Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\textsuperscript{1} method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\textsuperscript{1}, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\(^{15}\) \(<\text{amplituding/formative}>\) wooden-language-\(<\text{imbued—temporal—mere-form/virtualities/dereification}^{9}/\text{akrasia-drag/denatured/preconverging-or-dementing}^{10}—\text{narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology}^{10}\) stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-\(<\text{as-to—historiality/ontological-eventfulness }/\text{ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’}>\) right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification\(^{20}\) of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating\(^{14}\) \(<\text{amplituding/formative}>\) supererogatory—de-mentativeness/epistemic-growth-or-confledness \/<transvalutive—>

This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \textsuperscript{7}) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-
deficient-reflexivity of our <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing — narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology} it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications}>; with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in
dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\(^d\) (whether or not, beyond-the-consciousness-awareness-teleology\(^d\)\(<\inexistent-existential-extrication-as-of-existential-unthought\>) as this only leads to a destructuring-threshold\{-uninstitutionalised-threshold\}/presublimating–desublimating-decisionality\>–of-ontological-performance\{-\}<including-virtue-as-ontology\> habitation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\> rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation\<-unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'\> inclinations that poorly appreciate existence-potency\<-sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory\>~sublimating–nascence,~sublimating–desublimating-decisionality\>\~of-ontological-performance\<-\>\~sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory\>-de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence\<-\>-<amplituding-formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> whether by mystifications-outside-existential-contextualising-contiguity -that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness \> -
implications/conclusions/projections-of-prospective-knowledge-reification\(^\text{12}\) - in a dumbing-down posturing that implies that the present is unchangeable as of presentencing — absolutising-identitive-constitutedness\(^\text{13}\), etymological-flouting-as-of-mere-conceptual-patterning-and-mere-stigmatising-of-competing-theories-and-concepts-on-the-naivety-that-such-stigmatising-representation-will-undermine/override-their-analysable-ontological-veracity and an approach as of the ordinary-egotistic-perspective-in-existential-extrication-that-absolutises-the-present-that-is-passed-as-knowledge-reification\(^\text{14}\) all undermining informed insight and the requisite human intellectual and emotional sacrifice for genuine knowledge-reification\(^\text{15}\) and prospective progress involving the authentic self and social transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then provides paradoxically the underlying meaningfulness-and-teleology\(^\text{16}\) infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious dementative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification\(^\text{17}\) as to existence-potency\(^\text{18}\) — sublimating—nascence, disclosed from prospective-epistemic-digression or the critical analysis of such knowledge-reification\(^\text{19}\) but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification\(^\text{20}\) pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity\(^\text{21}\) on the naïve
mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness - ⟨sublimating~referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating—<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence⟩) as to human-and-social–expectations/anticipations—metaphoricity ’—as-rede-mentating/restructuring/reparadigming—psychologism’ as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutising-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn’t fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification implications as of existential-reality’).

We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without
questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance-<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-
threshold \textsuperscript{*}/presublimating–desublimating–decisionality)--of-ontological-performance--<including-virtue-as-ontology>. The fact is knowledge-reification is of ‘existential <amplituding/formative–epistemicity>totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening-- and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency--sublimating–nascence,-disclosed-from-prospective-epistemic-digression over our human-subpotency motives, the same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency--sublimating–nascence,-disclosed-from-prospective-epistemic-digression dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as to existence-potency--sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications. The fact is the ‘a priori or axiomatic conception’ is effectively what precedes and validates logic as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, however there is no logical-basis/logic--as-to—transversality~of-affirmative-and-unaffirmative–disambiguated–motif-and--
mathematics and many a natural sciences is so efficient (as of the underlying positivism/rational-empiricism reference-of-thought achieved ‘universal-transparency’- (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules— apriorising/axiomatising/referencing–psychologism so-reflected as our present positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism’ first induced by budding-positivists like Copernicus, Galileo, Descartes, Newton, Leibniz, etc.) that in many ways mathematicians ‘don’t go on to be thinking about the soundness of axioms once these are construed as of existence’ for instance with the axioms-of-addition, but this doesn’t mean that the idea of unsoundness of ‘a priori or axiomatic conception’ (as to invalidate dialogical-equivalence) doesn’t exist especially so when it comes to blurred domains not only in the social sciences but sometimes in the natural sciences as well where lack of universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) arises such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing meaningfulness-and-teleology as of existence’ not only out of good-intent or ontological-good-faith/authenticity but ontological-bad-faith/inauthenticity as well. (In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing meaningfulness-and-teleology pretense of being as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ is effectively central to all prospective institutionalisations in relative-ontological-completeness as reflected with the Socratic-philosophers putting in question the apriorising/axiomatising/referencing of non-universalising sophists specifically with Socrates during his trial as to his highlighting of
the inconsistencies of his accusers sophistic non-universalising apriorising arguments priorly for the notion of a mutual logical coherent engagement to arise in the very first place with Socrates rather purporting that such a possibility of mutual logical coherent engagement could only arise on the basis of his universalising apriorising arguments as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and budding-positivists equally putting into question the apriorising/axiomatising/referencing of non-positivising/non-rational-empiricists medieval-scholasticism pedants specifically as with Galileo’s implicit dismissal of any such pretence of logical coherence engagement in the face of what he could see positively through the telescope with respect to the ‘imaginary pedantic machinations’ of his interlocutors and so as to the prospective positivism/rational-empiricism apriorising/axiomatising/referencing as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation; as in fact the very notion of prospective institutionalisation is one of renewing reference-of-thought—and reference-of-thought devolving meaningfullness-and-teleology apriorising/axiomatising/referencing prospectively as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, putting into question the <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-dragnature—imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology) of the prior registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness superseded/transcended). With such teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of—<amplituding/formative> supererogatory–dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> spirit of intellectualism, it can difficultly be fathomed how such a ground-breaking evental-instigation as the appearance of Einsteinian physics in early 20th century prompting great excitement and
curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency/sublimating–nascence,-disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency/sublimating–nascence,-disclosed-from-prospective-epistemic-digression over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>), and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of
pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency\(^\dagger\)~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification\(^\dagger\) as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification\(^\dagger\) rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of\(^\dagger\)—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency\(^\dagger\)~sublimating–nascence,-disclosed-from-prospective-epistemic-digression consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-
out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic-philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-

reference-of-thought of the non-positivism/medievalism mindset as of its de-

because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-

herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the
preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions

‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics

virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’

each registry-worldview/dimension is only capable of the virtue reflected by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation

Reality being blunt/incisive as it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to us, is in essence of potent operant and deterministic phenomenality that doesn’t have any place for our thresholding discrete incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation notions

Rational-Realism as the initial institutionalisation/intemporalisation recomposure orientation that goes beyond just articulating reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation but involves anticipating human notional–firstnatures—

two dilemma with respect to the conceptualisation of virtue

intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation

‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence

Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding<-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)

There is no reason for de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding<-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold

ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’

notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>-pedestals-disambiguation before logical processing/operation

‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as this highlights ontological-primemovers-totalitative-framework

it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans

the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it ............................................................................ 2771

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ ........................................ 2785

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising-registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising-registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? ......................................................................................................................................................2793

an ‘open-minded bilateral-conceptualisation-of-knowledge’ wherein the human Self itself has to prospectively be developed/constructed-out-of-its-prior-shiftiness-of-the-Self in ‘epistemic-conflatedness’ construed as epistemic-ricochetting/transepistemicity construct’ (so-construed as projective-insights) to then be able to register the entailing implications of prospective knowledge (so-construed as predicative insights), in the sense that for instance without implying the need for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as of prospective positivism construction-of-the-Self/self-consciousness a non-positivism mindset as animistic or as medieval in its non-positivism ‘closed-minded unilateral-conceptualisation-of-knowledge’ (thus lacking the positivistic projective-insights as of apriorising/axiomatising/referencing–psychologism) will only end up ‘complexifying the mechanical outcome of positivism ‘meaningfulness-and-teleology’ on the basis of its non-positivism as animism or as medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ as implied in an animistic God of plane type of articulation and this applies likewise with our positivism–procrypticism with respect to prospective depprocrypticism, as this is exactly what explains the disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> of all registry-worldviews/dimensions as to the fact that successive registry-worldviews/dimensions involve successive renewing of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-

vices-and-impediments—as-of–reference-of-thought imbued de-
There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ly predisposed human mind’ as of prelogism or prelogism-as-of-conviction,-as-to-profound-supererogation-(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal—as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism or prelogism—where we abide by (and so, even in the case of ‘poor or bad supplanting—conviction-as-to-profound-supererogation—postconverging/dialectical-thinking—apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism-as-of-conviction,-as-to-profound-supererogationmind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism or postlogism—as-of-compulsing—nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation—(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its—reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology—construed as ‘how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)’,
i.e. meaning-as-form or pathologically/compulsively hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>, contrasted to the normal prelogism-as-of-conviction,-as-to-profound-supererogation97 minds prelogic state (‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’ construed as ‘what does the veridical logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation97 of a given existential situation intrinsically imply as relevant and sound outcome’, i.e. meaning-as-ontologically-veridical/in-conviction-as-to-profound-supererogation97, whether thereafter the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation97 is rightly or wrongly assumed). Hence prelogism97 or prelogism97-as-of-conviction,-as-to-profound-supererogation97 is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation97 is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation97 can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism78 or postlogism78-as-of-compulsing–nonconviction/madeupness/bottomlining-as-to-threshold-of-shallow-supererogation this essentially has to do not with an issue of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation97 but rather an issue of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, as logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation97 is on the basis of a sound reference-of-thought (non-perversion-of-reference-of-thought) such that fundamentally ‘the notion of the dueness for logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation—...

The postlogic disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge\textsuperscript{14} with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism/preconverging-or-dementing-integration (due to psychopathic/postlogism\textsuperscript{78} induced social loss-of-awareness of the social universal-transparency\textsuperscript{92}-(transparency-of-totalising-entailing,-as-to-entailing-celebrating/formative–epistemicity-totalising-in-relative-ontological-completeness)) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

Underlying such graduated conceptualisation of human consciousness as of
possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional–conflatedness of notional–deprocrypticism can be reinterpreted operantly as of ‘notional–referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional–deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of—reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional–deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing —apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments
levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness’-of-reference-of-thought of ‘meaningfulness-and-teleology’ neuterising thus refers to human attribution of ‘meaningfulness-and-teleology’ as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance’-<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional-deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, that is secondnatured as of its prior relative-ontological-incompleteness—of-reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance’-<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness-reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness-reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation\textsuperscript{27}—preconverging/dementing—apriorising-psychologism. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology\textsuperscript{20} is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of reference-of-thought of the former as it \textsuperscript{28}neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism\textsuperscript{28} as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascriptive-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of \textsuperscript{59}neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating, as-of-its-specific-constitutedness\textsuperscript{1}

Amplifying/formative wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our procrypticism—or—disjointedness-as-of-reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional—referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness —of—reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of amplifying/formative—epistemicity—totalising—ratio-contiguity/ratiocination-as-
referentialism’ as of their respective epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness -of- reference-of-thought, so-construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply
the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising -induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which is non-rules—apriorising/axiomatising/referencing—psychologism—as-impulsive-or-accidented-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of base-institutionalisation. This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance—including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals

In this regard, a non-positivistic as ‘a superstitious centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology\(^0\) implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\) as associated with say a medieval or animistic social-setup implies that a postlogism -slantedness, conjugated-postlogism or any other temporal mental-disposition with regards to say with notions-and-accusations-of-sorcery will meet with a mental-reflex across the registry-worldview/dimension <amplituding/formative–

implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology. This explains why it is de-

mentatively/structurally/paradigmatically impossible for either such a non-positivistic social-

setup or our procrypticism social-setup to resolve the vices-and-impediments associated with

of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments crossgenerationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity:<profound-supererogation-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity:<profound-supererogation-of-mentally-aestheticised~postconverging/dialectical-thinking–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of
non-positivistic superstition and its vices-and-impediments. The same applies from a notional-deprocrypticism perspective with regards to a procrypticism—or—disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism—or—disjointedness-as-of-reference-of-thought arises in the first place is in circular <amplituding/formative-epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered—epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental <amplituding/formative-epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology reference-of-centered—epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturing such a prospective institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from the notional-deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ grasp of intrinsic-reality/ontological-

It is rather the conflatedness projective/anticipative contrast between the said uninstitutionalised-threshold however the mental-reflex complex of presence and the prospective positivism institutionalisation however the mental-reflex complex of the latter’s abstractness as from the presence uninstitutionalised-threshold perspective that

in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology ◦ nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness▷ of reference-of-thought, and falling back to construe/conceptualise ◦ meaningfulness-and-teleology ◦ in non-positivistic animistic or medieval terms—as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived- perversion-of-reference-of-thought-◁ as effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation▷ as of unsoundness-or-ontological-bad-faith/inauthenticity◁ of reference-of-thought. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms–as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness of reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness of reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, and thus rather implies an de-mentation—(supererogatory—ontological—de-mentation—or—dialectical—de-mentation—or—attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced) of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced)—

It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions for non–transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional–deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for-operant-or-incidenting-predicative-insights thus involving the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the prospective relative-ontological-completeness—reference-of-thought of the (given consciousness’s neuterising-induced-or-deneuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation—existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation <as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-

Thus a transcendental engagement as articulating prospective relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought in an opened-construct-of-meaningfulness-and-teleology\textsuperscript{100} strives to go beyond a prior institutionalisation \textit{<amplituding/formative>} wooden-language-\textit{(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology\textsuperscript{100}-as-of-'nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>)} at its uninstitutionalised-threshold\textsuperscript{103}, which simply triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on the basis of the priorly set/established \textit{‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ taken for granted without questioning as of intradimensional grounded meaningfulness-and-teleology\textsuperscript{100} at its uninstitutionalised-threshold \textsuperscript{103}. Such a transcendental engagement recurrently put into question in conflatedness\textsuperscript{12} the prior institutionalisation \textit{‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ at its uninstitutionalised-threshold \textsuperscript{103} by substituting it with the prospective institutionalisation \textit{‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its prospective relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought, before effecting any ‘operant-or-incidenting-predicative-insights or logical-coherence’ for prospective institutionalisation \textit{56}meaningfulness-and-teleology\textsuperscript{100}, and this explains its \textit{5}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology; while on the other hand the grounded uninstitutionalised-threshold recurrently overrides as of constitutedness beyond-the-consciousness-awareness-teleology -<in-existing-extrication-as-of-existential-unthought> any notion of its ontologically deficient ‘amplituding/formative-epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded meaningfulness-and-teleology, and this explains its reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold, and explaining why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a maximalising-recomposing-for-relative-ontological-completeness —unenframed-conceptualisation behind the ontological-contiguity of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposure ⟨as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposing-for-relative-ontological-completeness —unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence-⟨implicit-epistemic-veracity-of nonpresencing—perspective—ontological-normalcy/postconvergence⟩ analysis
does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness —of—reference-of-thought of same totalising—devolved—purview—as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supercogitation—de-mentativity as of opened-construct-of—meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation but presences in their wooden-language—(imbued—averaging-of-thought—as—to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as—of—nondescript/ignoreable—void—with-regards-to-prospective-apriorising-implications) consider maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as of exceptional-askance and unordinary due to their totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing—apriorising-psychologism.

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly
veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory–de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness of reference-of-thought, as of the incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and
resolved by the notion of maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-’reference-of-thought-’-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising—devolved—purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—asa-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-’reference-of-thought—devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the
exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naïvely articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative–epistemicity>totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in (re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘-‘projective-insights’/‘epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation) ) originary/event ‘-of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness ‘-of- reference-of-thought–devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs
with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework\textsuperscript{73} interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in constitutedness\textsuperscript{7} rather than striving to expand the transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{73} existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory-de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology\textsuperscript{100} implications. This again leads to lumping, artificial categorising and undermines
originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional–deprocrypticism (protensive-consciousness deneuterising -induced)- reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness analysis as of its prospective relative-ontological-completeness—of—reference-of-thought/ontological-normalcy, points out that
actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—dementativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; consciousness defined as of ‘notional <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression. The fundamental fact is that existence as of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought—devolving-as-of-instantiative-context is the absolute a priori of intrinsic-reality/superseding—oneness-of-ontology prior to any human derived knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, and hence existence as of existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought—devolving-as-of-instantiative-context is the foundational absolute a priori any (given consciousness’s neuterising-induced-or-deneuterising induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmning—of-meaningfulness constructs, by
which our limited-mentation-capacity can most pertinently accede to by maximalising-

‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective—ontological-

potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to
existential-possibilities. The underlying insight explaining human limited-mentation-capacity
flawed mental-disposition for constitutedness lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>
imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s neuterising-induced-or-deneuterising—induced—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation behind the ontological-contiguity — of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising—induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-
imbricatedness/threadedness/recomposuring’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-threshold. Thus, the ontological-veracity as prospective relative-ontological-completeness-of-reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmating—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>imbricatedness/threadedness/recomposing’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding—oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s
highlighting the ontological-veracity implications of constitutedness \(^1\) and conflatedness \(^2\), it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\) highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness \(^3\)-of- reference-of-thought/epistemic-abnormalcy/preconvergence \(^4\)/destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness \(^5\)-of- reference-of-thought/ontological-normalcy/conflatedness \(^6\)’ lies in the fact that the construal/conceptualisation of an epistemic-totalising ~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology \(^9\) and the inherent ontological-veracity/intrinsicness of the \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\) beyond-the-consciousness-awareness-teleology \(^10\)–<in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness \(^5\)-of- reference-of-thought/ontological-normalcy/conflatedness \(^6\). Since there is no direct correspondence between relative-ontological-incompleteness \(^3\)-of- reference-of-thought/epistemic-abnormalcy/preconvergence \(^4\)/destructuring with the inherent intrinsicness of the \(<\text{amplituding}/\text{formative–epistemicity}>\text{totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\).
intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /deconstructing can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /deconstructing will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <amplituding-formative-epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’ as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it. This fully articulates the dynamic relationship of
human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness¹ and as relatively-perfect/near-perfect/perfect conflatedness¹², construed as notional~conflatedness¹² as of constitutedness¹³-to-conflatedness¹² of human limited-mentation-capacity. Insightfully, it highlights that constitutedness¹³ arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness¹² arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’. Notional~conflatedness¹²/constitutedness¹³-to-conflatedness¹² as such highlights an underlying historiciality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of the constitutedness¹³-to-conflatedness¹² dynamism of human limited-mentation-capacity with respect to human ontological-performance²⁰<-including-virtue-as-ontology>-as-of-its-broadest-implications amenable to human-subpotency/‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency²⁰~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, and so whether as of natural ontology/natural sciences, social ontology/social sciences, aesthetics-as-ontology, virtue-as-ontology, etc. of critical relevance is

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory—human-subpotency>—effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. In the bigger framework, human <amplituding/formative—epistemicity>totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance—<including-virtue-as-ontology> as of collective human shallow-to-deepening—limited-mentation-capacity,~as-limited-mentation-capacity-deepening implies that human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue inherently suffer in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process}.
existential-contextualising-contiguity, whereas limited-mentation-capacity conflatedness conceptualisation as of notional–deprocrypticism-as-preempting—disjointedness-as-of-reference-of-thought construes of a ‘non-mediating incisive as referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness profoundness/completeness’ by an incisive <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought that further expands human grasp of the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-veracity of the <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive conflatedness, pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions.
categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising_referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness, with no intermediating construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising_referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construeds in terms—of—axiomatic-construct of the various neuterising. Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology. Given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of—the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-
meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness reference-of-thought perspective of notional-deprocripticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-confletedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional-deprocripticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-confletedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neutralising. historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as of the notional-confletedness construct, wherein

This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{1}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-
universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence-{implicated-’nondescript/ignorable–void ‘-as-to-presencing—absolutising-identitive-constitutedness }’ what is existence/existential-possibilities not factoring Being conflatedness <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, and further in contradiction to the notion of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance —<including-virtue-as-ontology>). Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly
grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/superoeditary-de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought is of absolute ontological-performance\textsuperscript{72}<-\textsuperscript{including-virtue-as-ontology}, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness -of- reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} for \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology\textsuperscript{100}<-\textsuperscript{in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} on such renewed reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} for \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold \textsuperscript{!}! notional-deprocrypticism as preemt—disjointedness-as-of—reference-of-thought is actually a ‘perpetual transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ as of notional-deprocrypticism as <amplituding/formative—preempting—disjointedness-as-of—reference-of-thought which points out that the various uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to procrypticism are actually levels of disjointedness-as-of—reference-of-thought and that the various institutionalisations from base-institutionalisation to notional-deprocrypticism are actually levels of preempting—disjointedness-as-of—reference-of-thought all reflected as of notional-deprocrypticism. Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance’-<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness’s
“human<amplituding/formative–epistemicity>totalising~purview-of-construal” which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness‘; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology<ontological-performance>-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s ‘reference-of-thought—as-of-“reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness” horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness< in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold<prospective institutionalisation> temporal individuations circular undermining of the prospective institutionalisation<reference-of-thought-as-to-postconverging–dementating/structuring/paradigming implied transformation/shift as transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness\(^\text{\textsuperscript{1}}\)-of-reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\(^\text{\textsuperscript{2}}\) reference-of-thought which is in <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^\text{\textsuperscript{3}}\) with its ultimate crossgenerational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency\(^\text{\textsuperscript{4}}\)-{transparency-of-totalising-entailing-as-to-entailing}<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness\(^\text{\textsuperscript{5}}\) as of prospective relative-ontological-completeness\(^\text{\textsuperscript{6}}\)-of-reference-of-thought of the prospective institutionalisation’s reference-of-thought.

Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\(^\text{\textsuperscript{7}}\) as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity\(^\text{\textsuperscript{8}}\)-<shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> in constitutedness\(^\text{\textsuperscript{9}}\), and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening\(^\text{\textsuperscript{10}}\) then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness\(^\text{\textsuperscript{11}}\) reflected in the prior mathematical model/axiomatic-construct by

the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology ontological-performance.-<including-virtue-as-ontology> of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of‘ reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human totalising–purview-of-construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human totalising–purview-of-construal’ or or totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicited axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is
the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, with increasing ontological-performance —<including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferioring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’
for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory-de-mentativity’.

But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity\(^{39}\) of other applied and transcendental-enabling/sublimating/supererogatory-de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity\(^{39}\) knowledge-reification\(^{77}\) for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about
sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-
demonstrable in the occurrence of existential phenomena/manifestations; even as such a
mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest
veracity of mathematics is often for all practical purposes mostly overlooked by
mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to
the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is
so nominally obvious that hardly any experimenting is warranted for confirmation and this
existential nominalism can easily lead to a reductionist confusion that mathematics (as to its
epistemic-conception phenomen/manifest-subpotency<-in-transitive-conflicatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> with regards to the
ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the
‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of
a ‘very existentially nominal supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-

hand why the mere introduction of mathematics, statistics and data in domains requiring
‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-

mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the
inherent domain’s epistemic-conceptions phenomen/manifest-subpotencies<-in-transitive-
conflicatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence> given
In physics, the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendentally enabling/sublimating/supererogatory de-mentativity of the physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendentally enabling/sublimating/supererogatory de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendentally enabling/sublimating/supererogatory de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^\d\). The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendentally enabling/sublimating/supererogatory de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendentally enabling/sublimating/supererogatory de-mentativity, contrary to the precept of all other
knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension as-of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness–of- reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩} that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness-as-of- reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩} and conflatedness, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness construed of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a
conception of logic and logical analysis points to the <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated *reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> that is unconsciously implied as of our positivism-procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures ‘meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism<amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications—for-explicating-ontological-contiguity’. Being as of its implied notional-deprocrypticism’s conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> as of each registry-worldview/dimension, and it is rather the emanant insight of the-
Good/understanding/knowledge-reification\textsuperscript{1}/ontological-primemovers-totalitative-framework\textsuperscript{2} conceptualisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} that carries the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold\textsuperscript{3} vices-and-impediments\textsuperscript{106}; and so by successive Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{9} as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence-(implicitd ’nondescript/ignorable–void ’–as-to– presencing—absolutising-identitive-constitutedness\textsuperscript{13}). ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify ‘meaningfulness-and-teleology’ as knowledge which can only arise as of the ‘maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’. Further as of such phenomenological transcendental conflatedness\textsuperscript{\textdegree}, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression\textsuperscript{\textdegree} but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{77}meaningfulness-and-teleology\textsuperscript{\textdegree} as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness\textsuperscript{\textdegree} as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality\textsuperscript{\textdegree}/longness over temporality /shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality -to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness\textsuperscript{\textdegree}<-amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity\textsuperscript{\textdegree} as of \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{\textdegree} — unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual

<amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory~de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory~de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity.<shallow-supererogation ~of-mentally-aestheticised~preconverging/dementing –qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningness-and-teleology ontological-performance <including-virtue-as-ontology>, as of the very same <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. exercise as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity of mentally-aestheticised–preconverging/dementing–qualia-schema rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity–shallow-supererogation–of-mentally-aestheticised–preconverging–qualia-schema’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation–supererogatory–ontological–de-mentation–dialectical–de-mentation–stranding–or-attributive–dialectics) with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological ‘meaningfulness-and-teleology’ could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness ‘of’ reference-of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior relative-
ontological-incompleteness—is a de-
mentative/structural/paradigmatic deficiency inducing the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness—of-reference-of-thought conflatedness which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational meaningfulness-and-teleology psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity—is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency—(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) avails with respect to social-
stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic–totalisation facticity but crossgenerationally human ‘re-conventioning’ whether driven by a sense of pure-ontology as of ontological-faith–notion–or–ontological-fideism—imbued-underdetermination–of-motif–and–apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness–and–teleology with respect to social-stake-contention–or–confliction induces human transcendence–and–sublimity/sublimation/supererogatory–de–mentativity. Consider in this regard historical transcendence–and–sublimity/sublimation/supererogatory–de–mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de–mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention–or–confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic–totalisation–facticity of meaningfulness–and–teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding–formative–epistemicity>totalising–self-referencing–syncretising’ of meaningfulness–and–teleology with regards to perceived social-stake-contention–or–confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de–
mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag 'human nature’, both internal social
transformation however lethargic and cultural diffusion will be basically impossible, and
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\(^2\) induced transformation arises because
human perceived social-stake-contention-or-confliction drifts within-and-across social-setups
whether with regards to basic trading, curiosity, social competition and generally as of a
predisposition to achieve optimum existential possibilities. In this regard, the rapid
transformation implications of cultural diffusion arise because it makes relatively immediately
available to individuals and social groups a comprehensive set of options however limited the
nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains
why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of
'meaningfulness-and-teleology'\(^{100}\) within a given social-setup in the immediate-and-short-term.
Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective
relative-ontological-completeness\(^{14}\)-of–reference-of-thought occurs because de-
mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of
intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-
teleology\(^{100}\) given their supposedly coherent ontological-commitment\(^{16}\) as of more profound
ontological-primemovers-totalitative-framework\(^{12}\) validation as to existence-
potency\(^{18}\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression, as re-
originary-as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-
postconverging/dialectical-thinking ‘‘projective-insights’’/‘epistemic-projection-in-
conflatedness ‘‘of-notional–deprocrypticism-prospective-sublimation)’, that are most likely to
be syncretised cross-generationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought–categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-{amplituding/formative–epistemicity}>totalising–in-relative-ontological-completeness} about
such metaphoricity\textsuperscript{57} instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity\textsuperscript{57}, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\textsuperscript{66} that is subject to existence-potency ~sublimating~nascence,-disclosed-from-prospective-epistemic-digression validatory ontological-prime-movers-totalitative-framework\textsuperscript{73}. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment\textsuperscript{66} threshold of a social-setup \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100}, allows for the possibility for prospective metaphoricity\textsuperscript{57} to reconstrue-and-redefine the social-setup \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100}. Such prospective metaphoricity\textsuperscript{57} possibility cannot be preempted because even the social-setup conventioning in its functional operation of \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} needs this supposedly coherent ontological-commitment\textsuperscript{66} in other to affirm itself over any spontaneously arising disruptive \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\textsuperscript{57} in one way or the other when such spontaneously arising disruptive \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} is not of poorer but rather of a superseding ontological-prime-movers-totalitative-framework \textsuperscript{<amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications,-for-explicating-ontological-contiguity\textsuperscript{67} as of the social-setup given supposedly coherent ontological-commitment\textsuperscript{66}. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment \textsuperscript{66} respectively as of
superstitious spiritualism or scholasticism pedantic dogmatism, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective of relative-ontological-completeness of reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophisticated/pedantic inclinations to such prospective metaphoricity. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-

Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality /longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment–disposition.

More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<in-deferential-formalisation-transference>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn’t matter that
budding-positivism can be demonstrated as more ontologically pertinent as of ontological-
primemovers-totalitative-framework\textsuperscript{7}, so long as it is socially and institutionally credible to
uphold non-positivism \textsuperscript{9} meaningfullness-and-teleology\textsuperscript{100} in effect by undermining its
deferential-formalisation-transference. It is with regards to such sophistic/pedantic
disinclination to prospective metaphoricity\textsuperscript{7} that the latter elicits contortioning gesturing,
wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we
can appreciate that however say a Protagoras engagement with Socrates may project coherence

the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus
undermining in the bigger picture the notion of knowledge as of universal coherence

individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-
type-or-individuation (as we can appreciate that the recognition and then censure and then
banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of
heliocentrism then his persecution for publishing, rather speaks de-

The overall implication here as implied by \textsuperscript{4}historiality/ontological-eventfulness\textsuperscript{12}/ontological-aesthetic-tracing--<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> is that only a contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology\textsuperscript{10} as reflected as of the conflatedness of notional–deprocrypticism can reveal-the-ontological-veridicality of such inherent systemic beyond-the-consciousness-awareness-teleology\textsuperscript{10}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{5} perversion-and-derived–perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining–\textsuperscript{10}}.
as-to-shallow-supererogation\textsuperscript{97} associated with every institutionalisation in prior relative-ontological-incompleteness\textsuperscript{-of-} reference-of-thought since it ultimately depends on ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to transcendentally-complement its reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} at its uninstitutionalised-threshold\textsuperscript{103} for upholding intemporality\textsuperscript{97}-as-of-ontology that reflects the inherent centered–epistemic-totalisation-as-existence’. Hence the notional–deprocrypticism registry-worldview/dimension institutionalisation as notionally construed as in full fulfilment of transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, as of human de-mentionation\textsuperscript{-}(<superserogatory—ontological–de-mentionation-or-dialectical–de-mentionation—stranding-or-attributive-dialectics) contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology\textsuperscript{100} ontological-performance’\textsuperscript{-}<including-virtue-as-ontology> that anticipates and accounts for human inherent intemporality\textsuperscript{97}/longness and temporality\textsuperscript{99}, purports to avoid wrong elevation of temporality /shortness in threshold-of–nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{97}—preconverging/dementing\textsuperscript{96}—apriorising-psychologism and wrong degradation of intemporality /longness in supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}—postconverging/dialectical-thinking\textsuperscript{96}—apriorising-psychologism implied reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation, given the inherently confounding ontological-veridicality of human potent beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-existential-extrication-as-of-existential-unthought>. Broadly speaking thus, the causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity\textsuperscript{97} of prospective relative-ontological-completeness -of- reference-of-thought as of human temporal-to-intemporal
entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-mediavalism, and prospectively procrypticism—or–disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/suprerogatory—de-mentativity as of conflatedness actually construes of more profound reference-of-thought—categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, and so as of differing references-of-thought in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing ontological unintelligibility. Neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to imply ‘equivalence of consideration’ without factoring prospective relative-ontological-completeness—of—reference-of-thought causality—as-to-projective-totalitative—implications—for-explicating-ontological-contiguity of differentiated axiomatic/references-of-thought

syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness as of notional–deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology of existential-extrication-as-of-existential-unthought. It is exactly what renders a veridical ontological-escalation or aetiology of the human condition possible as the historiality/ontological-eventfulness of ontological-aesthetic-tracing of conflatedness as of notional–deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a–meaningfulness-and-teleology-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold-and-its-assorted-and-conjugated-temporal–meaningfulness-and-teleology such that transcendence-and-sublimity/sublimation/supernormal–de-mentativity is always perceived as unnatural when, in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The implications of such human totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied prior institutionalisation ‘projected reflex of entailing-of–totalising–relative–

consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought>
is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neutering, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation and temporal/shortness-of-register-of-meaningfulness-and-teleology individuations of postlogism slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of “reference-of-thought” devolving ontological-performance <including-virtue-as-ontology>. Ultimately, the notion of beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought given its psychoanalytic-unshackling as of prospective deprocryticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of “reference-of-thought”-categorical-imperatives/axioms/registry-teleology but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness of Being as implied as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting
possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology’ mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind organic-knowledge. Human <amplitudding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of—meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity —of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging\textemdash}de\textemdash}mentating/structuring/paradigming resolution of the vices-and-impediments\textsuperscript{\textemdash}arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. We can appreciate such metaphysics-
infrastructure-of—meaningfulness-and-teleology by its mere relative disambiguation effectiveness of ‘ontologically-veridical knowledge agents’ over ‘ontologically-flawed knowledge agents’. For instance as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporal/longness-of-register-of—meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative—epistemicity>totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its

sense that with the development of various positivistic scientific and knowledge fields, the

undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–‘nondescript/ignoreable–void’-with-regards-to-prospective-apriorising-implications) but rather ontological-pertinence, and the point in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–‘nondescript/ignoreable–void’-with-regards-to-prospective-apriorising-implications), thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalitative-framework–overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance–<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of
minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—who, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency—(transparency-of-totalising-entailing, as-to-entailing—totalising—self-referencing-syncretising’) prior to eventual prospective relative-ontological-completeness of reference-of-thought accommodation. This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness of reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency—(transparency-of-totalising-entailing, as-to-entailing—totalising—in-relative-ontological-completeness )’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-veridical-epistemic-determinism—<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity’ associated with

However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of various pertinent social manifestations: —wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory—de-mentativity in formal institutional percolation-channelling—in-deferential-formalisation-transference, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality—as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; —wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory—de-mentativity as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; —the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative> wooden-language—(imbued—temporal—mere—

However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{14}, the insight about human <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{8} as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{11} psychoanalytic-unshackling positive-opportunism\textsuperscript{6} can crossgenerationally be induced for Being-development/ontological-framework-expansion–as-

above analysis point out that transcendental knowledge in particular involves more than just
knowledge as a grounded construct but as well an understanding of how such knowledge is
instigated in society as part and parcel of the knowledge construed as organic-knowledge; given
that the social-construct-as-society is not necessarily of immediate receptivity and is of a
suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—deme-

explain why the mere articulation of positivism/rational-empiricism—meaningfulness-and-

The ontological veridicality here is that such ‘double-gesture reification’ as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring/instrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking – apriorising-psychologism> together with the prior axiomatic de-assertion/preconverging-or-dementing –apriorising-psychologism/unaaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring/instrument-invalidating-measuring-<as-to-preconverging-or-dementing –apriorising-psychologism>’ implied as of the nonpresencing-<perspective–ontological-normalcy/postconvergence> induced transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not to be construed as an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of the superseded presencing—absolutising-identitive-constitutedness, but is rather a maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation in subsuming ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs
having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity of reference-of-thought as deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought implies a transcending reification gesturing that not only affirms notional—deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional—deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality)—of-ontological-performance—including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal—to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness of reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised—

In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event\textsuperscript{37}–as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness\textsuperscript{88}–of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity\textsuperscript{63}<shallow-supererogation\textsuperscript{97}–of-mentally-aestheticised–preconverging/dementing –qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘ procrypticism–or–disjointedness-as-of-reference-of-thought reasoning’ is not admissible to prospective ‘ deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought reasoning’ and so from the moment of the event\textsuperscript{7}–construed-as-the-prospective-ontology-origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event\textsuperscript{7}–construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations
in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process—; and so as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation —of-mentally-aestheticised—preconverging/dementing —qualia-schema> of the uninstitutionalised-threshold[03] and the prospective institutionalisation. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology[10] ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory—de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event—as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology[10] ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology[02]—<in-existential-extrication-as-of-existential-unthought> de-naturing[15] of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality[7]/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing[15], so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology[10] rather in nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct
as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme’ behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms–as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness -of- reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms–as-of-axiomatic-construct as of prior relative-ontological-incompleteness -of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence-{implicated–‘nondescript/ignorable–void’–as-to–presencing—absolutising-identitive-constitutedness}) blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-
threshold as nondescript/ignorable–void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives) as of our <amplituding/formative–epistemicity>–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the "meaningfulness-and-teleology" so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supercorogatory–de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent "meaningfulness-and-teleology" as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its "meaningfulness-and-teleology" thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human "meaningfulness-and-teleology", as it is what underlies apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and thereof
apriorising/axiomatising/referencing’ inducing a given specific nonpresencing-
<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness–or-incompleteness-of reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care–and–episteme, and further at the individual level as of changing attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical

With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification’/contemplative-distension’ as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification’/contemplative-distension’ that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification’/contemplative-distension’ as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development–as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification’/contemplative-distension’ is construed as the more profound attitude/mental-disposition/care–and–episteme for human optimum living, and so
over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness\(^5\)-by-reification\(^7\)/contemplative-distension\(^5\), for achieving transcendence-and-sublimity/sublimation/relative-ontological-completeness\(^9\)-by-reification\(^7\)/contemplative-distension\(^5\) so-implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-ontological-completeness\(^8\)-by-reification\(^7\)/contemplative-distension\(^5\). The implication here is that as of its very ‘nonextricatory-existential-preempting-of-existential-unthought behind the ontological-contiguity—of-the-human-institutionalisation-process’ Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
concerned with the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ as absolute reference of meaningfulness-and-teleology ‘with little sense of coherence as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, and thus the latter cannot unlike the former be the framework for aetiologisation/ontological-escalation as of universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as intemporality /longness or eliciting of wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—-as-of—'nondescript/ignoreable—void—as-of—to-prospective-apriorising-implications>')’. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care—and—episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care—and—episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or—reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework
induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity –<profound-supererogation –of-mentally-

incompleteness –of- reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing’ exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling <amplituding/formative> wooden-language–(imbued—averaging-of-thought–<as-to-

intellectualism required for further Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-verification/transcendental-enabling/sublimating/supererogatory—de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied knowledge given that the old/prior superseded as of its beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness—of- reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective superseding as of its prospective relative-ontological-completeness—of- reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective non-presencing—<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality—of-
affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing ontological-prime movers–totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ) scholasticism and positivism are rather in transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing; as so reflected in their mutually beyond-the-consciousness-awareness-teleology.<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-
knowledge is one that undervalues the-presencing—absolutising-identitive-constitutedness attitude/mental-disposition/care—and—episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the-meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective non-presencing—perspective—ontological-normalcy/postconvergence sublimity/sublimation/supererogatory—de-mentativity episteme transcendence-and-attitude/mental-disposition/care—and—reference-of-thought supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument. In addition, the disruptive un-institutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology attitude/mental-disposition/care—and—episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional—conflatedness of deprocripticism—or—preempting—disjointedness—as-of—reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human un-institutionalised-threshold of the possibility of intellectually induced social universal-transparency—transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness); for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturings for prospective institutionalisation. Such a beyond-the-
consciousness-awareness-teleology\textsuperscript{20}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity\textsuperscript{7} of social <amplituding/formative> wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{100}—as-of-‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>) and untransvaluated—temporal-intemporality\textsuperscript{62} social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity contentions; by its deflating of the conception of ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} as of human mortals contentions in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{100}, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework\textsuperscript{7}, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity\textsuperscript{6} as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology\textsuperscript{100}<in-existential-extrication-as-of-existential-unthought>, the articulation of meaningfulness-and-teleology\textsuperscript{100} as of prospective maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness\textsuperscript{5}—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework\textsuperscript{72} strife to uphold-and-promote the ‘superior party’ which is the ‘nonpresencing—<perspective—ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness\textsuperscript{5}—enframed-
conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-prime movers-totalitative-framework, rather as of its commitment to "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation that in many ways could just as well validate <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-'nondescript/ignorable–void '-with-regards-to-prospective-apriorising-implications>) and untransvaluated–temporal-intemporality attitude/mental-disposition/care–and–episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulative-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supercerogatory de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) implications as of the forestalling of
prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturizing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-.veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-.veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ and <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality /shortness as of <amplituding/formative> wooden-language-

In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{24}—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{109} denaturing\textsuperscript{14} of reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{109}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{109}.

