Besides and together with a study of the social sciences and philosophy, this author’s intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from ‘an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning’, a ‘craft’ that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of ‘philosophical questioning and discourse’ at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less ‘consummate with respect to the personal orientation they give to their arts’. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!
Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal persuasion that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn’t supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a
hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician’s hermeneutic/reprojecting/supererogating/zeroing insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn’t be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as ‘a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward’, more like a song is a coherent referential whole beyond just naïve categories of disjointing/disparateness/disentailing percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song). As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while
many, if not most, of my arguments may be more or less ‘plainly intelligible’, I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does! In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not de-mentatively/structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing\textsuperscript{15}\textsuperscript{<amplituding/formative>} wooden-language-(imbued-\textsuperscript{temporal}- mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing - narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry- teleology } stifling prospective possibilities, thus requiring prospective fundamental reconception. mentativeness/epistemic-growth-or-conflatedness /transvaluative rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\) as ‘knowledge becomes increasingly mechanical’ and is rather a secondary and derivational tool for temporal self-serving posturing and is poorly perceived as worthy in of itself but for the imprimaturing so projected and the perceived temporal social-value arising with such imprimaturing and as it is increasingly associated with generalised incuriosity in genuine intellectual development and the substituting of mere imprimatur totalisingly-disentailing—discretion/whim-of-thought over genuine knowledge-reification\(^7\) as to existence-potency\(^7\)–sublimating–nascence,-disclosed-from-prospective-epistemic-digression. This has developed in our present age of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation–{blurring/undermining-of-prospective-totalising-entailing,–as-to-entailing–}<amplituding/formative–epistemicity>totalising~in-relative-ontological completeness} into the absurdity/ridiculousness of pop-intellectualism substituting for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-

As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency—sublimating—nascence,—disclosed-from-prospective-epistemic-digression as to immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for ‘genuine intellection’ not to recognise what is going on as to imply that it is veridically in
dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-as-this only leads to a destructuring-threshold-uninstitutionalised-threshold-presublimating-desublimating-decisionality-ontological-performance-including-virtue-as-ontology-habitation-and-enculturation/endemisation-of-such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-unforegrounding-disentailment-failing-to-reflect-immanent-ontological-contiguity inclinations that poorly appreciate existence-potency-sublimating-nascence-disclosed-from-prospective-epistemic-digression-implications-of-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a ‘strategic/calculated behaviour of mere power even against genuine knowledge’ which this author intimately construes as a ‘decadent and dangerous conception of knowledge’ that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the ‘root source’ for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-in-dimensionality-of-desublimating-lack-of-amplituding-formative-supererogatory-de-mentativeness/epistemic-growth-or-conflatedness-transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation whether by mystifications-outside-existential-contextualising-contiguity-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-totalising-entailing-implications, denial-of-relativism-thus-foiling/undermining-relative-ontological-completeness

This then provides paradoxically the underlying meaningfulness-and-teleology infrastructure for upholding the status quo and inducing in many ways the impotence of the social sciences in thoroughly addressing human-subpotency—aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint of society that ultimately have serious de-mentative/structural/paradigmatic consequences associated with institutional failures (which such intellectualism is hardly inclined to address). Critically, such a ‘self-contented intellectualism’ increasingly focuses not on knowledge-reification as to existence-potency ~sublimating–nascence, disclosed-from-prospective-epistemic-digression or the critical analysis of such knowledge-reification but in the face of criticism rather consciously substitutes strategies of institutional ascendency as of a strategy of influence by default imprimatur status rather than genuine knowledge-reification pertinence. It will be as naïve as implying the validity of a common basis for doing arithmetic where an interlocutor insists on 2+2 as 5 but when appropriately explained the veridical assumptions of arithmetic goes on to insist 3+3 as 7, speaking not of a fundamental problem of arithmetic operation as of
dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-dueness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of ‘relative-ontological-incompleteness/relative-ontological-completeness’

We can appreciate that while many a subject-matter will often seem to imply that dialogical-
equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notchion-ontological-fideism—imbued-

transparency (transparency-of-totalising-entailing-as-to-entailing- <amplituding/formative–

Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the
natural sciences given its direct universal-transparency (transparency-of-totalising-

ontological-completeness) subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s\(^2\) to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency (transparency-of-totalising-entailing-as-to-entailing- <amplituding/formative–epistemicity>totalising-in-relative-ontological-completeness) as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-
study and that blurred possibility effectively elicits circumstances of disparateness-of-

contingency) as from ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting both human constructiveness-of-ontological-performance
The fact is knowledge-reification is of ‘existential totalising/circumscribing/delineating construal for human limited-mentation-capacity-deepening’ and nothing can be construed in totalisingly-disentailing—discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression over our human-subpotency motives, the same actually do apply in all knowledge-reification and claims of subject-matter specificities (wrongly implying their subontological nature) ‘rather speak of the difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression implications. The fact is the ‘a priori or axiomatic conception’ is effectively what precedes and validates logic as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity, however there is no logical-basis/logic-<as-to—transversality~of-

(In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing \textsuperscript{\textsuperscript{5}} meaningfulness-and-teleology \textsuperscript{\textsuperscript{10}} pretense of being as of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’\textsuperscript{\textsuperscript{7}}’ is effectively central to all prospective

With such teleologically-decadent—as-in-dimensionality-of-desublimating-lack-of
spirit of intellectualism, it can difficultly be fathomed how such a ground-breaking evental-instigation as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as to existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure_{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s wooden-language_{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the- reference-of-thought–categorical-imperatives/axioms/registry-teleology} with asceticism does exist as has existed throughout sublimating
Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-decadent–as-in-dimensionality-of-desublimating-lack-of

like theories die with the passing of their authors as so-implied with regards to many a postmodern scholar, wherein such highbrowning has been surreptitiously inclined to put-up their temporalities/mortalities (notwithstanding that knowledge is as to existence-
potency\textsuperscript{13}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression consequences accruing to the entire humankind) to institutionally and socially undermine prospective knowledge-reification with stooges/foils muddying the ontological-veracity of genuine thought as of its true human emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’ in a distorted conception of intellectualism as a Machiavellian/political exercise rather than the requisite magnanimity of engagement for a genuine knowledge-reification\textsuperscript{87} exercise! Actually the projection of values including intellectual values in such \textless\textit{amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} are often prospectively deficient, given the fact that notions of value are only as pertinent as of their transvaluation implications in relative-ontological-completeness\textsuperscript{88} since the very same conception of value when construed on the basis of relative-ontological-incompleteness \textsuperscript{106}, and so beyond-the-consciousness-awareness-teleology\textsuperscript{100}-\textless\textit{in-existential-extrication-as-of-existential-unthought}\textgreater\ (given that virtue is rather as of the-Good/understanding/knowledge-reification\textsuperscript{87}/ontological-primemovers-totalitative-framework\textsuperscript{73} conceptualisation as to transcendental-enabling/sublimating/supererogatory–de-mentativity and not the vagueness of impression-driven/good-naturedness/wishfulness \textless\textit{amplituding/formative} wooden-language\textsuperscript{8}–\textit{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought– categorical-imperatives/axioms/registry-teleology } in human-subpotency social-aggregation-enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic-philosophers\textsuperscript{104} universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification\textsuperscript{87} requires that we supersede our emotional-
involvement starting with the very intellection striving for such prospective knowledge-reification\(^7\). (In any case, ultimately the reality of human knowledge-reification\(^7\) involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\(^8\) meaningfulness-and-teleology\(^9\), and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\(^3\) to grasp our modern-day conception of say physics given its ‘valuation framework as of its \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag }\) that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification\(^7\) in modern-day physics having to do with theory-of-everything conception arise because of our inappropriately apt supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument\(^3\) as of an occlusive-consciousness\(^8\) reference-of-thought requiring prospective notion–deprocrypticism \(^8\) reference-of-thought de-mentative/structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness’ \(<\text{amplituding/formative–epistemicity}>\text{causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,—for-explicating-ontological-contiguity}\) in apriorising/axiomatising/referencing—conflatedness’ herein implied as ontological-primemovers-totalitative-framework\(^7\) involving a ‘direct bilateral relationship of appropriate
construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness\textsuperscript{27} as implied prospectively in ‘construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination\textsuperscript{27} and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination\textsuperscript{27}’), and we can better understand as such why underlying confliction arises with all registry-worldviews/dimensions transcendence-and-sublimity/sublimation/supererogatory–de-mentativity because these involve human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint transvaluation as putting in question the old valuation, and in this regards the transcendental/transvaluating conception is universally existential and cannot be just about the physical world without social world implications and vice-versa as so-underlined with the fact that both are for-human-studies/for-human-constructs by the underlying fact that these are the very same human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-paintelligibility--(imbued-and-

possibility for the further advancement of such material sciences arises from the effectively 
enabling social-values like freedom-of-speech, opened communication, etc. availing as of the

construction-of-the-Self and its given registry-worldview/dimension reference-of-thought–
and–reference-of-thought- devolving–meaningfulness-and-teleology overall de-
and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in ‘affirmation/projection by its underlying supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness-of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ to the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of dimensionality-of-sublimating ⟨amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’.

And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

it is critical to distinguish between the notion of slanting (cinglé in French) as postlogism-as-of-compulsion–nonconviction/madeupness/bottomlining—

we ‘consistently’ have two sets of mental-dispositions having to do with the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence—\(\langle \text{implicated-nondescript/ignorable–void~as-to-presencing—absolutising-identitive-constitutedness}\rangle\) and metaphysics-of-absence—\(\langle \text{implicated-epistemic-veracity-of-nonpresencing~perspective–ontological-normalcy/postconvergence}\rangle\) representations

rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural~psychological-dynamics’)

wrongly elevate psychopathic meaningfulness-and-teleology as of veridical ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic meaningfulness-and-teleology’

The underlying fact about meaningfulness-and-teleology is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic

‘social protraction of psychopathy across individuals and society’

The suspected psychosomatic basis for the psychopath to be slanted/’cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonante)’ as opposed to a logical motivation of a supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’~postconverging/dialectical-thinking–apriorising-psychologism or prelogic mental-disposition

‘mental roaming/drifting-cycle disposition known as postlogism-retreating’

‘mere-formulaic constrained/unconstrained perception and relation to meaningfulness-and-teleology’
social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of notional–procrpticism/notional-disjointedness-as-of-reference-of-thought

the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributable essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction

mechanism for psychopathic and postlogic slantedness is relayed to apparently sound supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism interlocutors, and so along five factors

psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels

‘institutionalisation intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic/reprojecting/supererogating/zeroing psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’

transcendental analysis (institutional-cumulation/institutional-recompose<as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>) analysis) is not, as may wrongly

why the different registry-worldviews/dimensions are seemingly preconverging-or-dementing–apriorising-psychologism with respect to one another (from the prospective perspectives) ..........2693

human ontological transcendental possibilities arise from human individuations that correspond to the appropriate ‘intemporal-projecting existential becoming’ allowing for such ontological possibilities, and the latter is made possible by the ‘so-renewed apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to renewed
our psychological nature is actually about mental-devising-representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn't have any end to itself but for such dialectical readjustments to ontological-veridicality

when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (as from ontological-normalcy/postconvergence epistemic/notional-projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species)

it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans

the concepts of intemporal-longness and temporaity-shortness is more scientific than the impression notions of good and bad

The use of ‘human mental-dispositions/individuations’ as of notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition as being ontologically-veridical as these conjugate/inflect/protract (in mimicking-protraction)
at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding as of positive-opportunism’

‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>/mental-perversions teleologies of meaning is accounted for

Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of
meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from
supserseding/transcendental categorical-impératives preserving intemporalty) is not necessarily the
deterministic basis for human social adherence to it

an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection
is needed for the social integration of any transcending veridicality postconverging–de-
mentating/structuring/paradigming

‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter
prospective integration in the social-construct is through the former

sublimity/sublimation/supere—de-mentativity to procrypticism-notional–deprocrypticism
transcendence-and-sublimity/sublimation/supere—de-mentativity can be basically be
articulated as follows (the ontological entrapment)

Institutionalisation and formalisation are based exactly on the fact that we don’t have a universal
intemporalty/longness or the-good disposition, but rather according to the mediocrity principle of
science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to
‘socially-perceived-value as of social-stake-contention-or-confliction’

Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic
reality/ontological-veridicality)

By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given
(ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’
(metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic
nature

how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’
which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as
meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-
threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal?

with our human limited-mentation-capacity-deepening, we are actually involved in a 'developmental notional–teleology of ontology' construed as coherent shallow superseding–oneness-of-ontology to coherent deeper superseding–oneness-of-ontology in reflecting holographically–<conjugatively–and-transfusively–> the ontological-contiguity–of-the-human–institutionalisation-process

why spatialisation, indirectness and craftiness are critical to postlogic and conjugated-postlogic mental-dispositions so as to evade their prospective interlocutors 'putting one and one together' as will arise in an existentially veridical context

need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations

The notion of temporality/shortness as actually 'pseuointemporality' provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions

a 'postconverging–or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics' rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology

'increasing relative realism' over the corresponding-successive-prior-uninstitutionalisations–registry-worldviews

'aetiologisation/ontological–escalation storied–construct/ontologically–valid–narration conceptualisation'

inducing uninstitutionalised-threshold, as it is impossible to critically extend ontological–capacity on the basis of the same reference–of–thought/psyche/psychological—dementating/structuring/paradigming but for a new reference–of–thought/psyche/psychological—dementating/structuring/paradigming with respect to existential reality to enable prospective institutionalisation over the uninstitutionalised-threshold
not allowing for the 'breaking of the threadedness/thread of ontologically-veridical meaningfulness (as such a breaking induces virtuality-or-ontologically-flawed-construal leading correspondingly to the false uptake as ontologically-veridical of the wrongly implied soundness/non-perverted-reference-of-thought

a traditional approach of analysis of psychopathy (as so construed from this papers totalising-entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery

humans actually come into existence which avows an existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of imbricated-becoming-transitioning within which they come to grasp rules and principles

knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as to ‘intrinsic-reality/ontological-veridicality transcendental enabling’

virtue is a ‘The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ and not ‘impression-driven/good-naturedness/wishfulness construct’ as reality is above all ‘effectivity’ by its manifestation

ascetic intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value

‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism

‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters (or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least afford to be of normal trade

Existence/existential-reality is thus a teleological-contiguity/oneness-of-teleology ‘with teleological-discretion being defined only by epistemic choice/differentiation’ ..................3366

- ‘Ctrl + Click’ (on any hyperlinked superscript) for the elucidation of the given term
- ‘Alt + Left-Arrow’ to go back to the previous location in the document (that is precisely at the clicked hyperlinked superscript location)
- ‘Alt + Right-Arrow’ to go in the reverse direction again
- Also the darkened text elaborates upon the immediately prior text and is darkened (to point out its interjecting nature) in order to ease the ‘continuity readability’ of long phrases/sentences while at the same time striving herein for ‘a most profound and extended articulation of exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications>’

wherein for instance it is mostly in the last 30-or-so years that astronomy
has arrived at a highly cogent scientific account of astronomical

developments to human health and preservation of life even the most
flimsy statistics are often portrayed as of relevance however the
possibility for pseudo-analysis or later retraction, and generally in this
respect science at its ‘breakthrough-level of scientific accounts’ is rather
of relatively high inexactitude/tolerances as nascent scientific
conceptions even within say the physics domain are contested, with the
critical notion of science-in-practice rather being about ultimate
aspiration to continually converge towards more and more

human limited-mentation-capacity-deepening as to aestheticisation–and–
aestheticisation-towards-ontology necessarily priorly conforms to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation→<as-to-perspective-ontological-normalcy/postconvergence-implied—'prospective-aporeticism—overcoming/unovercoming‘> (and so over any human-subpotency institutionalising conceptions like philosophy and science), and in the bigger picture in this regards the institutionalised conception of philosophy for instance is a distorted Western metaphysics-of-presence—(implicated—'nondescript/ignorable—void—'as—to—presencing—absolutising-identitive-constitutedness) notion of the more universal concept of overall human knowledge (pure and simple), with the flaw that speaking of say non-Western philosophy is a misnomer so-construed as ‘a distorted and undue epistemic intercession of supposed Western philosophy as a reference point of conception into any non-Western society aestheticisation—and—aestheticisation-towards-ontology notion of overall human knowledge’ (as to any such non-Western social dynamics very own originariness—parrhesia,—as—spontaneity—of—aestheticisation inducing of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility—of—aestheticisation as outcome/outfit/shell—construed-historically—as—of—the specifically—aestheticised—incrusting/plating/coating—as—institutionalmanifestation) and furthermore such a misnomer as to its metaphysics—of—presence—(implicated—'nondescript/ignorable—void—'as—to—presencing—absolutising-identitive-constitutedness) seem to supersede the more
fundamental notion of human underlying ontological-commitment\(^{(6)}\) (as instigatively driving the human out of animality) as to the more pivotal/critical human-subpotency \('fatedness-of-sublimation-over-desublimation, to existence-potency \(\sim\) sublimating–nascence, disclosed–from-prospective-epistemic-digression (as reflecting holographically-\(<\text{conjugatively-and-transfusively}>\) the ontological-contiguity \(\sim\) of-the-human-institutionalisation-process beyond any identitive conception as Western or non-Western or even differentiation internal to any such Western conception or non-Western conception), thus overlooking the dynamic underlying human constructive and cultural diffusionary process critically leading to various socialsetups dynamics of relative-ontological-completeness\(^{(2)}\) in renewing of human \('meaningfulness-and-teleology\(^{(10)}\)\), human limited-mentation-capacity-deepening thus implies that ultimately the actual knowledge attitude is that of the creative generation, elucidation and exactifying/precisioning–of-sublimation-\(<\text{as-to-entailing-theoretical,-conceptual-and-operant-implications}>\) of human \('meaningfulness-and-teleology\(^{(10)}\)\) and so as to the requisite originariness-parrhesia,\(\sim\) spontaneity-of-aestheticisation—\(\text{supercrudatory}\) acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation within the artistic framing, philosophical framing or scientific/ontological framing as to their respective aporeticism need for aestheticisation (generativity potential) and/or aestheticisationtowards-ontology (ontological-performance \(\sim\)<including-virtue-as-ontology\(^{(10)}\)> potential), and so as we can appreciate that even the
artistic as to aestheticisation is much more than just mere patterning but ‘a projection of aestheticising depth’ that speaks of its specific generative, elucidative and exactifying/precisioning–of-sublimation-<as-to-entailing-theoretical,-conceptual-and-operant-implications> aspects as to specific human perception of artistic sublimation; and in this regards human limited-mentation-capacity-deepening needs to factor in that much of the institutional confusion associated with the artistic, philosophical and scientific speaks more of ‘presencing—absolutising-identitive-constitutedness’<preconverging~'motif-and-apriorising/axiomatising/referencing ′–imbuing’–existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) conscious and unconscious institutional politics of self-preservation whether from ‘institutionalised philosophy’ or ‘institutionalised science’ as to the overall politicisation of knowledge given that human limited-mentation-capacity warrants human institutional specialisations as subdividing the overall human knowledge aestheticisation–and–aestheticisation-towards-ontology (while factoring that existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism–overcoming/unovercoming’> is not beholdening to any such human-subpotency institutionalising) implying that scientific achievements are de facto philosophical achievements as inherent to the practice of science is notionally/epistemically ‘implicated philosophy’ whether the scientist is
explicitly conscious or not of this such that faced with scientific dilemma some of the most novel philosophies are implicitly articulated in scientific works in need for their philosophical explicitation (as herein explicated as to the fact that nascent-particular/incipient-and-material/technical-sublimations<-blinded-to-their-relative-ontological-completeness> actually point to an overall reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning sublimation as for instance with Newtonian physics pointing to an overall positivism/rational-empiricism reference-of-thought/grandest-axiomatic-construct—as-to-referencing/registering/decisioning), and likewise the scientific methods/methodologies/approaches were developed by philosophers involved in natural philosophy knowledge-reification—gesturing firstly as thought experiments and thereafter articulating effective practical methodologies not because they gave up on natural philosophy but because their normal living experience cognition they used was no longer sufficient for a more profound and creative insight into abstruse phenomenality and so they expanded upon their normal living experience cognition associated with thought experiments to ‘exactifying/precisioning—of-sublimation<-as-to-entailing-theoretical,-conceptual-and-operant-implications> framework of controlled experiences involving control methods’ as extension of their normal living experience cognition into the existentially atypical manifestation of natural phenomena and this is the very true meaning of scientific approaches and methods as not breaking away from philosophising but
rather extension of philosophising into methodologically framed and controlled experiences known as experiments (with the naïve perspectiveless/soulless adoption of methods/methodologies/approaches in many a domain-of-study today by the mere token that this is the practice in the natural sciences losing sight of the underlying and relevant philosophising of such methods/methodologies/approaches as to profound and creative supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument–for–conceptualisation required for the relevant domain-of-study as to reflecting its given epistemic-conception phenomenal/manifest–subpotency (in-transitive-conflatedness – reflexivity, in-the-full-potency-of-existence’s–sublimating–nascence) pertinence to which any such scientific methods/methodologies/approaches are rather subjected); human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification orientation associated with the overall philosophical and exactifying/precisioning–of-sublimation–as-to-entailing-theoretical,-conceptual-and-operant-implications orientation associated with science rather fundamentally speaks to the pre-eminence of their aetiologisation/ontological-escalation purpose so-reflected in the succession of ‘relative-ontological-completeness’—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment)” as
narrowing-down selectivity of the intemporal-disposition as of ontological-pertinence for prospectively secondnatured institutionalisation (as from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought and prospectively deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought) and is thus primarily concerned about human prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and thereof the derived prospective living-development–as-to-personality-development and institutional-development–as-to-social-function-development, so-speaking to a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension epistemic attitude, such that the philosophical nor the scientific cannot be construed as a self-serving conception (as can be so-construed in modern-day psychology individual augmentation/enhancement notion in existential-extrication-as-of-existential-unthought) but rather ‘a self-development conception de-mentatively/structurally/paradigmatically construed in association with the development of a better world as to the selfless notional-asceticism implied’ (with a confusion as of individual augmentation/enhancement rather arising from a misconstrual of the Socratic-philosophers and their successors like stoics and cynics emphasis on self-development as to the fact that their universalising-idealisation as to their given epoch
implied a more fated/precarious/perilous/uncertain world with their notion of self-development implying forming individuals that can face such a world with valour in view to a constructive projection of a better world), and such is the general basis for interpreting philosophical thought as to its specific epochal aporeticism overcoming/unovercoming associated with the corresponding human limited-mentation-capacity and the prospective projective-insights from all such specific aporeticism overcoming/unovercoming concerning their retrospective and prospective implications and is in many ways no different from a cumulative/recomposuring understanding as to scientific aporeticism overcoming/unovercoming reflection of human /historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> while avoiding an epistemically-flawed complex of ‘presencing—absolutising-identitive-constitutedness’ along the same lines human limited-mentation-capacity-deepening as reflecting both overall knowledge-reification orientation further implies that there can’t be any tradition/practice of knowledge that overrides existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as it can be often naively implied in many a blurry and pedantic domain-of-study subject to totalisingly-disentailing—discretion/whim-of-thought with any such orientations claiming to ignore ontological-veracity rather speaking of institutional bankruptcy as to the fact that ‘human-subpotency cannot subject knowledge but is rather subject to knowledge’ such that issues of human ineptness/incapacity arising from disparateness-of-
conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-
‘immanent-ontological-contiguity’> ‘cannot be artificially transformed
and construed as de-mentative/structural/paradigmatic issues of inherent

philosophical knowledge’ (failing to attend to prospective existential
aporeticism overcoming/unovercoming while ‘naively construing of the

reflected in the modern practice of philosophical interpretations in the

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is ‘cinglé’ and is better translated in English as ‘slanted mind’ (in contrast to the straightness/candor/organic-comprehension-thinking of a ‘conviction-as-to-profound-supererogation’ predisposed human mind’ so-reflected as prelogism -as-of-conviction,-in-profound-supererogation -<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> and so-construed as of human candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenonal specificity that is of relevance herein. In other words, ‘the cinglé’ perceives meaning as ‘a hollow mimicking form in-of-itself that determines others behaviour’ in contrast to the normal–as-of-candidity/candour-capacity human relation to meaning as of essence or supplanting–conviction-as-to-profound-supererogation —of–’attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism or prelogism we abide by (and so, even in the case of ‘poor or bad supplanting–conviction-as-to-profound-supererogation —of–’attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism’ or bad prelogism where the bad logic of the prelogism -as-of-conviction,-in-profound-supererogation —<existentially-veridical–’attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> mind operates by an ad-hoc and circumspect exaggeration or omission). In other words, the psychopath manifests postlogism -as-of- compelling–nonconviction/madeupness/bottomlining—(<decontextualising/de-existentialising–of–attendant-intradimensional–apriorising/axiomatising/referencing→-induced-disontologising→of-the→

spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness apriorising/axiomatising/referencing—conflatedness as this inevitably leads to temporal concatenation to intemporality, rather its import lies solely as of solipsistic intemporal projection drive given that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional—conflatedness of notional—deprocrypticism can be reinterpreted operantly as of ‘notional—referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the notional—deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘notional—deprocrypticism referentialism—ontologically-uncompromised-mediating, as-of-conflatedness"
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology^10^.<in-existentialextrication-as-of-existential-unthought> preconverging-or-dementing –apriorising-psychologism’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective ^58^ neuterising construed as of ‘their prior relative-ontological-incompleteness ^89^ of reference-of-thought of ^56^ meaningfulness-and-teleology ^100^’. Neuterising thus refers to human attribution of ^36^ meaningfulness-and-teleology ^100^ as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its ^74^ reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance ^72^.<including-virtue-as-ontology> is relatively ontologically-incomplete/of-ontologically-compromised-mediating, as-of-its-specific-constitutedness ^11^, and so-construed from the apriorising/axiomatising/referencing—conflatedness of notional–deprocrypticmism; thus ^14^ neuterising is specifically ‘a contextually developed perversion-or-derived- perversion-of reference-of-thought<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, that is secondnatured as of its prior relative-ontological-incompleteness ^80^ of reference-of-thought with the consequent implications of relatively defective ^8^ meaningfulness-and-teleology ^100^ ontological-performance ^72^.<including-virtue-as-ontology>. For instance, as of their relative-ontological-incompleteness ^91^ of reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then a prospective relative-ontological-completeness ^89^ of reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on
ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘utter and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to-attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism. This is a most elaborate articulation of ‘neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism–procrypticism and notional–deprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional–referentialism/notional–deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’, failing base-institutionalisation–ununiversalisation existential reference-of-thought next level of neuterising is elicited by its ‘warped-consciousness tendentious—ontologically-compromised-mediating,-as-of-its-specific-constitutedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rulemaking-over-non-rules—apriorising/axiomatising/referencing–

neuterising associated with the various institutionalisations in prior relative-ontological-

Insightfully and counterintuitively for elucidative construal, neuterising as of epistemic-abnormalcy/preconvergence\(^{(7)}\)/relative-ontological-incompleteness\(^{(9)}\)-of- reference-of-thought is rather ‘a derived-construction as deficient of ontological-normalcy/relative-ontological-completeness\(^{(8)}\)-of- reference-of-thought’, as it is the elucidation of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought as truly reflecting intrinsic-reality/ontological-veridicality, whether we are aware of it as of postconverging-or-dialectical-thinking –apriorising-psychologism or unaware beyond-the-consciousness-awareness-teleology\(^{(10)}\)-<in-existential-extrication-as-of-existential-unthought> as of preconverging-or-dementing –apriorising-psychologism/deassertion, that reveals neuterising as of epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness\(^{(9)}\)-of- reference-of-thought as it is construed in its ontological-veridicality as ‘a deficient derived-construction of ontological-normalcy/relative-ontological-completeness -of- reference-of-thought’. This insight equally explains why it is ‘through the deficient derived-construction of apriorising/axiomatising/referencing—conflatedness’\(^{(1)}\) that is construed the ontologically-veridical nature of distractive-alignment-to- reference-of-thought-<of-apriorising/axiomatising/referencing> destructuring. Understanding and overcoming neuterising as such reveals the beyond-the-consciousness-awareness-teleology\(^{(10)}\)-<in-existential-extrication-as-of-existential-unthought> dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of \(^{(1)}\) de-mentation\((\supset \text{supererogatory-ontological-de-mentation-or-dialectical-de-mentation---stranding-or-attributive-dialectics})\). The ontological-veridicality of a ‘postconverging-or-dialectical-thinking –psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ as associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—
imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation without temporal/shortness-of-register-of—meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived—perversion-of—reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supercerogation>; as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation—non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness—amplituding/formative—wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’—with-regards-to-prospective-apriorising-implications}> in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring crossgenerational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism—or—disjointedness-as-of—reference-of-thought meaningfulness-and-teleology neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional—referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive
neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness of reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/preconvergence of relative-ontological-incompleteness of reference-of-thought in the very first place cannot be the basis for articulating, as of their given apriorising/axiomatising/referencing—constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,—as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by a apriorising/axiomatising/referencing—conflatedness as of ontological-normalcy/relative-
same physics domain-of-study as the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/preconvergence /relative-ontological-incompleteness\textsuperscript{30}—of—reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness\textsuperscript{31}—of—reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same \textit{amplituding/formative–epistemicity} totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct\textsuperscript{100}—of—reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the \textit{reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness} which refers to the transcendental-enabling/sublimating/superceratory–de-mentativity conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s \textit{reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology\textsuperscript{100} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening\textsuperscript{33} successive more and more

This insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-de-mentating/structuring/paradigming/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance including-virtue-as-ontology across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview’s/dimension’s reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms–as-of-axiomatic-construct enabled by a prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness; given that there is a need for the requisite institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring underlying the transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process. The fact is that all meaningfulness-and-teleology ontological-performance including-virtue-as-ontology, whether teleologically-degraded or teleologically-elevated, implied as of within a given reference-of-thought are necessarily in ontological-contiguity, construed as of a difference-in-kind/difference-in-aposteriorising-ormlogicising of the same <amplituding/formative–

With a difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered—epistemic-totalisation reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought—categorical-imperatives/axioms/registry-teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on the basis of the centered—epistemic-totalisation reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-

The same applies from a notional–deprocrypticism perspective with regards to a <sup>7</sup> procrypticism–or–disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology<sup>100</sup> in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the <sup>7</sup> procrypticism–or–disjointedness-as-of-reference-of-thought arises in the first place is in circular <sup>45</sup> <sup>amplituding/formative–epistemicity</sup> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag <sup>33</sup> as of the same centered–epistemic-totalisation/ reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments<sup>106</sup> as of that fundamental <sup>45</sup> <sup>amplituding/formative–epistemicity</sup> totalising/circumscribing/delineating thought-devolving-as-of-instantiative-context— meaningfulness-and-teleology<sup>100</sup> reference-of-centered–epistemic-totalisation, besides at best palliative constructs of a non-universal nature, as not of an

Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness \(^9\)—unenframed-conceptualisation behind the ontological-contiguity \(^10\)—of-the-human-institutionalisation-process \(^11\) enabling the human existential tale in successive institutional-cumulation/institutional-recomposure ⟨as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing ⟨perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism⟩⟩ is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness \(^12\)—unenframed-conceptualisation mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence ⟨implicit-epistemic-veracity-of—nonpresencing—⟨perspective—ontological-normalcy/postconvergence⟩⟩ analysis does apply with respect to superstitions, universal human rights, free society, modern
science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposing-for-relative-ontological-completeness —uneenframed-conceptualisation as the process enabling prospective relative-ontological-completeness —of-reference-of-thought of same.

