers sublimating–existentialising–decisionality understood with respect to non-universalising ancient-sophists desublimating–existentialising–decisionality and in both instances as of their prospective registry-worldviews/dimensions implied incipient/seeding <amplituding/formative–epistemicity>totalising–thrownness-in-existence \textsuperscript{1}–,-imbued-projective-arbitrariness/waywardness–(as-to-the-human–projective/reprojective—aestheticising-re-motif–

twentieth century thinkers like Bertrand Russell, A.J. Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification’ as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’ rather than veridically ‘knowledge-reification’ as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so- reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Overall the social-construct itself is reflexive of this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as of its very underlying social-and-institutional-frameworks-of—referencing/registering/decisioning as to social-stake-contention-or-confliction wherein the ‘implicated sublimating–existentialising–decisionality’ underlying the ‘non-immediacy prospective sublimating value and ontological-

This lack of
subontologisation/subpotentiation when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency\textsuperscript{105}-(transparency-of-totalising-entailing,-as-to-entailing,-amplituding/formative–epistemicity\textsuperscript{88}-totalising--in-relative-ontological-completeness) as to a dementative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity\textsuperscript{84} in desublimating–existentialising–decisionality gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of meaningfulness-and-teleology\textsuperscript{100}’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97}. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations\textsuperscript{88}–reference-of-thought-devolving is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness\textsuperscript{7}, wherein blurriness\textsuperscript{7} is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent
prospective knowledge-reification\textsuperscript{87} rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification\textsuperscript{87}—gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology\textsuperscript{87}--<in-existential-extrication-as-of-existential-unthought>). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing--<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{88}) as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency\textsuperscript{105}-(transparency-of-totalising-entailing,-as-to-entailing--<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{88}) of knowledge-reification’ (and so as to self-serving social-vestedness/normativity--<discretely-implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification\textsuperscript{87} for sublimation but rather about gimmicky-and-flashy threads of mere
communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising—decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating ‘universal-transparency’—{transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness} of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating—existentialising—decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness—{as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating—existentialising—decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-
knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification\(^7\)) to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\) as herein underlied with notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> implied formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediactivity-and-deferentialism>-of—meaningfulness-and-teleology\(^10\) in nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection, and so similar to a Derridean ‘heterogeneous genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating–existentialising–decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiolagisation/ontological-escalation in reflection of ‘abstract human
intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relation-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating —amplituding-formative—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality> (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of —amplituding-formative—supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality> by the prior presencing—absolutising-identitive-constitutedness/existentialising—enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of—
ontological-performance\(^1\)\(<\text{including-virtue-as-ontology}>\) is inevitably infused with social-
and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-
driven motives of desublimating—existentialising—decisionality beyond just ‘a purported
baseline conception of neutral knowledge-reification\(^2\)’ with such frameworks projecting their
presencing—absolutising-identitive-constitutedness\(^3\) existentialising—
enframing/imprintedness\(<\text{as-to-}^4\text{historicity-tracing—}in\text{-}presencing—
hyperrealisation/hyperreal-transposition\) conception of the ‘overall possibility of human
existentialising—decisionality as to catchmenting-by-rejection’. In this respect, it is important to
grasp that knowledge-reification then desublimatingly becomes an issue of more than just
rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with
respect to existentialising—decisionality of prospective knowledge-reification, and this reality
given human notional—firstnaturedness—temporal-to-intemporal-dispositions\(<\text{so-construed-as-from-perspective—ontological-normalcy/postconvergence}>\) is reflected by an inherent human
‘referencing/registering/decisioning of shallow-supererogation —to—profound-
supererogation\(^5\) conception of social-stake-contention-or-confliction’ with respect to
prospective knowledge-reification. In many ways recent history of human thought has shown
that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest
politically-driven motives of desublimating—existentialising—decisionality going beyond just
neutral knowledge-reification\(^6\)’ that cannot be ignored as to intellectually decadent practices of
scepticism and blurring underlied by cynical reframing of thought at later moments (which
had been related to sceptically and in blurriness at previous moments), and so as to shallow-
supererogation\(^7\) desublimating—existentialising—decisionality driven by mere institutional-
ascendancy. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to
any such fooleries’ (as to the history of such ploy against postmodern thought) and is
consciously articulated as to the profound-supererogation motive of human sublimation
beyond/and-not-subjected-to the existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of any shallow-supererogation social-and-institutional-frameworks—of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; as to the fact that all human sublimation is instigated as of re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—’projective-insights’/’epistemic-projection-in-conflatedness’—of—notional—deprocripticism-prospective-sublimation) before secondnaturing positive-opportunism institutionalisation, as so-reflecting Derridean messianicity wherein even when the messiah comes they still have to come (inevitably-so given prospective human notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as—from-perspective—ontological-normalcy/postconvergence> to whatever induced supererogation/messianicity of originariness-parrhesia,—as—spontaneity-of-aestheticisation so-associated with human dimensionality-of-desublimating-lack—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>). It is this fact that explains why no underpinning—suprasocial-construct is able to coherently explain human-subpotency ‘fatedness-of-sublimation-over—desublimation to existence-potency—sublimating—nascence,—disclosed-from-prospective—epistemic-digression in reflecting holographically—<conjugatively-and-transfusively> the
ontological-contiguity\textsuperscript{2}—of-the-human-institutionalisation-process\textsuperscript{8}’ since it will always be caught-up in its \textsuperscript{10} presencing—absolutising-identitive-constitutedness\textsuperscript{11} existentialising—enframing/imprintedness-(as-to-\textsuperscript{1} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as to its underlying presencing-distorted—meritocracy/totalising—sovereign-appropriation—of-human-ontological-performance - <including-virtue-as-ontology> desublimating—existentialising—decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating—existentialising—decisionality) lies with the firstnated intemporal individuation relation to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} and the positive-opportunism\textsuperscript{76} arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} implications) and in that regards the triteness of human pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in incrementalism-in-relative-ontological-incompleteness\textsuperscript{89}—enframed-conceptualisation and <amplituding/formative> wooden-language-(imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{100}—as-of—‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications) patently
doesn’t count (given the latter associated temporal desublimating–existentialising–decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating–nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment). The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation vague proceduralism (beyond-the-consciousness-awareness-teleology —<in-existential-extrication-as-of-existential-unthought>— as to the simple fact that human prospective destructuring-threshold—(uninstitutionalised-threshold /presublimating–desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> means that human meaningfulness-and-teleology is ever always caught up prospectively between intellectualism sublimating–existentialising–decisionality and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimating–existentialising–decisionality. This is the case given the requisite condition for the very basic human sublimating–existentialising–decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> (reflecting the ever always present challenge for intellectualism over pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation); so-underscored by the ever always present challenge for
and-teleology while remaining of non-positivistic mindset, which inevitably induces a relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology desublimating—existentialising—decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development—as-to-personality-development and institutional-development—as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—⟨as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⟩ (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating—<amplituding/formative> supererogatory/de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating—
supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>’ and is of no inherent prospective issue in that respect. Such that in fact such a notion of genius thus as to wrongly implicated exceptionalism/abnormalcy is surreptitiously (beyond-the-consciousness-awareness-teleology<in-existentia-extrication-as-of-existential-unthought>) about substituting a different and desublimating—existentialising—decisionality (whether of pedantic incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation or <amplituding/formative> wooden-language-(imbued—averaging-of-thought—as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology<as-of—nondescript/ignoreable—void—with-regards-to-prospective-apriorising-implications>) and particularly so in relatively blurry domains-of-study/domains-of-interest (as we can appreciate that such a ‘technically wrong’ presencing—absolutising-identitve-constitutedness existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) deficient notion of genius’ in spheres of inherently sublimating—nascence as to nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-relative-ontological-completeness —reference-of-thought-devolving> is practically of ‘insignificant import though technical ontological-impertinence’ and so ‘as to their very knowledge-reification’—gesturing as determining sublimating—existentialising—decisionality’ since the immediate/direct potency as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation will be highly challenging to any incompetent mind pretending to be technically/scientifically apt/of—sublimating—existentialising—decisionality in lieu of the truly apt/of—sublimating—existentialising—decisionality technician/scientist, and so unlike desublimating—existentialising—decisionality taking precedence over prospective knowledge-reification arising relatively in blurry domains-of-study/domains-of-interest where such
ontological-normalcy/postconvergence> as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ just as for instance the notion of length is already caught up in the notion of width in the ‘sublimating <amplituding/formative–epistemicity>totalising/circumscribing/delineating manifestation of a rectangle’ and so with regards to the fact that human aestheticisation—and—aestheticisation-towards-ontology of meaningfulness-and-teleology is ever always about ‘idealised-typification in epistemic-conflatedness sublimation or epistemic constitutedness/pseudoconflation desublimation/gimmickiness’ for eliciting sublimation/desublimation from the ‘full-potency of existence withheld as from ontological-normalcy/postconvergence epistemic projection-perspective’). As we can appreciate that more critically than any individual persons punctual existential ontological-performance into morality/ethics, etc., the vices-and-impediments manifested in any registry-worldview/dimension are more decisively explained by the given registry-worldview’s/dimension’s ‘destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> dynamics of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’ (with the grandest deeds of ontological-performance —<including-virtue-as-ontology>/morality/ethics, etc. rather reflected in the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of any such destructuring-threshold—(uninstitutionalised-threshold/presublimating–desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> as to prospective human ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating–<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>’ rather

