Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
An Intimate Insight on Psychopathy and a Novel Hermeneutic Psychological Science

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability\textsuperscript{41} method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability\textsuperscript{41}, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojective/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not dementatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\textsuperscript{15} wooden-language-\langle imbed-\textsuperscript{temporal} mere-form\rangle narratives-\langle of-the- reference-of-thought- categorical-imperatives/axioms/registry-teleology \rangle stifling prospective possibilities, thus requiring prospective fundamental reconception. ‘knowledge becomes increasingly mechanical’ and is rather a secondary and derivational tool for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the imprimaturing so projected and the perceived temporal social-value arising with such imprimaturing and as it is increasingly associated with generalised incuriosity in genuine intellectual development and the substituting of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought over genuine knowledge-reification as to existence-potency~/~sublimating–nascence, disclosed-from-prospective-epistemic-digression. This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation–blurring/undermining-of-prospective-totalising-entailing, as to-entailing–amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-
deficient-reflexivity of our {amplituding/formative} wooden-language-{imbued—temporal—meriform/virtualities/dereification /akrasia-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology} it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its {amplituding/formative} wooden-language-{imbued—averaging-of—thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—<as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications>} with media-driven imprimaturing increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellect is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency~sublimating–nascence, disclosed-from-prospective-epistemic-digression as to immortality. But then human intellect across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellect as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellect’ not to recognise what is going on as to imply that it is veridically in
dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\(^{64}\) (whether or not, beyond-the-consciousness-awareness-teleology\(^{10}\)-\(<\text{in-existential-extrication-as-of-existential-unthought}>\) as this only leads to a destructuring-threshold\(\langle\text{uninstitutionalised-threshold} \quad /\text{presublimating–desublimating-decisionality}\rangle\) of-ontological-performance\(^{100}\)-\(<\text{including-virtue-as-ontology}>\) habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity\(^{101}\) rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation\(<\text{unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’}>\) inclinations that poorly appreciate existence-potency\(^{105}\)-\(<\text{sublimating–nascence,-disclosed-from-prospective-epistemic-digression}>\) implications of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-\(<\text{-in-dimensionality-of-desublimating-lack-of}>\)\(\langle\text{-amplituding-formative}>\) supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\) whether by mystifications-outside-existential-contextualising-contiguity\(^{107}\)-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness\(^{108}\)

This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of society that ultimately have serious de-mentative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency ~sublimating—nascence,—disclosed-from-prospective-epistemic-digression or the critical analysis of such knowledge-reification but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of
dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology - <in-existential-extrication-as-of-existential-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness’

We can appreciate that while many a subject-matter will often seem to imply that dialogical-
equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the consequence of their universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)}—of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)}—subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s² to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness)}—as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’—not only as of wrong ontological-conception out of good-natured-ontological-normalcy/postconvergence-epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting both human constructiveness-of-ontological-performance—
The fact is knowledge-reification is of ‘existential amplituding/formative–epistemicity’ totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression over our human-subpotency motives, the same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supercrumpy–de-mentativity as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression implications. spirit of intellectualism, it can difficultly be fathomed how such a ground-breaking evental-instigation as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency 38 ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency 38 ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure-\{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-\langle\text{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}\}, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s \{amplituding/formative\} wooden-language-\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology \} with asceticism' does exist as has existed throughout sublimating
Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellelction values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellelction value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of\[<\text{amplituding/formative}>\text{supererogatory–de-mentativeness/epistemic-growth-or-conflatedness }/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\] mantras like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowing has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-
consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification exercise! Actually the projection of values including intellectual values in such \( <\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag} \) are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness since the very same conception of value when construed on the basis of relative-ontological-incompleteness may actually be associated with vices-and-impediments, and so beyond-the-consciousness-awareness-teleology (given that virtue is rather as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness wooden-language-(imbed—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology ) in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic-philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-
involvement starting with the very intellection striving for such prospective knowledge-
reification\textsuperscript{77}. (In any case, ultimately the reality of human knowledge-reification\textsuperscript{77} involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{88} meaningfulness-and-teleology\textsuperscript{99}', and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} to grasp our modern-day conception of say physics given its ‘valuation framework as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification\textsuperscript{77} in modern-day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} as of an occlusive-consciousness\textsuperscript{84} reference-of-thought requiring prospective notional–deprocrypticism reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’ <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{77} in apriorising/axiomatising/referencing—conflatedness ’ herein implied as ontological-prime movers-totalitative-framework\textsuperscript{73} involving a ‘direct bilateral relationship of appropriate

sublimity/sublimation/superrerogatory-de-mentativity because these involve human-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendental/transvaluating conception is \textsuperscript{[10]} universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs by the underlying fact that these are the very same human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-

indeterminacy/deficiency/limitation/constraint of ‘traditional mythological/supernatural conceptualisation of material world/things as of the \textsuperscript{[10]} universalising but non-positivism–medievalism preclusive-consciousness’ have constructive implications about corresponding requisite prospective social-values in superseding the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of
‘traditional mythological/supernatural conceptualisation of the social-construct as of the

for the further advancement of such material sciences arises from the effectively enabling 
social-values like freedom-of-speech, opened communication, etc. availing as of the 
transcending positivism/rational-empiricism occlusive-consciousness. Likewise, it is herein 
contended that the future possibility for the natural sciences advancement is inseparable from 
the possibility of social and social-organisational as of prospective human aporeticism

relationship-and-fate in the conceptualisation of the material and social world is even confirmed 
today as with the social and social-organisational framework that underlied and was necessary 
for most of the scientific and technological advances after the second-world war). Basically, 
dimensionality-of-sublimating –(<amplituding/formative>supererogatory–

construction-of-the-Self and its given registry-worldview/dimension reference-of-thought–
and–reference-of-thought–devolving–meaningfulness-and-teleology overall de-
and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory—auciency/perspicacity/astuteness/edginess/incisiveness—as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating ⟨amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩ prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’.

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

The psychopath is in a state of compulsing–nonconviction/madeupness/bottomlining—

it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining—

we ‘consistently’ have two sets of mental-dispositions having to do with the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence—?implicited—‘nondescript/ignorable–void’—as-to-presencing—absolutising-identitive-constitutedness? and metaphysics-of-absence—?implicited-epistemic-veracity-of-nonpresencing—perspective–ontological-normalcy/postconvergence>—representations

rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’)

wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic

‘social protraction of psychopathy across individuals and society’

The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition

The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor

knowledge-notionalisation is about ‘a deterministic and operant construct preserving

preconverging-or-dementing–apriorising-psychologism as thus implied can be defined as

‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought

we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations

transcendental institutionalisation is basically an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/intemporal-preservation preemptive conceptualisation

articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism

ontological-normalcy/postconvergence in precedingness points out that at registry-worldview/dimension-level ontology as the transcending dimension is veridically an utter organisational (organic-comprehension-thinking)

Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions

‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics

‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous de-mentionative/structural/paradigmatic construct

Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring

two dilemma with respect to the conceptualisation of virtue

intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation

‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence

Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding—as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation)

There is no reason for de-mentation—superegoratory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics? and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding—as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold

ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’

notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-pedestals-disambiguation before logical processing/operation

‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendent-enabling/sublimating/supererogatory–de-mentativity as this highlights ontological-primemovers-totalitative-framework

it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans

the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)

at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism’

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

philosophy for instance is a distorted Western metaphysics-of-presence-

and furthermore such a misnomer as to its metaphysics-of-presence-

in this regards we can appreciate how the very implications of say
universal human rights supererogatorily becomes more and more
profound as from say the Socratic-philosophers (even as slavery, class-

of serfdom/slavery, social-class discrimination and female-discrimination

occlusive collateralisation of other peoples, cultures and nations as well
as gender and age occlusive collateralising biases);¶ actually the specific

vices-and-impediments—as-of- reference-of-thought imbued de-
There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-in-profound-supererogation –<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words from an ontological-normalcy/postconvergence perspective implied with candidity/candour-capacity notional-deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100}, ascription-constructs are naïve \textsuperscript{4} <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{12} construals of human reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>. The ontological-normalcy/postconvergence nature of intrinsic-reality/ontological-veridicality implies human reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> is construed as it upholds/fails ontological-normalcy/postconvergence as from prospective relative-ontological-completeness\textsuperscript{88}-of-reference-of-thought and is actually a wholly internal process of apriorising/axiomatising/referencing—conflatedness\textsuperscript{13}, highlighting ‘the concatenation to intemporal-projection inextricably of derived-denaturing\textsuperscript{15}-deprojections-indistractiveness-of-intemporal-projection, with the former in relative intemporality\textsuperscript{17}/longness and the latter in relative temporality\textsuperscript{17}/shortness as of distractiveness’; construed as temporal-concatenation-to-intemporality\textsuperscript{17}-or-ontological-veridicality-as-of-reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{103}'. As a further elucidation, by ‘protensive-consciousness’ is meant the consciousness-awareness-teleology\textsuperscript{100}
spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness apriorising/axiomatising/referencing—conflatedness as this inevitably leads to temporal concatenation to intemporality, rather its import lies solely as of solipsistic intemporal projection drive given that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional~conflatedness of notional~deprocrypticism can be reinterpreted operantly as of ‘notional~referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional~deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional~deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness’
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology”<in-existential-extrication-as-of-existential-unthought> preconverging-or-dementing –apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective
neuterising construed as of ‘their prior relative-ontological-incompleteness’-of- reference-of-thought of meaningfulness-and-teleology’. neuterising thus refers to human attribution of meaningfulness-and-teleology as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance <-including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness, and so-construed from the apriorising/axiomatising/referencing—conflatedness of notional–deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived- perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation ’, that is secondnatured as of its prior relative-ontological-incompleteness reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance <-including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on
ones clothes and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –<as-to–
‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing – apriorising-psychologism>. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of–reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness

This insight equally explains why it is ‘through the deficient derived-construction of apriorising/axiomatising/referencing—conflatedness’ that is construed the ontologically-veridical nature of distractive-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing>- destructuring. Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology\(^{(100)}\)-<in-existential-extrication-as-of-existential-unthought> dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of \(\langle\text{de-mentation}\rangle\)\(^{(18)}\) (supererogatory—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). The ontological-veridicality of a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—
neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of<br>totalising–ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/preconvergence of-relative-ontological-incompleteness of reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of apriorising/axiomatising/referencing—conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence of-relative-ontological-incompleteness of reference-of-thought in the very first place cannot be the basis for articulating, as of their given apriorising/axiomatising/referencing—constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating, as-of-conflatedness’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a apriorising/axiomatising/referencing—conflatedness as of ontological-normalcy/relative-
ontological-completeness of reference-of-thought that factors in ‘their constructed-deficiency with respect to ontological-normalcy/relative-ontological-completeness of reference-of-thought, so-construed as their neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as of their respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments; thus enabling ontologically-veridical construal as of both ontological-completeness/incompleteness-of reference-of-thought of Being and meaningfulness-and-teleology retrospectively to prospectively in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. To put it another way, as distinct articulations of the same physics intrinsic-reality, we cannot simply by apriorising/axiomatising/referencing—constitutedness by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity of ‘traditional classical mechanics axiomatic-construct’ given its epistemic-abnormalcy/preconvergence/relative-ontological-incompleteness of reference-of-thought arrive-at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of its ontological-normalcy/relative-ontological-completeness of reference-of-thought; as what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-construal. Instead such a construction of prospective relative intrinsic-reality/ontological-veridicality is a apriorising/axiomatising/referencing—conflikedness of ‘traditional classical mechanics axiomatic-construct’ by an epistemic-totalising ~renewing-realisation/re-perception/re-thought as of maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation; driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to reconstruct the
same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which refers to the transcendental-enabling/sublimating/supererogatory–de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening successive more and more
relatively profound/complete registry-worldviews/dimensions as reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue; with the (given consciousness’s neuterising-induced-or-deneuterising -induced)- reference-of-thought—devolving-teleological-de-

For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its (trepidatious-consciousness neuterising-induced)- reference-of-thought—devolving-teleological-de-

Likewise it is the habituated rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the (warped-consciousness neuterising-induced)- reference-of-thought—devolving-teleological-de-

This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance\(^{72}\)-<including-virtue-as-ontology> across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’ as its underlying ‘reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms—as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—meaningfulness’; given that there is a need for the requisite institutional-cumulation/institutional-recomposure-{(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposing underlying the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{67}\)—of-the-human-institutionalisation-process. The fact is that all meaningfulness-and-teleology\(^{100}\) ontological-performance\(^{72}\)-<including-virtue-as-ontology>, whether teleologically-degraded or teleologically-elevated, implied as of within a given ‘reference-of-thought are necessarily in ontological-contiguity\(^{67}\), construed as of a difference-in-kind/difference-in-aposteriorising-orthologicising\(^{22}\) of the same <amplituding/formative–

the corresponding reference-of-thought centered–

<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology implied different and relatively-more-profound-and-complete reference-of-thought—categorical-imperatives/axioms/registry-teleology which is non-cognisant and non-integrative and ‘not in notional contiguity’ with the prior registry-worldview’s/dimension’s reference-of-thought <amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought—categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments crossgenerationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered—epistemic-totalisation reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought—categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered—epistemic-totalisation reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-
contiguity<sup>62</sup>-<profound-supererogation<sup>97</sup>-of-mentally-aestheticised~postconverging/dialectical-thinking<sup>39</sup>--qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity<sup>39</sup>–in-reification<sup>87</sup>/dereification<sup>87</sup> cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology<sup>100</sup> centered–epistemic-totalisation/<sup>47</sup> reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity<sup>39</sup>–in-reification<sup>87</sup>/dereification<sup>87</sup> mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity<sup>81</sup>-<profound-supererogation<sup>97</sup>-of-mentally-aestheticised~postconverging/dialectical-thinking<sup>20</sup>–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments<sup>106</sup>. The same applies from a notional~deprocrypticism perspective with regards to a procrypticism–or–disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology<sup>100</sup> in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism–or–disjointedness-as-of-reference-of-thought arises in the first place is in circular <amplituding/formative--epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>45</sup> as of the same centered–epistemic-totalisation/ reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments<sup>106</sup> as of that fundamental <amplituding/formative--epistemicity>totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context— meaningfulness-and-teleology<sup>100</sup> reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an
aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a cros generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring in second naturing such a prospective institutionalisation ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ that enables such a transformation whether from a retrospective or prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity perspective. This explains ontological-normalcy/postconvergence referentialism as construing/conceptualising the most profound/complete ontologically-veridical ‘reference-of-thought construction of meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from the notional—deprocrypticism perspective construal/conceptualisation, as being ‘the most profound/complete reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-worldviews/dimensions as of its preempting—disjointedness-as-of- reference-of-thought—as-to—amplituding/formative—epistemicity—growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism. Furthermore, within a registry-worldview/dimension for the disambiguation of notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence>, its reference-of-thought of meaningfulness-and-teleology as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its (given consciousness’s neuterising-induced-or-deneuterising—induced) as reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness, which by way of a différance/internal-dialectics/difference-deferral articulates the intradimensional

Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms as of axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-de-mentating/structuring/paradigming/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness of reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness of reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, and thus rather implies an dementation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–

It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness which will just induce their mental-dispositions for non—transcendence-and-sublimity/sublimation/supercerogatory—de-mentativity, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or notional—deprocrypticism reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness. Thus counterintuitively to metaphysics-of-presence (implicated—nondescript/ignorable—void—as-to— presencing—absolutising—identitive-constitutedness) conception, human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as ‘banally’ portrayed historically is not as of an expanding ‘grounded knowledge construct’ from time immemorial as of a wrong incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex as if humans have had only one mental-reflex as if humans have had only one

But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation construed from a succession of ’<amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ so implied by an ontology-driven ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ enabling successive prospective relative-ontological-completeness—of—reference-of-thought/ontological-normalcy/postconvergence with respect to human notional limited-mentation-capacity-deepening underlying the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}>; such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological apriorising/axiomatising/referencing—conflatedness’, and this is important ‘to avoid unduly considering our whole psychical-nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-presence {implicit–nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness ’}, but rather grasp that there are teleological-de-mentating/structuring/paradigming/teleological-possibilities/teleological-potency of our mental-

This analysis brings out what is effectively meaningfulness as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of the prospective relative-ontological-completeness reference-of-thought of the (given consciousness’s neuterising-induced-or-deneuterising-induced) reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an
teleology strives to go beyond a prior institutionalisation wooden-language\{imbued—averaging-of-thought\} wooden-language\{as-to-leveling\} wooden-language\{ressentiment\} wooden-language\{closed-construct-of-meaningfulness-and-teleology\} at its uninstitutionalised-threshold, which simply triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on the basis of the priorly set/established ‘amplituding/formative–epistemicity’ \{totalising\} \{circumscribing\} \{delineating\} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ taken for granted without questioning as of intradimensional grounded ‘meaningfulness-and-teleology’ at its uninstitutionalised-threshold. Such a transcendental engagement recurrently put into question in apriorising/axiomatising/referencing—conflatedness the prior institutionalisation ‘amplituding/formative–epistemicity’ \{totalising\} \{circumscribing\} \{delineating\} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold by substituting it with the prospective institutionalisation ‘amplituding/formative–epistemicity’ \{totalising\} \{circumscribing\} \{delineating\} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of its prospective relative-ontological-completeness of reference-of-thought, before effecting any ‘operant-or-incidenting-predicative-insights or logical-coherence’ for prospective institutionalisation of meaningfulness-and-teleology, and this explains its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; while on the other hand the grounded uninstitutionalised-threshold recurrently overrides as of
apriorising/axiomatising/referencing—constitutedness beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> any notion of its ontologically deficient ‘<amplituding/formative–epistemicity> totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded meaningfulness-and-teleology, and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, and explaining why transcendence-and-sublimity/sublimation/supererogatory—de-mentativity fully occurs as of a crossgenerational habituation process. Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism⟩⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence ⟨implicit-epistemic-veracity-of- nonpresencing⟨perspective–ontological-normalcy/postconvergence⟩⟩ analysis does apply with respect to superstitions, universal human rights, free society, modern
science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation as the process enabling prospective relative-ontological-completeness of reference-of-thought of same

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being ontologically decentered and preconverging-or-dementing–apriorising-psychologism. Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-
their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a apriorising/axiomatising/referencing—constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory—de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness—of—reference-of-thought, as of the incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of
apriorising/axiomatising/referencing—conflatedness but rather suffers from apriorising/axiomatising/referencing—constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables apriorising/axiomatising/referencing—conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in apriorising/axiomatising/referencing—constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought—devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory—de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} but rather such ‘depth/axiomatic-contruct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a apriorising/axiomatising/referencing—conflatedness\textsuperscript{14} as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity\textsuperscript{39}’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology\textsuperscript{10} conceptualisation as of our limited-mentation-capacity-deepening\textsuperscript{4} enabling our prospective relative-ontological-completeness of reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-
enabling/sublimating/supererogatory/de-mentativity dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing—conflatedness’. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an amplituding/formative–epistemicity totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory/de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory/de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing—conflatedness in (re-originary—as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking ’-projective-insights’/’epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) ) originary/event –of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought–devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing—constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague
thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory/de-mentativity construal highlights the ontological-contiguity\(^7\) of all knowledge as of their “reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming dynamic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework\(^1\) interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere de-mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing—constitutedness\(^3\) rather than striving to expand the transcendental-enabling/sublimating/supererogatory/de-mentativity ontological-primemovers-totalitative-framework\(^1\) existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating/supererogatory/de-mentativity implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating/supererogatory/de-mentativity differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association
whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{72} nature and differences as well as their divergence in\textsuperscript{59} meaningfulness-and-teleology\textsuperscript{90} implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of\textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{22}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supererogatory~de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{1} renewal of a same <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of apriorising/axiomatising/referencing—constitutedness\textsuperscript{17} undermining requisite creativity as of apriorising/axiomatising/referencing—conflatedness\textsuperscript{1}, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology\textsuperscript{10}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{1} that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given
<amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity\textsuperscript{18}`s-reifying/elucidating-of-prospective-relative-ontological-

Such an analytic insight as of a notional-deprocripticism (protensive-consciousness deneuterising\textsuperscript{84} induced)-\textsuperscript{84} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness analysis as of its prospective relative-ontological-completeness\textsuperscript{84} of reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of apriorising/axiomatising/referencing—constitutedness\textsuperscript{84} wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity ontological-primemovers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}; consciousness defined as of ‘notional <amplituding/formative–epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency\textsuperscript{38}—sublimating—nascence, disclosed-from-prospective-epistemic-digression. The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for apriorising/axiomatising/referencing—constitutedness\textsuperscript{15} lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘\textsuperscript{5}reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{16}–as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s\textsuperscript{59} neuterising-induced-or-deneuterising\textsuperscript{64}–induced)\textsuperscript{93} reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, and so as of the\textsuperscript{55} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{89}—

Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-threshold. Thus, the ontological-veracity as prospective relative-ontological-completeness—of-reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of
apriorising/axiomatising/referencing—conflatedness\textsuperscript{12}, thus enabling the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation \textlangle\textless as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’\rangle and as of its implied superseding–oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring; and any such pretense of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve apriorising/axiomatising/referencing—constitutedness\textsuperscript{13}. Of course, it is rather prospective relative-ontological-completeness\textsuperscript{58}—of-reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology\textsuperscript{100} mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{17} \textlangle\textless as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’\rangle. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{39} of existential-instantiations, this points out that existence inherent superseding–oneness-of-ontology necessarily implies ontologically-veridical\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} is effectively as of a natural transcendental-enabling/sublimating/supererogatory–de-mentativity existential-contextualising-contiguity\textsuperscript{39} of-all-ontologically-veridical-meaningfulness ‘in wait’ to be elucidated however

epistemicity-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in apriorising/axiomatising/referencing—conflicatedness need to be as of a reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating/supererogatory–de-mentativity existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness. For all the above elucidations highlighting the ontological-veracity implications of apriorising/axiomatising/referencing—constitutedness and apriorising/axiomatising/referencing—conflictedness, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflicatedness’, lies in the fact that the construal/conceptualisation of an epistemic-totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaninglessness-and-
teleology and the inherent ontological-veracity/intrinsicness of the \( <\text{amplituding/formative–epistemicity}>\) totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring with the inherent intrinsicness of the \( <\text{amplituding/formative–epistemicity}>\) totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the \( <\text{amplituding/formative–epistemicity}>\) totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving reference-of-thought—elevated-devolving-as-of-prospective-
institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance as-in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of apriorising/axiomatising/referencing—constitutedness and as relatively-perfect/near-perfect/perfect apriorising/axiomatising/referencing—conflatedness, construed as notional~conflatedness as of apriorising/axiomatising/referencing—constitutedness-to-conflatedness of human limited-mentation-capacity. Insightfully, it highlights that apriorising/axiomatising/referencing—constitutedness arises as of human limited-mentation-capacity ‘poor/unsound/shoddy/incomplete unanticipated/unprojected’ construal/conceptualisation-of-axiomatic-constructs-as-knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional~referential-notions/articulations/virtue from ‘the imbricatedness/threadedness/recomposuring iterating of existential-instantiations’ as of ‘existence-or-intrinsic-reality-or-ontological-veridicality’, while apriorising/axiomatising/referencing—conflatedness arises as of human limited-mentation-capacity ‘good/sound/profound/complete anticipated/projected’ construal/conceptualisation-of-

All knowledge-constructs/theories/intersolipsistic-intercessory-
notions/notional~referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity, universal human rights, etc. doesn’t add anything to ‘abstract/imaginary existence as a pre-given’ pointing to the fact that human existence is about human-subpotency construed as of successive defining transcendentally-enabled-institutionalisation-levels-of-ontological-good-

Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-

The latter is effectively what relays the ontological-veracity of the totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of completeness/profoundness subsuming the reality of the perceived whole and parts within the incisive apriorising/axiomatising/referencing—conflatedness\textsuperscript{1}; pointing out that the fundamental issue is how human limited-mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its profoundness/completeness. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profoundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-specific-constitutedness\textsuperscript{13} induced neuterising or prospectively notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness\textsuperscript{12} meaningfulness-and-teleology\textsuperscript{10}. That is, the notional–deprocrypticism protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of apriorising/axiomatising/referencing—conflatedness, with no intermediating construct as of apriorising/axiomatising/referencing—constitutedness\textsuperscript{1}, thus achieves
ontologically-uncompromised-mediating,-as-of-conflatedness
meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibility/setup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of apriorising/axiomatising/referencing—constitutedness on apriorising/axiomatising/referencing—conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness
meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the ‘notion of limited-mentation-capacity’ as of its notional–deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed apriorising/axiomatising/referencing—constitutedness construals in terms–as-of-axiomatic-construct of the various neuterising. Hence the ‘notion of limited-mentation-capacity’ as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical apriorising/axiomatising/referencing—conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as limited-mentation-capacity-deepening that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of—meaningfulness-and-teleology—and-longness-of-register-of—meaningfulness-and-teleology as of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness—of—reference-of-thought perspective of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-
conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional-deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the ‘notion of limited-mentation-capacity’ that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising.

real problem of existence is humankind’s access to existential possibilities as of humankind’s
limited-mentation-capacity. That is, human transcendence-and-
sublimity/sublimation/superceratory—de-mentativity is what achieves existence as a ‘potent

<amplituding/formative—epistemicity>totalising—self-referencing-

This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered–epistemic-totalisation as of circularity of \textsuperscript{56}meaningfulness-

