Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing<sup>15</sup> wooden-language-(imbued—temporal—mere-form/virtualities/dereification<sup>9</sup>/akrasiatic-drag/denatured/preconverging-or-dementing<sup>10</sup>—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology<sup>11</sup>) stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>) right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification<sup>17</sup> of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as dimensionality-of-sublimating<sup>14</sup>—supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-

This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—insubontologisation/subpotentiation—blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-
deficient-reflexivity of our `<amplituding/formative>` wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology} it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its `<amplituding/formative>` wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of¬nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications>}; with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency—sublimating—nascence,-disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in
dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology-in existential-extrication-as-of-existential-unthought) as this only leads to a destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)-of-ontological-performance-including-virtue-as-ontology habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity' inclinations that poorly appreciate existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of-amplituding-formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation whether by mystifications-outside-existential-contextualising-contiguity-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness -

This then provides paradoxically the underlying \textsuperscript{9}meaningfulness-and-teleology\textsuperscript{99} infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious dementative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification\textsuperscript{7} as to existence-potency\textsuperscript{7}—sublimating—nascence, disclosed from prospective-epistemic-digression or the critical analysis of such knowledge-reification\textsuperscript{7} but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification\textsuperscript{7} pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on $2+2$ as $5$ but when appropriately explained the veridical assumptions of arithmetic goes on to insist $3+3$ as $7$, speaking not of a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity\textsuperscript{7} on the naïve
mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology - <in-existential-extrication-as-of-existential-unthought> as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness’/relative-ontological-completeness - ⟨sublimating~referencing/registering/decisioning,-as-self-becoming/self-conflatedness /formative–supererogating-<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence⟩) as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming–psychologism’ as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutising-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn’t fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification implications as of existential-reality)’. We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without
questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity, the fact is this is rather the consequence of their universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> not only as of wrong ontological-conception out of good-naturedness (failing ‘technical’ ontological-good-faith/authenticity as from ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting both human constructiveness-of-ontological-performance -<including-virtue-as-ontology> and destructuring-threshold-(uninstitutionalised-
threshold\textsuperscript{\textcircled{*}}/presublimating–desublimating-decisionality\textsuperscript{\textcircled{*}}-<including-virtue-as-ontology>. The fact is knowledge-reification\textsuperscript{\textcircled{*}}-is of ‘existential\textsuperscript{\textcircled{\textbullet}}/amplituding/formative–epistemicity\textsuperscript{\textcircled{\textbullet}}-totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening\textsuperscript{\textcircled{\textbullet}} and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency\textsuperscript{\textcircled{\textbullet}}-sublimating–nascence,-disclosed-from-prospective-epistemic-digression over our human-subpotency motives, the same actually do apply in all knowledge-reification\textsuperscript{\textcircled{\textbullet}} and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification\textsuperscript{\textcircled{\textbullet}}-in addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency\textsuperscript{\textcircled{\textbullet}}-sublimating–nascence,-disclosed-from-prospective-epistemic-digression dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as to existence-potency\textsuperscript{\textcircled{\textbullet}}-sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications. (In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing meaningfulness-and-teleology pretense of being as of existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation’ is effectively central to all prospective institutionalisations in relative-ontological-completeness as reflected with the Socratic-philosophers putting in question the apriorising/axiomatising/referencing of non-universalising

fathomed how such a ground-breaking evental-instigation as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure—{as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'>}, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s wooden-language—{imbued—temporal—mere-form/virtualities/dereification—akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} with asceticism does exist as has existed throughout sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'>. Beyond the seemingly
intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification\(^7\) rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency\(^8\)~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellecion values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification\(^7\) as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellecion value with respect to opting for a profound intellectual commitment for prospective knowledge-reification\(^7\) rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of\(^9\)~<amplituding/formative>supererogatory–dementativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-potency\(^7\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression consequences accruing to the entire humankind) to institutionally and socially undermine
prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness-<amplituding/formative> wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology) in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic-philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves
‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{10}, meaningfulness-and-teleology\textsuperscript{10}, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its \textless amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification\textsuperscript{7} in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective notional–deprocrypticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’ \textless amplituding/formative–epistemicity\textgreater causality–as-to-projective-totalitative–implications,–for-explicating-ontological-contiguity\textsuperscript{7} in conflatedness ’ herein implied as ontological-prime movers-totalitative-framework\textsuperscript{7} involving a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{10} meaningfulness-and-teleology\textsuperscript{10}’ as implied prospectively in ‘construing of both the right

social-values like freedom-of-speech, opened communication, etc. availing as of the transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein contended that the future possibility for the natural sciences advancement is inseparable from the possibility of social and social-organisational as of prospective human aporeticism transvaluation as to the prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought protensive-consciousness induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so over our present procrypticism—or—disjointedness-as-of-reference-of-thought occlusive-consciousness, and in effect this conjoint-epistemic-relationship-and-fate in the conceptualisation of the material and social world is even confirmed today as with the social and social-organisational framework that underlied and was necessary for most of the scientific and technological advances after the second-world war). Basically, dimensionality-of-sublimating—including-virtue-as-ontology ‘constructiveness-by-destructuring cut-offs/thresholds of ontological-performance’—including-virtue-as-ontology’ so-construed as of notional—protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such specific construction-of-the-Self and its given registry-worldview/dimension—including-virtue-as-ontology reference-of-thought—devolving—including-virtue-as-ontology—meaningfulness-and-teleology overall de-mentative/structural/paradigmatic construct-of—meaningfulness-and-teleology as of secondnaturesed institutionalisation. The ‘destructuring cut-offs/thresholds of ontological-performance’—including-virtue-as-ontology’ reflect prospective lack of dimensionality-of-

sublimating —<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality
so-reflected in the shiftiness-of-the-Self’s <amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology) implying an ontological-performance —<including-virtue-as-ontology> that is rather constrained on the prior reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation ‘despite the implications as from budding/nascent insights of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency ~sublimating—nascence,-disclosed-from-prospective-epistemic-digression’ for the need for prospective originariness-parrhesia, as—spontaneity-of-aestheticisation, to which the Self absconds (in <amplituding/formative—epistemicity> totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag as to limited-mentation-capacity implications) until the perceived induced notional—positive-opportunism from any such prospective originariness-parrhesia, as—spontaneity-of-aestheticisation elicits the requisite human limited-mentation-capacity-deepening (involving prospective knowledge-reification and/or deferential-formalisation-transference) for prospective secondnatured institutionalisation as of renewed prospective reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective “meaningfulness—and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—

And finally, after many years of formative contemplation this author is rather dedicated to
writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-
potentially, whatever cometh, hopefully over the next half a century, and thinks any human who
genuinely feels strongly about the need for profound human thought should be able to do
likewise, as ultimate responsibility and choice notionally lies with the individual.

social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrypticism/notional-disjointedness-as-of-reference-of-thought

the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction

mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors

psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation‘ (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels

‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojective/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’

transcendental analysis (institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}) analysis) is not, as may wrongly
be thought, analogous but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’

Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology is transcended superseded as to human limited-mentation-capacity-deepening

fundamentally speaks of a ‘closed-minded unilateral-conceptualisation-of-knowledge’ wherein the human Self is wrongly construed as of a `presencing—absolutising-identitive-constitutedness` reference for the conception of knowledge rather than reflecting ontological-veracity with an ‘open-minded bilateral-conceptualisation-of-knowledge’ wherein the human Self itself has to prospectively be developed/constructed-out-of-its-prior-shiftiness-of-the-Self in ‘epistemic-conflatedness’ construed as epistemic-ricochetting/transepistemicity construct’ (so-construed as projective-insights) to then be able to register the entailing implications of prospective knowledge (so-construed as predicative insights), in the sense that for instance without implying the need for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as of prospective positivism construction-of-the-Self/self-consciousness a non-positivism mindset as animistic or as medieval in its non-positivism ‘closed-minded unilateral-conceptualisation-of-knowledge’ (thus lacking the positivistic projective-insights as of apriorising/axiomatising/referencing—psychologism) will only end up ‘complexifying the mechanical outcome of positivism `meaningfulness-and-teleology’ on the basis of its non-positivism as animism or as medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as implied in an animistic God of plane type of articulation and this applies likewise with our positivism—procrypticism with respect to prospective deprocrypticism, as this is exactly what explains the disparateness-of-conceptualisation-<unforegrounding-disentailment,-

science’s very own further development in its prospective aporeticism-overcoming/unovercoming (as increasingly appreciated with a postmodern influence on science) and so given that human thought at any given moment as of its aestheticisation–and–aestheticisation-towards-ontology is not absolutely determinative/certain as so-reflected by the enframed–unenframed or enframed-overflowing or re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness’ of-notional–deprocrypticism-prospective-sublimation) veracity that truly underlies all human ‘meaningfulness-and-teleology’ thus enabling the prospective possibility for human emancipation and progress (as even the sciences while ultimately aspiring for exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> scientific accounts, will implicitly adopt practices of inexactitude/tolerances as to the more critical issue of their prospective aporeticism-overcoming/unovercoming wherein for instance it is mostly in the last 30-or-so years that astronomy has arrived at a highly cogent scientific account of astronomical phenomena, in the medical domain because of the critical nature of any developments to human health and preservation of life even the most flimsy statistics are often portrayed as of relevance however the possibility for pseudo-analysis or later retraction, and generally in this respect science at its ‘breakthrough-level of scientific accounts’ is rather of relatively high inexactitude/tolerances as nascent scientific
conceptions even within say the physics domain are contested, with the critical notion of science-in-practice rather being about ultimate aspiration to continually converge towards more and more exactifying/precisioning–of-sublimation–<as-to-entailing-theoretical,-conceptual-and-operant-implications> scientific accounts); but then human limited-mentation-capacity-deepening as to aestheticisation–and–aestheticisation-towards-ontology necessarily priorly conforms to existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation–<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence–(implicit–‘nondescript/ignorable–void–‘as-to–presencing–absolutising-identitive-constitutedness ) notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation–and–aestheticisation-towards-ontology notion of overall human knowledge’ (as to any such non-Western social dynamics very own originariness-parrhesia,–as–spontaneity-of-aestheticisation inducing of prior reproducibility—mathesis/motif/thrownness–

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérange) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism –as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism –as-of-compulsing–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the–‘attendant-intradimensional–ontologising’–imbued.<contextualising/existentialising–attendant-

As a further elucidation, a comparison can be made between a construct of ‘notional–referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness-reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-
referentialism’ as of their respective epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness -of- reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a conflatedness as of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness -of- reference-of-thought, so-construed as their ‘neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of—reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process. the insight here being that ‘relative completeness/profundness of axiomatic-construct/ reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory—de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising -induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as the registry-worldview’s/dimension’s reference-of-thought ‘abstract teleological-de-mentating/structuring/paradigming/teleological-possibilities’. For instance, all subsequent axiomatic-constructs of meaninglessness-and-teleology as
knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced) reference-of-thought—devolving-teleological-de-

Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

With a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-

The same applies from a notional–deprocrypticism perspective with regards to a procrypticism–or–disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism–or–disjointedness-as-of-reference-of-thought arises in the first place is in circular \textit{amplituding}/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/ reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental \textit{amplituding}/formative–epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in secondnaturing such a prospective institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical reference-of-thought construction of meaningfulness-and-teleology, as of the succession of registry-worldviews/dimensions from the notional–deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-

The implication here is that with say notions-and-accusations-of-sorcery in a “universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order to construe ontological-veridicality; as of conflatedness we can’t simply imply the presence “universalisationnon–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as the basis of instigating logical-dueness for elucidation and thereof construing ontologically-veridical meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-representation of the presence as “universalisationnon–non-positivism/medievalism uninstitutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness at its uninstitutionalised-threshold and wrongly represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of elevation/institutionalisation in soundness-or-ontological-good-faith/authenticity—of—reference-of-thought projection”. Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating/supercratory~de-mentativity notion as of the (given consciousness’s neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought—meaningfulness-and-teleology which establishes its ‘grounded knowledge construct’, and so because of its denaturing of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology by way of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity at the registry-worldview’s/dimension’s uninstitutionalised-threshold inducing prior relative-ontological-incompleteness—reference-of-thought in need for prospective relative-ontological-completeness—reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring articulation by its crossgenerational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms—as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness—reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness—reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its

successive institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflecting-'epistemicity-relativism'>) is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence-(implicit-epistemic-verity-of-nonpresencing<-perspective-ontological-normalcy/postconvergence>) analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness—of-reference-of-thought of same <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation but presences in their

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology al engagement, as such a psychoanalytical commitment necessarily recognises human potential to transcend, and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught between these two elements human
underlying notion of ‘notional-conflatedness/to-conflatedness-construal/conceptualisation’ can further be expanded upon contrastively with regards to knowledge practice in many an epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality not subject to immediate-constraining ontological-primum-totalitative-framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces relatively poor ontological-performance-<including-virtue-as-ontology>. The central element here has to do with the pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilisticas approach to conceptualising knowledge based on an intellectual exercise of producing patterns of thought with little consideration as to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as validated by ontological-primum-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory-de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the preconverging-de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging-de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly-de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-
the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-elicitng-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied-'prospective-aporeticism-overcoming/unovercoming'>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-‘s-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-‘s-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology
conceptualisation as of our limited-mentation-capacity-deepening\(^2\) enabling our prospective relative-ontological-completeness\(^{-}\)-of-\(^{-}\)reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative-epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating/supererogatory–de-mentativity dynamism and implied organic-knowledge’ as of conflatedness\(^{12}\). This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiac-drag\(^{33}\) temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness\(^{12}\) in (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-\(\langle\)imbued-postconverging/dialectical-thinking\(\)\(^{-}\)-projective-insights\(\)\(^{-}/\)epistemic-projection-in-conflatedness\(\)\(^{-}\)-of-notional–deprocrypticism-prospective-sublimation\(\)\(\)\(\rangle\)\)\) originary/event\(\)\(-\)-of-prospective-ontology-origination projection into existential-contextualising-contiguity\(\)'s-reifying/elucidating-of-prospective-relative-ontological-completeness\(\)\(-\)-of-\(-\)reference-of-
thought-devolving-as-of-instantiative-context, it emphasises mere de-
mentative/structural/paradigmatic patterns inducing constitutedness, and so whether at
detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are
posed, as well as their supposed resolutions; ultimately lacking in providing theoretical,
conceptual and operant constructs of universal applicative pertinence, and explains a certain
position of closure that holds that philosophy is just a vague thinking exercise. Furthermore,
whereas an intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory–de-mentativity construal highlights the ontological-
contiguity of all knowledge as of their reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship,
conceptual patterning seem to naively imply a discreet relationship of knowledge constructs
with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling
ontological-primemovers-totalitative-framework interconnectedness as this is often not the
primary driving focus, as it is naively assumed that the conceptual patterning is a
correspondence of intrinsic-reality/ontological-veridicality as of the mere de-
mentative/structural/paradigmatic conceptualisation in constitutedness rather than striving to
expand the transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-
primemovers-totalitative-framework existential-reality potential, and this easily leads to
virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily
overlook mainly as philosophy is of first order knowledge, a level at which knowledge
differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly
arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory–de-
mentativity implications arise in a specular way. For instance, while hereditary is an underlying
conceptual patterning idea in biology, it will be unthinkable to try to lump together and
undermine the originality of subsequent hereditary notions of genetics on the basis that these
are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory-de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework renewal of a same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–
Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional-deprocrypticism (protensive-consciousness deneuterising -induced)- reference-of-thought—devolving-teleological-dementating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness’s-reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superrisory-dementativity ontological-prime movers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; consciousness defined as of ‘notional <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or

The fundamental fact is that existence as of existential-contextualising-contiguity’s-
reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-

reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-
thought’s-devolving-as-of-instantiative-context is the foundational absolute a priori any (given consciousness’s-neuterising-induced-or-deneuterising-induced)-reference-of-thought—
devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness constructs, by
which our limited-mentation-capacity can most pertinently accede to by maximalising-

Thus existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-

historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-

conceptualisations/construals not only of consciousness but virtue, aesthetics, episteme and
nature together with their derived human notional <amplituding-formative—
notions like psychologisms, ethics and moralities, arts, epistemologies and methodologies, and natural sciences are but as of the (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue as derived conceptualisations/construals of the very conflatedness that is as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology or existence-as-existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression as to existential-possibilities. The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for constitutedness lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation <as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of
(given consciousness’s neuterising-induced-or-deneuterising\textsuperscript{16}-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, and so as of the maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity\textsuperscript{77}—of-the-human-institutionalisation-process\textsuperscript{68}. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising\textsuperscript{16}-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \textless as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’\textgreater imbricatedness/threadedness/recomposing’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-threshold \textsuperscript{99}. Thus, the ontological-veracity as prospective relative-ontological-completeness-of-reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising\textsuperscript{16}-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \textless as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’\textgreater imbricatedness/threadedness/recomposing’, generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue implied as meaningfulness-and-teleology \textsuperscript{99}, is rather ensured by
the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and as of its implied superseding-oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness—of-reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, this points out that existence inherent superseding-oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology is effectively as of a natural transcendental-enabling/sublimating/supererogatory—de-mentativity existential-contextualising-contiguity—of-

For all the above elucidations highlighting the ontological-veracity implications of constitutedness and conflatedness, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness’ lies in the fact that the construal/conceptualisation of an epistemic-totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaninglessness-and-

By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance—including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance—including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of constitutedness and as relatively-perfect/near-perfect/perfect conflatedness, construed as notional~conflatedness as of constitutedness-to-conflatedness of human limited-mentation-capacity. Insightfully, it highlights that constitutedness arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while conflatedness arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. This validates the idea of dualism as ultimately <supererogatory—human-subpotency>—effecting can only arise from the conflatedness of human consciousness in-its-embodyment as the potent ‘phenomenological transcendental-point-of-departure handle’ for human self-conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue, whereas the human body as matter

The latter is effectively what relays the ontological-veracity of the <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness
subsuming the reality of the perceived whole and parts within the incisive conflatedness; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness induced neuterising or prospectively notional—deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. That is, the notional—deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness, with no intermediating construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its
notional-deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms—as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology and-longness-of-register-of-meaningfulness-and teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of-reference-of-thought perspective of notional-deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional-deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness /ontological-aesthetic-tracing—ontological-normalcy/postconvergence-reflected—epistemicity-relativism as of the notional-conflatedness of notional-deprocrypticism highlights that humankind in its

In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an \langle\textit{amplituding/formative—epistemicity}\rangle\textit{totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} construct, including our positivism—procrpticism registry-worldview/dimension, as this will falsely imply that our \langle\textit{amplituding/formative—epistemicity}\rangle\textit{totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such \langle\textit{amplituding/formative—epistemicity}\rangle\textit{totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} highlights human-subpotency/subpotential-mimetic-echoness-derivation-within-the-full-potency of existence. Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness-reference-of-thought as of ontological-performance-including-virtue-as-ontology arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism–procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence-implicated-nondescript/ignorable–void-as-to-presencing—absolutising-identitive-constitutedness’ what is existence/existential-possibilities not factoring Being conflatedness <amplituding-formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance—<including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness—of-reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology—<in-existential-

This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of ‘meaningfulness-and-teleology in relative deficient/flawed ontological-performance –<including-virtue-as-

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered-epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance\langle including-virtue-as-ontology\rangle’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered-\langle amplituding/formative-epistemicity\rangle-totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance\langle including-virtue-as-ontology\rangle in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process or notional-deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance\langle including-virtue-as-ontology\rangle of ‘centered-epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance\langle including-virtue-as-ontology\rangle’ but rather as within a same horizon of meaningfulness-and-teleology ontological-performance\langle including-virtue-as-ontology\rangle. However, it fails to grasp that such a centered-epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-
teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered–epistemic-totalisation of a very same <amplituding/formative–epistemicity>totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance - <including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> has been as of our positivism–procrypticism registry-worldview’s/dimension’s “reference-of-thought-as-of”\textsuperscript{84} reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates the centered–epistemic-totalisation exercise for the insight of a futural différance as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the
cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural différance is the notion of \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\rangle\), as of beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought>\(^{6}\), construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold\(^{103}\) temporal individuations circular undermining of the prospective institutionalisation \(^{8}\) reference-of-thought-as-to-postconverging–de-mentating/structuring/paradigmimg implied transformation/shift as transcendence-and-sublimity/sublimation/superrogatory–de-mentativity as of prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold\(^{103}\) \(^{84}\) reference-of-thought which is in \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\rangle\) with its ultimate crossgenerational collapsing for the prospective institutionalisation’s \(^{8}\) reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social \(^{104}\) universal-transparency\(^{105}\)-\(\langle\text{transparency-of-totalising-entailing,-as-to-entailing-<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\rangle\) as of prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought of the prospective institutionalisation’s \(^{8}\) reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other
scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-as-of-shallow-supererogation-as-of-mentally-aestheticised–preconverging/dementing–qualia-schema in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same <amplituding–formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening induces de-mentatively/structurally/paradigmatically grander human meaningfulness-and-teleology ontological-performance-as-of-virtue-as-ontology of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding–formative–epistemicity>totalising–purview–of–construal’. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding–formative–
epistemicity>totalising-purview-of-construal’ or <amplituding/formative–
epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the
‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-
nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in
the same way that insight/intuition is reflected rather with regards to any given implicited
axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a
theory being any conception as of meaningfulness-and-teleology of supposed existential-
implications correspondence. That is the traditional knowledge conception articulated as
‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of
axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is
the effective human limited-mentation-capacity supposed correspondence relation with
existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation <as-to-perspective-ontological-
normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> for
human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-
constructs/theories/intersolipsistic-intercessory-notions/notional—referential-
notions/articulations/virtue, with increasing ontological-performance—<including-virtue-as-
ontology> as of human transcendence; even though such a conception as ‘axioms of logic’
could be perceived rather as a meta-conception or more like a technical practicality akin to say
the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of
axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic
and by extension mathematics imply elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-
nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory~de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory~de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a
more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating/supererogatory-de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest-subpotency-in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating–nascence> with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal
supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument~–for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument~–for–conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest~subpotencies~<in-transitive-conflatedness~<reflexivity,-in-the-full-potency-of-existence’s~sublimating~nascence>~given ‘human corresponding-sublimation-inducing,-profound-and-creative supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument~–for–conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory~de-mentativity of the physics <amplituding/formative~epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory~de-mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain-of-study and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-
enabling/sublimating/supererogatory-de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^9\). The naivety of logicism lies exactly in this respect of construing formalisation as most of what is supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to-‘human<amplituding/formative—epistemicity>totalising~purview-of-construal’ points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness of reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence-{implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>} that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology\(^\circ\). The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid \(^\circ\)reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-
ontologising-development-as-infrastructure-of– meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional–deprocrypticism psychoanalytic-unshackling metaphysics-of-absence–(implicit–epistemic-veracity-of–nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩) and conflatedness , and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve constitutedness construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’; usually in our case, in a non-transcendental <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-