mentative/structural/paradigmatic flawed ‘desublimating–referenced/registered/decisioned self-
presence/self-constitutedness’<in-perspective–epistemic-abnormalcy/preconvergence’). Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising–decisionality’ is ontologically flawed given human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> to arrive at desublimating–existentialising–decisionality/sublimating–existentialising–decisionality overlooking organic-knowledge implications (whether by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation’ implied ‘pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’ or ‘intemporal unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ implied ‘as to the very inherent knowledge-reification’–gesturing as determining sublimating–existentialising–decisionality’). Thus as to critical pure-ontology (underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’<imbued-and-

as-of-existential-unthought> existentialising–frame. This prospect of human temporality

This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity ~de-
mentating/structuring/paradigming-<seed/incipient-shallow/supererogation-as-mentally-aestheticised-preconverging/dementing-qualia-schema> as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory-shallowness or supererogatory-prof profoundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality prone to ‘presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—presencing—absolutising-identitive-constitutedness existentialising—hyperrealisation/hyperreal-transposition (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification’—gesturing as determining sublimating—existentialising—decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>) can thus de-
). This points out why human knowledge is veridically a race-to-the-top-exercise/millipede-movement as to the very givenness of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> that is not subjected to human-subpotency; as to the fact that it is only a human limited-mentation-capacity maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation relation with existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that can induce sublimation-over-desublimation. Such a veridical ontology (in relegating/doing-away-with/superseding the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is critically all about ‘a coherent totalising-entailing knowledge-reification—gesturing’ exposed to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>; with such a coherent totalising-
entailing knowledge-reification—gesturing accounting for overall knowledge
historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism> as to human limited-mentation-capacity-deepening imbibed conceptivity/epistemic-reflexivity (so-reflected in the ‘momentousness-driven coherence of knowledge-reification’—gesturing as to entailing—amplituding/formative—epistemicity totalising—in-relative-ontological-completeness’ so-associated with human limited-mentation-capacity-deepening). It is important to note in this regards that ‘knowledge-reification—gesturing historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism>’ is the more profound conception of ontology and science (as to human dimensionality-of-sublimating—amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation), and so as of the ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ driving ontology and science across their punctual developments from past to present and into the future (underlined by human ‘sublimating—referencing/registering/decisioning self-becoming/self-conflatedness/formative—supererogating—<projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing—in-perspective—ontological-normalcy/postconvergence’ arising as of human limited-mentation-capacity-deepening”). This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation’ in a soulless ‘temporal beholdening as
sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification )’, with this shallow-supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating–referenced/registered/decisioned self-presence/self-constitutedness -<in-perspective–epistemic-abnormalcy/preconvergence > (without or poorly appreciating the profound-supererogation involved in true science and ontology as to ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>’) leads to dominance/vested-interest prodded social-stake-contention-or-confliction determination of knowledge as of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of genuine knowledge, in ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’). It is herein contended that in many ways as to human
ontological-good-faith/authenticity~de-mentating/structuring/paradigming-
<seeding/incipient–profound~supererogation~,as-mentally-
aestheticised–postconverging/dialectical-thinking~qualia-schema>, it is technically