Thus, human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality underlies the conception of de-mentation\textlangle supererogatory-ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics\rangle stranding dialetics crossgenerational as enabling human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and is reflected in ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{12}—as-to-totalitative-reification\textsuperscript{7}—in-singularisation\textsuperscript{31}—as-veridical-epistemic-determinism \textlangle amplituding/formative-epistemicity\rangle causality—as-to-projective-totalitative-implications,—for-explicating-ontological-contiguity’ as of grander dispensing-with-immediacy-for-relative-ontological-completeness—by-reification\textsuperscript{7}/contemplative-distension\textsuperscript{9}. In the bigger scheme of things, as of the notional-conflatedness of notional-deprocrypticism as deneuterising —referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—asto-conflatedness -différance/internal-dialectics/difference-deferral’ and as implied as-of-the-construal-of-différance/internal-dialectics/difference-deferral-of—meaningfulness-and-teleology^{10}; and so with respect to the more ontologically-veridical reality of human conceptualisation of meaningfulness-and-teleology^{100} always from a position of limited-mentation-capacity as of prior relative-ontological-incompleteness -of- reference-of-thought, thus in need for its prior deepening so-captured in the ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as of the notional-conflatedness of notional-deprocrypticism différance/internal-dialectics/difference-deferral’ as transcendence-and-sublimity/sublimation/supererogatory-dementativity-enabling, whereas such a human limited-mentation-capacity implication is naively

The further insight here is that, such a most ontologically-complete profoundness/depth of ‘phenomenological
construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency\textsuperscript{104}–\langle transparency-of-totalising-entailing,–as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \rangle, an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfullness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness -of- reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\textsuperscript{84} between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfullness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to–‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ with respect to social universal-transparency\textsuperscript{104}–\langle transparency-of-totalising-entailing,–as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \rangle; and so more than just as of beyond-the-consciousness-awareness-teleology\textsuperscript{100}–\langle in-existential-extrication-as-of-existential-unthought \rangle, but further because as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional–episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity”–of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-
mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology<-in-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or
intemporality; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-

It is such a ‘confledness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> to attain social approbation’ that holds together in social universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured
construct of positive-opportunism\textsuperscript{78} of institutional and formal deferential-formalisation-transference as of percolation-channelling-\textless in-deferential-formalisation-transference\textgreater . This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness\textsuperscript{14} to engage a registry-worldview/dimension at its uninstitutionalised-threshold\textsuperscript{103} rather by an incrementalism-in-relative-ontological-incompleteness\textsuperscript{89}—enframed-conceptualisation mental-disposition on the basis of its prior relative-ontological-incompleteness -of- reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold\textsuperscript{103} a more complex but ontologically-veridical\textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{89}—unenframed-conceptualisation mental-disposition on the basis of the prospective relative-ontological-completeness -of- reference-of-thought or superseding metaphysical framework of contention as of conflatedness\textsuperscript{11}. That is, engaging a non-positivism registry-worldview/dimension \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its <amplituding/formative>\textsuperscript{8} wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{10} as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{10} and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{10} as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} in the non-positivism social-setup. Ultimately, such a profound phenomenological <amplituding/formative–epistemicity>totalising~conflated–
meaningfulness-and-teleology\textsuperscript{10}-as-of-notional-deprocrypticism-reflecteda
(I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{7}-<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplitudinizing/formative-epistemicità>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about \(\frac{25}{104}\) millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is \textsuperscript{10} universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the
contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional—deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory—de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of universal projection as intemporality—or-longness-of-register-of—meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating/supererogatory—de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal
implications as beyond presence issues and complexes as it sublimes presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing-totalising~in-relative-ontological-completeness thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–dementativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{77}--\textsuperscript{<inclusion-virtue-as-ontology>} as spirit failed to\textsuperscript{10}\ universalise and so Heidegger couldn’t carry the effective implications of his work to its true\textsuperscript{10}\ universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a\textsuperscript{10}\ universal ‘response construal’.

This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation \textsuperscript{meaningfulness-and-teleology}\textsuperscript{102} in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and\textsuperscript{10}\ universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{53} comfort to protagonists by its lack-of or pseudo\textsuperscript{10}\ universal projection. Basically, a phenomenological extended metaphysics-of-absence-(implicit–epistemic-veracity-of–nonpresencing–\textsuperscript{<perspective–ontological-normalcy/postconvergence>}) as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted
metaphysics-of-presence-⟨implicit-'nondescript/ignorable–void'-as-to-presencing—absolutising-identitive-constitutedness⟩ framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality-as-to-human-amplitating/formative—epistemicity>totalising—purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness—to meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of

Put another way, consciousness as point-of-focus conflatedness\textsuperscript{12} of meaninglessness-and-teleology\textsuperscript{100} is ‘operative of human-subpotency as of the coherence/contiguity-of-superseding–oneness-of-ontology-as-of-inherent-existence-coherence/contiguity’, so-implied with ‘explicit axiomatic-constructs’ construed as concepts/notions and ‘implicit axiomatic-constructs’ construed as
intuitions/insights/foresights, and so correspondingly as of the explicited-focusing and implicited-coherencing/contiguity as of a supposed living-being reflection of existential-instantiations and contextualisations in forming knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue; thus explaining by this ‘explicitation-focusing and implicated-coherencing/contiguity existential dynamics for producing knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’, the constitutedness of the Kantian understanding of concepts and intuitions as being mutually dependent for meaningfulness-and-teleology articulation. In other words, constitutedness tend to fallaciously imply existence-in-existence or existence-of-things-in-existence whereas conflatedness rightly implies becoming-in-existence-rather-as-subsumed-in-existence or things-becoming-in-existence-rather-as-subsumed-in-existence as of underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework for-amplituding/formative-epistemicity-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or ‘consciousness’s ontological-performance -<including-virtue-as-ontology> construed in amalgamation as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative-epistemicity>totalising~purview-of-construal’’. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness as the said ‘transcendental ego cannot invent existence
as if preceding existence’ thus inducing constitutedness\(^1\). Rather existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^1\)-<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with nothing else outside or preceding it’; as existence is an implied-axiomatic-construct-construed-as-reference-of-thought as an implied-theory, with the ‘implied about existence’ arising as of a given/specific apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given human limited-mentation-capacity implied registry-worldview/dimension consciousness, such that \(^{57}\)meaningfulness-and-teleology\(^{100}\) is as of existence’s implied axiomatic-devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness-as-of-instantiative-context with no \(^{56}\)meaningfulness-and-teleology\(^{100}\) construable outside it but for an epistemic-totalising~renewing-realisation/re-perception/re-thought of prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ~reference-of-thought’ as of human limited-mentation-capacity-deepening \(^{7}\) implied prospective registry-worldview/dimension consciousness and its corresponding existence’s the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ implied axiomatic-devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness-as-of-instantiative-context, with no \(^{56}\)meaningfulness-and-teleology\(^{100}\) outside or preceding it. Thus conflatedness\(^{11}\) warrants that human-subpotency becoming is amalgamated as of existence as of the underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly
coherent ontological-commitment as of ontological-primemovers-totalitative-framework for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for appropriate construal of meaningfulness-and-teleology ontological-performance including-virtue-as-ontology. The insight here is that we can’t be at a posture of prior relative-ontological-incompleteness reference-of-thought in relative notional-discontiguity/epistemic-discontiguity shallow-supererogation of-mentally-aestheticised-preconverging/dementing qualia-schema of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to human amplituding/formative-epistemicity totalising-purview-of-construal and then pretend to ground about the nature of existence as if we are of ontological-completeness-of-reference-of-thought in ontological-contiguity as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to human amplituding/formative-epistemicity totalising-purview-of-construal, as our state of relative-ontological-incompleteness perverts that grounding objective and rather points to the need for an notional-discontiguity/epistemic-discontiguity shallow-supererogation of-mentally-aestheticised-preconverging/dementing qualia-schema induced psychoanalytic-unshackling towards a prospective state of prospective relative-ontological-completeness reference-of-thought. What is fundamentally warranted is priorly attaining psychoanalytically, as of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, ontological-completeness-of-reference-of-thought in ontological-contiguity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to human amplituding/formative-epistemicity totalising-purview-of-construal, rather than a flawed attempt at grounding as with say a transcendental ego basis of construal of meaningfulness-and-teleology,
unsuspectedly grounding as of our positivism–procrustic prior relative-ontological-incompleteness\textsuperscript{77}–of–reference-of-thought; as such a role is simply undertaken by conflatedness\textsuperscript{12} as of prospective relative-ontological-completeness \textsuperscript{77}–of–reference-of-thought and is rather construed then as of such prospective underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology–implied-as-of-inherent-existence–coherence/contiguity,–and–so–construed–as–the–enabler–of–insight–or–intuition–or–foresight–as–of–embodied–consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment \textsuperscript{77} as of ontological–primemovers–totalitative–framework\textsuperscript{77} \textsuperscript{45} <amplituding/formative–epistemicity> causality–as–to–projective–totalitative–implications,–for–explicating–ontological–contiguity\textsuperscript{67} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for appropriate \textsuperscript{9} meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{77}–<including-virtue-as-ontology>. Such a conflatedness\textsuperscript{12} insight as of notional–deprocrustic rather points out that soundness–or–ontological–good–faith/authenticity\textsuperscript{69} of \textsuperscript{56} meaningfulness–and–teleology\textsuperscript{100} ontological-performance \textsuperscript{77}–<including-virtue-as-ontology> arises as of Being-development/ontological–framework–expansion–as–to–depth–of–ontologising–development–as–infrastructure–of–meaningfulness–and–teleology\textsuperscript{100} involving the ontological-contiguity\textsuperscript{1}—of—the–human–institutionalisation–process\textsuperscript{12} induced various consciousnesses up to the protensive-consciousness enabling transcendental centered–epistemic–totalisation, as of human limited–mentation–capacity–deepening\textsuperscript{1}. Actually, this author holds that the very fundamental handicapping issue to \textsuperscript{25} meaningfulness–and–teleology\textsuperscript{12} as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic–construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation <amplituding/formative–epistemicity> totalising/circumscribing/delineating thought-devolving–as–of–instantiative-context—meaningfulness–and–teleology\textsuperscript{100} reference–of–carries–and–reflects all the
contextualising-contiguity\(^9\) on the basis of that given determination \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) with the consequence that its constitutedness\(^1\), since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the conflatedness\(^{12}\) of existence/existential-possibilities given the imbricatedness/threadedness/recomposing of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness\(^{11}\) of existence as of prospective relative-ontological-completeness -of- reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity\(^7\) and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness\(^1\), and this issue is recurrent-beyond- historiality/ontological-eventfulness\(^7\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>-with-the-latter-only-a-bi-manifestation-of-the-reccurence,-as-psychically-recurrent as of human shallow-to-deepening–limited-mentation-capacity,-as-limited-mentation-capacity-deepening\(^1\) due to inherent human temporality\(^7\)/shortness and intemporality\(^7\)/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historiality/ontological-eventfulness\(^7\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of the notional–conflatedness\(^7\) of notional–deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold\(^3\) mental-dispositions. As highlighted before: consciousness is the point-of-focus amplituding/formative–epistemicity totalising–conflated–meaningfulness-and-teleology\(^{100}\)-as-of-notional–deprocrypticism-reflected–historiality/ontological-eventfulness\(^7\)/ontological-
‘metaphoricity’; in reflecting how human social-stake-contention-or-confliction induces
human transcendence-as-of-full-transcendental-potential underlying knowledge-
constructs/theories/intersolipsistic-intercessory-notions/notional–referential-
notions/articulations/virtue. Consciousness, and as reflected by the signifying mirroring of
meaningfulness-and-teleology that is language, is thus a point-of-focusing
axiomatic/reference-of-thought devolving-construal disposition for
meaningfulness-and-teleology as of the ‘human species sublimation-inducing—
textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-
existence’ as of existential-stakes migration enabled by human limited-mentation-capacity-
deepening’ that speaks of ‘meaningfulness-and-teleology accreting-substitutive-
subsumption-as-futural-differânce-freeplay construed here as the human species
consciousness-differânce’, reflected by notional–deprocrypticism conceptualised
historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-
normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of the conflatedness of the
successive human consciousnesses ‘reference-of-thought—devolving-teleological-de-
mentating/structuring/paradigming—of-meaningfulness’. Thus consciousness by its full
development as of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology speaks
fundamentally of the entire narrative possibilities of the human species as of human
sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-
interpretation/axiomatisation-of-existence. Such ‘consciousness conflatedness of
meaningfulness-and-teleology’ is reflected by the signifying mirroring of that is language as of its metaphoricity. Metaphoricity can thus be construed as the signification of articulated meaningfulness-and-teleology as of reference to existential-instantiation contexts adjunctively and not as naturally devolving into the
‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as signification of reference-of-thought, such that metaphoricity is rather an ‘adjunctive incorporation’ to the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness of adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always <amplituding/formative–epistemicity>totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’. Such centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology construed as reference-of-thought, and its signification as implied by an
underlying \textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language} necessarily has to do with the fact that \textit{meaningfulness-and-teleology} is as of a ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework) \textit{<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity} and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as \textit{reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’}; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity\textsuperscript{17} metaphoricity as of human limited-mentation-capacity-deepening\textsuperscript{18} adhocly produces by conflatedness\textsuperscript{19} adjunctive significations where these do not fit in with the \textit{‘underlying \textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language}’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness\textsuperscript{10} of-reference-of-thought when conceptualising about such an \textit{‘underlying \textit{<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’}. But then an adjunctive-metaphoricity \textit{-signification so produced as reflected by ‘a transcendental syncretising-effecting \textit{‘meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater \textit{‘meaningfulness-and-teleology’\textsuperscript{10} <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior}}
historiality/ontological-eventfulness of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis as its very own ‘underlying totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology as not self-referentially covered by the ‘underlying totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-as-to-as-of-accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as of ‘intemporal
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality

mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’! Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an
immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity is thus rather construed as of its overall conflatedness causality~as-to-projective-totalitave–implications,-for-explicating-ontological-contiguity of full consciousness development as of Being-development/ontological-framework-expansion~as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaninglessness-and-teleology as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective/supererogating/zeroing rhetorical-stylistic-semantic delivery, and as such metaphoricity induces
amplituding/formative–epistemicity> totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay’, ‘underlying amplituding/formative–epistemicity> totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in conflatedness ’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its
end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism<amplituding/formative–epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity ’ as successive transcendental outcomes, so reflected by the historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>; this doesn’t reflect an inherent différance operant phenomenological process reality. Such a reality
<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–relativism’> of the
différance. The implication here resonates with the idea that knowledge is much more than the
construal of conceptual sublimation knowledge outcome, but rather its construal as
notional–知识 involving the dynamic understanding of both its
temporality / misconstrual / desublimation and intemporality – as-ontological-construal as of
accreting-substitutive-subsumption-as-futural-différance-freeplay^{2} involving specifically
disambiguation as of human limited-mentation-capacity dynamics as of deneuterising —
referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-
apriorising-or-axiomatising of the uninstitutionalised-threshold^{03} and the prospective
institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its
conceptualised intemporalità^{75}-as-ontology but involves grasping this together with the
implications of temporality^{99}, and so because of the circular existential implications of human
limited-mentation-capacity. Hence language can be more pertinently construed ontologically as
of the social dynamics of existential \(54^{54}\) meaningfulness-and-teleology^{50} signification than just as
of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon
that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential
implications behind comprehending language. Thus human privileged social and institutional
end-purpose perspective/framing/reference/horizon tend to be in constitutedness^{13}. Further such
accreting-substitutive-subsumption-as-futural-différance-freeplay^{2} is the existentially veridical
and effective basis for reflecting \(44^{44}\) historiality/ontological-eventfulness^{77}/ontological-aesthetic-
tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–
relativism’> transcendental outcome as can be implied in a storied-construct/ontologically-
valid-narration as of existentially insightful \(55^{55}\) meaningfulness-and-teleology^{50}. Such a
perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including
such nascent contemplations for breaking out of currently perceived subject-matter doldrums as
implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>\textsuperscript{100} as of their beyond-the-consciousness-awareness-teleology\textsuperscript{100}; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality /longness doesn’t take its due place, it is occupied by ignorance as of human temporality /shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}. Basically, just as the adjunctive-metaphoricity -signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity\textsuperscript{12} -signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness of notional–deprocrypticism deneuterising —referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the
privileging of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity’ or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive-constitutedness’ privilege undermining as of transcendental outcomes implied by ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing—or–withdrawal–or–metaphysics-of-absence—(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of–event–as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this
author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—perspective–ontological-normalcy/postconvergence by their respective supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ between presencing—absolutising-identitive-constitutedness and nonpresencing—perspective–ontological-normalcy/postconvergence (rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so contradictorily as if both are of the presencing supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument. With the reality that nonpresencing—perspective–ontological-normalcy/postconvergence is wrongly—and-unsuspectingly given as of common presencing—absolutising-identitive-constitutedness, thus inducing a relative ontologically-flawed quasi-transcendental freeplay as nonpresencing—perspective–ontological-normalcy/postconvergence is rather in notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema when analysed as of presencing—absolutising-identitive-constitutedness. Consider in this regard ‘the very same physics
'epistemic-break', as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics \textit{<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality>}’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay \textit{différance}’ doesn’t have any serious ontological consequences with respect to \textit{presencing—absolutising-identitive-constitutedness} since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural \textit{différance} where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which points to a prospective relative-ontological-completeness /ontological-contiguity as of the very same \textit{<amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}; even though it is the first step towards such a futural \textit{différance} transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective \textit{nonpresencing-<perspective–ontological-normalcy/postconvergence> in inducing sublimation}, with such a difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-mentation-capacity-deepening as of \textit{de-mentation–(supererogatory–ontological–de-mentation-or-

critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-

implying human limited-mentation-capacity-deepening77; and thus, this point that enables the
Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving
transcendence-and-subsitmity/sublimation/supererogatory–de-mentativity is the full
conflatedness77 reflecting existence—as-the-absolute-a-priori-of-

‘prospective-aporeticism-overcoming/unovercoming’> in its nonpresencing–<perspective–

which is then in constitutedness77 as not factoring in the process of a tendential-deliberation-of-
decidability towards attaining transcendence-and-subsitmity/sublimation/supererogatory–de-
mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of
constitutedness77 because ‘reasoning itself has become defective’ as presupposing-by-the-
Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-

‘prospective-aporeticism-overcoming/unovercoming’> So because at the point of
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notch/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'> and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notch-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism-overcoming/unovercoming'>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as validatable by ontological-prime-movers-totalitative-framework. Thus behind ontological-faith-notch-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notch-or-ontological-fideism—imbued-underdetermination-of-motif-and—