Insightfully, this point out the circumspective nature of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on the one hand outrightly articulating construed ontological-veridicality at the expense of avoiding any Being-
their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a apriorising/axiomatising/referencing—constitutedness ends up misconstruing the organisal depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating/supererogatory de-mentativity, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness of reference-of-thought, as of the incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the preconverging–de-mentating/structuring/paradigming of human reference-of-thought; with the consequence that it is not ‘notionally postconvergingly–de-mentated/structured/paradigmed’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of
apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} but rather suffers from apriorising/axiomatising/referencing—constitutedness\textsuperscript{13}. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{89}—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} in line with existential-contextualising-contiguity\textsuperscript{39}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}—of-reference-of-thought\textsuperscript{8} devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in apriorising/axiomatising/referencing—constitutedness\textsuperscript{13} that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistemic-totalising ~devolved–purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation—and–existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\textsuperscript{97} -<as-to-perspective-ontological-normalcy/postconvergence-implied–prospective-aporeticism-overcoming/unovercoming’>, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity\textsuperscript{39}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{88}—of–reference-of-thought– devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory—de-mentativity as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whoever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their apriorising/axiomatising/referencing—constitutedness¹ defines the entire existential possibility/potency of musical compositions that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising apriorising/axiomatising/referencing—constitutedness¹ but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a apriorising/axiomatising/referencing—conflatedness¹ as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our limited-mentation-capacity-deepening enabling our prospective relative-ontological-completeness—of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-
enabling/sublimating/supererogatory—de-mentativity dynamism and implied organic-knowledge’ as of apriorising/axiomatising/referencing—conflatedness”. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise become an <amplituding/formative—epistemicity>totalising—self-referencing-syneretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating/supererogatory—de-mentativity immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity immortal/first-party. Further, such conceptual patterning will often fail to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising apriorising/axiomatising/referencing—conflatedness in (re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness ‘-of-notional—deprocrypticism-prospective-sublimation} ) originary/event -of-prospective-ontology-origination projection into existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context, it emphasises mere de-mentative/structural/paradigmatic patterns inducing apriorising/axiomatising/referencing—constitutedness, and so whether at detailing or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague
thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality
transcendental-enabling/sublminating/supererogatory–de-mentativity construal highlights the
ontological-contiguity of all knowledge as of their ‘reference-of-thought-as-to-
preconverging/postconverging–de-mentating/structuring/paradigmimg dynamic relationship,
conceptual patterning seem to naively imply a discreet relationship of knowledge constructs
with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling
ontological-prime movers-totalitative-framework interconnectedness as this is often not the
primary driving focus, as it is naively assumed that the conceptual patterning is a
correspondence of intrinsic-reality/ontological-veridicality as of the mere de-
mentative/structural/paradigmatic conceptualisation in apriorising/axiomatising/referencing—
constitutedness rather than striving to expand the transcendental-
enabling/sublminating/supererogatory–de-mentativity ontological-prime movers-totalitative-
framework existential-reality potential, and this easily leads to virtuality or ontologically-
flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is
of first order knowledge, a level at which knowledge differentiation doesn’t easily manifest
itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where
transcendental-enabling/sublminating/supererogatory–de-mentativity implications arise in a
pecular way. For instance, while hereditary is an underlying conceptual patterning idea in
biology, it will be unthinkable to try to lump together and undermine the originality of
subsequent hereditary notions of genetics on the basis that these are of the same conceptual
patterning as earlier notions like Mendelian heredity as the transcendental-
enabling/sublminating/supererogatory–de-mentativity differentiations are spectacular. Finally,
one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual
patterning has to do with a certain vague intellectual practice based on perceived intellectual
pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association
whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supercerogatory-de-mentativity ontological-primemovers-totalitative-framework\(^2\) nature and differences as well as their divergence in meaningfulness-and-teleology\(^6\) implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness\(^8\)—unenframed-conceptualisation driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating/supercerogatory-de-mentativity ontological-primemovers-totalitative-framework\(^5\) renewal of a same <amplituding/formative–epistemicity>totalising~devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of apriorising/axiomatising/referencing—constitutedness\(^7\) undermining requisite creativity as of apriorising/axiomatising/referencing—conflicatedness\(^\prime\), as it ‘critically presupposes beyond-the-consciousness-awareness-teleology\(^{10}\)-<in-existential-extrication-as-of-existential-unthought>\(^1\) that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in other to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity\(^1\)’s-reifying/elucidating-of-prospective-relative-ontological-
completeness of reference-of-thought devolving as of instantiative-context that ‘originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations’. Such an analytic insight as of a notional-deprocrypticism (protensive-consciousness deneuterising-induced) reference-of-thought—devolving-teleological-dementating/structuring/paradigmig—of-meaningfulness analysis as of its prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy, points out that actually, and according to this author’s view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of apriorising/axiomatising/referencing—constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/superegoratory—dementativity ontological-prime-movers-totalitative-framework here hasn’t been entertain sufficiently to point out that effectively it is a problem that actually ‘devolves out’ of the more fundamental issue of Being as of its but is rather being posed as of a ‘disjointed/fragmented analysis’ as a consciousness grounded problem. This equally explains this author’s construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology; consciousness defined as of ‘notional <amplituding/formative—epistemicity>totalising—self-referencing—syneretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency—sublimating—nascence, disclosed-from-prospective-epistemic-digression. The fundamental fact is that existence as of existential-contextualising-contiguity’s—reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought devolving as of instantiative-context is the absolute a priori of intrinsic-reality/superseding—oneness-of-ontology prior to any human
mentating/structuring/paradigming–of-meaningfulness knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue as derived conceptualisations/construals of the very apriorising/axiomatising/referencing—conflatedness\(^{12}\) that is as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—\(^{50}\) meaningfulness-and-teleology\(^{100}\) or existence-as-existence-potency\(^{13}\)–sublimating–nascence,—disclosed-from-prospective-epistemic-digression as to existential-possibilities. The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for apriorising/axiomatising/referencing—constitutedness\(^{11}\) lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation \(^{67}\)-〈as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’〉 imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of (given consciousness’s \(^{59}\)neuterising-induced-or-deneuterising\(^{16}\)-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness, and so as of the \(^{55}\)maximalising-recomposuring-for-relative-ontological-completeness\(^{89}\)—
unenframed-conceptualisation behind the ontological-contiguity as of the human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the (given consciousness’s neuterising-induced-or-deneuterising-induced)-reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-threshold. Thus, the ontological-veracity as prospective relative-ontological-completeness—of—reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-deneuterising-induced)—reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming’> imbricatedness/threadedness/recomposuring’ generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation which is as of

and as of its implied superseding–oneness-of-ontology, since existence is de-mentatively/structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve apriorising/axiomatising/referencing—constitutedness

that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-

follows, the reason why relative-ontological-incompleteness 89-of-reference-of-

certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of
prospective relative-ontological-completeness 88-of-reference-of-thought/ontological-

totalising 87–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-

amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it'. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring with the inherent intrinsicness of the amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness of reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness of reference-of-thought/epistemic-abnormalcy/preconvergence /destructuring will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the amplituding/formative–epistemicity totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a virtuality-or-ontologically-flawed-construal often wrongly involving reference-of-thought—elevated-devolving-as-of-prospective-
institutionalisation’-as-of-upholding-ontological-veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case with postlogism and conjugated-postlogism. By and large, this overall conceptualisation explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect ontological-performance—<including-virtue-as-ontology> of the same underlying idea conceptualised as of its perfect/near-perfect/relatively-perfect ontological-performance—<including-virtue-as-ontology> as in-sync/corresponding with inherent intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought> of human construal/conceptualisation of it. This fully articulates the dynamic relationship of human limited-mentation-capacity as of its poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-ontological-veridicality; respectively as poor as of apriorising/axiomatising/referencing—constitutedness and as relatively-perfect/near-perfect/perfect apriorising/axiomatising/referencing—conflatedness, construed as notional ~ conflatedness as of apriorising/axiomatising/referencing—constitutedness—to-conflatedness of human limited-mentation-capacity. Notional–conflatedness /constitutedness\(^1\)-to-conflatedness\(^2\) as such highlights an underlying "historiality/ontological-eventfulness\(^3\)/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> of the apriorising/axiomatising/referencing—constitutedness\(^1\)-to-conflatedness\(^2\) dynamism of human limited-mentation-capacity with respect to human ontological-performance\(^4\)-<including-virtue-as-ontology>-as-of-its-broadest-implications amenable to human-subpotency/'subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency\(^5\)~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, and so whether as of natural ontology/natural sciences, social ontology/social sciences, aesthetics-as-ontology, virtue-as-ontology, etc. of critical relevance is the notion of existence as of human-subpotency or human subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency\(^5\)~sublimating–nascence,-disclosed-from-prospective-epistemic-digression, implying the \(<\text{amplituding/}
notions/notional–referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity, universal human rights, etc. doesn’t add anything to ‘abstract/imaginary existence as a pre-given’ pointing to the fact that human existence is about human-subpotency construed as of successive defining transcendentally-enabled-institutionalisation-levels-of-ontological-good-faith/authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism as levels of human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming–notionally–collateralising-beholdening-protohumanity’-to–‘attain-sublimating-humanity’-as-to-existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to supersede human temporality/shortness-amplituding/formative wooden-language–(imbued—averaging-of-thought–as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology–as-of–nondescript/ignorable–void–with-regards-to-prospective-apriorising-implications)). Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness as for material and physical effecting devolving teleologies as meaningfulness’ while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about ‘human consciousness inherent effecting devolving teleologies as meaningfulness’. Consider in this particular regards the intrinsic-reality/ontological-veridicality reflected as akin to an engineering product like a jet engine wherein the conceptualisation is an incisive apriorising/axiomatising/referencing—conflatedness that goes beyond the whole and parts of the jet engine to grasp a conceptualisation profundness/completeness of required critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the articulated depth of the reference-of-thought of aircraft engine engineering science. This overall notional conception extends as well to the various ways by which human limited-mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating, as of their-specific-constitutedness induced neuterising or prospectively notional—deprocrypticism referentialism—ontologically-uncompromised-mediating, as of conflatedness, meaningfulness-and-teleology. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional–deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising. historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of the notional–conflatedness of notional–deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness’ of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of the notional–conflatedness of notional–deprocrypticism construct, wherein its totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construes beyond-the-consciousnessawareness-teleology -<in-existential-extrication-as-of-existential-unthought> of its ‘projected-or-anticipated-grandest-existential-axiomatic-construct’ as the absolute framework of ontological-performance -<including-virtue-as-ontology>-as-of-its-broadest-implications and thus failing to factor in the implications on its ontological-performance -<including-virtue-as-ontology> of its prior relative-ontological-incompleteness reference-of-thought as this

syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{77} construct, including our positivism–
procrypticism registry-worldview/dimension, as this will falsely imply that our\textsuperscript{84} reference-of-
thought is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Basically, existence as of prospective base-institutionalisation reference-of-thought is circularly-unintelligible-but-for-a- reference-of-thought but for the former transcendental instigation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, existence as of prospective universalisation reference-of-thought is circularly-unintelligible-but-for-a- reference-of-thought but for the former transcendental instigation as of ontological-faith- notion-or-ontological-fideism—imbued-underdetermination-of-motif-and- apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, existence as of prospective positivism reference-of-thought is circularly-unintelligible-but-for-a-

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness reference-of-thought as of ontological-performance-arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation–ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation–non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our \[<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}>\]
about our positivism–procripticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of notional–deprocripticism as preemting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence-{implicitied-'nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness }’ what is existence/existential-possibilities not factoring Being apriorising/axiomatising/referencing—conflicatedness

Existence is rather a ‘potency construct of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence-and-sublimity/sublimation/supererogatory–de-mentativity by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-
performance of including-virtue-as-ontology>, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness of reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> who is bound to circularly elicit shortness-of-register-of meaningfulness-and-teleology on such renewed reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold! In other words and as relevant with all other registry-worldviews/dimensions transcendental implications, base-institutionalisation meaningfulness-and-teleology cannot truly be-grounded-as-explained to recurrent-utter-uninstitutionalisation as this wrongly implies the latter’s reference-of-thought as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology is a sound basis for construing the meaningfulness-and-teleology of base-institutionalisation inducing rather a circular-complexification of recurrent-utter-uninstitutionalisation reference-of-thought as it adopts by mental-reflex an incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation mental-disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-disposition and thus fails to fulfil the

Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implies that as of human <amplituding/formative–epistemicity-totalising–thrownness-in-existence\textsuperscript{34} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory–de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{72} -<including-virtue-as-ontology>, humankind has no ‘absolute past-or-present ontological-completeness-of\textsuperscript{84} reference-of-thought’ for grounding the construal of ‘meaningfulness-and-teleology\textsuperscript{100} of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-'human-amplituding/formative–epistemicity-totalising–purview-of-construal’, as such pretence circularly turns into apriorising/axiomatising/referencing—constitutedness\textsuperscript{14} at the given \textsuperscript{8}reference-of-thought uninstitutionalised-threshold \textsuperscript{11}; highlighting the fact that human potential attainment of the notional–deprocrypticism as preempting—disjointedness-as-of-\textsuperscript{8}reference-of-thought is actually a ‘perpetual transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ as of notional–deprocrypticism as

Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered–epistemic-totalisation circularity of meaningfulness-and-teleology\textsuperscript{100} of theoretically perfect/sound ontological-performance\textsuperscript{72},<including-virtue-as-ontology>’, as implied by this author’s notion of ontological-
normalcy/postconvergence, operantly displays the philosophical tradition problem of apriorising/ axiomatising/referencing—constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening for successive prospective relative-ontological-completeness-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of apriorising/axiomatising/referencing—conflatedness that prospectively ultimately grasps the centered-<amplituding/formative–epistemicity>totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance<including-virtue-as-ontology> in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process or notional–deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition apriorising/ axiomatising/referencing—constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance<including-virtue-as-ontology> of ‘centered–epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance<including-virtue-as-ontology>’ but rather as within a same horizon of meaningfulness-and-teleology ontological-performance<including-virtue-as-ontology>. However, it fails to grasp that such a centered–epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology ontological-performance<including-virtue-as-ontology> of the very same <amplituding/formative–epistemicity>totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given reference-of-thought-as-of—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness a centered–epistemic-totalisation is rather the circular meaningfulness-and-teleology representation of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,
as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’, as the
said reference-of-thought—as-of—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’ is ‘supposedly always the systemic and
indefinite resolution’ of the-very-same-immanent-existence/intrinsic-reality/ontological-
veridicality, as-to-‘human<amplituding/formative–epistemicity>totalising–purview-of-
construal’. Now, the issue of a centered–epistemic-totalisation defect arises where the given
reference-of-thought—as-of—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’ is ontologically-flawed/deficient as it
will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-
and-teleology’ in relative deficient/flawed ontological-performance.<including-virtue-as-
ontology>’ construed as of the uninstitutionalised-threshold of a registry-
worldview’s/dimension’s reference-of-thought—as-of—devolving-
teological-de-mentating/structuring/paradigming–of-meaningfulness’. But then human
limited-mentation-capacity-deepening achieving prospectively of an ultimately theoretically
perfect/sound reference-of-thought—as-of—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’ as of the full ontological-contiguity—
of-the-human-institutionalisation-process as notional–deprocrypticism implies the circular
ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away
with as of ontological-completeness with the <amplituding-formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought of the reference-of-

existence/intrinsic-reality/ontological-veridicality, as-to-‘human<amplituding/formative–

epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or
extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology of ‘the very same physics’ as of a prior relative-ontological-incompleteness of less ontological-performance-<including-virtue-as-ontology> of ‘the very same physics’ as of prospective relative-ontological-completeness of axiomatic-construct-or-reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander ontological-performance-<including-virtue-as-ontology>; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of ‘the very same physics’ as of a prior centered–epistemic-totalisation of a very same
amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance<including-virtue-as-ontology>, and thus by extension with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-
‘human<amplituding/formative–epistemicity>totalising–purview-of-construal’ which is a given
reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’; and for all practical matters this has
been the way Derridean deconstruction has been commonly applied as in effect all our
meaningfulness-and-teleology ontological-performance<including-virtue-as-ontology> has been as of our positivism–procripticism registry-worldview’s/dimension’s reference-of-
thought-as-of-reference-of-thought—devolving-teleological-de-
mentating/structuring/paradigming–of-meaningfulness’ horizon and such a Derridean
decentered-infinite-freeplay is an inspired conception providing the groundwork as its initiates
the centered–epistemic-totalisation exercise for the insight of a futural différance as of the
latter’s transcendental–epistemic-totalisation that underlies apriorising/axiomatising/referencing—conflatedness in breaking with the philosophical
tradition or human knowledge conceptualisation tradition or towards fulfilling the
understanding of Being. In this regard talking about the physics example again, such a
Derridean freeplay différance is akin to the ‘putting in question exercise’ that surrounds the
cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical
breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as
Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with
respect to various theoretical efforts with the potential of leading to a physics Theory of
Everything. Inherent to futural différance is the notion of amplituding/formative–

as of beyond-the-consciousness-awareness-teleology<sup>100</sup> in existential-extrication-as-of-existential-unthought<sup>6</sup>, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold<sup>103</sup> temporal individuations circular undermining of the prospective institutionalisation<sup>84</sup> reference-of-thought-as-to-postconverging-de-mentating/structuring/paradigming implied transformation/shift as transcendence-and-sublimity/sublimation/supereorogatory-de-mentativity as of prospective relative-ontological-completeness<sup>88</sup> of reference-of-thought, as well as the idea of temporal individuations ‘synergetising’ that underlies a spiralling crossgenerational increasing undermining of the uninstitutionalised-threshold<sup>103</sup> reference-of-thought which is in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>3</sup> with its ultimate crossgenerational collapsing for the prospective institutionalisation’s<sup>84</sup> reference-of-thought, and so as of prospective social-stake-contention-or-confliction dynamism with increasing social<sup>104</sup> universal-transparency<sup>10</sup> entropy<sup>-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness</sup> as of prospective relative-ontological-completeness<sup>88</sup> of reference-of-thought of the prospective institutionalisation’s<sup>84</sup> reference-of-thought. Insightfully again, this idea of infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness<sup>99</sup> as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity<sup>63</sup> shallow-

It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-’human<amplituding/formative–epistemicity>totalising–purview-of-construal’ or <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as reflected with any given explicited axiomatic-construct in
the same way that insight/intuition is reflected rather with regards to any given implicated
axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a
type being any conception as of meaningfulness-and-teleology of supposed existential-
implications correspondence. That is the traditional knowledge conception articulated as
‘axioms of logic’ is rather vague, with the appropriate articulation being rather ‘logic of
axiomatic-construct/reference-of-thought’, as the axiomatic-construct/reference-of-thought
is the effective human limited-mentation-capacity supposed correspondence relation with
existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-
withdrawal,-eliciting-of-prospective-supererogation—<as-to-perspective-ontological-
normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>

constructs/theories/intersolipsistic-intercessory-notions/notional—referential-
notions/articulations/virtue, with increasing ontological-performance—<including-virtue-as-
ontology> as of human transcendence; even though such a conception as ‘axioms of logic’
could be perceived rather as a meta-conception or more like a technical practicality akin to say
the scaffolding of a building! In other words as the ‘inner working coherence/contiguity of
axiomatic-construct construed of ecstatic-existence/the-nature-of-the-world/conditions’, logic
and by extension mathematics imply elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-
nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-
validating-logicising/suitable-measuringinstrument-validating-measuring—<as-to-
postconverging-or-dialectical-thinking—apriorising-psychologism> as of maximalising-
recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. But
then as of ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective
conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and mathematics are construed practically as formalisations which are mainly as such constructs of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler articulations’ for the sake of succinctness, clarity and fungibility; however, without the implication of any other inherent transcendental-enabling/sublimating/supererogatory~de-mentativity of such formalisations besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and mathematics transcendental-enabling/sublimating/supererogatory~de-mentativity’. But then it is naïve to construe of mathematics, as logicists have tended to do, as essentially an exercise of mathematical formalisation. The fact is that mathematics have always been developed implicitly or explicitly in association with or inspired from the context/existential-contextualising-contiguity of other applied and transcendental-enabling/sublimating/supererogatory~de-mentativity activities as of their axiomatic-constructs development and mathematics very own existential-reality of developed axiomatic-constructs applicative orientation, including developing together with heavily dependent mathematics domains like physics, engineering, other applied sciences and statistical studies. This latter situation which is more real than generally said and makes of mathematics ‘a <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’ and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-
enabling/sublimating/supererogatory—de-mentativity of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about sublimating-validation/desublimating-invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential sublimating-validation/desublimating-invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomna/manifest—subpotency—{in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating—nascence} with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal supererogatory—acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’—for—conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring ‘human corresponding—sublimation-inducing,—profound—and—creative
supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for conceptualisation' is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather 'distracting-from and not-contributing-to' the inherent domain's epistemic-conceptions phenomenal/manifest-subpotencies-(in-transitive-conflatedness -reflexivity,-in-the-full-potency-of-existence's-sublimating-nascence) given 'human corresponding-sublimation-inducing,-profound-and-creative supererogatory acuity/perspicacity/astuteness/edginess/incisiveness of apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument for conceptualisation'). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodinger, Bohrs had to elicit the transcendental-enabling/sublimating/supererogatory de-mentativity of the physics <amplituding/formative-epistemicity> totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating/supererogatory de-mentativity. They didn't just start to develop 'patterns of mathematical equations' without the prior insight about the physics domain-of-study and what to strive for, and actually from that 'physics reality precedence perspective' got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing 'mathematical patterns' as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating/supererogatory de-mentativity; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation'. The naivety of logicism lies exactly in this respect of construing
formalisation as most of what is supposed to be achieved, and failing to grasp that when it
comes to social reality its own transcendental-enabling/sublimating/supererogatory-de-
mentativity has to be ‘creatively construed’, and this in many ways explains the frustrated
conclusion that will often then arise from such a naïve formalisation perspective that the
philosophical exercise is not necessarily transcendental-enabling/sublimating/supererogatory-de-mentativity, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-
worldview/dimension reference-of-thought-as-of—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to-

fact that the various registry-worldviews/dimensions operate their own conception of logic as of

Being as of its implied notional-deprocripticism’s apriorising/axiomatising/referencing-confledness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primenovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendence-and-sublimity/sublimation/superoedge---de-mentativity which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocripticism. Being construed as of ontology’s-directedness-as-Being thus enables the superseding of totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence (implicated-nondescript/ignorable-void-as-to-presencing—absolutising-identitive-constitutedness). Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation with an epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-

Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <amplituding/formative—epistemicity>totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating/supererogatory—de-mentativity implications as of human limited-mentation-capacity-deepening, whereas logic and logical analysis is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can only arise as of the ‘maximalising—recomposing—relational—ontological—completeness’—unenframed-conceptualisation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument—validating—measuring—<as—to—postconverging-or—