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all

The fact remains that the genuine social intellectual–function/posture (even as to when it is undermined with punctual pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimatingly pandering to the powers of the day) remains the only human conduit to sublimating ontological-veracity that cannot be substituted but rather supererogated as to undermining such pedantic incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a de-mentative/structural/paradigmatic issue of intellectual irrelevance no less than punctual technical or scientific incompetence can be transformed into a de-mentative/structural/paradigmatic issue of technical or scientific irrelevance but rather requisite profound-supererogation over say pseudoscience and/or ‘distorted institutional science’ (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification’ tends to be notionally/epistemically caught up between a sublimation and desublimation/gimmickiness de-mentating/structuring/paradigming’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.); and in many ways dominion/statal–logic–(preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening–whether–trepidatious-or-warped-or-preclusive-or-occlusive–and–its-consociated-dominance/vested-interest-subontologising-skewed-

In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic-(preconverging/shallow-supererogating–human-and-social–expectations/anticipations—dementating/structuring/paradigming–psychologism’–as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> subverting the sublimating–existentialising–decisionality of the genuine social intellectual–function/posture; and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically
skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct existentialising—enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this respect, the very underpinning–suprasocial-construct existentialising—enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) (as to as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) poses a major challenge as public-

This reality underlies the contention herein of the ‘overrated pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of meaningfulness-and-teleology\textsuperscript{105}’ as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it is a discursivity of subpotency as to human-subpotency which doesn’t necessarily subject/supersede existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{7} as warranted for prospective sublimation/emancipation (even as human social-and-institutional-frameworks-of—referencing/registering/decisioning of existentialising–decisionality by reflex tend to absolutise human discursivity as to presencing—absolutising-identitive-constitutedness\textsuperscript{13} social-vestedness/normativity-

‘human profound-supererogation’ in-of-itself is the grander and more determinative element of contemplation/analysis as to when relative-ontological-completeness avails with regards to prospective re-ontologisation/omnipotentiality’ over any given underpinning–suprasocial-construct existentialising—enframing/imprintedness–⟨as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⟩ or their contrastive comparisons like capitalism/communism failing prospective aporeticism overcoming/unovercoming, in the sense that any such underpinning–suprasocial-construct pretense-of-arrogation of human profound-supererogation (as to their implied beholdening-becoming—distortive-originariness/distortive-origination–as-to–historicity-tracing–inhibited-mental-aestheticising) are not the absolution/absolute-possibility of human profound-supererogation which is ever always subjectable to re-originary–as-unenframed/unbeholdening/outlier-conceptualisation– ⟨imbued-postconverging/dialectical-thinking–projective-insights/epistemic-projection-in-conflicatedness/of-notional–deprocripticism-prospective-sublimation⟩ (as the very manifest rule reflecting holographically–conjugatively-and-transfusively> the ontological-

This can starkly be appreciated in the instance of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology wherein for instance the notion of God-of-plane in an animistic social-setup speaks of a fundamental redefining/restructuring/reparadigming notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/‘distantiation of contemplative existentialising–frame as to transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness—<in-perspective–epistemic-abnormalcy/preconvergence > of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality

In this respect, we can appreciate that appropriate notional–self-distantiation–imbued–remotif-and-re-apriorising/re-axiomatising/re-referencing is effectively what is bound to bring about momentous historicality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> as to a human genuine social intellectual–function/posture (underlied by ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality) wherein without such a ‘submission and making up to existence’s ontological-normalcy/postconvergence’ the transition say between classical-mechanics—axiomatic-constructs and theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs would have been problematic (if the proponents of the former as of human institutional social-stake-contention-or-confliction adopted a distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing as to ‘submission and making up in contrastive equivalence to human-subpotency epistemic-abnormalcy/preconvergence’ in relative-ontological-incompleteness, but then the very healthy intellectual environment meant that even the proponents of the superseded classical-mechanics—axiomatic-constructs were already involved in a healthy notional–self-distantiation–imbued–remotif-and-re-apriorising/re-axiomatising/re-referencing that would be receptive to such an eventual ‘nonpresencing/<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’) while in contrast such transformation implied (with respect to the relative blurriness of ‘social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality as to immaterial/social overall relative-ontological-

The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-
produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory~human-subpotency>–effecting imbued epistemic-totalising’ preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,—as—spontaneity-of-aestheticisation’ before the incipience of metaphoricity and then meaningfulness-and-teleology as to existentialising—frame) ‘that then permits hermeneutically/reproductively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (noting here that what is key here is ‘the existence constrained educated sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educated sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of—social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension’ implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbuing human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality”) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific
auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ that are closely attached-and-driven directly or indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t necessarily generate less public interest but should primarily be motivated with inherent knowledge-reification’s sublimating–existentialising–decisionality implications). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojective/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can
succumb to but which is as of their self-reflection actually subpotentiating). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{88}-by-reification /contemplative-distension\textsuperscript{89} to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\textsuperscript{90}’ due to the overly denatured and insufficiently challenging—and–independence-eliciting existentialising–frame of meaningfulness-and-teleology\textsuperscript{91} (as to veridical hermeneutic/reprojective/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective existential-contextualising-contiguity\textsuperscript{92}-in-reification\textsuperscript{93} of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{94} and so rather than ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\textsuperscript{95}’ with a poor sense of the prospective existential-contextualising-contiguity\textsuperscript{96}-in-reification\textsuperscript{97} of knowledge content). Where the cultivated ‘passive integration of schema of thinking/contemplation and engagement’ is rather as of ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\textsuperscript{98}’ over eliciting an active thought/contemplative engagement that is sufficiently
normalcy/postconvergence> sublimating—existentialising—decisionality apriorising/axiomatising/referencing—relation-to-the-world). Ultimately, technicity/profundity is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness > reference-of-thought– devolving> existentialising–decisionality (as no normalised/stereotyped/selfhelping/feel-good knowledge is hardly of any help to the technician/practitioner/scientist in the face of constraining existential implications) or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’–by-reification /contemplative-distension’ requiring appropriate notional~self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>) in public spaces is not detached from ‘public interestedness/profundity mediocrity’ and ‘public awareness/accounting/decisioning mediocrity’. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification’ so-underlying <supererogatory~human-subpotency>—effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology’ technicity/profundity whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as
of \(<\text{supererogatory—human-subpotency}>\text{—effecting}\) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-
reification’/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising—decisionality implications even if complete understanding as of complete meaningfulness-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-