constitutedness). Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology ontological-performance —<including-virtue-as-ontology> as validated by ontological-primes-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/superrgatory—de-mentativity when prospective relative-ontological-completeness—of-axiomatic-construct-or—reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology ontological-performance —<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity as axiomatic-construct/reference-of-thought in relative ontological-contiguity of amplituding/formative—epistemicity totalising—devolved—purview/domain-of-construal-as—intrinsic-reality/ontological-veridicality/existential-reality. An axiomatic-construct is in such relative ontological-contiguity by its conflatedness as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity. An ‘axiomatic-construct/reference-of-thought of notional—discontiguity/epistemic-discontiguity—<shallow-superrgation>—of-mentally—aestheticised—preconverging/dementing—qualia-schema> as of an epistemic—totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological—veridicality/existential-reality’ highlights two points of failure/as-discontinuity of
meaningfulness-and-teleology\(^{10}\) ontological-performance -<including-virtue-as-ontology>, having to do with its apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument unsoundness-or-ontological-bad-faith/inauthenticity\(^{64}\) and by derivation the aposteriorising/logicising/deriving/intelligising/measuring; such that a more ontologically-complete ‘axiomatic-construct/<\(\)reference-of-thought in relative ontological-continuity as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ exists rather beyond the scope of construal of meaningfulness-and-teleology\(^{10}\) of the prior ‘axiomatic-construct/<\(\)reference-of-thought of notional-discontiguity/epistemic-discontiguity\(^{65}\)-<shallow-supererogation\(^{97}\)-of-mentally-aestheticised–preconverging/dementing\(^{19}\)=qualia-schema> as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Thus the relationship between a prospective institutionalisation and the uninstitutionalised-threshold \(^{63}\) is one of relative ontological-contiguity\(^{67}\)-by–notional-discontiguity/epistemic-discontiguity\(^{63}\)-<shallow-supererogation\(^{97}\)-of-mentally-aestheticised–preconverging/dementing\(^{19}\)=qualia-schema> of their differing references-of-thought as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal'; for instance, with regards to the relative ontological-contiguity\(^{67}\) of 'reference-of-thought implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity -<shallow-supererogation’-of-mentally-aestheticised–preconverging/dementing\(^{19}\)=qualia-schema> of 'reference-of-thought implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–
epistemicity-totalising-purview-of-construal’, reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is ‘mentally-unsound/preconverging-or-dementing’—apriorising-psychologism and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity/ and relative notional-discontiguity/epistemic-discontiguity –<shallow-supererogation –of-mentally-

aestheticised–preconverging/dementing –qualia-schema>, and so with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to ‘reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory–de-mentativity implications as of human limited-mentation-capacity-deepening , whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify ‘meaningfulness-and-teleology’ as knowledge which can only
arise as of the ‘maximalising-recomposuring-for-relative-ontological-completeness’—
unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-

construct’. Such a logicism disposition is rather in constitutedness and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/subliming/supererogatory—dementativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-

virtue-as-ontology> as of transcendence-and-sublimity/sublimation/supererogatory—dementativity reflected by metaphysics-of-absence—{implicated-epistemic-veracity-of-

implications,—for-explicating-ontological-contiguity’ as of relative ontological-contiguity of
reference-of-thought with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human-amplituding-formative-epistemicity'>totalising-purview-of-construal’. This author phenomenological transcendental conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant implications construing/conceptualising in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness as of human limited-mentation-capacity-deepening. Such that human phenomenological <amplituding-formative-epistemicity'>totalising—thrownness-in-existence’ (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance’-<including-virtue-as-ontology>) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity implications construed from notional—deprocrypticism perspective as ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’>, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency—sublimating—nascence, disclosed from prospective—epistemic-digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here
about the nature of ‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the conflatedness\(^\text{12}\) as of intemporal-preservation-entropy-or-contiguity–or-ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality\(^\text{27}/\)longness over temporality /shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality /to-intemporality \(^\text{12}\) were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being conflatedness\(^\text{12}\) <amplituding/formative–epistemicity> causality as-to-projective-totalitative–implications, for-explicating-ontological-contiguity\(^\text{27}\) as of maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual constitutedness\(^\text{11}\) possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^\text{13}\) implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by conflatedness\(^\text{12}\) as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of conflatedness\(^\text{12}\) upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^\text{27}\) —of-the-human-institutionalisation-process\(^\text{16}\) as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness\(^\text{13}\) as of successive opened-constructs-of—meaningfulness-and-teleology\(^\text{100}\) superseding <amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\(^\text{100}\) as-of—‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>) and from

Ultimately, phenomenology is all about grasping the conflatedness of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory~de-mentativity biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity —<shallow-supererogation~of-mentally-aestheticised–preconverging/dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical
and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory-de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory-de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance -<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative–epistemicity>totalising~purview-of-construal’ or <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory-de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory-de-mentativity implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-

Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological \textsuperscript{56} meaningfullness-and-teleology \textsuperscript{100} could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness \textsuperscript{89}–of–reference-of-thought constitutedness \textsuperscript{17} as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness \textsuperscript{89}–of–reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the \textsuperscript{amplituding/formative–epistemicity}>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag \textsuperscript{33} of its value construct. But then prospective institutionalisation necessarily implies a notion of prospective value construct as of its prospective relative-ontological-completeness \textsuperscript{58}–of–reference-of-thought conflatedness \textsuperscript{12} which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational \textsuperscript{56} meaningfullness-and-teleology \textsuperscript{100} psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given
centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{100}, with transcendence-and-sublimity/sublimation/supererogatory–de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity\textsuperscript{04}—of-the-human-institutionalisation-process\textsuperscript{64} is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory–de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism as of human \textlt{amplituding/formative–epistemicity}\textsuperscript{63} totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag as social\textsuperscript{101} universal-transparency\textsuperscript{102}–(transparency-of-totalising-entailing, as-to-entailing–\textlt{amplituding/formative–epistemicity}\textsuperscript{63} totalising–in-relative-ontological-completeness) avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology\textsuperscript{100} with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus
individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of \textsuperscript{100}meaningfulness-and-teleology\textsuperscript{100} within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as \textsuperscript{<amplituding-formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology\textsuperscript{100} with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as \textsuperscript{<amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and \textsuperscript{<amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of
meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness of reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-prime-movers-totalitative-framework validation as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression as re-originary–as-unenframed/unbeholding/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking ‘-‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocripticism-prospective-sublimation⟩, that are most likely to be syncretised cross-generationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology &lt;&lt;in-existentiel-extrication-as-of-existentiel-unthought&gt;&gt; with regards to such transcendental implications! Despite the fact that all social-sets tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the
long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness} about such metaphoricity instigate reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup’s meaningfulness-and-teleology allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup’s meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be
preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective of relative-ontological-completeness of reference-of-thought by way of ontological-

Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality /longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment–disposition. intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological—reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness—reference-of-thought in intemporal—longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness—reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or—disjointedness-as-of-reference-of-thought with intemporal—longness rather as respectively in base-institutionalisation, universalisation,

‘emphasising exclusively that it is the construal of human temporality-to-intemporal-transversal-and-cumulative-implications’ that accounts for ontologically-veridical human character-and-social-formation-dynamics as of both uninstitutionalised-threshold representation and prospective-institutionalisation representation. Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising-axiomatising/referencing of human limited-mentation-capacity in temporal constitutedness mental-reflexes at presence reference-of-thought, and so reflected by the implied intemporal conflatedness of phenomenological transcendence-and-sublimity/sublimation/suprerogatory de-mentativity as of notional-deprocrypticism. We can appreciate the metaphysics-of-absence (implicit-epistemic-veracity-of nonpresencing <perspective-ontological-normalcy/postconvergence> insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ to positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness-of-reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism–procrypticism mental-disposition is
construed in deneuterising\(^6\) from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^0\) as of prospective notional–deprocrypticism perspective ‘as not self-effacing as of its ontologically-flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag -temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold\(^0\) of its procrypticism–or–disjointedness-as-of-reference-of-thought and the prospective institutionalisation of deprocrypticism’. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold\(^0\) and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness\(^1\) as of notional–deprocrypticism deneuterising\(^6\) insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human \(^{10}\) meaningfulness-and-teleology\(^0\) given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold\(^0\) is the notion of beyond-the-consciousness-awareness-teleology\(^0\)-<in-existential-extrication-as-of-existential-unthought>. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the \(^4\)historiality/ontological-eventfulness\(^7\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> of conflatedness as of notional–deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is a <amplituding/formative–epistemicity>totalising–self-

this induces as of various existential-instantiations ‘ontologically-flawed ‘meaningfulness-and-

The notion of beyond-the-consciousness-awareness-teleology—a<-in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation and temporal/shortness-of-register-of—meaningfulness-and-teleology individuations of postlogism—slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,
so-disambiguated as of reference-of-thought- devolving ontological-performance\(^2\)\(<\text{including-virtue-as-ontology}\>). Ultimately, the notion of beyond-the-consciousness-awareness-teleology\(^1\)\(<\text{in-existential-extrication-as-of-existential-unthought}\>) given its psychoanalytic-unshackling as of prospective deprocrypticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness\(^7\) of Being as implied as of deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought. The issue of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of temporal/shortness-of-register–meaningfulness-and-teleology\(^{100}\) mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity–ontological-preservation that is behind
organic-knowledge. Human <amplituding/formative–epistemicity>totalising~self-referencing-<syncretising/circularity/interiorising/akrasiatic-drag> temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology<sup>44</sup>-<in-existential-extrication-as-of-existential-unthought> are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold<sup>03</sup> in temporal/shortness-of-register-of<sup>100</sup> meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity —of-the-human-institutionalisation-process<sup>1</sup> arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/<sup>84</sup> reference-of-thought into a positivistic mindset/<sup>84</sup> reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness<sup>89</sup>-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<sup>97</sup>-<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’ is in a state of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>19</sup> of a medieval worldview will grasp that that unique demonstration of medieval-postlogism<sup>78</sup>/‘perversion-of–reference-of-thought<sup>84</sup>-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’<sup>97</sup> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation as ‘prelogic supplanting—conviction-as-to-profound-supererogation —of—attendant-intradimensional’—postconverging/dialectical-thinking —apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging—dementating/structuring/paradigming resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism—procrypticism worldview and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism worldview). We can appreciate such metaphysics-of-absence—(implicit—epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>) insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporality /longness behind the ‘inventing of the base-institutionalisation culturally
value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <amplituding/formative–epistemicity>–totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} with respect to the prospective registry-worldview/dimension as resolving the vices-and-impediments\textsuperscript{106} of the prior registry-worldview/dimension. But then no matter the succession of institutionalisations as successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{96}, there is an ever present issue of Being underdevelopment as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal—to-intemporal—dispositions<<so—constructed—as—from—perspective—ontological-normalcy/postconvergence’—existentialism-form-factor wherein institutionalising \textsuperscript{14}reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} are always subject at uninstitutionalised-threshold\textsuperscript{101} to their denaturing\textsuperscript{17} as of their \textsuperscript{<amplituding/formative> wooden-language—(imbued—temporal—mere—form/virtualities/dereification\textsuperscript{17}/akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{19}—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{10}>, as of temporal failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} given human limited-mentation-capacity is rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so—being—as-of—existential-reality as of intemporal-preservation-entropy—or—ontological-preservation wherein the abstract intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturing of knowledge as organic-knowledge. We can appreciate the latter point in the
sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of $\langle$amplituding/formative$\rangle$ wooden-language-{$\langle$imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology$\rangle$-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications$\rangle$’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social $\langle$amplituding/formative$\rangle$ wooden-language-{$\langle$imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology$\rangle$-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications$\rangle$} as improper and unqualified. This was to avoid a circularity of $\langle$amplituding/formative$\rangle$ wooden-language-{$\langle$imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology$\rangle$-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications$\rangle$}

undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by $\langle$amplituding/formative$\rangle$ wooden-language-{$\langle$imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology$\rangle$-as-of–‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications$\rangle$ but
rather ontological-pertinence, and the point in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not <amplituding/formative> wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications>, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primum movers-totalitative-framework—overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance—<including-virtue-as-ontology>—implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency—{transparency-of-totalising-entailing, as-to-entailing—<amplituding/formative—epistemicity>totalising—<in-relative-ontological-completeness}>’. This articulation can be
underlying transcendental-enabling/sublimating/supererogatory-de-mentativity in formal institutional percolation-channelling-in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions;–wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory-de-mentativity as to existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression;–the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <amplituding/formative> wooden-language–imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing–narratives–of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology–for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft;–ultimately the very paradox of human <amplituding/formative–
means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing meaningfulness-and-teleology’ value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation to presence, rather than as of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over prior/transcended/superseded relative notional-discontiguity/epistemic-discontiguity—<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing—qualia-schema>. However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, the insight about human <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of—meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism can crossgenerationally be induced for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency’—(transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness’)’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a
suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness⟩’. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <amplituding/formative–epistemicity>totalising—renewing—reality/re-perception/re-thought, and so due to the ‘existential and emotive commitments’ it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-

Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of protractive ontological-contiguity<sup>67</sup> is more than just a reification gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<sup>20</sup>-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> but extends to encompass a de-assertion/preconverging-or-dementing<sup>20</sup>–apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<sup>20</sup>-<as-to-preconverging-or-dementing<sup>20</sup>–apriorising-psychologism> of ‘traditional classical mechanics axiomatic-construct’, at the threshold where it supersedes ‘traditional classical mechanics axiomatic-construct’, as being of notional-discontiguity/epistemic-discontiguity<sup>20</sup>-<shallow-supererogation>-of-mentally-aestheticised~preconverging/dementing~qualia-schema> when analysed as of ‘traditional classical mechanics axiomatic-construct’, and so with regards to ‘the very same physics <amp;thinsp;amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’.

The ontological veridicality here is that such ‘double-gesture reification’<sup>20</sup> as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<sup>20</sup>-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> together with the prior axiomatic de-assertion/preconverging-or-dementing<sup>20</sup>–apriorising-psychologism/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<sup>20</sup>-<as-to-

While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as deprocrypticism—or-preempting—disjointedness-as-of—reference-of-thought implies a transcending reification gesturing that not only affirms notional–deprocrypticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism–procrypticism registry-
worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of notional-deprocrypticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all destructuring-threshold-(uninstitutionalised-threshold/presublimating–desublimating-decisionality)~of-ontological-performance ~<including-virtue-as-ontology> with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnatures—temporal-to-intemporal-dispositions~<so-construed-as-from-perspective–ontological-normalcy/postconvergence’–existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness of reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness of reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in ontological-contiguity and ‘traditional classical mechanics axiomatic-construct’ of notional-discontiguity/epistemic-discontiguity ~<shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema> but for the former’s enlightening the latter’s undefined-or-undecidable-threshold-of-ontological-
uninstitutionalised-threshold \textsuperscript{13} temporality\textsuperscript{10}/shortness as if intemporal in \textsuperscript{5} incrementalism-in-relative-ontological-incompleteness\textsuperscript{9}—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{9}. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event -as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness\textsuperscript{9}—of-axiomatic-construct-or-reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity \textsuperscript{-<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism–or–disjointedness-as-of-reference-of-thought reasoning’ is not admissible to prospective ‘deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought reasoning’ and so from the moment of the event -construed-as-the-prospective-ontology-origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event -construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting holographically\textsuperscript{-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{16}; and so as of notional-discontiguity/epistemic-discontiguity\textsuperscript{-<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> of the uninstitutionalised-threshold \textsuperscript{13} and the prospective institutionalisation. Such a temporal/shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{10} ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event -as-prospective-ontology-origination’ is
fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supernormal supererogatory de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event37-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of—meaningfulness-and-teleology100 ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology100—<in-existential-extrication-as-of-existential-unthought>15 denaturing15 of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care—and—episteme as of intemporality15/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing15, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms—as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care—and—episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoptation of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be
reconstitued circularly in animistic or medieval terms as of the latter teleologically-degraded prior relative-ontological-incompleteness as of reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism or preempting disjointedness-as-of reference-of-thought relative to our positivism procrypticism necessarily requires priorly the requisite apriorising teleological elevation in ontological-contiguity from positivism procrypticism’s disjointedness-as-of reference-of-thought mindset into deprocrypticism’s preempting disjointedness-as-of reference-of-thought apriorising axiomatising referencing intelligibility setup measuring instrument attitude mental disposition care and episteme as otherwise such knowledge will be teleologically degraded in circular positivism procrypticism disjointedness-as-of reference-of-thought terms as of axiomatic-construct as of prior relative-ontological-incompleteness as of reference-of-thought meaningfulness-and-teleology, even though in the latter case our amplituding formative epistemicity totalising self referencing syncretising illusion of the present present consciousness mirage as metaphysics of presence implicited nondescript ignorable void as to presencing absolutising identitive constitutedness blinds us to appropriately appreciating this given the human mental reflex of representing any uninstitutionalised threshold as nondescript ignorable void (actually speaking of akrasiatic drag denatured and preconverging or dementing narratives) as of our amplituding formative epistemicity totalising self referencing syncretising circularity interiorising akrasiatic drag.

The point here is that the meaningfulness and teleology so construed has to supersede the prior registry worldview dimension uninstitutionalised threshold perspective framing reference horizon for its prospective transcendence and sublimity sublimation supererogatory de mentativity enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying
epistemicity>totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing’º as of the attitude/mental-disposition/care-and-episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology ª<in-existential-extrication-as-of-existential-unthought>º as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given ºreference-of-thought, say in our positivism/rational-empiricism ºreference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care-and-episteme, and further at the individual level as of changing attitude/mental-disposition/care-and-episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care-and-episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care-and-episteme’ as dispensing-with-immediacy-for-relative-ontological-completenessº-by-reification’/contemplative-distension º(as of human self-surpassing—existentialism-form-factor,-in-overcoming—‘notionally—collateralising-beholdening-protohumanity’-to—‘attain-sublimating-humanity’-as—to—existence-potency —sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality /shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^7\) as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness -of- reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme\(^5\) contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\(^5\) in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness -of- reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–and–episteme\(^5\) can pertinently be defined as the ‘assumed-and-unflinching transversality~of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\(^1\) inducing a given specific \(^1\) nonpresencing-<perspective–ontological-normalcy/postconvergence> outcome with regards to prospective relative-ontological-completeness\(^8\) -or-incompleteness-of-\(^8\) reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding
as of relative-ontologically-veridical attitude/mental-disposition/care–and–episteme ‘assumed-and-unflinching transversality~of-affirmative-and-una\naffirmative~disambiguated~motif~and-apriorising/axiomatising/referencing’ over relative-ontologically-flawed attitude/mental-disposition/care–and–episteme, with the latter necessarily having to ascend to the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme for the former’s implied meaningfulness-and-teleology as of its ontological-performance–<including-virtue-as-ontology> to avail, and so in reflecting the ‘incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,\neliciting-of-prospective-supererogation’ <-<as-to-perspective-ontological-normalcy/postconvergence-implied~prospective-aporeticism-overcoming/unovercoming’>; as we can appreciate this with regards to existence’s relative validation of the positivism/rational-empiricism ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’ interpretation over recurrent-utter-uninstitutionalisation’s ‘bad omen’ interpretation. Such an ‘assumed-and-unflinching transversality~of-affirmative-and-una\naffirmative~disambiguated~motif~and-apriorising/axiomatising/referencing’ has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness ~by-reification~/contemplative-distension as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care–and–episteme\(^5\) underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care–and–episteme of a given institutionalisation’s\(^5\) reference-of-thought as of prospective relative-ontological-completeness\(^84\) of axiomatic-construct-or-\(^9\)reference-of-thought and thus its corresponding \(^5\)meaningfulness-and-teleology\(^100\), and the other doesn’t as of prior relative-ontological-incompleteness\(^9\). This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting holographically-<conjugatively-and-transfuse\(\text{v}^6\)-> the ontological-contiguity\(^6\) —of-the-human-institutionalisation-process\(^6\), wherein for instance the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme\(^5\) of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology\(^100\), speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework\(^9\) induced positive-opportunism\(^\text{v}^7\) as of scientific, medical, technical advancements, free society, etc. shat leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology\(^100\) while averting its denaturing\(^\text{v}^5\) by wrongly implying notional-contiguity/epistemic-contiguity\(^6\)-<profound-supererogation\(^-\)of-mentally-

their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme, 

and positivism are rather in transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendentental conceptualisation as of organic-knowledge is one that undervalues the ‘presencing—absolutising-identitive-constitutedness attitude/mental-disposition/care–and–episteme as of its social-stake-contention-or-confliction while the very notion of perceiving highly the meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective nonpresencing–<perspective–ontological-normalcy/postconvergence> sublimity/sublimation/supererogatory–de-mentativity episteme transcendence-and-attitude/mental-disposition/care–and– reference-of-thought

In addition, the disruptive uninstitutionalised-threshold context著isisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology\(^{100}\)–\(^{\text{in-existential-extrication-as-of-existential-unthought}}\) institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology\(^{100}\) attitude/mental-disposition/care–and–episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflicatedness\(^{77}\) of deprofripticism–or–preempting–disjointedness-as-of– reference-of-thought proteasive-consciousness? ontological-bad-faith/inauthenticity\(^{64}\) as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold\(^{103}\) of the possibility of intellectually induced social\(^{104}\) universal-transparency\(^{105}\)–(transparency-of-totalising-entailing,as-to-entailing–<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness \(\rangle\); for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturiung for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology\(^{100}\)–\(^{\text{in-existential-extrication-as-of-existential-unthought}}\) undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity\(^{7}\) of social <amplituding/formative> wooden-language-(imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology\(^{100}\)–as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications\(\rangle\) and untransvaluated–temporal-intemporality\(^{62}\) social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity\(\rangle\) contentions; by its

Central to such \textsuperscript{5} incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to

Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms—as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness,
 thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness,
 ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension,
and-sublimity/sublimation/supererogatory—de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so- implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. As such ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness are of the same notional-contiguity/epistemic-contiguity—<profound-supererogation—of—mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> kind that bathe in the wooden-language-(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>) and untransvaluated–temporal-intemporality social-chainism that implied as much about extolling social practices presencing—absolutising-identitive-constitutedness of existential-extrication-as-of-existential-unthought reasoning-from-results/afterthought attitude/mental-disposition/care—and—episteme of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and
today’s positivism–procrypticism, with little prospect/opening for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Essentially and constructively, all intellectualism as of their intemporal job description as emancipative is to relay in uninhibited/decomplexified terms–as-of-axiomatic-construct the blunt reality of the social as this is the very attitude/mental-disposition/care–and–episteme that empowers prospective social emancipation however socially unconvenient it may sound; and so beyond habituated <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag. The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of–meaningfulness-and-teleology denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is rather about a ‘seeding promise of human-subpotency ontological-performance’ -<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s—sublimating–nascence-as-of-its-coherence/contiguity’, but that reasoning-through/messianic-reasoning aduced transcendence-and-

This practical conceptualisation of ontological-good-faith/authenticity as of its method is further critical because however well elicited, even reasoning-from-results/afterthought constructs still need their good ontological-performance in practice, and given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, there is always room for human denaturing of temporal ontological-performance -<including-virtue-as-ontology> of such reasoning-from-results/afterthought constructs induced by reasoning-through/messianic-reasoning; pointing to the fact that ultimately the underlying ‘sanctity of knowledge’ arises from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of such ontological-good-faith/authenticity based intemporal organic-knowledge that is wary of the denaturing that can arise as of temporal mechanical-knowledge that ‘dispenses with the originary/as-of-event spirit of reasoning-through/messianic-reasoning’ and adopts a mere pedantic relating with the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology.

undermined by what this author qualifies as ‘subterfuges of Being-development/ontological-

these are ‘commitments’ ready to ‘forego the pre-eminence of knowledge construed as of its

implied as of ‘dynamic social <amplitude/formative–epistemicity>totalising–self-referencing-syncretising’ across the entire social spectrum as of notional~episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity of-the-human-institutionalisation-process as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> undermines the

reflected as of temporal-to-intemporal individuations wherein the individual is rather a

receptacle of temporal-to-intemporal individuations with variance of mental-dispositions

Likewise, prospectively it is a notional–deprocrypticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness -of- reference-of-thought social universal-transparency\textsuperscript{(9)} -(transparency-of-totalising-entailing,-as-to-entailing-\textlangle\textit{amplituding/formative–epistemicity}\rangle totalising–in-relative-ontological-completeness\textsuperscript{(2)}) that can render it untenable for procrypticism temporal mental-dispositions to elicit procrypticism–or–disjointedness-as-of- reference-of-thought implied temporality\textsuperscript{(9)}. Thus aetiologisation/ontological-escalation is not about transforming the reality of human-
subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness of reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendentally-enabling/sublimating/supererogatory~de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating —<amplituding/formative—supererogatory—de-mentativenss/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of—meaningfulness-and-teleology are as of a projected-or-anticipated conflatedness of social universal-transparency—(transparency-of-totalising-entailing,—as—which entails—<amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness) for institutional and formal deferential-formalisation-transference as of percolation-channelling—<in-deferential-formalisation-transference>. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-
sublimating—suberogatory—de-mentativeness/epistemic-growth-or-confoundedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism as of institutional and formal percolation-channelling—in-deferential-formalisation-transference> to attain social approbation. It is such a ‘confoundedness’ structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling—in-deferential-formalisation-transference> to attain social approbation’ that holds together in social universal-transparency-{transparency-of-totalising-entailing—as-to-entailing—totalising—in-relative-ontological-completeness} temporal-to-intemperal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemperal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional–deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling—in-deferential-formalisation-transference>. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-
exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontologicalperformance `<including-virtue-as-ontology->) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-prime_movers-totalitative-framework7 construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence7 (I exist
therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{7}—<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <amplituding/formative–epistemicity>totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory—de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{4} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{7}—<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of\textsuperscript{10} universal projection as intemporalit\textsuperscript{7}—or-longness-of-register-of—\textsuperscript{17} meaningfulness-and-teleology\textsuperscript{100} as the opportunity for prospective transcendental-enabling/sublimating/supererogatory—de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative \textsuperscript{104} universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing—<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{7} thus hardly as of
aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory–de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance ) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-
into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’.

