as so-reflected in the successive registry-worldviews/dimensions as to the overall ontological-

nonpresencing-<perspective–ontological-normalcy/postconvergence> notion of
completeness—in-enframed-conceptualisation>). In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resources and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a dementative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity
in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfaring that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to
media-driven impressionable narratives rather than to the protracted implications of the roguish capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic international capitalistic system usurpation and undermining of the possibility for social supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the supererogatory–progressivity potential of the global economy presents more opportunities than the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of capitalistic enterprising across the world takes various shapes and forms wherein ‘the more doctrinaire skewed value-extraction and market distorting models’ ride-the-wave of profound value creation activities (often of poorly compensated supererogatory–progressivity) and in many ways undermining the inclination for profound value creation as to the shortcut for short-term returns. This capitalistic model of skewed value-extraction undermines the possibility of overall human supererogatory–progressivity as to when in the contest between optimal-resource-allocation for value-creation as to the requisite creativity for individuals and social supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting the externalities investments in education and infrastructure of second and third world countries) but still posing the question as to how skewed value-extraction can de-mentatively/structurally/paradigmatically address in the long-run issues of requisite social and public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or
foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world
country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation \cite{97} of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed countries exploit third world natural resources on unfair shallow-supererogation \cite{97} economic terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing
the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality—<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory—progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory—progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness—<as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,—as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness})) social-vestedness/normativity—<discretely-implied-functionalism>). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory—progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory—progressivity possibilities, there must necessarily be
losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to \(oinsencing\)–absolutising-identitive-constitutedness\(1\) social-vestedness/normativity-< discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’\(2\) of supererogatory–progressivity’ as to capitalistic
‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’. 
Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic 
model speaking of perfect markets do not exist, and rather ‘markets themselves develop as 
advantageously created situations after the facts’ as to the requisite human creative 
supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest 
notion of capitalistic competition as to punctual/immediate fitness tends to underperform the 
more advantageous supererogative contemplative deliberation of markets for critically 
efficient/optimising resource allocation/utilisation/development (as to the fact that de-
mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of 
markets associated with say German, Japanese, Chinese, South Korean public-policy 
supererogatory–progressivity economic models participate in their competitive edge over 
‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an 
overall deliberative optimalising potential of human supererogatory–progressivity beyond any

appreciated that human scalarisation potential (existentially manifestable as of successive
rescalarisation as re-ontologisation as to human limited-mentation-capacity-deepening-

of human ontological-performance -<including-virtue-as-ontology> as can be so-construed as from notional–deprocrypticism prospectively implied originariness/origination<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>.

In this respect, scalarisation analysis is a projection beyond just a conceptually implied originariness/origination-\{so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence\} but is comprehensively and notionally/epistemically reflective of underlying de-mentative/structural/paradigmatic rescalarisation and descalarisation of human ontological-performance\textsuperscript{72} \textsuperscript{8}\langle\textsuperscript{including-virtue-as-ontology}\rangle as to human limited-mentation-capacity implications. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments\textsuperscript{96}. This existential reality about ontological-primemovers-totalitative-framework\textsuperscript{73} is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} <-as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger

prospective notional-contiguity/epistemic-contiguity\textsuperscript{62} - profound-supererogation\textsuperscript{77} of mentally-aestheticised-postconverging/dialectical-thinking\textsuperscript{77} – qualia-schema as of prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought actually points out that the uninstitutionalised-threshold\textsuperscript{03} is rather a point of \textsuperscript{14} de-mentation\textsubscript{(supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold\textsuperscript{03} attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicated insight as of notional-discontiguity/epistemic-discontiguity\textsuperscript{63} - shallow-supererogation\textsuperscript{77} of mentally-aestheticised-preconverging/dementing – qualia-schema but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity\textsuperscript{63} - shallow-supererogation\textsuperscript{77} of mentally-aestheticised-preconverging/dementing – qualia-schema as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a\textsuperscript{104} universal principle understanding of the transformation of traditions’ and thus how such\textsuperscript{104} universal principle understanding as of its\textsuperscript{104} universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a\textsuperscript{104} universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity\textsuperscript{77} of-the-human-institutionalisation-process\textsuperscript{02}, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating – \{amplituding/formative\) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme. In other words philosophical thought is all incipiently/seedingly about dimensionality-of-sublimating
We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity−<profound-supererogation−of-mentally-aestheticised−postconverging/dialectical-thinking−qualia-schema> as of prospective relative-
ontological-completeness of reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘de-mentative/structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) construed herein as of prospective postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, and so just as searing with ‘de-mentative/structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism (underlying that Descartes’ dimensionality-of-sublimating (amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) as to
existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation is aporetically the more fundamental incipient/seeding originariness-parrhesia,–as–spontaneity-of-aestheticisation in then secondarily inducing his thinking-proposition for budding-positivism reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation). That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of operationally and in sublimation on its own terms—as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking and sublimation basis’. In effect Descartes project is actually as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing as of positivism, and so from the presencing—absolutising-identitive-constitutedness of non-positivism/medievalism. relative-ontological-completeness—reference-of-thought, can be understood simply as of
the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising /circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology\textsuperscript{100} but rather human-subpotency adjusting as to existence-potency\textsuperscript{11}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness\textsuperscript{88}. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness\textsuperscript{88} of reference-of-thought:relative-ontological-completeness—of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{87}, implied as of \textsuperscript{13} de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. This phenomenological insight in recognising that there is ‘an underlying metaphoricity-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’>. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markly different from each other and all subjected rather to the implications of existential-contextualising-contiguity™ knowledge-reification™ of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity™, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation™<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather the constraint for existential-contextualising-contiguity™ knowledge-reification™ that determines science practice, and so in existential apriorising/axiomatising/referencing—conflatedness™. Further, it had long dawned on this
author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) It is further critical to understand that while universal-transparency (transparency-of-totalising-entailing,-as-to-entailing<amplituding/formative->totalising-in-relative-ontological-completeness⟩ with associated nested-congruence and harmony is brought about as of prior institutional secondnaturing, this should not be naively expected at uninstitutionalised-threshold as we very much know that all uninstitutionalised-threshold are conflicted as of their framework of ‘recurring dimensionality-of-sublimating’\textasciitilde(\textless\text{amplituding/formative}\textgreater supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\textgreater temporal-to-intemporal’ for prospective institutionalisation prospective relative-ontological-completeness of reference-of-thought. The constraining implications of existential-contextualising-contiguity knowledge-reification as of human amplituding/formative-epistemicity-totalising-thrownness-in-existence (I exist therefore existence is transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance -<including-virtue-as-ontology>) means that it is wrong to construe the ontological-contiguity of the human-institutionalisation-process as of a human temporal dimensionality-of-sublimating (amplituding/formative–epistemicity-totalising~thrownness-in-existence) transformation, and so fundamentally because of human limited-mentation-capacity and the correspondingly constraining consequences on its ontological-performance -<including-virtue-as-ontology>. Rather it is more candid to relate to the ontological-contiguity of the human-institutionalisation-process as of human limited-mentation-capacity-deepening, and so as of prospective intemporal seconrnatured institutionalisation induced universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative–epistemicity-totalising~in-relative-ontological-completeness ), deferential-formalisation-transference and habituation in positive-opportunism. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory-de-mentativity meaningfulness-and-teleology is the fact that the human mind is not necessarily geared to come to terms with prospective relative-ontological-completeness of reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of–meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentation.
The supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attribute-dialectics herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative- blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology\(^\text{10}\). Thus the metaphorical exercise of transcendence-and-sUBLIMATION/sublimation/supererogatory—de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology\(^\text{100}\) universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework\(^\text{7}\) for prospective universal positive-opportunism\(^\text{76}\); as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sUBLIMATION/sublimation/supererogatory—de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-to-totalitative-reification\(^\text{75}\)-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism\(^\text{21}\) protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process, so-construed-as-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism'. Furthermore, the implications of 'notional-discontiguity/epistemic-discontiguity—with/falling-short-of prospective institutionalisation existential-contextualising-contiguity—in-reification, as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-
reference-of-thought, with regards to the construal of meaningfulness-and-teleology as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology varies as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought; for instance with regards to the very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human-amplituding-formative–epistemicity-totalising-purview-of-construal, the meaningfulness-and-teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness reference-of-thought despite the existential-contextualising-contiguity knowledge-reification ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness reference-of-thought. The fundamental implication here is that transcendental meaningfulness-and-teleology is hardly construed in any presence registry-worldview/dimension reference-of-thought as of its rather prospective relative-ontological-completeness reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness reference-of-thought with the possibility of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity arising as of crossgenerational induced metaphoricity. Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many

explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness ~of~ reference-of-thought, as so implied from singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-~of~ nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness~of~ reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procripticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of~meaningfulness-and-teleology as of prospective deprocripticism–or–preempting—disjointedness-as-of~reference-of-thought prospective relative-ontological-completeness perspective. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <amplituding/formative> wooden-language—(imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>) advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating (<amplituding/formative> supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-
sublimity/sublimation/supererogatory de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness of reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mentaldisposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness of reference-of-thought; and in due course, by its ontological-prime.movers-totalitative-framework constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originary-as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking -'projective-insights'/‘epistemic-projection-in-conflatedness ‘-of-notional–deprocrypticism-prospective-sublimation⟩ potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of ‘understanding’ of prior relative-ontological-incompleteness of reference-of-thought with the latter’s <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental
knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\textsuperscript{7} constraint as of ontological-primemovers-totalititative-framework\textsuperscript{8} for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative- blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological- incompleteness-of-reference-of-thought naïve non-transcendental

\texttt{amplituding/formative–epistemicity} totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{9}, it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of \texttt{meaningfulness-and-teleology}\textsuperscript{10}. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\textsuperscript{11} transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing\textsuperscript{12} mortals that we are for our prospective emancipation. Without an insight about reification\textsuperscript{13} and dereification\textsuperscript{14}, the notion of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\texttt{nonpresencing}>\textsuperscript{15} projected epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical \texttt{meaningfulness-and-teleology}\textsuperscript{16} is easily misconstrued since denaturing\textsuperscript{17} of
meaning in dereification\textsuperscript{57} will be teleologically-elevated and meaning produced as of reification\textsuperscript{57} will be teleologically-degraded; as so blatantly obvious particularly with the dereification\textsuperscript{57} manifestation of childhood psychopathy postlogism\textsuperscript{79}-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance\textsuperscript{72}\textsuperscript{-<including-virtue-as-ontology>} of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{100} reflecting dereified and reified construals of existential-contextualising-contiguity\textsuperscript{79} is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogue-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification\textsuperscript{11} and reification contrast. However, compounding this situation making relevant the need to contrast reification\textsuperscript{57} and dereification\textsuperscript{57} and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance\textsuperscript{72}\textsuperscript{-<including-virtue-as-ontology>} manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing\textsuperscript{15} of the <amplituding/formative–epistemicity>totalising–devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{77} backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{60}; with the fundamental implication that there are thus divergent

In this latter case of contrasted reification\(^\text{f}\) and dereification\(^\text{g}\) and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity’ — contrastive-reification dissemination\(^1\) -and-dereification dissemination\(^2\) -implications’ construed as the ‘variance/discrepancy of ’meaningfulness-and-teleology\(^\text{h}\)’ as-of-prospective-relative-ontological-completeness postconverging-or-dialectical-thinking — apriorising-psychologism and as-of-prior-relative-ontological-incompleteness preconverging-or-dementing — apriorising-psychologism respectively; it is only ontologically-veridical difference-conflicatedness —as-to-totalitative-reification in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing-as-veridical-epistemic-determinism from the projected ‘notional—singularisation—nonpresencing—projected epistemic-immanence/veridical-epistemic-determinism’ of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness postconverging-or-dialectical-thinking — apriorising-psychologism recognising this ‘preconverging-or-dementing’ — apriorising-psychologism and postconverging-or-dialectical-thinking — apriorising-psychologism variance/discrepancy of ’meaningfulness-and-teleology’ that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity as implied by the

This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism–or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness. Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold (just as notions-and-accusations-of-sorcery in a universalisation–non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of their universalisation–non-positivism/medievalism uninstitutionalised-threshold), ontological-veridicality is rather assumed/departs from an understanding of existential-contextualising-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather implies the dialectical–dementation of our positivism–procrypticism at its uninstitutionalised-threshold; and as we falsely go on to construe existential-contextualising-contiguity—in-reification/dereification by adopting the positivism–procrypticism dereifying perspective or attitude/mental-disposition/care—and–episteme in its prior relative-ontological-incompleteness in an exercise of ontologically-flawed identitive-constitutedness—epistemic-totality—dereification-in-dissingularisation—as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness—as—as-flawed-epistemic-determinism. Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification as of their temporal threshold–nonconviction/madeupness/bottomlining-in-shallow-supererogation as—to–attendant-intradimensional—prospectively-disontologising–preconverging/dementing—apriorising-psychologism>, which implies an invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,

thinking underlies a postmodern understanding, as it is herein contended, that it is by the exercise of prospective relative-ontological-completeness of reference-of-thought as of human limited-mentation-capacity-deepening as of the need for futural Being-development/ontological-framework-expansion as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought as of the need for futural Being-development/ontological-framework-expansion as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of reference-of-thought beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>, that we provide the ontologically-veridical aetiologisation or ontological-escalation resolving the vices-and-impediments of our ‘so-prospectively deprocrypticism-construed’ procrypticism—or—disjointedness-as-of reference-of-thought as of its underlying <amplituding/formative epistemicity> totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag, and so beyond just our ad-hoc palliative construals of virtue. Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care—episteme event—or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human wooden-language {imbued—averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of ‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications} mental-dispositions as of ‘mutual temporal/shortness-of-register-of meaningfulness-and-teleology eliciting’ construed as ‘intemporal temporality’. Such tendencies are hardly of
imperatives/axioms/registry-teleology\textsuperscript{100}, -for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100}, and thus implies temporally \textsuperscript{11} neuterising ‘interiorisation attitude/mental-disposition/care–and–episteme’ of meaningfulness-and-teleology\textsuperscript{100}. This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{17}—of-the-human-institutionalisation-process. Such an ontological-contiguity\textsuperscript{17} <amplituding/formative–epistemicity>totalising–self-referringencing-syncretising/circularity/interiorising/akrasiatic-drag virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology\textsuperscript{100} <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>-existentialising—enframing/imprintedness\textsuperscript{17} ⟨as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⟩ frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks as of the given reference-of-thought, with these elements in need for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of prospective relative-ontological-completeness\textsuperscript{19}–of—reference-of-thought but paradoxically now defining the conception of virtue. palliative virtue constructs overlooking fundamental underlying de-

However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness–of–reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing—as-veridical-epistemic-determinism—a<br>amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-contiguity—of-the-human-institutionalisation-process as of its ontological reflection in Being-development/ontological-framework-

Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception’/notional–conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology need to be drawn beyond a cloistered-
hyperrealisation/hyperreal-transposition\textsuperscript{53} frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks; and, hence the ontologically-veridical paradox of the very postconverging–dementating/structuring/paradigming implications of human limited-mentation-capacity-deepening\textsuperscript{53} renders any registry-worldview/dimension \textsuperscript{84} reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification\textsuperscript{87} of meaningfulness-and-teleology\textsuperscript{10}. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness\textsuperscript{82} perspective/framing/reference/horizon’ apriorising/axiomatising/referencing—constitutedness\textsuperscript{9} construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the \textsuperscript{100} meaningfulness-and-teleology\textsuperscript{100} that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening\textsuperscript{53} implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete
relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional~conflatedness of notional~deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care--and--episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought--categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting--conviction-as-to-profound-supererogation—of-'attendant-intradimensional'-postconverging/dialectical-thinking—apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of--nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-'attendant-intradimensional'-prospectively-disontologising-preconverging/dementing—apriorising-psychologism> to such mere reference-of-thought--categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring--meaningfulness-and-teleology.

The latter points to an inappropriate attitude/mental-disposition/care--and--episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the
non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness of reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaus, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical
and social organisation transformation implications wasn’t the opportunity for such societies to
turn around and then dehumanise other societies and humanities that haven’t done likewise, but
rather as of organic-knowledge called for a double-gesture reification\textsuperscript{87} in recognising that such
positivism/rational-empiricism implications are about all of humanity, just as implied in
preceding human cultural emancipations. Suprastructuralism or postmodernism double-
gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied
levels of virtue development and making relative conclusions’ but rather orientate
meaningfulness-and-teleology\textsuperscript{100} to the more profound perspective of all of humanity’s
potential as of prospective relative-ontological-completeness\textsuperscript{69}-of-reference-of-
thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of
humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and
emancipatory virtue disposition for all humankind and human societies. It adopts this
orientation because it always put into question the idea of ‘grounding\textsuperscript{50} meaningfulness-and-
teleology\textsuperscript{100} as of any specific human society relative-ontological-incompleteness\textsuperscript{79}-of-
reference-of-thought as fundamentally denaturing\textsuperscript{15}, and likely to induce transversality-of-
affirmative-and-unaffirmative–disambiguated–‘motif-and-
apriorising/axiomatising/referencing\textsuperscript{102} dehumanising of some cultures and societies by
others’; as it recognises, however tepid, that all societies and humans are curious, predisposed
to their emancipation and achieving optimum existential possibilities, and can uphold
universal values, and so as of universal-transparency\textsuperscript{10}–(transparency-of-totalising-
entailing–as-to-entailing–\textsuperscript{45}<amplituding/formative–epistemicity>totalising–in-relative-
ontological-completeness \rangle). Ultimately, such a double-gesture hold out the possibility in
reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{47}—of-
the-human-institutionalisation-process\textsuperscript{58} as of Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{64} meaningfulness-
and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding-formative–epistemicity>totalising–in-relative-ontological-completeness }. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold-{reference-of-thought–categorical-imperatives/axioms/registry-teleology}-for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised–preconverging/dementing—qualia-schema. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a universal projection implications attitude/mental-disposition/care–and–episteme event-or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human amplituding/formative–epistemicity–totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originally-as-unenframed/unbeholdening/outlier-conceptualisation
creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness -as-to-totalitative-reification—in-singularisation—in-as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemic-determinism —<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness —of-axiomatic-constructs-and—reference-of-thought, and that true knowledge especially as it portends to transcendence-and—sublimity/sublimation/supererogatory—de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as of their ‘re-
projection/re-anticipation’ about ‘the very same physics’ which was then validated as of ontological-
primemovers-totalitative-framework, and so divulged by existence-potency ~sublimating–
nascence,-disclosed-from-prospective-epistemic-digression; as prior human experience wouldn’t have thought about space-time,
considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as enabling the obtention of any such conclusions from the given classical-
mechanics—axiomatic-constructs apriorising/axiomatising/referencing—constitutedness, but rather it is by apriorising/axiomatising/referencing—conflatedness with regards to ‘the very
same physics’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of nonpresencing—<perspective–ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/superoergatory–de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of–meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework tendential validation as to existence-potency ~sublimating–nascence,-disclosed-from-
prospective-epistemic-digression. Such a construal of human transcendence-and-
sublimity/sublimation/superoergatory–de-mentativity will cover the seminal contributions prior
and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing—conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising with deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futurality that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-
subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting—conviction-as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism deference to the prescience of existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the postconverging—de-mentating/structuring/paradigming of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness—reference-of-thought over human normativity/conventioning as
of the latter’s prior relative-ontological-incompleteness of reference-of-thought, and so by maximalising-recomposuring <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential postconverging–de-mentating/structuring/paradigming of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation /relative-ontological-incompleteness /existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness -of-axiomatic-construct-or-reference-of-thought can’t sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of ‘social universal-transparency’ -(transparency-of-totalising-entailing,-as-to-entailing- <amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness )’. But then it is actually a sign of ‘propounded theoretical health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of
escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness\(^{24}\)-of-axiomatic-construct-or\(^{-}\)reference-of-thought as futural différance, accreting-substitutive-subsumption-as-futural-différance-freeplay\(^{7}\) comes into terms with both \(^{20}\)presencing—absolutising-identitive-constitutedness\(^{1}\) and \(^{21}\)nonpresencing\(^{-}\)<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness\(^{29}\)/ontological-contiguity\(^{6}\) of the latter over the prior relative-ontological-incompleteness\(^{9}\) of notional-discontiguity/epistemic-discontiguity\(^{1}\) -<shallow-supererogation\(^{7}\)-of-mentally-aestheticised–preconverging/dementing\(^{-}\)-qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to–

‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\(^{23}\) between ‘presencing—absolutising-identitive-constitutedness’ and ‘nonpresencing\^-\,<perspective–ontological-normalcy/postconvergence>’. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness\(^{24}\) notional-contiguity/epistemic-contiguity\(^{12}\)’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic\(^{56}\) meaningfulness-and-teleology\(^{100}\) grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation ‘meaningfulness-and-teleology’ without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic ‘meaningfulness-and-teleology’ without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would
enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness of reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness)’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> of the consciousness in ontological-contiguity/relative-ontological-completeness-of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing–apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity–shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema>/relative-ontological-incompleteness–of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, and not incrementalism-in-
relative-ontological-incompleteness\textsuperscript{89}—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human\textsuperscript{amplituding/formative–epistemicity}totalising~purview-of-construal’’. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality
involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening\textsuperscript{2}\textsuperscript{3}; overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology\textsuperscript{100} should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising’, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{2}\textsuperscript{3} as of prospective relative-ontological-completeness -of- reference-of-thought bringing about transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as of nonpresencing-<perspective–ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimities that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness\textsuperscript{89} and prospective relative-ontological-completeness\textsuperscript{88}, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics
\textsuperscript{45}<amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ but rather a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new physics as the new presencing; brought about from the transcendence-and-sublimity/sublimation/suberogatory-de-mentativity of nonpresencing-<perspective-ontological-normalcy/postconvergence>. In other words, human consciousness tends to constraint to its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of nonpresencing-<perspective–ontological-normalcy/postconvergence> is beyond and not constraint by human consciousness as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/suberogatory–de-mentativity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the

dsynchronising/circularity/interiorising/akrasiatic-drag\textsuperscript{2} from a ‘difference-in-kind/difference-in-
aposteriorising-or-logicising\textsuperscript{2} posture; such that humankind then overlooks ‘presencing—

sublimity/sublimation/supererogatory–de-mentativity. Therefore, metaphoricity\textsuperscript{57} as highlighted
herein is actually construed as of ‘its natural ontology implications’, and this natural ontological
notion of metaphoricity\textsuperscript{57} is construed herein as superseding-and-englobing all other
differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity\textsuperscript{57} as such simply refers to signification adjunctiveness to ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ as of both the ‘meaningfulness-and-teleology\textsuperscript{10} implications to the so-
renewed ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the
specific adjunctive-metaphoricity\textsuperscript{57}-signification within such renewed ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity\textsuperscript{57} is very much a mirroring of existential ‘syncretising-
effecting’ going by the latter’s existential implications on ‘human underlying self-referencing
meaningfulness-and-teleology\textsuperscript{10} as an epistemic-totalising /circular construal’. This
‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated
existentially with syncretising-effecting as mirrored in metaphoricity\textsuperscript{57} arises because of human
limited-mentation-capacity, and is a reflection of the circular deepening of human limited-
mentation-capacity as of growing certitude from the opening up of \textsuperscript{8} nonpresencing-
ultimately validated by existence/ontology’s-directedness-as-Being ontological-prime movers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-threshold as recurrently pointed out herein as of token threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-'attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism possibilities relation to reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and nonpresencing—ontological-normalcy/postconvergence, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing—constitutedness with respect to futural Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence ⟨implicated-epistemic-veracity-of- nonpresencing⟩⟨perspective–ontological-normalcy/postconvergence⟩–or–transcendental-reasoning-of-event -as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic/reprojective/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing—conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine
understanding of postmodern-thought is a double-gesture reification\(^7\) that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification\(^7\) reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification\(^7\) of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality~of-affirmative-and-unaffective–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^2\) complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity\(^6\). As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality~of-affirmative-and-unaffective–disambiguated–‘motif-and-
apriorising/axiomatising/referencing" cumulative authenticities that augment the possibilities of human limited-mentation-capacity' thus going a long way to ‘open-up’/‘throw-up’/‘reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory-dementativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-in-deferential-formalisation-transference are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}>, such
that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity\textsuperscript{64} and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity\textsuperscript{64} critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness \textsuperscript{-of-} reference-of-thought-postconverging-or-dialectical-thinking\textsuperscript{64}—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness\textsuperscript{69}-of-\textsuperscript{84} reference-of-thought-preconverging-or-dementing\textsuperscript{69}—apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with \textsuperscript{59} meaningfullness-and-teleology\textsuperscript{100} while the latter is an existential-extrication/temporal/non-ontological relationship with \textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100}, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--\textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{69} retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality\textsuperscript{111}’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of--\textsuperscript{57} meaningfullness-and-teleology\textsuperscript{100} in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{69}. As ultimately, it is the prospective relative-ontological-completeness \textsuperscript{-of-} reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments\textsuperscript{106} as of prospective registry-worldview/dimension
transcendence-and-sublimity/sublimation/supererogatory de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency ⟨transparency-of-totalising-entailing, as-to-entailing⟩amplituding/formative–epistemicity totalising~in-relative-ontological-completeness⟩’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to
misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void—with-regards-to-prospective-apriorising-implications ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional–knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it

truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging-de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence-⟨implicit-epistemic-veracity-of-nonpresencing-⟨perspective–ontological-normalecy/postconvergence⟩⟩ will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a⟨amplituding-formative-epistemicity⟩totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-incompleteness with regards to reference-of-thought and its derived ‘meaningfulness-and-teleology’, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différance of ‘meaningfulness-and-teleology’. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are
made to have their internal-dialectics/différance as of nonpresencing<perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/sublimation/supererogatory~de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism-or-preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting–as-to-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating <amplituding/formative>supererogatory~de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-

) to ensure that we go about deriving ontologically-veridical 56 meaningfullness-and-teleology 100 in relative-ontological-completeness 1 . This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primer-movers-totalitative-framework 2 ’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity 3 ’, as herein implied by this author with ‘the ontological-contiguity 4 —of-the-human-institutionalisation-process 5 congruent,-cogent-and-operant entailing framework of ontological-contiguity 3 ’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification 67 will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification 67 for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity 4 —of-the-human-institutionalisation-process 5 as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–

meaningfulness-and-teleology 100 and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism.
This internal-dialectics/différance as of successive transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-
worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-
faith/inauthenticity is equally elicited by ‘lack of social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness)’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness—of—reference-of-thought (and were thus more fundamentally

apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} imbued in postmodern-thought address
more than just apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} implications of
knowledge construction as articulated herein but equally points critically to intellectually
decadent institutional dispositions and practices where imprimatur and the dynamics of
imprimatur by themselves are increasingly construed as of more critical epistemic pertinence
for knowledge constructions undermining the possibilities of breakthroughs given that the
primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a
back seat, with intellectual postures increasingly defended with non-intellectualism obsession
of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in
the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as
there are little common stakes for breakthroughs but rather the stakes are increasingly of
institutions academic visibility and tenure with emphasis on likeminded networks and forums
driven increasingly by influence than carefree\textsuperscript{104} universal intellectual curiosity. Furthermore
intellectualism has increasingly been surreptitiously mingling-and-yielding to social and
economic interests undermining its obligation for enabling social clairvoyance; with a resultant
sense of socioeconomic and socio-political impotence as such blurriness is increasingly
undermining the relevance of intellectualism in its public discourse and enlightenment mission.
Ultimately, the epistemic and preconverging–de-mentating/structuring/paradigming of
academic institutional setups into increasingly into pedantising/muddling/formulaic-hollowing-

Thus the ‘notion of limited-mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-teleology\(^{10}\) notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ construed as ontologically-flawed constructs in terms–as-of-axiomatic-construct of ‘\(^{15}\)neuterising as of \langle\text{amplituding/formative–epistemicity}\rangle\text{totalising/circumscribing/delineating reference-of-thought–devolving’ whether beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought>, and so elucidated from the ontological-normalcy/relative-ontological-completeness\(^{84}\) of reference-of-thought perspective of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-capacity dynamism of meaningfulness-and-teleology\(^{10}\) as of notional–deprocrypticism as well as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising\(^{15}\)—referentialism, in lieu of \(^{15}\)neuterising. Thus this notion of human
limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness’ consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of ‘neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of apriorising/axiomatising/referencing—conflatedness or destructuring respectively. Basically, the construal/conceptualisation of human \textit{amplituding/formative–epistemicity} totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance) has always involved a disparateness-of-ontologically-construed-social-reality as of on the one hand a dichotomy of ‘intemporal-projection transcendental-enabling/sublimating/supererogatory–de-mentativity abstraction of prospective Being and meaningfulness-and-teleology\(^{10}\) construal as of organic-knowledge implications and so as reductive construction however non-mechanical and intemporal-as-ontological-its-projection and hence as an open-ended-incompleteness/nonachievement-of-ontological-normalcy/postconvergence construal of social reality’, and on the other hand ‘an ad-hoc open-ended summative hotchpotch conventioning of temporal projections and intemporal projection grounding of social reality construction including organic-knowledge as well as mechanical-knowledge implications’; such that from the ontological-normalcy/relative-ontological-completeness\(^{8}\)-of- reference-of-thought perspective, the overall social Being and meaningfulness-and-teleology\(^{10}\) transcendentally-enabling-level–of-ontological-good-faith/authenticity\(^{9}\)/objectification/desubjectification-as-objectification—<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existentia
thought—devolving, and so without being subject to any ‘neuterising’ as is the case with all ‘ontologically-compromised-mediating-as-of-their-specific-constitutedness’ consciousnesses flawed conceptualisation perspectives’. Thus by its deneutering—referentialism construed as of ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>, notional–deprocrypticism enables a fundamental ontology-driven ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, and so superseding a naïve metphysics-of-presence (implicated—nondescript/ignorable—void—as-to—presencing—absolutising-identitive-constitutedness) affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given ‘neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness’, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this ‘neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by deneutering—referentialism, which is equinominal/equivalent to nonpresencing—<perspective–ontological-normalcy/postconvergence>. In other words the historical implications of human limited-mentation-capacity-deepening is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving’ as of their given neuterisation, construed as equinominal/equivalent with

is representing itself as ‘postconverging-or-dialectical-thinking—apriorising-psychologism and
dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-
worldview’s/dimension’s reference-of-thought, as of the ontological-
normalcy/postconvergence epistemic/notional—projective-perspective, it is ‘preconverging-or-
dementing—apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason
for the ontologically defective <amplituding/formative—epistemicity>totalising—self-
rereferencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-
worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the
‘existential frame-of-ontology/meaningfulness (which is the transcendental-
enabling/sublimating/supercatory—de-mentativity)’ in their conventioning, and thus to the
exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-
worldviews/dimensions had hitherto been <amplituding/formative—wooden-language
{imbued—averaging-of-thought—as-to—leveling/ressentiment/closed-construct-of—
meaningfulness-and-teleology—as-of—’nondescript/ignoreable—void’—with-regards-to—
prospective-apriorising-implications}>. However human existential closure of meaningfulness
as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of reference-of-thought (or reducing relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supерerogation’ <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>). Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence>{implicated-nondescript/ignoreable–void ’as-to- presencing—absolutising-identitive-constitutedness }) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag”, the notion of generating meaningfulness-and-teleology from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective priorly implies a requisite psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring, and so by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity since the latter is only appropriate in the instance of prospective relative-ontological-completeness—of-reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness—induced,'threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—<as-to-'attendant-intradimensional’-prospectively-disontologising—preconverging/dementing—apriorising-psychologism—puts into question the very first and absolute apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology (‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality construed as of increasing human limited-mentation-capacity-deepening in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’) with respect to the base-institutionalisation (animistic) registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect—<as-Being-or-ontological-or-existential—defect>. Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing—apriorising—
psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking\textsuperscript{20}–
apriorising-psychologism center). Likewise such a suprastructural articulation of our
positivism–procrypticism relationship to its postlogism\textsuperscript{7} that includes psychopathy and social
psychopathy will apparently not make any sense to our present but then ontologically our
present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-
supererogation\textsuperscript{9}–<as-to–‘attendant–intradimensional’–prospectively-
disontologising–preconverging/dementing –apriorising-psychologism>, though our mental-
reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-
dementing\textsuperscript{19}–apriorising-psychologism as well. However, to the extent that it is ‘not such
\textsuperscript{4} <amplitudding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} temporal/shortness-of-register-of–
meaningfulness-and-teleology\textsuperscript{100} inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold\textsuperscript{3} from
recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to
universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the
temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–
meaningfulness-and-teleology\textsuperscript{100}) extrication in any registry-worldview/dimension with no
upholding of transcendental possibilities), to that extent the intemporal-disposition should
rather construe/conceptualise its intemporal-disposition as the tip of human transcendental
institutionalisation possibility and thus inherently that it transversally takes precedence over
human temporal complexes (and such a ‘transversality–of-affirmative-and-unaffirmative–
disambiguated–‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} confliction’ resolved
intemporally by prospective ontological-primemovers-totalitative-framework\textsuperscript{72} and
secondnaturing. This actually explains the inevitable contrariety involved in the making of
transcendental human progress involving a prior/transcended/superseded \textsuperscript{7}reference-of-thought
and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity and transcendental-enabling/sublimating/supererogatory~de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-prime-movers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-prime-movers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical meaningfulness-and-teleology is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising ~resubjecting heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming meaningfulness-and-teleology the succession of all registry-worldviews (however sublimatingly inefficient in relative-ontological-incompleteness and sublimatingly efficient in relative-ontological-completeness as from nonpresencing–<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with
corresponding shallow to limited-mentation-capacity-deepening\textsuperscript{53}, as institutionalising ontological-primemovers-totalitative-framework\textsuperscript{73} successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{73}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework\textsuperscript{73} of meaningfulness-and-teleology\textsuperscript{100} going by their given limited-mentation-capacity. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening’ implies more and more profound reconstruals/reconceptualisations (amplituding/formative–epistemicity) totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology\textsuperscript{100} as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{96}. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s\textsuperscript{2} on earth since intrinsic-reality imposes that idea and the
corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory-de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory-de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory-de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing-epistemicity-relativism, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent
knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology\(^{1695}\)\(<in-existential-extrication-as-of-existential-unthought>\(^5\) to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity) to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as secondnaturing institutionalisation percolation-channelling-\(<in-deferential-formalisation-transference>\) to elicit the necessary positive-opportunism\(^76\) for prospective institutionalisation as skewing (‘intemporality\(^{52}\)-asymmetric-subsumption-of-temporality\(^{99}\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Copernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the
philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology\(^{10}\) ontological-performance\(^{-1}\)-<including-virtue-as-ontology>, and that meaningfulness-and-teleology\(^{10}\) as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology\(^{10}\) ontological-performance\(^{-1}\)-<including-virtue-as-ontology>, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology as of prospective deprockpticism—or—preempting—disjointedness-as-of—reference-of-thought with regards to our positivism—prockpticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence {implicitied-epistemic-veracity-of- nonpresencing—perspective—ontological-normalcy/postconvergence} for the conception of meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought naively construed <amplituding/formative-epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akriasiatic-drag mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance—including-virtue-as-ontology, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism—prockpticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary—as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking—projective-insights’/epistemic-projection-in-conflicedness—of-notional—prockpticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’) weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, however unintelligible, as a prospective institutional percolation-channelling—exercise as validated by ultimate ontological-prime mover-
totalitative-framework with subsequent corresponding formalisation and secondnaturign. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-ndeteminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturign construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–’attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>. [The notion of ‘beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–’attendant-intradimensional’–prospectively-...

Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology<sup>100</sup>-<in-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism<sup>2</sup> at the uninstitutionalised-threshold<sup>103</sup> of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of<ref>reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology<sup>100</sup>-<in-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup
found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness\(^8\) of reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of ‘lack of constraining social universal-transparency\(^{104}\)-<totalising-in-relative-ontological-completeness > of the psychopath’s mental-disposition of postlogism –as-of-\(^{10}\) compelling–nonconviction/madeupness/bottomlining-<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>\(^{67}\),-in-shallow-supererogation –<disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>\(^{6}\)), and while construed as beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought>\(^5\) as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation{(imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocripticism-prospective-sublimation) transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttingly demonstrated with ‘cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, the mechanism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common
8reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old 8reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation

epistemicity>totalising~in-relative-ontological-completeness of psychopathy especially at adulthood. Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-
obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying $6 + 3$ instead of $5 + 2$ (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as $5+2$) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation ) is flawed since B is not committed due to its perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect--of--logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a
possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant\(^4\) to them wherein lack of ‘social universal-transparency\(^{104}\)\{transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness \}\) which protects the internal-coherence of meaning for virtue enables their own ‘covert negative vista’ however ad-hoc as conjugated-postlogism\(^7\), i.e. as to the conjugated-ignorance of C (where B’s condition is not exposed to it), conjugated-affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and conjugated-social-chainism of B, C (where B’s condition is not exposed it) D, E and F, and conjugated-temporal-enculturation to B’s condition of B, C (where B’s condition is not exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of ‘prelogism\(^7\)-as-of-conviction,-in-profound-supererogation′-\langle existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\(>\) re-engaging reflex’) on the basis that they will relay in circularity/recurrence/repetition/repeatability the defective apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument (perversion-and-

It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical ‘meaningfulness-and-teleology’). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-
postlogism/social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying inherent disposition to uphold the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/social-psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflicts associated with the postlogism/social-psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance (even when other prelogism/as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds do lack a social universal-transparency of the veridical postlogism/social-psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived-perversion-of reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness). In this regard, prelogism/as-of-conviction,-in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds generally adopt a generalising approach for determining ‘the overall registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual’ including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual’s as

This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining–(<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’-of-the–attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>,-in-shallow-supererogation–<disontologising-perverted-outcome-sought-precedes-existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). implying equivalence between the prior/transcended/superseded and the prospective/transcending/superseding’. It is rather about the precedingness/supersedingness/ascendency of the latter in transversality~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ and inequivalence with the former. For instance the factual ontological-primemovers-totalitative-framework /effectiveness validations of say a chemistry mindset/ reference-of-thought (with demonstrations of chemistry principles by chemical reactions producing elements and compounds) say in a non-positivism/medievalism setup prone to alchemy and essences-driven explanations ‘is not and cannot be construed as a ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’ validation as of alchemic mindset/ reference-of-thought’ but rather ‘a chemistry scientific mindset/ reference-of-thought validation’, critically because the issue is fundamentally not most critically about the specific occurrent/case validations of chemistry principles but rather about the dementative/structural/paradigmatic non-positivism/medievalism alchemy and essences-driven explanations defective mindset/ reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mental-disposition reflex with respect to metaphorically-as-of-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of interpretive defects that may arise from such non-positivism/medievalism mindset/ reference-of-thought based on alchemy and essences-driven explanations given its relative-ontological-incompleteness-induced,-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism’. Thus wrongly implying that a contending engagement between the two is of

profound-supererogation\textsuperscript{97}, ‘wrongly elevates and validates the non-positivism/medievalism mindset/reference-of-thought’ as the mindset/reference-of-thought of contention, as such a possibility of contending engagement from the chemistry mindset/reference-of-thought is about harkening rather to a de-mentative/structural/paradigmatic and apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) of the alchemy and essences-driven explanations mindset/reference-of-thought reflex for the ascendency of a positivistic chemistry registry-worldview reflex as of its prospective relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought as it addresses the former defect of \textsuperscript{4}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/metaphysics-of-presence\textsuperscript{[implicated-nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ]}\textsuperscript{13}\textsuperscript{19} and thus provides the possibility for resolving metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of defects of that non-positivism/medievalism mindset/reference-of-thought based on alchemy and essences-driven explanations given its relative-ontological-incompleteness\textsuperscript{89}-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97}-as-to–attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism’. This insight equally comes to the mind as we can equally imagine that a mere demonstration or demonstrations of positivistic meaningfulness effectiveness/ontological-primemovers-totalitative-framework\textsuperscript{73} in say a base-institutionalisation/animistic social-setup or non-positivism/medievalism social-setup to their approbation is not a sufficient basis to imply that they are thereafter of positivistic mindset/reference-of-thought and to be engaged with as of \textsuperscript{5}logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{97}, as any such positivistic demonstration pertinence is not about its factual effectiveness approbation in the base-institutionalisation/animistic social-setup per se.

the implied registry-worldview/dimension in their respective institutionalisation state (as candored/straight and postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism/dialectically-or-contendingly in-phase) and their uninstitutionalised-threshold state (in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{103} <as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism> as decandored/oblongated and preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/dialectically-or-contendingly out-of-phase). The notion of ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ as being of true transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity can be further elucidated with regards to two remarkable historical developments which while inherently exceptional, to say the least, aren’t truly transcendental. Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated ‘extended rationalism’ right up to the present. Kantian supposed transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity (Copernican revolution) is not eliciting a ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ of ‘<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–(by-a-renewing-of-apriorising/axiomatising/referencing–

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument); and wherein the
successive mindsets/references-of-thought and institutionalisations are suprastructural to each other
(beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought). Insightfully, this highlights that human mentation capacity is in a
dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening.
It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to
establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existent-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences)
cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/achemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory-de-mentativity). But then it is more the case that from an amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied herein as of limited-mentation-capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human amplituding/formative–epistemicity totalising–purview-of-construal’ as superseding–oneness-of-ontology as an all-encompassing perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally enabled by developing human
shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules—apriorising/axiomatising/referencing–psychologism,~as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening , as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psyche as ‘<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling⟨by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology⟩’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating/supererogatory–de-mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science
psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument relationship to ontological-prime-movers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity construction having to do with an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.
Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger ‘transcendental-enabling/sublimating/supererogatory–de-mentativity positivism psyche-and-thereof-philosophy’ (construed rather as of an organic depth of ontological coherence/contiguity that is de-mentatively/structurally/paradigmatically transcendental-enabling/sublimating/supererogatory–de-mentativity contiguously as from the deeper apriorising/axiomatising/referencing enabling/sublimating/supererogatory–de-mentativity of positivism ‘transcendental-psyche-and-thereof-philosophy’ and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualised/construed relations), and so as of its \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}. The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not

Since we can perfectly conceptualise with both \(8^4\) reference-of-thought the articulation of coherent \(5^6\) meaningfulness-and-teleology respectively in non-positivism terms–as-of-axiomatic-constructs and non-deprocrypticism/procrypticism terms–as-of-axiomatic-constructs, or rather in terms–as-of-axiomatic-construct that do not grasp de-mentatively/structurally/paradigmatically the respective \(8^4\) reference-of-thought organic grounding as of underlying ontological-normalcy/postconvergence implications, and so beyond just a question of vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualised/construed relations. because beyond just ‘human conscious willing’, transcendence-and-

However at uninstitutionalised-threshold11, the notion of intemporality52-asymmetric-subsumption-of-temporality52/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded84-reference-of-thought–categorical-imperatives/axioms/registry-teleology100 inclined beyond-the-consciousness-awareness-teleology100–<in-existential-extrication-as-of-existential-unthought>5 to uphold meaningfulness-and-teleology100 as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness84-reference-of-thought will certainly grasp the pertinence of intemporality52-asymmetric-subsumption-of-temporality52/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-to-conflatedness12 aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness84-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendentally-enabling-level–of-ontological-good-faith/authenticity69/objectification/desubjectification-as-objectification–<as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism>101 56 meaningfulness-and-teleology100 construal for a sounder and sounder relationship with intrinsic-reality/ontological-veridicality. This equally explicates the empirical reality associated with the occurrence of human transcendence-and-sublimity/sublimation/supererogatory/de-mentativity crossgenerationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ to take hold. Hence the notion of ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-or-

on-ontological-completeness as depth-of-thought’) in its relationship with additionality (as elaboration-as-mere-
unconsciously, expediently or consciously) is a sufficient basis so long as it is socially-functional-and-accordant\(^8\) such that the possibility of blurring or undermining existential-reality by ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’\(^9\)‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing \textit{apriorising-psychologism}\(^8\)reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity\(^9\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness ‘of reference-of-thought’ devolving-as-of-instantiative-context as to existence-potency\(^8\)–sublimating–nascence, disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ is just as valid, hence a failure to abstractly recognise intemporal \(/\)longness as of-existential-reality with the implication thereof as perversion-and-derived–perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\) with respect to the registry-worldview’s/dimension’s vices-and-impediments\(^9\) implied by its implied relative-ontological-incompleteness\(^9\)-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’\(^9\)‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing \textit{apriorising-psychologism}\(^8\)’. Hence the reason why the vices-and-impediments\(^9\) inherent of a given registry-worldview/dimension cannot be de-mentatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of\(^8\)reference-of-thought structured to inherently supersede such vices-and-impediments\(^9\), whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, \(^9\)universalisation superseding base-institutionalisation–
ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and deprocrypticism superseding positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-references-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/superceratory-de-mentativity over any temporal extricatory preconverging–de-mentating/structuring/paradigmizing, however, the enculturation and mass thinking behind temporal extricatory preconverging–de-mentating/structuring/paradigmizing. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of-meaningfulness-and-teleology, that can accrue at least incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendental/transdimensional/interdimensional maximalising-recomposuring-for-relative-ontological-completeness’–unenframed-conceptualisation analysis as metaphysics-of-absence-{implicit-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>}/postdication). Finally, thus it is critical to note that the existential contextualisation above as ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought’s-devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘postconverging-or-dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought’) is a priori and supersedes the mere notion of additionality as elaboration-as-mere-

This is certainly because emanantly/becomingly/solipsistically

Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness—induced,—‘threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation ’<as-to—’attendant—intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism>’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-mediievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Obviously we can appreciate that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism> in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. of notions-and-accusations-of-sorcery, and ad-hoc tempering with medieval postlogism as instances of notions-and-accusations-of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct de-mentative/structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void ’-with-regards-to-prospective-apriorising-implications)> with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism>’ and accessorially its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a
'dereifying act', then spills water on a chair and goes and tells dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism in that a child who has a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’ or prelogism is ad-hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don’t initiate such a situation ‘as a rational way of thinking’ and even less to the gravity that the psychopath does. One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (‘poor or bad supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism’), whether by omitting or exaggerating in a circumspect and ad-hoc manner but relative to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of—the registry-worldview’s/dimension’s—reference-of-thought—devolving-as-of-instantiative-context. What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by subknowledging—or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism—as-of-conviction,—in-profound-supererogation—existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind’, i.e. the psychopath is 'narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism on narratives but rather simply ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation conjugated-postlogism/preconverging-or-dementing—integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism and hence
the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating/supererogatory-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adopter by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-compulsing–nonconversion/madeupness/bottomlining–(‘decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing’–induced-disontologising’–of-the–
attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical–
thinking—apriorising-psychologism’) as with a lie the implied–logical-dueness (with the corresponding implied–reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing–or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do
not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-compulsing-nonconviction/madeupness/bottomlining-‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>,-in-shallow-supererogation -<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>’ with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-

{‘<decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of-the—‘attendant—intradimensional—ontologising’—imbued—<contextualising/existentialising—attendant-ontological-contiguity>—in-shallow-supererogation—<disontologising-perverted-outcome—sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness>)} explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s—
reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought\textsuperscript{84}-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity\textsuperscript{39}-s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought\textsuperscript{84}-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation\textsuperscript{97}-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity\textsuperscript{39}-s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought\textsuperscript{84}-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism\textsuperscript{19}/preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively\textsuperscript{104}universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}—of–‘attendant-intradimensional’-postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation\textsuperscript{97}-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}—of–‘attendant-intradimensional’-

A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge\textsuperscript{12} due to psychopathic developmental failure to relate to meaningfulness as of prelogism \textsuperscript{7}—as-of-conviction, in-profound-supererogation \textsuperscript{97}—<existentially-veridical—‘attendant-intradimensional–apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors prelogic supplanting–conviction-as-to-profound-supererogation \textsuperscript{97}—of–‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{20}–apriorising-psychologism alignment to its postlogic \textsuperscript{10} compulsion–nonconviction/madeupness/bottomlining \textsuperscript{97}〈<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing>–induced–disontologising–of–the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>–in-shallow–supererogation –<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness⟩ narratives whereas at childhood psychopathy interlocutors will not align in-prelogic supplanting–conviction-as-to-profound-supererogation \textsuperscript{97}—of–‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{20}–apriorising-psychologismly (in order not to wrongly conjoin the psychopathic postlogic slanting narratives as deception-of-successively-shifting-or-

Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing—apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied—reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity—reference-of-thought/preconverging-or-dementing—apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity—reference-of-thought. Insightfully, it points out as well that the basis of the postlogism /psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness–precedes-disontologising-logical-outcome-arrived-at> interlocutor mental engagement reflex who ‘aligns in-conviction-as-to-profound-supererogation’ as it will ‘normally do’ with other prelogic

This induced deception does not
however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity\(^3\) by its dereification\(^7\) on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting–conviction-as-to-profound-supererogation\(^7\) —of-‘attendant-intradimensional’-postconverging/dialectical-thinking\(^{10}\)–apriorising-psychologism dispositions in existential-contextualising-contiguity\(^{10}\), however bad-or-poor their ontological-performance\(^{72}\) -<including-virtue-as-ontology> of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking\(^{10}\)–apriorising-psychologism mental-processing. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ as to inducing the interlocutors reifying perception of the psychopath’s dereifying projection of existential-contextualising-contiguity\textsuperscript{39} is socially inefficacious and trouble-inducing giving the deliriousness effect from\textsuperscript{104} universal-transparency\textsuperscript{105}\{transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{45}\langle amplituding/formative-epistemicity\rangle totalising~in-relative-ontological-completeness \} of its acts, at adulthood psychopathy the lack of such\textsuperscript{104} universal-transparency\textsuperscript{105}\{transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{45}\langle amplituding/formative-epistemicity\rangle totalising~in-relative-ontological-completeness \} of the postlogism\textsuperscript{78}-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity\textsuperscript{39}, giving the psychopath life-long learnedness and adaptation from its childhood.

But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, as the induced ‘lack of constraining social universal-transparency\textsuperscript{6}\{transparency-of-totalising-entailing,as-to-entailing\}<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\textsuperscript{6} with respect to intrinsic meaningfulness further elicits supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy, as the fact is the psychopath is very much pathological and tends to act compulsively in its faulty-mentation-procedure-deception as of circumstantiality.

[This is more profoundly exposed in the conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as it induces ‘socially-functional-and-accordant\textsuperscript{64} 1 reference-of-thought as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor; that can be elucidated by an

uninstitutionalised-threshold (reflecting uninstitutionalised-threshold), is now substituted (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective of the prospective registry-worldview/dimension institutionalisation reference-of-thought) by its ‘decentering and dialectical-de-mentation of its reference-of-thought’; which we can effectively acquiesce to as of the uninstitutionalised-threshold but will rather have a mental complex when this is implied prospectively to imply our uninstitutionalised-threshold as procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure as to historiality/ontological-eventfulness /ontological-aesthetic-tracing->perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation-ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation,
perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing’—apriorising-psychologism’ as of their relative-ontological-incompleteness—of—reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional—deprocrypticism as decentering and preconverging-or-dementing—apriorising-psychologism the positivism—procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of—the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the notional—deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaningfulness from the prior (and even lower) registry-worldview’s/dimension’s reference-of-thought psychologism up to its own registry-worldview’s/dimension’s

thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold \[03\]–defect-\(<-as\text{-}Being-or-ontological-or-existential–defect>\)[36], so construed in order to supersedes its preconverging–dementating/structuring/paradigming vices-and-impediments\[106\]. Structural/paradigmatically/dementatively, this idea extends to all issues implying metaphysics-of-absence\(\langle\text{implicitied-epistemic-veracity-of- nonpresencing-}<\text{perspective–ontological-normalcy/postconvergence}\rangle\) ‘human temporal uninstitutionalised-threshold\[03\] mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening\[53\] as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural-~psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental \[56\] meaningfulness-and-teleology\[100\]. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at the least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a
bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in
adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the
supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious
effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic
conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond
construing idealism as the supernatural but as a complement to more and more profound
realistic understanding and purposefulness in existence, but then having to readjust such
idealism wherein the real as of its critical import to critical existence issues increasingly comes
to take presence as of its effectiveness. Such that as construed today, human history overall has
been an exercise in toning down the grander notion of idealism as of notions of the
supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or
superseding of such notions with an effectiveness-driven realism leading to a general and
increasing elevation of knowledge as the-human-and-social-emancipator, the present
ascendency of philosophies increasingly concerned with the human realities of existence
(strongly so, lately with such movements as positivism, phenomenology, existentialism and
post-structuralism) and science in all its facets whether physical, biological or social, as well as
a human-centeredness of arts and culture. Rational-realism is grounded on this historic
empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the
premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-
primemovers-totalitative-framework’ that has accompanied human limited-mentation-
capacity-deepening in construing/conceptualising meaningfulness-and-teleology.
Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-
mentation-capacity-deepening that actually is behind all threshold-of-

psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of de-mentative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence \{\text{implicated-`nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness}\} and metaphysics-of-absence \{\text{implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normaley/postconvergence>}\} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that
all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms—as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms—as-of-axiomatic-construct of positivistic psychologism to imply that the

Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day,
such that social universal-transparency \textsuperscript{104} transparency-of-totalising-entailing-as-to-entailing- \textsuperscript{104} amplituding-formative-epistemicity totalising-in-relative-ontological-completeness required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold \textsuperscript{103}, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold’ \textsuperscript{103} mental-disposition’ as of existential-contextualising-contiguity\textsuperscript{197}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{197} of reference-of-thought\textsuperscript{197} devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the wooden-language\textsuperscript{19} imbedded—temporal—mere-form/virtualities/dereification akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology \textsuperscript{20} (failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening\textsuperscript{53} by a re-equilibrating metaphysics-of-absence\textsuperscript{59} implicit—epistemic-veracity-of—nonpresencing-perspective—ontological-normalcy/postconvergence\textsuperscript{2106} postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence\textsuperscript{59} implicit—epistemic-veracity-of—nonpresencing-perspective—ontological-normalcy/postconvergence postdication)
of the notion of ‘human temporal uninstitutionalised-threshold’ that dementatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be raped because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant -threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-’ reference-of-thought-as-of- incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation-inducing-the-uninstitutionalised-threshold in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-’ reference-of-thought-as-of- maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of—meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective
institutionalisations (out of-human intemporality) with the latter enabling
<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of
defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the
holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain
domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology
responsibilities’), the social-construct conventioning cannot and should not be considered and
related to as an absolute determinant of meaningfulness, value and worth as it is more of a
conventioning however ontologically-informed the conventioning, and ‘the need for the social-
construct further development requires that it can utterly be put into question by pure-ontology
apriorising/axiomatising/referencing—conflatedness with no conventioning complexes’! (As a
reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and
the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-
of-being construct, such that it is important to grasp that all notions articulated herein are
ontological, just as the notions of the being domains-of-study of the natural world are
ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the
social world should not naively imply a construct that isn’t ontological or otherwise, as in both
instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as an otherness from any emotional-involvement/subjectification/notional
This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability social-functioning-and-accordance—as-of–social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an ontologically-contiguous ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’. This reality of our \(^{84}\)reference-of-thought–prelogism\(^{79}\)-as-of-conviction,-in-profound-supererogation\(^{77}\)-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold\(^{103}\) and as associated with postlogism\(^{78}\) as conjugated-postlogism\(^{78}\) is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{78}\)-<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly \(^{84}\)reference-of-thought–prelogism\(^{79}\)-as-of-conviction,-in-profound-supererogation\(^{77}\)-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^{78}\)-<as-to–

Such a distinction particular at the uninstitutionalised-threshold\(^{103}\) is required because it then implies ontologically the relegation
of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the\(^\circ\)reference-of-thought as of \(^\circ\)reference-of-thought–\(^\circ\)categorical-imperatives/axioms/registry-teleology\(^0\) in the first place to establish or not perversion-and-derived-\(^\circ\)perversion-of\(^\circ\)reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \(>\). This delineation is in line with the idea of human temporal (shortness-of-register-of\(^\circ\)meaningfulness-and-teleology\(^0\)) to intemporal (longness-of-register-of\(^\circ\)meaningfulness-and-teleology\(^0\)) individuations nature as implicitly recognised in the preconverging/postconverging–dementating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that \(^0\)meaningfulness-and-teleology\(^0\) construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of \(^\circ\)reference-of-thought–prelogism -as-of-conviction,-in-profound-supererogation \(<\text{existentially-veridical–}{‘\text{attendant–intradimensional–apriorising}}\text{–axiomatising/referencing’–}\text{logical-dueness-precedes-disontologising-logical-outcome-arrived-at}>\) as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold \(0,5\)’ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(<\text{as-to-‘\text{attendant–intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising–psychologism}}\) mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(<\text{as-to-‘\text{attendant–intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising–}}\)
interlocutors to act as of subpar (threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(<\text{as-to-}^{\text{attendant-intradimensional}}\)-prospectively-disontologising–preconverging/dementing \(<\text{apriorising-psychologism}>\)) with regards to reference-of-thought–prologism \(<\text{as-of-conviction,}-\text{in-profound-supererogation}^{\text{as-to-}}\text{existentially-veridical–}^{\text{attendant-intradimensional–apriorising/axiomatising/referencing}}\)-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>. This will explain why the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \(<\text{as-to-}\text{attendant-intradimensional}^{\text{prospectively-disontologising–preconverging/dementing}}\text{apriorising-psychologism}>\) within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency \(\langle\text{transparency-of-totalising-entailing,-as-to-entailing}\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\) knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness \(<\text{as-of-}\text{reference-of-thought. This imbued potency in social universal-transparency}\langle\text{transparency-of-totalising-entailing,-as-to-entailing}\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\rangle\) across all registry-worldviews/dimensions is what explains the possibility of social transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of–social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed \(<\text{reference-of-thought–prologism}\text{as-of-conviction,}-\text{in-profound-supererogation}^{\text{as-to-}}\text{existentially-veridical–}^{\text{attendant-intradimensional–apriorising/axiomatising/referencing}}\)-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> to meaningfulness-and-teleology as of both
the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism as-of-compulsing–nonconviction/madeupness/bottomlining-'<decontextualising/de-

‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness> mindset
threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’-<as-to-
‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing—apriorising-psychologism> arises out of its temporal individuation’s surreptitiousness (‘lack of
constraining social universal-transparency’-{transparency-of-totalising-entailing,-as-to-
entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-

in-shallow-supererogation–<as-to–‘attendant-intradimensional’–prospectively-
disontologising–preconverging/dementing —apriorising-psychologism> rule) as of marginal
social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-
incompleteness’-of- reference-of-thought as social procrypticism–or–disjointedness-as-of-
reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-
supererogation. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory preconverging–de-mentating/structuring/paradigming, and not by ontological-veridicality insight as of de-mentative/structural/paradigmatic causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-}<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness of reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness of reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness of reference-of-thought induced distinctive-alignment-to reference-of-thought-apriorising/axiomatising/referencing—and override any such sense of relative pure-ontology apriorising/axiomatising/referencing—conflatedness as of prospective relative-ontological-completeness of reference-of-thought apriorising/axiomatising/referencing—conflatedness ). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of
meaningfulness-and-teleology\textsuperscript{100} going by its prospective relative-ontological-completeness\textsuperscript{88} of-reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness\textsuperscript{89} of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness\textsuperscript{88} of-reference-of-thought had moved on to the new/prospective \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} which is now antipodal to his, hence his confliction with his circular-pervasiveness of-\textsuperscript{8}wooden-language\textsuperscript{⟨imbuéd—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩\textsuperscript{⟩} which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness of-\textsuperscript{8}wooden-language\textsuperscript{⟨imbuéd—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications⟩\textsuperscript{⟩} when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} construal where Nunez’s ‘seeing of the environment’ \textsuperscript{54}reference-of-thought as of it prospective relative-ontological-completeness\textsuperscript{88} of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ \textsuperscript{84}reference-of-thought as of its prior relative-ontological-incompleteness\textsuperscript{90}. This is because the
personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications} that hardly entertains its own transcendability/de-mentativity, and why transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather crossgenerational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought despite their respective inherent prior relative-ontological-incompleteness-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought of apriorising/axiomatising/referencing from an ontological-normalcy/postconvergence epistemic/notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’
reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more de-mentatively/structurally/paradigmatically, together with all other such demonstrations of the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence-and-
sublimity/sublimation/superrerogatory—de-mentativity/suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logic-implicitly—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{97} validity’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/\textsuperscript{74} reference-of-thought meaningfulness-and-teleology\textsuperscript{100} apriorising/axiomatising/referencing/intelligibilitysetu/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism \textsuperscript{45} amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought\textsuperscript{4} devolving-as-of-instantiative-context—meaningfulness-and-teleology\textsuperscript{100} apriorising/axiomatising/referencing/intelligibilitysetu/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold\textsuperscript{103} as of its ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{100} of reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening\textsuperscript{53} as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetu/measuringinstruments representing the successive registry-worldviews/dimensions\textsuperscript{84} reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology\textsuperscript{100}, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetu/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different successive registry-worldviews/dimensions for meaningfulness-and-teleology\textsuperscript{100}’), construed say at ‘sea-level-
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height 
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for 
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights 
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for 
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-
level-heights 
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for 
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty 
is that ‘no 
given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for 
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and 
by reflex circularly undertakes predicative-insights from its 
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and 
it is only the long run crossgenerational habituation construed as of \(|/\text{de-mentation}\) 
(supercerogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics) with the prior ontologically construed as decentered and preconverging-
or-dementing—apriorising-psychologism as of distractive-alignment-to-\(|/\text{reference-of-thought}\) <of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness 
doesn’t exist just as the logical-dueness of the animist \(|/\text{reference-of-thought with their God of 
plane proposition doesn’t ontologically exist.}) We can grasp as well that it is the ‘space-
satellite-level-height 
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for 
predicative-insights’ (deprocrypticism) that ultimately provides the ideal ‘ascertaining-
perspectives for gauging the overall earth landscape’. Besides, why the explication herein is
necessarily implying a prospective reference-of-thought (as the author in here with a supposed notional-deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness reference-of-thought over our positivism–procripticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procripticism uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology as of prospective deprocripticism–or–preempting–disjointedness-as-of reference-of-thought perspective as in disjointedness-as-of reference-of-thought and rather in distractive-alignment-to reference-of-thought<of-apriorising/axiomatising/referencing> ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-
conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{12}→self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature\textsuperscript{3} for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of \textsuperscript{84}reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of—meaningfulness-and-teleology\textsuperscript{100} as a shift of the curve-of-prospective-relative-ontological-completeness\textsuperscript{80}-of—reference-of-thought/axiomatic-construct and not a change in logic as a change along the same \textsuperscript{8}reference-of-thought/curve-of-prior-relative-ontological-incompleteness\textsuperscript{80}—reference-of-thought\textsuperscript{9}—logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{9}. In other words, a truly direct notional—deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging—or-dementing—apriorising-psychologism of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a non-positivistic \textsuperscript{84}reference-of-thought (as we don’t engage it on the basis of the non-positivistic \textsuperscript{84}reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100},—for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100} just as a notional—deprocrypticism analysis will not engage us on the basis of our procrypticism—or—disjointedness-as-of—reference-of-thought \textsuperscript{84}reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100},—for—aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100}, and so in both cases as of the relative ontologising-deficiency-relative-ontological-incompleteness—reference-of-thought of non-positivism and \textsuperscript{8}procrypticism—or—disjointedness-as-of—reference-of-thought). But then wholly carried out in both instances it
will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness’ reference-of-thought over prior relative-ontological-incompleteness reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of \(<\text{amplituding/formative–epistemicity}\)totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging–or–dementing apriorising-psychologism/not-thinking and decentered, and wrongfully trying

the more fundamental issue here is that human meaningfulness-and-teleology as of human
limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-
reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness\(^2\) of reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised-ununiversalised striving for universalisation, the universalised-non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening\(^2\) enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ and so allowed by de-mentation–(supererogatory–ontological–de-mentation–or-dialectical–de-mentation–stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\(^2\) of reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived- perversion-of-reference-of-thought—not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <amplituding/formative–epistemicity>totalising–self-referencing-
with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity within the framework in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism—procrypticism disjointedness-as-of—reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> naïve perpetuation in 
<amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments with both uninstitutionalised-threshold, thus explaining the fundamental dilemma of all institutional Establishments in their wooden-language
de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or—attributive-dialectics), which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness—
representation/mentation/consciousness-awareness-teleology\(^{100}\) of notional-deprocrpticism as of its prospective relative-ontological-completeness\(^{100}\)-of-\(\) reference-of-thought’ as ‘a postconverging-or-dialectical-thinking\(^{70}\)-and-centered-prospective-institutionalisation’s–
categorical-imperatives/axioms/registry-teleology\(^{100}\) placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology\(^{100}\) as soundness-or-ontological-
good-faith/authenticity\(^{100}\)-of-\(\) reference-of-thought’, we are rather less apt to concur going by our
<amplitudes/formative-epistemicity>totalising-self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag\(^\text{7}\) reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-
perversion-of-\(\) reference-of-thought<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as of our relative-
ontological-incompleteness\(^{100}\)-of-\(\) reference-of-thought, and what we are doing then is ‘re-
referencing from the same positivism–procrypticism relative-ontological-incompleteness’\(^{8}\)-of-
reference-of-thought’ and thus wrongly implying our unde-mentativity hence our untranscendability for a de-mentative/structural/paradigmatic \(\) reference-of-thought–
categorical-imperatives/axioms/registry-teleology\(^{100}\),-for-
aposteriorising/logicising/deriving/intelligising/measuring–\(\) meaningfulness-and-teleology\(^{100}\) of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring’, and paradoxically thus by implication that there is no relative-ontological-
incompleteness\(^{100}\)-of-\(\) reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology\(^{100}\) temporal/shortness-of-register-of–\(\) meaningfulness-and-teleology\(^{100}\) projection. This insight explains the bizarreness we face from time to time discovering that even institutions we
imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/articulated above as of de-mentative/structural/paradigmatic nature of the-Good/understanding/knowledge-reification /ontological-prime-movers-totalitative-framework construal/conceptualisation, and not naïve at best palliative constructions in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview’s/dimension’s reference-of-thought is inherently a metaphysics-of-presence- implied-'nondescript/ignorable-void 'as-to- presencing—absolutising-identitive-constitutedness } construed as postconverging-or-dialectical-thinking -and-centered-prospective-institutionalisation’s—categorical-imperatives/axioms/registry-teleology soundness-or-ontological-good-faith/authenticity -of- reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence—implicated-epistemic-veracity-of non-presencing—perspective-ontological-normalcy/postconvergence> construals/conceptualisations as implied by prospective relative completeness-of reference-of-thought which rather construes it as a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness—reference-of-thought and a prospective relative-ontological-completeness—reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing—and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought by the latter as a postconverging-or-dialectical-thinking—and-centered-prospective-institutionalisation’s—
valid by default. This point out that there is necessarily a central growth element of a de-
mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00},-for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic amplituding/formative–epistemicity–causality–as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{67} of vices-and-impediments\textsuperscript{06} of our prior relative-ontological-incompleteness\textsuperscript{95}–of–reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of’ meaningfulness-and-teleology\textsuperscript{100}, which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{32}–self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as
impropriety, as a <amplituding/formative> wooden-language-{imbued—averaging-of-thought-