In this regards, the sovereign—function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual—function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-

growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-

reification’/contemplative-distension’ as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in
subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign—function/posture
ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>'). The sovereign–function/posture ontologising-aptness warrants that it doesn’t fall prey to falsehoods of ‘contrastive equivalence’ implied as of distractive-alignment-to-<reference-of-thought-<of-apriorising/axiomatising/referencing> manifested with ontologically-flawed process/processive bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc.), and further requires that effective public and institutional intellectual contestation of aptitudinal-substantive-pertinence are not be subverted by monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/contemplative-distension’.
(that ultimately undermines technicity/profundity which is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—
reference-of-thought—devolving> existentialising–decisionality or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality); and so to fundamentally bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-traction—of-desublimating—meaningfulness-and-teleology—(as-perspective-lost-of—superoogatory—acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-meaningfulness-and-teleology
theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling-in-deferential-formalisation-transference (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in a ‘framework of de-mentated/structured/paradigmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-discretely-implied-functionalism rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/ quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on side-lining salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-discretely-implied-functionalism has paradoxically effectively-and-preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellection-aptitude body that is the public university as to its underlying social-construct

In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign—function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human <amplituding/formative–epistemicity>totalising—thrownness-in-existence, ‘human meaningfulness-and-teleology is effectively of epistemic-totalising consequence (thus implying its profoundness/ontologising-depth is of notional-nondisjointedness/contiguity/coherence as of ‘<amplituding/formative>disposedness—as-to-orientation/value-construct/valuation—and—derived-parameterising) and <amplituding/formative>entailment—as-to-totalising-contiguous/coherent—factuality-of-variability’ underlined as to its given prospective foregrounding—entailment (postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional—deprocrypticism); with the implication here that ‘institutional
process/processiveness as of mere-formulaicity as to mere-formulaic–
methodologising/mutualising/organising/institutionalising (while clearly inducing
disontologising socio-econo-political outcomes)’ cannot be construed as the all-be-all of human
institutions but rather ‘process/processiveness has to be associated with
sublimating–existentialising–decisionality institutional socio-econo-political outcomes and
purpose reappraisal’ as to profound
supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness ontologising/re-
ontologising conception of social-stake-contention-or-confliction to avoid their pedantising

dimensionality-of-sublimating —<amplituding/formative–epistemicity>growth-or-

veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–

social reality and overall public perception of concrete social reality with respect to public
outcomes of social-stake-contention-or-confliction’ and so rather than the naive
counterintuition of mere ‘shallow process/processive conception as so-often reflected with a
process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an
atmosphere of incoherence between concrete social reality and overall public perception of
concrete social reality’ (and so as to the fact that ‘existence as to ontological-veracity
consequence of the social reality’ so-underlined by manifest social-stake-contention-or-
confliction issues should as to human epistemic-growth/conflicatedness /postconvergence
instigatively drive public debates rather than ‘the naivety that the balancing of human-

subpotencies as of vague process/processive bothsidesism mental-reflex in constitutedness/preconvergence will then reflect sublimating social ontological-veracity’ so-underlined by issues of relatively little relevance to general social-stake-contention-or-confliction with the latter just making room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation induced distractive-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing>-29 and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing> issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation<-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness<-as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of–meaningfulness-and-teleology10 reflective of nonpresencing<-perspective–ontological-normalcy/postconvergence> epistemic-projection implications), with
such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise
consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in existential-
extrication-as-of-existent-unthought. Thus ontological-veracity (as to the pertinence of
‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–
function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering
conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to
existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression’
in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-
econo-political outcomes and implications rather than the ‘passive deification of institutional
process/processiveness as of mere-formulaicity as to mere-formulaic–
methodologising/mutualising/organising/institutionalising’ (underlying why such a deficient
social intellection posture will tend to be one step behind cumulating desublimating socio-
econo-political outcomes as if it is most critically about reflecting upon such cumulating
desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a
posture of anticipative analysis and preemption). This mere process/processiveness induced
deficiency is often critically reflected in a ‘barest and passive/unreflexive conception of
sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social
enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’
(as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by
the public university or the press body or the ‘overall backdrop of the professional class
intellectualism’) that is ‘much more than about leaving the room for competing/contending

narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the
sovereign–function/posture’; so-underlying the more profound-supererogation notion of
sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated existentialising—enframing/imprintedness-(as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the very same social themes are recurrently and superficially raised as to a numbing-traction—of-desublimating—meaningfulness-and-teleology—as-perspective-lost-of-*supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking—of—notional—deprocrypticism—(in-dimensionality-of-sublimating)—(<amplituding/formative—epistemicity>growth-or-conflatedness)/scalatisation—as-to-rescalarisation—as–re-ontologisation)’ treatment); so-reflecting a ‘habituatedness/mental-colonisation of the sovereign–function/posture to the presencing—absolutising-identitive-constitutedness11 social-vestedness/normativity’ cynically construed as enabling a social-stake-contention-or-confliction distractive-alignment-to reference-of-thought-of-apriorising/axiomatising/referencing pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiality exercise in undermining prospective human re-ontologisation/omnipotentiality. Such a disontologising pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside
the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification" gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern day democratic process as it shuts-off requisite sovereign ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by-reification'/contemplative-distension’ so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’); as to when such pedantry openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediatically and socially popularised’ inducing (given direct-and-indirect epistemic-totalising consequence of human ‘meaningfulness-and-teleology’) ‘incoherence between concrete social reality and overall public perception of concrete social reality’. The implications of such dereification gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness<-<in-perspective–epistemic-abnormalcy/preconvergence>- of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-{as-to-> historicity-tracing—in-presencing— hyperrealisation/hyperreal-transposition}’ and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with regards to human limited-mentation-capacity-deepening. Critically in this regards, human
civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existence-reality and so in a cogent percolation-channelling-<in deferential-formalisation-transference> existentialising–frame allowing for human and humanity’s ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). We can appreciate in this regards that the specialist whether astronomer, technician, electronician, etc. is more critically sublimating/emancipating as to a ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ acting upon the breadth of socially cogent percolation-channelling-<in deferential-formalisation-transference> existentialising–frame of intellectualism involving genuine social intellectual–function/posture projection of prospective human transcendence-and-sublimity/sublimation/supercerogatory–de-mentativity as first-level technicity/profundity elucidation (as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression) with fellow specialists and then of derived-knowledge implications percolating to the appraisal of ‘overall social intellection-aptitude body’, and not a directly normalised/stereotyped/selfhelping/feel-good conception of knowledge relation with the general public in distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> (undermining such a sublimating/emancipating cogent percolation-channelling-<in deferential-formalisation-transference> existentialising–frame imbued notional–self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> conception which is exactly what best defines and upholds human sovereign–function/posture as to appropriate coherence between concrete social reality and overall public