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered—epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance’, as implied by this author’s notion of ontological—

In this regard talking about the physics example again, such a Derridean freplay différance is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual–complementing–ideas–among–various–physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic–totalisation schemes as Newtonian physics and later on Theory–of–relativity and Quantum–mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in
the same way that insight/intuition is reflected rather with regards to any given implicit axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as ‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue, with increasing ontological-performance—including-virtue-as-ontology> as of human transcendence; even though such a conception as ‘axioms of logic’ could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—as-to-postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective
conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory–de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity\(^{19}\) of other applied and transcendental-enabling/sublimating/supererogatory–de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-
enabling/sublimating/de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomen/manifest–subpotency–(in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal, eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding-sublimation-inducing,-profound-and-creative
supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument—for—conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest—subpotencies—(in-transitive—conflatedness —reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence) given ‘human corresponding—sublimation-inducing.—profound—and—creative supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibility/setup/measuring—instrument—for—conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory—de—mentativity of the physics <amplituding/formative—epistemicity>totalising—devolved—purview/domain—of—construal—as—intrinsic—reality/ontological-veridicality/existential—reality created axiomatic—constructs with mathematics being accessory to the transcendental—enabling/sublimating/supererogatory—de—mentativity. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain—of—study and what to strive for, and actually from that ‘physics—reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential—reality as transcendental—enabling/sublimating/supererogatory—de—mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non—classical character like statistical—constructs, quantum phenomena, black holes, etc. as to existence—as—sublimating—withdrawal,—eliciting—of—prospective—supererogation. The naivety of logicism lies exactly in this respect of construing
formalisation as most of what is supposed to be achieved, and failing to grasp that when it
comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-
mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated
conclusion that will often then arise from such a naïve formalisation perspective that the
philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-
mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension...

logic and logical analysis points to the <amplituding/formative–epistemicity>totalising–self-

determinism causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity. Being as of its implied notional-deprocrypticism’s apriorising/axiomatising/referencing—conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendence-and-sublimity/sublimation/supernegativity-de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicated-nondescript/ignorable-void-as-to-presencing—absolutising-identitive-constitutedness). Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a correspondence relation with an epistemic-totalising—devolved—purview/domain-of-construal-as-intrinsic-
reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology> as validated by ontological-primemovers-totalitative-framework\textsuperscript{71}; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence-and-sublimity/sublimation/supererogatory-de-mentativity when prospective relative-ontological-completeness\textsuperscript{98}-of-axiomatic-construct-or-reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72}-<including-virtue-as-ontology>. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding–oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs ontological-veracity are dependent on relative ontological-contiguity\textsuperscript{67}; as axiomatic-construct/reference-of-thought in relative ontological-contiguity of <amplituding/formative–epistemicity> totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality. Such mutual unintelligibility, with regards to 5 reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with 4 —<amplituding/formative–epistemicity> totalising—devolved—purview/domain—of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening 5, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify 6 meaningfulness-and-teleology 30 as knowledge which can only arise as of the ‘maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-

Such a logicism disposition is rather in apriorising/axiomatising/referencing—constitutedness\textsuperscript{12} and is behind such naïve contention that philosophy doesn’t carry transcendental implications and actually undermines other approaches that strive for transcendental-enabling/sublimating/supererogatory–de-mentativity by way of conceptual patterning arguments blinded to transcendental implications of knowledge as derived from existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal, eliciting of prospective supererogation\textsuperscript{17} <as-to-perspective-ontological-normalcy/postconvergence-implied ‘prospective-aporeticism-overcoming/unovercoming’>. In the bigger scheme of things, this author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in the conception of meaningfulness-and-teleology\textsuperscript{10} ontological-performance\textsuperscript{12} <including-virtue-as-ontology> as of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity reflected by metaphysics-of-absence\textsuperscript{9} \{implicated-epistemic-veracity-of nonpresencing <perspective–ontological-normalcy/postconvergence>\} is wholly sufficient as of human limited-mentation-capacity-deepening\textsuperscript{51} in accounting for ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{9} —of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{12} —as-to-totalitative-reification\textsuperscript{5} in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>\textsuperscript{9} —as-veridical-epistemic-determinism\textsuperscript{21} <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity\textsuperscript{9} as of relative ontological-contiguity\textsuperscript{67} of reference-of-thought with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—
human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This author phenomenological transcendental conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant implications construing/conceptualising in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in apriorising/axiomatising/referencing—conflatedness as of human limited-mentation-capacity-deepening. Such that human phenomenological <amplituding/formative–epistemicity>totalising~thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-des-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the apriorising/axiomatising/referencing—conflatedness of human limited-mentation-capacity implications construed from notional–deprocrypticism perspective as historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental apriorising/axiomatising/referencing—conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure–meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of
‘existence as so construed as of ontology’s-directedness-as-Being’ is that Being is the apriorising/axiomatising/referencing—confclatedness\textsuperscript{12} as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation selectivity inherent in existence that rather skews presence states towards the ‘ontological statistical-exception’ of intemporality\textsuperscript{2}/longness over temporality /shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality -to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology’s-directedness-as-Being apriorising/axiomatising/referencing—confclatedness\textsuperscript{12} <amplituding/formative–epistemicity> causality as to projective-totalitative–implications-of-prospective–nonpresencing,for-explicating-ontological-contiguity\textsuperscript{11} as of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{19}—unenframed-conceptualisation existentially supersede abstract/imagined/misconstrued/virtual apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{19} implications that are effectively as of non-existence. The further implication is that human ‘prior existential-reality insight as arising by apriorising/axiomatising/referencing—confclatedness\textsuperscript{12} as of the coherence/contiguity of ontology’s-directedness-as-Being’ rather ‘points to the ontological-veracity of prospective existential-reality as of apriorising/axiomatising/referencing—confclatedness\textsuperscript{12} upholding prospective coherence/contiguity of ontology’s-directedness-as-Being’; wherein as of human-subpotency the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{8} as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a apriorising/axiomatising/referencing—confclatedness\textsuperscript{12} as of successive opened-constructs-of—meaningfulness-and-teleology\textsuperscript{10} superseding <amplituding/formative> wooden-language\textsuperscript{10}
and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology Exercise we can’t as of soundness-or-ontological-good-faith/authenticity Exculpate ourselves to then pretend ours is the registry-worldview/dimension Reference-of-thought that is non-transcendable as of our <amplituding/formative–epistemicity> Totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag, when the insight of prospective transcendence-and-sublimity/sublimation/superalogical—de-mentativity implications as of deprocripticism—or—preempting—disjointedness-as-of—reference-of-thought avails, and so as the apriorising/axiomatising/referencing—conflicatedness Upholding prospective coherence/contiguity of ontology’s-directedness-as-Being. This further explains why there is need for corresponding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be ‘thought through and effectively conceptualised’ with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of—existential-reality Instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflicatedness—as-to-totalitative-reification—in-singularisation—as-the-nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemic—determinism <amplituding/formative–epistemicity> Causality—as-to-projective-totalitative—
merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity\(^n^\) on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology\(^\|\) in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory–de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology\(^\|\) ontological-performance\(^\|\)-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening\(^\|\) as of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity\(^\|\) of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or \(<amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory–de-mentativity implications, which in
reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs[57] reference-of-thought in ontological-contiguity[57] can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity[1]-<shallow-supererogation> of mentally-aestheticised—preconverging/dementing—qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity[57] of axiomatic-construct for grander human[56] meaningfulness-and-teleology[100] ontological-performance[82]<including-virtue-as-ontology> as of the very same<amplituding/formative—epistemicity> totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality. The<amplituding/formative—epistemicity> totalising—renewing—realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity/<contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring—unenframed-conceptualisation exercise as of ontological-faith—apriorising/axiomatising/referencing—as-so-being—as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve—axiomatic-construct will shift to the right as of relative ontological-contiguity[57]. The notion of axiomatic-construct in ontological-contiguity[57] arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity[57] as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity[57]. Ontological-contiguity[57] rather
highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity and newtonian physics in relative notional-discontiguity/epistemic-discontiguity rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of de-mentation with respect to reference-of-thought; as contrary to the ‘Derridean différance decentering’ freeplay that is entrapped in circularity of meaningfulness-and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/ supererogatory de-mentativity brings about prospective relative-ontological-completeness-of-reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking–apriorising-psychologism the prospective institutionalisation’s reference-of-thought-as-of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its prospective relative-ontological-completeness-of-reference-of-thought to override the circularity as notional-discontiguity/epistemic-discontiguity/shallow-suprerogation-of-mentally-

For instance, the successive registry-worldviews/dimensions institutionalisations conceptualisation of meaningfulness-and-teleology have arisen as secondnatures constructs that have substituted for their uninstitutionalised-threshold free-for-all wooden-language-imbued-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology as of ‘nondescript/ignorable–void ’ with-regards-to-prospective-apriorising-implications framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and
essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating/supererogatory–de-mentativity practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling–<in-deferential-formalisation-transference> framework than as of an dimensionality-of-sublimating–<amplituding/formative>supererogatory–de-mentativity/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation> ‘direct convincing’ at individuals-level underlying deferring to institutional and formal meaningfulness-and-teleology as of the need for profoundness and rigour that doesn’t avail in ordinary thought for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Likewise, on occasion in the face of prior institutionalisation established and perceived vested interest such intemporal-as-ontological meaningfulness-and-teleology could be ontologically undermined as of institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates to its value construct as of its prior relative-ontological-incompleteness of reference-of-thought apriorising/axiomatising/referencing—constitutedness as more or less absolute, and doesn’t factor in that its prior relative-ontological-incompleteness of reference-of-thought is a de-mentative/structural/paradigmatic deficiency inducing the <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then prospective institutionalisation necessarily implies a notion of
prospective value construct as of its prospective relative-ontological-completeness\textsuperscript{8} of reference-of-thought apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{10}, with transcendence-and-sublimity/sublimation/supererogatory—de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory—de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism\textsuperscript{76} as of human
\[
\langle \text{amplituding/formative–epistemicity}\rangle \text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} \] as social\textsuperscript{10} universal-transparency\textsuperscript{105} (transparency-of-totalising-entailing, as-to-entailing\textsuperscript{\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness \rangle} avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-
conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on 'meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of 'meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising’ of ‘meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatc-drag human nature’, both internal social
transformation however lethargic and cultural diffusion will be basically impossible, and

<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because
human perceived social-stake-contention-or-confliction drifts within-and-across social-setups
whether with regards to basic trading, curiosity, social competition and generally as of a
predisposition to achieve optimum existential possibilities. In this regard, the rapid
transformation implications of cultural diffusion arise because it makes relatively immediately
available to individuals and social groups a comprehensive set of options however limited the
nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains
why crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of
meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term.
Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective
relative-ontological-completeness–reference-of-thought occurs because de-
mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of
intemporal-as-ontological nature as of longness-of-register-of–meaningfulness-and-
teleology given their supposedly coherent ontological-commitment as of more profound
ontological-primemovers-totalitative-framework validation as to existence-
potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression, as re-
originary–as-unenframed/unbeholding/outlier-conceptualisation (imbued-
postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-
conflatedness *of-notional–deprocrypticism-prospective-sublimation) , that are most likely to
be syncretised crossgenerationally as providing the most overall positive-opportunum by their
relative universal projection implications and are formally-and-overtly assumed, and so over
temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or
less formally-and-overtly unassumed as of their temporal denaturing\textsuperscript{5} nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment\textsuperscript{66} is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology\textsuperscript{100} -\textless in-existential-extrication-as-of-existential-unthought\textgreater\textsuperscript{6} with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity\textsuperscript{57} for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity\textsuperscript{57} as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency\textsuperscript{104}-\{(transparency-of-totalising-entailing,-as-to-entailing-apamplituding/formative–epistemicity>totalising—in-relative-ontological-completeness \}

about such metaphoricity\textsuperscript{57} instigative reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however
restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework causality–as-to-projective-totalitative–implications-of-prospective-epistemicity nonpresencing,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup ‘self-assuredness-of-ontological-good-
faith/authenticity\textsuperscript{69}–postconverging–de-mentating/structuring/paradigming\textsuperscript{70}–as-being-as-of-
existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to
demonstrably and objectively uphold and function going by its specific registry-
worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is
exactly this ‘self-assuredness-of-ontological-good-faith/authenticity\textsuperscript{69}–postconverging–de-
mentating/structuring/paradigming\textsuperscript{70}–as-being-as-of-existing-reality with respect to its social-
stake-contention-or-confliction’ that equally makes available the possibility for prospective
metaphoricity\textsuperscript{7} to demonstrably undermine the implied supposedly coherent ontological-commitment\textsuperscript{66} of such prior social-setups registry-worldview/dimension \textsuperscript{57}meaningfulness-and-
teleology\textsuperscript{100}, and so as of the prospectively induced ontological-primemovers-totalitative-
famework\textsuperscript{73} superseding \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as from existence-
potency\textsuperscript{10}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression
epistemic/notional–projective-perspective of relative-ontological-completeness\textsuperscript{58}–of-
reference-of-thought by way of ontological-primemovers-totalitative-framework\textsuperscript{7} such as
with prospective positivism/rational-empiricism \textsuperscript{6}meaningfulness-and-teleology\textsuperscript{100}. However,
given the inherence of social-stake-contention-or-confliction, inevitably prospective
metaphoricity\textsuperscript{7} undermines vested interests as of the direct, indirect and/or devolving
implications of prospective metaphoricity\textsuperscript{67} and by that token elicit sophistic/pedantic
inclinations to such prospective metaphoricity\textsuperscript{67} meaningfulness-and-teleology\textsuperscript{100}. Further any
such prospective metaphoricity\textsuperscript{67} ultimately takes hold rather as of within the social deferential-
formalisation-transference framework wherein it is driven by a sense of positive-opportunism\textsuperscript{70}
as of particular and general social interest. That said, a social-setup is ever always ‘existentially
invested’ to a given registry-worldview/dimension and the fact of greater existential-
contextualising-contiguity\textsuperscript{10} knowledge-reification \textsuperscript{10} from prospective metaphoricity\textsuperscript{7} which
may involve undermining such ‘existentially invested’ registry-worldview/dimension in its
prospective positivism, and equally so for positivism–procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporal longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-in-deferential-formalisation-transference, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology in-existential-extrication-as-of-existential-unthought with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-
individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism 'meaningfulness-and-teleology' in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks de-mentatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised-preconverging/dementing –qualia-schema> with their prospectively implied metaphoricity; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of prospective human limited-mentation-capacity prospective relative-ontological-completeness—as-of-

processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\textsuperscript{97} in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold\textsuperscript{03}, there is a relative variance of ontological-completeness-of\textsuperscript{84} reference-of-thought as of the prospective relative-ontological-completeness\textsuperscript{82} of reference-of-thought in intemporality / longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness\textsuperscript{89} of- reference-of-thought in temporality / shortness entailing the uninstitutionalised-threshold\textsuperscript{03}; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold\textsuperscript{103} in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold\textsuperscript{03} and the prospective institutionalisation; given the variance of temporality\textsuperscript{99}/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medicinalism, and prospectively \textsuperscript{8} procrypticism–or–disjointedness-as-of- reference-of-thought with intemporality\textsuperscript{52}/longness rather as respectively in base-institutionalisation, \textsuperscript{10} universalisation, positivism and prospectively \textsuperscript{1} deprocrypticism–or–preempting—disjointedness-as-of- reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} actually construes of more profound reference-of-thought– categorical-imperatives/axioms/registry-teleology\textsuperscript{100} that override the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} as failing to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, and so as
of differing references-of-thought in transversality-of-affirmative-and-unaffirmative-
disambiguated-‘motif-and-apriorising/axiomatising/referencing’ ontological unintelligibility.
Neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of
its naïve predisposition to imply ‘equivalence of consideration’ without factoring prospective
relative-ontological-completeness of reference-of-thought epistemicity causality-as-to-projective-totalitative–implications-of-prospective-
institutionalisation of reference-of-thought in relative ontological-contiguity as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

prospective-institutionalisation representation. Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ of human limited-mentation-capacity in temporal apriorising/axiomatising/referencing—constitutedness mental-reflexes at presence reference-of-thought, and so reflected by the implied intemporal apriorising/axiomatising/referencing—conflatedness of phenomenological transcendence-and-sublimity/sublimation/supererogatory de-mentativity as of notional—deprocrypticism. We can appreciate the metaphysics-of-absence—implicated-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in a amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ to positivistic/rational-empiricism meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter’s prospective relative-ontological-completeness reference-of-thought. As such non-positivism/medievalism or animistic social-setup ‘will not be self-effacing as of its ontologically-flawed amplituding/formative—epistemicity totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold of non-positivism and the prospective institutionalisation of positivism’. This equally explains how our positivism—procrypticism mental-disposition is construed in deneuterising from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism perspective ‘as not self-effacing as

apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} as of notional–deprocrypticism
deneuterising\textsuperscript{16} insight. Central and critical to achieving such a deneuterising\textsuperscript{16} analysis in
grasping the full and complete possibilities of ontologically-veridical construal of human
meaningfulness-and-teleology\textsuperscript{10} given human temporal-to-intemporal mental-dispositions as
of prospective institutionalisation and uninstitutionalised-threshold\textsuperscript{10} is the notion of beyond-

nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{7} with respect to pertinently-perceived social-stake-contention-or-confliction contexts arises due to (beyond-the-consciousness-awareness-teleology\textsuperscript{10}<in-existential-extrication-as-of-existential-unthought>) constraint of human limited-mentation-capacity as of prospective human aporeticism such that this induces as of various existential-instantiations ‘ontologically-flawed meaningfulness-and-teleology\textsuperscript{10} ontological-performance\textsuperscript{2} <including-virtue-as-ontology>, subpar to ontologically-veridical meaningfulness-and-teleology\textsuperscript{10} ontological-performance\textsuperscript{2} <including-virtue-as-ontology> as fundamentally underscored by the prospective institutionalisation. Thus this determines a consequential ‘dynamic beyond-the-consciousness-awareness-teleology\textsuperscript{10}<in-existential-extrication-as-of-existential-unthought>’ limited-mentation-capacity constraint’ as reflected from a ‘notional-deprocripticism-referentialism-as-of-its-nonascriptivity backdrop-for-the-ontologically-veridical-construing’ of ‘temporal-to-intemporal individuations meaningfulness-and-teleology\textsuperscript{10} and actions of individuals and the collective-social as of their varying-existential-instantiations-mental-dispositions-ontological-performance\textsuperscript{2} <including-virtue-as-ontology> or their characterisations-as-of-varying-existential-instantiations’, as fundamentally underscored by the implied uninstitutionalised-threshold\textsuperscript{0} reference-of-thought, wherein such temporal thresholding neuterisation\textsuperscript{5} with regards to ontologically-veridical meaningfulness-and-teleology\textsuperscript{10} reflects Being-underdevelopment; and so from the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional-conflatedness\textsuperscript{1} of notional-deprocripticism deneuterising’—referentialism’ as of metaphysics-of-absence\textsuperscript{implicated-epistemic-veracity-of-nonpresencing}<perspective–ontological-normalcy/postconvergence> insight that ontology’s-directedness-as-Being lies with Base-institutionalisation institutionalisation over Recurrent-utter-uninstitutionalisation uninstitutionalisation\textsuperscript{4}<amplitudding/formative-epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3},

This operantly defines procrypticism–or–disjointedness-as-of- reference-of-thought as beyond just the construal of new supposedly intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prospective institutionalisation to preempt the temporally denaturing reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior institutionalisation, but rather the deneuterising construal of the very ‘limited-mentation-capacity as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as the beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> constraining dynamism’ behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place; conceptualised henceforth as the very reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of the notional–deprocrypticism registry-worldview/dimension institutionalisation as of its implied notional–deprocrypticism. Overall, the fact is that given that what is most relevant to the individual is the practicality as of their ‘rationalising threads of part-conviction-as-to-

The notion of beyond-the-consciousness-awareness-teleology\textsuperscript{104}–<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} is the effective and credible deneuterising\textsuperscript{6} enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any\textsuperscript{98}neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} individuation and temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} individuations of postlogism\textsuperscript{79}slantedness//ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of \textsuperscript{6}reference-of-thought\textsuperscript{8}devolving ontological-performance\textsuperscript{72}
<including-virtue-as-ontology>. Ultimately, the notion of beyond-the-consciousness-awareness-teleology\[^{10}\] in-existential-extrication-as-of-existential-unthought\[^{5}\] given its psychoanalytic-unshackling as of prospective deprocryticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought—categorical-imperatives/axioms/registry-teleology\[^{10}\] but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality

apriorising/axiomatising/referencing—conflatedness\[^{12}\] of Being as implied as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\[^{10}\] or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology\[^{10}\] mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind
organic-knowledge. Human temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’—<as-to ‘attendant-intradimensional’—prospectively-disontologising–preconverging/dementing —apriorising-psychologism>’ is in a state of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism / perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-apriorising-in-
conviction-as-to-profound-supererogation\textsuperscript{1} as ‘prelogic supplanting–conviction-as-to-profound-supererogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset\textsuperscript{4}/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments\textsuperscript{10} potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring transforming of the non-positivism/medievalism mindset/ reference-of-thought into a positivistic mindset/ reference-of-thought that is ontologically-speaking to be construed as the postconverging–de-mentating/structuring/paradigming resolution of the vices-and-impediments\textsuperscript{10} arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10} as of prospective notional–deprocrypticism worldview). We can appreciate such metaphysics-of-absence\textsuperscript{3} (implicated-epistemic-veracity-of–nonpresencing–perspective–ontological-normalcy/postconvergence>) insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced intemporality\textsuperscript{5}/longness behind the ‘inventing of the base-institutionalisation culturally
value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory—de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory—de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren’t naïve to imply that the ‘normal social temporal-to-intemporal mental-dispositions as of a wooden-language-⟨imbuéd—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩’ are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective ‘knowledge inventing’ was the institutional mental-disposition for engaging with the knowledge formally or as of secondnatured education practically available to everyone interested, and so while alienating and considering general social wooden-language-⟨imbuéd—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ as improper and unqualified. This was to avoid a circularity of undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. The point here is that at uninstitutionalised-threshold the idea of ‘equal opinionatedness’ doesn’t apply by the mere fact that knowledge of intrinsic-reality itself doesn’t arise by wooden-language-⟨imbuéd—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ but
rather ontological-pertinence, and the point in reflecting holographically-conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not <amplituding/formative> wooden-language:{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’—with-regards-to—prospective-apriorising-implications}, thus explaining deferential-formalisation-transference as of institutional percolation-chanelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalitative-framework—overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance—<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social universal-transparency—transparency-of-totalising-entailing.—to-entailing—amplituding/formative—
This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of ‘<amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness’ of reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency’-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~relative-ontological-completeness }’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness -as-to-totalitative-reification—in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective~(nonpresencing)>-as-veridical-epistemic-determinism’ associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of-meaningfulness-and-teleology as of various pertinent social manifestations: –wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-enabling/sublimating/supererogatory-de-mentativity in formal institutional percolation-channelling,<in-deferential-formalisation-transference>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; –wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling/sublimating/supererogatory-de-mentativity as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression; –the ontologically-flawed articulation of knowledge by an intellectual disposition akin to wooden-language—{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry—teleology }, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-

The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory-dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicus, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency —{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness }’. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in

that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo,
Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits
ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation
dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise
where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of
prospective relative-ontological-completeness of reference-of-thought is veridically in an
institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-
threshold as of prior relative-ontological-incompleteness of reference-of-thought, and not
such a flawed notion of dialogical-equivalence. We can appreciate even within a same
reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension
that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-
mechanics—axiomatic-constructs in ontological-contiguity\(^7\) and ‘traditional classical mechanics axiomatic-construct’ of notional-discontiguity/epistemic-discontiguity\(^6\)-<shallow-supererogation\(^9\)-of-mentally-aestheticised–preconverging/dementing\(^13\)-qualia-schema> but for the former’s enlightening the latter’s undefined-or-undecidable-threshold-of-ontological-veridicality. This insight reflects the reality of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^6\) associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^9\), wherein uninstitutionalised-threshold\(^10\) mental-reflexes of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in their incrementalism-in-relative-ontological-incompleteness\(^2\)—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^3\) tend to perpetuate the representation of prospective institutionalisation as nondescript/ignorable–void\(^9\) (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives) in an ontologically-flawed dereification\(^8\) gesturing of neuterisation\(^5\), rather than maximalising-recomposuring-for-relative-ontological-completeness\(^3\)—unenframed-conceptualisation as of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought implied as of prospective institutionalisation’s deneuterising\(^5\). Such a temporal/shortness-of-register-of–meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event–as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event–as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of–meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology–<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound

The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supereogatory-de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology/endpoint purposefulness’ and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology. It further implies a ‘the human toddling potential’ for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-
construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding
the underlying framework of meaningfulness-and-teleology associated with that
attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a
reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a
reference-of-thought like a social projection <amplituding/formative–
epistemicity> totalising–devolved–purview-as-domain-of-construal-as-intrinsic-
reality/ontological-veridicality or specifically with living-as-of-human-personality-developing.