In this regard we can imagine as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs 5maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental 4human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its 9meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern
conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension \*\textsuperscript{5} reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology\*\textsuperscript{6}\*\textsuperscript{7}–<in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\*\textsuperscript{5} from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance –<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{14} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance \textsuperscript{7}–<including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all
too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument attitude/mental-disposition/care—and—episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and—episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>,’ that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and—episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—
axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought amplituding/formative-epistemicity>totalising→self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential–epistemic-totalisation-of—meaningfulness-and-teleology as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-ontological-incompleteness of reference-of-thought. The fact is the ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing—<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in
‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> doesn’t even bother contemplating about by its incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as of existence’s presencing—absolutising-identitive-constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness—of—reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness—of—reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of
ontological-primemovers-totalitative-framework\textsuperscript{73} by existence-potency\textsuperscript{38} ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening\textsuperscript{73} for human emancipation. Thus implying existence-potency\textsuperscript{38} ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{93} directed directly to inherent-existence-as-of-existential-reality/existence-potency\textsuperscript{38} ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the \textsuperscript{48}human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{93} as of human limited-mentation-capacity-deepening\textsuperscript{53} bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of \textsuperscript{48}human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{93} has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening \textsuperscript{48}human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{93}’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising ‘meaningfulness-and-teleology\textsuperscript{100} that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective ‘meaningfulness-and-teleology\textsuperscript{100}’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the \textsuperscript{48}human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation that led to human limited-mentation-capacity-deepening. Quite the contrary,
it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-
construct-or-reference-of-thought that brings about greater objectivity, as reflected in the
ontological-contiguity—of-the-human-institutionalisation-process behind Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-

the ontologically-flawed mental-reflex of temporal <amplituding/formative—

wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong

This paradox for human knowledge, as implied with the postmodern double-gesture

of the blind narrative, with the more critical issue being about ‘human blindness which needs to
be resolved first before proceeding to see’, as what is to be seen as of the world is already
given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance—including-virtue-as-ontology. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance—including-virtue-as-ontology’ as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism.
Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness-of-reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-vidical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness, and it is much more than just a naive notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicity and parrhesia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary—as-unenframed/unbeholdening/outlier-conceptualisation—(imbued-postconverging/dialectical-thinking—‘projective-insights’/’epistemic-projection-in-confledness’—of-notional—deprocrypticism-prospective-sublimation) appraisal of human narratives as to dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-
mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transeptistemicity/anamnestic-residuality/spirit-drivenness–equalisation>’ thus implying rather a notional–deprocripticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation’ parameterisation/reparameterisation–(reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)-as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procripticism–or–disjointedness-as-of- reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocripticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or–dementing apriorising-psychologism while the postmodern is postconverging–or–dialectical-thinking apriorising-psychologism; as the point of assertion of postmodern-thought as deprocripticism–or–preempting—disjointedness-as-of reference-of-thought is actually a point of prospective de-mentation–(supererogatory–ontological–de-mentation-or–dialectical–de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with
the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constatations’ as of human limited-mentation-capacity prospective relative-ontological-completeness -of- reference-of-thought

at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency - (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) for its prospective institutionalisation. Critical for the social validation and institutionalisation of any dementative/structural/paradigmatic transcendent knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework ’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendent knowledge ‘concurrent ontological-primemovers-totalitative-framework ’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework ’ of the prospective positivism/rational-realism transcendent knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness-of-reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework ’. Such ‘concurrent ontological-primemovers-totalitative-framework ’ was not a
sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology as of its aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating <reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating <reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-
primemovers-totalitative-framework\(^{73}\) as the basis for the validation of knowledge is inherently
ontologically veridical as of a given institutionalisation’s internal \(^{84}\) reference-of-thought–

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) of
its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-
thought–devolving’, however, this is an overrated notion with regards to human social-stake-
contention-or-confliction framework at its uninstitutionalised-threshold\(^{13}\) as external/prospective
\(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\), for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{100}\) of its <amplituding/formative–
epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, which
should and cannot be ignored by any proponent of prospective de-
mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-
contention-or-confliction framework fundamentally subscribes to knowledge, given this
paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic
transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework\(^{73}\)’
establishing and upholding it. The idea here is that the inherent and direct notions of
positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses,
etc. were not the fundamental basis for the ultimate human social-stake-contention-or-
confliction framework validation but rather their derived positive-opportunism\(^{8}\) that brought
about the ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’ implied-by-and-derived-from their notions of
universal human rights and open society, technical advances, better social organisation, etc.,

In other words, human dimensionality-of-sublimating \textasciitilde <amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness\textasciitilde/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness\textasciitilde/equalisation> as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendentals \textasciitilde meaningfulness-and-teleology\textasciitilde superseding uninstitutionalised-threshold\textasciitilde do not come about as of simplistic continuity but rather as of epistemic-
transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology in terms–as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of’ reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme organic-knowledge makes little sense and is of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of ‘deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflatedness’ as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern ‘deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness’-of-’reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its “human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation” as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of

The ‘postmodern’ deprocrypticism—or—preempting—disjointedness—as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipatory-relativism-driven—recomposuring—constructivism—towards—singularisation13 is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity—deepening . We can garner insight about how we tend to misconstrue any
episteme of wholly immersed-and-engrossed ‘meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed ‘meaningfulness-and-teleology’ between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed ‘meaningfulness-and-teleology’ as of their given ‘neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a
development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative–epistemicity>totalising—purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative–epistemicity>totalising—purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme ’ implied notional—deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative–epistemicity>totalising—purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of—meaningfulness-and-teleology and intemporal/longness-of-register-of—meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation
prospective relative-ontological-completeness of reference-of-thought and uninstitutionalised-threshold prior relative-ontological-incompleteness of reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care–and–episteme’, which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative-implications, for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} and is rather caught up, beyond-the-consciousness-awareness-teleology\textsuperscript{100} <in-existential-extrication-as-of-existential-unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness of reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{103}. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-
subpotency existential scope’ that is construed essentially as-of \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} untransvaluated–temporal-intemporality\textsuperscript{2} at its ontologically-veridical uninstitutionalised-threshold\textsuperscript{03}, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold\textsuperscript{03} pointing to its prior relative-ontological-incompleteness\textsuperscript{–of–}reference-of-thought. Thus, the manifestations of temporality\textsuperscript{97}/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold\textsuperscript{03} are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{00} posture in \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}, rather than a recognition of it prior relative-ontological-incompleteness\textsuperscript{–of–}reference-of-thought, implying recognising its uninstitutionalised-threshold\textsuperscript{03} with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{–de-mentativity}, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew\textsuperscript{7} meaningfullness-and-teleology\textsuperscript{00} towards intemporality\textsuperscript{5}/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human\textit{<amplituding/formative–epistemicity>totalising–purview-of-construal’}, the ‘postmodern\textsuperscript{7} deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme ’ grounded on such rational-realism recognition of humankind
temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness-of-reference-of-thought; and so beyond just <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness-of-reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated retrospectively with respect to non-positivism/medievalism

But then with respect to the possibility of prospective human transcendence-and-

regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as of its wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>) reasoning-from-results/afterthought logocentric constitutedness. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing-<perspective—ontological-normalcy/postconvergence>; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of
postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm \(^1\) meaningfulness-and-teleology\(^{100}\) weeding out ornate pedantic detours, to articulate blunt reality as of \(^{1}\) deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness\(^{90} \text{-of-}^{94}\) reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied \(^5\) meaningfulness-and-teleology\(^{100}\), we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{100}\). Likewise, the prospective ‘postmodern \(^{17}\) deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics amplituding/formative-epistemicity totalising-devolved-purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating amplituding/formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation’ inventing’ of the prospective notion of ‘thinking/postconverging-or-
dialectical-thinking—apriorising-psychologism’ as positivism/rational-empiricism thinking or notional-deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care—and—episteme of medievalism—non-positivism or positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of—reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory—the-mentativity prospective institutionalisation attitude/mental-disposition/care—and—episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-prime-movers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-immediacy-for-relative-ontological-completeness—by-reification—/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as—to—leveling/ressentiment/closed-construct—meaningfulness—and—teleology—as—of—‘nondescript/ignorable—void’—with—regards—to—prospective-apriorising—implications>) depth/profoundness of human posterity; projecting well beyond the narrow and decadent obsessions of shallow as of extricatory/temporal preconverging—dementating/structuring/paradigming of social-stake-contention-or-confliction, as it actively strives as of its prospective reference-of-thought—categorical-imperatives/axioms/registry—

Reasoning-through/messianic-reasoning metaphoricity\textsuperscript{107} brings about the prospectively renewed reasoning-from-results/afterthought instigating the secondnaturing of prospective institutionalisation, and so as of implied reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of-de-mentation-(supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) enabling its prospective relative-ontological-completeness\textsuperscript{107}. But then Heidegger failed to realise that the induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of the Socratic-philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia,—as—spontaneity-of-aestheticisation disseminative events induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression involving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from non-universalising sophistry and medieval-scholasticism pedantic dogmatism respectively; and so as to the fact that dimensionality-of-sublimating—the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-aestheticisation to both Descartes thinking-proposition for budding-positivism and Socrates’s universalising-idealisation in then secondarily inducing their respective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ and thus in
many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation perspective whereas Descartes and Plato–and–Plato’s Socrates are more fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to medieval-scholasticism non-positivising and ancient-sophists non-universalising respectively. These induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—as—spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation” and so as of prospective projection as implied with the ontological-contiguity—of-the-human-institutionalisation-process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity. However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation—<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’—> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ failing to

meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance <including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern
activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to <amplituding/formative> wooden-language-(imbued—averaging-of-thought-

whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic-philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation capacity to come to terms with ‘transvaluation as amplituding/formative-epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism underlying the human construction-of-the-Self and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications> in
as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness of meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of
privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality–as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed- possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive “presencing—
absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of- reference-of-thought appropriate foregrounding—entailment—postconverging–narrowing-down~sublimation as to existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity ’),—as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation-
The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance -- <including-virtue-as-ontology>/morality/ethics,

Thus human limited-mention-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup \(^{10}\) universal-transparency ⟩-(transparency-of-totalising-entailing,-as-to-entailing-\langle\textit{amplituding/formative–epistemicity}\rangle totalising–in-relative-ontological-completeness ) of supposedly coherent ontological-commitment \(^{88}\) with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such \(^{104}\) universal-transparency ⟩-(transparency-of-totalising-entailing,-as-to-entailing-\langle\textit{amplituding/formative–epistemicity}\rangle totalising–in-relative-ontological-completeness \(^{105}\)) is muted and where such \(^{10}\) universal-transparency ⟩-(transparency-of-totalising-entailing,-as-to-entailing-\langle\textit{amplituding/formative–epistemicity}\rangle totalising–in-relative-ontological-completeness \(^{105}\)) is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness \(^{1}\) as of prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation simply reflects the \langle\textit{amplituding/formative–epistemicity}\rangle totalising–self-referencing-

Basically, as highlighted above such a transvaluation knowledge-reification of social—value-construction reflects the prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment; pointing to the ontological-veracity of a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’. This ontological reality basis of social—value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness ontologically-flawed preconverging—dementating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as—sublimating-withdrawal,—eliciting-of-prospective-supererogation <as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism—overcoming/unovercoming’> so-reflected as of <amplituding/formative—epistemicity>totalisingly—preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-
positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory-acyuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory-acyuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, so-construed as ‘human-subpotency ontological-performance’<including-virtue-as-ontology> within the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility<imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a
human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de
tentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at "reference-of-thought-level to rational-empiricism/positivism is de
tentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding/formative–epistemicity>totalising~thrownness-in-

In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human <amplituding/formative–epistemicity>totalising~thrownness-in-existence’ is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-

of-ontologising-development-as-infrastructure-of—'meaningfulness-and-teleology’ within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment⁶. Thus, on this basis, the reality of human ontological-performance —<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance⁸,<including-virtue-as-ontology> and destructuring-threshold—{uninstitutionalised-threshold ⁹⁄presublimating—desublimating-decisionality)—of-ontological-performance⁸—<including-virtue-as-ontology>—towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification⁹ and empowerment from such knowledge-reification as enabling the framework of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of—'meaningfulness-and-teleology’ and then ‘the individual dimensionality-of-sublimating —<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness ⁹⁄transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation⁹—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> reflected in <amplituding/formative—

Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness\(^8\) as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity — of-the-human-institutionalisation-process\(^8\) dimensionality-of-sublimating — \(<\text{amplituding/formative}\>\) supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as \( 6 \text{ m/s}^2 \) rather than the existence-potency–sublimating–nascence,–disclosed-from-prospective-epistemic-digression manifestation of \( 9.8 \text{ m/s}^2 \) and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect>‘immanent-ontological-contiguity’>. It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating—nascence,—disclosed—from-prospective-epistemic-digression from such human-subpotency prior reproducibility—

This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness as of human amplituding/formative–epistemicity>totalising–thrownness-in-existence revealing the epistemic-impertinence of dispositions for presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly presencing—absolutising-identitive-constitutedness of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>. A further twist to such a poor
conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction
of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly—de-mentated/structured/paradigmed to
default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-
old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness-

This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework⁷³ conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘dementative/structural/paradigmatic implications of relative-ontological-completeness⁷⁷ in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’, reflecting a human-causative-construction conception in conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional-projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness⁷¹ as of any given presencing—absolutising-identitive-constitutedness⁷¹ apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness⁷⁸. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness/relative-ontological-completeness’, reflecting a human-causative-construction conception in conflatedness/formative-supererogating/projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing—in-perspective–ontological-normalcy/postconvergence) as to human-and-social–expectations/anticipations—metaphoricity–as-rede-mentating/restructuring/reparadigming–psychologism⁹⁰ that effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence>
normalcy/postconvergence-reflected-‘epistemicity-relativism’>; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the ‘meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-
contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all ‘meaningfulness-and-teleology (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness /relative-ontological-completeness -

grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the “presencing—absolutising-identitive-constitutedness” notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<-as-to-preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such
implied logic of ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism&gt; implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-&lt;as-to-preconverging-or-dementing—all-apriorising-psychologism&gt; of any such implied slavery ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism&gt; implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism&gt; implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-&lt;discretely-implied-functionalism&gt; implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which
point a "presencing—absolutising-identitive-constitutedness" false sense of logical-dueness as of 'relative-ontological-incompleteness'/relative-ontological-completeness'-(sublimating-referencing/registering/decisioning,—as-self-becoming/self-conflatedness'/formative—supererogating-<projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>) as to human-and-social—expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism'\textsuperscript{90} may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied 'human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction' is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness\textsuperscript{88} perspective supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—<as-to-preconverging-or-dementing—apriorising—psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification\textsuperscript{87} as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as 'human social-

institutional and social relations, constraints and performances’ that as of varying implicated stakes are not ‘necessarily absolutely tied-down’ to the abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation even as such framework-for-idealising/transcending/sublimating is clearly or abstrusely the reference of social and institutional deferential-formalisation-transference. Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory theoretical-and-practicable-projected-outcome in many ways is naïve and incomplete as to when it is ‘wrongly predicated on a conception of the social and institutional as merely a passive framework of exquisite integration of abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ failing to factor in the dynamics of social-and-institutional-dissipative-integration of any such abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as to a ‘dynamic social and institutional conjugation of notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> ontological-performance -<including-virtue-as-ontology>-including-virtue-as-ontology at the destructuring-threshold-(uninstitutionalised-threshold↑/presublimating–desublimating-decisionality)~of-ontological-performance↑-<including-virtue-as-ontology>’. Ultimately, with respect to social-stake-contention-or-confliction the effectively practised meaningfulness-and-its-institutionalisation while guided/constraint/structured by such originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation theoretical-and-practicable-projected-outcome elicited positive-opportunism↑, generalised human behaviour to various extends actually becomes operatively and anticipatively aware by itself (as reflected by

Basically, the bigger point here is that however the socially transformative implications as of prior originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation and beyond the elicited positive-opportunism\(^{76}\) underlying deferential-formalisation-transference, there is much more involved in overall social and institutional \(^{56}\)meaningfulness-and-teleology\(^{100}\) as to the ‘dynamic social and institutional conjugation of notional-firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> ontological-performance\(^{72}\)-<including-virtue-as-ontology> at destructuring-threshold-(uninstitutionalised-threshold\(^{103}\)/presublimating–desublimating-decisionality)-of-ontological-performance\(^{72}\)-<including-virtue-as-ontology>’.

Thus, there is a direct relation between human-subpotency and existence-potency\(^2\)—sublimating–nascence,-disclosed-from-prospective-epistemic-digression (so underlied as of the parrhesiastic seeding-promise-of-human-subpotency-ontological-performance\(^2\)-<including-virtue-as-ontology>-correspondence-with-the-full-potency-of-existence’s—sublimating–nascence-as-of-its-coherence/contiguity), and this is effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-relative-ontological-completeness—by-reification’/contemplative-distension\(^2\) in its construction-of-the-Self with respect to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The underlying point here is that there is no inherent meaningfulness-and-teleology\(^2\) but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility\(^2\)-<imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>, that is, as to ‘human-subpotency
potential to epistemically converge to the full-potency of existence; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, with such human dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-
or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic-presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality/shortness/amplituding/formative>\(\) wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>}’ is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. On the other
hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable–void -with-regards-to-prospective-apriorising-implications>)’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemtemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity-<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification’/contemplative-distension’ is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and
dementatively/structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency–{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }-or-understanding-of-ontological-primemovers-totalitative-framework–of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity–<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion
of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historicity/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism relevant to deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Such social and institutional social-vestedness/normativity-<discretely-implied-functionalism> for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality~shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance—<including-virtue-as-ontology> in a renewing originariness-parrhesia,—as—spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening rather invokes prospective dimensionality-of-sublimating—<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness~/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> for re-originariness/re-origination (and as ever always such destructuring-threshold—{uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology> across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-cumulation/institutional-recompose—{as—to—historiality/ontological-eventfulness~/ontological-aesthetic-tracing—<perspective—ontological—

material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with

material/equipment/accoutrement sublimation. This is reflected with the increasing

remoteness/alooiness and alienation of the generalised human subject from such

material/equipment/accoutrement sublimation captured under abstract institutional frameworks

subject capacity for consciousness sublimation is seized up and constrained in such socially and

institutionally bureaucratising and deterministic frameworks that now de-

Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology’100 given ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’53 ‘meaningfulness-and-teleology’100 the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology57<-in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as ‘meaningfulness-and-teleology’100 with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension57. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events57 like the invention of metal implements, the plough, writing, the
printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness’-of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ presencing—absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing–conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness’ of apriorising/axiomatising/referencing–conceptualisation as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression), but rather tending to a construal as of ‘inherent prior aestheticisation—and–aestheticisation-towards-ontology as of human social-vestedness/normativity-<discretely-implied-functionalism>’; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness manifestation of human presencing—absolutising-identitive-constitutedness /constitutedness (as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications of human limited-mentation-capacity). This patent elucidation of the decoherencing-structure—of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}-for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of desublimating \textsuperscript{46}historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition psychological entrapment with respect to the overall prospective sublimating \textsuperscript{46}historiality/ontological-eventfulness/ontological-aesthetic-tracing-\textless{}perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism’\textgreater{} (which de-mentatively/structurally/paradigmatically seems to be entrapped/stifled in human taxingness-of-originariness). Effectively, human decoherencing-structure—of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}-for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally—collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be