that in the middle to long run such posturing falsehoods are untenable notwithstanding their

scientifically and by many a postmodern thinker doesn’t need to ‘take a page into any ideological unknown’ to effectively contemplate of the practical implications for prospective re-ontologisation; and as herein contended with regards to ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ that the fundamental idea for such prospective social re-ontologisation lies with ‘appropriate constraining deblurring analysis in profound-supererogation of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality aporeticism overcoming/unovercoming as to a translating-insight as from nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought-devolving> sublimating–existentialising–decisionality’ (given the very ontological-normalcy/postconvergence nature of existence reflected as existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ). We can appreciate in this regards the role of constraining existence in the ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ driving the natural sciences as to the ‘transversal and cross-subjecting sublimating-selectivity-and-desublimating-deselectivity as to manifest sublimation of scientific ideas’ effectively building up the various fields in perpetuative re-ontologisation (and so-construed as to a ‘science supererogating exactifying/precisioning–of-sublimation-as-to-entailing-theoretical,-conceptual-and-operant-implications> conception’ that is not undermined by a false conception of science reflected by ‘a science ideology desublimation in existentialising—enframing/imprintedness-(as-to-‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’)’). However, because of the high emotional-involvement in the social, the default posturing one way or the other is ever always to adopt a <self-reflexive>-willed–will ideological stance (integrating <amplituding/formative> wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-

This should not be construed as a weakness as often wrongly implied of the anti-ideological stance of postmodern thought but rather speaks of a strength in the sense that it is naïve to think the pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of presencing—absolutising-identitive-
constitutedness social-vestedness/normativity-<discretely-implied-functionalism> can be veridically undermined/superseded by a ‘corresponding antipodal/diametrical compensatory subontologisation’ (as manifested between the conflicting capitalistic and communistic ideologies), rather than a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself so-implied as of supererogatory-progressivity as to human aporeticism overcoming/unovercoming in enabling prospective sublimating–nascence for human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality. Such a postmodern philosophical anti-ideological stance of ‘nonpresencing,<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ (just as is the case with the natural sciences as to ‘prospective scientific sublimating reconstruals of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal as of human limited-mentation-capacity-deepening’ not to be confused with science ideology which is rather about ‘consciously or unconsciously usurping the sublimating credence of science in its science ideology pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation exercise’) is all about human candidity/candour-capacity for effectively tackling prospective aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness¯-by-reification /contemplative-distension’ and doesn’t carry false promises of shallow supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness as to mere-formulaic methodologising/mutualising/organising/institutionalising (as associated with ideological stances reflected say as to capitalistic or communistic ideologies); and so critically because the
more salient point for aporeticism overcoming/unovercoming though it may seem counterintuitive is not ideological solutions of presencing—absolutising-identitive-constitutedness but rather (notwithstanding the high emotional-involvement) appropriate human development as to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as from nonpresencing-<perspective–ontological-normalcy/postconvergence> as a prerequisite speaking hermeneutically/reprojectively/supererogatingly/zeroingly of a prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> change in human apriorising/axiomatising/referencing—relation-to-the-world than just ‘meaningfulness-and-teleology’ within prior mere-formulaicity (of prior mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-

This again confirms that the ontological-veracity of genuine human knowledge is rather about notional–self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/‘distantiation of contemplative existentialising–frame as to transversality–of-affirmative-and-unaffirmative–disambiguat

In this regards, it should be appreciated that as to notional—deprocrypticism reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process ‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-empiricism’ and prospectively ‘no positivism—procrypticism basis for advancing prospective deprocrypticism/nondisjointing’ but for ‘the inherent nonpresencing—<perspective—
ontological-normalcy/postconvergence> nature of existence’ instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest in-effect absolution as to their given “presencing—absolutising-identitive-constitutedness” as so-fraudulently implied by our positivism–procrypticism anti-relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further claim recommending that humanity should rather go back to the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution “presencing—absolutising-identitive-constitutedness”’ as a more coherent anti-relativism stance as so-expliciting the idea that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism proponents seem to project progressive views without truly grasping the contradictory implications of progressivism and anti-relativism explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas ‘true knowledge has to carry its sublimation within itself as to its notional~nondisjointing totalising-entailing’ for it to be socially potent and effective, as we can appreciate that the potency of a scientist is not in themselves but rather their inherent coherent knowledge formulation which then has to avoid explicited or implicit contradictions). In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotism). In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the
card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing-totalising-in-relative-ontological-completeness as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction-of-desublimating-meaningfulness-and-teleology—(as-perspective-lost-of-supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbuement-of-postconverging/dialectical-thinking–of–notional–deprocripticism—(in-dimensionality-of-sublimating—)<amplituding/formative–epistemicity>growth-or-conflatedness//scalarisation-as-to-rescalarisation-as–re-ontologisation’). Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindedness as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification‘/contemplative-distension’.

Basically, we can garner that ‘the very epistemic condition inherent to human limited-
reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation’ for their ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction imbuing existentialising-frame of disontologising/ontologising-and-re-ontologising’ so-reflected in their existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) with their ontological-performance’-<including-virtue-as-ontology> so-thresholding between their given ‘second-level as to human-subpotency ascendance driven self-referencing-syncretising human-existential-tautology as to desublimating derivation of intelligibility’ and their given ‘first-level as to existence-potency’—sublimating–nascence ascendance driven self-referencing-syncretising human-existential-tautology as to sublimating derivation of intelligibility’. Hence registry-worldviews/dimensions ‘self-referencing-syncretising forward-facing projection of mere-formulaicity’ speaks to their inclination for ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ that will formatively drift into prospective disontologisation over prospective ontologisation/re-ontologisation; with the ultimate notional~deprocrypticism aporeticism overcoming/unovercoming cognisance and implication that ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ is inevitably given as to a mere-formulaicity relation to intelligibility, thus requiring a deprocrypticism ‘rehabilitated conceptualisation of human purposeful profound-supererogation’ together with ‘rehabilitated conscious reflexion about the inherent prospective deficiency in mere-formulaicity of human intelligibility’ (rather than a convenience-seeking defaulting individual and social mental-reflex into mere-formulaicity as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’). In this regards, human ‘fundamental ontologising/disontologising confliction’ (with regards to ‘social-functioning-and-accordance—as-of-social-stake-