This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity!

We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective-ontological-normalcy/postconvergence as of notional-deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-implicited-nondescript/ignorable-void-as-to-presencing-absolutising-identitive-constitutedness framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied here is with regards to
reference-of-thought—epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—‘human—amplituding/formative—epistemicity>—totalising—purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profouneness-and-completeness-to— meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further conflatedness as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of <amplituding/formative—epistemicity>—totalising—renewing-realisation/re-perception/re-thought

‘human-amplituding/formative–epistemicity>totalising-purview-of-construal’. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing constitutedness. Rather existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation –<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

Such a conflatedness insight as of notional-deprocrypticism rather points out that soundness-or-ontological-good-faith/authenticity of meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology> arises as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology involving the ontological-contiguity of the-human-institutionalisation-process induced various consciousnesses up to the protensive-consciousness enabling transcendental centered-epistemic-totalisation, as of human limited-mentation-capacity-deepening. Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context meaningfulness-and-teleology reference-of-carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in constitutedness as of any of the various registry-worldviews/dimensions specific underlying
imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of ‘reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the conflatedness of existence as of prospective relative-ontological-completeness′-of-‘reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous constitutedness, and this issue is recurrent-beyond-‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>-with-the-latter-only-a-bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening-limited-mentation-capacity,-as-limited-mentation-capacity-deepening due to inherent human temporality /shortness and intemporality /longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of the notional–conflatedness of notional–deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus <-amplituding/formative–epistemicity>totalising–conflated–meaningfulness-and-teleology-as-of-notional–deprocrypticism-reflected–‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> ontological-performance-<including-virtue-as-ontology>, so-derived as it solipsistically constructs-and-reconstructs underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled
epistemicity-totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of totalising-renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology. Thus language effectively reflects the totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming-of-meaningfulness’. Such centered-totalising/circumscribing/delineating meaningfulness-and-teleology construed as reference-of-thought, and its signification as implied by an ‘underlying totalising/circumscribing/delineating signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-teleology is as of a ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly
coherent ontological-commitment as of ontological-primemovers-totalitative-framework for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human<amplituding/formative–epistemicity>totalising~purview-of-construal'; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaporcity as of human limited-mentation-capacity-deepening adhocly produces by conflatedness adjunctive significations where these do not fit in with the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ due to the implications of human limited-mentation-capacity as of relative-ontological-incompleteness of reference-of-thought when conceptualising about such an ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. But then an adjunctive-metaporcity-signification so produced as reflected by ‘a transcendental syncretising-effecting <meaningfulness-and-teleology> like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater <meaningfulness-and-teleology> <amplituding/formative–epistemicity>totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some
the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative-epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/ermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe ‘meaningfulness-and-teleology as not self-referentially covered by the ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’, they will inevitably articulate adjunctive-metaphoricity-significations to that prior ‘underlying <amplituding/formative-epistemicity>totalising/circumscribing/delineating signifying-construct of language’. This explains the lockstep nature of human meaningfulness-and-teleology and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure-(as-to-)historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification—in-singularisation-as-veridical-epistemic-determinism <amplituding/formative-epistemicity>causality—as-to-projective-totalitative-
implications,-for-explicating-ontological-contiguity’ différance’, with regards to ‘human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration’, and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-dialectic in existential-contextualising-contiguity/Derridean-différance/Sartrean-existence-precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening. Such adjunctive-metaphoricity-significations conflatedness-<amplituding/formative–epistemicity>causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity-significations conflatedness induced ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members
of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment' for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’!

Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-
pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity\textsuperscript{7} is thus rather construed as of its overall conflatedness\textsuperscript{8} of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications,~for-explicating-ontological-contiguity\textsuperscript{9} of full consciousness development as of Being-development/ontological-framework-expansion~as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{10} underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{6}, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology\textsuperscript{10} as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective/supererogating/zeroing rhetorical-stylistic-semantic delivery, and as such metaphoricity\textsuperscript{7} induces <amplituding/formative–epistemicity>totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay', ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity\textsuperscript{6}—significations. Overall, human explicit and implicit signification as of language as articulated
above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity\(^7\)-significations conflatedness\(^2\) reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity\(^7\)-significations conflatedness\(^2\) as of syncretising-effecting as ultimately converging towards a \(^7\)deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed as différance in conflatedness\(^\dagger\) associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay\(^7\) as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>.

While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a
sublimity/sublimation/supererogatory-de-mentativity. Accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as différance transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics amplituding/formative-epistemicity-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ of the différance. The implication here resonates with the idea that knowledge is much more than the construal of conceptual sublimation knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality/misconstrual/desublimation and intemporality-as-ontological-construal as of
accreting-substitutive-subsumption-as-futural-différance-freeplay\[2\] involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising — referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\[3\] of the uninstitutionalised-threshold\[3\] and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality\[7\]-as-ontology but involves grasping this together with the implications of temporality\[5\], and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential\[5\] meaningfulness-and-teleology\[8\] signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness\[7\]. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay\[2\] is the existentially veridical and effective basis for reflecting\[4\] historiality/ontological-eventfulness\[7\]/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful\[5\] meaningfulness-and-teleology\[8\]. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity\[9\] ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology\[100]<in-
existential-extrication-as-of-existential-unthought>; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality /longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology/. Basically, just as the adjunctive-metaphoricity—signification instigation of positivistic rationality as a potent construct took the form of a centered–epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity—signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional~conflatedness of notional~deprocrypticism deneuterising —referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-differance-freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the privileging of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by
historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-epistemicity-relativism>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag facet it is then already compromising nonpresencing–or–withdrawal–or–metaphysics-of-absence-(implicated-epistemic-veracity-of–nonpresencing–<perspective–ontological-normalcy/postconvergence>–or–transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-
teleology\(^{13}\), and so as disambiguating \(^{13}\) presencing—absolutising-identitive-constitutedness\(^{13}\) from \(^{10}\) nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\) by their respective \(^{11}\) supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument\(^{3}\), such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the \(^{13}\) presencing—absolutising-identitive-constitutedness\(^{13}\) as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising\(^{2}\) between \(^{13}\) presencing—absolutising-identitive-constitutedness\(^{13}\) and \(^{61}\) nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\) (rather than difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^{2}\)), and so contradictorily as if both are of the presencing \(^{13}\) supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness—of-
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument\(^{3}\). With the reality that \(^{61}\) nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\) is wrongly-and-unsuspectingly given as of common \(^{13}\) presencing—absolutising-identitive-constitutedness\(^{13}\), thus inducing a relative ontologically-flawed quasi-transcendental freeplay as nonpresencing-\(<\text{perspective–ontological-normalcy/postconvergence}>\) is rather in notional-discontiguity/epistemic-discontiguity -\(<\text{shallow-supererogation}-\text{of-mentally-aestheticised–preconverging/dementing –qualia-schema}>\) when analysed as of \(^{13}\) presencing—

absolutising-identitive-constitutedness\(^{13}\). Consider in this regard ‘the very same physics \(<\text{amplituding/formative–epistemicity}>\) totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior relative-ontological-incompleteness\(^{19}\) being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness\(^{18}\)-of-axiomatic-construct-or- reference-of-thought being the theory-of-relativity-together-with-
sublimity/sublimation/supererogatory—de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural différance where meaningfulness-and-teleology is construed as of the prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which points to a prospective relative-ontological-completeness/ontological-contiguity as of the very same <amplituding/formative–epistemicity>totalising—devolved—purview—as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing as of the transcendental implications of prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing arrived at by human limited-mentation-capacity-deepening as of de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument about

metaphoricity thus perfectly satisfies the ‘foreboding concern for ontological-veracity’
critically pursued by the Derridean freeplay différance, as it is existence—as-the-absolute-a-
priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so implying human limited-mentation-capacity-deepening; and thus, this point that enables the Derridean freplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the full conflatedness reflecting existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> in its nonpresencing—<perspective—ontological-normalcy/postconvergence>, and so beyond just a Derridean freplay différance which is then in constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Insightfully, we can grasp that the Derridean freplay différance becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. So because at the point of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-
absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—is-not-made—by-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—is-not-made—by-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as validatable by ontological-primemovers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’—depth of reasoning and perspective which is pushed to its brink in projection/anticipationEXPECTANCY. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is more than just imagination which rather comes prior to and is exhausted-and-superseded-by-reasoning. Such a lack of prior certitude explains why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity ‘are not really reasoned-out’ but rather
discovered-as-divulged by existence, with the human-subpotency concern being one of
adopting the right attitude/mental-disposition/care–and–episteme that allows existence-as-full-
potency to come up with the divulgation. Ontological-faith-notion-or-ontological-fideism—
imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-
of-existential-reality as such is equally the basis for implying a correspondence theory of
human thought and reality, as not really arising as of any instantative absolute correspondence
but rather as of the ‘promise of prospective human ontological-completeness-of– reference-of-
thought’ implied by ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality as of ’nonpresencing<-perspective–ontological-normalcy/postconvergence>
in continually opening-up ‘the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-

process as of Being-development/ontological-framework-expansion–as-to-depth-of-
ontologising-development-as-infrastructure-of– meaningfulness-and-teleology. It should be
noted that reasoning-as-intelligibility rather harkens back to a given ‘registry-
established existential–epistemic-totalisation-of–meaningfulness-and-teleology to which it
tends to be engaged with in an ‘incrementalism-in-relative-ontological-incompleteness’—
enframed-conceptualisation reflex as of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity. We can appreciate that the medieval mindset reasons in terms of
medievalism–non-positivism just as we reason in terms of our positivism–procrpticism
mindset. The question can thus be asked is there more profound meaningfulness-and-
dialectical-thinking and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-as-to-preconverging-or-dementing –apriorising-psychologism respectively as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-incompleteness. In this regard we can imagine as of ‘the very same physics’ totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs —maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness—of-reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension—reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is rather
‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology^5^.<in-existential-extrication-as-of-existential-unthought>. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance.<including-virtue-as-ontology>; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of <amplituding/formative–epistemicity>totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance.<including-virtue-as-ontology>). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-
mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care—and—episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care—and—episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a
given ‘registry-worldview’s/dimension’s reference-of-thought <amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasia–
drag established existential–epistemic-totalisation-of–meaningfulness-and-teleology as well as
the ‘psychological comfort’ habituated at the given neuterising. But then every registry-
worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure–of–meaningfulness-and-teleology as of prospective notional–deprocrypticism
is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human
consciousness implications as implied by its protensive-consciousness which ultimately doesn’t
allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology
<in-existential-extrication-as-of-existential-unthought> arising as of human prior relative-
onological-incompleteness–of–reference-of-thought. The fact is the ontological-faith-notion-
or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality conflatedness
implication with respect to existence-potency~sublimating–nascence, disclosed-from-
prospective-epistemic-digression is such that in reality we are always tacitly aware of the
evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a
delusion of the results of prior nonpresencing-<perspective–ontological-
normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-
results/afterthought. But then veridical absolute certainty is ever a promise always held in
prospective existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-
digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so
as of the certainty of human limited-mentation-capacity prospective relative-ontological-
completeness~of-axiomatic-construct-or~reference-of-thought <amplituding/formative–

contiguity for transcendence-and-sublimity/sublimation/supererogatory—de-mentatitivity, implied as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional-deprocrypticism registry-worldviews/dimensions nonpresencing—<perspective—ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, and positivism—procrypticism—presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care—and—episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism—procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought, our positivism—procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior nonpresencing—<perspective—ontological-normalcy/postconvergence> even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity—shuffle—supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising as it fails to
constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insight translate the reality that ‘conventionaling and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness-of-reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-prime movers-totalitative-framework by existence-potency ~sublimating–nascence-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency ~sublimating–
nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as
of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation directed directly to inherent-existence-as-of-existential-reality/existence-
potency—sublimating-nascence,-disclosed-from-prospective-epistemic-digression as to
intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation as of human limited-mentation-capacity-deepening bringing about a more
profound and complete grounding for human construing of the full-potency of existence, which
remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to
humankind is human-subpotency development towards the abstract full-potency of existence-
whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation has nothing to do with the inherent
nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with
‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-
towards-singularisation’ of human limited-mentation-capacity which needs to be deepened
before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology’
that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually
lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that
the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less
objective than classical-mechanics—axiomatic-constructs since it involved the human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation that led to human limited-mentation-capacity-deepening. Quite the contrary,
it is that exercise in inducing prospective relative-ontological-completeness—of-axiomatic-
construct-or—reference-of-thought that brings about greater objectivity, as reflected in the
ontological-contiguity—of-the-human-institutionalisation-process behind Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence-(implicit-nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ’/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology.

This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as
underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance -<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’ -<including-virtue-as-ontology> as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is
about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies
nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-desublimation’)-as-so-operationalising–‘scalarisation-as-to-rescalarisation-as–re-ontologisation’. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the ‘modern take attitude/mental-disposition/care–and–episteme’ as of its procrypticism–or–disjointedness-as-of reference-of-thought, instead of implying the ontologically-veridical ‘subverting of the modern take’ by its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ which prospectively represents the modern as preconverging–or–dementing –apriorising-psychologism while the postmodern is postconverging–or–dialectical-thinking–apriorising-psychologism; as the point of assertion of postmodern-thought as deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought is actually a point of prospective de-mentation ⟨supererogatory–ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive-dialectics⟩. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of reference-of-thought
incompleteness reference-of-thought as when a critique of notional-
discontiguity/epistemic-discontiguity shallow-supererogation of-mentally-

and intellectual inequivalence given their anti-intellectual stances against postmodern-thought
preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to

Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework\(^7\)’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold\(^{103}\) cannot adjudge-and-commit to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework\(^7\)’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicus, Descartes, Galileo, Diderots, etc. as \(^{100}\)meaningfulness-and-teleology\(^{100}\) of prospective relative-ontological-completeness –of- reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold\(^{103}\) as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework\(^7\)’ is only more or less determinant as of the
institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-
thought-\textsuperscript{85} devolving’, however, this is an overrated notion with regards to human social-stake-
contention-or-confliction framework at its uninstitutionalised-threshold\textsuperscript{103} as external/prospective reference-of-thought– categorical-imperatives/axioms/registry-
teleology\textsuperscript{105},-for-aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-
and-teleology\textsuperscript{30} of its \textless amplituding/formative–epistemicity\textgreater totalising/circumscribing/delineating \textless reference-of-thought–\textsuperscript{87} devolving’, which should and cannot be ignored by any proponent of prospective de-
mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-
contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-prime
movers-totalitative-framework\textsuperscript{175}’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-
confliction framework validation but rather their derived positive-opportunism\textsuperscript{\textsuperscript{76}} that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such \textlangle re-originary–as-unenframed/unbeholding/outlier-conceptualisation–(imbued-
postconverging/dialectical-thinking\textsuperscript{23}–\textsuperscript{20} ‘projective-insights’/‘epistemic-projection-in-

In other words, human dimensionality-of-sublimating \textlangle amplituding/formative\textsuperscript{87} supererogatory–de-
mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sUBLImity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ postconverging–de-mentating/structuring/paradigming of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology—
as of successive prospective relative-ontological-completeness—reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness—reference-of-thought given its prior lack of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness—reference-of-thought supersedes the prior relative-ontological-incompleteness—reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft
suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance of any reference-of-thought categorial-imperatives/axioms/registry-teleology of for-aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology in terms—as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care—and—episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care—and—episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care—and—episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care—and—episteme. In this regard, attitude/mental-disposition/care—and—episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notional~conflatedness as implied by its ‘assumed-and-unflinching transversality~of-
affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} <amplituding/formative–epistemicity>totalising/circumscribing/delineating ‘reference-of-thought’ devolving’ in reflecting the ‘incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation-and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{107}–<as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’ for the given attitude/mental-disposition/care–and–episteme true \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} ontological-performance –<including-virtue-as-ontology>. Where beyond-the-consciousness-awareness-teleology\textsuperscript{109}–<in-existential-extrication-as-of-existential-unthought\textsuperscript{2}>, the new/prospective attitude/mental-disposition/care–and–episteme given its prospective relative-ontological-completeness of reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness of reference-of-thought, this induces constitutedness\textsuperscript{11} ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care–and–episteme’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ crossgenerational development, which is its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought is rather a notional–conflicatedness as of deneuterising protensive-consciousness. The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness of reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human existential-contextualising-contiguity’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of-reference-of-thought in many ways explaining the difficulties of Derrida and Foucault in effectively qualifying their thought postures (when each was asked whether they were poststructuralist) underlied/organised respectively by messianicite and parrhresia but rather postmodern-thought is of a prospective ‘relative-ontological-completeness re-originary–as-unenframed/unbeholdening/outlier-conceptualisation'(imbued-
attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocrly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care–and–episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care–and–episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care–and–episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologial-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care–and–episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the ‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocrly-and-scantily identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of
attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-worldview/dimension’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism—or–preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ construed as of deprocrypticism—or–preempting—disjointedness-as-of- reference-of-thought is thus in its potentiation the very summum for the ‘conception of human-subpotency existential scope’ implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In reflecting holographically-

it construes of that outcome as the absolute possibility of human existential emancipation
failing to factor in the positivism/rational-empiricism prior relative-ontological-
incompleteness—of—reference-of-thought, such that the latter is construed as not having its
own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a
human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-
threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental
outcome reasoning-from-results/afterthought predisposition as the complete basis for
construing humankind existential emancipation, ‘the modern take attitude/mental-
disposition/care—and—episteme’ adopts an ontologically-flawed ‘conception of human-
subpotency existential scope’ that is construed essentially as—of <amplituding/formative–
epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
untransvaluated—temporal-intemporality at its ontologically-veridical uninstitutionalised-
threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness—of—reference-of-thought. Thus, the
and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–
episteme’ very much inclined to aberrational/oddities conceptioning of such
temporality/shortness manifestations thus leading to their endemisation/enculturation from
‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take
attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically
disempowered to address issues of its temporality/shortness as of the vices-and-
impediments at its uninstitutionalised-threshold. So because its <amplituding/formative–

‘existentially invested’ in modern social-stake-contention-or-confliction framework of
meaningfulness-and-teleology as of procrypticism–or–disjointedness-as-of-reference-of-
thought from where it derives its value-construct and value-reference, as it hardly countenances
that prospective transcendental knowledge implied value-construct and value-reference is not
meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework
but rather redeploy an altogether empowering perspective of prospective relative-ontological-
completeness of reference-of-thought postmodern social-stake-contention-or-confliction
framework of meaningfulness-and-teleology of value-construct and value-reference at the
procrypticism uninstitutionalisation. Such prospective change as of de-mentation–

And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions–reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–reference-of-thought–categorical-imperatives/axioms/registry-teleology\footnote{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\footnote{100} reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate

But then with respect to the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, the question arises as to how it is possible for human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity to occur given its ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflicatedness-of-notional–deprocrypticism-prospective-sublimation) metaphoricity instigation’ in the face of any registry-worldview/dimension <amplituding/formative> wooden-
that no secondnatured institutionalisation grounding of meaningfulness-and-teleology exists for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The ontological-veracity of such an dimensionality-of-sublimating—supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation reasoning-through as of Derridian messianic reasoning can be grasp when we contemplate that in a secondnatured institutionalisation framework of deferential-formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don’t get involve in wooden-language—imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) exercise to resolve the technical problem. This outlook is actually ‘seeded’ within dimensionality-of-sublimating—supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is ‘appropriate prospective institutionalisation secondnaturings metaphoricity’. Consider in this regard, that the instigative matesis universalis metaphoricity by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as of its

Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme further inspired its subsequent radicalisation by latter thinkers;

wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the
very same physics <amplituding/formative–epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of ‘nonpresencing-
<perspective–ontological-normalcy/postconvergence>; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-relative-ontological-completeness/-by-reification'/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—‘notionally–collateralising-beholdening—
relative-ontological-completeness\textsuperscript{88} of\textsuperscript{84} reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied meaningfulness-and-teleology\textsuperscript{100}, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness\textsuperscript{11}' consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}. In both cases, the prospective institutionalisation attitude/mental-disposition/care—and—episteme is ontologically validated as of its prospective relative-ontological-completeness of reference-of-thought, divulging the vagueness and futility of the pretences

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <amplituding/formative-epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a dimensionality-of-sublimating—<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> inventing’ of the prospective notion of ‘thinking/postconverging-or-dialectical-thinking—apriorising-psychologism’ as positivism/rational-empiricism thinking or notional-deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care—
meaningfulness-and-teleology, and so as of human intemporal/ontological/social/species/universal/transcendental/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging—de-mentating/structuring/paradigm-ing. Reasoning-through/messianic-reasoning metaphoricity brings about the prospectively renewed reasoning-from-results/afterthought instigating the secondnaturing of prospective institutionalisation, and so as of implied reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of-de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) enabling its prospective relative-ontological-completeness.
Dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> articulation of reasoning-through/messianic-reasoning cannot be construed as amenable to the contending disposition of prior deferential-formalisation-transference secondnatured institutionalisation, thus the irrelevance/impertinence of any such implied contending as of prior reasoning-from-results/afterthought, as any such contention can only re-arise as of the reasoning-through/messianic-reasoning renewing of secondnatured prospective ‘reason-from-results’/afterthought. Thus the direct implication of reasoning-through/messianic-reasoning is that it can only call upon ‘a kindred sense of things’, as of dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> contemplation that can surpass/overcome temporal nihilistic <amplituding/formative> wooden-language{(imbued—averaging-of-thought—<as-to-

These induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity later on became prior reproducibility—mathesis/motif/thrownness-disposition—as–reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian generations as for instance with ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia—as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\(^7\) and so as of prospective projection as implied with the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^8\), but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of Buddhism as both being of grander originariness and ontological-good-faith/authenticity\(^9\). However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity ’> notion of philosophy, it is herein contended that this relatively deficient analysis reflects the fundamental ontological-deficiency of subsequent philosophies influenced by Kantian philosophy which is rather ‘as a projection within the very same intelligible Cartesian/budding-positivists induced rational-empiricism/positivism registry-worldview’s/dimension’s supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ’ failing to conceive of the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^8\) dimensionality-of-sublimating \(\langle\text{amplituding/formative}\rangle\) supererogatory–de-mentativeness/epistemic-growth-or-conflatedness\(^1\)/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equality as to