For instance, with respect to coming across and living say in an early hunter-gather society with
its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-
apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care–and–
episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-
theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-
conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-
teleology <in-existential-extrication-as-of-existential-unthought> as when we publicly
pretend to act otherwise by subscribing to the interpretation within such a social-setup. As
construed within a given reference-of-thought, say in our positivism/rational-empiricism
reference-of-thought we can further have the conception of the physics or biology or law or
literature or even just entrepreneur or accountant or technician specific attitude/mental-
disposition/care–and–episteme, and further at the individual level as of changing
attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-
developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical
fundamentally because the notionally inherent human capacity for aetiologisation/ontological-
escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as
dispensing-with-immediacy-for-relative-ontological-completeness’ by-
reification and contemplative-distension (as of human self-surpassing—existentialism-form-factor, in-overcoming—'notionally—collateralising—beholdening—protohumanity—to—'attain—sublimating—humanity—as to—existence—potency —sublimating—nascence, disclosed from prospective—epistemic—digression to supersede human temporality/shortness <amplituding/formative> wooden-language—{imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—and—teleology—as—of—'nondescript/ignorable—void —with—regards—to—prospective—apriorising—implications}> <amplituding/formative> wooden-language—{imbued—averaging—of—thought—<as—to—leveling/ressentiment/closed—construct—of—meaningfulness—and—teleology—as—of—'nondescript/ignorable—void —with—regards—to—prospective—apriorising—implications}> to be able to achieve transcendence—and—sublimity/sublimation/supererogatory—de—mentativity', and so as of intemporality. With regards to living—as—of—human—personality—developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care—and—episteme that it has a poor dispensing—with—immediacy—for—relative—ontological—completeness —by—reification /contemplative-distension as of its more direct focus on instant—sensations—and—carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing—with—immediacy—for—relative—ontological—completeness —by—reification /contemplative-distension that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing—with—immediacy—for—relative—ontological—completeness —by—reification /contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work—and—pleasure, etc. Such living—development—as—to—personality—development as dispensing—with—immediacy—for—relative—ontological—completeness —by—reification /contemplative-distension is construed as the more profound attitude/mental-disposition/care—and—episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care—and—episteme of living. With regards to the second—level—of—social—aetiologisation/ontological—escalation associated with 'attitude/mental-disposition/care—and—episteme dispensing—with—immediacy—for—relative—

The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\(^{\text{by-reification}}\) as of the human-institutionalisation-process\(^{\text{by-reification}}\) as of difference-conflatedness\(^{\text{by-reification}}\)-as-to-totalitative-reification\(^{\text{by-reification}}\)-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>-\(^{\text{by-reification}}\)-as-veridical-epistemic-determinism\(^{\text{by-reification}}\)<amplituding/formative–epistemicity>causality-as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\(^{\text{by-reification}}\), with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{\text{by-reification}}\), beyond-the-consciousness-awareness-teleology\(^{\text{by-reification}}\)-<in-existential-extrication-as-of-existential-unthought>, implying specifically a nonextricatory-existential-preempting-of-existential-unthought attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness\(^{\text{by-reification}}\)/contemplative-distension\(^{\text{by-reification}}\)/contemplative-distension\(^{\text{by-reification}}\) reference-of-

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness\textsuperscript{88}—of-reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme\textsuperscript{5} contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness —of—reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–
developing, the child’s poorly developed attitude/mental-disposition/care–and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care–and–episteme in detachment from averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as of ‘nondescript/ignoreable–void ’-with-regards-to-prospective-apriorising-implications} as we know that, everything being equal legitimately, it is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-as-dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension attitude/mental-disposition/care–and–episteme whose workmanship is guaranteed to produce the best and safe outcome for electrical installations; and so dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension as of wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of- ‘nondescript/ignoreable–void ’-with-regards-to-prospective-apriorising-implications}> dispositions thus expanding human needs and desires possibilities. Likewise, the dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension ‘assumed-and-unflinching transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of a relative-ontologically-veridical attitude/mental-disposition/care–and–episteme as of its prospective relative-ontological-completeness-of-reference-of-thought over a relative-ontologically-flawed attitude/mental-disposition/care–and–episteme is implied for prospective reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, as of overall...
absolute reference of meaningfulness-and-teleology ‘with little sense of coherence as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-
development-as-infrastructure-of meaningfulness-and-teleology’, and thus the latter cannot
unlike the former be the framework for aetiologisation/ontological-escalation as of universal
implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as
intemporality/longness or eliciting of wooden-language ⟨imbued—
averaging-of-thought—<as-to-leveling/resentment/closed-construct-of— meaningfulness-and
teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-
implications⟩’. This notion of fulfilling a given prospective institutionalisation’s requisite
attitude/mental-disposition/care—and—episteme underlies the very idea of intellectual-and-
moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-
correspondence; as where one party does fulfils the attitude/mental-disposition/care—and—
episteme of a given institutionalisation’s reference-of-thought as of prospective relative-
ontological-completeness—of-axiomatic-construct-or—reference-of-thought and thus its
corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-
ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting
arise with the successive prospective institutionalisations in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process, wherein for instance the positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care—and—episteme of say a Galileo or Descartes is circularly beyond the
contention framework of scholasticism meaningfulness-and-teleology, speaking of the
impossibility of logical-congruence between the positivists and scholastics with only the utter
dominance of positivism arising as of its ontological-prime movers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society,
etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology\(^{10}\) while averting its denaturing \(^5\) by wrongly implying notional-contiguity/epistemic-contiguity\(^2\)-profound-supererogation\(^{17}\)-of-mentally-aestheticised-postconverging/dialectical-thinking-qualia-schema with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\(^1\)-shallow-supererogation\(^7\)-of-mentally-aestheticised-preconverging/dementing-qualia-schema given the latter’s flawed preconverging-de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness\(^9\)-reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating-supererogatory-de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing\(^{102}\) exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-prime movers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling wooden-language-imbedded-averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications}. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology\(^{14}\)-in-existential-extrication-as-of-existential-unthought\(^8\) denaturing\(^3\) of the requisite intellectualism required for further Being-development/ontological-framework-

and-teleology\textsuperscript{100}, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-

recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming to overlook them and imply intellectual-

bad-faith/inauthenticity\textsuperscript{4} practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing\textsuperscript{2} predisposition. This is critically the case with registry-worldview/dimension\textsuperscript{84} reference-of-
thought transcendence-and-sublimity/sublimation/supererogatory de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-
teology\textsuperscript{10}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} prior relative-ontological-

This brings home the reality that it is inevitable that all uninstitutionalised-threshold\textsuperscript{103} are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and—
apriorising/axiomatising/referencing” ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) scholasticism and positivism are rather in transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought>. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness
attitude/mental-disposition/care–and–episteme as of its social-stake-contention-or-conflict
while the very notion of perceiving highly the meaningfulness-and-teleology\textsuperscript{100} within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective nonpresencing-perspective–ontological-normalcy/postconvergence sublimity/sublimation/supererogatory–de-mentativity episteme transcendence-and-attitude/mental-disposition/care–and–reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfulness-and-teleology\textsuperscript{100} attitude/mental-disposition/care–and–episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflatedness of deprocrypticism–or–preempting–disjointedness-as-of-reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity\textsuperscript{4} as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold\textsuperscript{103} of the possibility of intellectually induced social universal-transparency\textsuperscript{104}–{transparency-of-totalising-entailing,-as-to-entailing–amplituding/formative–epistemicity} totalising–in-relative-ontological-completeness}; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology\textsuperscript{100}–in-existential-
extrication-as-of-existential-unthought> undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity\(^7\) of social <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>} and untransvaluated–temporal-intemporality\(^52\) social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity\(^4\) contentsions; by its deflating of the conception of ontologically-veridical ‘meaningfulness-and-teleology\(^100\) as of human mortals contentsions in transversality–of-affirmative-and-unaffective–disambiguated—‘motif-and-apriorising/axiomatising/referencing’\(^102\), wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework\(^73\), and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity\(^64\) as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology\(^100\)-<in-existential-extrication-as-of-existential-unthought>, the articulation of \(^56\)meaningfulness-and-teleology\(^100\) as of prospective maximalising-recomposuring-for-relative-ontological-completeness\(^88\)—unenframed-conceptualisation that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness\(^89\)—enframed-conceptualisation as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework\(^73\) strife to uphold-and-promote the ‘superior party’ which is the \(^61\)nonpresencing-<perspective–ontological-normalcy/postconvergence> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness\(^89\)—enframed-
conceptualisation accommodating framework for strategically cultivating pre-established temporal interest. Central to such "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its commitment to "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation that in many ways could just as well validate ⤵amplituding/formative→ wooden-language-{imbued—averaging-of-thought←as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} and untransvaluated–temporal-intemporality attitude/mental-disposition/care–and–episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a 'knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supererogatory~de-mentativity. This poor scepticism attitude/mental-disposition/care–and–episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has ⤵preconverging~‘motif-and-apriorising/axiomatising/referencing’—imbuing→-existentialising—enframing/imprintedness-{as-to— historicity-tracing—in-
presencing–hyperrealisation/hyperreal-transposition) implications as of the forestalling of prospective ‘concurrent ontological-primemovers-totalitative-framework’
upholding of the primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given transference behind the secondnaturing for prospective institutionalisation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness’ causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidious passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity
scepticism involves eliciting a sense of immediacy and temporality\(^7\)/shortness as of wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology -as-of-'nondescript/ignorable—void '}-with-regards-to-prospective-apriorising-implications}> and untransvaluated—temporal-intemporaity social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension, and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc pretences extolling social practices as of presencing—absolutising-identitive-constitutedness but of a poor conception outside the prospective relative-ontological-completeness behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, are but denaturing and down the line equally undermines prospective relative-ontological-completeness for the further emancipation of human social practices. Such prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transformation for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology100 is the reflection of a reality of human mental regeneration potential that speaks of the continuity of humankind as of the same relative-emancipatory potential as pertinently reflected with Being-development/ontological-framework-expansion—as-to-depth-of-
and-teleology, with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology itself losing out. These subterfuges are behind the awkward, unnatural and clobbered nature of human development for the past two centuries as civilisation is construed and developed in ‘an undertone reaction/anticipation of threat’ rather than natural as of human communion. Thus ‘subterfuges of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology arise as of the suboptimality of human intemporality/longness which suffers from human apprehensiveness of humans, thus undermining the notion of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming. This underlying human mental-disposition arises as of the successive human as trepidatious/warped/preclusive/occlusive-consciousness in neuterising; as such neuterising is the outcrop of human limited-mentation-capacity. speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is focused on the abstract reference-of-thought/epistemic-totalisation level of différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ for the effectively devolving différance/internal-dialectics/difference-deferral teleological process of meaningfulness; given that the abstract reference-of-thought/epistemic-totalisation level so-established rather enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’ construed from notional—deprocrypticism deneuterising, to fully reflect the ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-as-to-postconverging—or-dialectical-thinking—apriorising-psychologism> and unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging—or-dementing—apriorising-

Overall, the emphasis here is as of a Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology that is as of ‘various relative mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology—in-existent-extrication-as-of-existent-unthought’ as

Such that in the final analysis, there is an underlying tendency of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology that decomposes-as-of-conflatedness ‘human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology’—<in-existential-extrication-as-of-existential-unthought>’ induced neuterising into the underlying limited-mentation-capacity manifestation disambiguation basis for their ontologically-veridical construal’, and so-construed from a notional–deprocrypticism ontological-normalcy/postconvergence epistemic/notional–projective-perspective. This analysis conveys the reality of human crossgenerational institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules—apriorising/axiomatising/referencing–psychologism,-as-impulsive-or-accidented-or-random-mental-disposition’, and hence their construal of ‘meaningfulness-and-teleology106 as of ‘their relative 46 neuterising’. Likewise the ultimate possibility of human crossgenerational institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>} as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional–deprocrypticism/<amplituding/formative notional–preempting—disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human 56 meaningfulness-and-teleology106 construed as of ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>; as of the possibility of deneuterising106. In the bigger scheme of things, as of the notional–conflatedness of notional–deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of différance/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—as-

Such a ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence⁶⁵ as of the notional~conflatedness⁵⁶ of notional~deprocripticism différance/internal-dialectics/difference-deferral’, by its insight with respect to the implications of human limited-mentation-capacity for ontologically-veridical meaningfulness-and-teleology⁵⁶ construal, is best predisposed to grasp the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of nonpresencing<perspective–ontological-normalcy/postconvergence>⁸⁴reference-of-thought as this enables transcendence-and-sublimity/sublimation/supererogatory~de-mentativity, thus fulfilling the full implications of knowledge as of its ontologically-veridical knowledge-notionalisation and organic-knowledge nature. The further insight here is that, such a most ontologically-complete profoundness/depth of ‘phenomenological transcendental-point-of-departure handle in-its-overcoming-of-neuterisation\textsuperscript{89}’ reflected by metaphysics-of-absence–(implicated-epistemic-veracity-of- nonpresencing–<perspective–ontological-normalcy/postconvergence>) for the construal of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue points to a fundamental epistemic-break/epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to–‘human<amplituding/formative–epistemicity> totalising–purview-of-construal’’ as of the variance of uninstitutionalised-threshold\textsuperscript{03} prior relative-ontological-incompleteness\textsuperscript{69}–of–‘reference-of-thought and prospective institutionalisation relative-ontological-completeness\textsuperscript{69}–of–‘reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} necessarily explains the ‘mutually
transversality-of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’ unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism ‘meaningfulness-and-teleology’ and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency and (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness), an apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology’ with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to—‘human<amplituding/formative—epistemicity>totalising—purview-of-construal’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective
relative-ontological-completeness\textsuperscript{88} of\textsuperscript{84} reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity\textsuperscript{86} between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology\textsuperscript{100} with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’’ with respect to social universal-transparency\textsuperscript{104}<br/>(transparency-of-totalising-entailing,-as-to-entailing-

It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ across the entire social spectrum as of notional~episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-

being contested by a new shaman in a hunter-gatherer society’ with possible accusations of
witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods
of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for
what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic
knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human

become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as
safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-
directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-
threshold actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-
awareness-teleology undermining the prospective possibility of prospective enlightening human knowledge; and so, as increasingly
the prior epistemic disposition is one that overlooks prospective inherent transcendental-

disposition on the basis of the prospective relative-ontological-completeness of reference-
emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual totalising-formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatric-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimate/totaliative-de-mentativity ontological-primemovers-totalitative-framework construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human totalising-thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimate/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-<including-virtue-as-ontology>) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our
<amplituding/formative–epistemicity>totalising–self-referencing–
syncretising/circularity/interiorising/akrasiatic-drag
in existence/existential-possibilities as
‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging
and constructive approach for arriving at such a depth of radical ontology warranted by
existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory–de-mentativity for the social avoiding the platitudes of
our times such that many an intellectual have even given up to ‘this all-powerful emotional-
involvement element of the social’. Human
(I exist therefore existence is of
transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency
/hyperbole-of-temporal-to-intemporal-ontological-performance
<including-virtue-as-ontology>) implies the need for a sound perpetuating construct of
universal projection as intemporality–or-longness-of-register–of–meaningfulness-and-teleology
as the opportunity for prospective transcendental-enabling/sublimating/supererogatory–de-mentativity. Such a
construct is a ‘response construal’ that inherently enables transformative universal
implications as beyond presence issues and complexes as it sublimates presence out of its
failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in
presence as it is presence-serving and so whether as of positive or negative reaction; as even as
a positive act a reactionary construal is hardly of entailing–totalising–in-relative-ontological-completeness
thus hardly as of aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may
perfectly prevent a crime from happening and save the day but then such action is not
dependable and the outcomes are unreliable as well together with the possibility on occasion of
wrong judgement and/or wrong action or usurpation; thus the social construction of crime
prevention needs an intellectualised social ‘response construal’ mechanism of universal
implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory—dementativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive dementative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing—constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—dementativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance - <including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’ overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be
asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublation/supererogatory–de-mentativity as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigmging–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublation/supererogatory–de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human
epistemicity>totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory–de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further apriorising/axiomatising/referencing—conflatedness as of human maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,–as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, and so as of a retrospective to prospective insight. This notion of apriorising/axiomatising/referencing—conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in apriorising/axiomatising/referencing—constitutedness as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing apriorising/axiomatising/referencing—constitutedness. prospective relative-ontological-completeness of reference-of-thought. Such that it thus construes as absolutely reflecting existence/existential-possibilities by operations of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of that given determination reference-of-thought–categorical-imperatives/axioms/registry-teleology with the consequence that its apriorising/axiomatising/referencing—constitutedness, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of existence itself’ rather than taking its cue from the apriorising/axiomatising/referencing—conflicatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the apriorising/axiomatising/referencing—conflicatedness of existence as of prospective relative-ontological-completeness of reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity.

Thus the problem of the philosophical tradition is notionally one of erroneous apriorising/axiomatising/referencing—constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’–with-the-latter-only-a-bi-manifestation-of-the-recurrence,-as-psychically-recurrent as of human shallow-to-deepening–limited-mentation-capacity,–as-limited-mentation-capacity-deepening due to inherent human temporality /shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as ‘historiality/ontological-eventfulness/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–’epistemicity-relativism’> as of the
notional-conflictedness of notional-deprocriptism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus of existential-instantiations successions as it construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicated and implicated/intuited as of a living-being in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscore the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as
narrative possibilities of the human species as of human sublimation-inducing—
textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-
existence. Such ‘consciousness apriorising/axiomatising/referencing—conflatedness’ of
meaningfulness-and-teleology is reflected by the signifying mirroring of
meaningfulness-and-teleology that is language as of its metaphoricity. Metaphoricity
can thus be construed as the signification of articulated meaningfulness-and-teleology as of
reference to existential-instantiation contexts adjunctively and not as naturally devolving into
the ‘underlying totalising/circumscribing/delineating signifying-construct of language’ as signification of
meaningfulness-and-teleology that is language as of its metaphoricity. Metaphoricity is rather an ‘adjunctive incorporation’ to the ‘underlying
totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying
totalising/circumscribing/delineating signifying-construct of language’ as of its
self-referencing meaningfulness-and-teleology is always susceptible to the further
deepening of human limited-mentation-capacity as of

It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always signifying a reference-of-thought as of reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. Such centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ necessarily has to do with the fact that meaningfulness-and-teleology constructed as reference-of-thought, and its signification as implied by an underlying<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of coherent ontological-commitment as of ontological-prime movers-totalitative-framework<amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for intelligibility to arise, thus is construed as reference-of-thought as of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative–epistemicity>totalising—purview-of-construal’; as we know intuitively that meaning is always about the-one-meaning as well as a perspective/framing/reference/horizon were all the-one-meaning cohere/are-in-ontological-contiguity metaphoricity as of human limited-mentation-capacity-deepening adhocly produces by apriorising/axiomatising/referencing—conflatedness adjacent significations where these do not fit in with the ‘underlying<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ due to the
implications of human limited-mentation-capacity as of relative-ontological-incompleteness and reference-of-thought when conceptualising about such an ‘underlying signifying-construct of language’. But then an adjunctive-metaphoricity-signification so produced as reflected by ‘a transcendental syncretising-effecting meaningfulness-and-teleology’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater meaningfulness-and-teleology. Existence itself as the absolute a priori underscores such a conception given the human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\(^{(06)}\) as of existential-stakes migration; since the existential dispositions of human subjects relative to social-stake-contention-or-confliction arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-and-teleology\(^{(0)}\) as not self-referentially covered by the ‘underlying epistemicity-totalising/circumscribing/delineating signifying-construct of language’, they will

This explains the lockstep nature of human \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} and language, with the latter as the former’s signification mirroring, such that institutional-cumulation/institutional-recomposure\{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-\langle perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’\rangle\} is actually as of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} construed here as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness -as-to-totalitative-reification\textsuperscript{5} -in-singularisation-\langle as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{61} nonpresencing\textsuperscript{69} -as-veridical-epistemic-determinism\textsuperscript{21} \textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-totalitative–implications-of-prospective- ‘nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{67}’ différance’, with regards to ‘human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence\textsuperscript{96} as of existential-stakes migration’, and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-dialectic in existential-contextualising-contiguity\textsuperscript{19} /Derridean-différance/Sartrean-existence-precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening\textsuperscript{13}. Such adjunctive-metaphoricity\textsuperscript{17}-significations apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} \textless amplituding/formative–epistemicity\textgreater causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{67} mirror the syncretising-effecting as of
the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity -significations apriorising/axiomatising/referencing—confatedness induced ‘underlying \[\textit{<amplituding/formative–epistemicity>\textit{totalising/circumscribing/delineating signifying-construct of languages}}\]. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\textsuperscript{57} -significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying \[\textit{<amplituding/formative–epistemicity>\textit{totalising/circumscribing/delineating signifying-construct of language}}\] as of a peculiar, intuitive and dynamic developing metaphoricity\textsuperscript{57} where ‘both the child and members of the overall social-construct existentially adjust to each other as of spurious meaningful utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s adoption/integration at various stages of its existential development of the ‘underlying \[\textit{<amplituding/formative–epistemicity>\textit{totalising/circumscribing/delineating signifying-construct of language}}\] as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather ‘immensely existentially present’ with an ‘absolute language signification construct imagery
rather implied as of projection/anticipation but not phenomenologically real’ explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by ‘the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of “meaningfulness-and-teleology”!

Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <amplituding-formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> dynamics of individual and collective-social “meaningfulness-and-teleology”, and this equally explains why language evolves and transforms over time. In effect, ‘language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of
an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity
is thus rather construed as of its overall apriorising/axiomatising/referencing—conflatedness
of prospective-nonpresencing,-for-explicating-ontological-contiguity of full consciousness

figurative projected implications of individuals and the collective-social meaningfulness-and-
teleology as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojective/supererogating/zeroing rhetorical-stylistic-semantic delivery, and as such metaphoricity induces <amplituding/formative–epistemicity>totalising/circumscribing/delineating signification in producing, as of accreting-

<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-

above is equally reflected in human aesthetics/arts like music and even science. Ultimately,
human adjunctive-metaphoricity-significations apriorising/axiomatising/referencing—

converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-

The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay\(^2\) as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence ‘historiality/ontological-eventfulness\(^3\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms–as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’, and rather assuming the approach of a ‘select privileged historiality/ontological-eventfulness\(^3\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> ontological-construction’,
in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the

about the successive <amplituding/formative–epistemicity>totalising–self-referencing-

deeper-level phenomenological insight with regards to all the background efforts and

construed as the historiality/ontological-eventfulness /ontological-aesthetic-tracing-
<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of the
différance. The implication here resonates with the idea that knowledge is much more than the
construal of conceptual sublimation knowledge outcome, but rather its construal as
notional-knowledge involving the dynamic understanding of both its
temporality /misconstrual/sublimation and intemporality-as-ontological-construal as of
accreting-substitutive-subsumption-as-futural-différence-freeplay involving specifically
disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—
referentialism and thus beyond ‘neuterising’ reflecting the difference-in-nature/difference-in-
apriorising-or-axiomatising-or-referencing of the uninstitutionalised-threshold and the
prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology, as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically uninsightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in apriorising/axiomatising/referencing—constitutedness. Further such accreting-substitutive-subsumption-as-futural-différence-freeplay is the existentially veridical and effective basis for reflecting historiality/ontological-eventfulness/ontological-aesthetic-tracing-/perspective–ontological-normalcy/postconvergence-reflected–’epistemicity–relativism’> transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human
transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing—conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a meaningfulness-and-teleology facet it is then already compromising nonpresencing—or—withdrawal—or—metaphysics-of-absence—{implicitied-epistemic-veracity-of- nonpresencing—<perspective–ontological-normalcy/postconvergence>—or—transcendental-reasoning-of-event—as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay différance’ is fundamentally incomplete as of comparison with the implied apriorising/axiomatising/referencing—conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaninglessness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—<perspective–ontological-normalcy/postconvergence>—or—transcendental-reasoning-of-event—as-prospective-ontology-origination meaninglessness-and-teleology facet.
teleology of ‘the very same physics’ as of ‘traditional classical mechanics axiomatic-construct’ construed as ‘presencing—absolutising-identitive-constitutedness’ makes the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs construed as nonpresencing—perspective—ontological-normalcy/postconvergence to wrongly be of notional-contiguity/epistemic-contiguity—profound-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> with the ‘traditional classical mechanics axiomatic-construct’ presencing—absolutising-identitive-constitutedness. Consider in this regard that the ‘Derridean quasi-transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> between the two as of their distinct supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Whereas accreting-substitutive-subsumption-as-futural-différance-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics’ as of the theory-of-relativity-together-
with-quantum-mechanics—axiomatic-constructs interpretation as of nonpresencing-
<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean
quasi-transcendental-freeplay différance’ doesn’t have any serious ontological consequences
with respect to presencing—absolutising-identitive-constitutedness since it is reflected with
the Glas experimental project, but it fails to recognise the possibility of a futural différance
where meaningfulness-and-teleology is construed as of the prospective nonpresencing-

as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural
différance transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. It equally
explains such a Derridean conclusion that human sublimation is an always evasive notion given
its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising-or-

Insightfully, we can grasp that the Derridean freplay différance becomes as of apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freplay to supersede existence—\textit{as-the-absolute-a-priori-of-conceptualisation—and—existence—\textit{as-sublimating-withdrawal,-eliciting-of—}} prospective-supererogation\textsuperscript{97} -\textless \textit{as-to-perspective-ontological-normalcy/postconvergence-implied-\textquoteright prospective-aporeticism-overcoming/unovercoming}\textgreater . So because at the point of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—\textit{as-the—}

Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality~of-affirmative-and-unaffirmative–disambiguated-'motif-and-apriorising/axiomatising/referencing’\textsuperscript{10} depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. In this regard we can imagine as of ‘the very same physics \textsuperscript{45}amplituding/formative–epistemicity\textsuperscript{totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs \textsuperscript{55}maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness –of- reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards- singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>\textsuperscript{93}} developments in physics since then, even though its \textsuperscript{74}meaningfulness-and-teleology\textsuperscript{100} remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme\textsuperscript{7} from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension \textsuperscript{24}reference-of-
thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology\textsuperscript{100}–\textless in-existential-extrication-as-of-existential-unthought\textgreater . As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5} from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance \textless including-virtue-as-ontology\textgreater ; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–and–episteme of dual-language/split-mentality as of \textless amplituding/formative–epistemicity\textgreater totalising–thrownness-in-existence\textsuperscript{14} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{12}–\textless including-virtue-as-ontology\textgreater ). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\textsuperscript{th} century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\textsuperscript{th} and 19\textsuperscript{th} centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the
American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmice that in many ways we already carry inklings of postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory–de-mentativity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology[100]-<in-existential-extrication-as-of-existential-unthought>’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology[100] is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfulness-and-teleology[100]. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals
‘mental and existential investment’ into \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as grounded on a given ‘registry-worldview’s/dimension’s \textsuperscript{84}reference-of-thought \textsuperscript{41}amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{3}established existential–epistemic-totalisation-of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as well as the ‘psychological comfort’ habituated at the given \textsuperscript{58}neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism is exactly the capacity to construe \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} beyond-the-consciousness-awareness-teleology\textsuperscript{100}, <in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}arising as of human prior relative-ontological-incompleteness\textsuperscript{89}–of–reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} implication with respect to existence-potency\textsuperscript{15}–sublimating–nascence, disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing,<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency\textsuperscript{14}–sublimating–nascence, disclosed-from-prospective-epistemic-digression relative-ontological-completeness\textsuperscript{88} of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness\textsuperscript{88}–of-axiomatic-construct-or–reference-
of-thought causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing-for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional—deprocrypticism registry-worldviews/dimensions nonpresencing-perspective–ontological-normalcy/postconvergence respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care—and–episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism–procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness of reference-of-thought, our positivism–procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior nonpresencing-perspective–ontological-normalcy/postconvergence even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity <-shallow-supererogation-of-mentally-
even bother contemplating about by its incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as of existence’s presencing—absolutising-identitive-constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing insight translate the reality that ‘conventioning and tradition grounded critiques’ of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of ‘traditional classical mechanics axiomatic-construct’. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness—of-reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness—of-reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing exercise brought
about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—a\textit{xiomatic-constructs} ultimately validated as of ontological-primemovers-totalitative-framework\textsuperscript{73} by existence-potency\textsuperscript{38}—sublimating--nascence, disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening\textsuperscript{53} for human emancipation. Thus implying existence-potency \textsuperscript{38}—sublimating--nascence, disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{76} nonpresencing\textsuperscript{73} directed directly to inherent-existence-as-of-existential-reality/existence-potency\textsuperscript{38}—sublimating--nascence, disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{76} nonpresencing\textsuperscript{73} as of human limited-mentation-capacity-deepening\textsuperscript{53} bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{76} nonpresencing\textsuperscript{73} has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{76} nonpresencing\textsuperscript{73}’ of human limited-
mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology’ that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-as-to-the-nondisjointedness/entainment-of-prospective-nonpresencing that led to human limited-mentation-capacity-deepening. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology.