Likewise, this insight can be extended in reflecting the historicity-tracing—in-

this regards, we can appreciate that the strong predictive constraining in many a natural science
domain (as strongly constrained to existence-potency /sublimating–nascence,—disclosed-from-
prospective-epistemic-digression) induces the manifestation of sublimating thought as from
induced requisite cogency of knowledge-reification\(^7\) (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification\(^7\) (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification\(^7\) wherein for instance in the physics domain-of-study at the beginning of the 20\(^{th}\) century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency \(\sim\) sublimating-nascence,-disclosed-from-prospective-epistemic-digression), \(\text{as of ontological-normalcy/postconvergence}\) epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation\(\langle\text{unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’}\rangle\) tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification\(^7\) sublimating-over-desublimating implications of existence-potency\(\sim\) sublimating–nascence,-disclosed-from-prospective-epistemic-digression) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence de-mentative/structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation\(\langle\text{as-to-underlying-ontological-commitment}\rangle\)) induced constraining knowledge-
reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the defining ‘<amplituding/formative-epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’ foregrounding—entailment-{postconverging–narrowing-down~sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’}, as-operative-notional–deprocrypticism in elucidating ontological-contiguity as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’ as to the lack or poor predicative-effectivity–sublimation-<as-to-underlying-ontological-commitment> induced constraining knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications leading to a social-vestedness/normativity-<discretely-implied-functionalism> reflex rather than ontological elucidation reflex. Such an approach is often projected contradictory as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’–<imbued-and-

knowledge-reification the implications of science-ideology are ultimately social and
institutional as to the implications of human emancipation; and so in the sense that contrary to
what is generally thought, science itself as for-human-studies is the very first-level of social
science as of the epistemic implications it projects upon society and social meaningfulness-
and-teleology, and critically so because in reality budding-positivists were actually the very
first modern social scientists in the sense that their posturing wasn’t critically about the
‘technicalities of the budding natural science they advanced’ like a heliocentric world or
rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural
science curiosity given that in many ways some of the notions where previously advanced in
different forms), but they were rather critically engaged in a social posturing to epistemically
reconstrue the society and social meaningfulness-and-teleology in those scientific terms and
the future elaboration and development of the natural sciences could only be rendered possible
with an open society responsive to such budding scientific meaning, and it was this social
posturing which was the true source of their troubles and persecution. In fact, such ridiculous
historical interpretations seeming to criticise budding-positivists like Galileo for wrongly
making the case for a heliocentric world for instance are paradoxically based on condemning
the latter and other budding-positivists for having a poor experimental framework as of
ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail
to factor in that the very notion of ‘positivistic science experimental framework

enculturated/constructed as scientific practices by these budding-positivists with their medieval
societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere
disinclination and incuriosity to even look through a telescope and draw contemplative
consequences); and such a criticism on the basis of the subsequently developed and more
precise modern day science experimental framework speaks of the characteristic nature of a
supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-

That said all registry-worldviews/dimensions as of their defining human contemplative moment arising from their very human limited-mentation-capacity induced \textsuperscript{\textsuperscript{11}} presencing—absolutising-identitive-constitutedness\textsuperscript{\textsuperscript{12}} (while effectively
contemplative of prospective progress), hardly/poorly project of prospective emancipation directly on the ontologically-veridical basis of the defining ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (associated with its defining prospective transvaluative-rationalising / sublimating-thoughtfulness / historiality-or-ontological-eventfulness—or-ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> / prospective-ontological-projection / ideality as to prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation) but rather directly proceed as of the ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its threshold as to dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> / desublimating-or-gimmickiness-unthoughtfulness / historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition / social-vestedness-or-normativity / positive-opportunism—disposition), but then the latter is improvisably/uncontrollably potentiatively-transformed into the former as to the former existentially constraining implications of ontological-veracity. Thus the reality of prospective human emancipation in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process rather as of such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as to the potentiative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is
supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’) in many ways limits/stifles/undermines/derails human contemplative capacity for prospective emancipative implications (as can be so-contemplated from prospective notional–deprocryptism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’); and so critically as to the ‘presencing—absolutising-identitive-constitutedness human <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state inducing human psychological entrapment in want for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity potentiating’ when we consider that our present positivism registry-worldview is just about 500 years; pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and–hermeneutically/reprojectively/supererogatingly/zeroingly-educing–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation> (underlying human construction-of-the-Self) the human prospective capacity to serenely come to terms with ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ as so induced by the latter’s existentially constraining implications of ontological-veracity, is not necessarily forever bound to be as of the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ that undermines the possibility for such prospective notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ (as to the potential for a full human psychological uninhibitedness/decomplexification in superseding the ‘underlying human formative decoherencing-structure—of—meaningfulness-and-teleology’ for-institutionalisation’). But then such overcoming of ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’ still has to be effectively achieved as to the requisite human prospective development of protensive–self-consciousness in the face of the ever present manifestations of desublimating/gimmicky sophistry and eliciting of human temporality /shortness <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications>) as to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and so over the requisite maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. The very forward-facedness of human consciousness as it defines human social-stake-contention-or-confliction is in many ways architectonically determinative and defining (as it projects postconverging/dialectical-thinking—qualia-schema over preconverging/dementing—qualia-schema), with regards to the de-mentative/structural/paradigmatic circular recurrence of ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal—

Effectively the ontological-contiguity<sup>67</sup>—of-the-human-institutionalisation-process<sup>68</sup> possibility of successive transcendence-and-sublimity/sublimation/suberogatory–de-mentativity is a reflection of the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ as to its ‘transitorily implied successive notional-contiguity/epistemic-contiguity<sup>62</sup>–<profound-supererogation>–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> as from successive human consciousness forward-facedness postures in ‘presencing—absolutising-identitive-constitutedness<sup>13</sup>’, but which from the ontological-normalcy/postconvergence epistemic perspective in ontological-contiguity<sup>67</sup> rather speaks of their successive notional-discontiguity/epistemic-discontiguity<sup>63</sup>–<shallow-supererogation>–of-mentally-aestheticised–preconverging/dementing–qualia-schema>. very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the nonextriatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with dimensionality-of-sublimating. Similarly with respect to the ‘requisite human dimensionality-of-sublimating’ dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, in many ways just as prior human scientific and technological sublimation momentously induced historiality/ontological-eventfulness/ontological-aesthetic-tracing-reflecting-epistemicity-relativism inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually-for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite
prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in ‘presencing—absolutising-identitive-constitutedness’ that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ accordionning—(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,—as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance—<including-virtue-as-ontology>) at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity/sublimation/supererogatory-dementativity possibilities critically lies in appreciating the enabling ‘prospective predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment ) constraining that prospectively transforms human ontological-performance—<including-virtue-as-ontology> capacity’ as of the ‘elucidative foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective—

This reflects the reality that the transcendental meaningfulness-and-teleology\(^{10}\) of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and

Such an insight divulges the underlying de-mentative/structural/paradigmatic possibility that arise for sophistic/pedantic dispositions across all registry-worldviews/dimensions as to the prior ‘social-construct <amplituding/formative–epistemicity>totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold imbuened secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of human meaningfulness-and-teleology when not subjected to ‘prospective predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ constraining that prospectively transforms human ontological-performance—<including-virtue-as-ontology> capacity’. Critically, deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought as converging to the ‘supposed human-subpotency abstract self-determinative ontological-performance—<including-virtue-as-ontology> capacity as to the full-potency of existence’ effectively implies
is intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction’; as we can appreciate that the state of prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought (so-construed as of ‘supposed human-subpotency abstract self-determinative ontological-performance’—<including-virtue-as-ontology> capacity as to the full-potency of existence’ in their presencing—absolutising-identitive-constitutedness) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively. This insight points to the fundamental deficiency of all frameworks supposedly involved in articulating human prospective transcendence-and-sublimating meaningfulness-and-teleology whereas there are as of presencing—absolutising-identitive-constitutedness prior-apriorising/axiomatising/referencing–dialogical-equivalence—<as-superseded-logical-basis>; as to the fact that with regards to existence-potency—sublimating—nascence,—disclosed-from—prospective—epistemic—digression, the ‘supposed human-subpotency abstract self-determinative ontological-performance’—<including-virtue-as-ontology> capacity as to the full-potency of existence’ (as reflected by its given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation) is prospectively underdetermined for articulating prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest—subpotencies—in-transitive-conflatedness—reflexivity—in-the-full-potency-of-existence’s—sublimating—nascence’ with the ‘supposedly profound phenomenal/manifest—subpotencies—in-transitive-conflatedness—reflexivity—in-the-full-potency-of-existence’s—sublimating—nascence’ construed rather in reductionist terms of

reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a
gimmicky exploitation of the sublimation of the natural sciences as to their inherent

This latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity—<discretely-implied-functionalism>’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity—<discretely-implied-

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency/sublimating–nascence, disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating —<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> ontological-good-faith/authenticity—postconverging—dementating/structuring/paradigming ) to sophistic/pedantic <amplituding/formative> wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} eliciting of <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of–nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications>} , it is important to articulate such prospective sublimating meaningfulness-and-teleology while equally reflecting upon the sophistic/pedantic to its dimensionality-of-desublimating-lack—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or—
conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation> ontological-bad-faith/inauthenticity/preconverging-de-mentating/structuring/paradigming as part and parcel of the prospective sublimating meaningfulness-and-teleology, and not wrongly imply the desublimation is in apriorising-teleological-elevation-in-ontological-contiguity as to the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity attitude/mental-disposition/care-and-episteme (in this case reflecting sophistic/pedantic procrypticism—or–disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic-philosophers and budding-positivists it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and notional–deprocrypticism the effective ‘world that exists to the majority people (as of ‘human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accordion) as reflecting both desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing<{perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’}> possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought to go on cynically eliciting <amplituding/formative> wooden-language<{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}> as of the
latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretense of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation; universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) as to an epistemically-decadent wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-

uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—
disjointedness-as-of- reference-of-thought respectively are intellectually-and-morally
undeveloped to be the framework for appraising value-construction as of prospective base-

explaining the underlying implications of human registry-worldview’s/dimension’s
institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that
part and parcel of human knowledge-reification\(^{17}\) is not to allow desublimating thought to
occupy the ground of sublimating thought (as the latter has to include a challenge to the
knowledge-destroying desublimating thought arrogance and wretchedness), however the
subterfuges available to such desublimation whether as of sophistry and mere-institutional-
appendaging as reflecting the veridical prospective human-subpotency—

hint that it is fundamentally a question about existence-potency\(^{19}\)—sublimating—nascence,—
disclosed-from-prospective-epistemic-digression and no amount of human mortals
methodologising/mutualising/organising/institutionalising can supersede prospective
sublimating existence’s necessitating implications and consequences as otherwise the very idea
of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more than <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness) <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-for-relative-ontological-completeness—evenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholding—as-to-what-has-gone-before-
ontological-deficiency’ implied as of relative-ontological-completeness'), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance -<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historicity/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>’ and ‘a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as the inherent ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming effectively reflected as of notional–deprocrypticism.
notional-deprocripticism as such by its ontologically-uncompromised nature ‘technically entails’ prospective human ontological-performance—including-virtue-as-ontology as to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-epistemicity-relativism as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence in overcoming the desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ in presencing—absolutising-identitive-constitutedness. Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ underlying prospective human ontological-performance—including-virtue-as-ontology with regards to human meaningfulness-and-teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-discretely-implied-functionalism’ epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity—sublimation—as-to-underlying-ontological-commitment is strongly prone to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-
aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation” in “presencing—absolutising-identitive-constitutedness”, while the former strongly constrained to high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} is rather relatively amenable to sublimating “historiality/ontological-eventfulness”/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating ‘historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating “historiality/ontological-eventfulness”/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-

Likewise, it is herein contended that a tradition of philosophy
introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of "presencing—absolutising-identitive-constitutedness" \(<\text{amplitudizing/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of 'undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors' as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their "presencing—absolutising-identitive-constitutedness" existentialising—enframing/imprintedness-{as-to-}historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no 'deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—

But then the Ancient-sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency—sublimating—nascence,—disclosed-from-prospective—epistemic-digression allowing for prospective Socratic-philosophers universalising—idealisation and budding-positivism as to their respectively induced universalising—idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying—ontological-commitment \})’ and ‘positivism/rational-empricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying—ontological-commitment \})’ constraining in the face of ‘human notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> accordioning—(as-of-varying-individuations-contextually-transverse—desublimation/sublimation—,as-to-the-redounding/wavering/waveforming—of-their-referencing—and-their-devolved-referencing-imbued-ontological-performance—<including-virtue-as—ontology>) at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> possibilities’. The strategic
reflex of assuming a presencing—absolutising-identitive-constitutedness sensibility/decorum preemptively ‘shuts-off the possibilities of relative-ontological-completeness interpretations’ and arbitrarily defines ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction; such that effectively the social is interpreted (as of surreptitious disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity ’>) as non-ontological thus implying not it is subject to analyses as of social and socio-psychological phenomenal/manifest–subpotencies–<in-transitive-conflatedness reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence>. But then human sublimation in existence effectively speaks of the notional–symmetrisation-<as-to-symmetrisation-by-desymmetrisation-in-reflecting-postconverging-or-dialectical-thinking–by–preconverging-or-dementing-perspectives-of-human—meaningfulness-and-teleology> underlying human ontological-performance-<including-virtue-as-ontology> as to the ontological-contiguity—of-the-human-institutionalisation-process* succession of registry-worldviews/dimensions, and such a presencing—absolutising-identitive-constitutedness sensibility/decorum strategy as to its implicated denial of such an ontological-contiguity—of-the-human-institutionalisation-process* of human ontological-performance-<including-virtue-as-ontology> underlined by human historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>, effectively reveals its non-scientific nature notwithstanding the confusion of vague academicism proceduralism with true sublimating science/ontology. All the knowledge-reification that effectively can be is of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation having to
do with human limited-mentation-capacity-deepening as enabling human-subpotency epistemic-projection towards the full-potency of existence so-construed as intemporality, and not a presencing—absolutising-identitive-constitutedness human-subpotency epistemic-projection in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag so-construed as temporality. But then the inclination to assume an ontologically-flawed sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy is ever always associated across all registry-worldviews/dimensions with blurriness of meaningfulness-and-teleology as to meaningfulness-and-teleology rather unconstrained to predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as to lack of ‘relative-ontological-completeness —apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’. Consider in this regards, the de-mentative/structural/paradigmatic possibility of such an abstract human sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy exercise with regards to say Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs if there was ‘no positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ (as produced by the efforts of budding-positivists even as during their own epoch this was contested by their Establishment) that allowed for sublimating scientific thought to be integrated or rejected by its mere predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) (as to the ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment))’, then there is nothing inherently telling that the latter physics

psychologism is the valid logical-basis’ and ‘the desublimating
apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out
that the successive relative-ontological-completeness as base-institutionalisation,
universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively
are actually projective-insights speaking to the fact that human prospective emancipation
should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as so-induced by notional-asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) which rather requires instigative notional-asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional-asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the
world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness [logical-basis/logic-<as-to—transversality~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’> is in transversality~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’] with the relative-ontological-incompleteness logical-basis/logic-<as-to—transversality~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’>, it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity ~postconverging–dementating/structuring/paradigming existential-condescension~<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity ~postconverging–de-
mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In this respect with regards to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity—postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology\textsuperscript{00} (even though from a retrospective perspective we can grasp the preconverging/dementing–qualia-schema of ‘the God of plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity\textsuperscript{09}—postconverging–de-mentating/structuring/paradigming existed existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing\textsuperscript{19}—qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{00} going by its \textsuperscript{08}presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing\textsuperscript{19}—qualia-schema of our \textsuperscript{08}procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold\textsuperscript{03} as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{00}). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold\textsuperscript{03} speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity<shallow-supererogation‘-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation{(as-to-underlying-ontological-commitment)}’ imbued<foregrounding—entailment{(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{07} in reflecting ‘immanent-ontological-contiguity’{⟩},–as-operative-notional–deprocrypticism that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity\textsuperscript{09}—postconverging–de-mentating/structuring/paradigming\textsuperscript{07} existential-
condescension-<of-apriorising/axiomatising/referencing–psychologism>’ as to prospective living-development–as-to-personality-development and institutional-development–as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning–suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning–suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite ‘ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ and naïve present day presencing—absolutising-identitive-constitutedness interpretations in terms of the supposed arrogance of the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> (as to the failure to appreciate that the surpassing of human-subpotency aporeticism is all about originariness-parrhesia,—as—spontaneity-of-aestheticisation supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation that only arises as of ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking—apriorising-psychologism>’ over ‘desublimation

Likewise, this insight about the requisite ‘ontological-good-faith/authenticity’ existential-condescension<of-apriorising/axiomatising/referencing—psychologism>’ for organic-knowledge needs to be explicited with regards to the blurriness of ‘meaningfulness-and-teleology’ associated with today’s institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—{blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } with cynical, ridiculous and paradoxical pretenses of humility and sensibility/decorum that by that token (not unlike Ancient-sophistry and medieval-scholasticism) go on to induce ‘existentially invalid condescension’ as to their veridical desublimating—presencing—absolutising-identitive-constitutedness—<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ as of ontological-bad-faith/inauthenticity~preconverging—dementating/structuring/paradigming”. and it is here that the genuine social intellectual–function/posture comes in to veridically reflect
the reality that a social-construct is not of absolute scalarisation of human ontological-

not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as
otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-

availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The genuine social intellectual—function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought positive-opportunism of living-development—as-to-personality-development and institutional-development—as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation —profundity—postconverging—de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning—suprasocial-construct tends to be abstractly preconvergingly—de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual—
function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology\textsuperscript{100}<-in-existential-extrication-as-of-existential-unthought>\textsuperscript{100} positive-opportunism\textsuperscript{79} of living-development–as-to-personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given \textsuperscript{80} presencing—absolutising-identitive-constitutedness \textsuperscript{1} ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human \textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{11} mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{1} meaningfulness-and-teleology\textsuperscript{100} but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and
institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and preconvergingly—de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying ‘presencing—absolutising-identitive-constitutedness’ end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of ‘presencing—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness—<as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> of social-vestedness/normativity—<discretely-implied-functionalism> and social-stake-contention-or-confliction. of ‘ontological-good-faith/authenticity—postconverging—de-

The implication here is that the ‘ontological-good-faith/authenticity\(^6\)~postconverging–de-mentating/structuring/paradigming existential-condescension\(<\text{of-apriorising/axiomatising/referencing–psychologism}>\)' is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogation\(-<\text{de-mentativity which is only possibile as to existence—as-the-absolute-a-priori-of-conceptualisation—}and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(7\)\(-<\text{as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming}>\) with regards to human formativeness\(<\text{as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism}>\)-of-meaningfulness-and-teleology\(10\). Thus it is only the possibility of ‘ontological-good-faith/authenticity\(6\)~postconverging–de-mentating/structuring/paradigming\(70\) existential-condescension\(<\text{of-apriorising/axiomatising/referencing–psychologism}>\)' that can thus allow human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness\(13\) <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \(33\) (given that human ontological-performance\(9\)\(-<\text{including-virtue-as-ontology}>\) cannot be neutrally be separated from human <amplituding/formative-epistemicity>totalising~thrownness-in-existence\(14\) and the reflexive temporal-to-intemporal ontological implications on human ontological-performance \(<\text{including-virtue-as-ontology}>\). This insight can be illustrated as follows: supposed say in \(5000\) BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholding
to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension~of–apriorising/axiomatising/referencing–psychologism’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicit-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicit-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of
existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism. It is this pre-eminence of existential-discursivity—implicit-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sUBLImating—<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluable-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> takes precedence in defining human intellectual-and-moral ontological-performance—<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation.