arising when we temporally carve away statuses out of the reach of ontological contention
making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any
such occasion, ontological-veridicality as of notional~deprocrypticism prospective relative-
ontological-completeness ‘of— reference-of-thought is restored by doing away with
‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-
in’/preconverging-or-dementing –apriorising-psychologism of positivism–procrypticism
meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of
disjointedness-as-of—reference-of-thought from notional~deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on
relating to the plane as God of plane to a point implying their potential non-transcendability as
of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-
truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing –apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a
demonstration might be construed as of a simple paper plane demonstration of ontological-
primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck
with explanation or more extensively articulating that things work by natural causes and effects
with no spirits inside them thus implying that a positivism-centered meaningfulness-and-
teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-
or-dementing –apriorising-psychologism demonstration with regards to our procrypticism
reference-of-thought as of its disjointedness-as-of—reference-of-thought construed from a
notional~deprocrypticism reference-of-thought perspective or
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights will look weird to us going by our circularly pervasive
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag procripticism–or–disjointedness-as-of-
reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we
are unhabituated to it since it is beyond-the-consciousness-awareness-teleology and not yet by social
universal-transparency {(transparency-of-totalising-entailing–as-to-entailing–}<amplituding/formative–

the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness of reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-
uninstitutionalisation, implying universalisation in base-institutionalisation–
ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and
suggesting notional–deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-

subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework and percolation-channelling-in-deferential-formalisation-transference involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for notional–deprocrypticism ‘without in the very least entertaining’ the wooden-language- (imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology - as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) mental-reflex as has been the case across all the institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) that has always been a drawback as of temporal extricatory preconverging–dementating/structuring/paradigming and parasitising/co-opting inclination subpar to the warranted onontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality perpetually upholding the currency in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process across-the-times; as at this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the transcendental prospective positivism prospective relative-ontological-completeness—of-’reference-of-thought will not be convincing on a par with other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of–meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of
the type oneself or another person is not involved in sorcery or a counterargument that the
accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-
on-ontological-incompleteness-ref-reference-of-thought, to-be-more-convincing-on-a-par-with-
other-argumentators in that non-positivism social-setup (but then all this will wrongfully
validate superstition and thus fail the very point of ontology/aetiologisation/ontological-
escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory-de-mentativity as intemporality-asymmetric-
subsumption-of-temporality-asymmetrisation and not a temporal extrication exercise of
‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect

amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus
there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the
short run for undermining the postlogism-and-conjugated-postlogism as notions-and-
accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior
relative-ontological-incompleteness-ref-reference-of-thought social referencing of
meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that
any argumentator putting into question superstitiousness like there is nothing like sorcery is
‘shooting itself on the foot’ in the short run. It is rather the long run crossgenerational resolution
construed as of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-
mentation-stranding-or-attributive-dialectics) by superseding the prior non-positivism prior
relative-ontological-incompleteness-ref-reference-of-thought as of the prospective positivism
registry-worldview/dimension prospective relative-ontological-completeness-ref-reference-of-thought by ‘continuous habituation going by the latter’s ontological-primemovers-
totalitative-framework in the long run as superseding the prior beyond-the-consciousness-
awareness-teleology\(\text{\textsuperscript{\textcircled{6}}}\)<in-existential-extrication-as-of-existential-unthought>\(\text{\textsuperscript{5}}\) and initiating the appropriate prospective social \(\text{\textsuperscript{10}}\) universal-transparency\(\text{\textsuperscript{10}}\)-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } that will de-mentatively/structurally/paradigmatically harken back to undermine the postlogism -and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-incompleteness\(\text{\textsuperscript{8}}\)-of-reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism–or–disjointedness-as-of-reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of meaningfulness-and-teleology\(\text{\textsuperscript{10}}\) as conceptualising, articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-teleology\(\text{\textsuperscript{10}}\) of our positivism–procrypticism that is the de-mentative/structural/paradigmatic resolution as of prospective relative-ontological-completeness -of-reference-of-thought that can de-mentatively/structurally/paradigmatically harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-reference-of-thought’ and the enculturation/endemisation of the manifest postlogism -and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of meaningfulness-and-teleology\(\text{\textsuperscript{10}}\), beyond-the-consciousness-awareness-teleology\(\text{\textsuperscript{10}}\)-<in-existential-extrication-as-of-existential-unthought>\(\text{\textsuperscript{6}}\), and hence overlooking the de-mentative/structural/paradigmatic
ontological vices-and-impediments including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/'epistemic-projection-in-conflatedness'-of-notional-deprocrypticism-prospective-sublimation) ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} at a crossgenerational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} turn out to be better and possibly leading to the dismantling of the prior and vested and attendant interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview’s/dimension’s threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism> (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and preconverging-ordementing –apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (as an operant construal) of its institutionalisation is what defines it as

enunframed-conceptualisation, and so with hardly any consequence for our methodological
imprecision/inexactitude where the established/institutionalised reference-of-thought—
categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100} is not ontologically superseded as at uninstitutionalised-threshold\textsuperscript{103}. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold\textsuperscript{103}. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{55}—unenframed-conceptualisation) of a reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100} as of apriorising/axiomatising/referencing—conflation that enables such a certitude at uninstitutionalised-threshold\textsuperscript{103} of an epistemic-totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that of the social at uninstitutionalised-threshold\textsuperscript{103} involves a totalising-entailing/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency~aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued~notional~firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor but we fail to do this due to our disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnatured institutionalisation which while inconsequential within the ambi
institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold ⁰³ with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence-{implicit-epistemic-verity-of- nonpresencing—perspective—ontological-normancy/postconvergence} as its reference-of-thought—categorical-imperatives/axioms/registry-teleology ⁰⁰—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology ¹⁰⁰. The implication is that postlogism /psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold ⁰³ are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the apriorising/axiomatising/referencing—to-conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by apriorising/axiomatising/referencing—to-conflatedness ¹² to establish the uninstitutionalised-threshold ⁰³ reference-of-thought—categorical-imperatives/axioms/registry-teleology ¹⁰⁰—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology ¹⁰⁰ rather as of maximalising-recomposing-for-relative-ontological-completeness ⁵⁵—unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposing to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold ⁰³, and so over the mental-reflex of assuming secondnatured institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ¹⁹ (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposing out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s
institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold\textsuperscript{103} which require their own new specific \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{100}. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social\textsuperscript{104}universal-transparency\textsuperscript{100}–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness\textsuperscript{45}) level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold\textsuperscript{103} situation which is necessarily beyond-the-consciousness-awareness-teleology\textsuperscript{100}–(<in-existential-extrication-as-of-existential-unthought> and without social\textsuperscript{100}universal-transparency\textsuperscript{105}–(transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity-totalising–in-relative-ontological-completeness\textsuperscript{45}) of the visitor. This example is exactly along the lines of the\textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} needed for construing postlogism\textsuperscript{105}/psychopathy and conjugated-postlogism\textsuperscript{105} as of its social model at uninstitutionalised-threshold\textsuperscript{103}, and so by way of\textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{104}—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity\textsuperscript{100}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{84}–of–reference-of-
thought\textsuperscript{85} devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{10} which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{10} on the basis of the established \textsuperscript{84} reference-of-thought–
categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, -for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100}.

Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social \textsuperscript{1} meaningfulness-and-teleology\textsuperscript{100} before the institutionalisation of such a specific uninstitutionalised-threshold\textsuperscript{10} takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existent-contextualising-contiguity\textsuperscript{10}. At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or ‘disjointedness-as-of-\textsuperscript{84} reference-of-thought’–as-misappropriated–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} going by the visitor’s relative-ontological-incompleteness\textsuperscript{10}–of-\textsuperscript{84} reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional–deprocrypticism \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, -for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} to preempt the induced procrypticism or ‘disjointedness-as-of-\textsuperscript{84} reference-of-
thought’-as-misappropriated–meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of- reference-of-thought’-as-misappropriated–meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism /psychopathic personalities development from childhood to adulthood together with the implications of

conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportumism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} by formality dynamics; with the implication of lack of social universal-transparency (transparency-of-totalising-entailing-as-to-entailing-amplituding/formative-epistemicity-totalising-in-relative-ontological-completeness) as the manifestation is beyond-the-consciousness-awareness-teleology-{in-existential-extrication-as-of-existential-unthought} at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-{perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional–deprocrypticism {reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology} that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of’ reference-of-thought’-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of amplituding/formative-epistemicity-totalising-self-referencing-syncretising/illusion-of-the-present/present-

(Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the ‘lived social’ as of the aforementioned implied notional-deprocrypticism\⁵⁴ reference-of-thought—\⁵⁵ categorical-imperatives/axioms/registry-teleology\⁹⁰—for-aposteriorising/logicising/deriving/intelligising/measuring—\⁵⁶ meaningfulness-and-teleology\¹⁰⁰ construing a storied-construct/ontologically-valid-narration driven by such postlogism /psychopathic associated vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledge\⁵⁸ maturation/indirectness/spatialisation/credulity/craftiness induced narration-construed-as-instantiative-moulting involving childhood psychopathy to adulthood psychopathy development, and corresponding evolving of social relations as of dynamic-cumulative-aftereffect ‘disjointedness-as-of\⁵⁴ reference-of-thought’-misappropriated—\⁵⁶ meaningfulness-and-teleology\¹⁰⁰ involving \¹⁰ compelling–nonconviction/madeupness/bottomlining\〈\{‘-decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued<-contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation\}-<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness\}〉 as of psychopathic/postlogism\⁷⁸–\⁵ categorical-imperatives/axioms/registry-teleology\¹⁰⁰—for-aposteriorising/logicising/deriving/intelligising/measuring—\⁵⁶ meaningfulness-and-teleology\¹⁰⁰ as–prologism\⁶¹-as-of-conviction,-in-profound-supererogation\⁸⁷<-existentially-veridical–

However, we can still get a sense of such de-mentative/structural/paradigmatic ~amplituding/ formative–epistemicity~causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness of reference-of-thought perspective but it is more difficult to grasp from a notional–deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing –apriorising-psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness of reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness of reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of

social-setup is not truly speaking an isolated phenomenon as construed from an individuation-

Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrystalism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity—in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity—profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema>—with superstitious claims in its meaningfulness-and-teleology. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism’—as-of-conviction,-in-profound-supererogation—existentially-veridical—attendant-intrdimensional—apriorising/axiomatising/referencing—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> apriorising/axiomatising/referencing—confatedness as of positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism\textsuperscript{78}/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>\textsuperscript{9} as undermining apriorising/axiomatising/referencing—conflatedness\textsuperscript{10} induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness\textsuperscript{89}-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism\textsuperscript{78} as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed \textcolor{blue}{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the
fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy. The explainer of the situation ‘as of its reference-of-thought prelogism as-of-conviction, in-profound-supererogation -<existentially-veridical- ‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’ /asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the apriorising/axiomatising/referencing—conflicatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness reference-of-thought as not factoring in the childhood psychopathy postlogism as-of- compelling–nonconviction/madeupness/bottomlining-

objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of many a natural sciences <amplituding/formative–epistemicity>totalising–devolved–purview–as-domain-of-construal–as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment is wrong, such an insight about the supposedly coherent ontological-commitment being wholly construed as of its ‘very own veracity/ontological-pertinence as of any of its objectifiable contexts’ can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction that permeates the study of the social as of its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction, and so as of a

The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z … will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation” as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability is circumstantially relevant even in our positivistic registry-worldview wherein ‘lack of constraining social universal-transparency—{transparency-of-totalising-entailing,-as-to-entailing-

as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between ‘cumulated institutionalisation’ (which we carry by being secondnatured at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^6\) of the human-institutionalisation-process\(^\_\_\_\) as of human limited-mentation-capacity-deepening\(^\_\_\_\) leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality \(^5\)/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same ‘human temporal uninstitutionalised-threshold\(^0\) mental-disposition’ as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold\(^\_\_\_\), which choices when of intemporality\(^5\)-drive solipsistic-choices are \(^5\) maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation leading to prospective institutionalisations. This notion of human mental-disposition and by extension \(^5\) meaningfulness-and-teleology\(^\_\_\_\) as comprising, rather as a more complete and grander conceptualisation, a registry-worldview’s/dimension’s institutionalisation-facet and an uninstitutionalised-threshold\(^0\) facet, so-construed by metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩\}, carries institutionalisation and uninstitutionalised-threshold\(^0\) implications with respect to the determination of ontologically-veridical \(^5\) meaningfulness-and-teleology\(^\_\_\_\) as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supernumerate→de-mentativity. Such metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩\} considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-
threshold implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as ‘moultong’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity, by such
intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-in-deferential-formalisation-transference possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-in-deferential-formalisation-transference and transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity that induces social
deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal wooden-language-{imbued—averaging-of-thought—<as-to-

dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness—of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality—(susceptible-to-effecting-
parsimony—as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology) as of its free-for-all nature. The bigger point being that even in our positivism–procrypticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-
mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad
spheres of other formal constructs including officialdoms, and as specific in this instance as
with regards to our understanding of psychopathy) that are spurious and blurry, these are often
not socially related to in profound knowledge/scientific meaningfulness and teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal

‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-
dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void '-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendentenal-enabling/sublimating/supererogatory—de—mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void '-with-regards-to-prospective-apriorising-implications>} mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism event phenomenon including psychopathy on the assumption of an overall ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence-{implicit—'nondescript/ignorable—void ’-as-to-presencing—absolutising-identitive-constitutedness } instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence-{implicit—epistemic-veracity-of—nonpresencing—perspective—ontological-normalecy/postconvergence}, since the construal of our postlogism as of psychopathy and
social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional-projective-perspective, reflected from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence–{implicitied-epistemic-veracity-of-nonpresencing–<perspective–ontological-normalcy/postconvergence>–} we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the wooden-language–{imbued–averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications–} in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–de-
mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-conjugatively-and-transfusively-the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism}, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for notional–deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism} or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of

than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an
individual of a positivistic insight found themselves in a non-positivistic community, whether
base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness ‘-of-’ reference-of-thought, by ‘intemporal-prioritisation-of-’ reference-of-thought’–as-conflatedness’–or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation intemporality-drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity—in-reification/dereification as of their prior relative-ontological-incompleteness–of-reference-of-thought, contrasted with the positivist naturalist conception of existential-
contextualising-contiguity\textsuperscript{39} in-reification\textsuperscript{39} as-seeking-a-cure as of its prospective relative-ontological-completeness\textsuperscript{87} of reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness\textsuperscript{88} of reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity\textsuperscript{39} reification\textsuperscript{39} as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity profound-supererogation\textsuperscript{97} of mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology\textsuperscript{100} as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <amplituding-formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1}; with the implication that such
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\(^1\) as of reasoning-through/messianic-reasoning contortion is rather in transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^2\) of the prior relative-ontological-incompleteness\(^3\)–of-reference-of-thought and the contorted prospective relative-ontological-completeness\(^4\)–of-reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness\(^5\)–of-reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism\(^1\) as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness\(^3\)–of-reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness\(^5\)–of-reference-of-thought but for the induced crossgenerational transcendental metaphoricity\(^6\) possibility, and the contortion is more of a token as of the metaphoricity\(^6\) possibility for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and without which token contortion there is ‘no existential reference for such transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’, as a gesturing of metaphoricity\(^7\) that is ‘beyond the prior relative-ontological-incompleteness\(^3\)–of-reference-of-thought full meaningfulness-and-teleology\(^8\) implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity\(^7\) possibility for prospective relative-ontological-completeness\(^5\)–of-reference-of-thought’; as transcendental
instigation can’t be of ordinary inclination at one moment and at another moment
transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied

sublimity/sublimation/supererogatory-de-mentativity into the ordinariness of prior relative-

Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality reference-of-thought/epistemic-totalising self-referencing—
syncretising/circularity conception of meaningfulness-and-teleology which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism amplituding/formative–epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness(epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>projected epistemic-immanence/veridical-epistemic-determinism, but an
ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic/reprojective/supererogating/zeroing psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema>; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-

human subject isn’t accommodated for in some way somehow however faintly, be it that it may
be the case that gravity is not 9.8 m/s\textsuperscript{2} but that as well needs to be established as of the

‘prospective-aporeticism-overcoming/unovercoming’> as of ontological-primemovers-
totalitative-framework\textsuperscript{71}. But then the human reality across all registry-worldviews/dimensions,
isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its
uninstitutionalised-threshold\textsuperscript{03} and the corresponding superseding of this as of prospective
institutionalisation; as even the disposition to assume an intellectually enlightening mental-
disposition is existentially-invested and not necessarily a given. We can appreciate from our
positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but
then paradoxically from the beginning of times superstitious beliefs had pervaded all the
echelons of human societies whether as of true belief or opportunistically, and have only been
increasingly undermined with the advent of positivistic reasoning at the beginning of modern
times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed
reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’
of human ‘amplituding/formative—epistemicity>totalising/circumscribing/delineating
meaningfulness-and-teleology\cite{100}/reference-of-thought-\cite{1} devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing ‘–apriorising-psychologism uninstitutionalised-threshold\cite{103} which it tends to represent as nondescript/ignorable–void \cite{1} (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory-de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of the possibility of prospective relative-ontological-completeness\cite{8}-of-reference-of-thought. Human supererogatory-de-mentative constraint is fundamentally associated with poor universal-transparency\cite{104} {(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}) with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold\cite{103}. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology} as of the prior institutionalisation’s \cite{104} reference-of-thought–categorical-imperatives/axioms/registry-teleology\cite{100} that stifle the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-
completeness-of-reference-of-thought is actually ontologically transformative as of aetiology/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory-de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as implied by a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation—supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding-or-attributive-dialectics, rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought—anamplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity, and thus making the given presence reference-of-thought as our positivism—procrypticism ‘all-determinative of what can be construed as psychological emancipation’ as of its anamplituding/formative—epistemicity—totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag despite the fact of its prior relative-ontological-incompleteness-of-reference-of-thought to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism prospective relative-ontological-completeness reference-of-thought. The underlying issue here as well as of ontologically-veridical difference-conflatedness-as-to-totalitative-reification—in-singularisation—<as-to-the-

ontological integrity/veracity of meaningfulness-and-teleology100 as it reflects existence’s coherence/contiguity as of singularisation—as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing—projected epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely
striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existent-reality is rather definitional of our uninstitutionalised-threshold103 where we are actually preconverging-or-dementing—apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant
<amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasia-drag and vague untransvaluated—temporal-intemporality—gesturing. The ontological-contiguity—of-the-human-institutionalisation-process103 can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness103; wherein across the successive institutional-
Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness—as-‘epistemic-totality’—dereification—indissingularisation—as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness—as-flawed-epistemic-determinism as of dissingularisation—as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance—including-virtue-as-ontology as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the
analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—>\textsuperscript{17}—as-flawed-epistemic-determinism implied as of dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—>\textsuperscript{17}/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—>\textsuperscript{17}—as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied— ‘prospective-aporeticism-overcoming/unovercoming’> as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and
existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care–and–episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already preceding/superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance.
which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity with regards to the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative apriorising/axiomatising/referencing—constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying apriorising/axiomatising/referencing—conflectedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-totalising-entailing/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-epistemic-totality—dereification—in-dissingularisation—as-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—as-flawed-epistemic-determinism causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,—for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflectedness—as-to-totalitative-reification—in-singularisation—as-the-nondisjointedness/entailment-of-prospective nonpresencing—as-veridical-epistemic-determinism causality—as-to-projective-totalitative–implications-of-prospective nonpresencing,—for-explicating-ontological-contiguity posture that is as of ecstatic-totalising-entailing/nested-congruence as with the latter. Such a conclusion can be extended to other analytic tradition concepts assuming

construe knowledge for completeness without questioning its mindset,in-positivism–procrysticism/disjointedness as if it has got an absolutely veridical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this is exactly what is implied by displacement/decentering-of-the-human-subject as of its relative-ontological-incompleteness. This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework<amplituding/formative—epistemicity—causality—nullification—implications—of—projective—nonpresencing,—for—explicating—ontological—contiguity of supposedly coherent ontological-commitment implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, ‘speech activity’ discourse speaks of an supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the—
world/conditions’ as of this articulated ontological-as-existential-commitment having to do with such social contextualisation’. Likewise the underlying notion of ontological-performance\(^{72}\)-<including-virtue-as-ontology> as herein articulated by this author is as difference-conflatedness\(^{12}\)-as-to-totalitative-reification\(^{87}\)-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-\(^{49}\)-as-veridical-epistemic-determinism\(^{21}\)\(^{<amplituding/formative–epistemicity>causality–as-to-projective–totalitative–implications–of–prospective– nonpresencing,–for–explicating–ontological–contiguity}\(^{67}\) as from existence-potency\(^{11}\)-sublimating–nascence,–disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment\(^{48}\) about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’; articulating knowledge as ontologically-veridical meaningfulness-and-teleology\(^{100}\) as of the existential-contextualising-contiguity\(^{9}\) knowledge-reification\(^{97}\)\(^{<amplituding/formative–epistemicity>causality–as-to-projective–totalitative–implications–of–prospective– nonpresencing,–for–explicating–ontological–contiguity}\(^{67}\) of human underlying relative-ontological-incompleteness /relative-ontological-completeness\(^{88}\)\(-\{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,–in-perspective–ontological-normalcy/postconvergence\})\}. This underlying notion of ontological-performance\(^{11}\)-<including-virtue-as-ontology> speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity/sublimation/supererogatory–dementativity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human living-development–as-to-personality-development, institutional-
development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject. Whereas the analytic tradition posture as with ‘speech act’ gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) geared towards identitive-constitutedness-as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—as-flawed-epistemic-determinism, which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent ontological-commitment in want of existential-contextualising-contiguity for knowledge as ontologically-veridical meaningfulness-and-teleology, as can be validated and falsified by ontological-primemovers-totalitative-framework-of-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of...

With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing knowledge commitments as of supposedly coherent ontological-commitment implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning—<as-devoid-of—’existential-contextualising-contiguity’s—reifying/elucidating-of—progressive-relative-ontological-completeness’> it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the
same vein, one can say that notions like spacetime, force, atoms, etc. in the physics
<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal–as-intrinsic-reality/ontological-veridicality/existential-reality are inherent supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework
<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity’, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment’, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is falsifiable by ontological-primemovers-totalitative-framework. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-
construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1} presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment\textsuperscript{2} articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis,
content analysis, statistics and basically overall research orientations and research methods as
of their formal study implications are just focussed-and-contrasted extensions, with regards to
the general and normal day to day experience about living itself for the inspired construing of
‘the ecstatic manifestation of existence and then human experience-and-interpretation of that
ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-
commitment in producing knowledge as meaningfulness-and-teleology; such that
critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal
day to day experience about living itself’ as of observational and articulated ontological-
pertinence sufficiency, and as supplemented with the grasp and engagement with other
philosophical works, speaks of veridical scientific insight and validity subject to ontological-
primemovers-totalitative-framework, and so because such well-inspired experience-and-
interpretation from ‘general and normal day to day experience about living itself’ in the
philosophical domain-of-study is generally more ontologically profound and comprehensive as
of apriorising/axiomatising/referencing—conflatedness than any contrasted ad-hoc and
focussed domain study, even though such domain studies may be insightfully relevant in
specific ways but still as of the more profound background of well-inspired experience-and-
interpretation from ‘general and normal day to day experience about living itself’. The point
here is to highlight that by its very given domain-of-study with respect to overall existence,
philosophical knowledge more profoundly makes a totalising-entailing
apriorising/axiomatising/referencing—conflatedness demand on human living experience for
the inspired construing of ‘the ecstatic manifestation of existence and then human experience-
and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-
of-study for which ad-hoc and focussed domain study methods are pervasively decisive for
ontological pertinence. But then this is more a question of ‘expanded onticising construal of
existence as of amplituding/formative–epistemicity totalising–devolved purviews of
existence so-constrained as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such \(\text{amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality}\) are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity/ ecstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility \(\langle\text{immbued-and-}\) hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency-epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation\) as of supervening-conflatedness\(^{12}\). Knowledge as \(\text{meaningfulness-and-teleology}\)\(^{100}\), whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment\(^{66}\) as reflected by ontological-primemovers-totalitative-framework\(^{72}\). Inherently, because human-subpotency supposedly coherent ontological-commitment\(^{66}\) is very much intimately linked with the ontological-performance <including-virtue-as-ontology> of human as of prospective relative-ontological-completeness\(^{88}\) appraisal, it is always ever the case that as of human \(\text{amplituding/formative–epistemicity>totalising–thrownness-in-existence}\) the validation of knowledge as \(\text{meaningfulness-and-teleology}\) of supposedly coherent ontological-commitment\(^{66}\) is equally as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human\(\text{amplituding/formative–epistemicity>totalising–purview-of-construal’ or }\) \(\text{amplituding/formative–epistemicity>totalising–devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality}\) constructs; which construal is necessarily as of apriorising/axiomatising/referencing—conflatedness with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human\)

nature of the notion of cause-and-effect so-implied veridically as onthological-primemovers-

supposedly science approaches and methodologies on the naïve assumption that their mere

the ‘inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-’human<amplituding/formative–

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity⁰⁹. Rather any such science approaches and methodologies striving to
validate knowledge as meaningfulness-and-teleology⁰⁰ by the supposedly coherent
ontological-commitment⁶ reflected by onthological-primemovers-totalitative-framework⁷¹ as to
existence-potency¹⁴~sublimating–nascence,–disclosed-from-prospective-epistemic-digression, is necessarily instigated as from a philosophical depth of contemplation as of
‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-
coherence/contiguity,–and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-
of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs
to be explicited in many a natural science domain-of-study as of their directly constraining
cause-and-effect nature such that such nested-congruence with existence will often tend to arise
naturally as of valid/invalid outcome constraining of onthological-primemovers-totalitative-
framework⁷¹ as to existence-potency¹⁴~sublimating–nascence,–disclosed-from-prospective-
epistemic-digression, this unexplicit implicitness should not be confused with the notion that
the natural sciences are essentially reduced to their science approaches and methodologies; as is
often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of apriorising/axiomatising/referencing—confatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <amplituding/formative-epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation
and/or ‘poor coherence of theorisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalititative-framework’ as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups dementatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness as-to-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition. Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanent nature of many a social domain-of-study unlike the grand singularised/immanent totalising/circumscribing/delineating ‘<amplituding/formative-epistemicity> reference-of-thought devolving foregrounding—entailment ⟨postconverging–narrowing-down~sublimation-as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—in-reflecting—‘immanent-ontological-contiguity ’; as-operative-notional—deprocrypticism⟩ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of notional—deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’ holds the promise for such effective grand
singularised/immanented social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including de-mentative/structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology\(^{10}\)\(<\text{in-existential-extrication-as-of-existential-unthought}>\)\(^{6}\) as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism–procrysticism ‘attendant-ontology—as-of-conventioning-referencing’ and just as well when ‘science-ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified \(^{44}\)foregrounding—entailment\((\text{postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation’–in-reflecting–‘immanent-ontological-contiguity’;–as-operative-notional–deprocrysticism}) of the given natural science domain-of-study’ with specialism more of a furtherance of such a \(^{44}\)foregrounding—entailment\(\text{(postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,–eliciting-of-prospective-supererogation’–in-reflecting–‘immanent-ontological-contiguity’;–as-operative-notional–deprocrysticism}) scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation\(<\text{unforegrounding-disentailment,-failing-to-reflect–‘immanent-ontological-contiguity’}>\) (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification\(^{97}\) implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistem-

nonpresencing,-for-explicating-ontological-contiguity ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity apriorising/axiomatising/referencing—conflatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality} of-ontological-performance to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendent-al-and-sublimity implications, and thus

It is thus not surprising that naive disparateness-of-conceptualisation-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’ leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the attendant-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment as validatable and falsifiable by ontological-primeovers-totalitative-framework as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression as it is critically the case in the good practices of the natural sciences. that involves human limited-mentation-capacity-deepening\(^5\). This hermeneutic/reprojective/supererogating/zeroing

deeper hermeneutic/reprojective/supererogating/zeroing insight as of \(\langle\text{maximalising-recomposuring-for-relative-ontological-completeness}\rangle\)—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification\(^7\) process/gesturing simply integrates

this notion in the sense that top-level postmodern scholars articulate their knowledge-

In both instances, the knowledge-reification\textsuperscript{87} process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojective/supererogating/zeroing circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal wooden-language-\{imbued—averaging-of-thought-\textasciitilde as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications\}\ level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective/supererogating/zeroing circle of knowledge-reification\textsuperscript{87} process/gesturing should be directly and fully graspable to it as of a wooden-language-\{imbued—averaging-of-thought-\textasciitilde as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications\}\ predisposition to \textsuperscript{5}incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation. The fact is the various pedagogic hermeneutic/reprojective/supererogating/zeroing circle levels of any subject-matter/domain-of-study as of successive \textsuperscript{5}maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a \textasciitilde totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that
‘<amplituding/formative–epistemicity>totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojective/supererogating/zeroing circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojective/supererogating/zeroing circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojective/supererogating/zeroing circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal wooden-language⟨imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-'nondescript/ignorable–void '-with-regards-to-prospective-apriorising-implications⟩ level of knowledge conception, and implicit in its knowledge-reification—gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojective/supererogating/zeroing circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojective/supererogating/zeroing circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic/reprojective/supererogating/zeroing circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as—
reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation-unforegrounding-disentailment, failing-to-reflect-immanent-ontological-contiguity but rather implying a furtherance of the overall hermeneutic/reprojective/supererogating/zeroing exercise involved in the advancement of all human knowledge as of amplituding/formative–epistemicity totalising–renewing–realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic/reprojective/supererogating/zeroing circle involving: the analyst’s/philosopher’s baseline re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–imbued-postconverging/dialectical-thinking projective-insights/epistemic-projection-in-conflatedness of-notional–deprocrypticism-prospective-sublimation up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the

It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised
whether such critics profoundly appreciate the overall human knowledge-reification\textsuperscript{7} process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification\textsuperscript{7} methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation-\textsuperscript{-unforegrounding-disentailment,}-failing-to-reflect-
‘immanent-ontological-contiguity\textsuperscript{87}’ > epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification\textsuperscript{87} passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification \textsuperscript{88} implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness\textsuperscript{88} and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness \textsuperscript{88} as of projected existential-contextualising-contiguity\textsuperscript{19} in apriorising/axiomatising/referencing—confaltedness\textsuperscript{12}, an issue that has always been a difficult knot throughout the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} but which inevitably has to be dealt with for the possibility of prospective human registry-worldview’s/dimension’s institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the \textsuperscript{4}\textsuperscript{<amplituding-formative-epistemicity>}causality-\textsuperscript{-as-to-projective-totalititative-implications-of-prospective-\textsuperscript{-}}nonpresencing,\textsuperscript{-for-explicating-ontological-contiguity\textsuperscript{-}}involved in knowledge-reification\textsuperscript{17}, and is reflected in a lack of parrhesiastic and hermeneutic/reprojective/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness /ontological-aesthetic-tracing-\textsuperscript{-perspective-ontological-normalcy/postconvergence-reflected-\textsuperscript{-}epistemicity-relativism’\textsuperscript{>}, as if philosophy only started as

analysing philosophical texts requiring a sense of parrhesia and
hermeneutic/reprojective/supererogating/zeroing insight. This lack is quite often reflected in
such misconstrued analyses of traditional philosophical figures by a failure to understand the
overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to
identitive-constitutedness -as-‘epistemic-totality ’-dereification ’-in-dissingularisation-<as-to-

as-flawed-epistemic-determinism19 ending up quite often claiming the incoherence of such
figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the
possibility for understanding requires the critic’s own parrhesiastic insight and then
hermeneutic/reprojective/supererogating/zeroing conceptualisation to then develop the capacity
to grasp first of all such traditional philosophical figures underlying knowledge-reification 87
process/gesturing and thus be able to understand how such knowledge-reification’
process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of
narrated accounts and notions but equally insight about the nuanced and covertly narrated
accounts and notions, and all these while being informed by the immediate and broader
underlying social background and implicated social and philosophical stakes of contention-and-
confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojective/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in apriorising/axiomatising/referencing—conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojective/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental-instigation traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly
by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of-‘existential-contextualising-contiguity ’s-reifying/elucidating-of-prospective-relative-ontological-completeness as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dimensionality-of-sublimating:

