It is the cause-and-effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-incoherence/institutional-constraining and social \(^{(10)}\) universal-transparency \(\{\text{transparency-of-totalling-entailing,-as-to-entailing-<amplituding/formative–epistemicity>totalling-in-relative-ontological-completeness}\}\) imposes crossgenerationally the dominant as transcending/superseding meaningfulness over the dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries is suprastructural and ontological-normalcy/postconvergence and doesn’t adjust to the mortals, that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying \(^{11}\) reference-of-thought to intrinsic-reality, to start with. Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being \(9.8 \text{ m/s}^2\), but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘de-mentation\(^{(10)}\langle\text{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics}\rangle\) of ‘reference-of-thought’ in upholding a mental-devising-representation of temporal-dispositions as preconverging-or-dementing\(^{(19)}\)–apriorising-psychologism-<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> is rather a comprehensive intemporality\(^{(2)}\)-preserving ontological-entrapment of the ‘notional-discontiguity/epistemic-discontiguity-<shallow-supererogation of mentally-aestheticised~preconverging/dementing \(19\)–qualia-schema> of apriorising/axiomatising/referencing/intelligibility/setup/measuringinstrument’ (i.e. absolving/fleeting/escaping-reflex–logic -by-psychopathic-in hollow-constituting<-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> in

In fact, it is this latter veridical representation of the mental-devising-representation of temporal-

The bigger point is that fundamentally it is impossible to conjugate/inflect/protract intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity—shallow-supererogation—of-mentally-aestheticised—preconverging/dementing—qualia-schema) as then one is just in <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence-and-sublimity/sublimation/supererogatory—dementativity or is non-transcendable (hence unde-mentable/still-of-postconverging-or-dialectical-thinking—apriorising-psychologism) when in fact it is preconverging-or-dementing—apriorising-psychologism/subknowledging—registry-perverting-in <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This latter idea is actually the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex of all prior/transcended/superseded registry-worldviews/dimensions with respect to the suggestion of
prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate from our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-
<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> process to be rather not true with prior transcendence-and-sublimity/sublimation/supererogatory-de-mentativity though we’ll in turn obviously act by reflex in <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiac-drag] with respect to the suggestion of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity undermining our registry-worldview’s/dimension’s categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/utterion to apprehend intrinsic-reality, over incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought which is more about ‘transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework as all-determinant); with reasoning-through/utterion generally implied in formal constructs and settings as the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework settings while informal constructs and settings tend more to incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional–procrypticism/notional–disjointedness-as-of-reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is
that formal constructs and settings emphasise ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness\textsuperscript{12}-or-ontological-reprojecting in longness-of-register-of-meaningfulness-and-teleology\textsuperscript{10} and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of-reference-of-thought in shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{10} and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective-ontological-normalcy/postconvergence>. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness-or-ontological-reprojecting points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advanced with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness-or-ontological-reprojecting exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{33} to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (‘perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>') in wrongly implying that a notional–deprocrypticism ontological-escalation/aetiologisation is unwarranted. More
like the evocation of circumventive/distractive-temporal-prioritisation-of-referencing-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting, the need for their judgment and/or in advocating unfailingly/infallibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard wooden-language-imbued–averaging-of-thought-as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology-as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-proficiency-of-thought/ontological-normalcy/postconvergence in contrast to conventioning-proficiency-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-
Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{73} reference of ontological-contiguity\textsuperscript{67} but for naively and wrongly implying good-natured qualities as being ontological (rather than the-Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{73} conceptualisation validated by ontological-contiguity\textsuperscript{67} or a ratio-conguity notion), and since the ontological-contiguity\textsuperscript{67}—of-the-human-institutionalisation-process\textsuperscript{58} shows that ‘good-naturedness’, without the-Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{73} as of ontological-contiguity\textsuperscript{7}, fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophesiers (working rather more assertively on ‘supernatural postconverging–de-mentating/structuring/paradigming’ implications) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/ontological-primemovers-totalitative-framework\textsuperscript{7}/ontological-contiguity\textsuperscript{67} they actually aspired for ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting, that is, they were prioritising and focussing on that which establishes universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-(as-of-relatively-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the golden mean into ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{12}-or-ontological-reprojecting but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively notional–deprocrypticism
which are of transcendental nature as ‘shaping the human psyche’ and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather non-transcendental and cannot de-mentatively/structurally/paradigmatically resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms–as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-and-ontological-reprojecting will be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don’t have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally (as to the fact that it is on this basis that human institutional-cumulation/institutional-recomposure–(as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing–perspective–ontological–
normalcy/postconvergence-reflect-epistemicity-relativism⟩ has been self-perpetuating in explicating the ontological-contiguity"—of-the-human-institutionalisation-process”). Such an insight can further be expanded thus, it is critical to note that the institutional-cumulation/institutional-recomposure⟨as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing⟩ are developments of human mentation capacity in grasping its ‘internal ontological-reconstituting–as-to-conflatedness’/deconstruction intermediating environment’ and the external environment. The former refers to the teleological devised representation of the relationship with the external environment like language, organisation, culture and other institutional construct by which it existentially accesses the external environment. In effect, though counterintuitive, human registry-worldview’s/dimension’s institutionalisation is actually an ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness’/or-ontological-reprojecting/intemporal-preservation preemptive construct which paradoxically elicits devised mentation that goes on to build the ‘internal ontological-reconstituting–as-to-conflatedness’/deconstruction) intermediating environment’. Thus in effect base-institutionalisation is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness’/or-ontological-reprojecting/intemporal-preservation preemption of recurrent-utter-uninstitutionalisation (recurrentas<amplituding/formative-epistemicity>totalising–self-referring-synchretising/circularity/interiorising/akrasiatic-drag⟩ for preconverging-or-dementing—apriorising-psychologism/subknowledging/perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩, universalisation is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness’/or-ontological-reprojecting/intemporal-preservation preemption of ununiversalisation (preconverging-or-dementing—apriorising-

This contrasts with the defective good-natured construct as impression-driven and intradimensionally-tied and all so apt to existentially fail ontological-normalcy/prospective-transcendence-in-perpetually-failing-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as it is rather tied to and proxies, by mere-form, with intradimensional ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology", for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation irrespective of whether these are failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; and thus as the corresponding ‘de-mentation’ (supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’ mental-devising-representation as

Briefly, such an anthropopsychological/the-anthropological-continuity conceptualisation as articulated above further enables the insightful conceptualisation of ‘ontological-primemovers-totalitative-framework retooling (for notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> disambiguation articulation) analysis’ as expanded upon below, in the ‘ephemerality that is the social-construct’, on the basis of an ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation understanding of the social-construct. This is central in articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of procrypticism):  
anthropological-continuity as implied by intemporal-preservation-entropy-or-contiguity–or–

This equally explains the reason for de-mentation—(supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) including with regards to registry-worldview/dimension stranding where the veridicality of the ontological-primemovers-totalitative-framework narratives is shown to be of perverse/low teleology ontologically speaking). The ‘ontological-primemovers-totalitative-framework—retracing (for notional~firstnaturedness—temporal-to-intemporal-dispositions—or-so-construed-as-from-perspective—ontological-normalcy/postconvergence disambiguation) scheme’ is equally critical in other respects. Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to– meaningfulness-and-teleology }, and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-primemovers-totalitative-framework\textsuperscript{73} demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive existentialisms/full-
depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as metaphysics-of-presence–{implicated-'nondescript/ignorable–void ’-as-to- presencing–absolutising-identitive-constitutedness }, of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity. One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence-and-sublimity/sublimation/supererogatory–de-mentativity before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy ‘human lifespan
extricatory punctuality/immediacy of depth-of-thought’ perspectives of individuals existentialism/full-depth-of-existential-implications of shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology\(^1\)–\(^4\)-\(^5\) registry-worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a mindset/reference-of-thought as a secondnaturedness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring induced from intemporal-disposition individuation disposition, and correspondingly differentiate between being so-institutionalised with a secondnatured and internalisation mindset/reference-of-thought and the intemporal–individuation disposition that will equally be responsible out of mere intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold\(^1\) that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-
depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>), and inherently implies ‘a
universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposing’ of meaningfulness and reference-of-thought, defining their specificities and potentials. This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and creative application of the ‘ de-mentation
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) as to ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates postconverging-or-dialectical-thinking\^{0}–apriorising-psychologism<stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase> and preconverging-or-dementing\^{0}–apriorising-psychologism<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> of mental-devising-representation by which human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social-stake-contention-or-confliction behind the ‘postconverging-or-dialectical-thinking\^{0}–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring history but a ‘consciously directed’ abstract
understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism \( ^7 \) (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendence-and-sublimity/sublimation/superrerogatory-de-mentativity like base-institutionalisation, \( ^8 \) universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation-channelling\( ^{-}\langle \text{in-deferential-formalisation-transference} \rangle. \) Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation. It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions, and so as to \( ^9 \) nonpresencing\( ^{-}\langle \text{perspective–ontological-normalcy/postconvergence} \rangle \) epistemicity. (By ontological meaning is implied intemporal/veridical/purism/operand-construct/predicative-effectivity–sublimation\( ^{-}\langle \text{as-to-underlying,-ontological-commitment} \rangle \) meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical/compromised/non-operand-and-vague\( ^{-}\langle \text{amplituding/formative–epistemicity} \rangle \) meaning or metaphysical/speculative/banality/social-discomfiture/temporal-human-centered meaning). Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method herein qualified as ‘referentialism’ which makes

9
reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of ‘point-referencing’ notions and concepts in a contiguously dynamic, evolving and ontological-reconstituting–as-to-conflatedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation (herein underlied by conceptivity/epistemic-reflexivity as to human limited-mentation-capacity-deepening). This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on ‘the organic dynamics of understanding’ wherein a child for instance doesn’t necessarily grasp outright the fullness of concepts-of-meanings but rather the ‘relevant dynamic contextualisation of meanings’ ensuring a strongly operant and ‘wealthy’ relationship with meaning in the social
context. ‘Intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’ with respect to uninstitutionalised-threshold^03 of registry-worldviews/dimensions, can be construed as follows: Supposed all humanity across space and time that ever existed was just ‘one human temporal-to-intemporal individuation’, the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism, and prospectively to deprocrypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp notional–deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism as convergent concepts towards notional–deprocrypticism (as ‘longness-of-register-of—meaningfulness-and-teleology^100 over shortness-of-register-of—meaningfulness-and-teleology^100 in reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process^67, as induced by maximal-as-intemporal-operating-modality-of—reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness^88—unenframed-conceptualisation-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with notional–deprocrypticism thus implying a ‘full-cycle ontological-contiguity—of-the-human-institutionalisation-process^68 undermining of subknowling^13/mimicking/emanant-uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-deepening^53 to handle the requisite transcendence-and-sublimity/sublimation/supererogatory–de-mentativity even if from the very start the human
doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on the successive challenges of base-institutionalising, then universalising, then positivising, and finally with notional–deprocrypticism absolute ontological-contiguity by undermining ‘disjointedness-as-of-reference-of-thought’-as-misappropriated–meaningfulness-and-teleology-in-arrogation’ (longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology). It should be noted that the issue of procrypticism had always been present at all times of human existence but the natural priority going by human shallow limited-mentation-capacity-(as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness) to deeper limited-mentation-capacity-(as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness) was first to have a base-institutionalisation institutionalisation, universalisation institutionalisation, positivism institutionalisation before prospectively notional–deprocrypticism institutionalisation; more precisely, previous psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring are indirectly (skewing towards) addressing base-institutionalisation, universalisation, positivism and deprocrypticism, up to the point of the respective institutionalisation/intemporalisation-recomposure where the reference-of-thought-as-the-registry-worldview is directly addressed. This thus explains ontological-normalcy/postconvergence across human mental-devising-representation as changes to accommodate intrinsic reality by psychoanalytic-unshackling/memetic-reordering/institutional-recomposurings of successive illusions-of-the-present/present-consciousnesses/epistemic-totalising~self-referencing-syncretising/mirage at these successive institutionalisation/intemporalisation levels including the positivism–procrypticism

points to the fact that ontologically for the full potential of human science, this should be ‘rising
from this fundamental philosophical depth/profoundness of thought’ to then transversally
address the issues it raises while projecting prospectively. A further insight can be grasped

superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview of reference-of-thought–categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring’ of the medieval mindset/reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the notional–deprocrypticism registry-worldviews/dimensions). In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal supplanting–conviction-as-to-profound-supererogation–of–‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism or prelogism minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to-reference-of-thought–of-apriorising/axiomatising/referencing’ is thus called for, more like we perceive the ‘slantedness of a childhood cingle’ (in terms–as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool’ whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-prime movers-totalitative-framework). For instance, while the traditional reflex of the human mental-devising-
representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and
likewise with many conceptualisations of a doppler-thinking nature, is more real by its
ontological-prime-movers-totalitative-framework\textsuperscript{73}, thus pointing to the error of the human
reflex/impulse thinking). In another light, this explains the transformative evolution of our
registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-

with the insight that our mental-devising-representation will evolve when prospective abstract

disambiguated-'motif-and-apriorising/axiomatising/referencing’. The bigger scheme of things being the de-mentative/structural/paradigmatic preemption of a defective/perverted registry-worldview, in this case procrypticism–or–disjointedness-as-of- reference-of-thought. Such an emanant insight can be garnered from the fact that, positivism was established by the ‘diktat’/ordered-construct of the Descartes, Comtes, Galileos, Rousseaux, Newtons, Darwins… of the world, and the rest of humanity complied to the formalisms that ensue, by virtue of their proxying-to-intrinsic-reality and the positive-opportunism that led to psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (towards human formalisation and internalisation)! As registry-worldview/dimension defects or denaturing are responsible for the vices-and-impediments of the said registry-worldview/dimension; noting that the fundamental construction is a ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation’ making reference to ontological-primemovers-totalitative-framework and not a vague ‘impression/good-naturedness/wishfulness conceptualisation’ making reference to the banal wooden-language-{imbued—averaging-of-thought<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications>} as may illusionary be projected intradimensionally/intra-registry-worldview (the latter being represented as oblongated non-veridical narratives by the prospective intemporal-disposition-worldview)! The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’. For instance, no non-positivism/medieval mindset is ‘good-natured/vague by the registry-worldview/dimension impression’ enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address ‘the-Good/understanding’ of a positivistic mindset which will resolve or structurally-rendered-
inoperant the problems of superstition and witchcraft as the former will always make reference to the defective/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology of non-positivism/medievalism no matter how ‘good-natured/impression-driven’ it is. The same applies with procrypticism and deprocrypticism. No procrypticism (preconverging-or-dementing–apriorising-psychologism) mindset as of impression-driven/good-naturedness/wishfulness has the requisite ‘the-Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework construct insight to resolve/structurally-rendered-inoperant the issues of the vices-and-impediments of procrypticism as it is the deprocryptic mindset of ‘the-Good/understanding/knowledge construct’ that is the virtue that carries the sound registry-worldview/axiomatic construct/categorical-imperatives to be able to do this. - the-Good is an intemperal/ontological articulation referencing intemporality /longness in a contiguous emanance of ‘transcendental/superseding abstract intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ and corresponding derived reference-of-thought–categorical-imperatives/axioms/registry-teleology; and is imbued with the ‘memetic reordering contiguity’ of institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’> for base-institutionalisation-to-universalisation-to-positivism-to-deprocrypticism, and thereafter). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework is notionally more of ‘a capacity and scientific construct’ (high or low mentation-capacity) rather than a ‘stigmatising construct’ (positive or negative impressions). - ‘Good-naturedness’ is a temporal articulation that wrongly references (distractively) for temporality–sake registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology priorly-and-over ‘transcending/superseding abstract

Good-naturedness is notionally more of a ‘stigmatising construct’ (positive or negative stigmatising) rather than ‘a capacity and scientific construct’ (high or low mentation-capacity). - Virtue (retrospectively to prospectively) is not determined by ‘good-naturedness’/impression-driven construal/conceptualisation of meaning but rather by the-Good/understanding/knowledge-reification⁷/ontological-primumers-totalitative-framework⁷ construal/conceptualisation of meaning as validated by ontological-primumers-totalitative-framework⁷ (the emanant/becoming ontological-normalcy/postconvergence determinant of veridicality/the-quality-of-being-emanantly-real). The-Good/understanding/knowledge-reification⁷/ontological-primumers-totalitative-framework⁷ construal/conceptualisation (understanding) as per veridicality demonstrated by ontological-primumers-totalitative-framework⁷ is the complete and sufficient elaborative framework for conceptualising virtue! Such ontological-primumers-totalitative-framework⁷ is rather tangentially the purview of increasing realism of the institutional-cumulation/institutional-recomposure{(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing<-perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism’)} as it is contiguous with ‘human transcending across shifting virtue postconverging–dementating/structuring/paradigming for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ (with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring); going from recurrent-utter-uninstitutionalisation

Such an articulation of the human, retrospective and prospective, skewing (‘intemporality -asymmetric-subsumption-of-temporality,’ for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity)/deferential-formalisation-transference towards development of virtue is grounded in a the-Good/understanding/knowledge-driven conceptualisation on veridicality established by ontological-primemovers-totalitative-framework\textsuperscript{=} validation. The overarching and defining notion is that each registry-worldview/dimension is only capable of the virtue reflected by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In other words, ‘a registry-worldview/dimension defective reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{=} as of its relative-ontological-incompleteness\textsuperscript{=} induced,–threshold-of-nonconviction/madeupness/bottomlining–in shallow-supererogation\textsuperscript{=} as-to–attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism’ is responsible for the vices-and-impediments\textsuperscript{=} of that registry-worldview’s/dimension’s reference-of-thought’; and, requiring prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{=} for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preemption of such
Thus de-mentatively/structurally/paradigmatically it is the prospective registry-worldview/dimension which is always the ‘prospective virtue potential’ for the prior/superseded registry-worldview/dimension. Basically, base-institutionalisation enabled the virtuous resolution of vices-and-impediments of the state of recurrent-utter-uninstitutionalisation, and likewise with universalisation and ununiversalisation, positivism and non-positivism/medievalism, and prospectively, notional–deprocrypticism and procrypticism–or–disjointedness-as-of-reference-of-thought. In the present world, we no longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners. Basically, human ‘supplanting–conviction-as-to-profound-supererogation’—of-‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism deductive reasoning’ as prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and hence virtue; that is, so long as it is adhered to properly. However, this is not the case on two grounds. It is critical to distinguish a defect in improper processing/operating of supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism or prelogism which is rather construed as a singular/ad-hoc ‘implicitation-of-act-execution defect’ and can be then qualified as a ‘poor or bad supplanting–conviction-as-to-profound-supererogation—of-‘attendant-intradimensional’–postconverging/dialectical-thinking—apriorising-psychologism.

For instance, going by the BODMAS equation highlighted before, the mere operation of arithmetic without factoring in A’s condition/subknowledging\(^9\) - impulse/compulsive-slanting—preconverging-or-dementing\(^{10}\) - apriorising as of \(^5\) incrementalism-in-relative-ontological-incompleteness — enframed-conceptualisation additionality with 1 leads to a systematic failure that is ontological and not a mere act defect, and defines an uninstitutionalised-threshold \(^{103}\). Ontologically, the mental-devising-representation of such \(^7\) perversion-of-\<reference-of-thought\>-\<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\> is as strands-of-perverting-temporal-dispositions, involving oblongating/decandoring/distractive-alignment-to-
reference-of-thought<of-apriorising/axiomatising/referencing>, that defines the dialectical-out-of-phasing (whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and, in the prospective representation, of procrypticism) as perversion-of reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>. For instance, in registry-worldview/dimension terms, medievalism/non-positivistic mental-disposition is systematically registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect<as-Being-or-ontological-or-existential–defect> at the uninstitutionalised-threshold where you need a positivistic mental-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Likewise, procrypticism (threshold-of—nonconviction/madeupness/bottomlining-in-shallow-supererogation)—<as-to—attendant—intradimensional’—prospectively-disontologising—preconverging/dementing—apriorising—psychologism>/unsoundness-or-ontological-bad-faith/inauthenticity—of—reference-of—thought/mental-perversion/subknowledging/mimicking-and-corresponding—<amplituding/formative—epistemicity>totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag of positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or—contiguity—or—ontological-preservation) is registry-worldview’s/dimension’s—uninstitutionalised-threshold—defect<as-Being-or-ontological—or—existential–defect> at the uninstitutionalised-threshold where you need deprocrypticism. Reality being blunt/incisive as it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to us, is in essence of potent operant and deterministic phenomenality that doesn’t have any place for our thresholding discrete incrementalism—in-relative-ontological-incompleteness—enframed-conceptualisation notions but even for the cases where such discretion is artificially devised/implied, it is applied as operant and deterministic (consider quantum-mechanics). So
ontologically, the mental-devising-representation of "perversion-of- reference-of-thought"<as-
effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

insightful grounds. Reality's bluntness/incisiveness doesn't leave room for discretionary
judgments about 'good-natured'/impression-driven conceptualisations of virtue and virtuous
judgment within the overarching framework of such the-Good/understanding/knowledge-
reification /ontological-primemovers-totalitative-framework reality determinism, and such
impressions can only pass for an illusion-of-the-present/present-consciousness mirage and/or

second reason is that we can garner insight on prior/superseded institutionalisations and

for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Transcendence-
and-sublimity/sublimation/superrogatory-de-mentativity as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation/notional-firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’), rather than a transcendental understanding of the-Good, i.e. knowledge/virtue-as-institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—) for intemporal-preservation. This points to the fact that necessarily the de-mentative/structural/paradigmatic virtue construct (knowledge-driven) of recurrent-utter-uninstitutionalisation is base-institutionalisation, ununiversalisation is universalisation, non-positivism/medievalism is positivism, and prospectively, that of our positivism/rational-empiricism manifestation of procrypticism—or—disjointedness-as-of—reference-of-thought is depoprocrypticism—or—preempting—disjointedness-as-of—reference-of-thought; and so as a veridical and contiguous deterministic-and-operant psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for intemporal-preservation-entropy—or—contiguity—or—ontological-preservation, that knows no discretion! There are ‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous de-mentative/structural/paradigmatic construct, analysed from the perspective of an ontological-veridicality establishing ontological-primemovers-totalitative-framework: (i) The-Good/understanding/knowledge-reification/ontological-primemovers-

These fundamental human mental-devising-representation or apriorising–registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to categorical-imperatives/axioms/registry-teleology for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-threshold where there is divergence in reference-of-thought construed meaningfulness-and-teleology construed as transversality-existential-eventuating/denouement~of-affirmative-and-unaffirmative–disambiguated-’motif-and-apriorising/axiomatising/referencing’. At uninstitutionalised-threshold, given the veridicality of human emanance as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought–categorical-imperatives/axioms/registry-teleology in terms–as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-primemovers-totalitative-framework veridicality and carries a positive-opportunism that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> in the medium to long-run. It is only after such uninstitutionalised-threshold is superseded/dominated/preceded/overridden/uttered by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturung as internalisation and formalisation that logic becomes pertinent as it now
operates only on one axiomatic-construct/categorical-imperatives/registry-teleology that establishes the substantive/existential-contextualising-contiguity (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors’ articulations. Thus the basis for Rational-Realism as the initial institutionalisation/intemporalisation recomposure orientation that goes beyond just articulating reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation but involves anticipating human notional–firstnaturedness—temporal-to-intemporal-dispositions—in preempts the perversion-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation at their uninstitutionalised-threshold thus ensuring ontological contiguity. So with rational-realism
the institutional-cumulation/institutional-recomposuring\(\) as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>\) intemporal-preservation-entropy-or-contiguity–or–ontological-preservation comes around as the ‘full-cycle/dynamic recomposuring’ that specifically anticipates and preempt priorly/ahead in its reference-of-thought–\(^8\) categorical-imperatives/axioms/registry-teleology\(^{100}\), for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation the notion of temporal-dispositions to dement/subknowledge-⟨preconverging-or-dementing as-if-of-sound-knowledge⟩ mimick-and-syncretise (rather than subsequently as a transcendence-and-sublimity/sublimation/supererogation–de-mentativity). This raises two dilemma with respect to the conceptualisation of virtue as rational-realism implies that at the \(^{81}\) procrypticism–or–disjointedness-as-of- reference-of-thought uninstallational-threshold\(^ {103}\), we have to register/acknowledge priorly our inclination to subknowledge-⟨preconverging-or-dementing as-if-of-sound-knowledge⟩ positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought–\(^8\) categorical-imperatives/axioms/registry-teleology\(^{100}\) to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for \(^{11}\) perversion-of-reference-of-thought-⟨as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩/mental-perversion/preconverging-or-dementing –apriorising-psychologism by temporal-dispositions: (i) \(<\text{amplituding/formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) or Setting-aside (as being in denial of \(^{11}\) perversion-of-reference-of-thought-⟨as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation⟩ defect) arises where

This latter instance involves de-mentation-{supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics} or Coring (in reflection/perspectivation and acknowledgment of perversion-of-reference-of-thought<-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >) with corresponding decandoring/distractive-alignment-to-reference-of-thought<-of-apriorising/axiomatising/referencing> and is what enables memetic-reordering/psychoanalytic-unshackling whereas <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside at best induces ‘memetic-inching/psychoanalytic-realigning’ which are not of an immediate transcending nature. conventioning-rationalising. ‘Rational-realism of notional-deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing or institutionalisation/intemporalisation full-cycle’ can thus be construed as a contiguous cumulation of successive memetic-reordering (as institutional recomposuring) for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; with such successiveness due to the limitation of human mentation-capacity to be able to mimetically (across suprastructural-meaningfulnes) come full-cycle in one transcendence-and-sublimity/sublimation/supercrypticity—de-mentativity, explaining the recomposuring of the successive institution-cumulation/institutional-recomposure—(as-to—historiality/ontological-eventfulness/ontological-aesthetic-tracing—<perspective—ontological-normalcy/postconvergence-reflected—‘epistemicity-relativism’>); from recurrent-utter-uninstitutionalisation, base-institutionalisation—universalisation, universalisation—non-positivism/medievalism, positivis—procrypticism, and recomposuring full-cycle towards prospective rational-realism as of deprocrypticism. That is, ‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence once it is shown that it subknowledges-or-mimics (as 75 perversion-of-

But then the state of being in a transcended registry-worldview/dimension (as in our present
positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring—as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, at their uninstitutionalised-threshold; and so, going back to the recurrent-utter-institutionalised early men who left the caves and trees, thus any denial of prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as articulated above is an argument which incoherence emanantly imply ‘we should go back to the caves and trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had transcended up to our very own registry-worldview/dimension, and beyond, prospectively. Stranding (of-perverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised-threshold (the threshold where the registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity—or-ontological-preservation), as the ‘base de-mentative/structural/paradigmatic decandored/distractive-alignment-to-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation defect reflex’ (not a straightness/candor/organic-comprehension-thinking/prelogism reflex), and de-mentation—{supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} rather points to ‘a (lack of) the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reflection/perspectivation’ (hence a veridical ontological-primemovers-totalitative-framework as operant and deterministic, and not an impression-driven/good-naturedness/wishfulness nor a veridically logically-disjointed/discretionary reflection/perspectivation). Stranding is thus
nonconviction/madeupness/bottomlining-in-shallow-supererogation \(^{97}\) <-as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism\(^{97}\) provides the dynamic association for psychopathic/postlogic subknowledging \(^{99}\)/mimicking impulse leading to the vices-and-impediments \(^{100}\) of the registry-worldview/dimension from an intemporal/ontological perspective; and ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation veridicality (as ontological-primemovers-totalitative-framework \(^{11}\)) is the drive that resolves lack of human mentation-capacity for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (at uninstitutionalised-threshold \(^{103}\)) by stranding-backdrop-for-transcendence and then recomposuring prospective registry-worldview’s/dimension’s institutionalisation \(^{106}\) reference-of-thought–categorical-imperatives/axioms/registry-teleology \(^{100}\). The example highlighted on page provides an excellent ‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding<-as-of-apriorising/axiomatising/referencing> intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold \(^{103}\) … To grasp this better say for instance the normal arithmetic we know \(2+2=4, 5+1=6, 7-3=4\), etc. was to be undermine by a new human subknowledging \(^{93}\) caused by a disease wherein we tend to say \(2+2=5, 5+1=7\) and \(7-3=3\), then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality \(^{11}\) <for-sublimating–existential-eventuating/divenouement>--of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence). Thus reference-of-thought– categorical-imperatives/axioms/registry-teleology \(^{100}\) are ‘mental and institutionalisation inventions’ that are
as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging /mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\) null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to-\(^m\) reference-of-thought-<of-apriorising/axiomatising/referencing>\(^s\) of mental-devising-representation as to its unsoundness-or-ontological-bad-faith/inauthenticity\(^a\)-of-\(^s\) reference-of-thought arising from the perversion-and-derived-\(^s\) perversion-of-\(^s\) reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, and the articulation of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\) reflecting the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as intrinsic reality. In practical terms, human/social VIRTUE is effectively articulated at 'the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal-disposition philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge-⟨preconverging-or-dementing -as-if-of-sound-knowledge⟩ intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^0\),-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering). It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring
those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves universal projection to grasp universal principles and is not meant to ‘equivocate and idle’ with temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-totalitative-framework). Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, but the template of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity shows that the intemporal prospective/superseding registry-worldview reference-of-thought takes precedence with contention construed by its reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by the ontological-normalcy/postconvergence prioritisation of the relatively intemporal/universal/intrinsic, hence, ‘the inherent cumulating/recomposuring of intemporal-preservation-entropy’ going from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivis–procrypticism, and prospectively deprocrypticism. Such a subknowledging/mimicking/registry-worldview denaturing resistance is not attended to logically/by-logical-congruence since a perversion-of reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-
its-unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/subknowling registry-worldview/dimension is circular and syncretic in its logic (as it circularly makes reference to its defective/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation) but by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring through the untenability/internal-contradiction/internal-incoherence/institutional-constraining induced by the ontological-primemovers-totalitative-framework of the prospective intemporal-disposition-worldview/dimension (with its more appropriate recomposured reference-of-thought–categorical-imperatives/axioms/registry-teleology registry-teleology); involving rather a crossgenerational collapsing/overriding of the temporal/preconverging-or-dementing apriorising-psychologism registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension that is defective as of perversion-of-reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in the first place), and so with transversality-for-sublimating–existential-eventuating/denouement-of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ of temporal-dispositions and the intemporal-disposition, as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set
sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human ‘dimensionality-of-sublimating \(-\langle<\text{amplituding}/\text{formative}>\text{supererogatory}\text{-de-mentativeness/epistemic-growth-or-conflatedness}/\text{transvaluative-rationalising}/\text{transepistemicity}/\text{anamnestic-residuality}/\text{spirit-drivenness–equalisation}\rangle\) disposition’. Rather it is a secondnatured/ontological-contiguity\(_6\) of-the-human-institutionalisation-process\(_\downarrow\) as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-worldviews/dimensions arising out of human institutional-cumulation/institutional-recomposure\(_{\text{as-to-}\text{historiality/ontological-}}\)eventfulness/\text{ontological-aesthetic-tracing-}<\text{perspective–ontological-normalcy/postconvergence-reflected-’epistemicity-relativism’}>\) to the capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly directed to the transformative of activities while taking for granted much of the bestowed knowledge heritage. Hence we can’t overrate the ‘dimensionality-of-sublimating \(-\langle<\text{amplituding}/\text{formative}>\text{supererogatory}\text{-de-mentativeness/epistemic-growth-or-conflatedness}/\text{transvaluative-rationalising}/\text{transepistemicity}/\text{anamnestic-residuality}/\text{spirit-drivenness–equalisation}\rangle\) development of the cross-section/averageness/banality of solipsistic human thought to wrongly imply human dimensionality-of-sublimating \(-\langle<\text{amplituding}/\text{formative}>\text{supererogatory}\text{-de-mentativeness/epistemic-growth-or-conflatedness}/\text{transvaluative-rationalising}/\text{transepistemicity}/\text{anamnestic-residuality}/\text{spirit-}\).