In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of
aestheticisation before converging towards ontologisation, just as rightfully implied by
Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively
implied with Nietzschean thought) since aestheticisation convergence towards ontologisation
leads to grander ontological-performance—including-virtue-as-ontology>. In this regards, we
can appreciate that while from our vantage modern perspective the ontological-veracity of the
Egyptian cultural system aestheticisation behind the construction of the pyramids will seem
inherently impertinent, but that specific human aestheticisation induced technical, scientific and
mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can
appreciate that while for the atheist the ontological-veracity of religion is unproven, however
various specific religions human aestheticisation in many ways relayed laterally the
ontological-veracity of universalising-idealisation thinkers as of the relatively conducive
social conditions allowing for the arrival of medieval thinkers who then instigated the
possibility for modern day science ontologisation; and besides, it can equally perfectly be
claimed that even our modern day positivistic civilisation is not beyond a critique of ‘deficient
ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern
activities (even those associated with technological development) held as of higher
interest/worth which ontologisation value is questionable with respect to other possible
activities of grander ontologisation but not necessarily held as of higher interest/worth (with the
very worst case being media-driven merchandising associated with a generalised dumbing-
down and de-intellectualisation increasingly and surreptitiously substituting for reifying
intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to \textit{amplituding/formative} wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications>)); pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological—<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s—sublimating–nascence> and the more salient point is in instigating their more profound ontologisation/ontological-veracity/aestheticisation-towards-ontology as of relative-ontological-incompleteness/relative-ontological-completeness—(sublimating–registering/registering/decisioning—as—self-becoming/self-conflatedness/formative–supererogating—<projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>)—\textit{amplituding/formative–epistemicity} causality—as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity. <unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> whether with the Ancient-sophists or medieval-scholasticism pedants. We can further
appreciate the critical impact of the\textsuperscript{100} universalising-idealisation\textsuperscript{5} meaningfulness-and-
teleology\textsuperscript{50} infrastructure of the Socratic-philosophers and their successors as providing the
appropriate\textsuperscript{50} meaningfulness-and-teleology\textsuperscript{50} infrastructure for the Roman Empire and
subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as \textsuperscript{45}<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,,-for-explicating-ontological-contiguity\textsuperscript{67} in reflecting holographically\textsuperscript{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} anamnesis as of difference-conflatedness\textsuperscript{1}-as-to-totalitative-reification\textsuperscript{67}–in-singularisation\textsuperscript{2}–as-veridical-epistemic-determinism\textsuperscript{21} underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification\textsuperscript{67} arising in the conceptualising of human value-construction as of a \textsuperscript{amplituding/formative} wooden-language\textsuperscript{⟨imbued—averaging-of-thought\textsuperscript{<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology\textsuperscript{19}–as-of–‘nondescript/ ignorable–void \textsuperscript{60}’–with-regards-to-prospective-apriorising-implications⟩)} in \textsuperscript{amplituding/formative–epistemicity}totalising~self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} as construing of value-construction within any given registry-worldview’s/dimension’s \textsuperscript{presencing—absolutising-identitive-constitutedness\textsuperscript{12}–of–<meaningfulness-and-teleology\textsuperscript{100} and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation),
preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrysticism) implications'. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-
construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however
an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic
society will rather be construed as of deficient value-construction as from a prospective
perspective of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–
implications,-for-explicating-ontological-contiguity comparison to the overall social and
virtue progress implications of a better accountable political system, while on the other hand
individuals effectively advocating for such a prospective political system may be construed as
of deficient value-construction in the prior autocracy), while modern day social–value-
construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent,
entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications
(but is just as well subject to transvaluation analysis as of <amplituding/formative–
epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-
contiguity), as it can perfectly be argued that the apparent magnanimity of plutocrats as of a
capitalistic economic value-distributive system ‘excessively skewed towards final
product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-
possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the
return to massive public externalities/external-resources contributions to economic production
such as public education, human and social development, infrastructure, basic research,
technological research, etc. rather speaks of deficient social–value-construction, especially as
such a system ‘priorly implied-and-justified inequity’ as of its occlusive <presencing—
absolutising-identitive-constitutedness is geared towards propping special interests, warfare
spending, anti-taxation, anti-immigration, trivial interest in global human development, co-
opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t
cancel the fact that individuals throughout sublimating <historiality/ontological-
eventfulness/ontological-aesthetic-tracing->perspective–ontological-
normalcy/postconvergence-reflected-'epistemicity-relativism’> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective ‘meaningfulness-and-teleology’ infrastructure transvaluation so-implied as of notional–deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of-reference-of-thought-appropriate foregrounding—entailment—(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity’),—as-operative-notional–deprocrypticism; and so as the disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’> of our rational-empiricism/positivism occlusivity in its <amplituding/formative>wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’—with-regards-to—prospective-apriorising-implications>) tend to rather reflect our <amplituding/formative—

The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocripticism–or–preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable–void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—<including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold-(uninstitutionalised-threshold)/presublimating–desublimating-decisionality)–of-ontological-performance--<including-virtue-as-ontology> dynamics of notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’). But then while such an abstract transvaluation perspective for
the construal of social–value-construction is cogently obvious, however the fact remains that
the human subject as of its limited-mentation-capacity exists in circumstances of human-
subpotency–aporia/undecidability/dilemma/ought-

mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation inducing its

critically of dimensionality-of-sublimating —<amplituding/formative> supererogatory–de-

successive human construction-of-the-Self as from based animality to trepidatious–self-
consciousness, warped–self-consciousness, preclusive–self-consciousness, occlusive–self-
consciousness and prospectively protensive–self-consciousness. Thus human limited-
mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of
transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as
of the specific social-setup\textsuperscript{10} universal-transparency\textsuperscript{10}–\langle transparency-of-totalising-entailing, as-to-entailing–\langle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-
completeness\rangle of supposedly coherent ontological-commitment\textsuperscript{10} with respect to social-stake-
contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-
justified inequity’ narrative(s) where such\textsuperscript{10} universal-transparency\textsuperscript{10}–\langle transparency-of-
totalising-entailing, as-to-entailing–\langle amplituding/formative–epistemicity\rangle totalising~in-relative-

epistemicity\rangle totalising~in-relative-ontological-completeness\rangle is unmuted rather infused with
‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus
the reality of prospective social–value-construction critically arises as of the intemporal

syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} of the prior registry-worldview/dimension
as reflected with its social value-construct dilemmas. Consider in this regards the implications
for an individual having to respond to an accusation of sorcery in a non-positivism social-setup
as the individual and the social-setup both effectively believe in superstition. Transvaluation
insight will point out that ontological-veracity as of \textsuperscript{4} foregrounding—entailment–
knowledge-reification of social–value-construction reflects the prospective human-
subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-
accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment pointing to the ontological-veracity of a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness ‘meaningfulness-and-teleology’. This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness ontologically-flawed preconverging–dementating/structuring/paradigming’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as–sublimating-withdrawal,-eliciting-of-prospective-supererogation as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’ so-reflected as of <amplituding/formative–epistemicity> totalisingly–preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its
supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness~apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, so-construed as ‘human-subpotency ontological-performance’~<including-virtue-as-ontology> within the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility~<imbued-and–’hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation>, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation dementatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at
reference-of-thought-level to rational-empiricism/positivism is de-
mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a
positivistic disease theory of bacteria and biological causation to be construed by such humans).
This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the
ontological-veracity of human <amplituding/formative–epistemicity>totalising–thrownness-in-
existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-

knowledge-reification and empowerment from such knowledge-reification within existence
as this defines human ontological-performance –<including-virtue-as-ontology> reflected as of
constructiveness-of-ontological-performance<including-virtue-as-ontology> and
destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-

the broader and more profound conception of human sovereignty and free-will as reflected by
human <amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather
grounded in the reality that all humans come into existence as of an overall framework of
living-development–as-to-personality-development, institutional-development–as-to-social-
function-development and Being-development/ontological-framework-expansion–as-to-depth-
of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within
which the notion of human sovereignty and free-will then arises in the very first place; such that
in many ways human sovereignty and free-will is collectively predicated to the social-setup
social-functioning-and-accordance as of its implied supposedly coherent ontological-
commitment. Thus, on this basis, the reality of human ontological-performance –<including-
normalcy/postconvergence-reflected-'epistemicity-relativism'> character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation~<as-to-perspective-ontological-normalcy/postconvergence-implied-
destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance -<including-virtue-as-ontology>, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment⁵⁶, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment⁵⁶ that gives the teleological orientation of human meaningfulness-and-teleology⁵⁰ in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity⁶⁰—of-the-human-institutionalisation-process⁶⁸, as it then exposes human meaningfulness-and-teleology⁵⁰ as of human limited-mentation-capacity-deepening⁶³ to the prospective constraint to be as supposedly coherent ontological-commitment⁶⁶ thus inducing the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity when its any given meaningfulness-and-teleology⁵⁰ is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening⁶³. Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness⁸⁸ as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity⁷⁷—of-the-human-institutionalisation-process⁶⁴ dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as to difference-conflatedness—as-to-totalitative-reification⁸⁷–insingularisation—as-veridical-epistemic-determinism¹ <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity⁷⁷ in reflecting both destructuring-threshold-(uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance⁷⁷—

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as $6 \text{ m/s}^2$ rather than the existence-potency –sublimating–nascence,-disclosed-from-prospective-epistemic-digression manifestation of $9.8 \text{ m/s}^2$ and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>. aestheticised-preconverging/dementing –qualia-schema> explaining the unintelligibility of the explanation of epiphenomena as contrasted crossgenerationally with various superstitious beliefs in the past compared with modern day science epiphenomenal explanations (for instance with the appraisal of ‘health epiphenomena of existence’ as of \textsuperscript{46}historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> ranging from perceptivity-as-of-bad-omen, perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period, perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-hermeneutically/reprojectively/supererogatingly/zeroingly:-socioeconomic,-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of ‘overall existence phenomenal appraisal of \textsuperscript{56}meaningfulness-and-teleology’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of \textsuperscript{57}meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the
natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproductibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating–nascence,—disclosed—from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence revealing the epistemic-impertinence of dispositions for ‘po-<amplituding/formative–epistemicity>totalising–thrownness-in-existence as wrongly implying human sovereignty and free-will supersedes existence-

We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’\(^9\) of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to manifest itself in determining ontological-primemovers-totalitative-framework\(^7\); and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity\(^9\) knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\)-<as-to-perspective-ontological-normalcy/postconvergence-implied-

‘prospective-aporeticism-overcoming/unovercoming’\(^3\)’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being dementatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-
fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy
frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness *(sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating<*projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications,—for-explicating-ontological-contiguity{67} in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-
institutionalisation-process; going by the phronesis/practicality as of our positivism–procrysticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–de-mentated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived
politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening – as to the ‘relative-ontological-incompleteness’ – as the ‘relative-ontological-completeness’ – (sublimating~referencing/registering/decisioning,–as-self-becoming/self-
mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness", reflecting a human-causative-construction conception in conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional-projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in constitutedness as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness/relative-ontological-completeness—(sublimating—referencing/registering/decisioning—as-self-becoming/self-conflatedness/formative–supererogating–projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence) as to human-and-social—expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism’ that effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—epistemicity-relativism; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity—
implies contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity\textsuperscript{19} implications of relative-ontological-incompleteness to relative-ontological-completeness\textsuperscript{20}. But then such pretence of “presencing—absolutising-identitive-constitutedness”\textsuperscript{1} veracity of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology\textsuperscript{100} infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity’ implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness\textsuperscript{19} and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness\textsuperscript{19} and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof
implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology\textsuperscript{(90)} (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity\textsuperscript{(19)} thus subject to analysis as of ‘relative-ontological-incompleteness\textsuperscript{(92)}/relative-ontological-completeness\textsuperscript{(92)}-(sublimating-referencing/registering/decisioning,-as-self-becoming/self-conflatedness\textsuperscript{(91)}/formative–supererogating-<projective/reprojective—aestheticising-re-motif–and-re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>\rangle as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming–psychologism’\textsuperscript{(90)} as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness\textsuperscript{(90)}. Consider in this regards for instance as of the “presencing—absolutising-identitive-constitutedness\textsuperscript{(93)} notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human
social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring<as-to-preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-

This points to the reality that human social vestedness normativity discretely implied functionalism implied contract political arrangement or political coercion given discrete social value construction argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic abnormalcy preconvergence with the possibility for true causality implications to be drawn in relative ontological completeness as of ontological primemovers totalitative framework construable de mentative structural paradigmatic implications of relative ontological completeness in superseding overcoming transcending human subpotency aporia undecidability dilemma ought indeterminacy deficiency limitation constraint of relative ontological incompleteness. The confusion here arises because of the habituation of any such human social vestedness normativity discretely implied functionalism implied contract political arrangement or political coercion given discrete social value construction which is then taken to be natural to the point of forgetting overlooking that it is underlied by apriorising axiomatising referencing power grabbing appropriating usurpatory arrogating implications to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing absolutising identitive constitutedness false sense of logical dueness as of relative ontological incompleteness relative ontological completeness (sublimating referencing registering decisioning as self becoming self conflatedness formative supererogating projective reprojective aestheticising re motif and re apriorising re axiomatising re referencing in perspective ontological

In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-
vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness\textsuperscript{88}, but rather as of the relative-ontological-completeness\textsuperscript{88} perspective supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-\textless;as-to-preconverging-or-dementing\textsuperscript{13}\textgreater; apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness\textsuperscript{88} analysis over the absolutising of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-
arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness and not subject to prospective ‘relative-ontological-incompleteness'/relative-ontological-completeness-

Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness ’ and this is the very legitimation for any intellectualism purporting knowledge-reification. Ultimately, the very possibility for prospective knowledge-reification as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound to be undermined, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued- ‘notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, in the interplay of human presencing—absolutising-identitive-constitutedness inclinations for vested postures and interests poorly appreciating ‘relative-ontological-incompleteness /relative-ontological-completeness - (sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating<-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—

The underlying point here is that there is no inherent meaningfulness-and-teleology\textsuperscript{100} but rather as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-pain intelligibility\textsuperscript{74}<imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—anda-priorising/re-axiomatising/re-referencing—conceptualisation>, that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{7}—of-the-human-institutionalisation-process\textsuperscript{9}, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-
failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology} as of ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications’) is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-
teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications＞ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnaturedness—temporal-to-intemporal-dispositions＜so-construed-as-from-perspective~ontological-normalcy/postconvergence＞–existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening＞). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity＜discretely-implied-functionalism＞ undermining of human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification＜/contemplative-distension＞ is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology＞), dementatively/structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-
transparency—is transparency-of-totalising-entailing,-as-to-entailing—amplituating/formative—epistemicity—totalising—in-relative-ontological-completeness—or-understanding-of-ontological-prime movers—totalitative-framework—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism—form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity—discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness—meaningfulness—teleology—capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided
material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology\textsuperscript{100} <-in-existential-extrication-as-of-existential-unthought\textsuperscript{6}) is predicated upon and drags along the shiftiness-of-the-Self\textsuperscript{92} as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness\textsuperscript{13} as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition\textsuperscript{9}), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{10}); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historicity/ontological-eventfulness\textsuperscript{47}/ontological-aesthetic-tracing<-perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> relevant to deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Such historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the

development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology\(^{100}\) as to the relation with human lopsided
material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooofness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness -of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now dem- 

such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional-projective-perspective of re-originariness/re-origination as implied with prospective depocrypticism—or—preempting—disjointedness-as-of—reference-of-thought.

Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness—of—
meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-ordinatoriness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises

This is very much in line with the idea that every registry-worldview/dimension certainly has a conceptualisation of the notion of progress but such a conceptualisation is naively grounded on its presencing—absolutising-identitive-constitutedness (as it engages in the complexification of meaningfulness-and-teleology on the basis of its very same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument it construes/reproduces as absolute) and fails to appreciate that it is rather by putting in question its supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of the apriorising/axiomatising/referencing—psychologism that it then aligns to existence-potency—sublimating—nascence,—disclosed-from-prospective—epistemic—digression; and so because the initiation by human limited-mentation-capacity of the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—

The consequence of ignoring/blanking-out the
(notional-discontiguity/epistemic-discontiguity -<shallow-supererogation/of-mentally-aestheticised-preconverging/dementing –qualia-schema>) from the projected universalising-idealisation/rational-empiricism implications. This reality is equally applicable to our state of positivism-procrypticism as to a disinclination to perceive its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity -<shallow-supererogation/of-mentally-aestheticised-preconverging/dementing–qualia-schema>) as projected from prospective deprocrypticism—preempting—disjointedness-as-of-reference-of-thought. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing—psychologism to project of the <amplituding/formative—epistemicity>causality—as-to-projective-totalititative—implications,—for-explicating-ontological-contiguity of prospective base-institutionalisation—ununiversalisation, just as the latter with prospective universalisation—non-positivism/middle-alism, likewise the latter with prospective positivism—procrypticism, and likewise our positivism—procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of dimensionality-of-desublimating-lack-of—<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity -<shallow-supererogation/of-mentally-aestheticised-preconverging/dementing–qualia-schema>); as reflected in the fact that the supposed intellection of the non-universalising sophists, the medieval-scholastics and our
normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought), which articulation and constructive addressing should actually be the very conceptualisation of intellection. In this regards, we can appreciate that the Socratic-philosophers and budding-positivists actually addressed and resolved the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency/sublimating–nascence–disclosed-from-prospective-epistemic-digression) undermining their respective gimmickiness-of-thought (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective) associated with sophists and medieval-scholastics then respectively defining the ‘thought/intellectual Establishment’, and that the possibility for such sublimating intellectualism as to its crude and unsavoury social discomfort implications is hardly a question of eliciting human temporality/shortness as of moral and intellectual disenfranchisement/swindling/corruption/dispossession. In the bigger scheme of things dimensionality-of-sublimating—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> warrants that the prospective projection of any human meaningfulness-and-teleology as transcendent-al-enabling/sublimating/supererogatory–de-mentativity should be articulated in such a way as to imply that all human meaningfulness-and-teleology should assume the
same disposition as to the possibility of enabling the sublimation in reflecting holographically-\textless conjugatively-and-transfusively\textgreater{} the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}; such that ‘supposed reifying’ \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective effectively comes out as epistemically-decadent and in ontological-bad-faith/inauthenticity\textsuperscript{64}, as to the fact that in the face of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, if no human minds projected not of nonextricatory-existential-preempting-of-existential-unthought (eliciting the possibility for the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}) but rather existential-extrication-as-of-existential-unthought (undermining the possibility for the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}) in recurrent-utter-uninstitutionalisation, in base-institutionalisation–ununiversalisation, in \textsuperscript{104}universalisation–non-positivism/medievalism and prospectively in our positivism–procrypticism, then the de-mentative/structural/paradigmatic possibilities in reflecting holographically-\textless conjugatively-and-transfusively\textgreater{} the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} wouldn’t be possibile. Such \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective as to dimensionality-of-desublimating-lack-of—\textless amplituding/formative\textgreater{} supererogatory—de-mentativeness/epistemic-growth-or-conflatedness\textsuperscript{12}/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\textgreater{} rather speaks of a parasitising conception of intellection that warrants that by some miracle the possibility of human sublimation induced as of dispensing-with-immediacy-for-relative-ontological-completeness \textsuperscript{88} by-reification \textsuperscript{87}/contemplative-distension \textsuperscript{26} should arise, for that sublimation to be then parasitised with gimmickiness-of-thought as to social-stake-contention-or-confliction eliciting of human temporality\textsuperscript{99}/shortness

<discretely-implied-functionalism> <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiac-drag that naively think that being at the backend in reflecting holographically-⟨conjugatively-and-transfusively⟩ the ontological-contiguity—of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with overall existence beholden frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the
overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation<-unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-over-desublimating implications of existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence de-mentative/structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} induced constraining knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-

Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility–<imbued-and-

Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human

Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative-or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of ‘relative-ontological-incompleteness’/relative-ontological-completeness ⟨sublimating–referencing/registering/decisioning,—as-self-becoming/self-conflatedness⟩/formative–supererogating–⟨projective/reprojective—

More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological—
normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening\(^53\) as of relative-ontological-incompleteness\(^89\) to ‘relative-ontological-incompleteness /relative-ontological-completeness - (sublimating~referencing/registering/decisioning,-as-self-becoming/self-conflatedness\(^50\)/formative–supererogating-<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>) as to human-and-social–expectations/anticipations—metaphoricity –as-rede-mentating/restructuring/reparadigming—psychologism’\(^90\) as to \(<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity >\). In another respect, given the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension involved in true human consciousness sublimation, dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism, as ‘the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ that brings about sublimation needs to be construed as to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism elicits parallel competing meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation>) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension inducing sublimation as of the secondnaturing

In many ways the underpinning–suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism’ inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating——<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications; as in reality the fact is any underpinning–suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with dimensionality-of-sublimating——<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning–suprasocial-construct framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is our modern day presencing—absolutising-identitive-constitutedness politically clouded historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition underpinning–suprasocial-construct environment the contemplative beholder of the panacea for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity potential; as so reflected in their ever always hardly-adaptable/inflexible reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation frameworks of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition. This in many ways explains why ultimate responsibility lies with the abstract individual as to the requisite human dispensing-with-immediacy-for-relative-ontological-completeness —by-

Ultimately, the notional–deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming dimensionality-of-desublimating-lack-of — <amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemic/anamnestic-residuality/spirit-drivenness–equalisation> effectively projects the possibility of boundless human aestheticisation—and–aestheticisation-towards-ontology well beyond our present contemplation of what is implied by ‘meaningfulness-and-teleology\(^{10}\), as in many ways the reality of our past and present aestheticisation—and–aestheticisation-towards-ontology as ‘meaningfulness-and-teleology\(^{10}\) has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination–as-to–historicity-tracing—inhhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination–as-to–historiality/ontological-eventfulness’ /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-
relativism’—disinhibited-mental-aestheticising as of originalness-parrhesia—as-spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity of-the-human-institutionalisation-process possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating—<amplituding-formative>supererogatory—dementativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> capacity ‘to project in disseminative—sublimating-selectivity-of-ontological-good-faith/authenticity—over—desublimating-deselectivity-of-ontological-bad-faith/inauthenticity’ (as to the underlying human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance’—<including-virtue-as-ontology>equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity). It is important to grasp here that such a construal of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought highlighting the prospective implications in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—<imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly—educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation> (as to underlying human construction-of-the-Self) is not ‘a metaphysical/ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were
involved in any ‘metaphysical/ideological advocacy’, but rather just as modern day science such a conception speaks to ‘the inherent ontological implications as to human knowledge-reification’ and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentiative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). It speaks to a metaphoricity/potentiation imbued in humankind defined by ‘human lack-of-capacity/capacity for dispensing—