\{amplituding/formative\}_{\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness }}_{\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}}

that then feeds into prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s
specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification’—gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve ’presenting—absolutising-identitive-constitutedness’ basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-s-perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification—gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding-positivism more than just as garnered from the precised narrative accounts about budding-positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding-positivism metaphoricity epistemic-ricochetingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic/reprojective/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojective/supererogating/zeroing insight actually informs
about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojective/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification\(^7\) for prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology\(^10\) infrastructure’, something which a ‘human lifespan
extricatory punctuality/immediacy of depth-of-thought’ as of a wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications’ is not postconvergingly—de-mentated/structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation—unforegrounding-disentailment,-failing-to-reflect—immanent-ontological-contiguity’ epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression? Insightfully, this fundamentally has to do with the contrastive implications in construing ontological-primemovers-totalitative-framework as of good-practice/epistemic-veracity and bad-practice/epistemic-impertinence for knowledge-reification; wherein objectifying foregrounding—entailment (postconverging—narrowing-down—sublimation—as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation ’-in-reflecting—immanent-ontological-contiguity ’; as-operative-notional—deprocrypticism) as good-practice/epistemic-veracity of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as of ‘cogent-unifying-operant-dynamics of primemovers’ so-construed veridically as ‘ontological-primemovers-totalitative-framework as of existential-contextualising-contiguity apriorising/axiomatising/referencing—conflatedness ’, whereas disparateness-of-conceptualisation—unforegrounding-disentailment,-failing-to-reflect—immanent-ontological-contiguity’ as bad-practice/epistemic-impertinence of knowledge-reification involves the
construal of ontological-primemovers-totalitative-framework\textsuperscript{73} as ‘disjointing/disparateness/disentailing of primemovers’ so-construed wrongly as ‘ontological-primemovers-totalitative-framework\textsuperscript{73} in apriorising/axiomatising/referencing—constitutedness\textsuperscript{12} outside existential-contextualising-contiguity\textsuperscript{39}’. Thus ‘disjointing/disparateness/disentailing of primemovers as disparateness-of-conceptualisation-\langle unforgrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{67}’\rangle’ basically undermines the veridical underlying ‘ontological-totalitative-framework as of existential-contextualising-contiguity\textsuperscript{39} apriorising/axiomatising/referencing—conflatedness’, and thus undermines aetiolisation/ontological-escalation predicative-effectivity–sublimation\textsuperscript{\{as-to-underlying-ontological-commitment\}}. ‘disjointing/Disparateness/Disentailing of primemovers as disparateness-of-conceptualisation-\langle unforgrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{67}’\rangle’ undermines the inherent ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity\textsuperscript{39} apriorising/axiomatising/referencing—conflatedness’, such that the supposed exercise of knowledge-reification\textsuperscript{87} ends up ‘losing the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{1} of axiomatic-constructs as reflective of existential-reality’; as of the flawed disjointing/disparateness/disentailing of overall inherent existential-reality supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness, and further reflected variously as temporal over-emphasising and/or underemphasising/ignoring of primemovers reflecting ‘ontological-totalitative-framework as of existential-contextualising-contiguity\textsuperscript{39} apriorising/axiomatising/referencing—conflatedness’, and so due to ‘human-subpotency\textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{11} <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}.

ontological-veridicality cannot be construed as the mutual-agreement as of human-subpotency
but rather as of the constraining sublimating-over-desublimating implications of existence-
potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression on human-
subpotency. Human ‘meaningfulness-and-teleology’ as of its ontological-performance—
<including-virtue-as-ontology> is the outcrop of human-subpotency conscious-able
aestheticisation of ecstatic-existence. Human aestheticisation speaks of the extensive manifest
outcomes/outfits/shells—construed-historically-as-of-the-specifically-aestheticised-
incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human
meaningfulness-and-teleology as from: human ‘perceptive motif-manifest aestheticisation
as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest
aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-
existential-reality-manifest aestheticisation as of human conscious-able intermediating
ascriptivity’. Basically, human meaningfulness-and-teleology refers to human-subpotency
conscious-able aestheticisation of ecstatic-existence as of varying human ontological-
performance—<including-virtue-as-ontology> in veridically reflecting existence-
potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression. Underlying
the ontological-performance—<including-virtue-as-ontology> of human-subpotency conscious-
reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation ever always warrant prospective originariness-parrhesia,–as–spontaneity-of-aestheticisation and thus the epistemic-ricochetting/transepistemicity prospective implications for renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so, in order to ‘prospectively elevate the ontological-performance’-<including-virtue-as-ontology> of human aestheticisation of meaningfulness-and-teleology in the construal of existential-reality’ while overcoming the stalling in ontological-performance’-<including-virtue-as-ontology> underlying the mere complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This inversely-varying-emphasis of originariness-parrhesia,–as–spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation is so-reflect with: prospective reactualising of ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’ (as derived from the reconstruing/reconsideration of both mere-tracial-and-symbolisation-manifest aestheticisation and signification-as-of-existential-reality-manifest aestheticisation); prospective reactualising of ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, for instance in the dynamic reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation reflected with genres of music as of their originariness-parrhesia,–as–spontaneity-of-aestheticisation setting-up/establishing of drifting/derivating apriorising/axiomatising/referencing—re-originariness/re-origination; and prospective reactualising of ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’, and this is more fundamentally with respect to human underlying supposedly coherent ontological-commitment reflected by ontological-primumovers-totalitative-framework as to existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression, and so-construed from a philosophical depth
involvement, such intemporal parrhesiastic instigation of prospective reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation is ascetic as it emphasises that the ontological-performance including-virtue-as-ontology of human meaningfulness-and-teleology as to existence-potency sublimating–nascence, disclosed-from-prospective-epistemic-digression.sublimating-validation/desublimating-invalidation implications is not compromisable, and so over temporal nihilistic dispositions of prior reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation susceptible to compromising ontological-performance including-virtue-as-ontology of human meaningfulness-and-teleology as of human-subpotency amplituding/formative wooden-language imbued—averaging-of-thought as to leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as of ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications and sophistic/pedantic dispositions. Ultimately, human meaningfulness-and-teleology as of ‘human-subpotency conscious-able aestheticisation of ecstatic-existence as to existence-potency sublimating–nascence, disclosed-from-prospective-epistemic-digression is ever always a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation’ which is patternly developed-and-anchored as from its driven originariness-parrhesia, as spontaneity-of-aestheticisation; and so at the thresholds of prior reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining unduly ontological-performance including-virtue-as-ontology wherein originariness-parrhesia, as spontaneity-of-aestheticisation re-stakes/puts-back-at-stake epistemic-ricochettingly/transepistemically the reconstruing of existential-reality despite the taxingness-of-originariness, and so as of a perception of unduly

reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology\(^{10}\))’, reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’. For instance with regards to living-development—as-to-personality-development meaningfulness-and-teleology\(^{10}\), human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology\(^{10}\)’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification\(^{26}\)/contemplative-distension\(^{26}\) in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness—by-reification\(^{26}\)/contemplative-distension\(^{26}\) as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development—as-to-personality-development human aestheticisation of meaningfulness-and-teleology\(^{10}\) (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound
enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’) in existential-contextualising-contiguity involving ‘hermeneutic/reprojective/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojective/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the ‘teleological outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-Incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of ‘meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic/reprojective/supererogating/zeroing reactualising as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought’ that starts long before a
aestheticisation’ as of the ‘more and more profound enlarging-framework of reproducibility—

with human ‘institutional-development–as-to-social-function-development 5 meaningfulness-

phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-
specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, such an
insight about ‘high/low parrhesiastic-pressure-of-aestheticisation for social-integration-and-
evolving’ as to the implications of ‘more and more profound enlarging-framework of
reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’
is highly informing about ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-
incrusting/plating/coating-as-institutional-manifestation’ and so highlighting the collective
social ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant
meaningfulness-and-teleology’ in reflection of ‘institutional-development–as-to-social-

conventioned human ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-

‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-

manifestation’ is rather established institutionally as of the collective social human ‘complex

institutions, and that while ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-

This basically explains the constantly developing nature of human ‘institutional-development~as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness of meaningfulness-and-teleology (even as the privileged social conceptualisation of say language is as of ‘language as the complete

This will explain why the ontological-contiguity

<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility, reflected in human underlying supposedly coherent ontological-commitment, is ultimately potentiated/ontologisable as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’. This instigation of human aestheticisation of meaningfulness-and-teleology so-reflected in ‘human existen

This fundamental originariness and secondnaturedness conundrum in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process’ is reflected by the fact that the human Self is ever always in disseminative constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-the-Self as of ‘human-subpotency subpar disposition to fail to construe the full existence-potency’~sublimating–nascence,-disclosed-from-prospective-epistemic-digression at its uninstitutionalised-threshold’ its prior seconndnatured reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; and so in obfuscation and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation. The possibility for prospective human transcendence-and-sublimity/sublimation/suberogatory—de-mentativity has ever always been able to arise at such uninstitutionalised-threshold of registry-worldviews/dimensions not by a ‘false pretence’ that the ontologically-veridical underlying issue of prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance—<including-virtue-as-ontology> of prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation in the construal of ecstatic-existence, is one in want of candid analysis as of the very same prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather the ontological-veracity of originariness-parrhesia,–as–spontaneity-of-aestheticisation for prospective/renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation; as perfectly understood by the Socratic-philosophers advancing of universalising-idealisation relative to the Ancient-sophists non-universalising

of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification—gesturing/process as of disparateness-of-conceptualisation—failing-to-reflect—immanent-ontological-contiguity implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification—gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of Ancient-sophists or medieval-scholastic pedants, as of naïve shallow-minded incrementality—in-relative-ontological-incompleteness—enframed-conceptualisation as of a poor sense of intemporal/longness beyond earthly materialism. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness -as-'epistemic-totality\textsuperscript{36}'-dereification\textsuperscript{87} -in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness >\textsuperscript{13} -as-flawed-epistemic-determinism\textsuperscript{49} that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity\textsuperscript{19} and then reifies-out conceptualisations as of difference-conflatedness -as-to-totalitative-reification\textsuperscript{87} -in-
singularisation<as-to-the-nondisjointedness/entailment-of-prospective-11-nonprenscing>3-as-veridical-epistemic-determinism17. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification17/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications> that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification /elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity19 in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity19 dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss
of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology\(^{10}\)/knowledge as of existential-contextualising-contiguity\(^{15}\) knowledge-reification\(^{17}\)’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification\(^{87}\) of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework\(^{73}\); or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification\(^7\) as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework\(^{73}\) disposition rather than an orientation towards the ‘transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\(^{102}\) or transversal-analysis-towards-validatory-selectivity-for-foregrounding—entailment-(postconverging–narrowing-down–sublimation-as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation –in-reflecting–immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism) of conceptualisations-and-interpretations’ as constrained to ontological-primemovers-totalitative-framework which is what further reifies the body of knowledge by enabling existence as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to continually select the trace/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—

reification\[87\] of every domain-of-study; as the fact remains that the domain-of-study of the
social world is utterly different as of existential-contextualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existential-contextualising-contiguity—and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-projected epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity knowledge-reification by the implicated immediate-constraining ontological-primemovers-totalitative-framework transcendence-and-sublimity/sublimation/supererogatory-de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87}—<amplituding/formative–epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity\textsuperscript{67}.

Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicated creative process of existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{87}. This process is one of human limited-mentation-capacity-deepening\textsuperscript{8} as of ‘repeating/repetition of \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness—as-unenframed-conceptualisation for existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{87}, inducing successive differences of ontological-performance\textsuperscript{72}—<including-virtue-as-ontology> of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{10} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—

Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance -<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-human-amplituding/formative-epistemicity-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness is very much obvious from the accounts of ‘successive partial contributions-and-failures’ that lead to major breakthroughs in the natural sciences as of the ‘very same amplituding/formative-

One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{39}. Basically, the underlying implication of apriorising/axiomatising/referencing—conflatedness\textsuperscript{1}, and so over naïve apriorising/axiomatising/referencing—constitutedness\textsuperscript{1}, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-

as-flawed-epistemic-determinism\textsuperscript{10}. We can appreciate that the naïve conceptual patterning of
conceptualisations in many a social domain-of-study failing to disambiguate divergent
knowledge implications-and-contributions as of existential-contextualising-contiguity\textsuperscript{39}
knowledge-reification\textsuperscript{37} end up transforming subject-matters into descriptive enunciations of
weak existentially explanatory and predicative capacity. The entire project of human
meaningfulness-and-teleology\textsuperscript{109} is nothing but one of creatively elucidating/reifying
existence/existential-possibilities, ‘with no out of existence knowledge project’, which is
merely delusional. Thus, what is critically missing here is the fundamental constraining reality
for creative existential-contextualising-contiguity\textsuperscript{39}, knowledge-reification\textsuperscript{7}, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity\textsuperscript{39} reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{39}. This failure in fully appreciating the import of ontologically-veridical difference-conflatedness\textsuperscript{14}-as-to-totalitative-reification\textsuperscript{98}-in-singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemic-determinism\textsuperscript{21}} ‘repeating/repetition of\textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation-for-existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87}, inducing successive differences of ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> of\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness’ as of implied singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-as-veridical-epistemic-determinism has fundamental\textsuperscript{4} <amplituding/formative– epistemicity>causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{97}, as transcendence-and- sublimity/sublimation/supererogatory–de-mentativity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity\textsuperscript{39}. Consider in this regard that the repeated maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation articulation by this author on the theme of conceptual patterning here further
complements as of further articulated reification\(^7\) of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification\(^8\) insight often goes missing with many a subscriber to the formalisation credo, as of reification\(^7\) along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity\(^3\) knowledge-reification\(^8\) perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originarily/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity\(^3\) knowledge-reification\(^8\) epistemicity\(^4\) causality\(^5\)-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity\(^6\) of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-epistemicity-totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior
thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance -<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human amplituding/formative–epistemicity totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought ontologically-veridical difference-conflatedness-as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective nonpresencing—as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus,
Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity’ orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/poria ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism–procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional–deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity to ‘continually select’ postmodern—notional–deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging
knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supereogatory de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of—meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfullness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfullness-and-teleology of trite existential-contextualising-contiguity knowledge-reification—amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic asksis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into
contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a ‘confledness’ totalising-entailing/nested-congruence as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative-epistemicity’ totalising-purview-of-construal; with such construal in reality rather very much as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing—confledness totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—ontological-normalcy/postconvergence-implied—progress-aporeticism—overcoming/unovercoming>. Unlike the apriorising/axiomatising/referencing—constitutedness rampant with human and social conceptualisations, it is important to grasp
that conceptualisations in many a natural science domain tend to be naturally as of
apriorising/axiomatising/referencing—conflatedness totalising-entailing/nested-congruence

regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across
space and time’. We can consider in this regard the strongly nested-congruence/contiguity of
seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and
functional conceptualisations in biology; reflected as of the specifically ecstatically nested-
congruence of such conceptualisations with the existential wholeness, and so more than just
abstractable conceptualisations out of sync with effective nesting as of the existential
wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural
or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their
wholeness; the implication is not necessarily that all the whole field-of-study must be grasped
all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting
wholeness must insightfully be grasped before articulating existentially/ontologically pertinent
conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying
dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-<as-to-the-
nondisjointedness/entailment-of-prospective- nonpresencing> projected epistemic-
immanence/veridical-epistemic-determinism is often very much lacking in many a social
domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the
same wholeness/nested-congruence nature with many natural science conceptualisations. This
reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social
conceptualisations that by their apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity\textsuperscript{10} knowledge-reification’ of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-\langle\text{as-to-perspective-ontological-normalcy/postconvergence-implied-’prospective-aporeticism-overcoming/unovercoming’}\rangle in its ecstatic singularity. The naivety of implied apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-’human<amplituding/formative–epistemicity>totalising~purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing—conflatedness’ with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly postconvergingly–de-mentated/structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing—conflatedness’ with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of ‘conflatedness’ with existence as of its ecstatic singularity’ given its inherent blurriness, \textless'amplituding/formative--

prospective nonpresencing projected epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed apriorising/axiomatising/referencing—constitutedness’ or ‘we are as potently immanent as of our virtuous apriorising/axiomatising/referencing—conflatedness’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing—constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the apriorising/axiomatising/referencing—conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstitution, spiritualism, etc. This same conception holds with the notional–deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism—or–disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the notional–deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-
teleology\textsuperscript{00} is necessarily as of the prospective relative-ontological-completeness\textsuperscript{10} over the prior relative-ontological-incompleteness\textsuperscript{01}; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of de-mentative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional–deprocrypticism immanence-function-conflatedness\textsuperscript{12} as of de-mentative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of- reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework\textsuperscript{73} as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>\textsuperscript{84} projected epistemic-immanence/veridical-epistemic-determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness\textsuperscript{00} meaningfulness-and-teleology\textsuperscript{100} as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-
function-conflatedness equally highlights knowledge as of its essential organic construct implications. As a apriorising/axiomatising/referencing—constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-supererogatory—de-mentativity as of prospective relative-ontological-completeness—or-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic
Hence ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity’—of-the-human-institutionalisation-process as of difference-conflatedness-as-to-totalitative-reification-in-singularisation—implied organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness-reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness-reference-of-thought for objectifying/contending discursivity nothing more but flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining
immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\(^\text{41}\)-or-deferring-falsifiability\(^\text{41}\) and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity\(^\text{39}\) knowledge-reification\(^\text{7}\) in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\(^\text{39}\) knowledge-reification\(^\text{7}\). This insight equally informs this author’s supplanting–conviction-as-to-profound-supererogation\(^\text{7}\)—of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\(^\text{39}\) knowledge-reification\(^\text{7}\), as well as existential-contextualising-contiguity\(^\text{39}\) knowledge-reification\(^\text{7}\) as of the disposition for advancing the metalevel transversality–of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’\(^\text{102}\) foregrounding—entailment\(^\text{44}\) (postconverging–narrowing-down–sublimation-as-to-‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ”-in-reflecting-‘immanent-ontological-contiguity’; as-operative-notional–deprocrypticism) of the ‘de-mentative/structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-
existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework\(^1\) unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability\(^1\) -or-deferred-falsifiability\(^1\) and validation-or-deferred-validation as of existential-contextualising-contiguity\(^9\) knowledge-reification\(^7\) as implied by the articulation of ontological-good-faith/authenticity\(^69\) herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care—and—episteme\(^6\) ‘implicitation of ontological-primemovers-totalitative-framework ’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity\(^9\) knowledge-reification\(^87\) as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity\(^64\) criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity\(^9\) knowledge-reification’, and thus an immanence-function-conflatedness\(^14\) insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold\(^03\), human existential-investment as of its temporality\(^69\)/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity lies in upholding-and-defending authentic intellectualism even as of metaphoricity\(^7\) beyond wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} socially
intelligible meaningfulness-and-teleology conceptualisation in amplituding/formative epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasia-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporal longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated–temporal-intemporal manifestations that usurp and undermine human transcendence-and-sublimity/supercerogatory–de-mentativity. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness
insight, the epistemic and methodological pretences as of our humanistic positivism—procrypticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging—dementating/structuring/paradigming as of their ultimate existential-contextualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism so-impiled as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness/epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism—procrypticism. Thus, if immanence-function-conflatedness reveals that it is the ‘projected research-programme of any given
knowledge construct as of its prospective relative existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{47}, that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{47} are nothing more but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal–eliciting-of-prospective-supererogation\textsuperscript{49}–<as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming'>, and institutionalised, such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} predispositions may actually be dementatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficulty entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory~de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human <amplituding/formative–epistemicity> totalising~purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness /relative-ontological-completeness

(sublimating~referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence)). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory~de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity³⁹ knowledge-reification⁶⁷ for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought; and
justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ relation induced as of ontological-primemovers-totalitative-framework’ between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional–deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity, and so as of the dementative/structural/paradigmatic implication of singularisation<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism over dissingularisation<as-to-the-disjointedness/disentailment-of–presencing–absolutising-identitive–constitutedness>epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective
relative-ontological-completeness\textsuperscript{88} is inherently bound with its very own epistemic
\textsuperscript{88} causality-as-to-projective-totalitative-implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{91} as of the ‘decentering of
the human subject’ involved in knowledge-reification\textsuperscript{97}. This inherently projects a ‘practical
picture of human epistemic determination’ of ‘maximal disseminative human epistemic
articulations at relative uninstitutionalised-threshold\textsuperscript{103}’ and ‘minimum select human epistemic
articulations at prospective institutionalisations’, and so as of existence/existential-possibilities
as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory-de-
mentativity transversally induced ontological-primemovers-totalitative-framework\textsuperscript{92} selective
epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory-de-
mamentativity. In this regard and at the general epistemic level of \textsuperscript{94} reference-of-thought-
devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present
positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities
previously available for non-positivistic social-setups credible construal of ontological-
veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and
their social implications; and this reflects the very fact that ‘intemporal ontological-faith-

apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated
ontological-contiguity\textsuperscript{17}—of-the-human-institutionalisation-process\textsuperscript{16} as of difference-

ontological-completeness\textsuperscript{16} causality-as-to-projective-
totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological- contiguity\textsuperscript{67} induced from ontological-primemovers-totalitative-framework\textsuperscript{73}. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework\textsuperscript{73} and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework\textsuperscript{73} and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient \textlangle\text{amplituding/formative}\textrangle wooden-language-\textlbrace\text{imbued—averaging-of-thought;\textlangle\text{leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology as-of-\textquotesingle\textquotesingle nondescript/ignorable–void \textquotesingle\textquotesingle-with-regards-to-prospective-apriorising-implications\textrangle}\textrangle epistemic impertinence. Prospective notional-deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought associated ontological-primemovers-totalitative-framework\textsuperscript{73}, with the implication that our positivism-procryptism uninstitutionalised-threshold\textsuperscript{103} epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold\textsuperscript{103} and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective notional-deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out
outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory~de-mentativity determinant selector as of the deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought disseminative research-programme coherence and ontological-contiguity\(^7\). The idea being that the notional–deprocrypticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity\(^7\) equally imply an underlying falsifiability\(^4\)–or-deferred-falsifiability\(^4\) and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework\(^2\) \(<\text{amplituding/formative–epistemicity}>\text{causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity}^6\text{\textsuperscript{7}}\) capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity\(^9\) knowledge-reification\(^7\) for transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Such a notional–deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework\(^73\), such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework\(^73\) as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences \(<\text{amplituding/formative–epistemicity}>\text{totalising~devolved–purview-as-domain-of-construal–as-intrinsic-reality/ontological-veridicality}, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the
demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffectivé-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing—conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the notional-deprocripticism epistemic-veracity implies
a further extension of deferential-formalisation-transference as of less predisposition to extended-informality wooden-language\{imbued—averaging-of-thought\<as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology—\as-of—’nondescript/ignorable—void’\-with-regards-to-prospective-apriorising-implications\}\).

With the \{amplituding/formative—epistemicity\} causality—as-to-projective-totalitative-implications-of-prospective—\{nonpresencing,—for-explicating-ontological-contiguity\} that the deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism\{sense-of-things\}. This is critical because the notional—deprocrypticism\{reference-of-thought\} warrants a more originary/as-of-event\{mental-disposition ‘beyond just responsiveness to secondnatured institutionalisation’ but equally the capacity to assume dimensionality-of-sublimating\}\{supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\} ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnatured institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanented-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of—reference-of-thought. With the foregoing immanence-
function-conflictedness insight, of most critical importance and decisiveness as de-
mentatively/structurally/paradigmatically anchoring futural Being-development/ontological-
meaningfulness-and-teleology(\textsuperscript{10}) as of prospective notional–deprocrypticism
meaningfulness-and-teleology(\textsuperscript{10}) is the need for a notional–deprocrypticism reconceptualised
conception of the human construction-of-the-Self. In this regard, we can appreciate critically
that hitherto and as of a natural human predisposition to \textsuperscript{<amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag >},
the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a
human-subpotency flawed absolutising epistemic reference, and so over an existence-

epistemic reference, specifically as so-construed from our positivism–procrypticism registry-
worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-
reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the
ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human
psychology of absolutising epistemic reference is wrongly conceived as of ontological-
normalcy/postconvergence rather than as of epistemic-abnormalcy/preconvergence\textsuperscript{40},

a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can

construal/conceptualisation with respect to prospective relative-ontological-completeness\textsuperscript{13} in accounting for human differences of ontological-performance\textsuperscript{72} -<including-virtue-as-ontology>. It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness\textsuperscript{14} -as- ‘epistemic-totality\textsuperscript{36}’- dereification\textsuperscript{87} -in-dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness\textsuperscript{15} -as-flawed-epistemic-determinism\textsuperscript{19}. Thus the notion of ‘human akrasia-susceptibility-or- akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{72}/ontological-fracturing/desublimation/gimmickiness complex’ refers to the mental dispositional state of de-mentative/structural/paradigmatic rationalised-closedness-of-ontological-performance\textsuperscript{72} -<including-virtue-as-ontology>-of-the-self ‘as bound to define-and-shape any given registry-worldview’s/dimension’s specific ontological-performance\textsuperscript{72} -<including-virtue-as-ontology>-and-vices-and-impediments\textsuperscript{19}’.

Rather an ontologically-veridical construction-of-the-Self is necessarily in apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} as of the intemporal absolutising epistemic reference of existence-potency\textsuperscript{38}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression constrainous-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and construed as of difference-conflatedness\textsuperscript{16} -as-to-totalitative-reification -in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing\textsuperscript{93} -as-veridical-epistemic-determinism\textsuperscript{21}. Such a apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} construction-of-the-Self is one that is de-mentatively/structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency\textsuperscript{38}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression, as it construes of human-subpotency\textsuperscript{81} reference-of-thought given level of ontological-veridicality-

devolingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential

psychology as inducing such a novel differentiated and transformative articulation of
construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-
drag/shiftiness-of-the-Self /ontological-fracturing/desublimation/gimmickiness complex’.

Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-
susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primumovers-totalitative-framework. Thus intemporal ontological-performance <-including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance <-including-virtue-as-ontology> arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding
promise of human-subpotency ontological-performance -<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human -<amplituding/formative–epistemicity>totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic -<amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance -<including-virtue-as-ontology> as of human -<amplituding/formative–epistemicity>totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on
the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the
basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing–psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold–(uninstitutionalised-threshold /presublimating–desublimating–decisionality)–of-ontological-performance~<including-virtue-as-ontology>, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness- and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation is what induces

But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating

In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic-philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating-nascence, disclosed-from-prospective-epistemic-digression, and that such a possibility lies in perpetual knowledge-reification disposition as of the-Good/understanding/knowledge-reification/ontological-primums-totalitative-framework. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existential-contextualising-contiguity at the latter’s destructuring-threshold—{uninstitutionalised-threshold/presublimating–desublimating-decisionality}—of-ontological-performance <including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness–as-to-totalitative-reification—in-singularisation–as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing–as-veridical-epistemic-determinism <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity of phronesis existential-contextualising-contiguity. Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being—as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingy guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politcised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–
Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–'notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation

The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling,<indeferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or
inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance -<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance -<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human registry-worldview’s/dimension’s institutionalisation outcome as of percolation-channelling<-in-deferential-formalisation-transference> doesn’t substitute for the <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought as of the underlying dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. intemporality\textsuperscript{7}/longness metaphoricity\textsuperscript{57} perspective rejects the often wrongly made critique of relative-for-the-mere-sake-of-relative-disparateness by atomising/taking-to-pieces identitive-constitutedness\textsuperscript{1}-as-‘epistemic-totality\textsuperscript{46}-‘dereification\textsuperscript{12}-in-dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness\textsuperscript{1}’\textsuperscript{58}-as-flawed-epistemic-determinism\textsuperscript{9} critiques when misrepresenting the ontologically-veridical observations/remarks/’constatations’ as of ecstatic-totalising-entailing/nested-congruence of postmodern thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{1} nonpresencing>\textsuperscript{73} as of the \textsuperscript{4}<amplituding/formative–epistemicity>causality\textsuperscript{20} as-to-projective-totalitative–implications-of-prospective\textsuperscript{6} nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{9} of prospective relative-ontological-completeness\textsuperscript{1}, and so-construed as of difference-conflatedness -as-to-totalitative-reification\textsuperscript{87}-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{6} nonpresencing>-\textsuperscript{19} -as-veridical-epistemic-determinism\textsuperscript{21} perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening\textsuperscript{53}; and this notion of relative truth is reflected in their works/research-programmes that undermine our \textsuperscript{4}<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} identitive-constitutedness\textsuperscript{1}-as-‘epistemic-totality\textsuperscript{46}-‘dereification\textsuperscript{12}-in-dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness\textsuperscript{1}’\textsuperscript{58}-as-flawed-epistemic-determinism\textsuperscript{9} perspective. Even though in the short-term/immediacy perspective the specific metaphoricity\textsuperscript{57} of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely \textsuperscript{59}meaningfulness-and-teleology\textsuperscript{100} transmission/spreading perspective, the supposedly coherent ontological-commitment\textsuperscript{5} so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{69}~postconverging–de-mentating/structuring/paradigming\textsuperscript{70}– as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity\textsuperscript{57} of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging–de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity\textsuperscript{57} constraining is very much unlike what
we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfullness-and-teleology as-of- nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology unexpectedly unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfullness-and-teleology as-of- nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our totalising-thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology unexpectedly nonpresencing-perspective–ontological-normalcy/postconvergence ricochetting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of
prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void '-with-regards-to-prospective-apriorising-implications>}' presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality—of-affirmative-and-unaaffirmative—disambiguated—'motif-and-apriorising/axiomatising/referencing' intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or wooden-language-(imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void '-with-regards-to-prospective-apriorising-implications>}' epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation. Just as we can appreciate that in ‘the very same physics' epistemicity totalising—devolved—purview/domain-of-construal-as-intrinsic-
reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness\(^5\) of-axiomatic-construct-or-\(^7\) reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21\(^{st}\) century physics is mostly as of ricochetting prospective nonpresencing-<perspective–ontological-normalcy/postconvergence>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic \(^5\) meaningfulness-and-teleology\(^{100}\) as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework\(^3\) validation-and-falsifiability\(^{11}\). Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective \(^5\) meaningfulness-and-teleology\(^{100}\) as knowledge on a vague notion of any \(^{1}\) presencing—absolutising-identitive-constitutedness\(^{13}\) epistemic-veracity that at the very least doesn’t rise to projectively contemplate and appraise of such prospective \(^5\) meaningfulness-and-teleology\(^{100}\) as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability\(^{11}\). Thus metaphoricity\(^{57}\) as such is a notion that is beyond just simplistic transmission/spreading of prospective \(^5\) meaningfulness-and-teleology\(^{100}\) as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for \(^5\) meaningfulness-and-teleology\(^{100}\) as say the commonality of such metaphoricity\(^{57}\) inclined re-
thinkers sharing a common emancipatory metaphoricity\textsuperscript{57} that is instigative, metaphoricity\textsuperscript{57} is critically about the prospective ricocheting postconverging–de-mentating/structuring/paradigming implications for inducing such prospective \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology\textsuperscript{100}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{100}), as the supposedly coherent ontological-commitment\textsuperscript{66} of ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70}–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity\textsuperscript{57}. This is so because in the long run transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing\textsuperscript{102} of temporal-to-intemporal–ontological-performance\textsuperscript{72}–<including-virtue-as-ontology>–of-narratives is rather as of ontological-prime-movers-totalitative-framework\textsuperscript{73} selecting/skewing-towards intemporality\textsuperscript{22}/ontological-veracity as to existence-potency\textsuperscript{13}–sublimating–nascence,–disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its
presencing—absolutising-identitive-constitutedness\textsuperscript{13} Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}, when it comes to assessing the possibility of prospective meaninglessness-and-teleology\textsuperscript{10} inducing of metaphoricity\textsuperscript{57}. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}, like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}, including our modern period, is a flawed appraisal; as in many ways, beyond our amplituding/formative-epistemicity\textsuperscript{33} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold\textsuperscript{3} as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10} as of prospective notional–deprocrypticism.
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prior relative-ontological-incompleteness’s. Ultimately, the question can be asked as well of our present positivism–procrypticism wherein its conventioning-referencing procrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument falsely seem to project ontological-pertinence why assuming little or no prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\[\text{\textsuperscript{100}}\] responsibility in an existential-extrication-as-of-existential-unthought posture; as such conventioning-referencing narratives increasingly protrude into supposedly prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\[\text{\textsuperscript{100}}\] purviews in usurpation, and so together with generalised intellectual teleological-decadence<-in-dimensionality-of-desublimating-lack-of \[\langle\text{amplituding/formative}\rangle\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness }/\text{transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\]\ as of its populism and pecuniary value drive substituting for intellectual reification\[\text{\textsuperscript{17}}\], and as so increasingly reflected mediatically. This human contrastive mental-disposition to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\[\text{\textsuperscript{100}}\] and presencing—absolutising-identitive-constitutedness\[\text{\textsuperscript{11}}\] conventioning-referencing speaks at a more fundamental level of the reality that the human subject is not psychologically necessarily driven by an absolute commitment to prospective ontological-veracity given its registry-worldview/dimension de-mentative/structural/paradigmatic ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\[\text{\textsuperscript{12}}\]/ontological-fracturing/desublimation/gimmickiness complex’; and thus that it has an ontological-veracity destructuring-threshold\[\text{\textsuperscript{13}}\] (uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-

It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold~of-ontological-performance-<including-virtue-as-ontology> to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completenenss implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected apriorising/axiomatising/referencing—conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing—constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological
or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity —of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology> nature speaking of its reasoning—from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochet/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology> nature is effectively what underlies in ontologically neutral/objective terms—as-of-axiomatic-construct such displacement/decentering-
of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms–as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure-ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding-positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/conemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally–collateralising-beholdening-protohumanity'-to-'attain-sublimating-humanity’-as-to-existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness wooden-language.