Just as we work with the reality that all humans are disposed to have cancer and the virtue of curing is not denying but anticipating and preempting the possibility of having cancer with medicines, lifestyle, research, etc., i.e. ‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating/supererogatory—de-mentativity as this
highlights ontological-primemovers-totalitative-framework. It is bluntly speaking a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise involving the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-dementativity)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation, to ‘pedestally dominate and override’ temporal-dispositions in the cross-section/averageness/banality of solipsistic human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully, human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor speak of ‘the-real-nature-of-man’ that can be skewed with institutional recomposuring/memetic-reordering/psychoanalytic-unshackling towards intemporal-preservation-entropy-or-contiguity—or–ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a specific ‘institutionalisation/secondnaturing level’ which is in ‘existential immediacy’ this may seem to indicate that we are talking about ‘different species’ with ‘different ontological determinants’, which is naïve and false. The anthropopsychological
approach to psychology is analogical to the development of physics which is not only on the basis of what is immediately at the consciously immediate human operational/functioning level of physicists but equally projecting into a physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm (particle physics) in other to place the subject on a comprehensively sound footing. Central to such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the social domain is the idea of notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> and institutional-cumulation/institutional-recomposurer-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}. On another note, it is critical to distinguish between a true philosophical development that arises by intemporal-disposition and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans, so that the intellectual exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so doing undermine its work by naively projecting universal intemporality/longness and failing/not-upholding<as-of-apriorising/axiomatising/referencing> to articulate a realism that takes account of temporal mental-dispositions (knowledge-notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality<for-sublimating-existential-eventuating/denouement>~of-affirmative-and-unaffirmative~disambiguated~‘motif-and-apriorising/axiomatising/referencing’ to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing). It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. Intemporality/longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to
reality-referencing and the ontology pedestal) while temporality\(^9\)/shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to 4<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals’). Intemporality /longness and temporality /shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality /longness and temporality /shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of–meaningfulness-and-teleology\(^{100}\) (intemporality\(^5\)) and shortness-of-register-of–meaningfulness-and-teleology\(^{100}\) (temporality\(^9\)). That is, with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ (at uninstitutionalised-threshold \(^\) ) the intemporal mind conceptually asks what is the best disposition in \(^{104}\) universal-depth that abstractly delivers the greatest good to all humans in similar ‘socially-perceived-value as of social-stake-contention-or-confliction’ setup across space and time; while temporal minds under the same notion (intemporality\(^5\)-temporality\(^9\)) conceptually assume lower and lower shades ‘in mentation-capacity terms’ of such an intemporal \(^{104}\) universal-depth concept articulation stressing in lieu of ‘all humans’ various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-primemovers-totalitative-framework\(^73\) in the notion of intemporality\(^5\)-temporality\(^9\) that doesn’t need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms–as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of–meaningfulness-and-teleology\(^{100}\) and longness-of-register-of–meaningfulness-and-teleology\(^{100}\) as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-
driven temporal references harkening back to the prior/transcended/superseded reference-of-thought rather than the prospective/transcending/superseding reference-of-thought; since shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology are a contiguous value construct as in

sublimity/sublimation/supercranoy~de-mentativity. Thus by intemporality\textsuperscript{2}/longness as a the-Good conceptualisation as ‘longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology\textsuperscript{10}’, that specificity (as pursued in this paper) that informs ontological understanding of not idling and articulating meaningfulness in equivalence of temporality/shortness in its various shades, but rather with intemporal purpose and intent, and an ultimate quest for validation only as an ontological-primumoves-totalitative-framework conceptualisation will be qualified as ‘longness-of-thought’; and it strives to achieve a prospective de-mentative/structural/paradigmatic existential registry-worldview/dimension conceptualisation of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity wherein aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the underlying drive. The non-implication of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{3}-or-ontological-reprojecting pedestalling) with temporality\textsuperscript{7}/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and-social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of
social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocripticism-over-procripticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development). The use of ‘human mental-dispositions/individuations’ as of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> herein doesn’t mean ontologically that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> mental-dispositions/individuation potential possibilities that can incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> s, and hence the possibility of ontological-primemovers-totalitative-framework or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations). By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-

While the prelogic/conviction-as-to-profound-supererogation ‘ontologically-reconstituting’ intemporal-disposition-teleology\(^{100}\) is rather the ontologising individuation-pedestal as it strives perpetually to define-and-redefine categorical-imperatives (by its ontologically-veridical associated registry-teleology\(^{100}\)-mentation elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{100}\)) for ‘intemporal/ontological preservation entropy/contiguity’ as it perpetuates institutionalisation/intemporalisation/longness-of-register-of-meaningfulness-over-shortness-of-register-of—meaningfulness-and-teleology\(^{100}\) despite the natural reflex at every registry-worldview/dimension, whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, to temporally arrive at entropy on the basis of temporal-dispositions teleologies or shortness-of-register-of—meaningfulness-and-teleology\(^{100}\) (with the associated non-veridical temporal implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{100}\), i.e. temporal preservation teleologies are inclined to forego intemporal-preservation-entropy-or-contiguity–or–ontological-preservation teleology\(^{100}\) (ontological-veridicality/ontological-contiguity\(^{100}\) of reference-of-thought) at a registry-worldview’s/dimension’s uninstitutionalised-threshold\(^{103}\), which should definitely be resisted by ‘intellectual responsibility’ which for the positivistic registry-worldview/dimension holds that the intellectual disposition is all too willing to be ‘romantic’ about the idea of human firstnature cross-sectional inclination for the intemporal-disposition and that intellectual responsibility is to acknowledge the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from—

Unconscionability-drag (from an ontological/intemporal reference) also points to the fact that at any institutional registry-worldview/dimension, there can be two mental alignments; whether the apriorising–registry is at the institutionalised/intemporalised threshold of prelogism\textgreater{}-as-of-conviction,-in-profound-supererogation \textless{}existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textgreater{} meaning or at the uninstitutionalised-threshold\textgreater{} of meaning involving perversion-of- reference-of-thought\textless{}as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textgreater{} requiring distractive-alignment-to- reference-of-thought\textless{}of-apriorising/axiomatising/referencing\textgreater{}, and in the latter case the reflex to be integratively aligned is lost across all the temporal-dispositions of the perversion-of- reference-of-thought\textless{}as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation \textgreater{} dimension, and what is called for with the unconscionability-drag is a distractive-alignment-to- reference-of-thought\textless{}of-apriorising/axiomatising/referencing\textgreater{} which will explain a dialectically-or- contendingly-out-of-phase or dialectically-primitive alignment by oblongating/decandoring/downgrading, \*, i.e. Remember ‘mental-devising-representation’ is a devising construct of preceding/superseding abstract reality/veridicality (postconvergence) as the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by ontological-primemovers-totalitative-
framework! In the bigger scheme of things, ‘unconscionability-drag’ as a notion points to ‘ontological abstraction and mental-devising-representation of reality/veridicality defect’ whether dealing with psychopathic postlogism\textsuperscript{78} in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or temporal-dispositions conjugated/inflected/derived/mimicked/in-protration-to-psychopathic-preconverging-or-dementing–apriorising-psychologism postlogism\textsuperscript{78} in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or simply plain temporal-dispositions ‘defective mental-devising-representation of ontological reality/veridicality’. The notion of ‘unconscionability-drag’ thus extends to all mental-devising-representation of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation of all registry-worldviews/dimensions with respect to the prospective transcendental as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation registry-worldview/dimension, which is the point of ontological referencing (point-referencing). The reason why the ‘study of the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing the two elements of ontological meaning (reference-of-thought and logic); with reference-of-thought being hitherto undisambiguated in the social construction of meaning, thus leading to a ‘lack of constraining social universal-transparency–(transparency-of-totalising-entailing, as-to-entailing–amplituding, formative–epistemicity totalising, in relative-ontological-completeness) of temporal-dispositions prior relative-ontological-incompleteness–induced, ‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–as-to–‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing–apriorising-psychologism’. However as articulated above, the ‘unconscionability-drag’ carries the resolution for disambiguating reference-of-thought in the ontological social construction of meaning as it is fully aligned or
‘in ratio alignment’ to ‘an emanant transdimensional (across registry-worldviews) point-referencing of intemporal-preservation-entropy’ while reflecting a social universal-transparency\textsuperscript{(10)}-\textsuperscript{(transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{(amplituding/formative–epistemicity>totalising–in-relative-ontological-completeness \textsuperscript{)}} that shows the fallibility of temporal dimensions \textsuperscript{(amplituding/formative–epistemicity>totalising–intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-‘occlusive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity\textsuperscript{(10)}’s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{(8)}-of\textsuperscript{(reference-of-thought\textsuperscript{(7)}}-devolving-as-of-instantiative-context point-referencing and as this further discomfutes in the social-construct of meaning, and hence the perversion-and-derived-perversion-of-\textsuperscript{(reference-of-thought}\textsuperscript{(as-effectively-apriorising-in-\textsuperscript{nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{}})), and elicits an ordered construct of meaning\textsuperscript{(8)} reference-of-thought (in terms—as-of-axiomatic-construct of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{(10)}) from the superseding perspective of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation alienative-hierarchisation and ‘disambiguation of notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as ontological-escalation/aetiologisation’ (longness-of-register-of~meaningfulness-and-teleology\textsuperscript{(10)}). This actually represents the human ‘temporalities-to-intemporality\textsuperscript{2} constant’ at all registry-worldviews/dimensions (as postlogism\textsuperscript{78}-slantedness//ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of \textsuperscript{(reference-of-thought\textsuperscript{(8)}} devolving onto

will be ‘utterly referenced’ from positivism; likewise that of
recurrent-utter-uninstitutionalisation inherently-’preconverging-or-dementing\textsuperscript{19}–apriorising-
psychologism will be ‘utterly referenced’ from base-institutionalisation, that of
ununiversalisation \textsuperscript{75}perversion-of- reference-of-thought-<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > will be ‘utterly referenced’ from universalisation, and thus that of procrypticism–or–disjointedness-as-of-reference-of-thought perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > has to be ‘utterly referenced’ from deprocrypticism/longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology. The reason for the above is that you can’t address a registry-worldview/dimension perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-suprerogation > phenomenal defect (psychopathy) without addressing the defects of the registry-worldview/dimension (procrypticism) that endemises it from the reference of the prospective transcendental dimension, just as you can’t address witchcraft without fundamentally addressing a non-positivism/medievalism registry-worldview that will necessarily and readily endemise superstitions and witchcraft. The peculiarities of successive institutionalisations is that these address the successive emanant dimensional defects of: recurrent-utter-uninstitutionalisation by emphasising ‘base-institutionalising’, ununiversalisation by emphasising universalising’, superstition/non-positivism/medievalism by emphasising ‘positivising’, and procrypticism–or–disjointedness-as-of-reference-of-thought preconverging-or-dementing–apriorising-psychologism by emphasising the ‘undermining of disjointedness/subknowledging/mimicking’ and so as to ‘longness-of-register-of–meaningfulness-and-teleology over shortness-of-register-of–meaningfulness-and-teleology construed as deprocrypticising/preempting—disjointedness-as-of-reference-of-thought’ (noting that the latter institutionalisation/intemporalisation contains the sublimating–nascence of the previous institutionalisations up to its own threshold of institutionalisation/intemporalisation, with notional–deprocrypticism being organically imbued with all the prior/superseded institutionalisations); all these, pointing to ‘an ontological
psychoanalytic/memetic-contiguity deconstruction across anthropology’ which the present
treatment of psychology doesn’t recognise: (i) Psychopath narrative teleology[10]: an adult
psychopath meets a stranger and speaks to him about another stranger whom it knows nothing
about, saying logically that it is a bad thing for this guy to be molesting children (ii) temporal-
dispositions narratives teleologies: a stranger not knowing the other stranger aligning prelogically
to the psychopath’s narrative will have a ‘conjugated/inflected/derived/mimicked/in-

‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing’–apriorising-psychologism affordability-temporal-disposition defect’ will arise if
another interlocutor knowing the accused for not truly being a child molester but because of
expediency with respect to the psychopath articulates the following narrative: (b) the guy is
actually a bad person and they will not be surprise that he is a child molester. A
‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing’–apriorising-psychologism opportunism-temporal-disposition defect’ will arise if a
different interlocutor knowing truly that the accused is not a child molester but for a favour or
sense-of-favour they owe to the psychopath articulates the following narrative: (c) this guy has
been going around molesting young children for quite a while now. A
‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-
dementing’–apriorising-psychologism exacerbation-temporal-disposition defect’ will arise where another interlocutor knowing the truth about the whole thing, thinks they can have an
advantage by acting likewise as the psychopath and articulates the following narrative (d) they
had actually witnessed the accused shoplifting. A ‘conjugated/inflected/derived/mimicked/in-
protraction-to-psychopathic-preconverging-or-dementing’–apriorising-psychologism social-
discomfiture/(social-chainism/negative-social-aggregation)-temporal-disposition defect’ will arise where (e) such narratives are purposefully and consistently relayed in the social sphere based on ignorances/desublimation, affordabilities, opportunisms and exacerbations, and individuals come to make it a reference for their relation with the accused. And finally, a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing\(^{19}\)–apriorising-psychologism temporal-enculturation (temporal-endemisation)-temporal-disposition defect’ arises where (f) individuals come to learn that by having the appropriate social relations and social support network they can then initiate such narratives if they were to have competing 'socially-perceived-value as of social-stake-contention-or-confliction' situations with others, and not only that it also includes individuals passively accepting and giving up on the principle of the intemporality\(^{1} \) /longness and intrinsicness of meaning. It is important to distinguish all the above 'temporal instances conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing\(^{19}\)–apriorising-psychologism of the psychopath’s postlogism -slantedness in hollow-constituting<<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>>, and is different from ‘a defect of logical operation/processing/contention which does not imply any temporal-disposition defect (in terms–as-of-axiomatic-construct of nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > or the denaturing of the reference-of-thought-elements/apriorising–registry-elements out of existential-contextualising-contiguity\(^{39}\)’s-reifying/elucidating-of-prospective-relative-ontological-completeness -of- reference-of-thought- devolving-as-of-instantiative-context as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\(^{10}\)’. supererogation (mental-perversion), the interlocutor deliberately (or naively in the case of ignorance) doesn’t project intemporally (i.e. projects in terms–as-of-axiomatic-construct of shortness-of-register-of–meaningfulness-and-teleology or immediate-temporal-interest and not a universal ontological sense of meaning), comparatively more like a student guessing that the answer of a math question is say 5 ‘artificially’ operates an equation to yield 5 as answer. Whereas with ‘a defect of logical operation/processing/contention’ (which is not the case here), an interlocutor perfectly projects intemporally (i.e. projects in terms–as-of-axiomatic-construct of longness-of-register-of–meaningfulness-and-teleology or a universal ontological sense of meaning) but poorly operates/processes the logic adhocly. This latter case unlike the former doesn’t imply registry-worldview’s/dimension’s-uninstitutionalised-threshold defect-as-Being-or-ontological-or-existential–defect but rather ‘an adhoc defect–of- logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance whereas the former is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold defect-as-Being-or-ontological-or-existential–defect that speaks to the unprincipled-ord-derived-unprincipled disposition of the interlocutor’s individualisation that is, with respect to an infinite number of cases in the same situation (i.e. comparatively the disposition to go about answering math questions by figuring out their answers then ‘artificially’ trying to work out equations to yield the answers). Thus establishing the ontological-primemovers-totalitative-framework of this slantedness/postlogic individualisation defective nature ontologically, hence enabling its aetiologisation/ontological-escalation. explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-

registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms–as-of-

This implies de-mentation-(supererogatory-ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of B to such perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) is the effective backdrop for ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation, and this is rather crossgenerational in nature (rather than instant intra-generational registry/worldview transformation) as personhoods-and-socialhood-formation are rather grounded on the superseded/transcended/unsound reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The above analysis shows that soundness-or-ontological-good-faith/authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy/postconvergence). Unconscionability-drag (from an ontological/intemporal reference) ensures the disambiguation of registries so that the psychopath’s and temporal-dispositions are not elevated to the intemporal level which then allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect being in terms–as-of-axiomatic-construct of the apriorising–registry-elements, implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology of the registries, i.e. rather the unsoundness-or-ontological-
bad-faith/inauthenticity-of-reference-of-thought or the dialectically-or-contendingly-out-of-phase meaningful construct). Unconsciousability-drag (from an ontological/intemporal reference) is thus central to attending to the rational-realism of notional-deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing ‘postconverging–dementating/structuring/paradigming as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as-to-the-nondisjointedness/entailment-of-prospective-nonpresencing’ as it accounts for the defect of temporal-dispositions teleologies of meaning (shortness-of-register-of–meaningfulness-and-teleology) while projecting intemporally/ontologically. The notion of ‘unconsciousability-drag’ also explain how and why banal temporal-dispositions are not readily ‘integrative of psychopathic postlogism-slantedness as conjugated-postlogism/preconverging-ordementing-integration’ (hence no distractive-alignment-to-reference-of-thought-<of-apriorising/axiomatising/referencing>) to the childhood and early adolescent psychopaths but come to develop a ‘mental-unconsciousness’ (unconsciousability) to be ‘integrative of psychopathic postlogism-slantedness’ during the stage of late adolescence and adult psychopath. Antipodal to the idea of ‘unconsciousability-drag’ is the idea of ‘conventioning’/social-temporal-thresholding. ‘Unconsciousability-drag’ points to an abstract but more veridical ontological construct of the ‘social construction of meaning’ that is ontological-normalcy/postconvergence, based on intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by using categorical-imperatives of the prospective superseding/transcendental registry-worldview/dimension whether such a representation is aligned or not with the society’s collective-social-psyche or present-consciousness. (For instance, we can generate an unconscionability-drag of a medieval society on the basis of a positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic mental-dispositions of individuations in such a society. While such a representation, with its
corresponding subknowledging/mimicking, is ontologically more accurate about such a society, however, the collective-social-psyche/present-consciousness of individuations in the said society will not recognise any such decandored/oblongated/logical-incongruence-or-transversality-/for-sublimating-existential-eventuating/denouement>/dialectically-or-contendingly-out-of-phase representation of themselves, rather the medieval society will represent itself as candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-temporal-thresholding representation of the social construction of meaning’). Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social construction of meaning’, intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality\(^45\)) is not necessarily the deterministic basis for human social adherence to it. Transcended and ontological meaningfulness of reality (contrary to conventioning/social-temporal-thresholding meaningfulness of reality which is rather towards <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/temporality-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to ‘prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation-channelling-in-deferential-formalisation-transference’ of ‘any social construction of meaning’ for there to be collective institutionalised social adherence (and by the relative positive-opportunism\(^76\) elicited). Institutionalisation/Intemporalisation percolation-channelling-in-deferential-formalisation-transference> are the institutionalised relays for human survival-and-flourishing-teleology\(^160\), whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocripticism, such that abstractions that will normally hardly be socially integrated going just by averaging human
temporal-to-intemporal nature, can actually come from re-originary-as-unenframed/unbeholding/outlier-conceptualisation-(imbued-postconverging/dialectical-thinking -‘projective-insights’/′epistemic-projection-in-conflatedness ′-of-notional-deprocrypticism-prospective-sublimation) intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation-channelling-(in-deferential-formalisation-transference> are for institutional-cumulation/institutional-recomposure-(as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-′epistemicity-relativism’>} beyond just the consciousness appraisal of temporal-dispositions. Institutionalisation/Intemporalisation percolation-channelling-(in-deferential-formalisation-transference> imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over ‘social-and-temporal-trading’ and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied positive-opportunism ⁶ for human survival-and-flourishing imbued in institutionalisation/intemporalisation percolation-channelling-(in-deferential-formalisation-transference>. This implies that an exercise in institutionalisation/intemporalisation beyond just intemporal philosophical projection is needed for the social integration of any transcending veridicality postconverging–de-mentating/structuring/paradigming (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather ‘conventionalised from institutionalisation/intemporalisation (secondnatured), and has not evolved as of dimensionality-of-sublimating ⁷ (<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-

preconverging–de-mentating/structuring/paradigming. ‘Prior or circumstantial social
integration gatekeeping construals or institutionalisation/intemporalisation percolation-
channelling–<in-deferential-formalisation-transference>’ that can enable the superseding of
conventioning in the social integration of ontological veridicality include existing percolation-
channelling–<in-deferential-formalisation-transference> of formalisms/officialdom which have
naturally been instituted to allow for the supersedingness of intemporal/ontological constructs
and intemporal-disposition s. For instance, formal institutions selectivity mechanisms; and
where the latter fail or are fallacious, basic positive-opportunism wherein the ontologising
construct elicits positive-opportunism for the undermining of defective conventioning/social-
temporal-thresholding constructs/categorical-imperatives of meaning (for instance, a natural
causes disease conception leading to more cures such that positive-opportunism then
undermines a superstitious-driven disease theory which leads to more pain and deaths). The big
idea here is that, it is naïve philosophically to operate mainly on the basis of ‘ontological
rightness of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity’ with
respect to a species whose construct is structured to be temporal (shortness-of-register-of–
meaningfulness-and-teleology) to intemporal (longness-of-register-of–meaningfulness-
and-teleology) requiring skewing (‘intemporality-asymmetric-subsumption-of-
temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-
enabling/sublimating/supererogatory~de-mentativity)/deferential-formalisation-transference to
the latter. And any such ‘ontological transcendence-and-sublimity/sublimation/supererogatory~de-mentativity by mere rightness’ has never been acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never took off even though it was ontologically right (as the medieval conventioning/social-temporal-thresholding construct and strongly ingrained social dispositions). It is the generated untenability/internal-contradiction/internal-incoherence/institutional-constraining together with positive-opportunism coming from sailors sailing around the world on this idea to seek for spices and create wealth that constrained/institutionalised the medieval world into such an ontological transformation/transcendence-and-sublimity/sublimation/supererogatory~de-mentativity. Part and parcel of ontological transformation/transcendence is the existential cynicism to grasp the human sense of internal contradictions and positive-opportunism to introduce and uphold these by the mechanism known as institutionalisation/intemporalisation. Regarding futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism undermining of procrypticism, it is doubtful that pertinent ontological constructs and generally the ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation dynamics of procrypticism’ are by themselves a sufficient basis for the direct and immediate social integration of notional–deprocrypticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence-and-sublimity/sublimation/supererogatory~de-mentativity wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolation-channelling-<in-deferential-formalisation-transference> for intemporal
transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. However, it should be noted that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective temporality/shortness undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism-slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the intemporal meaning), and on the other hand, how prospective intemporality/longness is regenerated to supersede/transcend such perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and bring about new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Organic-comprehension-thinking (as to supplanting–conviction-as-to-profound-supererogation–of-‘attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism) as highlighted above contrasts with threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–<as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism> which is rather temporal-driven (whether ignorance at best, slantedness/psychopathy, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of–reference-of-thought’–as-conflatedness–or–ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology), being intemporal-driven, with respect to transcendence-
and-sublimity/sublimation/supererogatory~de-mentativity points to the fact that the articulation of meaning referenced/registered/decisioned differently in two registry-worldviews/dimensions, the perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as retrospective and transcendental as prospective, is/should be wholly referenced/registered/decisioned intemporally from the superseding transcendence-and-sublimity/sublimation/supererogatory~de-mentativity that upholds intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; as the ‘intemporal mind’ can’t go after the value reference of both registry-worldviews/dimensions since transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is about ‘subverting’ perversion-of-reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > by psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. For instance, the non-positivism/medievalism value references of aristocracy/class are contrarian to positivistic value references for the possibility of equal opportunities; and the intemporal projecting positivistic mind in medieval times has no business trying to appear ‘great and wonderful’ with respect to ‘conventioned’ value reference of aristocracy/class in the medieval world even though it is the dominant and encultured collective mental-disposition. Likewise, such logic will apply regarding notional~deprocrypticism and procrypticism requiring a reasoning that goes beyond the ‘<amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present’ mindset/ reference-of-thought of our current procryptic mental-disposition, i.e. ‘the limit of ontological thought is not the banal <amplituding/formative> wooden-language ⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of–meaningfulness-and-teleology -as-of–‘nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications⟩ of a registry-worldview/dimension’. Overall threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation 12-as-to—attendant-intradimensional—prospectively-disontologising—preconverging/dementing —apriorising-psychologism> points to the fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal consequences whether regarding defective enculturation or defective social ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires ‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation exercise of undermining conventioning at uninstitutionalised-threshold 03 (due to the inescapable veridicality of human individuation temporal/shortness-to-intemporal/longness which inevitably induces 75-perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation 97 at uninstitutionalised-threshold 03); deconventioning as such skews (‘intemporality 52-asymmetric-subsumption-of-temporality’ , for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. An essential element underlying the psychopathic and other postlogic relationship with meaning has to do with the nature of attachment to meaning. A postlogic mind doesn’t view meaning articulations as ‘inherently sanctuous’ and thus is
inclined to produce mechanically whatever deductions that may engage an interlocutor in-prelogic supplanting—conviction-as-to-profound-supererogation—intradimensional—postconverging/dialectical-thinking—apriorising-psychologismly/prelogicly even if these are hollow mimicking non-veridical narratives, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated). On the other hand, prelogism—as-of-conviction,—in-profound-supererogation—<existentially-veridical—‘attendant-intradimensional—apriorising/axiomatising/referencing’—logical-dueness-precedes-disontologising-logical-outcome-arrived-at> imply more of an organic alignment view of meaningful articulations as ‘inherently sanctuous’, i.e. ‘existential-contextualising-contiguity’/meaningful-projection-of-intrinsicness’. Going by these two facts, the postlogic and psychopathic mindset/reference-of-thought is readily inclined to call upon a broad base of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging narratives (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) whereas the prelogic/conviction-as-to-profound-supererogation mindset/reference-of-thought is inclined to call upon just the narratives it sincerely thinks are relevant/due and intrinsically real. So it is critical not to confuse the over-articulation of postlogic narratives (vague mechanical stylising-of-locution) with an organic depth-of-thought or profoundness, given that these involve postlogism-slantedness, disjointed-logic, miscuing, inventions and platitudes from the postlogic mindset, requiring decandoring/oblongating/distractive-alignment-to-reference-of-thought—<of-apriorising/axiomatising/referencing>—. Ontologically speaking, meaning is an essential construct of human mental-devising-representation meant to allow for human intemporal teleology. By
‘uninstitutionalised-threshold’ (where there is no ‘intemporal social universal-transparency’—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative—epistemicity>totalising—in-relative-ontological-completeness) as well as no notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence—disambiguation/unequivalences/alienative-hierarchisation’) is meant, the possibilities of human dispositions and acts beyond frameworks that have not been institutionalised; manifesting as (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring universalisation), and to the recurrent-utter-institutionalised apriorising-registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation). Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifices (institutions with their formal rules) by the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity)/deferential-formalisation-transference of our collective thought process in the medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt temporal dispositions. This explains why modern man (positivistic registry-worldview) is apparently more evolved/developed than he/she should normally be compared to previous generations (recurrent-utter-uninstitutionalised
men, ununiversalised men, non-positivism/medievalism men, and prospectively, how he/she will be superseded by the deprocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is different from the others. The difference is the cumulated ‘software’ or institutionalisations and formalisations that have been internalised into modern man. Anthropologists know that if you were to take a newly born child from a society like those that do not have contact with the modern world, and raise the child in a modern family, there is no different outcome on average as with any other child bred in the modern world. So our faith in virtue is not in our inherent excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation that has cumulated, and insightfully, which creative template we will prospectively develop! Incidentally institutionalisation and formalisation ensures that we take the best form of human individuation thinking/capacity potential and constrain society and individuals to that individuation thinking/capacity potential, and inherently so, by the overall positive-opportunism to the cross-section of the species since it better grasp intrinsic reality and its virtues! Solipsism means I exist alone (as to the epistemic perspective with respect to intrinsic reality/ontological-veridicality), and this author notionally interpret solipsism as the deepest sense of existence and meaning available to an individual in its spontaneous emanance or becoming, and as it projects itself ‘purely and universally’. It is a firstnature/intemporal construct beyond and ‘inventing the possibility’ of secondnatured institutionalisation, and places all humans at all times at the same pedestal of virtuous and ontological appraisal, as it is about our ‘transcendental valour’ irrespective of the level of institutional-cumulation/institutional-recomposurer-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}> at which we are. It contrasts with institutionalisation/intemporalisation which is ‘a negotiated and secondnatured or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction’.
Institutionalisation/intemporalisation as such, by way of positive-opportunism and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence-and-sublimity/sublimation/supererogatory-de-mentativity which is upheld by formalisation and internalisation. By ontological-normalcy/postconvergence is meant that ‘intrinsic reality’ is one and given (ontology), and that the flaws and corrections in how we go about representing ‘intrinsic reality’ (metaphysics or the human-centered temporal-perspective) has no influence on reality’s intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 3000 AD might be worlds apart, but the intrinsic nature of reality never changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework for ontological-primemovers-totalitative-framework and thus a better grasp of the world; hence proxying mentation-capacity level as the various institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>}. That idea that intrinsic reality is preceding/superseding is known as ontological-normalcy/postconvergence (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of ontological-primemovers-totalitative-framework is known is the human psyche (whether by candoring/straightness/prelogism when pertinent or
decandoring/slantedness/distractive-alignment-to- reject reference-of-thought when impertinent, intrinsic reality never gives in (that’s why we are mortals and our hope is to always give-in to intrinsic reality for the possibilities of the future). This latter point is important as by reflex an epistemic-totalising ~self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by amplituding/formative–epistemicity totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its registry-worldview/categorical-imperatives (setting-aside of perversion-and-derived-perversion reference-of-thought) rather than psychoanalytically-unshackling/memetic-reordering (coring and superseding the perversion-and-derived-perversion reference-of-thought) for prospective/transcending/superseding categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. By ‘intemporal transversality ~of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ as from ontological-normalcy/postconvergence’ is meant ontological-normalcy/postconvergence meaningfulness-and-teleology as so articulated above is ontologically veridical but that does not necessarily imply the metaphysical framework temporal mental-dispositions will recognise that (i.e. there is no ontological-contiguity between registry-worldviews references-of-thought as this falsely implies ‘no temporal-to-intemporal disambiguation, i.e. equivalence of references-of-thought/no-alienative-hierarchisation, whereas what is warranted is ‘intemporal-prioritisation-of–reference-of-thought’–as-conflicatedness –or-ontological-reprojecting pedestalling’); and that it is transversality ~of-affirmative-and-unaffirmative–disambiguated–’motif-and-apriorising/axiomatising/referencing’ of such constructed veridicality in its ontological-primemovers-totalitative-framework determinism

implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation,
assumptions, value-reference and teleology) of the mental-devising-representation from the
intemporal-disposition/ontological perspective. Ontology being of the intemporal-disposition,
the exercise of ‘directing logical convincing’ to temporal-dispositions is inherently unwarranted
and is rather—amplituding/formative—epistemicity—totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating
and directing’ intemporal/ontologically-contiguous meaningfulness towards ontological-
primemovers-totalitative-framework which induces the positive-opportunism and
untenability/internal-contradiction/internal-incoherence/institutional-constraining for its supersedingness in the ‘institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference>’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) and allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. This is underlying transcendental-enabling/sublimating/supererogatory–de-mentativity notion while often obscured in the social aspect. The ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal validation but impose themselves because natural truths inherently supersede human egotistic or opinionatedness! Postconvergence, in the bigger scheme of things, implies that knowledge has to do with the development of our ‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern is about ‘us’; in the appropriateness of the registries we make of intrinsic-reality across retrospective-and-prospective history or rather shifting dialectical moments of relative-ontological-completeness! The articulation of reality, registry-worldviews/dimensions, mental strands (perverted or not), and other constructs of ontological-primemovers-totalitative-framework is ‘at-a-superseding-pedestal and incisive/blunt’ by the very nature of ontological-normalcy/postconvergence reality. For instance, supposed a society with a non-positivism/medievalism belief system attributes the cause of a disease to say witchcraft, that
doesn’t stop the reality of bacteria causing the disease even if such a representation of reality isn’t in the present-consciousness/illusion-of-the-present of that society. Such an ontological conceptualisation of reality equally applies in our times where it can be demonstrated prospectively that our mental-devising-representation of meaning regarding a phenomenon is out of kilter, and reality won’t stop to accommodate us or our banality of thought. Thus the conceptualisation of reality is rather articulated at this depth-of-thought whether it accommodates our present-consciousness/illusion-of-the-present or not (reality personality), and operates by an ordered construct based on ontological-primemovers-totalitative-framework and not a disposition of averageness/banality/popularity/extrinsic-attribution-of-thought recurrent in uninstitutionalised-threshold in the extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology}, allowing for the possibility of transcendental meaning, institutionalisation/intemporalisation (skewing ("intemporality-asymmetric-subsumption-of-temporality", for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory−de-mentativity) for intemporal domination) and human progress; given human temporal/shortness-to-intemporal/longness dispositions. Such an articulation of reality introduces the concept of ‘reasoning-through/utterion’ over ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation and notional−disjointedness’. Reasoning-through/utterion refers to the uncompromising and non-negotiable nature of reality with respect to the meaningful frames of mortal creatures that we are as reality doesn’t adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-through/utterion then implies that meaning is articulated exclusively in terms−as-of-axiomatic-construct of ontological-primemovers-totalitative-framework and anything else is defined, whether to be candored or to be decandored, at that ordered construct point-of-reference or point-referencing. Reason is thus ontologically a ‘reasoning-through’ as allowed through in a
‘pure, organic and intemporally uncompromising state’ by reality ontological-primemovers-totalitative-framework\(^2\) at-a-superseding-pedestal and incisively/bluntly. \(^5\)incrementalism-in-relative-ontological-incompleteness\(^6\)—enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought refer to the human reflex to average minds or make reference to extrinsic elements rather than meaning by its inherence as can be predicated effectively, and involves ‘reasoning with’, as it introduces ‘temporal and social trading’ elements over or clouding or compromising inherent intemporal veridicality. \(^5\)incrementalism-in-relative-ontological-incompleteness\(^6\)—enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought as such is patently wrong; as can be perceived from point-referencing superseding registry-worldviews/dimensions such that the ontological representation of the veridicality is different from the different perspectives of an recurrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding deprocryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising—registry point-referencing threshold’, and implying rather the need for our psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring by distractive-alignment-to-reference-of-thought-of-apriorising/axiomatising/referencing.\(^9\)

Fundamentally, \(^5\)incrementalism-in-relative-ontological-incompleteness\(^6\)—enframed-conceptualisation and notional-disjointedness-as-of-reference-of-thought in human thinking as indicated above with the various institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing-perspective—ontological-
normalcy/postconvergence-reflect-‘epistemicity-relativism’⟩ is superseded by reasoning-through/utterion; in transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’ at-a-superseding-pedestal, and represented as of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing apriorising/psychologism> as oblongated/decaned or failing-intemporal-preservation-or-misappropriation-of-meaningfulness or transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’, given the fact that this reflects apriorising–registry defect and not logical defect. More precisely, how can meaningfulness-and-teleology be represented in ‘a prospective apriorising–registry state’ which is ontologically more real contrasted to ‘a present retrospective apriorising–registry’, as meaningfulness-and-teleology ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? This fundamentally has to do with our dimensionality-of-sublimating ⟨amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ projection irrespective of the uninstitutionalised-threshold, and calls for PEDESTALLED CONSTRUAL or PEDESTALLED DISAMBIGUATION to skew/deferential-formalisation-transference meaning towards the intemporal/longness disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, as institutionalisation/intemporalisation. Pedestalled disambiguation thus involves at a given uninstitutionalised-threshold translating the ‘apparently prelogism’–as-of-conviction,–in-profound-supererogation <existentially-veridical–‘attendant-intradimensional–

Technically, pedestalled disambiguation should involve reflecting/perspectivating/highlighting from the intemporal-disposition pedestal teleology finality/questioning mental-profundness (deep candor) the relative longness/shortness-of-teleology of temporal-dispositions teleologies finalities/questioning mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which is the psychopath’s insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology finalities/questioning (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled disambiguation points to the fact that the social representation of
meaning is transversal/logically incongruent at uninstitutionalised-threshold as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of ‘questioning depth-of-thought’ and ‘strands of depth-of-meaningfulness’ to reflect effective meaningful representation from the intemporal-disposition point-of-reference). Where meaning is not articulated within an institutionalised/intemporalised framework, the idea of logical-congruence (a common reference of meaning in terms—as-of-axiomatic-construct of reference-of-thought and logic) should be avoided due to perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> whether psychopathic or not, and pedestalled disambiguation is then required using distractive-alignment-to-reference-of-thought—<of-apriorising/axiomatising/referencing> to establish the ontological pre-eminence of the intemporal-disposition. Instances of perversion-and-derived—<perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> rather point to uninstitutionalised-threshold, whether retrospectively or prospectively, as there is wrong equivalence of notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> in the articulation of meaning; instead of the pedestalled supersedingness of the intemporal-disposition as it is all about intemporal-preservation-entropy—or-contiguity—or—ontological-preservation (superseding various shades of temporal preservations). Otherwise, <perversion-of-reference-of-thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> induces a ‘free for all’ false equivalence wrongly construed as of intemporal—/longness (rather than the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional—firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological—normalcy/postconvergence>.