This author phenomenological transcendental conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant implications construing/conceptualising in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity67—of-the-human-institutionalisation-process68, not as an external speculative dialectics, but as a wholly internal natural dialectics in apriorising/axiomatising/referencing—conflatedness12 as of human limited-mentation-capacity-deepening69. Such ‘ontological statistical-exception’ of intemporality<sup>67</sup>/longness as of ontology’s-directedness-as-Being permeates all existential processes including life itself. This explains why dimensionality-of-sublimating<sup>56</sup> (\textit{\langle\textit{amplituding/formative}\textit{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\rangle}) mental-disposition behind the ‘inventing’ of prior institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prior ontology’s-directedness-as-Being is necessarily the requisite mental-disposition for the ‘inventing’ of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prospective ontology’s-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of-meaningfulness-and-teleology<sup>100</sup> on \textit{\langle\textit{amplituding/formative}\textit{wooden-language-\{imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing —narratives—of-the-reference-of-thought—categorical-imperatives/axioms/registry-teleology \}}} as of uninstitutionalised-threshold<sup>11</sup> failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Ultimately, phenomenology is all about grasping the apriorising/axiomatising/referencing—conflicatedness<sup>12</sup> of ontology’s-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating/supererogatory-de-mentativity biological science in relative ontological-contiguity<sup>57</sup> of reference-of-thought will dissociate modern-day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say th century Mendelian heredity however its inherent
merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity\(^{56}\)-<shallow-supererogation\(^{7}\)-of-mentally-aestheticised–preconverging/dementing\(^{19}\)-qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term ‘heredity’; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate \(^{56}\)meaningfulness-and-teleology\(^{100}\) in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating/supererogatory–de-mentativity implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating/supererogatory–de-mentativity work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology\(^{100}\) ontological-performance\(^{12}\)-<including-virtue-as-ontology> arises as an exercise of human limited-mentation-capacity-deepening\(^{53}\) as of relatively profound and complete axiomatic-constructs/ reference-of-thought in ontological-contiguity\(^{67}\) of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’ or <amplituding/formative–epistemicity>totalising~devolved~purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality! Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating/supererogatory–de-mentativity insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating/supererogatory–de-mentativity implications, which in
reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity—a shallow-supererogation—of-mentally-aestheticised—preconverging—dementing—qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance <including-virtue-as-ontology>, as of the very same <amplituding/formative—epistemicity> totalising—devolved—purview—as-domain-of-construal—as-intrinsic-reality/ontological-veridicality. The <amplituding/formative—epistemicity> totalising—renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity /contexts as of existential-instantiations imbricatedness/threadedness/recomposuring in a maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation exercise as of ontological-faith-notion—or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; wherein say with a demand curve, the insight as of human limited-mentation-capacity-deepening of a significant rise in consumers’ salaries implies that everything else being equal the demand curve-axiomatic-construct will shift to the right as of relative ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out of its existential completeness and profoundness, for instance the axiomatic-construct in ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of the bicycle in its existential wholeness of functionality and contents as its ontological-contiguity. Ontological-contiguity rather
highlights relative perspectives as of ontological-normalcy/postconvergence depths of axiomatic-construct\textsuperscript{57} reference-of-thought of construal; which for instance renders the idea of general relativity in relative ontological-contiguity\textsuperscript{67} and newtonian physics in relative notional-discontiguity/epistemic-discontiguity\textsuperscript{63}-<shallow-supererogation\textsuperscript{97}-of-mentally-aesthetised–preconverging/dementing –qualia-schema> rather as uncorrelated, whereas a notion of ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-continuity and relative notional-discontiguity/epistemic-discontiguity\textsuperscript{63}-<shallow-supererogation\textsuperscript{97}-of-mentally-aesthetised–preconverging/dementing\textsuperscript{63}–qualia-schema>’ will seem to imply correlatedness by the very nature of the term continuity. Ultimately, the overall analysis above points out that this is not an inherent ontological-as-of-the-full-potency-of-existence’s–sublimating–nascence problem but rather a problem of human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of human limited-mentation-capacity as of \textsuperscript{14} de-mentation\textsuperscript{14}-<supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics> with respect to \textsuperscript{84} reference-of-thought; as contrary to the ‘Derridean différance decentering’ freplay that is entrapped in circularity of \textsuperscript{80} meaningfulness-and-teleology\textsuperscript{100} on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension \textsuperscript{84}reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différance’ recognises that human limited-mentation-capacity transcendence-and-sublimity/sublimation/supererogatory de-mentativity brings about prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{84}reference-of-thought, and thus it centers-as-postconverging-or-dialectical-thinking –apriorising-psychologism the prospective institutionalisation’s \textsuperscript{84}reference-of-thought-as-of-\textsuperscript{12}reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ as of its prospective relative-ontological-completeness\textsuperscript{88}-of-\textsuperscript{4}reference-of-thought to override the circularity as notional-discontiguity/epistemic-discontiguity\textsuperscript{63}-<shallow-supererogation\textsuperscript{97}-of-mentally-

that the social diffusion of new transcendental-enabling/sublimating/supererogatory–de-

institutional and formal meaningfulness-and-teleology as of the need for profoundness and
rigour that doesn’t avail in ordinary thought for transcendence-and-

prior institutionalisation established and perceived vested interest such intemporal-as-
ontological meaningfulness-and-teleology could be ontologically undermined as of
institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining the
Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension relates
to its value construct as of its prior relative-ontological-incompleteness–of-reference-of-
thought apriorising/axiomatising/referencing—constitutedness as more or less absolute, and
doesn’t factor in that its prior relative-ontological-incompleteness–of-reference-of-thought is
a de-mentative/structural/paradigmatic deficiency inducing the
⟨<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag⟩
of its value construct. But then prospective institutionalisation necessarily implies a notion of
prospective value construct as of its prospective relative-ontological-completeness\textsuperscript{18} of reference-of-thought apriorising/axiomatising/referencing—conflicatedness\textsuperscript{12} which will be unintelligible to the prior value construct, such that it is only a sense of intemporal consummation that drives transcendental dispositions as it is paradoxical to expect that what is in need for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity acts as transcended, as transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is inevitably and so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more profoundly involving a crossgenerational \textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} psychoanalytic-unshackling than a grounding conceptualisation! Furthermore, both the prior institutionalisation value construct and the prospective institutionalisation value construct are their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-teleology\textsuperscript{100}, with transcendence-and-sublimity/sublimation/supererogatory-de-mentativity conflictedly implying overriding the prior institutionalisation’s centered–epistemic-totalisation-facticity for the prospective institutionalisation’s centered–epistemic-totalisation-facticity. But then ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{68} is an empirical fact, and thus the resolution of this transcendence-and-sublimity/sublimation/supererogatory-de-mentativity paradox is rather reflected by the dynamics of human positive-opportunism\textsuperscript{70} as of human \textsuperscript{4}\{amplituding/formative–epistemicity\}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency\textsuperscript{105} (transparency-of-totalising-entailing,-as-to-entailing, \textsuperscript{<amplituding/formative–epistemicity\}totalising–in-relative-ontological-completeness} avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered–epistemic-totalisation facticity but crossgenerationally human ‘re-
conventioning whether driven by a sense of pure-ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity. Consider in this regard historical transcendence-and-sublimity/sublimation/supercerogatory-de-mentativity elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is de-mentatively/structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and syncretising-effecting construed as totalising–self-referencing-syncretising’ of meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a de-mentative/structural/paradigmatic ‘self-referencing and syncretising-effecting construed as totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social
transformation however lethargic and cultural diffusion will be basically impossible, and

induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why crossgenerational transcendence-and-sublimity/sublimation/superroratory-de-mentativity occurs notwithstanding a seemingly self-referencing centered-epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence-and-sublimity/sublimation/superroratory-de-mentativity as of prospective relative-ontological-completeness-of-reference-of-thought occurs because de-mentatively/structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of-meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-prime-movers-totalitative-framework validation as to existence-potency–sublimating-nascence, disclosed-from-prospective-epistemic-digression, as re-originary-as-unenframed/unbeholding/outlier-conceptualisation, imbued-postconverging/dialectical-thinking-‘projective-insights’/epistemic-projection-in-conflatedness-‘of-notional-deprocrypticism-prospective-sublimation’, that are most likely to be syncretised crossgenerationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or
less formally-and-overtly unassumed as of their temporal denaturing\textsuperscript{15} nature or poor\textsuperscript{10} universal projection. However, such a conception of supposedly coherent ontological-commitment\textsuperscript{66} is not actively contemplated socially but occurs latently and passively with any given registry-worldview’s/dimension’s institutionalisation\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology\textsuperscript{100}\langle in-existential-extrication-as-of-existential-unthought\rangle\textsuperscript{6} with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of–social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s\textsuperscript{1} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity\textsuperscript{57} for transcendence-and-sublimity/sublimation/supererogatory-de-mentativity is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity\textsuperscript{57} as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative\textsuperscript{104} universal-transparency\textsuperscript{90}\langle transparency-of-totalising-entailing,-as-to-entailing-\langle amplituding/formative–epistemicity\rangle\rangle totalising–in-relative-ontological-completeness\textsuperscript{4} about such metaphoricity\textsuperscript{57} instigative reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however
restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity\textsuperscript{67}, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment\textsuperscript{66} that is subject to existence-potency\textsuperscript{58}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression validatory ontological-primemovers-totalitative-framework\textsuperscript{73}. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment\textsuperscript{66} threshold of a social-setup\textsuperscript{57} meaningfulness-and-teleology\textsuperscript{100}’ allows for the possibility for prospective metaphoricity\textsuperscript{57} to reconstrue-and-redefine the social-setup meaningfulness-and-teleology\textsuperscript{100}. Such prospective metaphoricity\textsuperscript{57} possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology\textsuperscript{100} needs this supposedly coherent ontological-commitment\textsuperscript{66} in other to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology\textsuperscript{100} that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity\textsuperscript{57} in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology\textsuperscript{100} is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework\textsuperscript{73} amplituding/formative–epistemicity causality~as-to-projective-totalitative–implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{67} as of the social-setup given supposedly coherent ontological-commitment\textsuperscript{66}. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment\textsuperscript{66} respectively as of superstitious spiritualism meaningfulness-and-teleology\textsuperscript{100} or scholasticism pedantic dogmatism meaningfulness-and-teleology\textsuperscript{100}, as of the given social-setup ‘self-assuredness-of-ontological-good-
faith/authenticity as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic dogmatism. It is exactly this ‘self-assuredness-of-ontological-good-faith/authenticity as-being-as-of-existential-reality with respect to its social-stake-contention-or-confliction’ that equally makes available the possibility for prospective metaphoricity to demonstrably undermine the implied supposedly coherent ontological-commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-teleology, and so as of the prospectively induced ontological-primemovers-totalitative-framework superseding meaningfulness-and-teleology as from existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression epistemic/notional–projective-perspective of relative-ontological-completeness-of-reference-of-thought by way of ontological-primemovers-totalitative-framework such as with prospective positivism/rational-empiricism meaningfulness-and-teleology. However, given the inherence of social-stake-contention-or-confliction, inevitably prospective metaphoricity undermines vested interests as of the direct, indirect and/or devolving implications of prospective metaphoricity and by that token elicit sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-teleology. Further any such prospective metaphoricity ultimately takes hold rather as of within the social deferential-formalisation-transference framework wherein it is driven by a sense of positive-opportunism as of particular and general social interest. That said, a social-setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the fact of greater existential-contextualising-contiguity knowledge-reification from prospective metaphoricity which may involve undermining such ‘existentially invested’ registry-worldview/dimension in its
means that it doesn’t necessarily construe such prospective metaphoricity as pertinent and so where it is nihilistically disinclined by its\textsuperscript{44} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} to dispensing-with-immediacy-for-relative-ontological-completeness–by-reification/contemplative-distension\textsuperscript{26} (as of human self-surpassing—existentialism-form-factor,—in-overcoming—‘notionally—collateralising-beholdening-protohumanity’—to—‘attain-sublimating-humanity’—as-to-existence-potency\textsuperscript{14}—sublimating—nascence,—disclosed-from-prospective-epistemic-digression to supersede human temporality\textsuperscript{50}/shortness\textsuperscript{4} wooden-language\textsuperscript{57} (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void ’—with-regards-to-prospective-apriorising-implications)>), as of its beyond-the-consciousness-awareness-teleology\textsuperscript{100}—<in-existential-extrication—as-of-existential-unthought>\textsuperscript{5} manifestation. The abstract notion of antinihilism as implied by such prospective metaphoricity\textsuperscript{77} is not construed in human temporal terms—as-of-axiomatic-construct as a ‘living notion’ going by an\textsuperscript{4} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{11} elicitation of value as of untransvaluated—temporal-intemporality\textsuperscript{2}. In this regard, as of the temporal ‘mental and existential investment’ of recurrent-utter-uninstitutionalisation prospective base-institutionalisation antinihilism\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} is basically nothing and worthless, likewise as of the temporal ‘mental and existential investment’ of base-institutionalisation–ununiversalisation prospective\textsuperscript{10} universalisation antinihilism\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{100} is basically nothing and worthless, same with\textsuperscript{104} universalisation–non-positivism/medievalism and
prospective positivism, and equally so for positivism–procrypticism and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective deprocrypticism. Explaining in many ways why the elicitation of value as of prospective secondnatured institutionalisation rather occurs as of the superseding of amplituding/formative-epistemicity-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality /longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-in-deferential-formalisation-transference, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism–procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-
individuation, it doesn’t matter that budding-positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn’t exclude the possibility of a ‘floating sophistic’ inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding-positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus’s heliocentric world work or engagement with Galileo’s support of heliocentrism then his persecution for publishing, rather speaks dementatively/structurally/paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity shallow-supererogation of mentally-aestheticised-preconverging/dementing qualia-schema with their prospectively implied metaphoricity; with the consequence that there can’t be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound
<including-virtue-as-ontology> due to lack of social\textsuperscript{104} universal-transparency\textsuperscript{105}, (transparency-of-totalising-entailing-as-to-entailing,\textsuperscript{106} <amplituding/formative-epistemicity> totalising-in-relative-ontological-completeness). This arises because fundamentally as of notional-correspondence with existence, a registry-worldview’s/dimension’s institutionalisation in prior relative-ontological-incompleteness-of-reference-of-thought\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} ontological-performance\textsuperscript{72} -<including-virtue-as-ontology> is ultimately rather vouching of such a notional-correspondence with existence on the basis of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as transcendentally-complementing at its uninstitutionalised-threshold\textsuperscript{103} the said human limited-mentation-capacity ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness as of implicated-and-explicated reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100}—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology\textsuperscript{100} as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’ construed as institutionalisation, as the latter’s ‘reference-of-thought—categorical-imperatives/axioms/registry-teleology\textsuperscript{100} can be denaturing (beyond-the-consciousness-awareness-teleology\textsuperscript{100} -<in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}) as of their <amplituding/formative> wooden-language (imbued—temporal—mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing—narratives—of-the—reference-of-thought—categorical-imperatives/axioms/registry-teleology) by the various temporalities in threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation<as-to—‘attendant-intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising-psychologism> at its uninstitutionalised-threshold\textsuperscript{103}. This latter is only undermined driven by

Again, the latter institutionalisation’s meaningfulness-and-teleology ontological-performance—<including-virtue-as-ontology> is equally vouched by transcendentally-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality at its given uninstitutionalised-threshold, as its own reference-of-thought—categorical-imperatives/axioms/registry-teleology can also be denaturing as of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> as of their wooden-language—

The overall implication here as implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—’epistemicity-relativism’> is that only a contextual ontologically contiguous transitioning construal of meaningfulness-and-teleology as

Broadly speaking thus, the <amplituding-formative—epistemicity> causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating-ontological-contiguity of prospective relative-ontological-completeness of reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ as in effect as of apriorising/axiomatising/referencing—conflatedness this simply wrongly elevates temporal/shortness-of-register-of—meaningfulness-and-teleology mental-dispositions teleologically-degraded-devolving-as-of-uninstitutionalised-threshold and wrongly degrades the intemporal/longness-of-register-of—meaningfulness-and-teleology mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality denaturing of reference-of-thought—categorical-imperatives/axioms/registry-teleology beyond-the-consciousness-awareness-teleology <in-existential-extrication-as-of-existential-unthought> while the latter is upholding reference-of-thought—categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the notional—firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological—reference-of-thought’ wherein it is then strictly a matter of logical—
processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation in determining ontological-veracity. But then at such a registry-worldview’s/dimension’s institutionalisation’s uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a ‘neuter framework of reference-of-thought putting the notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as of the same axiomatic teleological projection’ and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism—or—disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of apriorising/axiomatising/referencing—conflatedness actually construes of more profound reference-of-thought—categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, and so as

This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold\textsuperscript{03} and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve \textit{neuterising mental-reflex} that by its \textit{apriorising/axiomatising/referencing—conflatedness} as of notional–deprocrypticism deneuterising\textsuperscript{16} insight. Central and critical to achieving such a deneuterising\textsuperscript{16} analysis in grasping the full and complete possibilities of ontologically-veridical construal of human \textit{meaningfulness-and-teleology}\textsuperscript{100} given human temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold\textsuperscript{10} is the notion of beyond-the-consciousness-awareness-teleology\textsuperscript{100}-<in-existential-extrication-as-of-existential-unthought>. It is most critical because at any registry-worldview/dimension, human self-consciousness is a \textit{amplituding-formative–epistemicity}\textsubscript{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag} mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a—\textit{meaningfulness-and-teleology}\textsuperscript{100}-that-is-

profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perception-and-relation to 'meaningfulness-and-teleology over just abstract universal propositions, when it comes to social-stake-contention-or-confliction social-functioning-and-accordance constraints such temporal part-conviction-as-to-profound-supererogation—or—part—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation mental-dispositions tend to be ultimately translated decisively onto issues of public repercussions like corruption, mismanagement, nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as of Being/ontological-framework-expansion underdevelopment, individuals in positions of social-stake-contention-or-confliction with respect to upholding/failing probity will simply adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of—meaningfulness-and-teleology individuation and temporal/shortness-of-register-of—meaningfulness-and-teleology individuations of postlogism slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of reference-of-thought—devolving ontological-performance—
Ultimately, the notion of beyond-the-consciousness-awareness-teleology given its psychoanalytic-unshackling as of prospective deprocryticism transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought—categorical-imperatives/axioms/registry-teleology but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality apriorising/axiomatising/referencing—confaltedness of Being as implied as of deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology or Being underdevelopment is associated with that of the construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with the latter construed as of the ‘mere effecting possibilities of knowledge’ without a coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of ‘temporal/shortness-of-register-of—meaningfulness-and-teleology mental-dispositions towards the mere effecting possibilities of the knowledge’ that induces the forgetting of Being construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of intemporal-preservation-entropy-or-contiguity—ontological-preservation that is behind
organic-knowledge. Human temporal mental-dispositions as of beyond-the-consciousness-awareness-teleology are all too ready to construe of the comprehensiveness of knowledge as mere effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-threshold in temporal/shortness-of-register-of-meaningfulness-and-teleology terms-as-of-axiomatic-construal as of the plainly implied opportunism with little consideration of the projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-induced,’threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—aspriorising-psychologism,’ is in a state of that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought<as-effectively-aspriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implicitation—supposedly-aspriorising-in-
conviction-as-to-profound-supererogation as ‘prelogic supplanting–conviction-as-to-profound-supererogation’—of–‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposing transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the postconverging–de-mentating/structuring/paradigming resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development–as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism worldview). We can appreciate such metaphysics-of-absence insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion–or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced intemporality/longness behind the ‘inventing of the base-institutionalisation culturally
value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology[56] from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology[100] as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology[100]; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be superseded as of its scholasticism and mysticism underlying knowledge background for a positivism/rational-empiricism knowledge background to take hold as transcendental-enabling/sublimating/supererogatory–de-mentativity not only to science but transcendental-enabling/sublimating/supererogatory–de-mentativity as well to the open society equally required for the sound functioning of science. It is this dynamic relationship as of ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and ‘detached, contemplative and blurry human social-construct of knowledge’ that is behind Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-

This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-prime movers-totalitative-framework—overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance—<including-virtue-as-ontology>-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview’s/dimension’s institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level’s reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be ‘socially effective’ within this articulated framework as enabled by ‘social-universal-transparency—transparency-of-totalising-entailing—amplituding/formative—
This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of

However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-\(^{5}\) meaningfulness-and-teleology\(^{100}\), the insight about human \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of–meaningfulness-and-teleology\(^{100}\) psychoanalytic-unshackling positive-opportunism\(^{76}\) can crossgenerationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\(^{100}\) despite the inherent circular distractiveness of temporality\(^{99}\), and ultimately so as enabled by ‘social \(^{104}\) universal-transparency \(^{1}\)–{transparency-of-totalising-entailing,-as-to-entailing–\(<\text{amplituding/formative–epistemicity}>\text{totalising–in-relative-ontological-completeness }\)}. \(^{4}\)
The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating/supererogatory—dementativity implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-empiricism—meaningfulness-and-teleology constructs of knowledge wasn’t enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency—aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>’—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting ‘social universal-transparency—<transparency-of-totalising-entailing,—as-to-entailing—<amplituding/formative—epistemicity>totalising—<in-relative-ontological-completeness>’. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling—<in-deferential-formalisation-transference>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in

While the emotional involvement and sense of ‘existential ego undermining’ involved in such a transcending reification gesturing of axiomatic-constructs as of the very same amplituding/formative—epistemicity—totalising—devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the ‘very reference-of-thought itself’ wherein the prospective ontological-contiguity reference-of-thought as depocalypticism—or—preempting—disjointedness-as-of reference-of-thought implies a transcending reification gesturing that not only affirms notional—deprocypticism prospective registry-

This explains why it is not a fundamental contradiction as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–'notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor at uninstitutionalised-threshold that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed ‘uninstitutionalised-threshold by prospective institutionalisation dialogical-equivalence’. This can’t be the case because dialogical-equivalence can only arise where there is ‘common reference-of-thought’ whereas a state of institutionalisation as of prospective relative-ontological-completeness-of-reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness–of-reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivistic/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-

prospective institutionalisation relative to such \textit{amplituding/formative–epistemicity\textsuperscript{89}}–totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{90} that circularly reinstitute the uninstitutionalised-threshold\textsuperscript{91} temporality\textsuperscript{92}/shortness as if intemporal in \textit{incrementalism-in-relative-ontological-incompleteness}\textsuperscript{93}—enframed-conceptualisation as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity\textsuperscript{94}. In other words prospective institutionalisation arises as of ‘transcendental-reasoning-of-event–as-prospective-ontology-origination’ which as of prospective relative-ontological-completeness\textsuperscript{95}–of-axiomatic-construct-or\textsuperscript{96} reference-of-thought is introducing a ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’ that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity\textsuperscript{97}–\textit{<shallow-supererogation\textsuperscript{98}}–of-mentally-aestheticised–preconverging/dementing–qualia-schema> the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’; with the implication that our ‘procrypticism–or–disjointedness-as-of\textsuperscript{99} reference-of-thought reasoning’ is not admissible to prospective ‘deprocrypticism–or–preempting–disjointedness-as-of\textsuperscript{100} reference-of-thought reasoning’ and so from the moment of the event–construed-as-the-prospective-ontology-origination of deprocrypticism, just as ‘non-positivistic medieval reasoning’ is not admissible to prospective ‘positivism reasoning’ from the moment of the event–construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting holographically–\textit{<conjugatively-and-transfusively>} the ontological-contiguity\textsuperscript{101}–of-the-human-institutionalisation-process\textsuperscript{102}; and so as of notional-discontiguity/epistemic-discontiguity\textsuperscript{103}–\textit{<shallow-supererogation\textsuperscript{104}}–of-mentally-
aestheticised–preconverging/dementing –qualia-schema> of the uninstitutionalised-threshold and the prospective institutionalisation. Such a temporal/shortness-of-register-of–meaningfulness-and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the ‘transcendental-reasoning-of-event’-as-prospective-ontology-origination’ is fundamentally due to the de-mentative/structural/paradigmatic lifetime ‘mental and existential investment’ in the former, such that by and large it is mostly a crossgenerational transcendence-and-sublimity/sublimation/supererogatory–de-mentativity that fully brings about the adaptation of the induced ‘transcendental-reasoning-of-event’-as-prospective-ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning’. Such a temporal/shortness-of-register-of–meaningfulness-and-teleology ontologically-flawed circular predisposition arises due to human temporal-dispositions as of Being underdevelopment that tends to lead to the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge; wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that is, knowledge related to as of ‘the mere positive-opportunism’ it engenders at best’ with little or no cognisance that there is an attitude/mental-disposition/care–and–episteme as of intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms–as-of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the very attitude/mental-disposition/care–and–episteme behind knowledge that induces the appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously contemplate a profound
positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoptio
The point here is that the meaningfulness-and-teleology so-construed has to supersede the prior registry-worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for its prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity-enabling purpose, even if that implies being temporally unpalatable, given that the fundamental purpose for the underlying aetiologisation/ontological-escalation is of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming and not temporal extricatory preconverging–de-mentating/structuring/paradigming. Put another way, for instance, Newtonian physics doesn’t have any inherent meaningfulness-and-teleology as we can appreciate from a positivism/rational-empiricism perspective/framing/referencing/horizon with an animistic social-setup as of the latter’s attitude/mental-disposition/care–and–episteme underlying its meaningfulness-and-teleology thus requiring the latter’s prior apriorising-teleological-elevation-in-ontological-contiguity to a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme ‘for the notion of the mutual contemplation of Newtonian physics to even arise’. This speaks of the centrality of attitude/mental-disposition/care–and–episteme with respect to human meaningfulness-and-teleology, as it is what underlies apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given registry-worldview’s/dimension’s institutionalisation reference-of-thought. Attitude/mental-disposition/care–and–episteme as such carries a registry-worldview’s/dimension’s ‘underlying sense of end-teleology/end-purposefulness’ and thereof its operative-construct and implicative-construct with regards to meaningfulness-and-teleology. It further implies a ‘the human toddling potential’ for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-
construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-upholding
the underlying framework of meaningfulness-and-teleology associated with that
attitude/mental-disposition/care–and–episteme; and so, whether such a framework is a
reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a
reference-of-thought like a social projection like a social projection of amplituding/formative–
For instance, with respect to coming across and living say in an early hunter-gather society with
its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-
episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-
conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-
teleology as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism
reference-of-thought we can further have the conception of the physics or biology or law or
literature or even just entrepreneur or accountant or technician specific attitude/mental-
disposition/care–and–episteme, and further at the individual level as of changing
attitude/mental-disposition/care–and–episteme with living-as-of-human-personality-
developing. Attitude/mental-disposition/care–and–episteme as so-construed is critical
fundamentally because the notionally inherent human capacity for aetiologisation/ontological-
elo-sal-escalation is directly associated with ‘attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness–by–

With regards to living-as-of-human-personality-developing, we can appreciate in the case of a child’s personality development as of its given attitude/mental-disposition/care—and–episteme that it has a poor dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification /contemplative-distension"6 as of its more direct focus on instant-sensations-and-carefreeness requiring that the child is directed to end at successive stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification /contemplative-distension"6 that ultimately involves major stages like schooling, greater social autonomy and responsibility, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification /contemplative-distension"6 as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-development—as-to-personality-development as dispensing-with-immediacy-for-relative-ontological-completeness’—by-reification /contemplative-distension"7 is construed as the more profound attitude/mental-disposition/care—and–episteme for human optimum living, and so over say an animal-like immediacy attitude/mental-disposition/care—and–episteme of living. With regards to the second-level of social aetiologisation/ontological-escalation associated with ‘attitude/mental-disposition/care—and–episteme’ dispensing-with-immediacy-for-relative-
ontological-completeness\textsuperscript{'1} by-reification\textsuperscript{2}/contemplative-distension\textsuperscript{3}, for achieving transcendence-and-sublimity/sublimation/supererogatory de-mentativity; humankind construes of existence as ‘more than just plain living as animals’ but as enabling for various domains of social projections dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{'4} by-reification\textsuperscript{5}/contemplative-distension\textsuperscript{6} so implied across the various registry-worldviews/dimensions, whether in an animistic social-setup involving animistic practices or in the modern social-setup as of our modern practices involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and other activities, etc.; with each involving their specific attitude/mental-disposition/care–and–episteme\textsuperscript{7} dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{'8} by-reification\textsuperscript{9}/contemplative-distension\textsuperscript{10}. The idea being that this provides more existential possibilities by the overall expanded human capabilities available directly or indirectly to fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity\textsuperscript{11}—of-the-human-institutionalisation-process\textsuperscript{12} as of difference-conflatedness\textsuperscript{'13} as to-totalitative-reification\textsuperscript{'14} in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing>\textsuperscript{'15} as veridical-epistemic-determinism\textsuperscript{16} <amplituding/formative–epistemicity> causality-as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{17}, with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{18}, beyond-the-consciousness-awareness-teleology\textsuperscript{19}<in-existential-extrication-as-of-existential-unthought>\textsuperscript{20}, implying specifically a nonextricatory-existential-preempting-of-existential-unthought attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness\textsuperscript{'21} by-reification\textsuperscript{'22}/contemplative-distension\textsuperscript{'23} of reference-of-

Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness—of-reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care–and–episteme\textsuperscript{6} contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care–and–episteme\textsuperscript{6} in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness—of-reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care–

absolute reference of ⁵⁶ meaningfulness-and-teleology ⁰⁰ ‘with little sense of coherence as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-
development-as-infrastructure-of–⁵⁴ meaningfulness-and-teleology ¹⁰⁰’, and thus the latter cannot
unlike the former be the framework for aetiologisation/ontological-escalation as of universal
implications, and particularly so as of the ‘naivety of eliciting mutual temporality ⁹⁹/shortness as
intemporality ⁴⁵/longness or eliciting of wooden-language—{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-

attitude/mental-disposition/care—and–episteme underlies the very idea of intellectual-and-
moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-
correspondence; as where one party does fulfils the attitude/mental-disposition/care—and–
episteme of a given institutionalisation’s reference-of-thought as of prospective relative-
ontological-completeness —of-axiomatic-construct—or- reference-of-thought and thus its
corresponding ⁵⁶ meaningfulness-and-teleology ⁰⁰, and the other doesn’t as of prior relative-

arise with the successive prospective institutionalisations in reflecting holographically—
<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-
institutionalisation-process ⁶⁴, wherein for instance the positivism
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care—and–episteme of say a Galileo or Descartes is circularly beyond the
contention framework of scholasticism ⁵™meaningfulness-and-teleology ¹⁰⁰, speaking of the
impossibility of logical-congruence between the positivists and scholastics with only the utter
dominance of positivism arising as of its ontological-prime movers-totalitative-framework ⁷
induced positive-opportunism ⁷⁶ as of scientific, medical, technical advancements, free society,
etc. that leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology\(^{(10)}\) while averting its denaturing \(^{5}\) by wrongly implying notional-contiguity/epistemic-contiguity\(^{(12)}\)-<profound-supererogation\(^{(17)}\)-of-mentally-aestheticised-postconverging/dialectical-thinking –qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity\(^{(14)}\)-<shallow-supererogation\(^{(17)}\)-of-mentally-aestheticised-preconverging/dementing’–qualia-schema> given the latter’s flawed preconverging–de-mentating/structuring/paradigming as of prior relative-ontological-incompleteness\(^{(10)}\)-of-\(^{14}\) reference-of-thought. The insight here is that more fundamentally knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating/supererogatory–de-mentativity above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing\(^{(102)}\) exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework ’, and so beyond institutional-being-and-craft and social-aggregation-enabling <amplitude/formative⟩ wooden-language\{imbued–averaging-of-thought–<as-to-leveling/ressentiment/closed-construct–meaningfulness-and-teleology–as-of–nondescript/ignorable–void ’–with-regards-to-prospective-apriorising-implications>}. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology\(^{(10)}\)-<in-existential-extrication-as-of-existential-unthought>\(^{9}\) denaturing \(^{5}\) of the requisite intellectualism required for further Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity, effectively there shouldn’t be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in other to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of ‘genuine intellectual disagreement’ but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory—de-mentativity implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness—of—reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness—of—reference-of-thought construes of ‘implied grounding of meaningfulness-and-teleology’ in terms—as-of-axiomatic-construct of prospective nonpresencing—<perspective—ontological-normalcy/postconvergence>. This brings home the reality that it is inevitable that all uninstitutionalised-threshold are necessarily ‘de-mentatively/structurally/paradigmatically conflicted’, with prospective transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-
being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding-positivism/rational-empiricism attitude/mental-disposition/care–and–episteme’ are de-mentatively/structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is de-mentatively/structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care–and–episteme; but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care–and–episteme) scholasticism and positivism are rather in transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; as so reflected in their mutually beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. This is equally reflected with regards to the prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness
attitude/mental-disposition/care–and–episteme as of its social-stake-contention-or-conflict while the very notion of perceiving highly the meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallow-minded to the notion of a prospectively undermining prospective nonpresencing-<perspective–ontological-normalcy/postconvergence> sublimity/sublimation/supererogatory–de-mentativity episteme transcendence-and-attitude/mental-disposition/care–and–reference-of-thought supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity meaningfullness-and-teleology attitude/mental-disposition/care–and–episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional–conflatedness of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency -(transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness ); for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturin for prospective institutionalisation. Central to such "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or impertinent as of concurrent ontological-primemovers-totalititative-framework, rather as of its commitment to "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation that in many ways could just as well validate <amplituding/formative> wooden-language-{imbued—averaging-of-thought-<as-to-leveling/resentment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignoreable—void ’-with-regards-to-prospective-apriorising-implications>} and untransvaluated—temporal-intemporality attitude/mental-disposition/care—and—episteme and their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but is rather geared towards a dogmatic mandarinism and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation that usurps the very notion of scepticism in "incrementalism-in-relative-ontological-incompleteness"—enframed-conceptualisation, and so as of the naïve implication that proceduralism is the substitute for existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating/supercratory—de-mentativity. This poor scepticism attitude/mental-disposition/care—and—episteme usurping the pre-established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, has <preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing>-existentialising—enframing/imprintedness-{as-to—historicity-tracing—in-

Rather the attitude/mental-disposition/care–and–episteme of genuine intellectual scepticism is encrusted within the very notion of prospective relative-ontological-completeness of human meaningfulness-and-teleolgy, given human limited-mentation-capacity-deepening. Such a genuine intellectual scepticism construes of knowledge by its given <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms–as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation.