With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness[9] human social-stake-contention-or-conflicion as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness[8] notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporal-longness and temporality-shortness as to human limited-mentation-capacity relative ontological-performance[7]-<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness[8] notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness[8] notional–deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing[9]; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human
emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter’s state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness\textsuperscript{88}/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness\textsuperscript{88} positivism/rational-empiricism, we don’t ideally construe of science as of its pure-ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising/nascent–sublimating-decisionality and destructuring-threshold\textsuperscript{103} \{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}–of-ontological-performance\textsuperscript{72}–<including-virtue-as-ontology> nature inherently points out why human

Human akrasia-susceptibility-or-akrasiatic-drag complex is rather reflected operantly and pertinently as of human ‘ontologically-flawed antiakrasiatic disposition’ so-construed from existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression ontological-veracity perspective and so over

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasian disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening\textsuperscript{53} implications the destructuring-transitoriness\textsuperscript{18}—as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative\textsuperscript{1} implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance\textsuperscript{72}::<including-virtue-as-ontology>’. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-reference-of-thought destructuring-transitoriness\textsuperscript{18}—as-of-deratiocination/deratiocontiguity at
apriorising/re-axiomatising/re-referencing/conceptualisation) of the social-construct as from the elucidation/reification as ‘destructuring-threshold\\{uninstitutionalised-threshold /presublimating–desublimating-decisionality\\}–of-ontological-performance\\}–of-ontological-performance\}-of-ontological-performance\}-of-ontological-performance\\}<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance –<including-virtue-as-ontology>, as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically reflects the ontological-contiguity —of-the-human-institutionalisation-process.; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-prime-movers-totalitative-framework\\}<amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity\\} elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or
even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}-of-ontological-performance<-<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold. As the Copernicus, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance<-<including-virtue-as-ontology> destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}-of-ontological-performance<-<including-virtue-as-ontology> and uninstitutionalised-threshold, and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance<-<including-virtue-as-ontology> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The implicited passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-{uninstitutionalised-threshold/presublimating-desublimating-decisionality}-of-ontological-performance<-<including-virtue-as-ontology> need to be integrated into the very core of such seconndnatured formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-
ontological-performance\textsuperscript{72}—include-virtue-as-ontology> and institutionalisation is ever always a process of \textsuperscript{55}maximising-recomposing-for-relative-ontological-completeness\textsuperscript{76}—unenframed-conceptualisation to prospectively recapture the supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective organic-knowledge lost in secondnatured institutionalisation with the latter construed in temporality\textsuperscript{99}/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness\textsuperscript{89}—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{86}, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ and constructiveness as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{90}–qualia-schema’ inherently elicits from the human-subpotency epistemic/notional–projective-perspective reflected as of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ in ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}’, a sense of temporal social-stake-contention-or-confliction existential-investment ushering in the furthering of temporality\textsuperscript{99}/shortness as of untransvaluated–temporal-intemporality\textsuperscript{1} inclination and accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological teleologically-elevated projection reflected as from existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional–projective-
perspective for aetiologisation/ontological-escalation such temporal-dispositions are rather unwarranted and irrelevant since such aetiologisation/ontological-escalation is rather geared towards the prospective relative-ontological-completeness implied social-stake-contention-or-confliction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not the prior relative-ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal preconverging–de-mentating/structuring/paradigming; and candidly so to the extent that the intemporal-as-ontological dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming—'notionally–collateralising-beholdening-protohumanity’-to—‘attain—sublimating-humanity’—as—to—existence-potency—sublimating—nascence,—disclosed—from—prospective-epistemic-digression to supersede human temporality/shortness <amplituding/formative> wooden-language—{imbued—averaging-of-thought—<as—to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as—of—‘nondescript/ignorable—void ’—with—regards—to—prospective-apriorising-implications}> is not interpreted from a temporal existential-extricatory-as—of—existential-unthought perspective as ineptness warranting the furtherance of temporal-dispositions as of untransvaluated—temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness. We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<amplituding/formative—epistemicity> totalising/circumscribing/delineating preconverging/dementing—qualia-schema’

notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing \[\text{–apriorising-psychologism as reflected as of ‘}\text{amplituding/formative–epistemicity} \text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema’}\] of prior relative-ontological-incompleteness \[89\] is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking \[\text{–apriorising-psychologism as reflected as of ‘}\text{amplituding/formative–epistemicity} \text{totalising/circumscribing/delineating postconverging/dialectical-thinking –qualia-schema’}\] with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘\text{amplituding/formative–epistemicity} \text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema’}

Unlike our naïve human-subpotency epistemic/notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their ‘\text{amplituding/formative–epistemicity} \text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema’}

in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-
potency\textsuperscript{18}–sublimating–nascence, disclosed from prospective epistemic digression epistemic/notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness\textsuperscript{2}\~postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism reflected as of \textsuperscript{‘amplituding/formative–epistemicity\textsuperscript{‘}totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibility of prior relative-ontological-incompleteness\textsuperscript{19} preconverging-or-dimenting \textsuperscript{–apriorising-psychologism reflected as of \textsuperscript{‘amplituding/formative–epistemicity\textsuperscript{‘}totalising/circumscribing/delineating preconverging/dementing \textsuperscript{–qualia-schema’}, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation–<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>\textsuperscript{2}\’, and implying an obligation for any given registry-worldview/dimension to maximalise this human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–as-to-meaningfulness-and-teleology\textsuperscript{10} as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing \textsuperscript{–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a \textsuperscript{‘amplituding/formative–epistemicity\textsuperscript{‘}totalising/circumscribing/delineating preconverging/dementing \textsuperscript{–qualia-schema’} with respect to prospective base-institutionalisation \textsuperscript{‘amplituding/formative–epistemicity\textsuperscript{‘}totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’}, and likewise\textsuperscript{104} universalisation with respect to base-institutionalisation–ununiversalisation, \textsuperscript{104}universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact
is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory—de-
mentativity emancipators across the successive registry-worldviews/dimensions in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-
human-institutionalisation-process are just as equally relatively enmeshed in many ways with
their reference-of-thought old psychology ‘<amplituding/formative–
epistemicity>totalising/circumscribing/delineating preconverging/dementing—qualia-schema’
like say Newton’s involvement with alchemy, and the idea of projecting to a prospective
‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating
postconverging/dialectical-thinking—qualia-schema’ speaks of a first level of human
uninhibitedness/decomplexification that is exactly what allows for human emancipation. This
further shows how our seemingly objectified presencing—absolutising-identitive-
constitutedness positivism—procrypticism disposition is all-encompassing as of our
‘<amplituding/formative–epistemicity>totalising/self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag’ when we construe of ourselves as
‘postconverging-or-dialectical-thinking—apriorising-psychologism as of in-the-absolute’
without projecting that just as prior generations of humans were both postconverging-or-

<including-virtue-as-ontology> reflected as of ‘<amplituding/formative–

at their relative-ontological-incompleteness, we equally manifest the same and so-perceived
as of its ontologically-flawed identitive-constitutedness as-‘epistemic-totality’-dereification-in-dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness-as-flawed-epistemic-determinism, we are involved in a fundamental disjointedness-as-of-reference-of-thought in the sense that we seem to imply in our totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’ as reflected by our positivist science-ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science-ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development—as-to-social-function-development and living-development—as-to-personality-development, more critically point to the ontological-veracity in reflecting holographically-conjugatively-and-

(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing—apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event prospective postconverging-or-dialectical-thinking—apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublation/supererogatory—de-mentativity will rather be ‘a more candid face-up with our procrypticism–or–disjointedness-as-of–reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought’ institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically as of a destructuring-threshold{(uninstitutionalised-threshold/presublimating–desublimating–decisionality)—of-ontological-performance—<including-virtue-as-ontology> cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding-positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing postconverging—dementating/structuring/paradigming based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding-positivism/rational-

In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Whether of low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-

Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human \(\text{de-mentation-} (\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics})\) implied prospective postconverging-or-dialectical-thinking\(^{10}\)—apriorising-psychologism and prior preconverging-ordementing\(^{19}\)—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology\(^{100}\) is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness\(^{88}\)/relative-ontological-completeness\(^{88}\)—(sublimating-referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating-(projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence)) of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology\(^{100}\) is thus of lower to higher ontological-veracity/ontological-performance —<including-virtue-as-ontology> as of relative-ontological-completeness\(^{88}\). In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness -dereification for wooden-language- ⟨imbued—averaging-of-thought-lessening/resentment/closed-construct-of—meaningfulness-and-teleology-as-of-

Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity\textsuperscript{68}—of-the-human-institutionalisation-process\textsuperscript{68} as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastrucure-of–

Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory~de-

ontological-completeness as of the underlying registry-worldview/dimension reference-of-
thought <amplituding/formative–epistemicity>totalising–devolved-apriorising-rule; as there

can be no genuine contention between a universalising-idealisation mindset and a

sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset or a

positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for

the mere sake of preserving and avoiding the denaturing of the universalising-idealisation

meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-

teleology. This is more critically the case as the fact is the possibility for prospective human

emancipation is exactly the most difficult thing for humankind to countenance, and that is

exactly why the successive uninstitutionalised-threshold arise in the first place; and the

sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its
temporal social-stake-contention-or-confliction has always been addressed not by a faulty

pretence of mutually objectifying intellection between genuine intellectualism and sophistry,

which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt

parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it

essentially is; as with the universalising-idealisation philosophers not wasting their time in

pretence of engaging the sophists—ideal-type-or-individuation of ad-

hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists
dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-
equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology

as of a given registry-worldview/dimension is grounded on the same

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding
the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’ closed in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance - <including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is about the ‘reasoning-through transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency—the sublimating–nascence, disclosed-from-prospective-epistemic-digression as of ontological-primemovers-totalitative-framework.
epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–
‘nonpresencing,-for-explicating-ontological-contiguity’; and it is rather different from a
sovereign construct grounded on sovereign choice whether there is ontological-veracity or
ontological-impertinence. The human existential tale as ‘humanity project’ has ever always
been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-
through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency
ontological-performance’<including-virtue-as-ontology> equivalence/correspondence with
the full-potency-of-existence’s~sublimating–nascence-as-of-its-coherence/contiguity’. The
secondnatured institutionalisation constructs as of sovereign institutions and establishment
frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying
frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments
surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-
awareness-teleology<in-existential-extrication-as-of-existential-unthought> surreptitiously
defining what can be thought or not thought. The fact is such implied underpinning–
suprasocial-constructs are mainly secondnatured whether as sovereign representation or
establishment constructs, and can easily be caught up in their own<amplituding/formative–
epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
in prior relative-ontological-incompleteness with respect to social-stake-contention-or-
confliction and are thus not the absolutising framework of human meaningfulness-and-
teleology, as the social knowledge-reification role must always be opened to ‘intemporal
individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality
parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-
reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning—suprasocial-construct rather as of base-institutionalisation, base-institutionalisation—ununiversalisation underpinning—suprasocial-construct rather as of universalisation, universalisation—non-positivism/medievalism underpinning—suprasocial-construct rather as of positivism, and prospectively positivism—procrypticism underpinning—suprasocial-construct rather as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning—suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning—suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis—or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency—sublimating–nascence,
disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional–deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance’ including-virtue-as-ontology as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion as-to-depth-of-ontologising-development-as-infrastructure-of leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-
and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism -slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ and underpinning–suprasocial-construct integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrysticism is equally subject to our wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩⟩ and underpinning–suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our
uninstitutionalised-threshold\(^{13}\); and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness\(^{10}\) at destructuring-threshold\(^{1}\) {uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance\(^{12}\)–<including-virtue-as-ontology> which is the grander issue of aetioligisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments\(^{16}\) of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism–or–preempting—disjointedness-as-of\(^{8}\) reference-of-thought supersedes-and-deflates the overall vices-and-impediments\(^{16}\) of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of\(^{8}\) reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{3}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness\(^{5}\) like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{5}\)meaningfulness-and-teleology\(^{10}\) to the given registry-worldview/dimension conventioning-referencing. In this regards, we can appreciate that our own projection of prospective notional–deprocrypticism implied Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\(^{5}\)meaningfulness-and-teleology\(^{10}\) as of its prospective singularisation–<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>\(^{13}\) projected epistemic-immanence/veridical-epistemic-determinism will construe of our present positivism–

Ultimately, Being-development/ontological-framework-expansion−as-to-depth-of-ontologising-development-as-infrastructure-of−meaningfulness-and-teleology points to the fundamental dialecticism of human meaningfulness-and-teleology; as to the fact that the human is that which is in <amplituding/formative−epistemicity>totalising−thrownness-in-existence as of recurrent-utter-uninstitutionalisation <amplituding/formative−epistemicity>totalising−self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by its reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument but then is warranted to ontologically-complete itself successively as of base-institutionalisation, universalisation, positivism and prospectively notional−deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. We can appreciate in this regards that both for the individual and the social, the capacity to ‘spontaneously’ be able to
teleology as of its specific construction-of-the-Self brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance as manifesting with the Socratic method for universal consistency and coherence, Plato’s ideas for universal consistency and coherence and Aristotle’s qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-of-the-Self’. This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic-philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset; as of the knowledge reifying capacity-and-template for developing and cumulating such universalising-idealisation coherence and consistency across culturally diverse peoples and across space and time. The Socratic-philosophers crucial and defining emphasis for differentiating themselves from sophists—ideal-type-or-individuation was very much a self-conscious insight as of the requisite parrhesiastic gesturing of ‘intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension (as of human self-

This is equally reflected in the idea that the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology is rather as of the implication of relative-ontological-completeness associated with human limited-mentation-capacity-deepening from the perspective of existence-potency sublimating–nascence, disclosed from prospective-

Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency\textsuperscript{38}−sublimating–nascence, disclosed from prospective epistemic digression over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/suberogatory–de-mentativity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing, for explicating ontological-contiguity\textsuperscript{38} construal equally points out that the very same immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human\textsuperscript{38} totalising–purview-of-construal’ or any as intrinsic-reality/ontological-veridicality does not imply the de-mentative/structural/paradigmatic change of existence-as-of-existential-contextualising-contiguity\textsuperscript{39} but rather that change is the outcome of human limited-mentation-capacity-deepening\textsuperscript{52} − maximalising-recomposuring for relative ontological-completeness\textsuperscript{55} – unenframed-conceptualisation involving \textsuperscript{1} de-mentation–(suberogatory–ontological–de-mentation–or–dialectical–de-mentation–stranding–or–attributive–dialectics) of prospective postconverging–or–dialectical–thinking\textsuperscript{50} – apriorising-psychologism representation and prior

abstract scientific notions in existential-contextualising-contiguity' knowledge-reification'.

For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology/knowledge as physics knowledge-reification. Rather we can better appreciate the occurrence of existential-contextualising-contiguity knowledge-reification as of <amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications-of-prospective~nonpresencing,-for-explicating-ontological-contiguity construal in the sense that our ordinary thought process itself is as of <amplituding/formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally <amplituding/formative–epistemicity>totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity of such notions like space, time, force, etc. in <amplituding/formative–epistemicity>causality~as-to-projective-totalitative~implications-of-prospective~nonpresencing,-for-explicating-ontological-contiguity apriorising/axiomatising/referencing—conflatedness to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always of epistemic-totalising ~resubjecting (totalising-entailing reconstrual) of ‘the very same physics notions and their derived
implications of new notions’ as of existential-contextualising-contiguity\textsuperscript{39} in apriorising/axiomatising/referencing—conflicatedness\textsuperscript{12} involving human limited-mentation-capacity-deepening\textsuperscript{53} hermeneutics in avoiding-and-superseding any \textsuperscript{9} presencing—absolutising-identitive-constitutedness\textsuperscript{13}. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility’\textsuperscript{74}—effusing/ecstatic–inlining nature of existential-contextualising-contiguity \textsuperscript{39} in epistemic-conflicatedness \textsuperscript{12} in their domains-of-study’ implies that their knowledge-reification\textsuperscript{87} should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any \textsuperscript{9} presencing—absolutising-identitive-constitutedness\textsuperscript{13}, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existential-contextualising-contiguity\textsuperscript{39} in \textsuperscript{4} <amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications-of-prospective\textsuperscript{61} nonpresencing, for explicating-ontological-contiguity\textsuperscript{67} in epistemic-conflicatedness \textsuperscript{12} to which their abstract notions are aligned’ as well as so-implied by their \textsuperscript{4} foregrounding—entailment\textsuperscript{6} (postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ‘-in-reflecting–‘immanent-ontological-contiguity ‘;–as-operative-notional–deprocrypticism} orientations which drives their knowledge-reification\textsuperscript{87}—gesturing for unification as to ontological-contiguity\textsuperscript{67} as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/existentialising/instative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility\textsuperscript{74}—effusing/ecstatic–inlining nature of existential-contextualising-contiguity\textsuperscript{39} supervening-conflicatedness\textsuperscript{12} thus rendering its methodology more explicitly totalising-entailing and teleological even as it is often naively and wrongly construed.
as ‘a relatively weaker natural science’ from a naïve epistemic apriorising/axiomatising/referencing—constitutedness perspective. This underlying insight reflects ecstatic-existence’s supervening-conflatedness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation); wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like physics and the natural sciences generally are of a less elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflatedness and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic apriorising/axiomatising/referencing—constitutedness while inherently ‘less immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflatedness that speaks to the need for their appropriate totalising-entailing hermeneutic/reprojective/supererogating/zeroing depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive—constitutedness for construing their veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>. In many ways the natural sciences by the immediate constraining of their ontological-primemovers-totalitative-framework implicitly avoid atomising/taking-to-pieces apriorising/axiomatising/referencing—
constitutedness\(^1\) but the misunderstanding that their knowledge-reification—gesturing is effectively as of atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness\(^1\) in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification\(^8\) and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’.

<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>; wherein we can appreciate that the instigation of universalising-idealisation meaningfulness-and-teleology\textsuperscript{100} infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology\textsuperscript{100} infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of
freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is dementatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-
performance\textsuperscript{72} -\textit{including-virtue-as-ontology} arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance\textsuperscript{72} -\textit{including-virtue-as-ontology} equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually- and-morally accountable then? How can we reconcile the fact that given human \textit{amplituding/formative–epistemicity} totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/\textit{supererogatory–de-mentativity} could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic \textit{amplituding/formative} wooden-language\{imbued—averaging-of-thought\}<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of- ‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>\}? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance\textsuperscript{72} -\textit{including-virtue-as-ontology} as of human \textit{amplituding/formative–epistemicity} totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality

notional–deprocrypticism (more like an archaeologist might don on dirty clothing and dig their

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/ reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional—projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> denaturing of meaningfulness-and-teleology so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-
the ontological-contiguity of-the-human-institutionalisation-process as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. To rather assume the notion that ‘achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of a given registry-worldview’s/dimension’s denaturing <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of- nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> so-construed prospectively’ take precedence and are not ‘necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality behind the intemporal individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process, comes with the contradictory implication that the state of recurrent-utter-uninstitutionalisation should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing <amplituding/formative> wooden-language} (imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of– meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-
so-construed prospectively are rather more pertinent) in order to ‘invent’ base-institutionalisation–ununiversalisation, which contradictorily as well, as ‘biting the hand of such intemporal-disposition inventing’, should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing so-construed prospectively are rather more pertinent) in order to ‘invent’ universalisation–non-positivism/medievalism, which contradictorily as well, as ‘biting the hand of such intemporal-disposition inventing’, should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing so-construed prospectively are rather more pertinent) in order to ‘invent’ positivism–procrypticism (that is, paradoxically we shouldn’t be existing today!), and which contradictorily as well, as ‘biting the hand of such intemporal-disposition inventing’, itself should not be transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing so-construed prospectively are rather more pertinent) in order to ‘invent’ deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural
weakness of human incapacity that can arise and do arise as a result of our limited-mentationcapacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then ‘understand’, of intellectual-and-moral irresponsibility of failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to do our own ‘homework’ with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness-or-ontological-reprojecting that enables human memetic-rescheduling (psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism–procrystalism and prospectively deprocrystalism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language–(imbued—temporal–mere-form/virtualities/dereification /akrasiatic-dragnatured/preconverging-or-dementing –narratives–of-the reference-of-thought–categorical-imperatives/axioms/registry-teleology) as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-
of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind
the mental projection associated with and contributing to such institutional-being-and-craft
‘inventing’. But then transcendental constructs of meaningfulness going beyond the
‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually
perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define
registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo,
Diderot, Copernicus as of implying a prospective 84reference-of-thought of meaningfulness, is
an afterthought social recognition by the prospective registry-worldview’s/dimension’s
84reference-of-thought institutionalisation, not the social recognition of their own registry-
worldview’s/dimension’s 84reference-of-thought (as the prior/transcended/superseded), as
transcendental 56meaningfulness-and-teleology100 involves psychical and institutional
recomposuring of high contrariety implications to human temporality99/shortness as putting into
question the present as prior/old, but then the vocation of all transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity as all knowledge is not about being
responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of
social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-
veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity of an
intersolipsistic nature. It is equally important to grasp that transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity is the more profound origination of
84reference-of-thought that enables knowledge conceptualisations, and that the praxis of
knowledge may naively be construed as non-transcendental. So all knowledge is actually
transcendental and this is not to be confused with its distance/remoteness as coming from the
‘transcendental origination of the 84reference-of-thought of the knowledge’ (whether as base-
institutionalisation, 10 universalisation, positivism or prospectively notional~deprocrypticism
knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional
inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-dementativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or-ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding
institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\(^{1}\)~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\(^{1}\)~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding<&-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory~de-mentativity of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness of reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory~de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-
sublimity/sublimation/supererogatory de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc.
across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrpticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as intemporality -asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing—confatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing.
Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence)—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing—conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing notional–deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogism. apriorising/axiomatising/referencing—conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought now being construed as preconverging-or-dementing-and-decentered-prior-institutionalisation’s—categorical-imperatives/axioms/registry-teleology as denaturing.}
The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold (3)–defect-<as-Being-or-ontological-or-existential–defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processssing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness ). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’ meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought-<as-

dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t have the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation <-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> with respect to meaningfulness). Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction,-in-profound-supererogation <-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind to wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existential-contextualising-contiguity’ rather than reflect the reality of its
knowledge, the relatively ontologically-complete reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking-apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ construed as ‘preconverging-or-dementing-apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising-reference-of-thought-elements/apriorising-registry-elements, and thus falsely implying the apriorising-reference-of-thought-elements/apriorising-registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-ontological-good-faith/authenticity-of-reference-of-thought). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cingle-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-
veridical hollow mimicking narratives since ‘we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\(^9\) of meaning’ (meaning-by-the-merely-logical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by Dad; Dad, however, having an ‘existential-contextualising-contiguity\(^9\) sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound-\(^4\) reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought by way of distractive-alignment-to\(^4\) reference-of-thought-<of-apriorising/axiomatising/referencing> and then reflect the \(^8\) reference-of-thought or registry-teleology\(^10\) of John as \(^7\) perversity-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\)> or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^10\). In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect—of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^7\) of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^\#\)—defect—<as-Being-or-ontological-or-existential–defect>\(^9\) that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-
and-teleology is that the apriorising-registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! ‘disjointedness-as-of’ reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) narrative is apparently coherent but ‘construed together as of the retracing of set-of-narratives’ these reveal ‘unsoundness-or-ontological-bad-faith/inauthenticity’<of>reference-of-thought as preconverging-or-dementing<apriorising-psychologism’. It is rather their respective ‘retracing of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’<of>reference-of-thought<devolving-as-of-instantiative-context of set-of-narratives together’ that reveals ‘postlogic slanting unsoundness-or-ontological-bad-faith/inauthenticity’<of>reference-of-thought perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ and ‘conjugated-postlogic cohering-slanted unsoundness-or-ontological-bad-faith/inauthenticity’<of>reference-of-thought derived-perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ (preconverging-or-dementing -integration)’; as in successive postlogic-backtracking<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> and corresponding conjugated-postlogic conjoining of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-effect/cinglé-effect’ as unsoundness-or-ontological-bad-faith/inauthenticity’<of>reference-of-thought inducing the preconverging-or-dementing<apriorising-psychologism which is particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-

Further, this ‘natural level of human interlocution engagement is a perpetuation’ explaining why the conjugated-
postlogism mental-disposition is one of ‘slanted-cohering/conjoining’ as it rather re-rationalises the latest iterated narrative as an elucidation rather than a further preconverging-or-
dementing –apriorising-psychologism of adult psychopath/postlogism\(^78\) (as obvious with the child psychopathy ‘delirium effect’ as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected \(^78\) reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-

processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-
supererogation\(^97\) issue, such that one salient manifestation of conjugated-postlogism \(^8\) arises with many of such an interlocutor vaguely articulating propositions based on such falsely ‘apriorising--\(^8\) reference-of-thought-elements/apriorising–registry-elements (out of existential-
contextualising-contiguity\(^6\)’s-reifying/elucidating-of-prospective-relative-ontological-
completeness -of- reference-of-thought- devolving-as-of-instantiative-context’). The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism \(^8\) reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their \(^8\) reference-of-thought into the positivistic terms with their successive contentions (due to \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing–}\)
syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{35}), as their \textquotedblleft reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability\textquotedblright, and in the big picture in all likelihood can only be \textquote{weaned from} crossgenerationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Likewise the \textquote{natural basis of human interlocutory engagement tends to be perpetuating} when it comes with psychopathy and social psychopathy with respect to its eliciting of a \textquote{least-and-derived-temporal-operating-modalities-of-the reference-of-thought-as-of incrementalism-in-relative-ontological-incompleteness\textsuperscript{39}—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold \textsuperscript{33}-(as-procrypticism)}, thus equally implying a \textquote{amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} circularity/recurrence/repetition/repeatability\textsuperscript{33} of the \textquote{reference-of-thought as of the uninstitutionalised-threshold} or \textquote{procrypticism–or–disjointedness-as-of reference-of-thought}. Thus the central notion for preempting psychopathic postlogism\textsuperscript{78} and conjugated-postlogism\textsuperscript{78} is the \textquote{retracing of their sets-of-narratives as of existential-contextualising-contiguity\textsuperscript{39} s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}–of-reference-of-thought-devolving-as-of-instantiative-context}. That revealing unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by (\textquote{ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation}) mental-

It is important thus to know that since the defect of psychopathy and its derivation as social psychopathy has nothing to do with logical-processing but everything to do with perversion-of-‘reference-of-thought’<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/perversion-of-axiomatic-construct and the false ‘apriorising—‘reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity⁰⁹’s-reifying/elucidating-of-
prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context’ which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, it is simply maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that is ontologically called for to invalidate the psychopathic ‘implied falsehood’ by invalidating the ‘apriorising reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, and not involve in any elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity which will ‘hollow-constitute’ and falsely validate the deceptive foundation of ‘apriorising reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity to be had/entertained nor any logical analysis but rather maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation invalidating that the implied—logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-
arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought–devolving-as-of-instantiative-context’). This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing-apriorising is actually about ‘denaturing postlogic-backtracking-<iterative-looping–set-of-dereifying-hollow-narratives-and-acts’—with–successive-shifting-of-the-narratives-and-acts-foci’-construed-as–‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting-conviction-as-to-profound-suprerogation—of–’attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism—as-of-conviction,-in-profound-suprerogation—<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-
precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional– apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation\textsuperscript{77}-or-prelogism\textsuperscript{79}-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\textsuperscript{15} postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation\textsuperscript{77}-or-prelogism\textsuperscript{79}-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition).

Even if this latter narrative is proven to be false (as it is another\textsuperscript{75} perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{75}> or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{42} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–\textsuperscript{75} reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity\textsuperscript{71}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{80}-of- ‘reference-of-thought\textsuperscript{81} devolving-as-of-instantiative-context’) of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} such that the mere fact of engaging logically with
it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge\(^2\) paviing the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge\(^2\) operating \(^5\)logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^9\) on such false axioms. Thus, with respect to postlogism\(^78\) generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting—conviction-as-to-profound-supererogation\(^7\)—of—‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism even if it is a perception of ‘poor or bad supplanting—conviction-as-to-profound-supererogation\(^7\)—of—‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism’ since that will validate the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity\(^9\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^9\)-of—‘reference-of-thought—devolving-as-of-instantiative-context’) on the basis that it was the \(^5\)logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^9\) that was wrong hence the possibility and credibility not to question the \(^5\)reference-of-thought/apriorising—registry/categorical-imperatives/axioms and to re-engage \(^5\)logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^9\) by ‘prelogism—as-of-conviction,-in-profound-supererogation\(^9\)-<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logicaoutcome-arrived-at> re-engaging reflex’ wrongly turning the issue into one of \(^5\)logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^9\) instead of construing a \(^5\)perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^9\)> ‘preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity\(^64\)-of—reference-of-thought manifestation’). The psychopath simply needs to
loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing’ postlogic-backtracking deprived-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-profound-supererogation to or prelogism, at-a-pedestal, in this case ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex–logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per disontologising-perverted-outcome-sought-precedes-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness-precedes-disontologising-logical-outcome-arrived-at), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation are an outlying
phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism (due to the ‘lack of constraining social universal-transparency ) as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation from some interlocutors with no more commitment given the inconsistency of the hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in postlogic-backtracking-iterative-looping-set-of-dereifying-hollow-narratives-and-acts as absolving/fleeting/escaping-reflex-logic, in time speaking to the fundamental mental denaturing involved in postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and so for the shallowness of the postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation the extrinsic-attribute inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism-as-of-conviction,-in-profound-supererogation <existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is an alignment to the psychopath’s (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) postlogism-formulaic slanting-compulsing-nonconviction/madeupness/bottomlining-('<decontextualising/de-existentialising-attendant-intradimensional-ontologising'-imbued-contextualising/existentialising-attendant-ontological-contiguity,-in-shallow-supererogation-disontologising-perverted-outcome-
sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness> projection (distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing> such that the former’s mind is rather in a hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> ‘conjoining looping narratives (of flawed-existential-elevation-of-reference-of-thought and developing a supplanting—conviction-as-to-profound-supererogation)—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism or prelogism out of them), to the psychopath’s ‘denaturing postlogic-backtracking—iterative-looping—set-of-dereifying-hollow-narratives-and-acts’—with—'successive-shifting-of-the-narratives-and-acts-foci’-construed-as—'deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogic/prelogism—as-of-conviction,—in-profound-supererogation—existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is ignorant of the slanted mental state of the psychopath. The general and complete operative psychopath perversion-of—reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> mechanism (it isn’t necessarily completed in all manifestations as is rather a ‘mental roaming/drifting-cycle disposition known as postlogism—retreating’ that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of
context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s ‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to ‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribute. Passive or suggestive alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued as intrinsic ontological depth-of-conviction-as-to-profound-supererogation’. The underlying reason for the entirety of this mental process in the psychopath has to do with its ‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’ (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) which poorly perceives ‘supplanting-conviction-as-to-profound-supererogation’—of ‘attendant-
apriorising/axiomatising/referencing pedestal, and the intemporal-disposition transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing pedestal in their ontological-escalation/aetiologisation),

by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a
social-stake-contention-or-confliction as to preconverging/postconverging–de-
mentating/structuring/paradigming implications. Critically, it should be understood that passive
or suggestive alienation is actually the summum of the possibilities of the psychopath’s
meaningful finality that starts from prevaluation (neutral narrations). It should be noted that the
mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition
conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing–apriorising-psychologism’ is not really ontologically-speaking a
prelogic/conviction-as-to-profound-supererogation mental state but rather technically a
‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two
stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as
an ignorant of psychopathic postlogism in hollow-constituting<as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> to which the

The interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-
by-temporality/interest over intrinsic-veridicality’ whether in the form of
affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that
this psychopathic manifestation process can be mimicked in the context of social psychopathy,
and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing’–apriorising-psychologism’. Over a given or extended period the underlying effect
sought by the psychopath might stick, especially where the social target, interlocutors and
others are utterly unaware of the mental state of the psychopath, and so evolving more like a
social-discomfite of relationship over ‘socially-perceived-value as of social-stake-contention-
or-confliction’ (‘social-discomfite as such can be defined as the subsequent, ignorant or
deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking
narratives of the psychopath with the corresponding ‘perversion-of-reference-of-thought-as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

a consciously active manner the empty forms of prosody in-of-themselves first and over the
intrinsic attributive essence of meaning like overemphasising the toning form (toning
triggering) and the supposition form (presumptuousness) in their expressed deductive
reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised
spontaneously when naturally expressing profound/deep conviction; thus naturally the
psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existent-elevation-of-’reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogic/psychopathic, conjugated-postlogism/preconverging-or-dementing -integration and supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as to existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity -reification /superseding–oneness-of-ontology to establish ontological-veridicality, and not simply operating on the ‘naïve

involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest
among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting,
being friendly towards, etc.) is the basis for the targeting of another or others, further
compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or
less effectively most of our formal setups, their sociological pertinence is actually far from
established, but for the fact that broad and large general education diminishes social
egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the

of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as

for postlogic slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood. It is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity—of-refrence-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound); - CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing–apriorising in a roaming/drifting-cycle as per evolving situation...
whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing’-apriorising, etc. once it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’.

Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding←as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory—de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-‘universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation←as-to–‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing ←apriorising-psychologism> or ‘uninstitutionalised-threshold ’) of many an interlocutor; - CRAFTINESS (with increasingly greater crude-to-polished threshold–of–nonconviction/madeupness/bottomlining-in-shallow-supererogation←as-to–‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing ←apriorising-psychologism>: Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism→as-of–compulsing–nonconviction/madeupness/bottomlining≤‘<decontextualising/de-existentialising–of–attendant-intradimensional–

order for the former to conjoin to its postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\(\sim\). So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge\(\sim\); as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology}', then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social universal-transparency—{transparency-of-totalising-entailing-as-to-entailing-amplituding/formative–epistemicity–totalising–in-relative-ontological-completeness} on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-

as the ‘uninstitutionalised-threshold\textsuperscript{103}’). Hence psychopathy when studied dynamically is
rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally
influences social behaviour as at ‘uninstitutionalised-threshold\textsuperscript{103}’ human learned behaviour is
primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-

register-of–meaningfulness-and-teleology\textsuperscript{100}), hence its relation to sociopathy which is a more
generalised notion of social vices-and-impediments \textsuperscript{96}. The social psychopathy phenomenon (in

human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/civilisation, in
an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from

(preconverging-or-dementing -as-if-of-sound-knowledge)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional–deprocrypticism (preempting procrypticism, so construed by ‘notional–deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking- -differentiation-as-of-supratransversality–of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’> (as prior intemporal \(8^{`}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology \(9^{0}\)) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging \(9^{5}\) of the \(9^{4}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology \(10^{0}\) behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective \(8^{4}\) reference-of-thought– categorical-imperatives/axioms/registry-teleology \(10^{0}\)). To grasp this better say for instance the normal arithmetic we know 2+2=4, 5+1=6, 7-3=4, etc. was to be undermine by a new human perversion-of-ref reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-
being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojective/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure-naelcy/ontological-eventfulness /ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-epistemicity-relativism’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ that is). Hence ‘our homework’ is to articulate our very own ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ for the
possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality’ which speaks of inherent relative-ontological-incompleteness-induced, ‘threshold-of(nonconviction/madeupness/bottomlining-in-shallow-supererogation)’<as-to(‘attendant-intradimensional’)prospectively-disontologising~preconverging/dementing-apriorising-psychologism’, as-it-is-thus~‘in-wait’-for-<perversion-of-referencethought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy/postconvergence as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-referencethought<of-apriorising/axiomatising/referencing> of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism preconverging-or-dementing(apriorising-psychologism, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)! It should be noted that while ‘institutional-cumulation’ and ‘institutional-recompose’ are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence-and-sublimity/sublimation/supererogatory~de-mentativity (with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recompose stresses the peculiarity of the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposured peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent
institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposing show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure-{as-to-

drivenness–equalisation⟩ instigation recurrently inducing the institutionalisation/intemporalisation process (which is not an analogical notion but a contiguous notion as to ontological-contiguity by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across institutional-cumulation/institutional-recomposure{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>}) rather so-reflecting ontological-contiguity as to human limited-mentation-capacity-deepening wherein existence’s ontological-contiguity construable as to nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection is not beholdening to human limited-mentation-capacity at any given moment) applies universally across space and time (beyond any given registry-worldview’s/dimension’s institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure<as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) analysis) is not, as may wrongly be thought, analogical but is rather ‘an ontologically-contiguous meaningfulness-and-teleology reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e. memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or
prospective perspective. Psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring process can then be defined as arising when a registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology is transcended/superseded as to human limited-mentation-capacity-deepening, at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation  \\

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, this is just a mental-devising-representation for implying intemporality -of-thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology, but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold, transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology is then
represented as preconverging-or-dementing\textsuperscript{12}–apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or de-mentation-(\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{60} and ontological-veridicality/ontological-contiguity\textsuperscript{67} of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective); with the ontologically-veridical/ontological-contiguity\textsuperscript{67} mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity\textsuperscript{63}–\textit{<shallow-supererogation –of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema>-as-of-epistemic-decadence in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking–<iterative-looping–'set-of-dereifying-hollow-narratives-and-acts'>\textsuperscript{77}, stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{10}>), beyond their \textit{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present}. Hence we know of the following de-mentation\textsuperscript{1} (\textit{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}) as preconvergingly-de-mentated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism–or–disjointedness-as-of reference-of-thought (our own prospective mental stranding); as these form the backdrop for the

teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as\textsuperscript{81} procrypticism–or–disjointedness-as-of–reference-of-thought. Noting as well that previous uninstitutionalised-threshold\textsuperscript{03} as to recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation,\textsuperscript{104} universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existentia-depth-implications of supposed postconverging–dementating/structuring/paradigming as we do in our positivistic/procrypticism registry-worldview, within the aims of their the-Good/understanding/knowledge-reification\textsuperscript{7} ontological-primemovers-totalitative-framework conceptualisation. But then their stranding from the prospective institutionalisation/intemporalisation represents them as preconverging-or-dementing –apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising\textsuperscript{12}–self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity\textsuperscript{77} of \textsuperscript{77} reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional–projective-perspective). This equally explains why uninstitutionalised-threshold\textsuperscript{03} equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect
this notional–firstnuturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency\(^4\)<\text{transparency-of-totalising-entailing, as-to-entailing-}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness } of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality\(^7\)-asymmetric-subsumption-of-temporality\(^4\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity\(^6\); in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity\(^6\)<shallow-supererogation\(^7\) of mentally-aestheticised–preconverging/dementing –qualia-schema> of temporal-dispositions and particularly in the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to– meaningfulness-and-teleology } which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality\(^7\)-asymmetric-subsumption-of-temporality\(^4\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold\(^3\) across the successive institutional-cumulation/institutional-recomposure-{as-to}
historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing (‘intemporality-asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of-meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-
uninstitutionalised-threshold (\textsuperscript{1}) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memeticism or suprastructural-meaningfulness) as ‘postconverging-or-dialectical-thinking\textsuperscript{19}–apriorising-psychologism—by—preconverging-or-dementing\textsuperscript{18}–apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their \textsuperscript{2}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, notional–deprocripticism going by ontological-normalcy/postconvergence implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a postconverging-or-dialectical-thinking\textsuperscript{19}–apriorising-psychologism—by—preconverging-or-dementing\textsuperscript{18}–apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} as dialectical transformation as-prospective \textsuperscript{3}reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} as dialectical transformation, as-prospective \textsuperscript{3}reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the
conceptualisation as the-Good sticks by essence to intemporal-preservation-entropy-or-contiguity-or-ontological-preservation and reinvents reference-of-thought-categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation for prospective/transcending/superseding registry-worldview to comply with intemporal-preservation-entropy-or-contiguity-or-ontological-preservation when the prior one fails, while the latter sticks by form to reference-of-thought-categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation whether this fails intemporal-preservation-entropy-or-contiguity-or-ontological-preservation or not. The conceptualisation of reference-of-thought-categorical-imperatives/axioms/registry-teleology refers to the same deconstructed/ontological-reconstituting-as-to-conflatedness notion; axioms emphasises and hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology (short for the apriorising-registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing meaningfulness-and-teleology. The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology, and is capable of ontological-reconstituting-as-to-conflatedness/deconstruction involving de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) with corresponding de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human-meaningfulness-and-teleology-into-the-existentialism-becoming of personhoods-and-socialhood-formation.

Fundamentally \textsuperscript{7} perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation/> has to do with the defect of the \textsuperscript{5} reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity\textsuperscript{67} (which is rather a logical-process/implicitation-of-act-execution defect and which implies an ‘implicitation-of-notion-of-agreement-or-disagreement’), as can be reflected as from ontological-normalcy/postconvergence. A \textsuperscript{8} reference-of-thought speaks of the fundamental
appropriateness/soundness-or-ontological-good-faith/authenticity of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation irrespective of their appropriate or inappropriate logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suppererogation with respect to ontological-contiguity/ontological-veridicality, and implying sound reference-of-thought further emphasises appropriate incidental logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-suppererogation in producing the right outcome. Hence a registry-worldview/dimension defect is one of systematic defect of reference-of-thought; whether when recurrent-utter-uninstitutionalisation reference-of-thought as of non-rules—apriorising/axiomatising/referencing—psychologism, as-impulsive-or-accidented-or-random-mental-disposition—(as ‘base apriorising/axiomatising/referencing—constitutedness of reference-of-thought’)

Thus fundamentally preconverging-or-dementing—apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought does not arise because of failure of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation but rather because of failure of reference-of-thought as of perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. This is unlike the case where logical-engagement of mental-devising-representation as ‘postconverging-or-dialectical-thinking—apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought is still relevant where there is failing/not-upholding-as-of-apriorising/axiomatising/referencing—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them (whether consciously, expediently or unconsciously). Soundness-or-ontological-good-
faith/authenticity of reference-of-thought on the other hand implies being-or-ontological-or-existential-or—meaningfulness-and-teleology disposition as of supplanting—conviction-as-to-profound-supererogation —of—attendant—intradimensional—postconverging/dialectical-thinking—apriorising-psychologism (reflecting sound logical-processing—or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation and at worst defect—of—logical-processing—or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation ) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) nature of intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence—in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation)’, in reflecting/perspectivating/highlighting ‘the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the de-mentation—supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—attributive—dialectics)) whether as of registry-soundness and thus as ‘postconverging—or—dialectical-thinking—apriorising-psychologism representations’ (postconverging—or—dialectical-thinking—apriorising-psychologism—stranded—as—rightfully—straight/candored—and—dialectically—or—contendingly—in-phase) or as of perversion-of—reference-of-thought—as—effectively—apriorising-in-nonconviction/madeupness/bottomlining—as—to—shallow—supererogation and thus as ‘preconverging—or—dementing—apriorising-psychologism representations’ (preconverging—or—dementing—apriorising-psychologism—stranded—as—rightfully—oblongated/decandored—and—dialectically—or—contendingly—out-of-phase), and so as de-mentation (supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—or—

threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation explains how and why successive institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) are at their given institutionalisation levels on the basis of a memetic suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding–<as-of-apriorising/axiomatising/referencing> intradimensional ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘preconverging-or-dementing–apriorising-psychologism phenomenon’ like psychopathy and social psychopathy (with respect to procrysticism or ‘perversion-of–reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor individuations dispositions wherein intradimensionally, the ‘socially-betraying-threshold-of-ontologising-depth-of-analysis’ (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold (uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance —<including-virtue-as-ontology> ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in conjugation to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation —<as-to–attendant-intradimensional’-prospectively-disontologising–preconverging/dementing —
apriorising-psychologism> in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework⁷³ construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating-decisionality}-of-ontological-performance⁷²-

<including-virtue-as-ontology> on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold⁰³ of the registry-worldview/dimension (procrypticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework⁷³ construct’ preempting the said perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with
regards to perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-amplituding/formative–epistemicity-totalising-in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this
respect, one can cite at individuals-levels instances of many a human interest story tragedy in
the press which often go unanalysed, and in the bigger institutional-level for instance what is
the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably
due to grave and unprincipled mismanagement with profound social repercussions. The implied

or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with
ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy/postconvergence (as to epistemic relative-ontological-completeness) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or notional-deprocrypticism as having ‘relative sound/ontologically-veridical reference-of-thought status’, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly of ‘relative unsound/ontologically-impertinent reference-of-thought status’, and so going by the inherent

In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy/postconvergence is already a defective state ‘in-wait as of prior relative-ontological-incompleteness\(^9\)-of’ reference-of-thought defective ‘reference-of-thought– categorical-imperatives/axioms/registry-teleology\(^{100}\) for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism–procrypticism is in absolute sync with ontological-normalcy/postconvergence by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure–\{as-to–historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>\}, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an utter hermeneutic/reprojective/supererogating/zeroing circle exercise of ontological-reconstituting–as-to-conflatedness\(^1\)/deconstruction (of our notional~firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature)’ how procrypticism (preconverging-or-dementing\(^9\)—apriorising-psychologism as to mere-formulaic positivistic \(^{56}\)meaningfulness-and-teleology\(^{100}\)) in a positivistic registry-worldview de-mentatively/structurally/paradigmatically endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure–\{as-to–historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>\} and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-
normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting–as-to-conflicatedness\(^{12}\)/deconstruction (which is the critical subsuming mechanism for re-establishing \(^{8}\)reference-of-thought and ontological-veridicality/ontological-contiguity\(^{8}\) as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, above and beyond the simple hollow-constituting-\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\) of defective \(^{6}\)reference-of-thought–categorical-imperatives/axioms_REGISTRY-TELEOLOGY\(^{100}\)–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the human limited-mentation-capacity-deepening\(^{53}\) induced institutional-cumulation/institutional-recomposition-\(\langle\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}>\rangle\), and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of a same ‘human form-factor’, with regards to the reality of their notional--firstnatures—temporal-to-intemporal-dispositions-\(<\text{so-construed-as-from-perspective–ontological-normalcy/postconvergence}>\) and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and \(^{4}\)reference-of-thought. Ontological-entrapment (as a deterministic point of

A ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ as being ontologically-
driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} (as to ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism’ or of preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any \textsuperscript{8} presencing—absolutising-identitive-constitutedness\textsuperscript{13} distorted \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100}. This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s \textsuperscript{8} reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/knowledge-reification\textsuperscript{87}/ontological-primemovers-totalitative-framework\textsuperscript{22} sound \textsuperscript{8} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in ontological-reconstituting–as-to-conflatedness\textsuperscript{12}/deconstruction); wherein no amount of ‘good-naturedness’ of any individuation based on the former (prior/transcended/superseded) \textsuperscript{84} reference-of-thought can fundamentally supersede its preconverging–de-mentating/structuring/paradigming vices-and-impediments\textsuperscript{106}, but for the ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring) into the \textsuperscript{84} reference-of-thought of the latter (prospective/transcending/superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as
reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as limited-mentation-capacity-deepening has to do with the veracity/ontological-pertinence of our notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence as individuations of shortness-to-longness-of-register-of-meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation (ontological-reconstituting-as-to-conflatedness). This fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating-{amplituding-formative}supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-

This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to-reference-of-thought—of-apriorising/axiomatising/referencing>/decandoring with three dementative/structural/paradigmatic teleologies: - subknowledging impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>);
phase>); and - the intemporally given and ontologising teleology\(^{00}\) which ontologically reflects/perspectivates the subknowledging\(^{02}\)-impulse/compulsive-dementing\(^{19}\)-temporal-disposition-(psychopath) and the subknowledging -registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the \(^{14}\) de-

Thus at the uninstitutionalised-threshold \(^{01}\), it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing–apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective reference-of-thought-categorical-imperatives/axioms.registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation existential mental orientation to avoid postconverging-or-dialectical-thinking–apriorising-psychologism-stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness-and-teleology of a transcendent registry-worldview/dimension in terms–as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms.registry-
teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence-and-sublimity/sublimation/supererogatory—de-mentativity inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently crossgenerationally since transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-ontological-good-faith/authenticity—of—reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism—or—disjointedness-as-of—reference-of-thought. The dynamism of social psychopathy and the perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—> involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to—reference-of-thought—<of-apriorising/axiomatising/referencing—>—at—uninstitutionalised-threshold—’) can be resumed as follows. That’s how the ‘given reality’ is being subknowledged/registry-perverted. This obviously calls for an ‘intellectual/scientism detachment’ towards the ‘perversion-of-reference-of-thought--effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-

postconverging–de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation preconverging–de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct). This way of hermeneutic/reprojective/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any<br>epistemicity>totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocrypticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as persion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Deprocrypticism’s
suprastructuralism involves ‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression so-construed as longness-of-register-of meaningfulness-and-teleology over shortness-of-register-of meaningfulness-and-teleology; and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ construct carrying a virtue that supersedes the vices-and-impediments of the non-positivism/medievalism registry-worldview/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in grasping the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of apriorising/axiomatising/referencing—conflation rather than apriorising/axiomatising/referencing—constitutedness (notwithstanding the instances of the

apriorising/axiomatising/referencing—constitutedness’ tend to fallaciously imply ‘existence of 

things in existence’ whereas apriorising/axiomatising/referencing—conflation rightly implies 

‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-

ontology’; so because apriorising/axiomatising/referencing—constitutedness\(^1\) takes a 

simplistic shot at construal/conceptualisation of existential-reality practically presuming this to 

be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-

depenning\(^5^3\) this is erroneous hence the need for re-categorisation/re-adaptation/re-classification 

as ‘re-constitutedness\(^1^3\) of \(^5\) reference-of-thought’ perpetually when aware of its deficiency. 

apriorising/axiomatising/referencing—conflation takes a shot at construal/conceptualisation of 

existential-reality from an open-ended insight/fugue as of referentialism from the more

open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity–or–ontological-

preservation as of ontological-normalcy/postconvergence which always factor in 

human limited-mentation-capacity-deepening\(^5^3\) by a re-equilibrating metaphysics-of-absence\(^\{\text{implicitied-epistemic-veracity-of- nonpresencing-{perspective–ontological-normalcy/postconvergence}}\}\)/postdication. Thus, apriorising/axiomatising/referencing—
constitutedness\(^1\) will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing—constitutedness\(^1\) in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness\(^1\) of axiomatic-construct/reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^1\)) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness\(^1\) of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness\(^1\)’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening\(^3\) construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity\(^1\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^1\)-of-reference-of-thought\(^1\) devolving-as-of-instantiative-context as to existence-potency\(^1\)—sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by apriorising/axiomatising/referencing—constitutedness\(^1\) in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness\(^1\) as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge
construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology\textsuperscript{(10)} construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology\textsuperscript{(10)},<-in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-‘reference-of-thought\textsuperscript{(4)}’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing - reflexive/entailing-teleology\textsuperscript{(0)}-differentiation-as-of-subtransversality~of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, apriorising/axiomatising/referencing—constitutedness\textsuperscript{(13)} implies a simplistic/trite categorical relation in the construal/conceptualisation of ‘meaningfulness-and-teleology\textsuperscript{(0)} as of its ontological and virtue essence that is susceptible to defect as perversion-of-‘reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{(1)}>; or derived-perversion-of-‘reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{(0)}>; and as such, apriorising/axiomatising/referencing—constitutedness\textsuperscript{(13)} will speak of subtransversality~of-motif-and-apriorising/axiomatising/referencing and various shades of temporality\textsuperscript{(0)}/shortness in...
their ‘constitutedness’ and conjugated-constitutedness of ‘reference-of-thought’ including psychopathic slantedness apriorising/axiomatising/referencing—constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening induced apriorising/axiomatising/referencing—constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold mental-disposition’ (since such a construal fully reflect the reality of a human temporal-to-intemporal ‘reference-of-thought’ nature, with high ‘constitutedness’ and conjugated-constitutedness of ‘reference-of-thought’ of temporal-dispositions ‘reference-of-thought’, much like the ‘conjugated-constitutedness’ of ‘reference-of-thought’ of the other BODMAS characters to A’s fundamental postlogism—slantedness pathological condition/constitutedness as when insisting on upholding the <amplituding/formative wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology } and not factoring in A’s underlying condition and defect as apriorising/axiomatising/referencing—constitutedness, and so out of sync with the existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context as the more fundamental a priori whose imbricatedness/threadedness/recomposuring reveals the fundamental defect of applying additionality—reference-of-thought—categorical-imperatives/axioms/registry-teleology by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity). The resolution by imbricatedness/threadedness/recomposuring is most telling of the inherent nature of apriorising/axiomatising/referencing—conflation which is

apriorising/axiomatising/referencing—conflation, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context,
and so grasped as apriorising/axiomatising/referencing—conflation emphasises projective-insights for upholding ontological-normaley/postconvergence or intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Hence apriorising/axiomatising/referencing—conflation will tend to avoid systemic defects of analysis associated with apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’\textsuperscript{14}. apriorising/axiomatising/referencing—conflation is thus naturally inclined to induce ‘appropriate-existential-elevation-of-reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking\textsuperscript{20}-differentiation-as-of-supratransversality–of-motif-and-apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology\textsuperscript{84} as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence>.

Further, apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} and apriorising/axiomatising/referencing—conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening\textsuperscript{81} come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-
incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation-inducing-the-uninstitutionalised-threshold). These two concepts are critical relative to grasping and analysing human choice/notions relative to reference-of-thought–categorical-imperatives/axioms/registry-teleology of meaningful-frameworks. Other implications have to do with human personality development psychology in relation to meaningfulness extending to the construal/conceptualisation of language development as well as aesthetics and virtue as reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity — of the human-institutionalisation-process. In a further elaboration of apriorising/axiomatising/referencing—constitutedness and apriorising/axiomatising/referencing—conflation with respect to psychologism, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct reference-of-thought psychologism has to do with the fact that every registry-worldview/dimension has ‘its own specific apriorising/axiomatising/referencing—constitutedness /conflation psychological complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology, achieved by ‘presencing—absolutising-identitive-constitutedness ’ as apriorising/axiomatising/referencing—constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology — amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag,
by way of continuous ‘presencing—absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing—constitutedness’ of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup of amplituding/formative–epistemicity totalising/circumscribing/delineating reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of amplituding/formative–epistemicity totalising/nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-warped-consciousness—enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought—devolving-as-of-instantiative-context’ (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of meaninglessness-and-teleology orientation as we construe of arithmetic and mathematics in say a universalisation or positivism registry-worldview/dimension Being-development/ontological-
<amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought– devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in apriorising/axiomatising/referencing—conflation or rather “[presencing—absolutising-
identitive-constitutedness” as recurrent re-categorisation/re-adaptation/re-classification of apriorising/axiomatising/referencing—constitutedness), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-
primemovers-totalitative-framework transcendental-enabling/sublimating/supererogatory–
demativity and corresponding meaningfulness-and-teleology. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation–ununiversalisation, who do not do likewise as humans in universalisation–non-
positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising–
representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-(as from relative apriorising/axiomatising/referencing—constitutedness to relative apriorising/axiomatising/referencing—conflicatedness ) construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening , can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure{(as-to- historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}> which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic deambulation’ harkens back to that of human registry-worldview’s/dimension’s institutionalisation by its socially-functional-and-accordant thresholds of notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective–ontological-normalcy/postconvergence> further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the
institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought—categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence ⟨implicated—nondescript/ignorable–void—as-to—presencing—absolutising—identitive-constitutedness⟩, the present registry-worldview’s/dimension’s reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness—of—reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that is counterintuitive to a stigmatic/mented psychology as conceptualised today. Such a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ by its contiguity
relatively ontologically non-contiguous stigmatic/mented psychology construct based on its
registry-worldview/dimension ‘amplituding/formative–epistemicity’\textsuperscript{totalising-ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-‘preclusive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’\textsuperscript{s-}\textsuperscript{-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{of}’\textsuperscript{-reference-of-thought-’\textsuperscript{-devolving-as-of-instantiative-context categorising dispositions’ or ‘second-level presencing—absolutising-identitive-constitutedness’} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, on the basis of its meaningfulness-and-teleology\textsuperscript{as value-judgment (not withstanding its prior relative-ontological-incompleteness\textsuperscript{of}’ reference-of-thought as universalisation–non-positivism/medievalism\textsuperscript{(failing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism)} when factoring in such mental-dispositions as believing in superstitions, alchemy, notions-and-accusations-of-sorcery, etc). As we come to recognise that such an approach renders the meaningfulness-and-teleology\textsuperscript{as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure-{(as-to-<historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>)}} as the absolute determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, as it doesn’t factor in the said registry-worldview/dimension prior relative-ontological-incompleteness\textsuperscript{of}’ reference-of-thought to then project that there may be a prospective relative-ontological-completeness\textsuperscript{of}’ reference-of-thought which meaningfulness-and-
teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence
As setting up the relevant attendant psychology is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by successive registry-worldviews/dimensions construals/conceptualisations by their attendant prospective relative-ontological-completeness of reference-of-thought by social universal-transparency \(\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}\langle\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\rangle\) as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of- reference-of-thought- devolving-as-of-instantiative-context (that is, ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’), and so successively across all registry-worldviews/dimensions, whether retrospectively or prospectively. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that
of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold of reference-of-thought in its ‘constitutedness’ and conjugated-constitutedness of reference-of-thought with respect to the prospective registry-worldview/dimension institutionalisation of reference-of-thought overall existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context meaningfulness-and-teleology; (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective apriorising/axiomatising/referencing—conflation) supersedes mythical/supernatural/ALCHEMY explanations psychologism (as of prior apriorising/axiomatising/referencing—constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating/supererogatory—de-mentativity’; interestingly, highlighting how and why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity for prospective institutionalisation is construed in transcendental-enabling/sublimating/supererogatory—de-mentativity terms as its strive for a prospective relative-ontological-completeness-of-reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness—of-reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of apriorising/axiomatising/referencing—conflation will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness’ and conjugated-constitutedness of reference-of-
thought and thus resultant presencing—absolutising-identitive-constitutedness as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing—constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by presencing—absolutising-identitive-constitutedness) when aware of defective apriorising/axiomatising/referencing—constitutedness with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; notional–deprocripticism by its very transcendental essence comprehensively comes into grips with the apriorising/axiomatising/referencing—constitutedness in positivism–procripticism as it attains more than just presencing—absolutising-identitive-constitutedness but an overall comprehensive apriorising/axiomatising/referencing—conflation insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procripticism. apriorising/axiomatising/referencing—conflation as of ontological-normalcy/postconvergence referentialism in superseding apriorising/axiomatising/referencing—constitutedness, provides resolution as of 3 aspects of meaningfulness-and-teleology: firstly, with respect to temporal instigating as apriorising/axiomatising/referencing—constitutedness like psychopathic-slantededness insane-fitment ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation and its derivation with respect to temporal reprisings of such apriorising/axiomatising/referencing—constitutedness as ‘conjugated-constitutedness’ of ‘reference-of-thought’ associated with conjugated-postlogism temporal
reprisings by construing/conceptualising such perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomenon, and re-establishing social universal-transparency- {(transparency-of-totalising-entailing, as-to-entailing-<amplituding/formative-epistemicity>totalising-in-relative-ontological-completeness} that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiologisation/ontological-escalation as of ontological-reconstituting-as-to-conflatedness; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-
of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology\textsuperscript{100} will be represented as decentered and in \textsuperscript{14} de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold\textsuperscript{03} of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in \textsuperscript{14} de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing\textsuperscript{15} of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold\textsuperscript{03} by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in \textsuperscript{14} de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-or-dialectical-thinking\textsuperscript{20} apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and \textsuperscript{14} de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold\textsuperscript{03} construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by
the concepts of apriorising/axiomatising/referencing—conflation as of centering and postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism \(^{31}\) reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing—constitutedness \(^{3}\) as of decentering and ontologically/preconverging-or-dementing\(^{20}\)–apriorising-psychologism \(^{31}\) reference-of-thought implied with uninstitutionalised-threshold \(^{103}\); prompting the respective institutionalisation and uninstitutionalised-threshold\(^{103}\) psychologisms as of the apriorising/precedingness of existential-contextualising-contiguity \(^{19}\)‘s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{88}\) of reference-of-thought\(^{85}\) devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar

\[\text{amplituding/formative–epistemicity}\]totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) reference-of-thought as of the apriorising/precedingness of existential-contextualising-contiguity \(^{19}\)‘s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{88}\) of reference-of-thought\(^{85}\) devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) of an uninstitutionalised-threshold \(^{103}\) is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). Intellectual
courage as imbuing knowledge with organic profoundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is 'no magical knowledge technicality' for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory-de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is 'altogether not a knowledge elucidation problem' with respect to the implied representation of uninstitutionalised-threshold as decentered and in de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) but rather a 'psychological complex issue' of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in 'psychologism terms as of \( <\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag } \)' , as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-reference-of-thought-devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-
positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology/reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the
discretional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology conjure up explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework outcomes as its mechanical-knowledge aspect but further requires a development of the discretional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychology. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied

Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-prime movers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the successive registry-worldviews as at all their uninstitutionalised-threshold temporal-individuations-as-shortness-of-register-of—meaningfulness-and-teleology are a drawback to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (by adherence to ‘<amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology ) of prior/transcended/superseded registry-worldviews/dimensions’ inducing their successive threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to—‘attendant—intradimensional’—prospectively-disontologising—preconverging/dementing —apriorising-psychologism>, and critically so as across all registry-worldviews postlogism leads to a characteristic mental-disposition at their uninstitutionalised-threshold of deception-
of-concurrently-false-presupposing/false-presuming/false-premising-of-narratives and the consequent derivation, due to induced ‘lack of constraining social universal-transparency’\(^\text{104}\), to other temporal-dispositions as conjugated-postlogism\(^\text{78}\), and so beyond-the-consciousness-awareness-teleology\(^\text{106}\)-<in-existential-extrication-as-of-existential-unthought>\(^\text{6}\) whether conscious or unconscious) while the intemporal-individuation-as-longness-of-register-of—meaningfulness-and-teleology\(^\text{100}\) ushers in transcendence-and-sublimity/sublimation/supererogatory—de-mentativity (by it perpetual vouching for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in pushing as this enables successive prospective relative-ontological-completeness\(^\text{36}\)-of-reference-of-thought to raise better and better \(^{\text{84}}\)-reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^\text{100}\), for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation); thus validating the notion of a human intersolipsistic relation to meaningfulness-and-teleology\(^\text{100}\) in transversality—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing’\(^\text{102}\) since a wrong ‘wishful thinking’/intemporal-romanticism/good-naturedness of vouching for logical-congruence will overlook the inevitable reality of temporal-perversion with prospective implications as of <amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness \}, as its resolution is rather an anticipation as of transversality—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing’\(^\text{102}\). Likewise, futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^\text{100}\) as of prospective notional—deprocrypticism
institutionalisation of meaningfulness-and-teleology implies that transcendence-and-sublimity/sublimation/supererogatory-de-mentativity rather reasoned in our positivism–procrypticism terms of psychology is inevitably denaturing as of ontological-normalcy/postconvergence epistemic/notional–projective-perspective; as it is in need of the organic-knowledge of the prospective institutionalisation psychology or notional–deprocrypticism psychology as apriorising/axiomatising/referencing–conflatedness (conflation psychology) on the basis of the ‘referentialism technique of point-referencing (explained elsewhere), which involves ‘contrastive temporal-to-intemporal synopsising-depth from a notional–deprocrypticism perspective’ that re-establishes existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-instantiative-context and in so doing undermines the relatively defective terms of ‘positivism–procrypticism uninstitutionalisation psychology’ (disjointedness-as-of-reference-of-thought) and setting up ‘notional–deprocrypticism organic-knowledge institutionalisation psychology including the discreional contemplative as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality aspect in preempting—disjointedness-as-of-reference-of-thought or upholding jointedness’, as de-mentatively/structurally/paradigmatically transcending the overall vices-and-impediments of positivism–procrypticism registry-worldview/dimension. The further implication is that notional–deprocrypticism is rather construed as a perpetuating metaphysics-of-absence\textcircled{implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>} which driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality can then enable that way the perpetual upholding of organic-knowledge. This ‘mechanical-knowledge by organic-
psychologism’. Rather the ontological-contiguity67—of-the-human-institutionalisation-process68 is driven by human limited-mentation-capacity as of limited-mentation-capacity-deepening53 in the human drive to grasp a same intrinsic-reality/ontological-veridicality that doesn’t change with respect to existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency13—sublimating—nascence,—disclosed-from-prospective-epistemic-digression (with change rather reflected as a result of human limited-mentation-capacity-deepening53), such that in addition to the human limited-mentation-capacity-deepening53 eliciting the successive ‘social-104 universally-transparent-and-implicitly-formulated direct-constraining-construct’ as highlighted above equally inherently imply (and so, as of complement to human limited mentation capacity), a grander non-constraining element qualified as ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ incomplement-to and reflecting the incompleteness of the ‘social-104 universally-transparent-and-implicitly-formulated direct-constraining-construct’; with both the ‘social-104 universally-transparent-and-implicitly-formulated direct-constraining-construct’ and the ‘complementing grander social-104 universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ implying the ‘organic-knowledge’ while just the ‘social-104 universally-transparent-and-implicitly-formulated direct-constraining-construct’ is the ‘mechanical-knowledge’. Further, the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality—of-affirmative-and-unaffirmative—disambiguated—'motif-and-apriorising/axiomatising/referencing’ of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality—of-affirmative-and-unaffirmative—disambiguated—'motif-and-apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of—social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporality/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—de-
mentativity or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality /longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality /shortness in their times). In which case while such intemporality /longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality~of-affirmative-and-unaffirmative–disambiguated~motif-and-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing—conflation in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically~conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. This ‘anti-transcendence as anti-uninstitutionalised-threshold\textsuperscript{\textgreater} and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ \textsuperscript{\textless}amplituding/formative–epistemicity\textgreater totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{\textless} desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold\textsuperscript{\textless}–facet, but with such representation becoming critically ontologically untenable at the registry-worldview/dimension uninstitutionalised-threshold\textsuperscript{\textless} where ‘meaningfulness-and-teleology\textsuperscript{\textgreater} breaks into threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{\textless}–as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism\textsuperscript{\textless}’. In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an utter-recomposuring-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, involving postdication with postdicatory techniques and postdicatory mindset/‘reference-of-thought in reflection of the suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more like the positivistic registry-worldview is all about existential positivistic conceptualisations, positivistic techniques and

being at the backend of the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>\} process like an insight in the recurrent-utter-institutionalised ‘so-called savage’ mindset/‘reference-of-thought or the medieval mindset, for instance. The general underlying principle for notional–deprocrypticism methods and techniques is that of being utterly ontologising, beyond positivistic meaningfulness conventioning and temporal-accommodation as ‘ontologically-reconstituting/deconstruction’ for undermining notional-discontiguity/epistemic-discontiguity\~<shallow-supererogation\>–of-mentally-aestheticised–preconverging/dementing–qualia-schema> arising from temporal-dispositions\~perversion-of-reference-of-thought\<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\> as to preconverging-or-dementing–apriorising-psychologism, and as it upholds veridical ontological-veridicality/ontological-contiguity\~ as the veridical ‘reference-of-thought; which is what is actually up for contention and is effective contention (organic-comprehension-thinking) over what is being ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity\~<shallow-supererogation\>–of-mentally-aestheticised–preconverging/dementing–qualia-

for base-institutionalisation the circumspection is one of contrastive uninstitutionalised-threshold\textsuperscript{103} –institutionalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding institutionalisation; with universalisation the circumspection involves contrastive ununiversalisation–and–universalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding universalisation; with positivism the circumspection involves contrastive non-positivism/medieval/alchemic–and–positivism/rational-empiricism analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding positivism/rational-empiricism; and prospectively, for notional–deprocrypticism the circumspection will involve contrastive notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–<as-to–‘attendant-intradimensional’–prospectively–

\textsuperscript{20}–apriorising-psychologism representation and preconverging-or-dementing –apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human
emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism.