For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor universal rules (mob situations as well as social psychopathic situations will fall under such an interpretation as well). (2) Pedestalling (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) articulates the relative grandor and virtuous consequence of the pedestalled supersedingness of the intemporal-disposition by its intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that then leads to society’s temporal-to-intemporal cross-sectional ‘dimensionality-of-sublimating

\{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-confaltedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} projection induced deference’ explains why institutionalisation/intemporalisation has been happening across human history; whether deference from personalised/animists beliefs to philosophical, religious and other social belief
systems, deference from haphazard application of social rules to universal notions, laws and principles, deference from spirit-and-mystical-driven notions of nature and various alchemies to a modern scientific construct system. Hence the very place of the averageness/banality-of-human-thought-and-meaning in history has been for it to defer to superseding intemporal-disposition construal by ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling. There is no such thing as allowing thought-and-meaning to the whims of masses thinking but rather deference to ‘reality/veridicality predicing constructs’; as enabled abstractly and existentially by the human individuation intemporal-emanant-registry in superseding human individuations temporal-dispositions. ‘Intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and hence the precedence of higher intemporal teleologies over low temporal teleologies of reference-of-thought and meaningfulness; and that subpar preconverging–dementating/structuring/paradigming of reference-of-thought and meaningfulness not for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation but rather as perversion-of-reference-of-thought–<as-effectively-apriorising-in-

In the same vain, the outcrop of an organic-comprehension-thinking ‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting conceptualisation of notional~deprocrypticism over procrypticism can only be construed within a formal institutionalised articulation not opened to ‘temporal/ordinary disposition contention’ as is the case with subject-matter constructs, but rather an institutionalised percolation-channelling-in-deferential-formalisation-transference exercise, so as to avoid temporal-dispositions denaturing as is the case with all formal constructs, which rather strive to uphold the intemporal/longness-of-register-or-depth-of-meaningfulness teleology while relying on principled methods. Prospectively, the intellectual exercise involved in articulating procrypticism-notional~deprocrypticism and psychopathy and
as-conflatedness-or-ontological-reprojecting pedestal will be necessary as the mere exposure-to/contemplation-of ‘rightness of thought and meaning’ will suffice for transcendence; such a complete human being doesn’t and has never existed, and not even philosopher-kings from the Socrates, Aristotles and others who explore such possibilities, even though intemporal-disposition possibilities will tend to accrue more to such ‘philosopher-kings’ individuals). For the big picture, this point to the fact that institutional-cumulation/institutional-recomposur- (as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-⟨perspective–ontological-normalcy/postconvergence-reflectot-epistemicity-relativism⟩ ) ) /anthropological-continuity/anthropopsychology is only possible for one reason, a continuity in the intemporal-disposition institutionalisation/intemporalisation (with ‘dimensionality-of-sublimating -{<amplituding/formative>supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvalutive-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation} projection induced deference’) of the cross-section of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor. The establishment of institutionalisation/intemporalisation involves necessarily ‘delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> processes’ to uphold it thereafter with formalisms and officialdom surrounding it with respect to temporal-dispositions perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> and corruption dispositions. For instance, the institutionalisation/intemporalisation of ‘scientific chemistry’ comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the meaningful frame, on the justification that they explain and account more about the material world than any other alternative. This justification goes on to make them formalism and officialdom percolation-channelling-<in-deferential-formalisation-transference> to the extended-informality-{susceptible-to-effecting parsimony-as-of-shoddiness-and-incompleteness-to—meaningfulness-and-teleology} such that over time alchemic and superstitious conceptualisations of material meaning are effectively destroyed while equally seeing to it that pseudo-scientism is kept at bay. ‘Delegated gatekeeping and institutionalisation/intemporalisation percolation-channelling-<in-deferential-
formalisation-transference> processes’; because such a pedestalled supersedingness is only as valid as to when it is the grandest construal of material meaning until, and if, it is shown not to be the case. A further and nonetheless important reason for such delegation is the relative superficiality generally associated with averageness/banality-of-thought dimensionality-of-sublimating (<amplituding-formative> supererogatory-de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) projection construal of meaning, and not to speak of its discomposure to the convolutedness often required in articulating and grasping intemporal meaning as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming. Besides, this raises other issues related to a more or less temporal take of an ontological/intemporal enterprise with regards to articulations that are meant to have universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation import of metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation across space and time) rather than for the sake of any particular circumstantial/temporal take/extricatory-situation in whichever locale, that is, an extricatory preconverging–de-mentating/structuring/paradigming. A failure to grasp the intellectual-analyst posture rather as a proxying-of-intrinsic-reality-as-ontology as per ontological-primemovers-totalitative-framework validation and that there-is-no-discretionary-construal-of-ontology/ontological-reality since intrinsic reality is superseding of all mortals including the intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping such an intrinsic-reality is a proxying one superseded by the ontological-primemovers-totalitative-framework of reality ‘which in no way depends on any notion of the intellectual-analyst’s choice/luxury’ (as the intellectual-analyst might actually have by another individuation chose not an intemporal/ontological projection but a temporal posture ‘in moral/intellectual equivalence with temporal mental projections’ with nefarious temporal
consequences). Basically, there is nothing like an intemporal temporality\(^9\)/shortness whereby there is any intemporality\(^7\)/longness in accommodating human temporality\(^7\). Likewise, supposedly the intellectual-analyst was to come short in its intemporal projection or other \(^{10}\)universal values by temporal manipulation, it is very naïve to ‘reason and projecting temporally’ that eliciting such ‘an inductive-limitation (the-paradox-of-a-\(^{10}\)universal-rule-that-doesn’t-apply-\(^{10}\)universally-but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset\(^9\)/reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally, temporal-dispositions as eliciting temporal vices-and-impediments\(^{10}\) are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but \(<amplituding/formative–epistemicity>totalising–self-referencing-syncetising/circularity/interiorising/akrasiac-drag\) mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal preservation as ontological veridicality with the potential for a grander human good’ on the basis of ‘\(^{10}\)universal implications’; as inevitably, ontologically, the resolution of ontological/being perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > defects (and as per their manifestation and conjugation as postlogism\(^7\)-slantedness/ ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of \(<\)reference-of-thought- devolving ontological-performance\(^7\)-<including-virtue-as-ontology>) are as prospective registry-worldviews/dimensions constructs
that supersede the prior/superseded registry-worldview’s/dimension’s persion of categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (uninstitutionalisation de-mentatively/structurally/paradigmatically superseded/resolved/rendered-inoperant by base-institutionalisation, ununiversalisation by universalisation, non-positivism/medievalism by positivism, and prospectively procrypticism–or–disjointedness-as-of-reference-of-thought by deprocrypticism). Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won’t mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn’t have the choice/luxury of deciding from his insight that evolution doesn’t exist in placating any temporal mortals or Galileo doesn’t have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their ‘aggrandised mortality’. The blunt/incisive reality is that they being in that position to affirm intemporality/ontology/intrinsic-reality-as-providing-future-universal-possibilities-for-the-human-species are the ‘very tip of the possibility of human civilisation’ and their moral/intellectual posture is to ‘bluntly look down’ to the ‘little mortal creatures of temporality’ and ‘shepherd the sheepishness-of-the-species’ to grander civilisational grounds. It is an ontological ‘moral and intellectual responsibility and privilege’, actually, to be in any such position, going by the eudaemonic-contemplation which is what ‘effectively grants existential moral and intellectual superiority’ and not naïve temporality/shortness accommodating conventioning constructs about any such pretence which is nothing more than temporal/the-mortal’s perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-
or-dementing apriorising-psychologism; as any such is not the intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional-deprocrypticism (to thwart procrypticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal individuation as such projects in an ‘abstract eternality’ which is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Temporal-dispositions may not need to understand as of

totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present for the pertinence of intrinsic reality to be established as it is preceding in ontological-normalcy/postconvergence, anyway, that is why it is ‘a registry-worldview’s/dimension’s prospective institutionalisation/intemporalisation secondnaturizing exercise’, and ‘not human temporal-dispositions transformation exercise’ into intemporality

Ultimately, like all institutionalisation/intemporalisation construct, there is a ‘dimensionality-of-sublimating projection induced deference’ to such an ontological construal by way of formalism-and-officialdom as the temporality/averageness/banality-of-thought is not allowed to imply an dimensionality-of-sublimating projection depth with respect to such ontological construal (due to the reality of the mediocrity principle that we are not as of intemporal-disposition but notional–firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>, and hence the need for the artifice to

In the bigger
scheme of things, the articulation of reality as referentially of ontological-

ormalcy/postconvergence enables and allow creative projective-insights thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained with the concept of unconscionability-drag) as ‘it enables mental-devising-representation contiguity in recomposuring’ across all institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’>. The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposuring how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. The insight we can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as
‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\textsuperscript{13}\textsuperscript{13}−sublimating–nascence,−disclosed-from-prospective-epistemic-digression\textsuperscript{13}\textsuperscript{13} (deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} possibilities) −subexistence-in-existence being that which holds existential possibilities or existential potency for existential reality or ontological veridicality, as allowed by referential-depth or (‘allant’ or ‘fugue’ in French) or ‘natural emanant dynamic creative vitality/drive’, i.e. ontological-normalcy/postconvergence ‘unwinding’ as deconstruction/ontological-reconstituting–as-to-conflatedness\textsuperscript{12} (more like the subconscious is that which holds existential possibilities/existential potency for ontologically-veridical ontological-normalcy/postconvergence\textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{29} —unenframed-conceptualisation consciousness reality/veridicality, or more like quantum-mechanics is actually an ontologically-veridical ontological-normalcy/postconvergence\textsuperscript{5} maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation about evasive atomic-level physical reality, more like musical and/or artistic creativity hermeneutics is the subexistence-in-existence possibilities or existence-as-of-its-mimetic-echoness/existence-in-reverberation or existence-potency\textsuperscript{13}−sublimating–nascence,−disclosed-from-prospective-epistemic-digression for ontologically-veridical ontological-normalcy/postconvergence ‘unwinding’ concrete music and/or art production). Thereafter, the ontological exercise is about having ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘an ontologically-veridical abstract and infallible referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on the one hand, candoring/prelogism\textsuperscript{79}/organic-comprehension-thinking ontologising, or on the other hand, decandoring/distractive-alignment-to-reference-of-thought<of-apriorising/axiomatising/referencing>\textsuperscript{29}/threshold-of–nonconviction/madeupness/bottomlining-

psychologism (mechanicalism, alchemic-like-reasoning, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, shortness-of-register-of-meaningfulness-and-teleology); which allows the human mind to project beyond just its illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/mirage, and truly have a fulsome picture of universals. Postdication (as an abstract and infallible referencing/correction-tool) allows for the ‘ontological liberation of human mental-devising-representation (of meaning) from any present (recomposured)-consciousness-awareness-teleology’ (whether in the bigger scheme of reference of specific consciousness-awareness-teleologies like recurrent-utter-uninstitutionalisation–base-institutionalisation, ununiversalisation-universalisation, non-positivism/medievalism-positivism, and prospectively procrypticism-deprocrypticism) as ‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated (recomposured)-consciousness-awareness-teleology (given that these consciousness-awareness-teleologies are the recomposured outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-deepening’) but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/utter understanding by the very nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness inherent in any (recomposured)-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension. Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as de-mentation—supererogatory–ontological–de-mentation—or–dialectical–de-mentation—stranding–or–attributive-dialectics

An analogical case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology\textsuperscript{[10]}. However, the bigger picture is that if prior/superseded institutional-cumulation/institutional-recomposure\textsuperscript{(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>) have effectively occurred and so, counterintuitively to their natural (recomposured)-consciousness-awareness-teleologies, as anticipated by postdication right up to our present positivistic institutionalisation/intemporalisation owns (recomposured)-consciousness-awareness-teleology\textsuperscript{[10]}; there isn’t any particular ontological reason for intemporal/ontological meaning not to be construed in ontological-normalcy/postconvergence (postdication) as more veridically/ontologically real, beyond and counterintuitively to the positivistic mind’s temporal (recomposured)-consciousness-awareness-teleology\textsuperscript{[10]} (even if it is unintelligible/existentially-suprastructural to it). Such counter-intuitiveness arises because a prospective transcendental psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring implied by postdication places the prior psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (in this case positivistic institutionalisation/intemporalisation) existentialism/full-existential-depth-implications personhoods-and-socialhood-formation in question/jeopardy. But then it is not reality that caves in, it is ‘the mortal’ with a renewed psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring at its uninstitutionalised-threshold\textsuperscript{[03]} involving organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness\textsuperscript{[02]}–or–

ontologising from the prospective registry-worldview/dimension’. For instance, where a positivist mind might see a forest as a subject of scientific inquiry/understanding, a non-positivist/medieval mindset/ reference-of-thought might rather see a mentally unconscious man going into the ‘evil forest’. Such ‘existential parochial perspectives’ will arise anyway from procrypticism viewed from deprocrypticism, though of a different nature than the example expressed above. In that sense, the deprocryptic mind might actually seem ridiculous in the procryptic registry-worldview/dimension but ‘there should be no temptation to want to appear great or adjust in such a perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation perspective but rather to make it irrelevant’ otherwise the deprocryptic mind compromises the essence of its purpose, just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise its positivist stance’ by trying ‘to be wonderful’ in a non-positivism/medievalism perspective that is rather ‘in want of transcendance-and-sublimity/sublimation/supererogatory—de-mentativity’; as it is exactly because the temporal non-positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendance-and-sublimity/sublimation/supererogatory—de-mentativity, requiring that such an intellectual analyst be of ‘presencing—absolutising-identitive-constitutedness’ consummated/forfeiting posture’ in transversality—of-affirmative-and-unaaffirmative–disambiguated—motif-and-apriorising/axiomatising/referencing with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-
worldview/dimension in need of transcendence-and-sublimity/sublimation/supererogatory—dem-mentativity (procrypticism) to avoid dividing its meaningful-referencing instead of taking it prospectively (deprocrypticism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness\(^13\) consummated/forfeiting posture’ in transversality\(^8\)<for-sublimating—existential-eventuating/denouement>~of-affirmative-and-unaffirmative—disambiguated—motif-and-apriorising/axiomatising/referencing’ with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the de-mentative/structural/paradigmatic conceptual limits (uninstitutionalised-threshold\(^{10}\)) of the reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then arises is that it doesn’t carries the meaningfulness sought for transcendentally. On the other hand, transdimensional/transcendental meaningfulness-and-teleology\(^{10}\) is precedingness/supersedingness/ascendency accruing as ‘existential psychoanalytic ontological form (in full blossoming of the transcending dimension)’ beyond the superseded intradimensional preconverging—de-mentating/structuring/paradigming conception limits (uninstitutionalised-threshold\(^{10}\)) of the reference-of-thought—categorical-imperatives/axioms/registry-teleology\(^{10}\)-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of that registry-worldview/dimension (which itself had been the
further holds a promise that goes beyond our notions of \textsuperscript{8}reference-of-thought and meaningfulness (as rather intradimensional or a registry-worldview constructs), and arrives at the grander notion of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which grasp should enable greater human transcendental possibilities. Of course, ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemperalisation of true knowledge ‘save us from potent-temporality\textsuperscript{99} and its vices-and-impediments\textsuperscript{100} with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’, rather than how do we over-idealise ourselves and thus fail to be preemptive (as the ‘human cross-sectional mental equilibrium disposition’, at any successive transcendence-and-sublimity/sublimation/supererogatory—de-mentativity/institutionalisation in the ‘human essential notional—firstnaturedness—temporal-to-intemperal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence> equilibrium nature which is ontologically true’, under-accounts for ‘temporal-nature which is not ontologically true’, and over-accounts for ‘intemperality\textsuperscript{101}/longness nature which is equally not ontologically true’–the insight for this is that institutionalisation/intemperalisation is a psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring tool, it doesn’t transform temporal-dispositions which is the exclusive purview of individual sense of dimensionality-of-sublimating\textsuperscript{102} (<amplituding/formative>supererogatory—de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation) and by its very nature is ‘beyond a philosophical transformation exercise’ as the latter exercise is mainly to ‘construct articulations for secondnaturing’ at best (articulate new institutionalisation/intemperalisation deterministic-and-operant possibilities for skewing (‘intemperality\textsuperscript{103}—asymmetric-subsumption-of-temporality\textsuperscript{104}’), for relative intrinsic-
reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity)/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), hence the need to refer analytically to human notional~firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence>s as of the circularity/recurrence/repetition/repeatability/delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity—reification/superseding—oneness-of-ontology by maximalising-recomposuring—for-relative-ontological-completeness—unenframed-conceptualisation highlighting the uninstitutionalised-threshold and not analytically implying by reflex solely on the basis of a human intemporal-disposition mental-disposition); and prospectively, do our part of the ‘transcendental homework’ that has brought the human species this far taking cue from retrospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. By extension this explains how the notion of ‘knowledge problem’ is to be apprehended transcendentally/transdimensionally/interdimensionally (as a contiguous intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as ‘social problem/questioning’ is an ‘intradimensional focus’ around logical operation/processing/contention based on the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with the temporal defect of possible denaturing of such reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. However, ontological-normalcy/postconvergence (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge
worldview’s/dimension’s/perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation at it uninstitutionalised-threshold is articulated, with contention then being about reflecting/perspectivating/highlighting and aetiologising/ontologising this, even if it is intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this regard, the development of positivism from non-positivism/medievalism). It should be noted then that the postconverging–de-mentating/structuring/paradigming is an intemporal/ontological projection referencing beyond-and-non-implicative of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’–as-conflatedness-or-ontological-reprojecting pedestalling) with the intradimensional ‘consciousness-awareness frame-of–social-stake-contention-or-confliction’ of the temporal/preconverging-or-dementing–apriorising-psychologism dimension, more like the positivist ontological biology and medicine postconverging–de-mentating/structuring/paradigming is beyond/supersedes-and-is-a-non-implication of an equivalence with the ‘consciousness-awareness frame-of–social-stake-contention-or-confliction’ of say non-positivism/medievalism temporal value dispositions with respect to the notion of disease, that is, it’s point is to define an altogether different and superseding meaningful frame or postconverging–de-mentating/structuring/paradigming and is not involved in an idle exercise of elevating and articulating its meaning in terms–as-of-axiomatic-construct of and implying an equivalence with non-positivism/medievalism meaningfulness. That is equally the relation between a transcending notional–deprocrypticism registry-worldview and the transcended procrypticism worldview. Postdication as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (postconvergence), as an ontological-reconstituting–as-to-conflatedness psychoanalytically/memetically/meaningfully allows for a purist (candored/decandored) ontological grasp/predication of the veridicality of any institutional-cumulation/institutional-recompose-as-to-histioriality/ontological-
eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'>⟩ (retrospectively to prospectively); avoiding the defect of intradimensional-referencing of reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and consequently a superseded/transcended registry/registry-worldview-or-dimension as preconverging-or-dementing—apriorising-psychologism—<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase> undermining ontological veridicality. This transcendental insight is in line with the idea of low teleologies or temporal concerns in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—aas-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism, and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicalism/intemporal-prioritisation-of–reference-of-thought—as-conflatedness—or-ontological-reprojecting/longness-of-register-of—meaningfulness-and-teleology), and ontologically long in an intemporal/species-possibilities/abstract-eternity-of-being-mental-projection/eudaemonic-contemplation), and their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/charakteral-disposition whether of low or higher teleology; hence any such ‘storied/articulated’ absolutely specific-individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of individuation aetiologies’, though all such storied/narrated specific individuation aetiologies represent the full possibilities of any and all individuals ‘as receptacles of individuation aetiologies’). By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence
intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a profound-supererogation disposition that is beyond just one institutionalised/intemporalised registry-worldview/dimension but abstractly and supererogatorily across all transcendental retrospective-and-prospective institutionalisation/intemporalisation registry-worldviews/dimensions as so-reflected by dimensionality-of-sublimating︵amplituding/formative>supererogatory-delementativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation︶); with the implication that the highest teleologies of Base-institutionalisation (as percolation-channelling-in-deferential-formalisation-transference> undermining of recurrent-utter-uninstitutionalisation and its vices-and-impediments) –equivocates as of profound-supererogation to the highest teleologies of universalisation (as percolation-channelling-in-deferential-formalisation-transference> undermining of ununiversalisation and its vices-and-impediments) –equivocates as of profound-supererogation to the highest teleologies of Positivism (as percolation-channelling-in-deferential-formalisation-transference> undermining of non-positivism/medievalism and its vices-and-impediments) –and prospectively, equivocates as of profound-supererogation to the highest teleologies of notional~deprocrypticism (as percolation-channelling-in-deferential-formalisation-transference> undermining of procrypticism–or–disjointedness-as-of-reference-of-thought and its vices-and-impediments). It should thus be noted as such that ‘higher teleologies’ are ‘equivalences of existential’ (in terms–as-of-axiomatic-construct of notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>, and not equivalences of institutionalisation/intemporalisation levels. That is, being in a transcended institutionalised/intemporalised registry-worldview/dimension (internalisation and formalisation induced as a secondnature) doesn’t
equivocate as highest teleologies to the existential projection that ‘had the vision’ in the prior/superseded subknowling/mimicking/untranscended registry-worldview/dimension (‘with-no-elicited-positive-opportunism /much-more-likely-temporal-negative-disincentive’ and ‘out-of-the-blue’) to articulate-and-uphold-for-percolation-channelling-the prospect of the transcended-registry-worldview/dimension-with-its-prospective-universal-virtue-over-the-vides-and-impediments-of-the-prior-registry-worldview/dimension even as it seem unintelligible/existentially-suprastructural to the prior/superseded untranscended/preconverging-or-dementing-apriorising-psychologism registry-worldview/dimension. So in terms–as-of-axiomatic-construct of ‘higher teleologies’ (emphasising the existential intemporal-disposition as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an institutionalised/intemporalised positivistic world doesn’t necessarily equivocate us to the Galileos, Descartes, Newtons, Leibnizes, Rousseaux, Darwins … behind the articulation-and-upholding-for-percolation-channelling-of a positivistic registry-worldview/dimension (even though together with them we all may recognise and operate within a positivistic world). That is, the ‘existential profound-supererogating that enables the articulation-and-upholding-for-percolation-channelling-of a transcending registry-worldview/dimension as to dimensionality-of-sublimating- supererogatory-de-mentativeness/epistemic-growth-or-conflatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation’ is the higher teleology ‘over the mere-institutionalised-being-and-craft’ in such a transcended registry-worldview/dimension. And why is this distinction critical? Because prospective (intemporality ) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation necessarily calls
upon the (intemporal)-kind that articulated-and-upheld-for-percolation-channelling-<indeferential-formalisation-transference> the superseding institutionalisation/intemporalisation/transcendence; and the condition of mere-institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn’t speak of a disposition to prospectively articulate-and-uphold-for-percolation-channelling-<indeferential-formalisation-transference> an intemporally requisite prospective registry-worldview/dimension institutionalisation/intemporalisation that is intemporally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for ‘human registries-disambiguation at uninstitutionalised-threshold 

uninstitutionalised-threshold”, and as being notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence>. The notion of higher teleologies as such is specific to the human species in holding that beyond just ‘a physical animal passing of specie generational succession’ for survival and optimising-specie-flourishing, with higher teleologies there is ‘an even more critical passing of generational succession’ as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemporal virtue as civilisational over temporal vices-and-impediments (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing (‘intemporality -asymmetric-subsumption-of-temporality”, for relative intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity)/memetic-reordering with respect to the base physical animal selectivity process (genetics) of the human species generational succession. On other issues of pertinence in the bigger scheme of things: (i) Meaningfulness of notional–firstnaturedness—temporal-to-intemporal-dispositions--<so-construed-as-from-perspective–ontological-normalcy/postconvergence> as to ‘existential idealism/success’ as
dispositions is what is ‘truly existential success’ as the intemporal-disposition is very much what allows for human transcendence-and-sublimity/sublimation/supererogatory-dementativity and subsequent institutionalisation/intemporalisation, much as the distilling process allows for the lightness of hydrocarbons, ‘where lightness is virtue’. Basically, it can be said that without the human quality of the ‘aetiologisation/ontological-escalation individuation of the intemporal’ we’ll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the ‘percolative impact’ of the ‘firstnature/intemporal’ (which is not readily available to the immediacy/shortness-of-register-of-meaningfulness-and-teleology of minds of temporal-dispositions). For instance, men did not ‘by magic’ develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding ‘psychoanalytic liberation’ that allowed for such a development induced by philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profundely applicative enough’ and more or less cultic (available more or less to a priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolation-channelling-effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was outlying without scale and time and the sufficient lack of chaos and war). Basically, the entropy behind such a philosophical-driven conceptualisation of human meaning and corresponding psychoanalytic-unshackling, percolation-channelling—in-deferential-formalisation-transference> into an overall relaying defining the human anthropological-continuity or anthropopsychology or institutional-cumulation/institutional-recomposure—(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflected—epistemicity-relativism—) could be summed up this way:
- a human-philosophical-conceptualisation of mythologies (of superstitious causations with respect to human and existential destiny/teleology <>) ‘inducing a human psychoanalytic-unshackling or registry-worldview memetic-reordering’ which has the merit of introducing comprehensive social institutionalisation/intemporalisation suprastructurally based around such mythologies (underlying suprastructurally the creation of superstitious practices, religions and belief systems, and practically ‘institutionalised living’ whether with respect to nature or among
humans); - a human-philosophical-conceptualisation of mystical-principles (a system of the appropriate relations humans need to have with such superstitious causations with respect to human and existential destiny/teleology\textsuperscript{100} ‘renewing the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ which has the merit of redefining comprehensive social institutionalisation/intemporalisation as rules/principles-driven though still based on mythological systems (underlying the suprastructural introduction of rules/principles in superstitious practices, religions and belief systems, and practically ‘\textsuperscript{100}universal rules of institutionalised living’ whether with respect to nature or among humans); - a human-philosophical-conceptualisation of principles-rationalism (of principles/rules of causation-in-reflecting-ontology as not superstitious with respect to human and existential destiny/teleology\textsuperscript{100} ‘redefining the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ and has as merit the superseding of superstitions based on rationalising systems of \textsuperscript{104}universalisation, positivism and science (underlying the suprastructural introduction of intemporal principles in the operation of social endeavours including social rules and science, and practically ‘the categorical-positivising/rational-empiricism of institutionalised living’ whether with respect to nature or among humans); and prospectively - a human-philosophical-conceptualisation of rational-realism of ‘principles/rules of human representation of effective-causation-as-it-reflects-ontology’ as ‘not wholly solipsistically/emanantly/becomingly intemporal’ but rather ‘temporal-to-intemporal’ or shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} to longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} (rather a notionalisation/notional-conception/amplituding of knowledge and meaningfulness, where ‘a skewing (‘intemporality\textsuperscript{2}-asymmetric-subsumption-of-temporality\textsuperscript{99}, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) agency towards intemporality /longness in secondnaturing is what is critical and not a false idealism wrongly implying a

The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence-and-sublimity/sublimation/supererogatory—de-mentativity from the superstitious/religion, universal-notions/essences, principles-rationalism/positivist-idealism and then the rational-realism of notional–deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain its world, but then realises across institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> that successive introduction of more and more ‘realistic’ conceptualisations enable a grander ontological-primemovers-totalitative-framework\(^{(1)}\) and grasp of its world. Further, what differentiates principles-rationalism/positivist-idealism and the rational-realism of notional–deprocrypticism as of ratiocination/ratio-contiguity as nondisjointing is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the disambiguation of dispositions in meaning construal and subsequent logical operation/processing/contention at \(^{(1)}\)reference-of-thought (on the basis that human dispositions
are temporal-to-intemporal/shortness-to-longness; with human registers/registry-teleologies involving subknowledging\(^{37}\)-impulse/compulsive-dementing\(^{19}\)/slantedness/psychopath, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). This is the peculiarity of notional–deprocrypticism dialectical-thinking-or-postconverging–apriorising-psychologism institutionalisation/intemporalisation exercise. The former simply focuses on logical operation/processing/contention at ‘supplanting–conviction-as-to-profound-supererogation\(^{19}\) of ‘attendant-intradimensional’-postconverging/dialectical-thinking – apriorising-psychologism anchors’ (on a wrong reflex basis of universal human intemporal/longness register/registry-teleology\(^{19}\) disposition). Hence the present principles-rationalism/positivist-idealism unlike rational-realism as of deprocrypticism, in the exercise of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and corresponding reference-of-thought–categorical-imperatives/axioms/registry-teleology\(^{10}\), fails to account for perversion-of reference-of-thought-<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > registries, as subknowledging\(^{37}\)-impulse/compulsive-dementing\(^{19}\)/slantedness/preconverging-or-dementing\(^{19}\)–apriorising-psychologism of the psychopath, postlogically conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-preconverging-or-dementing\(^{19}\)–apriorising-psychologism by the temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. notional–deprocrypticism is particular, as imbued/recomposing with the other institutionalisations and across all the successive institutional-cumulation/institutional-recomposure-(as-to historiality/ontological-eventfulness /ontological-aesthetic-tracing-

It should be noted that while the prior/superseded transcendence-and-sublimity/sublimation/supererogatory~de-mentativity to positivistic institutionalisations have been rather incremental-to-utter, it is likely that procryptic to deprocryptic transcendence-and-sublimity/sublimation/supererogatory~de-mentativity is most probably an outrightly blunt/incisive utter construct, and why, because higher institutional-cumulation/institutional-recomposurer-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-/perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> imply higher perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology 00,—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are ‘not readily perceived as undermining intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in their ontological-primemovers-totalitative-framework 23 and are often wrongly analysed as being intemporally preservational’ but for a very insightful ontological reflecting/perspectivating/highlighting exercise of organic-comprehension-thinking (organicism/’intemporal-prioritisation-of-reference-of-thought’–as-conflatedness 12–or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology 100) ontological-escalation/aetiologising over threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation 4—as-to-‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing –apriorising-psychologism>; requiring a corresponding intellectually decisive and utter articulation for procryptic-to-deprocryptic crossegnerational deprocryptic transcendence-and-sublimity/sublimation/supererogatory~de-mentativity supplanting–conviction-as-to-profound-supererogation 97—of-‘attendant-intradimensional’–postconverging/dialectical-thinking –apriorising-psychologism, as the procryptic perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-;

Methodologically, it should draw on phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full-existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence-and-sublimity/sublimation/supererogatory-de-mentativity should be similar to say a literary work like Things Fall Apart by Chinua Achebe even though the latter is rather more about cultural-diffusion-from-Western-philosophical-transcendence which positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity integration into the society’s institutionalisation/intemporalisation percolation-channelling<in-deferential-formalisation-transference> undermines-psychoanalytically/psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring the society’s existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation allowing for positivistic transcendence-and-sublimity/sublimation/supererogatory-de-mentativity. the bigger scheme of things, such a ‘creative existentialism (full-existential-depth-implications)

proper place of the present positivistic mind in the bigger scheme, and what is prospectively
implied, as a perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity). Another ontological element of the
perpetuation-of-notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity is that it is ‘weakly positive opportunistic’ to the cross-section of the social construct. Prior/superseded transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence-and-sublimity/sublimation/supererogatory–de-mentativity from recurrent-utter-uninstitutionalisation being the strongest in its positive-opportunism as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of: ‘organising rules/principles’/base-institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where
such organising/rules/principles/laws are constantly being remade competitively with respect to survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation-channelling-<in-deferential-formalisation-transference> for intemporal transcendence-and-sublimity/sublimation/supererogatory-de-mentativity in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is a highly-diffusional-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-social intemporal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the ambitions of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these institutionalisations transcendence-and-sublimity/sublimation/supererogatory-de-mentativity can elicit, in effect, a grander sense of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming rather than a temporal extricatory preconverging–de-mentating/structuring/paradigming in their cross-section of the social-construct. However, it will probably be more facile for such a cross-section of the social-construct to be strongly disposed to adopt an extricatory/temporality preconverging–de-mentating/structuring/paradigming rather than
intemporal/ontological/social/species/ universal/transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging—de-mentating/structuring/paradigming regarding the reference-of-thought—categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of ‘notional–firstnaturedness—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’ accountability as intemporality—skewing (‘intemporal’—asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity) rules/principles’ or notional—deprocrypticism with regards to their temporal direct/immediate survival opportunism statistically to individuals on the cross-section of the social-construct. An intemporal disposition as ontological projecting that may elicit a sense of positive-opportunism for survival itself with base-institutionalisation will not necessarily have the same adherence effect on the cross-section of the social-construct when it comes to a transcendence-and-sublimity/sublimation/supererogatory—de-mentativity which temporal directness/immediacy for ‘individuals sense of survival-and-flourishing’ is not so obvious but for its abstract ontological veridicality and abstract intemporal transformation implications as is the case with deprocrypticism; but is rendered possible because of the relatively ‘strong preset institutionalisation/intemporalisation percolation-channelling—in-deferential-formalisation-transference> for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’ (on the basis of its untenability/internal-contradiction/internal-incoherence/institutional-constraining generation capacity); more like it would be fair to say that many an abstract and boring scientific efforts do not necessarily appeal temporarily but for the strongly preset institutionalisation/intemporalisation percolation-channelling—in-deferential-formalisation-transference> for their social integration. Basically, with transcendence-and-
sublimity/sublimation/supererogatory—de-mentativity as temporal directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolation-channelling<-in-deferential-formalisation-transference> for transcendence-and-sublimity/sublimation/supererogatory—de-mentativity) in assuring prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity strengthens. To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. That is, transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive). To the extent that transcendence-and-sublimity/sublimation/supererogatory—de-mentativity highlights critically that it is what is the best enabler for survival-and-flourishing then it is a force of social transformation. Equally, an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with regards to human temporal practicality, by mere ontological-veridicality be a basis for its social integration, if the insight that it provides a grander survival-and-flourishing scheme isn’t immediately palpable. As in this case human temporal practicality disposition is perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-threshold. But then with an increasing cerebral grasp of our nature and our surrounding world rather than just passive endurers of nature-in-action, we can fairly anticipate and supersede intellectually our human temporal practicality dispositions, in this case with regards to deprocrypticism, and attain prospective knowledge-and-virtue generally. Meaning (defined previously as what defines/predicates value, thought and action) is actually a referential memetic construct in the referential exercise of the entropic preservation of
preceding-intemporality\textsuperscript{52}/intrinsic-reality as validated by ontological-primemovers-totalitative-framework\textsuperscript{73}. This leads in the instance of ‘perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’ to the notion of ‘memetic-corruption or psychoanalytic-misrepresentation of reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}; requiring a referential ‘memetic reordering/psychoanalytic-unshackling reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} for the entropic preservation of intemporality\textsuperscript{52}/intrinsic-reality as validated by ontological-primemovers-totalitative-framework\textsuperscript{73}. The referential memetism as suprastructural-meaningfulness implying that meaning is in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-reality) and it is grounded on its validation/veridicality by its ontological-primemovers-totalitative-framework\textsuperscript{73} in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-reference-of-thought/candored, and then mentally-oblongated/decandored with respect to new/superseding soundness-or-ontological-good-faith/authenticity\textsuperscript{69}-of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold\textsuperscript{103} whether from recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-positivism/medievalism to positivistic, and prospectively procrypticism to deprocrypticism. More than just an exercise of grasping the possibilities of human transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, it is critical that for future transcendence-and-sublimity/sublimation/supererogatory-de-mentativity we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of
mortal’s (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence-and-sublimity/sublimation/supererogatory~de-mentativity that enabled its world, the positive worldview from non-positivism/medievalism, but has been rather ‘institutionalised and secondnatured there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence-and-sublimity/sublimation/supererogatory~de-mentativity/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential idealism/success’ must be the exclusive purview of the aetiological individuation of the intemporal-disposition whose organic-comprehension-thinking (organicalism/’intemporal-prioritisation-of- reference-of-thought’–as-conflatedness—or-ontological-reprojecting/longness-of-register-of–meaningfulness-and-teleology)’s universal projection/intemporality keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable notional–deprocrypticism (to thwart procrypticism–or–disjointedness-as-of-reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract eternity’ that is what allows for the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. In the bigger scheme of things, all the vices-and-impediments of successive registry-worldviews can be directly ascribed as corresponding perversion-of-reference-of-thought–<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of temporal-dispositions at the registry-worldviews uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation,
ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{73} constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent an recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments\textsuperscript{106} of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as subknowledge\textsuperscript{95}/mimicking/perverting positivistic meaningfulness) those of procrypticism. Virtue is plainly and simply about the-Good/understanding/knowledge-reification\textsuperscript{77}/ontological-primemovers-totalitative-framework\textsuperscript{73} construct with corresponding virtuous consequences of knowledge or lack-of-knowledge thereof). It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendental possibilities, otherwise we syncretise and preserve and articulate our temporality\textsuperscript{99}/shortness as being intemporal! (ii) ‘Intellectual solipsistic/emamant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing\textsuperscript{12} and subknowledge\textsuperscript{95}’ with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of human/social progress postconverging–de-mentating/structuring/paradigming. While intellectual ontological/intemporal meaningfulness may strive to articulate a universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism\textsuperscript{78}-slantedness (the psychopath),
ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework and not impression/good-naturedness/wishfulness vagueness) the supersedingness of the intemporal-disposition-worldview (as ontological and upholding virtue in the medium to long perspective) over the cross-section of human mental notional–firstnatures—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence> s, i.e. secondnaturing as formalisation and internalisation. For instance, if men were of an intemporal-disposition we will only need ‘moral philosophy’ and ‘no law’ as the institutionalising principle of the law is a tacit recognition that realistically we need ‘dominating/superseding artifices’ or ‘institutions and their rules and narratives’ whether the human subjects have a grasp of the ‘philosophical’ universal end purpose or not). This is the attitude that preserves the virtue inherent in the intemporal conceptualisation of meaning and ‘not any temporal romantic idealism’ which only leads to perversion-of-reference-of-thought.<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in particular in the ‘extended-informality-{susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology }’ (informal settings) where the constraining social universal-transparency (transparency-of-totalising-entailing, as-to-entailing, <amplituding/formative–epistemicity>totalising–in-relative-ontological-
(usually introduced in formal settings) is not available. Hence intellectual responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as to preconverging-or-dementing-apriorising-psychologism. This involves avoiding the naivety of articulating meaning only in the sense of the intemporal ideal but including a constraining and notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective—ontological-normalcy/postconvergence>-disambiguating realism that upholds/preserves intemporal-longness and stifles temporal-dispositions perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation inclinations. Such an approach is known as the ‘knowledge-notionalisation’ or knowledge as a continuum from ‘the ignorances/desublimation’/temporal-dispositions to knowledge/intemporality which then allows for scrutinising and preempting ‘the ignorances/desublimation’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct). ‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturing and internalisation. ‘Intemporal and temporal
disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between prospective apriorising/axiomatising/referencing/intelligibility/setup/measuring/instrument and intradimensional-meaningfulness for instance respectively as notional–deprocrypticism and as procrypticism (perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> of positivistic meaningfulness), just as there is mutual unintelligibility between positivism and non-positivism/medievalism meaningfulness. This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews share the same reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); wherein it is transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing that plays out to enable the utter superseding/transcendence of the intemporal-disposition or prospective memetism or prospective/transcendental-superseding registry-worldview/dimension over the prior/transcended/superseded intradimensional meaningfulness. For the simple reason that intrinsic-reality being preceding as ontological-normalcy/postconvergence it won’t let the positivistic mindset/reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology<in-existential-extrication-
as-of-existential-unthought> of the mortals that we are, in the sense that a cholera epidemic that was to occur say in 100 B.C. Will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; thus naivety will be to strive to syncretise in temporal-and-social-trading our discomfort/unpalatability in construing intrinsic-reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/ reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with ‘reasoning-through/utterion’ with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as preconverging-or-dementing apriorising-psychologism (where the non-positivism/medievalism registry-worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-Good/understanding/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling<-in-deferential-formalisation-transference> mechanism. This ontological insight (transversality<for-sublimating–existential-eventuating/denouement>~of-affirmative-and-unaffirmative–disambiguated-‘motif-and-apriorising/axiomatising/referencing’ that plays out to enable the utter prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-worldview/dimension as notional–deprocripticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter
superseded/transcended as of ‘reasoning-through/utterion’ and represented as preconverging-or-

