that the genuine social intellectual–function/posture (adduced knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications) should be able to saliently articulate/impress-upon the ‘overall social intellection-aptitude body’ (within the framework of a natural and truly original, autonomous and non-contrived intellectual culture) ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of percolation-channelling-<in-deferential-formalisation-transference> (rather than the manifested mediatic silliness wherein ‘re-processive technicity/profundity’ is widely scorned upon ‘in favour of vague normalised/stereotyped/selfhelping/feel-good narratives’ as to mere entitlement-and-access and ratings-drivenness eliciting pedantising/muddling/formulaic-hollowing-out—<in-subontologisation/subpotentiation in a ‘framework of preconvergingly–dementated/structured/paradigmmed institutional and media contrivance’ and so-inducing ‘individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction’, and as so-cynically-and-surreptitiously cajoled by dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> rendering the ‘overall social intellection-aptitude body’ relatively irrelevant towards upholding the sovereign–function/posture). Thus, the sovereign–function/posture is effectively disempowered as to its relevance to public outcomes of social-stake-contention-or-confliction when the ‘overall social intellection-aptitude body’ assessment capacity is fundamentally undermined as to monopolising/quasi-monopolising/networking existentialising–frame of public and institutional discursivity as of mere entitlement-and-access and ratings-drivenness bent on side-lining salient and relevant narratives as to technicity/profundity (such that in effect through the decades such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> has paradoxically effectively-and-
preemptively succeeded in ‘qualifying in the public psyche’ the ‘specific overall social intellect-aptitude body that is the public university as to its underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation with regards to socio-econo-political social-stake-contention-or-confliction aporeticism overcoming/unovercoming’ in falsehoods terms of ‘contrastive equivalence’ implied distractive-alignment-to reference-of-thought and so-undermining its ‘neutral sovereign–function/posture upholding’, and with a failed public consciousness about the sovereign importance of the public university practically subjecting them to increasing private funding deeply eroding-and/or-corrupting their capacity for ‘neutral sovereign–function/posture upholding’ and most critically-so not necessarily in quashing ideas but inducing social apprehension and contestive inactivity). In many ways, the ‘overall social intellect-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) in recent decades with regards to socio-econo-political subontologisation/ideology-over-ontology has often failed to appreciate the implications of the fact that given human meaningfulness-and-teleology is effectively of epistemic-totalising consequence reflecting epistemic-totalising growth/conflicatedness/postconverging as to existential-contextualising-contiguity-in-reification knowledge/interpretative veracity implications of concurrent limited-mentation-capacity-deepening (thus implying human profoundness/ontologising-depth is of notional–nondisjointedness/contiguity/coherence as of disposedness

methodologising/mutualising/organising/institutionalising (while clearly inducing
disontologising socio-econo-political outcomes)’ cannot be construed as the all-be-all of human
institutions but rather ‘process/processiveness has to be associated with

veracity/efficiency of social intellection is rather in terms of ‘the consequent sovereign–
function/posture contemplative capacity/deferential-capacity in epistemic-totalising

to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation> with respect to public outcomes of social-stake-contention-or-confliction’ and so rather than the naive counterintuition of mere ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ (and so as to the fact that ‘existence as to ontological-veracity consequence of the social reality’ so-underlined by manifest social-stake-contention-or-confliction issues should as to human epistemic-growth/conflatedness/postconvergence instigatively drive public debates rather than ‘the naivety that the balancing of human-subpotencies as of vague process/processive bothsidesism mental-reflex in apriorising/axiomatising/referencing—constitutedness/preconvergence will then reflect sublimating social ontological-veracity’ so-underlined by issues of relatively little relevance to general social-stake-contention-or-confliction with the latter just making room for desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation induced distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing> and wherein issues of minor or irrelevant social-stake-contention-or-confliction are used to disorientate and estrange the sovereign–function/posture while trivialising-and-enframing issues of central public interests). The consequence being that a ‘shallow process/processive conception as so-often reflected with a process/processive bothsidesism mental-reflex in-constitutedness/preconvergence in an atmosphere of incoherence between concrete–social-reality-<as-to-manifest-sublimation/desublimation> and overall public perception of concrete–social-reality-<as-to-manifest-sublimation/desublimation>’ is critically inadequate for ‘neutral sovereign–function/posture upholding’ as so particularly elicited with distractive-alignment-to-
issues. The fundamental point here is that existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—makes nonsense of any such vague notion as ‘neutrality by the balancing of human-subpotencies’ so-reflective of ‘vested interests driven conception of balance as to discrete interests’ (rather than common/mutualising interest conception of balance rather requiring the cultivation of a veridical social exercise of notional–self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> as to implied social formativeness—<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued—mediativity-and-deferentialism>—of—meaningfulness-and-teleology reflective of nonpresencing—perspective—ontological-normalcy/postconvergence—epistemic-projection implications), with such ‘vested interests driven conception of balance as to discrete interests’ rather an exercise consciously or unconsciously of manifest ontological-bad-faith/inauthenticity in existential-extrication-as-of-existential-unthought. Thus ontological-veracity (as to the pertinence of ‘overall social intellection-aptitude body’ as to its capacity for ‘neutral sovereign–function/posture upholding’) rather arises as of a ‘human knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications detour to existence-potency ~sublimating–nascence,—disclosed-from-prospective-epistemic-digression’ in pointing out the prospect of sublimating/desublimating–existentialising–decisionality socio-econo-political outcomes and implications rather than the ‘passive deification of institutional process/processiveness as of mere-formulaireity as to mere-formulaic–methodologising/mutualising/organising/institutionalising’ (underlying why such a deficient social intellection posture will tend to be one step behind cumulating desublimating socio-
econo-political outcomes as if it is most critically about reflecting upon such cumulating desublimating–existentialising–decisionality socio-econo-political outcomes rather than truly a posture of anticipative analysis and preemption). This mere process/processiveness induced deficiency is often critically reflected in a ‘barest and passive/unreflexive conception of sovereignty in the democratic process’ that is poorly cognisant of the appropriate overall social enlightenment/knowledge imbuing oversight of the ‘overall social intellection-aptitude body’ (as to its capacity for ‘neutral sovereign–function/posture upholding’ whether as so-reflected by the public university or the press body or the ‘overall backdrop of the professional class intellectualism’) that is ‘much more than about leaving the room for competing/contending parties narrations/orientations/advocacies for socio-econo-political existentialising–decisionality but appraising-and-critiquing the effective coherence of such narrations/orientations/advocacies as to socio-econo-political outcomes expectations of the sovereign–function/posture’; so-underlying the more profound-supererogation” notion of sovereignty associated with ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional aporeticism overcoming/unovercoming’ as to social dynamics of veridical social knowledge percolation-channelling-<in-deferential-formalisation-transference>. The consequence of this mere process/processiveness induced deficiency is reflected in an entrenched dichotomy of the democratic process between the reality of recurrent narratives of disontologising socio-econo-political outcomes on the one hand and on the other hand a publicly cultivated <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing–existentia–enframing/imprintedness–(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) political culture/discourse that by its self-drivenness/self-containment at critical moments of the democratic process seem to bypass the relevance of such recurrent disontologising socio-econo-political outcomes (even as the very same social themes are recurrently and superficially raised

It is thus critical for humanity as a whole and as of social science practice to inculcate the attitude that despite the blurriness of human social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality, that doesn’t mean this gives leeway for political and other dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism>; as to the fact that the pretense of a social science/ontology dies (with respect to the emancipation/sublimation possibilities for the 8.5 billion humans on Earth) when such an illegitimate pretense is not bluntly challenged notwithstanding any browbeating as ‘supposed intellectuals’ lose their intellectual soul when they acquiesce to the wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatie—drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) of any such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> that thrive as to temporal advantageousness on eliciting the lowliness of human contemplation in inducing consciously or unconsciously prospective human

‘knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity’ as underlying the effective sublimating human and social expectations/anticipations that sublimatingly beget societies up to our age and as of relevance for prospective human and social construction. For such dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation, the punctual/immediate temporal advantageousness for eliciting the lowliness of human contemplation consciously or unconsciously prospective human desublimation/disempowerment as inherently validatory of a decadent conception of human self-referencing-syncretising in terms of self-presence/self-constitutedness -<in-perspective–epistemic-abnormalcy/preconvergence> of ∅| presencing—absolutising-identitive-constitutedness| <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>-existentialising—enframing/imprintedness-as-to historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition); but then in reality it is herein contended that in the middle to long run such posturing falsehoods are untenable notwithstanding their apparent punctual/immediate impression for the simple reason that veridical knowledge is not built on eliciting human sovereignising beholdening but rather eliciting human ontological-commitment as to ontologising-depth in epistemic re-originariness/re-origination projective/reprojective cross-subjection to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation (and it is in this regards that human history speaks of re-originary–as-unenframed/unbeholdening/outlier-conceptualisation-(imbed-postconverging/dialectical-thinking –‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-notional–deprocrypticism-prospective-sublimation) as to human-subpotency ‘fatedness-of-sublimation-over-desublimation to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression in reflecting holographically-<conjugatively-and-

At the ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’ such a conceptualisation may seem frivolous but then the work/job of doing philosophy and thinking is not for those of ‘human lifespan extricatory punctuality/immediacy of depth-of-thought’; that is why such pettiness-of-minds cannot recognise true work/job when they see it and it is herein contended are better off elsewhere rather than ‘merely hanging to the thread of institutional prescience’ devoid of ‘aptitudinal-substantive-pertinence reflected in a predisposition for totalisingly-disentailing—discretion/whim-of-thought’ that fails prospective human re-ontologisation/omnipotentiality. The above insight provides a relevant backdrop for a truer appreciation of what is entailed by prospective ‘nonpresencing-<perspective–ontological-normalcy/postconvergence> anarchic-growth/anarchisation for re-ontologisation’ since critically any registry-worldview/dimension is rather of ‘self-referencing-syncretising forward-facing postconverging-or-dialectical-thinking—apriorising-psychologism epistemic-projection of mere-formulaicity as to social-stake-contention-or-confliction’ such that it reflects of itself mainly as of postconverging-or-dialectical-thinking —apriorising-psychologism while qualifying its prospective uninstitutionalised-threshold (as of preconverging-or-dementing—apriorising-psychologism) as nondescript/ignorable–void and so in a presencing—absolutising-identitive-constitutedness <preconverging—’motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition). But then ontology/science being as of existence doesn’t kowtow—and–subject-to the ‘little human mortal’ thresholds about existence, and it is up to the human to undertake its ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension’ for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

that the medieval-scholasticism non-positivism apriorising/axiomatising/referencing—relation-to-the-world wouldn’t countenance-and-cultivate the true prospect of scientific knowledge requiring a positivism apriorising/axiomatising/referencing—relation-to-the-world (notwithstanding the then high emotional-involvement), with such budding positivism not being at all a ‘corresponding antipodal/diametrical compensatory subontologisation’ to medieval-scholasticism but rather an altogether ‘a true aspiration for a most profound prospective ontologisation/re-ontologisation in-of-itself’. This again confirms that the ontological-veracity of genuine human knowledge is rather about notional~self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/’distantiation of contemplative existentialising–frame as to transversality–of-affirmative-and-unaffirmative–disambiguated—‘motif-and-apriorising/axiomatising/referencing’\(^{162}\) imbuing \(^{4}\) historiality/ontological-eventfulness\(^{7}\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism'> (as to the precedence of inherent existence possibility for sublimating–nascence to which human-subpotency subjects itself) and not conceptualisations of distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing>\(^{19}\) (that wrongly imply that human totalisingly-disentailing—discretion/whim-of-thought takes precedence over inherent existence possibility for sublimating–nascence). In this regards, it should be appreciated that as to notional–deprocrypticism reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process‘ such a deprocrypticism imaginary is claiming to be the very rule of human civilisation’ as to the fact that ‘there is no recurrent-utter-uninstitutionalisation basis for advancing prospective base-institutionalisation’, and ‘no base-institutionalisation basis for advancing prospective universalisation’, ‘no universalisation basis for advancing prospective positivism/rational-empiricism’ and prospectively ‘no positivism–procrypticism basis for advancing prospective deprocrypticism/nondisjointing’ but for ‘the inherent nonpresencing-<perspective–ontological-normalcy/postconvergence> nature of existence’ instantiated hermeneutically/reprojectively/supererogatingly/zeroingly as to prospective human limited-mentation-capacity-deepening (in resolving the prior ‘dullness’ of the human mind); rendering nonsensical, nombrilistic and self-important pretenses/claims that are rather of manifest in-effect absolution as to their given presencing—absolutising-identitive-constitutedness as so-fraudulently implied by our positivism–procrypticism anti-relativism stance (and eliciting herein the counterclaim that a rational-and-coherent defense of such a posture warrants a further claim recommending that humanity should rather go back to the state of ‘recurrent-utter-uninstitutionalisation as to its given manifest in-effect absolution presencing—absolutising-identitive-constitutedness’ as a more coherent anti-relativism stance as so-expliciting the idea that human progress doesn’t/shouldn’t occur, even as paradoxically many such anti-relativism proponents seem to project progressive views without truly grasping the contradictory implications of progressivism and anti-relativism explaining their inclination to ‘disjointing totalisingly-disentailing—discretion/whim-of-thought’ whereas
'true knowledge has to carry its sublimation within itself as to its notional-nondisjointing totalising-entailing’ for it to be socially potent and effective). We can appreciate in this regards that the ‘sublimating-existential-decisionality potency of a scientist thought is not in-and-about themselves’ as so-manifested in a ‘normalised/stereotyped/selfhelping/feel-good conception of knowledge’ but rather ‘their inherent coherent knowledge formulation technicity/profundity and elucidating elaboration’ which then has to avoid explicited or implicited contradictions with regards to the knowledge technicity/profundity ‘enhancement of the overall social-setup self-reflexivity as of the breadth of socially cogent percolation-channelling-<in-deferential-formalisation-transference> existentialising-frame of intellectualism’; as so-involving the illuminating genuine social intellectual-function/posture, the appraisal of the ‘overall social intellection-aptitude body’ as well as generalised social advocacy in contemplating about prospective ‘re-ontologising/potentiating/optimisable sublimating–nascence ontologising-depth perspective as of the full-potency of existence’. In other words, ‘existence imposes its sublimating rules to the human mortal subpotency’ as the very ‘fundamental meaning of science’ (notwithstanding vague human-subpotency self-important ‘methodologising/mutualising/organising/institutionalising’ anti-intellectual fooling-about and complotment); in a continual prospective relativistic process of human limited-mentation-capacity-deepening. In this respect, it is herein contended as of a most intimate appreciation that such anti-relativism stances which will imply no human progress occurs are ‘so moronic’ it is doubtful these are held out of true conviction (bad or good), but rather are ‘cynical and strategic anti-intellectualism stances hanging upon mere institutional imprimaturing (as overplaying the card of ‘minimum-and-balancing expectations/anticipations of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ as to the protection offered by sensibility/decorum of institutional imprimatur)’ in undermining the implications of prospective profound-supererogation entailing-<amplituding/formative—

Such ‘strategic and cynical institutionalised pedantising/muddling/formulaic-hollowing-out—insubontologisation/subpotentiation’ it is herein contended is much more potently effective in preconvergingly—de-mentating/structuring/paradigming social and institutional in-effect bigotedness (consciously or unconsciously) than the overt and superficial name-calling social manifestations conception of bigotry/prejudice/narrow-mindedness as to emotional distress; and so, as the deferential social and institutional interpretation of such in-effect bigotedness stances surreptitiously/underhandedly undermine the requisite social and institutional prospective aporeticism overcoming/unovercoming as to profound supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness eliciting of human ‘epistemic—growth/disquiet/discomfort as to construction—of—the—Self in dispensing—with—immediacy—for—relative—ontological—completeness—by—reification /contemplative—distension’. The blunt reality of true intellectualism couldn’t be more diametrical as to the fact that the genuine social intellectual–function/posture involves unaccommodating the social-setup’s presencing—absolutising-identitive-constitutedness social-vestedness/normativity-<discretely-implied-functionalism> rather than further cultivating its nonsensical, nombrilistic and self-important pretenses/claims of manifest in-effect absolution presencing—absolutising-identitive-constitutedness. As to the modern states penchants of misgovernance, dehumanisation, criminal wars, genocides and hideous activities and as so in association with dominance/vested-interest-subontologising-skewed-influence-as-to-social-vestedness/normativity-<discretely-implied-functionalism> and an overall out-of-sight-out-of-mind civil society ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’, such a supposedly implied conception of intellectual-and-moral ascendancy is nothing but a bogus social-setup’s auto-congratulatory exercise of ‘supposed intellection and morality’ that cannot answer to the inherent preconverging–de-mentating/structuring/paradigming vices-and-impediments limitations of its Age (let alone prospectively uphold ‘human-decisionality-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation> omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality). In the bigger scheme of things as to nonpresencing—epistemic-projection, human social-setups reflecting the respective states of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism and positivism–procrypticism are transcended/superseded exactly because of an incipient/nascent/instigative genuine social intellectual–function/posture ‘sneering’ at them and never as to otherwise ingratiating at them as manifested by the Socrates,
Platos, Copernicuses, Galileos, Descartes, Newtons, Leibnizes, Diderots, etc. as so-instigative of the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring conception as to finding maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation for prospective social aetiologisation/ontological-escalation (noting that the notion of ‘human prospective notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> induced psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring self-becoming/self-conflictedness /formative–supererogating—(projective/reprojective—aestheticising-re-motif-and-re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence)’ is about eliciting the sense of fellow human capacity/deferential-capacity to appreciate the inherent soundness of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness—by-reification /contemplative-distension as to the fellow human capacity/deferential-capacity for undergirding ‘self-reflexive–instigative-eventuating (as-to-teleological-instigative/incipient–willing/arbitrariness/waywardness/faithdrivenness/supererogating-for-human-intelligibility,—preceding-existence’s-eventuating-sublimating-validation/desublimating-invalidatoin) of human embodied-consciousness motif-and-apriorising/axiomatising/referencing—educing-incipience-of-existentialising—decisionality’ as to the fact that all true intelligibility and knowledge is only possible by eliciting a fundamental potential that is already de-mentatively/structurally/paradigmatically availing to ‘the fellow human in a direct-capacity or deferential-capacity of human growth/development/maturation’ as to their ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity to pursue it or not). The blunt fact is that society is never its own inherent intellectual-and-moral absolute reference and thus is in want for its intellectual-and-moral development explaining why progress happen and the role of the genuine social intellectual–function/posture being

implied61nonpresencing–⟨perspective–ontological-normalcy/postconvergence⟩ is the veracity
that epistemicity is veridically as of ontological-normalcy/postconvergence as to human limited-mentation-capacity-deepening postconverging–de-mentating/structuring/paradigming implications wherein prospective knowledge-reification gesturing as of sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ ‘is actually possible and accompanied with a more profound but implicated notion of epistemicity’ (as prospective sublimation actually invents prospective epistemicity). This insight contrasts with a naïve science ideology conception of epistemicity as to ‘a lack of nonpresencing–perspective–ontological-normalcy/postconvergence perspicacity in an in-effect absolution exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existentia-contextualising-contiguity as of a desublimating historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition’ that fails to factor in prospective human limited-mentation-capacity-deepening postconverging–de-mentating/structuring/paradigming implications (and go on to behold epistemicity as to a certain ‘supposedly imagined moment of past science’ rather than the fact that prospective scientific sublimations come-with/are-not-divorced-from prospective epistemicity insights hermeneutically/reprojectively/supererogatingly/zeroingly as so-rather driven by human supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness inducing sublimation-over-desublimation beyond ‘mere-formulaicity of conception of epistemicity secondnatured reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’). Critically, in this respect there was no prior inherent mere-formulaicity basis for Einstein’s Relativity theory but for his sublimating self-assuredness-of-ontological-good-faith/authenticity postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality as to his hermeneutic/reprojecting/supererogating/zeroing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness underscored by the

Hence the most coherent and unfailing epistemicity basis of science speaks to ‘inherent sublimation-over-desublimation’ as to nonpresencing—<perspective–ontological-normalcy/postconvergence> establishing/re-establishing of sublimating 46(historiality/ontological-eventfulness17)/ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>. Such a conception of epistemicity is rather all-englobing with regards to all human knowledge as to the reality of hermeneutic/reprojecting/supererogating/zeroing supererogatory acuity/perspicacity/astuteness/edginess/incisiveness for human<br/><br/>—<amplituding/formative–epistemicity>totalising—renewing—realisation/re-perception/re-thought in apriorising/axiomatising/referencing—conflicatedness (with regards to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); with the extensive development of many a formalised and elaborate domains-of-study like natural sciences unique experiential inordinary existentialising–frames (inordinary because the human has to invest an unusual/inordinary amount of mental resource in an unusual/inordinary existentialising–frame of contemplation associated with their thought-experiments, material experiments, institutional frameworks of experimentation, etc. but so while utilising the very same overall human experiential tool/arrangement of ordinary/usual life though in a different capacity/potentialisation such that in reality scientific experiments/observations are just circumstantial/contextualised elaborateness of natural human

supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness drivenness of epistemicity (reflecting the fact that the notions of scientific experiments and observations are just extensions of a human hermeneutic/reprojecting/supererogating/zeroing supererogatory~acuity/perspicacity/astuteness/edginess/incisiveness contemplation of ordinary existential experience and observations). Such a nonpresencing-<perspective–ontological-normalcy/postconvergence> conception of epistemicity it is herein contended is most profound social and overall knowledge aporeticism overcoming/unovercoming relevance. Human angling-of-imaginary (unlike the predisposition to mere-formulaicity of human psychical-nascency) construes of knowledge as of incipient social conception and instigation (beyond and unfazed by its supposed manifest institutional capture/catchmenting) as to its veridical existential veracity for prospective sublimating ontologising/re-ontologising relation to human ‘social-functioning-and-accordance—as-of–social-stake-contention-or-confliction imbuing existentialising–frame of disontologising/ontologising-and-re-ontologising’. In this regards, desublimating attitudes of mere institutional imprimaturing do not necessarily constrain the possibility for divergent social interests for prospective existential ontologising/re-ontolgising conception for sublimating knowledge-reification gesturing (and critically veridical intellectualism rather perceives institutional stature as the opportunity to further demonstrate and invest into demonstrating its effective intellectual relevance whereas an institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation tend to construe of institutional stature as a defensive fall-back as to mere-formulaic institutional-imprimaturting and institutional-legalism poorly upholding/perpetuating the veridical

budding-positivism movements with their correspondences and initiatives in sublimating self-
assuredness-of-ontological-good-faith/authenticity~postconverging−de-
mentating/structuring/paradigming ~as-being-as-of-existential-reality ultimately led to the
subversion of medieval-scholasticism ‘non-positivising scholasticism ontological-bad-

many ways the postmodern movement is more potent as to its social dynamics of ‘liberation
and emancipation’ (however incipiently crude as to its sublimating self-assuredness-of-
ontological-good-faith/authenticity~postconverging−de-
mentating/structuring/paradigming ~as-being-as-of-existential-reality) in the face of surreptitious and spurious strategies of anti-
intellectual misanalysis, misinformation and complotment as to our modern-day ‘pedantic
totalisingly-disentailing—discretion/whim-of-thought ontological-bad-

Thus the more centrally defining element of human angling-of-imaginary speaks to human capacity for contemplation of metaphysics-of-absence-{implicit-epistem-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} epistemic-projection which is elusive to psychical-nascency disposition. But then this is no more different for the implicit projective-insights approach to think pervading the natural sciences; as to a fundamental aptitudinal capacity to think in terms of perspectives (implicitly speaking to such notions like projections and fields of conceptualisation that do not absolutise our present conceptualising framework and actually factor in the limited-mentation-capacity to then project of the implications of human limited-mentation-capacity-deepening~). In this regards, (and as priorly indicated herein just as conceptualising ‘the actuality<-as-to-history> of physical manifestations of the cosmos as astronomy’ with physics rather construed as the ‘archaeological-conceptualisation<-as-to-its-ahistorical-emancipation> of such an actuality conception that is astronomy’ such that the ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are conceptualised from the ahistorical-emancipation of physics as of an underlying physics archaeology-conceptualisation that allows for the momentous sublimating ~historiality/ontological-eventfulness~/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of astronomy to be construed and so unlike a naivist desublimating ~historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition approach that fails to factor in that the varied ‘beholdening astronomical manifestations of planetary phenomena, planets, stars, galaxies, etc. as to a given shape of the universe and its becoming’ are rather undergirded by an ahistorical-emancipation of conceptualisation of congruent physics principles as to their underlying ontological-contiguity~), in many ways the implicated notions of Foucauldian genealogy/archaeology and Derridean différence as well as explicited herein as of the

Basically, given that such ‘a projection of ahistorical-emancipation knowledge-reifying-and-empowering conceptivity/epistemic-reflexivity imbued theoretical/conceptual/operant implications’ is even more unsettling (as to ‘the psychologismic
implications on human reference-of-thought as grandest-axiomatic-construct of meaningfulness-and-teleology existentialising–decisionality of prospective transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity), in many ways the ‘communicable contemplative veracity of such transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity thought’ can only be ‘glimpsed of, countenance/appreciated in the margins and communicated rather as of prospective metaphoricity’ (just as it can fairly be argued that even budding-positivists never really grasped the full veracity of their prospective transcendence-and-sublimity/sublimation/suprerogatory–de-mentativity rational-empiricism thought associated ‘psychologismic implications on human reference-of-thought as grandest-axiomatic-construct of meaningfulness-and-teleology existentialising–decisionality’ and so let alone the anti-positivistic stances of their medieval-scholasticism distractors); and so speaking to the veracity/reality of the ‘intellectual ineptness’ of the ‘self-presence/self-constitutedness’’ and so more to the anti-positivistic stances of their medieval-scholasticism distractors); and so speaking to the veracity/reality of the ‘intellectual ineptness’ of the ‘self-presence/self-constitutedness’ in prospective relative-ontological-incompleteness exposed to such contemplation as it highlights the given institutionalisation prospective uninstitutionalised-threshold (inducing an intellectual paradox of disontologising wherein a state of relative-ontological-incompleteness ‘as to its flawed in-effect absolution’ is supposedly supersedingly/arrogatingly analysing the veracity of prospective relative-ontological-completeness projection as to the relative-ontological-incompleteness flawed in-effect absolution appropriating/presumptive ontological-veracity).

The critical point here is rather about enunciating that veridical meaningfulness-and-teleology manifests in existential-contextualising-contiguity induced ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-reification/contemplative-distension (and so more than just mere-formulaicity of of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation that fails to account for the ‘existential-contextualising-

positivism/medievalism and procrypticism–or–disjointedness-as-of-reference-of-thought respectively in contemplating such prospective psychologismic implications; with the true reality of such a question and its discursivity rather translated as a notion of manifest existential-contextualising-contiguity induced ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ respectively as towards base-institutionalisation, universalisation, positivism/rational-empiricism and prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought (thus validating the contention that the communicable contemplative veracity of such transcendence-and-sublimity/sublimation/supererogatory–de-mentativity thought’ can only be ‘glimpsed of, countenance/appreciated in the margins and communicated rather as of prospective metaphoricity’ with pretenses of ‘self-presence/self-constitutedness in-perspective–epistemic-abnormalcy/preconvergence’ in prospective relative-ontological-incompleteness in many ways just pompous ignorance at best and at worst deliberate pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation especially so-manifested in the wanton cultivation of mere-formulaic institutional-imprimaturing and institutional-legalism over genuine knowledge interest). The more fundamental point here is to reflect upon the fact and implications that beyond the accompanying ‘distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation’ in the human notional–philosophy existentialising–frame of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the very possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as to angling-of-imaginary lies with the reality of human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-

This ‘ahistorical-emancipation as to archaeological-conceptualisation of prior/present/prospective human ontologising insight as of nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection of ontological-contiguity conceptualisation as to prior/present/prospective epistemic-projection’ contrasts with flawed ‘theoretical conceptualisations of the social as to presencing—absolutising-identitive-constitutedness epistemic-projection devoid of ontological-contiguity conceptualisation as to prior/present/prospective epistemic-projection’ (as the latter puts into question the veracity of this very same notion of ontologising as in the natural sciences with regards to prospective aporeticism overcoming/unovercoming) and is herein construed as manifesting ‘beholdening historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition lacking in the capacity for nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection of ontological-contiguity’. In this respect we can appreciate with regards to the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ that its most critical/grave moments are moments at which it is hardly/poorly present/existent as to its ‘given implied totalising-entailing meaningfulness-and-teleology’ wherein for instance the social atrophying associated with the Great Depression rather elicited statal supererogatory–progressivity extending into the postwar era of sociopolitical and socioeconomic value renewal that can hardly be qualified as of capitalistic instigation in the pure sense of the word and in many ways the technocracy developed and resourced in the postwar years and the associated scientific and technical advancement especially in the face of the Cold War in many ways speak to an underlying supererogatory–progressivity on which waves the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ rode as so-reflected by Eisenhower cautioning about the U.S. militaro-industrial complex potential sycophantic exploitation of such overall national supererogatory–progressivity and further reflected as to the accruing of national technical and scientific dividends incommensurably to private capitalistic actors. Furthermore, moments of national socio-economic crises as to such capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ have always been critically involved with recouping and reallocating resouces and means for ‘a poorly self-sustaining capitalistic model of social ascendancy with respect to public externalities, taxation and public debt’ as such a capitalistic model increasingly developed in later years into a de-mentative/structural/paradigmatic parasitising renting economic model associated with the explosion of financialisation especially as it substitutes/arrogates the social capacity to instigate formative supererogatory–progressivity initiatives (as it can now be appreciated that in many
ways much of the postwar economy arose as of strong public and local governance directed investment in public infrastructure, housing and property which supererogatory–progressivity in many ways is now capitalistically substituted/arrogated rather as of a short-term renting-model that thrives upon creating winners and losers as to asset inflation strategy for skewed value-extraction). In a critical respect all the creative social supererogatory–progressivity after the postwar years is now reduced in terms of public mitigation of the deleterious fallouts from the capitalistic model all other social supererogatory–progressivity possibilities are now effectively assumed to lie with propping up a poorly self-sustaining capitalistic model (with respect to public subventions, bailouts, taxbreaks) and so notwithstanding the massive financial gains and transfers to tax havens as to a global economy of contrasting rising wealth disparity with the supererogatory–progressivity for individual and social creative initiatives construed as lying in a labour subsistence surrendering to whatever modest possibilities such capitalistic model makes available as supposedly an absolutely determining construct of human supererogatory–progressivity possibilities (while overlooking the reality of its manifest renting parasitising of social value and value possibilities). This in effect speaks to ‘a renting and skewed value-extraction capitalistic colonising of the social capacity for supererogatory–progressivity’ as to imply that the social capacity for initiative can only be logged/cultured into the expropriating/estranging/constraining/limiting capitalistic model and so-reflected as of a globalised framework of totalising-entailing interlocking corporate interests and corporate welfareing that in effect critically and implicitly dictates to states (as of the subtle threat of runaway financial and economic disaster and/or state political-economy retrogradation for non-compliance) the very possibility for their full-capacity for supererogatory–progressivity while being well aloof of the public accounting that political actors running states have to fulfill thus speaking to a most fundamental globalised capitalistic induced democratic-deficit while relatively disempowered governments are left to pick-up-the-pieces (while de-
mentatively/structurally/paradigmatically hemmed-in by the clerical counsels championing the
capitalistic model) as to the blindness/sightlessness of a general public backlash (directed to
media-driven impressionable narratives rather than to the protracted implications of the roguish
capitalistic model), and so as to the more critical de-mentative/structural/paradigmatic
international capitalistic system usurpation and undermining of the possibility for social
supererogatory–progressivity and rendering democratic processes circularly unsatisfactory with
the electorate increasingly resorting to protest and anti-incumbent votes. In many ways thus the
supererogatory–progressivity potential of the global economy presents more opportunities than
the capitalistic model arrogatingly seem to imply as in many ways it can be argued that as of
individual and social supererogatory–progressivity much of ‘vocational rationale’, ‘vocational
skills’, ‘vocational economic models’ and ‘vocational creativity’ underlying the capitalistic
model can perfectly thrive without capitalistic ‘catchmenting-by-rejection vague/imaginary
lures of social-stake-contention-or-confliction’; and so as to the fact that the very notion of
capitalistic enterprising across the world takes various shapes and forms wherein ‘the more
doctinaire skewed value-extraction and market distorting models’ ride-the-wave of profound
value creation activities (often of poorly compensated supererogatory–progressivity) and in
many ways undermining the inclination for profound value creation as to the shortcut for short-
term returns. This capitalistic model of skewed value-extraction undermines the possibility of
overall human supererogatory–progressivity as to when in the contest between optimal-
resource-allocation for value-creation as to the requisite creativity for individuals and social
supererogatory–progressivity and skewed value-extraction eventually reflects poorly self-
sustaining capitalistic model (but for mechanisms of external and foreign relocations exploiting
the externalities investments in education and infrastructure of second and third world
countries) but still posing the question as to how skewed value-extraction can de-
mentatively/structurally/paradigmatically address in the long-run issues of requisite social and
public investment as a requisite for a theoretically self-sustaining economic model (not critically driven and supported by the supererogatory–progressivity prioritisation of local or foreign state) as ‘arrogating public supererogatory–progressivity at the exclusion of overall social and resourcefulness/ingenious possibilities’. Interestingly, the more explicit manifestation of supererogatory–progressivity as underlying any given underpinning–suprasocial-construct is most obvious today with the Chinese economic revolution as to the creative impetus driving its overall socioeconomic transformation. Here again it is fair to say just like with the Japanese and South Korean economic revolutions (given their more uniform and deferential populations) there is a whole directedness here (beyond just a purist capitalism model especially of a renting and skewed value-extraction capitalistic model) and so as to ‘country supererogatory–progressivity directed whole socioeconomic transformation project’, and in many ways the capacity for the Chinese to now begin to invest abroad lies with this relatively healthy supererogatory–progressivity conception/model less betrothed to short-term skewed value-extraction poorly capable of fulfilling the necessary externalities investment to thrive in weaker developing markets (in contrast to the long-term resource-allocation needed to make such markets stable and sustainable). But then in reality when push-came-to-shove the fact is that the postwar history of all modern developed governments was hardly about their naïve subjection to a purist capitalistic model to rebuild themselves as in reality their redevelopment involved initial and massive public-driven investments in association with already matured nation-building human resource as to the reality of their supererogatory–progressivity national development programmes (especially as in the middle of the 20th century international trade accounted for just a small part of economic growth) and it is this that purportedly then gave way in later years to a the rising capitalistic model associated with privatisations and private equitisation; and this supererogatory–progressivity model applied in the postwar governments of Western Europe, the United States as well as China, Japan and
South Korea as to their initial economic redevelopment. Paradoxically one of the most deleterious postwar economic policy stances advanced with respect to many a third world country as to the prodding of international economic organisations and as ‘abstractly and vaguely theorised’ by capitalist economists was the advocacy of nation-building in the third world following their postwar independence on the basis of the purist capitalistic model, thus leading in many ways to perpetuating the dependence of these nations on these international economic organisations as having to submit to the capitalistic ‘shallow-supererogation\textsuperscript{97} of supererogatory–progressivity’ as so-associated with debt servitude and dementative/structural/paradigmatic adjustment programmes. The fact then is that the only nations in the postwar years that ‘truly experienced anything closed to the pure capitalistic economic model as devoid of any national supererogatory–progressivity investment-drive and social programmes mitigation for the consequences of the capitalistic model’ are in many ways third world countries of limited human and natural resources to be capable of instigating national supererogatory–progressivity with respect to their incipiently disadvantageous circumstances (especially compounded by their limited nation-building human resources) and this in many ways accounts for their high and relatively inefficient and subsistence informal sectors as to the relative inability of state resources to construct profound and sustainable projects of socioeconomic development (and even then when given the chance with the little means available as of a natural intuition they recoursed essentially to supererogatory–progressivity initiatives like education and basic infrastructural capacities that will hardly pass the test of a true profit-driven and value-extraction capitalistic model), and more critically so as to their more profound interests in social stability in the very first place which can only arise as from a basic level of social wellbeing of their populations before even practically utterly appropriating any such abstract capitalistic model rationale (which in many ways actually served to induce a skewed logic on the basis of which natural resources exploiting corporations from developed
countries exploit third world natural resources on unfair shallow-supererogation经济发展 terms) and as the short-termism of such a capitalistic model can hardly contribute to inducing the requisite political stability for sustained economic progress (with the capitalistic model as to its self-serving requirement rather warranting the requisite externalities possibilities for its thriving to be established beforehand). The more abstract rationale here (as to ‘human-decisionality<-as-to-play-of-valid/invalid-decisionality-imbued-sublimation/desublimation>
omni-potential commensurability with inherent immanent-existence’s sublimation-structure’/omnipotentiality) is to reflect the reality today of underlying human supererogatory—progressivity as to the incipient reality that human family, communal, clanic and national communities cannot truly operate on the totalising-entailing basis of a purist capitalistic model of social organisation (as to the very risk of undermining social organisation as reflected in the relative prioritisation of national education and basic public facilities in the post-independence years in many Third world countries) with such a purist conception rather reflected as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ in a rather comprehensively developed framework/mechanism of value-allocation and value-extraction necessarily underlied notionally by a basic level of supererogatory-progressivity allow for the ‘delusion/sleight projected about a purist conception of capitalism’ (serving rather the more veridical and underlying self-serving ‘dominance/vested-interest—drivenness<-as-to-its-direct/indirect-eliciting-by-or-exploiting-of-prospectively-descalarising/subontologising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of 

presencing—absolutising-identitive-constitutedness )
social-vestedness/normativity<-discretely-implied-functionalism>’). Further the capitalistic model as to its fabrication of winners and losers given its ‘all englobing critical delimiting/catchmenting of human supererogatory—progressivity possibilities’ increasingly brings peoples at loggerheads across races, classes, regions and
nations with the implication that since it is centrally/critically defining as to the modern-day statal conception of social supererogatory–progressivity possibilities, there must necessarily be losers and winners with no creative supererogatory–progressivity beyond this dilemma; thus as to the fact that there can’t be a profound humanity-level creative supererogatory–progressivity as well as decolonised–capitalistic-by-statal supererogatory–progressivity so-construed as ‘anarchical individual and social supererogatory–progressivity’. Such a representation as herein articulated of the truer supererogatory–progressivity (however the ‘shallow-supererogation’ of supererogatory–progressivity’) beneath the capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’ is hardly reflected today as to ‘hardened narratives of an absolutising pure capitalistic model’ as mirroring the very ruthlessness associated with the renting and skewed value-extraction capitalistic model (as so-enculturated socially and mediatically as to °presencing—absolutising-identitive-constitutedness<sup>1</sup> social-vestedness/normativity<&lt;discretely-implied-functionalism>). The relative veracity of supererogatory–progressivity is strongly seen with the state-driven Asian and European supererogatory–progressivity economies (with the Germans, Japanese and Chinese out-competing the U.S. with respect to trade balance and so without all the ‘grandiose capitalistic economic theorising’ but on the more veridical realism of policy-driven supererogatory–progressivity) and as even in the U.S. there is atleast a critical level of strategic supererogatory–progressivity with local states definitely adopting incentives-driven approaches of supererogatory–progressivity; all this speaking from an totalising-entailing perspective analysis of the purist capitalistic model as poorly self-sustaining of its socioeconomic framework (especially its relative irresponsibility with regards to foundational externalities like education, infrastructure, well thought-out policies, collective social advancement, etc.). The bigger question that then arises has to do with the possibility for optimal human supererogatory–progressivity ‘beyond just the statism and geostrategy/states-competition
muddled framework’ that is preconvergingly–de-mentated/structured/paradigmed to induce skewed ‘shallow-supererogation’ of supererogatory–progressivity’ as to capitalistic ‘catchmenting-by-rejection vague/imaginary lures of social-stake-contention-or-confliction’.