In this regards, human growth (with regards to human living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—is ever always about ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’. Insightfully, the ontological-contiguity—of-the-human-institutionalisation-process—is a reflection of the fact that any given defining human contemplative moment (given registry-worldview/dimension) is marked by the ‘disseminative ontological selectivity/deselectivity play’ of ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its \textit{amplituding/formative\textendash}epistemicity\textsuperscript{totalising\textendash}self-referencing-syncretising/circularity/interiorising/akrasiatic-drag for \textit{amplituding/formative}\ wooden-language-(imbued—averaging-of-thought<(as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology\textsuperscript{as-of\textendash}nondescript/ignorable\textendash}void\textsuperscript{with-regards-to-prospective-apriorising-implications}) as to prospective social-stake-contention-or-confliction) and ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (reflecting its \textit{amplituding/formative}\ wooden-language-(imbued—temporal\textendash}mere-form/virtualities/dereification\textsuperscript{akrasiatic-drag/denatured/preconverging-or-dementing\textsuperscript{narratives—of-the\textendash}reference-of-thought\textsuperscript{categorical-imperatives/axioms/registry-teleology\textsuperscript{}}), so-reflected as to ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’; and so contrastively as of human underlying dimensionality-of-sublimating—\textit{amplituding/formative}\ supererogatory-de-

This reflects the reality that the transcendental meaningfulness-and-teleology of prospective

implied tight-and-entwined relationship between the overall human ontological-commitment
(across all registry-worldviews/dimensions) and (corresponding registry-
worldviews/dimensions) predicative-effectivity–sublimation-(as-to-underlying-ontological-
commitment) as critically enabling prospective sublimation. In effect, such a controversy of
ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an
underlying ‘scientific—apriorising/axiomatising/referencing–psychologism
enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-
(as-to-underlying-ontological-commitment’) induced by budding-positivists and associated
with their persecution), and further because of the very high predicative-effectivity–
sublimation-(as-to-underlying-ontological-commitment) associated with the physical sciences
and as generally reflected by the social-stake-contention-or-confliction disinterested natured of
‘much of the basic/fundamental and natural sciences’. However, the case with psychological,
social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment’) with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification’s issues as to prospective sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>_ is either indirectly or directly undermined with social-vestedness/normativity-<discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with _amplituding/formative_ wooden-language-(imbued—temporal—mere-form/virtualities/dereification“/akrasiatic-drag/denatured/preconverging-or-dementing“–narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology“)) over existence-potency“–sublimating—nascence,—disclosed-from-prospective-epistemic-digression. This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s ‘foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation” in reflecting ‘immanent-ontological-contiguity’—as-operative-notional—deprocrypticism imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s ‘foregrounding—entailment—{postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’ in reflecting ‘immanent-ontological-contiguity’)—as-operative-notional—deprocrypticism’; and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest—subpotencies—<in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence>) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies—<in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence>’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated contention that the human ‘supposedly has no profound sublimating social and socio-psychological phenomenal/manifest—subpotencies—<in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence>’ with the ‘supposedly profound phenomenal/manifest—subpotencies—<in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence>’ construed rather in reductionist terms of biology/neurology or physicalism) as is often also associated with social-vestedness/normativity—<discretely-implied-functionalism> disparateness-of-conceptualisation—<unforegrounding—disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’>; thus ‘actually denying the metaphysical nature and thus ontological nature of the sublimating social and socio-psychological’ such that existence-potency ~sublimating—nascence,—disclosed-from-
prospective-epistemic-digression sublimation implications with regards to the social and socio-psychological are hardly contemplated and recognised as so-projected herein as to the ontological-contiguity—of-the-human-institutionalisation-process. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> to then ‘utilise the clout to falsely imply substitutive/reductionist sublimation over the social and socio-psychological phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence>’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating necessitation frame—of—ontological-contiguity ’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative—epistemicity>totalising/circumscribing/delineating necessitation frame—of—ontological-contiguity ’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbibed ‘foregrounding—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation in reflecting ‘immanent-ontological-contiguity ’),—as-operative-notional—deprocrypticism of their respective inherent sublimating phenomenal/manifest-subpotencies—in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence> wherein for instance with the physics frame—of—ontological-contiguity successions of theories are developed aspiring cogently for ontological-contiguity of the whole physics epistemic-
conception phenomenal/manifest-subpotency-in-transitive-conflatedness-reflexivity-in-the-full-potency-of-existence’s-sublimating-nascence> as from say Galilean/Cartesian/Newtonian/Leibnizian physics to present day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity\(^7\)). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly-disentailing—discretion/whim-of-thought (if truly of science/ontology as to ‘<amplituding-formative-epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\(^6\)’) but should rather go on to effectively explain away the entire social and socio-psychological phenomenal/manifest-subpotencies-in-transitive-conflatedness-reflexivity-in-the-full-potency-of-existence’s-sublimating-nascence> as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–of–meaningfulness-and-teleology\(^6\), and so comprehensively articulating human organisational and institutional driven/potent sociocultural, economic, political, legal, etc. manifestations on such biological/neurological and evolutionary substitutive/reductionist basis of supposed sublimation as to their ‘<amplituding-formative-epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity\(^8\)’ foregrounding—entailment–(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\) in reflecting ‘immanent-ontological-contiguity\(^6\)’,–as-operative-notional–deprocripticism in elucidating ontological-contiguity\(^7\)<\as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>’. The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is
contiguity’) in effect wrongly implies a dialogical-equivalence ‘nature versus nurture debate’
innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘<amplituding-formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences).

Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, and thus in many ways further undermine/distract-from the social ‘<amplituding-formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-
construction’ with the former construing of ‘knowledge as to existential knowledge-reification’ privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their “presencing—absolutising-identitive-constitutedness” as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drageven as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring).
In other words, the ‘effective equilibration of human sublimating \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions \textsuperscript{8} presencing—absolutising-identitive-constitutedness\textsuperscript{19} as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\textsuperscript{100} of the ontological-performance \textsuperscript{102} of human notion–firstnaturedness—temporal-to-intemporal-dispositions\textsuperscript{100} narratives’: and so as to human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency\textsuperscript{72}—sublimating–nascence,—disclosed-from-prospective-epistemic-digression (in reflecting holographically–conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68}), of human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as to the disseminative—sublimating-selectivity-of-ontological-good-faith/authenticity —over— desublimating-deselectivity-of-ontological-bad-faith/inauthenticity’, as the driver of the human-subpotency potentiating existential becoming manifestation of sublimating-over-desublimating social-and-institutional-constructs–of– meaningfulness-and-teleology\textsuperscript{100}—incumulation/recomposuring all along in reflecting holographically–conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68}; as it dynamically induces (as of ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming–frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of– meaningfulness-and-teleology\textsuperscript{100} of prospective human-subpotency–aporia/undecidability/dilemma/ought-
mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast, the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity←(discretely-implied-functionalism) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency←(sublimating–nascence, disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation←(unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity ’), and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—(in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing, as-to-entailing←(amplituding/formative–epistemicity)totalising→in-relative-ontological-completeness}) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency←(sublimating–nascence,
disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming) to sophistic/pedantic wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging—dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) eliciting of wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications), it is important to articulate such prospective sublimating meaningfulness-and-teleology while equally reflecting upon the sophistic/pedantic to its dimensionality-of-desublimating-lack-of—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> ontological-bad-faith/inauthenticity—preconverging—de-mentating/structuring/paradigming as part and parcel of the prospective sublimating meaningfulness-and-teleology, and not wrongly imply the desublimation is in apriorising-teleological-elevation-in-ontological-contiguity as to the transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity attitude/mental-disposition/care—and—episteme’ (in this case reflecting sophistic/pedantic procrypticism—or—disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic-philosophers and budding-positivists it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and notional—deprocrypticism the effective ‘world that exists to the majority people (as of ‘human notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> accordioning—(as-of-varying-individuations-contextually-transverse-desublimation/sublimation,—as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance<including-virtue-as-ontology>) at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicality/ontological-eventfulness /ontological-aesthetic-tracing<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of-reference-of-thought to go on cynically eliciting wooden-language<imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications> as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen
within-or-without such epochal Establishment intellection by the prompting of their ‘social 
underlying sublimating intellection proficiency’ which contemplative consciousness is not to be 
underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the 
possibility of prospective value-construction and pretence of projecting more profound value is 
indissociable from the capacity of producing the relative-ontological-completeness knowledge 
that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior 
recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and 
procrypticism—or—disjointedness-as-of—reference-of-thought respectively are intellectually-
and-morally wanting with respect to prospective base-institutionalisation, universalisation, 
positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—
reference-of-thought value-construction respectively; pretences of profound intellection as to 
the former are nothing but sophistic/pedantic exploitations of human limited-mentation-
capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital 
importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-
completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-
veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional—projective-
perspective) as to an epistemically-decadent <amplituading/formative> wooden-language-
(imbued—temporal—mere-form/virtualities/dereification'/akrasiatic-
drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—
categorical-imperatives/axioms/registry-teleology); and so as to the fact that the 
magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness -by-
reification'/contemplative-distension out of concern about human prospective Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdons’ is nothing more tha <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag . Hence basically the overall
differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology. This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutednessyps <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholdening=<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the POSSIBILITY-FOR-THE-LATER-ONTологISATION>’ is reflected with regards to its prospectively implied epistemic-abnormalcy/preconvergence construed as of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation epistemic-projection perspective. Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-
subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation thus speak to the fact that human prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied limited-mentation-capacity-deepening as to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness-by-reification’/contemplative-distension imbued prospectively of both sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace and desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition; as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ prospective desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance—including-virtue-as-ontology (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of
perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness -by-reification’/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness ) underlying the overall existential dimensionality-of-sublimating —<amplituding/formative> supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> as the inherent ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming effectively reflected as of notional~deprocrypticism. notional~deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance~<including-virtue-as-ontology> as to sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the
desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness. Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance—with regards to human meaningfulness-and-teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-deepening in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity—discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation—{as-to-underlying-ontological-commitment} is strongly prone to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation—{as-to-underlying-ontological-commitment} is rather relatively amenable to sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-
normalcy/postconvergence-reflected-‘epistemicity-relativism’ as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’ analysis very much point out that the social-construct is riddled with narratives of ‘supposedly veridical ontological justifications/grounds’ but which on closer examination as of ‘purist science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s–sublimating–nascence>; and so as to the relative impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs

always the emphasis on the fact that knowledge-reification is fundamentally about
sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment\textsuperscript{66} (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation–\{as-to-underlying-ontological-commitment\} as critically enabling prospective sublimation’ so-implied as to existence-potency\textsuperscript{10}–sublimating–nascence,–disclosed-from-prospective-epistemic-digression. The strategic problem faced by the Ancient-sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology\textsuperscript{100}–\{in-existential-extrication-as-of-existential-unthought\}) is how to exploit the fact that there is no ‘\textsuperscript{10}universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–\{as-to-underlying-ontological-commitment\}’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–\{as-to-underlying-ontological-commitment\}’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic-philosophers\textsuperscript{104} universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} by eliciting presencing—absolutising-identitive-constitutedness\textsuperscript{13} sensibility/decorum as of non-universalising Ancient-sophistry and non-positivism medieval-scholasticism\textsuperscript{57} meaningfulness-and-teleology\textsuperscript{100} respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-
identitive-constitutedness\textsuperscript{12} \text<amplituding/formative–epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their ‘presencing—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness-(as-to-‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment’) (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13} sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-
reification\textsuperscript{\textsuperscript{12}}. But then the Ancient-sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presenting—absolutising-identitive-constitutedness\textsuperscript{13} sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency\textsuperscript{12}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression allowing for prospective Socratic-philosophers\textsuperscript{10} universalising-idealisation and budding-positivism as to their respectively induced ‘universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ and ‘positivism/rational-empricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ constraining in the face of ‘human notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> accordioning—(as-of-varying-individuations-contextually-transverse—desublimation/sublimation,—as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance—<including-virtue-as-ontology>) at uninstitutionalised-threshold\textsuperscript{13} as reflecting both desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness\textsuperscript{12}/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> possibilities’. The strategic reflex of assuming a ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13} sensibility/decorum preemptively ‘shuts-off the possibilities of relative-ontological-completeness interpretations’ and arbitrarily defines ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement—or-political-coercion/given-discrete-social—value-construction’ as
imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction; such that effectively the social is interpreted (as of surreptitious disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>) as non-ontological thus implying not it is subject to analyses as of social and socio-psychological phenomenal/manifest-subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence’s—sublimating—nascence>]. But then human sublimation in existence effectively speaks of the notional—symmetrisation—<as-to-symmetrisation-by-desymmetrisation—in-reflecting-postconverging-or-dialectical-thinking —by—preconverging-or-dementing - perspectives-of-human—meaningfulness-and-teleology> underlying human ontological-performance—<including-virtue-as-ontology> as to the ontological-contiguity—of-the-human-institutionalisation-process succession of registry-worldviews/dimensions, and such a presencing—absolutising-identitive-constitutedness sensibility/decorum strategy as to its implicated denial of such an ontological-contiguity—of-the-human-institutionalisation-process of human ontological-performance—<including-virtue-as-ontology> underlined by human historiality/ontological-eventfulness—ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>, effectively reveals its non-scientific nature notwithstanding the confusion of vague academicism proceduralism with true sublimating science/ontology. All the knowledge-reification that effectively can be is of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation having to do with human limited-mentation-capacity-deepening as enabling human-subpotency epistemic-projection towards the full-potency of existence so-construed as intemporality, and not a presencing—absolutising-identitive-constitutedness human-subpotency epistemic-projection in <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag so-construed as temporality. But then the
inclination to assume an ontologically-flawed sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy is ever always associated across all registry-worldviews/dimensions with blurriness of meaningfulness-and-teleology as to rather unconstrained to predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) as to lack of ‘relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’. Consider in this regards, the de-mentative/structural/paradigmatic possibility of such an abstract human sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy exercise with regards to say Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs if there was ‘no positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’ (as produced by the efforts of budding-positivists even as during their own epoch this was contested by their Establishment) that allowed for sublimating scientific thought to be integrated or rejected by its mere predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) (as to the ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment)’), then there is nothing inherently telling that the latter physics Establishment will have just acknowledged such a theoretical construct as to its then human sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum perceived social-stake-contention-or-confliction (as to the reality of ‘human notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accordinging-(as-of-varying-

This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional~deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human ~reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human ~reference-of-thought (as grandest
axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as so-induced by notional~asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews(dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturaeting institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold’ and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) which rather requires instigative notional~asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturaeting of positivism/rational-empiricism was the notional~asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not,
constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic-as-to—transversality-of-affirmative-and-unaffectative—disambiguated—'motif-and-apriorising/axiomatising/referencing' is in transversality-of-affirmative-and-unaffectative—disambiguated—'motif-and-apriorising/axiomatising/referencing' with the relative-ontological-incompleteness logical-basis/logic-as-to—transversality-of-affirmative-and-unaffectative—disambiguated—'motif-and-apriorising/axiomatising/referencing', it is only the sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming’ existential-condescension—<of-apriorising/axiomatising/referencing—psychologism> as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming’ existential-condescension—<of-apriorising/axiomatising/referencing—psychologism> but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In this respect with regards to human living-development—as-to-personality-development and
institutional-development—as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing—qualia-schema of ‘the God of plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension<of-
apriorising/axiomatising/referencing–psychologism’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing\textsuperscript{19}–qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} going by its \textsuperscript{8}presencing—absolutising-identitive-constitutedness\textsuperscript{7} just as we will be disinclined to contemplate about the more veridical preconverging/dementing\textsuperscript{19}–qualia-schema of our \textsuperscript{8}procrypticism–or–disjointedness-as-of–reference-of-thought uninstitutionalised-threshold\textsuperscript{03} as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{19}). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold\textsuperscript{03} speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity\textsuperscript{3}–shallow-supererogation\textsuperscript{7}–of-mentally-aestheticised–preconverging/dementing –qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness\textsuperscript{2}’—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment\textsuperscript{7})’ imbued ‘foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} in reflecting ‘immanent-ontological-contiguity’\textsuperscript{67},–as-operative-notional–deprocrypticism that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity\textsuperscript{9}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70} existential-condescension–of-apriorising/axiomatising/referencing–psychologism’ as to prospective living-development–as-to-personality-development and institutional-development–as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and \textsuperscript{88}universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the
scholastic-medievalism underpinning–suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning–suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and universalising-idealisation can only be established as of their respectively requisite ‘ontological-good-faith/authenticity’ existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ and naïve present day presencing—absolutising-identitive-constitutedness interpretations in terms of the supposed arrogance of the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of—<amplituding/formative>supererogatory–mentativeness/epistemic-growth-or-confledatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> (as to the failure to appreciate that the surpassing of human-subpotency aporeticism is all about originariness-parrhesia,–as–spontaneity-of-aestheticisation supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation that only arises as of ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring–<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism>’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring–<as-to-preconverging-or-dementing–apriorising-psychologism>’). Indeed, as to when such ‘relative-ontological-completeness — apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment ‘)’
is institutionalised say with modern day positivism/rational-empiricism the requisite ‘ontological-good-faith/authenticity’ existential-condescension-apriorising/axiomatising/referencing–psychologism’ of modern day scientific breakthroughs sublimation projected knowledge hardly put into question. Likewise, this insight about the requisite ‘ontological-good-faith/authenticity’ existential-condescension-apriorising/axiomatising/referencing–psychologism’ for organic-knowledge needs to be explicited with regards to the blurriness of meaningfulness-and-teleology associated with today’s institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness) with cynical, ridiculous and paradoxical pretenses of humility and sensibility/decorum that by that token (not unlike Ancient-sophistry and medieval-scholasticism) go on to induce ‘existentially invalid condescension’ as to their veridical desublimating presencing–absolutising-identitive-constitutedness amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of ontological-bad-faith/inauthenticity~preconverging–dementating/structuring/paradigming. The fact is where such pretenses are nowhere found in the terrain of knowledge-reification but rather surreptitious enterprises of amplituding/formative>wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of–nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications)> this signals their emperor has no clothes moment. In this regards, as to ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuring-instrument-validating-measuring-as-to-postconverging-or-dialectical-thinking–apriorising-psychologism’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-
invalidating-logicising/unsuitable-measuring-instrument-invalidating-measuring-<as-to-preconverging-or-dementing-apriorising-psychologism>, the requisite ‘ontological-good-faith/authenticity existential-condescension-of-apriorising/axiomatising/referencing-psychologism’ for organic-knowledge ‘speaks to an intellectual-and-moral responsibility associated with knowledge as of the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for its elucidation and appropriate secondnatured institutionalisation that is not dissociated from the very construction-of-the-Self’, and knowledge cannot thus be construed as ‘a minor and side thing of mere influencing and stature’ that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-of-ten implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—nondescript/ignorable–void—with-regards-to-prospective-apriorising-implications hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development the ordinariness of meaninglessness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as to a disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect—immanent-ontological-contiguity> which pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation thrives on this lack of universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—
methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence-{implicated-‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness’}; and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence- and-sublimity/sublimation/supererogatory–de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The genuine social intellectual–function/posture means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness existentialising—
enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) actually tend to be skewed towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought positive-opportunism of living-development—as-to-personality-development and institutional-development—as-to-social-function-development) over ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (with regards to its supererogation -profundity–postconverging–de-mentating/structuring/paradigming requisite dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology), and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the overall underpinning–suprasocial-construct tends to be abstractly preconvergingly–de-mentated/structured/paradigmed to skew towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as for instance professional choices and callings made well beyond just a question of their remunerative or supposed incidental social prestige worth). Part and parcel of the genuine social intellectual–function/posture is to undermine this skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ (as to the beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought positive-opportunism of living-development—as-to-personality-development and institutional-development—as-to-social-function-development) and reconstrue human-subpotency
aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness; ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed
as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-threshold of registry-worldviews/dimensions). The fact is ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as underlying ‘presencing—absolutising-identitive-constitutedness’ end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness—as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) of social-vestedness/normativity—<discretely-implied-functionalism> and social-stake-contention-or-confliction. It is the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ (so-reflected in human historicality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite de-mentative/structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ disposition of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—

apriorising/axiomatising/referencing–psychologism’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> with regards to human formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of-meaningfulness-and-teleology. Thus it is only the possibility of ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ that can thus allow human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance-<including-virtue-as-ontology> cannot be neutrally be separated from human <amplituding/formative–epistemicity>totalising–thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance-<including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in 00 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming existential-condescension-<of-
apriorising/axiomatising/referencing—psychologism>’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance’-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising~thrownness-in-existence’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicit-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorily of existential-discursivity—implicit-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing—apriorising-psychologism and not postconverging-or-dialectical-thinking—apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicit-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating —
supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> takes precedence in defining human intellectual-and-moral ontological-performance^{71}-<including-virtue-as-ontology> and so as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation^{71}. This <amplituding/formative–epistemicity>totalising~thrownness-in-existence^{34} implied existential-discursivity—implicitly-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity^{69}~postconverging–de-mentating/structuring/paradigmning^{70} existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness-<metaphoricity^{57}-disposition—as-to-psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-teleology^{100} veridically arises. Thus existential-discursivity—implicitly-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance^{77}-<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising~thrownness-in-existence^{34}’’. This insight puts into perspective our presencing—absolutising-identitive-constitutedness conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccessful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur
breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness\(^{18}\) aetiologisation/ontological-escalation posturing) without factoring in that ‘the social-setup’s relative-ontological-incompleteness\(^{19}\) specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given \(<\text{amplituding/formative–epistemicity}>\text{totalising–thrownness-in-existence}\>\) is not of neutrally/objectively sound ontological-performance \(<\text{including-virtue-as-ontology}>\); as to the fact that for instance the incidence of modern day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our \(<\text{amplituding/formative–epistemicity}>\text{totalising–thrownness-in-existence}\>\) and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness\(^{20}\) as to overall existential dimensionality-of-sublimating — \(<\text{amplituding/formative}>\text{supererogatory–de-mentativeness/epistemic-growth-or-conflatedness}>\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}>\). Besides such a more stark elucidation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{21}\), existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity\(^{22}\)–postconverging–de-mentating/structuring/paradigming\(^{23}\) existential-condescension\(<\text{of-apriorising/axiomatising/referencing–psychologism}>\)’, thus points to the primacy of ‘the very \(<\text{amplituding/formative–epistemicity}>\text{totalising–thrownness-in-existence}\>\) of human

sublimation in existence (caught up in any given “presencing—absolutising-identitive-
constitutedness” self-justification of uncertainty of prospective human sublimation), the
comprehensive coherence of human sublimation in existence as to existence—as-sublimating-

consistent (and this can only be fully appreciated from an ontologically sound conception of

-as-veridical-epistemic-determinism as to relative-ontological-completeness as to totalitative-reification

entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity
—of-the-human-institutionalisation-process. This is so fundamentally because of
human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological

across the successive registry-worldviews/dimensions right up to the originariness/origination—

performance of overall prospective sublimation. Human sublimation as such in reflecting holographically the ontological-contiguity of the human institutionalisation-process is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall postconverging–dementating/structuring/paradigmimg of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘inmaterial/social overall relative-ontological-incompleteness –presublimation-construct–of–meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations–blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness–presublimation-construct–of–meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival
relationship with nature (say for instance having technically more efficient guns with

gunpowder didn’t imply just killing animals at whim or along the same lines explaining his
anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation
as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking
– apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc.
just as well implicitly recognised this discrepancy of prospective material and technical

enabling positivistic science as we know it today to arise. This very insight explains ‘the

humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that
the positive-opportunism driving the secondnatured institutionalisation of human sublimation
induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{\textsuperscript{1}}-by-reification\textsuperscript{\textsuperscript{2}}/contemplative-distension\textsuperscript{\textsuperscript{3}} immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with \textsuperscript{3}meaningfulness-and-teleology\textsuperscript{\textsuperscript{4}}’ of our positivism–procrypticism, for instance as associated with an ‘underlying dumbing-down public intellecition and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual–function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of notional–deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social overall relative-ontological-incompleteness\textsuperscript{\textsuperscript{5}}—presublimation-construct—of—\textsuperscript{\textsuperscript{5}}meaningfulness-and-teleology\textsuperscript{\textsuperscript{6}}; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social overall relative-ontological-incompleteness\textsuperscript{\textsuperscript{7}}—presublimation-construct—of—\textsuperscript{\textsuperscript{7}}meaningfulness-and-teleology\textsuperscript{\textsuperscript{8}} instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness — reference-of-thought—devolving>’ that goes on as of presencing—absolutising-identitive-constitutedness\textsuperscript{\textsuperscript{9}} to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of

charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than a political process meant to serve them as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining with the consequence that substance is increasingly overwhelmed by a political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual conception-and-projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence as so-plainly exposed by the fact that long-term consequences of public policies recurrently ‘default for dominance/vested-interest actors’). Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve “presencing—absolutising-identitive-constitutedness” epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to the aestheticisation—and—aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process so-reflected from such science-ideology poor appreciation of the implications of the historiality/ontological-eventfulness/ontological-aesthetic-tracing-reflected—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’ rendering the scientific