dementing—an-apriorising-psychologism in line with the preceding ontological-
normalcy/postconvergence nature of intrinsic-reality/ontology, likewise with the idea that
notional-deprocrypticism validation will arise from the untenability/internal-

takes hold in the the-Good/understanding/knowledge-reification/ontological-primer-of-
totalitative-framework institutionalisation percolation-channelling—in-deferential-
formalisation-transference mechanism. So deterministically and operantly, without any
discretion allowed, from the intemporal/ontological perspective, it is a crossgenerational
collapsing/overriding-and-superseding of temporal-dispositions and a registry-
worldview/dimension-intradimensional-meaningfulness that is persion-of—reference-of-

thought—<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-

prospective transcendence-and-sublimity/sublimation/supererogatory—de-mentativity. Thus
technically, preconverging-or-dementing—an-apriorising-psychologism arises simply by a shift of
reference-of-thought (in the strive for intemporal-preservation-entropy-or-contiguity—or—
ontological-preservation wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be more intemporally-preservational); with the preconverging-or-dementing apriorising-psychologism reflected/perspectivated in the mental-devising-representation fully implied by the new transcending/superseding reference-of-thought (of postconverging/dialectical-thinking apriorising-psychologism) about the prior transcended/superseded reference-of-thought (and so, beyond the latter’s registry-worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated ontological-impertinence as of notional-discontiguity/epistemic-discontiguity -<shallow-

supererogation -of-mentally-aestheticised-preconverging/dementing -qualia-schema> and go on to be of <amplituding/formative–epistemicity>totalising~self-referencing-syncretising/circularity/interiorising/akrasiatic-drag this now shown-to-be-wrong reference-of-thought). Preconverging-or-dementing apriorising-psychologism as such is easily and spontaneously reflected of a prior/superseded/transcended registry-worldview/dimension like for instance a positivistic registry-worldview/dimension mental-devising-representation reflecting the preconverging-or-dementing apriorising-psychologism of a medieval registry-worldview/dimension. But then this is because the positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension personhoods-and-socialhood-formation has to deal with. However, implying similarly the preconverging-or-dementing apriorising-psychologism of the positivistic registry-worldview/dimension from its intradimensional perspective where its own reference-of-thought is superseded/transcended by a prospective reference-of-thought as notional-deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-consciousness/epistemic-totalising~self-referencing-syncretising/mirage that its personhoods-
and-socialhood-formation has to deal with, lead to the positivistic registry-worldview/dimension by reflex setting-aside/ignoring the prospective and veridical reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity, and go on to self-reference-syncretise its transcended/superseded reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/reference-of-thought will likely shift the reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A’s illness, the mental-devising-representation of the positivistic mindset/reference-of-thought will be that A is preconverging-or-dementing–apriorising-psychologism and that a germ and biological functioning theory of the human body is the reference-of-thought for A’s disease. But then intradimensionally, A and B and their society of personhoods-and-socialhood-formation and existentialism/full-depth-of-existential-implications that are non-positivism/medievalism will tend to harken back to reference-of-thought–categorical-imperatives/axioms/registry-teleology–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that uphold the prior/transcended/superseded reference-of-thought that admits to notions-and-accusations-of-sorcery. The effective anthropological and dialectical evidence (mostly from diffusional transcendence-and-sublimity/sublimation/supererogatory–de-mentativity given the relative abruptness of cultural diffusions compared to an intra-society philosophical transcendence-and-sublimity/sublimation/supererogatory–de-mentativity which is rather slow in the making) shows that it is the crossgenerational habituation by <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag into reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension (in this instance the positivistic registry-worldview/dimension) that will ultimately ‘wean’ the prior/superseded/transcended registry-worldview/dimension (in this}
imperatives/axioms/registry-teleology\textsuperscript{100} preempting the temporal-dispositions\textsuperscript{75} perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation\textsuperscript{7} of the subontologisation/subpotentiation (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation effect; as successive circular postlogic-backtracking–<iterative-looping–’set-of-dereifying-hollow-narratives-andacts’>\textsuperscript{7} preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism constructs, and not as may wrongly be reflected by the natural reflex to be prelogic supplanting–conviction-as-to-profound-supererogation of ’attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism, as supplanting–conviction-as-to-profound-supererogation of ’attendant-intradimensional’–postconverging/dialectical-thinking–apriorising-psychologism (existential-contextualising-contiguity\textsuperscript{19}/meaningful-projection-of-intrinsicness/authentic-vocalisation/prelogism\textsuperscript{7}) constructs. And likewise, it is a crossgenerational habituation of notional–deprocrypticism reference-of-thought and reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},–for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that will ultimately lead to a shift in reference-of-thought and the correspondingly more profound and grander notional–deprocrypticism ontological-veridicality/ontological-contiguity\textsuperscript{67} thereof. Another validation for the preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism mental-devising-representation of retrospective/transcended/superseded registry-worldviews/dimensions has to do with the implications of the notions of impression-driven/good-naturedness/wishfulness and the-Good/understanding/knowledge-reification\textsuperscript{7}/ontological-prime-movers-totalitative-framework with respect to the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/ontology/ontological-
veridicality. A prospective/transcending/superseding registry-worldview the-Good/understanding/knowledge-reification⁹⁷/ontological-prime movers-totalitative-framework⁹⁷ mental-devising-representation of a retrospective/transcended/superseded impression-driven/good-naturedness/wishfulness construct is always a preconverging-or-dementing⁹⁻apriorising-psychologism construct, and so across all institutionalisations indicating that the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/ontology/ontological-veridicality as ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation effectively construes impression-driven/good-naturedness/wishfulness constructs as rather of notional-discontiguity/epistemic-discontiguity⁶³<-shallow-supererogation -of-mentally-aestheticised~preconverging/dementing –qualia-schema> and hence its preconverging-or-dementing⁹⁻apriorising-psychologism. This equally implies that our very own ‘good-naturedness constructs’ in the positivism/procrypticism registry-worldview/dimension are of preconverging-or-dementing⁹⁻apriorising-psychologism mental-devising-representation from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–⁸⁷ meaningfulness-and-teleology⁹⁰ as of prospective notional–deprocrypticism registry-worldview/dimension the-Good/understanding/knowledge-reification⁹/ontological-prime movers-totalitative-framework conceptualisation. The reason why ontological-normalcy/postconvergence indicates that ‘good-naturedness constructs’ are defective is quite simple as it is based on adhering to a registry-worldview’s/dimension’s institutionalisation temporal–mere-form/virtualities/dereification ⁹/akrasiatic-drag/denatured/preconverging-or-dementing⁹⁻narratives—of-the–⁹¹ reference-of-thought–¹ categorical-imperatives/axioms/registry-teleology¹⁰⁰, which along the institutional-cumulation/institutional-recompose- (as-to- historiality/ontological-
eventfulness /ontological-aesthetic-tracing-<perspective-ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'\rangle are successively shown to be defective-as-always-being-sub-par-to-intrinsic-reality and defining the uninstitutionalised-threshold. Virtue and ontology/intrinsic-reality rather lies in the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and not its reference-of-thought–categorical-imperatives/axioms/registry-teleology, with the latter only being pertinent in the sense where it relays intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Such a relaying is not within the ambits of good-naturedness constructs but rather the-Good as a continuous refinement of ontological-primemovers-totalitative-framework that ensures re-institutionalisation/re-intemporalisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when ontological-primemovers-totalitative-framework so reveals it. Thus supposed an individual shows good-naturedness following the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the recurrent-utter-uninstitutionalised registry-worldview/dimension that warrants that one simply gets one’s way no matter the situation even if it means committing murder to have some food for oneself and close ones; a good-natured quality that is highly rated for survival in an recurrent-utter-uninstitutionalised setup. That is perfectly within the good-naturedness ambits of a survival-driven registry-worldview/dimension but prospectively it is the creativeness of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality that carries the virtuous and ontological insight to grasp that a registry-worldview’s/dimension’s institutionalisation as base-institutionalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism will provide a grander virtuous and
ontological outcome for humans, and not a good-naturedness inclination which is stuck at the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of recurrent-utter-uninstitutionalisation. This same fundamental dilemma arises with all other institutionalisations. For instance, the procrypticism inclination to stick to the reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a positivistic registry-worldview/dimension viewed as deterministic by projected \textsuperscript{amplituding/formative} wooden-language\textsuperscript{\{imbued–temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing – narratives—of-the reference-of-thought–categorical-imperatives/axioms/registry-teleology } as-to-how-others-act-in-hollow-constituting\textsuperscript{<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>} requiring the-Good/understanding/knowledge-reification\textsuperscript{87}/ontological-primemovers-totalitative-framework\textsuperscript{73} appreciation that an ontological-primemovers-totalitative-framework\textsuperscript{3} as to existence-potency\textsuperscript{3}–sublimating–nascence,-disclosed-from-prospective-epistemic-digression indicating such a perversion-of reference-of-thought\textsuperscript{<as-effectively-apriorising-in-negation/conviction/madeupness/bottomlining-as-to-shallow-supererogation>} implies a prospective/transcending/superseding registry-worldview’s/dimension’s new reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100},-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to ensure intemporal-preservation as deprocrypticism. Thus it is the-Good/understanding/knowledge-reification\textsuperscript{87}/ontological-primemovers-totalitative-framework\textsuperscript{73} that carries the mantle of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and not good-naturedness/vague-impression drive which temporal-mimicking (unconscious or conscious) shouldn’t be confused with preserving ontology and virtue. Thus the basic reason for this counter-intuition about the
veridical nature of good-naturedness construct is that it is intradimensionally
<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag with the wrong implications of inherently
representing the \^reference-of-thought\^ categorical-imperatives/axioms/registry-teleology\^ for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-
worldview/dimension as absolute intrinsic-reality/ontology without any factoring of intrinsic-
reality/ontology ontological-normalcy/postconvergence and suprastructural nature as the-
Good/understanding/knowledge-reification \^ontological-primemovers-totalitative-framework\^ does. This fundamentally explains why all prior/transcended/superseded registry-
worldview’s/dimension’s present-consciousness/illusion-of-the-present/epistemic-

recomposuring exercise that enables the existentialism (full-depth-of-existential-implications)
deconstructed/ontologically-reconstituted’ becoming of the
prospective/transcending/superseding registry-worldview/dimension. The bigger insight here
has to do with the ontological-normalcy/postconvergence nature of intrinsic-reality. Intrinsic-
reality/ontological-veridicality is already given and what is required to access it absolutely is
not the notion of ‘any hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-

that is necessarily sub-par to intrinsic-reality/ontology (this is the central idea that

reprojecting/intemporal-preservation inclination associated with prelogism\textsuperscript{79}. Fundamentally, conjugated-postlogism\textsuperscript{79}/preconverging-or-dementing\textsuperscript{19}-integration hollow-constituting\textsuperscript{<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>} is always based on a wrong \textsuperscript{<amplituding/formative–epistemicity>totalising–self-referencing-synerretising/circularity/interiorising/akrasiatic-drag \Registry-teleology\textsuperscript{100}}-mentation in recurrent in hollow-constituting\textsuperscript{<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>} in postlogic-backtracking\textsuperscript{<iterative-looping–‘set-of-dereifying-hollow-narratives-and-acts’>} as absolving/fleeting/escaping-reflex–logic (psychopath) or hollow-constituting\textsuperscript{<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>} or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex (derived social psychopathy) of hollow narratives, and wrongfully that this is \textsuperscript{reference-of-thought; and correspondingly, a rightful transdimensional ontological-representation should imply it is a preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism\textsuperscript{<stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase>} registry-teleology\textsuperscript{100} placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} and by so doing, to start with, rightfully denying it \textsuperscript{reference-of-thought which then fundamentally collapses its soundness-or-ontological-good-faith/authenticity–of-reference-of-thought, as the hollow-constituting\textsuperscript{<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>} postlogism\textsuperscript{19}–or-disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness preconverging-or-dementing\textsuperscript{19}–apriorising-psychologism counts on the natural inclination (as ‘prelogism’-as-of-conviction,-in-profound-supererogation\textsuperscript{19}–<existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> re-engaging reflex’) of the ‘ontologically-reconstituting-or-prelogic-or-

mindset/reference-of-thought to reflexively engage contendingly/logically with its hollow narratives, with the grander faulty-mentation-procedure-deception-or-urge not being the hollow narratives per se but in wrongfully implying its veracity/ontological-pertinence as reference-of-thought and implying the falsely apriorising-registry-elements of its implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology; as being an even grander faulty-mentation-procedure-deception-or-urge of a registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect-as-Being-or-ontological-or-existential—defect—of registry-teleology nature of registry-teleology—mentality-devising-representation/mentation, that speaks not only to an act defect but a registry-worldview/dimension defect. Thus this insight in transcendental analysis is that by its very nature in that it puts into question ways, assumptions and traditions of thought and practices, the possibility of truly profound insights that go well beyond more or less platitudes and inevitably requires taking stock of the full-depth-of-existential-implications/existentialism of transcendental-meaningfulness—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, given the need to boldly overcome intellectual and knowledge dead-ends and introduce postconverging—de-mentating/structuring/paradigming shifts often with inconvenient and unpalatable implications to the given registry-worldview/dimension personhoods-and-socialhood-formation. It requires more than just a sense of professional and technical craft but often more critically a profound sense of intemporal/firstnature emanant commitment, an attribute that is by definition of dimensionality-of-sublimating projection nature and hardly just secondnatured, in thriving for an abstract sense of the intemporal beyond
selectivity is perpetually directed by ‘the-Good/understanding/knowledge-reification’/ontological-primemovers-totalitative-framework’ (not to be confused with good-naturedness/impression-drive) towards the validation of intemporality-potency and the dismissal of temporality-potency, and so in dialectical succession of registry-worldviews as the successive/snowballing institutional-cumulation/institutional-recomposure-(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>). Thus establishing a human approximating/proxying/aligning relationship with the ‘potency of intrinsic-reality/ontological-veridicality (ontological-normalcy) which is a coherent oneness’ that can very much be anticipated as ontological-normalcy/postconvergence. In this regard, it should be reiterated that ‘registry (‘categorical-imperatives/axioms/registry-teleology) establishes reference-of-thought, and acts as the basis for and defines the operation of logic or logical processing’, and it is notionally all about registry-soundness (reflected as soundness of thought) when we are of supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking –apriorising-psychologism or perversion-of- reference-of-thought-<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > when we are of threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> as with the hollow and formulaic narratives slanted by psychopath and mimicked by temporal-dispositions (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought> ) of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in postlogism (disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-

Unlike the ‘notion of agreement-disagreement’ dealing with soundness/unsoundness of logical-processing-or-logical-implication—supposedly-apriorising-in-conviction-as-to-profound-supererogation—wherein a common apriorising–registry of interlocution is already established, there is no logical-basis/logic-*for-sublimating–existential-eventuating/denouement*-of-affirmative-and-unaffirmative–disambiguated–‘motif-and-apriorising/axiomatising/referencing’* for one apriorising–registry disposition as a prospective/superseding/transcending *reference-of-thought* like a positivistic registry-worldview to convince another apriorising–registry disposition as a prior/superseded/transcended *reference-of-thought* like a non-positivism/medievalism registry-worldview that it is the former’s *reference-of-thought* that is sound, other than for the fact that its better ontological-primemovers-totalitative-framework will in the middle to long-run be untenable with respect to the latter thus ‘collapsing’ it; and so reflecting ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitable-measuringinstrument-validating-measuring*-apriorising-psychologism*’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitable-measuringinstrument-invalidating-measuring*-apriorising-psychologism*’ so-underlining existence—as-the-absolute-a-priori-of-conceptualisation–and–existence—as-sublimating-withdrawal,eliciting-of-prospective-supererogation*--as-to-perspective–ontological-normalcy/postconvergence-implied–‘prospective-aporeticism-overcoming/unovercoming’*.

Intradimensionally within a registry-worldview like positivism, this could be construed as there is no basis for a mindset/ reference-of-thought advocating for scientific medicine as practised
in hospitals to ‘logically convince’ another mindset/ reference-of-thought advocating rather for traditional medicine (involving a mix of herbalism, incantations, spirits, etc.) that the former is more ontologically-veridical on purely logical terms (as the traditional medicine interlocutor operates logic according to the apriorising–registry or categorical-imperatives/axioms/registry-teleology behind its traditional medicine meaningful-frame while the scientific medicine interlocutor operates logic according to the apriorising–registry or categorical-imperatives/axioms/registry-teleology of a positivistic meaningful-frame), and it is purely the ontological-primemovers-totalitative-framework fact in that by and large more patients survive/get-cured by going to hospitals which then collapses the traditional medicine interlocutor’s reference-of-thought in the middle to long-run to impose the scientific medicine interlocutor’s reference-of-thought as a common one, and it is only when this common reference arises that the ‘notion of agreement-disagreement’ with regards to logical processing is now relevant, and it is irrelevant and non-applicable before that. The implication is that a ‘Différance-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated notional–firstnaturedness—temporal-to-intemporal-dispositions <so-construed-as-from-perspective–ontological-normalcy/postconvergence> (aetiological ontological-primemovers-totalitative-framework construct), and so whether with regards to the epiphenomenon of psychopathy and social psychopathy (or with respect to ontological-veridicality or issues of reference-of-thought and meaningfulness generally): - As the ‘intemporal-disposition’ disposition which is prelogism-as-of-conviction,-in-profound-

This latter point can be seen in context in the example priorly highlighted at the beginning: For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right in abstract terms but does the apriorising–registry apply?, i.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought– categorical-imperatives/axioms/registry-teleology (by simply implying their ‘static or abstract non-veridical/vacuous state of essence-of-meaningfulness’

within the receptacles that are individuals, and hence there is no contradiction in saying that all
individuals potentially have both the intemporal-disposition and temporal-dispositions, with the
major existential/contextual difference among individuals with regards to the
existential/contextual inclination to preserve-intemporality or fail-
intemporality/temporality as social-stake-contention-or-confliction arise varying with regards to the implications of graver and graver temporal consequences (wherein as an archetype elucidation for instance, Socrates or Galileo will strive to keep on preserving intemporality/longness even when the conventional social-stake-contention-or-confliction threaten as they view the perpetuation of the ideas and principles they stood for were more critical for human posterity, but again ‘a sense of intemporality’ may vary from an intellectual nature where for instance an ordinary person may spontaneously save from drowning or defend another or others at risk to themselves, etc., implying that individuals ‘solipsistic or secondnatured philosophies’ with respect to the acuteness of social-stake-contention-or-confliction is more critical in determining their dispositions to preserve-intemporality or fail-intemporality); thus explaining a same notional and contiguous conceptualisation (rather as a variation of degree and not different notions) construed as notional-firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective-ontological-normalcy/postconvergence> as shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology, and equally explaining why institutionalisation/intemporalisation is possible, as the framework/social-construct wherein social-stake-contention-or-confliction arise can be construed/ designed to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) towards and encourage the intemporal-disposition to preserve-intemporality over failing-intemporality/temporal-dispositions of postlogism-slantedness (postlogism-as-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>—instigation-at-a-given-registry-worldview/dimension, that is instigative to the turning of the prospective ‘temporal defect-of-logical-processing-or-logical-

human-institutionalisation-process where this is skewed (‘intemporality-asymmetric-
subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality
transcendental-enabling/sublimating/supererogatory–de-mentativity) by deferential-
formalisation-transference towards the intemporal (intemporalisation) is actually an artifice
(artificial conceptualisation) that is habituated for its relative positive-opportunism with
regards to the cross-section of human interest in the middle to long run construed as of de-
dentiation
(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-
or-attributive-dialectics). However, no institutionalisation construct, going by its implied
transcendence-and-sublimity/sublimation/supererogatory–de-mentativity alienating ‘present as
prior/transcended/superseded ontological-reference conceptualisation’ for ‘future as
prospective/transcending/superseding ontological-reference conceptualisation’, has ever been
acquiesced to socially without resistance even in instance induced by diffusion involving the
power dominance of one cultural entity over another, with such resistance being at least in the
short-term of a covert nature and of a <amplituding/formative–epistemicity>totalising–self-
referencing-syncretising/circularity/interiorising/akrasiatic-dragnet nature as well. Resistance is
even stronger where transcendental institutionalisation is implied within a same cultural entity.
Thus it might just be the case that the more or less itinerating clanic or tribal groups of early
humans were the perfect model for a sort of complementary diffusion of transcendentalism that
quickly enabled a hominid to achieve the core assets for its perpetuation of civilisation as
complex meaningfulness enabled by language and culture. Insightfully as well the possibility of
positivism/rational-realism arising in Western Europe was greater by this same mechanism of complementary diffusion of transcendentalism given the mutually feeding diffusional dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and this author thinks that applies to us as of the positivism–procrypticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence-and-sublimity/sublimation/supererogatory-de-mentativity came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction on the basis of common/same/shared registry-worldview reference-of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, however, at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatureredness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-
normalcy/postconvergence>’–existentialism-form-factor, and so at the threshold between recurrent-utter-uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, non-positivism/medievalism and positivism, and prospectively procrypticism and deprocrypticism. The implication is that naturally all prospective institutionalisations by their implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are ‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that their intemporal valor is inestimable (at least when we are looking retrospectively in appreciating that a positivistic outlook should supersede a non-positivism/medievalism outlook, and in the case where we are not uninhibited/decomplexified to equally construe that prospectively as a notional–deprocrypticism outlook should supersede a procrypticism outlook). This insight equally highlights that institutionalisation/intemporalisation is implied with regards to human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, and is critical for would-be emancipation-inducing intemporal individuations in grasping the whys and hows of social reaction to transcendental conceptualisation going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor, how temporal ‘resistance’ is superseded, the mechanism of percolation-channelling-<in-deferential-formalisation-transference> and how transcendental ideas are taken up over time and induce untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the middle to long run construed as of
de-mentation-{supererogatory~ontological-de-mentation-or-dialectical-de-mentation—
stranding-or-attributive-dialectics}). The fact is that while the social-construct is by and large a
conceptualisation that determines individuals possibilities, the reality is equally that the social-
construct does has ‘powerful channels’ that enable individuals to drastically redefined what is
the social. The individual, it is often ignored, is an abstract-atomic-social-construct, as in the
individual is priorly implied in the social, beyond just in terms—as-of-axiomatic-construct of
social aggregation in implying a meaningfulness and value-reference construct relationship to
the abstract summative social. Such insight on the nature of human transcendence-and-
sublimity/sublimation/supererogatory~de-mentativity will certainly highlight why the
Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect
contributing in transforming medieval European societies mindsets into a positive worldview
by cynically putting together all the positive knowledge they could muster and disseminating it
throughout Europe, and so over the forces of obscurity of the days who understood the
implications of such a venture. The fact here as well as with all issues of "perversion-of-

Insightfully, in an intellectual conceptualisation exercise which, though conceptually contiguous, and while not necessarily implying similar dramatisation, in addition to its relatively diffuse implications in the sense of the contention being rather about human-mentation-capacity-furtherance and the fact that as a latter institutionalisation it is apparently less dramatic, at least as of its apparent negative social consequence given it is so focussed on human individualisations as atomic-level point-of-departure of transformation but rather finding its radicalness more in the boldly implied décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence\textendash{}\langle\text{implicated-epistemic-\textit{veracity-of- nonpresencing}}\langle\text{perspective\textendash{}ontological-normalcy/postconvergence}\rangle\rangle) emancipation of the positive/procryptic human, and as with all other institutionalisations, it is thus not an issue that notional\textendash{}deprocrypticism meets in the short-term and temporary with \textquote{resistance} or rather criticism (possibly by and large more in terms\textendash{}as-of-axiomatic-construct of intellectual agreement/disagreement, as obviously every notion seriously contemplated about is); such that focus should be relatively more about construing veracity/ontological-pertinence and percolation-channelling\textendash{}in-deferential-formalisation-transference\textendash{}thereof, as an objectively engaged intellectual/emancipatory exercise. - As the above circularity/recurrence/repetition/repeatability (of temporal-dispositions acting-recurrently-in-temporal-preservation …) is the basis for the registry-worldview’s/dimension’s-

For instance, the corresponding postlogism\textsuperscript{78} as perversion-of–reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation instigation in non-positivism/medievalism instigating say of notions of sorcery and accusations of the type while effective in inducing\textsuperscript{75} perversion-of–reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation in a non-positivism/medievalism setup will not be effective in a positivistic social-setup, as the non-positivism/medievalism condition of being superstitious and non-empirical is by itself a condition ‘in wait’ for accusations and notions of sorcery to arise and be endemised/enculturated. Likewise, from ontological-normalcy/postconvergence insight, with regards to our positivistic registry-worldview reflected/perspectivated as being dialectically-out-of-phase/dialectically-primitive as procrysticism at its human limited-mentation-capacity-deepening\textsuperscript{53} registry-worldview/dimension-level as the threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation–as-to–‘attendant-intradimensional’–prospectively-disontologising–preconverging/dementing–apriorising–
‘extrinsic-attribution’ over a ‘validation by inherent-veridicality/intrinsic-reality’ of meaningfulness as ‘intrinsic-attribution’ leading to social-and-temporal-trading, and so whether consciously-or-unconsciously/wittingly-or-unwittingly’, and thus inducing notional-discontiguity/epistemic-discontiguity speaking of epistemic-decadence (postlogism). Insightfully again, going by the first example, it might (wrongly) be argued, by human ‘temporal extricatory preconverging–de-mentating/structuring/paradigming’, that notions-and-accusations-of-sorcery in a non-positivism/medievalism setup should imply that any such accused should equally ‘make-up’ accusations in their own defence to neutralise and possibly defend their own interests. But such a stance is a temporal extricatory preconverging–de-mentating/structuring/paradigming that faces human temporality/shortness with human temporality. Intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming will garner the insight that humanity-at-large at all such non-positivism/medievalism setups is rather in need (as the resolution) of a renewed institutionalisation prospectively as the positivistic registry-worldview based on rational-empiricism as the postconverging–de-mentating/structuring/paradigming for superseding the vices-and-impediments that the enculturation/endemisation of the notions-and-accusations-of-sorcery speak of inherently, together with the social-structural implications and derivations arising, with regards to the non-positivism/medievalism registry-worldview. The vocation of the intemporal-disposition (intemporality/ontological-construct/longness-of-register-of–meaningfulness-and-teleology) is not-to-come-to-and-construe meaninglessness-and-teleology at a same pedestal as a temporal-dispositions extricatory preconverging–de-mentating/structuring/paradigming, and this invariably means that its on-occasion/incidental insight about temporal-dispositions defects (temporality” is ‘necessarily

In other words, inherent human ontologising-deficiency as implied by ontological-normalcy/postconvergence due to human limited-mentation-capacity-deepening is the inherent reason why humankind has to ‘make-up-for’ (by projection as ‘ontological-reconstituting–as-to-conflatedness'/deconstruction) its ontologising-deficiency by renewing its \(^9\text{reference-of-thought/implied-registry-worldview in successions as transcendence-and-sublimity/sublimation/supererogatory–de-mentativity involving a ‘placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology}^\text{10} \text{diecticism’ (‘de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’) that involves prospective/transcending/superseding registry-worldview as ‘postconverging-or-dialectical-thinking –apriorising-psychologism’ which is dialectically-in-phase over prior/transcended/superseded registry-worldview as preconverging-or-dementing\(^9\)–apriorising-psychologism which is dialectically-out-of-phase/dialectically-primitive. But then, our human intemporal-disposition responsible for the institutionalisation/intemporalisation process is equally inclined to focus-the-mind-more-thoroughly when dealing with phenomena that undermine ontological-veridicality and so specifically with the undermining of soundness of reference-of-thought, and so across the various institutional-cumulation/institutional-recomposure—⟨historiality/ontological-eventfulness /ontological-aesthetic-tracing—<perspective–ontological-normalcy/postconvergence-reflected—'epistemicity-relativism’⟩. It is more likely that in this regard, more likely than not perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation phenomena as postlogic effect including psychopathic may actually have been a boost for more rapid human registry-worldview’s/dimension’s institutionalisation/intemporalisation as our intemporal-disposition going by its own intemporal preservational individuation disposition (in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is rather prone to apprehend and deal with perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation issue at the
humanity-at-large scale for the need of human registry-worldview’s/dimension’s institutionalisation as secondnaturing given that with human limited-mentation-capacity-deepening\textsuperscript{53} it is naïve to operate on the basis of a ‘human transformation on the wrong dependence of our intemporal-disposition as firstnatureness’, thus the reason why we institutionalise as secondnaturing taking cognisance of the reality of our temporal-to-intemporal individuations dispositions. Just as implied elsewhere in this paper, the skewing (‘intemporality\textsuperscript{12}-asymmetric-subsumption-of-temporality\textsuperscript{99}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity) (from shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{100} to longness-of-register-of–meaningfulness-and-teleology\textsuperscript{100}) of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the transcendent construct of human virtue, and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recompose/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as well. Seemingly, such a temporal approach will more or less be more effective in preemitting the ‘incidental resolution of temporal-preservation-as-pseudointemporality\textsuperscript{52}-preservation’ (with respect to themselves in their specific locale) associated with the ‘dynamic-cumulative-aftereffect of subontologisation’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) rather as an extricatory/temporal preconverging–de-mentating/structuring/paradigming in serving their purpose of a temporal mortal. In so doing incidentally it doesn’t actually preempt but fails the ‘universal resolution of temporal-preservation-as-pseudointemporality\textsuperscript{52}-preservation’ (at humanity-at-large scale) as it advances
an argument that still enculturates/endemises the upkeep of notions of superstition and sorcery.