While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidious passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity
scepticism involves eliciting a sense of immediacy and temporality\(^7\)/shortness as of<amplituding/formative> wooden-language-(imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable−void—with-regards-to-prospective-apriorising-implications>} and untransvaluated–temporal-intemporality\(^2\) social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness\(^8\)-by-reification\(^7\)/contemplative-distension\(^1\) intemporal detachment/backstep for transcendence-and-sublimity/sublimation/supererogatory−de-mentativity. In this latter respect, and for the possibility of prospective social transcendence-and-sublimity/sublimation/supererogatory−de-mentativity and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome of preceding prospective relative-ontological-completeness as of preceding intemporal dispensing-with-immediacy-for-relative-ontological-completeness\(^8\)-by-reification\(^7\)/contemplative-distension\(^1\), and by that very implication this is what carries the possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of prospective relative-ontological-completeness\(^8\), ontological-bad-faith/inauthenticity\(^6\) ad-hoc pretences extolling social practices as ofpresencing—absolutising-identitive-constitutedness\(^1\) but of a poor conception outside the prospective relative-ontological-completeness\(^8\) behind such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^8\), are but denaturing\(^5\) and down the line equally undermines prospective relative-ontological-completeness\(^8\) for the further emancipation of human social practices. In the bigger scheme of things, as of the notional–conflatedness of notional–deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded
successive registry-worldview/dimension rearticulated as of temporal-to-intemporal ontological-performance<sup>72</sup>-<including-virtue-as-ontology> of 4<amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought-devolving. The notion of beyond-the-consciousness-awareness-teleology<sup>100</sup>-<in-existential-extrication-as-of-existential-unthought> also highlights theoretically why the Husserlian epoché or bracketing method construed as eidetic reduction is ontologically-flawed by its apriorising/axiomatising/referencing—constitutedness as it naively imply circumscribing-as-‘epistemic-totality’/delineating-as-‘epistemic-totality’<sup>56</sup> meaningfulness-and-teleology<sup>100</sup> for its essence in presence, rather than the fact that presence<sup>8</sup>reference-of-thought as ‘metaphysics-of-presence<sup>21</sup>{implicated-’nondescript/ignoreable–void ’-as-to- presencing–absolutising-identitive-constitutedness } is de-mentatively/structurally/paradigmatically an ontologically-flawed bracketing or epoché as of ontological-normalcy/postconvergence, and is representing metaphysics-of-absence<sup>21</sup>{implicated-epistemic-veracity-of- nonpresencing–perspective–ontological-normalcy/postconvergence} implications as nondescript/ignoreable–void<sup>0</sup> (actually speaking of akrasiatic-drage-natured-and-preconverging-or-dementing<sup>19</sup>-narratives)’ when it comes to presence uninstitutionalised-threshold<sup>123</sup> reference-of-thought in its relative notional-discontiguity/epistemic-discontiguity<sup>12</sup>-<shallow-supererogation<sup>77</sup>-of-mentally-aestheticised–preconverging/dementing—qualia-schema>/relative-ontological-incompleteness<sup>1</sup>-of- reference-of-thought for meaningfulness-and-ontology ontological-performance<sup>72</sup>-<including-virtue-as-ontology>, as well as ignoring prospective institutionalisation implications construed as of ontological-normalcy/postconvergence. Such an eidetic reduction is circularly constraint in 4<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>13</sup> at its given registry-worldview’s/dimension’s reference-of-thought without factoring in the phenomenological implications of ‘intemporal ontological-faith-notion-or-ontological-
epistemicity>totalising-purview-of-construal’’ as of the variance of uninstitutionalised-threshold prior relative-ontological-incompleteness reference-of-thought and prospective institutionalisation relative-ontological-completeness reference-of-thought. For instance, such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality—of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing unintelligibility’ of the Galileos, Newtons, Diderots episteme articulating prospective positivising/rational-empiricism meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic episteme. The implication here is that the articulation of transcendence-and-sublimity/sublimation/supererogatory—dementativity as of reference-of-thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-or-ontological-good-faith/authenticity reference-of-thought, beyond just grounded knowledge as of the prior episteme which is rather construed as of unsoundness-or-ontological-bad-faith/inauthenticity reference-of-thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional—referential-notions/articulations/virtue to the full-potency of existence, and in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with respect to social universal-transparency (transparency-of-totalising-entailing,—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness), an
apparent episteme as of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human’amplituding/formative–epistemicity’totalising~purview-of-construal’’ arises as of institutional-being-and-craft. But then, where transcendental implications as of prospective institutionalisation prospective relative-ontological-completeness of reference-of-thought point to more profound reference-of-thought for construing/conceptualising existential-reality putting such a prior episteme in question, this induces a state of mutual ontological-bad-faith/inauthenticity between the prospective episteme and the prior episteme as of the lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human’amplituding/formative–epistemicity’totalising~purview-of-construal’’ with respect to social universal-transparency —{transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness }; and so more than just as of beyond-the-consciousness-awareness-teleology —<in-existential-extrication-as-of-existential-unthought>, but further because as of human-subpotency—aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint—imbued—‘notional~firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, there is ‘a drift from the ideal of knowledge agents only as ‘pertinent in delegation’ as of their ‘kowtowing to existential-reality’ towards a teleologically-degraded exercise of institutional-being-and-craft muddlement. It should be noted that such a notional construct of episteme interpreted herein is implied as of ‘dynamic social <amplituding/formative–epistemicity>totalising—self-referencing-syncretising’ across the entire social spectrum as of notional—episteme dynamically covering both informal institutional settings and formal institutional settings. In the bigger
scheme of things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with the ontological-contiguity\textsuperscript{17}—of-the-human-institutionalisation-process\textsuperscript{18} as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor arise wherein ‘the prior shaman is being contested by a new shaman in a hunter-gatherer society’ with possible accusations of witchcraft as of institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{19}, antinihilism and transcendental-enabling/sublimating/supererogatory–de-mentativity knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme de-mentatively/structurally/paradigmatically loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-behind-and-craft uninstitutionalised-threshold\textsuperscript{10} actually de-mentatively/structurally/paradigmatically beyond-the-consciousness-awareness-teleology\textsuperscript{11}–<in-existential-extrication-as-of-existential-unthought> undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating/supererogatory–de-mentativity of meaningfulness-and-teleology\textsuperscript{50}.
ontological-performance⁷²-<including-virtue-as-ontology> turning rather towards social-aggregation-enabling implications as meaningless-and-teleology⁹⁰ ontological-performance⁷²-<including-virtue-as-ontology>, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding-positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology⁹⁰ as of ontology’s-directedness-as-Being going by the human intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness⁸⁸—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality⁶¹; such that even the budding-positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence—’—existentialism-form-factor implies that it

Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\(^9\)-of-\(^4\) reference-of-thought social \(^1\) universal-transparency\(^10\)-\{transparency-of-totalising-entailing,as-to-entailing-\} \(<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\} that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality\(^9\). Likewise, prospectively it is a notional–deprocripticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness\(^9\)-of-\(^4\) reference-of-thought social \(^1\) universal-transparency\(^10\)-\{transparency-of-totalising-entailing,as-to-entailing-\} \(<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness\} that can render it untenable for procripticism temporal mental-dispositions to elicit \(^\) procripticism–or–disjointedness-as-of-\(^4\) reference-of-thought implied temporality\(^9\). Thus aetiology-isation/ontological-escalation is not about transforming the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatures—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-
normalcy/postconvergence→existentialism-form-factor as overcoming temporality/shortness inherently, but rather it is about bringing about prospective relative-ontological-completeness-of-reference-of-thought. The reality of human registry-worldview’s/dimension’s institutionalisation and uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating/supererogatory-de-mentativity is not socially integrated directly as of an dimensionality-of-sublimating ⟨amplituding/formative/supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ exercise engaging with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived at the uninstitutionalised-threshold as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This point out that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation mental-dispositions in their intemporality/longness or longness-of-register-of—meaningfulness-and-teleology are as of a projected-or-anticipated apriorising/axiomatising/referencing—conflatedness of social universal-transparency (transparency-of-totalising-entailing-as-to-entailing/amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness) for institutional and formal deferential-formalisation-transference as of percolation-channelling.<in-deferential-formalisation-transference>. That is at the uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is pragmatically expounded socially not in terms of its inherent dimensionality-of-sublimating ⟨amplituding/formative/supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ ideal
which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured construct of positive-opportunism\textsuperscript{76} as of institutional and formal percolation-channelling-\textlt{in-deferential-formalisation-transference}\textgreater{} to attain social approbation. It is such a ‘conflatedness’ structuring/paradigmatic secondnatured construct of positive-opportunism\textsuperscript{76} of institutional and formal deferential-formalisation-transference as of percolation-channelling-\textlt{in-deferential-formalisation-transference}\textgreater{} to attain social approbation’ that holds together in social universal-transparency\textlt{transparency-of-totalising-entailing,-as-to-entailing,\textlt{amplituding/formative–epistemicity}totalising–in-relative-ontological-completeness} temporality-to-intemperality solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a apriorising/axiomatising/referencing—conflatedness structuring/paradigmatic secondnatured construct, intemperality-as-ontological meaningfulness-and-teleology\textsuperscript{100} is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology\textsuperscript{100}. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology\textsuperscript{100} in recurrent-utter-uninstitutionalisation, just as that of ununiversalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively notional-deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their apriorising/axiomatising/referencing—conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism\textsuperscript{76} of institutional and formal deferential-formalisation-transference as of percolation-channelling-\textlt{in-deferential-formalisation-transference}. This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of apriorising/axiomatising/referencing—constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold\textsuperscript{03} rather by an incrementalism-in-relative-ontological-incompleteness\textsuperscript{90}—enframed-conceptualisation.
(I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemperal-ontological-performance\textsuperscript{12} -<including-virtue-as-ontology>) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere victims of the wars in a bizarre twist of mutual <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is \textsuperscript{10} universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating/supererogatory-de-mentativity ontological-primemovers-totalitative-framework\textsuperscript{7} construal as implied with notional–deprocrypticism as preempting—disjointedness-as-of–reference-of-thought and so be able to keep their head up from drowning in human <amplituding/formative–epistemicity>totalising–thrownness-in-existence\textsuperscript{14} (I exist

Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our

This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted by existence/existential-possibilities that is transcendental-enabling/sublimating/supererogatory-de-mentativity for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human
\textsuperscript{*}\textsuperscript{amplituding/formative–epistemicity}totalising–thrownness-in-existence\textsuperscript{51} (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory-de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\textsuperscript{72}-(including-virtue-as-ontology>) implies the need for a sound perpetuating construct of universal projection as intemporal\textsuperscript{55}-or-longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} as the opportunity for prospective transcendental-enabling/sublimating/supererogatory-de-mentativity. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly of entailing–\textsuperscript{*}\textsuperscript{amplituding/formative–epistemicity}totalising–in-relative-ontological-completeness\textsuperscript{55} thus hardly as of
aetiologisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating/supererogatory—de-mentativity beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive de-mentative/structural/paradigmatic determinism of the nation-state which became common just about 500 years ago has been a source of much of humankind’s problems as of ‘reactionary construal’ and humankind’s apriorising/axiomatising/referencing—constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a ‘response construal’ as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <amplituding/formative–epistemicity>totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory—de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance - <including-virtue-as-ontology>) as spirit failed to universalise and so Heidegger couldn’t carry the effective implications of his work to its true universal conclusion as he was caught up in the ‘reactionary construal’ of them-and-us, as his commitment to the ‘us’
overlooked/didn’t-come-into-grips with what the ‘us’ was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal ‘response construal’. This problem isn’t particular to Heidegger but for the fact that the underlying regime of ‘us’ were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a ‘response construal’ for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn’t a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida’s spirit insight as a ‘response construal’ could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism ‘reactionary construal’ which simply provides comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence-implicited-epistemic-veracity-of-nonpresencing-perspective-ontological-normale/postconvergence as of notional–deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-percepting/re-thinking beyond our apparently constricted metaphysics-of-presence-implicited-nondescript-ignorable–void-as-to-presencing-absolutising-identitive-constitutedness framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as implied here is with regards to
reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming–of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’ as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—‘human amplituding/formative—epistemicity—totalising–purview-of-construal’ in epistemic-conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity it inspired would have strove to arrive at, but according to this author wrongly understood transcendence-and-sublimity/sublimation/supererogatory—de-mentativity rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise ‘meaningfulness-and-teleology’ failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to—meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening arising in further apriorising/axiomatising/referencing—conflicatedness as of human maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation in an exercise of amplituding/formative—
existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in apriorising/axiomatising/referencing—constitutedness as the said ‘transcendental ego cannot invent existence as if preceding existence’ thus inducing apriorising/axiomatising/referencing—constitutedness. Rather existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation —<as-to-perspective-ontological-normalcy/postconvergence-implied—prospective-aporeticism-overcoming/unovercoming> is by itself construed as ‘the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising—purview-of—construal’ with nothing else outside or preceding it; as existence is an implied-axiomatic-construct-construed-as—reference-of-thought as an implied-theory, with the ‘implied about existence’ arising as of a given/specific apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given human limited-mentation-capacity implied registry-worldview/dimension consciousness, such that meaningfulness-and-teleology is as of existence’s implied axiomatic-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness-as-of-instantiative-context with no meaningfulness-and-teleology construable outside it but for an epistemic-totalising—renewing-realisation/re-perception/re-thought of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought’ as of human limited-mentation-capacity-deepening implied prospective registry-worldview/dimension consciousness and its corresponding existence’s the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,—as-to—human<amplituding/formative—epistemicity>totalising—purview-of-construal’ implied axiomatic-devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness-as—
of-instantiative-context, with no meaningfulness-and-teleology outside or preceding it. Thus apriorising/axiomatising/referencing—conflatedness warrants that human-subpotency becoming is amalgamated as of existence as of the underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological—primemovers-totalitative-framework conflationness and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for appropriate construal of meaningfulness-and-teleology ontological-performance including-virtue-as-ontology. The insight here is that we can’t be at a posture of prior relative-ontological-incompleteness of reference-of-thought in relative notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human totalising purview-of-construal’ and then pretend to ground meaningfulness-and-teleology about the nature of existence as if we are of ontological-completeness-of—reference-of-thought in ontological-contiguity as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as to ‘human totalising purview-of-construal’, as our state of relative-ontological-incompleteness perverts that grounding objective and rather points to the need for an notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema> induced psychoanalytic-unshackling towards a prospective state of prospective relative-ontological-completeness—of-reference-of-thought. What is fundamentally warranted is priorly attaining psychoanalytically,
author holds that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation meaningfulness-and-teleology reference-of-carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in apriorising/axiomatising/referencing—constitutedness as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought such as ‘non-rules—apriorising/axiomatising/referencing—psychologism—impulsive-or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation’ not cognisant of the apriorising/axiomatising/referencing—conflatedness possibility of prospective base-institutionalisation prospective relative-ontological-completeness reference-of-thought, ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of base-institutionalisation—ununiversalisation’ not cognisant of the apriorising/axiomatising/referencing—conflatedness possibility of prospective universalisation prospective relative-ontological-completeness reference-of-thought, ‘universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of universalisation—non-positivism/middleageism’ not cognisant of the apriorising/axiomatising/referencing—conflatedness possibility of prospective positivism prospective relative-ontological-completeness reference-of-thought, and in our case
‘positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of positivism—procrypticism’ not cognisant of the apriorising/axiomatising/referencing—confatedness possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism prospective relative-ontological-completeness of reference-of-thought. Such that it thus construes as absolutely reflecting existence/existential-possibilities by operations of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity on the basis of that given determination reference-of-thought—categorical-imperatives/axioms/registry-teleology with the consequence that its apriorising/axiomatising/referencing—constitutedness, since it doesn’t allows for superseding existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-determinative-of’ existence itself’ rather than taking its cue from the apriorising/axiomatising/referencing—confatedness of existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of existential-instantiations and as reflected at registry-worldview/dimension depth of construal as of reference-of-thought; as it then fails to grasp that ‘there is no understanding to be had outside the apriorising/axiomatising/referencing—confatedness of existence as of prospective relative-ontological-completeness of reference-of-thought’ with any such conceptualisation being nothing but vague virtuality that is not as of ontological-contiguity and ontological-veracity. Thus the problem of the philosophical tradition is notionally one of erroneous apriorising/axiomatising/referencing—constitutedness, and this issue is recurrent-beyond-historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—with-the-latter-only-a-bi-manifestation-of-the-reccurrence, as psychically-recurrent as of human shallow-to-deepening—

notional-conflatedness of notional-deprocrypticism behind the reality of a conceptualisation
of human nature rather more completely as of institutionalisation and uninstitutionalised-

<amplituding/formative-epistemicity>causality-as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and developing meaningfulness-and-teleology as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the apriorising/axiomatising/referencing—conflatedness of existential-instantiations successions
as it construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicited and implicated/intuited as of a
normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of the apriorising/axiomatising/referencing—conflatedness\(^7\) of the successive human consciousnesses ‘reference-of-thought—devolving-teleological-de-mentating/structuring/paradigming—of-meaningfulness’. Thus consciousness by its full development as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\(^5\)meaningfulness-and-teleology\(^1\) speaks fundamentally of the entire narrative possibilities of the human species as of human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence\(^6\). Such ‘consciousness apriorising/axiomatising/referencing—conflatedness\(^12\) of meaningfulness-and-teleology\(^1\)” is reflected by the signifying mirroring of meaningfulness-and-teleology\(^1\) that is language as of its metaphoricity\(^7\). Metaphoricity\(^7\) can thus be construed as the signification of articulated meaningfulness-and-teleology\(^1\) as of reference to existential-instantiation contexts adjunctively and not as naturally devolving into the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as signification of reference-of-thought, such that metaphoricity\(^7\) is rather an ‘adjunctive incorporation’ to the ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology\(^1\) is always susceptible to the further deepening of human limited-mentation-capacity as of <amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology\(^1\) arises out of the adjunction to this ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ and is adjoined to it as metaphoricity
, with metaphoricity construed as the signification implied as of syncretising-effecting meaningfulness-and-teleology.

Thus language effectively reflects the reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying
<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag

adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always
<amplituding/formative–epistemicity>totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of ‘reference-of-thought—devolving-teleological-dementating/structuring/paradigming–of-meaningfulness’. Such centered-

But then an adjunctive-metaphoricity\textsuperscript{57}-signification so produced as reflected by ‘a transcendental syncretising-effecting \textit{meaningfulness-and-teleology}\textsuperscript{100}’ like the construal of budding-positivism/rational-empiricism in medieval society, may turn out in-due-course/crossgenerationally to be of an even greater \textit{meaningfulness-and-teleology}\textsuperscript{100} \textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating effect over the prior notion of the ‘underlying \textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying \textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying \textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity\textsuperscript{57}-significations of the prior ‘underlying \textit{amplituding/formative–epistemicity}totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity^7^-significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity -significations of the prior ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity^7^-significations to which other adjunctive-metaphoricity -significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-teleology^100^, its adjunctive-metaphoricity -signification can be construed as of the historiality/ontological-eventfulness^77^/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism'> of crossgenerational positivism/rational-empiricism reappropriation of the ancient mathesis^104^ universalis metaphoricity as its very own ‘underlying <amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-construct of language’ ‘behind the instigative-drive for construing all human knowledge’ by such enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism leading to our present positivism/rational-empiricism dominant <amplituding/formative–epistemicity>totalising/circumscribing/delineating construct of meaningfulness-and-
textuality/hermeneutic/reprojecting/supererogating/zeroing~as-to-possibilities-of-self-becoming-as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence\textsuperscript{96} as of existential-stakes migration’, and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-dialectic in existential-contextualising-contiguity /Derridean-différance/Sartrean-existence-precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening\textsuperscript{3}. Such adjunctive-metaphoricity -significations apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} \textsuperscript{amplituding/formative—epistemicity-causality—as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\textsuperscript{67} mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity\textsuperscript{57} -significations apriorising/axiomatising/referencing—conflatedness\textsuperscript{12} induced ‘underlying \textsuperscript{amplituding/formative—epistemicity}totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity\textsuperscript{57} -significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay’ construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying \textsuperscript{amplituding/formative—epistemicity}totalising/circumscribing/delineating signifying-construct of language’ as of a
peculiar, intuitive and dynamic developing metaphority where ‘both the child and members
of the overall social-construct existentially adjust to each other as of spurious meaningful
utterances like mutual babbling and baby-talk’ while implicitly converging towards the child’s
adoption/integration at various stages of its existential development of the ‘underlying
<amplituding/formative–epistemicity>totalising/circumscribing/delineating signifying-
construct of language’ as it is reflected by the dynamics of social-construct existential
situations/instances, stakes, institutions and processes. But then as might be
phenomenologically appreciated the notion of language as of its existential import is thus
utterly dynamic as an overall signification construct that is never ‘absolutely present’ but rather
‘immensely existentially present’ with an ‘absolute language signification construct imagery
rather implied as of projection/anticipation but not phenomenologically real’ explaining the
concrete variation of individuals linguistic performance, as the phenomenality of language is
rather held together by ‘the given social-setup underlying supposedly coherent ontological-
commitment for its evolving-and-devolving construct of ‘meaningfulness-and-teleology’!
Thus phenomenologically, ‘language arises, ebbs and flows as of a continuously-elusive
individual and collective-social consciousness steering that reflects the
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-
social ‘meaningfulness-and-teleology’, and this equally explains why language evolves and
transforms over time. In effect, ‘language is never phenomenologically the complete
possibilities of language as an absolute present conception but is rather a becoming as of an
immensely-existentially-present signification reflected by individuals and the collective-social
along existential development stages as of the dynamics of social-construct existential
situations/instances, stakes, institutions and processes’. The above insight further points out the
pertinence of construing-of and analysing language more completely as of human
existentialism/thrownness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of ‘individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes’. This highlights the ‘knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay2 with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood’, notwithstanding the fact that the privileged social conceptualisation of language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose’. Metaphoricity57 is thus rather construed as of its overall apriorising/axiomatising/referencing—conflatedness <amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity7 of full consciousness development as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology10 underlying human sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming—as-of-‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology10 as of their peculiarity/differentiation to the entire textual/hermeneutic/reprojecting/supererogating/zeroing rhetorical-stylistic-semantic delivery, and as such metaphoricity57 induces <amplituding/formative–epistemicity>totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay2, ‘underlying
totalising/circumscribing/delineating signifying-construct of language’ and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations apriorising/axiomatising/referencing—conflatedness reflecting syncretising-effecting superseding of human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations apriorising/axiomatising/referencing—conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in apriorising/axiomatising/referencing—conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism>. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms—as-of-axiomatic-construct of its end-purpose as of the
normalcy/postconvergence-reflected-'epistemicity-relativism'>; this doesn’t reflect an inherent différance operant phenomenological process reality. Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-différance-freeplay as of transversality–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing102 of various temporal-to-intemporal perspectival existential amalgamation that de-mentatively/structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. Accreting-substitutive-subsumption-as-futural-différance-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected–'epistemicity-relativism'> as transcendental outcomes of such différance, accreting-substitutive-subsumption-as-futural-différance-freeplay is not only about the successive <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag3 as différance transcendent outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive
construed as the historiality/ontological-eventfulness\textsuperscript{77}/ontological-aesthetic-tracing-
<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism’> of the
différance. The implication here resonates with the idea that knowledge is much more than the
construal of conceptual sublimation knowledge outcome, but rather its construal as
notional–knowledge involving the dynamic understanding of both its
temporality /misconstrual/desublimation and intemporality -as-ontological-construal as of
accreting-substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} involving specifically
disambiguation as of human limited-mentation-capacity dynamics as of deneuterising\textsuperscript{1}—
referentialism and thus beyond \textsuperscript{1}‘neuterising’ reflecting the difference-in-nature/difference-in-
apriorising-or-axiomatising-or-referencing\textsuperscript{23} of the uninstitutionalised-threshold \textsuperscript{03} and the
prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just
about its conceptualised intemporality\textsuperscript{52}-as-ontology but involves grasping this together with
the implications of temporality\textsuperscript{99}, and so because of the circular existential implications of
human limited-mentation-capacity. Hence language can be more pertinently construed
ontologically as of the social dynamics of existential meaningfulness-and-teleology\textsuperscript{100}
signification than just as of just an outcome privileged institutional end-purpose
perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically
uninsightful as of the many existential implications behind comprehending language. Thus
human privileged social and institutional end-purpose perspective/framing/reference/horizon
tend to be in apriorising/axiomatising/referencing—constitutedness\textsuperscript{1}. Further such accreting-
substitutive-subsumption-as-futural-différance-freeplay\textsuperscript{2} is the existentially veridical and
effective basis for reflecting historiality/ontological-eventfulness\textsuperscript{77}/ontological-aesthetic-
tracing–<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-
relativism’> transcendental outcome as can be implied in a storied-construct/ontologically-
valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>—; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporal/longness doesn’t take its due place, it is occupied by ignorance as of human temporality /shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity—signification instigation of positivistic rationality as a potent construct took the form of a centered—epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendentally carries prospective Being adjunctive-metaphoricity—signification as of a potent construct for a centered—epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the
notional-conflatedness of notional-deprocrypticism deneuterising —referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of apriorising/axiomatising/referencing—conflatedness that ‘undermines the privileging of <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness as to de-mentative/structural/paradigmatic ‘ontological-contiguity’ or difference-of-kind’ disposition, and so beyond just reflecting such ‘presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity—relativism’>. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of apriorising/axiomatising/referencing—conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-educing—textuality/hermeneutic/reprojecting/supererogating/zeroing—as-to-possibilities-of-self-becoming-as-of—‘existential-interpretation/epistemicity-in-apriorising/axiomatising/referencing-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay différance’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of a
meaningfulness-and-teleology facet it is then already compromising nonpresencing—or–withdrawal—or–metaphysics-of-absence of accreting-substitutive-subsumption-as-futural-différance-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from nonpresencing—<perspective–ontological-normalcy/postconvergence> by their respective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of- apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay différance’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-constitutedness and nonpresencing—<perspective–ontological-normalcy/postconvergence> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising-or-referencing*), and so contradictorily as if both are of the presencing supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–ofapriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. With the reality that nonpresencing—<perspective–ontological-normalcy/postconvergence> is wrongly-and-
unsuspectingly given as of common \(^{68}\text{presencing—absolutising-identitive-constitutedness}\), thus inducing a relative ontologically-flawed quasi-transcendental freeplay as \(^{67}\text{nonpresencing-}<\text{perspective—ontological-normalcy/postconvergence}>\) is rather in notional-discontiguity/epistemic-discontiguity\(^{6}\text{-<shallow-supererogation>}"\^-of-mentally-aestheticised-preconverging/dementing –qualia-schema> when analysed as of \(^{13}\text{presencing—absolutising-identitive-constitutedness}\). Consider in this regard ‘the very same physics \(^{45}\text{<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality> with the articulation as of prior relative-ontological-incompleteness}\(^{89}\) being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness\(^{80}\) of-axiomatic-construct-or-\(^{84}\)reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating \(^{5}\text{meaningfulness-and-teleology}\(^{10}\) of ‘the very same physics \(^{45}\text{<amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality> as of ‘traditional classical mechanics axiomatic-construct’ construed as \(^{60}\text{presencing—absolutising-identitive-constitutedness}\) makes the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs construed as \(^{61}\text{nonpresencing-<perspective—ontological-normalcy/postconvergence> to wrongly be of notional-contiguity/epistemic-contiguity \^-<\text{profound-supererogation>"\^-of-mentally-aestheticised-<postconverging/dialectical-thinking –qualia-schema>\) with the ‘traditional classical mechanics axiomatic-construct’ \(^{61}\text{presencing—absolutising-identitive-constitutedness}\). Consider in this regard that the ‘Derridean quasi-transcendental-freeplay différance’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to
‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity\textsuperscript{7} -<shallow-supererogation\textsuperscript{7}-of-mentally-aestheticised-preconverging/dementing –qualia-schema> between the two as of their distinct supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument . Whereas accreting-substitutive-subsumption-as-futural-diffèreance-freeplay\textsuperscript{7} is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics\textsuperscript{7} <amplituding/formative–epistemicity>totalising–devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ transcendence-and-sublimity/sublimation/supererogatory–de-mentativity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of \textsuperscript{7} nonpresencing-<perspective–ontological-normalcy/postconvergence>. In any case thus such a ‘Derridean quasi-transcendental-freplay diffèreance’ doesn’t have any serious ontological consequences with respect to \textsuperscript{7} presencing—absolutising-identitive-constitutedness\textsuperscript{7} since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural diffèreance where \textsuperscript{7} meaningfulness-and-teleology\textsuperscript{7} is construed as of the prospective \textsuperscript{7} nonpresencing-<perspective–ontological-normalcy/postconvergence> supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument\textsuperscript{7} which points to a prospective relative-ontological-completeness /ontological-contiguity\textsuperscript{7} as of the very same <amplituding/formative–epistemicity>totalising–devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural diffèreance transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. It equally
of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, is not arbitrarily arising from any human-subpotency