That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence⟨implicated—nondescript/ignorable—void—as-to presencing—absolutising-identitive—constitutedness ⟩illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing
ontologically-veridical ‘meaningfulness-and-teleology’. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human preconverging/postconverging–de-mentating/structuring/paradigming for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> limited-mentation-capacity-deepening to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance.<including-virtue-as-ontology>. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of it prior relative-ontological-incompleteness-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made
argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness\(^1\)-of reference-of-thought as of a shallower limited-mentation-capacity (as to ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’ \(<\text{including-virtue-as-ontology}>\) as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with \(^4\) historicity-tracing—presencing—hyperrealisation/hyperreal-transposition) and thus has to be decentered-as-preconverging-or-dementing\(^{19}\)—apriorising-psychologism. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness -of reference-of-thought which has to be prospectively centered-as-postconverging-or-dialectical-thinking\(^{20}\)—apriorising-psychologism over the modern take as prospectively decentered-as-preconverging-or-dementing\(^{19}\)—apriorising-psychologism, should be affirmatory in articulating that postmodern-thought is about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness\(^{38}\)-of reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\(<\text{as-to-the-nondisjointedness/entailment-of-prospective}<\text{-nonpresencing}>\)\(^3\) as of human-subpotency existential-contextualising-contiguity\(^3\) apriorising/axiomatising/referencing—conflicatedness’, and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of \(<\text{preconverging~motif-and-apriorising/axiomatising/referencing’~ imbuing}>\)-existentialising—enframing/imprintedness\(<\text{as-to historicity-tracing—in-
dialectical-thinking\textsuperscript{20}–apriorising-psychologism; as the point of assertion of postmodern-thought as \textsuperscript{17}deprocrypticism-or-preempting—disjointedness-as-of\textsuperscript{2}reference-of-thought is actually a point of prospective \textsuperscript{14}de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics). Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/‘constatations’ about the conception of social reality from their authentic analysis ‘without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations’ as many of their critiques poorly misinterpret them; with the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern\textsuperscript{17}deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constations’ as of human limited-mentation-capacity prospective relative-ontological-completeness of reference-of-thought \textsuperscript{4}<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity; wherein for instance, for the recurrent-utter-uninstitutionalisation\textsuperscript{7}reference-of-thought ill-health is as of an existential-contextualising-contiguity\textsuperscript{39}-lowest-level-reification\textsuperscript{67}perceptivity-as-of-bad-omen while for the positivism\textsuperscript{8}reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the
‘hitherto ontologically-flawed postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought

In both cases, the fundamental issue once universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-amp Budding/formative-epistemicity-totalising-in-relative-ontological-completeness avails as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness, as herein implied originally/as-of-event with the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought

Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the

The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective de-mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality\textsuperscript{52}, at the uninstitutionalised-threshold\textsuperscript{103}, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the lack of universal-transparency\textsuperscript{104}–\textless transparency-of-totalising-entailing,-as-to-entailing\textgreater \textless amplituding/formative–epistemicity\textgreater totalising–in-relative-ontological-completeness \textgreater for its prospective institutionalisation. Critical for the social validation and institutionalisation of any de-mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent
ontological-primemovers-totalitative-framework is not sufficiently decisive given that human
temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the
uninstitutionalised-threshold cannot adjudge-and-commit to the ontological-pertinence of
such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-
framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-
framework’ of the prospective positivism/rational-realism transcendental knowledge
articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfullness-and-
television of prospective relative-ontological-completeness of reference-of-thought
validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-
framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a
sufficient basis for their ideas to be socially adopted by the medieval establishment social-
stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-
positivism/medievalism. The point being made here is that within a given registry-
worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-
primemovers-totalitative-framework’ is only more or less determinant as of the
institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-

of the prospective institutionalisation’s <amplituding/formative–
epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving’, which should and cannot be ignored by any proponent of prospective dementative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived
overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such (re-originary-as-unenframed/unbeholdening/outlier-conceptualisation){imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) originary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating- ⟨<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-
framework over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-totalitative-framework’ postconverging–de-mentating/structuring/paradigming of reference-of-thought–categorical-imperatives/axioms.registry-teleology, -for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as of successive prospective relative-ontological-completeness–of–reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ and not just direct ‘concurrent ontological-primemovers-totalitative-framework’ implies that just as prospective de-mentative/structural/paradigmatic transcendental knowledge prospective ‘concurrent ontological-primemovers-totalitative-framework’ could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness–of–reference-of-thought given its prior lack of ‘detour to social
goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness $-of$-$of$-$of$ reference-of-thought supersedes the prior relative-ontological-incompleteness $-of$-$of$-$of$ reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance $<including-virtue-as-ontology>$ of any ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

Ultimately, a ‘new/prospective postmodern

apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument attitude/mental-disposition/care–and–episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness\(^3\)-of-reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern

The ‘postmodern deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective nonpresencing is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening. We can garner insight about how we tend to misconstrue any attitude/mental-disposition/care—and—episteme that is different from our own ‘present attitude/mental-disposition/care—and—episteme’, whether it is a ‘prior/old/superseded attitude/mental-disposition/care—and—episteme’ or a ‘prospective/new/superseding attitude/mental-disposition/care—and—episteme’. For instance, in the previous articulation of the existential-contextualising-contiguity lowest-level-reification perceptivity-as-of-bad-omen with ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care—and—episteme’ given its ‘non-rules—apriorising/axiomatising/referencing—psychologism,—as-impulsive-or-accidented-or-random-mental-disposition’, the reality is that our mental-devising-representation still remains in our ‘present positivism—procripticism attitude/mental-disposition/care—and—episteme’ as of its ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’, and only ‘adhocly—and-scantily identifies’ the ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care—and—episteme’ as it is
wholly immersed-and-engrossed in its ‘positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ for the construal of ‘meaningfulness-and-teleology’; which it ‘skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to– ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme is ‘relevant as the attitude/mental-disposition/care–and–episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care–and–episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care–and–episteme’ and then reflect the other attitude/mental-disposition/care–and–episteme referred to posteriorly, and hence the latter is adhocly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care–and–episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of- reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their
own present attitude/mental-disposition/care–and–episteme’ and respectively posteriorise the
other culture attitude/mental-disposition/care–and–episteme’ as of their respectively
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present
attitude/mental-disposition/care–and–episteme’s; and so, as the framework of any subsequent
cultural diffusion metaphoricity’. Thus to fully grasp what is implied here ontologically by
attitude/mental-disposition/care–and–episteme’, beyond the natural inclination, is to understand
that attitude/mental-disposition/care–and–episteme as ‘assumed-and-unflinching
transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-
apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-

‘prospective/new/superseding attitude/mental-disposition/care–and–episteme’, whilst the
‘present attitude/mental-disposition/care–and–episteme’ is then rather adhocly-and-scantily
identified now as either deneuterising if it in relation to the prior/old/superseded or
neuterising if it is in relation to the prospective/new/superseding. In other words, when it
comes to registry-worldview/dimension implications, ontologically-veridical representation of
attitude/mental-disposition/care–and–episteme means ‘to be or exist as of the given registry-
worldview/dimension 84 reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’
natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-
disposition/care–and–episteme’ unlike the ‘to be or exist as’ approach which is ontologically-
veridical but is not the natural inclination of representation as it overrides the ‘present
attitude/mental-disposition/care–and–episteme’. ‘Postmodern deprocrypticism—or–

development-as-infrastructure-of meaningfulness-and-teleology and is rather caught up, beyond-the-consciousness-awareness-teleology,<in-existentiel-extrication-as-of-existential- unthought>, in the reasoning-from-results/afterthought effect of the positivism/rational- empiricism institutionalisation outcome as of its transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness of reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of untransvaluated–temporal-intemporal untransvaluated–temporal-intemporal at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness of reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness of reference-of-thought, implying recognising its
uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/superego subordination-de-mentality, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human-amplituding/formative-epistemicity-totalising-purview-of-construal’, the ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstrumentalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness-of-reference-of-thought; and so beyond just ‘amplituding/formative-epistemicity-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care—and—episteme’ very much inclined to aberrational/oddities conception of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care—and—episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-

Such an orientation is no more different from an interpretation that every registry-worldview/dimension reference-of-thought is the absolute framework of meaninglessness-

It is this naivety that underlines the Heideggerian techne concern as we fail to appreciate that the technical and organisational possibilities preceding and associated with a registry-worldview/dimension prospective institutionalisation transitioning of meaningfulness-and-teleology\textsuperscript{100} need to be rethought as of the prospective institutionalisation attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}, and so superseding that of the uninstitutionalised-threshold\textsuperscript{3}. We can appreciate in this regard that budding-positivism/rational-empiricism and its associated liberality that was the backdrop for technical and organisation possibilities that actually required their interpretation in terms–as-of-axiomatic-construct of advancing human emancipation and bringing an end to serfdom in Europe for instance, but as of a perverted twist due to poor appreciation of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} led to the opportunistic undermining of human emancipation elsewhere not as of positivistic/rational-empiricism attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}, but retrograde non-positivism attitude/mental-disposition/care–and–episteme apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}–for-

But then with respect to the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the question arises as to how it is possible for human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to occur given its ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation⟨imbuined-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-confalatedness ‘of-notional–deprocrypticism-prospective-sublimation⟩ metaphoricity
given that no secondnatured institutionalisation grounding of meaningfulness-and-teleology exists for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The ontological-veracity of such an dimensionality-of-sublimating\langle supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transeptisticity/anamnestic-residuality/spirit-drivenness—equalisation\rangle individuation reasoning-through as of Derridian messianic reasoning can be grasp when we contemplate that in a secondnatured institutionalisation framework of deferential-formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don’t get involve in exercise to resolve the technical problem. This outlook is actually ‘seeded’ within dimensionality-of-sublimating\langle supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transeptisticity/anamnestic-residuality/spirit-drivenness—equalisation\rangle individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Thereof, what is critical for enabling human successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is ‘appropriate prospective institutionalisation secondnaturing metaphoricity’. Consider in this regard, that the instigative matusis universalis metaphoricity by the Galileos, Descartes, etc. of budding-positivism/rational-empiricism is de-mentatively/structurally/paradigmatically ‘not
a reasoning with non-positivism/medievalism’ but rather ‘reasoning-through or Derridian messianic reasoning’ over non-positivism/medievalism scholasticism’s pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as of its wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable-void-with-regards-to-prospective-apriorising-implications> reasoning-from-results/afterthought logocentric apriorising/axiomatising/referencing—constitutedness. Such altogether new metaphoricity as of its instigating ‘out of thin air’ the budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of ‘the very same physics totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing-perspective—ontological-normalcy/postconvergence>; as the very notion of ‘human-subpotency-as-human-knowledge grasp of the full-potency of existence’ given human limited-mentation-capacity implies that such a grasp only opens up a ‘limited framework of the full-potency of existence’ for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this ‘limited framework of the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought

Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied ‘meaningfulness-and-teleology’, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional—deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. In both cases, the
prospective institutionalisation attitude/mental-disposition/care–and–episteme is ontologically validated as of its prospective relative-ontological-completeness\(^\text{77}\) of reference-of-thought, divulging the vagueness and futility of the pretences and judgments of the destructuring-threshold-(uninstitutionalised-threshold\(^{10}\)/presublimating-desublimating-decisionality)-of-ontological-performance\(^{77}\)-<including-virtue-as-ontology>.

We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument metaphoricity for prospective institutionalisation as of prospective ontological-prime-movers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics’ totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{11}\) of ontological-performance\(^{77}\)-<including-virtue-as-ontology>. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology\(^{10}\), which in its prospective relative-ontological-completeness of reference-of-thought is ‘a dimensionality-of-sublimating’ (<amplituding/formative-epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’).

universalising-idealisation in then secondarily inducing their respective reproducibility—

many ways the naïve/flawed conception of Platonism and Cartesianism today arise as to a
reasoning as from reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-

fundamentally involved in an aporeticism overcoming/unovercoming exercise with respect to

These induced transcendence-and-sublimity/sublimation/supererogatory—de-mentativity later
on became prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-
of-aestheticisation as of their mere ‘atrophying mechanical practice’ with succeeding
generations, and so just as Nietzsche equally appreciated that Christianity was becoming a mere
‘atrophying mechanical practice’ of succeeding Christian generations as for instance with
ascetic practices becoming more of symbolism/aura and losing their inceptive emancipatory
inspiration. Thus with all these instances rather warranting renewed originariness-parrhesia,—
as–spontaneity-of-aestheticisation as to existence—as-sublimating-withdrawal,-eliciting-of-

will elicit a naïve turn to the pre-Socratics while Nietzsche will express admiration of

However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-

In this regards, we can appreciate that all human \textsuperscript{-meaningfulness-and-teleology\textsuperscript{100}} arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance\textsuperscript{72}<-including-virtue-as-ontology>\}. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of \textsuperscript{104}universalising-idealisation thinkers as of the relatively conducive
social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to the limit of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition, as re-producibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological-as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s-sublimating-nascence and the more salient

Transvaluation rather reflects human value-construct as derivational as from the very enabling

induced self-consciousness \textsuperscript{10}“meaningfulness-and-teleology”\textsuperscript{100} infrastructure’. It is thus not odd that as of human emotional-involvement implications, Socratic-philosophers \textsuperscript{10}universalising-idealisation and budding-positivists projected \textsuperscript{10}“meaningfulness-and-teleology”\textsuperscript{100} infrastructure rather met initially with the antipathy of their underpinning-suprasocial-construct and <amplituding/formative> wooden-language-\{imbued—averaging-of-thought-<as-to-

We can further appreciate the critical impact of the \textsuperscript{10}universalising-idealisation \textsuperscript{5}meaningfulness-and-teleology\textsuperscript{100} infrastructure of the Socratic-philosophers and their successors as providing the appropiate \textsuperscript{5}“meaningfulness-and-teleology”\textsuperscript{100} infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced \textsuperscript{5}“meaningfulness-and-teleology”\textsuperscript{100} infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism \textsuperscript{5}“meaningfulness-and-teleology”\textsuperscript{100} infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever
functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process⁶⁷ points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <amplituding-formative-epistemicity>causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity⁶⁷ comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the
prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive ‘presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating ‘historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normaleypostconvergence-reflected-‘epistemicity-relativism’ notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’
for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional-deprocrypticism or appropriate foregrounding—entailment—{postconverging—narrowing-down—sublimation-as-to—

The occlusivity of our positivism/rational-empiricism social–value-construction as such from the prospective perspective of deprocrypticism—or—preempting—disjointedness-as-of— reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable—void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern-thought. Such occlusive-collateral aspects take the form of
economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness\(^9\) as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments\(^{10}\) (as so-reflecting the grandest deeds of ontological-performance\(^{7}\)<including-virtue-as-ontology>/morality/ethics, etc. of any given registry-worldview’s/dimension’s with regards to its ‘destructuring-threshold\(^{3}\)<\uninstitutionalised-threshold \(</\)presublimating–desublimating–decisionality\>–of-ontological-performance\(^{7}\)<including-virtue-as-ontology> dynamics of notional–firstnaturesness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’\(^{1}\). But then while such an abstract transvaluation perspective for the construal of social–value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation inducing its deficient ontological-performance \(<including-virtue-as-ontology> thus explaining its given registry-worldview/dimension vices-and-impediments\(^{10}\). This however doesn’t imply the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency–sublimating–nascence–disclosed–from–prospective–epistemic–digression, so construed as ‘human-subpotency ontological-performance’–<including-virtue-as-ontology> within the full-potency-of-existence’s–sublimating–nascence–as–of–its–coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—{imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising–re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation}, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de-mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human <amplituding-formative–epistemicity>–totalising–thrownness–in–existence’ as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’–{imbued-and-

knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance–<including-virtue-as-ontology> reflected as of constructiveness-of-ontological-performance–<including-virtue-as-ontology> and destructuring-threshold–{uninstitutionalised-threshold /presublimating–desublimating-

In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human–<amplituding/formative–epistemicity>totalising–thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance–<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance–<including-virtue-as-ontology> and destructuring-threshold–{uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance–<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the
framework of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—and then ‘the individual dimensionality-of-sublimating’ (⟨amplituding/formative⟩ supererogatory—de-mentativeness/epistemic-growth-or-conflicatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> reflected in ⟨amplituding/formative–epistemicity⟩ totalisingly—preceding-and-redefining-existential-contextualising-contiguity implying upon human sovereignty and free-will’). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a <historiality/ontological-eventfulness>/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’> character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency ~sublimating~nascence,—disclosed-from—prospective-epistemic-digression as to existence—as-the-absolute-a-priori-of—conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>, and as these institutions and

primemovers-totalitative-framework. Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as $6 \text{ m/s}^2$ rather than the existence-potency manifestation of $9.8 \text{ m/s}^2$ and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’. The conception of human sovereignty and free-will so-implied as of ‘the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-paintelligibility’ imbibed-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing—human-subpotency-epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing–conceptualisation’ basically underlies all human knowledge-reification whether with regards to philosophy as first-level ontology pertaining to ‘overall existence phenomenal appraisal of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality—as-to–human-<amplituding/formative–epistemicity>totalising–purview-of-construal’ or with regards to second-level ontologies ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-confledatedness) appraisal of meaningfulness-and-teleology as of <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; differentiated by the fact that ‘overall existence

Insightfully, the very essence of ‘overall existence phenomenal appraisal of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness \textsuperscript{12}) appraisal of \textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100}’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification\textsuperscript{11}’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate
epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentation by themselves demonstrate profundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition—as-reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing—confiliatedness as of human revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-confiliatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemic-determinism
We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency—sublimating-nascence—disclosed-from-prospective-epistemic-digression to manifest itself in determining ontological-prime movers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism—overcoming/unovercoming’>. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being de-mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining
to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being demently/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’
and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness\(\langle\text{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence})\rangle\) <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\(\langle\text{in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process}>\); going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks
as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergingly–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public
gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening\(^3\) as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness\(\sim\) (sublimating-referencing/registering/decisioning, as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing, in-perspective–ontological-normaley/postconvergence)) as to human-and-social–expectations/anticipations—

apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional—projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in apriorising/axiomatising/referencing—constitutedness\(^{13}\) as of any given \(^9\) presencing—absolutising-identitive-constitutedness\(^{13}\) apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness\(^9\). This insight about human sovereignty and free-will effectively points to the ontological-flaw of \(^9\) presencing—absolutising-identitive-constitutedness\(^{11}\) conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness\(^9\)/relative-ontological-completeeness\(^8\) (sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating-(projective/reprojective—aestheticising-re-motif—

contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness’ is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically ‘is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework’. The reason why such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’...
functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all 'meaningfulness-and-tleology' (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of ‘relative-ontological-incompleteness/relative-ontological-completeness’

making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpation/arrogation implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring instrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring instrument-invalidating-measuring–<as-to-preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuring instrument-invalidating-measuring–<as-to-preconverging-or-dementing–apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-
implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity--<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-prime movers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-sub potency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity--<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a ‘presencing—absolutising-identitive-constitutedness’ false sense of logical-dueness as of ‘relative-ontological incompleteness/relative-ontological completeness’ (sublimating-referencing/registering/decisioning—as-self-becoming/self-conflatedness /formative–supererogating—(projective/reprojective—aestheticising-re-motif and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence)) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming–psychologism may seem to
arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such apriorising/axiomatising/referencing but is rather meted with relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing/>–apriorising-psychologism>. In fact, besides the more starkly demonstrable case with respect to say slavery this equally applies with less starkly obvious situations having to do with human social differentiation as well as any other situations requiring prospective knowledge-reification as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification; and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of
existential-reality in relative-ontological-completeness\textsuperscript{88}, but rather as of the relative-ontological-completeness\textsuperscript{87} perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendancy of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening\textsuperscript{15} possibilities of relative-ontological-completeness\textsuperscript{1} analysis over the absolutising of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity-<discretely-implied-

reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence-

(imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-

apriorising/re-axiomatising/re-referencing~conceptualisation), that is, as to ‘human-subpotency potential to epistemically converge to the full-potency of existence’; and this underlying structure of reflexivity is the very structure in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, however, the surreptitious and opportunistic temporal interpretations to exploit its positive consequences at one moment and to reject it the moment it prospectively challenges-us/puts-us-to-question as of prospective implications of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. The implication here is that all human knowledge is necessarily for-human-studies/for-human-constructs whether with regards to the social or the natural sciences; as to the fact that all such knowledge is ever only referenced/registered/decisioned in the human consciousness (individual consciousness and collective consciousness respectively as to direct knowledge and indirect knowledge as of deferential-formalisation-transference implications) and functions to broaden-the-latitude-of-human-collective-consciousness with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in existence. The very possibility for prospective human knowledge generation thus calls for human dimensionality-of-sublimating—{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-'notional~firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>—existentialism-form-factor, with such human dimensionality-of-

This underlying human knowledge-notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality’/shortness \text{wooden-language–}\{\text{imbued—averaging-of-thought–}<\text{as-to-\text{leveling/ressentiment/closed-construct-of–}\text{meaningfulness-and-teleology as-of-}\text{‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}>\}\text{is in want for secondnatured knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening} (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment’). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment’; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—
idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}>’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening’). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating–meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity-<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development–as-to-
personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ), de-
mentatively/structurally/paradigmatically marks all human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemictotalising—in-relative-ontological-completeness—or-understanding-of-ontological-primemovers-totalitative-framework—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentiarm-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity—<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations
as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition)’, and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ relevant to deprocrypticism—

Such social and institutional social-vestedness/normativity-<discretely-implied-functionalism> for instance like in many ways the practice in modern-day scholarship (especially when poorly constrained to existence-potency~sublimating–nascent,-disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance<including-virtue-as-ontology> in a renewing originariness-parrhesia,—as—spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening rather invokes prospective dimensionality-of-sublimating ⟨amplituding/formative>supererogatory−de-mentativeness/epistemic-growth-or-confoundedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩ for re-originariness/re-origination (and as ever always such destructuring-threshold⟨uninstitutionalised-threshold /presublimating−desublimating—decisionality⟩—of-ontological-performance<including-virtue-as-ontology> across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-cumulation/institutional-recomposure—(as—to historiality/ontological-
hyperrealisation/hyperreal-transposition (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) as to the relation with human lopsided material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in tandem with material/equipment/accoutrement sublimation. This is reflected with the increasing remoteness/alooeness and alienation of the generalised human subject from such material/equipment/accoutrement sublimation captured under abstract institutional frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of 844-presencing—absolutising-identitive-constitutedness-of–meaningfulness-and-teleology given 4-historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now de-mentatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional–projective-perspective of re-originariness/re-origination as implied with
prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to *presencing—absolutising-identitive-constitutedness* of—meaningfulness-and-teleology given historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification /contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human...
consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-originariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/acoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness of meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and-teleology—in-cumulation/recomposing is often articulated as resting on ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ presencing—absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness’ of apriorising/axiomatising/referencing—conceptualisation as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression), but rather tending to a construal as of ‘inherent prior aestheticisation—and—aestheticisation-towards-ontology as of human social-vestedness/normativity—<discretely-implied-functionalism>; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness manifestation of human presencing—absolutising-identitive-constitutedness /constitutedness (as to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition implications of human limited-mentation-capacity).

Desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition imbued psychological entrapment arises inherently because of the taxingness-of-originariness as to the fact that: what has gone before aesthetically

But then existence is not beholden to any such human reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation residuality that induces human decoherencing-structure—of-meaningfulness-and-teleology—for-institutionalisation stifling/stalling of the full possibility of prospective historiality/ontological-eventfulness/ontological-aesthetic-tracing.<perspective–ontological-normalcy/postconvergence-reflected-`epistemicity-relativism'>. Desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition aestheticisation—and—aestheticisation-towards-ontology decoherencing-structure—of-meaningfulness-and-teleology—for-institutionalisation (as construed from the prospective notional–deprocrypticism ontological-normalcy/postconvergence epistemic/notional–projective-perspective) can be reflected with respect to the very supposedly most enlightening-giving notion of philosophy as to its decoherencing-structure—of-meaningfulness-and-teleology—for-institutionalisation (as from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) from human philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition psychological entrapment that ultimately denatures the historicity/ontological-eventfulness/ontological-aesthetic-tracing.<perspective–ontological-normalcy/postconvergence-reflected-`epistemicity-relativism'> purity of the very notion of philosophy. This patent elucidation of the decoherencing-structure—of-meaningfulness-and-teleology—for-institutionalisation as to such a supposedly most abstract and enlightening-giving notion that is philosophy is a basic insight (as construed from the ontological-normalcy/postconvergence epistemic/notional–projective-perspective) of desublimating historicity-tracing—in-

Effectively, human decoherencing-structure—of-meaningfulness-and-teleology\(^{56}\)-for-institutionalisation arises as of ‘taxingness-of-originariness (what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation). The idea of superseding the human registry-worldview’s/dimension’s institutionalisation decoherencing-structure—of-meaningfulness-and-teleology\(^{56}\)-for-institutionalisation (as to ‘abstractly projected finality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{62}\)—of-the-human-institutionalisation-process’) for prospective sublimating \(^{46}\) historicity/ontological-eventfulness\(^{17}\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected- ‘epistemicity-relativism’>, patently makes obvious what the true implications of prospective \(^{17}\) deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought project with respect to its dispensing-with-immediacy-for-relative-ontological-completeness-byreification /contemplative-distension\(^{26}\) re-originariness/re-origination conceptualisation in relation to our present positivism–procripticism aestheticisation—and—aestheticisation-towards-ontology as \(^{56}\) meaningfulness-and-teleology\(^{100}\). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is fundamentally an issue of human psychological entrapment ‘defining naiveties and complexes’ as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its ‘notionally–collateralising-beholdening-protohumanity by sublimating-humanity existentialism-form-factor’). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening before any construable human panoramic-sublimating-criticality outcome of meaningfulness-and-teleology) has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation—and—aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance—including-virtue-as-ontology’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming–frames-as-from-living,-institutionalising,-and-Being-

{<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} explains a poor inclination-or-capacity to effectively interpret the projected meaningfulness-and-teleology of many a past thinker as to ‘presencing—absolutising-identitive-constitutedness institutional and social-vestedness/normativity—<discretely-implied-functionalism> <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatric-drag that naively think that being at the backend in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with overall existence beholden
frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency\textsuperscript{38}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification\textsuperscript{87} (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification\textsuperscript{87} (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification\textsuperscript{87} wherein for instance in the physics domain-of-study at the beginning of the 20\textsuperscript{th} century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency\textsuperscript{38}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{67}> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification\textsuperscript{87}

In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation\{as-to-underlying-ontological-commitment\} induced constraining knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications undermining human-subpotency totalisingly-disentailing—discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification\(^{7}\) as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{19}\) without the defining \'<amplituding-formative–epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity\(^{19}\) foregrounding—entailment\{postconverging–narrowing-down–sublimation-as-to–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting-‘immanent-ontological-contiguity ’;-as-operative-notional–deprocrypticism\> in elucidating ontological-contiguity \<-as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional~projective-perspective\> as to the lack or poor predicative-effectivity–sublimation\{as-to-underlying-ontological-commitment\} induced constraining knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications leading to a social-vestedness/normativity\<discretely-implied-functionalism\> reflex rather than ontological elucidation reflex. Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative-or-extermating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of ‘relative-ontological-incompleteness’/relative-ontological-completeness—(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating—(projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence)) as to human-and-social—expectations/anticipations—metaphoricity—as—rede-mentating/restructuring/reparadigming—psychologism is irrelevant is rather a nuancing error that fails to assess/evaluate that the more critical issue had to do with ‘the appropriate emancipating attitude/mental-disposition/care—and—episteme’ as effectively and paradoxically such a lack of nuancing can then lead to the interpretation that such historical failures should equally be the unavoidable expectation prospectively in analogous circumstances of socio-cultural disparity of societies, rather than interpreted to mean the prospective need for the requisite human knowledge-reifying and empowering reflexivity of appropriate human emancipating attitude/mental-disposition/care—and—episteme in the relationship between the state of relative-ontological-completeness and the state of relative-ontological-incompleteness. Such a wrong interpretation arises as to lack-of—

potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression. More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very notion of ‘positivistic science experimental framework historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’ was developed and enculturated/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative
consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification exercise that doesn’t factor in human limited-mentation-capacity-deepening as of relative-ontological-incompleteness to ‘relative-ontological-incompleteness’/relative-ontological-completeness

Ultimately, the notional–deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming dimensionality-of-desublimating-lack-of
(<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) effectively projects the possibility of boundless human aestheticisation–and–aestheticisation-towards-ontology well beyond our present contemplation of what is implied by ‘meaningfulness-and-teleology’, as in many ways the reality of our past and present aestheticisation–and–aestheticisation-towards-ontology as ‘meaningfulness-and-teleology’ has ‘paradoxically hugely been burdened with desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition induced preemptive anticipation/anxiety about the human’ rather than the summoning of the full possibilities of the human; as by a soothing mental-reflex just as with all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing—inhibited-mental-aestheticising as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of ‘bechancing-becoming—originariness/origination—as-to–historicality/ontological-eventfulness’/ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’–disinhibited-mental-aestheticising as of originariness-parrhesia,–as–spontaneity-of-aestheticisation’. Interestingly, in this regards in many ways the ontological-contiguity—of-the-human-institutionalisation-process possibility is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a psychological issue as of
desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition psychological entrapment implications that limit/stifle the human imaginary/ideality as to its dimensionality-of-sublimating \{amplituding/formative\} supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\} capacity ‘to project in disseminative—sublimating-selectivity-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’—over—desublimating-deselectivity-of-ontological-bad-faith/inauthenticity—preconverging—de-mentating/structuring/paradigming’ (as to the underlying human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance’—\{including-virtue-as-ontology\} equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity). It is important to grasp here that such a construal of deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought highlighting the prospective implications in reflecting holographically—\{conjugatively-and-transfusively\} the ontological-contiguity—of-the-human-institutionalisation-process as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-asperpanintelligibility—\{imbued-and—‘hermeneutically/reprojectively/supererogatingly/zeroingly—educing’—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising—re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation\} (as to underlying human construction-of-the-Self) is not ‘a metaphysical/ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any ‘metaphysical/ideological advocacy’, but rather just as modern-day science such a conception speaks to ‘the inherent ontological implications as to human knowledge—
and corresponding empowering reflexivity as to human-subpotency implied human potential’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidation, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a notional–deprocrypticism conceptualisation of ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ speaks in itself of the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentiative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor’ (as the underlying potentiative-paradox of human paradoxes). At the root of this undermining of prospective ‘requisite human dimensionality-of-sublimating’ ⟨amplituding/formative–supererogatory–de-mentativity/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ is the social dilution/enfeeblement of value-construction/value-aspiration as to their ‘ad-hoc and incoherent’ ⟨amplituding/formative–epistemicity⟩ totalising/circumscribing/delineating implications supposedly non-ontological as to non-metaphysical’ (with regards to conceptualising the social-construct prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity value-construction/value-aspiration), as associated particularly with ‘the specious usurpation of the overall social-construct’s intellectual–function/posture as to prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity-<discretely-implied-functionalism> constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of ‘de-mentative/structural/paradigmatic ⟨amplituding/formative–epistemicity⟩ totalising/circumscribing/delineating operant considerations for equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes’, as the often sparing instantiating existential frames of day-to-

Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual–function/posture itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing -of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-and-indirect-sponsorship-distortive-influence, blatant-intellectual-misanalyses-and-sophistry, public-influence-and-lobbying-overtaking-inherent-intellectual-veracity, politicised-institutional-stakes-overtaking-inherently-objective-social-knowledge-production-in-higher-academia, a-consciously-aware-intellectual–function/posture-impotence-that-cynically-construes-of-the-possibility-for-prospective-sublimating-social-knowledge-as-the-opportunity-for-its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and archiving, etc. These all contribute in making-more-and-more-of-an-empty-shell the supposed intellectual transparency and sovereign independence of the social-construct in modern-day democracies. This reflects the reality that the transcendental meaningfulness-and-teleology\(^{10}\) of prospective
base-institutionalisation, universalisation, positivism/rational-empiricism and
deprocrypticism—or—preempting—disjointedness-as-of-

Such an insight divulges the underlying de-mentative/structural/paradigmatic possibility that arise for sophistic/pedantic dispositions across all registry-worldviews/dimensions as to the prior ‘social-construct’ of human meaningfulness-and-teleology when not subjected to ‘prospective predicative-effectivity–sublimation\{as-to-underlying-ontological-commitment\} constraining that prospectively transforms human ontological-performance\{as-to-underlying-ontological-commitment\} capacity’. Critically, deprocrypticism—or-preempting—disjointedness-as-of-reference-of-thought as converging to the ‘supposed human-subpotency abstract self-determinative ontological-performance\{as-to-underlying-ontological-commitment\} capacity as to the full-potency of existence’ effectively implies the converging of prior ‘social-construct’ of human meaningfulness-and-teleology when not subjected to ‘prospective predicative-effectivity–sublimation\{as-to-underlying-ontological-commitment\} constraining that prospectively transforms human ontological-performance\{as-to-underlying-ontological-commitment\} capacity’. Critically,

This insight points to the fundamental deficiency of all frameworks supposedly involved in articulating human prospective transcendence-and-sublimating meaningfulness-and-teleology whereas there are as of presencing—absolutising-identitive-constitutedness prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis>; as to the fact that with regards to existence-potency sublimating nascence,—disclosed-from-prospective-epistemic-digression, the ‘supposed human-subpotency abstract self-determinative ontological-performance’-<including-virtue-as-ontology> capacity as to the full-potency of existence’ (as reflected by its given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation) is prospectively underdetermined for articulating prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology. (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} as critically enabling prospective sublimation. In effect, such a controversy of ontological-bad-faith/inauthenticity never arose (as explained by the prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment}’ induced by budding-positivists and associated with their persecution), and further because of the very high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment} associated with the physical sciences and as generally reflected by the social-stake-contention-or-confliction disinterested natured of ‘much of the basic/fundamental and natural sciences’. However, the case with psychological, social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment}’ with the result that such a ‘purist ontological and scientific framing of supposedly knowledge-reification issues as to prospective sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>’ is either indirectly or directly undermined with social-vestedness/normativity-<discretely-implied-functionalism> ideas which ‘de-mentatively/structurally/paradigmatically speak to an underlying disengagement with the deeper notion of veracity/truth supposedly projected as pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-contention-or-confliction relative privileging of human methodologising/mutualising/organising/institutionalising epistemic gadgetry’ (surreptitiously associated with <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology}) over existence-potency~sublimating–nascence,-disclosed-from-prospective-

This difference between a ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is critically reflected in the fact that the former orientation is priorly-and-ultimately concerned with existence’s "foregrounding—entailment-{postconverging–narrowing-down–sublimation-as-to- ‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in- reflecting-‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism} imbued sublimation whereas the latter is critically concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest existence’s "foregrounding—entailment-{postconverging–narrowing-down–sublimation-as-to- ‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in- reflecting-‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism}’; and so-peculiarly implied with the ‘importing/exporting of reductionisms’ (as to the fact that there is no physics reductionism of physics or say mathematics reductionism of mathematics or biology reductionism of biology as to being the real and natural orientation for the specific physics, mathematics and biology epistemic-conceptions of their respective epistemic-conceptions phenomenal/manifest–subpotencies-{in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence}) to explain human psychological and social phenomena that ‘end up implicitly denying the very obvious reality of the psychological and social subpotencies{in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence}’. In many ways taking such ontologically-flawed interpretations seriously induces human impotency and desublimation (as to the implicated
contention that the human ‘supposedly has no profound sublimating social and socio-
psychological phenomenal/manifest–subpotencies\{(in-transitive-conflatedness –reflexivity,-in-

phenomenal/manifest–subpotencies\{(in-transitive-conflatedness –reflexivity,-in-the-full-
potency-of-existence’s–sublimating–nascence)\} construed rather in reductionist terms of
biology/neurology or physicalism) as is often also associated with social-
vestedness/normativity–<discretely-implied-functionalism> disparity-of-conceptualisation–
<unforegrounding-disentailment,-failing-to-reflect–immanent-ontological-contiguity–’>; thus
‘actually denying the metaphysical nature and thus ontological nature of the sublimating social
and socio-psychological’ such that existence-potency\{~sublimating–nascence, disclosed-from-
prospective-epistemic-digression sublimation implications with regards to the social and socio-
psychological are hardly contemplated and recognised as so-projected herein as to the
ontological-contiguity\{—of-the-human-institutionalisation-process\}. But then such
reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a
gimmicky exploitation of the sublimation of the natural sciences as to their inherent
phenomenal/manifest–subpotencies\{(in-transitive-conflatedness –reflexivity,-in-the-full-
potency-of-existence’s–sublimating–nascence)\} to then ‘utilise the clout to falsely imply
substitutive/reductionist sublimation over the social and socio-psychological
phenomenal/manifest–subpotencies\{(in-transitive-conflatedness –reflexivity,-in-the-full-
potency-of-existence’s–sublimating–nascence)\} (as so-reflected with practices of science-
ideology associated with biological/neurological and evolutionary substitutive/reductionist
interpretations of the social and socio-psychological). But then the giveaway of such a flawed
conception of science/ontology lies in the fact that such approaches do not project any
‘<amplituding/formative–epistemicity> totalising/circumscribing/delineating necessitation
frame–of–ontological-contiguity ’ as all pretences of science/ontology must demonstrate and
aspire to (consider in this regards the \textit{amplituding/formative–epistemicity\textsubscript{totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{67}}\textsubscript{of physics, chemistry, biological, genetic theories as to the ontological-contiguity\textsuperscript{67}}} imbued \textsubscript{foregrounding–entailment\textsuperscript{postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’–in-reflecting–‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism}) of their respective inherent sublimating phenomenal/manifest–subpotencies\textsubscript{(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence) wherein for instance with the physics frame–of–ontological-contiguity\textsuperscript{67} successions of theories are developed aspiring cogently for ontological-contiguity\textsuperscript{67} of the whole physics epistemic-conception phenomenal/manifest–subpotency\textsubscript{(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence} as from say Galilean/Cartesian/Newtonian/Leibinizian physics to modern-day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity\textsuperscript{67}). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn’t epistemically be selective in totalisingly-disentailing—discretion/whim-of-thought (if truly of science/ontology as to \textit{amplituding/formative–epistemicity\textsubscript{totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity\textsuperscript{67}}\textsuperscript{but should rather go on to effectively explain away the entire social and socio-psychological phenomenal/manifest–subpotencies\textsubscript{(in-transitive-conflatedness –reflexivity,-in-the-full-potency-of-existence’s–sublimating–nascence} (as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of– meaningfulness-and-teleology\textsubscript{56}), and so comprehensively articulating human organisational and institutional driven/potent}

The reality of such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology [10]—<in—existential—extrication—as—of—existential—unthought>) work paradoxically only by impliciting the reality of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of the social and socio-psychological epistemic-conception phenomenal/manifest–subpotencies<(in–transitive–conflatedness –reflexivity,—in—the—full—potency–of—existence’s–sublimating–nascence) (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in totalisingly-disentailing—discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social
of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> as to failing ‘amplituding/formative-epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ (as implied as of the requisite ‘amplituding/formative-epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity’ foregrounding—entailment–(postconverging–narrowing-down–sublimation-as-to-’existence—as-sublimating-withdrawal,-eliciting-of-prospective-supерерogation ’-in-reflecting-‘immanent-ontological-contiguity ’;–as-operative-notional–deprocrypticism) in elucidating ontological-contiguity<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional–projective-perspective>'), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘amplituding/formative-epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in
vague disparateness-of-conceptualisation—unforegrounding-disentailment—failing-to-reflect—‘immanent-ontological-contiguity’ as to elaboration—as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity, and thus in many ways further undermine/distract-from the social ‘amplituding/formative–epistemicity totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ conception of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity–<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification’ privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their
‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-worldviews/dimensions in their ‘presencing—absolutising-identitive-constitutedness’ as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ failure to directly grasp their very own ‘amplituding/formative—epistemicity’totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag”, even as the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions ‘presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality~of-affirmative-and-unaffirmative—disambiguated~motif-and-apriorising/axiomatising/referencing’ of the ontological-performance ~<including-virtue-as-ontology> of human notional~firstnaturedness—temporal-to-intemporal-dispositions~<so-construed-as-from-perspective~ontological-normalcy/postconvergence> narratives”: and so as to human-subpotency ‘fatedness-of-sublimation-over-desublimation, to existence-potency ~sublimating~nascence,—disclosed-from-prospective-epistemic-digression (in reflecting holographically~<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process ), as from human-subpotency ontological-faith-notion-or-ontological-fideism—imbued—
latter insight is critical for all prospective human sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity-<discretely-implied-functionalism>’ effectively renders any prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as to the fact that even such advocates turn out to be incoherently muted-and-muddled with regards to such an argument about ‘a false sense of a categorically/absolutely sublimated social-construct ordinariness/commensicality and social-vestedness/normativity-<discretely-implied-functionalism>’, revealing their true motives rather as status quo preserving with regards to social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). The ‘purist science/ontology epistemic-conception of veracity/truth’ is ever always about the ‘prospective upholding of existence-potency-<sublimating–nascence,-disclosed-from-prospective-epistemic-digression and de-mentatively/structurally/paradigmatically so-explains the very possibility for human progress. In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. Such notions of veracity/truth without articulating existence-potency-<sublimating–nascence,-disclosed-from-prospective-epistemic-digression are vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’>, and worse still when accompanied by claims of humility as to inherent institutionalised prescience are more often than not mere manifestations of intellectual entitlement; (as to imply the society
is inherently beholden to the mere institutionalised imprimatur of intellection even as to when it projects intellectual desublimation associated with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation—(blurring/undermining-of-prospective-totalising-entailing—as-to-entailing—<amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness ) as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern-day intellection relevant prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as to existence-potency—sublimating—nascence—disclosed-from-prospective-epistemic-digression; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating—<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or—confledness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/sprit—drivenness—equalisation) ontological-good-faith/authenticity—postconverging—dementating/structuring/paradigming ) to sophistic/pedantic <amplituding/formative> wooden-language—(imbued—temporal—mere-form/virtualities/dereification /akraziatic—

Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within—or—without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden—the—latitude—of—human—collective—consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness—as-of-reference—of—thought respectively are intellectually—and—morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness—as-of-reference—of—thought value—construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation—
capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective) as to an epistemically-decadent wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology); and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness by-reification /contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively in many ways explaining the underlying implications of human registry-worldview’s/dimension’s institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the
knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency\textsuperscript{87}–sublimating–nascence, disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification\textsuperscript{87} exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification\textsuperscript{87} implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more th\textsuperscript{33}a <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33}. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity—\textsuperscript{<discretely-implied-functionalism>} epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology\textsuperscript{(0)} (as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology ). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency\textsuperscript{87}–sublimating–nascence, disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the
other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness\(^1\)) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively implied ontological-normalcy/postconvergence construed as of ‘maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation epistemic-projection perspective while ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ is reflected with regards to its prospectively implied epistemic-abnormalcy/preconvergence\(^10\) construed as of ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation epistemic-projection perspective. Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholding-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus speak to the fact that human prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implied limited-mentation-capacity-deepening\(^5\) (as to dispensing-with-immediacy-for-relative-ontological-completeness\(^9\)-by-reification\(^7\)/contemplative-distension \(^3\)) is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification\(^7\)/contemplative-distension\(^3\) imbued prospectively of both sublimating\(^4\) historiality/ontological-eventfulness /ontological-aesthetic-trace and desublimating ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’; as to prospective sublimating\(^4\) historiality/ontological-eventfulness /ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively
preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-

presencing–hyperrealisation/hyperreal-transposition as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-
mentation-capacity-deepening 4 (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness 2), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance 12-
<including-virtue-as-ontology> (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of 4 historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-

perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of 47 historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’.

Uncontemplative-distension is thus rather the recognition that human dispensing-with-
immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension 26 doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness 80 -by-reification 87 /contemplative-distension 6 rather reflects the epistemic
perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’; with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating \{(amplituding/formative)supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} as the inherent ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming effectively reflected as of notional~deprocrypticism. notional~deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance~including-virtue-as-ontology> as to sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing/ontological-normalcy/postconvergence-reflected-epistemicity-relativism as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ in presencing—absolutising-identitive-constitutedness. Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening—as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ underlying prospective human ontological-performance~including-virtue-as-ontology> with regards to human meaningfulness-and-teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-
deepening in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation{as-to-underlying-ontological-commitment} is strongly prone to desublimating historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening<-as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation{as-to-underlying-ontological-commitment} is rather relatively amenable to sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective—ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing—in-presencing—

We can appreciate in this regards that budding-positivists ‘meaningfulness-and-teleology however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-

But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold\rangle is a fertile spot for sophistic/pedantic practices whether as with the Ancient-sophists or medievalism-scholastics or today institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation\rangle blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing\rangle amplituding/formative–epistemicity\rangle totalising~in-relative-ontological-completeness \rangle. What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of presencing—absolutising-identitive-constitutedness\rangle amplituding/formative–epistemicity\rangle totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \rangle; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation\rangle as-to-underlying-ontological-commitment \rangle as critically enabling prospective sublimation’ so-implied as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression. The strategic problem faced by the Ancient-sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology \langle in-existential-extrication-as-of-existential-unthought\rangle) is how to exploit the fact that there is no ‘universalising-idealisation—apriorising/axiomatising/referencing—
psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation\{as-to-underlying-ontological-commitment \}’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation\{as-to-underlying-ontological-commitment \}’ to de-mentatively/structurally/paradigmatically undermine respectively the possibility for both Socratic-philosophers\textsuperscript{104} universalising-idealisation and positivism/rational-empiricism implied transcendence-and-sublimity/sublimation/supererogatory—de-mentativity\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} by eliciting presencing—absolutising-identitive-constitutedness\textsuperscript{13} sensibility/decorum as of non-universalising Ancient-sophistry and non-positivism medieval-scholasticism\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} respectively. Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of \textsuperscript{45} presencing—absolutising-identitive-constitutedness\\textsuperscript{13} amplituding/formative—epistemicity\textsuperscript{80} totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their \textsuperscript{90} presencing—absolutising-identitive-constitutedness\textsuperscript{13}
Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a \(^{13}\) presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification\(^{67}\). But then the Ancient-sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic \(^{10}\) presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency—sublimating–nascence, disclosed-from-prospective-epistemic-digression allowing for prospective Socratic-philosophers’ universalising-idealisation and budding-positivism as to their respectively induced ‘\(^{10}\) universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation’.