In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness\textsuperscript{8} registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest-subpotency-in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence’s-sublimating-nascence (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’. The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to—historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition)’ over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)’ increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> rather speaks to deficient knowledge-reification—gesturing caught up in ‘presencing—absolutising-identitive-constitutedness’ as of beholdening-becoming—distortive-originariness/distortive-origination—as-to– historicity-tracing~inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual
practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-{as-to-underlying-ontological-commitment\} to usher in the possibility of their very own seconddnatured institutionalisation unclouded knowledge-reification\—gesturing, the ultimate possibility for our positivism–procrypticism overcoming its pedantising/muddling/formulaic-hollowing-out—incubotologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing—\<amplituding/formative–epistemicity\>totalising—in-relative-ontological-completeness\} lies with the prospective ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment\})’ imbuend\ foregroundering—entailment—(postconverging—narrowing-down—sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supernoeation\ in reflecting ‘immanent-ontological-contiguity\’},—as-operative-notional—deprocrypticism (enabling the true and profound attainment of ontological-contiguity\ in the social domain beyond the present practices of disparateness-of-conceptualisation—\unforgrounding-disentailment,-failing-to-reflect—‘immanent-ontological-contiguity\’\). for prospective aestheticisation–and–aestheticisation-towards-ontology/ ‘meaningfulness-and-

are found in say an exclusively animistic social-setup with supposedly no possibility to rejoin a
positivistic social-setup, while at the very least we appreciate that the material/technical
capacity of a positivistic social-setup overall ‘meaningfulness-and-teleology’ will enhance
such an animistic social-setup as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\), the fact remains that our thrownness in the animistic social-setup requires at least a basic engagement tolerable to its \(^5\)meaningfulness-and-teleology\(^{100}\) before any pretense to a projection of positivistic \(^5\)meaningfulness-and-teleology\(^{100}\) (as can so be appreciated with the cultural diffusion encounters throughout human history). In this regards as to a decisively globalising world we can’t conceive that ours will be the human generation bereft of ‘profound diffusionary/non-diffusionary aestheticisation prospective insight as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\)’ given the increasingly relic/artifactual nature of traditional cultures in our modern age as to the potent lack of prospective creative aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human \(^5\)meaningfulness-and-teleology\(^{100}\) (as so-construed as of dimensionality-of-sublimating—\(<\text{amplituding/formative}>\)supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation>), as to the fact that overall human beholdening inclination (as to any defining overall relative-ontological-incompleteness—presublimation-construct—of—\(^5\)meaningfulness-and-teleology\(^{100}\) concerned mostly with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development in the priorly achieved Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(^5\)meaningfulness-and-teleology\(^{100}\)) rather tends to reconverge to shallow \(<\text{amplituding/formative—epistemicity}>\)totalising—thrownness-in-existence\(^4\) concreteness/concretism/existentialising—enframing/imprintedness—\(\text{as-to-}\)\(^4\)historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)—of-human-ontological-performance\(^7\)-\(<\text{including-virtue-as-ontology}>\) as reflected by the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness \(^7\)

But then just like with all prior registry-worldviews/dimensions, our positivism–procrypticism presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) effectively projects a hurdle to any such de-mentative/structural/paradigmatic notional–deprocrypticism conception of re-ontologisation as to its inherent <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag poorly amenable to profound alternative institutional aestheticising contemplation ‘given its calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations.
whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance’ -<including-virtue-as-ontology> as well as generalised social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’ (however their de-mentative/structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendence. Such a beholdening presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) skews the fundamental ontology question by its inherent <amplituding/formative— epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity-<discretely-implied-functionalism>. This latter issue is the ultimate challenge to prospective notional~deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation parameterisation/reparameterisation-(reflecting-a-

This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ posture; and this very much explains the double epistemic orientation to notional–deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing—supererogation parameterisation/reparameterisation—{reflecting-a-supererogatory—decisionality-of-socioinstitutional-conceptions-as-to—‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality—numbing-traction—desublimation’)—as-so-operationalising—‘scalarisation-as-to-rescalarisation—as—as-re-ontologisation’

Inherently the requisite originariness-parrhesia—as—spontaneity-of-aestheticisation for human reframing given human limited—mentation-capacity is rather more forthcoming with directly graspable contextually restricted frameworks-of-conceptualisation with human reframing capacity increasingly of apriorising/axiomatising/referencing—re-originariness/re-origination impotence with frameworks-of-conceptualisation of overwhelming scale inducing increasing ‘sovereign—deference with lack of universal-transparency—{transparency—of—totalising—entailing—as—to—entailing—amplituding/formative—epistemicity}—totalising—in—relative—ontological—completeness ’ and leading to direct/indirect dominance/vested-interest—drivenness demeanative/structural/paradigmatic domination/pre-eminence over social-stake-contention-or—confliction. The grander issue in this regards (as to optimal human reframing capacity with regards to the equanimity/balance of human theoretical-conceptual-operant institutionalised—conceptualisations) as of the present thus has to do with ‘generalised—and—representative human appreciation of its reifying and empowering reflexivity potential giving the perplexing/passivising modern day scale of organisationally and institutionally preconvergingly—de—mentated/structured/paradigmed meaningfulness—and—teleology’ as to the fact that modern day organisational and institutional structure and purposes (by their social—

Human limited-mentation-capacity de-mentatively/structurally/paradigmatically implies this seedingly/incipiently fundamental paradox of ‘prospective/nascent sublimating supererogatory/unbeholdening-conflatedness14’ and ‘presublimating relic/artifactual–

Interestingly, this seedingly/incipiently fundamental paradox of ‘prospective/nascent sublimating supererogatory—unbeholdening—conflatedness’

and ‘presublimating relic/artifactual—beholdening—constitutedness’ as to its perpetuative encumberment of human intelligibility, correspondingly highlights the inherent disambiguation of human meaningfulness—and—teleology ‘as of the seeding/incipient encumberment of its momentous—unbeholdening—aestheticising—reflex with its merely—beholdening—aestheticising—reflex’ (so—perpetuative as to human living—development—as—to—personality—development, institutional—development—as—to—social—function—development and Being—

This insight can be translated by the fact that nascent-sublimations (nascent-particular/incipient-and-material/technical-sublimations–<blinded-to-their-relative-ontological-completeness – reference-of-thought– devolving>) as to their effectively-manifest-sublimation/sublime rather speak to an underlying veracity about immanent-existence ‘beyond and unbeholding to any human merely-beholding–aestheticising-reflex of ‘meaningfulness-and-teleology”, and so for instance in the sense that human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of ‘meaningfulness-and-teleology”; so-reflecting the fact that overall human civilisation (notwithstanding any given societies/cultures of naïve “presencing—absolutising-identitive-constitutedness” as to presencing-distorted–meritocracy/totalising—sovereign-approportioning—of-human-ontological-performance—<including-virtue-as-ontology> ‘merely-beholding–aestheticising-reflex of “meaningfulness-and-teleology”) could only be possible by the cumulating/recomposuring of all such ‘de-mentative/structural/paradigmatic momentous-unbeholding–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic
momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation" more fundamentally speak to ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology’ of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory–unbeholdening-conflicatedness/historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of sublimating intelligibility’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (and so rather than a shallower point-of-departure as from a ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness/historicity-tracing—in-presencing—
hyperrealisation/hyperreal-transposition of presublimating intelligibility’ of ‘merely-beholdening—aestheticising-reflex of ‘meaningfulness-and-teleology’ caught up in complexes of ‘naïve presencing—absolutising-identitive-constitutedness as to presencing-distorted—meritocracy/totalising—sovereign-appropportioning—of-human-ontological-performance’ —<including-virtue-as-ontology>’ that end up inducing poor/distorted human understanding of the human). The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘dementative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of ‘meaningfulness-and-teleology’, a ‘human psychological-disposition for supererogatory—unbeholdening-conflicatedness’/historiality/ontological-eventfulness’/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’ of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘dementative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. This overall insight is particularly salient in the sense that the ‘human psychological-disposition for relic/artifactual—beholdening—constitutedness’/historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of presublimating intelligibility’ (so-perpetuative as to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as—

In other words, existentialising–decisionality and sublimating–nascence perspectively-reflect respectively ‘notional–presencing—absolutising-identitive-constitutedness’ and notional–nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩transversal continuum’, as to ‘thresholding conception of the relationship between perspective decisionality/human-decisionality–⟨as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation⟩and perspective sublimation/desublimation in existence’.

Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-reflexive psychological reorientation of human relation with \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} as to the contrast between ‘blurriness’ in existentialising–decisionality’ and ‘universal-transparency–⟨transparency-of-totalising-entailing,-as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness⟩⟩ of sublimating–nascence’; wherein ‘universal-transparency–⟨transparency-of-totalising-entailing,-as-to-entailing–⟨amplituding/formative–epistemicity⟩totalising–in-relative-ontological-completeness⟩⟩ of sublimating–nascence’ (as to nascent-particular/incipient-and-material/technical-sublimations–⟨blinded-to-their-relative-ontological-completeness–reference-of-thought–devolving⟩) is relatively bound to elicit individual and social positive-opportunism\textsuperscript{75} deferential-formalisation-transference of existentialising–decisionality while ‘blurriness in existentialising–decisionality’ is relatively bound to undermine individual and social deferential-formalisation-transference as to relative-ontological-incompleteness –presublimation-construct–of– meaningfulness-and-teleology\textsuperscript{100}

That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism\(^c\) consequences of deferring to ‘universal-transparency’–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^a\) of sublimating–nascence’ (in delegating sovereignty ultimately as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^d\)) with the lack of such ‘universal-transparency’–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\(^a\) of sublimating–nascence’ as to when ‘blurriness in existentialising–decisionality’ arises inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness\(^e\)–presublimation-construct–of–meaningfulness-and-teleology\(^b\) desublimating–existentialising–decisionality). We can for instance appreciate this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ say with regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic ‘meaningfulness-and-teleology\textsuperscript{10}’) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-constitutedness\textsuperscript{11} existentialising–decisionality

Ayer, Richard Rory, etc. even as their
conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since ‘supposed knowledge-reification’ as to its gesturing’ is as of ‘existentialising–decisionality that desublimatingly precedes knowledge-reification’ rather than veridically ‘knowledge-reification’ as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality’ and as so- reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an approach ends up losing out on vision while wrongly reinforcing knowledge as a self-serving punctual/expeditious institutional enterprise rather than of overall prospective human existential sublimation/emancipation). Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations-\(<\text{blinded-to-their-relative-ontological-completeness}\>\text{-reference-of-thought-}\<\text{devolving}>\) is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{97}\) thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness in existentialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness\(^7\) is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\(^87\) rather than ‘unbeholdening sublimating–nascence
ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification\textsuperscript{87}—gesturing as determining sublimating–existentialising–decisionality); with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology\textsuperscript{100}—<in-existential-extrication-as-of-existential-unthought>). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness\textsuperscript{88}) as part and parcel of prospective knowledge-reification\textsuperscript{87} as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the \textsuperscript{104}universal-transparency\textsuperscript{105}—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness ) of knowledge-reification\textsuperscript{87}’ (and so as to self-serving social-vestedness/normativity—<discretely-implied-functionalism>) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification\textsuperscript{87} for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting
their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising—decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating entailing, as to entailing, universal-transparency—(transparency-of-totalising-entailing, as to entailing, <amplituding/formative—epistemicity>totalising— In-relative-ontological-completeness) of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating—existentialising—decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating existentialising—enframing/imprintedness—(as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating—existentialising—decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in
epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-

genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism
overcoming/unovercoming as to institutional convenience that fails to articulate such a
‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus
renders in relative terms the social domain more intellectually impotent in inducing a similar
level of sublimating–existentialising–decisionality as to existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation as is relatively the case in the natural
sciences (and so notwithstanding the relative blurriness of the social which can effectively be
brought to exactifying/precisioning–of-sublimation—<as-to-entailing-theoretical,-conceptual-
and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-
involvement overcoming rather than assuming a relatively false social and institutional pre-
eminence driven relation to knowledge); with the further implication of such ‘totalising-
entailing pertinence of thought upheld/elevated above anyone person’ being that the
‘knowledge-reification’ process becomes highly impersonal and complementary in a natural
way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the
pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-
supererogation’. In this regards, it is contended that the argumentation articulated herein are
strictly striving towards aetiologisation/ontological-escalation in reflection of ‘abstract human
intemporal individuative ontological-performane (as to the backdrop of the
notionalisation/notional-conception/amplituding of knowledge in reflection of human
notional~firstnatures—temporal-to-intemporal-dispositions<-so-construed-as-from-
perspective—ontological-normalcy/postconvergence>) while striving for totalising-entailing
pertinence of thought’ and so projecting beyond any implications of
personalising/particularising import but rather turning towards ‘ontological elucidation import
as it then reifyingly-and-empoweringly enables human sublimation as to prospective
operationalising construals’ and so-reflected in the idea that the fundamental stakes of
prospective knowledge-reification is about prospective social-stake-contention-or-confliction
and not prior social-stake-contention-or-confliction (as for instance prospective positivistic
meaningfulness-and-teleology is not developed to go about articulating/relation-to
meaningfulness-and-teleology as to the prior social-stake-contention-or-confliction of non-
positivistic meaningfulness-and-teleology), and so by the mere implications of

human knowledge-reification especially (as speaking to prospective human destructuring-

ontological-performance <including-virtue-as-ontology>) is inevitably infused with social-
and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their

hyperrealisation/hyperreal-transposition) conception of the ‘overall possibility of human existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification, and this reality given human notional–firstnaturedness—temporal-to-intemporal-dispositions<{so-construed-as-from-perspective–ontological-normalcy/postconvergence}> is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation’—to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the existentialising—enframing/imprintedness-{as-to-} historicity-

‘the legislation for human prospective sublimation’ (as to sublimating—existentialising—

sublimating-withdrawal,-eliciting-of-prospective-supererogation and the positive—

and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs,

human species to undertake whatever sublimation they envisioned about humanity making
nonsensical the idea that there is any ‘generalised human deterministically constraining

desublimating–existentialising–decisionality. This ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ when it claims to co-opt/supersede prospective sublimating knowledge-reification can be further elucidated along the same lines (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to-) historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating —<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation>’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating’—<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-

Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising–decisionality’ is ontologically flawed given human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence to arrive at desublimating–existentialising–decisionality/sublimating–existentialising–decisionality overlooking organic-knowledge implications (whether by ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation’ implied ‘pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’ or ‘intemporal unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ implied ‘as to the very inherent knowledge-reification’—gesturing as determining sublimating–existentialising–decisionality’). Thus as to critical pure-ontology (underlied as of overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—imbued-and-

This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—preconverging–dementating/structuring/paradigming as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profoundness seedingly/inceptively lies with the individual and not knowledge,
well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality prone to presupencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—(as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification—gesturing as determining sublimating—existentialising—decisionality’). Critically in this regards, human conceptivity/epistemic-reflexivity (as to reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation>) can thus dementatively/structurally/paradigmatically be construed as of ‘notionalisation/notional-conception/amplituding of knowledge’, wherein existence as to its very panintelligibility — effusing/ecstatic—inlining is the very aloofness/detachment upon which human conceptivity/epistemic-reflexivity can supererogatorily act/react in sublimation or
desublimation from whence knowledge as to organic-knowledge can arise so-construed as to existence—\(\text{as-sublimating-withdrawal,-eliciting-of-prospective-supererogation}^{1}\). Thus ‘notionalisation/notional-conception/amplituding of knowledge’ underlies inherent existence-exacted-sublimating—\(\text{as-to-postconverging–de-mentating/structuring/paradigming or existence-exacted-desublimating—\(\text{as-to-preconverging–de-mentating/structuring/paradigming}\)}\) exactable respectively as from human ontological-good-faith/authenticity\(\text{~postconverging–de-mentating/structuring/paradigming or ontological-bad-faith/inauthenticity~preconverging–de-mentating/structuring/paradigming}\) so-undergirded as to human ‘self-reflexive–instigative-eventuating—\(\text{(as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,-preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidation)}\) educating incipience of existentialising–decisionality’. It is thereafter (in the wake of ontological-good-faith/authenticity\(\text{~postconverging–de-mentating/structuring/paradigming}\)) that the veridical prospect of critical pure-ontology then arises. Critically, human existence-exacted-desublimating—\(\text{as-to-preconverging–de-mentating/structuring/paradigming—by—existence-exacted-sublimating—\(\text{as-to-postconverging–de-mentating/structuring/paradigming}\)}\) (as of ‘relative-ontological-incompleteness’/\(\text{relative-ontological-completeness}\))—\(\text{(sublimating~referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence)}\) as to human-and-social–expectations/anticipations—metaphoricity\(\text{~as-rede-mentating/restructuring/reparadigming–psychologism}\)) speaks to the ontological-veracity that human sublimation reflected in human ontological-performance—\(\text{-<including-virtue-as-ontology>}\) is conceptually more than just of ‘mere discrete individuals relevant ontological-performance—\(\text{-<including-virtue-as-ontology>’}\) (as can naively be

This points out why human knowledge is veridically a race-to-the-top-exercise/millipede-motion as to the very givenness of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> that is not subjected to human-subpotency; as to the fact that it is only a human limited-mentation-capacity maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation relation with existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ that can induce sublimation-over-desublimation. Such a veridical ontology (in relegating/doing-away-with/superseding the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’) is critically all about ‘a coherent totalising-entailing knowledge-reification’—gesturing’ exposed to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’>; with such a coherent totalising-entailing knowledge-reification—gesturing accounting for overall knowledge historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflect—epistemicity-relativism’> as to human limited-mentation—

It is important to note in this regards that ‘knowledge-reification\textsuperscript{87}—gesturing \textsuperscript{46}historiality/ontological-eventfulness\textsuperscript{88}/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ is the more profound conception of ontology and science (as to human dimensionality-of-sublimating\textsuperscript{24}—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation>), and so as of the ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ driving ontology and science across their punctual developments from past to present and into the future (underlined by human ‘sublimating~referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating-<projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence>’ arising as of human limited-mentation-capacity-deepening\textsuperscript{53}). This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation\textsuperscript{97} in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation\textsuperscript{97}’ in a soulless ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification \textsuperscript{97} ’, with this shallow-supererogation\textsuperscript{97} explaining naivist
interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of "presencing—absolutising-identitive-constitutedness" conceptions in desublimating—referenced/registered/decisioned self-presence/self-constitutedness"<in-perspective—epistemic-abnormalcy/preconvergence > (without or poorly appreciating the profound-supererogation" involved in true science and ontology as to 'sublimating-referencing/registering/decisioning self-becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>') leads to dominance/vested-interest prodded social-stake-contention-or-confliction determination of knowledge as of ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of genuine knowledge, in ‘temporal beholdening as sovereignising—imbued—subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating—existentialising—decisionality supposedly taking precedence over inherent prospective knowledge-reification")’. It is herein contended that in many ways as to human ontological-good-faith/authenticity ~postconverging—de-mentating/structuring/paradigming , it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation—and~existence—as-sublimating-withdrawal,—eliciting-of-

In our modern day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic-
(preconverging/shallow-supererogating-'human-and-social–expectations/anticipations—de-

and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that
mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning-suprasocial-construct existentialising—enframing/imprintedness-(as-to- historicity-tracing—in-presencing— hyperrealisation/hyperreal-transposition) socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’, and thereafter it doesn’t matter in effect whether the human sovereign–function/posture comes to think otherwise and disapprovingly of the given decisions, as better still so long as this rather plays the role of a psychological-outleting that project a falls sense of public accountability of poor or no effective resolutive course, this mechanism of ‘punctual and surreptitious undermining of knowledge-driven sublimating–existentialising–decisionality at moments of decision’ can perpetuate itself as to a Machiavellianism underlying the dominion/statal–logic-{preconverging/shallow-supererogating–‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-<whether–trepidatious-or-warped-or-preclusive-or-occlusive>--and–its-consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>} relation with the human sovereign–function/posture. In this regards, it is critical to appreciate that the democratic
process is a sovereignty-imbuing process and while this sovereignty-imbuing process is critical as
the point-of-departure for socio-econo-political social-stake-contention-or-confliction
aporeticism overcoming/unovercoming it is incomplete if it is merely construed/manipulated as
to essentially sovereignty-giving without a cultured aspiration to grasp and operate as to
prospective ontological-veridicality (as so-understood by the Socratic-philosophers) just as our
sovereignty over say our house doesn’t necessarily imply our technical competence with
requisite house enhancements like electricity, plumbing, etc. even as our sovereignty is the
point-of-departure for our independent/sovereign contemplating to undertake such house
enhancement chores. This reality underlies the contention herein of the ‘overrated pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of
meaningfulness-and-teleology’ as to the fact that human discursivity is not a discursivity of
absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it
is a discursivity of subpotency as to human-subpotency which doesn’t necessarily
subject/supersede existence as to existence—as-sublimating-withdrawal,-eliciting-of-

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical/sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness—<in-perspective–epistemic-abnormalcy/preconvergence—prone to presencing—absolutising-identitive-constitutedness ). What is thus implied herein as most critical about the human and humanity is the capacity for profound-supererogation (as to

Thus in effect notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> actually reflects the reality of human limited-mentation-capacity-deepening (rather than truly a counterpart to distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>), and so in the sense that existence as of its ontological-normalcy/postconvergence is unheeding to human limited-mentation-capacity (as to its <amplituding/formative-epistemicity>totalising-thrownness-in-existence -imbued-projective-arbitrariness/waywardness-(as-to-the-human-projective/reprojective—aestheticising-re-motif—and-re-apriorising/re-axiomatising/re-referencing-process-of-‘<amplituding/formative-epistemicity>totalising-conceptualisation’)) which beholding ‘wrongly projects a contrastive equivalence relation’ between notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> and distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>; as rather notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> is a ‘submission and making up to existence’s ontological-normalcy/postconvergence’ as to when relative-ontological-completeness avails—and-re-avails (and not a ‘submission and making up in contrastive equivalence to human-subpotency epistemic-abnormalcy/preconvergence’ in relative-ontological-incompleteness as wrongly implied with distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>), thus speaking rather of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that accompanies existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression.