Taking a step aback, in many ways the reality of the very fundamental notion of the capitalistic model speaking of perfect markets do not exist, and rather ‘markets themselves develop as advantageously created situations after the facts’ as to the requisite human creative supererogatory–progressivity for a market to even arise; and in this respect the supposed fittest notion of capitalistic competition as to punctual/immediate fitness tends to underperform the more advantageous supererogative contemplative deliberation of markets for critically efficient/optimising resource allocation/utilisation/development (as to the fact that de-mentatively/structurally/paradigmatically the relatively deliberative conceptualisation of markets associated with say German, Japanese, Chinese, South Korean public-policy supererogatory–progressivity economic models participate in their competitive edge over ‘vague/abstract punctual/immediate fitness notion of capitalistic competition’ that speaks to an overall deliberative optimalising potential of human supererogatory–progressivity beyond any such capitalistic limitative-artifice-of-human-imaginary/metaphysical-conceptualisation as to ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ existentialising–decisionality). The so-construed notional–deprocrypticism epistemicity conception of predicative-effectivity–sublimation as to underlying-ontological-commitment provides the requisite basis for prospective human ontological-performance convergence towards ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective notional–deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct amplituding/formative–epistemicity’ totalising/circumscribing/delineating given

Such a depth of contemplation as to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100} effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-and-sublimity/sublimation/supererogatory–de-mentativity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{67}—of-

In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity—<profound-supererogation—of-mentally-aestheticised—postconverging/dialectical-thinking—qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, a different interpretation can be made about the posture of a thinker like Heidegger during the

profound-supererogation–of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn’t substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview’s/dimension’s vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’> inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying

As a further elucidation, prospective notional-contiguity/epistemic-contiguity of <profound-supererogation of-mentally-aestheticised–postconverging/dialectical-thinking of-qualia-schema> as of prospective relative-ontological-completeness of reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of <supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics> which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care–and–episteme over the uninstitutionalised-threshold attitude/mental-disposition/care–and–episteme. We can effectively grasp why Heidegger’s implicited insight as of notional-discontiguity/epistemic-discontiguity of <shallow-supererogation of-mentally-aestheticised–preconverging/dementing–qualia-schema> but rather being associated with a given tradition actually couldn’t break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity of <shallow-supererogation of-mentally-aestheticised–preconverging/dementing–qualia-schema> as ‘futural way of thinking’, as it misperceived that any tradition can reveal as of its inherent nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism and so ‘as to the fact that dimensionality-of-sublimating—(<amplituding/formative>supererogatory-de-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme. In other words philosophical thought is all incipiently/seedingly about dimensionality-of-sublimating\textsuperscript{5}\langle amplituding/formative\rangle supererogatory\textsuperscript{\textsuperscript{12}} de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle, and Heidegger’s issue should have actually been about future Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} just as Descartes issue in articulating budding-positivism/rational-empiricism (traditionally construed-as-rationalism) was not with setting up its \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} in contention with prior non-positivism/medievalism as of the then projective future Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} of positivism/rational-empiricism, apart from mere intellectually contrastive elucidation, but rather implied affirming prospective positivism as of its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme; and so as of the fundamental implication of positivism prospective relative-ontological-completeness\textsuperscript{94}–of–\textsuperscript{34} reference-of-thought over non-positivism/medievalism prior relative-ontological-incompleteness\textsuperscript{90}–of–\textsuperscript{1} reference-of-thought.
We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity\textsuperscript{a}<-\textsuperscript{b}\textsuperscript{<profound-supererogation\textsuperscript{c}->of-mentally-

In effect it is herein contended that what is implicitly missed about the Cartesian proposition ‘I think therefore I am’ is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is ‘more than just speculative doubting’ but ‘motivated doubting’ that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context aporeticism overcoming/unovercoming

That is, Descartes seeks to affirm the ‘mereness of thought’ beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought ‘out of thin air’ as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity\(^57\) rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval-scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity\(^57\) implication that the natural can be thought of operationally and in sublimation on its own terms–as-of-axiomatic-construct. Thus Descartes ‘I think therefore I am’ is rather a statement of intent as of a ‘futural way of thinking and sublimation’ and its budding-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme, that is unique as ‘consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and postconvergingly–dementating/structuring/paradigming the possibility of elucidation of any subject on this thinking educing sublimation basis’. In effect Descartes project is actually as to existence-potency\(^38\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression relative-

We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as to existence-potency sublimating-nascence,-disclosed-from-prospective-epistemic-digression; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness of reference-of-thought:relative-ontological-completeness -of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of demolition-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) with regards to the reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in resetting-our-

This phenomenological insight in recognising that there is ‘an underlying metaphoricity\(^{[6]}\)-induced relative-emancipatory migration’ from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism–procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care–and–episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human \(^{56}\)meaningfulness-and-teleology\(^{[10]}\) as of prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\)reference-of-thought; and so, as of retrospective and prospective \(^{5}\)meaningfulness-and-teleology\(^{[10]}\) interpretation construed as \(^{46}\)historiality/ontological-eventfulness\(^{17}\)/ontological-aesthetic-tracing-\(\text{<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>\). Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘adhocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions \(^{8}\)reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme from our present attitude/mental-disposition/care–and–episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-

Thus a registry-worldview/dimension institutionalisation \(^{84}\)reference-of-thought always operates as if it is the absolute framework of \(^{100}\)meaningfulness-and-teleology, that is, by its ‘interiorisation attitude/mental-disposition/care–and–episteme’, notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness\(^{84}\)-of-\(^{94}\)reference-of-thought at its uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension institutionalisation \(^{84}\)reference-of-thought in an ‘exteriorisation attitude/mental-disposition/care–and–episteme’ towards it. Consider in this regard the ontologically-veridical reflected immersed-and-engrossed attitude/mental-disposition/care–and–episteme with respect to the ‘ill-health \(^{45}\)<amplituding/formative–epistemicity>totalising–devolved–purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ wherein the ‘to be or existing as wholly immersed-and-engrossed’ recurrent-utter-uninstitutionalisation existential-contextualising-contiguity ‘-lowest-level-reification’ perceptivity-as-of-bad-omen attitude/mental-disposition/care–and–episteme could involve a conversational stance of the sort, ‘I have been stricken by a spirit’, in an effusive-conversational-as-of-existential articulating of what can be done to allay such a spirit; or with respect to our positivism–procrypticism, in an effusive-conversational-as-of-existential articulating of a clinical analysis mainly as a patient ill-health state; or with respect to prospective postmodernism, in an effusive-conversational-as-of-existential articulating of

projected epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of ‘science-ideology’ over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’’. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markedly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn’t work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology
about science and it is rather the constraint for existential-contextualising-contiguity\textsuperscript{19} knowledge-reification\textsuperscript{37} that determines science practice, and so in existential apriorising/axiomatising/referencing—conflatedness\textsuperscript{12}. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-

The notion of human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification’ can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity\textsuperscript{39}—in-reification\textsuperscript{87}’ can be construed as to when say the non-positivistic mindset goes about articulating\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity\textsuperscript{39}—reification\textsuperscript{87}, and likewise with regards to a positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of—reference-of-thought mindset construal of\textsuperscript{84} meaningfulness-and-teleology\textsuperscript{100} that utterly overlooks the de-mentative/structural/paradigmatic\textsuperscript{84} reference-of-thought denaturing\textsuperscript{5} implications of its prospective disjointedness of\textsuperscript{84} meaningfulness-and-teleology\textsuperscript{100} out of prospective existential-contextualising-contiguity\textsuperscript{39}—reification\textsuperscript{87}, as such disjointedness-as-of—reference-of-thought can be instigated originally from a postlogism\textsuperscript{78}—slantedness mental-disposition and the developing social dynamics with human temporality\textsuperscript{9}. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} about existential-contextualising-contiguity\textsuperscript{39}’; but then at its uninstitutionalised-threshold\textsuperscript{03} where its\textsuperscript{84} reference-of-thought de-mentative/structural/paradigmatic ontological-

In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposer—as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence—reflected—epistemicity–relativism> of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it, however our myopic/cloistered 60–100 years of living perspective. That is, grounding of meaningfulness—

This insight further highlights the pertinence of the registry-worldview/dimension
reference-of-thought as of secondnatured institutionalisation as rather
decisive with regards to human-subpotency ontological-performance

It is further critical to understand that while universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-, <amplituding/formative-epistemicity>totalising—in-relative-ontological-completeness } with associated nested-congruence and harmony is brought about as of prior institutional secondnaturing, this should not be naively expected at uninstitutionalised-threshold as we very much know that all uninstitutionalised-threshold are conflicted as of their framework of ‘recurring dimensionality-of-sublimating (supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) temporal-to-intemporal’ for prospective institutionalisation prospective relative-ontological-completeness—of—reference-of-thought. The constraining implications of existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{87} as of human\textsuperscript{4} epistemicity\textsuperscript{9} totalising—thrownness-in-existence\textsuperscript{14} (I exist therefore existence is transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance-as-including-virtue-as-ontology) means that it is wrong to construe the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of a human temporal dimensionality-of-sublimating\textsuperscript{13} (\langle amplituding/formative\rangle supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equality\rangle transformation, and so fundamentally because of human limited-mentation-capacity and the correspondingly constraining consequences on its ontological-performance-as-including-virtue-as-ontology). Rather it is more candid to relate to the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of human limited-mentation-capacity-deepening\textsuperscript{11}, and so as of prospective intemporal secondeparated institutionalisation induced\textsuperscript{104} universal-transparency\textsuperscript{105}—\langle transparency-of-totalising-entailing—as-to-entailing-as-to-entailing\langle amplituding/formative—epistemicity\rangle totalising—entailing—totalising—entailing—totalising—completeness\rangle, deferential-formalisation-transference and habituation in positive-opportunism\textsuperscript{10}. Central to any such prospective institutionalisation transcendental-enabling/sublimating/supererogatory—de-mentativity\textsuperscript{51} meaningfulness-and-teleology\textsuperscript{100} is the fact that the human mind is not necessarily geared to come to terms with prospective relative-
ontological-completeness of reference-of-thought without the necessary psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the developed disposition to register such implications as of their intemporal/longness-of-register-of—meaningfulness-and-teleology pertinence; as the notion of crossgenerational de-mentionation (supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics) herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendentally implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing—as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process, so-construed-as-singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism. Furthermore, the implications of ‘notional-

The fundamental implication here is that transcendental meaningfulness-and-teleology\(^0\) is hardly construed in any presence registry-worldview/dimension reference-of-thought as of its rather prospective relative-ontological-completeness\(^0\)-of-reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness\(^0\)-of-reference-of-thought<amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^4\); with the possibility of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity arising as of crossgenerational induced metaphoricity\(^1\). underlies relative-ontological-incompleteness as of human living underdevelopment, institutional underdevelopment and Being underdevelopment, as of a lack of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’; as of the fact that ‘meaningfulness-and-teleology’ is always incomplete when conceived simplistically as being all about ‘mechanical-constraints of rules without spirit’, construed as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation—as-of-ontologically-compromised—categorising-or-qualifying-or-tendentious-or-impulsive implied dissingularisation—<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness/>epistemic-nonimmanence/flawed-epistemic-determinism. The full implications here is that a notional–deprocrypticism ontologically-uncompromised—referentialism singularisation—<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism construal of ‘meaningfulness-and-teleology’ is more critically about eliciting the ‘subject intemporal-disposition sense of knowledge-and-virtue as of its <de-mentation>/supperrogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics for a fully protracted-consciousness beyond a cloistered-consciousness’ in line with Foucauldian hermeneutics of the subject futural implications. Further, it is important to grasp that ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ is actually associated with all the transcendence-and-sublimity/sublimation/supperrogatory—de-mentativity of all the successive registry-worldviews/dimensions, but that what is particular with notional–deprocrypticism summoning

projected epistemic-immanence/veridical-epistemic-determinism, is the fact that it achieves the potentiative-aspiration of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as a ‘seeding promise of human-subpotency ontological-performance’

It is untenable to construe of the ultimate potential of human emancipation without the eliciting of this more fundamentally authentic basis of human emancipation as of the overcoming of human limited-mentation-capacity temporal dynamics beyond just ‘the elicitation of positive-opportunism to existential constraining’; as implied by ontologically-uncompromised—referentialism singularisation-&lt;as-to-the-nondisjoinedness/entailment-of-prospective- nonpresencing&gt;

ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good

singularisation-as-to-the-nondisjointedness/entailment-of-prospective--nonpresencing

projected epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing

projected epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <amplituding/formative--epistemicity>totalising--self-referencing-syncretising/circularity/interiorising/akrasiac-drag>, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-of-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrysticism as from futural Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrysticism–or–preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of-meaningfulness-and-teleology as of prospective <amplituding/formative> wooden-language-imbued—averaging-of-thought--as-to-
fundamental paradox/confusion with regards to sound human intellection at destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality} of ontological-performance \langle including-virtue-as-ontology \rangle. As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of \langle transparency-of-totalising-entailing-as-to-entailing-\langle amplituding/formative–epistemicity\rangle totalising–in-relative-ontological-completeness \rangle. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of \langle amplituding/formative\rangle wooden-language-\langle imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-\langle nondescript/ignorable–void –with-regards-to-prospective-apriorising-implications\rangle\rangle advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–\langle nononal–firstnaturedness—temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence\rangle–existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge-notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its dimensionality-of-sublimating.
transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\) inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implications put-into-question as ‘charlatanic’ institutions and their practices construed as of prior relative-ontological-incompleteness–of-reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of ‘its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme conception of knowledge’ that superseded and didn’t recognise-and-submit to medieval-scholasticism for its validation, as it construed that the latter wasn’t meant/de-mentated/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness–of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework\) constraining it crossgenerationally overrode medieval-scholasticism. It is herein contended that it isn’t out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full re-originar\-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–projective-insights’/epistemic-projection-in-conflatedness) potential for prospective intellectual emancipation, and so rather as of de-mentative/structural/paradigmatic institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of
‘understanding’ of prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought with the latter’s \(^{4}\) <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{84}\), given the psychoanalytic-unshackling/prospective-grounding/prospective-reification\(^{87}\) implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity\(^{9}\) constraint as of ontological-primemovers-totalitative-framework\(^{43}\) for the possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied ‘understanding’ as of transcendental knowledge. From the prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought naïve non-transcendental \(^{4}\) <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^{84}\), it may be thought/reasoned that a transcendentally projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of \(^{56}\)meaningfulness-and-teleology\(^{100}\)’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-threshold\(^{91}\) transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortal mortals that we are for our prospective emancipation. Without an insight about reification\(^{87}\) and
dereification\textsuperscript{87}, the notion of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{14} nonpresencing>\textsuperscript{97} projected epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-\textsuperscript{14} reference-of-thought for ontologically-veridical \textsuperscript{55}meaningfulness-and-teleology\textsuperscript{100} is easily misconstrued since denaturing\textsuperscript{15} of meaning in dereification\textsuperscript{87} will be teleologically-elevated and meaning produced as of reification\textsuperscript{87} will be teleologically-degraded; as so blatantly obvious particularly with the dereification\textsuperscript{87} manifestation of childhood psychopathy postlogism\textsuperscript{15}-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance\textsuperscript{12}<-<including-virtue-as-ontology> of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology\textsuperscript{100} reflecting dereified and reified construals of existential-contextualising-contiguity\textsuperscript{9} is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification\textsuperscript{87} and reification\textsuperscript{87} contrast. However, compounding this situation making relevant the need to contrast reification\textsuperscript{87} and dereification\textsuperscript{87} and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance\textsuperscript{12}<-<including-virtue-as-ontology> manifestation of psychopathy and social psychopathy which is ‘de-mentatively/structurally/paradigmatically associated with the denaturing of the amplituding/formative-epistemicity>totalising-devolved apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the

But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness\(^a\) will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness\(^b\)-as-‘epistemic-totality\(^c\)’-dereification\(^d\)-indissingularisation\(\text{<as-to-the-disjointedness/disentailment-of-}\)\(^e\) presencing—absolutising-identitive-constitutedness \(\text{> as-flawed-epistemic-determinism\(^f\)}\) is in reality preconverging-or-dementing —apriorising-psychologism as of its relative-ontological-incompleteness\(^g\). This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrypticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrypticism–or–disjointedness-as-of-reference-of-thought that speaks of our prospective preconverging-or-dementing—apriorising-psychologism at our prospective positivism–procrypticism uninstitutionalised-threshold\(^h\), and so as reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^i\) as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension prospective relative-ontological-completeness\(^j\). Interestingly, it should be noted here that with such phenomenon as psychopathy and social psychopathy that is ‘dementatively/structurally/paradigmatically associated with the denaturing\(^k\) of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold\(^l\) (just as notions-and-accusations-of-sorcery in a \(^m\) universalisation–non-positivism/medievalism social-setup is ‘dementatively/structurally/paradigmatically associated with the denaturing\(^n\) of the

Further and insightfully again, with the manifestation of childhood psychopathy where the postlogism-slantedness is universally transparent there is no occurrence of interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification as of the childhood slantedness, but with respect to adult psychopathy with the attendant maturation/indirectness/spatialisation/credulity/craftiness, such interlocutors cognisant-and-integrative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification arise as of their temporal threshold–of–nonconviction/madeupness/bottomlining–in–shallow-supererogation <as-to–‘attendant–intradimensional’–prospectively-disontologising–preconverging/dementing > apriorising-psychologism>, which implies an
invested social commitment as of thought and association that is then inclined to overlook inherent ontological-veridicality, as of interlocutors postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance-including-virtue-as-ontology leading to the dynamics of social psychopathy, and this logic also explains how and why notions-and-accusations-of-sorcery are endemised/enculturated in a non-positivism social-setup; with the insight as articulated by this author that more critically manifestations of postlogism-slantedness across all the registry-worldviews/dimensions are rather revelatory of the fundamental prior relative-ontological-incompleteness-of-reference-of-thought, with transcendental implications that goes well beyond the ad-hoc conception of manifestations of postlogism-slantedness but more broadly conceive as of the destructuring/aetiologisation/ontological-escalation implications arising from underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought with regards to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underdevelopment issues. mental-disposition associated with vicious accusations-of-sorcery for instance in a non-
positivistic as animistic or medieval social-setup. The fact that even an intemporally-inclined mental-disposition in that social-setup has an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity\textsuperscript{20}–in-reification\textsuperscript{37}/dereification\textsuperscript{87} that is ‘mutually cognisant-and-integrative beyond-the-consciousness-awareness-teleology\textsuperscript{100}’<in-existential-extrication-as-of-existential-unthought>\textsuperscript{1}\textsuperscript{,} with notions-and-accusations-of-witchcraft itself as of their ‘underlying \textsuperscript{1}’ reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology\textsuperscript{100}’ presents an \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{1}} issue that endemises notions-and-accusations-of-witchcraft in the vices-and-impediments\textsuperscript{106} of that given social-setup. It is the prospective notional-contiguity/epistemic-contiguity\textsuperscript{1}–<profound-supererogation\textsuperscript{97}–of-mentally-aestheticised–postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema\textsuperscript{1} as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as setting up the positivism ‘underlying \textsuperscript{1}’ reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology\textsuperscript{100}’, that fundamentally undermines such endemisation; and hence it is not by accident that our present positivism registry-worldview/dimension is devoid of such issues since it de-mentatively/structurally/paradigmatically undermines temporal-to-intemporal cognisance and integrativeness of notions-and-accusations-of-sorcery as of the positivism ‘underlying \textsuperscript{1}’ reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–‘meaningfulness-and-teleology\textsuperscript{100}’, construed as ‘transcendental’ human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-

This very much differs from \textsuperscript{4} totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{37} ontological-contiguity\textsuperscript{67} palliative virtue constructs as of variance of the very same reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100}, and thus implies temporally \textsuperscript{5} neuterising ‘interiorisation attitude/mental-disposition/care–and–episteme’ of \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100}. This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} in reflecting holographically-\textsuperscript{5} conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{4}. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of prospective relative-ontological-completeness–of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective nonpresencing—as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality—as-to-projective-totalitative–implications-of-prospective nonpresencing,–for-explicating-ontological-contiguity as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

hyperrealisation/hyperreal-transposition) frameworks and temporal mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation frameworks; and, hence the ontologically-veridical paradox of the very postconverging–de-mentating/structuring/paradigming implications of human limited-mentation-capacity-deepening renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness perspective/framing/reference/horizon’ apriorising/axiomatising/referencing—constitutedness construal of categorising/taxonomising schemes that pervades the ‘modern categorising mental-disposition’ as of our occlusive-consciousness neuterising, as we fail to grasp the implication of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is naively superseding the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of existential reality as the absolute a priori’; such that the meaningfulness-and-teleology that arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is apriorising/axiomatising/referencing—conflatedness that ensures that our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
existential reality as the absolute a priori, and so as of an ontological-normalcy/postconvergence posture which rather ‘turns the idea of analysing and conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-deepening implications as of the underlying psychoanalytic-unshackling’ for human-subpotency construal of the full-potency that is existence. This insight about the complete relationship between developing human-subpotency and its potential to fully grasp the full-potency of existence, fundamentally underlies the protensive-consciousness referentialism of the notional-conflatedness of notional-deprocrysticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing. Such a postmodern-suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care–and–episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed in intemporality as supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism, whereas mechanical-knowledge is rather predispose to adhere as of temporal threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism to such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.
The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of 104 universal human rights, ‘economic-opportunistic-and-then-encultured tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding-positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology 100 in terms–as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness 89 of reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation postulate that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much
countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others’; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency –(transparency-of-totalising-
entailing,-as-to-entailing-\textsuperscript{45} <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{45}. Ultimately, such a double-gesturing hold out the possibility in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{47}—of-the-human-institutionalisation-process\textsuperscript{58} as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{60} as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{5}, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{6} in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification\textsuperscript{67} of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency\textsuperscript{104}-(transparency-of-totalising-entailing,-as-to-entailing\textsuperscript{11} <amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness\textsuperscript{45}). Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing\textsuperscript{13} that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-
ontologically-veridical attitude/mental-disposition/care–and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity as shallow-supererogation–of-mentally-aestheticised–preconverging/dementing–qualia-schema. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a universal projection implications attitude/mental-disposition/care–and–episteme event-or-operant to all and sundry. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy; as to when for instance, supposed critiques of postmodern relativism make mention of the anti-relativism stances of many a creed like Christianity (which are necessarily absolutist as to their doctrinal practices) thus decontextualising and equating the framework of secular intellectual discourse with that of a creed, something which even such creeds do not do given the mortal framework of human amplituding/formative-epistemicity totalising–thrownness-in-existence (as to when even the Christian Jesus refers to giving to Caesar what belongs to Caesar and to the Christian God what belongs to God as of a necessary relativistic stance with respect to human mortality which requires constructiveness and this stance is further reflected with interfaith dialogue which will be absolutely impossible if creeds were to engage each other on the absolute basis of their doctrinal practices), and furthermore much of the criticisms levied against postmodern relativism is ‘forged criticism’ in the sense that the critiques make their own flimsy interpretations of postmodern-thought and
then go on to criticise the flawed interpretation for instance the idea that pastiche art or the fact that Las Vegas Strip as-copying-other-notable-places-architectures are necessarily inauthentic and flawed is not necessarily a postmodern criticism as ontological-good-faith/authenticity and veracity is more fundamentally about the re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking-'projective-insights'/‘epistemic-projection-in-conflatedness ’-of-notional-deprocrypticism-prospective-sublimation) creative insight and appreciation of any pastiche work or of such a Las Vegas Strip replication of other notable places. With regards to all these ‘forged criticisms’ the underlying falsehood is rather geared to elicit a non-intellectual emotional response than true knowledge-reification insight. Further, as of organic-knowledge and knowledge-notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation<-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism<amplituding/formative-epistemicity>causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity shows that there has always been beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> ‘institutional investment’ that is not always just of eruditic ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology due to ‘lack of social universal-transparency—(transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>—totalising—in-relative-ontological-completeness)—’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness of reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of—meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of its crossgenerational transcendental implications and as reflected from the insight in reflecting holographically-<conjugatively-and-
transfusively> the ontological-contiguity\textsuperscript{67} —of-the-human-institutionalisation-process\textsuperscript{68}. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics’\textsuperscript{4} <amplituding-formative-epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-prime-movers-totalitative-framework\textsuperscript{73}, and so divulged by existence-potency\textsuperscript{1} —sublimating—nascence,-disclosed-from-prospective-epistemic-digression; as prior human \textsuperscript{38} presencing—absolutising-identitive-constitutedness\textsuperscript{13} experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as \textsuperscript{38} presencing—absolutising-identitive-constitutedness\textsuperscript{13} enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs apriorising/axiomatising/referencing—constitutedness\textsuperscript{1}, but rather it is by apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} with regards to ‘the very same physics’\textsuperscript{4} <amplituding-formative-epistemicity>totalising~devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of \textsuperscript{61} non-presencing—<perspective—ontological-normalcy/postconvergence>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of—
meaningfulness-and-teleology\(^{100}\) individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework\(^2\) tendential validation as to existence-potency \(^\sim\) sublimating–nascence, disclosed from-prospective-epistemic-digression. Such a construal of human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our \(^5\) neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening\(^5\) analysis; and insightfully, as reflected in the underlying apriorising/axiomatising/referencing—conflicatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay\(^2\), sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological \(^5\) neuterising with deneuterising —referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of \(^56\) meaningfulness-and-teleology\(^{100}\) as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional–deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is as of an ‘overall différance.
tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a supplanting–conviction-as-to-profound-supererogation—of–attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism deference to the prescience of existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather
what is in need for further Being and consciousness development. Thus the postconverging–de-
mentating/structuring/paradigming of sublimation for a registry-worldview/dimension
reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the
‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-
ontological-completeness –of- reference-of-thought over human normativity/conventioning as
of the latter’s prior relative-ontological-incompleteness –of- reference-of-thought, and so by
maximaling-recomposing
<amplituding/formative–epistemicity>totalising–renewing-
realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential
postconverging–de-mentating/structuring/paradigming of sublimation implying that the state of
recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation,
universalisation–non-positivism/medievalism, and positivism–procrypticism, are
successively-wanting of prospective defining-transcendence and defining-sublimity going by
their successively-given mechanical-knowledge in temporality –as-of-neuterisation /relative-
ontological-incompleteness /existential-extrication-as-of-existent-unthought. In other words,
an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of
prospective registry-worldview/dimension –reference-of-thought in prospective relative-
ontological-completeness –of-axiomatic-construct-or- reference-of-thought can’t sidestep
such implied prospective defining-transcendence and defining-sublimity, and undertake
existence as of the prior registry-worldview/dimension –reference-of-thought in prior relative-
ontological-incompleteness , even if it such a mental-disposition could lead to such an
outcome as in H.G. Well’s country of the blind or Galileo say with the medieval Establishment;
respect the fact that the possibilities of such outcomes arise out of establishment Charlatanism,
which knows better, but exploits lack of ‘social universal-transparency –{(transparency-of-
totalising-entailing,-as-to-entailing–<amplituding/formative–epistemicity>totalising–in-
relative-ontological-completeness )’}. But then it is actually a sign of ‘propounded theoretical
health and pertinence’ when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true ‘intellectual blankness’ grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of ‘solo media exploits of intellectual popularity’. Thus by its prospective relative-ontological-completeness -of-axiomatic-construct-or- reference-of-thought as futural differance, accreting-substitutive-subsumption-as-futural-differance-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence> on the basis of the prospective relative-ontological-completeness of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity -<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to- ‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing between presencing—absolutising-identitive-constitutedness and nonpresencing-<perspective–ontological-normalcy/postconvergence>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness of notional-contiguity/epistemic-contiguity’ construed as its
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’ to grasp notional–deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘notional–deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicus, Galileo, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they
would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness\textsuperscript{13} reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency\textsuperscript{14} (transparency-of-totalising-entailing,-as-to-entailing-\langle\textit{amplituding/}formative–epistemicity>totalising–in-relative-ontological-completeness\rangle)’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of de-mentation\textsuperscript{15} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing\textsuperscript{23}/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring<-as-to-postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism> of the consciousness in ontological-contiguity\textsuperscript{21}/relative-ontological-completeness -of- reference-of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-
measuring-<as-to-preconverging-or-dementing –apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity<sup>21</sup>-<shallow-supererogation<sup>37</sup>-of-mentally-aestheticised–preconverging/dementing –qualia-schema>/relative-ontological-incompleteness<sup>90</sup>-of- reference-of-thought as of <sup>54</sup>maximising-recomposing-for-relative-ontological-completeness<sup>9</sup>—unenframed-conceptualisation, and not <sup>51</sup>incrementalism-in-relative-ontological-incompleteness<sup>90</sup>—enframed-conceptualisation, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’”. As futural différance is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay différance’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening<sup>2</sup>; overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all <sup>5</sup>meaningfulness-and-teleology<sup>100</sup> should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising<sup>2</sup>, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing<sup>2</sup> as of prospective relative-ontological-completeness <sup>-of- reference-of-thought bringing about transcendance-and-sublimity/sublimation/supererogatory~de-mentativity as of nonpresencing<perspective–ontological-normalcy/postconvergence>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay<sup>2</sup> further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-
quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in
prior relative-ontological-incompleteness and prospective relative-ontological-completeness,
with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-
relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics
<amplituding/formative–epistemicity>totalising~devolved—purview/domain-of-
construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a
‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-
nature/difference-in-apriorising-or-axiomatising-or-referencing; with human-subpotency
aligning towards the full potency of existence which thus divulges the possibility of human
sublimation as of the physics science implications today. It is interesting to note that the
difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing bringing about
the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from
prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then
becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising’ of the new
physics as the new presencing; brought about from the transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity of nonpresencing—
<perspective–ontological-normalcy/postconvergence>. In other words, human consciousness tends to be
constraint to its <amplituding/formative–epistemicity>totalising~self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-
kind/difference-in-aposteriorising-or-logicising mental-disposition as of presencing—
absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of
nonpresencing—<perspective–ontological-normalcy/postconvergence> is beyond and not
constraint by human consciousness as of its <amplituding/formative–
epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-
underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity/sublimation/supererogatory—dementativity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence{(implicated—nondescript/ignorable—void ‘as-to—presenting—absolutising-identitive-constitutedness ) of any given

<amplituding/formative—epistemicity>totalising—self-referencing—synergising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks—presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates nonpresencing—<perspective—ontological-normalcy/postconvergence> enabling human transcendence-and-sublimity/sublimation/supererogatory—dementativity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying

<amplituding/formative—epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying

<amplituding/formative—epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity—signification within such renewed ‘underlying

<amplituding/formative—epistemicity>totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing
depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its apriorising/axiomatising/referencing—constitutedness with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism–or–disjointedness-as-of reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the nonpresencing–or–withdrawal–or–metaphysics-of-absence (implicated-epistemic-veracity-of- nonpresencing<<perspective–ontological-normalcy/postconvergence>>–or–transcendental-reasoning-of-event—as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this
hermeneutic/reprojecting/supererogating/zeroing circle phenomenological ontology elucidation as of its psychoanalytic-unshackling apriorising/axiomatising/referencing—conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what the find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought,
besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather ontological-good-faith/authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to ‘open-up’/’throw-up’/’reveal’ new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating/supererogatory–dementativity implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an uninsightful literal and shallow-minded/banal/flimsy reading; and with the ultimate outcome that all such naïve uninsightful literal and shallow-minded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn’t engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such ‘flatmindedness’/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<in-deferential-formalisation-
transference> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of wooden-language-{imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>}, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such ontological-bad-faith/inauthenticity critiques, as de-mentatively/structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness—of—reference-of-thought-postconverging-or-dialectical-thinking—apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness—of—reference-of-thought-preconverging-or-dementing—apriorising-psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated—temporal-intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of—meaningfulness-and-teleology— in reflecting holographically—<conjunctively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency—<transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness’) with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised
deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy (given the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity). The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—nondescript/ignorable—void ’with-regards-to—prospective-apriorising-implications’) ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft.

While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—in-dimensionality-of-desublimating-lack-of—dentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is
much more completely and potently notional-knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure-ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as veridically enabling to human emancipation as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, and intellectuals’ choice of ontological-bad-faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around to intimate irreverence when surreptitiously undermining knowledge of universal consequential implications. This author as of metaphysics-of-absence will summate that prior postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought over a amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-thought ‘as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought of a better knowledge perspective/reference-of-thought before/as-preceding contention/argumentative-engagement, and so avoiding ‘flatmindedness’/banality/flimsiness. The underlying current of postmodern-thought is that our limited-mentation-capacity induces our prior relative-ontological-
incompleteness with regards to reference-of-thought and its derived meaningfulness-and-teleology, with the implication that we need to a prospective relative-ontological-completeness-of-reference-of-thought to be able to articulate intemporal-as-ontological construal as of the internal-dialectics/différence of meaningfulness-and-teleology. In other words, all concepts, notions as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-dialectics/différence as of nonpresencing-<perspective-ontological-normalcy/postconvergence> for their sublimation and transcendence-and-sublimity/sublimation/sublimation/supererogatory-de-mentativity into more profound and more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différence of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différence-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling
approach for human ontological-reconstituting—as-to-confatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of dimensionality-of-sublimating) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern postconverging–de-mentating/structuring/paradigming with Heidegger’s criticism of Hegelian dialectics, with the latter construed by this author as ‘not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework’, but rather dialectical discretion, imagination and speculation ‘as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity’ as herein implied by this author with ‘the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity’. Anecdotally, the shallow-mindedness of a ‘modern take’ in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as ‘postmodern madness’ without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger
scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendance-and-sublimity/sublimation/supererogatory—de-mentativity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by ‘lack of social universal-transparency—transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness’ as of a cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue
but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigm-ing—of-meaningfulness’ was de-mentatively/structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness—of—reference-of-thought (and were thus more fundamentally projective dimensionality-of-sublimating—⟨amplituding/formative>supererogatory—de-
mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩). Such apriorising/axiomatising/referencing—conflatedness° imbued in postmodern-thought address more than just apriorising/axiomatising/referencing—constitutedness° implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual increasing disposition ‘to misunderstand’ others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance; with a resultant sense of socioeconomic and socio-political impotence as such blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission.

Thus this notion of human limited-mentation-capacity as the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness’ consciousnesses flawed conceptualisation perspectives’ and as of their ontologically-flawed constructs of neuterising, with regards to articulating teleological elevation-as-of-upholding-ontological-veridicality or teleological degradation-as-of-failing-ontological-veridicality respectively either as of apriorising/axiomatising/referencing—conflicatedness or destructuring respectively. The idea here with regards to human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is that from a creative perspective: the notion of a given ‘neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness’, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is achieved from the prospective notional–conflatedness of notional–deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to nonpresencing-<perspective–ontological-normalcy/postconvergence>. In other words the historial implications of human limited-

Overall, such a notional~conflatedness reference-of-thought-as-to-preconverging/postconverging—de-mentating/structuring/paradigming—ontological-performance <including-virtue-as-ontology> ‘performance-construct of candidity/candour-capacity’ can be garnered as of metaphysics-of-absence (implicated-epistemic-veracity-of-nonpresencing-perspective—ontological-normalcy/postconvergence) wherein across the successive registry-worldviews/dimensions a notional~deprocripticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness of reference-of-thought that underlies reference-of-thought-as-to-preconverging/postconverging—de-mentating/structuring/paradigming—ontological-performance <including-virtue-as-ontology> as a wholly internal process of apriorising/axiomatising/referencing—conflatedness, highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of—meaningfulness-and-teleology and the latter in relative shortness-of-register-of—meaningfulness-and-teleology/distractiveness’ that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This conceptualisation of candidity/candour-capacity associated with notional~deprocripticism with regards to de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) implications for reference-of-thought transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ is in effect a ‘more profound-and-

wherein going by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as reference-of-

Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness\(^{88}\)-\(^{88}\) reference-of-thought), the historical transformation of meaningfulness-and-teleology\(^{100}\) associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human \(<\text{amplituding/formative–epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling}\rangle\text{(by-a-renewing-of- apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of- prospective– meaningfulness-and-teleology} \rangle\) as of the successive institutionalisations. This explains the peculiar mimetised-preconverging-or-dementing –apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) we’ll construe for instance of a non-positivism/medievalism mindset\(^{9}\) reference-of-thought that doesn’t register positivistic meaningfulness\(^{84}\) reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) as of priorly unsoundness-or-ontological-bad-faith/inauthenticity\(^{64}\)–of- reference-of-thought/preconverging-or-dementing\(^{19}\)– apriorising-psychologism by its positivism–procrypticism\(^{84}\) reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-deepening\(^5\) construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-deepening\(^5\) virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather \(^5\)maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation.
Correspondingly, from the vantage position of our present positivising/rational-empirical ontological-completeness-of\(^{84}\) reference-of-thought with respect to a non-

is representing itself as ‘postconverging-or-dialectical-thinking’—apriorising-psychologism and

normalcy/postconvergence epistemic/notional–projective-perspective, it is ‘preconverging-or-

for the ontologically defective <amplituding/formative–epistemicity>totalising–self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-
worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the
‘existential frame-of-ontology/meaningfulness (which is the transcendental-
enabling/sublimating/supererogatory–de-mentativity)’ in their conventioning, and thus to the
exclusion of prospective ontological profoundness of *reference-of-thought*. Thus all registry-worldviews/dimensions had hitherto been *amplituding/formative* wooden-language ⟨imbued—averaging-of-thought-&lt;as-to-leveling/ressentiment/closed-construct-of-
meaningfulness-and-teleology -as-of-'nondescript/ignorable–void ’-with-regards-to-

However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening expansion of ontological-depth as increasing ontological-completeness-of-”reference-of-thought (or reducing relative-ontological-incompleteness-induced,-“threshold-of–

Existential closure of meaningfulness as conventioning induces psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to *meaningfulness-and-teleology* whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding *meaningfulness-and-teleology*. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in *amplituding/formative–epistemicity* totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence{implicated-
‘nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness }) and goes on articulating *meaningfulness-and-teleology* even in the new existential transcendental/superseding contextualisation in terms–as-of-axiomatic-construct of the doubly-
prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension.

existential–defect. Equally we can imagine that making a positivistic argument in the midst of a non-positivism/medievalism setup will seem ‘deranged’ from their perspective and their mental orientation will be geared to their traditional sense of meaning and living as absolutely defining, but then the ‘center’ had moved from their world (from non-positivistic as base-institutionalisation/animistic or medieval preconverging-or-dementing–apriorising-psychologism decenter) to the positivistic world (as postconverging-or-dialectical-thinking–apriorising-psychologism center). Likewise such a suprastructural articulation of our positivism–procrypticism relationship to its postlogism that includes psychopathy and social psychopathy will apparently not make any sense to our present but then ontologically our present is now decentered as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-suprerogeration–as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism, though our mental-reflex will be a traditional sense of meaning and living as sound-and-not-preconverging-or-dementing–apriorising-psychologism as well. However, to the extent that it is ‘not such <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal/shortness-of-register-of–meaningfulness-and-teleology inclinations’ that drove human registry-worldview’s/dimension’s institutionalisations and resolved uninstitutionalised-threshold from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of–meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over
human temporal complexes (and such a ‘transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ conflict’ resolved intemporally by prospective ontological-primemovers-totalitative-framework) and secondnaturing. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that ‘there is no untransvaluated–temporal-intemporality’ and pretences of inevitability of human progress without need for intemporal projection are falsehoods ‘arising as temporal/shortness-of-register-of–meaningfulness-and-teleology distraction’ with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of–meaningfulness-and-teleology projections.). Critically, the notion of transcendence-and-sublimity/sublimation/supерerогatоry–de-mentativity and transcendental-enabling/sublimating/supерerогатоry–de-mentativity associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human ‘good-naturedness’/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied when conceptualising that empirical meaningfulness-and-teleology is the sole purview of the rational-empiricism/positivism registry-worldview/dimension failing to recognised that all other registry-worldviews/dimensions are actually empirical but differ as to interpretation of empirical perception whether as to a magical, cultic or other non-positivising interpretation of empirical manifestation) but speaks of ‘the central human epistemic-totalising~resubjecting
heuristic drive’ defining as to preconverging/postconverging–de-mentating/structuring/paradigming 56 meaningfullness-and-teleology 100 the succession of all registry-worldviews (however sublimatingly inefficient in relative-ontological-incompleteness 89 and sublimatingly efficient in relative-ontological-completeness 88 as from 38 nonpresencing-<perspective–ontological-normalcy/postconvergence> epistemic-projection); given that with corresponding shallow to limited-mentation-capacity-deepening 51, as institutionalising ontological-primemovers-totalitative-framework 73 successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency 75–sublimating–nascence,—disclosed-from-prospective-epistemic-digression. Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework 73 of 56 meaningfullness-and-teleology 100 going by their given limited-mentation-capacity. Transcendence-and–sublimity/sublimation/supererogatory–de-mentativity and transcendental-enabling/sublimating/supererogatory–de-mentativity as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening ’ implies more and more profound reconstruals/reconceptualisations (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to 56 meaningfullness-and-teleology 100 as transcendence; in contrast to the mere aestheticisation of abstract dialecticism or analogy/mere-analogising speaking thus of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing–as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-
apriorising/axiomatising/referencing-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence and transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality’ but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don’t have a choice in deciding that gravity is about 9.8 m/s² on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating/supererogatory–de-mentativity), with respect to transcendental-enabling/sublimating/supererogatory–de-mentativity construals/conceptualisations only as of existence-in-its-mimetic-echoness as inclusive of the human condition, i.e. human existential sovereign choices of meaningfulness-and-teleology as ontological construals ‘not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself’ but ‘rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition’, and so with respect to historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity–relativism>, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical
because very often sovereign choices as conventions will tend to be acted upon as if these were transcendentval knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendentval-enabling/sublimating/supererogatory-de-mentativity as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for ‘creating/inventing-and-destroying/deconstructing conventions’ for more and more profound grasp of intrinsic-reality/superseding–oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology^10^-<in-existential-extrication-as-of-existential-unthought>5 to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendentval-enabling/sublimating/supererogatory-de-mentativity knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendentval-enabling/sublimating/supererogatory-de-mentativity conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendentval-and-sublimity/sublimation/supererogatory-de-mentativity) to prospective transcendentval-and-sublimity/sublimation/supererogatory-de-mentativity is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendentval-enabling/sublimating/supererogatory-de-mentativity as secondnaturing institutionalisation percolation-channelling-<in-deferential-formalisation-transference> to elicit the necessary positive-opportunism^7 for prospective institutionalisation as skewing (‘intemporality^9-asymmetric-subsumption-of-temporality^10’), for relative intrinsic-
worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the notional–deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure-ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the latter perceiving in its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology>, and that meaningfulness-and-teleology as of relative pure-ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the
of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance including-virtue-as-ontology, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought with regards to our positivism—procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence—{implicated-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence} for the conception of meaningfulness-and-teleology ontological-performance including-virtue-as-ontology is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> naively construed mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance including-virtue-as-ontology, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that de-mentatively/structurally/paradigmatically supposedly supersedes our positivism—procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been re-originary—as-unenframed/unbeholdening/outlier-conceptualisation (imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-confutatedness ‘of-notional—deprocrypticism-prospective-sublimation) ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology—<in-

The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal-disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of–meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the notional–deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to–‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism>. Thus human knowledge is a dynamic secondnatured construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.
[The notion of ‘beyond-the-consciousness-awareness-teleology’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology’ speaks of the mental state as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology implies ‘conscious’ and/or ‘unconscious’ as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-accusations-of-}
sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology$^{100}$-<in-existential-extrication-as-of-existential-unthought$. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness$^{88}$-<reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogic induced deception can only be construed as beyond-the-consciousness-awareness-teleology$^{100}$-<in-existential-extrication-as-of-existential-unthought$^6$ as when eliciting ignorance (as of 'lack of constraining social $^{104}$universal-transparency $^<$amplituding/formative–epistemicity$^{>}$totalising–in-relative-ontological-completeness$^8$ of the psychopath’s mental-disposition of postlogism$^{78}$-as-of$^{10}$compulsing–nonconviction/madeupness/bottomlining-{$<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing$>-<disontologising–of-the$<attendant-intradimensional–ontologising$–imbued–<contextualising/existentialising–attendant-ontological-contiguity$–in-shallow-supererogation$–<disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing$–logical-dueness$<}>$, and while construed as beyond-the-consciousness-awareness-teleology$^{100}$-<in-existential-extrication-as-of-existential-unthought$^5$ as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation,
is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness\(^9\)-of-reference-of-thought, as it leads to ‘lack of constraining social universal-transparency \((\text{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness})\), associated with the successive uninstitutionalised-threshold\(^3\) states, the notion of ‘human beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought>’ is actually in the bigger picture the larger determinant of manifest human vices-and-impediments\(^{10}\) as of virtue-as-ontology conceptualisation, speaking fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^3\)--defect<as-Being-or-ontological-or-existential–defect>\(^{46}\)” inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments\(^{10}\) as of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^3\)--defect<as-Being-or-ontological-or-existential–defect>\(^{46}\)” as beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthought>\(^6\) of the registry-worldview/dimension uninstitutionalised-threshold\(^3\); as social\(^{10}\) universal-transparency \((\text{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness})\) is a strong inherent deterrent of human temporality\(^4\)/shortness and enabler of human intemporality\(^5\)/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold\(^3\) of such knowledge-as-virtue arises the temporal-dispositions denaturing\(^4\) its\(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\) for intemporal-preservation-entropy-or-

This effective realism as of rational-realism is the requisite insight in understanding how supposedly re-originary–as-unenframed/unbeholdening/outlier-conceptualisation(imbued-postconverging/dialectical-thinking projective-insights) epistemic-projection-in-confledness of-notional–deprocrypticism-prospective-sublimation transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Further along the rational-realism line of thinking, the fact is paradoxically that as more cuttlingly demonstrated with cultural diffusion driven transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the mechanism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is not a simplistic transference from a more ontologically-completeness-of reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its
transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms–as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supernormal–de-mentativity, and with various other such positivistic outcomes inducing in the middle to long run further amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasia-drag of thought; as explanations for the cure will still be advanced in terms–as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding such explanations of their credible substance until there is critical transference into the new registry-worldview’s/dimension’s reference-of-thought.

<amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasia-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-

It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to crossgenerational import (prospective-institutionalisation <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology } as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of crossgenerational purposefulness (whether beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought>). Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (‘meaningfulness-and-teleology\textsuperscript{100}) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like
deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of- reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation (> more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency (transparency-of-totalising-entailing-as-to-entailing amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are 5+2 and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the
numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s 75 perversion-of- 84 reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (meaningfulness-and-teleology 100) is undertaken erroneously rather implying 6 + 3 instead of 5 + 2 (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as 5+2) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to 54 logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation 97) is flawed since B is not committed due to its perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing 15 an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e. the teleological disposition of B inherently carries the defect (to the point that B can be socially-
functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibility-setup/measuring-instrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of normal additionality with such a social-aggregation-enabler situation) and so as of expediency or affordability for D, opportunism for E, exacerbation for F, social-chainism/social-discomfiture/negative-social-aggregation for B, C (where B’s condition is not exposed to it), D, E and F or temporal-endemisation/temporal-enculturation of B’s condition for B, C (where B’s condition is not exposed to it), D, E and F. It should be noted that C (where B’s condition is not exposed to it), D, E and F technically speaking have a ‘derived-Being/ontological/existential–defect’ as well, and so to the point that they consciously perceive it can be socially-functional-and-accordant to them wherein lack of ‘social universal-transparency’-{transparency-of-totalising-entailing,-as-to-entailing-

postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled,
endemised and enculturated by the possibility of the phenomena being socially-functional-and-
accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribute on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing-as-to-entailing–amplituding/formative–epistemicity–totalising–in-relative-ontological-completeness) of perversion-and-derived-perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> determines how prelogism-as-of-conviction,-in-profound-supererogation–<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad-hoc trite association between committing a given vicious act and initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of’ compulsion–nonconviction/madeupness/bottomlining-(‘<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-

As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-

This underlying postlogism /psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism /social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of 'high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives' systematically enabling the possibility for committing 'postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining' vicious acts-and/or-narratives' with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the <amplituding/formative> wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) (failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism /psychopathy and conjugated-postlogism /social-psychopathy with respect to ontologically-veridical "meaningfulness-and-teleology" arises disjointedness-as-of-

Consider for instance that transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism–reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity established by Descartes’ thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated
successive mindsets/references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought>). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of its limited-mentation-capacity-deepening. It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow-to-deepening—limited-mentation-capacity—as-limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existent-reality as the absolute apriorising.) It is this author’s contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match ‘an existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existent-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it’, and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. A further weakness is the naive implication
thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview’s/dimension’s reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/ alchemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). But then it is more the case that from an <amplituding/formative–epistemicity> totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather a beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant’s notion of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivity/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implied by Descartes) rather than a construal of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied herein as of limited-mentation-
capacity-deepening with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-epistemicity’ as superseding–oneness-of-ontology as an all-encompassing

prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency $^{38}$-sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines $^5$ meaningfulness-and-teleology $^{100}$ on the basis of human limited-mentation-capacity-deepening $^5$ in its construal/conceptualisation of a superseding-oneness-of-ontology construed as transcendentaleabling/sublimating/supererogatory-de-mentativity. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendentaleabling/sublimating/supererogatory-de-mentativity of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of $^{55}$ maximalising-recomposuring-for-relative-ontological-completeness $^{88}$—unenframed-conceptualisation over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity $^{49}$ which tend to require constant heuristic adaptations to sync in contiguity with existence-potency $^{38}$-sublimating-nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn’t recognise that successive

In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow-to-deepening—limited-mentation-capacity—de—limited-mentation-capacity-deepening

mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the ‘postconverging—or—dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psyche as ‘amplituding/formative—epistemicity—totalising—renewing—realisation/re—thought-as—utter—placeholder—setup—ontological—rescheduling—(by—a—renewing—of—apriorising/axiomatising/referencing—psychologism—as—the—new—referencing—basis—of—prospective—meaningfulness—teleology)’ of positivistic physics right back then in their epoch such that the overall underlying principle of ontological—primemovers—totalitative-framework as transcendental-enabling/sublimating/supererogatory—de—mentativity back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-mechanics
within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating/supererogatory–de-mentativity ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn’t available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was de-mentatively/structurally/paradigmatically not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity construction having to do with an agent of limited-mentation-capacity that

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home. Such a construct as basic apriorising/axiomatising/referencing—constitutedness is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn’t deal with the required pure-ontology apriorising/axiomatising/referencing—conflatedness as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supererogatory–de-mentativity in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger ‘transcendental-enabling/sublimating/supererogatory–de-mentativity positivism psyche-and-thereof-philosophy’ (construed rather as of an organic depth of ontological coherence/contiguity that is de-mentatively/structurally/paradigmatically transcendental-enabling/sublimating/supererogatory–de-mentativity contiguously as from the deeper apriorising/axiomatising/referencing enabling/sublimating/supererogatory–de-mentativity of positivism ‘transcendental-psyche-and-thereof-philosophy’ and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating/supererogatory–de-mentativity conceptualised/construed relations), and so as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology.
The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/superceratory-de-mentativity is hardly established but for bare ‘palliative constructs and naïve conceptual patterning’ that are more often than not <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendentally-enabling-level–of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism when the implications of such notions are examined as of metaphysics-of-absence⟨implicited-epistemic-veracity-of- nonpresencing–perspective–ontological-normalcy/postconvergence⟩ not only in terms of one registry-worldview’s/dimension’s/meaningfulness-and-teleology but two or more, say our present positivism/reference-of-thought and retrospective non-positivism/reference-of-thought, their ‘supposed ontological status’ turn out to be ridiculous <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, exposing their true nature as rather palliative constructs and conceptual patterning. Since we can perfectly conceptualise with both\textsuperscript{84} reference-of-thought the articulation of coherent\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} respectively in non-positivism terms–as-of-axiomatic-constructs and non-deprocrypticism/procrypticism terms–as-of-axiomatic-constructs, or rather in terms–as-of-axiomatic-construct that do not grasp de-

This elucidation points out that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity ‘must truly’ involve an de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) with the utter decentering of understanding itself by the prospective/transcending/superseding reference-of-thought over the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism of the prior/transcended/superseded at its uninstitutionalised-threshold as an epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling–{by-a-renewing-of-

However, in all the de-mentation (supererogatory—ontological—de-mentation—dialectical—de-mentation—stranding—attributive—dialectics) implied successive institutional-cumulation/institutional-recomposure (as-to—historiality/ontological—eventfulness /ontological-aesthetic-tracing—perspective—ontological—normaley/postconvergence—reflected—‘epistemicity—relativism’), such a ‘confusion of relative ontologically-veridical becoming-or-present-of reference-of-thought’ induces an underlying ‘paradox of transcendence-and-sublimity/sublimation/supererogatory de-mentativity’ involved in all such transcendence-and-sublimity/sublimation/supererogatory de-mentativity wherein mental-dispositions as of reference-of-thought are caught between the prospective/transcending/superseding registry-worldview prospective relative-ontological-completeness reference-of-thought and the prior/transcended/superseded registry-worldview prior relative-ontological-incompleteness of reference-of-thought, with respect to meaningfulness-and-teleology referencing. Consider in this case the human condition of transience of reference-of-thought as experienced by Okonkwo returning from banishment to Umuofia village in Chinua Achebe’s Things Fall Apart. While for the temporal mental-disposition individuations the form-and-perception or derived-form-and-perception of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously, expeditiously or consciously) is a sufficient basis so long as it is socially-functional-and-accordant such that the possibility of blurring or undermining existential-reality by ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> ^reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ is just as valid, hence a failure to abstractly recognise intemporality /longness as of existential-reality with the implication thereof as perversion-and-derived/perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > with respect to the registry-worldview’s/dimension’s vices-and-impediments implied by its implied relative-ontological-incompleteness -induced,-threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –<as-to-‘attendant-intradimensional’-prospectively-
disontologising–preconverging/dementing–apriorising-psychologism’. Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be de-mentatively/structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of-reference-of-thought structured to inherently supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation–universalisation–non-positivism/medievalism and deprocrypticism superseding positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation of A, B, C, D, E, F and Z, is Z’s upholding of prospective transcendental-enabling/sublimating/supererogatory-de-mentativity over any temporal extricatory preconverging–de-mentating/structuring/paradigming, however, the enculturation and mass thinking behind temporal extricatory preconverging–de-mentating/structuring/paradigming. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of–meaningfulness-and-teleology, that can accrue atleast incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect and transcendental/transdimensional/interdimensional maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation analysis as metaphysics-of-absence{(implicated-epistemic-veracity-of nonpresencing–<perspective–ontological-normalcy/postconvergence>)/postdication). Finally, thus it is critical to note that the existential contextualisation above as ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-

Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality-of-motif-and-apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly construed to the ordinariness/averageness of thought within their respective registry-worldviews/dimensions setups (which mental-dispositions and conventioning –as ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’-<as-to-‘attendant-intradimensional’-prospectively-

existential-preempting-of-existentiai-unthought in his asceticism the prospective intemporal
over the temporal status quo, and likewise with a Rousseau who isn’t advancing a temporal
interest that his aristocratic stature should warrant like actively pursuing for landed properties
and currying favours with kings but is rather bent principally on a prospective commitment on
grasping and spreading notions of a renewal of the human condition as universal rights and
enlightened despotism. This is certainly because emanantly/becomingly/solipsistically
temporal-dispositions do not appreciate that there is a more ‘profound level of living in the
realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-
prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting that
then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective
institutionalised-being-and-craft as there isn’t any inherent intemporality/longness but for the
disposition for maximalising-recomposuring-for-relative-ontological-completeness —
unenframed-conceptualisation out of the apathy of the ordinariness/averageness of any prior
registry-worldview/dimension institutionalised-being-and-craft setup. Hence such
intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness
—unenframed-conceptualisation need its <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought in inducing

but rather is solely a secondnaturing to supersede the uninstitutionalised-threshold divulged as to its relative-ontological-incompleteness-induced, \textit{\textless \textgreater} threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textit{\textless \textgreater} \textit{\textless \textgreater} as-to-’attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism\textit{\textless \textgreater}. The implication is that acting as-of-a-‘secondnatured reproducibility—mathesis/motif/throwness-disposition,–as–reproducibility-of-aestheticisation nature’ is not enough for articulating prospective institutionalisation requiring ‘intemporal projection totalising–self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicitied-’nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness\textit{\textless \textgreater}). Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-induced, \textit{\textless \textgreater} threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation \textit{\textless \textgreater} \textit{\textless \textgreater} as-to-’attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism\textit{\textless \textgreater}’ marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-
institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively ‘re-originary–as-unenframed/unbeholdening/outlier-conceptualisation–(imbued-postconverging/dialectical-thinking–‘projective-insights’/‘epistemic-projection-in-conflatedness’–of-notional–deprocrypticism-prospective-sublimation) driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturing such that it has often been the erudition periphery of institutional-cumulation/institutional-recomposure–(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> ) that had tended to fundamentally put into question their present with new postconverging–de-mentating/structuring/paradigming shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s ‘reference-of-thought itself as implied by its state of relative-ontological-incompleteness–induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’–<as-to–‘attendant–intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising–psychologism’, for instance psychopathy in positivism–procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as notional–deprocrypticism or positivism, it is in (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology ) given that this fundamental relative-ontological-incompleteness–induced, ‘threshold-of–

Obviously we can appreciate that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation' <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism>' in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. Likewise the procrypticism—or-disjointedness-as-of-reference-of-thought wherein the perversion-of-reference-of-thought <as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> from a psychopathic character is contextually likely to be engaged with (as ‘prelogism’—as-of-conviction,—in-profound-supererogation '<existentially-veridical—‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> re-engaging reflex’) and even exploited (whether unconsciously, expediently or consciously), implies a comprehensive de-mentative/structural/paradigmatic undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

Further, registry-worldviews/dimensions being prospectively wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—’nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-induced,‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’←as-to–‘attendant-intradimensional’-prospectively-

For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling-<in-deferential-formalisation-transference> to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-induced,–‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism–’ of our procrypticism and accessorily its enculturating/endemising of psychopathy and social psychopathy. follows with psychopathy at childhood (which at this point is relatively transparent to the
critical observer). Let’s say John is a psychopath, he wants to get his brother Peter punished for

‘dereifying act’, then spills water on a chair and goes and tell dad Peter has spilled water on the

What the psychopath is doing is ‘SLANTING’ as of compulsive-slanting—preconverging-or-dementing-apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons supplanting—conviction-as-to-profound-supererogation—which it perceives as ‘being blatantly deterministic’ of the views and actions of the ‘normal prelogism-as-of-conviction,-in-profound-supererogation’-existentially-veridical—attendant-intradimensional-apriorising/axiomatising/referencing—logical-dueness-precedes-disontologising-logica-outcome-arrived-at> mind’, i.e. the psychopath is 'narrating veridical emptiness/hollow narratives’. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism narratives which it perceives as ‘the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real’. Thus the psychopathic postlogic mindset and by derivation
conjugated-postlogism/preconverging-or-dementing\textsuperscript{12}-integration mindset is one of relating to meaningfulness as valid by ‘the mere performative-form representation of meaningfulness’ rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking\textsuperscript{17}—apriorising-psychologism and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribute associated with transcendental-enabling/sublimating/supererogatory-de-mentativity, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism\textsuperscript{8} and its derivation/adoptions by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism\textsuperscript{7}. More precisely, it is critical to distinguish between the notion of slanting (cîngle in French) as postlogism ‘as-of’ compelling–nonconviction/madeupness/bottomlining—‘<decontextualising/de-existentialising–of-attendant–intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’–of-the-‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>, –in-shallow-supererogation –<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>\textsuperscript{10} and the notion of a lie which is in manifest prelogism ‘as-of-conviction,-in-profound-supererogation’–<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (be it a ‘poor or bad supplanting–conviction-as-to-profound-supererogation’\textsuperscript{97} —of–‘attendant-intradimensional’-postconverging/dialectical–
thinking ‘–apriorising-psychologism’) as with a lie the implied–logical-dueness (with the corresponding implied–reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implicitation. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentionation-procedure-deception-or-urge associated with postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining (‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing–induced-disontologising’–of-the–attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>–<disontologising-perverted-outcome–sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>) with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful
enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant\(^1\), since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’ s-reifying/elucidating-of-prospective-relative-ontological-completeness’ of-reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{10}\), with respect to construing meaningfulness as prelogism-as-of-conviction,-in-profound-supererogation\(^{97}\) <existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>, but instead construes meaningfulness as postlogism\(^{78}\) as-of-compulsing–nonconviction/madeupness/bottomlining- ('<decontextualising/de-existentialising~of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation-<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-⟩) explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suprerogatory–de-mentativity with regards to inherent reality and
meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction,in-profound-supererogation-as-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism /preconverging-or-dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-

Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing←apriorising-psychologism. Thus, with slanting the implied–logical-dueness (with the corresponding implied–reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’←logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation←), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-ontological-bad-faith/inauthenticity←of←reference-of-thought/preconverging-or-dementing←apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-ontological-good-faith/authenticity←of←reference-of-thought. Insightfully, it points out as well that the basis of the
the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’, and so in contrast with the expected ‘reifying nuanced/multivalent mental-processing’ of supplanting-conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance —including-virtue-as-ontology> of supplanting—conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism manifestation of the interlocutor by compulsing–nonconviction/madeupness/bottomlining —<decontextualising/de-existentialising—of-attendant-intradimensional—

Thus this implied human ‘postconverging-or-dialectical-thinking\textsuperscript{2}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-ontological-good-faith/authenticity\textsuperscript{10} of\textsuperscript{9} reference-of-thought’) behind the successive registry-worldviews/dimensions institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–\textsuperscript{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}) peculiar psychologisms/psychologism-constructs of meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets\textsuperscript{0} reference-of-thought/consciousness-awareness-teleology\textsuperscript{10}; whether as recurrent-utter-uninstitutionalisation psychologism, base-
institutionalisation–ununiversalisation psychologism, universalisation–non-positivism/medievalism psychologism, positivism–procrypticism psychologism, and prospectively notional–deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren’t or weren’t other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are ‘not decentered’ and ‘not preconverging-or-dementing apriorising-psychologism’ as of their relative-ontological-incompleteness reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-caricaturing-hollow-staging-and-performance rather so construed from a higher psychologism’s articulation of existential-contextualising-contiguity s-reifying/elucidating-of-prospective-relative-ontological-completeness reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, notional–deprocrypticism as decentering and preconverging-or-dementing apriorising-psychologism the positivism–procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening ) a renewing of mindset reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought

Basically, this idea of ‘human temporal uninstitutionalised-threshold mental-disposition’ as
metaphysics-of-absence’s-implicated-epistemic-veracity-of-nonpresencing-less-perspective
ontological-normalcy/postconvergence points out that ontological analysis should rather be
from the prospectively implied ‘human registry-worldview’s/dimension’s institutionalisation
mental-disposition’, and in this instance implying an ontological analysis of psychopathy and

1879
social psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism registry-worldview / reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview / reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview / reference-of-thought; as of the fact of fundamental registry-worldview/dimension ‘prospective registry-worldview’s/dimension’s-uninstitutionalised-threshold –defect-as-Being-or-ontological-or-existential–defect’, so construed in order to supersedes its preconverging–dementating/structuring/paradigming vices-and-impediments. Structural/paradigmatically/dementatively, this idea extends to all issues implying metaphysics-of-absence⟨implicated-epistemic-veracity-of- nonpresencing⟨perspective–ontological-normalcy/postconvergence⟩⟩‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental ‘meaningfulness-and-teleology’. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the
Chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn’t give agency (or at least ‘perceived’ sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their ‘perceived’ effectiveness. With a commitment to the idealism of the supernatural not only as of its ‘perceived’ virtuous import, but as of ‘perceived’ nefarious effects to human nolition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendency of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-
Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-deepening that actually is behind all nonconviction/madeupness/bottomlining-in-shallow-supererogation-as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of dementative/structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence-(implicated-’nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness} and metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing-<perspective–ontological-normalcy/postconvergence>} ontologies as enabling a further human emancipation registry-worldview’s/dimension’s-reference-of-thought psychologism, notional–deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—
as-of-social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms—as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-
echoness’), to imply that there is a prospective virtuous possibility of human registry-worldview’s/dimension’s institutionalisation that can be grasped, and so expressed in terms–as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/ reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms–as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable notional–firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing–psychologism,—as-impulsive-or-accidented-or-random-mental-disposition as failing/not-upholding—<as-of-apriorising/axiomatising/referencing> rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism.—as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for base-institutionalisation–ununiversalisation, ununiversalisation failing/not-upholding—<as-of-

But then human existential-reality comes with human limited-mentation-capacity-deepening with limited grasp of intrinsic-reality at various stages of human emancipation up to the modern-day, such that social universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative—epistemicity—totalising—in-relative-ontological-completeness} required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendentally available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought—devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental de-mentative/structural/paradigmatic disposition for human temporalities-drives to adhere to the <amplituding/formative> wooden-language—{(imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } (failing/not-upholding—{as-of-apriorising/axiomatising/referencing} intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence—{implicitied-epistemic-veracity-of—
of the notion of ‘human temporal uninstitutionalised-threshold’ that dementatively/structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness’—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic
transformation into the intemporality\textsuperscript{-drive} (longness-of-register-of—meaningfulness-and-teleology\textsuperscript{disposition}) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction, explaining why uninstitutionalised-threshold\textsuperscript{disposition} are bound to arise successively in the ontological-contiguity\textsuperscript{disposition} (out-of-human temporality\textsuperscript{disposition}) together with corresponding prospective institutionalisations (out of-human intemporality\textsuperscript{disposition}) with the latter enabling \textsuperscript{amplituding/formative–epistemicity} totalising–renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of—social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity\textsuperscript{profound-supererogation–of—mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema} in reflecting holographically\textsuperscript{conjugatively-and-transfusively} the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{disposition}. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology apriorising/axiomatising/referencing—conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporality\textsuperscript{temporality} is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{self-referencing-syncretising-as-of—}
perceived–social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as an otherness from any emotional-involvement/subjectification/notional $<\text{amplituding/formative–epistemicity}>$ totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag~$33$ predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) the prospective institutionalisation as of positivism\(^9\), meaninglessness-and-teleology\(^{100}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism\(^7\) and derived conjugated-postlogism\(^7\), human\(^{8}\), reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation\(^7\),<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> tends to be relative. That is, even within a registry-worldview’s/dimension’s institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-consciousness-awareness-teleology\(^{100}\),<in-existential-extrication-as-of-existential-unthought>\(^\)\(^\)\(^\)\(^\)) given our relative-ontological-incompleteness\(^{9}\), reference-of-thought and secondly by projective-arbitrariness/waywardness in the choices we make, and this get even worst at the uninstitutionalised-threshold\(^{10}\). Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute\(^{8}\), reference-of-thought–prelogism\(^7\),-as-of-conviction,-in-profound-supererogation\(^7\),<existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal preconverging–de-mentating/structuring/paradigming and further so with respect to increasing informality as in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} of all human institutions, and particularly where social\(^{10}\) universal-
transparency of totalising-entailing, as to entailings, amplituding/formative epistemicity\textsuperscript{10} totalising in relative-ontological-completeness is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment expressing-the-most-profound-conviction-as-to-profound-supererogation\textsuperscript{17} at the other moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism\textsuperscript{78} slantedness. This reality of our reference-of-thought–prelogism\textsuperscript{79} as of conviction, in profound-supererogation\textsuperscript{97} existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold\textsuperscript{103} and as associated with postlogism\textsuperscript{78} as conjugated-postlogism\textsuperscript{78} is what qualifies contextually as temporal individuations threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97} as to ‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought–prelogism\textsuperscript{79} as of conviction, in profound-supererogation\textsuperscript{97} existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to–‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing –apriorising-psychologism> and reference-of-thought–prelogism as-of-conviction, in profound-supererogation\textsuperscript{97} existentially-veridical–‘attendant-intradimensional–
apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-telemology\(^1\)-<in-existential-extrication-as-of-existential-unthought>-de-convergence as of transversality-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^2\). Such a distinction particular at the uninstitutionalised-threshold\(^3\) is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the\(^4\)-reference-of-thought as of \(^5\) reference-of-thought–categorical-imperatives/axioms/registry-telemology\(^6\) in the first place to establish or not perversion-and-derived–‘perversion-of’-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^0\)>\(^7\). This delineation is in line with the idea of human temporal (shortness-of-register-of–meaningfulness-and-teleology\(^8\)) to intemporal (longness-of-register-of–meaningfulness-and-teleology\(^9\)) individuations nature as implicitly recognised in the preconverging/postconverging–dementating/structuring/paradigming of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge-notionalisation on the basis that it is equally critical to understand the possibility of the ignorances/desublimation just as conceptual sublimation knowledge itself to further uphold, advance and skew for the latter. The point being that ‘meaningfulness-and-teleology\(^10\) construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of ‘reference-of-thought–prelogism ‘as-of-conviction,in-profound-supererogation\(^11\)-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold\(^3\)‘ the possibility of the ontological-veridicality of interlocutors threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\(^0\)-<as-to-

This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency -{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness }.

sublimity/sublimation/supererogatory/de-mentativity. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed ‘reference-of-thought—prelogism—as-of-conviction,—in-profound-supererogation—existence-justificational—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> to meaningness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism-compulsing—nonconviction/madeupness/bottomlining<decontextualising/de-supererogation <disontologising-perverted-outcome-sought-precedes-existentially-veridical—attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness> mindset threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant-intradimensional’-prospectively-disontologising—preconverging/dementing apriorising-psychologism arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social universal-transparency—transparency-of-totalising-entailing,—as-to—entailing—amplituding/formative—epistemicity>totalising-in-relative-ontological-completeness) such that it can induce threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—attendant-intradimensional’-prospectively-
perversion-of reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> hasn’t superseded the social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing-
<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ) is de-mentatively/structurally/paradigmatically inherently ‘advantaged ultimately’ by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness–of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness–of-reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness–of-reference-of-thought
of-thought induced distractive-alignment-to reference-of-thought apriorising/axiomatising/referencing—conflatedness as of prospective relative-ontological-completeness reference-of-thought apriorising/axiomatising/referencing—conflatedness ). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness reference-of-thought doesn’t supersede the prior’s ‘circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology’ in the short run. Chinua Achebe’s Things Fall Apart Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications> which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications> when the foreign cultural diffusion arrived before superseding it crossgenerationally. We can equally construe the inverse situation as in H.G. Well’s The Country of the Blind which also
epistemic/notional-projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for crossgenerational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-threshold, including our own as positivism—procripticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing> notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation validity’ but rather such a demonstration is more dementatively/structurally/paradigmatically, together with all other such demonstrations of the prospective <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness of reference-of-thought; thus qualified as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid’ but rather de-mentatively/structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/ reference-of-thought meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness of reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions of reference-of-thought under which their respective
predicative-insights’ (recurrent-utter-uninstitutionalisation) will hardly countenance operating the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights of the former as more ontologically profound, given its ‘circular-pervasiveness closed-structure of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively ‘higher-level-heights perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental difficulty is that ‘no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run crossgenerational habituation construed as of de-mentation\textsuperscript{[14]} (supererogatory—ontological de-mentation-or-dialectical de-mentation—stranding-or-attributive-dialectics) with the prior ontologically construed as decentered and preconverging-or-dementing –apriorising-psychologism as of distractive-alignment-to—reference-of-thought—of-apriorising/axiomatising/referencing>, with the implication that its logical-dueness
doesn’t exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition doesn’t ontologically exist.) We can grasp as well that it is the ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism) that ultimately provides the ideal ‘ascertaining-perspectives for gauging the overall earth landscape’. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed notional-deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/postconvergence, thus facing the dilemma that by mental-reflex we are not ‘habituated’ to the notion of our reference-of-thought being construed as ‘preconverging-or-dementing –apriorising-psychologism and not thinking’, and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as preconverging-or-dementing –apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as preconverging-or-dementing –apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as preconverging-or-dementing –apriorising-psychologism and not thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as preconverging-or-dementing –apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as preconverging-or-dementing –apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a preconverging-or-dementing –apriorising-psychologism and not thinking representation of ourselves construed

reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemortal-

deconstructive-engagement/engaged-dessuktion because an analysis construed as of
reference-of-thought is all about mental-soundness or unsoundness representation (with no
logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a
change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of–
meaningfulness-and-teleology  100  as a shift of the curve-of-prospective-relative-ontological-

supposedly-apriorising-in-conviction-as-to-profound-supererogation  10 . In other words, a truly
direct notional–deprocrypticism ontological analysis will be a ‘mental break-in’/preconverging-
or-dementing –apriorising-psychologism of our positivism–procrypticism as we by reflex
‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on
the basis of the non-positivistic reference-of-thought–categorical-
 imperatives/axioms/registry-teleology  100  , for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology  100
just as a notional–deprocrypticism analysis will not engage us on the basis of our
procrypticism–or–disjointedness-as-ofreference-of-thoughtcategorical-imperatives/axioms/registry-teleology, for-
aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness–of–reference-of-thought of non-positivism and procrypticism–or–disjointedness-as-of–reference-of-thought. But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness–of–reference-of-thought over prior relative-ontological-incompleteness–of–reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is crossgenerationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of<br>&lt;amplituding/formative–epistemicity&gt;totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness–of–reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a notional–deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism–or–disjointedness-as-of–reference-of-
thought reference-of-thought– categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as preconverging-or-dementing apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms–as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness of reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-preconverging-or-dementing apriorising-psychologism with respect to an implied prospective mental state of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-

starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any
such transcending enabled by the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68}. In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived-perversion-of-reference-of-thought\textangle{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{99}} is rather vague, as the more fundamental issue here is that human \textsuperscript{1}meaningfulness-and-teleology\textsuperscript{100} as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever de-mentatively/structurally/paradigmatically in need for prospective relative-ontological-completeness\textsuperscript{88}–of-reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–universalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for notional–deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existentia-reality; and so as of human limited-mentation-capacity-deepening\textsuperscript{53} enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}–for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textsuperscript{100} of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing’ and so allowed by de-mentation\textsuperscript{1} (supercryptic–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics). Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no de-mentative/structural/paradigmatic issue of relative-ontological-incompleteness\textsuperscript{99}–of-reference-of-thought with no recognition of any such ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as human limited-mentation-capacity-deepening\textsuperscript{53} retrospectively
to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation > not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social

<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed de-mentatively/structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supерerogatory–de-mentativity within the framework in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental de-mentative/structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism–procrypticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology naїve perpetuation in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments with both uninstitutionalised-threshold, thus explaining the fundamental dilemma of all institutional Establishments in their wooden-language (imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-

Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by de-mentation
prospective assessment wherein we are of prior relative-ontological-incompleteness\(^9\)-of-reference-of-thought as ‘a preconverging-or-dementing\(^1\)-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\(^{10}\) positivism–procrusticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) as unsoundness-or-ontological-bad-faith/inauthenticity\(^4\)-of-reference-of-thought’ from the ‘prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) of notional–deprocrusticism as of its prospective relative-ontological-completeness\(^8\)-of-reference-of-thought’ as ‘a postconverging-or-dialectical-thinking\(^2\)-and-centered-prospective-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\(^{10}\) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) as soundness-or-ontological-good-faith/authenticity\(^6\)-of-reference-of-thought’, we are rather less apt to concur going by our \(\text{<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to de-mentatively/structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought\(\text{<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>}\) as of our relative-ontological-incompleteness\(^8\)-of-reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrusticism relative-ontological-incompleteness\(^9\)-of-reference-of-thought’ and thus wrongly implying our unde-mentativity hence our untranscendability for a de-mentative/structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\),-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\(^{10}\) of crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring’, and paradoxically thus by implication that there is no relative-ontological-
incompleteness\(^\text{77}\)-of-\(^\text{74}\) reference-of-thought, to then wrongly imply such articulations of
forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas
these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology\(^\text{100}\)
temporal/shortness-of-register-of-\(^\text{84}\) meaningfulness-and-teleology\(^\text{100}\) projection. This insight
explains the bizarreness we face from time to time discovering that even institutions we
imagine should relatively be spared by scandals as human vices-and-impediments\(^\text{90}\) like many
public-facing institutions, the media, faith institutions, etc. are now-and-then plague with
scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-

construal/conceptualisation, and not naïve at best palliative construals in impression-
driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the
fact that each registry-worldview’s/dimension’s\(^\text{8}\) reference-of-thought is inherently a
metaphysics-of-presence-\(\langle\text{implicit-'nondescript/ignorable–void ’-as-to- presencing–}\)
absolutising-identitive-constitutedness \(\rangle\) construed as postconverging-or-dialectical-thinking\(^\text{77}\)
and-centered-prospective-institutionalisation’s\(–\) categorical-imperatives/axioms/registry-
teleology\(^\text{100}\) soundness-or-ontological-good-faith/authenticity\(^\text{6}\) -of-\(^\text{64}\) reference-of-thought that is
in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence\(\langle\text{implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-
normalcy/postconvergence>\rangle}\) construals/conceptualisations as implied by prospective relative
completeness-of-\(^\text{64}\) reference-of-thought which rather construes it as a preconverging-or-
dementing -and-decentered-prior-institutionalisation’s\(–\) categorical-
imperatives/axioms/registry-teleology\(^\text{100}\) unsoundness-or-ontological-bad-faith/inauthenticity\(^\text{6}\) -
of-\(^\text{64}\) reference-of-thought. The ontological implication is that beforehand/axiomatically with
respect to the cross-engagement of a prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought and a prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought, the former is priorly invalidated into a preconverging-or-dementing\(^{14}\)-and-decentered-prior-institutionalisation’s–categorical-imperatives/axioms/registry-teleology\(^{10}\) unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought by the latter as a postconverging-or-dialectical-thinking\(^{20}\)-and-centered-prospective-institutionalisation’s–\(^{8}\) categorical-imperatives/axioms/registry-teleology\(^{10}\) soundness-or-ontological-good-faith/authenticity\(^{69}\)-of-\(^{84}\) reference-of-thought, invalidating by implication the logical-dueness/logical-pertinence as of \(^{5}\) logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought with respect to its prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought. But since we have been habituated as of our existential formation within our \(<\text{amplituding/formative}>\) wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} to be in logical-dueness for \(^{5}\) logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{97}\) by default and thus always contendingly relevant on the basis of sharing a mutual positivism\(^{8}\) reference-of-thought, we will hardly entertain though a notional~deprocrypticism cross-engagement implied invalidation of our logical-dueness for \(^{5}\) logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{97}\) and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought construed as disjointedness-as-of-\(^{84}\) reference-of-
thought. But then ironically such a unde-mentativity posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and postconverging-or-dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation valid by default. This point out that there is necessarily a central growth element of a de-mentative/structural/paradigmatic reference-of-thought– categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ allowing for de-mentativity and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such de-mentative/structural/paradigmatic epistemicity-causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness -of- reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn’t recognise the mortals that we are and
we can’t advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid ‘human closure of ‘meaningfulness-and-teleology’ which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising\textsuperscript{7}–self-referencing-syncretising-as-of-peceived–social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a wooden-language\textsuperscript{8}–averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-nondescript/ignorable–void ‘-with-regards-to-prospective-apriorising-implications} start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of notional–deprocrypticism prospective relative-ontological-completeness\textsuperscript{8}–reference-of-thought is restored by doing away with ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of positivism–procrypticism meaningfulness-and-teleology\textsuperscript{10} at its procrypticism uninstitutionalisation as of disjointedness-as-of–reference-of-thought from notional–deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework\textsuperscript{7} principles or extraordinarily a flight from the flight deck
with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a notional–deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag procrypticism–or–disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology<in-existential-extrication-as-of-existential-unthought> and not yet by social universal-transparency/transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness, just as had been the case from the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-threshold reference-of-thought with respect to the ‘mental break-in’/preconverging-or-dementing–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness–of reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–
this point, intellectual commitment overtly meets ontology.) Explained in other terms, implying in a non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-impediments of the transcendental prospective positivism prospective relative-ontological-completeness of reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness of reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as intemporality-asymmetric-subsumption-of-temporality/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness of reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is
the crossgenerational resolution of our positivism–procrypticism prior relative-ontological-

of—meaningfulness-and-teleology rather for a ‘conflation construal/conceptualisation’ and
not a rather deceptive analytical reflex of ‘constitutedness’ of reference-of-thought
construal/conceptualisation’. The fact is by mental-reflex we relate to social meaningfulness-
and-teleology by apriorising/axiomatising/referencing—constitutedness as of elaboration-
as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-
existential-contextualising-contiguity which by habit or chance will often turn out to be as of
normalcy/postconvergence>–existentialism-form-factor but we fail to do this due to our amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag metaphysics-of-presence>(implicitized-nondescript/ignoreable–void ’as-to-presencing—absolutising-identitive-constitutedness } disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnatured institutionalisation which while inconsequential within the ambits institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence> (implicitized-epistemic-veracity-of- nonpresencing–perspective–ontological-normalcy/postconvergence> } as its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The implication is that postlogism/psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnatured institutionalisation human nature whereas the apriorising/axiomatising/referencing—conflicatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by apriorising/axiomatising/referencing—conflicatedness to establish the uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnatured
institutionalisation as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness} level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology-{in-existential-extrication-as-of-existential-unthought} and without social universal-transparency-{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative-epistemicity>totalising~in-relative-ontological-completeness} of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism.

as of its social model at uninstitutionalised-threshold \(^{103}\), and so by way of \(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{55}\)—unenframed-conceptualisation (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity\(^{107}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^{88}\)-of\(^{84}\) reference-of-thought- devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{39}\) which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of the established \(^{84}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{100}\),-for- aposteriorising/logicising/deriving/intelligising/measuring– meaningfulness-and-teleology\(^{100}\). Such a conceptualisation/construal is dramatically different from how we ordinarily conceive the construal of social meaningfulness-and-teleology\(^{100}\) before the institutionalisation of such a specific uninstitutionalised-threshold\(^{101}\) takes place. (Consider in this respect how the visitor erred in its relation with the childhood psychopathy on the basis of its commonly assumed social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{39}\). At this individuation-level representation of the disambiguation of the transcending and transcended registry-worldviews, the visitor is using the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the possibility of the childhood psychopathy’s slantedness as inducing procrypticism or
‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology going by the visitor’s relative-ontological-incompleteness-reference-of-thought as of positivism–procrypticism, while the explainer of the situation has factored in notional-deprocrypticism-reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of notional-deprocrypticism-reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism-reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new notional-deprocrypticism-reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism-reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfite-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} by formality dynamics; with the implication of lack of social universal-transparency {transparency-of-totalising-entailing,-as-to-entailing-amplituding/formative-epistemicity-totalising~in-relative-ontological-completeness} as the manifestation is beyond-the-consciousness-awareness-teleology-{in-existential-extrication-as-of-existential-unthought} at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence unde-mentativity across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger de-mentative/structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new notional-deprocripticism
that implies that the registry-worldview/dimension is in circular-pervasiveness of procrysticism or 'disjointedness-as-of'-reference-of-thought'-as-misappropriated-“meaningfulness-and-teleology

(Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the ‘lived social’ as of the aforementioned implied notional-deprocrysticism reference-of-thought–categorical-imperatives/axioms/registry-teleology

from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness-of-reference-of-thought perspective but it is more difficult to grasp from a notional-deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and preconverging-or-dementing–apriorising-psychologism, given our state of metaphysics-of-presence\implicited: ‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ⟩.

Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the crossgenerational possibility of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Supposed however that the interlocutor
isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of
such that implying that our prior positivism–procrypticism, as of its \[\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}\], -for-aposteriorising/logicising/deriving/intelligising/measuring--\[\text{meaningfulness-and-teleology}\], cannot longer be upheld at such uninstitutionalised-threshold \[03\] but requiring in lieu a notional–deprocrypticism \[\text{reference-of-thought–categorical-imperatives/axioms/registry-teleology}\], -for-aposteriorising/logicising/deriving/intelligising/measuring--\[\text{meaningfulness-and-teleology}\] will be difficult to countenance but for a crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold \[03\]–defect–as-Being-or-ontological-or-existential–defect>\[26\]. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism\[78\] condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrypticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity--in-reification\[57\]/dereification \[\text{entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity}\]<\text{profound-supererogation}-of-mentally-aestheticised–postconverging/dialectical-thinking–qualia-schema>-with superstitious claims in its \[\text{meaningfulness-and-teleology}\]. An explainer to the visiting
cumulative-aftereffect/aftereffect at registry-worldview/dimension-level of analysis is the very ontologically-central notion of every registry-worldview/dimension uninstitutionalised-threshold which should thus be always construed as being in distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing with respect to its prospective institutionalisation. It is effectively derived-denaturing that induces threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism as of uninstitutionalised-threshold, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology are in effect ontologically-speaking threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-attendant-intradimensional-prospectively-disontologising-preconverging/dementing-apriorising-psychologism. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism-as-of-conviction,-in-profound-supererogation-as-to-attendant-intradimensional-apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> apriorising/axiomatising/referencing—confatedness as of positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a crossegenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as the non-positivism registry-worldview/dimension in
teleology and with the preconverging–de-mentating/structuring/paradigming relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-afteffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-afteffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to reference-of-thought–<of-apriorising/axiomatising/referencing> as undermining apriorising/axiomatising/referencing—conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-afteffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness–of–reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be
expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its reference-of-thought–prelogism-as-of-conviction,-in-profound-supererogation-as-of-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at’ is in an ‘intemporality–asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the apriorising/axiomatising/referencing—conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-compulsing–nonconviction/madeupness/bottomlining-

One cannot depart from both ‘the state of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as derived-\textsuperscript{75} perversion-of-\textsuperscript{84} reference-of-thought-&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation &gt; or any states of temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-\textsuperscript{75} perversion-of-\textsuperscript{84} reference-of-thought-&lt;as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation &gt;’ to construe meaningfulness-and-teleology\textsuperscript{100} as of intrinsic-reality/ontological-veridicality dementatively/structurally/paradigmatically by their relative-ontological-incompleteness\textsuperscript{89}-of-\textsuperscript{84} reference-of-thought, as all the meaningfulness-and-teleology\textsuperscript{100} that can be as of intrinsic-reality/ontological-veridicality wholly lies with the intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84} reference-of-thought. The implication at the registry-worldview level is that base-institutionalisation ‘wholly carries all the meaningfulness-and-teleology\textsuperscript{100} that can be as of intrinsic-reality/ontological-veridicality’ over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-
expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) as of prospective notional–deprocrypticism over our positivism–procrypticism. The point here is to highlight that ‘conflatedness’\(^{14}\) doesn’t imply any symmetrisation of meaningfulness-and-teleology\(^{100}\) with regards to perversion-and-derived-\(^{75}\) perversion-of-reference-of-thought\(^{-}\)<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> since the latter is de-mentatively/structurally/paradigmatically not logically-due for \(^{54}\) logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation\(^{54}\) in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter de-mentative/structural/paradigmatic reconstrual of meaningfulness-and-teleology\(^{100}\) as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness\(^{88}\)-of-reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implications associated with perversion-and-derived-\(^{75}\) perversion-of-reference-of-thought\(^{-}\)<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> ultimately falls to the grander issue of prior relative-ontological-incompleteness\(^{99}\)-of-reference-of-thought as fundamentally endemising/enculturating such perversion-and-derived- perversion-of-reference-of-thought\(^{-}\)<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> possibilities; such that an intemporal/ontological/social/species/\(^{104}\) universal/transcendental/\(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{85}\)—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as \(^{55}\) maximalising-recomposuring-for-relative-ontological-completeness\(^{88}\)—unenframed-conceptualisation is not one that simply identify a perversion-of-reference-of-thought\(^{-}\)<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> in a social-construct
veracity. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought as-of-conflatedness as existential/ontological transcendental-enabling/sublimating/supersorative/dementativity veracity thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-ontological-good-faith/authenticity-as-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation exercise which is then an altogether different issue of effective/ineffective logic as prelogism-as-of-conviction.-in-profound-supererogation<-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at>, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather reflected-as-of-soundness-or-ontological-good-faith/authenticity-as-of-reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-afteffect/afteffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism/psychopathy phenomenon relatively

'amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-'nonpresencing,-for-explicating-ontological-contiguity’, as of ‘historiality/ontological-eventfulness'/ontological-aesthetic-tracing='<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>. For instance, the immediacy of intrinsic-reality/ontological-veridicality transcendental enabling in the natural sciences which is implicit in those fields by their ‘relatively high results-constraining-effectiveness nature’ provides metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction bound to disrupt thought and analysis in the social as of its ‘relatively low results-constraining-effectiveness nature’. Along the same argument and with regards to the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness )/incidental occurring behind the inspired/insight-for-the social construction supposedly coherent ontological-commitment as of aetiologisation/ontological-escalation for universal retrospective to prospective understanding of postlogism psychopathy and human social dynamics implications. In other words such a social construction supposedly coherent ontological-commitment is inherently the more expansive, universal, decisive, objective
myriad retrospective and prospective mechanical phenomena for analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the de-mentative/structural/paradigmatic universal implications arrived-at of the laws of motion supposedly coherent ontological-commitment on the basis of the specific epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree as of the latter relatively poorly objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction nature of many a natural sciences <amplituding/formative-epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment is wrong, such an insight about the supposedly coherent ontological-commitment being wholly construed as of its ‘very own veracity/ontological-pertinence as of any of its objectifiable contexts’ can-and-is often easily flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction that permeates the study of
the social as of its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction, and so as of a knowledge-notionalisation exercise. In other words metaphysics-of-absence\(\{\text{implicit}-\text{epistemic-veracity-of}\}\) nonpresencing\(\langle\text{perspective-ontological-normalcy/postconvergence}\rangle\) refers to any such projections, as of human imaginative capacity derived from our underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and so construed as the enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework\(\langle\text{amplituding/formative–epistemicity}\rangle\) causality—as-to-projective-totalitative–implications-of-prospective-nonpresencing, for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency—sublimating–nascence, disclosed from prospective-epistemic-digression; thus enabling human limited-mentation-capacity-deepening insights as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. We can further get a sense with respect to the implications of what is meant by reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, relative to the construal/conceptualisation from the middle of the last century in the biological domain as of its specific uninstitutionalised-threshold then over which the

(In fact, the institutional-cumulation/institutional-recomposure\[\langle\text{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing}<\text{perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}>\rangle\] are the conjoined effect of all specific uninstitutionalised-threshold\[03\] institutionalisation breakthroughs of reference-of-thought–categorical-imperatives/axioms/registry-teleology\[100\],-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\[100\] construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the ‘emotional involvement’ in apriorising/axiomatising/referencing—
conflatedness within the same positivism registry-worldview of appraisal is way low compared to the high ‘emotional involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and notional–deprocrypticism as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of ‘emotional involvement’ thus requiring rather a crossgenerational adjustment as apriorising/axiomatising/referencing—conflatedness over the prior distractive-alignment-to reference-of-thought->apriorising/axiomatising/referencing>. In conclusion, such a construal/conceptualisation as of notional–deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology over our positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of our ‘lived social’ uninstitutionalised-threshold with respect to psychopathy and social psychopathy and procrypticism in general is a wholly new dramatically different depth of understanding, and from our present inclination of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity within the positivism institutionalisation framework. Beyond the above constrastive individuation-level and registry-worldview/dimension-level of analysis with respect to the uptake of prospective categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology,

disontologising–preconverging/dementing apriorising-psychologism>. The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology apriorising/axiomatising/referencing—confledness ² for ontologically-veridical meaningfulness-and-teleology¹⁰⁰ and ‘human notional–firstnatures—temporal-to-intempernal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence> condition’ of reception/distortion across the successive registry-worldviews/dimensions involving denaturing where there is ‘lack of constraining social universal-transparency¹¹ {(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness )}. The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology apriorising/axiomatising/referencing—confledness¹² for ontologically-veridical meaningfulness-and-teleology¹⁰⁰, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intempernal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory–de-mentativity ontological-prime movers-totalitative-framework⁷³ (as it supersedes the prior beyond-the-consciousness-awareness-teleology¹⁰⁰,<in-existential-extrication-as-of-existential-unthought>⁵ meaningfulness-and-teleology¹⁰⁰ and the prior ‘lack of constraining social universal-transparency¹⁰⁰ {(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness )}, and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-
and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology apriorising/axiomatising/referencing—conflatedness for prospective relative-ontological-completeness reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wanes as the reality of human notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence nature sets in as it is related to at the uninstitutionalised-threshold by the registry-worldview’s/dimension’s least common denominator as wooden-language⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology⟩ for social-functioning-and-accordance—as-of—social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold that is a drawback-to/undermines prospective-knowledge-and-institutional deferential-formalisation-transference as of prospective relative-ontological-completeness -of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity ontological-primemovers-totalitative-framework, and is rather oriented to sovereign extrication over knowledge-reification at this uninstitutionalised-threshold as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since reference-of-thought—categorical-imperatives/axioms/registry-teleology are only ‘mechanistically’ constraining, lacking the organic-spirit or ontological-
faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a ‘sense of rightness’ is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such ‘mechanistic’ effectiveness as mechanical-knowledge ‘without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating/supercogulatory–de-mentativity ontological-prime-movers-totalitative-framework construal for the notional-deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of notional-deprocrypticism and the ‘reality of a human condition of temporal-dispositions distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing’, and so as of notional–conflatedness/constitutedness–to-conflatedness as historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological–

perspective the idea that the present and as of our present social construction and individualisations
as being relatively more exceptional than the solipsistic nature of humans in prior epochs is
false, with such wrongly implied exception rather being a confusion between ‘cumulated
institutionalisation’ (which we carry by being secondnatured at the backend in reflecting
holographically-<conjugatively-and-transfusively> the ontological-contiguity —of-the-
human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense

scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity. Such metaphysics-of-absence\{(implicated-epistemic-veracity-of- nonpresencing<-perspective-ontological-normalcy/postconvergence->\}) considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold\(^\text{103}\) implications with respect to ‘a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’), like deferential-formalisation-transference, ordered-construct, percolation-channelling<-in-deferential-formalisation-transference> and transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’\(^\text{102}\). Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or ‘social framework of intersolipsistic deambulation’. But then we grasp that at the disjuncture of positivistic\(^\text{56}\) meaningfulness-and-teleology\(^\text{100}\) (as ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific\(^\text{56}\) meaningfulness-and-teleology\(^\text{100}\) as of relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—<in-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlying. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<in-deferential-formalisation-transference> possibilities enabling promising ideas, however institutionally-outlying or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturing prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling-<in-deferential-formalisation-transference> and
transversality~of-affirmative-and-unaaffirmative~disambiguated~motif-and-apriorising/axiomatising/referencing'). In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will 'produce the greater human Good', as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of 'relatively free-for-all opinionatedness and imaginary knowledge constructs' with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for 'social consensus as of social-aggregation-enabling by human temporal amplituding/formative wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications}> mental-dispositions and projections' and not necessarily emphasising 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory~de-mentativity by human intemporal mental-dispositions and projections'; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness as-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology} as of its free-for-all nature. The bigger point being that even in our positivism~procrypticism
registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—'nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications> } mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining
the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism /psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism /phenomenon including psychopathy on the assumption of an overall
‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ of the social as of the present as \( \text{metaphysics-of-presence}\{\text{implicated-`nondescript/ignorable–void } \} \)-as-to-presencing—absolutising-identitive-constitutedness \) instead of assuming a ‘human temporal uninstitutionalised-threshold’ \( \) mental-disposition’ of the social by prospective \( \text{metaphysics-of-absence}\{\text{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} \}\), since the construal of our postlogism \( \) as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, reflected from futural \( \text{Being} \)-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology \( \) as of prospective notional–deprocrypticism registry-worldview’s/dimension’s \( \) reference-of-thought. Insightfully, by \( \text{metaphysics-of-absence}\{\text{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>}\}\) we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the nonpositivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold \( \) of temporalities-drives such that it is endemised/enculturated in various temporality\( /shortness \) shades (\( \) ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation\) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s \( \) reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the \( \text{amplituding/formative} \) wooden-language-\{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-`nondescript/ignorable–void } \}-with-regards-to-prospective-apriorising-
in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal preconverging–de-mentating/structuring/paradigming and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as de-mentatively/structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting holographically-conjugatively-and-transfusively-the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective-ontological-normalecy/postconvergence-reflected-epistemicity-relativism, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates
intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing-\langle\text{perspective–ontological-normalcy/postconvergence}\rangle)/postdication rather than upholding it, their very raison d’être. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness\textsuperscript{88}–of-reference-of-thought, by ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness–or-ontological-reprojecting its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation intemporality\textsuperscript{88}–drive to supersede the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community’s existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity\textsuperscript{89} here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness\textsuperscript{9} and relative-ontological-completeness\textsuperscript{99 88} reference-of-thought and respectively as of their divergent non-positivists dereification\textsuperscript{97} perspective and positivist reification\textsuperscript{7} perspective; as seeing the positivist stranger walking into the supposed ‘evil forest’ will be the confirmation for members of the
non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity\(\text{\textsuperscript{\textdegree}}\)-in-reification\(\text{\textsuperscript{\textdegree}}\)/dereification\(\text{\textsuperscript{\textdegree}}\) as of their prior relative-ontological-incompleteness \(\text{\textsuperscript{\textdegree}}\)-of-reference-of-thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity \(\text{\textsuperscript{\textdegree}}\)-in-reification \(\text{\textsuperscript{\textdegree}}\) as-seeking-a-cure as of its prospective relative-ontological-completeness \(\text{\textsuperscript{\textdegree}}\)-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness \(\text{\textsuperscript{\textdegree}}\)-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity\(\text{\textsuperscript{\textdegree}}\)-reification\(\text{\textsuperscript{\textdegree}}\) as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing->\(\text{\textsuperscript{\textdegree}}\) projected epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity \(\text{\textsuperscript{\textdegree}}\)-<profound-supererogation-\(\text{\textsuperscript{\textdegree}}\) of-mentally-aestheticised~postconverging/dialectical-thinking \(\text{\textsuperscript{\textdegree}}\)-qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter \(\text{\textsuperscript{5}}\) meaningfulness-and-teleology \(\text{\textsuperscript{10}}\) as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the \(\text{\textsuperscript{10}}\) universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the
de-mentative/structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness of reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in  

syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality—of-affirmative-and-unaffirmative–disambiguated—‘motif-and-apriorising/axiomatising/referencing’ of the prior relative-ontological-incompleteness of reference-of-thought and the contorted prospective relative-ontological-completeness of reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness of reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because inherently the state of prior relative-ontological-incompleteness of reference-of-thought ever always fails to accompany prospective state of prospective relative-ontological-completeness of reference-of-thought but for the induced crossgenerational transcendental metaphoricity possibility, and the contortion is more of a token as of the metaphoricity possibility for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity and without which token contortion there
is ‘no existential reference for such transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity’, as a gesturing of metaphoricity\(^5\) that is ‘beyond the prior relative-ontological-incompleteness’\(^{89}\)-of-\(^{88}\) reference-of-thought full \(^{56}\) meaningfulness-and-teleology\(^{100}\) implications contemplation’. The contortion implies that there is ‘nothing any more important than upholding the metaphoricity’\(^5\) possibility for prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought; as transcendental instigation can’t be of ordinary inclination at one moment and at another moment of transcendental inclination, as this will only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity into the ordinariness of prior relative-
ontological-incompleteness\(^{89}\)-of-\(^{84}\) reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-
or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity\(^5\) gesturing for prospective relative-ontological-completeness\(^{88}\)-of-\(^{84}\) reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism\(^4\) rather as of reasoning-through/messianic-reasoning asceticism\(^4\), different from asceticism\(^1\) as reasoning-from-results/afterthought or institutional asceticism\(^4\), should basically be understood as of the general notion that all human \(^{56}\) meaningfulness-and-teleology\(^{100}\) are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation

Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic/reprojecting/supererogating/zeroing psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding-positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding-positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and medieval-scholasticism-like pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism but not yet as of rational-empiricism’; with such budding-positivism rather a metaphoricity instigation of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-

futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism is very much alien to our positivism—procrypticism cloistered-consciousness. In both instances the notion of prospective metabolicity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality reference-of-thought/epistemic-totalising—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology’ which effective dislodgment/displacement/decentering is as of a crossgenerational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness—as-to-totalitative-reification—in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—as-veridical-epistemic-determinism—<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism.
The fact is human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—existentialism-form-factor at its uninstitutionalised-threshold implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold ‘is not geared to adhere to abstract ontological-veridicality’ as it will operate its state of dissingularisation—as-to-the-disjointedness/desentailment-of-presencing—absolutising-identitve-constitutedness as if in a fully-attained state of singularisation—as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocripticism—or—preempting—disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,—normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,—normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness of reference-of-thought meaningfulness-and-teleology state is downright ontologically ridiculous and the manifestation of an naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be
reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism, but an ontologically-verbatim psychology rather warrants implying the human subject displacement/decentering as the de-mentative/structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-from-results/afterthought reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as preconverging-or-dementing—apriorising-psychologism as of prospective postconverging-or-dialectical-thinking—apriorising-psychologism reasoning-through/messianic-reasoning reproducibility—mathesis/motif/thrownness-disposition, as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic/reprojecting/supererogating/zeroing psychology parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of—meaningfulness-and-teleology projection in any human and no more’ with no point going beyond that point as it then becomes as of intellectual-and-
moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity\textsuperscript{63} -<shallow-supererogation\textsuperscript{97}-of-mentally-aestheticised-preconverging/dementing\textsuperscript{97}–qualia-schema>; and so, as its essential\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} is as of a solipsistic transversality~of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} reflection of the ontologically ‘superior party’ that is intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-elicitng-of-prospective-supererogation\textsuperscript{97}<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity, on the same token that a natural scientist is in a transversality~of-affirmative-and-unaffirmative-disambiguated-‘motif-and-apriorising/axiomatising/referencing’\textsuperscript{102} reflection of its object of study as of existence as the ontologically ‘superior party’ without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s\textsuperscript{2} on earth if any given human subject isn’t accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s\textsuperscript{2} but that as well needs to be established as of the ontologically ‘superior party’ that is existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-elicitng-of-prospective-supererogation\textsuperscript{97}<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> as of ontological-primemovers-totalitative-framework\textsuperscript{71}. But then the human reality across all registry-worldviews/dimensions, isn’t inherently ‘of immediate intellectual responsiveness’ to the notion of its uninstitutionalised-threshold\textsuperscript{03} and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the ‘obvious reality’ of the fact that superstitious beliefs are bogus, but
then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the ‘existentially invested nature as of assumed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ of human ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology/ reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its preconverging-or-dementing—apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable—void (actually speaking of akrasiatic-drag-denatured-and-preconverging-or-dementing -narratives), for the possibility of its prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity into prospective institutionalisation. This reality is known as human ‘supererogatory–de-mentative constraint’ to prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the possibility of prospective relative-ontological-completeness–of-reference-of-thought. Human supererogatory–de-mentative constraint is fundamentally associated with poor universal-transparency ⟨transparency-of-totalising-entailing,-as-to-entailing-⟩ amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness with respect to social-stake-contention-or-confliction at uninstitutionalised-threshold. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of wooden-language ⟨imbued—temporal—mere—}
form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narrativess of the reference-of-thought– categorical-imperatives/axioms/registry-teleology  as of the prior institutionalisation’s reference-of-thought– categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity/sublimation/supererogatory de-mentativity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness of reference-of-thought is actually ontologically transformative as of aetiolisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human supererogatory de-mentative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity/sublimation/supererogatory de-mentativity as implied by a ‘postconverging-or-dialectical-thinking – psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ that emphasises the ‘Lacanian subject’ growth as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical– de-mentation–stranding-or-attributive-dialectics), rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective- nonpresencing, for-explicating-ontological-contiguity, and thus making the given presence reference-of-thought as our positivism–procrypticism ‘all-determinative of what can be construed as psychological emancipation’ as of its <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.

In this regard as of lack of dispensing- with-immediacy-for-relative-ontological-completeness\(^1\)-by-reification\(^7\)/contemplative-distension\(^2\) is the human temporal inclination to decontortion construed as a disposition to undermine ‘intemporal ontological-veracity as of \(^{100}\) universal existential import’ for the sake of
‘temporal narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory \({}^{104}\) universal \({}^{100}\) “meaningfulness-and-teleology”, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human \({}^{45}\) <amplituding/formative–epistemicity>totalising–self-referencing-syneretising/circularity/interiorising/akrasiatic-drag \({}^{56}\) incrementalism-in-relative-ontological-incompleteness \({}^{89}\)—enframed-conceptualisation is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness \({}^{89}\) of reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> of reifying existential-contextualising-contiguity \({}^{103}\), and thus adopting a dereification \({}^{87}\) posture as enabled by ‘lack of constraining social \({}^{104}\) universal-transparency \({}^{105}\) ⟨transparency-of-totalising-entailing,-as-to-entailing-\<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ⟩’. Such a human disposition to decontortion at uninstitutionalised-threshold \({}^{103}\) arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of \({}^{56}\) meaningfulness-and-teleology \({}^{100}\) as it reflects existence’s coherence/contiguity as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\nonpresencing>_\({}^{81}\) projected epistemic-immanence/veridical-epistemic-determinism. But then such a decontortioning disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold \({}^{103}\) where we are actually preconverging-or-dementing \({}^{19}\) –apriorising-psychologism and prospectively dialectically-primitive,
notwithstanding our attendant \(<\text{amplituding/\textit{formative–epistemicity}>\text{totalising}-\text{self-referring-syncretising/circularity/interiorising/akrasiatic-drag}^\text{\textdagger}}\) and vague untransvaluated–temporal-intemporality \(^2\) gesturing. The ontological-contiguity\(^\text{\textdagger}^{\text{\textdagger}}\)—of-the-human-institutionalisation-process\(^\text{\textdagger}^{\text{\textdagger}}\) can thus be construed as one of increasingly undermining the human subject temporal decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness\(^\text{\textdagger}^{\text{\textdagger}}\); wherein across the successive institutional-cumulation/institutional-recomposure\(\{\text{as-to- historiality/ontological-eventfulness}\)/ontological-aesthetic-tracing\(<\text{perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’}\}\rangle\), decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework\(^\text{\textdagger}^{\text{\textdagger}}\) in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of \(^\text{\textdagger}^{\text{\textdagger}}\)\(\text{universal-transparency}\(^\text{\textdagger}^{\text{\textdagger}}\)\{\text{transparency-of-totalising-entailing,-as-to-entailing-<\text{amplituding/\textit{formative–epistemicity}>\text{totalising–in-relative-ontological-completeness} }\}\}.

Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness\(^\text{\textdagger}^{\text{\textdagger}}\)-as–‘epistemic-totality\(^\text{\textdagger}^{\text{\textdagger}}\)-dereification\(^\text{\textdagger}^{\text{\textdagger}}\)-in-dissingularisation\(<\text{as-to-the-disjointedness/disentailment-of–presencing—absolutising-identitive-constitutedness }\rangle\)–as-flawed-epistemic-determinism\(^\text{\textdagger}^{\text{\textdagger}}\) as of dissingularisation\(<\text{as-to-the-disjointedness/disentailment-of–presencing—absolutising-identitive-}\)
constitutedness\textsuperscript{13}>\textsuperscript{17}/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance\textsuperscript{22}>\textsuperscript{28}-<including-virtue-as-ontology> as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology\textsuperscript{37} in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness -as-‘epistemic-totality’ -dereification\textsuperscript{87}- in-dissingularisation-<as-to-the-disjointedness/disentailment-of-\textsuperscript{19} presencing—absolutising-identitive-constitutedness > -as-flawed-epistemic-determinism\textsuperscript{49} implied as of dissingularisation-<as-to-the-disjointedness/disentailment-of-\textsuperscript{19} presencing—absolutising-identitive-constitutedness > /epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{7} as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>-\textsuperscript{13} projected epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness\textsuperscript{13}-as-‘epistemic-totality’ -dereification\textsuperscript{7}-in-dissingularisation-<as-to-the-disjointedness/disentailment-of-\textsuperscript{19} presencing—absolutising-identitive-constitutedness\textsuperscript{13}>\textsuperscript{38}-as-flawed-epistemic-determinism\textsuperscript{49}’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{19} without the constraint of existential-contextualising-contiguity\textsuperscript{19} knowledge-reification\textsuperscript{87} as of existence—as-the-absolute-a-priori-of-
conceptualisation—and—existence—as—sublimating-withdrawal,—eliciting-of-prospective-
supererogation”<as—to-perspective-ontological-normalcy/postconvergence-implied—
‘prospective-aporeticism-overcoming/unovercoming’> as its very own transcendental signifier
which ultimately manifestly-as-inherently enables transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as the very essence of knowledge. This
has led in many ways to a dissonance between their knowledge productivity implications and
existential reality wherein for instance psychological and psychiatric science seems to imply
that all along its practice human psychological illnesses have multiplied many times over as of
ever transforming and expanding formalisation credo, while the analytical tradition of
philosophy by the avowals of its internal critics has been involved in a recurrent second-
guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside
of social reality’ wrongly mimicking a natural science tradition whose domain-of-study
ecstatically allows for such an attitude/mental-disposition/care—and—episteme. Such an
approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather
abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-
elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting
exercise, as when it returns in striving to supposedly elucidate social and other existential
phenomenality, it is lost to it that social and other existential phenomenality is already
precedingly/superseding as of ‘ecstatic totalising-entailing/nested-congruence’, with the
consequence that it naively construes of reification as simply projecting ‘the supposedly
reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential
phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic totalising-
entailing/nested-congruence’ of existential phenomenality and thus misrepresenting,
denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology.
Such articulations tend out to be merely implied decontextualised/abstracted constructs with
poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness\(^{19}\)/relative-ontological-completeness\(^{19}\) (sublimating~referencing/registering/decisioning, as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–

<including-virtue-as-ontology> which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment\(^\text{66}\) as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-postconverging-or-dialectical-thinking\(^\text{20}\)–apriorising-psychologism> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’, and logic actually being in effect the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology\(^\text{100}\) that exists is about existential-contextualising-contiguity\(^\text{99}\) knowledge-reification\(^\text{87}\) as of ontological-primemovers-totalitative-framework\(^\text{73}\) <amplituding/formative—epistemicity> causality— as to projective-totalitative—implications-of-prospective—nonpresencing,—for explicating-ontological-contiguity\(^\text{67}\) of supposedly coherent ontological-commitment\(^\text{66}\) implied as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, ‘speech activity’ discourse speaks of an supposedly
coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity…) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of this articulated ontological-as-existential-commitment having to do with such social contextualisation’. Likewise the underlying notion of ontological-performance as herein articulated by this author is as difference-conflicatedness-as-to-totalitative-reification-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-as-veridical-epistemic-determinism-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity as from existence-potency~sublimating–nascence, disclosed from prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’; articulating knowledge as ontologically-veridical meaningfulness-and-teleology as of the existential-contextualising-contiguity knowledge-reification causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of human underlying relative-ontological-incompleteness/relative-ontological-completeness {(sublimating–referencing/registering/decisioning, as-self-becoming/self-conflicatedness /formative-supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing, in-perspective–ontological-normaley/postconvergence)}. This underlying notion of ontological-performance as including-

Whereas the analytic tradition posture as with ‘speech act’ gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^{39}\)) geared towards identitive-constitutedness\(^{1}\)-as-‘epistemic-totality’\(^{66}\)-dereification -in-dissingularisation-<as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness\(^{12}\)>\(^{87}\)-as-flawed-epistemic-determinism\(^{49}\), which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent ontological-commitment\(^{66}\) in want of existential-contextualising-contiguity\(^{45}\) knowledge-reification\(^{87}\) for knowledge as ontologically-veridical \(^{56}\)meaningfulness-and-teleology\(^{100}\), as can be validated and falsified by ontological-primemovers-totalitative-framework\(^{1}\)<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–
implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendancy of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework, and goes on to naively deploy outside existential-contextualising-contiguity knowledge-reification such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in apriorising/axiomatising/referencing—constitutedness as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment for knowledge elucidating/reifying which validation and falsifiability is rather a matter of ontological-primemovers-totalitative-framework, and the fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the
superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability
is ever always a matter of ontological-primemovers-totalitative-framework. Being and beings construed-as-of-ontology/apriorising/axiomatising/referencing in the conceptualising of the very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-
‘human-totalising~purview-of-construal’ or any
<amplitudding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or any-issue-in-existence as knowledge, and so as of articulated axiomatic-constructs; is rather reflected either in affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> when the conceptualising is in prospective relative-ontological-completeness, or is reflected in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing–apriorising-psychologism> when the conceptualising is in prior relative-ontological-incompleteness, and in both instances as substantiated or unsubstantiated respectively by ontological-primemovers-totalitative-framework in reflection of the ascendency of existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression. For instance, with the affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking–apriorising-psychologism> of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs over classical-mechanics—axiomatic-constructs as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing–apriorising-
psychologism>. This is also the case as of the affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking apriorising-psychologism> of the ‘relative-ontological-completeness of reference-of-thought’ over ‘relative-ontological-incompleteness of reference-of-thought’ as unaffirmation/deprojection/deassertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing apriorising-psychologism>; for instance, futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of meaningfulness-and-teleology as of prospective notional–deprocrypticism over our positivism–procrypticism or in the case of our positivism over prior non-positivism–medievalism. Logic arises as a mental-reflex of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in knowledge construing-as-of-ontology/apriorising/axiomatising/referencing of Being and beings. However, because a reference-of-thought is already an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of its underlying affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking apriorising-psychologism>, logic seems to be the only mental exercise involved since the underlying affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring-<as-to-postconverging-or-dialectical-thinking apriorising-psychologism> of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is ever so pervasive-and-transparent to contemplation by mental-reflex, such that when the affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-

presencing—absolutising-identitive-constitutedness conventioning-referencing in medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation

With the very blurry nature of the social, even with the best of intentions as when continental philosophers try to engage the analytic tradition, the experience has often turned out poorly given the failure to explicitly grasp/appreciate the conflicting implications of their differing
knowledge commitments as of supposedly coherent ontological-commitment implied ecstatic-totalising-entailing/nested-congruence with the former and logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as going by conceptual-patterning-as-devoid-of-‘existential-contextualising-contiguity’-s-reifying/elucidating-of-prospective-relative-ontological-completeness, it can be naively implied that similar conceptual wordings imply similar knowledge commitments and operant articulations. In the same vein, one can say that notions like spacetime, force, atoms, etc. in the physics

about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework

causality-as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is falsifiable by ontological-primemovers-totalitative-framework. Even mathematics it is often underestimated works rather on supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that
calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead
reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicited/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-prime-movers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of apriorising/axiomatising/referencing—conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a totalising-entailing
apriorising/axiomatising/referencing—conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of amplituding/formative–epistemicity totalising–devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity/eczstasy reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and-hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing~conceptualisation) as of supervening-conflatedness . Knowledge as meaningfulness-and-teleology, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework . Inherently, because human-subpotency supposedly coherent ontological-commitment is very much intimately linked with the ontological-performance <including-virtue-as-ontology> of human as of prospective relative-ontological-completeness appraisal, it is always ever the case that as of human amplituding/formative–epistemicity totalising–thrownness-in-existence the validation of knowledge as meaningfulness-and-teleology as of supposedly coherent ontological-commitment is equally as of the very-same-immanent-existence/intrinsic-
to imply unconnectedness-with/not-in-nested-congruence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative-epistemicity>totalising~purview-of-construal’ or <amplituding/formative-epistemicity>totalising~devolved~purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality, hence implicitly-or-explicitly liable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. This apriorising/axiomatising/referencing—constitutedness of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the ‘inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative-epistemicity>totalising~purview-of-construal’ or <amplituding/formative-epistemicity>totalising~devolved~purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency~sublimating~nascence, disclosed-from-prospective-epistemic-digression, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity, and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs
to be explicited in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression, this unexplicit implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of apriorising/axiomatising/referencing—conflatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the amplituding/formative-epistemicity—totalising—devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicit nature
in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of theoricisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups dementatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications, beyond their conventioning-referencing <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>-existentialising—enframing/imprintedness (as-to- historicity-tracing—in-presencing-hyperrealisation/hyperreal-transposition). Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanented nature of many a social domain-of-study unlike the grand singularised/immanented totalising/circumscribing/delineating ‘<amplituding/formative–epistemicity> reference-of-thought devolving {postconverging–narrowing-down–sublimation-as-to–‘existence—as-sublimating-withdrawal,-

to-reflect-‘immanent-ontological-contiguity’ is inherently convenient as of a mental-reflex oriented towards ordinary wooden-language \(\text{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology - as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}\} human-subpotency ways-of-looking-at-things rather than adopting-the-intellectual-hat for reifying the former in a mental-reflex oriented towards existence-potency sublimating-nascence,-disclosed-from-prospective-epistemic-digression \(\text{amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,-for-explicating-ontological-contiguity ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity apriorising/axiomatising/referencing—conflicatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-

It is thus not surprising that naive disparateness-of-conceptualisation-unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’ leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the attendant-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment as validatable and falsifiable by ontological-primemovers-totalitative-framework as to existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as it is critically the case in the good practices of the natural sciences. A further naivety is the appreciation of postmodern knowledge-reification process/gesturing arises as of a general misunderstanding of what is generally implied with regards to any given knowledge-reification process/gesturing. This hermeneutic/reprojecting/supererogating/zeroing circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagagic exercise
wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic/reprojecting/supererogating/zeroing insight as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic/reprojecting/supererogating/zeroing circle level of postmodern knowledge-reification’ no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic/reprojecting/supererogating/zeroing circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications)—level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications)—predisposition to incrementalism-in-relative-ontological-incompleteness—enframed-

The fact is the various pedagogic hermeneutic/reprojecting/supererogating/zeroing circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation are meant to transmit a ‘<amplituding/formative–epistemicity>totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘<amplituding/formative–epistemicity>totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic/reprojecting/supererogating/zeroing circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic/reprojecting/supererogating/zeroing circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal wooden-language⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void’-with-regards-to-prospective-apriorising-implications⟩ level of knowledge conception, and implicited in its knowledge-reification—gesturing/process is the notion that the prior/all-the-prior hermeneutic/reprojecting/supererogating/zeroing circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ more or less
very transparent, with regards to the blurriness\textsuperscript{7} of the social such a postmodern-thought
‘hermeneutic/reprojecting/supererogating/zeroing circle of levels of understanding’ rather

parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-
understand philosophical thought more than just an issue of technical acquisition of
philosophical knowledge as of mere knowledge mathesis/motif/thrownness-disposition). More
critically, social and philosophical knowledge are no different from any other type of
knowledge subject to ontological-primemovers-totalitative-framework\textsuperscript{7} as of inherent
existence/ontological implications, as fundamentally requiring contemplative reification
arising with human limited-mentation-capacity-deepening\textsuperscript{5}, with the implication that any
philosophical, historial and social conception of knowledge is not an imprimatur totalisingly-
disentailing—discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy

It is important to appreciate here that a history of postmodern-thought
criticism driven by populism, media operations, false intellectual engagement and ontological-
bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-
reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of
such critics who often pride themselves on not understanding postmodern-thought then by a
strange paradox have the knowledge to produce a profound criticism of postmodern-thought
which they supposedly do not understand’. Even more critically, the question can be raised
whether such critics profoundly appreciate the overall human knowledge-reification
process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-
reification methodological difficulties arising in many social domains-of-study ‘assuming a
disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-
‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly
constrained to existential-reality’ with the result of their relative knowledge-reification
passivity with regards to many a social issue ‘but for adventures into social commentary
divorced from genuine operant knowledge-reification implications’; and in this regards could
it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its
parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right
mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for
that given right mindset-as-of-prospective-relative-ontological-completeness as of projected
existential-contextualising-contiguity in apriorising/axiomatising/referencing—
confoundedness, an issue that has always been a difficult knot throughout the ontological-
contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt
with for the possibility of prospective human registry-worldview’s/dimension’s
institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally
points to an atomising/taking-to-pieces predisposition that poorly appreciates the
<amplituding/formative–epistemicity> causality~as-to-projective-totalitative–implications-of-
prospective\textsuperscript{-}nonpresencing, for explicating ontological-contiguity\textsuperscript{-} involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight that ‘poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness /ontological-aesthetic-tracing-\textlangle perspective–ontological-normalcy/postconvergence-reflected-\textquotesingle epistemicity-relativism\textquotesingle >, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be, as of the human-potential is as of a modern positivist \textlangle amplituding/formative\textrangle wooden-language-\text{\{imbued—averaging-of-thought\textlangle as-to- levelizing/ressentiment/closed-construct-of—meaningfulness-and-teleology as-of- nondescript/ignorable–void \textquotesingle with-regards-to-prospective-apriorising-implications\textrangle\} in its given \textsuperscript{8} reference-of-thought reproducibility—mathesis/motif/thrownness-disposition, as reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity\textsuperscript{11} in apriorising/axiomatising/referencing—confatedness \textquotesingle; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness\textsuperscript{12}—\textquotesingle epistemic-totality\textsuperscript{13}—dereification\textsuperscript{17} in-dissingularisation—\textlangle as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness \textrangle as flawed-epistemic-determinism\textsuperscript{19} ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic/reprojecting/supererogating/zeroing conceptualisation to then develop the capacity
to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicit social and philosophical stakes of contention-and-conflict. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in apriorising/axiomatising/referencing—conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but de-mentatively/structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <amplituding/formative–epistemicity>totalising~renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic/reprojecting/supererogating/zeroing and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the de-mentative/structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its evental -instigation
traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic-philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning-as-devoid-of–‘existential-contextualising-contiguity’’s-reifying/elucidating-of-prospective-relative-ontological-completeness as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic-philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern-day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—

the possibility for prospective human reconceptualisation of science providing the backdrop
from which modern science took off from the medieval times to the present. Likewise, the
transformative nature of budding-positivism more than just as garnered from the precised

meaningfulness-and-teleology\text{ infrastructure impact on the developing enlightenment social}
developments and as this budding-positivism metaphoricity\text{—epistemic-

society. The analyses of human becoming so-implied as of parrhesiastic and}
hermeneutic/reprojecting/supererogating/zeroing development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic/reprojecting/supererogating/zeroing insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic/reprojecting/supererogating/zeroing insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as
hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social
domain-of-study and even some of the natural sciences as of naïve science-ideology, and so
because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-
extistence-implications there need to be ‘human intemporal contemplation that abstractly
lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of
meaningfulness-and-teleology infrastructure’, something which a ‘human lifespan

postconvergingly—de-mentated/structured/paradigmed to do! But then the phenomenological
question arising with respect to the fact that many a social domain-of-study ‘tend to assume a
disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—
‘immanent-ontological-contiguity’—epistemic-disposition that is in many ways poorly
constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-

study as of their supposedly coherent ontological-commitment as reflected by ontological-
primemovers-totalitative-framework as of existence-potency—sublimating—nascence,—
disclosed-from-prospective-epistemic-digression? Insightfully, this fundamentally has to do
with the contrastive implications in construing ontological-primemovers-totalitative-

for knowledge-reification; wherein objectifying foregrounding—entailment

reification\textsuperscript{87} involves the construal of ontological-primemovers-totalitative-framework\textsuperscript{73} as of ‘cogent-unifying-operant-dynamics of primemovers’ so-construed veridically as ‘ontological-primemovers-totalitative-framework\textsuperscript{73} as of existential-contextualising-contiguity\textsuperscript{9} apriorising/axiomatising/referencing—conflatedness\textsuperscript{12}, whereas disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{67}> as bad-practice/epistemic-impertinence of knowledge-reification\textsuperscript{87} involves the construal of ontological-primemovers-totalitative-framework\textsuperscript{73} as ‘disjointing/disparateness/disentailing of primemovers’ so-construed wrongly as ‘ontological-primemovers-totalitative-framework\textsuperscript{73} in apriorising/axiomatising/referencing— constitutedness\textsuperscript{1}\) outside existential-contextualising-contiguity\textsuperscript{39}. Thus ‘disjointing/disparateness/disentailing of primemovers as disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{67}>’ basically undermines the veridical underlying ‘ontological-totalitative-framework as of existential-contextualising-contiguity\textsuperscript{9} apriorising/axiomatising/referencing—conflatedness\textsuperscript{12}, and thus undermines aetiologisation/ontological-escalation predicative-effectivity–sublimation\{as-to-underlying-ontological-commitment\}. ‘disjointing/Disparateness/Disentailing of primemovers as disparateness-of-conceptualisation<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity\textsuperscript{67}>’ undermines the inherent ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity\textsuperscript{9} apriorising/axiomatising/referencing—conflatedness\textsuperscript{12}, such that the supposed exercise of knowledge-reification\textsuperscript{87} ends up ‘losing the supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{3} of axiomatic-constructs as reflective of existential-reality’; as of the flawed disjointing/disparateness/disentailing of overall inherent existential-reality

ricochettingly/transepistemically as of ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ with respect to unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance<including-virtue-as-ontology> wherein originariness-parrhesia,—as—spontaneity-of-aestheticisation re-stakes/puts-back-at-stake the reconstruing of existential-reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology'), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’. For instance with regards to living-development—as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility
achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness\(^\text{18}\)/by-reification\(^\text{19}\)/contemplative-distension\(^\text{20}\) as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development–as-to-personality-development human aestheticisation of meaningfulness-and-teleology\(^\text{10}\) (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’) in existential-contextualising-contiguity\(^\text{9}\) apriorising/axiomatising/referencing—conflatedness\(^\text{11}\) involving ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as \(<\text{amplituding/formative-epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought}<\text{amplituding/formative-epistemicity}>\)’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as \(<\text{amplituding/formative-epistemicity}>\text{totalising–renewing-realisation/re-perception/re-thought}<\text{amplituding/formative-epistemicity}>\)’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in

conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness of meaningfulness-and-teleology (even as the privileged social conceptualisation of say language is as of language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’). Insightfully, we can garner that it is ‘human amplituding/formative–epistemicity–causality–as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation’ implied as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation that fundamentally renders/makes human institutional-development–as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions’ to be necessarily as of existential-contextualising-contiguity in apriorising/axiomatising/referencing—conflatedness and not in apriorising/axiomatising/referencing—constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. In another respect, ‘living-development–as-to-personality-development ‘meaningfulness-and-teleology aestheticisation’ is of ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to institutional-development–as-to-social-function-development meaningfulness-and-
mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation for such ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation’ underlying ‘hermeneutic/reprojecting/supererogating/zeroing reactualising as \(4\) <amplituding/formative–epistemicity> totalising–renewing-realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-development–as-to-social-function-development meaningfulness-and-teleology aestheticisation’ with regards to language development hasn’t warranted any ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising, re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation). reflected in human underlying supposedly coherent ontological-commitment, is ultimately potentiated/ontologisable as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’. This instigation of human aestheticisation of
‘are not the absolute possibility of ontological-performance\(^{(7)}\)\(\langle\text{including-virtue-as-ontology}\rangle\), as of their induced reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, for the prospective aestheticisation of human intemporal-as-ontological meaninglessness-and-teleology\(^{(10)}\) given that such underpinning–suprasocial-construct and \(\langle\text{amplituding/formative}\rangle\) wooden-language\(-\{\text{imbued—averaging-of-thought\langle\text{as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology}\rangle-as-of—}'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications\rangle\) are effectively rather secondnatured institutionalisation outcome of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation. In this regards, the more profound basis for prospective generation of human intemporal-as-ontological meaninglessness-and-teleology\(^{(10)}\) arises as of transepistemic/epistemic-ricochetting originariness-parrhesia,–as–spontaneity-of-aestheticisation that renews reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation as of prospective existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications of human limited-mentation-capacity-deepening\(^{(3)}\). This underlying insight is reflective of the fact that ‘secondnaturedness is no substitute for originariness as from prospective \(^{(9)}\) nonpresencing-<perspective–ontological-normalcy/postconvergence> reflection of \(\langle\text{amplituding/formative–epistemicity}\rangle\) causality~as-to-projective-totalitative–implications-of-prospective-’nonpresencing,-for-explicating-ontological-contiguity\(^{(7)}\) of relative-ontological-incompleteness\(^{(8)}\)/relative-ontological-completeness \{-\{\text{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normalcy/postconvergence)\}\}, as originariness is ever always about ‘intemporal parrhesiastic seeding-promise dimensionality-of-sublimating \(\langle\text{amplituding/formative}\rangle\) supererogatory–de-