All the knowledge-reification that effectively can be is of existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation having to do with human limited-mentation-capacity-deepening as enabling human-subpotency epistemic-projection towards the full-potency of existence so-construed as intemporality, and not a presencing—absolutising-identitive-constitutedness human-subpotency epistemic-projection in <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatisk-drag so-construed as temporality. But then the inclination to assume an ontologically-flawed sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy is ever always associated across all registry-worldviews/dimensions with blurriness of meaningfulness-and-teleology as to meaningfulness-and-teleology rather unconstrained to predicative-effectivity—sublimation—{as-to-underlying-ontological-commitment } as to lack of ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation {as-to-underlying-ontological-commitment }’. This further points out that the successive registry-worldviews/dimensions ‘relative-ontological-completeness — apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment)’ are rather ‘existence sublimation imbued cut-off points of logical engagement as transversality~of-affirmative-and-unaffirmative—disambiguated—'motif-and-

This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrypticism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the
‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as so-induced by notional~asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnaturing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) which rather requires instigative notional~asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnaturing of positivism/rational-empiricism was the notional~asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-
ontological-completeness\textsuperscript{28} logical-basis/logic-\textless as-to—transversality-of-affirmative-and-unaffirmative—disambiguated—'motif-and-apriorising/axiomatising/referencing'\textsuperscript{102}> is in transversality—of-affirmative-and-unaffirmative—disambiguated—'motif-and-apriorising/axiomatising/referencing'\textsuperscript{102} with the relative-ontological-incompleteness\textsuperscript{29} logical-basis/logic-\textless as-to—transversality-of-affirmative-and-unaffirmative—disambiguated—'motif-and-apriorising/axiomatising/referencing'\textsuperscript{102}, it is only the sublimation as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\textsuperscript{77} that affirmatively upholds the relative-ontological-completeness\textsuperscript{28} over the relative-ontological-incompleteness\textsuperscript{29} (as to their supposedly coherent ontological-commitment\textsuperscript{50}). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity \textasciitilde postconverging—dementating/structuring/paradigming\textsuperscript{30} is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity \textasciitilde postconverging—dementating/structuring/paradigming\textsuperscript{30} existential-condescension—\textasciitilde of-apriorising/axiomatising/referencing—psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as to the positive-opportunism\textsuperscript{76} implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} of such ‘ontological-good-faith/authenticity \textasciitilde postconverging—dementating/structuring/paradigming\textsuperscript{30} existential-condescension—\textasciitilde of-apriorising/axiomatising/referencing—psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textasciitilde of—meaningfulness-and-teleology\textsuperscript{100}. In this respect with regards to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as of our positivism/rational-
empiricism registry-worldview/dimension we can appreciate for instance that in a professional–
client relationship like between a physician and a patient or a plumber and a customer, the two
parties do not normally engage one another in equivocating as of the ordinary
meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of
medical care meaningfulness-and-technology or plumbing technician technical
meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to
engage the professional at its more profound level of technical knowledge contemplation) with
the relation thus involving the requisite ‘ontological-good-faith/authenticity ~postconverging–
de-mentating/structuring/paradigming existential-condescension<of-

This poor appreciation arises for the simple reason that the uninstitutionalised-threshold\(^{03}\) speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity\(^{-<}\)shallow-supererogation\(^{1}\)–of-mentally-aestheticised–preconverging/dementing\(^{19}\)–qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness — apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment \(\langle\)\}’ imbued \(^{14}\) foregrounding—entailment-{postconverging–narrowing-down–sublimation-as-to-existence—as-sUBLimating-withdrawal,-eliciting-of-prospective-supererogation \(\langle\)reflecting-‘immanent-ontological-contiguity ‘;–as-operative-notional–deprocrypticism) that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity\(^{00}\)–postconverging–de-mentating/structuring/paradigming\(^{70}\) existential-condescension\(-<\)of-apriorising/axiomatising/referencing–psychologism>’ as to prospective living-development–as-to-personality-development and institutional-development–as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and\(^{10}\) universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning–suprasocial-construct or where construing

Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning–suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisation/subpotentiation of ontology as metaphysics-of-presence}; implicit descript/ignorable–void ’-as-to presencing—absolutising-identitive-constitutedness’; and it is here that the genuine social intellectual–function/posture comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance-<including-virtue-as-ontology> for the possibility for its prospective scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory–involuting-or-guilding-or-amplifying–scalarisation-<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>, and the genuine social intellectual–function/posture as such is not about a naivist social-vestedness/normativity-<discretely-implied-functionalism> as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology. intersolipsistic actions in society implicitly recognise this reality even as the overall
underpinning–suprasocial-construct tends to be abstractly preconvergingly–de-

personality-development and institutional-development–as-to-social-function-development) and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness, ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy

This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity-postconverging–de-mentating/structuring/paradigming existential-condescension-of-apriorising/axiomatising/referencing–psychologism’ with regards to the human species on Earth and strive to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn’t have a pretence to being of a ‘neutrally/objectively sound human ontological-performance-including-virtue-as-ontology’ state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given totalising–thrownness-in-existence’ but together with the extraterrestrials is rather de-mentatively/structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is prioritely of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere-formulaic methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite ‘owning-up’ as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in
upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to preconverging-or-dementing–apriorising-psychologism and not postconverging-or-dialectical-thinking–apriorising-psychologism). It is this pre-eminence of existential-discursivity—implicit-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating–<amplituding/formative–epistemicity>totalising~thrownness-in-existence implied existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming existential-condescension–of-apriorising/axiomatising/referencing–psychologism’ effectively underlies the ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’, as the preformulating/preframing/premeaningfulness–metaphoricity disposition—as-to-psyche-induced-psychologism-of-existential-stake from which human meaninglessness-and-teleology veridically arises. Thus existential-discursivity—implicit-sublimation-over-desublimation implies that the human is already ‘de-mentatively/structurally/paradigmatically intellectually-and-morally existentially engaged as to its limited-mentation-capacity’ without any ‘neutrally/objectively sound human ontological-performance–<including-virtue-as-ontology> state failing to factor in human specific

This insight puts into perspective our “presencing—absolutising-identitive-constitutedness” conception of intellectual-and-moral responsibility wherein supposedly failed/unsuccesful/ineffective initiatives undertaken as to relative-ontological-completeness (for instance with regards to some public engagement aspiratory dispositions of such intellectuals like Sartre, Foucault, etc. and in the scientific domain for instance controversies associated with Louis Pasteur breakthroughs in microbial science) seem to be wrongly analysed from the posture of a supposedly neutral/objective social-setup conception of intellectual-and-moral responsibility (that ducks/ignores such relative-ontological-completeness aetiology/ontological-escalation posturing) without factoring in that “the social-setup’s relative-ontological-incompleteness” specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given \(<\text{amplituding/formative–epistemicity}\text{totalising–thrownness-in-existence}\rangle\) is not of neutrally/objectively sound ontological-performance \(<\text{including-virtue-as-ontology}\rangle\); as to the fact that for instance the incidence of modern-day wars and their man-made catastrophies do not speak of neutral/objective individuals and social intellectual-and-moral responsibility as to their existence within the meaningful sovereign frameworks that de-mentatively/structurally/paradigmatically directly/indirectly validate such calamities. In other words, our intellectual-and-moral responsibility is already engaged as to our \(<\text{amplituding/formative–epistemicity}\text{totalising–thrownness-in-existence}\rangle\) and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating

In this regards, and in the bigger scheme of things existential-discursivity—implicit-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity’—postconverging—de-mentating/structuring/paradigming existential-condescension—<of-apriorising/axiomatising/referencing—psychologism>’ implies that as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation', the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrysticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance’—<including-virtue-as-ontology> state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given <amplituding/formative–epistemicity>totalising—thrownness-in-existence ’ with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocrysticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of dimensionality-of-sublimating } (supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). The insight here is that human state of prior relative-ontological-incompleteness de-mentatively/structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the originariness/origination

knowhow and natural science as to their immediately amenable positive-opportunism social
implications ultimately leading to subsequent human
methodologising/mutualising/organising/institutionalising sublimating overall
meaningfulness-and-teleology. But the overall postconverging–de-

coherent as to the discrepancy in the occurrence of specific sublimations and desublimations

regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation as-to-underlying-ontological-commitment’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like
Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology value-construct and shallow-supererogating methodologising/mutualising/organising/institutionalising <preconverging—’motif-and-apriorising/axiomatising/referencing’—imbuing>—existentialising—enframing/imprintedness—(as-to—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition), but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the secondnatured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possiblities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness—by-reification—/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the ‘historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition gimmickiness/desublimation relation with meaningfulness-and-teleology of our positivism—procrypticism, for instance as associated with an ‘underlying dumbing-down public intellection and media industry’; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound genuine social intellectual—function/posture as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination—(so-construed-as-to—}

is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing

Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive ready to forego veridical knowledge-reification for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual-function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). It is herein contended that just as the prior successive registry-worldviews/dimensions required their specific ‘relative-ontological-completeness’—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-as-to-underlying-ontological-commitment’ to usher in the possibility of their very own secondnatured institutionalisation unclouded knowledge-reification—gesturing, the ultimate possibility for our positivism—procrysticism overcoming its pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-blurring/undermining-of-prospective-totalising-entailing-as-to-entailing-

Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendance. This latter issue is the ultimate challenge to prospective notional–deprocrypticism institutionalisation ‘unenframed/unbeholdening/bechancing–supererogation’ \(\langle\text{reflecting-a-supererogatory–decisionality-of-socioinstitutional-conceptions-as-to–‘their-nascent-sublimations-dynamic-preempting-of-presublimatory-decisionality–numbing-traction-}\rangle\)
for prospective aestheticisation—and—aestheticisation-towards-ontology//meaningfulness-and-teleology; as of the paradox that a social-setup as to its totalising—thrownness-in-existence is so pragmatically self-focussed that its aestheticisation and hence aestheticisation-towards-ontology dynamic-potential as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation is narrowed/limited/constricted however its level of development (explaining the decisiveness/criticality of cultural diffusion imbued originariness-parrhesia,—as—spontaneity-of-aestheticisation in re-ontologisation accompanying human institutional-cumulation/institutional-recomposure-{as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—} as can be appreciated throughout human history). This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised posture; and this very much explains the double epistemic orientation to notional—deprocrypticism institutionalisation ‘unenframed/unbeholding/bechancing—supererogation parameterisation/reparameterisation—{reflecting-a—supererogatory—decisionality-of-socioinstitutional-conceptions—as—to—‘their-nascent—sublimations—dynamic—preempting-of-presublimatory—decisionality—numbing—traction—desublimation’—as-so—operationalising—‘scalarisation—as—to—rescalarisation—as—re—ontologisation’ for prospective aestheticisation—and—aestheticisation-towards-ontology//meaningfulness-and-teleology as highlighted above (as to the need to feed our

The underlying insight here is that ‘the human apriorising/axiomatising/referencing process of amplituding/formative—epistemicity>totalising/circumscribing/delineating conceptualisation’ is effectively a ‘formative thrownness in existence imbued projective-arbitrariness/waywardness’ as of manifestly induced sublimation or desublimation with regards to the aestheticisation—and—aestheticisation-towards-ontology of cultivated/beholdening-construct-of—meaningfulness-and-teleology\(^{(10)}\),-ultimately-construed-as-habit/practice/belief/culture’. existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation” manifested at various stages across all human societies/cultures and diffusible likewise across all human societies/cultures with the implications that such ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ more fundamentally speak to ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’ (with such a truer ontological-veracity rather much more profound than the ‘merely-beholdening–aestheticising-reflex of meaningfulness-and-teleology’ of various societies/cultures and as of such ontologically-flawed representation across various human historial epochs). In this respect the ontological-veracity of human institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩} (as of the accruing effectively-manifest-sublimation/sublime from stone-age to bronze-age to iron-age involving the formation of agrarian societies and cities and subsequent development of universalising societies and today’s positivising modern world) rather more aptly speaks of ‘overall human momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime attainment’; with the profound idea that the more momentous grasp of the notion of say the civilisations of Ancient Zimbabwe, Ancient Egypt, Ancient Greece, Ancient China, Ancient India or Ancient Aztec, etc. are rather as of a more profound point-of-departure as from a ‘human psychological-disposition for supererogatory–unbeholdening-conflatedness’ divulging the underlying dynamism of human ‘de-mentative/structural/paradigmatic momentous-unbeholdening–aestheticising-reflex effectively-manifest-sublimation/sublime as to

The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of meaningfulness-and-teleology, a ‘human psychological-disposition for supererogatory—unbeholdening-conflatedness’ historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism> of sublimating intelligibility’ implies that the othernesses of human civilisations/cultures/societies carry a more profound ‘de-mentative/structural/paradigmatic momentous-unbeholdening—aestheticising-reflex effectively-manifest-sublimation/sublime as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. This overall insight is particularly salient in the sense that the ‘human psychological-disposition for relic/artifactual–beholdening-constitutedness’ historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition of presublimating

In other words, existentialising–decisionality and sublimating–nascence perspectively-reflect respectively ‘notional–\textsuperscript{90}presencing—absolutising-identitive–constitutedness\textsuperscript{13} and notional–\textsuperscript{104}nonpresencing—transversal continuum’, as to ‘thresholding conception of the relationship between perspective decisionality/human-decisionality–{as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation} and perspective sublimation/desublimation in existence’. Insightfully, such a perspective distinction between existentialising–decisionality and sublimating–nascence points out that there is ‘epistemical-reflexive psychological reorientation of human relation with meaningfulness-and-teleology\textsuperscript{100} as to the contrast between ‘blurriness’ in existentialising–decisionality’ and ‘universal-transparency\textsuperscript{10}⟨transparency-of-totalising-entailing,—as-to-entailing⟩<amplituding/formative–

That is, the individual and social existentialising–decisionality is more readily defined by default in ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and this is effectively the default individual and social existentialising–decisionality psychological-disposition as to upholding/defending sovereignty, but then given human limited-mentation-capacity the individual and social are then secondarily predisposed to deferential-formalisation-transference existentialising–decisionality psychological-disposition as to the positive-opportunism consequences of deferring to ‘universal-transparency’-⟨transparency-of-totalising-entailing,-as-to-entailing-

more profound notion of a positivistic registry-worldview/dimension (as to social-and-
institutional-frameworks-of—referencing/registering/decisioning of positivistic

more problematically conceptualisable and mostly arises as of crossgenerational
appreciation/grasp (given the non-positivistic presencing—absolutising-identitive-

sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising–

supererogation\(^97\). Critically the ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ associated with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness\(^11\)–\(^4\) reference-of-thought-devolving> is necessarily of totalising-entailing as to the immediate-potency of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^97\) thus relatively undermining such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing associated with social-and-institutional-frameworks-of—referencing/registering/decisioning as of ‘blurriness’ in existencialising–decisionality’ (that is, where the latter does not extensively intrude into the former as for instance in determining-and-demarcating the framework of natural sciences research). Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness’, wherein blurriness’ is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\(^87\) rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification\(^12\)–gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflecting across the successive registry-worldviews/dimensions given human notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology\(^100\)----in-existential-extrication-as-of-existential-unthought>). Thus such an aporeticism overcoming/unovercoming necessarily imply the integration of the analysis of pedantising/muddling/formulaic-hollowing-out—in-
subontologisation/subpotentiation-\{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-\}^{45}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\} \text{ as part and parcel of prospective knowledge-reification as to knowledge-notionalisation, and especially as so-manifested increasingly with ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge frameworks’ that on the baiting of imprimatur then switch on to propound ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge constructs out-of and implicitly obviating the veracity of the universal-transparency of knowledge-reification and so as to self-serving social-vestedness/normativity-\langle\text{discretely-implied-functionalism}\rangle) and this must effectively be contested. Such lousiness and as broadly reflected in poor media editorialising in many ways increasingly turns media accessibility into intellectual pre-eminence as ‘intellection is no longer about depth of contemplation and knowledge-reification for sublimation but rather about gimmicky-and-flashy threads of mere communication performance’ with many such interlocutors openly admitting-and-manifesting their critical lack of relevant intellectual thematic competence as popularity then supposedly becomes the driving force of thought; the fact though remains (however the seemingly trivialising concern about such media driven pop-intellectualism as rather unimportant in some milieus of more profound intellectual contemplation) that unfortunately in many ways directly or indirectly (as to the social-and-institutional-frameworks-of—referencing/registering/decisioning susceptibility to ‘blurriness in existentialising–decisionality’ and as encouraged by dominance/vested-interest actors) such pop-intellectualism end up being elevated as the summum of intellection in the social while overlooking the requisite depth of sublimating universal-transparency-\langle\text{transparency-of-totalising-entailing,-as-to-entailing-}\rangle^{104}\langle\text{amplituding/formative–epistemicity}\rangle\text{totalising–in-relative-ontological-completeness}\} of knowledge-reification\}^{105}\)
relative-ontological-completeness of critical importance for effective social-and-institutional-frameworks-of—referencing/registering/decisioning sublimating—existentialising—decisionality (and as the ‘mediatic framework of access and communication of sublimating thought’ is rather turned around into ‘a framework that supposedly inherently create sublimating thought by mere access and communication’ especially as to naive social feel-good banalities as supposedly sublimation actually of desublimating <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>-existentialising—enframing/imprintedness> (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) as of vague impression-driven/good-naturedness/wishfulness ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’). But then the idea of knowledge driven as of totalising-entailing as so-demonstrable with say the momentous development of quantum physics with the physics totalising-entailing implications of argumentations of sublimating—existentialising—decisionality at critical moments moving from one physicist to the other as of ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ (whether Bohr, Einstein, Dirac, Schrodinger, etc.) without any extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge notion like reputation having any incidence (as in epistemic re-originariness/re-origination projective/reprojective cross-subjection of knowledge-reification to existence—as-sublimating-withdrawal,-eliciting-of-prospective-suprerogation as herein underlied with notional–self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> implied formativeness-<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of—meaningfulness-and-teleology in nonpresencing-<perspective—ontological-normalcy/postconvergence> epistemic-projection, and so similar to a Derridean ‘heterogeneous genesis’ epistemic conception), speaks to a more profound lack of constraining aporeticism overcoming/unovercoming as to institutional convenience that fails to articulate such a
‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ and thus renders in relative terms the social domain more intellectually impotent in inducing a similar level of sublimating-existentialising-decisionality as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as is relatively the case in the natural sciences (and so notwithstanding the relative blurriness of the social which can effectively be brought to exactifying/precisioning—of-sublimation—<as-to-entailing-theoretical,—conceptual—<and-operant-implications> as to the requisite self-criticality overcoming as well as emotional-involvement overcoming rather than assuming a relatively false social and institutional pre-eminence driven relation to knowledge); with the further implication of such ‘totalising-entailing pertinence of thought upheld/elevated above anyone person’ being that the ‘knowledge-reification’ process becomes highly impersonal and complementary in a natural way’ without the artifice of ‘politically-driven accommodation of ideas not necessarily as of the pre-eminence of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’. In this regards, it is contended that the argumentation articulated herein are strictly striving towards aetiolgisation/ontological-escalation in reflection of ‘abstract human intemporal individuative ontological-performane (as to the backdrop of the notionalisation/notional-conception/amplituding of knowledge in reflection of human notional-firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>) while striving for totalising-entailing pertinence of thought’ and so projecting beyond any implications of personalising/particularising import but rather turning towards ‘ontological elucidation import as it then reifyingly-and-empoweringly enables human sublimation as to prospective operationalising construals’ and so-reflected in the idea that the fundamental stakes of prospective knowledge-reification is about prospective social-stake-contention-or-confliction and not prior social-stake-contention-or-confliction (as for instance prospective positivistic
meaningfulness-and-teleology is not developed to go about articulating/relating to as to the prior social-stake-contention-or-confliction of non-positivistic meaningfulness-and-teleology, and so by the mere implications of dimensionality-of-sublimating – (amplituding/formative > supererogatory–demmentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) (even as such prospective meaningfulness-and-teleology tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of – (amplituding/formative > supererogatory–demmentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) by the prior presencing—absolutising-identitive-constitutedness < preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness > {as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition}). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance—<including-virtue-as-ontology>) is inevitably infused with social-and-institutional-frameworks—of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their presencing—absolutising-identitive-constitutedness < preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness > {as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition} conception of the ‘overall possibility of human existentialising–decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then
desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising–decisionality of prospective knowledge-reification\(^7\), and this reality given human notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation\(^7\)—to—profound-supererogation\(^7\) conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification\(^8\). In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification\(^7\)’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness\(^7\) at previous moments), and so as to shallow-supererogation\(^7\) desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation \(^7\) motive of human sublimation beyond/and-not-subjected-to the <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness-\(^\rangle\) of any shallow-supererogation\(^7\) social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation\(^7\) may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism\(^6\)’ required for human self-surpassing–existentialism-form-factor,-in-
‘the legislation for human prospective sublimation’ (as to sublimating–existentialising–decisionality) lies with the firstnatured intemporal individuation relation to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\) and the positive-opportunism\(^6\) arising thereof (as of a minimum) for human secondnaturing institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaus, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology implications) and in that regards the triteness of human pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in incrementalism-in-relative-ontological-incompleteness\(^9\)—enframed-conceptualisation and <amplituding/formative> wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>) patently doesn’t count (given the latter associated temporal desublimating–existentialising–decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating–nascence engages human ontological-commitment\(^6\) as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity\(^9\)–postconverging–de-mentating/structuring/paradigming\(^7\)–as-being-as-of-
existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment\cite{1214}). The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation vague proceduralism (beyond-the-consciousness-awareness-teleology\cite{1214}-<in-existential-extrication-as-of-existential-unthought> ) as to the simple fact that human prospective destructuring-threshold-{uninstitutionalised-threshold\cite{1214}/presublimating-desublimating-decisionality}-of-ontological-performance\cite{1214}-<including-virtue-as-ontology> means that human meaningfulness-and-teleology\cite{1214} is ever always caught up prospectively between intellectualism sublimating—existentialising—decisionality and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation
desublimating—existentialising—decisionality. This is the case given the requisite condition for the very basic human sublimating—existentialising—decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\cite{1214}-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> (reflecting the ever always present challenge for intellectualism over pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation); so-underscored by the ever always present challenge for human dimensionality-of-sublimating\cite{1214}<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> as to requisite epistemic-conflatedness\cite{1214} implied projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing induced ‘projective-insights for predicative-insight’. (with regards to living-development–as-to-personality-development and institutional-development–as-to-social-function-development) wherein for instance the notion of say genius is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given sublimating elucidation’ so-enabled as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’). But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct meaningfulness-and-teleology as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence, with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness —enframing/imprintedness—historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence of the social-construct meaningfulness-and-teleology that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation)’ as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating—<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation)’ and is of no inherent prospective issue in that respect. Critically, in many ways the ‘projection that the social is necessarily/solely a framework of knowledge as to knowledge-driven existentialising–decisionality’ is ontologically flawed given human notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> to arrive at desublimating–existentialising–decisionality/sublimating–existentialising–decisionality overlooking organic-knowledge implications (whether by ‘temporal beholding as sovereignising–imbued-subontologisation/subpotentiation’ implied ‘pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’ or ‘intemporal unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ implied ‘as to the very inherent knowledge-reification’—gesturing as determining sublimating–existentialising–decisionality’). This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—preconverging—dementating/structuring/paradigmimg as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profundness seedingly/inceptively lies with the individual and not knowledge,
well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation). In many ways the above elucidation of the ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality proned to presencing—absolutising-identitive-constitutedness <preconverging—’motif-and-apriorising/axiomatising/referencing’–imbuing—existentialising—enframing/imprintedness—(as-to- Historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) needs to be critically brought to the consciousness-awareness-teleology of the ‘genuinely aspiring student of society and human-and-social-constructs’ (given a social-domain relatively undermined by ‘temporal beholding as sovereignising—imbued-subontologisation/subpotentiation implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification ’), and so as the requisite aporeticism overcoming/unovercoming ‘for effectively conceptualising anything near a veridical ontology of the social’ along the same lines in the natural sciences (with ‘the very inherent knowledge-reification’—gesturing as determining sublimating–existentialising–decisionality’). regards that ‘knowledge-reification–gesturing historiality/ontological-

conception of ontology and science (as to human dimensionality-of-sublimating
(conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

of human limited-mentation-capacity-deepening}). This elucidation is important in the sense
that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of
reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation
that poorly appreciates the profound-supererogation in the ‘invention/creation’ of true science
and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation’ in a soulless ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification ’, with this shallow-supererogation explaining naivist interpretations of the Newtons, Galileos, Pasteurs, etc. in their very formation and development of what we now call science; and in many ways this pedantic science-ideology construal of knowledge as of presencing—absolutising-identitive-constitutedness conception in desublimating–referenced/registered/decisioned self-presence/self-constitutedness-<in-perspective–epistemic-abnormalcy/preconvergence > (without or poorly appreciating the profound-supererogation involved in true science and ontology as to ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating–(projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence)’ leads to dominance/vested-interest prodded social-stake-contention-or-confliction determination of knowledge as of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition with the accompanying social disenfranchisement/swindling/corruption/dispossession. Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern-day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of genuine knowledge, in ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to

It is herein contended that in many ways as to human ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigm\(^9\), it is technically impossible to strategise against ontology (given existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^7\) -<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’>), as to the fact that ontology is absolutely bound to its course come-what-may ‘with such contrivances rather notionally integrated as herein into ontological-veracity as part-and-parcel of ontological-elucidation’ that allows no room for any pedantic ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ and not even when it elicits <amplituding/formative> wooden-language\(\langle\)imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology\(\rangle\) as of shortsighted social power play. Such ‘fraudulent conception of knowledge’ thrive not only as to punctual thematic issues like climate change science and disenfranchisement/swindling/corruption/dispossession implications but even worst carry ideological dehumanising implications as to covertly/implicitly putting in question the humanity of other peoples/nations/cultures/races. It is herein contended that any pretense of a conception of humanity along those lines is nothing but mirrored-fascism as to the mere-token that all the human others are capable of ‘sublimating–referencing/registering/decisioning self-becoming/self-conflatedness /formative–supererogating–(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence)’ (as to inherent cultural growth and cultural diffusion capacity) thus rendering any lousy exclusionary conception of humanity along the lines of Western, non-Western, Oriental, Chinese, Arab,