Rather the ‘fundamental ontologising/disontologising confliction’ (as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) arises effectively as of ‘a prospective nonpresencing-perspective—ontological-normalcy/postconvergence> change in knowledge-reification> gesturing in

In this regards, the idea that the

In this regards, the genuine social intellectual–function/posture should be able to ‘sneer’ at its social-setup, as to the fact that its ‘incarnation of prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology imaginaries’ cannot be beholdening to its presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> social-setup but rather ‘beholdening to existence-potency’ ~sublimating–nascence, disclosed from prospective-epistemic-digression prospect for its social-setup epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification /contemplative-distension’ (just as the true technician and scientist is not beholdening to ‘peoples’ human-subpotency temporal-dispositions but rather to existence-potency ~sublimating–nascence, disclosed from prospective-epistemic-digression technical or scientific implications for veridically enhancing the human sovereign–function/posture with regards to their technical or scientific undertaking).
Such a conception of the genuine social intellectual–function/posture (as it so-reflects ‘the human notional–philosophy existentialising–frame of existential unenframed conception of human philosophy’ beyond any given institutionalised sublimating/desublimating culture of philosophy) renders ridiculous modern manifestations of ‘media-driven, social networking, popularity-seeking as well as institutional imprimaturing conception of supposed intellectualism’ that by supposedly succumbing/ingratiating to institutional and social lip-servicing (as to an ontologically-flawed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness -by-reification’/contemplative-distension”) supposedly so-earning intellectual recognition/due; thus paradoxically subjecting the notion of intellectualism to human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ which is in want for its prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology imaginary. The blunt reality of true intellectualism couldn’t be more diametrical as to the fact that the genuine social intellectual–function/posture involves unaccommodating the social-setup’s presencing—absolutising-identitive-constitutedness’ social-vestedness/normativity-<discretely-implied-functionalism> rather than further cultivating its nonsensical, nombrilistic and self-important pretenses/claims of manifest in-effect absolution presencing—absolutising-identitive-constitutedness’. The blunt fact is that society is never its own inherent intellectual-and-moral absolute reference and thus is in want for its intellectual-and-moral development explaining why progress happen and the role of the genuine social intellectual–function/posture being about encouraging such progress, with the consequence that an ‘ingratiating supposedly intellectual relationship’ with human institutions as to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ is ever always (beyond-the-consciousness-awareness-teleology\textsuperscript{10} -\textsuperscript{<in-existential-extrication-as-of-existential-unthought>}) bound to lead to the institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimation and so associated with dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity\textsuperscript{<discreetly-implied-functionalism>} and ‘generalised social <amplituding/formative>\textsuperscript{discontentful} wooden-language (imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{78}–narratives—of-the\textsuperscript{8} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{10}). This disparity of momentousness/magnanimity/scale/magnitude underlies the notional~ratio-contiguity/ratiocination de-mentative/structural/paradigmatic implications (as to living-

be elicited as from an angling-of-imaginary abstract-projection drivenness over psychic-
nascency outturn-projection drivenness. This ‘human existentialising—decisionality dual
psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in
inducing desublimation or sublimation’ effectively underlies the inherent existentialising—
decisionality of underpinning—suprasocial-construct as to underlying socio-econo-political
subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as
to the fact that in many ways ‘the very existentialising—realness of such abstract notions as to
their nondisjointing tends to be <amplituding/formative–

underpinning—suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying

vestedness/normativity—<discretely-implied-functionalism>’ that-drives/is-behind such
subontologisation/ideology-over-ontology disjoining abstract notions as technocratic,
capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of
social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of
crisis when such ‘underlying social dynamics of present—absolutising-identitive-
constitutedness social-vestedness/normativity—<discretely-implied-functionalism>’ manifest
themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures
of social-stake-contention-or-confliction’ but also persistently across time in more subtle ways).  
Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening ’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory—involuting-or-guilding-or-amplifying–scalarisation=<as-to-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation>) is de-mentatively/structurally/paradigmatically closed-off, and there is ‘supposedly no sublimating/emancipating existentialising–decisionality meaningfulness-and-teleology’ that can arise outside the underpinning–suprasocial-construct existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as putting into question the very ontological-veracity of the subontologisation/ideology-over-ontology ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as the underpinning–suprasocial-construct becomes an enclosing/hemming-in religiosity inculcated as defining the.

In this respect, the possibility of critical pure-ontology is rather underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility–<imbued-and–

enframing of that underpinning–suprasocial-construct ‘beholdening as sovereignising–imbued-
subontologisation/subpotentiation’ (as reflecting the reality of human ‘shallow-supererogation\(^7\)
of supererogatory–progressivity’). Thus beneath any supposedly underpinning–suprasocial-
construct (reflected in the modern-day underlying socio-econo-political
subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist), is a
more fundamental ‘nonpresencing–<perspective–ontological-normalcy/postconvergence>

in effect creatively permeating all such ‘underpinning–suprasocial-construct of ‘presencing—
absolutising-identitive-constitutedness\(^9\) existentialising–entailing’; and so (especially potent
when such ‘nonpresencing–<perspective–ontological-normalcy/postconvergence> notion of

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory—progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory—progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures
of social-stake-contention-or-confliction’ rode as so-reflecting by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a decrementative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human
supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term
skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national
supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness \textsuperscript{1} social-vestedness/normativity—<discretely-implied-functionalism>\textsuperscript{1})). Further the capitalistic model as to its fabrication of winners and losers given its ‘all-englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to presencing—absolutising-identitive-constitutedness \textsuperscript{1} social-vestedness/normativity—<discretely-implied-functionalism>\textsuperscript{1}). The relative veracity of supererogatory–progressivity is
strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over
‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). the so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\(^{\text{66}}\)) as to the overall ontological-contiguity —of-the-human-institutionalisation-process provides the requisite basis for prospective human ontological-performance\(^{\text{67}}\)-<including-virtue-as-ontology> convergence towards ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct \(<\text{amplituding/formative–epistemicity}>\text{totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold}\(^{\text{103}}\) imbued secondnaturing’) technically equates to ‘supposed human-subpotency abstract self-determinative ontological-performance\(^{\text{72}}\)-<including-virtue-as-ontology> capacity as to the full-potency of existence’ so-implied with the protensive-consciousness ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness\(^{\text{12}}\) of notional–deprocrypticism deneuterising’—referentialism’; and so as to the effective construal of the possibilities of human \(^{\text{7}}\) meaningfulness-and-teleology\(^{\text{100}}\) beyond ‘mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally—