This fundamental originariness and secondnature conundrum in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity of-the-human-institutionalisation-process is reflected by the fact that the human Self is ever always in disseminative constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-the-Self as of ‘human-subpotency subpar disposition to fail to construe the full existence-potency ~sublimating—nascence,—disclosed—subontologisation/subpotentiation. of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-reification—gesturing/process as of disparateness-of-conceptualisation—unforegrounding-disentailment—failing-to-reflect—immanent-ontological-contiguity—implications, and along the same parrhesiastic prospective epistemic-ricochetting/transepistemicity line this author is very much befuddled of a perverted exercise to undermine the originality of this work supposedly because of the theoretical orientation by a naïve ad-hoc synomising exercise that this author is very much confident fails as it overlooks the coherence and knowledge-reification—gesturing/process articulated herein. Generally, such perversion of thought as it discreetly networks fails society in the long-run when it seems to assume a foreshadowing posture with regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise. Such intellectual shadiness of vague highmindedness is no more different from the gross inanity of Ancient-sophists or medieval-scholastic pedants, as of naïve shallow-minded incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation as of a poor sense of intemporality /longness beyond earthly materialism. <including-virtue-as-ontology> as from past to present to future with regards to existential-
contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{1}. Another criticism is the inclination for
such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate
conceptualisations as of identitive-constitutedness as-epistemic-totality dereification in-dissingularisation-as-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>-as-flawed-epistemic-determinism that often poorly reflect the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness-as-to-totalitative-reification -in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>-as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very wooden-language imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic totalising-entailing/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic totalising-entailing/nested-congruence’ proponents thought,
failing to factor in the existential-contextualising-contiguity\(^\text{39}\) dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic totalising-entailing/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology\(^\text{39}\)/knowledge as of existential-contextualising-contiguity\(^\text{11}\) knowledge-reification’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification\(^\text{87}\) of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework\(^\text{73}\); or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification\(^\text{87}\) as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework\(^\text{73}\) disposition rather than an orientation towards the ‘transversality-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’\(^\text{102}\) or transversal-analysis-towards-validatory-selectivity-for–foregrounding—entailment{(postconverging–narrowing-down–sublimation-as-to-‘existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation ’-in-reflecting–‘immanent-ontological-contiguity ’;-as-operative-notional–deprocrypticism) of
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness—as-epistemic-totality—dereification—in-dissingularisation—as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness—as-flawed-epistemic-determinism. Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness’—<amplituding/formative-epistemicity>totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of—nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications) populist interpretations rather than elevating human ontological construal of the social domain-of-study! It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—as-to-perspective-ontological—
normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care–and–episteme as of ontologically-veridical difference-conflatedness\textsuperscript{-}-as-to-totalitative-reification\textsuperscript{87}-in-singularisation-\textless{}as-to-the-nondisjointedness/entailment-of-prospective-\textgreater{}nonpresencing\textsuperscript{93}-as-veridical-epistemic-determinism\textsuperscript{1} for existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{87} of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existential-contextualising-contiguity\textsuperscript{9} from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification\textsuperscript{1} as of existential-contextualising-contiguity\textsuperscript{9}–and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation-\textless{}as-to-the-nondisjointedness/entailment-of-prospective-\textgreater{}nonpresencing\textsuperscript{93} projected epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity\textsuperscript{9} elucidation/reification\textsuperscript{7} rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{7} by the implicated immediate-constraining ontological-primemovers-totalitative-framework\textsuperscript{7} transcendence-and-sublimity/sublimation/supererogatory–de-mentativity whereas the human world is rather blurry in this regard and hence requires the requisite explicited insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification\textsuperscript{87} of
existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating/supererogatory-de-mentativity knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification. This process is one of human limited-mentation-capacity-deepening as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance-<including-virtue-as-ontology> of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness reflected as of difference-conflatedness-as-to-totalitative-reification-in-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>-as-veridical-epistemic-determinism, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
‘human amplituding/formative–epistemicity totalising~purview-of-construal’ with increasing prospective relative-ontological-completeness rather reflected as of ontologically-veridical difference-conflededness as-to-totalitative-reification in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing as-veridical-epistemic-determinism which implied singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity/sublimation/supererogatory de-mentativity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise’ as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain-of-study, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness unhframed-conceptualisation for existential-contextualising-contiguity knowledge-reification’, inducing successive
classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively preconverging-or-dementing apriorising-psychologism; even though both address the ‘very same physics’ amplituding/formative-epistemicity totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness as-‘epistemic-totality’ dereification in-dissingularisation-as-to-the-disjointedness/disentailment-of presencing—absolutising-identitive-constitutedness as-flawed-epistemic-determinism implied dissingularisation-as-to-the-disjointedness/disentailment-of presencing—absolutising-identitive-constitutedness /epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implications and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic ontological-good-faith/authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-totalising-entailing or ‘poor apriorising/axiomatising/referencing—conflatedness of totalising-entailing/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity\textsuperscript{19}. Basically, the underlying implication of apriorising/axiomatising/referencing—conflatedness\textsuperscript{12}, and so over naïve apriorising/axiomatising/referencing—constitutedness\textsuperscript{13}, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the totalising-entailing/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’\textsuperscript{97} –\textsuperscript{<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>} as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation-\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing>}\textsuperscript{93} projected epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, \textsuperscript{amplituding/formative–epistemicity}>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and logocentrism as of apriorising/axiomatising/referencing—constitutedness\textsuperscript{13}. Critically, no concepts have any veridical\textsuperscript{56} meaninglessness-and-teleology\textsuperscript{100} but only rather as of their apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} with existence, and cannot be construed as ‘existing in existence’ as implied by apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} which just leads to ontologically-flawed dissingularisation-\textsuperscript{<as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness>}\textsuperscript{17}/epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness ‘as—‘epistemic-totality’’-dereification\textsuperscript{13}—in-dissingularisation-\textsuperscript{<as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness>}\textsuperscript{17}—as-flawed-epistemic-determinism\textsuperscript{19}. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent
knowledge implications and contributions as of existential-contextualising-contiguity\(^9\) knowledge-reification\(^7\) end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness and teleology\(^{10}\) is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity\(^9\) knowledge-reification\(^7\), and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity\(^9\) reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\(^9\). This failure in fully appreciating the import of ontologically-veridical difference-conflatedness\(^1\)-as-totalitative-reification\(^1\)-in-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-\(^1\) nonpresencing\(^2\)-as-veridical-epistemic-determinism\(^2\) ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness\(^3\)—unenframed-conceptualisation for existential-contextualising-contiguity\(^9\) knowledge-reification\(^7\), inducing successive differences of ontological-performance\(^7\)-<including-virtue-as-ontology> of meaningfulness-and-teleology\(^{10}\) as of the very same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-human<amplituding/formative–epistemicity>totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness\(^9\) as of implied singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing\(^5\) projected epistemic-immanence/veridical-epistemic-determinism has fundamental <amplituding/formative–>
epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{67}, as transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity only arise as of human expansion of its
reifying grasp of existential-contextualising-contiguity\textsuperscript{67}. Consider in this regard that the
repeated maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-
conceptualisation articulation by this author on the theme of conceptual patterning here further
complements as of further articulated reification\textsuperscript{87} of this very theme elsewhere herein, more
than just about a mechanical repeating; and this knowledge-reification\textsuperscript{87} insight often goes
missing with many a subscriber to the formalisation credo, as of reification\textsuperscript{87} along the three
frames indicated above (as of same scholar interest-of-study, scholars of the same generation
interest-of-study and scholars crossgenerationally developing interest-of-study). In this regard,
the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze
have now and then been belittled as not original, as of a very much naïve conceptual patterning
conception of knowledge; going by their profound association with earlier scholars and more
specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity\textsuperscript{89}
knowledge-reification\textsuperscript{87} perspective of knowledge construal, this is no less silly as dismissing
and belittling as unoriginal the ideas of later physicists since their contributions are just more
evolved formalisation as of conceptual patterning of concepts originarily/as-of-event\textsuperscript{87} available
to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded
by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz,
etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a
conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative
existential-contextualising-contiguity\textsuperscript{89} knowledge-reification\textsuperscript{87} of the latter contributors in both
instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative-epistemicity’-totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maxmalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation for existential-contextualising-contiguity—knowledge-reification, inducing successive differences of ontological-performance—<including-virtue-as-ontology> of meaningfullness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative-epistemicity’-totalising-purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure-ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity—knowledge-reification’. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the de-mentative/structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-
ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought ontologically-veridical difference-conflatedness—as-to-totalitative-reification—in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—>—as—veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity’ orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and—sublimity/sublimation/supererogatory—de-mentativity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procrypticism human subject is rather undecentered’ relative to the prospective postmodern—notional—deprocrypticism self-conscious mindset we fail to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity to ‘continually select’ postmodern—
notional-deprocrypticism disseminative orientations for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the de-mentative/structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlying-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’-<as-to-perspective-ontological-normalcy/postconvergence-implied-
‘prospective-aporeticism-overcoming/unovercoming’>. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of-meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendent-al meaninglessness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remote-ly abstracted conceptions of meaninglessness-and-teleology of trite existential-contextualising-contiguity knowledge-
reification\(^\text{87}\) causality-as-to-projective-totalitative-implications-of-prospective-\(^\text{61}\) nonpresencing-, for explicating-ontological-contiguity\(^\text{87}\), as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure-ontology’ orientation grounded on creative existential-contextualising-contiguity\(^\text{39}\) knowledge-reification\(^\text{87}\) is ever always a ‘conflatedness\(^\text{12}\) totalising-entailing/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology\(^\text{100}\) as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human\(^\text{amplituding/formative–}\) epistemicity\(^\text{amplituding/formative–}\) totalising-purview-of-construal’; with such construal in reality rather very much as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\(^\text{61}\) nonpresencing>\(^\text{84}\) projected epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation-<as-to-the-disjointedness/disentailment-of-\(^\text{16}\) presencing—absolutising-identitive-constitutedness \(^\text{28}\)/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity\(^\text{39}\) knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism—or-preempting—disjointedness-as-of-\(^\text{16}\) reference-of-thought apriorising/axiomatising/referencing—conflatedness\(^\text{12}\) totalising-entailing/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\(^\text{61}\) nonpresencing>\(^\text{84}\) projected epistemic-
immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation-and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>. Unlike the apriorising/axiomatising/referencing—constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of apriorising/axiomatising/referencing—conflictedness totalising-entailing/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <amplituding/formative–epistemicity> causality—as-to-projective-totalitative–implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human<amplituding/formative–epistemicity> totalising–purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying
dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation-<as-to-the-
nondisjointedness/entailment-of-prospective-nonpresencing> projected epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their apriorising/axiomatising/referencing—constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity knowledge-reification’ of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> in its ecstatic singularity. The naivety of implied apriorising/axiomatising/referencing—constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human-amplituding/formative–epistemicity>totalising—purview-of-

construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of apriorising/axiomatising/referencing—conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘totalising-entailing/nested-congruence apriorising/axiomatising/referencing—conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-prime-movers-totalitative-framework are naturally and ad-hocly postconvergingly—de-mentated/structured/paradigmed

different protensive self-consciousness from our hesitant and occlusive positivism–
procrypticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with
the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity
immanence/internal-necessity of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-
nonpresencing, for explicating-ontological-contiguity of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-
nonpresencing projected epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as
from our flawed apriorising/axiomatising/referencing—constitutedness’ or ‘we are as potently
immanent as of our virtuous apriorising/axiomatising/referencing—conflatedness’.
Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-
ontological-incompleteness is fundamentally flawed as of apriorising/axiomatising/referencing—constitutedness, as all the objectifying discursivity that
is ontologically-veridical is as of the apriorising/axiomatising/referencing—conflatedness of
prospective relative-ontological-completeness over prior relative-ontological-
incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of
non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a
positivism mindset registers as of positivism immanence-function-conflatedness reflection of
the underlying non-positivism mental-disposition with regards to such issues like existential
desublimation manifestations of superstition, spiritualism, etc. This same conception holds
with the notional–deprocrypticism immanence-function-conflatedness overriding the
meaningfulness-and-teleology of procrypticism–or–disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the
notional–deprocrypticism mindset, as the latter reflects the underlying positivism–
procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring, with immanence-function-conflatedness implying that all the meaningfulness-and-teleology is necessarily as of the prospective relative-ontological-completeness over the prior relative-ontological-incompleteness; respectively as of positivism and deprocrypticism. If by anticipation we do know immanently that a non-positivism mindset is bound to a non-positivistic-as-existentially-superstitious apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of dementative/structural/paradigmatic internal-necessity/determinism insight from positivism immanence-function-conflatedness with the obviousness there is no point implying an ontologically-flawed objectifying/contending discursivity in assessing the non-positivism existentially-superstitious inclination, the same implication will extend to notional-deprocrypticism immanence-function-conflatedness as of dementative/structural/paradigmatic internal-necessity/determinism insight with regards to anticipating the disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our positivism–procrypticism mental-disposition with no pretence of such a positivism–procrypticism ontologically-flawed objectifying/contending discursivity in assessing the disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-conflatedness is all about reflecting the straightforwardness of ontological-primemovers-totalitative-framework as of singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing projected epistemic-immanence/veridical-epistemic-
determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive predisposition to make of its objectifying/contending discursivity as de-mentatively/structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior relative-ontological-incompleteness as if of prospective relative-ontological-completeness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness equally highlights knowledge as of its essential organic construct implications. As a apriorising/axiomatising/referencing—constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly postconvergingly–de-mentated/structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the postconverging–de-mentating/structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of prospective relative-ontological-completeness of reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism
social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness\textsuperscript{89} reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a notional-deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–dementativity. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflicatedness\textsuperscript{102}, likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflicatedness, universalisation–non-positivism/medievialism fails as of prospective positivism immanence-function-conflicatedness\textsuperscript{104}.
and prospectively positivism–procrypticism fails in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10} as of prospective notional–deprocrypticism immanence-function-conflatedness\textsuperscript{12}; so-implied as of singularisation–as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing\textsuperscript{10} projected epistemic-immanence/veridical-epistemic-determinism reflection of existence’s ecstatic singularity. Hence ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} as of difference-conflatedness\textsuperscript{11}–as-to-totalitative-reification–in-singularisation–as-to-the-nondisjointedness/entailment-of-prospective\textsuperscript{41} nonpresencing\textsuperscript{10}–as-veridical-epistemic-determinism\textsuperscript{21} \textsuperscript{12} <amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity\textsuperscript{67}’ implied organic knowledge is ever always as of the de-mentative/structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness\textsuperscript{88} reference-of-thought as of immanence-function-conflatedness\textsuperscript{10}, with the pretence of prior relative-ontological-incompleteness of reference-of-thought for objectifying/contending discursivity nothing more but flawed <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} temporal meaningfulness-and-teleology\textsuperscript{10}. The study of the social as of immanence-function-conflatedness\textsuperscript{11} insight grasp that the blurriness\textsuperscript{4}, <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework\textsuperscript{73} as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability\textsuperscript{81} and validation is more in line with the Lakatosian research-
programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. send to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a ‘construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications’, but this should however implicitly reflect concurrently the underlying notions of falsifiability\textsuperscript{41}-or-deferring-falsifiability\textsuperscript{41} and validation-or-deferring-validation. It is herein contended that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{37} in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{37}. This insight equally informs this author’s supplanting–conviction-as-to-profound-supererogation\textsuperscript{7}—of-‘attendant-intradimensional’-postconverging/dialectical-thinking\textsuperscript{20}–apriorising-psychologism that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity\textsuperscript{39} knowledge-reification\textsuperscript{37}, as well as existential-contextualising-contiguity\textsuperscript{9} knowledge-reification\textsuperscript{9} as of the disposition for advancing the metalevel transversality–of-affirmative-and-unaffirmative–disambiguated-

Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-threshold, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent
in the sense that transcendental knowledge is articulated mostly as of its undermining of human
temporal existential-investment. The bigger point here being that the possibility of prospective
transcendence-and-sublimity/sublimation/supererogatory—de-mentativity lies in upholding-and-
defending authentic intellectualism even as of metaphoricity beyond

Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any

transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Further, while
‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived
absolutely as within an only same institutionalisation reference-of-thought’, with their merits
at least for expanding human mastery of its environment at their given level as well as their
defects as of undermining the possibility for prospective knowledge, for instance as of the
animistic social-setup to perceive its animistic knowledge system as absolute, as of the
medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of
our positivism–procrypticism social-setup to perceive our positivism–procrypticism humanistic
knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-
necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrysticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded knowledge and epistemic postconverging–dementating/structuring/paradigming as of their ultimate existential-contextualising-contiguity knowledge-reification as knowledge; such that the immediacy of contention of appropriateness of epistemic and methodological approaches is less critical, as ultimately all knowledge constructs and their epistemic and methodological commitments face their long term bottomline reevaluation as to their relative existential-contextualising-contiguity knowledge-reification as knowledge construed as their research-programmes. This speaks of the fact that such a conception of epistemic commitment as of research-programme is effectively one of epistemic singularisation—<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> projected epistemic-immanence/veridical-epistemic-
determinism so-implied as of ontological-normalcy/postconvergence associated with ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming the limiting effect of our present conception of epistemic commitment as rather dissingularisation-as-to-the-disjointedness/disentailment-of-presencing—absolutising-identitive-constitutedness>/epistemic-nonimmanence/flawed-epistemic-determinism as of ontologically-compromised—categorising positivism–procrypticism. Thus, if immanence-function-conflicatedness reveals that it is the ‘projected research-programme of any given knowledge construct as of its prospective relative existential-contextualising-contiguity’ knowledge-reification’ that is its preeminent epistemic and methodological validation, ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly to prospective relative existential-contextualising-contiguity knowledge-reification are nothing more but predispositions that pretend to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and-existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>, and institutionalised, such predispositions may actually be de-mentatively/structurally/paradigmatically stifling for the possibility of prospective knowledge and transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and more seriously so where the possibility of varied research-programme choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied
social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence-and-sublimity/sublimation/supererogatory–de-mentativity wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human-amplituding/formative–epistemicity–totalising–purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness /relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,-in-perspective–ontological-normaley/postconvergence)). It is quite absurd to think that the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as
it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern-day science to develop and just as well modern-day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality—of-affirmative-and-unaffirmative—disambiguated—entifying-and-apriorising/axiomatising/referencing’ relation induced as of ontological-primemovers-totalitative-framework between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating/supererogatory—de-mentativity’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination, as this transversality—of-affirmative-and-unaffirmative—disambiguated—entifying-and-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional—deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness as amplituding/formative—
epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-

disjointedness/disentailment-of-presencing—absolutising-identitive-

<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-
nonpresencing,-for-explicating-ontological-contiguity> as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supererogatory–de-
mentativity transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-

Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity\textsuperscript{67}---of-the-human-institutionalisation-process\textsuperscript{68} which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework\textsuperscript{73} and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework\textsuperscript{73} and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to- leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of- 'nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} epistemic impertinence. Prospective notional--deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness\textsuperscript{18}---of-
reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism–procrysticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrysticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating/supernatural–de-mentativity determinant selector as of the deprocrysticism–or–preempting—disjointedness-as-of- reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the notional–deprocrysticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework<amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing–for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity/sublimation/supernatural–de-mentativity. Such a notional–deprocrysticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective
function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as de-mentatively/structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their apriorising/axiomatising/referencing—conflatedness totalising-entailing/nested-congruence or how these conflate as of prospective

notional–preempting—disjointedness-as-of- reference-of-thought/notional–deprocrypticism and not as of ontologically-compromised human-subpotency epistemic/notional–projective-perspective; and is articulated more completely to reflect ontological-performance\(^7\)..<including-virtue-as-ontology> as of the the-Good/understanding/knowledge-reification /ontological-prime-movers-totalitative-framework construal/conceptualisation with respect to prospective relative-ontological-completeness\(^8\) <amplituding/formative> causality—as to projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\(^9\) in accounting for human differences of ontological-performance\(^7\)..<including-virtue-as-ontology>. It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness\(^1\)–as–‘epistemic-totality’\(^2\)’–de-reification\(^3\)–in-dissingularisation—as-to-the-disjointedness/disentailment-of presencing—absolutising-identitive-constitutedness\(^4\)–as-flawed-epistemic-determinism\(^5\). Thus the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\(^7\)/ontological-fracturing/desublimation/gimmickiness complex’ refers to the mental dispositional state of de-mentative/structural/paradigmatic rationalised-closedness-of-ontological-performance\(^7\)..<including-virtue-as-ontology>-of-the-self ‘as bound to define-and-shape any given registry-worldview’s/dimension’s specific ontological-performance\(^7\)..<including-virtue-as-ontology>-and-vices-and-impediments\(^6\)’. Rather an ontologically-veridical construction-of-the-Self is necessarily in apriorising/axiomatising/referencing—conflatedness\(^1\) as of the intemporal absolutising epistemic reference of existence-potency\(^7\)–sublimating–nascence,–disclosed-from-prospective-epistemic-digression constrainous-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and
totalitative–implications-of-prospective-non-presencing, for explicating ontological-contiguity of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics). Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self’/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of ‘human-subpotency in its amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemporal ontological-performance <including-virtue-as-ontology> ever always warrants human prospective relative-ontological-completeness of reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of
unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascent-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually- and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}>? disjointedness-of-thought-conceptualisation existential-contextualising-contiguity full-level-of-reification. This reality in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process very much explains the statement ‘I know that I know nothing’ made by Socrates reflecting his conception of anamnesis, as the state of human limited-mentation-capacity implies that it is foolhardy to articulate in presencing—absolutising-identitive-constitutedness terms meaningfulness-and-teleology as of absolutising reproducibility—mathesis/motif/throwness-disposition, as—reproducibility-of-aestheticisation but rather ‘the anamnesis of meaningfulness-and-teleology reflects prospective originariness-parrhesia, as—spontaneity-of-aestheticisation as of recurrent transepistemic renewing of reproducibility—mathesis/motif/throwness-disposition, as—reproducibility-of-aestheticisation’ (and so, in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity of-the-human-institutionalisation-process dimensionality-of-sublimating)

sublimating \{<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} mental-disposition’) and not any \(^8\)presencing—absolutising-identitive-constitutedness\(^{13}\) as reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific \(^{104}\)universalising-idealisation phronetic/practicality situations as to its defining existence-potency\(^7\)—sublimating—nascence,—disclosed-from-prospective-epistemic-digression). The fact is that Socrates (and as momentously reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their \(^{104}\)universalising-idealisation renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the \(^{104}\)universalising-idealisation apriorising/axiomatising/referencing—psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold—(uninstitutionalised-threshold \(/\)presublimating—desublimating—decisionality)—of-ontological-performance\(^7\)—<including-virtue-as-ontology>, and thus what is
more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening. Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective dimensionality-of-sublimating insight for further human limited-mentation-capacity-deepening (as to ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between dimensionality-of-sublimating
and phronesis existential-contextualising-contiguity in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as so reflected with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic-philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, and that such a possibility lies in perpetual knowledge-reification disposition as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework . Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existential-contextualising-contiguity at the latter’s destructuring-threshold—{uninstitutionalised-threshold /presublimating–desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology>, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness—as-to-totalitative-reification—in-

Thus more critically prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness\textsuperscript{11} apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity’—postconverging—dementating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity\textsuperscript{17}. The reality thus is that prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from a \textsuperscript{80} presencing—absolutising-identitive-constitutedness\textsuperscript{11} perspective is not actual \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} but
rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective crossgenerational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocripticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency–sublimating–nascence, disclosed-from-prospective-epistemic-digression reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives
covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—

meaningfulness-and-teleology\(^{10}\). Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>'—existentialism-form-factor there is an effective mechanism of human registry-worldview’s/dimension’s institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-othersness that institutionalisation mechanism in one way or the other, and that’s why at all stages of human history, the
reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications}> dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency~sublimating–nascence,–disclosed-from-prospective-epistemic-digression supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is de-mentatively/structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the<amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting holographically—<conjugatively-and-transfusively>the ontological-contiguity—of-the-human-institutionalisation-process; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation—ununiversalisation ontological-fracturing, universalisation—non-positivism-medicievalism ontological-fracturing, positivism–procrypticism ontological-fracturing towards futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional–deprocrypticism ontological-normalcy/postconvergence; as of the implications of the ontological-faith-notion—ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance<including-virtue-as-ontology>
projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation percolation-channelling-<in-deferential-formalisation-transference>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the de-mentative/structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance-<including-virtue-as-ontology> is inherent, the underlying de-mentative/structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance-<including-virtue-as-ontology> in that individual or institution rather than just identitive inherence. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying amplituding/formative-epistemicity–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of potentially the same ontological-performance–<including-virtue-as-ontology> possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment as of its ‘self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ which is then enabling for the critical metaphoricity of prospective meaningfulness-and-
ontological-veracity implications of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness. In other words, as of transversality of affirmative and unaffirmative disambiguated motif-and-apriorising-axiomatising/referencing of human metaphoricity of temporal-to-intemporal ontological-performance including virtue as ontology of narratives, we know that the ontological-primemovers-totalitative-framework that underlies existence-potency sublimating-nascence, disclosed from prospective epistemic digression sublimating-validation/desublimating-invalidations implications of ontological-veracity is bound in the long run to select/skew toward the intemporal/ontological over the temporal, whether as of internal cultural transformation or cultural diffusion. This is exactly why the overall ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising-axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity of-the-human-institutionalisation-process as of difference-conflatedness as-to-totalitative-reification in-singularisation as-to-the-nondisjointedness/entailment-of-prospective nonpresencing as-veridical-epistemic-determinism amplituding/formative-epistemicity causality as-to-projective-totalitative-implications-of-prospective nonpresencing, for explicating ontological-contiguity, ultimately has a direction as of intemporal-preservation-entropy or-contiguity or ontological-preservation, notwithstanding de-mentative/structural/paradigmatic implications of human notional-firstnaturedness temporal-to-intemporal-dispositions so-construed-as-from-perspective ontological-normalcy/postconvergence according accounding as-of-varying-individuations-contextually-transverse-desublimation/sublimation as-to-the-redounding/wavering/waveforming of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance including virtue as ontology at uninstitutionalised-threshold as reflecting both desublimating historicity-tracing in-presencing

We can appreciate both with regards to the social fabric as well as the natural sciences this common basis of supposedly coherent ontological-commitment\(^6\) from a long-term perspective, in the sense that technical and scientific progress associated with the industrial revolution ‘could hardly be socially reneged’ not only in Western Europe but with respect to its diffusion throughout the world, and so because the supposedly coherent ontological-commitment\(^6\) of human societies conventioning as of their ‘self-assuredness-of-ontological-good-faith/authenticity\(^0\)–postconverging–de-mentating/structuring/paradigming\(^7\)–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ render themselves exposed to the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the prospective relative-ontological-completeness\(^8\) as projected by the industrial revolution underlying technical and scientific knowledge manifesting as to existence-potency\(^3\)–sublimating–nascence, disclosed-from-prospective-epistemic-digression selection/skewing of ontological-primemovers-totalitative-framework\(^2\)\(\amalg\)amplituding/formative–epistemicity>causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\(^9\) and so because these project beyond subjectivity-of-truth-as-of-human-subpotency as implied by the universal objectivity as to existence-potency\(^3\)–sublimating–nascence, disclosed-from-prospective-epistemic-digression of the underlying sciences and their applications. causality—as-to-projective-totalitative-implications-of-prospective-nonpresencing—for-explicating-ontological-contiguity, and not just mere human subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-ontological-good-faith/authenticity—postconverging-de-mentating/structuring/paradigming
as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior preconverging–de-mentating/structuring/paradigming of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications} human mindset processing’, but critically was an epistemic-ricocheating/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology.-<in-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications}> comprehensive sense of prospective metaphoricity ’. This points to a more comprehensive reality of human epistemic-veracity arising as of our totalising–thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-
totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology -<in-existential-extrication-as-of-existential-unthought> nonpresencing-<perspective–ontological-normalcy/postconvergence> ricocheting that speaks of the de-mentative/structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <amplituding/formative> wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications> presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality—of-affirmative-and-unaffirmative–disambiguated—‘motif-and-apriorising/axiomatising/referencing’ Intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such suprasocial or <amplituding/formative> wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>
epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of medieval-scholasticism pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation. Just as we can appreciate that in ‘the very same physics’ epistemicity totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness\textsuperscript{100}–of-axiomatic-construct-or\textsuperscript{100} reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21\textsuperscript{st} century physics is mostly as of ricochetting prospective nonpresencing—\textlangle perspective–ontological-normalcy/postconvergence\textrangle. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its de-mentative/structural/paradigmatic meaningfulness-and-teleology\textsuperscript{100} as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility for prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability\textsuperscript{11}. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity/sublimation/supercogitation/de-mentativity as of prospective meaningfulness-and-teleology\textsuperscript{100} as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness\textsuperscript{13} epistemic-veracity that at the very least doesn’t rise to
projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined re-originary–as-unenframed/unbeholdening/outlier-conceptualisation ⟨imbued-postconverging/dialectical-thinking ‘projective-insights’/epistemic-projection-in-conflatedness ‘of-notional–deprocrypticism-prospective-sublimation⟩ thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding-positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting postconverging–de-mentating/structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality framework (beyond-the-consciousness-awareness-teleology –<in-existential-extrication-as-of-existential-unthought>), as the supposedly coherent ontological-commitment of ‘self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ of the social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity. This is so because in the long run transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-
and-apriorising/axiomatising/referencing of temporal-to-intemporal–ontological-performance of-narratives is rather as of ontological-primemovers-totalitative-framework selecting/skewing-towards intemporality/ontological-veracity as to existence-potency–sublimating–nascence,disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup value construct lies somewhere between the possibility of its conventioning-referencing and its presencing—absolutising-identitive-constitutedness. Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, when it comes to assessing the possibility of prospective meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a society that doesn’t or poorly appreciate the implication of science will value as of immediacy prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology like the cultivation of science over its conventioning-referencing as a cultural inclination or metaphysical predisposition or a creed; as we can appreciate the contrasting disposition towards the cultivation of science as in Europe and the Arabic world during the medieval period, or even disparity in ontological progressiveness within the very same societies at various epochs. Thus the assumption that any given society or period is absolutely turned/committed to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-
presencing—absolutising-identitive-constitutedness\textsuperscript{13} conventioning-referencing speaks at a more fundamental level of the reality that the human subject is not psychologically necessarily driven by an absolute commitment to prospective ontological-veracity given its registry-worldview/dimension de-mentative/structural/paradigmatic ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self\textsuperscript{15}/ontological-fracturing/desublimation/gimmickiness complex’; and thus that it has an ontological-veracity destructuring-threshold\textsuperscript{10} (uninstitutionalised-threshold /presublimating–desublimating-decisionality)~of-ontological-performance\textsuperscript{72}~<including-virtue-as-ontology>, where beyond-the-consciousness-awareness-teleology\textsuperscript{10}~<in-existential-extrication-as-of-existential-unthought>\textsuperscript{4} it will relate to ontological-veracity as relatively impertinent on critical occasions as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\textsuperscript{4} <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3}, and so-reflected socially as of the uninstitutionalised-threshold\textsuperscript{10}. The underlying insight about such ontological-veracity destructuring-threshold~(uninstitutionalised-threshold /presublimating–desublimating-decisionality)~of-ontological-performance\textsuperscript{72}~<including-virtue-as-ontology> is that the state of human-subpotency is one where overall its capacity to reflect existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human meaningfulness-and-teleology\textsuperscript{100} construal ever always varies as of ‘individual whim/impulsion narratives ontological-performance’~<including-virtue-as-ontology>’, ‘<amplituding/formative> wooden-language~{(imbued–averaging-of-thought}<as-to-leveling/ressentiment/closed-construct-of~meaningfulness-and-teleology~as-of~‘nondescript/ignorable–void’~with-regards-to-prospective-apriorising-implications}> narratives ontological-performance\textsuperscript{72}~<including-virtue-as-ontology>’, ‘suprasocial narratives

It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold\textsuperscript{95}) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring-threshold\textsuperscript{14}/presublimating–desublimating-decisionality of ontological-performance\textsuperscript{72}–including-virtue-as-ontology to further advance its constructive/institutionalising/nascent–sublimating-decisionality nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeneniss implications; reflecting the fact that human knowledge is more completely a two-fold process involving
building the right mindset-as-of-prospective-relative-ontological-completeness
and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected apriorising/axiomatising/referencing—conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative apriorising/axiomatising/referencing—constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’ involved in undermining ontologically impertinent ‘logocentric habituated social conditions’ in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising/nascent—sublimating-decisionality and destructuring-threshold—{uninstitutionalised-threshold /presublimating—desublimating-decisionality}—of-ontological-performance—<including-virtue-as-ontology> nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meaningfulness-and-teleology

With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness\(^{39}\) human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure-ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness\(^{33}\) notional–deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality —longness and temporality /shortness as to human limited-mentation-capacity relative ontological-performance\(^{12}\) —<including-virtue-as-ontology>. It is effectively from this fuller pure-ontology perspective of prospective relative-ontological-completeness\(^{33}\) notional–deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of
prospective relative-ontological-completeness\textsuperscript{88} notional-deprocrypticism herein construed as

beyond just the idea of a decentering narrative being about stronger and weaker but
transcending that framework of contemplation in projecting of aetiologisation/ontological-
escalation/otherliness as of a converging vision of emancipation as conjoint human
emancipation, as the reality of the supposedly unemancipated speaks of the ontological
emancipative deficiency of the supposedly emancipated in need of the latter’s state very own
deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for
instance that the civil war ending slavery in the U.S. was both as emancipative to its
practitioners as well as to the freed beyond just the overall social adversariality practical
implications, just as in decolonising terms it will appreciate that the more matured as mutually-
emancipative notion of decolonisation involved both the capacity of colonised territories to
attain and choose independence in mutual cooperation and even in other cases with such
territories choosing to follow a mutually respectful and healthy relationship with the
metropolitan country which in a few cases turn out to be more beneficial to both. In this
regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-
relative-ontological-completeness\textsuperscript{88}/contemplative-distension as of a nominal adversarial
binarity predisposition in many ways renders such an ontologically more profound construct of
dehconstruction difficult. In this very contrastive sense with regards to our present prospective
relative-ontological-completeness\textsuperscript{88} positivism/rational-empiricism, we don’t ideally construe

appreciate that its usefulness is \textsuperscript{104} universally emancipatory as of social-stake-contention-or-

This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Further and of much more profound reification implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance’ including-virtue-as-ontology equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ including-virtue-as-ontology’. what underlies passive to active social mobbishness phenomena as of human limited-mentation-

The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of ‘equivalence/correspondence antiakrasia-aspiration ontological-performance’\textsuperscript{2} -<including-virtue-as-ontology>’ arises because of destructuring-transitoriness\textsuperscript{1} -as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold\textsuperscript{2} \{uninstitutionalised-threshold /presublimating–desublimating-decisionality\}-of-ontological-performance\textsuperscript{2} -<including-virtue-as-ontology> parasitism \textsuperscript{4} <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasia-drag \textsuperscript{4}, as beyond-the-consciousness-awareness-teleology\textsuperscript{100} -<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant ‘equivalence/correspondence antiakrasia-aspiration ontological-performance’\textsuperscript{2} -<including-virtue-as-ontology>’, and is further reflected in a social dynamics of dual overt and covert implicated interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology\textsuperscript{100} -<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6} cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100}.