The fact has always been that throughout the various institutionalisations this human intemporal-disposition individuation disposition has always been an indispensable re-originary—as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -'projective-insights'/'epistemic-projection-in-conflatedness ˜-of-notional–depropticism-prospective-sublimation} (as longness-of-register-of—meaningfulness-and-teleology) with respect to human social-stake-contention-or-confliction-and-confliction and the reason for its conceptualisations to be construed as institutionalisation-as-virtue even though going by temporal-dispositions inclinations, ‘such abstract projection basically would hardly make sense’. The fact is that this intemporal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic/reprojecting/supererogating/zeroing orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of- reference-of-thought>—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and more precisely psychopathy and social psychopathy in the social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic ——maximalising-recomposuring-for-relative-ontological-completeness— unenframed-conceptualisation disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’
going by its customary perception), since it doesn’t accommodate temporal/incremental/‘disjointedness-as-of-references’ ways of thinking and instead strives for a universal implications depth-of-thought. Basically, on the same token the maximalising-recomposing-for-relative-ontological-completeness unenframed-conceptualisation of formal constructs is all about construing human transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposing-for-relative-ontological-completeness — unenframed-conceptualisation the possibility of human health. The reason for this deferential-formalisation-transference disposition is simple, as formal constructs ‘reason’ on the basis of intemporality/utter-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness-induced,'threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation'—as-to-‘attendant-intradimensional’-prospectively-disontologising—preconverging/dementing —apriorising-psychologism’ of ordinary day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly universalising,
poorly insightful, and with elevated subjectivity (not only with regards to facts but with the purported reference-of-thought as well as the apriorising-reference-of-thought-elements/apriorising-registry-elements which are implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology), and so beforehand/as-of-a-priori even without the instigating effect of any perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation like postlogism/psychopathy; such that such temporal/incremental/disjointedness-as-of-reference-of-thought reasoning is best left for inconsequential and trite matters of day to day living, as validated by the processes and procedures of our formal institutions however approximate in their success given the pervasiveness of the extended-informality-susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology even in formal setups, with its susceptibility to undermine or overlook ‘formal effectiveness’ (which can sometimes be naively construed as weakness of formalism rather than insufficiently effective formalism or extended-informality-susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology disruption of formal effectiveness).

Whereas incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation tends to operate as if at any one instance human meaningfulness is absolutely set (and so rather as a mere form) and thus incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation is non-transcendental, and so with reference to the underlying intemporality /longness (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) that ontological development from ‘shallow limited-mentation-capacity—{as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness} to deeper limited-mentation-capacity—{as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—conflatedness}’ /relative-ontological-completeness /diminishing–human-epistemic-abnormalcy-or-preconvergence elicits, and in lieu it is rather of a temporality /shortness reflex mental-disposition such that correspondingly developed reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is related to in virtuality-or-ontologically-flawed-construal (being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference) terms, whether unconsciously (ignorance), expediently (affordability) or consciously. Thus as mental-disposition, incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation across all registry-worldviews involves teleological-decadence—in-dimensionality-of-desublimating-lack-of
secondnaturizing/institutional-design defined by skewing (‘intemporality\textsuperscript{12}-asymmetric-subsumption-of-temporality\textsuperscript{5}’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{10} de-mentativity) as deferential-formalisation-transference by the intemporal-disposition/longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10}) and critically without the transformation of the reality of human individuation dispositions as temporal (shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{10})–to–intemporal (longness-of-register-of–meaningfulness-and-teleology\textsuperscript{10}) as of human existential-form-factor. Thus the implication is that the ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{6} succumbs to uninstitutionalised-threshold\textsuperscript{3} due to the dynamic-cumulative-aftereffect of human temporality/temporal-dispositions as of shortness-of-register-of–meaningfulness-and-teleology\textsuperscript{10} in inducing uninstitutionalised-threshold\textsuperscript{3} which can only further be de-mentatively/structurally/paradigmatically resolved by maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{8} —unenframed-conceptualisation recomposre as transcendental-enabling/sublimating/supererogatory\textsuperscript{10} de-mentativity. Basically, incrementalism-in-relative-ontological-incompleteness\textsuperscript{9}—enframed-conceptualisation relation to meaningfulness as ‘a comprehensive additionality exercise’ thus fails to account for human temporality/temporal-dispositions as ‘not transformed’ and will tend at uninstitutionalised-threshold\textsuperscript{3} towards the perversion/derived-perversion of the institutionalisation reference-of-thought or reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{10}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (whether unconsciously, expediently or consciously), involving flawed-existential-elevation-of-reference-of-thought\textsuperscript{4}. This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-
setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} grasp of the same intrinsic-reality-as-ontological-verbatimility in construing\textsuperscript{56} meaningfulness-and-teleology\textsuperscript{99}/teleological-differentiation involving rather a ‘continuous\textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity\textsuperscript{(as of relative apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity)—conflatedness) arising from the overall and specific accumulated human experiential possibilities of being on earth. Thus human progress as\textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation is a change of human\textsuperscript{45} amplituding/formative-epistemicity—totalising—renewing—realisation/re-perception/re-thought-as-utter-placeholder—setup—ontological—rescheduling\textsuperscript{(by—a—renewing—of—apriorising/axiomatising/referencing—psychologism—as—the—new—referencing—basis—of—prospective—meaningfulness—and—teleology)} enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposing, and it not about being incremental/additional but is rather a ‘\textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation emerging-through (by maximal-as-intemporal—operating—modality—of—reference—of—thought—as—of—maximalising—recomposing—for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation—as—inducing—the—prospective—institutionalisation) of prospective-institutionalisation over the old/uninstitutionalised-threshold\textsuperscript{103} due to human limited-mentation-capacity-deepening\textsuperscript{53}, as base-institutionalisation is not an addition/increment over recurrent-utter-uninstitutionalisation but a ‘\textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—unenframed-conceptualisation emerging-through’, just as is\textsuperscript{104} universalisation over ununiversalisation, positivism over non-positivism/medievalism, and prospectively notional—deprocrypticism over procrypticism; as a\textsuperscript{55} maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{88}—

This further explains why meaningfulness is effectively an existentialism construct; existentialism in the sense that our limited-mentation-capacity-deepening needs to grasp imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness of reference-of-thought’s-devolving-as-of-instantiative-context as to existence-potency’s-sublimating-nascence-disclosed-from-prospective-epistemic-digression... rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality, as a priori over any subsequent elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—existential-contextualising-contiguity for the latter to be ontologically valid. Furthermore, the precedingness nature of ontological-normalcy/postconvergence with respect to human existential-reference/existential-tautologisation pivoting to ontology/ontological-veridicality speaks of a ‘decentering’ to the prospective ontological-construct that maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation effectively enables by placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology rescheduling (as it perpetually recompose to the intemporal as the relative absolute in value and ontology) over incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation which wrongly falls back to the relatively limited-mentation-capacity-deepening of the temporal presencing-as-if-definitely-set in wrongly construing it as the relative absolute’s-reference-of-thought. Insightfully with respect to the notion of maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for
example) in effectively construing optimal prevention of criminality in society as a de-

‘effective enforcement’ is actually a minor portion of the de-mentative/structural/paradigmatic

The notion of intersolipsism is actually the notional validation of the solipsistic argument as it frames the question in the right manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism question, which by so doing naively and wrongly implies that ‘individuals precede and/or are in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than the idea of becoming solipsistically in existence which subsumes their individuality and projecting of the same about others in an intersolipsistic recognition arising from individuals’ own solipsistic insights of predication-and-projection as so-reflected as to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility ~{(imbued-and-

This author equally conceptualise of a difference between solipsism and subjectivity in that solipsism is rather purely ontological as it implies notionally the individual’s perspective in existential becoming as of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression (however effective-as-solipsistically-intemporal or ineffective-as-solipsistically-temporal such perspectival performance), whereas subjectivity refers to our animate-existential-referencing-as-subjectification which is not necessarily oriented to the ontological appropriateness/veridicality of that reference but rather is a notional construal of the reality of ‘human condition of perceived ontological appropriateness/veridicality’ irrespective of whether it can be said of such

perception as being objectively right or wrong going by inherent ontological-veridicality. So solipsism speaks of the human projection in notionally construing ontological veridicality/appropriateness notwithstanding the perspectival effectiveness or ineffectiveness of such a construal as of solipsistic-temporality⁹ to solipsistic-intemporality⁸ and as such solipsism as of solipsistic-intemporality⁸ is the drive behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Whereas subjectivity speaks notionally of a human condition orientation with respect to perceived ontological veridicality/appropriateness no matter whether right or wrong. This possibility of distinguishing an inherently ontological foundation of existential meaning different from an ontological as human epistemic-conception reflexivity of perceived existential meaning is central to a notional–deprocrypticism mindset in enabling the most elaborate transcendentally-enabling-level-of-ontological-good-faith-or-authenticity⁹/objectification/desubjectification-as-objectification—as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antinihilism>⁰₁ construal since necessarily intrinsic-reality/ontological-veridicality is inherently tautologuous, and ‘human capacity to grasp the possibilities of referential relations to inherent existential tautology as of human animate-existential-referencing/subjectification’ in conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of notional–knowledge. Supposed for instance a child comes to learn the rules of addition for all types of number additions such that the child understands the addition principle, but then there is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate 2+2 as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into existence alone in an intersolipsistic relationship with others interceded with ontological-primemovers-totalitative-framework⁹ inducing
projective-insights and predicative-insights) will become a self-made revolutionary and question the teacher indicating the correct answer to 2+2 as being 4; depending equally on its notional sense of intemporal-projection/longness-of-register-of—meaningfulness-and-teleology relative to temporality/shortness-of-register-of—meaningfulness-and-teleology as to the child’s underlying ‘conception of the ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming’, further explaining in the bigger picture why maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation pursuits, apparently unnecessary from a temporal interest point of view, are intemporal-solipsistically undertaken. Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of the ordinary as with respect to its construal of all other meaning including other additions, the child’s knowledge and learning has always been about confirming any such meaning by its notional sense-of-solipsism as of superseding-oneness-of-ontology; but this particular solution for the addition rather becomes outlying for the child because despite the ‘social affirming’ of 2+2 as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of superseding-oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic confirmation as 2+2=4! Thus this points out that our interrelationship to meaningfulness is most authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in each of us to access intrinsic meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment <implied—self-assuredness-of-ontological-good-faith/authenticity—postconverging—de-mentating/structuring/paradigming—as-being-as-of-

This distinction between subjectivity and intersubjectivity as referencing human condition of construal of intrinsic-reality/ontological-veridicality from solipsism and intersolipsism as referencing human effective/ineffective construal of intrinsic-reality/ontological-veridicality as to ontological-performance ~<including-virtue-as-ontology>, is actually important because (while less critical to elucidate this in the natural sciences given the immediacy of constraint from intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity hence implicited), the implications for its comprehensive and conscious understanding in the social world (for conceptualising knowledge while superseding human temporality”/shortness as ignorances/desublimation, so-construed as ‘knowledge-notionalisation’) is decisive as it requires both an understanding of ‘the human condition in its construal/relation to intrinsic-reality/ontological-veridicality’ and ‘understanding of inherent intrinsic-reality/ontological-veridicality’; and so, as a prerequisite for the organic-knowledge necessary for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-

This is fundamentally so because ‘inherent existential-reality/intrinsic-reality/ontological-veridicality is already what it is as given whether humankind knows about it or not’ but rather the point of human knowledge is an emancipatory/sublimating exercise involving the need to decenter/pivot and supersede our animate-existential-referencing/subjectification as of the <amplituding/formative—epistemicity>totalising—self-

Solipsism as such is truly the foundational notion of all phenomenological conceptualisations and derivation of value and meaningfulness as intersolipsistic teleological constructs from a transversal-and/or-common perceived existential-reference/existential-tautologisation and derived-representations of existential-reference/existential-tautologisation. It is what allows for the possibility of human construal of intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supererogatory–de-mentativity to supersede social-aggregation-enabling as a knowledge and virtue construct. The implication being that there is a contiguity in solipsistic insight as simplistically elucidative in the relatively more simpler experimental framework of natural phenomenon studied by the natural sciences (which practice is categorisation-driven, more like elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity but then with a high risk of inducing virtualities thus explaining the continually reshaping/re-categorisation/re-optimising of experimental content when the virtualities come to be seen as unreal or deficient or suboptimal, and so more critically with the practitioner’s experience tend to be driven heuristically actually as of presencing—absolutising-identitive-constitutedness or apriorising/axiomatising/referencing-of-existential-contextualising-contiguity but such solipsistic insight extends to the more convoluted social phenomenon studied by the social sciences, as well as the phenomenal convoluted equally inherent in scientific domains like quantum-mechanics, as herein contemplated should ideally be understood as of referentialism implied ontological-
normalcy/postconvergence epistemic-projection perspective, more like maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation from the most profound of conceptualisation which is intemporality/longness or intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, as of inherent superseding–oneness-of-ontology, and so on the basis of the absolute a priori, ‘existential-contextualising-contiguity’—s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought–devolving-as-of-instantiative-context as to existence-potency—sublimating–nascence–disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality, construed as of increasing human limited-mentation-capacity-deepening in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’, in the staggered elucidation of less and less profound but critical conceptualisations as undertaken in this hermeneutic/reprojecting/supererogating/zeroing design. Furthermore, solipsism will equally explain why human meaningfulness-and-teleology is developed rather by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation of the same superseding–oneness-of-ontology as of our limited-mentation-capacity-deepening (whereby successive generations take a shot at the superseding–oneness-of-ontology that is existence like Ancient Civilisations like Greece establishing that matter is made up of water, fire, air, earth and ether critically establishing the psyche of matter as composed of basic elements and successive recomposurings right up to our modern-day quantum-mechanics recomposuring as of historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism‘>, rather than it erroneously being construed as an incremental exercise; as it is only incremental in the literal sense but in the ‘operant sense’ it is an exercise of maximalising-recomposuring-for-relative-ontological-
completeness—unenframed-conceptualisation as of transversality—<for-sublimating-existential-eventuating/denouement>—of-affirmative-and-unaffirmative—disambiguated—‘motif—and-apriorising/axiomatising/referencing’ overall reconstruing/reconceptualising rather than just incrementing. This insight is important for critical thought and analysis as oftentimes it is naively assumed that prospective knowledge is to be simply obtained by ‘additioning’ or ‘cumulating’ to prior works rather than the more pertinent insight of <amplituding/formative—epistemicity>—totalising—renewing—realisation/re-perception/re-thought as of a same superseding—oneness-of-ontology that is existence. On the same token, this tautological insight about the precedingness of existence can be extended to the notion of nothingness with nothingness rather existing in existence as there is no nothingness or for that matter anything out of existence which is ‘conceptually’ emanation-as-to-the-all-defining-ontological-primemovers-totalitative-framework—intercession, with nothingness rather the ‘conceptual devising of the metaphysics-of-absence—{implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>} of existence’ with existence conceptually construed in metaphysics-of-presence—{implicated—‘nondescript/ignorable—void ’—as-to—presencing—absolutising-identitive-constitutedness }; but then with existence being its very own metaphysics-of-presence—{implicated—‘nondescript/ignorable—void ’—as-to—presencing—absolutising-identitive-constitutedness }, the mutual equivalence of both metaphysics-of-presence—{implicated—‘nondescript/ignorable—void ’—as-to—presencing—absolutising-identitive-constitutedness } and metaphysics-of-absence—{implicated-epistemic-veracity-of—nonpresencing—<perspective—ontological-normalcy/postconvergence>} implying that nothingness is likewise tautologically the emanation-as-to-the-all-defining-ontological-primemovers-totalitative-framework—intercession of existence. Basically a nothingness conceptualisation is necessarily and tautologically an existential conceptualisation as ‘existential-contextualising-contiguity ’—s—reifying/elucidating-of-prospective-relative—

Actually nothingness is rather a ‘constructive tautological device’ as is actually the case with all human knowledge (mental-devising-representation of teleological reorientation), as it doesn’t speak of any inherent change in intrinsic-reality but rather of change of human \(<\text{amplituding/formative–epistemicity>totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholer-setup-ontological-rescheduling}\{\text{by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology}\}, just as the many conceptualisation herein like the registry-worldviews/dimensions and ontological-contiguity—of-the-human-institutionalisation-process\textsuperscript{68} are actually speaking of human rescheduling of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} in grasping a superseding–oneness-of-ontology/intrinsic-reality that has been so all the time; and so critically talk of transcending from shallow to deeper superseding–oneness-of-ontology is no

That is, such ‘conceptual devices’ are reformulations arising from ‘grander/transcendental insights’ about the same question but implying a radical transformation of ontological/meaningful conceptualisation of the human mind and human teleology\(^6\). The idea is that ‘intrinsic-reality/ontology is not changed’ but rather it is ‘human \(<amplituding/formative–epistemicity>totalising–renewing–realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling\{(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective–meaningfulness-and-teleology}\) that is changed’. Technically, the implication is that existence/being cannot be thought outside of human thought/limited-mentation-capacity); as a conclusion driven by the insight that human thought/limited-mentation-capacity in construing existence/being implies human \(^6\)meaningfulness-and-teleology\(^6\) is necessarily of ontological-prime-movers-totalitative-framework\(^2\) or attendant. However the disavowal rather
than renewal/deconstruction/ontological-reconstituting–as-to-conflatedness\(^2\) of human thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of meaningfulness-and-teleology\(^{10}\)’ as the alternate logical outcome, but then with this latter construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation is a human growth activity and not an absolutely achieved activity’, besides abandoning the notion of human existentialism/thrownness/facticity behind human strife itself thus contradictorily undermining again the assumption of such an alternate logical outcome as itself a ‘contemplated strife’ construed as arising only by the implication of such existentialism/thrownness/facticity, and further failing to factor in that deepening human thought/limited-mentation-capacity increasingly narrows the framework of human existential contingency/ontological-primemovers-totalitative-framework \(^3\) ‘enabling human existential development as less and less a question of fate’ on the basis of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity\(^7\)—of-the-human-institutionalisation-process\(^5\) as of difference-conflatedness—as-to-totalitative-reification\(^7\)-in-singularisation—as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing—as-veridical-epistemic-determinism <amplituding/formative–epistemicity>causality—as-to-projective-totalitative-implications-of-prospective- nonpresencing,-for-explicating-ontological-contiguity’. Thus the bigger issue is not existence/being in itself as it is given, whatever it is that is given. Such maximalist intemporal projection reasoning doesn’t entertain banal ordinary logic (that is all too readily incremental, ‘disjointedness-as-of- reference-of-thought’ and temporally-preservation-as-pseudointemporality-preservation) of the sort: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc. The intemporal reasoning maximalist approach (non-incremental, non-‘disjointedness-as-of- reference-of-thought’ and striving for the ontologically-utter) that permeates many a formalised construct does not entertain meaningfulness within the sphere of temporal-and-social-trading and is rather transcendental inherently, as it simply supersedes and skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) meaningfulness-and-teleology towards the universal/intemporal as of implication. alchemic material construal. Basically, maximalising-recomposuring-for-relative-ontological-

supersede the circularity of intradimensional hollow-constituting misappropriation-of-meaningfulness-and-failing-intemperal-preservation (which temporal-preservation-as-pseudointemperality-preservation actually speaks of relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to ‘attendant-intradimensional’-prospectively-disontologising-preconverging/dementing apriorising-psychologism’, thus ‘in-wait’-for-perversion-of-reference-of-thought as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, and defines successive institutional-collapse/institutional-recumulation-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-perspective-ontological-normalcy/postconvergence-reflected-epistemicity-relativism} uninstitutionalised-threshold explaining why institutionalisation becomes stuck at that level until the corresponding threshold is superseded for a prospective/transcending/superseding institutionalisation) for prospective transcendental possibilities. On the basis of such hollow-constituting misappropriation-of-meaningfulness-and-failing-intemperal-preservation circularity, one may perfectly argue that any of the institutionalisations are just as good so long as people are relatively satisfied but such an argument is never made of lower/prior institutionalisations with the implications that its elicitation within a registry-worldview as present is nothing more but an act of ‘ontological-bad-faith/inauthenticity’, but then a maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation approach is one that doesn’t reason in temporal-accommodation but provides the opportunity for prospective institutional possibilities. maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation was what was in the minds of the Copernicus, Galileos, Rousseaux, Darwins and the enlightenment Encyclopédistes led by
Denis Diderot in cynically vouching for the possibilities of the future of positivism over a non-positivism/medievalism worldview. Such that vague arguments of the type we’ve been living well without such ideas are nothing but avowals of temporal-dispositions poor grasp of how their present institutionalisation came about and future institutionalisation possibilities; since we can project that all humans in recurrent-utter-uninstitutionalisation were recurrent-utter-institutionalised, all humans in ununiversalisation were ununiversalised, all humans in medieval non-positivism were non-positivistic, and by extension (but for the complexes arising from our metaphysics-of-presence-{implicit-'nondescript/ignorable-void’-as-to-presencing—absolutising-identitive-constitutedness}) all humans in our procrypticism—or–disjointedness-as-of-reference-of-thought are procryptic and it is no use turning around to our fellow mortals to do social-aggregation-enabling; with the more critical issue being what is the ontological-contiguity—of-the-human-institutionalisation-process implication as from the prospective epistemic-projection perspective! Such temporal-dispositions are characteristically draggy across all registry-worldviews/dimensions explaining why all transcendence-and-sublimity/sublimation/supererogatory—de-mentativity meet with temporal resistance going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions—<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor which take the form of subontologisation/subpotentiation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect). - As the ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation <amplituding/formative> wooden-language-{imbued—averaging-of-thought—<as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—}
disposition tends to wrongly define the reference-of-thought of a given prior/transcended/superseded registry-worldview as the absolute framework of ‘postconverging-or-dialectical-thinking’–apriorising-psychologism, and so by reflex, as if the successive prior institutional-cumulation/institutional-recomposure–(as-to-

wrongly ignores the ontological-normalcy/postconvergence (prospective-transcendence-inperpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) nature of intrinsic-reality/ontological-veridicality, such that when there is a need to achieve ontologically-veridical meaningfulness by prospective reference-of-thought with new reference-of-thought–categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, the ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation wooden-language—{imbued—averaging-of-thought—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—nonexistent/ignoreable–void—with-regards-to-prospective-apriorising-implications}’ simply engages in ‘totalising—self-referencing-syncretising’ to its prior/transcended/superseded reference-of-thought with its prior/old reference-of-thought–categorical-imperatives/axioms/registry-teleology that are failing/not-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation due to their temporal-preservational nature with respect to their own perversion-of-reference-of-thought—not-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation threshold. It is only the ontological-primemovers-totalitative-framework and positive-opportunism of the prospective/transcending/superseding reference-of-thought in the middle to long run construed as of de-mentation—{suppererogatory—ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics} that will induce its untenability/internal-contradiction/internal-incoherence/institutional-constraining and the collapsing/overriding of the prior/transcended/superseded (as ‘postconverging-or-dialectical-thinking—psychology or
psychology-of-mentation-dynamics or natural-psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), and so going by their ‘relative ontological-effectivity’. This explains why a recurrent-utter-uninstitutionalised, an ununiversalised, a non-positivism/medievalism, or prospectively a procrypticism mindset, by

\[\text{<amplituding/formative–epistemicity>totalising–self-referencing-}
\text{syncretising/circularity/interiorising/akrasiatic-drag}\]

uncompromised backdrop for construing ontologically-veridical-meaningfulness, that is, ‘at such uninstitutionalised-threshold requiring prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’, by the possibility for its adherence to ontological-normalcy/postconvergence, and hence the requisite transcendental limited-mentation-capacity-deepening to put the prior/transcended/superseded into question (including and priorly, the transcendental emancipator own’s mentation) for the prospective/transcending/superseding reference-of-thought; and so, with the notion that the prior/transcended/superseded is preconverging-or-dementing apriorising-psychologism as dialectically-out-of-phase/dialectically-primitive, with no place for its ‘<amplituding/formative–epistemicity-totalising–self-referencing-syncretising’ which is no more than its ‘internal myth/metaphysics’ that has nothing to do with ontological-veridicality/ontological-contiguity. As such, solipsism enables the requisite ‘moulding’ of human limited-mentation-capacity-deepening of notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence to allow for successive transcendence-and-sublimity/sublimation/supererogatory-de-mentativity; and as a social conceptualisation operates as ‘a relation of intersolipsistic mindsets in transversality—for-sublimating–existential-eventuating/denouement—of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ led by the preceding/superseding intercession of intrinsic-reality/ontological-veridicality as validated by ontological-primemovers-totalitative-framework. (Noting that beyond this point of solipsistic contemplation is the end of ontology, as of ontological-primemovers-totalitative-framework/attendant-projective-and-predicative-validation, and metaphysics arises though metaphysical constructs tend to harken back towards ontology in trying to explain the metaphysical-as-of-existential thus explaining the blurring that often arises between metaphysics and ontology as there is hardly any metaphysical construct
that doesn’t strive to be existentially relevant as of the present, thus carrying ontological implications of conceptualisation whether it is demonstrably ontologically-veridical or not; and this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity —of-the-human-institutionalisation-process which is rather about ‘successions of metaphysics-of-absence insights as the successive transcendental-enabling/sublimating/supercratory-de-mentativity rules in reflecting holographically—<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-institutionalisation-process yielding in-lockstep the successively more ontologically profound metaphysics-of-presence—construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the notional—deprocrypticism registry-worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure-ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions such that all supposed present ontologies are metaphysical constructs as of their non-elucidations. Hence even science itself despite its positive perspective is a metaphysical construct.) Hence, from a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation insight, the <amplituding/formative—epistemicity>totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of ‘incrementalism-in-relative-ontological-incompleteness’—enframed-conceptualisation <amplituding/formative> wooden-language—<imbued—averaging-of-thought—<as-to—leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—

Beyond our illusion-of-the-present/present-consciousness/mirage\textsuperscript{1} amplituding/formative-epistemicity\textsuperscript{13} totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{13} positivistic registry-worldview perspective, we can grasp that the lower registry-worldviews ‘mentally projected prelogism\textsuperscript{79} as-of-conviction,-in-profound-supererogation\textsuperscript{97} existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at\textsuperscript{97} reflex (or ‘conviction-as-to-profound-supererogation\textsuperscript{97}-reflex’ or intemporal-disposition-reflex-admittance-reflex/in-phase-reflex’) are flawed at their uninstitutionalised-threshold\textsuperscript{111}, and the same applies to us in ontological-normalcy/postconvergence. The nature of this ‘conviction-as-to-profound-supererogation\textsuperscript{97}-
reconstituting—as-to-conflicatedness\textsuperscript{12}/deconstruction compensating-alteration or realteration of meaningfulness’ of the intemporal-disposition), as the basis of the institutionalisation/intemperalisation processes at registry-worldview/dimension or intradimensional level, and ultimately explaining the transcendental/transdimensional/interdimensional/ maximalising-recomposing-for-relative-ontological-completeness\textsuperscript{8}—unenframed-conceptualisation level successiveness of institutionalisations (as recurrent-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrysticism, and perpetuation-of-deprocrypticism); and so, by ‘a human limited-mentation-capacity-deepening’ recurrence of intemporal projection over the alterity/alteration, in circularity/recurrence/repetition/repeatability by temporality\textsuperscript{9}, and such iterability/iteration (of ontologically-veridical-meaningfulness-and-ontological-reference) being driven by intemporal-preservation-in circularity/recurrence/repetition/repeatability\textsuperscript{9} (as longness-of-register-of—meaningfulness-and-teleology\textsuperscript{10}) with the latter ‘distracted/circumvented’ by temporal-preservation-as-pseudointemporality\textsuperscript{13}-preservation alterity/alteration-in circularity/recurrence/repetition/repeatability\textsuperscript{9} as shortness-of-register-of—meaningfulness-and-teleology\textsuperscript{10}, requiring the further realterity/realteration-of-such temporal-preservation-alterity/alteration-in circularity/recurrence/repetition/repeatability\textsuperscript{9} as ‘ontological-reconstituting—as-to-conflicatedness\textsuperscript{12}/deconstruction’ by intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in iterability/iteration (for the preservation of ontologically-veridical-meaningfulness-and-appropriateness-of—reference-of-thought-as-of-conflicatedness’). In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of subontologisation’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-
mentation-procedure-deception/’urge’/entitlement-folie of postlogism -slantedness effect) or progressive alterity/alterations which could be regular (like an exacerbation or opportunism interlocutors in conjugated-postlogism ) or regressive alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism ). The notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and the intemporal-disposition compensation-alterity/alteration by ‘ontological-reconstituting-as-to-conflicatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-threshold), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of an dimensionality-of-sublimating-⟨amplituding/formative⟩supererogatory-dementativeness/epistemic-growth-or-conflicatedness/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation⟩ exercise but rather institutionalisation/intemporalisation or seconndnaturung, which is about ‘skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–dementativity)/constraining towards’ the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to enable the given prospective institutionalisation. Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emanance’ but actually the result/effect of human limited-mentation-capacity-deepening coming-into-grips with intrinsic-reality as existence-emanance, and so in the succession of institutionalisations. The implication
of this iterability (due to temporality\textsuperscript{-preservational-ality/alterations in
distraction/circumvention of intemporal\textsuperscript{-preservation-iteration for construct of
temporal/ontologically-veridical meaningfulness) is that all issues of perversion-of-

be construed as implying ‘a perpetual construct for upholding intemporal\textsuperscript{-in-preservational-

just as we grasp this notion of ‘the-upholding-of-intemporal/ontologically-veridical-

drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect). Ultimately the philosophical pessimism of many a philosopher stems from this confusion about the achievement of human emancipation and virtue, in naively construing that such an achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-construct-of-meaningfulness for the upholding of the intemporal construct of ontologically-veridical-meaningfulness’ as implied by the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence. Strangely enough, this idea can be derived from the contrastive implications of metaphysics-of-presence-{implicit-'nondescript/ignoreable–void ’-as-to-presencing—absolutising-identitive-constitutedness } (with its illusion-of-the-present/present-consciousness/mirage/epistemic-totalising~self-referencing-syncretising) and metaphysics-of-absence-{implicit-ed-epistemic-veracity-of- nonpresencing—perspective—ontological-normalcy/postconvergence} as postdication (suprastructuring transcendental-insight-projection-capacities). Ontologically speaking, the institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing—perspective—ontological-normalcy/postconvergence-reflect—epistemicity-relativism}> in their evolving de-metation-(supererogatory—ontological de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics) registry/registry-worldview/ontological-reference dialecticisms as at one moment ‘postconverging-or-dialectical-thinking—apriorising-psychologism’ and at another preconverging-or-dementing —apriorising-psychologism are effectively a reflection of the reality of a dynamic dialectics of ‘metaphysics-of-presence-{implicit-'nondescript/ignoreable–void ’-as-to-presencing—absolutising-identitive-constitutedness ’}" and ‘metaphysics-of-absence-{implicit-ed-epistemic-veracity-of- nonpresencing—perspective—ontological-normalcy/postconvergence}>’ retracing of ontologically-veridical placeholder-

Such an insight can certainly be grasped with respect to procrypticism and notional–deprocrypticism as well, with the associated postlogic \textsuperscript{1} perversion-of-\textsuperscript{8} reference-of-thought<as-effectively-apriorising-in-

ontological-normalcy/postconvergence referentialism perspective inherently carries the
requisite suprastructuring transcendental-insight-projection for fulfilling the promise of
‘metaphysics-of-absence−\{implicated-epistemic-veracity-of− nonpresencing−<perspective−

metaphysics-of-absence−\{implicated-epistemic-veracity-of− nonpresencing−<perspective−

normalcy/postconvergence is rather conceptualised more effectively with the present-
considered-as-being-in-epistemic-abnormalcy/preconvergence\textsuperscript{10} -perspective-(preconverging-or-

thinking –apriorising-psychologism’– reference-of-thought) which is then actually
prospective (to-resolve-the epistemic-abnormalcy/preconvergence\textsuperscript{10}); and not ‘metaphysics-of-
presence−\{implicated−‘nondescript/ignorable–void ’−as-to− presencing—absolutising−

normalcy’ is actually stifling the prospective orientation by its illusion-of-the-present/present-
consciousness/mirage as \(<\text{amplituding-formative-epistemicity}>\text{totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drug}\>\). This posture is validated by the decreasing epistemic-abnormalcy/preconvergence nature of the successive institutional-cumulation/institutional-recomposure-{as-to- historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>\} from retrospective to present to prospective, whereby there is decreasing epistemic-abnormalcy/preconvergence as the institutionalisation/intemporalisation process veers towards ontological-normalcy/postconvergence (from recurrent-utter-uninstitutionalisation to base-institutionalisation to 10 universalisation to positivism and prospectively to deprocrypticism).

of-register-of-meaningfulness-and-teleology to intemporal-disposition as longness-of-register-of-meaningfulness. This latter point is to highlight that ontological focus should rather be placed on the ‘abstract conceptualisation that enables institutionalisation-as-virtue and not any naïve purported presencing—absolutising-identitive-constitutedness poorly appreciative of dimensionality-of-sublimating \(<\text{amplituding/formative}>\text{supererogatory-de-mentativeness/epistemic-growth-or-conflatedness}/\text{transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation}\rangle\), as in the bigger scheme of things the latter is delusional (for an animal whose potency under social-stake-contention-or-confliction is rather as of human-subpotency—aporia/undecidability/dilemma/ought-undeterminacy/deficiency/limitation/constraint—imbued—‘notional–firstnaturedness—temporal-to-intemporal-dispositions->so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor thus needing its secondnatured skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/suberogatory-de-mentativity as deferential-formalisation-transference to the intemporal for its transcendence-and-sublimity/sublimation/suberogatory-de-mentativity) and that’s why society and more specifically formal organisations ‘operate on the clairvoyance of institutionalising principles and rules’, and ‘not the purported impression-driven/good-naturedness dispositions of the one or the other’, as this is an unsustainable construct and is simply a call for institutional failure in the middle to long run. A human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation in individuals purporting prospective emancipation comes from and are from the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality-longness is a ‘potential construct of orientation’ as
implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) and it is only a devised institutionalisation construct as secondnaturing that achieves that potential-construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no notional–deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are ‘moulting’ their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. - As the notion of ‘dynamic-cumulative-aftereffect of ontology and subontologisation/subpotentiation (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving intersubjective valuation). Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ (as an ontology-driven
ontological-normalcy/postconvergence perspective of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology\(^{100}\) as of prospective notional–deprocrypticism (‘postconverging-or-dialectical-thinking\(^{20}\)–apriorising-psychologism’ \(^{9}\) reference-of-thought). With ontology-driven implying that our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) is just a ‘placeholder-setup’ that doesn’t has any inherent ontological validity, but is rather as valid as its representation/schedule of ontology/ontologically-veridical-meaningfulness/intemporality\(^{1}\), such that with the insight of more profound ontology/ontologically-veridical-meaningfulness/intemporality\(^{1}\), the ‘placeholder-setup’ as placehoder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) is accordingly rescheduled psychoanalytically (‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring), validating and explaining why our placeholder-setup/mentala-devising-representation/mentation/consciousness-awareness-teleology\(^{100}\) has been developing all along from the mindset/\(^{1}\) reference-of-thought of an recurrent-utter-institutionalised, base-institutionalised,\(^{104}\) universalised and positivised, with the implication that the latter’s mindset/\(^{1}\) reference-of-thought is not beyond prospective transcendence-and-sublimity/sublimation/superrrogatory–de-mentativity where such prospectively more profound ontology is demonstrated to imply a renewal of human \(^{1}\) reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnatedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor induced