This implied existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness—<metaphoricity—disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative—epistemicity>totalising—thrownness-in-existence’. This insight puts
into perspective our “presencing—absolutising-identitive-constitutedness” conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness’ specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising–thrownness-in-existence’ is not of neutrally/objectively sound ontological-performance <including-virtue-as-ontology>; as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our <amplituding/formative–epistemicity>totalising–thrownness-in-existence and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating — <amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>. Besides such a more stark elucidation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-

In this regards, and in the bigger scheme of things existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing—psychologism> implies that as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance’<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative—epistemicity>totalising—thrownness-in-existence’ with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional—deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-confledness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given “presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity” as to the possibility for intelligibility to arise as so-reflected with the overall ontological-

regards, we can appreciate how the subsequent immaterial/social sublimation required for
prospective positivism/rational-empiricism came to be appreciated by such thinkers like the
Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated
with the printing press and increasing technical knowhow rendered the immaterial/social
overall relative-ontological-incompleteness</presublimation-construct–of– meaningfulness-
and-teleology\textsuperscript{100} of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking\textsuperscript{20} – apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness\textsuperscript{88} and the immaterial/social overall relative-ontological-incompleteness\textsuperscript{89}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying 'scientific—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment )' as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness\textsuperscript{88} weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness\textsuperscript{89}–presublimation-construct–of–meaningfulness-and-teleology\textsuperscript{100} value-construct and shallow-supererogating

humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that
the positive-opportunism driving the secondnatured institutionalisation of human sublimation
induces discrepancy as to immediate material and technical possiblities of sublimation and the

the aporetic challenge of the immediate material and technical possibilities of sublimation. In
many ways this discrepancy of material and technical sublimation and immediate distortive
immaterial/social desublimation is reflected in the ‘ historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with
meaningfulness-and-teleology of our positivism–procrypticism, for instance as associated
with an ‘underlying dumbing-down public intellection and media industry’; as media-access
and its commercialisation function in many ways rather adhocly substitutes-for/undermines a
profound genuine social intellectual–function/posture as to social-stake-contention-or-

supposed equanimity/balance of the overall politico-institutional system as to sublimating
notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the
originariness/origination-positive–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-

Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve “presencing—absolutising-identitive-constitutedness” epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to

nascent knowledge-reification—gesturing directly or indirectly prescient of a comprehensive sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension; the possibility for ontology/science is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing construction’ (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest-subpotency—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence) and so as to the subject-matter underlying existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ (and so as effectively reflected by the overall reference-of-thought and reference-of-thought—devolving/subject-matter ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)). In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency existentialising—

In this regard, relic/artifactual conception of veridical human \(^{2}\) historicity/ontological-eventfulness /ontological-aesthetic-tracing->perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> rather speaks to deficient knowledge-reification—gesturing caught up in —presencing—absolutising-identitive-constitutedness\(^{2}\) as of beholdening-becoming—distortive-originariness/distortive-origination—as-to—\(^{2}\) historicity-tracing—inhhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification\(^{2}\) for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual—function/posture indifference or betrayal to dominance/vested-interest actors. This issue of
institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflecting in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification\(^8\) (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-{as-to-underlying-ontological-commitment\(^\rangle\)} to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification\(^8\)—gesturing, the ultimate possibility for our positivism–procrypticism overcoming its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-

poorly amenable to profound alternative institutional aestheticising contemplation ‘given its calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance’ as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-{as-to-} historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ (however their de-mentative/structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. ontological-deficiency whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism–or–disjointedness-as-of reference-of-thought (notional–procrypticism). Such that the manifested postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) is directly related to the presublimating reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning disposedness {as-to-orientation/value-construct/valuation–and–derived-parameterising} to be cognisant-and-integrative in prelogism–as-of-conviction,–as-to-profound-supererogation (construed as if of postconverging-or-dialectical-thinking–apriorising-psychologism) of the same meaningfulness-and-teleology articulated as of postlogism manifestation (articulated rather as preconverging-or-dementing–apriorising-psychologism) thus inducing the conjugated-postlogism; and so as to the fact that for instance a postlogism manifestation grounded in a social-setup as of say an animistic social-setup cognisant-and-integrative of notions-and-accusations-of-sorcery in prelogism–as-of-conviction,–as-to-profound-supererogation (as if of postconverging-or-dialectical-thinking–apriorising-psychologism) is susceptible to the postlogism of notions-and-accusations-of-sorcery–meaningfulness-and-teleology (articulated rather as preconverging-or-dementing–apriorising-psychologism) which will be de-mentatively/structurally/paradigmatically impossible to manifest in a non-superstitious positivistic registry-worldview/dimension. Thus the idea of ‘prelogism–as-of-conviction,–as-to-profound-supererogation’ cognisance-and-integration in presublimation reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning disposedness {as-to-orientation/value-construct/valuation–and–derived-parameterising}’ speaks to the fact that more fundamentally postlogism and social-postlogism implications are ontologically escalating beyond just any particular/specific existential manifestation of postlogism and that inherently a presublimating reference-of-thought/grandest-axiomatic-construct—as-to-
ontologising prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) and thus undermining the prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring induced re-motif–and–re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting as conflating towards the possibility of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. The psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation, is de-mentatively/structurally/paradigmatically already validating the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation as paradoxically valid for all instances of aposteriorising/logicising/deriving/intelligising/measuring warranting positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation (thus inducing the animistic social-setup ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and its non-positivistic complexification); as to the fact that it is a positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation adopting rather a relation of ‘non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring as from the non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation of such an animistic social-setup God of plane non-positivistic proposition’
that enables the possibility for maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation as bringing to the consciousness-awareness-teleology of the animistic social-setup that the notion of plane implies an altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation induced psychologism of reference-of-thought (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation psychologism of reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising. Furthermore, it is such ontologically-deficient incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation (as to its cognisant-and-integrative blending/incorporating of prospective ‘nascent-particular/incipient-and-material/technical-sublimations—blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving’ as if of relative-ontological-incompleteness presublimating reference-of-thought/grandest-axiomatic-construct—as-to—referencing/registering/decisioning in circularly beholding meaningfulness-and-teleology to human-subpotency’) that is behind the development of all the successive registry-worldviews/dimensions given wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or—dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) so-construed as being of preconverging-or—dementing—apriorising-psychologism epistemic-abnormalcy/preconvergence (as so-reflected from the undermined maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation postconverging—or-dialectical-thinking—apriorising—psychologism conception in ontological-normalcy/postconvergence epistemic-projection

As of practical existential implications — maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation means that the positivistic disposedness — as-to-orientation/value-construct/valuation—and—derived-parameterising cannot be responsive to the social-stake-contention-or-confliction projected as of such a non-positivistic meaningfulness-and-teleology, as to a fundamental positivistic disavowal of its non-positivistic disposedness — as-to-orientation/value-construct/valuation—and—derived-parameterising as non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of its non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation). By extension, maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation psychologistic and apriorising implications (so-construed from the technical ontological-veracity of originariness/origination—so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional—deprocrypticism), speaks to the fact that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the respective registry-worldviews/dimensions in relative-ontological-completeness (base-institutionalisation, universalisation, positivism and deprocrypticism respectively) are projected in disavowal of their respective prior registry-worldviews/dimensions in relative-ontological-incompleteness (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively) destructuring-threshold—(uninstitutionalised-threshold/presublimating—desublimating—decisionality)—of—ontological-performance — <including-virtue-as-ontology> of ontological-performance — <including-virtue-as-ontology> as reflected by their disposedness—(as-to-orientation/value-construct/valuation—and—derived-parameterising), implying the latter are effectively non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the

Thus, as to their respective presencing—absolutising-identitive-constitutedness<sup>15</sup> \(<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>16</sup>), all relative-ontological-incompleteness registry-worldviews/dimensions as of their preconverging-or-dementing—and apriorising-psychologism pretend to articulate what can prospectively be possible and impossible (in such a way that ‘conveniently’ imply that theirs is the registry-worldview/dimension that ‘thinks right’ while ignoring projective-insights as of the overall ontological-contiguity —of-the-human-institutionalisation-process implications as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<sup>17</sup>) with respect to all corresponding prospective relative-ontological-completeness projective-insights implications of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity; failing to factor in that their paradoxical contemplation in relative-ontological-incompleteness is exactly what renders their supposed determination of what can prospectively be possible and impossible structurally/paradigmatic nonsensical but for the convenience of falling back (even when relative-ontological-completeness avails) as of ontological-bad-faith/inauthenticity to the notion that afterall all the world that exists is-as-of-their-given-registry-worldview/dimension however its preconverging–de-mentating/structuring/paradigming vices-and-impediments (which mental-reflex is ever always ‘exactly the aporeticism’ to be superseded with prospective sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). But then the very ‘aestheticisation—and—aestheticisation-towards-ontology of human ontological-performance\textsuperscript{[7]}—\textsuperscript{<}including-virtue-as-ontology\textsuperscript{>}’ takes form as of ‘relic/artifactual—beholdening-constitutedness\textsuperscript{[13]} secondnatures reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’, speaking to the requisite projective

to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence ‘beyond and unbefolden to any human merely-beholdening–aestheticising-reflex of “meaningfulness-and-teleology”’, and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of “meaningfulness-and-teleology”; so-reflecting the fact that overall human civilisation (notwithstanding any given societies/cultures of naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted–meritocracy/totalising–sovereign-approporportioning—of-human-ontological-performance—<including-virtue-as-ontology> ‘merely-beholdening–aestheticising-reflex of “meaningfulness-and-teleology”’) could only be possible by the cumulating/recomposing of all such ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ more fundamentally speak to ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening–aestheticising-reflex of “meaningfulness-and-teleology”’ of various societies/cultures and as of such ontologically-
flawed representation across various human historical epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism-as-to-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory-unbeholdening-conflatedness-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism’ of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of presublimating intelligibility’ of ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology’ caught up in complexes of ‘naïve presencing—absolutising-identitive-constitutedness’ as to presencing-distorted—meritocracy/totalising—sovereign-appropriation—of-human-ontological-performance—including-virtue-as-ontology’ that end up inducing poor/distorted human understanding of the human). The underlying point here is that just as human tools, other
technical/material capabilities like electricity, etc. are rather of ‘de-
mentative/structural/paradigmatic momentous-unbeholdening-aestheticising-reflex effectively-
manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities
accruable to all humans and societies as to their underlying ontological-commitment of
meaningfulness-and-teleology, a ‘human psychological-disposition for
supererogatory-unbeholdening-conflicatedness of sublimating intelligibility’
implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-
mentative/structural/paradigmatic momentous-unbeholdening-aestheticising-reflex effectively-
manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-
prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities
accruable to all humans and societies. This overall insight is particularly salient in the sense that
the ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness

that $2+2$ is not equal to 4 because they are vexed for one reason or another (as it is that condition of our mortality that then provides the possibility for our self-surpassing in prospective construction-of-the-Self) so-reflect in the fact that the underlying existentialising-frame of knowledge is the very requisite condition for eliciting the true meaningfulness-and-teleology of any given specific knowledge-reification — gesturing for sublimation (as for instance there is little point articulating any given positivistic existentialising-decisionality specific knowledge-reification — gesturing for sublimating-nascence as to positivistic nascent-particular/incipient-and-material/technical-sublimations-blinded-to-their-relative-ontological-completeness — reference-of-thought- devolving> where the underlying registry-worldview/dimension existentialising-frame of knowledge is of non-positivistic desublimating-existentialising-decisionality and is not addressed/dealt-with as the Galileos, Descartes, etc. understood with respect to non-positivising medieval-scholasticism desublimating-existentialising-decisionality or the universalising-idealisation Socratic-philosophers sublimating-existentialising-decisionality understood with respect to non-universalising ancient-sophists desublimating-existentialising-decisionality and in both instances as of their prospective registry-worldviews/dimensions implied incipient/seeding amplituding/formative–epistemicity>totalising–thrownness-in-existence — imbued-projective-arbitrariness/waywardness—(as-to-the-human—projective/reprojective—aestheticising-re-motif— and—re-apriorising/re-axiomatising/re-referencing-process-of—amplituding/formative–epistemicity>totalising–conceptualisation') as to sublimating–nascence epistemic-conflatedness as of projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing, and it is contended as well that the conceptualisation herein is rather the more profound as to when its meaningfulness-and-teleology elucidates as to its deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought sublimating-existentialising-decisionality ‘the desublimating-existentialising-decisionality of

Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed
out-of-sight since ‘supposed knowledge-reification’ as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’ rather than veridically ‘knowledge-reification’ as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so- reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intellibilitysetup/measuringinstrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Overall the social-construct itself is reflexive of this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ as of its very underlying social-and-institutional-frameworks-of—referencing/registering/decisioning as to social-stake-contention-or-confliction wherein the ‘implicated sublimating–existentialising–decisionality’ underlying the ‘non-immediacy prospective sublimating value and ontological- veracity disposition’ associated with nascent-particular/incipient-and-material/technical- sublimations-<blinded-to-their-relative-ontological-completeness—reference-of-thought- devolving> (as reflected by the dedication/selflessness/disinterest/magnanimity underlying such existentialising–decisionality of sublimating–nascence as to existence—as-sublimating- withdrawal,-eliciting-of-prospective-supererogation >) tend to be incoherently overlooked/ignored when it comes to ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ reconception of existentialising–decisionality as to social-and-

Such muddlement is more critically as of the inconsistency associated with both sceptical argumentations (with sceptical arguments not necessarily pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation when assuming a coherent/consistent threshold of scepticism in want for elucidation) as well as surreptitiously acquiescing/accommodating argumentations, wherein in both instances the inconsistency is bent on blurring/undermining universal-transparency—{transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness } as to a dementative/structural/paradigmatic implication that renders prospective knowledge impotent and so out of ontological-bad-faith/inauthenticity in desublimating—existentialising—decisionality
gesturing of attenuating/devaluing, blurring and trivialising wherein there is ‘supposedly no totalising-entailing conception of “meaningfulness-and-teleology”’ thus allowing for totalisingly-disentailing—discretion/whim-of-thought pretense-of-sublimation rather unconstrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation. Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations–reflected-to-their-relative-ontological-completeness—reference-of-thought-devolving> is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-

Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the \textsuperscript{100}universal-transparency \textsuperscript{/\textsuperscript{101}}-{(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness} ) of knowledge-reification ’ (and so as to self-serving social-vestedness/normativity-<discretely-implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification\textsuperscript{87} for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising—}
decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating~existentialising–decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness-(as-to-

 historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating~existentialising–decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as herein underlied with notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> implied formativeness—as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of—meaningfulness-and-teleology in nonpresencing-<perspective–ontological-
normalcy/postconvergence> epistemic-projection, and so similar to a Derridean ‘heterogeneous
 genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism
 overcoming/unovercoming as to institutional convenience that fails to articulate such a
 ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus
 renders in relative terms the social domain more intellectually impotent in inducing a similar
 level of sublimating–existentialising–decisionality as to existence—as-sublimating-
 withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural
 sciences (and so notwithstanding the relative blurriness of the social which can effectively be
 brought to exactifying/precisioning–of-sublimation<-as-to-entailing-theoretical,-conceptual-
 and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-
 involvement overcoming rather than assuming a relatively false social and institutional pre-
 eminence driven relation to knowledge); with the further implication of such ‘totalising-
 entailing pertinence of thought upheld/elevated above anyone person’ being that the
 ‘knowledge-reification process becomes highly impersonal and complementary in a natural
 way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the
 pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-
 supererogation’. In this regards, it is contended that the argumentation articulated herein are
 strictly striving towards aetiolagisation/ontological-escalation in reflection of ‘abstract human
 intemporal individuative ontological-performane (as to the backdrop of the
 notionalisation/notional-conception/amplituding of knowledge in reflection of human
 notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-
perspective–ontological-normalcy/postconvergence>) while striving for totalising-entailing
 pertinence of thought’ and so projecting beyond any implications of
 personalising/particularising import but rather turning towards ‘ontological elucidation import
 as it then reifyingly-and-empoweringly enables human sublimation as to prospective
operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic meaningfulness-and-teleology is not developed to go about articulating/relying-to meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology), and so by the mere implications of dimensionality-of-sublimating —<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality> (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of —<amplituding/formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality> by the prior presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—{as-to-}historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—{uninstitutionalised-threshold /presublimating—desublimating-decisionality}—of-ontological-performance —<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks—of—referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—{as-to—}historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conception of the ‘overall possibility of human
existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurrying underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness—(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism’ required for human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—

‘the legislation for human prospective sublimation’ (as to sublimating–existentialising–

Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology implications) and in that regards the triteness of human pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and \(<\text{amplituding/formative}>\) wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>) patently doesn’t count (given the latter associated temporal desublimating–existentialising–decisionality in existential-extrication-as-of-existental-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating–nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existental-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment). This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development—as-to-personality-development and institutional-development—as-to-social-function-development) wherein for instance the notion of say genius
is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given

exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is
nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that
the social-construct meaningfulness-and-teleology as from the moment of the sublimating

Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising—decisionality’ is ontologically flawed given human notional—firstnaturality—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> to arrive at desublimating—existentialising—decisionality/sublimating—existentialising—decisionality
overlooking organic-knowledge implications (whether by ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation’ implied ‘pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’ or ‘intemporal unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ implied ‘as to the very inherent knowledge-reification–gesturing as determining sublimating–existentialising–decisionality’). Thus as to critical pure-ontology (underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and-

This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—preconverging–dementating/structuring/paradigmging as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality proned to presencing—absolutising-identitive-constitutedness existentialising—
enframing/imprintedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification—gesturing as determining sublimating—existentialising—decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—hermeneutically/reprojectively/supererogationally/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>) can thus de-mentatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility — effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation. In many ways this latterly identified manifestation of ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’, wherein political purpose supposedly supersedes human intellective potency is the very crème-de-la-crème de-mentative/structural/paradigmatic and defining basis for social-and-institutional-frameworks-of—referencing/registering/decisioning of

In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of
elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic-

sublimating–existentialising–decisionality of the genuine social intellectual–function/posture;
and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as
associated with the centrality of elections, voting and party politics’ is incomplete without an
adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a
genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic
public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural
ascendancy over ‘the supposedly democratic platforming and stakeholding in defining the very
issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically
skewed media debates and socio-econo-political thought-makers/thought-making overtly
associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and
media influence). Critically, in this context such skewed platforming and stakeholding ends up
alienating supposed sovereign electors as to a platforming and stakeholding process that
mediationally and politically take a self-contained course (as to dominance/vested-interest

increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true
policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/ vested-interest ‘tolerable locked-in socio-eco-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/ vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/ vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). In this regards the genuine social intellectual–function/posture is simply about projecting the
undermining genuine knowledge-reification—sublimating—existentialising—decisionality, such that the knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications of human knowledge as herein implied and as applies with all human knowledge can easily be requalified sophistically as to ‘the given human existentialising—enframing/imprintedness—(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) elicitation’ in totalisingly-disentailing—discretion/whim-of-thought (as the state of inherent relative ignorance/disenfranchisement across all the ages of human history is cynically used against human sovereign—function/posture in need for its prospective genuine social intellectual—function/posture). Such catchphrases like deficits, public spending, social engineering, socialism, etc. already speak to subliminally induced existentialising—enframing/imprintedness—(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) fundamentally skewing the democratic public debate undermining an ontology/ontological-veracity driven conception reflected as to ‘intemporal unbeholding sublimating—nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating—existentialising—decisionality)’; and critically this ‘subliminally induced existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) reflex’ is a reflex that has ever always existed across the succession of human registry-worldviews/dimensions notwithstanding the paradox of human prospective sublimation/emancipation despite this reflex (thus speaking to the requisite crossgenerational dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension underlying the genuine social intellectual—function/posture existentialising—frame as to human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications).