The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander notional–deprocrypticism institutionalisation level within the treatment of the institutional-cumulation/institutional-recomposure meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the back drop and background that informs and deepens understanding of the overall meta-conceptual analysis of issues (issues arising from the tempering or false implying of the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation), which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight
at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality -asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-prime-movers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of

preservation-entropy-or-contiguity–or–ontological-preservation , perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as non-positivism/medievalism intemporally calls for positivism), - positivism institutionalisation/intemporalisation (prospectively, whose categorical-imperatives/axioms/registry-teleology , -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as procrypticism intemporally calls for deprocrypticism), - and prospectively notional–deprocrypticism institutionalisation/intemporalisation (whose categorical-imperatives/axioms/registry-teleology , -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise that ‘perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a
realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold[3] and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supereogatory–de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supereogatory–de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supereogatory–de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supereogatory–de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supereogatory–de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supereogatory–de-mentativity due to perversion-and-derived-perversion-of-reference-of-thought-supersedes/precedes logical-processing-or...
logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’), so you rather have a reinvention as 
<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to liberate themselves before seconndaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought–as-conflatedness’-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology), the psychopath’s and other postlogic articulations have a nefarious effect, on social meaningfulness-and-teleology particularly in ‘spheres of extended-informality suscepti--
imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are as pertinent only as these preserve intemporality\textsuperscript{75}, and are collapsed/overridden by new reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, when shown not to be preserving intemporality\textsuperscript{75}, as when of perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{97} as to preconverging-or-dementing–apriorising-psychologism with regards to the preceding reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding–as-of-apriorising/axiomatising/referencing reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability\textsuperscript{84} as of reference-of-thought denaturing\textsuperscript{65} and relative-ontological-incompleteness\textsuperscript{69}, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to shallow-supererogation\textsuperscript{77}–to—profound-supererogation\textsuperscript{77} that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposured backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of’ reference-of-thought’–as-conflatedness’–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-
teleology that reflects/perspectivates the protracted threshold-of-
nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-attendant-
intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-
psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a
lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or
even some other things but coming initially from a vice; as may be enabled by the psychopath’s
faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element
can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as
the questions are not only how culpable is the psychopath but extend to who is temporally
going what from the psychopathic situation, what accounts and narratives should be believed,
etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to
construct an ontological-primemovers-totalitative-framework science. That said, beyond just
about such a present worldly take to societal issues, there is a bigger question of the universal
implications on human civilisation of postlogism in hollow-constituting-as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation> and perversion-of-
reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-
as-to-shallow-supererogation phenomena as reflected above regarding the contiguous
process of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation behind
human civilisation. It is equally important to note that as much as the psychopath seem to have
a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do
both with the nature of the psychopathic/postlogism mind contrasted to the nature of the
‘normal supplanting–conviction-as-to-profound-supererogation’—of-‘attendant-
intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogic

Straying into a basic elucidative anthropopsychotherapy/the-anthropological-continuity (a novel hermeneutic/reprojective/supererogating/zeroing approach to psychology); extrinsic-attribution
is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not inherently intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of—meaningfulness-and-teleology) solipsistic/emant projections of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought—devolving ontological-performance—the mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew (‘intemporality—asymmetric-subsumption-of-temporality’), for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed—}
as-from-perspective–ontological-normalcy/postconvergence> creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal-disposition de-mentatively/structurally/paradigmatically brings more overall good and hence skews (‘intemporality’-asymmetric-subsumption-of-temporality\(^9\), for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework (institutionalised, formalised and internalised’). This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold\(^{11}\)’ we aren’t anymore intemporal (the-Good as longness-of-register-of—meaningfulness-and-teleology\(^{10}\)) than temporal (shortness-of-register-of—meaningfulness-and-teleology\(^{10}\)) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing notional—firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation with a \(\text{de-mentation}^\text{14}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) highlighting organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of—reference-of-thought’—as-conflatedness\(^{12}\)—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology\(^{10}\)) and the distracting threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation \(\text{-<as-to–attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising-psychologism>}. Why talk of ‘uninstitutionalised-threshold\(^{11}\)’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a preconverging–de-mentating/structuring/paradigming of the human—presencing—absolutising-identitive-constitutedness\(^{13}\) social-vestedness/normativity-<discretely-implied-
functionalism> as modern into a postconverging–de-mentating/structuring/paradigming across-and-of-all-times of nonpresencing-<perspective–ontological-normaley/postconvergence>!

Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging , mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we
have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity’ reference-of-thought referencing/registering/decisioning or registry-teleology (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity’ reference-of-thought referencing/registering/decisioning or registry-teleology (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-'preconverging-or-dementing–apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > across the institutional-cumulation/institutional-recomposure-{as-to-}

The philosophical conceptualisation of stranding is rather ‘notional–firstnaturedness–temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ which serves to avoid the supplanting–conviction-as-to-profound-supererogation\(^{17}\)–of-‘attendant-intradimensional’– postconverging/dialectical-thinking\(^1\)–apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^{102}\) reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal. \(\text{de-mentation}^{14}\) (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics), as to its corresponding notions of preconverging-or-dementing\(^1\)–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> and postconverging-or-dialectical-thinking\(^1\)–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>, are central to transcendental psychoanalytic-unshackling and memetic-reordering.

The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling–<in-deferential-formalisation-transference> as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existentinal-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) as of preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> notwithstanding their wrongly projected postconverging-or-dialectical-thinking–apriorising-psychologism–<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase>. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter).
dialectical–de-mentation—stranding-or-attributive-dialectics) prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology’ hence wrongly implying candored and straightness, whereas these are in effect iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/preconverging-or-dementing–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-dementing–apriorising-psychologism (the-perversion-of-the–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). This ensures in effect ‘the de-mentation-supererogatory–ontological–de-mentation–stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence’. Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum (5 * 5)+5 –5, and make the mistake to say 5 * 5 =24 but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24. This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or mistransition or misreasoning or mislogic or preconverging-or-dementing–apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> or <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or notional-

prevalent in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-

enabling, the reason we strive to formalise whether in terms—as-of-axiomatic-construct of laws,
institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition

that adjusts to reality. The de-mentation-(supererogatory-ontological-de-mentation-or-
dialectical-de-mentation—stranding-or-attributive-dialectics), in a contiguity-of-increasing-

straightness/candored (intemporal) which is not ontologically veridical; in which case the

decandored/oblongated (subknowledging /mimicking) even if the mental-disposition of
the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-

Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their <amplituding/formative-/epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of epistemicity in preconverging-or-dementing—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as it wrongly implies that temporal-dispositions perversion-of—reference-of-thought—<as-effectively-apriorising-innonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of their dimension’s/registry worldview’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality/longness instead preserving prospective reference-of-thought—
categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness-and-teleology towards the ‘institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference>’ as secondnaturing of the new reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivistic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by <amplituding-formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology reference-of-thought– categorical-imperatives/axioms/registry-teleology. Rather the positivistic mindset/reference-of-thought will project the new reference-of-thought– categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> and highlighting, in the bigger scheme of things, the relative sublimating efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its
defective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. The ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing—apriorising-psychologism> when it is demonstrated that it is perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as perversion-of-the—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, and rather syncretises in operating those same reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation at its uninstitutionalised-threshold. The reason for the human ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when \[^{<\text{amplituding/formative–epistemicity>}\text{totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present.}\] But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own \[^{\text{de-mentation}}\left(\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding–or-attributive-dialectics}\right)\] as to elucidation-and-superseding-of-its-\[^{\text{perversion-of}}\text{reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}\),–as-to-preconverging-or-dementing–apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding-\[^{\text{as-of-apriorising/axiomatising/referencing}}\] its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure–\[^{\text{as-to-historiality/ontological-eventfulness}}\}\text{ontological-aesthetic-tracing–\text{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}}\}–\[^{\text{ontological-contiguity}}\]–of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional–deprocrypticism just like all successive transcendence-and-sublimity/sublimation/\[^{\text{supererogatory–de-mentativity}}\] in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with
what intemporally/ontologically is (that is, the-Good/understandingnowledge-reification/ontological-primemovers-totalititative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as notional—deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which involves de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or—attributive-dialectics) for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by decandoring/oblongating (representation of perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation) as to preconverging-or-dementing—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) on the basis of the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional~firstnaturesness—temporal-to-intemporal-dispositions—so-construed-as—from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor rationally, and ontologically
represents the social-construct (as validated by the ‘shifting relation of social conventioning and
purist ontology’) as being in effect ‘a highly cohesive postconverging–de-

cohesive extricatory preconverging–de-mentating/structuring/paradigming’ at

intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming is actually an aspirational ideal and
reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the
inherent solipsistic human nature due to a notional–firstnaturedness—temporal-to-intemporal-

intemporality/intemporal-preservation as human secondnaturing. This elucidation is vital in

apriorising/re-axiomatising/re-referencing~conceptualisation\rangle, is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality\(^5\), and hence compromise ontology), but rather to aspire for a transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^{102}\) of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> at uninstitutionalised-threshold\(^0\)). That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding-<as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-(preconverging-or-dementing -as-if-of-sound-knowledge)/mimick-and-syncretise at uninstitutionalised-threshold\(^{103}\) with the dialectical consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^{102}\) and not nested-congruence to uphold intemporality\(^5\), and hence a complete ontology. To put it in other terms, for instance, transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^{102}\) of ‘keeping the faith’ only in the intrinsic operation of
rules of arithmetic (transversality-of-affirmative-and-unaffirmative--disambiguated--motif-and-
apriorising/axiomatising/referencing among interlocutors, in principle or notionally, so that
at all times it is always about the intrinsic reality of the arithmetic and not the agreement-
disagreement of any human interlocutors as we are all mortals and likely to corrupt such
intemporal rules with our mortality out of an intemporal frame of reference that is
transcendental-enabling/sublimating/supererogatory--de-mentativity) is vital to preserving
‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory--de-mentativity,
whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with
other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is
obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be
corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of
mathematics will be compromised to human mortals stakes of social-and-temporal-trading as
social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-

involving the transcended and the transcending dimensions, the terms highlighting the
transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-
primitive, etc. (as to its superseded Being-development/ontological-framework-expansion--as-
to-depth-of-ontologising-development-as-infrastructure-of--meaningfulness-and-teleology) do not carry the same connotation as a shallower temporal analysis intradimensional to the
transcended dimension (as to its given institutional-development–as-to-social-function-development and living-development–as-to-personality-development so-referenced to its given Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology). The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms—as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory preconverging—de-mentating/structuring/paradigmning. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are veridically dialectical notions that apply in all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in
a notional-deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology\(^{100}\) to longness-of-register-of—meaningfulness-and-teleology\(^{100}\)) with respect to the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure-\(\{\text{as-to- historiality/ontological-eventfulness } \/\text{ontological-aesthetic-tracing}<\text{perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism’}\}\) process. Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-

This basically undermines the idea that any such registry-worldview/dimension temporal-dispositions should be encouraged to be ‘amplituding/formative–epistemicity’-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in meaning’ in a logical engagement with it from an intemporal/ontological perspective (of ontological-normalcy/postconvergence), as it is rather in perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of its reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Instead this requires a transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing (due to the dialectically-out-of-phasing/unsoundness-or-ontological-bad-faith/inauthenticity–of-reference-of-thought/preconverging-or-dementing–apriorising-psychologismness with regards to the veridical ontology of temporal-dispositions registries); wherein the intemporal-disposition (which is ontological) doesn’t recognise nor acquiesce to the implied–logical-dueness-or-implied-scape and subsequent apriorising–registry-

subject, the social. In this regard, the hermeneutic/reprojective/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojective/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojective/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). To further elucidate, the underlying idea of intemporal-prioritisation-of-reference-of-thought—as-confaledness-or-ontological-reprojecting (deconstruction/ontological-reconstituting/organic-comprehension-thinking) holds that critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional-projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation without notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-

deconstruction/ontological-reconstituting—as-to-conflatedness in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Even the idea of morality as being construed as of a sense of morality is vague self-referencing, as it is rather virtue as of knowledge-construct/intersolipsistic-intercessory-notion/notional—referential-notion/articulation of superseding—oneness-of-ontology enabling the possibility in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process of successive registry-worldviews/dimensions that is truly of ontological relevance. The idea of conceptualising morality out of such ontology-driven basis is more or less delusional however ‘good-natured’ when we consider that even a community of miscreants will have to construe of a semblance however perverted of moral conceptualisation that allows for individuals self-preservation and only of a degree of variance however big such a variance is perceived with supposed grander moral conceptualisations that do not factor in the de-mentative/structural/paradigmatic relation of virtue to ontology as of successive developing prospective relative-ontological-completeness—of—reference-of-thought. As semblances of virtue-constructs out of ‘sense of good-naturedness’ not factoring in the ‘unchangeable’ reality of human temporal/shortness-of-register-of—meaningfulness-and-teleology and intemporal/longness-of-register-of—meaningfulness-and-teleology mental-dispositions across all registry-worldviews will simply ‘out of goodnaturedness and naivety’ provide an ontologically-flawed deterministic framework that subject to temporal undermining by the adherence to the wooden-language—{imbued—temporal—mere—form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology } of prior/transcended/superseded registry-worldview/dimension’ in subverting intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, pointing to the

This is the central idea of ‘intemporal-prioritisation-of-reference-of-thought’—as-conflicatedness-or-ontological-reprojecting that informs organic-comprehension-thinking. ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflicatedness—or-ontological-reprojecting further holds that in the bigger scheme of things, it is intemporal-preservation in its entropy/contiguity that is the referencing of stranding as to de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) (as of preconverging-or-dementing —apriorising-psychologism representation when temporally-preservational-as-pseudointemporality-preservation or of notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema>) or postconverging-or-dialectical-thinking —apriorising-psychologism representation when intemporally-preservational/ontological-contiguity. ‘Intemporal-prioritisation-of-reference-of-thought’—as-conflicatedness—or-ontological-reprojecting highlights effectively that ontological meaningfulness is contiguous as highlighted further in the paper with regards to virtue ‘as a contiguous mentation-capacity (longness-of-register-of—meaningfulness-and-teleology over shortness-of-register-of—meaningfulness-and-teleology—transience)’ of ontological-contiguity conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Critically, for aetiologisation/ontological-escalation as of an intemporal synopsising depth of analysis what is decisive with regards to a postlogism manifestation is the grasp of the reality of prior relative-ontological-incompleteness-of reference-of-thought as ‘in-wait as of prior relative-ontological-incompleteness-of reference-of-thought defective reference-of-thought–categorical-imperatives/axioms/registry-teleology for a postlogism manifestation; and just as we can appreciate that the organic-knowledge depth of base-institutionalisation is what is required as resolution for postlogism manifestations in recurrent-utter-uninstitutionalisation, likewise that of universalisation as resolution with postlogism manifestations in base-institutionalisation–ununiversalisation, that of positivism as resolution with postlogism manifestations in universalisation–non-positivism/procrypticism, the organic-knowledge depth of notional–deprocrypticism is what is required as resolution for postlogism manifestations in positivism–procryptism. disjointedness-as-of-reference-of-thought, calling prospectively for deprocrypticism. Without ‘intemporal-prioritisation-of-reference-of-thought’-as-confoundedness-or-ontological-reproj ecting disposition the possibility for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation-> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>} process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as 1+3=5, 2+5=8, 5+6=12, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-
contiguity—or—ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought~categorical-imperatives/axioms/registry-teleology~-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance 7(√64+3-1)-(6+4-2)÷2. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, √64=8 and then addition 8+3=11, then subtraction 11-1=10. For the second brackets, addition as 6+4=10, then subtraction as 10-2=8. The division operation then follows with the second brackets result as 8÷2=4. Then the multiplication operation with the first brackets result as 7×10=70. Finally, comes the subtraction with 70-4=66 as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as √64=8, 8+3=12, 12-1=11, for the first brackets, and 6+4=11, 11-2=9, for the second brackets. The
division operation with the second brackets yields $9 \div 2 = 4.5$, and the multiplication operation with the first brackets yields $7 \times 11 = 77$. Finally, subtracting both brackets gives $77 - 4.5 = 72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-induced-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism’ (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective), as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived-‘perversion-of-‘reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought, as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional-projective-perspective) precedes projected <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology }, with ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology, nothing more but human mental inventions (construed by psychoanalytic-unshackling/memetic-
conflatedness over A’s induced preconverging-or-dementing-reference/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation). Thus the new categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to yield the results of the two brackets. Before then letting back the division and multiplication operations for both brackets respectively, giving 8÷2=4 and 7×10=70. Finally 70-4=66, giving the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger scheme of things, this explains institutional-cumulation/institutional-recomposure–(as-to-
this new reference-of-thought–categorical-imperatives/axioms/registry-teleology, (for-intemporal-preservation-entropy) or affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (i.e. induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality); and so, fail to follow the latter reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are intemporally-preservational. That is, choosing circumventive/distractive-temporal-prioritisation-of- reference-of-thought and thus failing/not-upholding<as-of-apriorising/axiomatising/referencing> the possibility of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. That being the case, this doesn’t in anyway undermine the intrinsic reality/ontological-veridicality/reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal to with the need for new requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought thus requiring de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of all such temporal-dispositions. It further speaks of how B will likely act in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation (of uninstitutionalised-threshold, where the constraining elements of institutionalisation are not available, i.e. social universal-transparency, (transparency-of-

similar individuations in such situations as a registry-worldview/dimension problem, in order to
ensure intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontology.
In the bigger scheme of things, this calls for a prospective registry-worldview/dimension
institutionalisation articulation that supersedes/overrides such a temporal dynamism of
perversion-of-reference-of-thought-<as-effectively-apriorising-in-

various social roles going from A’s condition, and the potential overlooking of the intemporal-

fundamentally the conjugation of such an de-mentation-(supererogatory-ontological-de-

conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension
speaks fundamentally of the uninstitutionalised-threshold of that registry-
worldview/dimension, reflected/perspectivated by the marginal 75 perceived perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defect of its 74 reference-of-thought–categorical-imperatives/axioms/registry-teleology100, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with the prior registry-worldview/dimension now preconverging-or-dementing 76–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, with a prospective institutionalisation 84 reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase. de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) doesn’t confuse appropriateness of the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for prospective institutionalisation as it needs to undergo its own requisite ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to enable and regenerate intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing 76–apriorising-psychologism with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising 72–self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to
uninstitutionalised-threshold that requires renewed mental-devising-representation, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity with the present registry-worldview/dimension corresponding to the superseded perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘beyond any one registry-worldview/dimension meaningfulness’ like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently, retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed logical-basis/logic-as-to—transversality—of-affirmative-and-unaffirmative–disambiguated-motif-and-apriorising/axiomatising/referencing’ going beyond the reference-of-thought–categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought–categorical-
imperatives/axioms/registry-teleology (3) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy/postconvergence in a dynamic dialectical juxtapositioning/doppler-thinking of ‘postconverging-or-dialectical-thinking – apriorising-psychologism mental-devising-representation’ and ‘preconverging-or-dementing – apriorising-psychologism mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity {as of relative apriorising/axiomatising/referencing—constitutedness} to deeper limited-mentation-capacity {as of relative apriorising/axiomatising/referencing—conflatedness} behind the successive institutional-cumulation/institutional-recomposure {as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}, wherein the dialectically transcending/superseding institutional-cumulation/institutional-recomposure {as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> } of relatively deeper limited-mentation-capacity {as of relative apriorising/axiomatising/referencing—conflatedness} is the shifted 8 reference-of-thought (dialectically-in-phase) and is thus of ‘postconverging-or-dialectical-thinking – apriorising-psychologism mental-devising-representation’ as it is in (postconvergence) ontological-veridicality/ontological-contiguity 7 while the prior transcended/superseded institutional-cumulation/institutional-recomposure {as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> } of relatively shallow limited-mentation-capacity {as of relative apriorising/axiomatising/referencing—constitutedness} is
no longer the ‘reference-of-thought (dialectically-out-of-phase or dialectically-primitive) and is thus of ‘preconverging-or-dementing’–apriorising-psychologism mental-devising-representation’ as it is of notional-discontiguity/epistemic-discontiguity–<shallow-supererogation>–of-mentally-aestheticised–preconverging/dementing–qualia-schema>; thus transcendentally coming into grips with a shifting but more and more profound notion of ‘reference-of-thought (in-phasing) and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-normalcy/postconvergence. The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging-impulse/compulsive-dementing/postlogism in hollow-constituting–<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism–as-of-compulsing–nonconviction/madeupness/bottomlining

social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex–logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogic-in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'> as absolving/fleeting/escaping-reflex–logic, to others and from different sets of interlocutors to others. It is obvious that A’s condition/subknowledging-impulse/compulsive-dementing disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the ‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogic-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-threshold. Consider B (together with the other BODMAS characters) in the instance where despite A’s conditions they were to stick to the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result .5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-
representation of its mentation is the invention/mental-devising-representation of the base-institutionalisation mindset by its better ontological-completeness-of-reference-of-thought, likewise with ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively with pro crypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a preconverging-or-dementing–apriorising-psychologism mental-devising-representation of our perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to the denaturing of the categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking–apriorising-psychologism’/soundness-or-ontological-good-faith/authenticity–reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as preconverging-or-dementing–apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulation/institutional-recomposure{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normaley/postconvergence-reflected-'epistemicity-relativism'/>} whether from the perspective

This subknowledging -impulse/compulsive-dementing disposition points out that the actual and given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-ontological-good-faith/authenticity -of- reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/ reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-conflatedness -or- ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity -of- reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and <amplituding/formative-epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
by temporal-dispositions both unconsciously (ignorance) and consciously
(affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in 72.5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation>-of-mentally-aestheticised–preconverging/dementing-qualia-schema’ rather than which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’-<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing-apriorising-psychologism> pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging-or-mimicking-impulse/compulsive-dementing registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in de-mentation—<supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics> at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-prime movers-totalitative-framework construct for the possibility of a

So we then speak of an utter—maximalising-recomposuring—for-relative-ontological-completeness — unenframed-conceptualisation (not ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation) ‘ordered construct’ of the meaningfulness of the intellectual aetiolisation/ontological-escalation as the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology) pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging—impulse pedestal and the threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing apriorising-psychologism pedestal. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporal’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms—as-of-axiomatic-construct
of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of-meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining-⟨decontextualising/de-existentialising-of-attendant-intradimensional-apriorising/axiomatising/referencing-induced-disontologising⟩-of-the-attendant-intradimensional-ontologising-imbued-contextualising/existentialising-attendant-ontological-contiguity-in-shallow-supererogation-disontologising-perverted-outcome-sought-precedes-existentially-veridical-attendant-intradimensional-apriorising/axiomatising/referencing-logical-dueness⟩ like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature
of postlogic of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfitter-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicism/intemporal-prioritisation-of-reference-of-thought-as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising-registry and registry-worldview terms as it is reflected/perspectivated as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in parallel as intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity doesn’t accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, and has nothing to do with issues of defect-of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance). This can further be elucidated analysing of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism
registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional-deprocripticism and procripticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledgeing as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-dementing apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence’ as ontological-escalation/aetiologisation’ above, where supposed an intemporal mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledgeing -impulse/compulsive-dementing ) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledgeing.
impulse/compulsive-dementing pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or universal across all times (postlogism-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-'attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism pedestal which is rather an extricatory preconverging-de-mentating/structuring/paradigmimg (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisaton and not intemporal preservation); given the lack of a social universal-transparency-(transparency-of-totalising-entailing,-as-to-entailing,<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness) of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflicatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology,for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of
things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/reference-of-thought in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation' (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology)’/intemporal-prioritisation-of-reference-of-thought—as-conflatedness—or-
ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in
‘mentation equivalence’ with a subknowledging\textsuperscript{2}\textsuperscript{-}-impulse/compulsive-dementing mindset/ reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation \textless{}as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism\textgreater{} /temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning-with incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments\textsuperscript{10} of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments\textsuperscript{10} but equally critical the overall de-mentative/structural/paradigmatic \textless{}amplituding/formative–epistemicity\textgreater{} causality–as-to-projective-totalitative–implications-of-prospective\textsuperscript{6} nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{97} such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging\textsuperscript{2}\textsuperscript{-}-impulse/compulsive-dementing\textsuperscript{19} pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing –apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of–
nonconviction/madeupness/bottomlining-in-shallow-supererogation\[^9\]<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism> pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing\[^{19}\]–apriorising-psychologismly striving to establish and examine whether the accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-reference-of-thought’–as-conflicatedness–or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology\[^{100}\]) will be to be dismissive of the two prior pedestals as in \[^{14}\]de-mentation\[^{\langle supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics \rangle}\] and of preconverging-or-dementing\[^{19}\]–apriorising-psychologism–<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> since in reality the elements of their apriorising–registry are perverted (implied–logical-dueness –as to accusation of witchcraft, implied-profile, implied-presumptuousness/arrogation, implied-assumptions, implied-value-reference and implied-teleology\[^\]'), and the issue will rather be about reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\[^9\] of a registry-worldview/dimension that endemises and enculturates the belief in superstition and witchcraft for a de-mentative/structural/paradigmatic resolution as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing\[^{19}\]–apriorising-psychologism as they are rather the subject of contention and
aetiologisation/ontological-escalation from the intemporal-disposition given that these are
dialectically-or-contendingly-out-of-phase and <amplituding/formative–

The reason for the above ‘intemporal-prioritisation-of-’<reference-of-thought>–as-
conflatedness -or-ontological-reprojecting pedestalling is simple. ‘Intemporal-prioritisation-of-
<reference-of-thought>–as-conflicatedness<reference-of-thought>-or-ontological-reprojecting pedestalling carries the
implication that <reference-of-thought> and meaningfulness is fundamentally/ontologically
structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-

This conceptual \text{de-mentation} \langle \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics} \rangle of (superseded registry/registry-worldview-or-dimension) mental-devising-representation as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (preconverging-or-dementing–apriorising-psychologism) and (superseding registry/registry-worldview-or-dimension) mental-devising-representation as straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting with respect to circumventive/distractive-temporal-
prioritisation-of-referencethought as the former is ‘utter’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at /intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of-reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturung to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling-</in-deferential-formalisation-transference> and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturung (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding).

Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than its inherent intemporal-projection) whether it is failing/not-upholding</as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity</shallow-supererogation-of-mentally-aestheticised–preconverging/dementing–qualia-schema>) with respect to the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as being about intemporal-
of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a seconndnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising-registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing-registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising-registry’s or registry-worldview’s/dimension’s reference-of-thought de-mentation-⟨supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics⟩ preconverging-or-dementing –apriorising-psychologism-⟨stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase⟩ (as it is ‘devoid of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistemic-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of reference-of-thought-⟨as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ the reference-of-thought- ⟨categorical-imperatives/axioms/registry-teleology⟩, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), and so, in a state of transversality~of- affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ as perceived from the superseding/transcending intemporal-disposition or registry-worldview/dimension which voids the registry-perverting/subknowledging/preconverging-or-dementing-temporal-dispositions’

The point then is that, from a transcending registry-worldview/dimension, the relation with its transcended registry-worldview/dimension is ‘not ontologically an exercise in logical-
straight/candored-and-dialectically-or-contendingly-in-phase>. (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>, is transdimensional/transcendental in depth-of-meaningfulness as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity—reification/superseding—oneness-of-ontology. This involves maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation as enabled by de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness—of-reference-of-thought and relative-ontological-completeness—of-reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity—of-reference-of-thought-of-meaningfulness is not given, as it is a
Devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing–apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (with a corresponding insight about how we may be that preconverging-or-dementing–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> from such a prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’s reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (of course, that is, when occluding our illusion-of-the-present/present-consciousness/epistemic-totalising–self-
referencing-syncetising/mirage) herein construed as the prospective protensive-consciousness deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought registry-worldview/dimension. In the bigger picture, de-mentation—\(\text{supererogatory—ontological—de-}\
\text{mentation-or-dialectical—de-}\
\text{mentation—stranding-or-attributive-dialectics}\) effectively will seem to place human (recomposuring)-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively \text{amplituding/formative} wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving preconverging—de-mentating/structuring/paradigming), and with specific evolving percolation-channelling—\text{in-deferential-formalisation-transference} for prospective ontologising and ontologising-transcendence-and-sublimity/sublimation/supererogatory—de-mentativity.

Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation—\(\text{supererogatory—ontological—de-}\
\text{mentation-or-dialectical—de-}\
\text{mentation—stranding-or-attributive-dialectics}\), no registry-worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology is possible. This is because de-mentation—\(\text{supererogatory—ontological—de-}\
\text{mentation-or-dialectical—de-}\
\text{mentation—stranding-or-attributive-dialectics}\) as such allows for a ‘human mentation capacity renewal’ by

For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing–apriorising-psychologism/dialectically-preconverging-or-dementing–apriorising-psychologism in a de-mentation–(<supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics>) wherein its mental-devising-representation is preconverging-or-dementing–apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought and dialectically-or-

This dialectical conceptualisation equally applies regarding proycrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation’ (i.e. \textsuperscript{14} de-mentation\textsuperscript{75} supererogatory–ontological–de-mentation–dialnetical–de-mentation–stranding-or-attributive-dialectics, perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{97}, registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{103}–defect-as-Being-or-ontological-or-existential–defect\textsuperscript{86}, unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought, mental-perversion, subknowledging\textsuperscript{14}, mimicking; and-their-corresponding \textsuperscript{14} amplituding/formative–epistemicity\textsuperscript{75} totalising–self-referencing-syncretising) indicates that \textsuperscript{14} de-mentation\textsuperscript{75} supererogatory–ontological–de-mentation–dialnetical–de-mentation–stranding-or-attributive-dialectics is ultimately the ‘ideal reference term’ for the simple reason that unlike the other terms it ‘beats’ the ‘intuition
for intradimensional/non-transcendental/non-transdimensional reasoning’ and succeeds to convey, overcoming the counter-intuition, the requisite transdimensional/transcendental reasoning that achieves ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the ‘intradimensional-subknowledging~normalcy’ (epistemic-totalising ~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. ‘de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) ‘beats’ this counter-intuition by simply and immediately bringing to the mind an ‘overarching conceptualisation’ of a ‘de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of superseding/transcending registry/registry-worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>, circumventive/distractive-temporal-prioritisation-of-‘reference-of-thought, subknowledging’—
impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold defect-as-Being-or-ontological-or-existential–defect brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) that carries the intuition of an uninstitutionalised-threshold, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold defect-as-Being-or-ontological-or-existential–defect term thereafter, we grasp that it is the ‘amplituding/formative–epistemicity-totalising~self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity-shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema’ of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the ‘perversion–of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ as to preconverging-

That is de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normaley/postconvergence-reflected-'epistemicity-relativism'>) mindsets, notwithstanding the fact that the de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) (of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring
moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrusticism and prospectively perpetuation-of-deprocrusticism) is as de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procrusticism) and implying a prospective need for deprocrusticism. Postdication, when alluding to an de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing–apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing’–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ while the prospective/transcending/superseding registry-
worldview/dimension is referenced/registered/decisioned (as ‘reference-of-thought) as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism/soundness-or-ontological-good-faith/authenticity ‘of’ ‘reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness—or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the ‘reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness—or-ontological-reprojecting as ontology with regards to apriorising—registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. de-mentation (supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for ‘reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) to establish
veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-

fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed

overcome by ‘appropriately universalising and detached meaningfulness by percolation-

profound conceptualisation will have to come to terms with the reality of the implied
existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-
and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends
and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that
it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective
ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves);
as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-
institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to
positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–de-mentating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling-in-deferential-formalisation-transference> wherein for
instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality\(^{12}\)/longness as potentially of \(^{104}\)universal import and at the same time disposed occasionally to advanced their temporality\(^{15}\), is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting–conviction-as-to-profound-supererogation\(^{97}\)—of-‘attendant-intradimensional’-postconverging/dialectical-thinking \(^{20}\)—apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness, preceding/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) is the reason for human registry-worldview/dimension \(^{75}\)perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> defect at uninstitutionalised-threshold \(^{10}\); implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond the defective ‘intradimensional-
subknowledging ‘-normalcy or reflex-normalcy’ which is rather an (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrpticism–or–disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity as deprocripticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging ‘-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). It is this ‘ontological-normalcy/postconvergence’ that reflects/perspectivates persion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-superrerogation> defect as de-mentation-(superrerogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as against the defective reflex-normalcy/intradimensional subknowledging ‘-normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the
perspective–ontological-normalcy/postconvergence> disambiguation as ‘knowledge-notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. Knowledge-notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (intradimensional-subknowledging -normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy/postconvergence). It should be noted that the peculiarity for achieving all the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> is about bringing the prior registry-worldview/dimension perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> to its placeholder-setup/mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-deepening-threshold (uninstitutionalised-threshold). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is
‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism\(^76\). Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes preconverging-or-dementing –apriorising-psychologism—\(<\text{stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase}>\), as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulation/institutional-recompose—\(<\text{as-to- historiality/ontological-eventfulness}>\)\(\text{/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>}>\) of base-institutionalisation, universalisation and positivism. For deprocripticism, an even stronger emphasis has to be placed on the abstract percolation-channelling—\(<\text{in-deferential-formalisation-transference}>\) as setup from positive-opportunism\(^76\) for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling—\(<\text{in-deferential-formalisation-transference}>\) (undermining <amplituding/formative> wooden-language—\(<\text{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications}>\) or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recompose—\(<\text{as-to- historiality/ontological-eventfulness}>\)\(\text{/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>}>\), grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the
extended-informality\(\langle\text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology}\rangle\); all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of-meaningfulness-and-teleology\(^{(6)}\)) over temporal-dispositions (shortness-of-register-of-meaningfulness-and-teleology\(^{(6)}\)) as percolation-channelling-in-deferential-formalisation-transference not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality\(\langle\text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology}\rangle\) with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality\(^{(7)}\)-asymmetric-subsumption-of-temporality\(^{(99)}\), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification\(^{7}\)/ontological-prime-movers-totalitative-framework\(^{73}\) to construe knowledge and virtue conceptualisations as this is what proxies/syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their \(^{45}\)amplituding/formative-epistemicity\(^{\text{totalising}}\)-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{33}\) but are often defective by lack of universality, not ontologically-driven in terms-as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of-meaningfulness-and-teleology\(^{100}\). In this light, the articulation of the ontological-veridicality\(^{84}\)/reference-of-thought
preconverging-or-dementing <apriorising-psychologism-<stranded-as-rightfully-oblomgated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it subknowledges-or-mimics/perverts-the-registry-of positivistic meaningfulness <reference-of-thought-categorical-imperatives/axioms/registry-teleology<for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation>. The idea of limited-mentation-capacity-deepening (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) fundamentally implies that <reference-of-thought–categorical-imperatives/axioms/registry-teleology<for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are limited at the uninstitutionalised-threshold of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy/postconvergence and thus need to be cumulated-upon (or rather more precisely be recomposured institutionally), wherein new <reference-of-thought–categorical-imperatives/axioms/registry-teleology<for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation allow for the furtherance of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The positivistic institutionalisation reflex disposition is to imply only a human intemporal-disposition/ontological-disposition, thus wrongly elevating issues of temporal-dispositions <perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as being issues of intemporal-disposition/ontological-dispositions and thus wrongfully implying their ontological-veridicality/ontological-contiguity<reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective) rather than rightfully their notional-discontiguity/epistemic-discontiguity<shallow-supererogation of mentally-aestheticised–preconverging/dementing –qualia-schema>/non-ontological-and-non-contending-referencing–<thus-ontologically-or-contendingly-reflected-or-perspectivated-as-of-
(reasoning-through-and-not-reasoning-with) manifestations of perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> in the instance of issues of temporal-dispositions; bringing this conceptualisation to the collective-consciousness for the necessary psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that should enable the superseding/transcending of the enculturating/endemising vices-and-impediments together with the inhibiting effect on human emancipation potential associated with procrypticism. To further elucidate, let’s explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its’s subknowledging-impulse/compulsive-dementing highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-<as-of-apriorising/axiomatising/referencing> ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity–or–ontological-preservation supersedes the mere–categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the latter’s pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and subknowledging-impulse/compulsive-dementing whether by
character A or any other character rather than just the fact that the condition (psychopathic postlogism \(^7\) in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In any case the de-mentative/structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation'> in the given registry-worldview/dimension as an aetiologisation/ontological-escalation (as notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of–categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation'> with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulation/institutional-recomposure\(\langle\text{as-to- historiality/ontological-eventfulness } /\text{ontological-aesthetic-tracing-}<\text{perspective–ontological-normalcy/postconvergence-reflected-}`epistemicity-relativism`'><\rangle\) are analytical to
various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging\textsuperscript{95}-impulse/compulsive-dementing with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold\textsuperscript{93} to be rightfully corrected with new \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging -impulse/compulsive-dementing of S, requiring similarly new \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve respectively a subknowledging\textsuperscript{95}-impulse/compulsive-dementing/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging\textsuperscript{95}-impulse/compulsive-dementing/condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a notional-deprowrapping construal of the institutionalisation/intemporalisation process aiming to perpetually sync \textsuperscript{84}reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation, the
or-dialectical–de-mentation—stranding-or-attributive-dialectics) is the effective psychological tool for ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. The implications for the science of psychology can thus be drawn out. The articulated notion of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) terms of de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-to-conflatedness as dialectical transformation as-prospective “reference-of-thought (de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics))
mentation—stranding-or-attributive-dialectics) with respect to either mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase representation or mentally straight/candored-and-dialectically-or-contendingly-in-phase representation) as ‘directed’ simply by demonstrable ontological-veracity/ontological-relevance/\(^9\) reference-of-thought of transdimensional-meaningfulness—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; leading to a psychological science which is more comprehensive, timeless and unbounded by its conceptualisation as it emphasises psychological-representation/mental-devising-representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-present/epistemic-totalising\(^{32}\)~self-referencing-syncretising/present-consciousness/mirage referring to the instance where the personhood-and-socialhood-formation intradimensional conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical psychological-representation or mental-devising-representation. As implied psychological-representation/mental-devising-representation is then fundamentally determined by the depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a given registry/registry-worldview-or-dimension as it upholds ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) over reflex-normalcy or intradimensional-subknowledging\(^{95}\) -normalcy. Ontological-normalcy/postconvergence appropriately points to the pertinence for ontological construal as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\(^{39}\) -reification\(^{87}\)/superseding—oneness-of-ontology\(^{40}\) by maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation for an appropriate \(^{14}\) de-mentation.
That is, a conventioning influenced-and-driven psychology tends to equate the conventional insights at one sceptical-dialectical moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposes to the dialectical evolution of reference-of-thought for a comprehensive, appropriate and veridical sceptical-dialectical exercise. Such reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for sceptical-dialectical exercise in reflection/perspectivation of psychological-representation/mental-devising-representation) are the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism preconverging-or-dementing apriorising-psychologism, and prospectively (critical for a prospective conceptualisation of psychology) perpetuation-of-deprocrypticism. This explains why this memetism/transdimensional-meaningfulness suprastructural-meaningfulness psychology is a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy/postconvergence in successive ontological-normalcy/postconvergence/postdicatory ontological-reconstituting–as-to-
conflatedness /deconstruction of dialectical existentialisms/full-depths-of-existential-implications as *reference-of-thought, rather than intradimensional-subknowledging*-normalcy or reflex-normalcy) for *de-mentation* (supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-attributive-dialectics) of *reference-of-thought* exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. preconverging-or-dementing*–apriorising-psychologism-*<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the dialectically-and-ontologically superseded/transcended/unsound registry.registry-worldview-or-dimension, and postconverging-or-dialectical-thinking*–apriorising-psychologism-*<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the dialectically-and-ontologically-superseding/transcending/sound registry.registry-worldview-or-dimension. This ‘postconverging-or-dialectical-thinking*–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘postconverging-or-dialectical-thinking*–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness suprastructural-meaningfulness *reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for *de-mentation* (supererogatory–ontological–de-mentation–or-dialectical–de-mentation—stranding-or-
attributive-dialectics) of reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold\textsuperscript{102}. Thus it mental-devising-representation is stigmatic or mented (set-in-place-or-a-period) as of preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism—stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> for the conventioning—superseded/transcended/unsound registry/registry-worldview-or-dimension, and postconverging-or-dialectical-thinking\textsuperscript{20}—apriorising-psychologism—stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> for the conventioning—superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of modern-day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting preconverging-or-dementing—apriorising-psychologism) thus undermining its ontological-referencing veracity/ontological-pertinence with respect to an de-mentation—\textsuperscript{14}supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics of reference-of-thought’ exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications transdimensional-meaningfulness/memetic-refinements in ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-to-conflatedness as dialectical transformation as-prospective ‘reference-of-thought’. A dialectical ontological-reconstituting—as-to-conflatedness\textsuperscript{12}/deconstruction of reference-of-thought (recognising human limited-mentation-capacity-deepening\textsuperscript{11} and the need to re-institutionalised/re-intemporalised resulting in the subsequent institutional-cumulation/institutional-recomposure\textsuperscript{46} as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’)) as articulated above is not
only the basis for memetism/transdimensional-meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed as the ‘ontological-circularity’ of modern-day psychology. Such ontological-circularities are engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> as fundamentally the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation of the said registry-worldview/dimension are at a dead-end with a de-mentative/structural/paradigmatic impossibility for a critical breakthrough just by the mere fact that the registry-worldview/dimension has attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy preconverging–de-mentating/structuring/paradigming with respect to positivistic chemistry postconverging–de-mentating/structuring/paradigming, a flat-world preconverging–de-mentating/structuring/paradigming with respect to a round world postconverging–de-mentating/structuring/paradigming, a creationism preconverging–de-mentating/structuring/paradigming with respect to an evolution postconverging–de-mentating/structuring/paradigming, a universal humanity postconverging–de-mentating/structuring/paradigming with respect to aristocratic/racial/tribal preconverging–de-mentating/structuring/paradigming, a science postconverging–de-
mentating/structuring/paradigming with respect to a superstition preconverging–de-
mentating/structuring/paradigming, etc. Naivety will be to think that issues of ontological-
circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-
impediments and overcoming inherent inhibitions to human emancipation) are not in
veridicality about a need for a shift in prospective postconverging–de-
mentating/structuring/paradigming. This brings forward fundamentally the limited-mentation-
capacity/uninstitutionalised-threshold construct of our times (procrypticism) and the de-
mentative/structural/paradigmatic implications specifically for such a ‘postconverging-or-
dialectical-thinking–psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ (as highlighted) over a relatively mented-
psychology/stigmatic-psychology. What this reveals is that reality is ‘not a human mental-
devising-representation processing exercise’; rather it is an intrinsic ontological-
normalcy/postconvergence notion that doesn’t respond to human mental-devising-
representation processing. The role of de-mentation-(supererogatory–ontological–de-
mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as a mental-
devising-representation mechanism that syncs with evolving ontological insight (insight about
intrinsic reality) as ontological-normalcy/postconvergence is to reflect/perspectivate the
dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the
capability as its mental-devising-representation of a registry-worldview/dimension
(uninstitutionalised-threshold), which otherwise any registry-worldview will overlook as it is a wooden-language
(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology-as-of–nondescript/ignorable–void–with-regards-to-
prospective-apriorising-implications) that is exclusively operant and deterministic only to its
very own reference-of-thought—categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only dementation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recompose it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend—de-mentating/structuring/paradigming’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an dementation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-deadends—preconverging—de-mentating/structuring/paradigming’ (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and
problems on the basis of present preconverging–de-mentating/structuring/paradigming. It is inevitable that emancipation from such knowledge-deadends—preconverging–de-mentating/structuring/paradigming will always require that the would-be intellectual-analyst or intellectual-analysts ‘blunt it’ (just as intrinsic-reality is uncompromisingly blunt) to the

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a postconverging–de-mentating/structuring/paradigming–shift. Much like observation and a rational interpretation of nature trumps dogma as with Galileo’s heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrysticism or preconverging-or-dementing–apriorising-psychologism/subknowledging/perversion-of-reference-of-thought-as-effectively- apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > of positivistic meaningfulness) psyche as being ontologically-preconverging-or-dementing–apriorising-psychologism/dialectically-preconverging-or-dementing–apriorising-psychologism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism as reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing–reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ has to do with the foundational nature of mental-devising-representation/mentation/recomposured-consciousness-awareness-teleology in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold; much the same way like a positivistic world opened up from
the \footnotesize{(supererogatory\-ontological\-de\-mentation-or\-dialectical\-de\-mentation\-stranding\-or\-attributive\-dialectics)} of a non-positivism/medievalism registry-worldview/dimension at its uninstitutionalised-threshold\footnote{10}. To further elucidate the criticality as indicated of such a ‘postconverging-or-dialectical-thinking\footnote{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the \footnotesize{(supererogatory\-ontological\-de\-mentation-or\-dialectical\-de\-mentation\-stranding\-or\-attributive\-dialectics)} of \footnotesize{(supererogatory\-ontological\-de\-mentation-or\-dialectical\-de\-mentation\-stranding\-or\-attributive\-dialectics)}. In other words, it overrides the mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic mentation \footnotesize{(supererogatory\-ontological\-de\-mentation-or\-dialectical\-de\-mentation\-stranding\-or\-attributive\-dialectics)} in reflecting soundness-or-ontological-good-faith/authenticity\footnote{69} of \footnotesize{reference-of-thought/apriorising–registry-soundness and unsoundness-or-ontological-bad-faith/inauthenticity\footnote{84}} of \footnotesize{reference-of-thought/<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\footnote{97} (respectively postconverging-or-dialectical-thinking\footnote{20}–apriorising-psychologism-<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing\footnote{19}–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>) is stranded to the ‘conventionalised institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ whether such a threshold is the ‘appropriate
basis for reference-of-thought or not and subsequent ontological-veridicality/ontological-contiguity or not, as it is limited to what is the convention thus hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with the result that mented/stigmatic psychology is limited to hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation human intradimensional conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with no prospective/transcending/superseding possibility. For instance, we can project insightfully that a mented/stigmatic mental-disposition in a non-positivism/medievalism setup in an impression-driven/good-naturedness/wishfulness disposition but hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation(failing/not-upholding-as-of-apriorising/axiomatising/referencing) reference-of-thought–categorical-imperatives/axioms/registry-teleology for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) will raise an issue of say sorcery in terms–as-of-axiomatic-construct of who is the sorcerer or sorcerers among us, how should sorcery be stopped and prevented in the community in its preconverging–de-mentating/structuring/paradigming, and not in a prospective positivistic postconverging–de-mentating/structuring/paradigming that is more ontologically-veridical, putting in question the veracity/ontological-pertinence of the non-positivism/medievalism conventioning notion of sorcery, however ‘good-natured’/impression-driven, while raising the positivistic the-Good/understanding/knowledge-reification/ontological-primemovers-totalititative-framework of a positivising/rational-empiricism reference-of-thought. Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our modern-day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor
insight about the requisite reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established reference-of-thought, and not just naïve assumptions whether on the basis of popular axioms, vagueness and personal however well-meaning; with the idea of meaningfulness that goes beyond just a conventioning reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that is ontologically-driven will go beyond an exercise of mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically involved in the de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) hermeneutically/reprojectively/supererogatingly/zeroingly-educing-human–meaningfulness-and-teleology--into-the-existentialism-becoming of personhoods-and-socialhood-formation as so-reflecting ontological-reconstituting–as-to-conflicatedness/deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and conflictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite postconverging–de-mentating/structuring/paradigming shifts;
and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of apriorising/axiomatising/referencing—constitutedness in lieu of apriorising/axiomatising/referencing—conflatedness as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of de-mentation as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulation/institutional-recomposure of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively coherent? Given the fact that de-mentation very much explains human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as the recurrent ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of an animal of limited-mentation-capacity-deepening. Such a ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdicatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism as an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulation/institutional-
recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology’, and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought past and future, with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism–procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting–as-to-conflatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting–as-to-conflatedness’/deconstruction is that it prospectively calls for suprastructuring or construal beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of prior registry-worldview mindset/reference-of-thought (and so as a conception that enables opening-up/making-available the prospective registry-worldview), as implied by the veracity/ontological-pertinence of ‘de-mentation{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} of ‘reference-of-thought’ as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology/ driving mechanism.
Considering that deconstruction as ‘ontological-reconstituting–as-to-conflatedness’ necessarily implies not one but two dialectically opposed registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology)-<in-existent-extrication-as-ofexistential-unthought>-of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of 1 de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) will wrongly imply that the ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ and the preconverging-or-dementing–apriorising-psychologism are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirageas 4<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is implied, and certainly so the higher the institutionalisation as the mindset/ reference-of-thought is increasingly set to ‘relate to its institutionalised secondnatured construct as being our very own individuals essential dimensionality-of-sublimating—(<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) and not a
secondnatured construct’, and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to intrinsic-reality/ontological-veridicality, as the foremost rule of humanity’s existential strive). Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of ‘metaphysics-of-absence⟨implicited-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩’ projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirageas ⟨amplituding/formative–epistemicity⟩totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag as ‘metaphysics-of-presence⟨implicited-nondescript/ignoreable–void ’-as-to- presencing—absolutising-identitive-constitutedness ⟩’.

Suprastructuring boldly answers the underlying issue involved with ‘communicating the true implications of deconstruction as ontological-reconstituting–as-to-conflatedness’ by highlighting the paradox that it is all about ‘articulating a conceptualisation which involves implying that the ‘reference-of-thought and meaningfulness of the seemingly ‘reference-of-thought is unsound and needs to be superseded’. It is rather about in the very first instance putting into question a given ‘reference-of-thought and projecting the appropriate ‘reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected ‘reference-of-thought. This is akin to the idea of a positivistic mindset/‘reference-of-thought articulating chemistry rules and principles to an alchemic mindset/‘reference-of-thought for the latter’s validation, requiring the latter to adopt a positivistic mindset/‘reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/‘reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from
earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring of the positivistic/procryptic
reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of
de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation-
stranding-or-attributive-dialectics) with respect to futural Being-development/ontological-
framework-expansion-as-to-depth-of-ontologising-development-as-infrastucture-of-
meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to
Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to
the collective consciousness (not just unconsciously as with prior institutionalisations, for
instance the fact that notions of superstition are false had to be consciously brought up to the
attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/
reference-of-thought for it to effectively undergo the necessary ‘postconverging-or-
dialectical-thinking-psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by acting as the conscious backdrop that engenders prospectively a positivistic
mindset) for human emancipation into a notional–deprocrypticism mindset; as with all
psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of
recognising/referencing/registering/decisioning the ontological-deficiency with respect to
ontological-normalcy/postconvergence is central to superseding it. ‘Suprastructuring as such
overcomes the ‘natural human placeholder-setup/mental-devising-
representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-
worldview/dimension) of ‘striving to avert preconverging-or-dementing–apriorising-
psychologism mental-devising-representation/mentation’ (whether such averting is
ontologically-veridical or not) and so by a mistaken reflex to preserve a

potency in construing a much more exact/thorough notion of placeholder-setup/mental-
devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus for ‘ontological-reconstituting–as-to-conflatedness’/deconstruction. In other words, in
representing the veridically uninhibited/decomplexified nature of ‘de-mentation’
⟨supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-

referencing-syncretising/circularity/interiorising/akrasiatic-drag of any registry-
worldview/dimension and so at the deeper memetic/psychoanalytic level, suprastructuring as such reveals that ‘human psychology is very much an active construct associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—to-of-the-human-institutionalisation-process as of difference-conflatedness—-as-to-totalitative-reification—in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing—>as-veridical-epistemic-determinism causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity in the reflection as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of retrospective, present and prospective institutionalisations in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—to-of-the-human-institutionalisation-process points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-to-conflatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)? Further isn’t it possible to make the contribution of modern-day psychology more complete in constructing a more thorough and dynamic understanding of
mentation/psyche in relation to individual-social-humanity aspiration, where psychology evolves in a complete existentialism cadre. In other words, so placed in a becoming/existential cadre, is psychology not meant rather than just encapsulating what the human psyche/mentation is all about as if it is a set and determinate construct (strangely enough inadvertently and often mirroring schemes of social classification, and hence of social power relations) equally involve in articulating aspiratory models for human mentation/psyche? And such a postconverging–dementating/structuring/paradigming shift with regards to modern-day mented/stigmatic psychology can actually be implied by prospective ontological-normalcy/postconvergence as notional–deprocrypticism (involving ‘ontologically-reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation by ‘overriding failing/not-upholding—<as-of-apriorising/axiomatising/referencing> and renewing ever sound and appropriate’—reference-of-thought—categorical-imperatives/axioms/registry-teleology—,—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’) over the ‘conventioningly-driven/conventionalised hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>—reference-of-thought—categorical-imperatives/axioms/registry-teleology—,—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation whether the latter is failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Insight from ontological-normalcy/postconvergence as it matches placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology to ontological-veridicality (notwithstanding that this undermines habituated conventionalised mented/stigmatic placeholder-setup/mental-devising-representation/mentation) representing all the institutionalisations in a dialectical moment of appropriateness-of—reference-of-thought—as-of-conflatedness and thus mentally-straight/candored-and-dialectically-in-phase as simply involving the technique of a
dynamics’ can perfectly represent the mentations/mental-devising-representations of all registry-worldviews/dimensions both as implied and driven by ontological-veridicality by way of ontological-reconstituting–as-to-conflatedness /deconstruction and point out their peculiar mented/stigmatic specificities in their hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> involving with all mented/stigmatic mental-devising-representations a circular preconverging-or-dementing-temporal-manifestation (subontologisation/subpotentiation (in-a-social-dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the various institutionalisations/institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism’⟩ are actually the levels at which their specific quality (whether as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism) actively and comprehensively define and characterise each of the institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-of-existential-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–
non-positivism/medievalism up to the graduated/staggered attainment of positivism, and effectively by a prospective insight, proto-notional–deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were actually very thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their preconverging–de-m entating/structuring/paradigming was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexion of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the-Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of a temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal
notions and virtues (as the-Good/understanding/knowledge-reification\textsuperscript{7}/ontological-primemovers-totalitative-framework\textsuperscript{7}) without institutionalisation design or conceptualisation!

This is an unspoken recognition of the inherent reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor

individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation conceptualisation of the-Good (positivistic ontological-primemovers-totalitative-framework\textsuperscript{7}). Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination. Positivistic secondnaturing of disparate frameworks of deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10}) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and
specialisms, that are always ferociously, blindly and without further justification upheld by regulation and law and/or newer legitimately made regulation and law even against popular whim given their ‘inherent assuredness to preserve the intemporal construct in a furtherance of intemporal-preservation percolation-channelling-<in-deferential-formalisation-transference>. Prospectively, notional–deprocrypticism institutionalisation will imply a superseding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as new-mentation and further extension of formalisation as ‘deferential-formalisation-transference’ of ‘deprocryptic formalisation’ into the extended-informality-\{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology\} implying a greater underlying demystification of positivism/rational-empiricism manifestation of procripticism–or–disjointedness-as-of-reference-of-thought reasoning by way of the ontological-contiguity\(^1\) (as from prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought notional-contiguity/epistemic-contiguity\(^2\)-<profound-supererogation\(^3\)-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>) with respect to the veridicality of human temporal-to-intemporal individuations dispositions nature that explains the nature of the positivism–procripticism registry-worldview notional-discontiguity/epistemic-discontiguity\(^4\)-<shallow-supererogation\(^5\)-of-mentally-aestheticised–preconverging/dementing–qualia-schema> as we become more consciously insightful, preemptive and superseding of perversion-of-reference-of-thought<<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^6\)>> of positivism–procripticism meaningfulness-and-teleology\(^7\) with its social-construct implications; and this insight prospectively defines the conceptualisation of the present positivism–procripticism registry-worldview/dimension vices-and-impediments\(^8\) as the backdrop for the notional–deprocrypticism postconverging–dementating/structuring/paradigming shift. But this equally as with all institutionalisations imply
bringing to the collective consciousness a dialectically preconverging-or-dementing\textsuperscript{19}—apriorising-psychologism mental-devising-representation of the present procrypticism registry-worldview/dimension (which is prior) from the prospective registry-worldview/dimension (deprocrypticism) as the new \textsuperscript{84}reference-of-thought, which will seem unintelligible to the prior even though it is actually more real suprastructurally and in ontological-normalcy/postconvergence, just as our representation of medievalism though more ontologically-veridical will seem unintelligible/existentially-suprastructural to a medieval mindset/\textsuperscript{84}reference-of-thought in its closed mental-devising-representation of intrinsic-reality.

Central to the notion of \textsuperscript{13}deprocrypticism—or—preempting—disjointedness-as-of—\textsuperscript{84}reference-of-thought as the ‘veridical’ ‘reference-of-thought’ articulation of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity\textsuperscript{17} as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over the positivism/rational-empiricism manifestation of \textsuperscript{81}procrypticism—or—disjointedness-as-of—\textsuperscript{84}reference-of-thought notional-discontiguity/epistemic-discontiguity\textsuperscript{63}-\textless{shallow-supererogation\textsuperscript{97}-of-mentally-aestheticised-preconverging/dementing\textsuperscript{19}—qualia-schema} as of its perversion of \textsuperscript{84}reference-of-thought—or—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and so in a prospective \textsuperscript{14}de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontology) supersedes intradimensional-subknowledging\textsuperscript{\textsuperscript{95}}-normalcy (temporal conventioning compromise). This dichotomy between conventioning and ontology is critical to understand human mentation development along the successive institutionalisations, as transcendental knowledge is by definition prospective and hence recognises the ontological limits/thresholds of conventioning as knowledge and virtue
reference because to start with all conventioning institutionalisations are de-
mentatively/structurally/paradigmatically in want of prospective transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity whether as recurrent-utter-
institutionalised, ununiversalisation, non-positivism/medievalism or procrysticism in a
prospective insight. Conventioning as such could only prospectively reflect ‘sound of-thought status’ when it prospectively coincides/proxies ontological-normalcy/prospective-
transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–
ontological-preservation; the holy grail of the notional–deprocrypticism institutionalisation
ideal. But actually a conventioning construct in contrast to attaining such a prospect of ‘utter-
purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-
value-reference-denominator for that conventioning construct, and the latter is thus the
‘effective meaningfulness-or-value-reference’ of the said conventioning construct
notwithstanding any grander ontological meaningfulness-or-value-reference striving for utter-
purism-of-ontology. The implication here is effectively that grander ontological and
philosophical meaningfulness-or-value-references are no more pertinent in a conventioning
construct than its least acceptable meaningfulness-or-value-reference-denominator but for
discretionial or prestige basis of discretionial and disparate recognition, out of discretionintary
formalisation in inducing the secondnaturing and internalisation for that recognition. This
insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-
references of intellectual grounding (purism-of-ontology), it is important to grasp that the social
integration of meaningfulness-and-value-references in a conventioning construct is effectively a
least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it
is by an effective utilisation of the institutionalisation percolation-channelling-<in-deferential-
formalisation-transference> mechanism that such ‘purism-of-ontology’, by it’s the-Good, can
stand out in bringing to bear its human and social emancipation potential. In the same token,
thus it is equally important to grasp that primacy of meaningfulness-or-value-reference orientations in conventioning constructs do not necessarily has to do with a primacy of ontological-veridicality pertinence especially where it is not driven by intrinsic-reality transcendental-enabling/sublimating/supererogatory-de-mentativity but by social-aggregation-enabling, notwithstanding that such a conventioning construct may be seen as the social reference of grander meaningfulness-and-value-references in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-value-reference play-out notion and not an-utter-purism-of-ontology-reference notion. Thus the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of meaningfulness in our positivistic registry-worldview/dimension should prospectively be subject to de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with corresponding de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) even though it won’t be intelligible from our vantage superseded/transcended registry-worldview/dimension point just as with all transcended/superseded registry-worldviews/dimensions. The narrative/storying technique for a comprehensive postconverging-or-dialectical-thinking apriorising-psychologism—by—preconverging-or-dementing apriorising-psychologism dialectical representation involves articulating a comprehensive organic-comprehension-thinking narrative in ‘intemporal-prioritisation-of-reference-of-thought—as-conflicatedness—or-ontological-reprojecting by which varied induced threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to—‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing apriorising-psychologism narratives in circumventing/distractive-temporal-prioritisation-of-reference-of-thought naively arise, and over which an organic-comprehension-thinking analysis dents

postconverging—de-mentating/structuring/paradigming resolution of the epiphenomenon of sorcery across metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation. It should be noted that an intemporal or ontological or longness-of-register-of—meaningfulness-and-teleology resolution to perversion-of- reference-of-thought-<as-effectively-apriorising-in-

That may explain the initiation of a loss of intemporal social universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing-

arising from postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> for instance which is then at the base of a registry-worldview’s/dimension’s uninstitutionalised-threshold (which is overall the de-mentative/structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a ‘deferential-formalisation-transference’/skewed (‘intemporality—asymmetric-subsumption-of-temporality”), for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) institutionalisation setup, whether at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and
suprastructural and is not constraint to and have nothing to do inherently with human mental-devising-representation\textsuperscript{8} incrementalism-in-relative-ontological-incompleteness\textsuperscript{50}—enframed-conceptualisation and notional-disjointedness, as it is up to us to proxy to it and hence we can’t say we want to think-one-way or we’ve-been-thinking-a-certain-way (as \textsuperscript{4} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}) to naively imply that reality will and should comply, as failing/not-upholding\textsuperscript{8} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} speak of human mental-devising-representation dead-ends and the need for postconverging-de-mentating/structuring/paradigming shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the (recomposured)-consciousness-awareness-teleology\textsuperscript{100} or mental-devising-representation of a registry-worldview/dimension \textsuperscript{4} reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge-notionalisation is about ‘a deterministic and operant construct preserving intemporality /longness as ontology’. While this process had occurred priorly rather beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought from base-institutionalisation, universalisation and up to positivism, it will possibly be more driven as-of-consciousness-awareness-teleology when it comes to attaining notional–deprocrypticism as the latter registry-worldview/dimension is actually weaker than the preceding registry-worldviews/dimensions in eliciting a positive-opportunism and will more strongly depend on percolation-channelling-in-deferential-formalisation-transference of intemporality/longness to be realised. Preconverging-ordementing–apriorising-psychologism as thus implied can be defined as reflecting/perspectivating/highlighting of the deficient mental-devising-representation (as so-referenced from ontological-normalcy/postconvergence so-construed as in prospective-

Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s\textsuperscript{2}, but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. registry-worldviews/dimensions with respect to the suggestion of prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate from our vantage perspective at the backend of the institutional-cumulation/institutional-recomposurer-{as-to-}historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>} process to be rather not true with prior transcendence-and-sublimity/sublimation/supercal/sectability though we'll in turn obviously act by reflex in <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with respect to the suggestion of prospective transcendence-and-sublimity/sublimation/supercal/sectability undermining our registry-worldview's/dimension's categorical-imperatives/axiom/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/utterion to apprehend intrinsic-reality, over ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and notional–procrypticism/notional–disjointedness—as-of—reference-of-thought which is more about ‘transversality—of-affirmative-and-unaffirmative–disambiguated—motif-and-apriorising/axiomatising/referencing’ human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework as all-determinant); with reasoning-through/utterion generally implied in formal constructs and settings as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework settings while informal constructs and settings tend more to ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation and notional–procrypticism/notional–disjointedness—as-of—reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is
that formal constructs and settings emphasise ‘intemporal-prioritisation-of-reference-of-thought’–as-confatedness-or-ontological-reprojecting in longness-of-register-of-meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of-reference-of-thought in shortness-of-register-of-meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of notional-firstnatednness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective-ontological-normalcy/postconvergence>. ‘Intemporal-prioritisation-of-reference-of-thought’–as-confatedness-or-ontological-reprojecting points out that conventioning constructs like subpar/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of-reference-of-thought’–as-confatedness-or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>) in wrongly implying that a notional-deprocrypticism ontological-escalation/aetiologisation is unwarranted. More
like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infallibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of-'nondescript/ignorable–void'-with-regards-to-prospective-apriorising-implications} perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy/postconvergence in contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-
Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{23} reference of ontological-contiguity\textsuperscript{67} but for naively and wrongly implying good-natured qualities as being ontological (rather than the-Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{23} conceptualisation validated by ontological-contiguity\textsuperscript{67} or a ratio-conguity notion), and since the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{58} shows that ‘good-naturedness’, without the-Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{23} as of ontological-contiguity\textsuperscript{77}, fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophesiers (working rather more assertively on ‘supernatural postconverging–de-mentating/structuring/paradigming’ implications) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/ontological-primemovers-totalitative-framework\textsuperscript{104} they actually aspired for ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness\textsuperscript{17}–or-ontological-reprojecting, that is, they were prioritising and focussing on that which establishes universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant\textsuperscript{(as-of-relatively-more-profound-construal-of-existential-contextualising-contiguity ‘s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context) the golden mean into ‘intemporal-prioritisation-of- reference-of-thought’–as-conflatedness’–or-ontological-reprojecting but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively notional–deprocripticism
which are of transcendental nature as ‘shaping the human psyche’ and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather non-transcendental and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms–as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness—ontological-reprojecting will be skewed (‘intemporality/ asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally (as to the fact that it is on this basis that human institutional-cumulation/institutional-recomposure—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective–ontological-
normalcy/postconvergence-reflected-'epistemicity-relativism'> has been self-perpetuating in explicating the ontological-contiguity\textsuperscript{16}—of-the-human-institutionalisation-process\textsuperscript{17}). Such an insight can further be expanded thus, it is critical to note that the institutional-cumulation/institutional-recomposure\textsuperscript{18}—of-the-human-institutionalisation-process\textsuperscript{19}) are developments of human mentation capacity in grasping its ‘internal ontological-reconstituting–as-to-conflatedness’/deconstruction intermediating environment’ and the external environment. The former refers to the teleological devised representation of the relationship with the external environment like language, organisation, culture and other institutional construct by which it existentially accesses the external environment. In effect, though counterintuitive, human registry-worldview’s/dimension’s institutionalisation is actually an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{20}/or-ontological-reprojecting/intemporal-preservation preemptive construct which paradoxically elicits devised mentation that goes on to build the ‘internal ontological-reconstituting–as-to-conflatedness’/deconstruction) intermediating environment’. profoundness of treatment of subject-matters and specialisms (and even more so with regards to
‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-

on unordinary formal constructs which, granted, should be able to ultimately by their

That’s why the populace is not asked its opinion about the law or astronomy or medicine, for

ontological/intemporal treatment of domains of reality but for when the issues at stake require a
sovereignty exercise requiring individuals informed consent whether political or decisional or
rather as social learning/inculcation exercise; but then sovereignty exercises are not pure
knowledge/ontological constructs but for the construals/conceptualisations of inherently
sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the
conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its