In fact, psychoanalysis is actually a natural existential human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology process with the difference that such comprehensively conceptually-directed constructs as is implied with notional–deprocrypticism with respect to the present positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and parcel of the human psychoanalytic experience with regards to passive to conceptually-directed constructs of human teleological projection. Transcendence-and-sublimity/sublimation/supererogatory–de-mentativity (prospective) as a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology effectuation, is not technically achieved as may naively/counterintuitively be implied by construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (from the present) but rather, on the basis of ‘prospective reference-of-thought transcendental insights’, it correspondingly implies ‘construing the present as metaphysics-of-present as the transcended/superseded/prior placeholder-setup/mental-devising-representation/mentation’ to be represented as ‘preconverging-or-dementing–apriorising-psychologism reference-of-thought’, and so implied by the ‘prospective reference-of-thought transcendental insights’, such that the prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘postconverging-or-dialectical-thinking–apriorising-psychologism reference-of-thought’ is naturally implied as being the new and prospective suprastructuring, (beyond-the-consciousness-awareness-
teleology\(^{(0)}\) of the ‘old present’/retrospective as prior. That is it is critical to grasp that \(\text{de-mentation}\) of ‘postconverging-or-dialectical-thinking\(^{(20)}\)–apriorising-psychologism’ and preconverging-or-dementing\(^{(19)}\)–apriorising-psychologism is never about generating a prospective ‘postconverging-or-dialectical-thinking\(^{(20)}\)–apriorising-psychologism’ (with respect to the present as ‘postconverging-or-dialectical-thinking \(~\)–apriorising-psychologism’), but such \(\text{de-mentation}\) is rather about decentering and preconverging-or-dementing\(^{(19)}\)–apriorising-psychologism/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{(100)}\) of the present as preconverging-or-dementing\(^{(19)}\)–apriorising-psychologism which becomes ‘old-present’/retrospective as prior’ and dialectically ushering contrastively from that backdrop a new and prospective ‘postconverging-or-dialectical-thinking \(~\)–apriorising-psychologism’. This is actually about \(\text{maximalising-recomposuring-for-relative-ontological-completeness}\)—unenframed-conceptualisation of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\(^{39}\) which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior\(^{8}\) reference-of-thought as veridical. \(\text{maximalising-recomposuring-for-relative-ontological-completeness}\)—unenframed-conceptualisation being about optimally rescheduling the ‘placeholder-setup’ (as placeholder-setup/mental-devising-representation/mentation) with regards to ontologically-veridical-meaningfulness, on the ontological backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation of existential-contextualising-contiguity\(^{39}\)’s-reifying/elucidating-of-

Further the notion of deeper superseding–oneness-of-ontology conceptualisation and shallow superseding–oneness-of-ontology conceptualisation, central to a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation, can be demonstrated as follows: supposed A has the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogically-enculturated, and supposed some other interlocutors, not only by ignorance but affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation further engaged in such vilifying (as social universal-transparency—{(transparency-of-totalising-entailing,-as-to-entailing—<amplituding/formative–epistemicity>totalising—in-relative-ontological-completeness}) of their mental denaturing disposition is socially opaque); engaging meaningfulness at a same reference-of-thought will wrongly imply that there is an issue of ‘logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation’ at hand rather than in veridicality one of perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation, requiring instead a maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation that is ‘postconverging-or-dialectical-thinking–apriorising-psychologism’ from the ‘deeper superseding–oneness-of-

Effectively, reality/existence/being as becoming is actually an ‘unwinding elucidation’ model construct. However, since meaningfulness involves an interceding placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{(10)} as reference-of-thought in relation to intrinsic-reality/ontology and given our limited-mentation-capacity-deepening\textsuperscript{(5)}, there thus tend to develop a mix-up of our representation (with unsound/vacuous/denaturing\textsuperscript{(10)} hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{(10)}) when reflecting/perspectivating ontologically-veridical existential reality, such that there is a rule of recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\textsuperscript{(17)}-reification\textsuperscript{(17)}/superseding–oneness-of-ontology\textsuperscript{(17)} defined by the uninstitutionalised-threshold\textsuperscript{(10)} which arises dementatively/structurally/paradigmatically and accounts for vices-and-impediments\textsuperscript{(106)}. This is more than just a question of acts-execution/logical-processing defects but registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{(10)}–defect<as-Being-or-ontological-or-existential–defect>\textsuperscript{(56)}, that speaks of the registry-worldview’s/dimension’s inherent relative-ontological-incompleteness -induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation -<as-to–’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’, as-it-is-thus–‘in-wait’–for-‘perversion-of-‘reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation -,or-temporal-preservation-as-pseudointemporality\textsuperscript{(12)}-preservation. That is at the basis of the \textsuperscript{(11)}<amplituding/formative–epistemicity>totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag nature of a registry-worldview/dimension vices-and-impediment. This is equally why epistemologically-speaking categorisation schemes tend to be incomplete and requiring further re-categorisations and readjustments as rather construed/conceptualised on an \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) basis of organisation that isn’t in the full potency for grasping intrinsic reality and requiring further adjustments all along (the whole exercise actually being ‘ad-hoc referentialism’), and why referentialism as previously articulated, though ‘relatively abstract as a notion of representation’ is a conceptualisation basis needing constant insights, it is actually a better conceptualisation scheme of prospective being/becoming notions particularly of an ephemeral nature. Just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) allusions to superstition in its \(<\text{amplituding/formative–epistemicity}>\text{totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag}\) as utterly preconverging-or-dementing\(^{19}\)–apriorising-psychologism and unintelligible/existentially-suprastructural and being as of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity with it will wrongly imply the ontological-veridicality of its meaningfulness, a notional–deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{10}\) of a procrypticism mindset/\(^{8}\) reference-of-thought will rather be utterly preconverging-or-dementing\(^{19}\)–apriorising-psychologism and unintelligible/existentially-suprastructural of ‘our procrypticism terms of meaningfulness’ and will equally avoiding elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity\(^{19}\) recognition of the soundness of our \(^{8}\) procrypticisms–and–disjointedness-as-of– reference-of-thought at the (deprocrypticism)

A ‘postconverging-or-dialectical-thinking—psychology or psychology-mentation-dynamics or natural—psychological-dynamics’ will actually be about a novel construal of the social as ‘metaphysics-of-absence—implicited-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence’/postdication of the individual as ‘metaphysics-of-presence—implicited—nondescript/ignorable—void—as-to—presencing—absolutising-identitive-constitutedness’; with the implication that the concepts and conceptualisations of the individual of the current ‘psychology of qualifications and qualification schemes’ are actually and effectively construed by the ‘postconverging-or-dialectical-thinking—psychology or psychology-mentation-dynamics or natural—psychological-dynamics’ as of an ontological-normalcy/postconvergence cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their metaphysics-of-absence—implicited-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence/postdication (as the existential social) articulation. Insightfully, a ‘postconverging-or-dialectical-thinking—psychology or psychology-mentation-dynamics or natural—psychological-dynamics’ rather mobilises maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation as is necessarily the case with all metaphysics-of-absence—implicited-epistemic-veracity-of—nonpresencing—perspective—ontological-normalcy/postconvergence/postdication conceptualisations (which must avert the mix-up induced by the illusion-of-the-present/present-consciousness/mirageas—amplituding/formative—epistemicitytotalising—self-referencing.

design/conceptualisation that by inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the long run enables the prospective registry-worldview/dimension institutionalisation; it is this focus on institutionalisation/intemporalisation that is effectively institutionalisation-as-virtue given that in the succession of human institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’>, no institutionalisation effectively transforms human notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> nature into an absolutely intemporal-disposition nature, but rather reduces human epistemic-abnormalcy/preconvergence towards ontological-normalcy/postconvergence as deeper and deeper superseding–oneness-of-ontology construal/conceptualisations. The bigger point being that it is by effectively grasping that any human intemporal-disposition individuations that can ‘spontaneously’ arise in whatever concern there is should be directed/skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity) (as deferential-formalisation-transference of meaningfulness) for institutionalisation/intemporalisation-as-virtue for secondnaturing, and not a wrong implication of functionally grounding virtue on human ‘temporal disposition’ which will inevitably bring about temporal-and-social-trading with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. The fact is that our institutional and organisational constructs at their very core, unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>), however, the notion of ‘consciously-
spoken’ as herein highlighted is that it enables the necessary uninhibitedness/decomplexification that allows the requisite ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring required in fully assuming the ‘reference-of-thought of any prospective registry-worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply ‘a new psychological orientation as positivistic’ that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, ‘amplituding/formative–epistemicity’–totalising rationalism’ by Descartes based on methodical thinking, ‘universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/‘reference-of-thought as a postconverging–de-mentating/structuring/paradigming shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposure-{as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’}> process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton’s involvement with alchemy, for instance. This point to the critical importance of the psychological state of the mind for the very possibility of
prospective ontologically-veridical transcendence-and-sublimity/sublination/supererogaty-de-mentativity to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moult itself’ (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) towards a more profound construal/conceptualisation as of that superseding–oneness-of-ontology, however strongly we might naively believe in our ideas in any given epoch as of its metaphysics-of-presence {implicated-'nondescript/ignorable–void '-as-to- presencing—absolutising-identitive-constitutedness }.

registry-worldview/dimension in want for a prospective corresponding institutionalisation registry-worldview/dimension, as such a purpose will wrongly and paradoxically imply that the logical-dueness/logical-pertinence of the uninstitutionalised-threshold is sound as its reference-of-thought is prospectively defective (for instance a positivistic implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity cannot be logically intelligible to a medieval setup that harkens back to medieval reference-of-thought–categorical-imperatives/axioms/registry-teleology for its logic, i.e. ‘Issue of articulating chemistry rules and principles for the evaluation of an alchemist not logically cognisant of chemistry rules and principles, in the very first place’), but rather it is a middle to long run construed as of de-mentation/(supererogatory-ontological-de-mentation-or-dialectical-de-mentation—stranding-or-attributive-dialectics) instigation of prospective registry-worldview/dimension institutionalisation reference-of-thought as of a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring (though we can mostly grasp such an insight not from instances of ‘natural intra-society transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’ since this takes a longer time to occur and is relatively obscure, but transcendence-and-sublimity/sublimation/supererogatory-de-mentativity by cultural diffusion associated with conquests where the dominant is at a more advanced stage of institutionalisation or in the rare cases where it is the reverse like Ancient Egypt or Ancient Greece, with the dominated actually relatively dominating or in parity with the dominant culturally as of divergent aspects). The implication here is that transcendental maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation is rather grounded on a relatively intemporal-and-deeper existential-reference-of-meaningfulness with the positive-opportunism of the prospective institutionalisation ontological-prime movers-totalitative-framework over its
corresponding uninstitutionalised-threshold to put in question the latter’s reference-of-thought–categorical-imperatives/axioms/registry-teleology for the ones of the prospective institutionalisation, and it is only after that that the notion of mutual logical intelligibility arises (it is only after the alchemist ‘psychoanalytically-unshackle’ into a positivistic-inclined mindset/reference-of-thought with respect to appreciating notion of natural cause-and-effect and experimentation as well that the notion of mutual intelligibility of chemistry rules and principles makes sense, until then there cannot be much of intelligibility without such a ‘postconverging-or-dialectical-thinking–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring exercise from the perspective of the prospective chemist). That explain why maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation construct are meant to be detached and totalisingly-entailing so as to act as a backdrop for prospective institutionalisation, and not to necessarily make sense in terms–as-of-axiomatic-construct of ‘the now temporal mental-disposition reference-of-though’ which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. In the bigger scheme of things, it is inevitable that suprastructuring (the conceptualisation that renders de-mentation-(supererogatory–ontological–de-mentation-or-dialectical–de-mentation–stranding-or-attributive-dialectics) relative-mutual-construal of the prospective/superseding/transcending registry-worldview/dimension as deeper superseding–oneness-of-ontology construal/conceptualisation over the prior/superseded/transcended registry-worldview/dimension as shallow superseding–oneness-of-ontology construal/conceptualisation by (suprastructurally) reflecting/perspectivating, beyond-the-consciousness-awareness-teleology,<in-existential-extrication-as-of-existential-unthought> of the prior/superseded/transcended, respectively the ‘postconverging-or-dialectical-thinking–apriorising-psychologism as dialectically-in-phase’ and the ‘preconverging-or-dementing–

So both notions are conceptually the same but implying different approaches with respect to the temporal undermining of ontological-veridicality; with subontologisation/subpotentiation referencing/biased within the contextual perspective of institutionalised registry-worldview/dimension, with existential-decontextualised-transposition referencing/biased within the contextual perspective of uninstitutionalised registry-worldview/dimension, thus the latter enabling an appropriate disambiguation of notional–firstnatures —temporal-to-intemporal-dispositions-〈so-construed-as-from-perspective–ontological-normalcy/postconvergence〉 with respect to ontologically-veridical ‹reference-of-thought, and by extension it is the concept of threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation ‹as-to-attendant-intradimensional’-prospectively-disontologising–preconverging/dementing ‹apriorising-psychologism that is appropriate in all instances of implied uninstitutionalised registry-worldviews/dimensions as metaphysics-of-absence〈implicated-epistemic-veracity-of-nonpresencing-〈perspective–ontological-normalcy/postconvergence〉〉 perspective since it avoids the ‹amplituding/formative–epistemicity>totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage that is inevitable when reasoning by a metaphysics-of-presence-〈implicated-'nondescript/ignorable–void 'as-to-presencing—absolutising-identitive-constitutedness 〉 induced subontologisation. Ultimately, an ‘ontological-reconstituting–as-to-conflatedness\textsuperscript{12}/deconstruction articulation’ (beyond just conceptualisations as in this paper) for more thorough insights reflective of a ‘suprastructural construal of any given state of uninstitutionalised-threshold \textsuperscript{103} from prospective institutionalisation point-of-reference, such as can be retrospectively implied of non-positivism/medievalism from positivism or prospectively implied of procrypticism from

Insightfully, ontological-normalcy/postconvergence establishes beyond human limited-mentation-capacity-deepening that there is a potent and overall oneness/contiguity of ontologically-veridical meaningfulness which transverses and supersedes all other conceptualisations of reference-of-thought and meaningfulness (which are therefore approximates) by mere ‘ontological-consistency’ whether with regards to virtue conceptualisation (as highlighted with the intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) or second-level ontological constructs as is the case with subject matters conceptualisations. Ultimately, the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding–oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of–meaningfulness-and-teleology) for human-mastery-of-reality or knowledge, as
inherently implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipatory ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition individuation within the recurrent-utter-uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—\(\text{as ‘first-level presencing—absolutising-identitive-constitutedness of } \text{reference-of-thought’}\) apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) as a postconverging—de-mentating/structuring/paradigming for superseding the vices-and-impediments\(\text{ inherent to recurrent-utter-uninstitutionalisation is a necessity-for-its-own-and-by-extension-the-registry-worldview’s/dimension’s ‘moulding’ in the middle to long run construed as of } \text{de-mentation—\{supererogatory ontological—de-mentation-or-dialectical—de-mentation—stranding-or-attributive-dialectics\} into a base-institutionalisation registry-worldview. Such solipsistic insight is the effective ‘transcendental virtue conceptualisation’ that drives ontological-normalcy/postconvergence across all the successive institutionalisations and by that token coincides with ontology as a necessary ontological development driver in an animal of shallow limited-mentation-capacity—\(\text{as of relative apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity \{constitutedness \} to deeper limited-mentation-capacity—\{as of relative apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity \{conflicatedness \}). operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context construal, representing virtue ‘contiguously’ in terms–as-of-axiomatic-construct of human limited-mentation-capacity-deepening of shortness-to-longness-of-register-of meaningfulness-and-teleology in the intransience of ontological-normalcy/postconvergence (from shallow superseding–oneness-of-ontology to deeper superseding–oneness-of-ontology). This ontology-driving nature of virtue characteristic of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint–imbued–notional–firstnaturedness–temporal-to-intemporal-dispositions–so-construed-as-from-perspective–ontological-normalcy/postconvergence–existentialism-form-factor points out that it is rather such intemporality /longness solipsistic ‘transcendental virtue projection’ that enables the superseding of the uninstitutionalised-threshold of the various registry-worldviews/dimensions as institutional-cumulation/institutional-recomposure–historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–epistemicity-relativism}. In other words, it is the necessary ‘transcendental virtue projection’ for a prospective registry-worldview superseding the vices-and-impediments of the prior registry-worldview that enables the ontological possibilities for such prospective registry-worldview to even arise existentially; as the temporally-inclined recurrent-utter-institutionalised individuation is non-cognisant of any such thing as base-institutionalisation and the ontological possibilities availing to it, likewise with the temporally-inclined ununiversalised individuation with respect to universalisation and its ontological possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to the positivistic and its ontological possibilities, and prospectively the temporally-inclined procrypticism individuation with respect to notional–deprocrypticism and
its ontological possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A question that arises will be how can a society deliver an Einstein or a Bohr respectively that will articulate the theory-of-relativity or quantum-mechanics without it having the necessary institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual mindset/reference-of-thought and associated other contributing mindsets) that allows for the possibility of such discoveries? In other words what was the possibility for the theory-of-relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather improbable. As a side note, such an insight equally attends to such a debate we currently entertain with respect to coming into contact with an advanced alien civilisation. A transcendental virtue conceptualisation will hold that in the very first place such a civilisation won’t be able to exist without the necessary virtue construct (as successions of metaphysics-of-absence-⟨implicated-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩⟩ insights yielding in-lockstep the successively more ontologically profound metaphysics-of-presence-⟨implicated-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness ⟩ as implied by ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a medieval age, for instance, going by the mere human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-⟨so-construed-as-from-perspective–ontological-normalcy/postconvergence⟩’–existentialism-form-factor. Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with
the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms–as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity—of relative apriorising/axiomatising/referencing—of existential-contextualising-contiguity—constitutedness—to deeper limited-mentation-capacity—of relative apriorising/axiomatising/referencing—of existential-contextualising-contiguity—conflatedness—by enabling ‘solipsistic moulting’ (as ‘intemporal-disposition individuation as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’) at uninstitutionalised-threshold states, with a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnaturesdness—temporal-to-intemporal-dispositions—so-construed—as—from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor mental-disposition due to lack of social universal-transparency—(transparency-of-totalising-entailing—as-to-entailing—amplituding/formative–epistemicity)totalising—in-relative-ontological-completeness—about virtue inducing supplanting–conviction-as-to-profound-supererogation—of—attendant-intradimensional’—postconverging/dialectical-thinking—apriorising-psychologism—and the secondnaturing of the social-construct (as institutionalisation-as-virtue) including the requisite human psychical pivoting/decentering. In another respect, ontological-consistency as highlighted previously is in coherence with the
notion of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence—existentialism-form-factor, and as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\textsuperscript{9}–reification\textsuperscript{87}/superseding–oneness-of-ontology\textsuperscript{9} with the implication that ‘the reflected/perspectivated notional–firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective–ontological-normalcy/postconvergence’ disambiguation’ (at the uninstitutionalised-threshold\textsuperscript{10} as ontological-primemovers-totalitative-framework\textsuperscript{73}, underlines the iterability/iteration nature of ontologically-veridical-meaningfulness, grasped from the perpetuating intemporal-disposition ‘ontological-reconstituting–as-to-conflicatedness\textsuperscript{11}’/deconstruction realteration over the perpetuating hollow-constituting-as-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation alteration by temporal-dispositions. Fundamentally, a normally institutionalised functional disposition warrants that there is ‘a common/same ontological-reference of ontologically-veridical-meaningfulness’ but this is voided at the uninstitutionalised-threshold\textsuperscript{10} where temporal-dispositions become temporally-preservational-as-pseudointemporality\textsuperscript{62}–preservation whether by recurrence registry-worldview’s/dimension’s-uninstitutionalised-threshold\textsuperscript{10}–defect–as-Being-or-ontological-or-existential–defect\textsuperscript{86} (whether beyond-the-consciousness-awareness-teleology\textsuperscript{10}–in-existential-extrication-as-of-existential-unthought), as may arise with postlogism -and-conjugated-postlogism\textsuperscript{78}, with the effective consequence of ‘temporal-to-intemporal-disambiguated-mental-dispositions’ wherein the hollow-constituting-as-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of temporal-dispositions are reflected/perspectivated as rather in temporal-preservation-as-
notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuations, and so not only at an instant or act or specific circumstance or context (which is rather an act construal and not a being/ontological construal) but projectively in their retrospective-to-present-to-prospective existentialism-deambulation/meandering which provides the full insight of notional-firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuations mental-dispositions/meaningful-references/ontological-references/contending-references as ontological-entrapment. Such a being/ontological-basis, as described above, of a ‘Différance-disambiguation-of-ontologically-veridical—meaningfulness-and-teleology’ is in line with and further elucidates the ‘Différance-existential-transitory-articulation-of-the-protration-of-perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation>,—of-meaningfulness’ technique. Going respectively by the Sartrean and Derridean principles for establishing ontologically-veridical-meaningfulness, that is, ‘existence precedes/defines essence’ or ‘there is nothing outside the text’ in evaluating ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with respect to their veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology—for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in various instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. What is critical to understand here is to distinguish between: (i) recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology
by maximalising-recomposuring-for-relative-ontological-completeness — unenframed-conceptualisation basis of meaningfulness that is grounded on grasping that reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are deterministic by virtue of reflecting/perspectivating/highlighting their recurrent context of reality and thus subjects them to ‘ontological-reconstituting—as-to-confinedness’/deconstruction in upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and (ii) an elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity basis of meaningfulness that is purely and wrongly grounded on grasping that reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ are by themselves abstractly deterministic, even as this fail intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-deepening by a re-equilibrating metaphysics-of-absence—\{(implicated-epistemic-veracity-of—nonpresencing—<perspective ontological-normalcy/postconvergence>}\)/postdication, and thus subjects meaningfulness to hollow-constituting—<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation>. Intemporal-disposition as supplanting—conviction-as-to-profound-supererogation of ‘attendant-intradimensional’—postconverging/dialectical-thinking — apriorising-psychologism disposition (whether appropriate/good or inappropriate/poor-or—‘poor or bad supplanting—conviction-as-to-profound-supererogation of ‘attendant-intradimensional’—postconverging/dialectical-thinking —apriorising-psychologism’) are construed as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity—reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-
ontological-completeness[^1]—unenframed-conceptualisation basis of meaningfulness on the
ground that successive-instances-of-existential-transitioning-or-iterability-trace-of-narratives-
maximalising-recomposing-for-relative-ontological-completeness[^8]—unenframed-conceptualisation requires their subjection to ‘ontological-reconstituting–as-to-conflatedness[^1]’/deconstruction to establish the existential context of reality thus establishing ontologically-veridical-meaningfulness. On the other hand, the postlogic/psychopathic
disposition (and by extension temporal-dispositions conjugated-postlogism/preconverging-or-
hollow existentially-unreal-and-abstract narratives by concurrently-false-premising on the plausible existential-context-of-reference-narrative. In other words, the postlogic/psychopathic individuation character gets that there is a human mental-reflex to grasp ontologically-veridical-meaningfulness on ‘static-or-abstract non-veridical/vacuous-state (abstract \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100} ) of essence-of-meaningfulness terms, so long as their existential basis is established, including and critically for its purpose, where it is so deceptively implied’, to artificially or opportunistically construe a plausible existential-context-of-reference-narrative which then ‘provides licence’ to articulate existentially-unreal-and-abstract-narratives in hollow-constituting-as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation concurrently-false-premising on the initial plausible existential-context-of-reference-narrative, with the idea that that human mental-reflex will by reflex naively-and-wrongly imply the existential/contextualisation ontological-veridicality of its generated slanted-and-formulaic hollow existentially-unreal-and-abstract-narratives; and so, in terms–as-of-axiomatic-construct of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity\textsuperscript{39} ’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-reference-of-thought-‘devolving-as-of-instantiatio-context’) as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} as highlighted priorly. This preconverging-or-dementing–apriorising-psychologism is in contrast with a postconverging-or-dialectical-thinking–apriorising-psychologism (when the latter is of inappropriate/bad or appropriate/good supplanting–conviction-as-to-profound-suprerogation of ‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologism) which is always inclined to ensure that the succession-of-narratives it propounds are tied to successive-instances as of the circularity/recurrence/repetition/repeatability\textsuperscript{9} delineating existential-
transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity\textsuperscript{39}-reification\textsuperscript{37}/superseding–oneness-of-ontology\textsuperscript{39} by \textsuperscript{37}maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{7}—unenframed-conceptualisation. Thus, the reason why the ontological construal (ontological-entrapment) of the postlogic/psychopathic individuation characters and conjugated-postlogism /preconverging-or-dementing -integration individuation characters is rather as an intemporal/ontological suprastructuring (implying \textsuperscript{14}de-mentation\textsuperscript{7}(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)) of their hollow-constituting\textsuperscript{8}<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> of ontologically-veridical-meaningfulness, as this fail intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Going by the example of a medieval setup again as effectively in\textsuperscript{14}<amplituding/formative–epistemicity>totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity\textsuperscript{39}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{39} of \textsuperscript{2}reference-of-thought–devolving-as-of-instantiative-context and not analogy (epistemic-totalising ~ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in–‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity\textsuperscript{39}'s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{39} of \textsuperscript{2}reference-of-thought–devolving-as-of-instantiative-context insightfully implying all institutionalisations/registry-worldviews/dimensions are about ‘construing the same underlying ontology’, though yield different but more and more accurate representations of ontology, due

Thus unlike in a case of defect–of–logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–\(^{11}\)reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation) in a same or different circumstance, is invalidated
when dealing with perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-as-Being-or-ontological-or-existential-defect (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality-for-sublimating-existential-eventuating/denouement-of-affirmative-and-unaffirmative-disambiguated-motif-and-apriorising/axiomatising/referencing wherein the superseding (and ontologically-veridical) reference-of-thought can only construe of the superseded (and ontologically unsound) as preconverging-or-dementing-apriorising-psychologism/unsoundness-or-ontological-bad-faith/inauthenticity-of-reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring to transcend into the superseding reference-of-thought in the very first instance, before any ontologically-veridical pretence to mutual contention. Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, ...). In the bigger perspective with regards to the institutionalisation of notional-deprocrypticism for instance, it is such an existentialism construal from a transcendental intemporal reference-of-thought over temporal perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation that allows for the superseding of vices-and-impediments as prospective registry-worldview/dimension structural-resolution of positivism–procrypticism preconverging-or-dementing-apriorising-psychologism. It should be noted that as earlier articulated, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging-de-mentating/structuring/paradigming (in contrast to a temporal extricatory
preconverging–de-mentating/structuring/paradigming) can only be transcendental as superseding (by implying an altogether different reference-of-thought as ‘postconverging-or-dialectical-thinking’–apriorising-psychologism’), and not incremental/‘disjointedness-as-of-reference-of-thought’ (wrongly operating on the same temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect<as-Being-or-ontological-or-existential–defect>reference-of-thought which is actually preconverging-or-dementing–apriorising-psychologism/oblongated and dialectically/contendingly-out-of-phase). Taking the previously articulated case of sorcery in a non-positivism/medievalism setup, it has no ontological structural-resolution by reciprocity of sorcery accusations on the same reference-of-thought terms but rather by the transcendental undermining of such non-positivism/medievalism mindset/reference-of-thought with an altogether superseding positivistic reference-of-thought that is in transversality<for-sublimating–existential-eventuating/denouement>–of-affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing’ with a non-positivism/medievalism ontological-reference (registry-worldview). Even though, inevitably (and as in the ‘present-as-present-consciousness’ of all registry-worldviews with regards to their own corresponding perversion-of-reference-of-thought–as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > phenomena), there is bound to be more or less a dumb-and-dumb effect of summative social acquiescence to a superstitious mindset/reference-of-thought in a non-positivism/medievalism setup, that will in the short term temporal perspective be a drawback to such a transcendental projection of positivistic mental-disposition, and likewise there will inevitably be more or less be a dumb-and-dumb effect of summative social discontentment where a transcendental notional–deprocrypticism mental-disposition is implied in a procrypticism setup. This shows that going by human-subpotency–aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued—‘notional—firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor, in all registry-worldviews/dimensions the more or less summative mindset/reference-of-thought is bound to be incremental/disjointedness-as-of-reference-of-thought’ and not transcending such that would-be emancipating individuation’s projection (that is, if ontologically pertinent) is necessarily the middle to long run construed as of de-mentation (supererogatory—ontological—de-mentation—or-dialectical—de-mentation—stranding-or-attributive-dialectics) percolation-channelling—indeferral-formalisation-transference> for the necessary ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposing accompanying such prospective transcendental institutionalisation. That is, by transcendence-and-sublimity/sublimation/supererogatory—de-mentativity is meant dispose to construe the ontological resolution of an intradimensional ontological/being-construal-defect transcendentally/transdimensionally/interdimensionally; for instance, capable of putting in question non-positivism/medievalism intradimensional superstition as of the registry-worldview defect in the first place supersedingly/transcendentally rather than a usual attendant/incidental reciprocity of superstitious contentions or capable of putting into question procrypticism/perversion-of-positivistic-meaningfulness with its corresponding postlogism and-conjugated-postlogism of psychopathy and social psychopathy as of the registry-worldview in the very first place supersedingly/transcendentally rather than a temporally reciprocal equivalence. Basically, such an intemporal-disposition/ontologically-veridical transcendental disposition storied-construct/ontologically-valid-narration will be of imbricatedness/threadedness/recomposing as existential-tracing of ontologically-veridical-meaningfulness reflecting temporal-dispositions rather in ‘virtuality-or-Being-construal-as-
abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised individuation has no place for the ‘transcendental rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism—(as‘first-level

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded ununiversalised individuation (in base-institutionalisation) has no place for the ‘transcendental rules
universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the subontologisation/subpotentiation moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthly life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is de-mentatively/structurally/paradigmatically responsible for present reference-of-thought to project to the postconverging–de-mentating/structuring/paradigming need of prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity. This further points out that with regards to ‘metaphysics-of-absence—(implicated-epistemic-veracity-of nonpresencing—<perspective–ontological-normalcy/postconvergence>)’ projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-
totalising ~self-referencing-syncretising), across all registry-worldviews from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\(^{(1)}\) works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the (positivistic) uninstitutionalised-threshold\(^{(1)}\) of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{(1)}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{(1)}\) is non-transcendable/unsupersedable by its amplituding/formative–epistemicity totalising~self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as ‘metaphysics-of-presence-{implicited~nondescript/ignorable~void ~as-to~ presencing—absolutising-identitive-constitutedness }’ thus upholding its soundness-or-ontological-good-faith/authenticity -of- reference-of-thought by ignoring the registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{(1)}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{(1)}\) while the prospective registry-worldview/dimension implying a new reference-of-thought that de-mentatively/structurally/paradigmatically resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold\(^{(1)}\)–defect<as-Being-or-ontological-or-existential–defect>\(^{(1)}\) represents the prior as prior/transcended/superseded and hence unsoundness-or-ontological-bad-faith/inauthenticity\(^{(1)}\)-of-\(^{(1)}\) reference-of-thought/preconverging-or-dementing –apriorising-psychologism/suprastructurable (at that uninstitutionalised-threshold \(^{(1)}\)). The bigger point here is that just as we will represent the non-
allusions to superstition in its supererogatory/ontological–de-mentation—or-dialectical–de-mentation—stranding-or-attributive-dialectics as-uninstitutionalised-threshold 03-suprastructuring de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) that is the mechanism of a ‘postconverging-or-dialectical-thinking’ psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring for prospective institutionalisation. This latter notion is important as with all psychoanalysis whether of an individual or social conceptualisation nature, the idea of recognising/referencing/registering/decisioning the registry-worldview’s/dimension’s-
uninstitutionalised-threshold\textsuperscript{32}–defect\textsuperscript{32}–as-Being-or-ontological-or-existential–defect\textsuperscript{32} is central to superseding it, and so the idea of implying preconverging-or-dementing\textsuperscript{32}–apriorising-psychologism/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not carry the poorer connotations of temporal/banal mental-dispositions, but rather it is technically a necessary and useful ontological conceptualisation in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposing from our shallow limited-mentation-capacity\textsuperscript{32}(as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—constitutedness) to deeper limited-mentation-capacity\textsuperscript{32}(as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)—confoundedness). Thus psychoanalysis is actually in effect an existentialism process of human skewing towards intemporal-disposition as we construe meaningfulness and value-referencing, and so beyond the Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’ conceptualisation of psychology we know of when we talk of psychoanalysis in the subject matter of psychology, but rather construed as a natural ontologically-driven ‘postconverging-or-dialectical-thinking’–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ behind human secondnaturing across the successive institutional-cumulation/institutional-recompose\textsuperscript{32}(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’) in reflecting holographically\textsuperscript{32}<conjugatively-and-transfusively> the ontological-contiguity —of-the-human-institutionalisation-process\textsuperscript{32}. As a side note though, it is important to grasp that the registry-worldviews as the institutional-cumulation/institutional-recompose\textsuperscript{32}(as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing–perspective–ontological-normalcy/postconvergence-reflected–‘epistemicity-relativism’) are actually broad
categorisations and that actually human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{(101)} of intrinsic-reality/ontologically-veridical-meaningfulness varies (though not varying in terms–as-of-axiomatic-construct of the central defining conceptualisation of each registry-worldview/dimension) within each registry-worldview/dimension from its early to later spectrum, given human more or less passive continuous psychoanalytic readjustment to ‘ontological experience’. For instance, there is certainly a marked difference in scope and depth between the positivistic construct in the th century with its nature in the late 20\textsuperscript{th} and early 21\textsuperscript{st} century. Further to the two elucidations made of postlogism\textsuperscript{(78)}/psychopathic and conjugated-postlogism/preconverging-or-dementing-integration distortion/perversion of essence-of-meaningfulness that go on to endemise psychopathy and social psychopath with reference to with the ‘Différence-disambiguation-of-ontologically-veridical–meaningfulness-and-teleology\textsuperscript{(100)}’ and its ‘Différence-existential-transitory-articulation-of-the-protraction-of-perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation–as-of-meaningfulness’ technique as well as plausibly concurrently-false-premising to an existential-context-of-reference-narrative providing licence for postlogic narratives, a third elucidation provides an even more profound insight of the distortion/perversion of essence-of-meaningfulness and the implications at the comprehensive existential level. This basically has to do with the ontological consequences and implications of the ‘existentialist’ and ‘non-veridical/vacuous’ conceptualisation of reference-of-thought and meaningfulness, and so with respect to perception of registry-soundness/soundness-or-ontological-good-faith/authenticity\textsuperscript{(64)} of-reference-of-thought and perversion-of-reference-of-thought-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation as-of-unsoundness-or-ontological-bad-faith/inauthenticity\textsuperscript{(64)} of-reference-of-thought, and ultimately

Basically the ontological-veridicality of meaningfulness is construed in ‘non-veridical/vacuous’ terms of reference-of-thought–categorical-imperatives/axioms/registry-teleology ‘supposedly’ in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and this ‘supposedly-ness’ is only validated if ‘existentially real’ as ontologically-veridical. However there is an ‘existentialist-shortfall’ of the human mind with respect to assuring the ‘existential-reality’ in the face of ‘non-veridical/vacuous terms of reference-of-thought–categorical-imperatives/axioms/registry-teleology’. This ‘existentialist-shortfall’ has to do with the fact that it will be ‘a waste of too much mental energy’ to be verifying in detail the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness–of–reference-of-thought–devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology —of every interlocutor, and so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and can be undermined and usurped, but it is standard as it ‘saves mental energy and time’. This ‘existentialist-shortfall’ is relatively inconsequential
apriorising/axiomatising/referencing’-logical-dueness is the underlying principle as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging⁹; this ‘existentialist-shortfall’ is highly consequential as it is the basis of the induced registry-worldview’s/dimension’s-uninstitutionalised-threshold⁹—defect<as-Being-or-ontological-or-existential–defect>⁹; by wrongly and so comprehensively implying the ‘existential-reality’ of ‘non-veridical/vacuous amplituding/formative> wooden-language{imbued—temporal–mere-form/virtualities/dereification /akrasiatic-drag/denatured/preconverging-or-dementing –narratives—of-the- reference-of-thought categorial-imperatives/axioms/registry-teleology} articulated in hollow-constituting<as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation> or otherwise by the rather non-veridical/vacuous implied meaningfulness and reference-of-thought or otherwise by the non-veridical/vacuous implied meaningfulness and reference-of-thought based on inductive limitation nature or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be of entailing- amplituding-formative–epistemicity>totalising~in-relative-ontological-completeness as they require that others do not act likewise or their implications should be limited to given target(s) and not be totalisingly-entailing, since their fundamental teleology⁸ is not intemporal/not-of-totalising-entailment but speak more of temporal motive. In other words meaningfulness and reference-of-thought is only veridical as an ‘ontologically-veridical construct’ validated in the construal of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity –reification/superseding–oneness-of-ontology by maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation that establishes ontologically-veridical-meaningfulness. The human ‘existentialist-shortfall’ with respect to ontologically-veridical meaningfulness and reference-of-thought thus allows for an overall existential/being

Thus unlike in the instance of defect–of-logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation of the registry-worldview’s/dimension’s–reference-of-thought-for-

The nature of how ‘concurrently-false-premising-of-meaning thread/tracing’ arises can equally conspicuously be understood at childhood psychopathy situation wherein the childhood psychopathy blatantly attempts to initiate a dereifying narrative like in the case of spilling water on a chair highlighted before to which if concurred to by the interlocutor will be the basis for the child to assume apparently normal logical contentions but fundamentally based on this distorted deceptive high-point of concurrently-false-premising as of reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology.