Critically in this regards (as to underlying ‘epistemic/notional disquisitive enframed—
conceptualisation–by–unenframed-conceptualisation knowledge-reification constructive conception’ projection of ‘reclamation/recovery of unenframed-conceptualisation’<as-to-
ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> in perspective ontological-normalcy/postconvergence as to underlying inherent existence’s sublimating–nascence inducing of ontologisation/omnipotentiality. This latter point speaks to the very fundamental ontological-deficiency of knowledge-reification —gesturing as undertaken with many a subject-matter failing ‘supererogatory—aestheticising-<as-from-perspective–ontological-normalcy/postconvergence>—re-origination/reshuffling/anarchisation/transformativeness in hermeneutically/reprojectively/supererogatingly/zeroingly-educing ¼ historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ and rather betrothed to a ‘functionalism projection and conception’ (to which the notion of prospective sublimation/desublimation as to the possibility for prospective knowledge-reification is inevitably bogged down to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of our modern presencing—absolutising-identitive-constitutedness 13 social-vestedness/normativity-<discretely-implied-functionalism> inducing of subontologisation/subpotentiation) as so-reflected in a psychological-disposition to presublimating relic/artifactual–beholdening-constitutedness 13 de-mentatively/structurally/paradigmatically bound to ¼ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition. This is exactly in contrast to the whole object of effective fundamental ontology as incipiently/seedingly central to Derridean deconstruction and Foucauldian genealogy (and as reflected with science-in-practice driven as of ¼ historicity/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> conception and not naïve science-ideology historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition conception), as to foundational issues and point-of-departure of knowledge-reification—
gesturing; wherein the Derridean quasi-transcendental and Foucauldian archaeology postures (as of human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications in knowledge-reification) strive to supersede any social-vestedness/normativity inducing of subontologisation/subpotentiation in the ‘implicated conceptualisation of a foundational point-of-departure of knowledge-reification—gesturing’ and rather ‘implicit by their approach that human meaningfulness-and-teleology is as to its subjection to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation in hermeneutically/reprojectively/supererogatingly/z eroingly-educing sublimation-over-desublimation’ (as herein articulated as of the implications of human limited-mentation-capacity-deepening postconvergingly—de-mentating/structuring/paradigming—out the ontological-contiguity—of-the-human-institutionalisation-process with regards to living-development—as-to-personality-development, institutional-development—as-to-social-functiondevelopment and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology). This conceptivity/epistemic-reflexivity difference between ‘human sublimating/desublimating—modalisation—<as-to-absolute-referencing—of meaningfulness-and-teleology> upon inherent existence’s sublimating–nascence inducing of ontologisation/omnipotentiality’ and ‘human sublimating/desublimating—modalisation—<as-to-absolute-referencing—of meaningfulness-and-teleology> upon social-vestedness/normativity—<discretely-implied-functionalism> inducing of subontologisation/subpotentiation’ can be compared in allegorical terms to say having a highway with poor signalling and construction bound to induce a given level of accidents (as to possibility of sublimation/desublimation), with the former rather construing of the inherent nature of the highway of foundational problematic aporeticism overcoming/unovercoming and the latter rather ignoring the inherent foundational problematic aporeticism overcoming/unovercoming nature of the highway and adopting extricatory

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness→reference-of-thought–devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness-<in-perspective–epistemic-abnormalcy/preconvergence> of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality prone to “presencing—absolutising-identitive-constitutedness”). Thus the genuine social intellectual–function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality (however the remoteness to immediacy/punctual human social-stake-contention-or-confliction “presencing—absolutising-identitive-constitutedness” existentialising—enframing/imprintedness-(as-to–historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)) as this is exactly what makes-available/keeps-open prospective human sublimating–nascence (as a requisite sublimation-over-desublimation function/posture that is most important and cannot be allowed to be undermined by the immediacy-driven/nombrilistic positive-opportunism of “presencing—absolutising-identitive-constitutedness” social-vestedness/normativity-<discretely-implied-functionalism>) and so especially in opening-up prospective registry-worldviews/dimensions as to human Being-

What is thus implied herein as most critical about the human and humanity is the capacity for profound-supererogation (as to human limited-mentation-capacity-deepening) implication of nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ and so ‘more than just a positive-opportunism’ relation to ‘meaningfulness-and-teleology’ as of the registry-worldview/dimension station/locus of ⟨amplituding/formative–epistemicity>totalising~thrownness-in-existence’, imbued-projective-arbitrariness/waywardness-(as-to-the-human–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing-process-of-‘⟨amplituding/formative–epistemicity>totalising~conceptualisation’⟩ in existential-extrication-as-of-existential-unthought. Fundamentally, the ‘contrastive inequivalence relation’ implied as of notional~self-distantiation-⟨imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing⟩/‘distantiation of contemplative existentialising–frame as to transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ is critically ‘the manifestation of the very ontological-normalcy/postconvergence nature of existence but for the confusion of human limited-mentation-capacity induced presencing—absolutising-identitive-constitutedness’. Thus in effect notional~self-distantiation-⟨imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing⟩ actually reflects the reality of human limited-mentation-capacity-deepening (rather than truly a counterpart to distractive-alignment-to-reference-of-thought-⟨of-apriorising/axiomatising/referencing⟩), and so in the sense that existence as of its ontological-

In this respect, we can appreciate that appropriate notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> is effectively what is bound to bring about momentous ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> as to a human genuine social intellectual–function/posture (underlied by ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality) wherein without such a ‘submission and making up to existence’s ontological-normalcy/postconvergence’ the transition say between classical-mechanics—axiomatic-constructs and theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs

conception of <supererogatory–human-subpotency>–effecting is critically relevant in
appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a
modern day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source
of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a
practice of public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern day
training and professions rather points to the fact of a public potentially capable to handle more
creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional–self-distantiative contemplative profundity/technicity that inherent existence sublimating–nascence warrants to make available appropriately sublimating <supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of profundity/technicity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-
reification'/contemplative-distension ’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channeiling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-totalising’ preformulating/preframing/premeaningfulness of notional–originariness–parrhesia,—as–spontaneity-of-aestheticisation’ before the incipience of metaphoricity? and then meaningfulness-and-teleology as to existentialising-frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation (noting here that what is key here is ‘the existence constrained educated sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educated sublimating’ is fundamentally besides the point however its ‘false
convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of—social-stake-contention-or-confliction’ conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification—contemplative-distension—implications of ‘constraining existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation’—imbuing human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification—contemplative-distension—’ that are closely attached-and-driven directly or indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t necessarily generate less public interest but should primarily be motivated with inherent knowledge-reification sublimating—existentialising—decisionality implications). It is herein contended howver counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings
and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojective/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising’ reconstrual of existential-contextualising-contiguity’-in-reification’). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to’ meaningfullness-and-

technician/practitioner/scientist in the face of constraining existential implications) or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness/by-reification’/contemplative-distension” requiring appropriate notional—self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>) in public spaces is not detached from ‘public interestedness/profundity mediocrity’ and ‘public awareness/accounting/decisioning mediocrity’. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification” so-underlying <supererogatory—human-subpotency>—effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology’ technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory—human-subpotency>—effecting) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification /contemplative-distension” relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningfulness-and-teleology” technicity/profundity is not achieved and thus rendering the

In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification’/contemplative-distension’ as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-

The sovereign—function/posture ontologising-aptness warrants that it doesn’t fall prey to falsehoods of ‘contrastive equivalence’ implied as of distractive-alignment-to reference-of-thought-<of-apriorising/axiomatising/referencing> manifested with ontologically-flawed process/processive bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc’), and further requires that effective public and institutional intellectual contestation of aptitudinal-substantive-pertinence are not be subverted by monopolising/quasi-monopolising/networking existentialising—frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine social intellectual—function/posture involves striving for a protracted continuum with the sovereign—function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising—frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness —by-reification /contemplative-distension ’ (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating—nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness— reference-of-thought— devolving> existentialising—decisionality or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality); and so to fundamentally bring to the consciousness-awareness-
teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-traction–of-desublimating–meaningfulness-and-teleology\(10\){(as-perspective-lost-of–supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbuement postconverging/dialectical-thinking\(20\)–of–notional–deprocrypticism–(in-dimensionality-of–sublimating {as to rescalarisation–as–re-ontologisation)\(31\) wherein ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\(90\) undermines the individual’s and social ‘conscious-and-active epistemic-totalising’ re-procession of the existentialising–frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology\(10\)’ while overemphasising rather a ‘subconscious-and-passive epistemic-totalising\(32\) re-automatism relation with the existentialising–frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology\(10\) as elicited with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with the consequent contemplative disorientation, estrangement and lip-servicing/trivialising-relation to veridical social-stake-contention-or-confliction existentialising–decisionality evaluation-and-coherence’). This eventually means that the genuine social intellectual–function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling–<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-
processive technicity/profundity’ is widely scorned upon ‘in favour of vague
normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and
ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation in a ‘framework of preconvergingly–de-

In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflectied by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’ in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human <amplituding/formative–epistemicity>totalising~thrownness-in-existence’, ‘human meaningfulness-and-teleology is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflatedness/postconverging as to existential-contextualising-contiguity -in-reification knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening (thus implying human profoundness/ontologising-depth is of notional–nondisjointedness/contiguity/coherence as of ‘<amplituding/formative>disposedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability)’ underlined as to its given prospective foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity ’), as-operative-notional–deprocrypticism); with the implication here that ‘institutional process/processiveness as of mere-formulaicity as to mere-formulaic–methodologising/mutualising/organising/institutionalising (while clearly inducing

Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–function/posture contemplative pertinence/capacity in epistemic-totalising growth/conflatedness/postconverging as to existential-contextualising-contiguity—in-reification knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening allowing for appropriate coherence between concrete social reality and overall public perception of concrete social reality with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ so-underlined by manifest social-stake-contention-or-confliction issues should as to human epistemic-growth/conflatedness /postconvergence instigatively drive public debates rather than ‘the

The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete social reality and overall public perception of concrete social reality’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-<reference-of-thought-of-apriorising/axiomatising/referencing> issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness—<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity—and-deferentialism>—of—meaningfulness-and-teleology reflective of nonpresencing—<perspective–ontological—

social intellection posture will tend to be one step behind cumulating desublimating socio-
econo-political outcomes as if it is most critically about reflecting upon such cumulating
desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a
posture of anticipative analysis and preemption). This mere process/processiveness induced
deficiency is often critically reflected in a ‘barest and passive/unreflexive conception of
sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social
enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’

the public university or the press body or the ‘overall backdrop of the professional class

subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern day democratic process as it shuts-off requisite sovereign ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’); as to when such pedantry openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediatically and socially popularised’ inducing (given direct-and-indirect epistemic-totalising consequence of human ‘meaningfulness-and-teleology’ ‘incoherence between concrete social reality and overall public perception of concrete social reality’. The implications of such dereification gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness-in-perspective—epistemic-abnormalcy/preconvergence of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to— historicity-tracing—in-presencing— hyperrealisation/hyperreal-transposition)’ and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with

Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment\(^4\) implied self-assuredness-of-ontological-good-faith/authenticity\(^5\)–as-being-as-of-existential-reality and so in a cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame allowing for human and humanity’s ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-

Ultimately, our human ‘presencing—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness-⟨as-to– historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⟩ (as to the high emotional-involvement associated with
social ontological-performance and low emotional-involvement associated with non-social ontological-performance elicited prospective transcendence-and-sublimity/sublimation/supererogatory-dementativity) seem to take the easy-way-out/contrivance to imply that ‘we are just as perfect as we are (implying the impertinence/non-veracity for prospective human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension”)’ and that the notion of prospective sublimation is just about technical and natural science sublimation (and as so-advanced implicitly or explicitly in a self-serving lethargy of institutional pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation) and so as to a human social environment where dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—discretely-implicitly-functionalism—and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in many ways seem to be wary of prospective human re-ontologisation/omnipotentiality implications as if our very presence isn’t the outcome of successive prior re-ontologising. It is thus critical for humanity as a whole and as of social science practice to inculcate the attitude that despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality, that doesn’t mean this gives leeway for political and other dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity—discretely-implicitly-functionalism; as to the fact that the pretense of a social science/ontology dies (with respect to the emancipation/sublimation possibilities for the 8.5 billion humans on Earth) when such an illegitimate pretense is not bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their intellectual soul when they acquiesce to the wooden-language—(imbued—temporal—mere-form/virtualities/dereification)/akrasiac—

In many ways, what is central to both such a dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-discretely-implied-functionalism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation undermining of genuine knowledge-reification is their poor appreciation and deriding of any such notion of the postconverging–de-mentating/structuring/paradigming possibility that makes-available worldview conceptualisation as herein implied as to ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ (so-construed as of prospective ‘relative-ontological-incompleteness/relative-ontological-completeness’-{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness/formative–supererogating,<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence}) as to human-and-social—expectations/anticipations—metaphoricity—as-re-de-mentating/restructuring/reparadigming—psychologism’); as to a decadent immediate materialism that will not recognise that the ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ of the physicists or chemists or biologists for instance is what allows for the expectations/anticipations underlying physical engineering/application or chemical engineering/application or biological engineer/application as to generated material productions (as without abstract science contemplation the very imagination of derived technologies will
not arise) and along the same lines it can only be of the utmost disappointment to realise that at
the very core of academic institutionalised social and philosophical contemplation is the
manifestation of a pedantry that doesn’t have or project the lack of the least insight about the
‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing<-perspective–ontological-

subontologisation/subpotentiation, the punctual/immediate temporal advantageousness for

critically any registry-worldview/dimension is rather of ‘self-referencing-syncretising forward-

This should not be construed as a weakness as often wrongly implied of the anti-ideological stance of postmodern thought but rather speaks of a strength in the sense that it is naïve to think the pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism> can be veridically undermined/superseded by a ‘corresponding antipodal/diametrical compensatory subontologisation’ (as manifested between the conflicting capitalistic and communistic ideologies), rather than a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself so-implied as of supererogatory-progressivity as to human aporeticism overcoming/unovercoming in enabling prospective sublimating–nascence for human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality. Such a postmodern philosophical anti-ideological stance of ‘nonpresencing—<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ (just as is the case with the natural sciences as to ‘prospective scientific sublimating reconstruals of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative–epistemicity>totalising–purview-of-construal as of human limited-mentation-capacity-deepening ’ not to be confused with science ideology which is rather about ‘consciously or unconsciously usurping the sublimating credence of science in its science ideology pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation exercise’) is all about human candidity/candour-capacity for
effectively tackling prospective aporeticism overcoming/unovercoming as to profound supererogatory acuity/perspicacity/astuteness/edginess/incisiveness eliciting of ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification’/contemplative-distension’ and doesn’t carry false promises of shallow methodologising/mutualising/organising/institutionalising (as associated with ideological stances reflected say as to capitalistic or communistic ideologies); and so critically because the more salient point for aporeticism overcoming/unovercoming though it may seem counterintuitive is not ideological solutions of ‘presencing—absolutising-identitive-constitutedness’ but rather (notwithstanding the high emotional-involvement) appropriate human development as to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as from nonpresencing-<perspective–ontological-normalcy/postconvergence> as a prerequisite speaking hermeneutically/reprojectively/supererogatingly/zeroingly of a prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> change in human apriorising/axiomatising/referencing—relation-to-the-world than just ‘meaningfulness-and-teleology’ within prior mere-formulaicity (of prior mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>) in an already prospectively poorly apriorising/axiomatising/referencing—relation-to-the-world’, and in this regards we can appreciate that budding-positivists critical philosophical insight was more than just their effectively instigative/incipient budding science but a critical appreciation that the medieval-scholasticism non-positivism apriorising/axiomatising/referencing—relation-to-the-world wouldn’t countenance-and-cultivate the true prospect of scientific knowledge.
requiring a positivism apriorising/axiomatising/referencing—relation-to-the-world (notwithstanding the then high emotional-involvement), with such budding positivism not being at all a ‘corresponding antipodal/diametrical compensatory subontologisation’ to medieval-scholasticism but rather an altogether ‘a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself’. This again confirms that the ontological-veracity of genuine human knowledge is rather about notional–self-distantiation—imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing/>/distantiation of contemplative existentialising–frame as to transversality–of-affirmative-and-unaffective–disambiguated–motif-and-apriorising/axiomatising/referencing’ imbuing historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> (as to the precedence of inherent existence possibility for sublimating–nascence to which human-subpotency subjects itself) and not conceptualisations of distractive-alignment-to–reference-of-thought–apriorising/axiomatising/referencing> (that wrongly imply that human totalisingly-disentailing—discretion/whim-of-thought takes precedence over inherent existence possibility for sublimating–nascence). It is only after establishing a prospectively sound apriorising/axiomatising/referencing—relation-to-the-world (in the case of prospective deprocrypticism involving the inducing/projection of an underlying nondisjointing apriorising/axiomatising/referencing—relation-to-the-world as of profound-supererogation entailing–amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness in undermining the totalisingly-disentailing—discretion/whim-of-thought of our procrypticism–or–disjointedness-as-of–reference-of-thought increasingly underlied with dynamic, sophisticated and networking institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation) that a prospective deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought imaginary (just as arose with the
presently developed positivism/rational-empiricism imaginary over prior non-positivistic imaginaries) will drive a veridical ‘deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought specific human conceptivity/epistemic-reflexivity-(<amplituding/formative–epistemicity>totalising-<so-

<discretely-implied-functionalism> ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction’ (as just inducing more and more a complexification of our ‘procrypticism—or—disjointedness-as-of—reference-of-thought increasingly underlied with dynamic, sophisticated and networking institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in many ways undermining prospectively profound intellectualism and the genuine social intellectual—function/posture). In this regards, it should
be appreciated that as to notional-deprocrypticism reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process ‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective deprocrypticism/nondisjointing’ but for the inherent nonpresencing-perspective-ontological-normalcy/postconvergence nature of existence instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest ineffect absolution as to their given presencing—absolutising-identitive-constitutedness as so-fraudulently implied by our positivism–procrypticism anti-relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further claim recommending that humanity should rather go back to the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution presencing—absolutising-identitive-constitutedness’ as a more coherent anti-relativism stance as so-expliciting the idea that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism proponents seem to project progressive views without truly grasping the contradictory implications of progressivism and anti-relativism explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas ‘true knowledge has to carry its sublimation within itself as to its notional–nondisjointing totalising-entailing’ for it to be socially potent and effective, as we can appreciate that the potency of a scientist is not in themselves but rather their inherent coherent knowledge formulation which then has to avoid
explicated or implicited contradictions). In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment). In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimatur’ (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction—of-desublimating–meaningfulness-and-teleology—(as-perspective-lost-of-supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking–of–notional–deprocrypticism–(in-dimensionality–of-sublimating—)<amplituding/formative–epistemicity>growth-or-conflatedness /scalarisation-as-to-rescalarisation-as–re-ontologisation’)’). Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly–de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or
unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindedness as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective aporeticm overcoming/unovercoming as to profound supererogatory acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification/contemplative-distension’.