This flawed conception of the genuine social intellectual–function/posture is supposedly justified across human history on the basis of the hazardousness or superficiality of intellectual ideas (and this is the case in all
societies even in many a premodern society when the traditional order of the day is put in question with cultural diffusion as to when for instance witchdoctors carry covert misinformation campaign against the perceived threat of modern medicine) while paradoxically ignoring the hazardouness of such desublimating–existentialising–decisionality apparently implying ontological-veracity can be achieved without any relative-ontological-completeness basis for such supposedly ontological insight so-critically provided by the veridical genuine social intellectual–function/posture. ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification\(^7\))’. The fact remains that the genuine social intellectual–function/posture (even as to when it is undermined with punctual pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimatingly pandering to the powers of the day) remains the only human conduit to sublimating ontological-veracity that cannot be substituted but rather supererogated as to undermining such pedantic \(^5\) ‘incrementalism-in-relative-ontological-incompleteness\(^6\)—enframed-conceptualisation, with the issue of manifest intellectual ineptness/incapacity not a de-mentative/structural/paradigmatic issue of technical or scientific incompetence can be transformed into a de-mentative/structural/paradigmatic issue of technical or scientific irrelevance but rather requisite profound-supererogation\(^7\) over say pseudoscience and/or ‘distorted institutional science’ (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification’ tends to be notionally/epistemically caught up between a desublimation/gimmickiness and sublimation preconverging/postconverging–de-mentating/structuring/paradigming’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.); and in many ways dominion/statal–logic\(^{-}\{\text{preconverging/shallow-supererogating-‘human-and-social–expectations/anticipations—de-mentating/structuring/paradigming–psychologism’-as-to-its-specific–collateralising-beholdening-‘whether–trepidatious-or-warped-or-preclusive-or-occlusive’}\}–and–its-
pursuit of such vague argumentations for subverting the genuine social intellectual–function/posture is rather all about the ruthless adoption of a perambulatory course for institutional and political ascendancy rather than a question of genuine preoccupation as to the requisite dispensing-with-immediacy-for-relative-ontological-completeness–by-reification /contemplative-distension associated with veridically profound genuine social intellectual–function/posture and its sublimating implications of ‘intemporal unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality)’. In our modern-day context, the very essential ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ of the modern democratic process is now paradoxically surreptitiously re-construed as the very cornerstone for dominion/statal–logic–preconverging/shallow-supererogating–human-and-social–expectations/anticipations—dementating/structuring/paradigming–psychologism—as-to-its-specific–collateralising–beholdening–<whether–trepidatious-or-warped-or-preclusive-or-occlusive>–and–its–consociated-dominance/vested-interest-subontologising-skewed-influence-as-to-social–vestedness/normativity–<discretely-implied-functionalism> subverting the sublimating–existentialising–decisionality of the genuine social intellectual–function/posture; and so as to the fact that the democratic process ‘public-sovereignty–giving function/posture as associated with the centrality of elections, voting and party politics’ is incomplete without an adequate-and-healthy enlightening public-debate with such enlightening encumbering upon a genuine social intellectual–function/posture. In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very
issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>-existentialising—enframing/imprintedness–⟨as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition⟩ socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). This can starkly be appreciated in the instance of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology wherein for instance the notion of God-of-plane in an animistic social-setup speaks of a fundamental redefining/restructuring/reparadigmig notion-self-distantiation-as-to-distance-of-contemplative-existentialising-frame as to transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing as to the fact that the positivistic/rational-empiricist meaningfulness-and-teleology is of utter disposedness-as-to-orientation/value-construct/valuation-and-derived-parameterising and entailment-as-to-totalising-contiguous/coherent-factuality-of-variability’ break/impasse (with the animistic meta-conceptualisation scheme of meaningfulness-and-teleology as to its prospective uninstitutionalised-threshold) for inducing the appropriate perspective ontological-normalcy/postconvergence (to enable the eventual epistemicity growth/conflatedness of the animistic social-setup into a positivistic/rational-empiricist conceptivity/epistemic-reflexivity); and this is effectively the critical posture of the genuine social intellectual–function/posture as to its prospective registry-worldview/dimension opening-up function as to perspective ontological-normalcy/postconvergence not constrained to the immediacy/punctual human social-stake-contention-or-confliction presencing—absolutising-identitive-constitutedness <preconverging-motif-and-apriorising/axiomatising/referencing—imbuing—existentialising—enframing/imprintedness-as-to-historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> for the possibility of re-ontologisation/omnipotentiality (and it is such a conceptivity/epistemic-reflexivity underlied by

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations<-blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness<-in-perspective–epistemie-abnormalcy/preconvergence> of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality prone to "presencing—absolutising-identitive-constitutedness"ootnote{presencing—absolutising-identitive-constitutedness}. metaphoricity\(^{57}\)—as-rede-mentating/restructuring/reparadigming–psychologism\(^{90}\) is the most critical supereveratory-acuity/perspicacity/astuteness/edginess/incisiveness notion for prospective human sublimation-over-desublimation. Critically, supereveration\(^{97}\) as to undergirding notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> imbued psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring self-becoming/self-conflatedness /formative–supereverating–(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing.—in-perspective–ontological-normalcy/postconvergence) speaks to
the more fundamental element of human-subpotency that is ‘human effecting’ (notionally construed as from perspective ontological-normalcy/postconvergence epistemic-projection), as herein notionally reflected ‘as to apriorising/axiomatising/referencing—constitutedness (effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) and apriorising/axiomatising/referencing—conflatedness (effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology)’. The undergirding notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> derivation involved in supererogation can be appreciated from a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity insight, wherein for instance individuals notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) say in a non-positivistic like an animistic social-setup notionally implies a <supererogatory-human-subpotency>—effecting ‘psychosomatic reactivity as to the animistic apriorising/axiomatising/referencing—relation-to-the-world conceptivity/epistemic-reflexivity’ (which will define such an animistic social-setup conception of ‘psychological placeboic-palliation practice associated with its warped-consciousness occultisms mental-aestheticisation—architectonically-consigning—aestheticised-perceptibility-and-disposition apriorising/axiomatising/referencing—relation-to-the-world’ along the same lines of our modern-day ‘positivistic psychological science’ which it is herein contended as well is rather of a ‘psychological placeboic-palliation practice as of an occlusive-consciousness which by its mental-aestheticisation—architectonically-consigning—aestheticised-perceptibility-and-disposition apriorising/axiomatising/referencing—relation-to-the-world occludes its fundamental de-mentative/structural/paradigmatic social-construct deficiencies that can be reflected upon as of prospective notional-self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as from prospective

Such a conception of <supererogatory–human-subpotency>–effecting is critically relevant in appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a modern-day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a practice of public interestedness/profundity mediocrity and public
awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern-day training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional~self-distantiative contemplative technicity/profundity that inherent existence sublimating–nascence warrants to make available appropriately sublimating <supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification /contemplative-distension of the individual as to their ‘appropriate notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for
comprehensible public ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ -by-reification/contemplative-distension’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign-function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory-human-subpotency>—effecting imbued epistemic-totalising preformulating/preframing/premeaningfulness of notional-originariness-parrhesia,—as—spontaneity-of-aestheticisation’ before the incipience of metaphoricity and then ‘meaningfulness-and-teleology’ as to existentialising-frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ (noting here that what is key here is ‘the existence constrained educed sublimating’ however the technicity/profundity whereas an attitude of
normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educated sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of–social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification/conceptual-distension’ implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbibing human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity/postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification/conceptual-distension’ that are closely attached-and-driven directly or indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-thought content mustn’t necessarily generate less public interest but should primarily be motivated with inherent knowledge-reification sublimating–existentialising–decisionality
implications). It is herein contended however counterintuitive that the idea of understanding 100% of knowledge content at one go (as commonly assumed and cultivated with such content driven by public ratings and/or sales/merchandising as to excessive simplification, distortion, superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very much detrimental for a profoundly engaging and sublimating practice of public exposition to knowledge as so-inducing the degradation/banalisation of content in order to supposedly capture the most number of people at one go, and so it is herein argued very much contrary to the natural human potential for profound knowledge assimilation which is rather of hermeneutic/reprojective/supererogating/zeroing potential. A lot of true learning, understanding and engagement (beyond attention-grabbing and simplification convenience) comes and expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same and similar content for eliciting an active thought/contemplative engagement that is sufficiently challenging to people's true intellectual growth possibility as to creatively eliciting and developing true contemplative interest and not just passivity (however the habituation of a plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can succumb to but which is as of their self-reflection actually subpotentiating with regards to the ‘broad existential panoply of human epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ necessary for prospective ontologisation/re-ontologisation as to epistemic-totalising’-resubjecting of existential-contextualising-contiguity’-in-reification’). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ to the education of children and young people can be
particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology’ due to the overly denatured and insufficiently challenging–and–independence-eliciting existentialising–frame of meaningfulness-and-teleology (as to veridical hermeneutic/reprojective/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective epistemic-totalising–resubjecting of existential-contextualising-contiguity–in-reification of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation and so rather than ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology with a poor sense of the prospective existential-contextualising-contiguity–in-reification of knowledge content as to epistemic-totalising–resubjecting). Where the cultivated ‘passive integration of schema of thinking/contemplation and engagement’ is rather as of ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology’ over eliciting an active thought/contemplative engagement that is sufficiently challenging to the true human intellectual growth potential (as to veridical hermeneutic/reprojective/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective existential-contextualising-contiguity–in-reification of knowledge content as to epistemic-totalising–resubjecting) enabling
is inescapable for achieving sublimating–nascence whether as more readily appreciated with nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> existentialising–decisionality (as no normalised/stereotyped/selfhelping/feel-good knowledge is hardly of any help to the technician/practitioner/scientist in the face of constraining existential implications) or with the relative blurriness of social-and-institutional-frameworks—referencing/registering/decisioning existentialising–decisionality, and critically in many ways the cultivation of shallow technicity/profundity (as to poor ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification;/contemplative-distension’ requiring appropriate notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>) in public spaces is not detached from ‘public interestedness/profundity mediocrity’ and ‘public awareness/accounting/decisioning mediocrity’. But then technicity/profundity as to the public discourse is all about cultivating the possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign engagement with public decision-making policies and technicalities’; and in this regards it is herein contended that unlike it can naively be construed about human capacity for understanding, a lot of ‘human understanding is actually passive exposition to understanding of appropriately articulated/formulated knowledge-reification’—so-underlying <supererogatory—human-subpotency—effecting as to the formative-and-enabling formulative backdrop for sovereignly appraising ‘meaningfulness-and-teleology’ technicity/profundity’ whether with regards to public education or even childhood-development education and/or formative institutional/professional education, as to the fact that formulative understanding (as of <supererogatory—human-subpotency—effecting) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in
dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising—decisionality implications even if complete understanding as of complete meaningfulness-and-teleology’ technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in public spaces by such a direct or deferential capacity for notional~self-distantiation<-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> to cultivate ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ over a facility/convenience mental-reflex). In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social
intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-in-deferential-formalisation-transference enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming –as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation–imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing’). The sovereign–function/posture ontologising-aptness warrants that it doesn’t fall prey to falsehoods of ‘contrastive equivalence’ implied as of distinctive-alignment-to–reference-of-thought–of-apriorising/axiomatising/referencing manifested with ontologically-flawed process/processive bothsidesism formulations and recipes along the lines of decades-long politically manipulative narratives like deficits, public spending, social engineering, socialism, tribalism, fairness, libertarian, middle-of-the-ground, identity politics, etc.), and further requires that effective public and institutional intellectual contestation of aptitudinal-substantive-pertinence are not be subverted by monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness. Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/conceptual-distension’ (that ultimately undermines technicity/profundity which is inescapable for achieving sublimating–nascence whether as more readily appreciated
with nascent-particular/incipient-and-material/technical-sublimations-<blinded-to-their-relative-ontological-completeness reference-of-thought devolving> existentialising-decisionality or with the relative blurriness of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising-decisionality); and so to fundamentally bring to the consciousness-awareness-teleology that ‘sovereignty doesn’t equate with technicity/profundity’ (even as in reality it is herein contended this disconnect in the appraisal of the veridical relationship between sovereignty and technicity/profundity is mostly enabled with social-and-media induced numbing-traction—of—desublimating—meaningfulness-and-teleology  wherein ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology undermines the individual’s and social ‘conscious-and-active epistemic-totalising re-procession of the existentialising–frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology while overemphasising rather a ‘subconscious-and-passive epistemic-totalising re-automatism relation with the existentialising–frame re-apriorising/re-axiomatising/re-referencing of meaningfulness-and-teleology as elicited with pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with the consequent contemplative disorientation, estrangement and lip-servicing/trivialising-relation to veridical social-stake-contention-or-confliction existentialising–decisionality evaluation-and-coherence’). This eventually means that the genuine social intellectual–function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant
implications) should be able to saliently articulate/impress-upon the ‘overall social intellec-
tion-aptitude body’ (within the framework of a natural and truly original, autonomous and non-
contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of
veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to
social dynamics of percolation-channelling->in-deferential-formalisation-transference> (rather
than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely
scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to
mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-
hollowing-out—in-subontologisation/subpotentiation in a ‘framework of preconvergingly–de-
dementated/structured/paradigmed institutional and media contrivance’ and so-inducing

vestedness/normativity->discretely-implied-functionalism> rendering the ‘overall social
intellecction-aptitude body’ relatively irrelevant towards upholding the sovereign–
function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its
relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social
intellecction-aptitude body’ assessment capacity is fundamentally undermined as to
monopolising/quasi-monopolising/networking existentialising–frame of public and institutional

and relevant narratives as to technicity/profundity (such that in effect through the decades such

preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social

In many ways, the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence, ‘human meaningfulness-and-teleology is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflatedness/postconverging as to existential-contextualising-contiguity—in-reification knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening (thus implying human meaningfulness-and-teleology profoundness/ontologising-depth is of notional–nondisjointedness/contiguity/coherence as of <amplituding/formative>disposedness {as-to-orientation/value-construct/valuation–and–derived-parameterising} and <amplituding/formative>entailment {as-to-totalising-contiguous/coherent–factuality-of-

reference-of-thought-<of-apriorising/axiomatising/referencing>29 and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-

reference-of-thought-<of-apriorising/axiomatising/referencing>29 issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-
sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{17}<-as-to-perspective-ontological-normalcy/postconvergence-implied-’prospective-aporeticism-overcoming/unovercoming’> makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness<-as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>-of–’meaningfulness-and-teleology\textsuperscript{100} reflective of nonpresencing<-perspective–ontological-normalcy/postconvergence> epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity\textsuperscript{24} in existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaicity as to mere-formulaic–methodologising/mutualising/organising/institutionalising’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a
posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/unreflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation\textsuperscript{10} notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging–'motif-and-apriorising/axiomatising/referencing'–imbuing>-existentialising—enframing/imprintedness- (as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the very same social themes are recurrently and superficially raised as to a numbing-traction—of-desublimating–meaningfulness-and-teleology\textsuperscript{10}—(as-to- perspective-lost-of–supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness-as-to-

Disontologisation as to social-stake-contention-or-confliction as reflected above is so-critically at the very core of ‘human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality’ intellectual theorising as to a human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising–decisionality characterised by blurriness allowing for the relative pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation preconvergently–de-mentated/structured/paradigmed undermining of prospective genuine social intellectual–function/posture as to its projected re-ontologisation/omnipotentiality drive; as so-critically reflected with a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that in many ways openly-assert having nothing to do with present human and social aporeticism overcoming/unovercoming or superficially gloss over such human and social aporeticism overcoming/unovercoming in a confusion between advocacy/ministration/sermonising and intellection going on to trivialise and undermine the profound enlightening implications of true
intellection (as to a fundamental dearth of knowledge-reification)17 gesturing however crude as knowledge becomes an issue of ‘personalised and free-floating mentioning’ incapable of true objectifying knowledge-reification17 gesturing as to ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ enabling the conceptualisation of momentous46 historiality/ontological-eventfulness7/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>, and further contriving to undermine anti-intellectually (as to confusion between intellectual engagement and bland media-driven influence) a genuine social intellectual–function/posture projective resolutioning of such prospective human and social aporeticism overcoming/unovercoming as so-fraudulently directed against the prospective sublimating–existentialising–decisionality of many a postmodern thought and other critical thinkers. Such a disontologising pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation is one that ‘increasingly runs away from and thrive outside the very central notion defining intellectualism’ (herein implied as ‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’) as to its dereification17 gesturing cultivating the decadent notion that ‘mere sovereignty equates with technicity/profundity’ (as the ‘critical cancer’ of our modern-day democratic process as it shuts-off requisite sovereign ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification7/contemplative-distension”) so-associated with ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’; as to when such pedantry openly affirming ignorance or demonstrates ignorance go on to ‘supposedly articulate sublimating knowledge’ with such normalised/stereotyped/selfhelping/feel-good conception of knowledge ‘mediatically and socially popularised’ inducing (given direct-and-indirect epistemic-totalising)12 consequence of
human ‘meaningfulness-and-teleology’ 'incoherence between concrete–social-reality-as-to-manifest-sublimation/desublimation' and overall public perception of concrete–social-reality-as-to-manifest-sublimation/desublimation'. The implications of such dereification gesturing (as to its reflection of human self-referencing-syncretising relation with 'knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications') speaks to a degenerate conception of human self-referencing-syncretising that seem to imply surreptitiously that no relative-ontological-completeness is pertinent (which it rather cynically qualifies as relativism) as to a cynical self-presence/self-constitutedness-in-perspective–epistemic-abnormalcy/preconvergence of presencing—absolutising-identitive-constitutedness preconverging—‘motif-and-apriorising/axiomatising/referencing’–imbuing—existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) and very much explains why it fails to appreciate that without ‘relativism’ there is no progress since progress is relative to lack-of-progress with regards to human limited-mentation-capacity-deepening. Critically in this regards, human civilisation is only possible as to the genuine social intellectual–function/posture rather eliciting and fulfilling human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality and so in a cogent percolation-channelling—in-deferential-formalisation-transference existentialising–frame allowing for human and humanity’s ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness–by-reification’/contemplative-distension’ (and not flawed normalised/stereotyped/selfhelping/feel-good conception of knowledge). We can appreciate in this regards that the specialist whether astronomer, technician, electronician, etc. is more critically sublimating/emancipating as to a ‘knowledge-reifying-and-empowering
conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ acting upon the breadth of socially cogent percolation-channelling-in-deferential-formalisation-transference existentialising-frame of intellectualism involving genuine social intellectual-function/posture projection of prospective human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as first-level technicity/profundity elucidation (as to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression) with fellow specialists and then of derived-knowledge implications percolating to the appraisal of ‘overall social intelllection-aptitude body’, and not a directly normalised/stereotyped/selfhelping/feel-good conception of knowledge relation with the general public in distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing (undermining such a sublimating/emancipating cogent percolation-channelling-in-deferential-formalisation-transference existentialising-frame imbued notional–self-distantiation-imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing conception which is exactly what best defines and upholds human sovereign–function/posture as to appropriate coherence between concrete–social-reality-as-to-manifest-sublimation/desublimation and overall public perception of concrete–social-reality-as-to-manifest-sublimation/desublimation with respect to public outcomes of social-stake-contention-or-confliction). In this regards, a prevailing and counterintuitive naivety as to human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising-decisionality is that the mere communication of knowledge (without appropriate eliciting of ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification’/contemplative-distension as an exercise that is behind knowledge-production in-the-very-first-place and is required for effective prospective existential-contextualising-contiguity-in-reification of knowledge content as to epistemic-totalising-resubjecting) suffices without factoring that this is exactly
what allows for pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimation; as knowledge effectively requires a sound grasp-of and referencing-to its sublimating/emancipating cogent percolation-channelling<in-deferential-formalisation-transference> existentialising-frame given human limited-mentation-capacity (as to the fact that the ordinary citizen doesn’t need to be a physicists or astronomer or engineer or a public policy expert as more directly relevant in the democratic process but rather needs to have the appropriate fundamentals-and-distance as of capacity/deferential-capacity to be able to sovereignly relate-to and reference-to the implications of such technicity/profundity sublimating/emancipating knowledge-reification hermeneutically/reprojectively/supererogatingly/zeroingly (with regards to effective prospective existential-contextualising-contiguity<in-reification of knowledge content as to epistemic-totalising<resubjecting) and so while at the same time not subject-to/avoiding vague conceptualisations inducing disorientation, estrangement and trivialisation (of such technicity/profundity sublimating/emancipating knowledge-reification) failing to fulfil the veridical public outcomes of social-stake-contention-or-confliction aporeticism overcoming/unovercoming and rather inducing social numbing-traction—of-desublimating—meaningfulness-and-teleology(as-perspective-lost-of-supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking—of-notional—deprocripticism—in-dimensionality-of-sublimating—<amplituding/formative—epistemicity>growth-or-confatteredness/scalarisation-as-to-rescalarisation-as—re-ontologisation) as to ‘an elicited conformity/trending/voguing/fashionability/resonance relation to ‘meaningfulness-and-teleology

notion of prospective sublimation is just about technical and natural science sublimation (and as so-advanced implicitly or explicitly in a self-serving lethargy of institutional pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation) and so as to a human social environment where dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in many ways seem to be wary of prospective human re-ontologisation/omnipotentiality implications as if our very presence isn’t the outcome of successive prior re-ontologising. It is thus critical for humanity as a whole and as of social science practice to inculcate the attitude that despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering.decisioning existentialising—decisionality, that doesn’t mean this gives leeway for political and other dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>; as to the fact that the pretense of a social science/ontology dies (with respect to the emancipation/sublimation possibilities for the 8.5 billion humans on Earth) when such an illegitimate pretense is not bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their intellectual soul when they acquiesce to the <amplituding/formative> wooden-language ⟨imbued—temporal—mere-form/virtualities/dereification /akrasiatie—drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ of any such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> that thrive as to temporal advantageousness on eliciting the lowliness of human contemplation in inducing consciously or unconsciously prospective human desublimation/disempowerment. At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a

The above insight provides a relevant backdrop for a truer appreciation of what is entailed by prospective ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ since critically any registry-worldview/dimension is rather of ‘self-referencing-syncretising forward-facing postconverging-or-dialectical-thinking—apriorising-psychologism epistemic-projection of mere-formulaicity as to social-stake-contention-or-confliction’ such that it reflects of itself mainly as of postconverging-or-dialectical-thinking—apriorising-psychologism while qualifying its prospective uninstitutionalised-threshold (as of preconverging-or-dementing—apriorising-psychologism) as nondescript/ignorable–void and so in a presencing—absolutising-identitive-constitutedness <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness–<as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition>. Critically thus, the ‘knowledge-notionalisation backdrop of entailing-amplituding/formative-epistemicity-totalising—in-relative-ontological-completeness’ of knowledge-reification in reflecting ‘historiality/ontological-eventfulness’/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected—’epistemicity-relativism’ as implied both scientifically and by many a postmodern thinker doesn’t need to ‘take a page into any ideological unknown’ to effectively contemplate of the practical implications for prospective re-ontologisation; and as herein contended with regards to ‘nonpresencing<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ that the fundamental idea for such prospective social re-ontologisation lies with ‘appropriate constraining deblurring analysis in profound-supererogation of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality aporeticism overcoming/unovercoming as to a translating-insight as from nascent-particular/incipient-and-material/technical-sublimations<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving> sublimating—existentialising—decisionality’ (given the very ontological-normalcy/postconvergence nature of existence reflected as existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation’). We can appreciate in this regards the role of constraining existence in the ‘nonpresencing<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ driving the natural sciences as to the ‘transversal and cross-subjecting sublimating-selectivity-and-desublimating-deselectivity as to manifest sublimation of scientific ideas’ effectively building up the various fields in perpetuative re-ontologisation (and so-construed as to a ‘science supererogating exactifying/precisioning—of-sublimation—as-to-entailing-theoretical,—conceptual-and-operant-implications’ conception’ that is not undermined by a false conception
of science reflected by ‘a science ideology desublimation in <preconverging~’motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness—(as-to- historicity-tracing—inpresencing–hyperrealisation/hyperreal-transposition)’).