It is basically the same process with an adult psychopath but for the fact of the highly opaque nature of adult psychopath mental-disposition unlike a child psychopath, and as previously

The grander insight being that ‘institutionalisation devising and devices’ already speaks a lot about human potential and capacity (and are basically our virtue with no need for ‘false idealisation’ that just induces
‘vain-temporality’ passing for intemporality’), and just as previous institutionalisations prospered, due to increasing realism, because they did away with deities and spirits in recognising that human potential lies in what humans can do themselves, and strived even more by doing away with essences in recognising that understanding effectively what happens in the world is what gives power and effectiveness over nature, a further extension of rational-realism is to do away with the ‘false feel good’ naivety of construing man by reflex in intemporal terms (not recognising or rather taking full cognisance of the implications that we have notional-firstnatures—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> as shortness-to-longness-of-register-of—meaningfulness-and-teleology or perversion-of-reference-of-thought<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > teleologies) which failure only leads to unrealistically grounded reference-of-thought and meaningfulness (characterised by the readiness to overlook vices-and-impediments of our registry-worldview/dimension as side notes rather than the idea that these point to our deficiencies and ‘that these are actually the necessary pathway for superseding/transcending’ for prospective postconverging—de-mentating/structuring/paradigming, just as preceding registry-worldviews had to deal with their preconverging—de-mentating/structuring/paradigming that led up to our positivistic registry-worldview) and aspiring for the intemporal while factoring in the temporal. Going by our mirage/illusion-of-the-present/present-consciousness we will possibly think otherwise, but this rather points to how our forerunners felt psychologically when their worlds built of deities and later essences were being put into question by ‘an increasing realism insight’ of an intrinsic-reality that is ontologically given and in ontological-normalcy/postconvergence with respect to us, with the implication that it is our psyche that ‘gives-in’ to intrinsic-reality and not the other way around. - As central to an overall Suprastructuralism conceptualisation that subsumes all the transcendental concepts highlighted with regards to grasping ontology/ontologically-veridical-meaningfulness/intrinsic-reality, and corresponding perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation with respect to ushering in the requisite preempting—disjointedness-as-of-reference-of-thought—as-to-amplituding/formative—epistemicity>growth-or-conflatedness /transvalutative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism that should define and conceptualise the notional-deprocrypticism registry-worldview/dimension (as the effective attainment of ontological-normalcy), is the idea of a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural—psychological-dynamics’
tautological/existential-reference representation of existence/intrinsic-reality/ontology as of inherent ontological-normalcy/postconvergence teleology\(^{10}\). Thus, such a ‘postconverging-or-dialectical-thinking\(^{20}\)–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ involves, mobilising an ‘ontological-tautologisation/existential-reference conceptual-scheme’ (like a hermeneutics-derived psycho-ontological, bio-ontological, econo-ontological, mathematically-ontological, etc.) construed as of ontological-normalcy/postconvergence teleology\(^{10}\) thus postdicatory (as metaphysics-of-absence\(\langle\)implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\rangle\) conceptualisation), is of ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of ontology/intrinsic-reality/of-referential-nature/of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency\(^{38}\)–sublimating–nascence,—disclosed—from-prospective-epistemic-digression, as the given subject-matter in a full-blossoming unison of second-order ontology with first-order ontology. Insightfully, superseding–oneness-of-ontology points out that human ascription of knowledge into various categories as science, humanities, arts, etc. is actually an unnatural differentiation that has to do with arbitrary human categorisation out of practicalities of division of labour and organisation, while equally leading to confusions. Actually knowledge as a whole imply the two basic elements: its conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge conceptualisation and causal effectiveness can successively be construed in three respects; specific, intermediary and general, with all aspects of conceptualisations being notionally philosophical as providing meaningful insights while all aspects of causal effectiveness provide confirmatory and predicative-insights to meaningful insights. (Interesting it is important to note that empiricism speaks of the possibility of knowledge revelation by the inherent nature of the
subject-matter and not an abstract approach as often naively construed; with the implication that empiricism can be construed as deriving from a confirmatory analysis of a mere insight, observation or experiment depending on the inherent nature of the said subject-matter, so long as this then allows for ontological-primemovers-totalitative-framework. Thus notionally speaking all human knowledge is philosophical knowledge as being about meaningful insights. For practicalities, the general basis for establishing conceptual pertinence as of the more general abstract notions of knowledge is attributed to the philosophical disciplines (involving philosophy and the philosophies of subject-matters including sciences, and its extension in the humanities and social sciences) even though in further practical terms such construal will be punctually undertaken as well when relevant to specific disciplines of immediate cause-and-effect construals/conceptualisations. This equally practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic), the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation –logical-coherence –causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasising or overemphasising doesn’t speak of a change of ontological-
veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of meaningfulness-and-teleology but naïvely purported to be answered wholly as of a second-order ontology terms. Broadly speaking philosophy as the first-order ontology (acting as a cog) has been more about providing the overall scope for meaningful insights and the broader conceptual background for other subject-matters while science and other second-order ontology disciplines (as the wheel that meets the ground) draws on a sound and broad philosophical conceptual background to articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a natural science nature (rather than effective validation techniques relevant to transversal nature of philosophical conceptualisation) just as the same holds true the other way round. The reality is that if science was the best method to answer philosophical questions as of its subject-matter, then it would have already taken over from philosophy as practised and the reverse holds true as well, as in reality it is all about human practical organisation in construing a superseding–oneness-of-ontology while dealing with our given limited-mentation-capacity-deepening. The fact is science is de-mentatively/structurally/paradigmatically bound to construe causal effectiveness as of the inherent nature of its domains of reality and philosophy is fundamentally conceptualising by its very nature and providing the broad conceptual background for all human knowledge with the implication that without such conceptualisation the historical insight for the need and upholding of the sciences and scientific method wouldn’t have come about while equally defining the
limits of what science can achieve. Insightfully and beyond their practical differentiations, with all knowledge actually being conceptually philosophical, a lot of science is actually a sort of impromptu and punctual heuristic philosophy at sciences subject-matter level. So it is rather critical here to distinguish between a human denotative and segmenting exercise (as not determining inherent reality) which is conventioned knowledge and the inherent connotation of the reality of knowledge as the superseding knowledge ontology inherent structure. In that sense, one often misconstrued notion with respect to notional philosophy is that it is not as successful as the sciences, which is a naïve conceptualisation as the very idea of such notional philosophy is its conceptualising irrigation of second-order ontology with the more immediate and ontological-primemovers-totalitative-framework\textsuperscript{73} success being not only a success of the second-order ontology but a percolated success of notional philosophy as of its historical development of human conceptualisation in inducing the second-order-ontologies and irrigating them with meaningful-insights, whether we talk about the sciences, jurisprudence and law, ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of philosophy as mainly about great philosophical thinkers is incomplete as we equally need to understand the ‘organic-knowledge’ as of ontological-faith-notion-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of other thinkers as they were developing second-order ontologies, and analyse such thoughts in philosophical terms and make these part and parcel of philosophy without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of
the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and now’.) ‘Notional philosophy’ as articulated above is the very profundity behind the human (‘social framework of intersolipsistic deambulation’) imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today’s second-order ontologies, as inventing the overall knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human amplituding/formative-epistemicity totalising~renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical amplituding/formative-epistemicity totalising~renewing-realisation/re-perception/re-thought as of a prospective mindset/
thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn’t recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the superseding drive behind the ‘inventing/creating’ of all human technicalities/mechanical-knowledge refers to the mental-disposition to break from ‘ordinary apathy and constraining framework of secondnatured institutionalisation’ to rearticulate dimensionality-of-sublimating \{<amplituding/formative>supererogatory–de-mentativeness/epistemic-growth-or-conflatedness /transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation\} projection underlying the ‘inventing/creating’ of prospective secondnatured institutionalisation possibilities as prospective knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue. Ultimately and beyond shallow technicalities/professions of presences as has been variously and decisively the case throughout humankind history, the most important philosophical work is the preservation of the human existential tale in prolongation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality by ‘maintaining a contemplative distance/detachment from ordinary human

with the apriorising–registry-elements as implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology as non-existent and bogus). With respect to social-and-confliction-stakes ‘the same-terms-of-expressions/seemingly-same-implied-meaningfulness’ have different implications with respect to whether the interlocutor is an supplanting–conviction-as-to-profound-supererogation —of-‘attendant-intradimensional’-postconverging/dialectical-thinking —apriorising-psychologism interlocutor or postlogic/psychopathic/postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> interlocutor or conjugated-postlogic/ conjoining-looping-set-of-narratives interlocutor, and is what makes it a requisite to construe as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity/reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation. We can’t be certain about the ontological-veridicality of ‘separate dots as separate narratives’ themselves as the 3 different interlocutors can all express ‘the same-terms-of-expressions/seemingly-same-implied-meaningfulness’ going by their mental-dispositions with the latter two, postlogic/psychopathic/postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> interlocutor or conjugated-postlogic/ conjoining-looping-set-of-narratives interlocutor, being deceptive by their mental-dispositions (recursively with postlogic/psychopathic, progressively with exacerbation/opportunism and regressively with ignorance/affordability). However, we can ascertain the true motive and ontological-veridicality of the 3 types of interlocutors by the ‘trace of their dots as separate narratives’ in revealing their true mental-dispositions and motives, as of the circularity/recurrence/repetition/repeatability as of existential-transitioning-or-iterability-trace-

The reason why ‘separate dots as separate narratives’ lead to postlogic and conjugated-postlogic faulty-mentation-procedure-deception-or-urge\textsuperscript{18} is that their extrapolation is actually an extrapolation of perversion-of-reference-of-thought-as-

about ‘falsely and parasitically/co-optingly’ staking a claim to the reference-of-thought in
order to wrongly elicit its implied—logical-dueness-or-scape, profile-or-stature,

presumptuousness-or-arrogation, assumptions, value-reference and teleology to a prospective

interlocutor, and so recursively (psychopathic/postlogic-character), progressively (conjugated-
exacerbation and conjugated-opportunism characters) and regressively (conjugated-ignorance

and conjugated-affordability characters). Generally, this insight harkens back to the previous
elucidation with regards to the BODMAS characters where the pure arithmetic operation as a
deductive/inferring/extrapolation exercise is no longer valid when the fundamental axiom is
breached due to a pathological condition, and with the ‘lack of constraining social universal-
transparency\textsuperscript{10}\textsuperscript{-}{transparency-of-totalising-entailing,-as-to-entailing-\textsuperscript{\langle}amplituding/formative–epistemicity\textsuperscript{\textsuperscript{-totalising–in-relative-ontological-completeness}}\textsuperscript{\textsuperscript{\rangle}}\textsuperscript{\textsuperscript{}}\textsuperscript{}} resulting in other temporal

a need for a retracing to establish the existential reality of the breaching or non-breaching of
axiomatic rules, before determining the ontological-verityicity of the results of the arithmetic
operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness

in so doing such temporal-dispositions of individuation ‘falsely retaining their

‘pseudointemporality\textsuperscript{10}’ (and so with respect to their apriorising–registry-elements as implied—

reference conceptual-scheme’. The notion of temporality/shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality/shortness is much more than morality as derived from intemporality/longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporality’ of such individuations induces ‘notional-disjointedness-as-of-reference-of-thought’ misappropriated ‘meaningfulness-and-teleology’ in arrogation (at individuation-level as relative-ontological-incompleteness-induced,-threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-

dialectical-thinking–psychology or psychology-of-mentation-dynamics or
natural–psychological-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-

qualification/qualification-schemes’ that human psychology is actually much more of a
becoming dynamic construct, rather than static, which wholly readjusts to human deepening
grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective,
present and prospective development; that collectively-and-inclusively-individuals-and-their-
social-constructs do have latitude for the choices they make in existence more than and beyond the limits of personality traits and social character, and further that the human mind is ‘not irresponsible’ with respect to given personalities dispositions (whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a ‘psychology of qualifications/qualification-schemes’ induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting holographically-conjugatively-and-transfusively the ontological-contiguity—of-the-human-institutionalisation-process, human secondnaturing is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled ‘an animal in many ways’ to emancipate itself developmentally across epochs such that the ‘insightful depth’ of such a developmental understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘postconverging-or-dialectical-thinking—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as it recognises that (and explains why) the mental-disposition/consciousness-awareness-teleology of a recurrent-utter-institutionalised mindset/reference-of-thought varies from that of a based-institutionalised/ununiversalised mindset, the latter from that of a universalised/non-positivistic-or-medieval mindset, the latter from that of a positivistic/procrypticism mindset/reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective
notional-deprocriptism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein de-mentation-(supererogatory-ontological-de-mentation-or-dialectical-de-mentation-stranding-or-attributive-dialectics) is the central concept for such a succession of human ‘postconverging-or-dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural-psychological-dynamics’ renewal retrospectively, presently and prospectively, with ontological-normalcy/postconvergence teleology being the central determinant driving and defining human psychology construed by its metaphysics-of-absence-(implicated-epistemic-veracity-of-nonpresencing<-perspective-ontological-normalcy/postconvergence>) as diminishing-human-epistemic-abnormalcy-or-preconvergence. Interestingly, psycho-ontological-tautologisation/psycho-existential-reference as a human disposition for correspondence/equalisation/squaring-off with existence/intrinsic-reality/ontology, as of subpotency-to-full-potency as qualified by recomposuring from shallow limited-mentation-capacity{as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)}—constitutedness—to deeper limited-mentation-capacity{as of relative apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity)}—conflatedness, speaks of the mind as an abstract ‘teleologically imbricated tautologisation/existential-reference’ (‘teleologically imbricated tautologisation/existential-reference’ implying: striving for ontological-normalcy/postconvergence, in-lockstep/intertwining of success-and-pseudosuccess/failure as institutionalisation-and-pseudo-institutionalisation/uninstitutionalised-threshold), as the teleological driving-seat of the body validating dualism as ‘imbricated dualism’; the human mind being rather ‘an abstract imbricated transcendable/maximalisable placeholder-setup-of-tautologisation/placement Setup-of-existential-reference for prospective ontological-normalcy/postconvergence superseding the human body, as entailing human existence’. This points out that the potency for
ontological-normalcy/postconvergence is tautologically inherent in our being construct, and that abstract tautologisation/existential-reference as human teleology\textsuperscript{100} is the mind as ‘human

For instance say in the case of the BODMAS characters highlighted before, where the other characters ignore the given pathological condition in simply operating arithmetic rules, however, the inherence of existential reality will not be superseded simply by such elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity of arithmetic rules in protraction as ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’, as such arithmetic rules of extrapolating/constituting/abstracting/deducing/inferring will have to be adjusted-in-a–‘threadedness/imbricatedness/recomposuring’ like subtracting 1 to A’s results to sync with the

It is thus not a coincidence that a Deleuzian approach and string phenomenology approaches intuitively develop the same insight about the need for ‘creative-spaces-of-expression/metaphors’ to be able to conceptualise by projective-insights on topics that critically highlight this more fundamental nature of existential reality as a contextualising-contiguity of existence-potency ~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality so-construed from the perspective of our limited-mentation-capacity-deepening as of our relative-ontological-incompleteness’s-induced,—‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’s-as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing—apriorising-psychologism’, in order to avoid elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity inducing ‘virtuality-or-Being-construal-as-
abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. It is important to grasp here that elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—existential-contextualising-contiguity are not ontologically wrong concepts in themselves as of abstract-construal but are ontologically wrong when implied in lieu of being-construal/existential-reference/existential-tautologisation as this leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. Philosophically, this critically brings up the reality of how the ontological-veridicality of an ‘abstract-construal’ and a ‘being-construal’ can be established; going by human limited-mentation-capacity-deepening as of our relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’—<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/menting—aspriorising-psychologism’. An abstract-construal is of vague-reference/vague-tautologisation, and is of existential import only as of a being-construal, and is effectively conceptualised by elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—existential-contextualising-contiguity and this is ontologically-veridical by abstract-construal/abstractly. Being-construal on the other hand is of existential-reference/existential-tautologisation as of becoming/being (as practically qualified by our consciousness-awareness-teleology). If by mere derivation of elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside—existential-contextualising-contiguity (given human limited-mentation-capacity-deepening as of our relative-ontological-incompleteness-induced, ‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’—<as-to-‘attendant-intradimensional’-prospectively-disontologising-preconverging/menting—aspriorising-psychologism’) is implied as being-construal, this will lead to ‘virtuality-or-Being-construal-

along the apriorising–registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology, and involving the potency of both consciousness-awareness-teleology representations and implications, for instance, the difference of the reference-of-thought as an alchemist and a chemist is much more than just an on-occasion/incidental difference (difference in abstract-construal) with respect to elaboration-as-to-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside—existential-contextualising-contiguity of meaning but carries derived being-construal/existential-reference/existential-tautologisation differences with respect to their consciousness-awareness-teleologies and registry-worldviews/dimensions. In fact, ontological-reconstituting–as-to-conflatedness/deconstruction which always refers rather to the issue of reference-of-thought is actually of ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconcealed-the-very-ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect’ nature and it is about implying a prospective reference-of-thought, rather than just a différance (differentiation) as within the same prior/given reference-of-thought as of a basic abstract-construal. This is one of the reasons for its misapprehension as it implies an overall change in the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’ into question, contrary to the traditional analytical expectation of selective-or-limited critique/contestation usually of a non-transcendental nature. Insightfully, the overall relation of
deconstruction as ontological-reconstituting–as-to-conflatedness\textsuperscript{12} to the existential framework of ontological-veridicality should further allay the confusion. Deconstruction is actually tautological with respect to intrinsic reality/ontological-veridicality because it is always about the same existential reality being dealt with by improving human limited-mentation-capacity-deepening\textsuperscript{13} as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity ontological-reconstituting–as-to-conflatedness\textsuperscript{12}; generating differing consciousness-awareness-teleology\textsuperscript{100} outcomes of the same existential reality whether talking of deconstruction at the registry-worldview/dimension or intradimensional level or individuation-level. Since it is always about the same existential reality, in effect the readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) with its increasing-ontological-completeness or diminishing–human-epistemic-abnormalcy-or-preconvergence\textsuperscript{10} as implied by an ontology-driven ‘postconverging-or-dialectical-thinking\textsuperscript{20}—psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’, wherein placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} scheduling ‘is not inherently sanctimonious’ (the naïve way every registry-worldview tends to relate to its mental-disposition) but is determined and shaped (by way of ‘\textsuperscript{14}de-mentation–(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) of ‘reference-of-thought’) by construed ontological-veridicality. aesthetic-tracing-<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> as so-analysed as from notional–deprocrypticism! (It is important in this regard to distinguish what is implied by ‘incidenting’ not to be confused with ‘instantiation’, as incidenting implies an ‘abstract construction’ of the implication of logic or any ‘knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue’ that may or may not be of existential-instantiation, whereas instantiation refers actually to ‘actual existential instance’. It is critical to uphold this distinction with respect to the existentially attendant nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all ‘intersolipsistic-intercessory-notions/notional–referential-notions’/knowledge including our grasp of logic or mathematics. As ‘abstractly-speaking’ there is no absolute certitude that in say a million years from now ‘a given as of yet unelucidated notion’, as a further imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the ‘existential-instantiations’ validity of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue including logic and mathematics as we know of them today. Such distinction as of more immediate concern is to point out the subsuming precedence of existence as of its inherent intrinsicness beyond-and-over human construal/conceptualisation of ‘meaningfulness-and-teleology’ about it as at best the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation of existence’; noting here as well for coherence sake that such a statement cannot be made about existence itself as the absolute a priori, simply because any arising existential-instantiations no matter the strangeness or abnormality to what is traditionally thought or expected however imbricated/threaded/recomposured or unimbricated/unthreaded/unrecomposured is of the inherently valid scope of existence itself as of its superseding–oneness-of-ontology and precedence, thus meaningful.) The latter at best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-study where the positive or negative sanctioning by ontological-primemovers–totalitative-framework of intrinsic-reality/ontological-veridicality transcendent-enabling/sublimating/supernovatory–de-mentativity is not immediately perceptible but rather remote like in the human sciences and to some extent as well with some studies in the natural sciences (where for instance the overall cogency of the whole experimental framework relative to the conclusions advanced of many a research study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or statistical methodological analysis was to be introduced with regards to the underlying articulation herein and based say on an ‘arbitrary historiality/ontological-eventfulness /ontological-aesthetic-tracing\textlangle perspective–ontological-normalcy/postconvergence–reflected–epistemicity–relativism\textrangle grounded methodology on the basis of just vague impression’ it will rather be conceptual patterning. What is required is an underlying reference-of-thought–categorical-imperatives/axioms/registry–teleology\textlangle logicising/deriving/intelligising/measuring–meaningfulness-and-teleology\textrangle (as implied by this author herein, as of ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics–of–absence\textlangle implicit–epistemic–veracity–

This insight is critical with respect to the validity of interpretations and conclusions in many experimental and study frameworks in the social sciences often ‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’ to which the implications of statistical and mathematical methodologies and analyses are naively brought to bear. This further speaks in the bigger scheme of things, of the need for the articulation of what will be a ‘fully intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity constraining social science’ as futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of—meaningfulness-and-teleology as of prospective notional—deprocrypticism registry-worldview psychologism should fully enable (rather as an overall grounding of meaningfulness-and-teleology that overcomes disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness) just as the positivism registry-worldview psychologism relatively enabled an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity natural sciences including an emerging and upcoming social science. The fact is all constructs as transcending or implying transcendence-and-sublimity/sublimation/supererogatory–de-mentativity are always by definition in confliction with the constructs being transcended. nonpresencing—for-explicating-ontological-contiguity, which are then the-entire-reconceptualised-problem as of aetiologisation/ontological-escalation as the prospective relative-ontological-completeness of reference-of-thought; just as an apple falling on Newton’s head under a tree is simply ‘pointing to an altogether deeper underlying human non-positivistic relative-ontological-incompleteness of reference-of-thought issue which is then the-entire-reconceptualised-problem as of the aetiologisation/ontological-escalation in producing the science/laws of physics and equally inspiring other such similar positivistic ontological-primemovers-totalitative-framework approaches in human conceptualising of the natural world as the prospective relative-ontological-completeness of reference-of-thought. Hence contrary to what we may think from our <amplituding/formative–epistemicity> totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective the mere fact of relative-ontological-incompleteness of reference-of-thought is de-mentatively/structurally/paradigmatically associated with a perversion-or-derived-perversion-of reference-of-thought<as-effectively-apriorising-in-
nonconviction/madeupness/bottomlining-as-to-shallow-supererogation> by the very inherent nature of ontology/intrinsic-reality as preceding superseding our reference-of-thought conceptualisation as of its shallow limited-mentation-capacity such that where our reference-of-thought-as-to-preconverging/postconverging–de-mentating/structuring/paradigming—ontological-performance <including-virtue-as-ontology> of reference-of-thought conceptualisation ‘is deficient we are in perversion-or-derived-perversion at that threshold,
wherein the threshold defect \textsuperscript{8} reference-of-thought-as-to-preconverging/postconverging—dementating/structuring/paradigming—ontological-performance\textsuperscript{7}\textsuperscript{9} \textsuperscript{10} <including-virtue-as-ontology> is rather ‘construed in emotionally-laden terms’ with respect as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional–referential-notions/articulations/virtue of the social like law, virtue, etc., as of our subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency \textsuperscript{7}~sublimating–nascence, disclosed-from-prospective-epistemic-digression. Thus intrinsic-reality/ontological-veridicality is derived ‘wholly by apriorising/axiomatising/referencing-(of-existential-contextualising-contiguity) conflatedness ’ or in other words ensuring the prospective relative-ontological-completeness\textsuperscript{8}\textsuperscript{10} \textsuperscript{11} of reference-of-thought with respect to problematic prior relative-ontological-incompleteness \textsuperscript{7}–of– reference-of-thought reflected by perversion-and-derived- perversion-of reference-of-thought\textsuperscript{8}\textsuperscript{12} \textsuperscript{13} <as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation >, with no \textsuperscript{8} \textsuperscript{14} <amplituding/formative–epistemicity>totalising–self-referencing- syncretising/circularity/interiorising/akrasiatic-drag\textsuperscript{5}\textsuperscript{6} \textsuperscript{7}\textsuperscript{9}\textsuperscript{10}\textsuperscript{15}\textsuperscript{16} allowed by intrinsic-reality/ontological-veridicality. ‘conflatedness’ of conceptualisation’ will convert such perversion-and-derived—
ontological-completeness 'of' reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness of reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic amplituding/formative-causality-as-to-projective-totalitative-implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/supererogatory-de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior reference-of-thought. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued—'notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. This is exactly what underlies the notion of de-mentation (supererogatory-ontological-de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics) in that relative-ontological-incompleteness 'of' reference-of-thought ‘is not a logical issue/problem’ but ‘a Being/existential/ontological/axiomatic-construct problem’ with its de-
incompleteness\textsuperscript{80} of reference-of-thought. As a further elucidation, across all registry-worldviews/dimensions prospective relative-ontological-completeness\textsuperscript{81} of reference-of-thought, construed as its institutionalisation, is as of ‘conflatedness\textsuperscript{115}’ which itself involves the universally-transparent constraining mechanical-knowledge as of the bare \textsuperscript{84} reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{00} as axiomatic-construct’ and ‘the social-\textsuperscript{104} universally-non-transparent-thus-non-constraining-element of ontological-faith

Rather it is about articulating the ontological-completeness-of reference-of-thought as ‘Being correction’ as of base-institutionalisation institutionalisation over recurrent-utter-uninstitutionalisation uninstitutionalisation, universalisation institutionalisation over ununiversalisation uninstitutionalisation, positivism institutionalisation over non-positivism/medievalism uninstitutionalisation, and prospectively notional—deprocrypticism institutionalisation over our procrypticism uninstitutionalisation. Obviously a traditional approach of analysis of psychopathy (as so construed from this papers totalising—entailing/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world’s postlogism associated with their social cognisance-and-integration of say notions-and-accusations-of-sorcery were individuals will equally be wary of non-positivism/medievalism perversion-of reference-of-thought——<as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > and will equally be inclined to palliation regarding notions-and-accusations-of-sorcery depending on circumstances; though obviously the ontologically de-mentative/structural/paradigmatic resolution in both instances is with respect to the necessary

existentially/ontologically impose the latter, and not common/mutual logical-processing as logic is then ‘a lower, inappropriate and inherently defective level of "meaningfulness-and-teleology" processing’ in relation to ‘appropriateness-of-reference-of-thought-as-of-conflatedness processing’ (just as there can’t be logical intelligibility between a non-positivist/medieval mindset/ reference-of-thought of ‘meaningfulness-and-teleology’ with a positivistic one); by its ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining as the correct apriorising/axiomatising/referencing/intelligibility/setup/measuring-instrument functioning (the appropriateness-of-reference-of-thought-as-of-conflatedness) in the middle to long run construed as of de-mentation-(supererogatory-ontological-de-mentativity-or-dialectical-de-mentation—stranding-or-attributive-dialectics). This process can be qualified as the ‘blunt act of existence over the human temporal egotistic/self-referential complex to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity/superseding ontological-veridicality/intrinsic-reality reference-of-thought’, and is the actual basis for all transcendence-and-sublimity/sublimation/supererogatory-de-mentativity for prospective institutionalisations since the successive institutional-cumulation/institutional-recomposure-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing/<perspective–ontological-normalcy/postconvergence-reflected-'epistemicity-relativism'> do not arise because of the reality of a ‘human intemporal-emanance philosophical acquiescence’ but rather by ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of existential reality as a constraint for the secondnaturing of institutionalisation, without transforming the underlying reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturered—temporal-to-intemporal-dispositions<-so-construed-as-from-perspective–ontological-normalcy/postconvergence’—existentialism-form-factor
and intempolity/longness-of-meaningfulness, such that knowledge is not constructed as a ‘human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development’ since solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-dispositions and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as to ‘intrinsic-reality/ontological-veridicality transcendental enabling’ that allows what is intemporal as of mental-disposition to be effective by ontological-primemovers-totalitative-framework as of ontological and virtue constructs, and be imposed as knowledge. Thus it is critical to understand that the exercise of reconstituting ontological veridicality is a wholly maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in grasping ‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—of-reference-of-thought—devolving-as-of-instantiative-context as to existence-potency—sublimating–nascence,—disclosed-from-prospective-epistemic-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologicallysameexistential-reality’, even when it would seem weird due to metaphysics-of-presence—(implicated—nondescript/ignorable–void—as-to—presencing—absolutising—identitive-constitutedness), and is creatively grounded on ‘on phased phases construed in mirroring the fundamental insane/postlogism-fitment of the childhood-psychopath perversion—<reference-of-thought—<as-effectively-apriorising-in—nonconviction/madeupness/bottomlining-as-to-shallow-supererogation—mental-disposition structure as it induces conjugated-postlogism/preconverging-or-dementing—integration later on and most effectively at adulthood psychopathy’. This fundamental structure of the denaturing nature of postlogism and conjugated-postlogism/preconverging-or-dementing—integration can be demonstrated with the blatantly obvious case of the childhood—
psychopath even though the denaturing of its mental-disposition is relatively socially-universally-transparent (enabling an understanding-of-ontological-primemovers-totalitative-framework -of-the-underlying-phenomenon). In the case were in a ‘dereifying act’ water is spilled on a chair, and a visiting stranger (as-of-pseudointemporality by ignorance) not aware of the mental-disposition of the childhood-psychopath coming into the scene after the event and sitting unknowingly on the soaked sofa, and was to frown and remonstrate against or possibly smack the innocent brother, such a stranger is in ignorance-conjugated-postologism or conjugated-ignorance as its relative-ontological-incompleteness-induced.-‘threshold-of-nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing–apriorising-psychologism>’ led it to align in-prelogic supplanting–conviction-as-to-profound-supererogation of-‘attendant-intradimensional’-postconverging/dialectical-thinking–apriorising-psychologismly (as-of-pseudointemporality) to the childhood-psychopath’s postlogic narrative, and so in ‘ignorance-temporal-preservation-as-pseudointemporality-preservation’, that it was the brother that spilled the water on the chair on purpose (noting that even at this level, for all practical purpose the visiting stranger’s meaningfulness is ‘supposedly in prelogism -as-of-conviction,-in-profound-supererogation <existentially-veridical–attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness-precedes-disontologising-logical-outcome-arrived-at> (as-of-pseudointemporality) but is rather effectively ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought, with respect to the ‘denaturing postlogic-backtracking<iterative-looping–set-of-dereifying-hollow-narratives-and-acts> -with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as non-veridical and
dialectically/contendingly out-of-phase, of the childhood-psychopath’s meaningfulness is effectively in conjugated-postlogism and has ‘joined the childhood-psychopath in threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism> and is preconverging-or-dementing –apriorising-psychologism and dialectically-out-of-phase’ with respect to ontologically-veridical existential-reality as construed from ontological-normalcy/postconvergence, and further it state of ignorance speaks of its relative-ontological-incompleteness -induced,-‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation <-as-to-’attendant-intradimensional’-prospectively-disontologising–preconverging/dementing –apriorising-psychologism>’ as procrypticism–or–disjointedness-as-of- reference-of-thought which can’t be overlooked for aetiologisation/ontological-escalation conceptualisation by the fact that the visiting stranger or more precisely an individuation of the type expressed by the visiting stranger (as-of-pseudointemporality by ignorance) might act the same way he acted in ‘metaphorically-a-million-and-one-instances-and-locales’ as aetiologisation/ontological-escalation, and this particular example symbolises why virtue is a ‘The-Good/understanding/knowledge-reification /ontological-primemovers-totalitative-framework construct’ and not ‘impression-driven/good-naturedness/wishfulness construct’ as reality is above all ‘effectivity’ by its manifestation. But then given the relative social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing- amplituding/formative-epistemicity>totalising–in-relative-ontological-completeness) at this childhood stage, it is more likely that the whole situation will be explained to the visiting stranger (as-of-pseudointemporality) and will assume mostly an incidental/on-occasion conjugated-postlogism effect in the attendant social space. The fact is at this childhood stage conjugated-postlogism will tend to be incidental and mostly arise as ignorance-conjugated-postlogism.
(Such a construal can further be articulated not only in the case of ignorance as ignorance-conjugated-postlogism but equally as the child-psychopath develops into adulthood and is less and less socially-dysfuntional and social universal-transparency (transparency-of-totalising-entailing,-as-to-entailing- \langle \text{amplituding/formative-epistemicity} \rangle \text{totalising-in-relative-ontological-complete}\text{ness}) of the postlogism is lost socially with its maturation/spatialisation/indirectness/credulity/craftiness, giving rise to the conjugated-postlogism cases of conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation by temporal-dispositions where the effect is ‘more than just benign and incidental/on-occasional with dramatic social consequences and as there is further eliciting of enculturated postlogism as social psychopathy, however ad-hoc and opportunistic’. This is certainly because emanantly/becomingly/solipsistically temporal-dispositions do not appreciate that there is a more ‘profound level of living in the realm of human thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-reference-of-thought’—as-conflatedness—or-ontological-reprojecting that then ‘invents/creates’ the de-mentative/structural/paradigmatic possibility for prospective institutionalised-being-and-craft as there isn’t any inherent