Insightfully, it can be appreciated that the ontological-contiguity\textsuperscript{7} —of-the-human-institutionalisation-process\textsuperscript{68} is one long process involving the undermining of destructuring-transitoriness\textsuperscript{1} -as-of-deratiocination/deratiocontiguity at uninstitutionalised-threshold\textsuperscript{103} with relative ‘equivalence/correspondence antiakrasia-attainment ontological-performance’\textsuperscript{2} -<including-virtue-as-ontology>’ as of ontologically-hegemonising-narrative\textsuperscript{1} implied as of prospective ‘<amplituding/formative–epistemicity> totalising–ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation-<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>\textsuperscript{93} projected epistemic-immanence/veridical-epistemic-determinism’. the elucidation/reification as ‘destructuring-threshold-{uninstitutionalised-

<including-virtue-as-ontology> analysis’ is rather notionally/epistemically reflective of the
social-construct constructiveness-of-ontological-performance <including-virtue-as-ontology>,
as such an antiakrasiatic analysis of uninstitutionalised-threshold notionally/epistemically
reflects the ontological-contiguity —of-the-human-institutionalisation-process ; and so,
similarly as the analysis of prospective possibilities of disease and illness is not about being
pessimistic about the biology of human beings but is notionally/epistemically reflective of the
possibility for the further development and provision of medicine and healthcare, and just as the
projective analysis of lack of science and technology capacity is not about being pessimistic
about human technical development but is notionally/epistemically reflective of the possibility
for the further invention of technologies and scientific discoveries. We can appreciate here that
the very same epistemic/notional conceptualisation with respect to the human subject as with
natural subject-matters elicits in the former high emotional involvement whereas the latter as of
its direct ontological-primemovers-totalitative-framework <amplituding/formative–
epistemicity> causality–as-to-projective-totalitative–implications-of-prospective-
nonpresencing,-for-explicating-ontological-contiguity elicits low emotional-involvement,
but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-{uninstitutionalised-threshold\(^{103}\)/presublimating–desublimating-decisionality}–of-ontological-performance\(^{72}\)-<including-virtue-as-ontology> and as reflected at uninstitutionalised-threshold \(^{103}\). As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance\(^{72}\)-<including-virtue-as-ontology> destructuring-threshold-{uninstitutionalised-threshold \(^{103}\)/presublimating–desublimating–decisionality}–of-ontological-performance –<including-virtue-as-ontology> and uninstitutionalised-threshold \(^{103}\), and it is this difficult task of crossgenerational mobilisation that enables the prospective constructiveness-of-ontological-performance\(^{72}\)-<including-virtue-as-ontology> for human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\). The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-{uninstitutionalised-threshold\(^{103}\)/presublimating–
need to be integrated into the very core of such secondnurded formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity\textsuperscript{52}—of-the-human-institutionalisation-process\textsuperscript{58}; such that prospective social-construct constructiveness-of-ontological-performance\textsuperscript{52}—<including-virtue-as-ontology> and institutionalisation is ever always a process of \textsuperscript{55}maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{77}—unenframed-conceptualisation to prospectively recapture the supererogatory acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective organic-knowledge lost in secondnurded institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness\textsuperscript{51}—enframed-conceptualisation as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity\textsuperscript{52}—of-the-human-institutionalisation-process\textsuperscript{58}, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ and constructiveness as reflected by ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking\textsuperscript{20}–qualia-schema’ inherently elicits from the human-subpotency epistemic/notional–projective-perspective reflected as of the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating
ineptness warranting the furtherance of temporal-dispositions as of untransvaluated–temporal-intemporal\(^7\) inclination and accompanying sophistic/pedantic complexes as well as to the extent of entailing prospective relative-ontological-completeness\(^8\). We can appreciate in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity\(^7\) beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘\(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema’}\) in \(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising/self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\(^9\)\), and likewise with the intemporal projection as of \(^9\) universalisation over base-institutionalisation–ununiversalisation, positivism over \(^9\) universalisation–non-positivism/medievalism and prospectively notional–deprocrypticism over positivism–procrypticism. In this regards, the notion of preconverging-or-dementing\(^9\)–apriorising-psychologism as reflected as of ‘\(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema’}\) of prior relative-ontological-incompleteness\(^9\) is tied-to and a necessarily associated notion with that of postconverging-or-dialectical-thinking–apriorising-psychologism as reflected as of ‘\(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising/circumscribing/delineating postconverging/dialectical-thinking –qualia-schema’}\) with respect to the possibility of a protracted-consciousness conceptualisation in reflecting holographically-\(<\text{conjugatively-and-transfusively}>\) the ontological-contiguity—of-the-human-institutionalisation-process\(^7\); and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘\(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising/circumscribing/delineating preconverging/dementing –qualia-schema’}\) by its self-conscious \(<\text{amplituding/}formative–\text{epistemicity}>\text{totalising/renewing-realisation/re-}
perception/re-thought as of its \<amplituding/formative–epistemicity\>totalising–thrownness-in-existence that de-mentatively/structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic/notional–projective-perspective inclined to perceive prior registry-worldviews/dimensions in their \<amplituding/formative–epistemicity\>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’ in stigmatising terms–as-of-axiomatic-construct, the ontological-veracity from existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness postconverging-or-dialectical-thinking–apriorising-psychologism reflected as of \<amplituding/formative–epistemicity\>totalising/circumscribing/delineating postconverging/dialectical-thinking–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibility of prior relative-ontological-incompleteness preconverging-or-dementing–apriorising-psychologism reflected as of \<amplituding/formative–epistemicity\>totalising/circumscribing/delineating preconverging/dementing–qualia-schema’, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>’, and implying an obligation for any given registry-worldview/dimension to maximalise this human capacity for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of its growing self-consciousness and self-awareness. In fact, the notion of preconverging-or-dementing–apriorising-psychologism as such speaks of the fact that the entire cross-section of
humanity as of recurrent-utter-uninstitutionalisation is of a ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ with respect to prospective base-institutionalisation ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking 20–qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity emancipators across the successive registry-worldviews/dimensions in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process 68 are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating preconverging/dementing –qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘amplituding/formative–epistemicity>totalising/circumscribing/delineating postconverging/dialectical-thinking 20–qualia-schema’ speaks of a first level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness 72 positivism–procrypticism disposition is all-encompassing as of our ‘amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ when we construe of ourselves as ‘postconverging-or-dialectical-thinking –apriorising-psychologism as of in-the-absolute’ without projecting that just as prior generations of humans were both postconverging-or-dialectical-thinking 20–apriorising-psychologism as of their constructiveness-of-ontological-performance 72-<including-virtue-as-ontology> reflected as of ‘amplituding/formative–

The critical point here has to do with the fact that beyond the ‘attendant-ontologies—as-of-conventioning-referencing’ of successive registry-worldviews/dimensions, in their <amplituding/formative> wooden-language\textsuperscript{15} (imbued—averaging-of-thought–<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>) as of their ontologically-flawed identitive-constitutedness\textsuperscript{13}—as–‘epistemic-totality\textsuperscript{36}’—dereification\textsuperscript{87}—in-dissingularisation–<as-to-the-disjointedness/disentailment-of–presencing—absolutising-identification-constitutedness\textsuperscript{13} >\textsuperscript{13}—as–flawed-epistemic-determinism\textsuperscript{9}, that are enabled by human limited-mentation-capacity-deepening\textsuperscript{53} as herein implied successively as of non-rules—apriorising/axiomatising/referencing–psychologism of recurrent-utter-uninstitutionalisation, rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of base-institutionalisation, \textsuperscript{104}universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of \textsuperscript{104}universalisation, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism of our positivism and preempting—disjointedness-as-of\textsuperscript{11} reference-of-thought,–as–to–<amplituding/formative–

This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology\textsuperscript{10}—<in-existential-extrication-as-of-existential-unthought>\textsuperscript{5} rather turns out to be denaturing\textsuperscript{15} and undermines prospective Being-development/ontological—
framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development–as-to-social-function-development and living-development–as-to-personality-development, more critically point to the ontological-veracity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity’—of-the-human-institutionalisation-process<sup>67</sup> ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology<sup>100</sup>’ as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. In this regards, as applies with our positivism–procrypticism and so just as with any other prior relative-ontological-incompleteness registry-worldviews/dimensions <amplituding/formative> wooden-language<sup>8</sup> (imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications>) as of their ontologically-flawed identitive-constitutedness<sup>13</sup>—as—‘epistemic-totality’—dereification<sup>87</sup>—in-dissingularisation—<as-to-the-disjointedness/disentailment-of—presencing—absolutising-identitive-constitutedness >’ as flawed-epistemic-determinism<sup>40</sup>, there has always been an ontologically-flawed inclination that
the given registry-worldview’s/dimension’s ‘attendant-ontology—as-of-conventioning-referencing’ in its \textit{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} inherently carries all the prospective possibilities of human emancipation and so oblivious-and-substituting of the underlying ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\textsuperscript{100}. Ultimately, human de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics) is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’. It all arises from the ‘human capacity for decomplexified/uninhibited preconverging-or-dementing—apriorising-psychologism’ in order to then ‘prospectively induce originarily/as-of-event prospective postconverging-or-dialectical-thinking—apriorising-psychologism’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrypticism attendant-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity/sublimation/supererogatory—de-mentativity will rather be ‘a more candid face-up with our procrypticism—or–disjointedness-as-of–reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology—in-existential-extrication—as-of-existential-unthought’ institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that de-mentatively/structurally/paradigmatically

of traditional medieval no-trouble disposition to perceive and take comfort in traditional medieval-scholasticism reasoning-from-results/afterthought pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation as if critical reification will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity/sublimation/supererogatory–dementativity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation disposition but rather more concretely only after human decomplexing/uninhibiting de-mentative/structural/paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation; and this is effectively reflected in all cases of human transcendence-and-sublimity/sublimation/supererogatory–dementativity. Whether of
low or high emotional-involvement, it is inevitably the case that the de-mentative/structural/paradigmatic possibility for prospective human transcendence-and-sublimity/sublimation/supererogatory/de-mentativity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring; as we can appreciate for instance that without the secondnatured institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, as of human de-mentation—(supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) implied prospective postconverging-or-dialectical-thinking20—apriorising-psychologism and prior preconverging-or-dementing19—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology10 is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness/relative-ontological-completeness18{(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative—supererogating{(projective/reprojective— aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—

civil war was unnecessary’, or ‘in many ways the outcome of the French Revolution was far
worse than was worth the struggle’. In all these instances, the sophists as of its existential-
extrication-as-of-existentia-ontological-unthought with respect to social-stake-contention-or-confliction are
ever always inclined to eliciting-ontological-incompleteness dereification for wooden-language-{imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-

immmediacy-for-relative-ontological-completeness by-reification /contemplative-distension accruer-spective the sophists react as if ‘human progress occurs anyway’ as the idea of a
human existential tale perpetuation and its implications is alien to the sophists since all that
counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction
interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-
ontological-completeness as of the weaknesses associated in all human transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity is held by the sophists against any such
reasoning-through/messianic-reasoning for transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity. Inherently, while the intemporal
projection coherence of reasoning-through/messianic-reasoning spans the ontological-
contiguity —of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of—meaningfulness-and-teleology’, what is peculiar about sophistry is that
the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and
other registry-worldviews/dimensions are just other ones and have nothing to say about the
present one as of an overall human tale, as the threat of rationalising the implications of such a
human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness \(^8\)/by-reification \(^7\)/contemplative-distension \(^26\) which is ‘never always the easiest of notion’ for human disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event \(^37\) reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness \(^8\)/dereification \(^7\) for disposition meant at stifling the possibility for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so beyond-the-consciousness-
awareness-teleology<sup>10</sup>—<in-existential-extrication-as-of-existential-unthought><sup>9</sup>. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding-positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity<sup>6</sup>—<shallow-supererogation<sup>97</sup>—of-mentally-aestheticised—preconverging/dementing—qualia-schema’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness<sup>10</sup> as of the underlying registry-worldview/dimension<sup>84</sup> reference-of-thought<sup>4</sup>—<amplituding/formative—epistemicity>totalising—devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing<sup>15</sup> of the universalising-idealisation meaningfulness-and-teleology<sup>10</sup> or positivising/rational-empiricism meaningfulness-and-teleology<sup>10</sup>. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-threshold<sup>13</sup> arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it
essentially is; as with the **universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding-positivists/rational-empiricists dismissing off-hand pedantic scholasticism.** The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all ‘meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’ does not avail as of epistemic-veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity’ closed in prior relative-ontological-incompleteness which rather warrants psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective relative-ontological-completeness. This is akin to the mathematician opened to mutual calculating even where one could produce a wrong solution as of aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance - <including-virtue-as-ontology> but this only holds with the mathematical apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for engaging genuinely and naturally in the calculations; where that
apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument spirit is lost, fundamentally the notion of mutual calculating is then ontologically and epistemically flawed. Ultimately, the notion of ‘meaningfulness-and-teleology as of ontological-veracity is about the ‘reasoning-through transversality–of-affirmative-and-unaffirmative–disambiguated–motif- and-apriorising/axiomatising/referencing’ of contentions for the determination of existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression as of ontological-primemovers-totalitative-framework." <amplituding/formative–epistemicity> causality–as-to-projective-totalitative–implications-of-prospective-"nonpresencing,-for-explicating-ontological-contiguity"; and it is rather different from a sovereign construct grounded on sovereign choice whether there is ontological-veracity or ontological-impertinence. The human existential tale as ‘humanity project’ has ever always been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied in the ‘seeding promise of human-subpotency ontological-performance”–<including-virtue-as-ontology> equivalence/correspondence with the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign institutions and establishment frameworks are ‘not to be necessarily-and-absolutely considered as knowledge reifying frameworks’, as could falsely be implied by cohorting sovereign institutions and establishments surreptitiously usurping the knowledge-reification role and as beyond-the-consciousness-awareness-teleology”–<in-existential-extrication-as-of-existential-unthought> surreptitiously defining what can be thought or not thought. The fact is such implied underpinning–suprasocial-constructs are mainly secondnatured whether as sovereign representation or establishment constructs, and can easily be caught up in their own <amplituding/formative–
in prior relative-ontological-incompleteness with respect to social-stake-contention-or-confliction and are thus not the absolutising framework of human meaningfulness-and-teleology, as the social knowledge-reification role must always be opened to ‘intemporal individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the possibility of its arising in any humans and in whatever specific purviews of existence, as this is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology'; as it is only by the latter process that the ‘suprasocial obsession/myopism as of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning–suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–ununiversalisation underpinning–suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct rather as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding-positivists trajectory of contemplation were actually counterintuitive to what their respective underpinning–suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the underpinning–suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of—meaningfulness-and-teleology—induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag—which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notional—deprocrypticism perspective) de-mentatively/structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance—<including-virtue-as-ontology> as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought>’. The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding-positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much
construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding-positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100}, that in many ways just as the manifestation of postlogism -slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall wooden-language\textsuperscript{78}\textsuperscript{8}\textsuperscript{60} and underpinning–suprasocial-construct
meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrystalism is equally subject to our wooden-language imbued averaging-of-thought as-to-leveling/ressentiment/closed-construct-of meaningfulness-and-teleology as-of nondescript/ignorable–void with-regards-to-prospective-apriorising-implications} and underpinning–suprasocial-construct underlying disjuxtaposition-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold of-ontological-performance including-virtue-as-ontology which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrystalism–or–preempting—disjuxtaposition-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism/rational-empiricism manifestation of procrystalism–or–disjuxtaposition-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the totalising self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrystalism speaks of a loss of ontology as true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
to the given registry-worldview/dimension conventioning-referencing. In this regards, we can appreciate that our own projection of prospective notional—deprocrypticism implied Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of its prospective singularisation—presencing—absolutising-identitive-constitutedness\textsuperscript{13} as dissingularisation—presencing—absolutising-identitive-constitutedness\textsuperscript{13}/epistemic-nonimmanence/flawed-epistemic-determinism to be more than just as of our traditional, cultural and aesthetic idiosyncratic habituations grounded on our positivism—procrypticism underlying reference-of-thought that more or less suppresses the possibility of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’, and equally garner that just as the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled—syllogising mindset and medieval-scholasticism-pedants—ideal-type-or-individuation never factored in that their respective supposedly presencing—absolutising-identitive-constitutedness\textsuperscript{13} construal of ontology as sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising and medieval medieval-scholasticism were to be reconstrued as rather being of attendant-ontology—as-of-conventioning-referencing respectively by Socratic-philosophers\textsuperscript{10} universalising-idealisation and budding-positivists as of their respective prospective parrhesiastic revaluation of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology’; likewise, our supposedly positivism—procrypticism presencing—absolutising-identitive-constitutedness\textsuperscript{13} construal of

of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology points to
the fundamental dialecticism of human meaningfulness-and-teleology; as to the fact that the
human is that which is in <amplituding/formative–epistemicity> totalising—thrownness-in-
existence as of recurrent-utter-uninstitutionalisation <amplituding/formative–epistemicity>
totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by its

warranted to ontologically-complete itself successively as of base-institutionalisation,
universalisation, positivism and prospectively notional–deprocrypticism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. The human then is what is warranted to reconstrue Rousseauian perfectibility out of its flawed constructiveness-of-ontological-performance^{72}-<including-virtue-as-ontology> as of its destructuring-threshold-{uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance^{72}-<including-virtue-as-ontology>, as it can’t pretend to avoid this purposefulness as it is, as of its any presencing—absolutising-identititive-constitutedness^{13} state, the outcome of such purposefulness as relayed with the ontological-contiguity^{77}—of-the-human-institutionalisation-process^{85} ‘true-ontology—as-of-Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—³-meaningfulness-and-teleology^{106}’. This coherently explains the inevitability of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event^{77} reasoning-through/messianic-reasoning prospective relative-ontological-completeness^{84}–of-reference-of-thought; as when the organic-knowledge avails it is much more than just an idea of choice but rather an obligation as of the implied inherently antiakrasiatic disposition that can’t afford to overlook as if lacking the organic-knowledge for degrading into <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existential-extrication-as-of-existential-unthought. When the dialecticism of human ^³-meaningfulness-and-teleology^{106} as of its prospective ontological-performance^{72}-<including-virtue-as-ontology> implications as of virtue at constructiveness-of-ontological-performance^{72}-<including-virtue-as-ontology> and vices-and-impediments^{106} at destructuring-threshold^{72} {uninstitutionalised-threshold /presublimating–desublimating–decisionality}–of-ontological-performance^{72}-<including-virtue-as-ontology> shows itself to be definitely determinable and is
no longer the bigger issue for prospective human emancipation but rather the bigger issue becoming one of human psychological cognisance and adjustment to any such prospective emancipatory meaningfulness-and-teleology as so-reflected across the successive registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. The underlying difficulty of all such psychoanalytic-unshackling/memetic-reordering/institutional-recomposing is all about how can a mindset adjusted as of its <amplituding/formative–epistemicity>totalising–thrownness-in-existence as of its given <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for construing meaningfulness-and-teleology in wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of—'nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}> ever gets prodded into contemplating an opened-construct-of—meaningfulness-and-teleology speaking supposedly of more ontologically profound prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology as implied as of prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity from recurrent-utter-uninstitutionalisation to base-institutionalisation, etc. But then as all along the successive registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, such a parrhesiastic exercise is ever always caught up between accommodating human temporality/shortness and existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression which knows of no such accommodation for human temporality, inevitably the existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression transcendental-enabling/sublimating/supererogatory-de-

Such amplituding/formative—epistemicity causality—as-to-projective—totalitative—implications-of-prospective—nonpresencing—for-explicating—ontological-contiguity construal points out that disparateness of meaningfulness-and-teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective’ given that all human meaningfulness-and-teleology are of supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn’t override the notion of inherent ontological-

In order words, sovereign commitments, recognised as of \textsuperscript{48} human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation\textsuperscript{<as-to-the-nondisjointedness/entailment-of-prospective~\textsuperscript{\textdagger}} nonpresencing>\textsuperscript{93}, do not override the pre-eminence of supposedly coherent ontological-commitment\textsuperscript{56} as to existence-potency\textsuperscript{\textdagger} \textemdash sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective, in which case no human transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity} will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as to existence-potency\textsuperscript{\textdagger} \textemdash sublimating–nascence,-disclosed-from-prospective-epistemic-digression over the mortals that we as human beings are in order for transcendence-and-sublimity/sublimation/supererogatory\textsuperscript{de-mentativity} to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a \textsuperscript{<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective~\textsuperscript{\textdagger} nonpresencing,–for-explicating-ontological-contiguity\textsuperscript{\textdagger}} construal equally points out that the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-'human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or any \textsuperscript{<amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-}

The apriorising/axiomatising/referencing—conflicatedness of existential-contextualising-contiguity in the natural sciences is often poorly perceived inherently because of their subject-matter/domain-of-study implicated nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’; such that it is often wrongly construed in atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity but with little consequence since such an atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology — <in-existential-extrication-as-of-existential-unthought> — scientists generally adopt a apriorising/axiomatising/referencing—conflicatedness of existential-contextualising-contiguity posture. scientific notions are not the point-of-departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity’ in <amplituding/formative-epistemicity>causality~as-to-projective-totalitative~implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity> apriorising/axiomatising/referencing—conflatedness to then reflect abstract scientific notions in existential-contextualising-contiguity knowledge-reification or depart from existential-contextualising-contiguity already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity knowledge-reification’.

For instance, we can appreciate that physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology /knowledge as physics knowledge-reification. Rather we can better appreciate the occurrence of existential-contextualising-contiguity knowledge-reification as of <amplituding/formative-epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity construal in the sense that our ordinary thought process itself is as of <amplituding/formative-epistemicity>totalising/circumscribing/delineating existential-contextualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally <amplituding/formative-epistemicity>totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of <amplituding/formative-epistemicity>totalising~renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity of such notions like space, time, force, etc. in <amplituding/formative-epistemicity>causality~as-to-projective-
totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting’ but rather physics knowledge is always of epistemic-totalising–resubjecting (totalising-entailing reconstrual) of ‘the very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity in apriorising/axiomatising/referencing—conflatedness involving human limited-mentation-capacity-deepening hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility—effusing/ecstatic–inlining nature of existential-contextualising-contiguity in epistemic-conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly totalising-entailing/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically totalising-entailing by the mere fact of the ‘precedence of existential-contextualising-contiguity in amplituding/formative–epistemicity causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity in epistemic-conflatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment{postconverging–narrowing-down–sublimation-as-to–existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—in-reflecting—immanent-ontological-contiguity;—as-operative-notional–deprocrypticism} orientations which drives their knowledge-reification—gesturing
for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/existentialising/instantiative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility—effusing/ecstatic—inlining nature of existential-contextualising-contiguity supervening-conflededness thus rendering its methodology more explicitly totalising-entailing and teleological even as it is often naively and wrongly construed as ‘a relatively weaker natural science’ from a naïve epistemic apriorising/axiomatising/referencing—constitutedness perspective. This underlying insight reflects ecstatic-existence’s supervening-conflededness as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly-educing—human-subpotency—epistemic-perspective-of-projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing—conceptualisation); wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework domains-of-study like physics and the natural sciences generally are of a less elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflededness and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic apriorising/axiomatising/referencing—constitutedness while inherently ‘less immediate epistemically constrained to ontological-primemovers-totalitative-framework domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity conceptualisation nature in epistemic-conflededness that speaks to the need for their appropriate totalising-entailing hermeneutic/reprojecting/supererogating/zeroing depth of ontological-construal, and in both
cases in reflecting the implications of human limited-mentation-capacity-deepening hermeneutics involved in avoiding-and-superseding any presencing—absolutising-idenative-constitutedness for construing their veridical historiality/ontological-eventfulness/ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflecting-‘epistemicity-relativism’>. In many ways the natural sciences by the immediate constraining of their ontological-prime movers-totalitative-framework implicitly avoid atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness but the misunderstanding that their knowledge-reification—gesturing is effectively as of atomising/taking-to-pieces apriorising/axiomatising/referencing—constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. It is herein contended that this poor self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is the de-mentatively/structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains are turned into technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups de-mentatively/structurally/paradigmatically stifle the possibility for conceptualisation as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression sublimating-validation/desublimating-invalidation implications beyond their conventioning-referencing <preconverging–‘motif-and-

This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of–[56] meaningfullness-and-teleology[100] implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–[56] meaningfullness-and-teleology[100], however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–[56] meaningfullness-and-teleology[100] (as the relative-ontological-incompleteness[89] in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness[88] in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness[88] inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–[56] meaningfullness-and-teleology[100] in deflating human vices-and-impediments[106], necessarily warrants all humans to effectively aspire-for/be-receptive-to
prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency equivalence/correspondence with the full-potency-of-existence’s—sublimating—nascence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <amplituding/formative–epistemicity>totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity/sublimation/supererogatory—de-mentativity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic wooden-language{imbued—averaging-of-thought}<as-to

Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. The overall implied notion of ‘intemporality\textsuperscript{62}—asymmetric-subsumption-of-temporality\textsuperscript{99}’ as advanced here is one of supratransversality—of-motif-and-apriorising/axiomatising/referencing over subtransversality—of-motif-and-apriorising/axiomatising/referencing rather as of intellectual-and-moral-inequivalence/non-correspondence. Such a mental-disposition of substituting old reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} with new ones of prospective registry-worldview/dimension as implied by \langle\text{amplituding/formative—epistemicity}\rangle totalising—renewing-realisation/re-perception/re-thought as of institutional moulting underlies the concept of ‘intemporal-prioritisation-of—reference-of-thought—as-conflatedness—or-ontological-reprojecting, in dealing with the fact that by reflex all registry-worldviews/dimensions are structured not to construe of their very own prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and thus relating to their reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100},—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation on an

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/ reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the 5 maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional–projective-perspective. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the ‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—or-ontological-reprojecting that enables human memetic-rescheduling ( psychoanalytic-unshackling/institutional-recomposuring) as from recurrent-utter-uninstitutionalisation to modern-day positivism—procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal-disposition essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory preconverging–de-mentating/structuring/paradigming relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the wooden-language-{imbued—temporal—mere—}
form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the-reference-of-thought–categorical-imperatives/axioms/registry-teleology⟩ as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and preconverging-or-dementing—apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as all knowledge is not about being responsive to the mortals that we are (including this author’s mortality as anyone’s else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity of an intersolipsistic nature. It is equally important to grasp that transcendence-and-
sublimity/sublimation/supererogatory-de-mentativity is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively notional-deprocrypticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity and not social-aggregation-enabling, transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries
and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking —reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived–social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, it will be naïve to imply that knowledge is neutral failing/not-upholding—<as-of-apriorising/axiomatising/referencing> to register that all knowledge is the outcome of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence-and-sublimity/sublimation/supererogatory—de-mentativity of —reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or
positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence-and-sublimity/sublimation/supererogatory/de-mentativity implications for completing the reference-of-thought, and so not only with regards to transcendence-and-sublimity/sublimation/supererogatory/de-mentativity of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence-and-sublimity/sublimation/supererogatory/de-mentativity for prospective registry-worldview’s/dimension’s reference-of-thought as so validated by ontological-normalcy/postconvergernce. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview’s/dimension’s uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory preconverging–de-mentating/structuring/paradigming. This is very much in sync with the reality that at a registry-worldview’s/dimension’s uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-prime movers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or crossgenerationally as
intemporality \textsuperscript{-asymmetric-subsumption-of-temporality}. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness -of- reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in notional–deprocrypticism apriorising/axiomatising/referencing—conflatedness and so over procrypticism disjointedness-as-of- reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence'>–existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism \textsuperscript{manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation apriorising/axiomatising/referencing—conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing notional–deprocrypticism over

Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring–purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview’s/dimension’s-uninstitutionalised-threshold \(^{03}\)-defect<as-Being-or-ontological-or-existential–defect> \(^{15}\) (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring–purpose (flaw logical-processsing/act-execution-implicitation meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not
defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This technique of mentally grasping the psychopath and other postlogic minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction,-in-profound-supererogation,<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogic mental-dispositions which mental-alignment are rather as of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to–‘attendant-

as of veridical ‘existential-contextualising-contiguity ’ rather than reflect the reality of its
‘formulaic 56 meaninglessness-and-teleology’ which is ‘meaning-by-the-mere-illogical-
possibility-of-it-being-formulaically-narrated’. So when we talk about psychopathy we are
talking about perversion-of- reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather than logical
defect (defect of logical operation/processing/contention). This distinction is critical. Why?
Basically, meaning is what defines/predicates value, thought and action. Meaning has two
elementary aspects: 84 reference-of-thought or axioms or categorical-imperatives (reflected-as-
soundness-or-ontological-good-faith/authenticity 69 -of- reference-of-thought, by the
prospective relative-ontological-completeness 85 -of- reference-of-thought and logic (logical-
operation/processing/contention/implicitation-of-act-execution, and so, ‘fundamentally and
validatorily’ on the basis of sound 84 reference-of-thought–‘categorical-
imperatives/axioms/registry-teleology 69 ,for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation in the very first instance). Meaningfulness is thus essentially about
the ‘operation of 84 reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-
or-ontological-good-faith/authenticity ‘-of- reference-of-thought’, with logic/logical-
processing basically about the operation of 84 reference-of-thought as rules as of ontological-
coherence/superseding–oneness-of-ontology validated as of established ontological-
veridicality/intrinsic-reality/existential-reality. Otherwise stated, meaning has ‘84 reference-of-
thought’ reflecting its being/ontological/existential veridicality, and logic as an operation of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity \(^0\) based on the meaning’s implied \(^1\) reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^0\) valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \(^0\) is ‘existentially’ established. *Critical for ontological-veridicality of meaningfulness and knowledge, the relatively ontologically-complete–reference-of-thought defines what is meaningfulness as of its ‘soundness-or-ontological-good-faith/authenticity–of–reference-of-thought’ construed as ‘postconverging-or-dialectical-thinking–apriorising-psychologism and centered understanding’ over the relatively ontologically-incomplete–reference-of-thought as of its ‘unsoundness-or-ontological-bad-faith/inauthenticity–of–reference-of-thought’ construed as ‘preconverging-or-dementing–apriorising-psychologism and decentered understanding’. Slanting (and by derivation cohering-slanting) is ‘technically coherent logical articulation’ however over flawed or non-existent apriorising–reference-of-thought-elements/apriorising–registry-elements, and thus falsely implying the apriorising–reference-of-thought-elements/apriorising–registry-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology \(^0\) as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge \(^1\) arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-ontological-good-faith/authenticity–of–reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-ontological-good-faith/authenticity–of–reference-of-thought in the first place) so ‘we don’t tend to question the
being/ontological/existential veridicality of \( \text{reference-of-thought} \{\text{reflected-as-soundness-or-ontological-good-faith/authenticity -of- reference-of-thought}\} \). But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-\( \text{reference-of-thought/implied-registry} \) and its elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\( ^{100} \) is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging\( ^{95} \) of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity\( ^{9} \) sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness’ as of its unsound-\( \text{reference-of-thought/unsoundness-or-ontological-bad-faith/inauthenticity -of- reference-of-thought/mental-perversion} \) as he simply engages his unsoundness-or-ontological-bad-faith/inauthenticity\( ^{94} \) of reference-of-thought by way of distractive-alignment-to-\( \text{reference-of-thought}<\text{of-apriorising/axiomatising/referencing}> \) and then reflect the \( \text{reference-of-thought or registry-teleology}^{100} \) of John as \( \text{perversion-of-reference-of-thought}<\text{as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}> \) or mental-perversion in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—

as ‘metaphorical principle for an infinity/a-million-and-one-instances-and-
locales’/aetiologisation/ontological-escalation. The underlying fact about
meaningfulness-and-teleology[100] is that the apriorising–registry (as the individual grounding of the
reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of
apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were
to meet a stranger and spoke to him about another stranger whom it knows nothing about,
saying logically that it is a bad thing for this guy to be molesting children, etc. The logical
operation is entirely right and sound in abstract terms but does the apriorising–registry
(reference-of-thought) apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not
with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the
elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology[100] which are: implied–logical-dueness-or-implied-scape (the implied–logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology[100] (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking).
Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought, i.e. slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-preconverging-or-dementing-of-narratives! So with the psychopath, you don’t watch the logic, you watch out for the reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought! Not only that, it is important to note that this unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought as perversion-of reference-of-thought—do protract and an ignorant prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind acting in prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> on such postlogism—as-of-compulsing–nonconviction/madeupness/bottomlining—‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing’–induced-disontologising’–of-the–‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-ontological-contiguity>–in-shallow-supererogation–<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness>—non-veridical hollow mimicking

the conjugated-postlogism /preconverging-or-dementing -integration is derived from the
conjugated-postlogic conjoining of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-effect/cinglé-effect’ as unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought inducing the preconverging-or-dementing-apriorising-psychologism which is particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) are constantly modified with circumstantial hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation-inducing-the-uninstitutionalised-threshold’; and so in order to wrongly imply the apriorising—reference-of-thought-elements/apriorising—registry-elements as the foundation for its faulty-mentation-procedure-deception-or-urge. However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of supplanting—conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness(reference-of-thought—devolving-as-of-instantiative-context projection’ by which interlocutors deduce circumstantially. Thus the postlogism—and-conjugated-postlogism habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought and perversion-and-derived-perversion-of-

psychopathy and its derivation as social psychopathy has nothing to do with logical-processing
but everything to do with "perversion-of" reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/perversion-of-
axiomatic-construct and the false "apriorising" reference-of-thought-elements/apriorising-
registry-elements (out of existential-contextualising-contiguity's-reifying/elucidating-of-
prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-
instantiative-context) which are implied—logical-dueness-or-scape, profile-or-stature,
presumptuousness-or-arrogation, assumptions, value-reference and teleology, it is simply
maximalising-recomposuring-for-relative-ontological-completeness—unenframed-
conceptualisation that is ontologically called for to invalidate the psychopathic 'implied
falsehood' by invalidating the "apriorising" reference-of-thought-elements/apriorising-
registry-elements (out of existential-contextualising-contiguity's-reifying/elucidating-of-
prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-
instantiative-context) of implied—logical-dueness-or-scape, profile-or-stature,
presumptuousness-or-arrogation, assumptions, value-reference and teleology, and not
involve in any elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-
elucidation-outside-existential-contextualising-contiguity which will 'hollow-constitute' and
falsely validate the deceptive foundation of "apriorising" reference-of-thought-elements/apriorising-
registry-elements (out of existential-contextualising-contiguity's-reifying/elucidating-of-
prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-
instantiative-context) of implied—logical-dueness-or-scape, profile-
or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology. This
is most apparent with childhood psychopathy as with the dereifying example of spilling water
on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity¹⁹ to be had/entertained nor any logical analysis but rather maximalising-recomposuring-for-relative-ontological-completeness⁸—unenframed-conceptualisation invalidating that the implied—logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology¹⁰ (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising—reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity¹⁹)—reifying/elucidating-of-prospective-relative-ontological-completeness⁸—or—reference-of-thought—devolving-as-of-instantiative-context’). This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING as of compulsive-slanting—preconverging-or-dementing—apriorising is actually about ‘denaturing¹¹ postlogic-backtracking—<iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’—with—‘successive-shifting-of-the-narratives-and-acts-foci’—construed-as—‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for
the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge’
(entitlement folie/folie raisonnable)’ as opposed to a logical motivation of a supplanting
-conviction-as-to-profound-supererogation’—of-‘attendant-intradimensional’-
postconverging/dialectical-thinking—apriorising-psychologism or prelogic mental-disposition.
It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the
normal process of prelogism—as-of-conviction,—in-profound-supererogation—<existentially-
veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-
precedes-disontologising-logical-outcome-arrived-at> logical articulation with respect to
‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example
highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a
child molester. The psychopath simply articulates another postlogic/disontologising-perverted-
outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism-basis’. For instance, by saying
(in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation—or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition).
Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-
thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

supererogation or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogic-mindset is to be seen as being prelogic supplanting–conviction-as-to-profound-supererogation —of—‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism even if it is a perception of ‘poor or bad supplanting–conviction-as-to-profound-supererogation’ —of—‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism’ since that will validate the ‘apriorising—reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation by ‘prelogism-as-of-conviction.-in-profound-supererogation’ <-existentially-veridical–‘attendant-intradimensional–

The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction-as-to-proound-supererogation to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-set-of-dereifying-hollow-narratives-and-acts> as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘disontologising-perverted-outcome-sought-precedes-existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attrition, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical–attendant-
intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-
disontologising-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the
reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its
postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-

psychopathic personality and postlogism in hollow-constituting-<as-disjointed-

phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the
postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-

transparency–{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–

there is a relative insight on postlogism in hollow-constituting-<as-disjointed-

interlocutors with no more commitment given the inconsistency of the hollow-constituting-<as-

postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-
failing-intemporal-preservation> the extrinsic-attribution inclination is in constant need for new
sets-of-interlocutors. The mental process that takes place in the ignorant prelogism -as-of-
conviction,-in-profound-supererogation -<existentially-veridical–‘attendant-intradimensional–
thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation\textsuperscript{[9]} > mechanism (it isn’t necessarily completed in all manifestations as is rather a
‘mental roaming/drifting-cycle disposition known as postlogism\textsuperscript{[8]}-retreating’ that carries on
depending on how the situation permits) involves the psychopath first projecting initially
neutral narratives (pre-valuation), then narratives meant to elicit the sense of
excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other
person or notion the interlocutor holds in high esteem, which are then contrasted ‘out of
context’ unfavourably with non-veridical hollow mimicking narratives about the psychopath’s
‘socially-perceived-value as of social-stake-contention-or-confliction target’ (de-individuation)
ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-
individuation further consists of four elements; ‘consternation’ wherein narratives with a ‘sense
of dismay’ are induced on the interlocutor about the psychopath’s social-stake-contention-or-
confliction target, ‘revulsion’ wherein narratives with a ‘sense of repugnance’ are induced on
the interlocutor about the target, ‘certainty’ wherein narratives with a ‘false sense of
undoubtedness’ are projected about the target on the interlocutor, and finally ‘a sense of passive
or suggestive alienation’ towards the psychopath’s target is projected upon the interlocutor to
‘subconsciously induce a sense of alienation from the target’. The psychopath then strives to
settle on the whole of this process circularly doing likewise with other new and pertinent
interlocutors as well (commitment). By and large this circularity\textsuperscript{[7]} perversion-of-
reference-of-
thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation\textsuperscript{[7]} > thus involves these four elements as pre-valuation/pri-individuation/de-
individuation/commitment. Together with its corollary, social psychopathy, this disposition
(passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to
the social-construct as a comprehensive nature of extrinsic- attribution. Passive or suggestive
alienation as such with corresponding ‘temporal-dispositions miscuing’ which is ‘misconstrued
conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing’–apriorising-psychologism’ is not really ontologically-speaking a
prelogic/conviction-as-to-profound-supererogation mental state but rather technically a
‘miscuing/dialectically-or-contendingly-out-of-phase postlogic mental state’. There are two
stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as
an ignorant of psychopathic postlogism in hollow-constituting-as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation to which the
interlocutor aligns prelogicly and then miscues, and then secondly (in addition), as ‘committed-
by-temporality/interest over intrinsic-veridicality’ whether in the form of
affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-
social-aggregation/temporal-enculturation-or-temporal-endemisation. It should be noted that
this psychopathic manifestation process can be mimicked in the context of social psychopathy,
and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing’–apriorising-psychologism’. Over a given or extended period the underlying effect
sought by the psychopath might stick, especially where the social target, interlocutors and
others are utterly unaware of the mental state of the psychopath, and so evolving more like a
social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-
or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or
deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking
narratives of the psychopath with the corresponding perversion-of-reference-of-thought-as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-
supererogation’ or mental-perversion in the social context). It is important to see that such
social-discomfiture is in reality not a veridical logical ‘contention’ but in
veridicality/ontologically a ‘protracted manifestation’ of notional–procrypticism/notional-

It should be noted that suprastructuring implies reflection about an utter and mentally dialectically-or-contendingly-out-of-phase; as of non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-preconverging-or-dementing – apriorising-psychologism/not-veridical-thinking-reference-rather-preconverging-or-dementing \textsuperscript{19}-reference as-the-temporal-dispositions-are-dialectically-out-of-phase/dialectically-primitive as suprastructurally reflected by an ‘ordered construct from the intemporal/ontologising disposition’ (since the state of exhibiting/demonstrating \textsuperscript{7} perversion-

Paradoxically, the normal prelogism-as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional—apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind is so attached by supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex to the notion of the essence of supplanting–conviction-as-to-profound-supererogation—of–‘attendant-intradimensional’-postconverging/dialectical-thinking—apriorising-psychologism meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism—as-of-conviction,-in-profound-supererogation—<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> in their apriorising–registry, and so because psychopathy is a relatively outlying phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions,
value-reference and teleology of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and undermimiable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogism/perverted-as-disontologising-outcome-sought-precedes–logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlying phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of ‘poor or bad supplanting–conviction-as-to-profound-supererogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism’, contrasted to the psychopath’s compulsing–nonconviction/madeupness/bottomlining-{‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>,-in-shallow-supererogation’-<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>)} or compulsively-dementoing, is ad-hoc, circumspect and highly contextualised since the prelogism-as-of-conviction,-in-profound-supererogation/<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind even when acting temporally/badly has a hard time escaping from supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism or

In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated which ‘subknowledging\textsuperscript{95}/mimics’ the fundamental elements of ‘supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}—of–‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation\textsuperscript{97}-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind deterministic of other prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation\textsuperscript{97}-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> minds behaviours, and how can I then mimic-and-

These parallelisation of mere-formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) with their corresponding prelogism\textsuperscript{79}-as-of-conviction,-in-profound-supererogation\textsuperscript{97}-<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> as to intrinsic-attribution veridical-meaningfulness elements (which are subknowledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism\textsuperscript{77} at an intuitive-level)’ as subknowledger\textsuperscript{95} ‘prelogism\textsuperscript{77}-as-of-conviction,-in-profound-supererogation’\textsuperscript{97}<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as subknowledger\textsuperscript{95} ‘prelogism\textsuperscript{77}-as-of-conviction,-in-profound-supererogation’\textsuperscript{97}<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> suppositions’; ‘folie-raisonnante/non-veridical assumptions’ as subknowledger\textsuperscript{95} ‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex–logic’ as subknowledger\textsuperscript{95} ‘prelogism\textsuperscript{77}-as-of-conviction,-in-profound-supererogation’\textsuperscript{97}<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> logical operation narratives’; inductive/contextual limitation as subknowledger\textsuperscript{95} ‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledger\textsuperscript{5} ‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledger\textsuperscript{95} ‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-
apriorising/axiomatising/referencing’-logical-dueness> backtracking—iterative-looping—‘set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/ reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the supplanting—conviction-as-to-profound-supererogation”—of—‘attendant-intradimensional’—postconverging/dialectical-thinking–apriorising-psychologism—mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection—or-projection-of-form—or-hollow-and-vague-vocalisation—or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of—reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection—or-projection-of-form—or-hollow-and-vague-vocalisation—or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogic and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation. This mirrors the operant case highlighted

It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnante, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism\(^7\)-as-of-conviction,-in-profound-supererogation\(^7\) -<existentially-

transparent (at uninstitutionalised-threshold\textsuperscript{11}). Further, the element of the need to be socially-
functional-and-accordant\textsuperscript{21} first, implies that psychopathy is ‘more than just the drive of a
pathological individual’ but inevitably psychopathy and correspondingly social psychopathy
involves a ‘social split-dynamism’ wherein the ‘unordinary eliciting’ of temporal interest
among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting,
being friendly towards, etc.) is the basis for the targeting of another or others, further
compounded by the fact that while so-called ‘rules of sound logic’ abstractly permeate more or
less effectively most of our formal setups, their sociological pertinence is actually far from
established, but for the fact that broad and large general education diminishes social
egregiousness in this respect, as specifically ‘reasoning by significant others’ is actually the
more common mental-disposition in the extended-informality–\{susceptible-to-effecting-
parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology\}\}
including the ‘informal spaces’ of formal setups, with the result that this is a further factor that
makes psychopathy poorly graspable as simply of individual denaturing\textsuperscript{15} dynamics rather than
of social denaturing, thus better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism—\textit{as-of}—compulsing—nonconviction/madeupness/bottomlining—\textit{(\textlangle}\textit{decontextualising/de-existentialising—of-attendant—intradimensional—apriorising/axiomatising/referencing—\textrangle}}—\textit{induced—disontologising’—of-the—attendant—intradimensional—ontologising’—imbued—\textlangle-contextualising/existentialising—attendant—ontological-contiguity—\textrangle},—\textit{in-shallow-supererogation}—\textlangle-disontologising-perverted-outcome—sought—precedes—existentially—veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness—\rangle} mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors). Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency—\textlangle transparency-of-totalising-entailing,—as-to-entailing—\langle amplituding/formative—epistemicity—\textrangle\textrangle totalising—in-relative-ontological-completeness)—but-rather-select-transparency—to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism—\textit{as-of-conviction,—in-profound-supererogation}—\langle—existentially—veridical—‘attendant—intradimensional—apriorising/axiomatising/referencing’—logical-dueness—precedes—disontologising—logical—outcome—arrived—at—\textrangle} interlocutor’, by the mechanism of ‘induced—ring—of—gyges-effect/solipsistic—point—of—temporal—thresholding/point—of—ontological—faith—notion—or—ontological—fideism—imbued—underdetermination—of—motif—and—apriorising/axiomatising/referencing—\textit{as—so—being—as—of—existential—reality}’ at the point of lack.