In this respect, we can appreciate that appropriate notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> is effectively what is bound to bring about momentous historiality/ontological-eventfulness/ontological-aesthetic-tracing—

This poor appreciation of profundity/technicity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media
spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-
reification’/contemplative-distension ’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-
channelling-<in-deferential-formalisation-transference> enabling the sovereign–
function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-
produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>–effecting imbued epistemic-totalising preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,–as–spontaneity-of-aestheticisation’ before the incipience of metaphoricity” and then

Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of–social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension’ implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbuing human ontological-commitment—implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension’ that are closely attached-and-driven directly or
indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t necessarily generate less public interest but should primarily be motivated with inherent knowledge-reification sublimating–existentialising–decisionality implications). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojective/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/conceptual-distension’ necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising reconstrual of existential-contextualising-contiguity–

in-reification). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology due to the overly denatured and insufficiently challenging–and–independence-eliciting existentialising-frame of meaningfulness-and-teleology (as to veridical hermeneutic/reprojective/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective epistemic-totalising reconstrual of existential-contextualising-contiguity -in-reification of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so rather than ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology with a poor sense of the prospective existential-contextualising-contiguity-in-reification of knowledge content as to epistemic-totalising reconstrual). Where the cultivated ‘passive integration of schema of thinking/contemplation and engagement’ is rather as of ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-
apriorising/axiomatising/referencing—relation-to-the-world). Ultimately, technicity/profundity is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> existentialising–decisionality (as no normalised/stereotyped/selfhelping/feel-good knowledge is hardly of any help to the technician/practitioner/scientist in the face of constraining existential implications) or with the relative blurriness of social-and-institutional-frameworks—referencing/registering/decisioning existentialising–decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/conceptual-distension’ requiring appropriate notional–self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>) in public spaces is not detached from ‘public interestedness/profundity mediocrity’ and ‘public awareness/accounting/decisioning mediocrity’. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification so-underlying <supererogatory–human-subpotency>—effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology technicity/profundity’ whether with regards to public education or even childhood-development education and/or
formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory–human-subpotency>–effecting) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’–by-
reification’/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningfulness-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in public spaces by such a direct or deferential capacity for notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> to cultivate ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’–by-reification’/contemplative-distension’ over a facility/convenience mental-reflex). In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’–by-reification’/contemplative-distension’ as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of
ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity–as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>). The sovereign–function/posture ontologising-aptness warrants that it doesn’t fall prey to falsehoods of ‘contrastive equivalence’ implied as of distractive-alignment-to-<of-apriorising/axiomatising/referencing> manifested with ontologically-flawed process/processive bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc.’, and further requires that effective public and institutional intellectual contestation of aptitudinal-substantive-pertinence are not be subverted by monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-
immediacy-for-relative-ontological-completeness-by-reification\textsuperscript{6}/contemplative-distension\textsuperscript{8} (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations<-blinded-to-their-relative-ontological-completeness\textsuperscript{7}\textsuperscript{-reference-of-thought-devolving> existentialising–decisionality or with the relative blurriness\textsuperscript{7} of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality); and so to fundamentally bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-traction—of-desublimating—meaningfulness-and-teleology\textsuperscript{100}—(as-perspective-lost-of—supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconerging/dialectical-thinking\textsuperscript{20}—of—notional–deprocrypticism—(in-dimensionality-of-sublimating—<amplituding/formative–epistemicity>growth-or-conflatedness /scalarisation—as-to-rescalarisation-as–re-ontologisation)\textsuperscript{1}) wherein ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology\textsuperscript{100}’ undermines the individual’s and social ‘conscious-and-active epistemic-totalising\textsuperscript{2} re-procession of the existentialising–frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology\textsuperscript{100}’ while overemphasising rather a ‘subconscious-and-passive epistemic-totalising\textsuperscript{12} re-automatism relation with the existentialising–frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology\textsuperscript{100} as elicited with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with the consequent contemplative disorientation, estrangement and lip-servicing/trivialising-relation to veridical social-stake-contention-or-confliction existentialising–decisionality evaluation-and-coherence\textsuperscript{2}). This eventually means that the genuine social intellectual–function/posture
(adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling-<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in a ‘framework of preconvergingly—dementated/structured/paradigmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on side-lining salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> has paradoxically effectively-and-
preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellec­tion-aptitude body’ that is the public university as to its underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/­authenticity –as-being-as-of-existential-reality so-reflect­ed as of social notional-self-dist­antiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> with regards to socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming in falsehoods terms of ‘contrastive equivalence’ implied distractive-alignment-to-reference-of-­thought-<of-apriorising/axiomatising/referencing> and so-under­mining its ‘neutral sovereign–function/posture upholding’, and with a failed public consciousness about the sovereign importance of the public university practically subjecting them to increasing private funding deeply eroding-and/or-corrupting their capacity for ‘neutral sovereign–function/posture upholding’ and most critically-so not necessarily in quashing ideas but inducing social apprehension and contestive inactivity. In many ways, the ‘overall social intellec­tion-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-­reflect­ed by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence, ‘human meaning­fulness-and-teleology’ is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflatedness/postconverging as to existential-contextualising-contiguity–in-reification knowledge/interpretative veracity implications of concurrent limited-­mentation-capacity-deepening (thus implying human meaningful­ness-and-teleology profound­ness/ontologising-depth is of notional–nondisjointedness/contiguity/coherence as of ‘<amplituding/formative>disposedness–(as-to-orientation/value-construct/valuation–and–derived-­parameterising) and
<amplituding/formative>entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability)’ underlined as to its given prospective ‘foregrounding—entailment-(postconverging–narrowing-down–sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ in reflecting ‘immanent-ontological-contiguity’),–as-operative-notional–deprocrypticism); with the implication here that ‘institutional process/processiveness as of mere-formulaicity as to mere-formulaic–methodologising/mutualising/organising/institutionalising (while clearly inducing disontologising socio-econo-political outcomes)’ cannot be construed as the all-be-all of human institutions but rather ‘process/processiveness has to be associated with sublimating–existentialising–decisionality institutional socio-econo-political outcomes and purpose reappraisal reflected with the epistemic-totalising reconstrual of existential-contextualising-contiguity ‘-in-reification’ as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness ontologising/re-ontologising conception of social-stake-contention-or-confliction to avoid their pedantising skewing into numbing-traction–of-desublimating–meaningfulness-and-teleology’-(as-perspective-lost-of-‘supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking–of–notional–deprocrypticism–(in-dimensionality-of-sublimating ‘—’<amplituding/formative–epistemicity>growth-or-conflatedness /scalarisation-as-to-rescalarisation-as–re-ontologisation’)). Thus the veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–function/posture contemplative capacity/deferential-capacity in epistemic-totalising’ growth/conflatedness /postconverging as to existential-contextualising-contiguity ‘-in-reification’ knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening’ allowing for appropriate coherence between concrete–social-reality–<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-
reality-<as-to-manifest-sublimation/desublimation> with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ so-underlined by manifest social-stake-contention-or-confliction issues should as to human epistemic-growth/conflatedness'/postconvergence instigatively drive public debates rather than ‘the naivety that the balancing of human-subpotencies as of vague process/processive bothsidesism mental-reflex in constitutedness/preconvergence will then reflect sublimating social ontological-veracity’ so-underlined by issues of relatively little relevance to general social-stake-contention-or-confliction with the latter just making room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation induced distractive-alignment-to—reference-of-thought-<of-apriorising/axiomatising/referencing> and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to—reference-of-thought-<of-apriorising/axiomatising/referencing> issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-
sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness—<as-to-intersolipsism-of-preformalising/preframing/premeaningfulness-imbued-mediativity-and-deferentialism.—of—meaningfulness-and-teleology^30 reflective of nonpresencing—<perspective—ontological-normalcy/postconvergence—epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity^46 in existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign—function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating—existentialising—decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity as to mere-formulaic—methodologising/mutualising/organising/institutionalising’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating—existentialising—decisionality socio-econo-political outcomes rather than truly a
posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/unreflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation\(^a\) notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-\(<\text{in-deferential-formalisation-transference}>\). The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated existentialising—enframing/imprintedness\(-\text{as-to- historicity-tracing—}\text{in-presencing–}\text{hyperrealisation/}\text{hyperreal-transposition}\) political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the very same social themes are recurrently and superficially raised as to a \text{numbing-traction--of-desublimating--meaningfulness-and-teleology}^{10}\text{--(as-perspective-lost-of--'supererogatory--acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking--of--notional–deprocryptism–(in-dimensionality-of-}

Disontologisation as to social-stake-contention-or-confliction as reflected above is so-critically at the very core of ‘human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality’ intellectual theorising as to a human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality characterised by blurriness allowing for the relative pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation preconvergingly—de-mentated/structured/paradigmed undermining of prospective genuine social intellectual—function/posture as to its projected re-ontologisation/omnipotentiality drive; as so-critically reflected with a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that in many ways openly-assert having nothing to do with present human and social aporeticism overcoming/unovercoming or superficially gloss over such human and social aporeticism overcoming/unovercoming in a confusion between advocacy/ministration/sermonising and intellection going on to trivialise and undermine the profound enlightening implications of true intellection (as to a fundamental dearth of knowledge-reification ‘gesturing however crude as knowledge becomes an issue of ‘personalised and free-floating mentioning’ incapable of true
objectifying knowledge-reification\textsuperscript{17} gesturing as to ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ enabling the conceptualisation of momentous \textsuperscript{14}historiality/ontological-eventfulness\textsuperscript{11}/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>, and further contriving to undermine anti-intellectually (as to confusion between intellectual engagement and bland media-driven influence) a genuine social intellectual–function/posture projective resolutioning of such prospective human and social aporeticism overcoming/unovercoming as so-fraudulently directed against the prospective sublimating–existentialising–decisionality of many a postmodern thought and other critical thinkers. Such a disontologising pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification \textsuperscript{17} gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern day democratic process as it shuts-off requisite sovereign ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{15}/by-reification\textsuperscript{11}/contemplative-distension\textsuperscript{26}’ so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’); as to when such pedantry openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediatically and socially popularised’ inducing (given direct-and-indirect epistemic-totalising consequence of human ‘meaningfulness-and-teleology\textsuperscript{100}’) ‘incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social–
reality-<as-to-manifest-sublimation/desublimation>’. The implications of such dereification/gesturing (as to its reflection of human self-referencing-syncretising relation with ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbeded theoretical/conceptual/operant implications’) speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness-<in-perspective–epistemic-abnormalcy/preconvergence> of presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness-(as-to-‘historicity-tracing—-in-presencing—hyperrealisation/hyperreal-transposition)’ and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with regards to human limited-mentation-capacity-deepening. Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity—as-being-as-of-existential-reality and so in a cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame allowing for human and humanity’s ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification'/contemplative-distension’ (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). We can appreciate in this regards that the specialist whether astronomer, technician, electronician, etc. is more critically sublimating/emancipating as to a ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbeded theoretical/conceptual/operant implications’ acting upon the breadth of socially cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame of intellectualism involving genuine social intellectual–
function/posture projection of prospective human transcendence-and-sublimity/sublimation/supererogatory de-mentativity as first-level technicity/profundity elucidation (as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) with fellow specialists and then of derived-knowledge implications percolating to the appraisal of ‘overall social intellection-aptitude body’, and not a directly normalised/stereotyped/selfhelping/feel-good conception of knowledge relation with the general public in distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing> (undermining such a sublimating/emancipating cogent percolation-channelling-in-deferential-formalisation-transference> existentialising–frame imbued notional–self-distantiation<-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> conception which is exactly what best defines and upholds human sovereign–function/posture as to appropriate coherence between concrete–social-reality-as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-as-to-manifest-sublimation/desublimation> with respect to public outcomes of social-stake-contention-or-confliction). In this regards, a prevailing and counterintuitive naivety as to human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality is that the mere communication of knowledge (without appropriate eliciting of ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ as an exercise that is behind knowledge-production in-the-very-first-place and is required for effective prospective existential-contextualising-contiguity—in-reification of knowledge content as to epistemic-totalising(reconstrual) suffices without factoring that this is exactly what allows for pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimation; as knowledge effectively requires a sound grasp-of and referencing-to its sublimating/emancipating cogent percolation-channelling-in-

notion of prospective sublimation is just about technical and natural science sublimation (and as so-advanced implicitly or explicitly in a self-serving lethargy of institutional pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation) and so as to a human social environment where dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in many ways seem to be wary of prospective human re-ontologisation/omnipotentiality implications as if our very presence isn’t the outcome of successive prior re-ontologising. It is thus critical for humanity as a whole and as of social science practice to inculcate the attitude that despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality, that doesn’t mean this gives leeway for political and other dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>; as to the fact that the pretense of a social science/ontology dies (with respect to the emancipation/sublimation possibilities for the 8.5 billion humans on Earth) when such an illegitimate pretense is not bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their intellectual soul when they acquiesce to the wooden-language—(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) of any such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> that thrive as to temporal advantageousness on eliciting the lowliness of human contemplation in inducing consciously or unconsciously prospective human desublimation/disempowerment. For such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation, the punctual/immediate temporal advantageousness for eliciting the lowliness of human contemplation consciously or unconsciously prospective human desublimation/disempowerment as inherently validatory of a decadent conception of human self-referencing-syncretising in terms of self-presence/self-constitutedness/in-perspective–epistemic-abnormalcy/preconvergence > of ‘presenting—absolutising-identitive-constitutedness’ existentialising—enframing/imprintedness—<as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>; but then in reality it is herein contended that in the middle to long run such posturing falsehoods are untenable notwithstanding their apparent punctual/immediate impression for the simple reason that veridical knowledge is not built on eliciting human sovereignising beholdening but rather eliciting human ontological-commitment as to ontologising-depth in epistemic re-originariness/re-origination projective/reprojective cross-subjection to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation2 (and it is in this regards that human history speaks of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation—<imbued-postconverging/dialectical-thinking ‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) as to human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency ~sublimating–nascence,–disclosed-from-prospective-epistemic-digression in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process ’). At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a conceptualisation may seem frivolous but then the work/job of doing philosophy and thinking is
not for those of ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’; that is why such pettiness-of-minds cannot recognise true work/job when they see it and it is herein contended are better off elsewhere rather than ‘merely hanging to the thread of institutional prescience’ devoid of ‘aptitudinal-substantive-pertinence reflected in a predisposition for totalisingly-disentailing—discretion/whim-of-thought’ that fails prospective human re-ontologisation/omnipotentiality. The above insight provides a relevant backdrop for a truer appreciation of what is entailed by prospective ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ since critically any registry-worldview/dimension is rather of ‘self-referencing-syncretising forward-facing postconverging-or-dialectical-thinking’—apriorising-psychologism epistemic-projection of mere-formulaicity as to social-stake-contention-or-confliction’ such that it reflects of itself mainly as of postconverging-or-dialectical-thinking—apriorising-psychologism while qualifying its prospective uninstitutionalised-threshold (as of preconverging-or-dementing—apriorising-psychologism) as nondescript/ignorable–void and so in a presencing—absolutising-identitive-constitutedness existentialising—enframing/imprintedness—⟨as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⟩. We can appreciate in this regards the role of constraining existence in the ‘nonpresencing-<perspective-ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ driving the natural sciences as to the ‘transversal and cross-subjecting sublimating-selectivity-and-desublimating-deselectivity as to manifest sublimation of scientific ideas’ effectively building up the various fields in perpetuative re-ontologisation (and so-construed as to a ‘science supererogating exactifying/precisioning—of-sublimation—conceptual-and-operant-implications—conception’ that is not undermined by a false conception of science reflected by a science ideology desublimation in existentialising—enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’). However, because of the high emotional-involvement in the social, the default posturing one way or the other is ever always to adopt a

and so over an existence-driven <self-reflexive>-willed–thought; in a flawed knowledge-

incipience of existentialising–decisionality’ so-reflected by the ‘supererogating/willing side’
and the ‘existence sublimating-validation/desublimating-invalidation side’ for sound human
intelligibility to arise (and critically the reality of a truly social scientific insight is one that
necessarily has to take a considerable distance from the immediate/punctual high emotional-
involve as inherently manifested in the direct socio-econo-political processes of social-
stake-contention-or-confliction and its associated directed ideologies with such a truly scientific
endeavour not about pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation but ‘rather most thoroughly involved in social-stake-
contention-or-confliction aporeticism overcoming/unovercoming’ along the lines of a more
profound human and social sublation arising as from human ‘epistemic-
growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-
relative-ontological-completeness\[4\]-by-reification /contemplative-distension\[5\]). This should
not be construed as a weakness as often wrongly implied of the anti-ideological stance of
postmodern thought but rather speaks of a strength in the sense that it is naïve to think the pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of presencing—absolutising-identitive-constitutedness\(^1\) social-vestedness/normativity-<discretely-implied-functionalism> can be veridically undermined/superseded by a ‘corresponding antipodal/diametrical compensatory subontologisation’ (as manifested between the conflicting capitalistic and communistic ideologies), rather than a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself so-implied as of supererogatory-progressivity as to human aporeticism overcoming/unovercoming in enabling prospective sublimating–nascence for human social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating–existentialising–decisionality. Such a postmodern philosophical anti-ideological stance of ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ (just as is the case with the natural sciences as to ‘prospective scientific sublimating reconstruals of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal as of human limited-mentation-capacity-deepening ’ not to be confused with science ideology which is rather about ‘consciously or unconsciously usurping the sublimating credence of science in its science ideology pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation exercise’) is all about human candidity/candour-capacity for effectively tackling prospective aporeticism overcoming/unovercoming as to profound supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness eliciting of ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing–with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ and doesn’t carry false promises of shallow supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness as to mere-formulaic
methodologising/mutualising/organising/institutionalising (as associated with ideological stances reflected say as to capitalistic or communistic ideologies); and so critically because the more salient point for aporeticism overcoming/unovercoming though it may seem counterintuitive is not ideological solutions of presencing—absolutising-identitive-constitutedness but rather (notwithstanding the high emotional-involvement) appropriate human development as to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as from nonpresencing—perspective—ontological-normalcy/postconvergence as a prerequisite speaking hermeneutically/reprojectively/supererogatingly/zeroingly of a prospective change in human apriorising/axiomatising/referencing—relation-to-the-world than just ‘meaningfulness-and-teleology within prior mere-formulaicity (of prior mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>) in an already prospectively poorly apriorising/axiomatising/referencing—relation-to-the-world’, and in this regards we can appreciate that budding-positivists critical philosophical insight was more than just their effectively instigative/incipient budding science but a critical appreciation that the medieval-scholasticism non-positivism apriorising/axiomatising/referencing—relation-to-the-world wouldn’t countenance-and-cultivate the true prospect of scientific knowledge requiring a positivism apriorising/axiomatising/referencing—relation-to-the-world (notwithstanding the then high emotional-involvement), with such budding positivism not being at all a ‘corresponding antipodal/diametrical compensatory subontologisation’ to medieval-scholasticism but rather an altogether ‘a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself’. This again confirms that the ontological-veracity of genuine human knowledge is rather about notional—self-distantiation—imbued—re-motif-

(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating—<projective/reprjective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence>) as to human-and-social—expectations/anticipations—metaphoricity —as-rede-mentating/restructuring/reparadigming—psychologism’ as making-available future human re-ontologisation/potentiation/optimisation potential and so beyond our occlusive presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism> ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction’ (as just inducing more and more a complexification of our procrypticism—or—disjointedness-as-of—reference-of-thought increasingly underlied with dynamic, sophisticated and networking institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in many ways undermining prospectively profound intellectualism and the genuine social intellectual—function/posture). In this regards, it should be appreciated that as to notional—deprocrypticism reflecting holographically—<conjugatively—and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process ‘such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational—
empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective
deprocrypticism/nondisjointing’ but for ‘the inherent nonpresencing–ontological-normalcy/postconvergence> nature of existence’ instantiated
hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-
mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering
nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest in-
effect absolution as to their given presencing—absolutising-identitive-constitutedness as so-
fraudulently implied by our positivism–procrypticism anti-relativism stance (and eliciting
herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further
claim recommending that humanity should rather go back to the state of ‘recurrent-utter-
uninstitutionalisation as to its given manifest in-effect absolution presencing—absolutising-
identitive-constitutedness’ as a more coherent anti-relativism stance as so-explicitly the idea
that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism
proponents seem to project progressive views without truly grasping the contradictory
implications of progressivism and anti-relativism explaining their inclination to ‘disjointing
totalisingly-disentailing—discretion/whim-of-thought’ whereas ‘true knowledge has to carry its
sublimation within itself as to its notional–nondisjointing totalising-entailing’ for it to be
socially potent and effective, as we can appreciate that the potency of a scientist is not in
themselves but rather their inherent coherent knowledge formulation which then has to avoid
explicated or implicited contradictions). In other words, ‘existence imposes its sublimating rules
to the human mortal subpotency’ as the very ‘fundamental meaning of science’
(notwithstanding vague human-subpotency self-important
‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and
complotment). In this respect, it is herein contended as of a most intimate appreciation that such
anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is
doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic
anti-intellectualism stances hanging upon mere institutional imprimaturizing (as overplaying the
card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-
accordance—as-of—social-stake-contention-or-confliction’ as to the protection offered by
sensibility/ decorum of institutional imprimatur)’ in undermining the implications of prospective
relative-ontological-completeness[8] as associated with social equality and anti-bigotry
movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have
‘hardly been able to meet the academic standards of the arguments implied and projected by
proponents of relativism’ and rather turning to surreptitious and media-driven strategies
avoiding intellectual engagement in inducing social and institutional numbing- traction—of

pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is
herein contended is much more potently effective in preconvergingly–de-
mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or
unconsciously) than the overt and superficial name-calling social manifestations conception of
bigotry/prejudice/narrow-mindedness as to emotional distress; and so, as the deferential social
and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective
aporeticism overcoming/unovercoming as to profound
supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human

and as so-undergirded by human ‘self-reflexive–instigative-eventuating-(as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,-preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidation) educing incipience of existentialising–decisionality’). It is herein contended that ‘the veridical prospect of human intelligibility for ontologisation’ is of necessity (given human limited-mentation-capacity) ‘epistemic-totalisingly\(^{12}\) educing as from human profound-supererogation\(^{17}\); so-reflected as to the very incipient ‘<supererogatory–human-subpotency>–effecting (as to ontological-good-faith/authenticity\(^{18}\) or ontological-bad-faith/inauthenticity\(^{15}\)') imbued epistemic-totalising\(^{12}\) preformulating/preframing/premeaningfulness of notional–originariness-parrhesia,–as–spontaneity-of-aestheticisation’ as of undergirding human ‘self-reflexive–instigative-eventuating-(as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,-preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidation) educing incipience of existentialising–decisionality’. The implication here is that a human mental-reflex of ‘mere-formulaicity of ruling and rule-making as to apriorising/axiomatising/referencing’ is ever always of wanting ontological-veracity in need for ‘corrective human profound-supererogation\(^{17}\) imbuing human limited-mentation-capacity-deepening\(^{17}\). In other words human ‘potential of profound-supererogation’ (as the corrective potentiating of human limited-mentation-capacity for human limited-mentation-capacity-deepening) is veridically what carries an abstract equivalence association/relation with existence’s inherent ontological-normalcy/postconvergence (and so rather than any human limited-mentation-capacity educing mere-formulaicity which rather induces ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’). But then, all social-setups ‘as specifically instantiated social-constructs of human intelligibility’, are wedded whether as of relatively shallow-supererogation or relatively profound-supererogation (as to living-development–as-
intelligibility’ (rather than a convenience-seeking defaulting individual and social mental-reflex into mere-formulaicity as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’). In this regards, human ‘fundamental ontologising/disontologising confliction’ (with regards to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’) undermines the notion that human social-setups are in ‘an absolute ontologising predisposition of sublimating–existentialising–decisionality relation with inherent existence’s sublimating–nascence’ (as is wrongly projected by \textit{presencing—absolutising-identitive-constitutedness}} social-vestedness/normativity-<discretely-implied-functionalism> even as this ‘may seem intuitively’ truer with domains of relatively less blurriness or low emotional-involvement as to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ like say the natural sciences and mathematics but this is not exactly the case from a bird’s-eye view reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{10} as such a possibility is undermined by the very interactiveness of nascent-particular/incipient-and-material/technical-sublimations<-blinded-to-their-relative-ontological-completeness\textsuperscript{11}—reference-of-thought-\textsuperscript{12} devolving> existentialising–decisionality and social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality) and manifest a disontologising disposition at prospective uninstitutionalised-threshold\textsuperscript{13}, and so even as ‘counterintuitively we may think as from our positivism/rational-empiricism registry-worldview/dimension that we are naturally predisposed to relate to the postconverging–demmentating/structuring/paradigming implications of prospective true knowledge in terms of their veridical entailing-<amplituding/formative–epistemicity>totalising—in-relative-ontological-