-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ that phenomenological validates transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, and so implying human limited-mentation-capacity-deepening; and thus, this point that enables the Derridean freeplay différance as of tendential-deliberation-of-decidability to achieving transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is the full apriorising/axiomatising/referencing—confiliatedness reflecting existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation
-as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’ in its nonpresencing—<perspective—ontological-normalcy/postconvergence>, and so beyond just a Derridean freeplay différance which is then in apriorising/axiomatising/referencing—constitutedness as not factoring in the process of a tendential-deliberation-of-decidability towards attaining
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. Insightfully, we can grasp that the Derridean freeplay différance becomes as of apriorising/axiomatising/referencing—constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation

<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>. So because at the point of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation

<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’> and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation

<as-to-perspective-ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-overcoming/unovercoming’>, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency

<sublimating–nascence,-disclosed-from-prospective-epistemic-digression> as

This insight about ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality further reveals that prospective nonpresencing—reference-of-thought and devolving-axiomatic-constructs implications, and so as of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation articulation of such ideas as space-time, considering the ether as unreal, considering that the laws of physics are different at atomic scale, etc. as the fundamental basis for understanding the new physics as of its prospective relative-ontological-completeness—unenframed-conceptualisation.
completeness of reference-of-thought. Such a construal as a shift in axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-worldview, though it might pretty much be argued that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern science as of the fundamental human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing-developments in physics since then, even though its meaningfulness-and-teleology remains intelligible, more or less, to the positive science essentially by the modern conception of observational and experimental validation. However, the idea of requisite shift in attitude/mental-disposition/care–and–episteme from that simplistic ‘modern conception’ cannot be contested. Such an attitude/mental-disposition/care–and–episteme implied shift as articulated above, construed as of an overall registry-worldview/dimension reference-of-thought transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is rather ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of such attitude/mental-disposition/care–and–episteme transitioning have tended to take place rather crossgenerationally as of human beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today’s societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care–and–episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance–including-virtue-as-ontology; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care–
and–episteme of dual-language/split-mentality as of \( \text{amplituding/} \text{formative–} \text{epistemicity} \text{–} \text{totalising–thrownness-in-existence} \). (I exist therefore existence is of transcendental-enabling/sublimating/supererogatory/de-mentativity to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performance\(^{15}\)–\( \text{including-virtue-as-} \text{ontology}>\). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care–and–episteme of warring nations in the early 20\(^{th}\) century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18\(^{th}\) and 19\(^{th}\) centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care–and–episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality induced transcendence-and-sublimity/sublimation/supererogatory/de-mentativity speaks of a ‘reality as
of underlying human beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textsuperscript{100} \textsuperscript{100} <in-existential-extrication-as-of-existential-unthought>\textsuperscript{6}, that reflects a human tacit awareness that the grounding of its \textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care–and–episteme for more profound-and-complete meaningfullness-and-teleology\textsuperscript{100}. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a \textsuperscript{84} reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics–axiomatic-constructs within the positivism/rational-empiricism \textsuperscript{84} reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of \textsuperscript{84} reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into \textsuperscript{56} meaningfullness-and-teleology\textsuperscript{100} as grounded on a given ‘registry-worldview’s/dimension’s \textsuperscript{84} reference-of-thought <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag \textsuperscript{33} established existential–epistemic-totalisation-of–meaningfullness-and-teleology\textsuperscript{100}′ as well as the ‘psychological comfort’ habituated at the given \textsuperscript{58} neuterising. But then every registry-worldview/dimension has its own specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfullness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism is exactly the capacity to construe meaningfullness-and-teleology\textsuperscript{100} as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn’t allow for meaningfullness-and-teleology\textsuperscript{100} beyond-the-consciousness-awareness-teleology\textsuperscript{100} \textsuperscript{100} <in-existent-extrication-as-of-existential-unthought>\textsuperscript{6} arising as of human prior relative-ontological-incompleteness\textsuperscript{84}–of– reference-of-thought. The fact is the ontological-faith-notion-
or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality
apriorising/axiomatising/referencing—conflicatedness implication with respect to existence-potency sublimating–nascence, disclosed-from-prospective-epistemic-digression is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior nonpresencing-<perspective–ontological-normalcy/postconvergence> as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency sublimating–nascence, disclosed-from-prospective-epistemic-digression relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of human limited-mentation-capacity prospective relative-ontological-completeness of-axiomatic-construct-or-reference-of-thought <amplituding/formative–epistemicity> causality as-to-projective-totalitative-implications-of-prospective- nonpresencing, for-explicating-ontological-contiguity for transcendence-and-sublimity/sublimation/supererogatory de-mentativity, implied as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This explains why ontology’s-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and notional-deprocrypticism registry-worldviews/dimensions nonpresencing-<perspective–ontological-normalcy/postconvergence> respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care–and–episteme as of relevant
For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like ‘space’, ‘time’, ‘ether’ and ‘the laws of physics at atomic scale had to be the same as at the macroscale’, were all wrong. Thus ‘speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity’ in a state of prior relative-ontological-incompleteness of reference-of-thought. It is human limited-mentation-capacity-deepening as of prospective relative-ontological-completeness of reference-of-thought as subsequently assuming as more real the notion of ‘space-time’, ‘considering the ether as unreal’, ‘considering that the laws of physics are different at atomic scale from the macroscale’, etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening for human emancipation. Thus implying existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing directed directly to inherent-existence-as-of-existential-reality/existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression as to intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-
recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{45} nonpresencing>\textsuperscript{93} as of human limited-mentation-capacity-deepening \ bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of \textsuperscript{45} human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{45} nonpresencing>\textsuperscript{93} has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening \textsuperscript{45} human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{45} nonpresencing>\textsuperscript{93}’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising \textsuperscript{45} meaningfulness-and-teleology\textsuperscript{100} that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective \textsuperscript{45} meaningfulness-and-teleology\textsuperscript{100}’ as we cannot argue that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the \textsuperscript{45} human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-<as-to-the-nondisjointedness/entailment-of-prospective-\textsuperscript{45} nonpresencing>\textsuperscript{93} that led to human limited-mentation-capacity-deepening \textsuperscript{45}. Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness\textsuperscript{89} of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity\textsuperscript{77}—of-the-human-institutionalisation-process\textsuperscript{68} behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{45} meaningfulness-and-teleology\textsuperscript{100}. 704

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’, is mostly about dismissing the prior relative-ontological-incompleteness’-of- reference-of-thought as when a critique of notional-discontiguity/epistemic-discontiguity’-<shallow-supererogation’-of-mentally-aestheticised-preconverging/dementing–qualia-schema> exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to ‘circumvent genuine intellectual engagement’ for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology’’-<in-existential-extrication-as-of-existential-unthought>’. Just as it was perceived as a fool’s errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding-positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter’s institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for  universal-transparency’<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } as of overall underlying human ontological-commitment as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation for relative-ontological-completeness; it is inevitably the case that what is most critically warranted is for the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ to articulate its full-fledged discourse as of universal-transparency’<transparency-of-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness } as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted
representation of postmodern-thought. The reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional–firstnaturedness—temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speaking of
human shallow-to-deeper limited-mentation-capacity implies that prospective de-
mentative/structural/paradigmatic transcendental knowledge by its so-projected intemporality,
at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall
human social-stake-contention-or-confliction framework as of the lack of universal-
transparency–{transparency-of-totalising-entailing–as-to-entailing–<amplituding/formative–
epistemicity>totalising–in-relative-ontological-completeness } for its prospective
institutionalisation. Critical for the social validation and institutionalisation of any de-
mentative/structural/paradigmatic transcendental knowledge is the fact that its ‘concurrent
ontological-primemovers-totalitative-framework ’ is not sufficiently decisive given that human
temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the
uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of
such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-
framework ’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-
framework ’ of the prospective positivism/rational-realism transcendental knowledge
articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as a meaningfulness-and-
teleology of prospective relative-ontological-completeness–of–reference-of-thought
validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-
framework ’. Such ‘concurrent ontological-primemovers-totalitative-framework ’ was not a
sufficient basis for their ideas to be socially adopted by the medieval establishment social-
stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-
positivism/medievalism. The point being made here is that within a given registry-
worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-
primemovers-totalitative-framework’ is only more or less determinant as of the
institutionalisation’s internal basis of validation of knowledge grounded on its ‘reference-of-
as of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating
reference-of-thought–devolving’. However, at its uninstitutionalised-threshold the
prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the
prospective institutionalisation’s basis of validation of knowledge grounded on the ‘reference-
of the prospective institutionalisation’s <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’ will not
necessarily meet with the approbation of the prior institutionalisation now construed as the
uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-
teleology.<in-existential-extrication-as-of-existential-unthought>. This has to do with the
fact that the full-potency of existence that divulges relative ontological-verticality supersedes
human-subpotency epistemising orientation towards its, and thus epistemic constructs as of
human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency
of existence; as existence doesn’t adjust to human-subpotency with the reverse being true,
equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of
prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-
primemovers-totalitative-framework’ as the basis for the validation of knowledge is
inherently ontologically veridical as of a given institutionalisation’s internal ‘reference-of-
thought–categorical-imperatives/axioms/registry-teleology’, for-
aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology

of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought–devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,—for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of its <amplituding/formative–epistemicity>totalising/circumscribing/delineating reference-of-thought—devolving’, which should and cannot be ignored by any proponent of prospective de-mentative/structural/paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ induced as of a de-mentative/structural/paradigmatic transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’ establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such

prospective-ontology-origination positivism/rational-empiricism thought. In other words, human dimensionality-of-sublimating \{<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} as inclination to adhere to prospective de-mentative/structural/paradigmatic transcendental knowledge as of its ‘concurrent ontological-primemovers-totalitative-framework’ is very much limited and such prospective ‘concurrent ontological-primemovers-totalitative-framework’ however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern-day medicine however its overall ‘concurrent ontological-primemovers-totalitative-framework’ over other types of premodern medicine, will often be suspected and avoided as of its poorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, and it is only after it has been ‘socially habituated-as-institutionalised’ that it has the requisite ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This equally manifests as of prospective de-mentative/structural/paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental \{meaningfulness-and-teleology\} superseding uninstitutionalised-threshold do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ instigated-and-upheld by the associated successive prospective ‘concurrent ontological-primemovers-
totalitative-framework could be ‘objected to as of human social-stake-contention-or-confliction framework’ notwithstanding its inherent prospective relative-ontological-completeness of reference-of-thought; any such prospective de-mentative/structural/paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ that as of its prospective relative-ontological-completeness supersedes the prior relative-ontological-incompleteness of reference-of-thought, just as positivism/rational-empricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-
formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance ^\textsuperscript{71}^-<including-virtue-as-ontology> of any ^\textsuperscript{84} reference-of-thought–\textsuperscript{8} categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-aposteriorising/logicising/deriving/intelligising/measuring–\textsuperscript{100} meaningfulness-and-teleology\textsuperscript{100}.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{84} reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology\textsuperscript{100}^-<in-existential-extrication-as-of-existential-unthought> in terms–as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-\textsuperscript{84} reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care–and–episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care–and–episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care–and–episteme. In this regard, attitude/mental-disposition/care–and–episteme is fundamentally the

The practical implications as well should be that meaningfulness and definitions often articulated about postmodern-thought that do not capture the postmodern deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme should be rejected; as the tendency for postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that at its very core postmodern-thought is implying a prospective/new prospective relative-ontological-completeness’-of- reference-of-thought requiring its own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard, central to translating-as-reconceptualising prior and new postmodern-thought as of its very own ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of- reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ organic-knowledge is the requirement for an affirmative mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of ontologically flawed metanarratives and its pursuit for the most profound-and-complete objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality involving its ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism- towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing’ as of human existential-contextualising-contiguity ’; and it is much more than just a naïve notion of a multiplicity of narratives as wrongly implied from the modern take of <preconverging~’motif-and-apriorising/axiomatising/referencing’—imbuing>-existentialising—enframing/imprintedness<<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> necessarily subject to ontological-bad-faith/inauthenticity as of the modern’s take prospective uninstitutionalised-threshold of procrypticism or disjointedness—as-of reference-of-thought in many ways explaining the

The ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ should equally enable the avoidance of the erroneously implication of ‘a metaphysical/ideological advocacy’ as postmodern-thought as to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing> is so with regards to the inherent ontological sublimating human possibility in existence/intrinsic-reality/ontological-veridicality as to human-subpotency implied human potential, and so as emphasised and reflected with regards to the need for human limited-mentation-capacity-deepening. We can garner insight about how we tend to misconstrue any attitude/mental-
episteme of wholly immersed-and-engrossed \(^5\) meaningfulness-and-teleology \(^6\). The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care—and—episteme \(^5\) by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care—and—episteme’ and then reflect the other attitude/mental-disposition/care—and—episteme \(^5\) referred to posteriorly, and hence the latter is adhocrly-and-scantily identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care—and—episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness—and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed \(^5\) meaningfulness-and-teleology \(^6\) between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care—and—episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care—and—episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care—and—episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity \(^7\). Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care—and—episteme \(^5\), beyond the natural inclination, is to understand that attitude/mental-disposition/care—and—episteme as ‘assumed-and-unflinching transversality—of-affirmative-and-unaffirmative—disambiguated—’motif-and-apriorising/axiomatising/referencing’ \(^10\) implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed ‘meaningfulness-and-teleology’ \(^10\) as of their given \(^9\) neuterising-as-of-prior-relative-ontologicl-incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care—and—episteme’ or deneuterising -as-of-prospective-relative-ontological-completeness \(^8\) of—reference-of-thought if a
development-as-infrastructure-of-meaningfulness-and-teleology as of prospective notional-deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. Effectively, ‘postmodern deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ implied notional-deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<amplituding/formative–epistemicity>totalising~purview-of-construal’. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening has always encountered its uninstitutionalised-threshold all along in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of—meaningfulness-and-teleology and intemporal/longness-of-register-of—meaningfulness-and-teleology nature at uninstitutionalised-threshold, as of prospective institutionalisation
disposition/care–and–episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential scope’ that is construed essentially as-of untransvaluated–temporal–intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of–meaningfulness-and-teleology posture in, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge-notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity/sublimation/supererogatory-de–mentativity, as knowledge-notionalisation not only factors in conceptual sublimation knowledge dynamics but equally the dynamics of the conceptual ignorances/desublimation to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality, as-to-‘human epistemicity–purview-of-construal’, the ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of–reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
disposition/care–and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its prospective de-mentative/structural/paradigmatic prospective relative-ontological-completeness -of- reference-of-thought; and so beyond just amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care–and–episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically disempowered to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its amplituding/formative-epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procripticism–or–disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness -of- reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procripticism uninstitutionalisation. Such prospective change as of de-mentation (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of attitude/mental-disposition/care–and–episteme can be appreciated

This underscores Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} implied notion of responsibility as reflected by the Nietzschean metaphor ‘God is dead’, castigatory of ‘beyond-the-consciousness-awareness-teleology\textsuperscript{100}<-in-existential-extrication-as-of-existential-unthought>\textsuperscript{5} attitude/mental-disposition/care–and–episteme’ which is inclined to pass on to ‘a certain Messiah’ the possibility of our Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} with the paradox of assuming the pretence of understanding Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated–temporal-intemporality\textsuperscript{52} notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of
‘notional-deprocrypticism attitude/mental-disposition/care–and–episteme\(^5\) as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought’; as much more than just with regards to a resolutory conception of acts and miscuings in temporality\(^9\)/shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind’s temporal ontological-contiguity\(^6\) as beyond-the-consciousness-awareness-teleology\(^6\)-<in-existential-extrication-as-of-existential-unthought>\(^5\) attitude/mental-disposition/care–and–episteme with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity –in-reification\(^7\)/dereification cognisant-and-integrative of such acts and miscuings in temporality\(^6\), thus endemising and enculturating the reference-of-thought vices-and-impediments \(^6\). Thus such Being underdevelopment, construed as of dynamic social-chainism of human temporality\(^9\)/shortness endemisation and enculturation as of the universal implications of such endemising and enculturating preconverging-de-mentating/structuring/paradigming in ontological-contiguity\(^6\), warrants corresponding aetiologisation/ontological-escalation superseding ethos as of ‘notional–deprocrypticism attitude/mental-disposition/care–and–episteme as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought’ notional-discontiguity/epistemic-discontiguity\(^5\)-<shallow-supererogation -of-mentally-aestheticised–preconverging/dementing –qualia-schema>. The fact is any registry-worldview/dimension as of its ‘present attitude/mental-disposition/care–and–episteme’ is de-mentatively/structurally/paradigmatically oblivious-to and does-not-reflect its very own prospective relative-ontological-complete-ness\(^8\)-of-\(^1\) reference-of-thought as the underlying basis of its own specific-level induced vices-and-impediments \(^6\), and is rather palliative as of its selecting, triaging, mutually-concurring-and-accommodating and power-relations driven
palliating virtue constructs. The question can actually be asked, as of prospective relative-ontological-completeness<sup>56</sup>-of-<sup>80</sup>reference-of-thought of the notional-discontiguity/epistemic-discontiguity<sup>65</sup>-<shallow-supererogation<sup>97</sup>-of-mentally-aestheticised–preconverging/dementing<sup>19</sup>–qualia-schema> of this ‘made-up’ normativity supposed ontological-contiguity, whether such a prior relative-ontological-incompleteness<sup>89</sup>-of-reference-of-thought as <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag<sup>33</sup> is actually as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–<sup>56</sup>meaningfulness-and-teleology<sup>100</sup> at its uninstitutionalised-threshold<sup>84</sup>, and in a position, on the basis of such palliation, to address the actual fundamental grounding of its vices-and-impediments<sup>106</sup>; which in reality are actually ontologically addressable/resolvable as to existence-potency<sup>38</sup>–sublimating–nascence,-disclosed-from-prospective-epistemic-digression so-implied as of prospective relative-ontological-completeness<sup>88</sup>-of-reference-of-thought.

What is particular with notional-discontiguity/epistemic-discontiguity<sup>65</sup>-<shallow-supererogation<sup>97</sup>-of-mentally-aestheticised–preconverging/dementing<sup>19</sup>–qualia-schema> is this insight that fundamentally the appropriate prospective relative-ontological-completeness<sup>88</sup>-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme precedes-and-is-the-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-to its requisite <sup>56</sup>meaningfulness-and-teleology<sup>100</sup> as prospective aetiologisation/ontological-escalation. apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so superseding that of the uninstitutionalised-threshold. We can appreciate in this regard that budding-positivism/rational-empiricism and its associated liberality that was the backdrop for technical and organisation possibilities that actually required their interpretation in terms—

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument \[\text{reference-of-thought}\] categorical-imperatives/axioms/registry-teleology,\[\text{for-}\]

It is to be noted here that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument precedence of attitude/mental-disposition/care–and–episteme
but with us adjusting our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology in order to reflect ontologically-veridical signification as of existence. And intuitively from our positivistic angle we can effectively recognise this about all the prior registry-worldviews/dimensions reference-of-thought as we appreciate that by reflex these are just beholden to their very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology reasoning-from-results/afterthought, but it is hard from our positivistic angle to then appreciate that prospectively we are equally in such a beheld positivism—procrypticism attitude/mental-disposition/care—and—episteme ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, which when shown to be of prior relative-ontological-incompleteness of reference-of-thought as of procrypticism—or—disjointedness-as-of-reference-of-thought implies necessarily the need for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought attitude/mental-disposition/care—and—episteme ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-

But then with respect to the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity, the question arises as to how it is possible for human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity to occur given its ‘re-originarity—as-unenframed/unbeholdening/outlier-conceptualisation—⟨imbued-postconverging/dialectical-thinking —‘projective-insights’/‘epistemic-projection-in-conflatedness —of-notional—deprocrypticism-prospective-sublimation⟩’ metaphoricity instigation’ in the face of any registry-worldview/dimension <amplituding/formative> wooden-language—⟨imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—‘nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications⟩} natural inclination rather for construing meaningfulness-and-teleology\(^{100}\) as ‘wholly of its cloistered-consciousness living experience only’ whether as of recurrent-utter-uninstitutionalisation only, base-institutionalisation—ununiversalisation only, universalisation—non-positivism/medievalism only or in our case positivism–procrypticism only, with a rather poor inkling for appreciating meaningfulness-and-teleology\(^{100}\) as of a protracted-consciousness associated with grasping Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of, meaningfulness-and-teleology\(^{100}\). This brings home the fact that however the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation

Inevitably thus this conundrum points out that the instigating of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{10} is as of intemporal/longness-of-register-of—\textsuperscript{5} meaningfulness-and-teleology\textsuperscript{10} dimensionality-of-sublimating—

This ‘out of thin air’ metaphoricity possibility arises because the ‘full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence’ is ever one of nonpresencing-

with respect to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology, the further insight of ‘out of thin air’ metaphoricity as of human limited-mentation-capacity-deepening comes with the possibility of its ontological-primemovers-totalitative-framework validation
by existence-potency~sublimating-nascence,-disclosed-from-prospective-epistemic-digression. In this regard, the ontologically-veridical ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of’ reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ with respect to our modern take <amplituding/formative> wooden-language-{imbued—averaging-of-thought<-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable—void ’-with-regards-to-prospective-apriorising-implications}> reasoning-from-results/afterthought logocentric apriorising/axiomatising/referencing—constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of-reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding-positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm ‘meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness—as-of-reference-of-thought. Insightfully, and as is the case with all prospective transcendence-and-sublimity/sublimation/supercogitative—de-mentativity implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding-positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding-positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement
motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism–or–preempting—disjointedness-as-of—reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms—as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding-postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-notional–deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology. We can equally appreciate here that such a conception of transcendence-and-sublimity/sublimation/supercorrigibility—de-mentativity is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter

It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness of reference-of-thought is ‘a dimensionality-of-sublimating

In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–and–episteme of medievalism–non-positivism or positivism/rational-empiricism manifestation of procrypticism–or–disjointedness-as-of reference-of-thought, but rather as of its very own transcendental-enabling/sublimating/supererogatory–de-mentativity prospective institutionalisation attitude/mental-disposition/care–and–episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-
full-potency of existence as of prospective ontological-prinemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of- de-mentionation (supererogatory—ontological—de-mentionation-or-dialectical—de-mentionation—stranding-or- attributive-dialectics) enabling its prospective relative-ontological-completeness. Dimensionality-of-sublimating ⟨<amplituding/formative>supererogatory—de- mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation⟩ articulation of reasoning-through/messianic-reasoning cannot be construed as amenable to the contending disposition of prior deferential-formalisation-transference secondnaturered institutionalisation, thus the irrelevance/impertinence of any such implied contending as of prior reasoning-from-results/afterthought, as any such contention can only re-arise as of the reasoning-through/messianic-reasoning renewing of secondnaturered prospective ‘reason-from-results’/afterthought. In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance -<including-virtue-as-ontology>. In this regards, we can appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern-day science ontologisation; and besides, it can equally perfectly be claimed that even our modern-day positivistic civilisation is not beyond a critique of ‘deficient ontologisation’ as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and

pointing to the centrality of originariness-parrhesia,—as—spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation transformation towards prospective ontologisation rather than the mere critique of any given human aestheticisation as of its inherence, as the fact is all human aestheticisations including religion (which is often a target in modern times, however rightly so on many an occasion) are sub-ontological-as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence’s—sublimating—nascence> and the more salient point is in instigating their more profound ontologisation/ontological-veracity/aestheticisation-towards-ontology as of relative-ontological-incompleteness/relative-ontological-completeness{(sublimating—referencing/registering/decisioning,—as-self-becoming/self-conflatedness/formative—supererogating—(projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normalcy/postconvergence))}<amplituding/formative—epistemicity—causality—as-to-projective-totalitative—implications-of-prospective nonpresencing,—for-explicating-ontological-contiguity. It is thus not odd that as of human emotional-involvement implications, Socratic-philosophers\(^{(10)}\) universalising-idealisation and budding-positivists projected ‘meaningfulness-and-teleology’ infrastructure rather met initially with the antipathy of their underpinning–suprasocial-construct and \(<\text{amplituding/formative}>\) wooden-language\((\text{imbued—averaging-of-thought—}\text{as-to-leveling/ressentiment/closed-construct-of—}\text{meaningfulness-and-teleology \text{-as-of—'nondescript/ignorable–void '—with-regards-to—prospective-apriorising-implications}>\) and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic \(\text{presencing—absolutising-identitive-constitutedness}\(\text{-ontologically-flawed disparateness-of-conceptualisation—}<\text{unforegrounding-disentailment,—failing-to-reflect—'immanent-ontological-contiguity'>}\) whether with the Ancient-sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the
universalising-idealisation infrastructure of the Socratic-philosophers and their successors as providing the appropriate infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced infrastructure of budding-positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their far-flung societies opportunistic activities distortive of budding-positivism infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,–for-explicating-ontological-contiguity’ in reflecting holographically–<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness–as-to-totalitative-reification—in-singularisation–<as-to-the-nondisjointedness/entailment-of-prospective–nonpresencing>–as-veridical-epistemic-determinism underlying the human construction-of-the-Self” and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a wooden-language<imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology—as-of–‘nondescript/ignorable–void’–with-regards-to-prospective-apriorising-implications>⟩ in
syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s [8] presencing—absolutising-identitive-constitutedness [1]—of—meaningfulness-and-teleology [100] and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘de-mentative/structural/paradigmatic marginal equity of social–value-construction’, so-construed as ‘expected equity of all individuals for social–value-construction’ and so rather as from the de-mentative/structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent de-mentative/structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of
‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\(^\text{67}\) comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern-day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of causality~as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\(^\text{67}\), as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive ‘presencing—absolutising-identitive-constitutedness\(^\text{13}\) is
geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating “historiality/ontological-eventfulness”/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—'epistemicity-relativism’> notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-veracity. In this regards, our present rational-empiricism/positivism occlusivity warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional-deprocrypticism or <amplituding/formative>notional–preempting—disjointedness-as-of” reference-of-thought appropriate foregrounding—entailment—{postconverging–narrowing-down–sublimation-as-to—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation —'in—reflecting—'immanent-ontological-contiguity ';—as-operative-notional—deprocrypticism}; and so as the disparateness-of-conceptualisation—<unforegrounding-disentailment,—failing-to-reflect—

Such occlusive-collateral aspects take the form of economic dysfunction and inequities as occlusively-collateral to economic ideologism, social dysfunction and discriminations as occlusively-collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed occlusively as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is de-mentatively/structurally/paradigmatically potently conducive/endemising/enculturating of its vices-and-impediments (as so-reflecting the grandest deeds of ontological-performance—including-virtue-as-

mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought- devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its supererogatory acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its supererogatory acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn’t implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression, so-construed as ‘human-subpotency ontological-performance’–<including-virtue-as-ontology> within the full-potency-of-existence’s–sublimating–nascence-as-of-its-coherence/contiguity’; and specifically speaks as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility –(imbued-and-'hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation), wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a
human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation de-
mentatively/structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is de-
mentatively/structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that ‘human sovereignty and free-will is deflated going by the ontological-veracity of human as of ‘the specific human-subpotency implications as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility’; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this defines human ontological-performance reflected as of constructiveness-of-ontological-performance and destructuring-threshold of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance of-ontological-performance. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human is rather grounded in the reality that all humans come into existence as of an overall framework of living-development as-to-personality-development, institutional-development as-to-social-function-development and Being-development/ontological-framework-expansion as-to-depth-
of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance—<including-virtue-as-ontology> (reflected as of constructiveness-of-ontological-performance—<including-virtue-as-ontology> and destructuring-threshold—<uninstitutionalised-threshold/presublimating—desublimating-decisionality)—of-ontological-performance—<including-virtue-as-ontology>) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology—and then ‘the individual dimensionality-of-sublimating—<amplituding/formative—supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation> mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> reflected in <amplituding/formative—
implications upon human sovereignty and free-will }). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historiality/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency/sublimating-nascence, disclosed from prospective-epistemic-digression as to existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’>, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—\{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\} as to difference-conflatedness—as-to-totalitative-reification—in-singularisation—<as-to-the-nondisjointedness/entailment-of-prospective—nonpresencing—<amplituding/formative—epistemicity>causality—as-to-projective-totalitative—implications-of-prospective—nonpresencing,—for-explicating—ontological-contiguity successiveness of registry-worldviews/dimensions. Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness \(88\) as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity \(7\) of-the-human-institutionalisation-process \(8\) dimensionality-of-sublimating \(54\).

Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can’t imply that we have a choice of gravity on earth as 6 m/s² rather than the existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression manifestation of 9.8 m/s² and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation—unforegrounding-disentailment,—failing-to-reflect—‘immanent-ontological-contiguity’. Insightfully, the very essence of ‘overall existence phenomenal appraisal of \(^5\) meaningfulness-and-teleology\(^{10}\) as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly
comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness’ appraisal of ‘meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from
prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications reflected as existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—mathesis/motif/thrownness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in apriorising/axiomatising/referencing—conflatedness as of human ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression from such human-subpotency prior reproducibility—conflatedness as of human <amplituding/formative–epistemicity>totalising–thrownness-in-existence revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression rather than the epistemic-veracity of difference-conflatedness~as-to-totalitative-reification~in-singularisation<as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing>as-veridical-epistemic-determinism<amplituding/formative–epistemicity>causality~as-to-projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern-day institutional practices of science, with all fundamentally driven not by any ‘purported science-ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-
contextualising-contiguity" knowledge-reification" rather than ‘any implied notion that

sublimating-withdrawal,-eliciting-of-prospective-supererogation"-<as-to-perspective-
ontological-normalcy/postconvergence-implied-‘prospective-aporeticism-
overcoming/unovercoming’>. A further twist to such a poor conception of human sovereignty
and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-
formalisation-transference as being de-mentatively/structurally/paradigmatically both-
intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is
human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-
of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-
fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-
its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining
to the customer what is advantageously entailed in a convincing manner (as of ‘mere
appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-
free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will
truly resolve the technical issue (as they are just looking to contract the job) is not really
advancing the sovereign choice of the customer compared to another plumber who undertakes a
candid professional assessment that may not sound advantageous with the customer (as they are
more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-
free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a
deferential-formalisation-transference situation will most likely agree. Such operation of human
sovereignty and free-will, beyond more or less simplistic social situations as the case
highlighted above, is supposedly implied in the operation of all human institutions as of their
inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of
‘implications of deferential-formalisation-transference as being de-
mentatively/structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather de-mentative/structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for
the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-ontological-incompleteness /relative-ontological-completeness\(^2\)-{sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence)}\(^4\)\(^\circ\) causality~as-to-projective-totalitative–implications-of-prospective\(^6\) nonpresencing,-for-explicating-ontological-contiguity\(^7\) in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^8\); going by the phronesis/practicality as of our positivism–procrypticism occlusivity, the assessment of institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’, as advancing human sovereignty and free-will as of deferential-formalisation-transference implications, can be rather straightforward with regards to relatively compact/self-contained institutional functions and roles usually involved in direct public service delivery but it is much more difficult with spurious/supporting institutional functions and roles. We can appreciate in this regards that public scandals generally tend to arise out of public services and private services delivery institutional frameworks as of their relatively compact/self-contained institutional functions and roles, and that issues of transparency rendering such assessment difficult generally arise with regards to underlying spurious/supporting/supervisory/regulatory institutional functions and roles. In another respect concerning the modern-day media, the need for relevant and balanced/equanimous communication and information delivery to the general public has increasingly been taking a backseat, and so fundamentally as the media becomes more of a business-making institution and rather plays a weaker and ancillary/perfunctory role in public
policies and politics accountability. This is paradoxically reflected in the reality that despite the huge choice of media today, strangely enough this has rather been associated with greater public muddlement with regards to political stakes and public policies; undermining the political process as increasingly public policies are preconvergently–dementated/structured/paradigmed to default/revert into the interests of powerful groups and corporations with the support of increasingly astute, surreptitious and media-savvy political and economic think-tanks, as their media underhandedness in many ways foil the possibility for credible and effective public interest debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation.

In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern-day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-
party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-mentation-capacity-deepening as to the ‘relative-ontological-incompleteness’/relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing,–in-perspective–ontological-normalcy/postconvergence)) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming–psychologism for knowledge-reification underlying sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism> as of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and–‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation): as the fact is the conception of human sovereignty and free-will effectively varied in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process as from the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—(imbued-and–‘hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–

This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence-as-transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness’ in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’, reflecting a human-causative-construction conception in apriorising/axiomatising/referencing—conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional–projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in apriorising/axiomatising/referencing—constitutedness as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for ‘relative-ontological-incompleteness’/relative-ontological-completeness (sublimating–referencing/registering/decisioning,–as-self-becoming/self-conflatedness /formative–supererogating–(projective/reprojective—aestheticising-re-motif—
and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism—that effectively and empirically underline sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing—perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism>; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as ‘outside

The reason why such a ‘human social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all \(^5\) meaningfulness-and-teleology\(^10\) (as implied with the logical operation of any such projected ‘human social-vestedness/normativity-\(<\text{discretely-implied-functionalism}>\) implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’)) operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity\(^9\) thus subject to analysis as of ‘relative-ontological-incompleteness\(^9\)/relative-ontological-completeness\(^8\)’

metaphoricity —as-rede-mentating/restructuring/reparadigming—psychologism^90 as to their existential-reality veracity, such that fundamentally such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation about human sovereignty and free-will are rather ‘internally inconsistent’ and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness^88. Consider in this regards for instance as of the presencing—absolutising-identitive-constitutedness^13 notion of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness^88 as what is then implied from the relative-ontological-completeness^88 perspective is the supererogatory-acuity/perspicacity/astuteness/edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument^1 in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring—<as-to-preconverging-or-dementing—in-apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-

The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-as-to-preconverging-or-dementing—apriorising-psychologism> of any such implied slavery ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’. This points to the reality that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy/preconvergence with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-prime movers-totalitative-framework construable ‘de-mentative/structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-
arrangement-or-political-coercion/given-discrete-social–value-construction’ which is then taken
to be natural to the point of ‘forgetting/overlooking that it is underlied by

this equally applies with less starkly obvious situations having to do with human social
differentiation as well as any other situations requiring prospective knowledge-reification\(^2\) as the possibility for all human progress arises effectively as a result of the transcending of all such human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint power-grabbing/appropriating/usurpatory/arrogating implications construed as ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as well as their socially attendant situations in need for prospective knowledge-reification\(^2\); and so not as of a falsely implied logical-dueness and logical engagement that wrongly validate the relative-ontological-incompleteness apriorising/axiomatising/referencing of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ as being of existential-reality in relative-ontological-completeness\(^8\), but rather as of the relative-ontological-completeness perspective supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument\(^3\) in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring-<as-to-preconverging-or-dementing\(^9\)–apriorising-psychologism> of such implied ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. In fact, such an interpretation about the ontological-veracity of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-
grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendency of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness and not subject to prospective ‘relative-ontological-incompleteness/relative-ontological-completeness—⟨sublimating~referencing/registering/decisioning,—as-self-becoming/self-conflatedness /formative–supererogating-(projective/reprojective—aestheticising-re-motif—and–re-apriorising/re-axiomatising/re-referencing,—in-perspective–ontological-normalcy/postconvergence)) as to human-and-social–expectations/anticipations—metaphoricity—as-rede-mentating/restructuring/reparadigming—psychologism with regards to an animal of limited-mentation-capacity requiring its prospective limited-mentation-capacity-deepening (and thus paradoxically in want of its very own ‘prospective <amplituding/formative–epistemicity>growth-or-conflatedness’/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness magnanimity induced

In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment\(^2\); and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality’/shortness <amplituding/formative> wooden-language-\{imbued-
deepening). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity-<discretely-implied-functionalism> undermining of human dispensing-with-immediacy-for-relative-ontological-completeness—by-reification/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge-notionalisation (as of prospective human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology ), de-mentatively/structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency-{transparency-of-totalising-entailing—as-to-entailing-<amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness }-or-understanding-of-ontological-prime-movers-totalitative-framework’—of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-
‘notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression) is effectively what underlies human institutional paralysis and social-vestedness/normativity-<discretely-implied-functionalism> as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological, organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social-and-institutional-frameworks-of—referencing/registering/decisioning actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology—<in-existential-extrication-as-of-existential-unthought>) is predicated upon and drags along the
shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition), and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology); and in many ways this historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has already been stifling/stalling the human prospective potential as from the ontological-normalcy/postconvergence perspective conception of future historicity/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected—epistemicity-relativism> relevant to deprocrypticism—or—preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition override prospective originariness-parrhesia, as spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition thus foregoes the construal of human meaningfulness-and-teleology as a construct of re-originariness/re-origination of meaningfulness-and-teleology as to human limited-mentation-capacity-deepening so-implied from the ontological-normalcy/postconvergence epistemic/notional—projective-perspective as to maximalising-recomposuring-for-relative-

incompleteness—enframed-conceptualisation hanging on to historicity-tracing—in-
-presencing–hyperrealisation/hyperreal-transposition presencing—absolutising-identitive-
constitutedness notional framework of human stake-contention-or-confliction. historicity-
tracing—in-presencing–hyperrealisation/hyperreal-transposition thus involves a
<amplituding/formative–epistemicity>totalising/circumscribing/delineating conception of
social-vestedness/normativity-<discretely-implied-functionalism> as to an underlying human
psychological entrapment (as of living-development—as-to-personality-development,
institutional-development—as-to-social-function-development and Being-
development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology ) that is incapable to re-stake/put-back-at-
stake meaningfulness-and-teleology out of its historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition social-vestedness/normativity-<discretely-implied-
functionalism> in order to reflect the true prospective overall aestheticisation–and–
aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence
epistemic/notional–projective-perspective re-originariness/re-origination of human limited-
mentation-capacity-deepening. Such social and institutional social-vestedness/normativity-
<discretely-implied-functionalism> for instance like in many ways the practice in modern-day
scholarship (especially when poorly constrained to existence-potency~sublimating–nasence,-
disclosed-from-prospective-epistemic-digression) is bound to ‘make its own weather’ rather as
from human-subpotency temporality/shortness; wherein ‘invested’ institutional and
theoretical/conceptual postures take on an essence all of their own, and so independently and
overlooking the precedence of existential-reality for the possibility for prospective sublimation
and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-
subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued- ‘notional–firstnaturedness—temporal-
to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-
normalcy/postconvergence>’–existentialism-form-factor’; and so in all situations particularly
those poorly constrained to existence-potency ~sublimating–nascence,-disclosed-from-
prospective-epistemic-digression. Such that such ontologically-flawed presencing—
absolutising-identitive-constitutedness becomes a psychological entrapment of an
overwhelming presence hardly capable of profound re-originariness/re-origination but for its
thresholding to the accrued historicity-tracing—in-presencing–hyperrealisation/hyperreal-
transposition perception of temporal/shortness human stakes-contention-or-confliction
framework; with the consequence that this mitigates the possibility to broaden-the-latitude-of-
human-collective-consciousness off-the-beaten-path of historicity-tracing—in-presencing–
hyperrealisation/hyperreal-transposition (as of living-development–as-to-personality-
development, institutional-development–as-to-social-function-development and Being-
development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
infrastructure-of–meaningfulness-and-teleology ) as to the relation with human lopsided
material/equipment/accoutrement sublimation, as such a consciousness increasingly adopts a
desublimation/gimmickiness rather than its very own sublimation in tandem with
material/equipment/accoutrement sublimation. This is reflected with the increasing
remoteness/alooftness and alienation of the generalised human subject from such
material/equipment/accoutrement sublimation captured under abstract institutional frameworks
of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be
attended-to and accommodated/unaccommodated by the lopsided
material/equipment/accoutrement sublimation) in order to maximise passive enculturation and
merchandising as of presencing—absolutising-identitive-constitutedness-of–
meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now dementatively/structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional—projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought.

Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social-and-institutional-frameworks-of—referencing/registering/decisioning are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to presencing—absolutising-identitive-constitutedness—of—meaningfulness-and-teleology given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness given meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the
comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology<sup>100</sup>—<in-existential-extrication-as-of-existential-unthought>); and so as potently contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and—aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and—aestheticisation-towards-ontology as <sup>56</sup>meaningfulness-and-teleology<sup>100</sup> with respect to the potential for prospective human consciousness sublimation as of a totalising-entailing projection of dispensing-with-immediacy-for-relative-ontological-completeness<sup>39</sup>-by-reification<sup>27</sup>/contemplative-distension<sup>26</sup>. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events<sup>37</sup> like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-orginariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a <sup>56</sup>presencing—absolutising-identitive-constitutedness<sup>12</sup>-of—<sup>56</sup>meaningfulness-and-teleology<sup>100</sup> given historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’ that passivises and blanks thus undermining/stifling the possibility for prospective <sup>46</sup>historiality/ontological-eventfulness<sup>17</sup>/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs—of—meaningfulness-and-teleology<sup>100</sup>—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity—<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’
absolutising-identitive-constitutedness\textsuperscript{13} at our positivism–procrypticism, and prospectively full-conflatedness\textsuperscript{12} at prospective deprocrypticism; rather speaks to a more fundamental driver as to underlying ontological-veracity (as to supposedly coherent ontological-commitment\textsuperscript{6} with regards to the ‘full-conflatedness’\textsuperscript{12} of apriorising/axiomatising/referencing–conceptualisation as to existence-potency\textsuperscript{3}~sublimating–nascence,-disclosed-from-prospective-epistemic-digression) but that such a reality is oblivious to the traditional construal in \textsuperscript{10}presencing—absolutising-identitive-constitutedness\textsuperscript{13} of apriorising/axiomatising/referencing–conceptualisation that speaks of ‘human social-vestedness/normativity-<discretely-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ in \textsuperscript{10}presencing—absolutising-identitive-constitutedness\textsuperscript{13}. Human \(^8\) presencing—absolutising-identitive-constitutedness\(^{13}\) as the very seeding disposition for \(^4\) historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and—aestheticisation-towards-ontology framework; such that the propensity for human \(^5\) meaningfulness-and-teleology\(^{100}\) to be instigated (as to human limited-mentation-capacity-deepening\(^5\) before any construable human panoramic-sublimating-criticality outcome of \(^5\) meaningfulness-and-teleology\(^{100}\) has ever always been bound to take ‘a notionally-collateralising inclination detour of aestheticisation—and—aestheticisation-towards-ontology’ (as of the defining ‘originariness-by-reproducibility-laddering effect of human ontological-performance’ \(<\text{including-virtue-as-ontology}>\)’), and so as of the ‘varying magnitudes/scales—as-to-successively-profound-rede-mentating/restructuring/reparadigming—frames-as-from-living,—institutionalising,—and—Being—ontologising/infrastructure-of—meaningfulness-and-teleology\(^{100}\) of prospective human-subpotency—aporia/undecidability/dilemma/ought—indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturedness—temporal—to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>—existentialism-form-factor’ (with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{100}\) in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process\(^4\) successive registry-worldviews/dimensions). of-the-human-institutionalisation-process\textsuperscript{68} (and particularly as it bears upon prospective notional–deprocrypticism as the ultimate de-mentative/structural/paradigmatic issue with regards to addressing prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint). This dimensionality issue in reflecting holographically-\textsuperscript{conjugatively-and-transfusively} the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{68} can be reflected in the recurrent variance of ‘dimensionality-of-desublimating-lack-of \textsuperscript{\langle\text{amplituding/formative}\text{–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness }/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle}’ and dimensionality-of-sublimating \textsuperscript{\langle\text{amplituding/formative}\text{–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness }/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle}; as implied contrastively say with the-sophists/medieval-scholastics lack-of-dimensionality-of-sublimating \textsuperscript{\langle\text{amplituding/formative}\text{–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness }/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle} and Socratic-philosophers/budding-positivists dimensionality-of-sublimating \textsuperscript{\langle\text{amplituding/formative}\text{–supererogatory–de-mentativeness/epistemic-growth-or-conflatedness }/\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle} as reflected say in an ordinary non-universalising/non-positivism–medievalism world inclined to construe of its ‘normality’ (notional-contiguity/epistemic-contiguity\textsuperscript{\langle\text{profound-supererogation}\text{–of-mentally-aestheticised–postconverging/dialectical-thinking}\rangle}–qualia-schema\rangle) as given even in the face of its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity\textsuperscript{\langle\text{shallow-supererogation}\text{–of-mentally-aestheticised–preconverging/dementing}\rangle}–qualia-schema\rangle) from the projected universalising-idealisation/rational-empiricism implications. This reality is equally applicable
to our state of positivism–procrypticism as to a disinclination to perceive its prospectively implied ‘abnormality’ (notional-discontiguity/epistemic-discontiguity→<shallow-supererogation→of-mentally-aestheticised–preconverging/dementing→–qualia-schema>) as projected from prospective deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought. In many ways, as of reproducibility—mathesis/motif/thrownness-disposition,–as–reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing–psychologism to project of the amplituding/formative–epistemicity→causality→as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity of prospective base-institutionalisation–ununiversalisation, just as the latter with prospective universalisation–non-positivism/medievalism, likewise the latter with prospective positivism–procrypticism, and likewise our positivism–procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the amplituding/formative–epistemicity→totalising→self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of dimensionality–of-desublimating-lack-of supererogatory→de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness→equalisation (in existential-extrication–as–of–existential–unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity→<shallow-supererogation→of-mentally-aestheticised–preconverging/dementing→–qualia-schema>); as reflected in the fact that the supposed intellection of the non-universalising sophists, the medieval-scholastics and our present pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation (blurring/undermining–of–prospective-totalising–entailing,–as–to–entailing–).

In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency—sublimating–nascence,-disclosed-from-prospective-epistemic-digression) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur totalisingly-disentailing—discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency

We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain-of-study at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-over-desublimating implications of existence-potency sublimating–nascence,-disclosed-from-prospective-epistemic-digression) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence de-mentative/structural/paradigmatic implications. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility—{imbued-and—hermeneutically/reprojectively/supererogatingly/zeroingly-educing—human-subpotency—epistemic-perspective—re-projective—reprojective—aestheticising—the-motif—and—the—apriorising/re-axiomatising/re-referencing—conceptualisation} to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflicatedness. Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural

More than just about abstract knowledge-reification the implications of science-ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology100, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn’t critically about the ‘technicalities of the budding natural science they advanced’ like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions where previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology100 in those scientific terms and the future elaboration and development of the natural sciences could only be rendered
possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding-positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding-positivists for having a poor experimental framework as of ontologically-deficient \(^8\) presencing—absolutising-identitive-constitutedness\(^1\) analyses that fail to factor in that the very notion of ‘positivistic science experimental framework \(^8\) historiality/ontological-eventfulness \(^/\) ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>’ was developed and encultured/constructed as scientific practices by these budding-positivists with their medieval societies previously knowing nothing of such as to their medieval-scholasticism (as to the mere disinclination and incuriosity to even look through a telescope and draw contemplative consequences); and such a criticism on the basis of the subsequently developed and more precise modern-day science experimental framework speaks of the characteristic nature of a supposed knowledge-reification \(^7\) exercise that doesn’t factor in human limited-mentation-capacity-deepening\(^5\) as of relative-ontological-incompleteness\(^9\) to ‘relative-ontological-incompleteness\(^9\) /relative-ontological-completeness \(^/\) as to human-and-social–expectations/anticipations—metaphoricity \(^–\) as-rede-mentating/restructuring/reparadigming–psychologism\(^9\) as to \(^\langle\text{amplituding/formative–epistemicity}\rangle\) causality–as-to-projective-totalitative–implications-of-prospective–nonpresencing,-for-explicating-ontological-contiguity\(^9\). Thus in many ways ‘the possibility for science to prospectively arise’ involved its very own dispensing-with-

as—reproducibility-of-aestheticisation as of prior-apriorising/axiomatising/referencing—

that ultimately translates into the ‘methodological, epistemic, institutional and social sagging of
human knowledge-reification’ reflected abstractly in crises of methodology, epistemicity and

Thus the reality of prospective human emancipation in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of—true

But then such apparently defining limitation to ‘boundless human aestheticisation–and–aestheticisation-towards-ontology’ when analysed as to the reality of human transformation across the time scale in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process (wherein the successive registry-worldviews/dimensions as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation right up to our present positivism and so as from the appearance of mankind on earth about 200000 years ago) show ‘a time-accelerated metaphoricity potentiation’ when we consider that our present positivism registry-worldview is just about 500 years, pointing out that as of our specific human-subpotency as to overall overall reifying-and-empowering-

This reflects the reality that the transcendental<sup>56</sup> meaningfulness-and-teleology<sup>100</sup> of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought respectively are effectively only marginally integratable respectively to prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or—disjointedness-as-of—reference-of-thought (as to crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so only as the former induce their ‘prospective predicative-effectivity—sublimation—{as-to-underlying-ontological-commitment} constraining that prospectively transforms human ontological-performance<sup>72</sup>-<including-virtue-as-ontology> capacity’; thus reflecting the tight-and-entwined relationship
encapsulated herein with the projected human-subpotency protensivity in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process; as to the budding prospect of an extensively systemic notional–deprocrypticism ‘prospective predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment}’ constraining that prospectively transforms human ontological-performance—<including-virtue-as-ontology> capacity’, that protends to a comprehensive unification of human social and techno-scientific sublimation in overcoming human disparateness-of-conceptualisation—<unforegrounding-disentailment,-failing-to-reflect-immanent-ontological-contiguity—>. The insight arising from this extensively systemic notional–deprocrypticism ‘prospective predicative-effectivity–sublimation—<as-to-underlying-ontological-commitment}’ constraining that prospectively transforms human ontological-performance—<including-virtue-as-ontology> capacity’ is the ontological-veracity that all social-vestedness/normativity—<discretely-implied-functionalism> value-constructions are effectively ever as of prior-apriorising/axiomatising/referencing–dialogical-equivalence—<as-superseded-logical-basis> as so-construed from ‘notional–deprocrypticism inducing relative-ontological-completeness’ of prospective-apriorising/axiomatising/referencing–dialogical-equivalence—<as-superseding-logical-basis>. But then such reductionism actually fails the ‘necessitation test of any science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural sciences as to their inherent phenomenal/manifest—subpotencies—{in-transitive-conflatedness—reflexivity,—in-the-full—potency-of-existence’s—sublimating–nascence} to then ‘utilise the clout to falsely imply substitutive/reductionist sublation over the social and socio-psychological phenomenal/manifest—subpotencies—{in-transitive-conflatedness—reflexivity,—in-the-full—potency-of-existence’s—sublimating–nascence}’ (as so-reflected with practices of science-ideology associated with biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological). But then the giveaway of such a flawed conception of science/ontology lies in the fact that such approaches do not project any ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ as all pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘<amplituding/formative–epistemicity>totalising/circumscribing/delineating necessitation frame–of–ontological-contiguity’ of physics, chemistry, biological, genetic theories as to the ontological-contiguity imbedded foregrounding—entailment—{(postconverging—narrowing—}

reality of such biological/neurological and evolutionary substitutive/reductionist interpretations
of the social and socio-psychological is rather one that points out that the ‘traditional nature

basic epistemic innocence/naivety) such biological/neurological and evolutionary
interpretations substitutive/reductionist epistemic-conception then provide the room for
sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences
qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating
interpretations about the social (on the basis of the ‘hollow impressiveness of the natural
sciences’) as a psychological trick/gimmick as to rendering knowledge-reification
sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes.
Such claims often project/imply that analysing the social qua social is just about irrelevant (or
paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological
trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from
the clout of a natural science without demonstrating the epistemic-veracity for such a

with direct social and institutional issues, crises and failures. A ‘purist science/ontology

from the latitude of ‘human social-vestedness/normativity–<discretely-implied-functionalism>

commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-
potency–sublimating–nascence,-disclosed-from-prospective-epistemic-digression) even over
manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-
conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated
with human limited-mentation-capacity-deepening’ (as involved in the reconceptualisation of
the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics,
etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-
normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of
intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-
mentation-capacity-deepening’ speak to the more profound reality that the ordinariness of
human thought across the succession of human registry-worldviews/dimensions points to their
‘epistemic-abnormalcy/preconvergence’ despite the delusion of all registry-
worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being
of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-
normalcy/postconvergence epistemic-projection perspective) that prospective human progress
and emancipation as of human transcendence-and-sublimity/sublimation/supererogatory–de-
mentativity can occur in the very first place (in contradiction to all such registry-

prospective transcendence-and-sublimity/sublimation/supererogatory–de-

successive registry-worldviews/dimensions” presencing—absolutising-identitive-

In contrast the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity-<discreetly-implied-functionalism> implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising human-subpotency methodologising/mutualising/organising/institutionalising grounds for veracity/truth rather than eliciting prospective sublimating existence’s necessitating implications and consequences. ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given ‘presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism—or–disjointedness-as-of–reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism—or–preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. institutionalisation as involving crossgenerational psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appending as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking
hint that it is fundamentally a question about existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence’s necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to ‘virtual wisdoms’ is nothing more than <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag>. Hence basically the overall differentiation between ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity–<discretely-implied-functionalism> epistemic-conception of veracity/truth’ lies with their constraining whether towards inherent existence projected implications or towards human-subpotency projected implications respectively. This underlying point has de-mentative/structural/paradigmatic implications with regards to human meaningfulness-and-teleology (as to human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology). This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to existence-potency–sublimating–nascence–disclosed-from-prospective-epistemic-digression) is ‘the scalar conception that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on the other hand human-subpotency (as to human presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag> ) is ‘a non-scalar conception that induces prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s
ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance (including-virtue-as-ontology) (associated with prospective human sublimation) into: ‘a scalability/immanency perspective (as to a scalability/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historiality/ontological-eventfulness/ontological-aesthetic-tracing/perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’ and ‘a non-scalarity/beholdening-as-to-what-has-gone-before-aesthetically-dementates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation perspective (with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition’. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension doesn’t achieve absolute ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalability/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-
sublimating \{<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} as the inherent ontological-good-faith/authenticity\(^0\)–postconverging–

Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening<-as-to-what-has-gone-before-aesthetically-de-
mentates/structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance -<including-virtue-as-ontology> with regards to human \(^5\)meaningfulness-and-teleology\(^4\) speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desublimate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the de-mentative/structural/paradigmatic effect of relative limited-mentation-capacity-
deepening\(^5\) in constrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity<-discretely-implied-functionalism>
epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation } is strongly prone to desublimating \(^4\) historicity-tracing— in-presencing—hyperrealisation/hyperreal-transposition of ‘human-subpotency non-scalarity/beholdening—<as-to-what-has-gone-before- aesthetically-de-mentates/structures/paradigms-distortedly-the-possibility-for-the-later- ontologisation>’ in \(^3\) presencing—absolutising-identitive-constitutedness } , while the former strongly constrained to high predicative-effectivity–sublimation } is rather relatively amenable to sublimating \(^4\) historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as of ‘ scalability/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual–function/posture arising as of ‘social-vestedness/normativity-<discretely-implied-functionalism> epistemic-conception of veracity/truth’ is often associated with vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating \(^4\) historicity-tracing— in-presencing—hyperrealisation/hyperreal-transposition) as superseding social intellection itself as an inherent exercise for the social domain’s ‘purist science/ontology epistemic-conception of veracity/truth’ (as to the latter’s prospective sublimating \(^4\) historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-
relativism’). Critically such a ‘purist science/ontology epistemic-conception of veracity/truth’
analysis very much point out that the social-construct is riddled with narratives of ‘supposedly
veridical ontological justifications/grounds’ but which on closer examination as of ‘purist
science/ontology epistemic-conception of veracity/truth’ turn out to be at the least sub-
ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-

impertinence of the ‘social-vestedness/normativity-<discretely-implied-functionalism>
epistemic-conception of veracity/truth’ (so-construed as from the ontological-
normalcy/postconvergence epistemic-projection perspective). This insight further informs
prospective notional–deprocrypticism appraisal of the ‘tight-and-entwined relationship between
the overall human ontological-commitment’ (across all registry-worldviews/dimensions) and
(corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation-{as-to-
underlying-ontological-commitment} (reflecting ‘scalarity/immanency of existence’s
ontological-normalcy/postconvergence’). In this regards, the de-
mentative/structural/paradigmatic implications of ‘human notional–firstnaturedness—temporal-

We can appreciate in this regards that budding-positivists ‘meaningfulness-and-teleology[10] however relatively intelligible to us today, wouldn’t make sense to the ‘ordinariness/common sensicality of the non-positivism/medievalism prior institutionalisation secondnatured apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity[8]’ but the fact is that such budding-positivism in its re-dementating/restructuring/reparadigming for relative-ontological-completeness rather induced the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for our

with respect to prospective deprocripticism—or-preempting—disjointedness-as-of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards,
just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness by-

But then as across the successive registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for sophistic/pedantic practices whether as with the Ancient-sophists or medievalism-scholastics or today institutional-being-and-craft pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation-{blurring/undermining-of-prospective-totalising-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness}. What is central to all such sophistry is their emphasis on the notion that prospective knowledge is attained as to the sensibility/decorum as of \(^9\) presencing—absolutising-identitive-constitutedness \(^3\) \(<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiac-drag \(^7\) ; explaining their pedantic obsession. On the other hand, what is central with prospective genuine knowledge is ever always the emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-desublimation as to the implications of the ‘tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and (corresponding registry-worldviews/dimensions) predicative-effectivity–sublimation\(<as-to-underlying-ontological-commitment>\) as critically enabling prospective sublimation’ so-implied as to existence-potency\(^8\)–sublimating–nascence,—disclosed-from-prospective-epistemic-digression. The strategic problem faced by the Ancient-sophists and medievalism-scholastics in this respect (beyond-the-consciousness-awareness-teleology\(^9\)-<in-existential-extrication-as-of-existential-unthought>\(^9\)) is how to exploit the fact that there is no ‘\(^{10}\) universalising-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation\(<as-to-underlying-ontological-commitment>\)’ and no ‘positivism/rational-empiricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation\(<as-to-underlying-

Likewise, it is herein contended that a tradition of philosophy introduced and propped up after the second-world-war and a general social science and humanities attitude and practices closely associated with this orientation (as to perceived geostrategic reasons for undermining the possibility of unfettered thought paradoxically uncritical/thoughtless about the social implications associated with poor/usurped social critique) is fundamentally grounded on an actively surreptitious exercise of presencing—absolutising-identitive-constitutedness <amplituding/formative–epistemicity> totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that in many ways (given the inherent impotency it induces as recognised explicitly and implicitly by even its very own leading figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>-existentialising—enframing/imprintedness ⟨as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition⟩. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways
explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation promising postmodern-thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation⟩{as-to-underlying-ontological-commitment}’ (withstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional pre-eminence over inherent knowledge-reification. But then the Ancient-sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency—sublimating–nascence, disclosed–from-prospective-epistemic-digression allowing for prospective Socratic-philosophers universalising-idealisation and budding-positivism as to their respectively induced ‘universalising-idealisation—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation⟩{as-to-underlying-ontological-commitment}’ and ‘positivism/rational-empricism—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation⟩{as-to-underlying-ontological-commitment}’ constraining in the face of ‘human notional–firstnatedness—temporal-to-intemporal–

sublimating base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocriptism respectively over desublimating recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procripticism respectively, and the failure to articulate this requisite ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming’ existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ is a failure to meet the ‘prospectively warranted organicknowledge epistemic-veracity’ as failing to reflect supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation in implying that ‘the sublimating apriorising/axiomatising/referencing–psychologism is the valid logical-basis’ and ‘the desublimating apriorising/axiomatising/referencing–psychologism is the invalid logical-basis’. This point out that the successive relative-ontological-completeness as base-institutionalisation, universalisation, positivism/rational-empiricism and notional–deprocriptism respectively are actually projective-insights speaking to the fact that human prospective emancipation should rather be construed as of ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ as so-enabling the transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of the respective prior relative-ontological-incompleteness of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procripticism. Such ‘human reference-of-thought (as grandest axiomatic-construct level) research-programme conception’ reflects the fact that it is the ‘prospective de-mentative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ as so-induced by notional–asceticism reasoning-through/messianic-reasoning’ that affirmatively validates any of the respective relative-ontological-completeness registry-worldviews/dimensions instigated human
emancipation, and so as to the fact that the corresponding reasoning-from-results/afterthought inducing secondnatured institutionalisation (that speaks to collective thought in any given registry-worldview/dimension) while serving its secondnatururing institutionalisation purpose ‘is overrated with regards to the challenge of human aporeticism at prospective uninstitutionalised-threshold and shouldn’t be the threshold/limit for determining the possibility for prospective human emancipation (since it is relatively of poor responsiveness to prospective human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology which rather requires instigative notional~asceticism reasoning-through/messianic-reasoning (as to the fact that for instance it is naïve to conceive that it was the ‘pure articulation of positivism/rational-empiricism logic that convinced/converted the non-positivism/medieval world into our positivism world’ but rather decisive in the secondnatururing of positivism/rational-empiricism was the notional~asceticism reasoning-through/messianic-reasoning instigative detour to positivism/rational-empiricism dementative/structural/paradigmatic sublimation as to existence—as-sublimating-withdrawal,- eliciting-of-prospective-supererogation manifested as of the ships that set sail around the world for spices and trade eliciting a positive commercial opportunism that is decisively responsible for destroying the collective social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not and draw the health implications constrained the destruction of a collective superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, constrained the collective need to adopt a scientific worldview, etc.). Since the relative-ontological-completeness logical-basis/logic—<as-to—transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing is in transversality—of-affirmative-and-unaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing with the relative-ontological-incompleteness logical-
basis/logic-as-to—transversality-of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing, it is only the sublimation as to existence—as-sublimating-withdrawal—eliciting-of-prospective-supererogation that affirmatively upholds the relative-ontological-completeness over the relative-ontological-incompleteness (as to their supposedly coherent ontological-commitment). In other words, genuinely projected knowledge as of ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming existential-condescension-of-apriorising/axiomatising/referencing—psychologism’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity~postconverging—dementating/structuring/paradigming existential-condescension-of-apriorising/axiomatising/referencing—psychologism’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of meaningfulness-and-teleology. In this respect with regards to human living-development—as-to-personality-development and institutional-development—as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of
medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing–psychologism of the client’ and so as reflecting the sublimating knowledge ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming beyond-and-above the desublimating ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming of ordinary meaningfulness-and-teleology. However, this sublimating knowledge ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the preconverging/dementing –qualia-schema of ‘the God of plane’ type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex ‘ontological-good-faith/authenticity ~postconverging–de-mentating/structuring/paradigming existential-condescension<of-apriorising/axiomatising/referencing–psychologism>’ but it is important to note that such an animistic social-setup doesn’t project of any such preconverging/dementing –qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical preconverging/dementing –qualia-
schema of our procrypticism–or–disjointedness-as-of-reference-of-thought uninstitutionalised-threshold as from a prospective notional–deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology. This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity.what’s–shallow–supererogation–of–mentally-aestheticised–preconverging/dementing–qualia-schema>, and thus it is disinclined to recognise the prospective ‘relative-ontological-completeness’—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing–of—predicative-effectivity–sublimation{as-to-underlying-ontological-commitment}’ imbued ‘foregrounding—entailment{postconverging–narrowing-down–sublimation-as-to-existence—as-sublimating-withdrawal,—eliciting–prospective-supererogation’—in—reflecting—‘immanent-ontological-contiguity’—as-operative-notional–deprocrypticism} that can instill such a prospective sublimating knowledge ‘ontological-good-faith/authenticity’—postconverging–de-mentating/structuring/paradigming existential-condescension{of–apriorising/axiomatising/referencing–psychologism}’ as to prospective living-development–as-to-personality-development and institutional-development–as-to-social-function-development. In this regards, it can be appreciated with respect to budding-positivism and universalising-idealisation respectively that where the epistemic-veracity of looking through a telescope and drawing positivistic ontological implications do not avail as in the scholastic-medievalism underpinning–suprasocial-construct or where construing meaningfulness in coherent universalising terms do not avail as in the non-universalising sophistry underpinning–suprasocial-construct, then there is a fundamental reality of desublimating ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-faith/authenticity knowledge respectively as of budding-positivism and
universalising-idealisation can only be established as of their respectively requisite ‘ontological-good-faith/authenticity’\textsuperscript{9} existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ and naïve modern-day ‘presencing—absolutising-identitive-constitutedness\textsuperscript{13} interpretations in terms of the supposed arrogance of the Socrates, Galileos, Descartes, Diderots, etc. is nothing more but a manifestation of dimensionality-of-desublimating-lack-of\{-<amplituding/formative>supererogatory-de-

Indeed, as to when such ‘relative-ontological-completeness\textsuperscript{18}—apriorising/axiomatising/referencing–psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation-{as-to-underlying-ontological-commitment }’ is institutionalised say with modern-day positivism/rational-empiricism the requisite ‘ontological-good-faith/authenticity’\textsuperscript{9} existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ of modern-day scientific breaktrhoughs sublimation projected knowledge hardly put into question. Likewise, this insight about the requisite ‘ontological-good-faith/authenticity’\textsuperscript{9} existential-condescension-<of-
with-immediacy-for-relative-ontological-completeness by-reification /contemplative-distension for its elucidation and appropriate seconndnatured institutionalisation that is not dissociated from the very construction-of-the-Self, and knowledge cannot thus be construed as ‘a minor and side thing of mere influencing and stature’ that is dissociated with veridical human mental-development and emancipation in order to rather surreptitiously serve human-subpotency as mortal methodologising/mutualising/organising/institutionalising perverted purposes (as so-of-ten implicitly construed by many a social dominance/vested-interest actor and sycophantic-sophistry throughout human history in eliciting wooden-language-imbued—averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-nondescript/ignorable—void—with-regards-to-prospective-apriorising-implications hardly showing disinterested interest in genuine knowledge). The blunt fact is that as explained above and clearly obvious with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-relative-ontological-completeness -by-reification /contemplative-distension (as to a disparateness-of-conceptualisation-unforegrounding-disentailment,-failing-to-reflect—immanent-ontological-contiguity> which pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation thrives on this lack of universal-transparency (transparency-of-totalising-entailing,-as-to-entailing—amplituding/formative—epistemicity>totalising~in-relative-ontological-completeness with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology underlying the genuine social intellectual—function/posture. made well beyond just a question of their remunerative or supposed incidental social prestige

skewing towards ‘immediacy supposed absolute sublimating value and ontological-veracity

personality-development and institutional-development–as-to-social-function-development) and
reconstrue human-subpotency aporeticism in terms of ‘non-immediacy prospective sublimating
value and ontological-veracity disposition’. In this regards historically, without individuals
making choices not to optimally pursue ‘immediacy supposed absolute sublimating value and
ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy prospective sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology but is equally reflected in a poor-spirited bland conception of human living-development–as-to-personality-development and institutional-development–as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-veracity disposition but in reflecting that the skewed underpinning–suprasocial-construct projected and preconvergingly–de-mentated/structured/paradigmed ‘immediacy supposed absolute sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy prospective sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for
specifically defined ‘human social-vestedness/normativity’ implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ are very much integrative of collateral aspects as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by dulling the social-construct’s conscience in this way rather distracts from the realisation and contemplation of the full possibilities for profound de-mentative/structural/paradigmatic transformation of ‘non-immediacy prospective sublimating value and ontological-veracity disposition’. The implication here is that the ‘ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming~existential-condescension~of-apriorising/axiomatising/referencing–psychologism’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which is only possible as to existence—as-the-absolute-a-priori-of-conceptualisation~and~existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’~<as-to-perspective-ontological-normalcy/postconvergence-implied~‘prospective-aporeticism-overcoming/unovercoming’> with regards to human formativeness~<as-to-intersolipsism-of-preformulating/preframing/premeaningfulness-imbued-mediativity-and-deferentialism>~of~meaningfulness-and-teleology~<amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance~<including-virtue-as-ontology> cannot be neutrally be separated from human ~<amplituding/formative–epistemicity>totalising–thrownness-in-existence~ and the reflexive temporal-to-intemporal ontological implications on human ontological-performance~<including-virtue-as-ontology>). This insight can be illustrated as follows: supposed say in ~00 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our modern-day civilisational and technological level, it is inevitable that
they will effectively adopt ‘ontological-good-faith/authenticity ~postconverging–de-

In other words, our intellectual-and-moral responsibility is already engaged as to our relative-ontological-completeness as to overall existential dimensionality-of-sublimating and the idea that any attitude of unconcern/indifference is intellectually-and-morally neutral/objective is bogus; and human intellectual-and-moral responsibility starts at the very least with an orientation to relative-ontological-completeness as to overall existential dimensionality-of-sublimating. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given <sup>18</sup>presencing—absolutising-identitive-constitutedness<sup>10</sup> self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation<sup>7</sup> is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologuous coherence speaking to its ontological-contiguity<sup>67</sup>’ as to the possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity<sup>67</sup>—of-the-human-institutionalisation-process<sup>58</sup> so-associated with human limited-mentation-capacity-deepening ). entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-
contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of
human teleology speaking of ‘human phenomenal/manifest conceptivity/epistemic-
reflexivity in existence as ontological (so-reflecting <amplituding/formative>disposedness-

underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that
human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-

appraisal of its prospective relative-ontological-completeness sublimation implications, and so
across the successive registry-worldviews/dimensions right up to the originariness/origination.

ontological-contiguity—of-the-human-institutionalisation-process is rather associated with a
‘directly relevant trace of prospective human effectively-purist-sublimation—(reflecting—prospective—historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>) as to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation, but that, as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness
historicality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> as to the concreteness/concretism/<preconverging~‘motif-and-apriorising/axiomatising/referencing’-imbuing>-existentialising—enframing/imprintedness-{as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition)—of-human-ontological-performance’—<including-virtue-as-ontology> of overall prospective sublimation. Human sublimation as such in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity — of-the-human-institutionalisation-process is existentially susceptibly instigated mostly as of materially/technically induced sublimation associated with tools, equipment, technical knowhow and natural science as to their immediately amenable positive-opportunism social implications ultimately leading to subsequent human methodologising/mutualising/organising/institutionalising sublimating overall meaningfulness-and-teleology. But the overall postconverging–dementating/structuring/paradigming of human sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social overall relative-ontological-incompleteness’—presublimation-construct—of—meaningfulness-and-teleology instigating the referencing/registering/decisioning desublimation of the nascent-particular/incipient-and-material/technical-sublimations—<blinded-to-their-relative-ontological-completeness—reference-of-thought—devolving>’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaus, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-
and-teleology of their epoch wanting, explaining for instance Rousseau’s appreciation of the noble-savage and nature as speaking to a prospective aporeticism overcoming/unovercoming that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technically more efficient guns with gunpowder didn’t imply just killing animals at whim or along the same lines explaining his anti-Slavery stance); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism postconverging-or-dialectical-thinking—apriorising-psychologism. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation{as-to-underlying-ontological-commitment }’ as the requisite immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains ‘the enlightenment struggle against feudalism and slavery as advocated say with such a thinker like Rousseau’ as to the fact that the technical and scientific progress as to relative-ontological-completeness weren’t the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior medievally clouded immaterial/social overall relative-ontological-incompleteness—presublimation-construct—of—meaningfulness-and-teleology value-construct and shallow-supererogating

Even in the purely intellectual sense, modern-day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science-ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve [[presencing—absolutising-identitive-constitutedness]] epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall human knowledge and scientific enterprise as to

Along the same line of intellectual appreciation of prospective sublimation implications as to the fact that nascent-particular/incipient-and-material/technical-sublimations–blinded-to-their-relative-ontological-completeness\textsuperscript{88–84} reference-of-thought–devolving> ‘critically points to an overall
nascent knowledge-reification—gesturing directly or indirectly prescient of a comprehensive sublimating meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension; the possibility for ontology/science is effectively ‘an ontological-contiguity projection as to an all-englobing/all-encompassing construction’ (notwithstanding the epistemic limitation inherent to human limited-mentation-capacity) that captures relative-ontological-completeness induced sublimation as reflected in any subject-matter (as to its phenomenal/manifest–subpotency—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating–nascence)) and so as to the subject-matter underlying existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming existential-condescension—of-apriorising/axiomatising/referencing—psychologism’ (and so as effectively reflected by the overall reference-of-thought and reference-of-thought—devolving/subject-matter ‘relative-ontological-completeness apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation—(as-to-underlying-ontological-commitment )’). In this regards, we can appreciate that going by the positivism/rational-empiricism relative-ontological-completeness registry-worldview/dimension, the natural sciences do not allow for any other external interpretations of their phenomenal/manifest–subpotency—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence’s—sublimating–nascence) (but for issues of epistemic limitation inherent to human limited-mentation-capacity). In this regards, there can’t be any instance/circumstance to which the mathematician will construe of 1+1 as being equal to 4 as to totalisingly-disentailing—discretion/whim-of-thought; as to the fact that inherent ontological-veracity precedes-and-supersedes ‘mere-formulaic—methodologising/mutualising/organising/institutionalising human-subpotency
The implication here that in the bigger scheme of things, the ‘apriorising decisions advancing mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency over inherent ontological-veracity as manifested in many a social domain (while equally relevant in the natural sciences especially when ‘mere-formulaic–methodologising/mutualising/organising/institutionalising human-subpotency increasingly undermine the organisation behind the natural conduct of the natural sciences) go on to undermine their pretenses to a status of profound ontological-veracity as reflected of an ontology/science as to aestheticisation-towards-ontology. In this regard, relic/artifactual conception of veridical human "historiality/ontological-eventfulness"/ontological-aesthetic-tracing—epistemicity-relativism rather speaks to deficient knowledge-reification—gesturing caught up in presencing—absolutising-identitive-constitutedness as of beholding-becoming—distortive-originariness/distortive-origination—as-to—historicity-tracing—inhibited-mental-aestheticising. Likewise, deliberate intellectual decisions emphasising institutional self-preservation and rendering veridical knowledge elucidation secondary to such institutional self-preservation decisions, in many ways wrest away from such supposed intellectual institutions their status as veridically knowledge producing as these increasingly become political as to their emphasising of a political motive.
ready to forego veridical knowledge-reification\textsuperscript{87} for its institutional self-preservation; with the consequence of increasing sycophantic-sophistry and genuine social intellectual–function/posture indifference or betrayal to dominance/vested-interest actors. This issue of institutional self-preservation is in many ways at the very root of the non-intellectual, media-driven and dishonest criticisms levied against postmodern-thought as to the latter obvious conclusive emancipatory implications; so-reflected in a practice of ‘clouded thought’ that has no true intellectual elucidation purpose but rather an extension of the political over veridical knowledge-reification\textsuperscript{87} (such that arguments about the accommodation of different intellectual practices tend to be articulated wrongly as to imply that ‘the true ontological-veracity as to sublimation-over-desublimation of intellectual practices’ are irrelevant and secondary to the mere purpose of institutional accommodation of different intellectual practices). This projected notional—deprocrypticism ontological-normalcy/postconvergence perspective points out that human sublimation in existence actually reflects the overall ontological-contiguity\textsuperscript{67} as of the successive registry-worldviews/dimensions ‘ reference-of-thought—devolving—meaningfulness-and-teleology\textsuperscript{100} comprehensiveness of prospective sublimating–nascence (as to their instigating relative-ontological-completeness —apriorising/axiomatising/referencing—psychologism)’ manifested as of the notional—symmetrisation—as-to-symmetrisation-by-desymmetrisation-in-reflecting-postconverging-or-dialectical-thinking\textsuperscript{20}—by—preconverging-or-dementing -perspectives-of-human—meaningfulness-and-teleology\textsuperscript{100} of the overall ontological-contiguity\textsuperscript{62}—of-the-human-institutionalisation-process \textsuperscript{6}. This further highlights that the prospectively defining possibilities for unleaching further human sublimation (and so over ‘beholding wrongly upon the overall relative-ontological-incompleteness —presublimation-construct—of—meaningfulness-and-teleology\textsuperscript{100}’) will stall without the appropriate reconciling of the overall relative-ontological-incompleteness\textsuperscript{88}—presublimation-construct—of—meaningfulness-and-teleology\textsuperscript{100} to the prospective comprehensive sublimating ‘meaningfulness-and-teleology\textsuperscript{100} implications of the instigated relative-ontological-completeness\textsuperscript{88} effectively-purist-sublimation{(reflecting-prospective—historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism’}, and so as to ‘ reference-of-thought—devolving—meaningfulness-and-teleology\textsuperscript{100} comprehensiveness of prospective sublimating–nascence (as to the instigating relative-ontological-completeness\textsuperscript{88}—apriorising/axiomatising/referencing—psychologism)’ prospective reconciling. The psychologistic and apriorising implications here is that with regards to say a God of plane proposition in an animistic social-setup, an engagement striving to elucidate the notion of plane involving any existential-instantiation aposteriorising/logicising/deriving/intelligising/measuring in terms of the animistic social-setup non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—conceptualisation, is de-mentatively/structurally/paradigmatically already validating the

Furthermore, it is such ontologically-deficient incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation (as to its cognisant-and-integrative blending/incorporating of prospective ‘nascent-
perspective of notional–deprocrypticism), speaks to the fact that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring of the respective registry-worldviews/dimensions in relative-ontological-completeness⁸⁸ (base-institutionalisation, universalisation, positivism and deprocrypticism respectively) are projected in disavowal of their respective prior registry-worldviews/dimensions in relative-ontological-incompleteness⁹⁹ (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism respectively) destructuring-threshold{(uninstitutionalised-threshold /presublimating–desublimating-decisionality)–of-ontological-performance⁷²–<including-virtue-as-ontology> of ontological-performance⁷²–<including-virtue-as-ontology> as reflected by their {amplituding/formative}disposedness{(as-to-orientation/value-construct/valuation–and–derived-parameterising)}, implying the latter are effectively non-aposteriorising/non-logicising/non-deriving/non-intelligising/non-measuring (as from the holding-forth of their respective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation). Thus, as to their respective presencing—absolutising-identitive-constitutedness¹³ {amplituding/formative–epistemicity}totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag³³, all relative-ontological-incompleteness registry-worldviews/dimensions as of their preconverging-or-dementing⁴⁹–apriorising-psychologism pretend to articulate what can prospectively be possible and impossible (in such a way that ‘conveniently’ imply that theirs is the registry-worldview/dimension that ‘thinks right’ while ignoring projective-insights as of the overall ontological-contiguity⁶⁷—of-the-human-institutionalisation-process⁶⁸ implications as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation⁹⁷) with respect to all corresponding prospective relative-ontological-completeness⁸⁰ projective-insights implications of transcendence-and-
sublimity/sublimation/supererogatory/de-mentativity; failing to factor in that their paradoxical contemplation in relative-ontological-incompleteness is exactly what renders their supposed determination of what can prospectively be possible and impossible structurally/paradigmatic nonsensical but for the convenience of falling back (even when relative-ontological-completeness avails) as of ontological-bad-faith/inauthenticity to the notion that after all all the world that exists is-as-of-their-given-registry-worldview/dimension however its preconverging-de-mentating/structuring/paradigming vices-and-impediments (which mental-reflex is ever always ‘exactly the aporeticism’ to be superseded with prospective sublimation as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation). In a further elucidation, the ‘redounding/wavering/waveforming—of-the-referencing-and-the-devolved-referencing-imbued-ontological-performance’ as to presublimation and nascent-sublimations overlapping-contiguity-of-referencing-and-devolved-referencing’ associated with human temporal inclination to historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition has to do fundamentally with the very nature of human sublimation (notwithstanding its constraint by human limited-mentation-capacity). human incipient/seeding sublimation-construct (underlined as of human-decisionality-<as-to-

aestheticisation-towards-ontology (as to artistic, the philosophical and the scientific/ontological

that ‘this spontaneous human incipient/seeding sublimation-construct underlined by human-

The underlying point here is that just as human tools, other technical/material capabilities like electricity, etc. are rather of de-mentative/structural/paradigmatic momentous-unbeholding—aestheticising-reflex effectively—manifest—sublimation/sublime as to existence—as-sublimating-withdrawal,—eliciting—of—prospective-supererogation as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies as to their underlying ontological-commitment of meaningfulness-and-teleology, a human psychological-disposition for supererogatory—unbeholding—conflicatedness historiality/ontological—eventfulness ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence—reflected—epistemicity—relativism of sublimating intelligibility implies that the othernesses of human civilisations/cultures/societies carry a more profound de-mentative/structural/paradigmatic momentous—unbeholding—aestheticising—reflex effectively—manifest—sublimation/sublime as to existence—as-sublimating-withdrawal,—eliciting—of—prospective-supererogation as to the inherent sublimating/emancipatory possibilities accruable to all humans and societies. regards to cultural-diffusion in a non-positivistic like animistic social-construct wherein
positivistic technical and material nascent-sublimations can relatively be easily appreciated/grasped in a short timeframe by their immediate sublimating–nascence but the more profound notion of a positivistic registry-worldview/dimension (as to social-and-institutional-frameworks-of—referencing/registering/decisioning of positivistic meaningfulness-and-teleology\(^{10}\)) reflecting a positivising referencing/registry/decisioning is more problematically conceptualisable and mostly arises as of crossgenerational appreciation/grasp (given the non-positivistic \(^{3}\)presencing—absolutising-identitive-constitutedness\(^{1}\) existentialising–decisionality psychological-disposition of defaulting individual and social ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’); and this ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ applies in the succession of registry-worldviews/dimensions with regards to the possibility for their prospective sublimation/emancipation. Along the same lines of disambiguating ‘human existentialising–decisionality dual psychological-dispositions continuum-gradient of sovereignising—by—ontologising-depth in inducing desublimation or sublimation’ just as ‘a God of plane non-positivistic proposition’ in an animistic social-setup implies priorly an ‘altogether superseding positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation induced psychologism of \(^{8}\) reference-of-thought’ (over their non-positivistic apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument–for–conceptualisation psychologism of \(^{8}\) reference-of-thought) from whence aposteriorising/logicising/deriving/intelligising/measuring can then ensue in existential-instantiations of conceptualising, and so as to the positivistic \(^{6}\)meaningfulness-and-teleology\(^{10}\) ‘more profound reflection of existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation\(^{97}\) with regards to sublimating–nascence teleological-inflection{-as-to-more-