interpretation can be made about the posture of a thinker like Heidegger during the troubled

reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given
historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity\(^6\) of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our `<amplituding/formative–epistemicity>`-totalising-self-referencing-syncrretising/circularity/interiorising/akrasitic-drag\(^3\) prior relative-ontological-incompleteness`-of-` reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity\(^6\) of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity\(^6\) is at best only of palliative consequence and not truly aetiolisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity\(^6\)-<profound-supererogation`-of-mentally-aestheticised–postconverging/dialectical-thinking\(^2\)—qualia-schema>` as of prospective relative-ontological-completeness`-of-` reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiolisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments\(^8\). This existential reality about ontological-prinemovers-totalitative-framework\(^7\) is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation`-<as-to-perspective-ontological-normalcy/postconvergence-implied-
prospective-aporeticism-overcoming/unovercoming’ inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 30’s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity as of its <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness of reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity—<profound-supererogation>—of-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness of reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism–or–preempting—disjointedness–of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity—<profound-supererogation>—of-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness of reference-of-thought implied as of deprocrypticism–or–preempting—disjointedness–of–reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving our ‘modern take attitude/mental-disposition/care–and–episteme’ vices-and-impediments.

As a further elucidation, prospective notional-contiguity/epistemic-contiguity——<profound-supererogation——of-mentally-aestheticised–postconverging/dialectical-thinking——qualia-schema> as of prospective relative-ontological-completeness——of——reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation——(<supererogatory——ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity——<shallow-supererogation——of-mentally-aestheticised–preconverging/dementing——qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity——<shallow-supererogation——of-mentally-aestheticised–preconverging/dementing——qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically——<conjugatively-and-transfusively> the ontological-contiguity——of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact
that dimensionality-of-sublimating —<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^\text{97}\) is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to Descartes thinking-proposition for budding-positivism reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ and thus in many ways the naïve/flawed Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation perspective whereas Descartes is more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising (as of dimensionality-of-sublimating —<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness\(^\text{10}\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^\text{97}\)) which philosophically precedes his secondary thinking-proposition as reasoning-from-results/afterthought; such that budding-positivism aprorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger notional-discontiguity/epistemic-discontiguity\(^\text{97}\)-<shallow-supererogation\(^\text{97}\)-of-mentally-aestheticised—preconverging/dementing\(^\text{97}\)—qualia-schema> why intending to be of prospective aprorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is actually of an <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<br/>aposteriorising/logicising/deriving/intelligising/measuring with prior positivism
aestheticised-postconverging/dialectical-thinking \(\sim\) qualia-schema\(\sim\) as of prospective relative-ontological-completeness \(\sim\) reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating\(\langle\)amplituding/formative\(\rangle\)supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and de-mentating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the
budding-positivism

relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising\textsuperscript{88}/circumscribing/delineating construct being the \textsuperscript{88}reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} but rather human-subpotency adjusting as to existence-potency ~sublimating~nascence,~disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness\textsuperscript{88}. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness -of- reference-of-thought/relative-ontological-completeness\textsuperscript{88}-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{97}, implied as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with regards to the \textsuperscript{88}reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective \textsuperscript{51}meaningfulness-and-teleology\textsuperscript{100} is an \textsuperscript{89}incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our already established psychoanalytic disposition rather than a \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in resetting-our-psychoanalytic-disposition/prospective-grounding as of \textsuperscript{12}<amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought in conflatedness \textsuperscript{1459}, such
that this leads to constitutedness\textsuperscript{13} when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of \langle supererogatory–ontological–de-mentation–stranding–or-attributive-dialectics \rangle that our human <amplituding/formative–epistemicity>totalising/circumscribing/delineating \textsuperscript{8}reference-of-thought is transcended for prospective relative-ontological-completeness\textsuperscript{14}–of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity\textsuperscript{6}–<shallow-supererogation\textsuperscript{22}–of-mentally-aesthetised–preconverging/dementing –qualia-schema>. disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–relativism’>. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme conception, and specifically as relevant for understanding

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocriptivism—or—preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>, as of prospective transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the notional–deprocriptivism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed
That is singularisation /epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’. singularisation /epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>, points out that dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance ←<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation /epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance ←<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation /epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance ←<including-virtue-as-ontology> equivalence/correspondence with the full-
potency-of-existence’s-sublimating–nascence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening\textsuperscript{2}\ of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\textsuperscript{5}\ devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension \textsuperscript{6}. This reality of the need to construe of human-subpotency ontological-performance\textsuperscript{7}-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation /epistemic-immanence/veridical-epistemic-determinism over dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation /epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation /epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself is a de-mentating/structuring/paradigming singularisation /epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation /epistemic-immanence/veridical-epistemic-determinism, as of the “human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{8} insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct
of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implicated-‘prospective-aporeticism-overcoming/unovercoming’>. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implicated-‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the
natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional-conflatedness/singularisation/epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation/epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance-including-virtue-as-ontology-correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-

The notion of human
‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity’ can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness reflects the former’s prior relative-ontological-incompleteness as dialectically out-of-phase/preconverging-or-dementing–apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity’ at uninstitutionalised-threshold actually highlights that from a prospective perspective of prospective relative-ontological-completeness of reference-of-thought our positivism–procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance-<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaningfulness-and-teleology is coherent, failing to factor in that it is preconverging-or-dementing–apriorising-psychologism at its uninstitutionalised-threshold as reflected as disjointedness-as-of- reference-of-thought preconverging-or-dementing–apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought’; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness of reference-of-thought