There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism –as-of-conviction,-in-profound-supererogation’ <-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’–logical-dueness-precedes-disontologising-logical-outcome-arrived-at> alignment to psychopath-and/or-the-protracted-postlogism’” comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because
individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogic and the temporal prelogic/conviction-as-to-profound-supererogation minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution) thus reflecting their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation –<as-to–attendant-intradimensional”-prospectively-disontologising–preconverging/dementing –apriorising–psychologism>. Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism preconverging-or-dementing –apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’. At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding–<as-of-apriorising/axiomatising/referencing> slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its compulsive-slanting—preconverging-or-dementing–apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting–<as-

for postlogic slantedness’ in a given social space during its childhood to a state in which the
psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-
urge’ for postlogic slantedness to attain an apparent normal social equilibrium or socially-
functional-and-accordant state within any given social space as it develops into adulthood’. It
is in this way that a mechanism for psychopathic and postlogic slantedness is relayed to
apparently sound supplanting–conviction-as-to-profound-supererogation —of–‘attendant-
intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism
interlocutors, and so along five factors: - MATURATION (as childish slanted delirious non-
veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical
hollow mimicking narratives which unsoundness-or-ontological-bad-faith/inauthenticity —of-
reference-of-thought/slantedness become harder to perceive); - INDIRECTNESS (as the
psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-
urge’, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and
unmotivated manner); - SPATIALISATION (as the psychopath learns to articulate narratives at
different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical
hollow mimicking narratives and comparing with the effective social reality context to establish
whether the narratives are sound); - CREDULITY (as with development from childhood to
adulthood psychopathy, its narratives increasingly mimic ‘genuine supplanting–conviction-as-
to-profound-supererogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking’—apriorising-psychologism narratives’ and at an even deeper level mimicking ‘profound supplanting—conviction-as-to-profound-supererogation’—of-‘attendant-intradimensional’-postconverging/dialectical-thinking’—apriorising-psychologism mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its compulsive-slanting—preconverging-or-dementing—apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the compulsive-slanting—preconverging-or-dementing—apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-as-of-apriorising/axiomatising/referencing> is an experiential basis that ultimately skews (‘intemporality’—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) it into more strategic postlogic slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’—as-to-‘attendant-intradimensional’—prospectively-

So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogic narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated. But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-
contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising—reference-of-thought-elements/apriorising—registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex—logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reply/eliciting/elucidating-of-prospective-relative-ontological-completeness—reference-of-thought—devolving-as-of-instantiative-context, which is what validates logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as a process reflecting existential-reality as of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), in the formation of a basic and normal supplanting—conviction—as-to-profound-supererogation—of—‘attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism of prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mindset/<reference-of-thought’ inducing rather a postlogic compulsing—nonconviction/madeupness/bottomlining/<decontextualising/de-existentialising—of-attendant-intradimensional—apriorising/axiomatising/referencing>-induced-disontologising’—of-the-

However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while supplanting–conviction-as-to-profound-supererogation\textsuperscript{21}—of–‘attendant-intradimensional’-postconverging/dialectical-thinking\textsuperscript{27}—apriorising-psychologism, the rest of the human mental-dispositions include varying levels of temporality\textsuperscript{7}/shortness (when there is no social universal-transparency\textsuperscript{10}—(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{44}〈amplituding/formative–epistemicity〉totalising–in-relative-ontological-completeness ) of our acts at ‘uninstitutionalised-threshold’\textsuperscript{104}’ thus there is not ‘intemporal social universal-transparency\textsuperscript{10}—(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{44}〈amplituding/formative–epistemicity〉totalising–in-relative-ontological-completeness ) of notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation/unequivalences/alienative-hierarchisation,’ thus creating an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-
apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism\(^\text{78}\) in hollow-constituting\(<\text{as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation}>\). That is, abstractly, with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold\(^\text{79}\)’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality\(<\text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology}>\)’, then ‘a induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction-as-to-profound-supererogation\(^\text{97}\)) will often perfectly elicit an ‘induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can
rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism\(^7\) in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> (involving protracted/derived slantedness), in the absence of social \(^{104}\) universal-transparency\(^{105}\)–transparency-of-totalising-entailing-as-to-entailing-\(^{45}\) amplituding/formative–epistemicity totalising~in-relative-ontological-completeness } on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social \(^{104}\) universal-transparency\(^{105}\)–transparency-of-totalising-entailing-as-to-entailing-\(^{45}\) amplituding/formative–epistemicity totalising~in-relative-ontological-completeness } of its postlogism\(^7\)-slantedness to many a supplanting–conviction-as-to-profound-supererogation —of–‘attendant-intradimensional’–postconverging/dialectical-thinking\(^30\)–apriorising-psychologism interlocutor as the ‘uninstitutionalised-threshold’\(^{103}\)). Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology\(^{10}\) or temporal (shortness-of-register-of–meaningfulness-and-teleology\(^{10}\) ), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments\(^{10}\). The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and \(^{10}\) universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging\(^7\)/mimicking, by virtue of its
ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/civilisation, in an intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge as preconverging-or-dementing-as-if-of-sound-knowledge) pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as notional-deprocrypticism (preempting procrypticism, so construed by ‘notional-deprocrypticism ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking-differentiation-as-of-supratransversality–of-motif-and-apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought-reference-of-thought–categorical-imperatives/axioms/registry-teleology of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging) of the reference-of-thought–categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know $2+2=4$, $5+1=6$, $7-3=4$, etc. was to be undermine by a new human
perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation caused by a disease wherein we tend to say 2+2=5, 5+1=7 and 7-3=3, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation include: - RECURRENT-UTTER-UNINSTITUTIONALISATION (base perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, resolved/structurally-rendered-inoperant by BASE-INSTITUTIONALISATION categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy), -

Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-

‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however,
the two terms carry two different connotative emphases necessary to make the
conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process
of human institutional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
(with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence-and-sublimity/sublimation/superego~de-mentativity/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposered peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposured in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposured into notional–deprocrypticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposuring/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposuring. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation/institutional-recomposure–{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>}{/}}

This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, this is just a mental-devising—
representation for implying intemporality\(^{52}\) of thought without which meaningfulness is not functional in the registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\(^{00}\), but then at that same prior registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{63}\), transcendence-and-sblimitiy/sublimation/supererogatory-de-mentativity into a prospective registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\(^{00}\) put into question this candoring/straightness mental-devising-representation and the prior registry-worldview’s/dimension’s consciousness-awareness-teleology\(^{00}\) is then represented as preconverging-or-dementing\(^{19}\)-apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or \(\text{de-mentation}\{\text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics}\}\). Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{00}\) and ontological-veridicality/ontological-contiguity\(^{67}\) of \(\text{reference-of-thought}\) (from the ontological-normalcy/postconvergence epistemic/notional-projective-perspective); with the ontologically-veridical/ontological-contiguity\(^{67}\) mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity\(^{12}\)-<shallow-supererogation>-of-mentally-aestheticised-preconverging/dementing\(^{19}\)-qualia-schema>-as-of-epistemic-decadence in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>\(^{77}\), stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{00}\)>, beyond their
Hence we know of the following three de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as preconvergingly-de-mentated/structured/paradigmed registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism–or–disjointedness-as-of–reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism. Each of such psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (along the institutional-cumulation/institutional-recomposure—as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>) process, have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows: (i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-preconverging-or-dementing–apriorising-psychologism-or-subknowledging–or–perversion-of–reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,–and-corresponding-<amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ relation to meaningfulness). (ii) for universalisation, it has to do with requisite ‘projection
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation" and-not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentionation—stranding-or-attributive-dialectics) of our perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation" as of the reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procrepticism—or—disjointedness-as-of-reference-of-thought. Noting as well that previous uninstitutionalised-threshold as to recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications of supposed postconverging—dementating/structuring/paradigmimg as we do in our positivistic/procrepticism registry-worldview, within theambits of their the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation. But then their stranding from the prospective institutionalisation/intemporalisation represents them as preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrepticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrepticism
institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage than the ontological-verifydicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional-projective-perspective). This equally explains why uninstitutionalised-threshold equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing}<perspective-ontological-normalcy/postconvergence-reflectedin-epistemicky-relativism}> process. With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of notional-discontiguity/epistemic-discontiguity-shallow-supererogation-of-mentally-aestheticised-preconverging/dementing-qualia-schema> (undisambiguation as notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence are wrongly given the same elevation), and relevantly so at the procrypticism—or-disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence’—existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘notional—firstnaturedness—temporal-to-intemporal-dispositions-so-
construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation’ to avoid wrongfully operating/processing of logic by the ‘reference-of-thought of the intemporal-disposition ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) temporal-dispositions manifest denaturing \textsuperscript{15} and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as of notional-discontiguity/epistemic-discontiguity\textsuperscript{63}-<shallow-supererogation\textsuperscript{97}-of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema>. notional–deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating preconverging constructs, and not as may wrongly be reflected by the natural reflex to be postconverging constructs, to emphasise the ‘dominance/supersedingness suprastructuring of the intemporal-disposition skewing (‘intemporality\textsuperscript{52}–asymmetric-subsumption-of-temporality\textsuperscript{99},’ for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’) for the fulsome articulation of ontology as ‘utter (postconvergence) ontological-veridicality/ontological-contiguity\textsuperscript{97} in conscious transdimensional/transcendental-memetic-depth (thinking-and-preconverging-or-dementing -dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-

As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature of notional–deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency\(^{19}<\text{transparency-of-totalising-entailing,-as-to-entailing-}\) of ‘knowledge-notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality\(^{17}\)-asymmetric-subsumption-of-temporality\(^{20}\)’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity\(^{17}\); in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity\(^19<\text{shallow-supererogation}\)\(^{17}\)-of-mentally-aestheticised–preconverging/dementing –qualia-schema> of temporal-dispositions and particularly in the extended-informality-{\text{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to– meaningfulness-and-teleology} } which covers all informal spheres of institutions and society generally. So because knowledge-notionalisation recognises that in a specie of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-
from-perspective–ontological-normalcy/postconvergence> individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality”-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing->perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’} by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting skewing (‘intemporality”-asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge-notionalisation as such carries a transcendent-existentialism/in-full-existential-
depth-of-notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-
from-perspective—ontological-normalcy/postconvergence—implications which is more than
just reactionary to the possibility of temporality/shortness (shortness-of-register-of—
meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of
thought’ (intemporality as longness-of-register-of—meaningfulness-and-teleology) that
takes abstract cognisance of temporality/shortness as an intransient potency (hitherto
accounting for the circularity/recurrence/repetition/repeatability of human circular-
uninstitutionalised-threshold) to be conceptually understood and superseded recurrently and
perpetually. Critically, this insight about the effective nature of ontological-

normalcy/postconvergence (in its becoming in a conscious transdimensional/transcendental-
meaningfulness or memetism or suprastructural-meaningfulness) as ‘postconverging-or-
dialectical-thinking—apriorising-psychologism—by—preconverging-or-dementing—apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while
psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-

categorical-imperatives/axioms/registry-teleology refers to the same
decomposed/ontological-reconstituting–as-to-conflatedness notion; axioms emphasises and
hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality,
categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and
‘enforcing’, while registry-teleology (short for the apriorising–registry-elements as implied—

Hence the postconverging/dialectical-thinking—apriorising-psychologism mental-devising-representations of either sound—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation and defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation are ‘projectively validated by reflex as possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought (and not projectively invalidated by reflex as possibly-of-preconverging-or-dementing—apriorising-psychologism/possibly-of-unsoundness-or-ontological-bad-faith/inauthenticity—of-reference-of-thought) in implying the ‘upholding of their sound—reference-of-thought status’. To illustrate, suppose X and Y are contending (ontological-reference) to know what 5+4 will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as 5+4=8, we talk of defect—of—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation as X sincerely wants to calculate to produce the right answer but X’s—logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation failed. This doesn’t invalidate the notion that Y can still engage X as ‘possibly-of-postconverging-or-dialectical-thinking—apriorising-psychologism/possibly-of-soundness-or-ontological-good-faith/authenticity—of-reference-of-thought in contending (appropriateness-of—reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. while the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-

explains how and why successive institutional-cumulation/institutional-recomposure-{as-to-

normaley/postconvergence-reflected—‘epistemicity-relativism’} are at their given
institutionalisation levels on the basis of a memetic suprastructural-meaningfulness analysis or
a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-
threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation actually initially applies
intradimensionally in all registry-worldviews/dimensions and it is actually the
‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to
‘failing/not-upholding—<as-of-apriorising/axiomatising/referencing> intradimensional
ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological
signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with
regards to a dimension’s/registry-worldview ‘preconverging-or-dementing’ –apriorising-
psychologism phenomenon’ like psychopathy and social psychopathy (with respect to
procrypticism or perversion-of-reference-of-thought—<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining—as-to-shallow-supererogation > of positivistic
meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this
slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance <including-virtue-as-ontology> with the idea that ‘human intemporal-disposition individuation’ will rather be utterly emancipatory/transcendental by ‘ontologically-reconstituting’/deconstruction (and so, without any hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> incrementalism-in-relative-ontological-incompleteness —enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought allowed, in order to sync with the ‘postconvergence/preceding/superseding nature of intrinsic reality’ which ‘doesn’t recognise’ nor is involved in temporal-and-social-trading with the mortals that we are to establish ontological-reference and ontological-veridicality) instead of betraying ontologising/ontological-depth-of-analysis/intemporal-preservation thus inducing prospective institutionalisation/intemporalisation by positive-opportunism and the intemporal percolation-channelling—in-deferential-formalisation-transference> of such emancipation/transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that psychopathy is associated with temporal-dispositions destructuring-threshold~ of-ontological-performance <including-virtue-as-ontology> ‘as of the positivism–procrypticism registry-worldview’s/dimension’s socially-betraying-threshold-of-ontologising-depth-of-analysis’/socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in conjugation to
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve to simply analyse on the basis that other interlocutors have an intemporal/ontological disposition, in the very first instance. Thus the need, in order to attain such a prior requisite ontological/intemporal insight, to ontologically construe (as to deferential-formalisation-transference) contexts of psychopathy and social psychopathy (and generally contexts of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as to ‘attendant-intradimensional’-prospectively-disontologising~preconverging/dementing apriorising-psychologism in all registry-worldviews/dimensions to priorly achieve an ontological/intemporal insight), before conducting ‘a truly ontological/intemporal analysis’ as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct, which necessarily implies projecting into a prospective/transcending/superseding registry-worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a social context imbued with interlocutors temporal-dispositions destructuring-threshold⟨uninstitutionalised-threshold /presublimating–desublimating-decisionality⟩-of-ontological-performance<including-virtue-as-ontology> of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought- devolving ontological-performance<including-virtue-as-ontology> on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold of the registry-worldview/dimension (procrypticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct’ preempting the said perversion-of-reference-of-thought-as-effectively-
phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it ‘becomes existentially in a dynamism of conventioning and ontology’. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to a phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant ‘theme and the intellectual projection behind its ontological analysis’ seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with
regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing-<amplituding-formative-epistemicity>totalising–in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions. The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness-unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming, contrasted with a temporal extricatory preconverging–de-mentating/structuring/paradigming, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’s recomposured-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful
frame is oblivious to its procrypticism, and corresponding resolution as notional–deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ aligned with ontological-normalcy/postconvergence is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology\textsuperscript{100} in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived \textsuperscript{100} meaningfulness-and-teleology\textsuperscript{100} thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘postconverging-or-dialectical-thinking\textsuperscript{20}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ is one that aligns with and is driven by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy/postconvergence is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. A ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (as to ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ mental-devising-representation or preconverging-or-dementing–apriorising-psychologism mental-devising-representation) is the reflected/perspectivated implication either as of ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ or of preconverging-or-dementing–apriorising-psychologism as so-reflected/so-perspectivated from ontological-normalcy/postconvergence, and it is thus ontology-driven beyond any presencing—absolutising-identitive-constitutedness distorted meaningfulness-and-teleology. Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-of-thought-ref<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> as limited-mentation-capacity-deepening has to do with the veracity/ontological-pertinence of our notional—firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as individuations of shortness-to-longness-of-register-of—meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-deepening, to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>) rather than the essence as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontological-reconstituting—as-to-conflicatedness). This
fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-register-of-meaningfulness/notional-firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> inherent in a limited-mentation-capacity-deepening; any resolution is not by wrongly implying any ‘dimensionality-of-sublimating’(<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) transformation’ but rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism to the grander cross-section of society in the medium to long-run wherein intemporal-disposition/longness-of-register-of—‘meaningfulness-and-teleology’ individualisation dispositions by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-register-of—‘meaningfulness-and-teleology’—or-hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> individuations dispositions); with corresponding percolation-channelling—<in-deferential-formalisation-transference> facilitating the perpetuation of such intemporal enculturation even when such positive-opportunism gets weaker with grander institutionalisations/intemporalisations, and so as the grander human the-good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting as of conceptivity/epistemic-reflexivity! Rational-realism (as to prospective deprocrypticism) as such involves rather elucidating distractive-alignment-to-reference-of-thought—<of-apriorising/axiomatising/referencing>/decandoring with three de-
mentative/structural/paradigmatic teleologies: - subknowledging\textsuperscript{-}-impulse/compulsive-dementing temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (preconverging-or-dementing –apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); - subknowledging\textsuperscript{-}-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (preconverging-or-dementing \textsuperscript{-}–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>); and - the intemporally given and ontologising teleology\textsuperscript{100} which ontologically reflects/perspectivates the subknowledging\textsuperscript{-}-impulse/compulsive-dementing\textsuperscript{-}-temporal-disposition-(psychopath) and the subknowledging\textsuperscript{-}-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the \textsuperscript{14} de-\textsuperscript{mentation}-(\textsuperscript{supererogatory-ontological-de-\textsuperscript{mentation}-or-dialectical-de-\textsuperscript{mentation—stranding-or-attributive-dialectics}) backdrop of new recomposuring \textsuperscript{2} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Thus at the uninstitutionalised-threshold \textsuperscript{3}, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’ (acting as if in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while actually in temporal preservation-as-pseudointemporality\textsuperscript{2}; hence dementable/no-longer-thinking) due to <amplituding/\textsuperscript{formative}epistemicity>totalising–self-referencing-syncetising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence\textsuperscript{(implicated-‘nondescript/ignorable–void ’–as-to- presencing—absolutising-identitive-constitutedness ) which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion-of-\textsuperscript{1}reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{9}> as-of-unsoundness-

The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^7\)> as to preconverging-or-dementing –apriorising-psychologism for psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring on the basis of prospective \(^8\) reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^10\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal \(^7\) perversion-of- reference-of-thought-<as-

This obviously calls for an ‘intellectual/scientism detachment’ towards the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation preconverging–de-mentating/structuring/paradigming which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct). This way of hermeneutic/reprojecting/supererogating/zeroing ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal-disposition as of the inherent nature of existential-reality’ is central to the notional–deprocystalism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–
ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’. Deprocrypticism’s suprastructuralism involves ‘intemporality—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity existence-potency—sublimating—nascence—disclosed—from-prospective-epistemic-digression so-consrued as longness-of-register-of—meaningfulness-and-teleology over shortness-of-register-of—meaningfulness-and-teleology; and so, beyond just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct carrying a virtue that supersedes the vices-and-impediments of the non-positivism/medievalism registry-worldview/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in grasping the denaturing of reference-of-thought—categorical-imperatives/axioms/registry-teleology as of ontological-
normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a \( ^{15} \) reference-of-thought (so-characteristic of the prospective deprocrypticism registry-worldview/dimension) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of apriorising/axiomatising/referencing—conflation rather than apriorising/axiomatising/referencing—constitutedness \( ^{13} \) (notwithstanding the instances of the latter’s attendant approximating-nature for conceptualisation/construal rather construed as \( ^{84} \) presencing—absolutising-identitive-constitutedness\( ^{13} \)).

apriorising/axiomatising/referencing—constitutedness \( ^{13} \) tend to fallaciously imply ‘existence of things in existence’ whereas apriorising/axiomatising/referencing—conflation rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because apriorising/axiomatising/referencing—constitutedness \( ^{13} \) takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-deepening\( ^{53} \) this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness \( ^{13} \) of \( ^{5} \) reference-of-thought’ perpetually when aware of its deficiency.

apriorising/axiomatising/referencing—conflation takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-deepening\( ^{53} \) as of metaphysics-of-absence-{implicit-epistemic-veracity-of- nonpresencing-{perspective–ontological-normalcy/postconvergence}}, and as implied by the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that goes beyond {amplituding/formative} wooden-language-{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-
dementing narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence (implicated-epistemic-veracity-of-nonpresencing—perspective—ontological-normalcy/postconvergence)/postdication. Thus, apriorising/axiomatising/referencing—constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by apriorising/axiomatising/referencing—constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a attendant resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-construct/reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity) that will then require another attendant resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-deepening construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context as to existence—

The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the de-mentative/structural/paradigmatic basis of categorisation scheming are equally the de-mentative/structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology\(^{10}\) construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent de-mentative/structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-elevation-of-reference-of-thought’\(^{43}\) as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/preconverging-or-dementing - reflexive/entailing-teleology\(^{10}\)-differentiation-as-of-subtransversality~of-motif-and-apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, apriorising/axiomatising/referencing—constitutedness\(^{13}\) implies a simplistic/trite categorical relation in the construal/conceptualisation of ‘meaningfulness-and-
teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation; and as such, apriorising/axiomatising/referencing—constitutedness will speak of subtransversality-of-motif-and-apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘constitutedness and conjugated-constitutedness of reference-of-thought’ including psychopathic slantedness apriorising/axiomatising/referencing—constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-deepening induced apriorising/axiomatising/referencing—constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold mental-disposition’ (since such a construal fully reflect the reality of a human temporal-to-intemporal reference-of-thought nature, with high ‘constitutedness and conjugated-constitutedness of reference-of-thought’ of temporal-dispositions reference-of-thought, much like the ‘conjugated-constitutedness of reference-of-thought’ of the other BODMAS characters to A’s fundamental postlogism-slantedness pathological condition/constitutedness as when insisting on upholding the wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology } and not factoring in A’s underlying condition and defect as apriorising/axiomatising/referencing—constitutedness, and so out of sync with the existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-

Apriorising/axiomatising/referencing—conflation, as so-construed in referentialism, by striving
to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-deepening) as of referentialism is absolutely referencing on the basis of ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of—reference-of-thought—devolving-as-of-instantiative-context, and so grasped as apriorising/axiomatising/referencing—conflation emphasises projective-insights for upholding ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence apriorising/axiomatising/referencing—conflation will tend to avoid systemic defects of analysis associated with apriorising/axiomatising/referencing—constitutedness requiring re-categorisation/re-adaptation/re-classification as ‘presencing—absolutising-identitive-constitutedness’. apriorising/axiomatising/referencing—conflation is thus naturally inclined to induce ‘appropriate-existential-elevation-of-reference-of-thought’ by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-postconverging-or-dialectical-thinking—differentiation-as-of-supratransversality—of-motif-and-apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology as meaning produced apparently with the ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ (seemingly of veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated
notional-firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective—ontological-normalcy/postconvergence>. Further, apriorising/axiomatising/referencing—constitutedness and apriorising/axiomatising/referencing—conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-deepening come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologies as induced by ‘postconverging-or-dialectical-thinking’—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-teleology not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as of fundamental/most-simplistic apriorising/axiomatising/referencing—constitutedness socially reprised with ‘conjugated-constitutedness of reference-of-thought’) as well as grasping fundamental dynamics of institutions and especially as influenced by the extended-
identitative-constitutedness¹³ as apriorising/axiomatising/referencing—constitutedness¹³ re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology¹⁰⁰ <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag¹⁰, by way of continuous ‘presencing—absolutising-identitive-constitutedness¹¹’ as ‘recurrent re-categorisation/re-adaptation/re-classification of the prior apriorising/axiomatising/referencing—constitutedness¹¹ of reference-of-thought’ is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology¹⁰⁰, and as of its operant nature, isn’t the case in its operant conceptualisation in such a base-institutionalisation social-setup <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving-as-of-instantiative-context—meaningfulness-and-teleology¹⁰⁰ as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of <amplituding/formative–epistemicity>totalising~nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in—warped-consciousness’-enabling- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology’s as humans in base-institutionalisation–
ununiversalisation, who do not do likewise as humans in universalisation–non-positivism/medievalism, who do not do likewise as humans in positivism–procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-as from relative apriorising/axiomatising/referencing—constitutedness to relative apriorising/axiomatising/referencing—conflatedness } construal/conceptualisation as soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’. The underlying human psyche is in need of a ‘framework of intelligibility construal/conceptualisation’ as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-deepening , can then project ‘mental and existential investment’ in a world of perceived stakes (social, natural and/or supernatural) in a ‘social framework of intersolipsistic deambulation’ (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-deepening determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the ‘social framework of intersolipsistic deambulation’. This ‘social framework of intersolipsistic deambulation’ is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulation/institutional-recomposure-as to historiality/ontological-eventfulness /ontological-aesthetic-tracing-
which are thus equally in a linearity. This notion of ‘social framework of intersolipsistic
deambulaton’ harkens back to that of human registry-worldview’s/dimension’s
institutionalisation by its socially-functional-and-accordant thresholds of

redefining successive prospective socially-functional-and-accordant thresholds as successive

human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-

uninstitutionalised-threshold being rather an afterthought posture rather with respect to the

The best possible outcome in this regard is as of the construal of a ‘attendant ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it establishes prospective relative-ontological-completeness\textsuperscript{88}-of-'reference-of-thought by social universal-transparency \textsuperscript{101} (transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness ) as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-'reference-of-thought-devolving-as-of-instantiative-context. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposes as of human shallow-to-deepening–limited-mentation-capacity,~as-limited-mentation-capacity-deepening\(^3\) inducing the successive registry-worldviews/dimensions institutionalisations’ reference-of-thought with their own ‘specific institutionalisation/uninstitutionalised-threshold\(^3\) mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ as of their prospective relative-ontological-completeness\(^3\)-of-reference-of-thought with respect to their social\(^4\)-universal-transparency\(^5\)-\{(transparency-of-totalising-entailing,-as-to-entailing-\(<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\)\} as of existential-contextualising-contiguity\(^6\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness ~of~ reference-of-thought~ devolving-as-of-instantiative-context; with the implications being that social\(^4\)-universal-transparency\(^5\)-\{(transparency-of-totalising-entailing,-as-to-entailing-\(<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness}\)\} as of existential-contextualising-contiguity\(^6\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness\(^3\)-of\(^3\)reference-of-thought\(^3\)-devolving-as-of-instantiative-context as of prospective relative-ontological-completeness\(^3\)-of\(^3\)reference-of-thought redefines prospective\(^5\) meaningfulness-and-

intemporal/ontological contiguity grasp of human ‘individuation-level and registry-
worldview/dimension-level ‘meaningfulness-and-teleology’ as it can accrue at the
intradimensional-level of individuals-notionally-as-receptacles-of-temporal-to-intemporal-
individuations and individuals-as-institutionally-constrained-actors-as-of-intersolipsistic-
deambulation, and hence ontologically-adjoins in its construal/conceptualisation the construct
of the individual and the social as of ‘notional–deprocrypticism suprastructuration’ or
‘notional–deprocrypticism suprastructural psychical-and-institutionalisation orientation of

worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’ (just as in the
natural sciences, physics ontologically-adjoins chemistry and chemistry ontologically-adjoins
biology). This is in contrast with an ontologically non-contiguous stigmatic/mented psychology
construct which relative ‘third-level presencing—absolutising-identitive-constitutedness’ largely limits its notion to ‘affect’, and not a full-blown ontological-contiguity as
apriorising/axiomatising/referencing—conflation elaborated ‘meaningfulness-and-
teleology’ determination in full ontological converging with the social (as metaphysics-of-
absence-⟨implicit epistemic-veracity-of-nonpresencing-⟨perspective-ontological-

thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of apriorising/axiomatising/referencing—conflation will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, as of ‘intemporal-disposition knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness’ and conjugated-constitutedness of ‘reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-deepening to apriorising/axiomatising/referencing—constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by presencing—absolutising-identitive-constitutedness’ when aware of defective apriorising/axiomatising/referencing—constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; notional-deprocrypticism by its very transcendental essence comprehensively comes into grips with the apriorising/axiomatising/referencing—constitutedness in positivism–procrypticism as it attains more than just presencing—absolutising-identitive-constitutedness’ but an overall comprehensive apriorising/axiomatising/referencing—conflation insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procrypticism. apriorising/axiomatising/referencing—conflation as of ontological-normalcy/postconvergence
referentialism in superseding apriorising/axiomatising/referencing—constitutedness, provides resolution as of 3 aspects of meaningfulness-and-teleology: firstly, with respect to temporal instigating as apriorising/axiomatising/referencing—constitutedness like psychopathic-slantedness insane-fitment ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation and its derivation with respect to temporal reprisings of such apriorising/axiomatising/referencing—constitutedness as ‘conjugated-constitutedness’ of ‘reference-of-thought’ associated with conjugated-postlogism; temporal reprisings by construing/conceptualising such perversion-and-derived-perversion-of-reference-of-thought-phenomenon, and re-establishing social universal-transparency-{transparency-of-totalising-entailing-as-to-entailing-<amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness} that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiologisation/ontological-escalation as of ontological-reconstituting-as-to-conflatedness; and thirdly, highlighting the de-mentative/structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in de-mentation-{supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with
respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and postconverging-or-dialectical-thinking—apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in de-mentation-(supererogatory—ontological–de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence-(implicit-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>), the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in de-mentation-(supererogatory—ontological–de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) as the necessary/requisite backdrop for the construal of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation ushering in notional–deprocrypticism as prospective institutionalisation. In this regard, we’ll certainly inherently relate to preceding successive uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in de-mentation-(supererogatory—ontological–de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics), though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-threshold by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in de-mentation-(supererogatory—ontological–de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics)); while we can recognise successively the centered and postconverging-
or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of notional–deprocrypticism institutionalisation as it points to the decentering and de-mentation\textsuperscript{\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\}} of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold\textsuperscript{03} construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of apriorising/axiomatising/referencing—conflation as of centering and postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism reference-of-thought implied with institutionalisations and apriorising/axiomatising/referencing—constitutedness\textsuperscript{3} as of decentering and ontologically/preconverging-or-dementing\textsuperscript{20}–apriorising-psychologism reference-of-thought implied with uninstitutionalised-threshold\textsuperscript{03}; prompting the respective institutionalisation and uninstitutionalised-threshold\textsuperscript{03} psychologisms as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}–reference-of-thought-devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} reference-of-thought in positivism–procrypticism from a notional–deprocrypticism perspective, just as we’ll recognise for instance that a universalisation–non-positivism/medievalism mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{3} reference-of-thought as of the apriorising/precedingness of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}–reference-of-thought-devolving-as-of-
instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in \( \text{de-mentation} \)-\( \text{(supererogatory–ontological–de-mentation-or-dialectical–de-} \)
\( \text{mentation–stranding-or-attributive-dialectics) of an uninstitutionalised-threshold} \) is hardly just one of ‘simplistic knowledge elucidation’ but rather an elucidation as of intellectual courage in bluntly asserting decentering and \( \text{de-mentation} \)-\( \text{(supererogatory–ontological–de-} \)
\( \text{mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics).} \) Intellectual courage as imbuing knowledge with organic profundness of intemporal-disposition philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendence-and-sublimity/sublimation/supererogatory–de-mentativity and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is ‘no magical knowledge technicality’ for implying a more profound ontological-completeness-of reference-of-thought over a relatively relative-ontological-incompleteness reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating/supererogatory–de-mentativity rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is ‘altogether not a knowledge elucidation problem’ with respect to the implied representation of uninstitutionalised-threshold as decentered and in \( \text{de-mentation} \)-\( \text{(supererogatory–ontological–de-} \)
\( \text{mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics)} \) but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of <amplituding/formative–
as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought’s-devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism’s-reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset’s-reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology’s) requisite knowledge or meaningfulness-and-teleology’s-reference-of-thought. Such equally applies with respect to notional–deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold’s. In other words, prospective institutionalisation as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is construed not in terms–as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework’s outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms–as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discreional contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation
as transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discrentional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology conjure up explanations/meaningfulness-and-teleology in terms—as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework outcomes as its mechanical-knowledge aspect but further requires a development of the discrentional contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-
existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychology as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of ‘meaningfulness-and-teleology’ synopsising-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding-oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychology. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of ‘meaningfulness-and-teleology’ as of crossgenerational psychoanalytic-unshackling involving \textit{amplituding/formative–epistemicity} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate crossgenerational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal-disposition projecting mental-disposition’ behind ontological-primemovers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality across all the successive registry-worldviews as at all their uninstitutionalised-threshold temporal-individuations-as-shortness-of-register-of ‘meaningfulness-and-teleology’ are a drawback to transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (by adherence to ‘\textit{amplituding/formative} wooden-language–(imbued—temporal–mere–

Thus notional–deprocrypticism knowledge as overlapping the mechanical with the organic, as of the intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{100} mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation/notional-conception/amplituding of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality\textsuperscript{7}/shortness and skewing towards the intemporal/longness-of-register-of—meaningfulness-and-teleology\textsuperscript{100}, and so as of organic-knowledge overlapping. In which case while such intemporality /longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of apriorising/axiomatising/referencing—conflation in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting holographically—conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process’ as well as ‘individuation terms of

uninstitutionalised-threshold wherein the ontological-veridicality of the mental-devising-representation is ‘in threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ and not organic-comprehension-thinking’, and we can envision retrospectively the points of de-mentation (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) of preceding registry-worldviews/dimensions from our vantage point of being at the backend of the institutional-cumulation/institutional-recomposure process like an insight in the recurrent-utter-institutionalised ‘so-called savage’ mindset/reference-of-thought or the medieval mindset, for instance. Likewise such a threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation projection though of a different nature of the positivistic registry-worldview/dimension can be made prospectively from a notional-deprocrypticism insight that overrides our illusion-of-the-present/epistemic-totalising~self-referencing-syncretising/present-consciousness/mirage given its more suprastructural and ontological-normalcy/postconvergence vantage perspective in relation to intrinsic-reality/ontological-veridicality/ontological-referencing. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation. It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity—ontological-preservation) involves: - recurrent-utter-uninstitutionalisation (initial state of ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ that intemporally calls for the introduction of ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—ontological-preservation as
anticipatory and preemptive of ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that de-mentatively/structurally/paradigmatically bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferrational-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity). We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from nonpositivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s Things Fall Apart on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is by cultural diffusion rather than by internal philosophical transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Basically, all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity due to perversion-and-derived-
perversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation" and the registry-worldview’s/dimension’s relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’ as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing =apriorising-psychologism’ is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation”), so you rather have a reinvention as <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence-and-sublimity/sublimation/supererogatory–de-mentativity to liberate themselves before seconddnatureing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins… of the world, miraculously came up with positivism to supersede/precede/override/utter medievalism, as they were of medieval stock but by philosophical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendentental process that is actually critical)! Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-
stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’-or-ontological-reprojecting/longness-of-register-of-’meaningfulness-and-teleology’), the psychopath’s and other postlogic articulations have a nefarious effect, on social meaninglessness-and-teleology particularly in ‘spheres of extended-informality-susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology’ of society in general and social institutions, as the postlogic perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> induces threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism> with many an interlocutor, and which by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-’reference-of-thought’–as-conflatedness’-or-ontological-reprojecting/longness-of-register-of-’meaningfulness-and-teleology’), and often leads to a social dynamism of plainness and mediocrity which is subpar and corrupting to social and institutions teleological potential. In-conviction-as-to-profound-supererogation (prelogically), threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing-apriorising-psychologism> is vis a vis organic-

directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,—state-in-relation-to—meaningfulness-and-teleology, and prospectively positivism—procripticism which as of its inherent disjointedness-as-of-reference-of-thought requires deprocripticism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, with the idea that reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing—apriorising-psychologism with regards to the preceding reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Further a registry-worldview/dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding—as-of-apriorising/axiomatising/referencing-reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation rather than implying prospective ones for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; such that ontologically-speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of reference-of-thought denaturing and relative-ontological-incompleteness, and endemised/enculturated (with a temporal rationalising reasoning that actually validates the veridicality of a human
notional-firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to shallow-supererogation—to—profound-supererogation that should not be confused with a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the recomposed backdrop for prospective transcendental construct of deprocrypticism, as the ‘ontologising organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought–as-conflatedness-or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology) that reflects/perspectivates the protracted threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to–attendant-intradimensional–prospectively-disontologising–preconverging/dementing–apriorising-psychologism’. But then, a psychopath can be so irrational that in temporal terms it might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal and distribute or even some other things but coming initially from a vice; as may be enabled by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome). This dynamic element can make psychopathy and social psychopathy difficult to deal with as a social phenomenon, as the questions are not only how culpable is the psychopath but extend to who is temporally getting what from the psychopathic situation, what accounts and narratives should be believed, etc., thus requiring an utter and intemporally uncompromising ontological conceptualisation to construct an ontological-primemovers-totalitative-framework science. That said, beyond just about such a present worldly take to societal issues, there is a bigger question of the universal implications on human civilisation of postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity—or–ontological-preservation behind
human civilisation. It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism\textsuperscript{78} mind contrasted to the nature of the ‘normal supplanting–conviction-as-to-profound-supererogation\textsuperscript{97}—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogic mind’, which are antipodal as the normal mind is by reflex prelogic supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism as to existential-contextualising-contiguity\textsuperscript{97} and by reflex will tend to see prelogic supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism narratives while the psychopath is of postlogic\textsuperscript{10} compulsing–nonconviction/madeupness/bottomlining(‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-supererogation<-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>) (meaning-by-the-mere-illogical POSSIBILITY OF IT BEING FORMULAICALLY NARRATED) and does has an covert vista (when the interlocutor is not forewarned/experienced about its nature) in wrongfully inducing a sense of supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism in the normal mind by compulsing–nonconviction/madeupness/bottomlining(‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity>-in-shallow-

elucidative anthropopsychology/the-anthropological-continuity (a novel
hermeneutic/reprojecting/supererogating/zeroing approach to psychology); extrinsic-attribution
is a fairly common social mental-disposition, at ‘uninstitutionalised-threshold’ as we are not
inherently intemporal (the-Good as longness-of-register-of–meaningfulness-and-teleology)
in our solipsistic projection but have the potential of temporal (shortness-of-register-of–

so-disambiguated as of reference-of-thought- devolving ontological-performance -<including-virtue-as-ontology>. The mechanism of institutionalisation/intemporalisation and
formalisation ensures that because of the positive-opportunism that the intemporal-disposition
(as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human
temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it
tends to skew (‘intemporality -asymmetric-subsumption-of-temporality’, for relative
intrinsic-reality/ontological-veridicality transcendent-
enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference
and dominate temporal-dispositions in the medium to long perspective. For instance, everyone
will like to see a good legal system to ensure that they do not fall afoul of a bad judgment even
if, circumstantially, maybe they themselves may be inclined not to have others or some others
to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised
positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition
to be inherently civilised to want to universally wish that everyone have to deal with a fair
legal system, that anyway is to the credit of the institutionalisation/intemporalisation process,
but that is a secondnatured/internalised construct). This explains why there is no need to breach
the scientific principle known as the ‘mediocrity principle’, (which says that there are no
exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in
reality man is a notional–firstnaturedness—temporal-to-intemtemporal-dispositions-<so-construed-
as-from-perspective–ontological-normalcy/postconvergence> creature in its moral/virtuous-
agency); to explain why society tends to improve/progress. Rather, the intemtemporal-disposition
de-mentatively/structurally/paradigmatically brings more overall good and hence skews
(‘intemtemporality’ asymmetric-subsumption-of-temporality, for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-
mentativity) man in the medium to long perspective towards ‘the-
Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework
(institutionalised, formalised and internalised)’. This elucidation is important because while
internalisation might point to the social good it is important to understand that when dealing
with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good
as longness-of-register-of—meaningfulness-and-teleology) than temporal (shortness-of-
register-of—meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the
analysis should take account of this (by not just operating/processing logic but construing

Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure--historiality/ontological-eventfulness /ontological-aesthetic-tracing--perspective–ontological-normalcy/postconvergence-reflected--epistemicity-relativism”) or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation–unununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and uninsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression and assumes a fundamental referencing base in the study
of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging , mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation synes with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as ‘straightness/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought referencing/registering/decisioning or registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-'preconverging-or-dementing-apriorising-psychologism registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogic miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for ‘perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation’ across the institutional-cumulation/institutional-recomposure—{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>}, whether in the ‘perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation’ as to preconverging-or-dementing—apriorising-psychologism of recurrent-utter-uninstitutionalisation,
ununiversalisation, non-positivism/medievalism or procrypticism—or—disjointedness-as-of-reference-of-thought. Such a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, for a novel genuinely universal psychology as anthropopsychology, involved in all successive institutional-cumulation/institutional-recomposure—{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective-ontological-normalcy/postconvergence—reflected—epistemicity-relativism> } for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is profoundly elucidated with associated notions as follows: - The concept of de-mentation—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics is the very drive (in providing insight on the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation ontological-primumers-totalitative-framework, i.e. notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>) for such a conceptualisation of anthropopsychology or ‘genuinely universal psychology’. The philosophical conceptualisation of stranding is rather ‘notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> disambiguation’ which serves to avoid the supplanting—conviction—as-to-profound-supererogation—of—‘attendant—intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism reflex or prelogic-reflex-admittance-reflex or in-phase-reflex (instead of rightly aligning by the dialectically—or—contendingly-out-of-phase reflex or transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif—and-apriorising/axiomatising/referencing’ reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their

De-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) can be implied as mental-devising-representation across all registry-worldviews/dimensions not withstanding any registry-worldview’s/dimension’s illusion-of-the-present/present-consciousness mental-devising-representation, and so, by accounting anticipatorily and preemptively for the registry-worldview’s/dimension’s perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supерerogation-of-its-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation whether a retrospective, present or prospective registry-worldview/dimension. Hence the need for ‘collapsing’/overriding of the transcended registry-worldview’s/dimension’s institutionalisation reference-of-thought-category-imperatives/axioms/registry-teleology with prospective transcending/superseding reference-of-thought-category-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation in anticipation and preemption as untenability/internal-contradiction/internal-incoherence/institutional-constraining, as secondnaturing and ‘not as temporal-dispositions transformation’ to wrongly imply a universal dimensionality-of-sublimating ⟨amplituding/formative⟩supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ human predisposition. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decaned is not recognised by the non-positivism/medievalism mindset/reference-of-thought by its syncretic reflex to be functionally in its mental

of arithmetic cannot be undermined in any way possible and you then have the possibility of
sound arithmetic thereafter). de-mentation—<supererogatory—ontological—de-mentation-or-
dialectical—de-mentation—stranding-or-attributive-dialectics> prevents temporal-dispositions
(in the articulation and re-articulation of narratives) by the ‘temporal-dispositions
disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-
articulated are of intemporal-disposition teleology hence wrongly implying candored and
straightness, whereas these are in effect <amplituding/formative—epistemicity>totalising—self-
referencing-syncretising/circularity/interiorising/akrasiatic-drag iterating narratives of
temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-
temporal-dispositions-defect/preconverging-or-dementing—apriorising-psychologism (the-
perversion-of-the—categorical-imperatives/axioms/registry-teleology—for-intemporal-
preservation-entropy-or-contiguity—or—ontological-preservation) and avoiding setting-aside
which rather involves glossing-over-temporal-dispositions-defect/preconverging-or-
dementing—apriorising-psychologism (the-perversion-of-the—categorical-
imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation). This ensures in effect ‘the de-mentation—<supererogatory—ontological—de-mentation-or-dialectical—de-mentation—stranding-or-
attributive-dialectics>, in a contiguity of increasing ontological-normalcy/postconvergence’.