Ayer, Richard Rory, etc. even as their conceptions came under criticism because a genuine relation with knowledge is what can bring about appropriate prospective correction for sublimating knowledge when prospective inspiration avails notwithstanding the traditional approach to knowledge so long as it remains self-critical whereas a false social and institutional pre-eminence driven relation to knowledge shoves existential issues under the table not because there is no human intelligence to tackle true knowledge but because the possibility for more profound contemplation is a-priori placed out-of-sight since 'supposed knowledge-reification' as to its gesturing' is as of 'existentialising–decisionality that desublimatingly precedes knowledge-reification' rather than veridically 'knowledge-reification' as of its very own deriving/manifest/ensuing/eventuating sublimating–existentialising–decisionality' and as so-reflected when mere-formulaic methodologising/mutualising/organising/institutionalising as of human-subpotency is construed as doing away with priorly requisite-and-relevant supererogatory–acuity/perspicacity/astuteness/edginess/incisiveness–of-apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument–for–conceptualisation with the off-the-shelf and made-to-measure projection of methods and statistics by itself considered as supposedly profound knowledge, and even then such an

Hence in many ways prospective knowledge cannot elude the aporeticism overcoming/unovercoming of such ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ gesturing and so relatively to the given domain-of-study/domain-of-interest blurriness, wherein blurriness is reflected with desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification rather than ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence (implied as to the very inherent knowledge-reification—gesturing as determining sublimating–existentialising–decisionality)’; with this conflicting of ‘beholdening as sovereignising–imbued-subontologisation/subpotentiation’ and ‘unbeholdening sublimating–nascence ontologising-depth of the full-potency of existence’ so-reflected across the successive registry-worldviews/dimensions given human notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to prospective social-stake-contention-or-confliction (beyond-the-consciousness-awareness-teleology—in-existential-extrication-as-of-existential-unthought). dimensionality-of-sublimating \( \langle \text{amplituding/formative} \text{supererogatory-de-} \text{mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} \rangle \) (even as such prospective \( \langle \text{meaningfulness-and-teleology} \rangle \) tend to be rather desublimatingly related to as of dimensionality-of-desublimating-lack-of \( \langle \text{amplituding/formative} \text{supererogatory-de-} \text{mentativeness/epistemic-growth-or-conflatedness} /\text{transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} \rangle \) by the prior \( \langle \text{presencing—absolutising-identitive-constitutedness} \rangle \) \( \langle \text{preconverging—'motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) } \rangle \). But then as well the fact remains that the reality of human knowledge-reification especially (as speaking to prospective human destructuring-threshold—\( \langle \text{uninstitutionalised-threshold/presublimating—desublimating—decisionality} \rangle \) of-ontological-performance—\( \langle \text{including-virtue-as-ontology} \rangle \) is inevitably infused with social-and-institutional-frameworks—\( \langle \text{referencing/registering/decisioning manifest politically-driven motives of desublimating—existentialising—decisionality beyond just ‘a purported baseline conception of neutral knowledge-reification’ with such frameworks projecting their } \rangle \) \( \langle \text{presencing—absolutising-identitive-constitutedness} \rangle \) \( \langle \text{preconverging—'motif-and-apriorising/axiomatising/referencing’—imbuing—existentialising—enframing/imprintedness—(as-to— historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition) } \rangle \) conception of the ‘overall possibility of human existentialising—decisionality as to catchmenting-by-rejection’. In this respect, it is important to grasp that knowledge-reification then desublimatingly becomes an issue of more than just rightness or wrongness but involves a striving for interest/advantage/ascendancy/head-start with respect to existentialising—decisionality of prospective knowledge-reification, and this reality given human
notional–firstnaturedness—temporal-to-intemperal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> is reflected by an inherent human ‘referencing/registering/decisioning of shallow-supererogation —to—profound-supererogation conception of social-stake-contention-or-confliction’ with respect to prospective knowledge-reification’. In many ways recent history of human thought has shown that ‘social-and-institutional-frameworks-of—referencing/registering/decisioning manifest politically-driven motives of desublimating–existentialising–decisionality going beyond just neutral knowledge-reification’ that cannot be ignored as to intellectually decadent practices of scepticism and blurring underlied by cynical reframing of thought at later moments (which had been related to sceptically and in blurriness at previous moments), and so as to shallow-supererogation desublimating–existentialising–decisionality driven by mere institutional-ascendency. In many ways thus the conceptualisation herein ‘is not caught-up/constrained to any such fooleries’ (as to the history of such ploy against postmodern thought) and is consciously articulated as to the profound-supererogation motive of human sublimation beyond/and-not-subjected-to the <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing–existentialising—enframing/imprintedness—(as-to- historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) of any shallow-supererogation social-and-institutional-frameworks-of—referencing/registering/decisioning as to the 8.5 billion humans on planet Earth and as any party of interest of profound-supererogation may find useful or not! In this respect, it is critical to understand what defines humanity as to the ‘firstnatureness and derived secondnaturedness positive-opportunism ‘ required for human self-surpassing—existentialism-form-factor,-in-overcoming–‘notionally–collateralising-beholdening-protohumanity’–to–‘attain-sublimating-humanity’–as-to-existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression; as to the fact that all human sublimation is instigated as of re-originary

<including-virtue-as-ontology> desublimating—existentialising—decisionality. In other words ‘the legislation for human prospective sublimation’ (as to sublimating—existentialising—decisionality) lies with the firstnatured intemtemporal individuation relation to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation and the positive—
opportunism arising thereof (as of a minimum) for human secondnature institutionalisation; and so as to the fact that the Socrates, Descartes, Kants, Newtons, Leibniz, Pasteurs, Rousseaus, Diderots, Einsteins, Teslas, etc. didn’t ask for any prior consent from the rest of the human species to undertake whatever sublimation they envisioned about humanity making nonsensical the idea that there is any ‘generalised human deterministically constraining contemplation of prospective sublimating’. Humanity as such has always been, is and will ever always be about intemporal individuations imagination-and-capacity-for-prospective-sublimation (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology implications) and in that regards the triteness of human pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation in incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology —as-of—'nondescript/ignorable—void ’—with-regards-to-prospective-apriorising-implications>} patently doesn’t count (given the latter associated temporal desublimating—existentialising—decisionality in existential-extrication-as-of-existential-unthought that fails aetiologisation/ontological-escalation); and this is the case fundamentally since such intemporal disposition projected prospective sublimating—nascence engages human ontological-commitment as to prospective sublimation-over-desublimation (so-implied with the self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-existential-reality with respect to social-stake-contention-or-confliction underlying human ontological-commitment). The fact is the intellectual exercise is more acutely/incisively about identifying the relevant aporeticism overcoming/unovercoming in the very first place in order
to then effectively relate to what is of prospective profound sublimating intellectualism and so over desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation vague proceduralism (beyond-the-consciousness-awareness-teleology\textsuperscript{106}—<in-existential-extrication-as-of-existential-unthought>) as to the simple fact that human prospective destructuring-threshold—(uninstitutionalised-threshold\textsuperscript{108}/presublimating—desublimating-decisionality)—of-ontological-performance\textsuperscript{72}—<including-virtue-as-ontology> means that human \textsuperscript{56} meaningfulness-and-teleology\textsuperscript{100} is ever always caught up prospectively between intellectualism sublimating—existentialising—decisionality and pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation desublimating—existentialising—decisionality. This is the case given the requisite condition for the very basic human sublimating—existentialising—decisionality as so-underlied by existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation\textsuperscript{97}—<as-to-perspective-ontological-normalcy/postconvergence-implied—‘prospective-aporeticism-overcoming/unovercoming’> (reflecting the ever always present challenge for intellectualism over pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation); so-underscored by the ever always present challenge for human dimensionality-of-sublimating\textsuperscript{24} \{<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation\} as to requisite epistemic-conflatedness\textsuperscript{12} implied projective/reprojective—aestheticising-re-motif—and—re-apriorising/re-axiomatising/re-referencing induced ‘projective-insights for predicative-insight’. prospective sublimating knowledge-reification can be further elucidated along the same lines
(with regards to living-development–as-to-personality-development and institutional-

is supposed to imply the ‘supposed genius’ is exceptional/abnormal (by their ‘specifically given

But then actually the ‘supposed genius’ cannot be exceptional/abnormal for the simple reason that ‘existence (so sublimatingly elucidated) is nothing but just normal as to its ontological-normalcy/postconvergence’ reflecting the fact that the social-construct\(^{(4)}\) meaningfulness-and-teleology\(^{(10)}\) as from the moment of the sublimating elucidation is/has-been rather of epistemic-abnormalcy/preconvergence\(^{(3)}\), with the notion of ‘supposed genius’ serving as to human presencing—absolutising-identitive-constitutedness\(^{(9)}\) <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness\(\langle\text{as-to- historicity-tracing—in-presencing—}\) hyperrealisation/hyperreal-transposition) (beyond-the-consciousness-awareness-teleology\(^{(9)}\)‐<in-existential-extrication-as-of-existential-unthought>\(^{6}\)) to render obstruse the veracity of this epistemic-abnormalcy/preconvergence\(^{(3)}\) of the social-construct\(^{(5)}\) meaningfulness-and-teleology\(^{(10)}\) that the ‘supposed genius’ is pointing out as ‘the very issue at stake warranting the social-construct’s prospective dimensionality-of-sublimating\(^{(24)}\) \(<\langle\text{amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\) as the ‘supposed genius’ sublimating elucidation implies it has relatively achieved its own ‘prospective dimensionality-of-sublimating\(^{(24)}\) \(<\langle\text{amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation}\rangle\)’ and is of no inherent prospective issue in that respect. This critical pure-ontology analysis point out that meaningfulness-and-teleology cannot be profoundly construed as being about mere-manipulable formulaicity but rather contrastively as being about ‘profound supererogatory appraisal-and-reappraisal that supersedes mere-manipulable formulaicity’ (and as to the fact that knowledge-reification ends/should-not aspire to any ‘convincing’ of ontological-bad-faith/inauthenticity—preconverging–dementating/structuring/paradigming as the latter is nothing but a circular process that only ends up degrading knowledge into falsehoods as individual supererogatory–shallowness or supererogatory–profundness seedingly/inceptively lies with the individual and not knowledge, well before sublimating knowledge can be of any relevance thereof as to derived-formulaicity projected reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation). This elucidation is important in the sense that pedantic science-ideology is driven by a conception of mere-manipulable formulaicity of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation that poorly appreciates the profound-supererogation \(^’\) in the ‘invention/creation’ of true science and thus comes to relate to science as ‘off-the-shelf and made-to-measure contrivance of formulaicity devoid of profound-supererogation’ \(^’\) in a soulless ‘temporal beholdening as sovereignising—imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as

Such development as to ‘extra-knowledge/knowledge-outside-knowledge/knowledge-without-knowledge paradox’ is ultimately associated with scenarios of institutional-ascendency and other dominance/vested-interest (as associated with many a modern-day think-tank and secret institutions) overtly or covertly construed as inherently predicative-of and superseding knowledge as to networks of influence bent on intimating what can be thought or not as well as pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of genuine knowledge, in ‘temporal beholdening as sovereignising–imbued-subontologisation/subpotentiation (implied pretense-of-sublimation as to desublimating–existentialising–decisionality supposedly taking precedence over inherent prospective knowledge-reification’). In many ways the very idea of the ‘democratic public-debate’ itself is skewed from its very inception as to dominance/vested-interest natural ascendency over ‘the supposedly democratic platforming and stakeholding in defining the very issues of society’s social-stake-contention-or-confliction’ (as so-associated with thematically skewed media debates and socio-econo-political thought-makers/thought-making overtly associated with ‘skewed think-tanks’ or covert surreptitious underhanded institutional and
media influence). Critically, in this context such skewed platforming and stakeholding ends up alienating supposed sovereign electors as to a platforming and stakeholding process that mediatically and politically take a self-contained course (as to dominance/vested-interest defaulting issues that can be debated as to the underpinning–suprasocial-construct <preconverging~‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness}<as-to- historicity-tracing—in-presencing—hyperrealisation/hyperreal-transposition> socio-econo-political social-stake-contention-or-confliction) with the consequence that the so-politically-alienated sovereign electors are increasingly turning to protest votes (reflecting rather a psychological-outleting rather than true policy solution) or decreasing participation in the democratic process, in many ways speaking to the very natural defaulting of the political process to dominance/vested-interest ‘tolerable locked-in socio-econo-political outcomes’ however the underlying sovereign electors mood as to the fact that even protest votes can’t escape the institutional hold of such dominance/vested-interest. In many ways, it is the critical and genuine social intellectual–function/posture as to such aporeticism overcoming/unovercoming that can reifyingly-and-empoweringly effectively reflect upon the pertinence of such a dominance/vested-interest democratic process confiscation/lock-in (as equally manifested by the fact that even newly elected ambitious representatives come to be surreptitiously given their marching orders as to what is politically possible or not). This reality underlies the contention herein of the ‘overrated pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation of meaningfulness-and-teleology’ as to the fact that human discursivity is not a discursivity of absolute-mentation-capacity but rather a discursivity of limited-mentation-capacity, and thus it is a discursivity of subpotency as to human-subpotency which doesn’t necessarily subject/supersede existence as to existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation as warranted for prospective sublimation/emancipation (even as human social-and-institutional-frameworks-of—referencing/registering/decisioning of existentialising—decisionality by reflex tend to absolutise human discursivity as to presencing—absolutising-identitive-constitutedness social-vestedness/normativity—<discretely-implied-functionalism>); thus requiring appropriate nonpresencing—<perspective—ontological-normalcy/postconvergence> epistemic-projection (as to requisite human limited-mentation-capacity-deepening towards absolute-mentation-capacity, in projective reflection of ontologisation/omnipotentiality as to ontological-normalcy/postconvergence, as sought-after by the genuine social intellectual—function/posture involving its specifically cultivated arts/skills and time investment and on the intimation that the implied deferential-formalisation-transference is so-validated as of the supposedly coherent ontological-commitment and its consequent notional—self-distantiation—<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing/>‘distantiation of contemplative existentialising—frame as to transversality—of-affirmative-and-unaaffirmative—disambiguated—‘motif-and-apriorising/axiomatising/referencing’ in superseding any underpinning—suprasocial-construct defaulting relative-ontological-incompleteness—presublimation-construct—of—

This can starkly be appreciated in the instance of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology wherein for instance the notion of God-of-plane in an animistic social-setup speaks of a fundamental redeveloping/restructuring/reparadigm-ing notional–self-distansiation–<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>/’distansiation of contemplative existentialising–frame as to transversality–of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ as to the fact that the positivistic/rational-empiricist meaningfulness-and-teleology is of utter ‘<amplituding/formative>disposedness–(as-to-orientation/value-construct/valuation–and–derived-parameterising) and <amplituding/formative>entailment–(as-to-totalising-contiguous/coherent–factuality-of-variability’) break/impasse (with the animistic meta-conceptualisation scheme of meaningfulness-and-teleology as to its prospective uninstitutionalised-threshold) for inducing the appropriate perspective ontological-normalcy/postconvergence (to enable the eventual epistemicity growth/conflatedness of the animistic social-setup into a positivistic/rational-empiricist conceptivity/epistemic-reflexivity); and this is effectively the critical posture of the genuine social intellectual–function/posture as to its prospective registry-worldview/dimension opening-up function as to perspective ontological-normalcy/postconvergence not constrained to the immediacy/punctual human social-stake-contention-or-confliction presencing—absolutising-identitive-constitutedness <preconverging–‘motif-and-apriorising/axiomatising/referencing’–imbuing>–existentialising—enframing/imprintedness–(as-to–historicity-tracing—in-presencing–hyperrealisation/hyperreal-transposition) for the possibility of re-

Insightfully, this points out that the very exercise of making-available/opening-up prospective knowledge as of organic-knowledge is inevitably tied down to the exercise of underlining simultaneously a prospective threshold of pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation and associated intellectual-decadence (but then the detachment and lesser ‘emotional-involvement’ with regards to nascent-particular/incipient-and-material/technical-sublimations<-blinded-to-their-relative-ontological-completeness<reference-of-thought-devolving> renders such an exercise less problematic than with regards to the imposing/impostoring self-presence/self-constitutedness<-in-perspective–epistemic-abnormalcy/preconvergence> of social-and-institutional-frameworks-of—referencing/registering/decisioning existentialising—decisionality prone to-presencing—absolutising-identitive-constitutedness). Thus the genuine social intellectual–function/posture is ever always about emphasising the ontological-veracity of human knowledge rather constrained to existence—as-sublimating-withdrawal,—eliciting-of-prospective-supererogation for prospective human re-ontologisation/omnipotentiality (however the remoteness to immediacy/punctual human social-stake-contention-or-confliction-presencing—absolutising-identitive-constitutedness<preconverging—‘motif-and-apriorising/axiomatising/referencing’—imbuing>-existentialising—enframing/imprintedness—.

Such a conception of <supererogatory–human-subpotency>–effecting is critically relevant in appraising that ‘technical/profound articulations are not made gratuitously’ (in contrast to a modern-day unnecessary ‘social-and-media reflex of facility/convenience’ shunning technicity/profundity which goes on it is herein argued to be at the ‘infrastructural/root source
of the cultivation of public and institutional discursive mediocrity’ as to ‘enculturating a practice of public interestedness/profundity mediocrity and public awareness/accounting/decisioning mediocrity’ whereas the technicity/profundity of modern-day training and professions rather points to the fact of a public potentially capable to handle more creatively profound/technical public analysis and public debate rather than just ‘parsimonious/frugal ratings-driven defining conception of intellectual analysis prone to desublimating disorientation, misanalysis and irrelevance’) as to the requisite social notional–self-distantiative contemplative technicity/profundity that inherent existence sublimating–nascence warrants to make available appropriately sublimating <supererogatory–human-subpotency>–effecting (whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). This poor appreciation of technicity/profundity in the public arises as of a poor projection of existence’s sublimating–nascence to wrongly imply that the individual ‘is perfect as they are’ with supposed ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service’, and critically wrongly implying that knowledge as to organic-knowledge can be acquired without the requisite ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification /contemplative-distension’ of the individual as to their ‘appropriate notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>’, while at the same time ‘a pseudo-contrition as to awareness of such relatively shallow technicity/profundity cultivated in such social-and-media spaces’ doesn’t deter such spaces (consciously or unconsciously) from surreptitiously acting as of profound technicity/profundity at critical moments of public discourses with the consequence that ‘there is an opaque connection/continuity between public, media and institutional
discursivity with social and institutional outcomes as if these are discrete and unrelated activities’ (whereas the supposed relevance of discursivity has to do with how it allows for comprehensible public ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification'/contemplative-distension’ in effectively appreciating social and institutional outcomes processes rather than individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction). The concrete and natural human psychological disposition with respect to knowledge as to organic-knowledge is in appreciating that for critical thinking even for the novice it is imperative to truly engage with the substance of the matter comprehensively-and-insightfully notwithstanding the level of exactifying comprehension (again whether as to direct knowledge acquisition or appropriate percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness). The abstraction-of-thought/principled-thought articulated with subject-matters content is not done gratuitously as it is often popularly advanced especially with ‘ontologically-flawed frameworks of blurriness’ and ratings/sales immediate interests’ susceptible to normalised/stereotyped/selfhelping/feel-good construal of knowledge. Subject-matter abstraction-of-thought/principled-thought content are not so-produced gratuitously in the sense that this effectively speaks to: the requisite sophistication/complexity for ‘full incipient supererogating breadth of human intelligibility transmutation’ (as ‘<supererogatory–human-subpotency>--effecting imbued epistemic-totalising’ preformulating/preframing/premeaningfulness of notional~originariness-parrhesia,—as–spontaneity-of-aestheticisation’ before the incipience of metaphoricity7 and then 5'meaningfulness-and-teleology’ as to existentialising–frame) ‘that then permits hermeneutically/reprojectively/supererogatingly/zeroingly human sublimating-accessing/sublimating-relating-to’ existence—as-sublimating-withdrawal, eliciting-of-
prospective-supererogation" (noting here that what is key here is ‘the existence constrained educed sublimating’ however the technicity/profundity whereas an attitude of normalised/stereotyped/selfhelping/feel-good knowledge that ‘doesn’t align with the existence constrained educed sublimating’ is fundamentally besides the point however its ‘false convincing of the fellow human mortal approach’ so-reflected as to the deficient social outcomes it is bound to be associated with’). Critically when push comes to shove, such blatantly flawed conception of true knowledge but socially accommodated as to ‘a social-functioning-and-accordance—as-of—social-stake-contention-or-confliction conception associated with immediate public ratings and/or sales/merchandising’ (over the ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification/contemplative-distension’ implications of ‘constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation’ imbuing human ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-mentating/structuring/paradigming—as-being-as-of-existential-reality’) are found to be wanting in contrast with the true nature and existential sublimating/desublimating implications of professional/technical/scientific knowledge inherent subject-matter content as abstraction-of-thought/principled-thought (notwithstanding supposedly professional/technical/scientific auxiliary/substitutive practices of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’/by-reification/contemplative-distension’ that are closely attached-and-driven directly or indirectly by public ratings and/or sales/merchandising with little consideration for veridical/optimal existential sublimating/desublimating implications, even as it is herein argued professional/technical/scientific abstraction-of-thought/principled-
thought content mustn’t necessarily generate less public interest but should primarily be
motivated with inherent knowledge-reification\(^ {87} \) sublimating~existentialising~decisionality
implications). It is herein contended however counterintuitive that the idea of understanding
100% of knowledge content at one go (as commonly assumed and cultivated with such content
driven by public ratings and/or sales/merchandising as to excessive simplification, distortion,
superficiality, ephemerality and attention-grabbing undermining organic knowledge) is very
much detrimental for a profoundly engaging and sublimating practice of public exposition to
knowledge as so-inducing the degradation/banalisation of content in order to supposedly
capture the most number of people at one go, and so it is herein argued very much contrary to
the natural human potential for profound knowledge assimilation which is rather of
hermeneutic/reprojecting/supererogating/zeroing potential. A lot of true learning, understanding
and engagement (beyond attention-grabbing and simplification convenience) comes and
expands hermeneutically/reprojectively/supererogatingly/zeroingly as to re-exposition to same
and similar content for eliciting an active thought/contemplative engagement that is sufficiently
challenging to people's true intellectual growth possibility as to creatively eliciting and
developing true contemplative interest and not just passivity (however the habituation of a
plainness that turns out to seem to be ‘the popular choice’ to which in reality all individuals can
succumb to but which is as of their self-reflection actually subpotentiating with regards to the
‘broad existential panoply of human epistemic-growth/disquiet/discomfort as to construction-
of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’\(^ {87} \)-by-

ontologisation as to epistemic-totalising\(^ {32} \)~resubjecting of existential-contextualising-contiguity\(^ {39} \)-in-reification\(^ {87} \)). Such an attitude of ‘normalised/stereotyped/selfhelping/feel-good
knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking
in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-
Self in dispensing-with-immediacy-for-relative-ontological-completeness.by-reification/comtemplative-distension to the education of children and young people can be particularly detrimental to critical thinking (while cultivating ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology due to the overly denatured and insufficiently challenging—and—independence-eliciting existentialising—frame of meaningfulness-and-teleology (as to veridical hermeneutic/reprojecting/supererogating/zeroing re-exposition for eliciting active thought/contemplative engagement as of prospective epistemic-totalising—resubjecting of existential-contextualising-contiguity—in-reification of knowledge content and generation of varying interests); and so in reflection of the fact that a lot of childhood and human developmental learning is rather ‘passive integration of schema of thinking/contemplation and engagement’ as more decisive than really ‘knowing and recalling knowledge content’ (notwithstanding the inherently basic interrelatedness) with ‘passive integration of schema of thinking/contemplation and engagement’ critical for elaborating/framing meaning starting with the very incipient and appropriate jargon/language-conceptualisation for producing meaning (that is bound to align with constraining existence—as-sublimating-withdrawal,-eliciting-of-prospective-supererogation and so rather than ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology with a poor sense of the prospective existential-contextualising-contiguity—in-reification of knowledge content as to epistemic-totalising—resubjecting). Where the cultivated ‘passive integration of schema of thinking/contemplation and engagement’ is rather as of ‘an elicited conformity/trending/voguing/fashionability/resonance relation to meaningfulness-and-teleology’ over eliciting an active thought/contemplative engagement that is sufficiently challenging to the true human intellectual growth potential (as to veridical hermeneutic/reprojecting/supererogating/zeroing re-exposition for eliciting active

is inescapable for achieving sublimating–nascence whether as more readily appreciated with

(as no normalised/stereotyped/selfhelping/feel-good knowledge is hardly of any help to the
technician/practitioner/scientist in the face of constraining existential implications) or with the
relative blurriness of social-and-institutional-frameworks-of—
referencing/registering/decisioning existentialising–decisionality, and critically in many ways
the cultivation of shallow technicity/profundity (as to poor ‘epistemic-

interestedness/profundity mediocrity’ and ‘public awareness/accounting/decisioning
mediocrity’. But then technicity/profundity as to the public discourse is all about cultivating the
possibility for ‘a public formulative appraisal and habituation for an enlightened sovereign
engagement with public decision-making policies and technicalities’; and in this regards it is
herein contended that unlike it can naively be construed about human capacity for
understanding, a lot of ‘human understanding is actually passive exposition to understanding of
appropriately articulated/formulated knowledge-reification’ so-underlying
<supererogatory—human-subpotency>—effecting as to the formative-and-enabling formulative
backdrop for sovereignly appraising ‘meaningfulness-and-teleology’ technicity/profundity’
whether with regards to public education or even childhood-development education and/or
formative institutional/professional education, as to the fact that formulative understanding (as
of \(<\text{supererogatory–human-subpotency}\>–\text{effecting}\) is the sovereignty/independence giving possibility for human ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ relation with knowledge (as to conscious awareness existentialising–decisionality implications even if complete understanding as of complete meaningfulness-and-teleology technicity/profundity is not achieved and thus rendering the public resilient to desublimating pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with regards to the competing discourse in public spaces by such a direct or deferential capacity for notional–self-distantiation–imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing> to cultivate ‘epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ over a facility/convenience mental-reflex). In this regards, the sovereign–function/posture ontologising-aptness is truly realised as to a dynamic deferential-formalisation-transference relation with the genuine social intellectual–function/posture that is much more than a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’-by-reification’/contemplative-distension’ as such a flawed conception is very much prone to disenfranchising public, media and institutionalised pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation bound to ultimately induce individuals reflective estrangement and disinterest with regards to public outcomes of social-stake-contention-or-confliction (and as such disenfranchising framework render the truly relevant public issues secondary/indirect to their punctual/immediate purpose of ratings/popularity than genuine thought). But rather the sovereign–function/posture
ontologising-aptness in many ways is in a protracted continuum with the genuine social intellectual–function/posture, so-implied as to ‘a totalitative construal of the genuine social intellectual–function/posture parallel intellectual contestation of aptitudinal-substantive-pertinence educing layers of deferential-formalisation-transference as of percolation-channelling-<in-deferential-formalisation-transference> enabling the sovereign–function/posture ontologising-aptness (as so-undergirded by ‘the overall underlying social-construct ontological-commitment implied self-assuredness-of-ontological-good-faith/authenticity–postconverging–de-mentating/structuring/paradigming–as-being-as-of-existential-reality so-reflected as of social notional–self-distantiation-<imbued—re-motif-and-re-apriorising/re-axiomatising/re-referencing>). Likewise, the ‘genuine social intellectual–function/posture involves striving for a protracted continuum with the sovereign–function/posture for its ontologising-aptness’ but not in wrongly validating the existentialising–frame of discursivity as to a conception of ‘normalised/stereotyped/selfhelping/feel-good knowledge being brought at the individual-or-institutional-or-social sovereign’s service lacking in the underlying conception of epistemic-growth/disquiet/discomfort as to construction-of-the-Self in dispensing-with-immediacy-for-relative-ontological-completeness’ by-