Such ‘excogitative-blanking of prospective existential-contextualising-contiguity -in-reification ’ can be construed as to when say the non-positivistic mindset goes about articulating \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity\textsuperscript{100}-reification,\textsuperscript{87} and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought mindset construal of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} that utterly overlooks the de-mentative/structural/paradigmatic reference-of-thought denaturing \textsuperscript{3}implications of its prospective disjointedness of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} out of prospective existential-contextualising-contiguity\textsuperscript{100}-reification,\textsuperscript{87}, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism -slantedness mental-disposition and the developing social dynamics with human temporality\textsuperscript{99}. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} about existential-contextualising-contiguity ’; but then at its uninstitutionalised-threshold\textsuperscript{103} where its reference-of-thought de-mentative/structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness\textsuperscript{89} of reference-of-thought, it always systemically faces
notional-procrypticism/notional-disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performance <-including-virtue-as-ontology> as <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology <-in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing —apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance <-including-virtue-as-ontology> as <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing —apriorising-psychologism representation as temporal denaturing ontological-performance <-including-virtue-as-ontology> of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—epistemicity-relativism of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/superrational—de-mentativity it is not about grounding as of the present

Rather it is more candid to relate to the ontological-contiguity — of the human institutionalisation-process\textsuperscript{68} as of human limited-mentation-capacity-deepening \textsuperscript{53}, and so as of prospective intemporal secondnatured institutionalisation induced \textsuperscript{104} universal-transparency\textsuperscript{105} - (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising--in-relative-ontological-completeness \textsuperscript{88}), deferential-formalisation-transference and habituation in positive-opportunism\textsuperscript{8}. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology\textsuperscript{100} is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness\textsuperscript{87} - of-\textsuperscript{7} reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{87} as of the developed disposition to register such implications as of their intemporal/longness-of-register-of— meaningfullness-and-teleology\textsuperscript{100} pertinence; as the notion of crossgenerational \textsuperscript{14} de-mentation—(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying \textsuperscript{1} meaningfulness-and-teleology\textsuperscript{100}. 
Thus the metaphoricity of the exercise of transcendence-and-sublimity/sublimation/supererogatory de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness as-to-totalitative-reification in-singularisation as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity of-the-human-institutionalisation-process so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism. referencing-syncretising/circularity/interiorising/akrasiatic-drag from a prospective singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-reference-of-thought, as so implied from singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism-procrypticism as from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective depcrypticism—or—preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The idea of ontological-bad-faith/inauthenticity\textsuperscript{9} raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, with the possibility of denaturing\textsuperscript{15} as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primers-totalitative-framework\textsuperscript{10} reflection of existential-contextualising-contiguity\textsuperscript{10}. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating\textsuperscript{14}—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-
conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness–of–reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness–of–reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originally-as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking–’projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness–of–reference-of-thought with
the latter’s \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)\(^\dagger\), given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\(^\dagger\) constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\(^\dagger\) of reference-of-thought naïve non-transcendental \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\)\(^\dagger\), it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology\(^\dagger\)’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\(^\dagger\) transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification\(^\dagger\) and dereification\(^\dagger\), the notion of singularisation\(^\dagger\)/epistemic-immanence/veridical-epistemic-determinism as it reflects
ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfullness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfullness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the <amplituding/formative–epistemicity>totalising-devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfullness-and-teleology;
with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism-slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification—dissemination—and-dereification—dissemination—implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology’ as-of-prospective-relative-ontological-completeness—postconverging-or-dialectical-thinking—apriorising-psychologism and as-of-prior-relative-ontological-incompleteness—preconverging—or-dementing—apriorising-psychologism respectively; it is only ontologically-veridical difference-conflicatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism from the projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness—postconverging-or-dialectical-thinking—apriorising-psychologism recognising this ‘preconverging-or-dementing—apriorising-psychologism and postconverging-or-dialectical-thinking—apriorising-psychologism variance/discrepancy of meaningfulness-and-teleology’ that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity as implied by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of reifying

Note that on the imaginary supposition that no such prospectively projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology’, mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive-constitutedness—as—epistemic-totality—dereification—in-dissingularisation—as-flawed-epistemic-determinism as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity of ‘the very same physics amplituding/formative—epistemicity totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness—as—epistemic-totality—dereification—in-dissingularisation—as-flawed-epistemic-determinism is in reality preconverging—or-dementing—apriorising-psychologism as of its relative-ontological-incompleteness. But then just as the reflex mental state and attitude/mental-disposition/care–and–episteme in a universalisation–non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care–and–episteme of the reifying prospective positivism to arrive at ontological-veridicality, likewise more fundamental in undermining the elucidation of the manifestation of psychopathy and social psychopathy is the fact of an ordinariness <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) reflex mental state and attitude/mental-disposition/care–and–episteme in our positivism–procrypticism that will be resistant to adopting the reifying perspective or attitude/mental-disposition/care–and–episteme of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical–dementation of our positivism–procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe existential-contextualising-contiguity—in-reification /dereification by adopting the positivism–procrypticism dereifying perspective or attitude/mental-disposition/care–and–episteme in its prior relative-ontological-incompleteness in an exercise of ontologically-flawed identitive-constitutedness—as—epistemic-totality—dereification—in-dissingularisation—as-flawed-epistemic-determinism. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism—slantedness is universally
transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity –in-reification'/dereification' as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity –in-reification'/dereification' arise as of their temporal threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation'/—preconverging/dementing –apriorising-psychologism, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism"-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance' -<including-virtue-as-ontology> leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this author that more critically manifestations of postlogism"-slantedness across all the registry-worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-incompleteness"-of-'reference-of-thought, with transcendental implications that goes well beyond the ad-hoc conception of manifestations of postlogism -slantedness but more broadly conceive as of the destructuring/aetiologisation/ontological-escalation implications arising from underlying relative-ontological-incompleteness" and relative-ontological-completeness" reference-of-thought with regards to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-

This insight is in effect the futural rejoinder to the Foucauldian hermeneutics of the subject with respect to human prospective reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity capacity; in the sense that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{\textsuperscript{67}}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{12}–as-to-totalitative-reification\textsuperscript{37}–in-singularisation\textsuperscript{37}–as-veridical-epistemic-determinism\textsuperscript{21} \textasciitilde{amplituding/formative–epistemicity>causality–as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity\textsuperscript{72}} has always called upon a certain apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument development of the human subject itself as enabling-and-making-available the capacity for that human subject to tackle the prospective issues of its world. In this regard, the question could be asked: what is the capacity of the \textsuperscript{10}universalisation–non-positivism/medievalism mindset to tackle prospective issues warranting a positivism self-consciousness psychology, and by extension