Ontology is an altogether coherent construct with no room for excepting from coherence, which
then simply implies the superseding of any such pretence of an excepting. (For instance, we can
be calculating the sum \((5 * 5) + 5 - 5\), and make the mistake to say \(5 * 5 = 24\) but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24.

This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or preconverging-or-dementing\(^{19}\)-apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> or<bramplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or<brnotional-discontiguity/epistemic-discontiguity>-<shallow-supererogation>of-mentally-aestheticised-preconverging/dementing–qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity ) is highly prevalent in the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology } of society as social-aggregation-enabling, the reason we strive to formalise whether in terms–as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn’t adjust to man and it is man that adjusts to reality. The \(^{20}\)-de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics),-in-a-contiguity-of-increasing-ontological-normalcy/postconvergence implies that an interlocutor’s retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>- speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>- meaning as
straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/loblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, (de-mentioning (supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or-attributive-dialectics) ensure an affixing of temporal-dispositions perversion-of-reference-of-thought—perversion-of-reference-of-thought—perversion-of-reference-of-thought—perversion-of-reference-of-thought—mindsets in their ontological-escalation/aetiologisation without letting for a disjunction/overriding into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding (‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with the new prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation of a non-positivism/medievalism mindset/reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of notional—firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ as ontological-escalation/aetiologisation that speaks to metaphorically—a-million-and-one-instances-and-
locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/reference-of-thought by way of de-mentation-supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics from the intemporal positivistic mindset, and upholding such the ‘disambiguation of notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that collapses/overrides the non-positivism/medievalism mindset/reference-of-thought crossgenerationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of non-positivistic registry-worldviews in the th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality). Stranding is validated by the fact that transcendental/transdimensional/interdimensional/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as dimensionality-of-sublimating—"<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or—"
conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation); and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/utters the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/utters our thinking or not of it! Thus de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework\{ and positive-opportunism\} as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} articulates temporal-dispositions teleologies orientations as ‘subknowledging\{mimicking/mental-perversions/slantedness manifestations at that ‘uninstitutionalised-threshold\{’, i.e. the \{reference-of-thought\{categorical-imperatives/axioms/registry-teleology\{, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-preservation-entropy’ supposedly they are supposed to uphold). Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of in preconverging-or-dementing–apriorising-psychologism–<stranded-as-rightfully-
oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> as it wrongly implies that temporal-dispositions pereversion-of reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of their dimension’s/registry worldview’s reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality/longness instead preserving prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness-and-teleology towards the ‘institutionalisation/intemporalisation percolation-channelling-in-deferential-formalisation-transference’ as secondnaturing of the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (as to intemporal project) will not engage in a direct logical convincing with the non-positivisitic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology. Rather the positivistic mindset/reference-of-thought will project the new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivism (as rational-empiricism/positivising basis of
reasoning) through positivism institutionalisation/intemporalisation percolation-channelling-

the relative sublimating efficiency and positive-opportunism\(^1\) of a positivism-based rule of
law, social organisation, polity, nation-building, etc. based on positivism axioms and which
inherent effectiveness and supersedingness/transcendence breaks the non-

abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading
doesn’t allow reflexively. The
‘transcendental/transdimensional/interdimensional\(^4\) maximalising-recomposuring-for-relative-

syncretises in operating those same \(^4\) reference-of-thought–categorical-

intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it’s reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation at its uninstitutionalised-threshold. The reason for the human ‘transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation complex-of-stranding’ is that a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn’t have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own <amplituding/formative–epistemicity> as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought—supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding—or-attributive-dialectics as to elucidation-and-superseding-of-its-perversion-of-reference-of-thought—supererogation,–as-to-preconverging-or-dementing—apriorising-psychologism to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding—its ‘own homework’ for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure—}}
historicality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism’> ontological-contiguity—of-the-human-institutionalisation-process! As an anthropopsychological disposition, rational-realism as notional–deprocrypticism just like all successive transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Such a rational-realism as notional–deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which involves de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by decandoring/oblongating (representation of perversion-of reference-of-
thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing-apriorising-psychologism-stranded-as-rightfully-oblengated/decandored-and-dialectically-or-contendingly-out-of-phase) on the basis of the veridicality of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence—existentialism-form-factor rationally, and ontologically represents the social-construct (as validated by the ‘shifting relation of social conventioning and purist ontology’) as being in effect ‘a highly cohesive postconverging—de-mentating/structuring/paradigming’ at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation but ‘a poorly cohesive extricatory preconverging—de-mentating/structuring/paradigming’ at uninstitutionalised-threshold. The notion of the social-construct as intemporal/ontological/social/species/universal/transcendental maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a notional—firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective-ontological-normalcy/postconvergence human reality, and thus the need for institutionalisation to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) towards intemporality/intemporal-preservation as human secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism as notional—deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-
reflexivity in existence as ontological (so-reflecting disposifiedness-(as-to-orientation/value-construct/valuation–and–derived-parameterising) and entailment-(as-to-totalising-contiguous/coherent–factuality-of-variability))’ and so as to the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility-(imbued-and-‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–apriorising/re-axiomatising/re-referencing~conceptualisation)), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality, and hence compromise ontology), but rather to aspire for a transversality–of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence> at uninstitutionalised-threshold). That is, knowledge-notionalisation involving grasping and understanding both the ignorances/desublimation/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding–<as-of-apriorising/axiomatising/referencing> to understand or overlooking the ignorances/desublimation/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge–(preconverging-or-dementing–as-if-of-sound-knowledge)/mimick-and-syncretise at uninstitutionalised-threshold with the dialectical
consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’¹⁰² and not nested-congruence to uphold intemporality⁵², and hence a complete ontology. To put it in other terms, for instance, transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’¹⁰² of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’¹⁰² among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating/supererogatory–de-mentativity) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating/supererogatory–de-mentativity, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality⁵²/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism⁷⁸–slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of “reference-of-thought” devolving ontological-performance⁷⁷–<including-virtue-as-ontology>. * It should be noted that in “de-mentation” (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics), -in-a-contiguity-of-increasing-ontological-normalcy/postconvergence
dialecticism of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity
involving the transcended and the transcending dimensions, the terms highlighting the
transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-
primitive, etc. (as to its superseded Being-development/ontological-framework-expansion–as-
do not carry the same connotation as a shallower temporal analysis intradimensional to the
transcended dimension (as to its given institutional-development–as-to-social-function-
development and living-development–as-to-personality-development so-referenced to its given
Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–meaningfulness-and-teleology). The idea is not to idle in
articulating meaningfulness within the dimension in need of transcendence-and-
sublimity/sublimation/supererogatory–de-mentativity. For instance, a positive mind’s
articulation of defective meaningfulness in non-positivism/medievalism registry-
worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in
terms–as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful
purposefulness but rather to project a positivistic worldview’s transcendentental meaningful
purposefulness. In that sense, actually for the social scientist and philosopher words like
dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the
ordinary and temporal connotations of stigmatising under a temporal extricatory
preconverging–de-mentating/structuring/paradigming. Rather, these are critical and actively
sought after notions that provide the ‘dialectical backdrop’ for enabling prospective
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by psychoanalytic-
unshackling/memetic-reordering/institutional-recomposuring. The idea is that these notions are
veridically dialectical notions that apply in all transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity unlike a simplistic ‘history fixating conceptualisation’ will have. In other words, our non-positivism/medievalism ancestors’ possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a notional~deprocrypticism institutionalisation/intemporalisation with respect to procrypticism.

In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are ‘capacity-wise same’ as per notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> going by a preconverging/postconverging–de-mentating/structuring/paradigming of mentation-capacity (shortness-of-register-of—meaningfulness-and-teleology to longness-of-register-of—meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure-⟨as-to–historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–`epistemicity-relativism'>⟩ process. Ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving ‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> accountability’ beyond an ‘idle temporal-dispositions
stigmatisation’. In that spirit, it can be reasoned that the intradimensional ‘ontological blindspot’ in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought-devolving ontological-performance<including-virtue-as-ontology> conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing–apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not veridical but perverted and requiring transcendence-and-sublimity/sublimation/akrasiatic-drag in meaning’ in a logical engagement with it from an intemporal/ontological perspective (of ontological-normalcy/postconvergence), as it is rather in perversion-and-derived-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-

Instead this requires a transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ (due to the dialectically-out-of-phasing/unsoundness-or-ontological-bad-faith/inauthenticity of reference-of-thought/preconverging-or-dementing–apriorising-psychologismness with regards to the veridical ontology of temporal-dispositions registries); wherein the intemporal-disposition (which is ontological) doesn’t recognise nor acquiesce to the implied–logical-dueness-or-implied-scape and subsequent apriorising–registry-elements of implied-profile-or-implied-stature, implied-presumptuousness-or-implied-arrogation, implied-assumptions, implied-value-reference and implied-teleology projected by the temporal-dispositions, but rather advances that there is perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> requiring a transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, there is no possible logical engagement but rather a transversality~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ between the recurrent-utter-institutionalised and base-institutionalised mindsets/references-of-thought, likewise between the ununiversalised and universalised mindsets/references-of-thought, non-positivism/medievalism and positivistic mindsets/references-of-thought, and prospectively procrypticism and notional~deprocrypticism mindsets/references-of-thought. In this regard, the hermeneutic/reprojecting/supererogating/zeroing exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic/reprojecting/supererogating/zeroing design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic/reprojecting/supererogating/zeroing insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of notional–deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Well’s country of the blind preconverging–de-mentating/structuring/paradigming, for instance), or worst still in teleologically-degraded social situations that may be mobbish or genocidal, wherein by our illusion-of-the-present/present-consciousnessas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\(^2\) we apparently demonstrate such qualities but ontologically we aren’t veridically intemporal-preservational? And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold\(^3\) of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrypticism, with their evolving reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^4\) wherein prospective meaningfulness-and-teleology\(^5\) is beyond-the-consciousness-awareness-teleology\(^6\)-in-existential-extrication-as-of-existential-unthought\(^7\). Taken to the bigger registry-worldview/dimension or intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold\(^{03}\) involving the subknowledging /mimicking-and-syncretising of the reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{(0)}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness known as \(^{8}\)proercrypticism–or–disjointedness-as-of–reference-of-thought, calling prospectively for deproercrypticism. Without ‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness’–or-ontological-reprojecting disposition the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\(^{97}\)> (as prior intemporal--reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{(0)}\) to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure–⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–⟨perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism⟩⟩ process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of–reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the \(^{84}\)reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{(100)}\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as \(^1+3=5\), \(^2+5=8\), \(^5+6=12\), etc., the ontological-veridicality/ontological-contiguity\(^{67}\) of \(^{84}\)reference-of-thought (from ontological-
normalcy/postconvergence epistemic/notional~projective-perspective) of additionality with regards to this character will always involve as of \(^\text{reference-of-thought--categorical-imperatives/axioms/registry-teleology}^{00}\) that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional \(^\text{reference-of-thought--categorical-imperatives/axioms/registry-teleology}^{00}\) of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework \(^\text{reference-of-thought}^{0}\) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-\(^\text{reference-of-thought}\), and so taking into account the prior mentioned character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-\(^\text{reference-of-thought}\) setup). Naturally, the \(^\text{reference-of-thought--categorical-imperatives/axioms/registry-teleology}^{00}\) setup for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance \(7(\sqrt{64}+3-1)-(6+4-2)÷2\). Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, \(\sqrt{64}=8\) and then addition \(8+3=11\), then subtraction
11-1=10. For the second brackets, addition as 6+4=10, then subtraction as 10-2=8. The division operation then follows with the second brackets result as 8÷2=4. Then the multiplication operation with the first brackets result as 7×10=70. Finally, comes the subtraction with 70-4=66 as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as √64=8, 8+3=12, 12-1=11, for the first brackets, and 6+4=11, 11-2=9, for the second brackets. The division operation with the second brackets yields 9÷2=4.5, and the multiplication operation with the first brackets yields 7×11=77. Finally, subtracting both brackets gives 77-4.5=72.5 as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character have failed ontological-veridical/ontological-contiguity as of their relative-ontological-incompleteness-induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’ <as-to- ‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism’ > (from ontological-normalcy/postconvergence epistemic/notional–projective-perspective), as reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemparal-preservation-entropy-or-contiguity–or–ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as-of-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-

nothing more but human mental inventions (construed by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) for the sake of achieving ontology/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and pertinent in that regard only when not-failing/upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence (implicitd-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>/postdication. Hence the notion of ontological-normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as superseding/preceding over projected amplituding/formative wooden-language-{imbued—temporal—mere-form/virtualities/dereification //akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology } in affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected amplituding/formative wooden-language-{imbued—temporal—mere-form/virtualities/dereification //akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology }). In which case the resolution for the Arithmetic equation (supposedly where A,
Addition, is unamendable due to a condition, will involve the other characters taking cognisance of A’s (Addition’s) condition and adhere to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over projected <amplituding/formative> wooden-language-{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology} in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of—reference-of-thought-as-of-confoundedness' over A’s induced preconverging-or-dementing'—reference/ perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining—as-to-shallow-supererogation'>). Thus the new categorical-imperatives/axiom/registry-teleology'-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of—reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A’s (Addition’s) condition and subtract 1 from it before their operation (whether unconsciously by ignorance, expediently by affordability, and consciously by opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is still in a position to articulate an ontological-normalcy/postconvergence ontological-veridicality/ontological-contiguity of —reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional~projective-perspective) by factoring in all the defects as follows: by reverting all other characters operation up to the point they had to deal with A (Addition) and subtracting 1 from the results at these point before allowing the other characters operations, which then yields the right result. That is 77÷7=11 and 4.5×2=9 as reverting back, then 11-1=10 and 9-1=8 to factor in A’s (Addition’s) additionality defect to
yield the results of the two brackets. Before then letting back the division and multiplication
operations for both brackets respectively, giving \(8 \div 2 = 4\) and \(7 \times 10 = 70\). Finally \(70 - 4 = 66\), giving
the final result that is ontologically-veridical (in ontological-normalcy/postconvergence). So
this approach is the new \(^{10}\) reference-of-thought-\(^{10}\) categorical-imperatives/axioms/registry-
teleology \(^{10}\), for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation
which is ontologically-veridical/of-intrinsic-reality that B should be operating. In the bigger

That being the case, this doesn’t in anyway undermine the intrinsic reality/ontological-veridicality/ reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal to with the need for new requisite 84 reference-of-thought–categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a 75 perversion-of- reference-of-thought<-as-effectively-apriorising-in-

In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> dispositions at
various social roles going from A’s condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an \( \text{de-mentation—(supererogatory—ontological—de-}

The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging-impulse/compulsive-dementing/postlogism in hollow-constituting-<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet maturated, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism-as-of-’ compulsing–nonconviction/madeupness/bottomlining⟩ ⟨‘<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’–of-the–‘attendant–intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant–

absolving/fleeting/escaping-reflex–logic’, to others and from different sets of interlocutors to
others. It is obvious that A’s condition/subknowledging’-impulse/compulsive-dementing
disposition as an adult psychopath isn’t systematic with every interlocutor but rather it arises
only in the face of perceived–social-stake-contention-or-confliction-and-confliction-targets and
furthermore the profoundness of the postlogism’-slantedness manifestation is directly related
to the gravity of the perceived–social-stake-contention-or-confliction the situation and how the
‘evolving social psychopathy situation permits’. Hence the notion of A having an absolute
condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation,
as in reality it is a question of degree and highly circumscribed with the adult psychopath who
needs to have a postlogic-equilibrium that can be socially-functional-and-accordant
, unlike
the dysfunctional child psychopath. This comparison equally articulates the nature of
uninstitutionalised-threshold . Consider B (together with the other BODMAS characters) in
the instance where despite A’s conditions they were to stick to the registry-
worldview’s/dimension’s institutionalisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A’s condition applies, we’ll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 7.5 to by adjusting for A’s condition which is now the reference-of-thought or veridical-thinking-reference-over-preconverging-or-dementing-reference/ontologically-veridical/ontological-contiguity registry-worldview/dimension) is known as de-mentation (supererogatory ontological de-mentation or dialectical de-mentation stranding or attributive dialectics). Even though going by its illusion-of-the-present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold of ontological-thinking (not preconverging-or-dementing –apriorising-psychologism–stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) which is ontologically wrong, just as all synchronising/syncratising illusion-of-the-present/present-consciousness registry-worldviews/dimensions do at their uninstitutionalised-threshold. For instance, the recurrent utter-uninstitutionalisation mindset/reference-of-thought doesn’t think of itself that way but rather as a nondescript/ignorable–void (actually speaking of akrašiatic-drag-denatured-and-preconverging-or-dementing narratives) or a registry-worldview’s or dimension’s ignoring of its prior relative-ontological-incompleteness of reference-of-thought-as-an-

This insights perfectly highlight that our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn’t has any end to itself but for such dialectical readjustments to ontological-veridicality as ‘postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity–of-reference-of-thought/candored-and-dialectically–or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and with superseded/transcended registry-
worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as preconverging-or-dementing—apriorising-psychologism/oblongated/decandored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-accumulation/institutional-recomposure—{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism'>} whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality~of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing” pedestals of meaningfulness. Firstly, A’s condition with respect to additionality with the idea that it is bound to fail any arithmetic calculation involving additionality. Thus the subknowledging -impulse/compulsive-dementing pedestal is of notional-discontiguity/epistemic-discontiguity—<shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema>/non-ontological-and-non-contending-referencing—<thus-ontologically—or-contendingly-reflected-or-perspectivated-as-of-preconverging-or-dementing”—apriorising-psychologism> (not-veridical-thinking-reference-rather-preconverging-or-dementing -reference). logic, from one set-of-postlogic-narratives to the other and one set of interlocutors to the other,
in line with its ‘short cut’ mental relation to meaningfulness as extrinsic-attribution (the
temporal eliciting of the temporality\(^6\)<shortness of others is the sufficient basis for getting one’s
way) as opposed to intrinsic-attribution wherein the intrinsic ontological-veridicality of
meaning is the complete and sufficient basis for its pertinence and upholding. This
subknowledging\(^{10}\)-impulse/compulsive-dementing\(^{10}\) disposition points out that the actual and
given meaningfulness being subknowledged/pervertedly-represented is ontologically-veridical
both registry-wise (soundness-or-ontological-good-faith/authenticity <of< reference-of-
thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it
is intemporally preservational and thus ontologically-veridical/ reference-of-
thought/ontological-contiguity\(^7\). It is this pedestal that is the organic-comprehension-thinking
(organicalism<‘intemporal-prioritisation-of< reference-of-thought’–as-conflatedness’-or-
tonological-reprojecting/longness-of-register-of< meaningfulness-and-teleology\(^{10}\)) pedestal,
organic as it is both registry-wise (soundness-or-ontological-good-faith/authenticity\textsuperscript{19} of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and \textsuperscript{4}amplituding/formative–epistemicity\textsuperscript{19} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A’s condition/subknowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-\textsuperscript{4}as-of-apriorising/axiomatising/referencing\textsuperscript{4} intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A’s condition was appropriate resulting in .5 which is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity\textsuperscript{19}<shallow-supererogation\textsuperscript{9} of-mentally-aestheticised–preconverging/dementing\textsuperscript{19}–qualia-schema’ rather than which is ontologically veridical. This is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{9} as-to–attendant–intradimensional’–prospectively-disontologising–preconverging/dementing\textsuperscript{9}–apriorising–psychologism pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and so fundamentally its logical-contention is voided (as apriorising–registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging -or-mimicking-impulse/compulsive-dementing\textsuperscript{9} registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in \textsuperscript{14}dementation\textsuperscript{9} (supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding–or-attributive-dialectics) at that uninstitutionalised-threshold\textsuperscript{103}. The fourth meaningful
reference is actually a variance of the given organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-an-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiology/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-prime-movers-totalitative-framework construct for the possibility of a conceptual insight and de-mentative/structural/paradigmatic resolution with regards to (at the registry-worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-notional—firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—with-consequential-positivistic-meaningfulness-perversion preconverging-or-dementing—apriorising-psychologism, resolved by deprocrypticism. Comparatively, for instance, articulating new reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to resolve the uninstitutionalised-threshold from to the ontologically-veridical, and so not only with regards to the specific but as a de-mentative/structural/paradigmatic institutionalisation/intemporalisation for perpetuating intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This pedestalled articulation points out that the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-an-reference-of-thought’–as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) pedestal (ontological-veridicality/reference-of-thought) is transversal/transversality—of-affirmative-and-unaффirmative—disambiguated— motif-and-apriorising/axiomatising/referencing and not actually in logical-congruence with both the subknowledging—impulse/compulsive-dementing pedestal (ontological-decandence/non-ontological-reference/non-contending-

towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the
number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ but it is rather temporally-inclined, it might equally take the easier route of reasoning in terms-as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-ofmeaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won’t be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolutive construal of their corresponding postlogism-as-of-compulsing-nonconviction/madeupness/bottomlining (‘<decontextualising/de-existentialising-of-attendant-intradimensional–apriorising/axiomatising/referencing>–induced-disontologising’-of-the- ‘attendant-intradimensional–ontologising’–imbued–<contextualising/existentialising–attendant-

of the phenomenon as varied temporal-dispositions come into the frame and are equally
elicited. But then that is an inevitability with respect to the more critical [universal projection
low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature
of postlogic ! perversion-of-! reference-of-thought-<as-effectively-apriorising-in-

affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-

the subject of contention and aetiologisation/ontological-escalation of the organic-
comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-
conflatedness –or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-

reflected/perspectivated as ! de-mentation–(supererogatory–ontological–de-mentation-or-
dialectical–de-mentation—stranding-or-attributive-dialectics). The critical reason for this is that
the intemporal-disposition is rather inclined to be utter about intemporal-preservation-entropy-
or-contiguity–or–ontological-preservation as the complete and sufficient stand for knowledge
and virtue with anything else being denaturing much in parallel as intrinsic-reality
transcendental-enabling/sublimating/supererogatory–de-mentativity doesn’t accommodate

This can further be elucidated analysing perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{1} of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to notional-deprocrypticism and procrypticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging\textsuperscript{2}/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{1} as-of-unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{3} of-reference-of-thought/preconverging-or-dementing—apriorising-psychologism based on the fact that such societies didn’t develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought-categorical-imperatives/axioms/registry-teleology\textsuperscript{4}—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as modern-day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the ‘disambiguation of notional-firstnaturedness—temporal-to-intemporal-dispositions-so-construed-as-from-perspective—ontological-
normalcy/postconvergence> as ontological-escalation/aetiologisation’ above, where supposed
an intemporal mindset/ reference-of-thought who is in a non-positivism/medievalism society
was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of
a pathological-condition/subknowledging\footnote{-impulse/compulsive-dementing} and who
obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound
and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated
veridically. The disposition to accuse people of witchcraft will be the subknowledging\footnote{-impulse/compulsive-dementing} pedestal. The disposition to entertain and further exploit such
situations (as anthropologists perfectly understand the abhorrent role of such notions as
witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism
societies) in conjugation of temporal-dispositions that are universally-recurrent or
universal across all times (postlogism\footnote{slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation}) is the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing \footnote{apriorising-psychologism} pedestal which is rather an extricatory preconverging–de-

the idea that the notion of witchcraft is bogus, with corresponding lack of perceived
untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a
notion, thus a collective-consciousness that doesn’t register it as preconverging-or-dementing
–apriorising-psychologism (as we do today) and finally, no ontological alienating reason for not
believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-’ reference-of-thought’–as-conflatedness’–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’/9) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought–categorical-imperatives/axioms/registry-teleology/9,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the non-positivism/medievalism registry-worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not only the ‘one locale accusation of witchcraft, specifically so with this individual but its general integration as a socially viable and entertained notion in this locale’. But more critically, from its intemporal/ontological/social/species/9-universal/transcendental/9-maximalising-recomposuring-for-relative-ontological-completeness/9—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigmning to be intemporally-preservational, more than the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the intemporal mindset/’reference-of-thought in organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of-’ reference-of-thought’–as-conflatedness’–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology’/9) the problem is now the insight about the intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications across all societies of the human species qualified as non-positivism/medievalism, with the bigger ontological implications of this specific accusation rather being how is this enlightening de-mentatively/structurally/paradigmatically about the endemisation and enculturation of vices-and-impediments/9 associated with superstition in the said registry-worldview/dimension. That is, the problem is now about the aetiologisation/ontological-escalation that can be made to address such lack of positivistic
empirical and rational notions in all possible human societies qualified as non-positivism/medievalism. In other words, the graver ‘de-mentation’ (supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) problem’ for the organic-comprehension-thinking (organalism/‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology)‘intemporal-prioritisation-of—reference-of-thought’—as-conflatedness—ontological-reprojecting pedestal is ‘why is society non-positivism/medievalism, and it is not in ‘mentation equivalence’ with a subknowledging—impulse/compulsive-dementing mindset/ reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to—‘attendant-intradimensional’—prospectively—disontologising—preconverging/dementing—apriorising-psychologism>/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/ reference-of-thought is thus anecdotally ‘boxing far below its weight’). Rather it is about articulating a comprehensive de-mentative/structural/paradigmatic dialecticism reasoning-through/utterion (not reasoning—with incrementality—in-relative-ontological-incompleteness)—enframed-conceptualisation with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the ‘de-mentative/structural/paradigmatic resolution’ to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall de-
mentative/structural/paradigmatic causality-as-to-projective-totalitative-implications-of-prospective nonpresencing,-for-explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological ‘terms of reasoning’ of the subknowledging impulse/compulsive-dementing pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing apriorising-psychologismly striving to establish whether the accused is involved in witchcraft; the ‘terms of reasoning’ of the threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism pedestal is a wrong and naïve ‘mentation equivalence’ in preconverging-or-dementing apriorising-psychologismly striving to establish and examine whether the accusation of witchcraft is true or not, with all the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicalism/intemporal-prioritisation-of-reference-of-thought-as-conflatedness-or-ontological-reprojecting/longness-of-register-of-meaningfulness-and-teleology) will be to be dismissive of the two prior pedestals as in de-mentation (supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) and of preconverging-or-dementing apriorising-psychologism stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> since in reality the elements of their apriorising-registry are perverted (implied–logical-dueness –as to accusation of witchcraft, implied-profile, implied-presumptuousness/arrogation, implied-assumptions, implied-value-reference and implied-teleology), and the issue will rather be about reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of a registry-
worldview/dimension that endemises and enculturates the belief in superstition and witchcraft for a de-mentative/structural/paradigmatic resolution as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically preconverging-or-dementing—apriorising-psychologism as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically-or-contendingly-out-of-phase and <amplituding/formative-epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.

dialectical–de-mentation—stranding-or-attributive-dialectics of (superseded registry/registry-worldview-or-dimension) mental-devising-representation as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (preconverging-or-dementing–apriorising-psychologism) and (superseding registry/registry-worldview-or-dimension) mental-devising-representation as straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or-ontological-reprojecting with respect to circumventive/distractive-temporal-prioritisation-of–reference-of-thought as the former is ‘utter’ intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (and thus the requisite reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in order to arrive at /intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of–reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as per percolation-channelling.<in-deferential-formalisation-transference> and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturing (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/solipsistic–point-of-temporal-thresholding).

Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of–reference-of-thought will very well do with an outcome (other than its inherent intemporal-
uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, procrypticism—or—disjointedness-as-of-reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as postconverging-or-dialectical-thinking—apriorising-psychologism—of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the intemporal-disposition apriorising—registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)! It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing—registry’s, or in the bigger picture, registry-worldview’s/dimension’s—reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising—registry’s or registry-worldview’s/dimension’s—reference-of-thought—de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) preconverging—or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> (as it is ‘devoid of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistemic-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of—reference-of-thought—<as-effectively-apriorising-in—

(supererogatory-ontological—de-mention-or-dialectical—de-mention—stranding-or-attributive-dialectics) as such redefines psychology as a postdicatory science (tying the mental-
devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-
preservation-entropy-or-contiguity—or—ontological-preservation). 

(supererogatory-ontological—de-mention-or-dialectical—de-mention—stranding-or-attributive-dialectics) as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-
iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity—unenframed-conceptualisation as enabled by de-
mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentionation—or-attributive-dialectics) in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness of reference-of-thought and relative-ontological-completeness of reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity of reference-of-thought and relative-ontological-completeness of reference-of-thought. The implication is that soundness-or-ontological-good-faith/authenticity of reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology, for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (preconverging-or-dementing apriorising-psychologism). At which point, implying the conceptualisation of such an ontological-mental-pathology or de-mentation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology as to ontological-normalcy/postconvergence). But then, crazy as it may seem, this extends ontological-mental-pathology or de-mentation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence-and-

Fundamentally, without the possibility of de-mentativity-of-the-human-psyche-for-prospective-institutionalisation involving de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics), no registry-
worldview/dimension will be transcendable (hence de-mentable/as-to-a-threshold-of-lack-of-thinking) for prospective institutionalisation. As it is from de-mentation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology is possible. This is because de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such allows for a ‘human mentation capacity renewal’ by transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence-and-sublimity/sublimation/supererogatory–de-mentativity occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dements the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought but preconverging-or-dementing–apriorising-psychologism and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively postconverging-or-dialectical-thinking–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-
worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism/dialectically-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism in a \textsuperscript{19}de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) wherein its mental-devising-representation is preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism as not thinking/unsoundness-or-ontological-bad-faith/inauthenticity \textsuperscript{64}of reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is postconverging-or-dialectical-thinking\textsuperscript{20}–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity \textsuperscript{69}of reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter \textsuperscript{84}reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing -reference)’ over the former which is ‘no longer \textsuperscript{84}reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-ontological-good-faith/authenticity \textsuperscript{84}of reference-of-thought today but rather ontologically-preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism’. This dialectical conceptualisation equally applies regarding procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–\textsuperscript{56}meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–depicrocrypticism registry-worldviews/dimensions. In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding-<as-of-apriorising/axiomatising/referencing> intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{09},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (i.e. \textsuperscript{14}de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics), \textsuperscript{75}perversion-of\textsuperscript{84} reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation\textsuperscript{97}<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism>, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, subknowledge\textsuperscript{95}-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging\textsuperscript{95}-normalcy’ (epistemic-totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as de-mentation\langle supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\rangle does as it further induces ‘transdimensional or memetic thinking’ by its implied de-mentation\langle supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\rangle in meeting up with ‘ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). For instance, while the term registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{103}–defect-<as-Being-or-ontological-or-existential–defect>\textsuperscript{103}, brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of de-mentation\langle supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\rangle that carries the intuition of an uninstitutionalised-threshold\textsuperscript{103}, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{103}–
defect-<as-Being-or-ontological-or-existential–defect>” term thereafter, we grasp that it is the ‘<amplituding/formative–epistemicity>totalising~self-referencing-syncretising’ in ‘notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation>-of-mentally-aestheticised–preconverging/dementing–qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of the perversion-of-<reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as to preconverging-or-dementing –apriorising-psychologism’ that makes it registry-worldview’s/dimension’s-uninstitutionalised-threshold 0→defect-<as-Being-or-ontological-or-existential–defect>→ (and not about defect–of- logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation→) and this carries the implications of a registry-worldview/dimension defining defect (in a dialectics of prior/transcended/superseded and prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology→for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Specifically, de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as such implies registry-worldview’s/dimension’s-uninstitutionalised-threshold→defect-<as-Being-or-ontological-or-existential–defect>→/not-just-a-logical-processing-or-an-implicitation-of-act-execution-or-a-implicitation-of-notation-of-agreement-or-disagreement-defect’ wherein we can perceive the complete picture of a registry-worldview/dimension defect by its relative-ontological-incompleteness→-induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation→<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising-psychologism>’ like recurrent-utter-uninstitutionalisation (with respect to base-institutionalisation), ununiversalisation (with respect to universalisation), non-positivism/medievalism (with respect to positivism) and our own
categorical-imperatives/axioms/registry-teleology\textsuperscript{(0)} considered circumventive/distractive-temporal-prioritisation-of-\textsuperscript{2} reference-of-thought over inherent ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{'}-or-ontological-reprojecting of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; at which point of uninstitutionalised-threshold\textsuperscript{(0)}, de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} is implied (in organic-comprehension-thinking over mechanical comprehension or as a \textsuperscript{1} de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\}) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{'}-or-ontological-reprojecting that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distractive-temporal-prioritisation-of-reference-of-thought. That is \textsuperscript{1} de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} is effectively the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic-reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence-and-sublimity/sublimation/supererogatory–dementativity, the ‘giving-in’/collapsing of the mental-devising-representation of successive institutional-cumulation/institutional-recomposure\{as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>\} mindsets, notwithstanding the fact that the \textsuperscript{1} de-mentation\{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics\} (of their \textsuperscript{84} reference-of-thought–\textsuperscript{5} categorical-imperatives/axioms/registry-teleology\textsuperscript{(0)}, for intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their intemperality/temperality–apriorising-ontological–de-mentation–stranding-or-attributive-dialectics. Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrypticism and prospectively perpetuation-of-deprocrypticism) is as de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics); and this thus predicates or rather postdicates as well our own registry-worldview/dimension de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) over and as denaturing positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procrypticism) and implying a prospective need for deprocrypticm. Postdication, when alluding to an (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a preconverging-or-dementing–apriorising-psychologism social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-
perspective–ontological-normalcy/postconvergence>, from a prospective registry-worldview’s/dimension’s reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced/registered/decisioned (as reference-of-thought) but ‘dialectically preconverging-or-dementing’–apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought’ while the prospective/transcending/superseding registry-worldview/dimension is referenced/registered/decisioned (as reference-of-thought) as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism/soundness-or-ontological-good-faith/authenticity-of-reference-of-thought’ in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distraactive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing-reference) can only be the pedestalling of an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting as ontology with regards to apriorising–registry, contrasted to a circumventive/distraactive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-
attributive-dialectics). Where the natural world is resolute with no compromise with the operation of such a notion as 1+1=2, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions 1+1 will add up to 5 where the effective constraining of institutionalisation is lacking. (supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-preconverging-or-dementing -reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment 'by re-institutionalisation with new reference-of-thought– categorical-imperatives/axioms/registry-teleology', for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an (supererogatory–ontological–de-mention-or-dialectical–de-mention—stranding-or-attributive-dialectics) of transcended reference-of-thought– categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in our present case, notional–deprocrypticism of procrypticism–or–disjointedness-as-of-reference-of-thought, for a de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential; just as positivism is the de-mentative/structural/paradigmatic resolution of defective-issues or vices-and-impediments of non-positivism/medievalism together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance—<including-virtue-as-
ontology> conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately universalising and detached meaningfulness by percolation-channelling-<in-deferential-formalisation-transference>’ as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendency of many a social outlying thoughts and meaningfulness which from a ‘purely mobbish social disposition’ as may arise in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to- meaningfulness-and-teleology) would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from procrypticism to notional–deprocrypticism as the de-mentative/structural/paradigmatic and general resolution of the vices-and-impediments together with the de-mentatively/structurally/paradigmatically inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-superreration> > as to preconverging-or-dementing–apriorising-psychologism of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging/perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-superreration> >) may be to think, given our own illusion-of-the-present/present-consciousnessas<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag, that such an analysis applies only to prior institutional-cumulation/institutional-recomposure{(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism>)}. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied
existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that ‘gives-in’ with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimension transcendental postconverging–dementating/structuring/paradigming shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendence-and-sublimity/sublimation/superroratory–de-mentativity meet with some resistance or the other and thus a reason for transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation
postconverging–de-mentating/structuring/paradigming are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling—<in-deferential-formalisation-transference> wherein for instance, the de-mentative/structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality/longness as potentially of universal import and at the same time disposed occasionally to advanced their temporality, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising supplanting–conviction-as-to-profound-supererogation—of—attendant-intradimensional—postconverging/dialectical-thinking—apriorising-psychologism from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this? From an intemporal hence ontological depth-of-meaningfulness,
precedingly supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is the reason for human registry-worldview/dimension perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defect at uninstitutionalised-threshold, implying that ‘ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation beyond the defective ‘intradimensional-subknowledging-normalcy or reflex-normalcy’ which is rather an amplituding/formative–epistemicity-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procripticism–or–disjointedness-as-of-reference-of-thought with the need for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as deprocripticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging-normalcy in lieu of the ‘ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-
the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-
recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-
deepening\textsuperscript{53}-threshold (uninstitutionalised-threshold\textsuperscript{103}). This is brought to the collective-
consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it
renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the
grander individual-and-social good as positive-opportunism\textsuperscript{76}. For instance, achieving base-
institutionalisation requires that it should be brought to the collective-consciousness that it is
‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander
individual-and-social good as positive-opportunism\textsuperscript{76}. Once this enters the collective-
consciousness this leads to an inclination for a renewed psychoanalytic-unshackling/memetic-
reordering/institutional-recomposuring wherein recurrent-utter-uninstitutionalisation registry-
worldview then becomes preconverging-or-dementing –apriorising-psychologism-<stranded-
as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>, as it is
recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-
in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the
existential implications to survival-and-flourishing with the lower institutional-
cumulation/institutional-recomposure-{as-to historiality/ontological-
eventfulness }/ontological-aesthetic-tracing-<perspective–ontological-
normalcy/postconvergence-reflected-‘epistemicity-relativism’} of base-institutionalisation,
universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be
placed on the abstract percolation-channelling-<in-deferential-formalisation-transference> as
setup from positive-opportunism\textsuperscript{76} for survival-and-flourishing, just as with the positivistic
registry-worldview which as well is relatively deferential with percolation-channelling-<in-
deferential-formalisation-transference> (undermining <amplituding/formative> wooden-
language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of—}}
meaningfulness-and-teleology -as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulation/institutional-recompose-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’⟩}, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality,{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to- meaningfulness-and-teleology }; all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of–meaningfulness-and-teleology (°)) over temporal-dispositions (shortness-of-register-of–meaningfulness-and-teleology (°)) as percolation-channelling-<in-deferential-formalisation-transference> not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality\{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to– meaningfulness-and-teleology \} with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality’-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the-Good/understanding/knowledge-reification\{ontological-primemovers-totalitative-framework\} to construe knowledge and virtue conceptualisations as this is what proxies/synces-with
intrinsic-reality and hence their effective potency while on the other hand informal settings tend
more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound
appropriate in their \( \text{amplituding/formative–epistemicity} \text{totalising–self-referencing-}

human emancipation requiring prospective positivism with its corresponding \( \text{de-mentation}

intemporal/ontological disposition (longness-of-register-of—meaningfulness-and-teleology\(^{(10)}\)),
that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the