‘the veridical prospect of human intelligibility for ontologisation’ is of necessity (given human
limited-mentation-capacity) ‘epistemic-totalisingly\(^2\) educing as from human profound-
supererogation’; so-reflected as to the very incipient ‘\(<\text{supererogatory–human-subpotency}>\)–

incipience of existentialising–decisionality’. The implication here is that a human mental-reflex
of ‘mere-formulaicity of ruling and rule-making as to apriorising/axiomatising/referencing’ is
ever always of wanting ontological-veracity in need for ‘corrective human profound-
supererogation\(^9\) imbuing human limited-mentation-capacity-deepening\(^5\). In other words
human ‘potential of profound-supererogation’ (as the corrective potentiating of human limited-
mentation-capacity for human limited-mentation-capacity-deepening ) is veridically what
carries an abstract equivalence association/relation with existence’s inherent ontological-normalcy/postconvergence (and so rather than any human limited-mentation-capacity educing mere-formulaicity which rather induces ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’). But then, all social-setups ‘as specifically instantiated social-constructs of human intelligibility’, are wedded whether as of relatively shallow-supererogation or relatively profound-supererogation (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) to ‘their given mere-formulaicity as to mere-formulaic methodologising/mutualising/organising/institutionalising implied prior secondnatured reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation’ for their ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’ so-reflected in their existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) with their ontological-performance—<including-virtue-as-ontology> so-thresholding between their given ‘second-level as to human-subpotency ascendance driven self-referencing-syncretising human-existential-tautology as to desublimating derivation of intelligibility’ and their given ‘first-level as to existence-potency ~sublimating—nascence ascendance driven self-referencing-syncretising human-existential-tautology as to sublimating derivation of intelligibility’. Hence registry-worldviews/dimensions ‘self-referencing-syncretising forward-facing projection of mere-formulaicity’ speaks to their inclination for ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction’ that will formatively drift into prospective disontologisation over prospective ontologisation/re-ontologisation; with the ultimate notional—deprocrypticism
aporeticism overcoming/unovercoming cognisance and implication that ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ is inevitably given as to a mere-formulaicity relation to intelligibility, thus requiring a deprocrypticism ‘rehabilitated conceptualisation of human purposeful profound-supererogation’ together with ‘rehabilitated conscious reflexion about the inherent prospective deficiency in mere-formulaicity of human intelligibility’ (rather than a convenience-seeking defaulting individual and social mental-reflex into mere-formulaicity as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’). In this regards, human ‘fundamental ontologising/disontologising confliction’ (with regards to ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’) undermines the notion that human social-setups are in ‘an absolute ontologising predisposition of sublimating—existentialising—decisionality relation with inherent existence’s sublimating—nascence’ (as is wrongly projected by ⊕ presencing—absolutising-identitive-constitutedness ⊖ social-vestedness/normativity—<discretely-implied-functionalism> even as this ‘may seem intuitively’ truer with domains of relatively less blurriness or low emotional-involvement as to ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’ like say the natural sciences and mathematics but this is not exactly the case from a bird’s-eye view reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as such a possibility is undermined by the very interactiveness of nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> existentialising—decisionality and social-and-institutional-frameworks—of—referencing/registering/decisioning existentialising—decisionality) and manifest a

The blunt fact is that society is never its own inherent intellectual-and-moral absolute reference and thus is in want for its intellectual-and-moral development explaining why progress happen and the role of

Again, the fundamental point here is to reflect prospectively upon human angling-of-imaginary underlying the very nonpresencing-<perspective–ontological-normalcy/postconvergence> nature of inherent existence requiring prospective human limited-mentation-capacity-deepening (in inducing the de-mentative/structural/paradigmatic dynamics and/or compensatory–dynamics for human critical threshold of re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness’-of-notional~deprocrypticism-prospective-sublimation} as to the possibility for prospective ontologising/re-ontologising). contemplative insight then it is historically explicative of most profound human science as to its nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection and speaks to the ontological-veracity of ‘history at the service of prospective knowledge implied as of sublimating ‘historiality/ontological-eventfulness'/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ and so rather than a psychical-nascency disposition of ‘prospective knowledge supposedly at the service history implied as of desublimating ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’; so-reflected as to the former reflexive as re-originary and the latter unreflexive as un-originary encounters with existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation"<as-to-perspective-ontological-normalcy/postconvergence-implied—’prospective-aporeticism-overcoming/unovercoming’>. The totalising-entailing epistemic and ontological implications of veridical the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as so-underlied by angling-of-imaginary are rather altogether clear and straightforward as hereafter articulated. angling-of-imaginary implied nonpresencing-<perspective–ontological-

insight contrasts with a naïve science ideology conception of epistemicity as to ‘a lack of

contextualising-contiguity as of a desublimating historicity-tracing—hyperrealisation/hyperreal-transposition’ that fails to factor in prospective human limited-mentation-capacity-deepening postconverging—de-mentating/structuring/paradigming implications (and go on to behold epistemicity as to a certain ‘supposedly imagined moment of past science’ rather than the fact that prospective scientific sublimations come-with/are-not-divorced-from prospective epistemicity insights hermeneutically/reprojectively/supererogatingly/zeroingly as so-rather driven by human supererogatory acuity/perspicacity/astuteness/edginess/incisiveness inducing sublimation-over-desublimation beyond ‘mere-formulaicity of conception of epistemicity secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’). Critically, in this respect there was no prior inherent mere-formulaicity basis for Einstein’s Relativity theory but for his sublimating ontological-good-faith/authenticity as to his hermeneutic/reprojective/supererogating/zeroing supererogatory acuity/perspicacity/astuteness/edginess/incisiveness underscored by the possibility for prospective sublimation as to his reflexive as re-originary encounter with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’.

Hence the most coherent and unfailing epistemicity basis of science speaks to inherent sublimation-over-desublimation as to nonpresencing—perspective—ontological-normalcy/postconvergence establishing/re-establishing of sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>. normalcy/postconvergence> conception of epistemicity it is herein contended is most profound
social and overall knowledge aporeticism overcoming/unovercoming relevance. Human
angling-of-imaginary (unlike the predisposition to mere-formulaicity of human psychical-
nascency) construes of knowledge as of incipient social conception and instigation (beyond and
unfazed by its supposed manifest institutional capture/catchmenting) as to its veridical
existential veracity for prospective sublimating ontologising/re-ontologising relation to human
'social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing
existentialising–frame of disontologising/ontologising-and-re-ontologising'. In this regards,
desublimating attitudes of mere institutional imprimaturing do not necessarily constrain the
possibility for divergent social interests for prospective existential ontologising/re-ontologising
conception for sublimating knowledge-reification (and critically veridical intellectualism
perceives institutional stature as the opportunity to further demonstrate and invest into demonstrating its effective intellectual relevance whereas an institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation rather construes of institutional stature as a fall-back as to mere-formulaic institutional-imprimaturing and institutional-legalism poorly upholding/perpetuating the knowledge sublimating contemplation behind the institutional formation/creation). Such an incipient social conception and instigation of knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools subverting the Ancient-sophists nonuniversalising, likewise budding-positivist movements, correspondences and initiatives ultimately led to the subversion of medieval-scholasticism, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment. The more centrally defining element of human angling-of-imaginary speaks to its metaphysics-of-absence-⟨implicit-epistemic-veracity-of⟩nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩epistemic-projection that elusive to psychical-nascency disposition. This ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjonting tends to be <amplituding/formative–epistemicity>totalisingly–absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of <presencing—absolutising–

Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness—presublimation-construct–of—\textsuperscript{19} meaningfulness-and-teleology\textsuperscript{80} desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of \textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{13} social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory~involuting-or-guilding-or-amplifying–scalarisation<-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-

hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after
the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from
the capitalistic model all other social supererogatory–progressivity possibilities are now
effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with
respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial
gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity
with the supererogatory–progressivity for individual and social creative initiatives construed as
lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic
model makes available as supposedly an absolutely determining construct of human
supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting
parasitising of social value and value possibilities). This in effect speaks to ‘a renting and
skewed value-extraction capitalistic colonising of the social capacity for supererogatory–
progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into
the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a
globalised framework of totalising-entailing interlocking corporate interests and corporate
welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of
runaway financial and economic disaster and/or state political-economy retrogradation for non-
compliance) the very possibility for their full-capacity for supererogatory–progressivity while
being well aloof of the public accounting that political actors running states have to fulfill thus
speaking to a most fundamental globalised capitalistic induced democratic-deficit while
relatively disempowered governments are left to pick-up-the-pieces (while de-
mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the
capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to
media-driven impressionable narratives rather than to the protracted implications of the roguish
capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic
international capitalistic system usurpation and undermining of the possibility for social
supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–
suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus
leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity as so-associated with debt servitude and demeritative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-
decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>

omni-potential commensurability with inherent immanent-existence’s sublimation-
structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–
progressivity as to the incipient reality that human family, communal, clanic and national
communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model
of social organisation (as to the very risk of undermining social organisation as reflected in the
relative prioritisation of national education and basic public facilities in the post-independence
years in many Third world countries) with such a purist conception rather reflected as to
capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ in a rather comprehensively developed framework/mechanism of value-allocation
and value-extraction necessarily underlied notionally by a basic level of
supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception
of capitalism’ (serving rather the more veridical and underlying self-serving
‘dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-
sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-
desublimation> of “presencing—absolutising-identitive-constitutedness” social-
vestedness/normativity-<discretely-implied-functionalism>). Further the capitalistic model as
to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting
of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads
across races, classes, regions and nations with the implication that since it is centrally/critically
defining as to the present day statal conception of social supererogatory–progressivity
possibilities, there must necessarily be losers and winners with no creative supererogatory–
progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-
level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal
supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–
progressivity’. Such a representation as herein articulated of the truer supererogatory–
progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath
the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-
confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure
capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed
value-extraction capitalistic model (as so-enculturated socially and mediatically as to
-presencing—absolutising-identitive-constitutedness\(^\text{13}\) social-vestedness/normativity-
<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is
strongly seen with the state-driven Asian and European supererogatory–progressivity
economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to
trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the
more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S.
there is atleast a critical level of strategic supererogatory–progressivity with local states
definitely adopting incentives-driven approaches of supererogatory–progressivity; all this
speaking from an totalising-entailing perspective analysis of the purist capitalistic model as
poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility
with regards to foundational externalities like education, infrastructure, well thought-out
policies, collective social advancement, etc.). The bigger question that then arises has to do
with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism
and geostrategy/states-competition muddled framework’ that is preconvergingly–de-
mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’\(^7\) of
supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality
of the very fundamental notion of the capitalistic model speaking of perfect markets do not
exist, and rather ‘markets themselves develop as advantageously created situations after the
facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholding sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). The so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment } as to the overall ontological-contiguity —of-the-human-institutionalisation-process provides the requisite basis for prospective human ontological-performance –{including-virtue-as-ontology} convergence towards ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct <amplitudes/formative–epistemicity>totalising/circumscribing/delineating given institutionalisation-threshold-and-uninstitutionalised-threshold\textsuperscript{103} imbued secondnaturings’) technically equates to ‘supposed human-subpotency abstract self-determinative ontological-performance –{including-virtue-as-ontology} capacity as to the full-potency of existence’ so-implied with the protensive-consciousness ‘deepest phenomenological transcendental-point-of-departure handle as of the notional–conflatedness\textsuperscript{12} of notional–deprocrypticism

effect reflexively assumes its ontological-performance <including-virtue-as-ontology> is as of ‘scarrayity/immanency of existence’s ontological-normalcy/postconvergence’; with the consequence that the human <amplituding/formative-epistemicity>totalising/circumscribing/delineating conception of meaningfulness-and-teleology develops an ‘aestheticisation of existentialising—enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that unconsciously/surreptitiously projectively overrides/blinds-out any abstract contemplation of purist ontologisation/ontological-veracity/aestheticisation-towards-ontology as to its incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and then ‘reflexively falsely implies/presupposes its very own purist ontologisation/ontological-veracity/aestheticisation-towards-ontology not subject to contemplation’. In this regards, any registry-worldview/dimension as of its presencing—absolutising-identitive-constitutedness is, more-or-less as of its relative-ontological-incompleteness, ‘a usurpation of abstract purist ontologisation/ontological-veracity/aestheticisation-towards-ontology projected as of notional—deprocrypticism—amplituding/formative—notional—preempting—disjointedness-as-of-reference-of-thought’; so-reflected by all registry-worldviews/dimensions ‘self-referencing-syncretising forward-facing projection of mere-formulaicity’ as to social-stake-contention-or-confliction. Critically, scalarisation analysis operantly implies projecting the implied ‘scaling/scalar of reference’ as from ontological-normalcy/postconvergence epistemic-projection perspective implications of analysis as to the prospective possibilities for ‘human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology"°. In this regards, it can very much be appreciated that human scalarisation potential (existentially manifestable as of successive rescalarisation as re-ontologisation as to human limited-mentation-capacity-deepening° implications) reflects all the sublimation-over-desublimation possibility for the full possibility of human ontological-performance -<including-virtue-as-ontology> as can be so-construed as from notional~deprocrypticism prospectively implied originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>. In this respect, scalarisation analysis is a projection beyond just a conceptually implied originariness/origination–<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> but is comprehensively and notionally/epistemically reflective of underlying dementative/structural/paradigmatic rescalarisation and descalarisation of human ontological-performance/<including-virtue-as-ontology> as to human limited-mentation-capacity implications. Such a depth of contemplation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-and-sublimity/sublimation/supererogatory—de-mentativity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process (at the crossroads of prior meaningfulness-and-teleology and prospective metaphoricity) over approaches of relative gimmickiness-of-thought as to our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness—<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that poorly address human egotistic/self-referential complex in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint and with the corresponding possibility for sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification’ tends to be notionally/epistemically caught up between a desublimation/gimmickiness and sublimation preconverging/postconverging—de-mentating/structuring/paradigming’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.). In other words, the notion of ‘the other' as aetiology/ontological-escalation is much
more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity<-profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema> for ontologically-veridical virtue transcendence-and-sUBLIMITY/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 30s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology

possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity’-<profound-supererogation>-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding-formative–epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of-reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the dementative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity-<profound-supererogation>-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. ‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of \(30\)s; and rather poorly interpreted by virtue critiques adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-contiguity\(^{37}\) as of its \(<\textit{amplituding/formative–epistemicity}>\textit{totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag}\)> prior relative-ontological-incompleteness\(^{38}\)-of- reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-contiguity\(^{39}\)<\textit{profound-supererogation}‘-of-mentally-aestheticised–postconverging/dialectical-thinking\(^{20}\)–qualia-schema> as of prospective relative-ontological-completeness\(^{38}\)-of- reference-of-thought, as implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^\dagger\) for prospective notional-contiguity/epistemic-contiguity\(^\dagger\)<\textit{profound-supererogation}‘-of-mentally-

As a further elucidation, prospective notional-contiguity/epistemic-contiguity–<profound-supererogation–of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of (supercratoriness–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of
traditions’ as herein implied by this author in reflecting holographically—<conjugatively-and-
transfusively> the ontological-contiguity—which—of-the-human-institutionalisation-process, would
have provided the insight that Descartes was actually ‘establishing a positivism tradition as of

We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity\textsuperscript{62}\textsuperscript{-}\textsuperscript{<profound-supererogation}\textsuperscript{97}-of-mentally-aestheticised-postconverging/dialectical-thinking \textsuperscript{-qualia-schema}\textsuperscript{> as of prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective \textsuperscript{8}reference-of-thought \textsuperscript{1}de-mentation-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis \textsuperscript{104}universalis metaphoricity\textsuperscript{57} extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective \textsuperscript{8}reference-of-thought de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-
the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating — supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly—dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking
and sublimation basis’. In effect Descartes project is actually as to existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme and postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, we may be forgiven to confuse-and-dismiss their schema as-to-de-mentative/structural/paradigmatic—disseminative-implications as of prospective reasoning-through/messianic-reasoning as incoherent from a shallow-and-immediate uninsightful analytical perspective on the basis of the respectively prior reasoning-from-results/afterthought of non-positivism/medievalism and positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of-reference-of-thought (since as of the latter relative-ontological-incompleteness perspective ‘all the reasoning in the world’ is only respectively as of non-positivism/medievalism apriorising/axiomatising/referencing—psychologism or positivism—procrypticism apriorising/axiomatising/referencing—psychologism); thus failing to perceive that the projective-insights for dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language—imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as—
disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity -of-mentally-aestheticised–preconverging/dementing ‘–qualia-schema’ analysis, implied as of prospective relative-ontological-completeness –of–reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness –of–reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the ‘reference-of-thought’. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical ‘meaningfulness-and-teleology’ but rather human-subpotency adjusting as to existence-potency ~ sublimating–nascence, disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness –of–reference-of-thought/relative-ontological-completeness –of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification’, implied as of ‘dementation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding–or-attributive-dialectics) with regards to the ‘reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective ‘meaningfulness-and-teleology’ is an incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our
human induced bias leads to a wholly immersed-and-engrossed focussing only at its given present institutionalisation’s reference-of-thought ‘present attitude/mental-disposition/care–and–episteme’ as if other retrospective-and-prospective institutionalisations’ reference-of-thought do not have their own attitude/mental-disposition/care–and–episteme as of their underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. This phenomenological insight in recognising that there is ‘an underlying metaphoricity’-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology of reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity–relativism’>. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness
deascribed/deneuterised as of the prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; with the latter construed as postconverging-or-dialectical-thinking—apriorising-psychologism and the former construed as preconverging-or-dementing—apriorising-psychologism. Thus a registry-worldview/dimension institutionalisation reference-of-thought always operates as if it is the absolute framework of meaningfulness-and-teleology, that is, by its ‘interiorisation attitude/mental-disposition/care—and—episteme’, notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness—of—reference-of-thought at its uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension institutionalisation reference-of-thought in an ‘exteriorisation attitude/mental-disposition/care—and—episteme’ towards it. Consider in this regard the ontologically-veridical reflected immersed-and-engrossed attitude/mental-disposition/care—and—episteme with respect to the ‘ill-health amplituding/formative—epistemicity—totalising—devolved—purview/domain—of—construal—as—intrinsic-reality/ontological-veridicality/existential-reality’ wherein the ‘to be or existing as wholly immersed-and-engrossed’ recurrent-utter-uninstitutionalisation existential-contextualising-contiguity—lowest-level-reification percutivity-as-of-bad-omen attitude/mental-disposition/care—and—episteme could involve a conversational stance of the sort, ‘I have been stricken by a spirit’, in an effusive-conversational-as-of-existential articulating of what can be done to allay such a spirit; or with respect to our positivism—procrypticism, in an effusive-conversational-as-of-existential articulating of a clinical analysis mainly as a patient ill-health state; or with respect to prospective postmodernism, in an effusive-conversational-as-of-existential articulating of associated socio-economic and socio-political factors behind a patient’s ill-health. Basically, ‘exteriorisation attitude/mental-disposition/care—and—episteme’, as relevant for the conception of a ‘postmodern exteriorisation

That is singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strive to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’. Singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>, points out that dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance <including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance <including-virtue-as-ontology> correspondence with the full-potency of
existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation /epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance’-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existental-reality; attainable as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-‘ devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’. This reality of the need to construe of human-subpotency ontological-performance’-<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation /epistemic-immanence/veridical-epistemic-determinism over dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation’ /epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation /epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself as to sublimation is a postconverging–de-mentating/structuring/paradigmimg singularisation /epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a

In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is
rather the constraint for existential-contextualising-contiguity that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional-conflatedness singularisation/epistemic-immanence/veridical-

The notion of human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity\textsuperscript{19} -in-reification\textsuperscript{20} ’ can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <amplituding/formative–epistemicity> totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity\textsuperscript{21} -in-reification\textsuperscript{22} ’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness\textsuperscript{23} reflects the former’s prior relative-ontological-incompleteness\textsuperscript{24} as dialectically out-of-phase/preconverging-or-dementing\textsuperscript{25} –apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity\textsuperscript{26} -in-reification\textsuperscript{27} ’ at uninstitutionalised-threshold\textsuperscript{28} actually highlights that from a prospective perspective of prospective relative-ontological-completeness\textsuperscript{29} -of- reference-of-thought our positivism–procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance -<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of \textsuperscript{30} meaningfulness-and-teleology\textsuperscript{31} is coherent, failing to factor in that it is preconverging-or-dementing\textsuperscript{32} –apriorising-psychologism at its uninstitutionalised-threshold\textsuperscript{33} as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing\textsuperscript{34} –apriorising-psychologism by futural Being-development/ontological-framework-expansion–as-to-depth-of-

institutionalisation conforms-to/complies-with its ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology’ about existential-contextualising-contiguity knowledge-reification, but with a shadowy uninstitutionalised-threshold always eloping to such institutionalisation conforming/complying as of prior relative-ontological-incompleteness-of-reference-of-thought, and as lack of universal-transparency-(transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative-epistemicity>totalising--in-relative-ontological-completeness ) as to ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology-uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity-reification, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the dementative/structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-teleology out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology’ about
institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology’ about existential-contextualising-contiguity. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaredness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performance’<including-virtue-as-ontology> as <amplituding/formative> wooden-language{imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing} narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology of the prior registry-worldview/dimension in usurpation’, which understanding is actually what empowers the possibility for prospective institutionalisations that surpersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure {as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>} of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that
existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness- and-teleology\textsuperscript{100} is certainly required, but as of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{107} for prospective relative-ontological-completeness\textsuperscript{96}—of—reference-of-thought; and as highlighted elsewhere it is ontological-completeness-of—reference-of-thought (of human-subpotency as of its limited-mentation-capacity-deepening\textsuperscript{9}) that can imply human-subpotency ontological-performance—<including-virtue-as-ontology> correspondence with the full-potency of existence. It should be noted here that this ontology’s-directedness-as-Being/ontologically-veridical notion of human-subpotency singularisation /epistemic-immanence/veridical-epistemic-determinism ontological-performance—<including-virtue-as-ontology> correspondence with the full-potency of existence is a notion of teleology\textsuperscript{100} in notional—conflatedness as of ontological-normalcy/postconvergence (with teleology\textsuperscript{100} fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness—(as-to-orientation/value-construct/valuation—and—derived-parameterising) and <amplituding/formative>entailment—(as-to-totalising-contiguous/coherent—factuality-of-variability))’ and so as to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>), as utterly different from a traditional conception of teleology\textsuperscript{100} as of dissingularisation\textsuperscript{97}/epistemic-nonimmanence/flawed-epistemic-determinism that is rather in constitutedness as it reflects