Rather the ‘fundamental ontologising/disontologising confliction’ (as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology”) arises effectively as of ‘a prospective "nonpresencing-<perspective-ontological-normalcy/postconvergence> change in knowledge-reification” gesturing in "maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation” (as we can appreciate that the state of recurrent-utter-uninstitutionalisation construed of its non-rules—apriorising/axiomatising/referencing—psychologism knowledge disposition in terms of entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness but for the prospective base-institutionalisation change in knowledge-reification gesturing for prospective ontologisation/re-ontologisation in "maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation as to rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism which highlighted the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation at which point it is of a disontologising disposition of "incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation, and this ‘prospective "nonpresencing-<perspective-ontological-normalcy/postconvergence> changing in knowledge-reification” gesturing for prospective ontologisation/re-ontologisation in "maximalising-recomposuring-for-relative-ontological-completeness”—unenframed-conceptualisation’ as to the successive registry-worldviews/dimensions prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the veridically undergirding rule for sublimating—nascence and so retrospectively-to-prospectively and equally reflect the fact that our positivism—procrypticism is of a disontologising disposition (of "incrementalism-in-relative-ontological-incompleteness”—enframed-conceptualisation) with respect to prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought ‘prospective

Such a conception of the genuine social intellectual–function/posture (as it so-reflects ‘the human notional–philosophy existentialising–frame of existential unenframed conception of human philosophy’ beyond any given institutionalised sublimating/desublimating culture of philosophy) renders ridiculous modern manifestations of ‘media-driven, social networking, popularity-seeking as well as institutional imprimaturing conception of supposed intellectualism’ that by supposedly succumbing/ingratiating to institutional and social lip-servicing (as to an ontologically-flawed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness”~by-reification”/contemplative-distension”’) supposedly so-earning intellectual recognition/due; thus paradoxically subjecting the notion of intellectualism to human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ which is in want for its prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology imaginary. The blunt reality of true intellectualism couldn’t be more diametrical as to the fact that the genuine social intellectual–

As to the modern states penchants of misgovernance, dehumanisation, criminal wars, genocides and hideous activities and as so in association with dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-discretely-implied-functionalism> and an overall out-of-sight-out-of-mind civil society ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction imbuing existentialising-frame of disontologising/ontologising-and-re-ontologising’, such a supposedly implied conception of intellectual-and-moral ascendency is nothing but a bogus social-setup’s auto-congratulatory exercise of ‘supposed intellection and morality’ that cannot answer to the inherent preconverging–de-mentating/structuring/paradigming vices-and-impediments/limitations of its Age (let alone prospectively uphold 'human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure'/omnipotentiality). In the bigger scheme of things as to nonpresencing-perspective–ontological-normalcy/postconvergence> epistemic-projection, human social-setups reflecting the respective states of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism are transcended/superseded exactly because of an incipient/nascent/instigative genuine social intellectual–function/posture ‘sneering’ at them and never as to otherwise ingratiating at them as manifested by the Socrates, Platos, Copernicuses, Galileos, Descartes, Newtons, Leibnizes, Diderots, etc. as so-instigative of the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring conception as to maximalising-recomposuring-for-relative-ontological-completeness—

The blunt fact is that society is never its own inherent intellectual-and-moral absolute reference and thus is in want for its intellectual-and-moral development explaining why progress happen and the role of the genuine social intellectual–function/posture being about encouraging such progress, with the consequence that an ‘ingratiating supposedly intellectual relationship’ with human institutions as to ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ is ever always (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-

This human individuation and social projection divergence between human psychical-nascency and human angling-of-imaginary (as to disparity—of-momentousness/magnanimity/scale/magnitude) is critically reflected dynamically in all human endeavours as of ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’; underlined with ‘angling-of-imaginary nonpresencing—absolutising-identitive-constitutedness epistemic-projection of abstractive social contemplations beyond ordinary consideration-and-expectations/anticipations bearing registry-worldview/dimension opening-up consequences’ and ‘psychical-nascency punctual/presencing—absolutising-identitive-constitutedness epistemic-projection of social contemplations as to secondnatured human endeavours of ordinary consideration-and-expectations/anticipations’. The human psychical-nascency—ideal-type-or-individuation can be construed as a human individuation of in-effect absolution upholding of the ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame

The totalising-entailing epistemic and ontological implications of veridical the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework as so-underlied by angling-of-imaginary are rather altogether clear and straightforward as hereafter articulated. It is an existential impossibility as to ontological-inveracity/ontological-impertinence for intelligible discursivity between relative-ontological-incompleteness and relative-ontological-completeness knowledge-reification gesturings as of differing apriorising/axiomatising/referencing—relation-to-the-world conceptivity/epistemic-reflexivity, with such an ontologically-flawed exercise inevitably inducing as to human psychical-nascency a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation disontologising desublimation relation to human ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’ (as so manifested by Ancient-sophists ‘non-universalising disontologising’ in the face of the Socratic-philosophers ‘universalising-idealisation ontologising/re-ontologising’ or medieval-scholasticism ‘non-positivising disontologising’ in the face of budding-positivists ‘positivism/rational-empiricism ontologising/re-ontologising’ or as herein contended present-day ‘disjointing totalisingly-disentailing—discretion/whim-of-thought disontologising’ in the face of postmodern thought ‘nondisjointing totalising-entailing ontologising/re-ontologising as to human-subject-

meaningfulness-and-teleology as to existentialising—frame). Along the same lines of
angling-of-imaginary implied nonpresencing—<perspective–ontological-
normalcy/postconvergence> is the veracity that epistemicity is veridically as of ontological-
normalcy/postconvergence as to human limited-mentation-capacity-deepening
postconverging—de-mentating/structuring/paradigming implications wherein prospective
knowledge-reification as of sublimating historiality/ontological-eventfulness/ontological-
aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-

of epistemicity’ (as prospective sublimation actually invents prospective epistemicity). This
insight contrasts with a naïve science ideology conception of epistemicity as to ‘a lack of
nonpresencing—<perspective–ontological-normalcy/postconvergence> perspicacity in an in-
effect absolution exercise of elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-

implications (and go on to behold epistemicity as to a certain ‘supposedly imagined moment of
past science’ rather than the fact that prospective scientific sublimations come-with/are-not-
divorced-from prospective epistemicity insights hermeneutically/reproductively/supererogatingly/zeroingly as so-rather driven by human supererogatory acuity/perspicacity/astuteness/edginess/incisiveness inducing sublation-over-desublation beyond ‘mere-formulaicity of conception of epistemicity secondnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’). Critically, in this respect there was no prior inherent mere-formulaicity basis for Einstein’s Relativity theory but for his sublimating ontological-good-faith/authenticity as to his hermeneutic/reprojective/supererogating/zeroing supererogatory acuity/perspicacity/astuteness/edginess/incisiveness underscored by the possibility for prospective sublation as to his reflexive as re-originary encounter with existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,–eliciting-of-prospective-supereration <-as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>. Hence the most coherent and unfailing epistemicity basis of science speaks to inherent sublation-over-desublation as to nonpresencing<-perspective–ontological-normalcy/postconvergence> establishing/re-establishing of sublimating historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>. Such a conception of epistemicity is rather all-englobing with regards to all human knowledge as to the reality of hermeneutic/reprojective/supererogating/zeroing supererogatory acuity/perspicacity/astuteness/edginess/incisiveness for human <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in conflatedness (with regards to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology)—with the extensive development of many a formalised and elaborate domains-of-study like natural sciences unique experiential inordinary existentialising—frames not overriding the very same human hermeneutic/reprojective/supererogating/zeroing supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity (reflecting the fact that the notions of scientific experiments and observations are just extensions of a human hermeneutic/reprojective/supererogating/zeroing supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness contemplation of ordinary existential experience and observations). Such a nonpresencing—<perspective—ontological-normalcy/postconvergence> conception of epistemicity it is herein contended is most profound social and overall knowledge aporeticism overcoming/unovercoming relevance. Human angling-of-imaginary (unlike the predisposition to mere-formulaicity of human psychical-nascency) construes of knowledge as of incipient social conception and instigation (beyond and unfazed by its supposed manifest institutional capture/catchmenting) as to its veridical existential veracity for prospective sublimating ontologising/re-ontologising relation to human ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising—frame of disontologising/ontologising-and-re-ontologising’. In this regards, desublimating attitudes of mere institutional imprimaturing do not necessarily constrain the possibility for divergent social interests for prospective existential ontologising/re-ontologising conception for sublimating knowledge-reification (and critically veridical intellectualism perceives institutional stature as the opportunity to further demonstrate and invest into demonstrating its effective intellectual relevance whereas an institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation rather construes of institutional stature as a fall-back as to mere-formulaic institutional-imprimaturing and institutional-legalism poorly upholding/perpetuating the knowledge sublimating
contemplation behind the institutional formation/creation). Such an incipient social conception and instigation of knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools subverting the Ancient-sophists nonuniversalising, likewise budding-positivist movements, correspondences and initiatives ultimately led to the subversion of medieval-scholasticism, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment. The more centrally defining element of human angling-of-imaginary speaks to its metaphysics-of-absence-{implicit-epistemic-veracity-of-}nonpresencing-{perspective–ontological-normalcy/postconvergence} epistemic-projection that elusive to psychical-nascency disposition. This ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjointing tends to be <amplituding/formative–epistemicity>totalisingly–absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness | social-vestedness/normativity-<discretely-implied-functionalism>’ that-drives/is-behind such subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of presencing—
absolutising-identitive-constitutedness
social-vestedness/normativity-<discretely-implied-functionalism>
manifest themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ but also persistently across time in more subtle ways). Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness—presublimation-construct–of–meaningfulness-and-teleology desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>) is de-mentatively/structurally/paradigmatically closed-off, and there is ‘supposedly no sublimating/emancipating existentialising–decisionality meaningfulness-and-teleology’ that can arise outside the underpinning–suprasocial-construct existentialising—enframing/imprintedness-(as-to–historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) as putting into question the very ontological-veracity

In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfullness-and-teleology wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and
resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflectied by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendency with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity.
with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can dementatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to
‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation’ of supererogatory–progressivity’ as so-associated with debt servitude and de-mentative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic
model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory–progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model
of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory–progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social—desublimation> of “presencing—absolutising-identitive-constitutedness” social—vestedness/normativity—<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory–progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the present day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-superetration’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed
value-extraction capitalistic model (as so-enculturated socially and mediatically as to

presencing—absolutising-identitive-constitutedness\textsuperscript{13} social-vestedness/normativity-

<discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is

strongly seen with the state-driven Asian and European supererogatory–progressivity
economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to
trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the
more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S.
there is atleast a critical level of strategic supererogatory–progressivity with local states
definitely adopting incentives-driven approaches of supererogatory–progressivity; all this
speaking from an totalising-entailing perspective analysis of the purist capitalistic model as
poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility
with regards to foundational externalities like education, infrastructure, well thought-out
policies, collective social advancement, etc.). The bigger question that then arises has to do
with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism
and geostrategy/states-competition muddled framework’ that is preconvergingly–de-
mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’\textsuperscript{17} of
supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’. Taking a step aback, in many ways the reality
of the very fundamental notion of the capitalistic model speaking of perfect markets do not
exist, and rather ‘markets themselves develop as advantageously created situations after the
facts’ as to the requisite human creative supererogatory–progressivity for a market to even
arise; and in this respect the supposed fittest notion of capitalistic competition as to
punctual/immediate fitness tends to underperform the more advantageous supererogative
contemplative deliberation of markets for critically efficient/optimising resource
allocation/utilisation/development (as to the fact that de-

In this regards, it can very much be appreciated that human scalarisation potential (existentially manifestable as of successive rescalarisation as re-ontologisation as to human limited-mentation-capacity-deepening implications) reflects all the sublimation-over-desublimation possibility for the full possibility of human ontological-performance—including-virtue-as-ontology as can be so-construed as from notional~deprocrypticism prospectively implied originariness/origination—so-construed—as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>. In other words, the notion of ‘the other’ as aetiolisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity–of-profound-supererogation of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> for ontologically-veridical
virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 30's; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology

misunderstood as implying that it lies with a historical tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipatory potential of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–projective-insights/epistemic-projection-in-conflatedness–of-notional–deprocripticism-prospective-sublimation) , and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity<-profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> as of the need for prospective relative-ontological-completeness–reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively
articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’ as of our <amplituding-formative-epistemicity>-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of- reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the de-mentative/structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take attitude/mental-disposition/care–and–episteme’; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity -<profound-supererogation-of-mentally-aestheticised-postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-prime-movers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological
coherence/contiguity. This insight about virtue as lying with ontology has been to varying
degrees implicitly understood by many postmodern thinkers, beginning with Heidegger
pointing to a sophistication of thought but for the poor development and poor conclusions of his
analysis during the troubled years of '30s; and rather poorly interpreted by virtue critiques
adopting a ‘modern take attitude/mental-disposition/care–and–episteme’ in ontological-

incompleteness-of–reference-of-thought perspective construed-as reasoning-from-

ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly
pursued by latter postmodern thinkers as of quasi-transcendental implications for construing
virtue from the orientation of prospective notional-contiguity/epistemic-contiguity –<profound-
supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-

implicated with the case of Derrida’s spirit insight. Ultimately, the ‘postmodern

our ‘modern take attitude/mental-disposition/care–and–episteme’ vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised–postconverging/dialectical-thinking—qualia-schema> as of prospective relative-ontological-completeness—of—reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of de-mentation—ontological–de-mentation–or–dialectical–de-mentation—stranding–or–attributive-dialectics) which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised–preconverging/dementing—qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised–preconverging/dementing—qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with a universal principle understanding of the transformation of traditions and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that a universal principle understanding of the transformation of traditions as herein implied by this author in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—amplituding/formative> supererogatory—de-

ontological-completeness-of-reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation-(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do—of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness’/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> as to
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,—as—spontaneity-of-
aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-
aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly—dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublation basis’. In effect Descartes project is actually as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. With both the budding-positivism

The appropriate contemplative perspective for the appreciation of their schema as-to-de-mentative/structural/paradigmatic–disseminative-implications is effectively crossgenerational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity/sublimation/supererogatory–dementativity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity\textsuperscript{11} engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity\textsuperscript{16}–<shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema> analysis, implied as of prospective relative-ontological-completeness–of–reference-of-thought, can be understood simply as of
the relation between existence which is already given and human-subpotency which as of
prospective relative-ontological-completeness\(^{\text{\textsuperscript{88}}}\)-of-reference-of-thought grasp more and more
what is of the full-potency of existence by way of its axiomatic-constructs of existence or of
purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-
totalising /circumscribing/delineating construct being the \(^{\text{\textsuperscript{84}}}\)reference-of-thought. We can grasp
that it is not existence and purviews/domains of existence which will adjust to human-
subpotency for ontologically-veridical \(^{\text{\textsuperscript{56}}}\)meaningfulness-and-teleology\(^{\text{\textsuperscript{10}}}\) but rather human-
subpotency adjusting as to existence-potency\(^{\text{\textsuperscript{38}}}\)–sublimating–nascence,-disclosed-from-
prospective-epistemic-digression; with such adjusting being construed as of prospective
relative-ontological-completeness\(^{\text{\textsuperscript{88}}}\). But then humankind as of its developed-and-invested
habits and traditions about existence counterintuitively relates to existence and
purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of
prospective relative-ontological-completeness\(^{\text{\textsuperscript{88}}}\)-of-reference-of-thought:relative-ontological-
completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of
psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^{\text{\textsuperscript{87}}}\), implied as of \(^{\text{\textsuperscript{14}}}\)de-
mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-
or-attributive-dialectics) with regards to the \(^{\text{\textsuperscript{8}}}\)reference-of-thought transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. In lieu the poor intuition is to imply that
we are already well grounded and that prospective \(^{\text{\textsuperscript{12}}}\)meaningfulness-and-teleology\(^{\text{\textsuperscript{10}}}\) is an
incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation to our
already established psychoanalytic disposition rather than a \(^{\text{\textsuperscript{15}}}\)maximalising-recomposing-for-

that this leads to constitutedness\(^{\text{\textsuperscript{11}}}\) when so poorly psychoanalytically grounded on the naïve
and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust
to our human-subpotency. Thus however counterintuitive, this overall conception structures the
fact that it is as of de-mentation—(supererogatory—ontological–de-mentation-or-dialectical–de-

This phenomenological insight in recognising that there is ‘an underlying metaphoricity -induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology\textsuperscript{98} as of prospective relative-ontological-completeness\textsuperscript{38} -of-reference-of-thought; and so, as of retrospective and prospective ‘meaningfulness-and-teleology\textsuperscript{100} interpretation construed as historiality/ontological-eventfulness\textsuperscript{17}/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism’>. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care–and–episteme migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care–and–episteme conception, and specifically as relevant for understanding prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of- reference-

When so-construed prospectively, ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ is all about such a deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care–and–episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective de-mentative/structural/paradigmatic disseminative implications as of Derridean différance/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>), as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity singularisation /epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the notional–deprocrypticism registry-worldview/dimension is one that will be marked by sharper

and sharper singularisation /epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. In this regard,
singularisation⁷/epistemic-immanence/veridical-epistemic-determinism points out that there is no inherent meaning of existence about existence as existence is tautologically what it is as existence, rather the notion of meaning arises as of the notion of human-subpotency strife to ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation⁷. In other words, meaning is always a human project to construe existence as of human limited-mentation-capacity-deepening⁸ of ‘axiomatic-constructs as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’. Singularisation⁷/epistemic-immanence/veridical-epistemic-determinism, and as reflected by this author’s notion of ontological-normalcy/postconvergence referentialism conception of ‘historiality/ontological-eventfulness⁷/ontological-aesthetic-tracing→<perspective–ontological-normalcy/postconvergence-reflected→epistemicity-relativism>, points out that dissingularisation⁷/epistemic-nonimmanence/flawed-epistemic-determinism as of human-subpotency ontological-performance→<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation /epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance→<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation⁷/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance→<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’ as implied by
ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening of ‘axiomatic-constructs as of <amplituding/formative—epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension. This reality of the need to construe of human-subpotency ontological-performance—<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation/epistemic-immanence/veridical-epistemic-determinism as of whole living organisms, and likewise human meaningfulness itself as to sublimation is a postconverging—de-mentating/structuring/paradigming singularisation/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author’s conception of such a teleological perception of existence as of its singularisation /epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect
constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation <-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly
with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional~conflatedness\(^1\) singularisation /epistemic-immanence/veridical-epistemic-determinism implications, as of ontologically-veridical singularisation /epistemic-immanence/veridical-epistemic-determinism of human-subpotency ontological-performance\(^2\)/<including-virtue-as-ontology> correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality over ontologically-flawed dissingularisation /epistemic-nonimmanence/flawed-epistemic-determinism; and yet our psychological disposition is more

This insight about ontological-performance\(^1\)-<including-virtue-as-ontology> as of prospective relative-ontological-completeness\(^5\) of human-subpotency can be garnered with respect to any axiomatic-construct as the meaningfulness-and-teleology\(^1\) representation of human-subpotency ontological-performance\(^1\)-<including-virtue-as-ontology> correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that at uninstitutionalised-threshold\(^1\), human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existential-contextualising-contiguity’-in-reification’ suffers-and-fails to relay the ‘seeding promise of human-
subpotency ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’ for prospective institutionalisation as of difference-conflatedness\textsuperscript{12}-as-to-totalitative-reification\textsuperscript{17}-in-singularisation\textsuperscript{97}-as-veridical-epistemic-determinism\textsuperscript{19} protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{82}-so-construed-as-singularisation\textsuperscript{98}/epistemic-immanence/veridical-epistemic-determinism’; since this potential for such singularisation\textsuperscript{97}/epistemic-immanence/veridical-epistemic-determinism is denaturing\textsuperscript{15} as of identitive-constitutedness –as-‘epistemic-totality’ –dereification –in-dissingularisation –as-flawed-epistemic-determinism as cloistered-within-the-same-reference-of-thought at its uninstitutionalised-threshold\textsuperscript{101}. We can appreciate that with regards to ‘the very same ill-health <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human-subpotency ontological-performance \textsuperscript{72}-<including-virtue-as-ontology> of prior perceptivities as successive uninstitutionalised-threshold\textsuperscript{103} are rather in ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity –in-reification’ (by their identitive-constitutedness –as-‘epistemic-totality’ –dereification –in-dissingularisation –as-flawed-epistemic-determinism as cloistered-within-the-same-reference-of-thought), as overlooking their successively prospective perceptivities which are actually in prospective relative-ontological-completeness –of–reference-of-thought as enabling/cogent-with difference-conflatedness\textsuperscript{17}-as-to-totalitative-reification –in-singularisation –as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{1},-so-construed-as-singularisation\textsuperscript{97}/epistemic-immanence/veridical-epistemic-determinism’. The notion of human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-
contiguity\textsuperscript{39}-in-reification can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective construal of existential-contextualising-contiguity\textsuperscript{39}-in-reification’ reflected by the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as the latter’s prospective relative-ontological-completeness\textsuperscript{88} reflects the former’s prior relative-ontological-incompleteness\textsuperscript{89} as dialectically out-of-phase/preconverging-or-dementing—apriorising-psychologism. This insight about human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity\textsuperscript{39}-in-reification’ at uninstitutionalised-threshold\textsuperscript{103} actually highlights that from a prospective perspective of prospective relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought our positivism—procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>, as is the case with all other prior registry-worldviews/dimensions, ‘when we seem to perceive-and-think that our social world of meaninglessness-and-teleology\textsuperscript{100} is coherent, failing to factor in that it is preconverging-or-dementing apriorising-psychologism at its uninstitutionalised-threshold\textsuperscript{103} as reflected as disjointedness-as-of-reference-of-thought preconverging-or-dementing apriorising-psychologism by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaninglessness-and-teleology\textsuperscript{100} as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought’; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

This points out that when consciously aware of uninstitutionalised-threshold\(^3\) manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\(^0\) about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology\(^0\)-<in-existential-extrication-as-of-existential-unthought>\(^8\) preconverging-or-dementing –apriorising-psychologism human-subpotency existentially constrained temporal ontological-performance\(^7\)-<including-virtue-as-ontology> as <amplituding/formative> wooden-language-(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing\(^9\)—narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^1\)) in usurpation; such that an enlightened insight is able to bring up and examine a preconverging-or-dementing\(^9\)–apriorising-psychologism representation as temporal denaturing ontological-performance\(^7\)-<including-virtue-as-ontology> of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology\(^0\) about existential-contextualising-contiguity’\(^7\). But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-threshold\(^3\) but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency–aporia/undecidability/dilemma/ought-

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected-epistemicity-relativism> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity/sublimation/supercorogatory—de-mentativity it is not about grounding as of the present but rather as of psychoanalytic-unshackling/prospective-grounding/prospective-reification for

transformation, and so fundamentally because of human limited-mentation-capacity and the correspondingly constraining consequences on its ontological-performance including-virtue-as-ontology>. Rather it is more candid to relate to the ontological-contiguity —of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening, and so as of prospective intemporal secondnatured institutionalisation induced universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness ⟩, deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory—de-mentation—meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness-of-reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register—meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaninglessness-and-teleology.
Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the construal of meaningfulness-and-teleology as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology varies as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought; for instance with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridity,-as-to-‘human-amplituding/formative—epistemicity>totalising–purview-of-construal’, the meaningfulness-and-teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness-of-reference-of-thought despite the existential-

The implication here is that the social-construct has ever always been a threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold; wherein respectively there is positive-opportunism for prior institutionalisation and no positive-opportunism for prospective institutionalisation, explaining the developing reality of the various successive human registry-worldview’s/dimension’s institutionalisations, as of retrospective and prospective implications.