However, because of the high emotional-involvement in the social, the default posturing one way or the other is ever always to adopt a <self-reflexive>-willed–will ideological stance (integrating <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the- reference-of-thought—categorical-imperatives/axioms/registry-teleology } explaining the discomfort induced when such conscious or unconscious ideological stances are subjected to deconstruction analysis or genealogical/archaeological analysis as to ‘nonpresencing—<perspective—ontological-normalcy/postconvergence> implications of human limited-mentation-capacity-deepening ’ and so over an existence-driven <self-reflexive>-willed–thought; in a flawed knowledge-reification gesturing that poorly appreciates the two-sided epistemic-veracity of undergirding human ‘self-reflexive–instigative-eventuating–(as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,—preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidacion) of human embodied-consciousness motif-and-apriorising/axiomatising/referencing—educing-incipience-of-existentialising–decisionality’ so-reflected by the ‘supererogating/willing side’ and the ‘existence sublimating-validation/desublimating-validation side’ for sound human intelligibility to arise (and critically the reality of a truly social scientific insight is one that necessarily has to take a considerable distance from the immediate/punctual high emotional-involvement as inherently manifested in the direct socio-econo-political processes of social-stake-contention-or-confliction and its associated directed ideologies with such a truly scientific endeavour not about pedantising/muddling/formulaic-hollowing-out—in—

not be construed as a weakness as often wrongly implied of the anti-ideological stance of
postmodern thought but rather speaks of a strength in the sense that it is naïve to think the
pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of
presencing—absolutising-identitive-constitutedness social-vestedness/normativity-
<discretely-implied-functionalism> can be veridically undermined/superseded by a
‘corresponding antipodal/diametrical compensatory subontologisation’ (as manifested between
the conflicting capitalistic and communistic ideologies), rather than a true aspiration for a most
profound prospective ontologisation/re-ontologisation in-of-itself so-implied as of
supererogatory-progressivity as to human aporeticism overcoming/unovercoming in enabling
prospective sublimating–nascence for human social-and-institutional-frameworks-of—
referencing/registering/decisioning sublimating–existentialising–decisionality (even as the
practicalities of the political environment inevitably will elicit thresholds of disontologising as
to non-ontologising/subontologising conceptualisations); but then just as the natural scientist’s
basic research is to ‘open-up’/’throw-up’/’reveal’ sublimating avenues for ‘more and more
profound ontologising possibilities for engineering/technical practices’ likewise the genuine
social intellectual–function/posture has to be able to ‘open-up’/’throw-up’/’reveal’ ‘more and
more profound ontologising possibilities/avenues of contemplative sublimating for more and
more profound social-and-institutional-frameworks-of—referencing/registering/decisioning

methodologising/mutualising/organising/institutionalising that seem to be utterly immuned from the ontological-veracity of human prospective ‘originariness-parrhesis,—as—spontaneity-

Such a postmodern philosophical anti-ideological stance of ‘nonpresencing—perspective—ontological-normalcy/postconvergence’ anarchic-growth/anarchisation for re-ontologisation’ (just as is the case with the natural sciences as to ‘prospective scientific sublimating reconstruals of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising—purview—of-construal as of human limited-mentation-capacity-deepening’ not to be confused with science ideology which is rather about ‘consciously or unconsciously usurping the sublimating credence of science in its science ideology pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation exercise’) is all about human candidity/candour-capacity for effectively tackling prospective
aporeticism overcoming/unovercoming as to profound supererogatory acuity/perspicacity/astuteness/edginess/incisiveness eliciting of ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness\(^8\) by-reification\(^7\)/contemplative-distension\(^6\)’ and doesn’t carry false promises of shallow supererogatory acuity/perspicacity/astuteness/edginess/incisiveness as to mere-formulaic methodologising/mutualising/organising/institutionalising (as associated with ideological stances reflected say as to capitalistic or communistic ideologies); and so critically because the more salient point for aporeticism overcoming/unovercoming though it may seem counterintuitive is not ideological solutions of \(^8\) presencing—absolutising-identitive-constitutedness\(^1\) but rather (notwithstanding the high emotional-involvement) appropriate human development as to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring as from \(^6\) nonpresencing-<perspective–ontological-normalcy/postconvergence> as a prerequisite speaking hermeneutically/reprojectively/supererogatingly/zeroingly of a prospective \(^6\) nonpresencing-<perspective–ontological-normalcy/postconvergence> change in human apriorising/axiomatising/referencing—relation-to-the-world than just ‘\(^6\) meaningfulness-and-teleology \(^9\) within prior mere-formulaicity (of prior mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>) in an already prospectively poorly apriorising/axiomatising/referencing—relation-to-the-world’, and in this regards we can appreciate that budding-positivists critical philosophical insight was more than just their effectively instigative/incipient budding science but a critical appreciation that the medieval-scholasticism non-positivism apriorising/axiomatising/referencing—relation-to-the-world wouldn’t countenance-and-cultivate the true prospect of scientific knowledge
requiring a positivism apriorising/axiomatising/referencing—relation-to-the-world (notwithstanding the then high emotional-involvement), with such budding positivism not being at all a ‘corresponding antipodal/diametrical compensatory subontologisation’ to medieval-scholasticism but rather an altogether ‘a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself’. This again confirms that the ontological-veracity of genuine human knowledge is rather about notional~self-distantiation<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/‘distantiation of contemplative existentialising–frame as to transversality~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ inclination imbuing historiality/ontological-eventfulness ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> (as to the precedence of inherent existence possibility for sublimating–nascence to which human-subpotency subjects itself) and not conceptualisations of distractive-alignment-to-reference-of-thought<apriorising/axiomatising/referencing> (that wrongly imply that human totalisingly-disentailing—discretion/whim-of-thought takes precedence over inherent existence possibility for sublimating–nascence). It is only after establishing a prospectively sound apriorising/axiomatising/referencing—relation-to-the-world (in the case of prospective deprocrypticism involving the inducing/projection of an underlying nondisjointing apriorising/axiomatising/referencing—relation-to-the-world as of profound-supererogation entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness in undermining the totalisingly-disentailing—discretion/whim-of-thought of our procrypticism–or–disjointedness-as-of-reference-of-thought increasingly underlied with dynamic, sophisticated and networking institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation) that a prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought imaginary (just as arose with the

should be appreciated that as to notional–deprocrypticism reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process. ‘Such a deprocrypticism imaginary is claiming to be the very rule
of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis
for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for
advancing prospective universalisation’, ‘no universalisation basis for advancing prospective
positivism/rational-empiricism’ and prospectively ‘no positivism–procrypticism basis for
advancing prospective deprocrypticism/nondisjointing’ but for ‘the inherent nonpresencing-
<perspective–ontological-normalcy/postconvergence> nature of existence’ instantiated
hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-
mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind);
rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of
manifest in-effect absolution as to their given presencing—absolutising-identitive-
constitutedness as so-fraudulently implied by our positivism–procrypticism anti-relativism
stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a
posture warrants a further claim recommending that humanity should rather go back to the state
of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution
presencing—absolutising-identitive-constitutedness’ as a more coherent anti-relativism
stance as so-explicitly the idea that human progress doesn’t/shouldn’t occur, even as
paradoxically many such anti-relativism proponents seem to project progressive views without
truly grasping the contradictory implications of progressivism and anti-relativism explaining
their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas
‘true knowledge has to carry its sublimation within itself as to its notional–nondisjointing
totalising-entailing’ for it to be socially potent and effective). We can appreciate in this regards
that the ‘sublimating–existential-decisionality potency of a scientist thought is not in-and-about
themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicit contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising–frame of intellectualism’; as so-involving the illuminating genuine social intellectual–function/posture, the appraisal of the ‘overall social intellection-aptitude body’ as well as generalised social advocacy in contemplating about prospective ‘re-ontologising/potentiating/optimisable sublimating–nascence ontologising-depth perspective as of the full-potency of existence’. In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and comploment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening. In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of–social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing-<amplituding/formative-epistemicity-totalising–in-relative-ontological-completeness> as associated with social equality and anti-bigotry movements as to class, race, gender, etc. (and so-reflected by the fact that their proponents have ‘hardly been able to meet the academic standards of the arguments
implied and projected by proponents of relativism’ and rather turning to surreptitious and media-driven strategies avoiding intellectual engagement in inducing social and institutional numbing-traction—of-desublimating—meaningfulness-and-teleology—\{as-perspective-lost-of—supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-as-to-the-imbued-postconverging/dialectical-thinking—of-notional—deprocrypticism—(in-dimensionality-of—sublimating—\langle amplituding/formative—epistemicity\rangle growth-or-conflatedness /scalarisation-as-to-rescalarisation-as—re-ontologisation)\}). Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly—de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindednes as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective aporeticism overcoming/unovercoming as to profound supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by—reification—/contemplative-distension—. Basically, we can garner that ‘the very epistemic condition inherent to human limited-mentation-capacity in contrastive relation to the nonpresencing—<perspective—ontological-normalcy/postconvergence> of inherent existence sublimating–nascence’, induces (as of human <amplituding/formative—epistemicity>totalising—thrownness-in-existence\}) a ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’ (so-reflected in the mere-formulaicity as to mere-formulaic methodologising/mutualising/organising/institutionalising implied prior secondnatured

The implication here is that a human mental-reflex of ‘mere-formulaicity of ruling and rule-making as to apriorising/axiomatising/referencing’ is ever always of wanting ontological-veracity in need for ‘corrective human profound-supererogation\(^{97}\) imbuing human limited-mentation-capacity-deepening\(^{21}\)’. In other words human ‘potential of profound-supererogation’\(^{39}\) (as the corrective potentiating of human limited-mentation-capacity for human limited-mentation-capacity-deepening ) is veridically what carries an abstract equivalence association/relation with existence’s inherent ontological-normalcy/postconvergence (and so rather than any human limited-mentation-capacity educing mere-formulaicity which rather induces ‘human prospective regressive-shift in ontological-normalcy/postconvergence conceptualisation’). In this regards, the genuine social intellectual–function/posture should be able to ‘sneer’ at its social-setup, as to the fact that its ‘incarnation of prospective human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology\textsuperscript{10} imaginaries’ cannot be beholdening to its ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13} social-vestedness/normativity–<discretely-implied-

Such a conception of the genuine social intellectual–function/posture (as it so-reflects ‘the human notional–philosophy existentialising–frame of existential unenframed conception of human philosophy’ beyond any given institutionalised sublimating/desublimating culture of philosophy) renders ridiculous modern manifestations of ‘media-driven, social networking, popularity-seeking as well as institutional imprimaturing conception of supposed intellectualism’ that by supposedly succumbing/ingratiating to institutional and social lip-servicing (as to an ontologically-flawed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service without any underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness~by-reification~/contemplative-distension~’) supposedly so-earning intellectual recognition/due; thus paradoxically subjecting the notion of intellectualism to human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ which is in want for its prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology~’ imaginary. The blunt reality of true intellectualism couldn’t be more diametrical as to the fact that the genuine social intellectual–
function/posture involves unaccommodating the social-setup’s presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> rather than further cultivating its nonsensical, nombrilistic and self-important pretenses/claims of manifest in-effect absolution presencing—absolutising-identitive-constitutedness. As to the modern states penchants of misgovernance, dehumanisation, criminal wars, genocides and hideous activities and as so in association with dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and an overall out-of-sight-out-of-mind civil society ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’, such a supposedly implied conception of intellectual-and-moral ascendancy is nothing but a bogus social-setup’s auto-congratulatory exercise of ‘supposed intellection and morality’ that cannot answer to the inherent preconverging–de-mentating/structuring/paradigming vices-and-impediments limitations of its Age (let alone prospectively uphold ‘human-decisionality-<as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality). In the bigger scheme of things as to nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection, human social-setups reflecting the respective states of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism are transcended/superseded exactly because of an incipient/nascent/instigative genuine social intellectual–function/posture ‘sneering’ at them and never as to otherwise ingratiating at them as manifested by the Socrates, Platos, Copernicuses, Galileos, Descartes, Newtons, Leibnizes, Diderots, etc. as so-instigative of the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring conception as to maximalising-recomposuring-for-relative-ontological-completeness—
unenframed-conceptualisation for prospective social aetiologisation/ontological-escalation (noting that the notion of ‘human prospective notional–self-distantiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring self-becoming/self-conflatedness /formative–supererogating–(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,–in-perspective–ontological-normalcy/postconvergence)’ is about eliciting the sense of fellow human capacity/deferential-capacity to appreciate the inherent soundness of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness by-reification /contemplative-distension as to the fellow human capacity/deferential-capacity for undergirding ‘self-reflexive–instigative-eventuating (as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,–preceding-existence’s–eventuating-sublimating-validation/desublimating-invalidation) of human embodied-consciousness motif-and-apriorising/axiomatising/referencing—educing-incipience-of-existentialising–decisionality’ as to the fact that all true intelligibility and knowledge is only possible by eliciting a fundamental potential that is already de-mentatively/structurally/paradigmatically availing to ‘the fellow human in a direct-capacity or deferential-capacity of human growth/development/maturation’ as to their ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity to pursue it or not). The blunt fact is that society is never its own inherent intellectual-and-moral absolute reference and thus is in want for its intellectual-and-moral development explaining why progress happen and the role of the genuine social intellectual–function/posture being about encouraging such progress, with the consequence that an ‘ingratiating supposedly intellectual relationship’ with human institutions as to ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction imbuing existentialising–frame of

Again, the fundamental point here is to reflect prospectively upon human angling-of-imaginary underlying the very nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩ nature of inherent existence requiring prospective human limited-mentation-capacity-deepening (in inducing the de-mentative/structural/paradigmatic dynamics and/or compensatory–dynamics for human critical threshold of re-origin-as-unenframed/unbeholdening/outlier-conceptualisation⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness °of-notional–deprocrypticism-prospective-sublimation⟩ as to the possibility for prospective ontologising/re-ontologising given the ontological-veracity of a human de-mentative/structural/paradigmatic ‘social-functioning-and-accordance—as-of–social-stake-

implied nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩ is the veracity
that epistemicity is veridically as of ontological-normalcy/postconvergence as to human

accompanied with a more profound but implicated notion of epistemicity’ (as prospective
sublimation actually invents prospective epistemicity). This insight contrasts with a naïve science ideology conception of epistemicity as to ‘a lack of nonpresencing-<perspective-ontological-normalcy/postconvergence> perspicacity in an in-effect absolution exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity as of a desublimating historicity-tracing—impresencing–hyperrealisation/hyperreal-transposition’ that fails to factor in prospective human limited-mentation-capacity-deepening postconverging–de-mentating/structuring/paradigmging implications (and go on to behold epistemicity as to a certain ‘supposedly imagined moment of past science’ rather than the fact that prospective scientific sublimations come-with/are-not-divorced-from prospective epistemicity insights hermeneutically/reprojectively/supererogatingly/zeroingly as so-rather driven by human supererogatory acuity/perspicacity/astuteness/edginess/incisiveness inducing sublimation-over-desublimation beyond ‘mere-formulaicity of conception of epistemicity secondnatured reproducibility—mathesis/motif/thrownness-disposition—as—reproducibility-of-aestheticisation’). Critically, in this respect there was no prior inherent mere-formulaicity basis for Einstein’s Relativity theory but for his sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigmging—as-being-as-of-existential-reality as to his hermeneutic/reprojective/supererogating/zeroing supererogatory acuity/perspicacity/astuteness/edginess/incisiveness underscored by the possibility for prospective sublimation as to his reflexive as re-originary encounter/confrontation with existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation~<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Hence the most coherent and unfailing epistemicity basis of science speaks to ‘inherent sublimation-over-desublimation’ as to
Such a conception of epistemicity is rather all-englobing with regards to all human knowledge as to the reality of hermeneutic/reprojective/supererogating/zeroing supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness for human
<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in apriorising/axiomatising/referencing—conflatedness (with regards to living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology); with the extensive development of many a formalised and elaborate domains-of-study like natural sciences unique experiential inordinary existentialising–frames (inordinary because the human has to invest an unusual/inordinary amount of mental resource in an unusual/inordinary existentialising–frame of contemplation associated with their thought-experiments, material experiments, institutional frameworks of experimentation, etc. but so while utilising the very same overall human experiential tool/arrangement of ordinary/usual life though in a different capacity/potentialisation such that in reality scientific experiments/observations are just circumstantial/contextualised elaborateness of natural human supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness as actually ‘implicit-or-explicit–philosophically’ driving/behind the insight for such scientific experiments/observations) and not overriding the very same human hermeneutic/reprojective/supererogating/zeroing supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity (reflecting the fact that the notions of scientific experiments and observations are just
extensions of a human hermeneutic/reprojective/supererogating/zeroing
supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness contemplation of ordinary
existential experience and observations). Such a 'nonpresencing-<perspective–ontological-
normalcy/postconvergence> conception of epistemicity it is herein contended is most profound
social and overall knowledge aporeticism overcoming/unovercoming relevance. Human
angling-of-imaginary (unlike the predisposition to mere-formulaicity of human psychical-
nascency) construes of knowledge as of incipient social conception and instigation (beyond and
unfazed by its supposed manifest institutional capture/catchmenting) as to its veridical
existential veracity for prospective sublimating ontologising/re-ontologising relation to human
'social-functioning-and-accordance—as-of–social-stake-contention-or-confliction' imbuing
existentialising–frame of disontologising/ontologising-and-re-ontologising'. In this regards,
desublimating attitudes of mere institutional imprimaturing do not necessarily constrain the
possibility for divergent social interests for prospective existential ontologising/re-ontologising
conception for sublimating knowledge-reification (and critically veridical intellectualism
perceives institutional stature as the opportunity to further demonstrate and invest into
demonstrating its effective intellectual relevance whereas an institutionalised
pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation rather
construes of institutional stature as a fall-back as to mere-formulaic institutional-imprimaturing
and institutional-legalism poorly upholding/perpetuating the veridical knowledge sublimating
contemplation behind the institutional formation/creation inceptively instigated as of 'prior

conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation). Such an incipient social conception and instigation of prospective genuine-knowledge as to its veridical existential veracity underscored the Socratic-philosophers and their successors development of philosophical schools propounding universalising-idealisation in sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~as-being-as-of-existential-reality subverting the Ancient-sophists ‘non-universalising sophistry ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming ’, likewise budding-positivism movements with their correspondences and initiatives in sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~as-being-as-of-existential-reality ultimately led to the subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming ’, and today in many ways the postmodern movement is more potent as to its social dynamics of ‘liberation and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic totalisingly-disentailing—discretion/whim-of-thought ontological-bad-faith/inauthenticity ~preconverging–de-mentating/structuring/paradigming ’. Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective–ontological-normalcy/postconvergence} epistemic-projection which is elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to think pervading the natural sciences; as to a fundamental aptitudinal
capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity to then project of the implications of human limited-mentation-capacity-deepening°). In this regards, (and as priorly indicated herein just as conceptuallyising ‘the actuality-<as-to-history> of physical manifestations of the cosmos as astronomy’ with physics rather construed as the ‘archaeological-conceptualisation-<as-to-its-ahistorical-emancipation> of such an actuality conception that is astronomy’ such that the ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are conceptualised from the ahistorical-emancipation of physics as of an underlying physics archaeology-conceptualisation that allows for the momentous sublimating historiality/ontological-eventfulness ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of astronomy to be construed and so unlike a naivest desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition approach that fails to factor in that the varied ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are rather undergirded by an ahistorical-emancipation of conceptualisation of congruent physics principles as to their underlying ontological-contiguity), in many ways the implicated notions of Foucauldian genealogy/archaeology and Derridean difféance as well as explicited herein as of the ontological-contiguity—of-the-human-institutionalisation-process (implied de-mentation (supererogatory—ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) so-underlying human fundamental ontology-driven ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’) are tantamount to an ahistorical-emancipation projection and grasp of the fundamental human psyche and potential as to the actualities of societies and
grasped the full veracity of their rational-empiricism thought ‘transcendence-and-sublimity/sublimation/supererogatory–de-mentativity psychologismic implications on human reference-of-thought as grandest-axiomatic-contruct of ‘meaningfulness-and-teleology’ existentialising–decisionality’ and so let alone the anti-positivistic stances of their medieval-scholasticism distractors); and so speaking to the veracity/reality of the ‘intellectual ineptness’ of the ‘self-presence/self-constitutedness’ in prospective relative-ontological-incompleteness exposed to such contemplation as it highlights the given institutionalisation prospective uninstitutionalised-threshold (inducing an intellectual paradox of disontologising wherein a state of relative-ontological-incompleteness ‘as to its flawed in-effect absolution’ is supposedly supersedingly/arrogratingly analysing the veracity of prospective relative-ontological-completeness projection as to the relative-ontological-incompleteness flawed in-effect absolution appropriating/presumptive ontological-veracity). The critical point here is rather about enunciating that veridical meaningfulness-and-teleology manifests in existential-contextualising-contiguity induced ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ (and so more than just mere-formulaicity of of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation that fails to account for the ‘existential-contextualising-contiguity’ station of relative-ontological-incompleteness as its affects contemplation’ and hence falsely implies that there is ‘a neutral state of in-effect absolution’ from whence sound human contemplation arises rather than the reality of existential-contextualising-contiguity with human limited-mentation-capacity-deepening); and so as to the overall prolongation of contextualising/existentialising–attendant-ontological-contiguity induced as from prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection of ontological-contiguity.
Critically, we can grasp a glimpse of this fundamental psychologismic difficulty with such a question as what is the meaning (as of projected mere-formulaicity of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation) of the ‘successive apriorising/axiomatising/referencing—relation-to-the-world conceptivity/epistemic-reflexivity institutionalisations’ of base-institutionalisation, universalisation, positivism/rational-empiricism and prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively for the ‘self-presence/self-constitutedness—in-perspective—epistemic-abnormalcy/preconvergence’ in prospective relative-ontological-incompleteness state of recurrent-utter-uninstitutionalisation, recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought? Critically, as well the answer fundamentally call in question the self-presence/self-constitutedness—in-perspective—epistemic-abnormalcy/preconvergence contemplative capacity as of recurrent-utter-uninstitutionalisation, recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought respectively in contemplating such prospective psychologismic implications; with the true reality of such a question and its discursivity rather translated as a notion of manifest existential-contextualising-contiguity induced ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension’ respectively as towards base-institutionalisation, universalisation, positivism/rational-empiricism and prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought (thus validating the contention that the ‘communicable contemplative veracity of such transcendence-and-sublimity/sublimation/supererogatory—de-mentativity thought’ can only be ‘glimpsed of, countenance/appreciated in the margins and communicated rather as of prospective
metaphoricity’ with pretenses of ‘self-presence/self-constitutedness’ in prospective relative-ontological-incompleteness in many ways just pompous ignorance. The more fundamental point here is to reflect upon the fact and implications that beyond the accompanying ‘distractive-alignment-to’ reference-of-thought-<of-apriorising/axiomatising/referencing> of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ in the human notional—philosophy existentialising–frame of transcendence-and-sublimity/sublimation/suberogatory—de-mentativity, the very possibility for prospective human transcendence-and-sublimity/sublimation/suberogatory—de-mentativity as to angling-of-imaginary lies with the reality of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification’/contemplative-distension’ as from psychical-nascency; as so-conveyed from the implication of underlying human ‘social-functioning-and-accordance—as-of—social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’ that ontologising is veridically about ‘expansion of ontologising possibilities so-construed as aporeticism overcoming/unovercoming’. This ‘ahistorical-emancipation as to archaeological-conceptualisation of prior/present/prospective human ontologising insight as of nonpresencing—<perspective–ontological-normaley/postconvergence> epistemic-projection of ontological-contiguity conceptualisation as to prior/present/prospective epistemic-projection’ contrasts with flawed ‘theoretical conceptualisations of the social as to presencing—absolutising-identitive-constitutedness’ epistemic-projection devoid of ontological-contiguity conceptualisation as to prior/present/prospective epistemic-projection’ (as the latter puts into question the veracity of this very same notion of ontologising as in the natural sciences with regards to prospective aporeticism overcoming/unovercoming) and is herein construed as manifesting ‘beholdening historicity-tracing—in-presencing—hyperrealisation/hyperreal-
transposition lacking in the capacity for ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection of ontological-contiguity’’. Critically, it can be appreciated that the fundamental dimensionality-of-sublimating

This speaks to a relatively poor human capacity (as to psychical-nascency) to constructively integrate the \('\text{psychologismic implications of the fundamental dimensionality-of-sublimating}'\).<sup>24</sup> \(\{\text{supererogatory--de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness--equalisation}\}' in existential-contextualising-contiguity induced \('\text{epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness--by-reification /contemplative-distension}'\) in the succession of registry-worldviews/dimensions (as to angling-of-imaginary). In this regards, the very central notion of singularisation--<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> of postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation--<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> is so-fundamentally underlied by this dimensionality-of-sublimating

that effectively supersedes/attends-to underlying desublimating human existential-extrication-as-of-existential-unthought. It is effectively this dimensionality-of-sublimating psychologismic implications ‘downgrading/demoting along beholding–existentialising-echelons of human presencing—absolutising-identitive-constitutedness social-vestedness/normativity-%discretely-implied-functionalism%’ in human distinctive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing, that underlies human desublimating ‘beholding as sovereignising–imbued-subontologisation/subpotentiation’ over the sublimating–nascence of ‘unbeholding ontologising-depth as to backdrop-of-inherent-immanent-existence’s–sublimation-structure-of-unsurrealistic-as-real–ontological-normalcy/postconvergence’ as conflicting human psychical-nascency and angling-of-imaginary respectively. This ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ effectively underlies the inherent existentialising–decisionality of underpinning–suprasocial-construct as to underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist; as to the fact that in many ways ‘the very existentialising–realness of such abstract notions as to their nondisjointing tends to be totalisingly–absent/vague, relative/qualified and ephemeral/fleeting’ with the underpinning–suprasocial-construct more fruitfully identifiable/construable as to its ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-%discretely-implied-functionalism%’ that-drives/is-behind such
subontologisation/ideology-over-ontology disjointing abstract notions as technocratic, capitalistic or communist which are rather ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ (as can be more vividly be observed in moments of crisis when such ‘underlying social dynamics of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism>’ manifest themselves as superseding any such abstract ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ but also persistently across time in more subtle ways). Such ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ are geared on collectively inducing defaulting ‘beholdening as sovereignising—imbued-subontologisation/subpotentiation’ existentialising–decisionality psychological-disposition (as to relative-ontological-incompleteness—presublimation-construct–of—meaningfulness-and-teleology desublimating–existentialising–decisionality) that goes on to ‘surreptitiously/subconsciously distract-from/drown/dilute/enframe the possibility for prospective incisive and diligent ontological-veracity sublimation/emancipation analysis of any such underpinning–suprasocial-construct defining catchmenting-by-rejection of value and value-possibilities’ as to the underlying manifestations of presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> (as more thoroughly elucidated further above); wherein as ‘supposedly forever-and-ever tried-and-tested ready-to-hand reflex existentialising–decisionality that do not know of human limited-mentation-capacity and thus the need for human limited-mentation-capacity-deepening’ the analytical possibility for original prospective creative re-ontologisation (as required for human scalarisation-as-to-rescalarisation-as–re-ontologisation/supererogatory—involuting-or-guilding-or-amplifying–scalarisation–<as-to-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation>) is de-mentatively/structurally/paradigmatically closed-off, and there is ‘supposedly no sublimating/emancipating existentialising–decisionality