The transcendental first-order-ontology/ontological-construal work derived by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (as intemporal-projection/longness-of-register-of-meaningfulness-and-teleology) in recurrent-utter-uninstitutionalisation inducing transcendental/intemporal-preserving base-institutionalisation, maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation in base-institutionalisation—ununiversalisation inducing transcendental/intemporal-preserving universalisation, maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (as intemporal-projection/longness-of-register-of-meaningfulness-and-teleology) in universalisation—non-positivism/medievalism inducing transcendental/intemporal-preserving positivism, and prospectively maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation (as intemporal-projection/longness-of-register-of-meaningfulness-and-teleology) in positivism—procrypticism inducing transcendental/intemporal-preserving deprocrypticism, are the most important effort available at every corresponding registry-worldview as defining the institutionalisation possibilities and psyches that secondnatured as institutionalisation as their corresponding institutionalised-being-and-craft setups even though paradoxically the ordinariness within such institutionalised-being-and-craft setups may be impervious to what is behind this very creation/invention in the first place as it fails philosophically to appreciate the need for transcendental first-order-ontology/ontological-construal in the elucidation (as institutionalisation and psychical-
reorientation) of meaningful-and-teleological pertinence within its own registry-worldview/dimension but equally in ‘inventing/creating’ the institutionalisation possibilities and psyche for the prospective institutionalised-being-and-craft setup. Thus it is generally not surprising that the transcendental first-order-ontology/ontological-construal by an ascetic intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value with the true worth and value of such implied transcendence-and-sublimity/sublimation/supererogatory-de-mentativity grasped, at least expediently, mostly in the prospective institutionalised-being-and-craft setup it ushers, the same could be said of a an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Copernicus, an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Rousseau, an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Galilei or an intemporal-prioritising/ maximalising-recomposuring-for-relative-ontological-completeness —unenframed-conceptualisation Darwin, and so as a fact of human-subpotency—aporia/undecidability/dilemma/ought-ndeterminacy/deficiency/limitation/constraint—imbued—’notional—firstnatures—temporal-to-intemporal-dispositions—so-construed-as-from-perspective—ontological-normalcy/postconvergence’—existentialism-form-factor. But then mental-dispositions that come to intemporal notions by expediency cannot truly have the pretence of engaging such on the basis of shallow temporal extricatory preconverging—de-mentating/structuring/paradigming as of institutionalised-being-and-craft setup whose temporal-dispositions terms are alien to the intemporal disposition required for transcendental/ maximalising-recomposuring-for-relative-ontological-completeness —
unenframed-conceptualisation first-order-ontology/ontological-construal required for ‘creating/inventing’ the prospective institutionalised-being-and-craft setup! That failed test of understanding the transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—and-unenframed-conceptualisation not in a prospective appreciation, but rather possibly as of retrospective appreciation and expediency, speaks of the social-construct as more of a secondnatures institutionalised-construct rather than an intemporal-disposition construal, and therefore assertive pretences that naively imply the latter should necessarily be suspect of their threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation—as-to-‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism—without the corresponding demonstration of the requisite salient philosophical insight of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming (that goes beyond subontologisation/subpotentiation as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect); and the fundamental issue that will then arise in that instance is one of ‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism, and that is paradoxically our virtue, not a wrong or false idealism (which metaphorically ends up hiding things under the table beyond the analysis required for their understanding and resolution)! It equally speaks of the ‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters (or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least
afford to be of normal trade, as it starts with a commitment of the mind (rather like modern-day religion) rather than just a normal craft, and further requiring the central quality of transcendentally-enabling-level-of-ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification-as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as antnihilism of thought, postures and teleology above anything else (not even the value of institutional recognition as Socrates, Rousseau, Sartre and others intuitively understood, necessarily so, since it is what is of a priori definition and can’t be compromised in institutional-constructs-and-setups)! The blunt fact here is that, with respect to social-stake-contention-or-confliction within a given registry-worldview, the everyday wooden-language (imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of-’nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications) or banality-of-thought doesn’t necessarily as of solipsistic intemporal projection appreciate ‘the need for prospective transcendental/recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming over the extricatory/temporal/expediency preconverging–de-mentating/structuring/paradigming with respect to its registry-worldview/dimension’ (even though it does appreciate this retrospectively with respect to prior registry-worldviews/dimensions), but for effective secondnatured institutional devising. Inevitably an aetiologisation/ontological-escalation construct is rather about intemporal/ontological/social/species/universal/transcendent/maximising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation postconverging–de-mentating/structuring/paradigming which is necessarily antipodal to the everyday temporal extricatory preconverging–de-mentating/structuring/paradigming mental-

We would possibly appreciate this argument from a retrospective insight of how the retrospective institutionalisations came about to the present, but it will certainly be alienating to think the same of our present in those transcended terms from a prospective transcending reference, even though the ontological insight points in that direction. The conceptual background for this tone-as-temperament and thematic teleological conceptualisation (for the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation) lies in the notion that human construal of meaningfulness/memetism defines and structures its teleology/teleological-differentiation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations whether in ‘notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective–ontological-normalcy/postconvergence> individuation terms’ and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendentally/transdimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects will fundamentally be predisposed to a defining teleology/teleological-differentiation of animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology/teleological-differentiation, and likewise a meaningfulness/memetism that is
mostly secular-inclined will be predisposed to the defining teleology\(^3\)/teleological-differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence> of individuals action intradimensionally (and as recurrently affirmed by the ontological-contiguity\(^6\)—of-the-human-institutionalisation-process\(^8\) across all the registry-worldviews/dimensions, giving rise to prospective institutionalisations and uninstitutionalised-threshold\(^1\)), this establishes that there is a deterministic existential-tautologisation/existential-reference of human-subpotency—aporia/undecidability/dilemma/ought-ndeterminacy/deficiency/limitation/constraint—imbued—'notional~firstnaturedness—temporal-to-intemporal-dispositions<so-construed-as-from-perspective—ontological-normalcy/postconvergence>'—existentialism-form-factor mental-dispositions with respect to 'socially-perceived-value as of social-stake-contention-or-confliction’ highlighting a teleology\(^10\)/teleological-differentiation at the individuation-level in a continuum from pseudointemporality\(^5\) (involving the ‘faulty-mentation-procedure-deception-or-urge\(^4\)' of postlogism\(^7\)-slantedness and the derived-by-conjoining temporal-accommodation-of-this- perversion-of- reference-of-thought<as-effectively-apriorising-in- nonconviction/madeupness/bottomlining-as-to-shallow-supererogation > as conjugated-postlogism /preconverging-or-dementing -integration, grounded on ‘extrinsic-attribute involving inducing sociologically significant others basis of meaning and logic’) as it induces the uninstitutionalised-threshold\(^1\)—to—non-pseudointemporality\(^2\) (of intemporal mental-disposition inclined to account for pseudointemporality\(^2\) as intemporal-preservation/aetiology/ontological-escalation operating on a teleology\(^10\)/teleological-differentiation of ‘intrinsic-attribute based on solely eliciting intersolipsistic understanding of intemporally/\(^10\)‘universally valid meaning and logic’, inducing the institutionalisations; with the

pivoting/decentering as fundamentally psychoanalytic actually extends to the construal of understanding itself with regards to the underlying rescheduling of the placeholder-
setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100}, as the
idea of pivoting/decentering extends to the notion of the ‘self’s own pivoting/decentering for understanding’. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mentation-capacity-deepening with corresponding recomposuring of ontological import) that is being implied given the ontological-normalcy/postconvergence nature of transcendental text doesn’t concede to a human temporal complex of its established metaphysics-of-presence-(implicit-nondescript/ignorable–void ’as-to- presencing—
absolutising-identitive-constitutedness ) conventioning/traditional-ways of understanding as superseding but rather superseded, and having to cave in’. In other words the aporeticism overcoming/unovercoming nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-unshackle, construed in interdimensional transcendence-and-sublimity/sublimation/supererogatory-de-mentativity terms as akin to a positivistic laden text articulated in a non-positivism/medievalism setup implying a necessary psychoanalytic-unshackling as requiring the pivoting/decentering of the reader for its understanding as it is more than an explanation in the terms of the old as non-positivism/medievalism meaningfulness-and-teleology but more critically an invitation into the new as of a positivising/rational-empirical mindset/reference-of-thought meaningfulness-and-teleology; having to do fundamentally with the human mind complex and reflex of failing/not-upholding-as-of-apriorising/axiomatising/referencing> to acquiesce to prospective transcendence-and-sublimity/sublimation/supererogatory-de-mentativity and so all across the various institutional-cumulation/institutional-recomposure-as-to-historiality/ontological-eventfulness /ontological-aesthetic-tracing<perspective-ontological-normalcy/postconvergence-reflected-‘epistemicity-relativism’> in reflecting holographically-
<conjugatively-and-transfusively> the ontological-contiguity—of-the-human-
institutionalisation-process\textsuperscript{68}, even though it will readily acquiesce from a standpoint of retrospectively implied construal of transcendence-and-sublimity/sublimation/superrogatory-de-mentativity. Such a pivoting/decentering of understanding itself is what is implied by ‘projective-insights’/postdication/metaphysics-of-absence-{implicit-veracity-of-presencing←perspective–ontological-normalcy/postconvergence}; further explaining the underlying notion of suprastructuralism as the ability to construe/conceptualise meaningfulness across different ontological-completeness-of-reference-of-thought perspective whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our present positivism–procrypticism or futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective deprocrypticism, with the necessary de-mentation\textsuperscript{(supererogatory–ontological–de-mentation-or-dialectical–de-mentation—stranding-or-attributive-dialectics)} involved in such a pivoting/decentering as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring. Suprastructuralism as such will also explain the underlying logic of Bruno Latour’s famous criticism of the notion that scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with the organisation of an official ceremony in full honours in celebration of Ramses II corpse and the discovery, as being an entanglement of references-of-thought between the modern frame-of-reference/collective-consciousness-awareness-teleology\textsuperscript{100} and the Ancient Egypt pharaonic era frame-of-reference/collective-consciousness-awareness-teleology\textsuperscript{100} (a mix-up that must not occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its very own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of understanding the past and projecting to the future); as if it were ‘possible and desired’ that the modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and
fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such highlights the ‘mental complex of all present mindsets as metaphysics-of-presence’^\{implicated-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \}', and going by ‘projective-insights’/postdication/metaphysics-of-absence-\{implicated-epistemic-veracity-of- nonpresencing-\langle perspective–ontological-normalcy/postconvergence\rangle\} is equally what can enable our own prospective transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in grasping a more profound intrinsic-reality/ontological-veridicality as notional–deprocrypticism which is deeper than our present positivism–procrypticism registry-worldview ^\{reference-of-thought\}. As implied in this paper, the implication of pivoting/decentering for understanding itself is that our metaphysics-of-presence-\{implicated-’nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \} traditional/conventioning ^\{reference-of-thought– categorical-imperatives/axioms/registry-teleology\} is put into question, and the notion of understanding itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic/reprojecting/supererogating/zeroing design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation also construed as ontological-normalcy/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation constituting elaboration) to retain its cross-referencing coherence of prospective meaningfulness. The recognition for the need to disambiguate human mental-dispositions as of temporal-to-intemporal is not an exception here as all our formalisations implicitly operate on

arrogation/disjointedness/impostoring/extrication/misappropriation whether consciously/by-expediency/unconsciously. This is the intemporal-disposition individuation decentering mechanism with respect to ontology/ontologically-veridical-meaningfulness in a dynamic-cumulative-aftereffect at the registry-worldview/dimension or intradimensional level that brings about prospective institutionalisations by rescheduling the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology\textsuperscript{100} with respect to construed prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) explaining why we are able and do transcend; or else as in all prior registry-worldviews, the pseudointemporality\textsuperscript{52} logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity\textsuperscript{51} that construes of the present (by its reference-of-thought–categorical-imperatives/axioms/registry-teleology\textsuperscript{100}, for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding-as-of-apriorising/axiomatising/referencing to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental/\textsuperscript{54} maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{53}—unenframed-conceptualisation as longness-of-register-of-meaningfulness/intemporality\textsuperscript{52} that accounts for the becoming from all the priors to the present to the prospective registry-worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of universal import with temporal extricatory preconverging–de-mentating/structuring/paradigming contentions (more like metaphorically an apple falling on Newton’s head and his projection of this in grasping the universal implications of the laws of motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be ‘temporally’ undermining in one way or the other). Critically, it isn’t idle
idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution, universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-unshackled/mimetically-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that notional–deprocrypticism (by its deprocrypticism–or–preempting—disjointedness-as-of-reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’s-reference-of-thought-devolving-as-of-instantiative-context as to existence-potency’s-sublimating–nascence, disclosed from prospective epistemic digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality) is an inherent meaningfulness that is perfectly construable within just a positivism–procrypticism mental-disposition and the latter’s many compromised assumptions as articulated in this paper, as notional–deprocrypticism is priorly implying futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology as of prospective notional–deprocrypticism psyche/mindset. This equally raises the fundamental issue with post-structuralism, does it fully make sense in a ‘modern mindset’ of reference or reference-of-thought or rather it is implying priorly a prospective ‘postmodern mindset’ of prospective reference or reference-of-thought as its existential-reference/existential-tautologisation wherein human ‘deeper limited-mentation-capacity’—(as of relative apriorising/axiomatising/referencing–(of-existential-contextualising-contiguity)—conflatedness)’ pivots/deceters to reconstrue/reconceptualise meaningfulness-and-
continuing ‘moulting’ of its proponents and corresponding social construct, as intrinsic-reality
doesn’t adjust its inherent meaningfulness to us but rather humans need to achieve a given
psychical development to have-access-to or be-able-to-register the knowledge construct of the
more profound existential-reference/existential-tautologisation to intrinsic-reality/ontological-
veridicality that that psychical development allows for, in meaningfulness-and-teleological
terms. This is rather a difficult task as it implies \( ^{14} \text{de-mentation-} \langle \text{supererogatory-ontological-}

enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity by the temporal-dispositions references-of-thought (whether consciously, expediently or unconsciously) in order to undermine the referencing of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity as intemporal reference-of-thought (thus implying a mental-representation-devising/mentation/placeholder-setup of the ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory—de-mentativity’ as ontologically preconverging-or-dementing—apriorising-psychologism from the perspective of the transcendental-enabling/sublimating/supererogatory—de-mentativity as ontologically thinking). Insightfully, for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, such a ‘dynamic-cumulative-aftereffect of individuation/intradimensional/transcendental-or-transdimensional-or-interdimensional levels of conceptualisation’ ontologically validates ‘a deterministically teleological-differentiated storied-construct/ontologically-valid-narration’ of projectable/predictable-relative-existential-implications of the various ‘incrementalism-in-relative-ontological-incompleteness—enframed-conceptualisation temporal-dispositions incremental/shortness-disposition-relative-finitudes’ and ‘maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation intemporal-disposition superseding/longness-disposition-to-finitude’; finitude being the full-depth-of-existential-implications/existentialism arising when acting (as-being/as-existing) with regards to one’s prior relative-ontological-incompleteness/relative-ontological-completeness (sublimating—referencing/registering/decisioning—as-self-becoming/self-conflatedness /formative—supererogating—<projective/reprojective—aestheticising-re-motif— and—re-apriorising/re-axiomatising/re-referencing,—in-perspective—ontological-normaley/postconvergence> of reference-of-thought. As a side note, such a notion of
mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of reference-of-thought associated with human languages from ancient ones to modern ones (as of the registry-worldview/dimension-levels of the corresponding societies), facilitating the deciphering and understanding of ancient languages, as well as the reconceptualisation of meaningfulness-and-teleology across history, which conceptual exercise tends to be rather biased towards a modern perspective metaphysics-of-presence. Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to take cognisance of the very peculiar nature of the social world (in contrast to the natural world) that makes the social ‘susceptible to incorrect understanding and analysis’ particularly at a practical and operant level by the fact that it is highly emotionally-involved/politically-driven especially so with disturbing issues, and this is further compounded by the ‘blurriness’ and distance of ontological-prinemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’, and finally from a transcendental/ maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation perspective human mental-disposition with regards to the social can be poorly ontological with unconscious, expedient or conscious emphasis on significant others basis of logic as well as wooden-language—(imbued—averaging-of-thought—as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable–void’—with-regards-to-prospective-apriorising-implications) mental-dispositions (social-aggregation-enablers) undermining the solipsistic relationship with intrinsic-reality required for veracity/ontological-pertinence (transcendental-enabling/sublimating/supererogatory-de-mentativity). In this regard, it will actually be naïve to assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all
that is necessary in achieving effectiveness. With the weaknesses highlighted above with regards to grasping the social, it is important that such veracity/ontological-pertinence is effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’ driven by social-aggregation-enabling, wherein for instance the transcendental-enabling/sublimating/supererogatory–de-mentativity that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating/supererogatory–de-mentativity that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal
sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a \textsuperscript{10}\ universal construct but targeted, avowing its reality as fake, etc.). The ‘blurriness and distance of ontological-primemovers-totalitative-framework\textsuperscript{73}/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{73}/de-mentativity’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/‘interested’/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French poststructuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be countenanceable in the promptness of effectiveness driven natural science of ontological-primemovers-totalitative-framework\textsuperscript{73}, for instance, holding that Einstein’s theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologyisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating/supererogatory\textsuperscript{73}/de-mentativity-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory\textsuperscript{73}/de-mentativity’ with the transcendental-enabling/sublimating/supererogatory\textsuperscript{73}/de-mentativity-of-intrinsic-social-reality ontological-primemovers-totalitative-framework\textsuperscript{73}. This weakness
actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ as driven by postlogism—construed-as-of-disontologising-perverted-outcome-sought-precedes-existentially-veridical—‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness backtracking-
<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’> postlogism and corresponding conjugated-postlogism conjoining-looping-set-of-narratives of such postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>, respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to demonstrate veracity/ontological-pertinence of the conceptualisations highlighted in this paper not purely by themselves as transcendental-enabling/sublimating/supererogatory-de-mentativity-of-intrinsic-social-reality but rather such conceptualisation in a supratransversality<in-sublimating–existential-eventuating/denouement>--of-motif-and-apriorising/axiomatising/referencing should be over-and-face-off a subtransversality<in-desublimating–existential-eventuating/denouement>--of-motif-and-apriorising/axiomatising/referencing of temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ such as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a
universal construct but targeted, avowing its reality as fake), etc., and this is the realistic developing social contextualisation within which psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler mechanism is what brings about social-chainism/social-discomfiture/negative-social-aggregation as well as the temporal-endemisation/temporal-enculturation of psychopathy and social psychopathy by eliciting of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity

The implication being that the Social is much more than aggregativity (social-aggregation) wherein a mental-disposition of ‘overt aggregative social disposition’ that conceives that a social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation are simply ‘perceptively-and-formulaically deterministic’ for ‘its purpose of temporal extricatory preconverging—dementating/structuring/paradigming relating with the reference-of-thought—categorical-imperatives/axioms/registry-teleology (as perversion-and-derived-perversion-of-reference-of-thought—as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation’) that undermines the imbued intemporal-preservation-entropy-or-contiguity—or-ontological-preservation of the social-setup ‘is not ontologically social’ (as aggregativity construals and mental-dispositions about social relations of extricatory temporal-dispositions are perfectly construable as of varying covert to overt reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold). Likewise a mental-disposition of ‘overt non-aggregative social disposition’ conceiving the social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology, for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation ‘as of inherent essence and to be upheld and maximalisingly recomposured’ (as appropriateness-of-reference-of-thought-as-of-conflatedness) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather the opportunity for transcendent construal of our potential for intemporality. Paradoxically and across all
registry-worldviews this has always imply sociologically that uninstitutionalised-threshold are in a transversality of affirmative-and-unaffirmative–disambiguated–motif-and-apriorising/axiomatising/referencing of these two divergent mental-dispositions with respect to meaningfulness-and-teleology whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity or conceptualisation in aggregativity/social-aggregation as of averaging-of-thought<-as-to-leveling/resentiment/closed-construct-of- meaningfulness-and-teleology _as-of_-nondescript/ignorable–void ’-with-regards-to-prospective-apriorising-implications›} driven by social-aggregation-enabling, explaining the underlying confliction implied by any prospective institutionalisation as transcendental. This insight can be grasped from ontological-normalcy/postconvergence epistemic/notional–projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of–meaningfulness-and-teleology in a non-positivism/medievalism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing anchoring for prospective positivistic institutionalisation construed ’reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology’ mindset of such a ‘social ontology insight about prospective positivism’ (as maximalising-recomposing-for-relative-ontological-completeness—unenframed-conceptualisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) may lead to its very own circumspection with the registry-worldview’s/dimension’s meaningfulness-and-teleology and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued meaningfulness-and-teleology’ with respect to the prospective as the posivistic registry-worldview/dimension and the prior as the non-
positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of meaningfulness-and-teleology. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue (in lieu of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework in its amplituding/formative–epistemicity totalising–ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidententing-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of intemporality) will not factor in the inherent deficiency in value judgment of a non-positivism/medievalism inclined ordinary mindset/ reference-of-thought from which such accounts are coming from (given such a society’s state of paradox of transcendence-and-sublimity/sublimation/supererogatory–de-mentativity of relative-ontological-incompleteness induced,–‘threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation as-to—attendant-intradimensional’-prospectively-disontologising–preconverging/dementing apriorising-psychologism) about a figure involved in ‘intemporal-prioritisation-of-reference-of-thought’–as-confaluatedness or-ontological-reprojecting as partaking in the ‘inventing/creating’ of the de-mentative/structural/paradigmatic possibility (and the corresponding psychologism) for prospective positivism institutionalised-being-and-craft, more like biting a hand that intemporal-solipsistically as of ontological-faith-notion-or-ontological-fideism–imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-
existential-reality provides the opportunity for prospective de-mentative/structural/paradigmatic human flourishing, with the underlying fact being that inherently such a personality type rather as of a solipsistic-intemporality individuation disposition, by its contemplative reappraisal, is exactly what can provide the opportunity for such transcendental possibilities (when we come to grasp that the true profoundness of knowledge is more than just ‘mechanical as something construed soullessly’ without a more complete appreciation of knowledge as ‘organic as something construed with a profound sense of intemporal projection philosophy as to profound-supererogation’ with the idea that the type of knowledge construed as of first order transcendental-enabling/sublimating/supererogatory de-mentativity is not based on an ordinary notion of ‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of intemporal philosophical projection and more than just a ‘product’ for a materiality purpose but a driven sense of human emancipation). In fact, this equally points to a major flaw of the inherently implied value judgement in a lot of what passes for social sciences today explaining the vagueness, platitude and emptiness of little or no relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory de-mentativity implication as an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circular exercise, wherein the unabated recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension <amplituding/formative> wooden-language-{imbued—averaging-of-thought—‘as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology—as-of—‘nondescript/ignorable—void’-with-regards-to-prospective-apriorising-implications}> ideas should be the basis for construing its social science! In fact, technically Newton might be the
most inclined person for social engagement but then will he as of intemporal projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology¹⁰⁻<in-existential-extrication-as-of-existential-unthought>‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/mented psychology of the present, as of any ‘present registry-worldview/dimension’, with value references related to as absolute without or poorly factoring in that the animal that is the human is rather a becoming animal in constant psychological development of its limited-mentation-capacity with respect to social universal-transparency¹⁰⁻⟨transparency-of-totalising-entailing, as-to-entailing⟩<amplituding/formative–epistemicity>totalising~in-relative-ontological-completeness⟩ as of existential-contextualising-contiguity¹⁰⁻’s-reifying/elucidating-of-prospective-relative-ontological-completeness¹⁰⁻of-‘reference-of-thought–devolving-as-of-instantiative-context as of ontological-completeness-of-‘reference-of-thought; as determining its value reference and defining its underlying placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology¹⁰⁻, and hardly addressing such a more fundamental question as implied by ‘postconverging-or-dialectical-thinking”–psychology or psychology-of-mentation-dynamics or natural–psychological-dynamics’). In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on a social relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’ more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an <amplituding/formative–epistemicity>totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag³³ construal but identify objective reality by its naturally constraining ontological-primemovers-totalitative-framework³³, as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-
enabling/sublimating/supererogatory–de-mentativity basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and inventions given that their transcendental-enabling/sublimating/supererogatory–de-mentativity as of a positivism outlook psychologism of the world had taken place both in philosophical and practical scientific terms with the Descartes, Hobbes’s, Kants, Copernicuses, Galileos, Newtons, of the past. Whereas a lot of modern-day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypticism from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}\textsuperscript{10} as of prospective notional–deprocrypticism insight, wherein positivism–procrypticism is decentered and notional–deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author’s or anyone’s chosen but rather that the test for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{10}\textsuperscript{10} as of prospective notional–deprocrypticism transcendence-and-sublimity/sublimation/supererogatory–de-mentativity set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence-and-sublimity/sublimation/supererogatory–de-mentativity in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of existential-contextualising-contiguity\textsuperscript{10}\textsuperscript{10}’s-reifying/elucidating-of-prospective-relative-

More fundamentally, as previously highlighted with the mediocrity principle of science as it applies to humankind as well (as the notion of metaphysics-of-absence\{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>\} is pushed to its full implications over metaphysics-of-presence\{implicated-'nondescript/ignorable–void ’-as-to- presencing—absolutising-identitive-constitutedness \} as our present-consciousness/illusion-of-the-present/epistemic-totalising\textsuperscript{self-referencing-syncretising/mirage}, the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor may actually more objectively (and so beyond-our-consciousness-awareness-teleology\textsuperscript{100}) point to the idea that institutionalisation (the ontological-contiguity\textsuperscript{of-the-human-institutionalisation-process\} as intemporalisation is actually ‘a \textsuperscript{maximalising-recomposuring-for-relative-ontological-completeness\textsuperscript{—unenframed-conceptualisation recomposured abstract- construction/institutionalisation-designing’ which ‘in its operant effectuation (due to limited-mentation-capacity as of ‘\textsuperscript{presencing—absolutising-identitive-constitutedness\textsuperscript{113}) defines its very own prospective interspersing with uninstitutionalised-threshold \textsuperscript{65}, articulated as ‘socially-functional-and-accordant\textsuperscript{91} temporalisation of \textsuperscript{meaningfulness-and-teleology\textsuperscript{100}} as from idiosyncratic individuations frame-of-reference at childhood to full-blown threshold-of–nonconviction/madeupness/bottomlining-in-shallow-supererogation’<as-to–‘attendant-intradimensional’-prospectively-disontologising–preconverging/dementing —apriorising-

Such a construal/conceptualisation of ‘institutionalisation as of uninstitutionalised-threshold’ will explain why with regards to ‘all the successive institutionalisations formal constructs’ as of their respective ‘comprehensive abstract setups of deferential-formalisation-transference institutionalised meaningfulness-and-teleology’, there is a tendency associated with their corresponding extended-informality ⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ wherein there is ‘parallel construed extended-informality ⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩meaningfulness-and-teleology as-of-a-relatively-poor-institutionalising-inclination’ of a subpar and occasionally of a superseding practical applicative bearing/effectiveness over the supposedly formal construct. By and large, this will often arise within the scope of blurry institutional setups not construed for operant effectiveness. Strangely enough we do actually tend to elicit such extended-informality ⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ construal as more determinant when the principles of formal constructs are rearticulated operantly in extended-informality ⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to—meaningfulness-and-teleology⟩ as-of-a-relatively-poor-institutionalising-inclination terms; and often contributing to institutional inefficiencies and failures of all sorts whether with respect to mismanagement, misappropriation, incompetence, etc. from a modern perspective of analysis. Further, the fact is such extended-informality−{susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to—meaningfulness-and-teleology} effect can be more than just about the operant effect but equally protracted as ‘designed-formalisation-ineffectiveness’ in ensuring the ascendancy of extended-informality−{susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to—meaningfulness-and-teleology}−as-of-a-relatively-poor-institutionalising-inclination over formal constructs. By and large, this can be construed as the residual temporalisation effect arising from the fundamental reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions−<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor with respect to all the successive institutionalisations; with the notion of notional~deprocripticism requiring referencing/registering/decisioning the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional~firstnaturedness—temporal-to-intemporal-dispositions−<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’—existentialism-form-factor without any complexes and psychically pivoting/decentering (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring) over its deprocripticism–or–preempting—disjointedness-as-of- reference-of-thought (just as the ‘positivistic mindset’ arose from referencing/registering/decisioning the reality of defective essences, alchemic, spirits, etc. universalising-rules and psychically pivoting/decentering for rational-

Concretely, the fact is that psychopathic postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>77 and conjugated-postlogism78 as ‘conjoining looping narratives of flawed-existential-elevation-of reference-of-thought41′ of postlogic-backtracking-<iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’>77 are ‘denaturing 5 devoided-of-conviction-as-to-profound-supererogation97-or-prelogism79-basis’ towards the given institutionalisation’s sanctified-conventioning-social-aggregation-enablers in order to override, undermine and escape from the intrinsic-reality/veracity/ontological-pertinence transcendental-enabling/sublimating/supererogatory-de-mentativity. As in the case previously highlighted where a psychopath spoke to an interlocutor that it is a bad thing for a said individual to be molesting children, with its logic being sound from an abstract/virtuality appreciation but with the existential-reality of its ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity39’s-reifying/elucidating-of-prospective-relative-ontological-completeness88-of–reference-of-thought–devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology100 being utterly unfounded as a first-order faulty-mentation-procedure-deception-or-urge potentially enabling an infinite possibility of second-order level deception if re-engaged as of logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation110. Where the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-formulaically-narrated) over the previous narrative, and so in ‘denaturing 5 postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation97-'
or-prelogism\textsuperscript{79}-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing\textsuperscript{15}’ postlogic-backtracking devoided-of-conviction-as-to-profound-supererogation \textsuperscript{-or-prelogism\textsuperscript{79}-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a supplanting–conviction-as-to-profound-supererogation \textsuperscript{-of- ‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{-apriorising-psychologism mind). Even if this latter narrative is proven to be false (as it is another \textsuperscript{79}perversion-of-reference-of-thought\textsuperscript{-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge\textsuperscript{12} not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–\textsuperscript{-reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity \textsuperscript{-s-reifying/elucidating-of-prospective-relative-ontological-completeness\textsuperscript{-of- reference-of-thought-devolving-as-of-instantiative-context)}’ of implied—logical-dueness-or-scape, profile-or-stature, presumptuousness-or-arrogation, assumptions, value-reference and teleology\textsuperscript{100} such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge\textsuperscript{12} paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge\textsuperscript{12} operating \textsuperscript{5}logical-processing-or-logical-implicitation—supposedly-apriorising-in-conviction-as-to-profound-supererogation on such false axioms. Thus, with respect to postlogism\textsuperscript{78} generally what is critical for the psychopath/postlogic-mindset is to be seen as being of prelogic supplanting–conviction-as-to-profound-supererogation \textsuperscript{-of- ‘attendant-intradimensional’-postconverging/dialectical-thinking \textsuperscript{-apriorising-psychologism

As with all prospective institutionalisations, a human secondnaturing institutionalising construct is a requisite because, at best even the intemporal-disposition individuation individuals, purporting (by maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation) prospective emancipation come from and are of the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own ‘moulting’, as actually intemporality/longness is a ‘potential construct of orientation’ as implied by ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) and it is only a devised institutionalisation construct that achieves that potential-construct-of-orientation and not any implied inherent emanance intrinsicness (though the meaningfulness as articulated as such, and as the meaningfulness in this entire paper, is rather of an intemporal register validation and not of any temporal register validation, since an authentic psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring is what underlies transcendence-and-sublimity/sublimation/superceratory—de-mentativity as a ‘deeper limited-mentation-capacity—(as of relative apriorising/axiomatising/referencing—(of existential-contextualising-contiguity)—conflatedness’) existential-tautologisation/existential-reference pivot/decenter to reconstrue/reconceptualise meaningfulness-and-teleology; more like a jurisprudential maximalising-recomposuring-for-relative-ontological-completeness—unenframed-conceptualisation contention for rehabilitation is not of the same meaningful-framework as a temporal mental-disposition of illicitness for shifty expectation of rehabilitation which it should necessarily anticipate and preempt). By that token there is no base-institutionalised individuation in recurrent-utter-uninstitutionalisation, no universalised individuation in
ununiversalisation, no positivistic individuation in non-positivism/medievalism, and prospectively no notional–deprocrypticism individuation in procrypticism; as at best such emancipating intemporal individuation are ‘moulting’ and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained. Galileos, Newtons, Kants, Rousseaux and it had to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure over generations ‘for what were re-originary-as-unenframed/unbeholdening/outlier-conceptualisation-{imbued-postconverging/dialectical-thinking -‘projective-insights’/‘epistemic-projection-in-conflatedness ’-of-
notional–deprocrypticism-prospective-sublimation}’ outlying ideas to become the defining ideas of modernity’. Thus the apparent issues today raised with post-structuralism have as much to do with the psychical orientation (as underdeveloped) of its critiques as well as the requisite effort required to further develop, elucidate and focus it; and in this regard why there have been many serious and constructive criticisms of post-structuralism as required for any subject-matter, most of the ‘popular criticisms’ levied against post-structuralism fail to past the test of intellectual criticism and have mostly been populist and media-driven attacks, gaining traction by social trending than genuine intellectual validity. The most popular being an initiative on an unrecognised social science journal which by that mere token disqualifies the so-called criticism but has turned out to be the most populist ploy by all accounts for condemning post-structuralism. Furthermore and critically, the intellectual exercise as with all institutional processes operate fundamentally on a basis of mutual trust. However the methodologies, theories and concepts, what can be articulated as new knowledge is not necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the
overall peer review process is to channel potentially admissible and debatable knowledge
towards further elucidation in the overall scheme of establishing overall human knowledge as
of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer
review though that point tends to be a ‘highly political point nowadays’ as of the increasing
bean-counting institutional reflex of funding implications and sometimes at the detriment of
novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals
approval and extends with the continual critiquing of knowledge whether dominant or outlying.
Ultimately, the more fundamental test in such a negotiated process is a strive for consistency
and validatory clues with no guarantees of effectiveness but for the overall consistency, as of
the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might
equally be argued that peer-reviewing and by extension all epistemological and their
 corresponding methodological activities are not natural knowledge activities as of inherent
pure-ontology in of itself but derived activities as of human norms, practices and policies for
establishing thresholds that then enable articulated qualifications as of pure-ontology; in other
words, any such epistemological and methodological activity is irrelevant if pure-ontology can
be arrived at without it. Consider for instance that mathematicians hardly make use of
experimental designs or that many secret research by corporations and government aren’t peer
reviewed, at least not publicly. Besides at a more fundamental level the question can be asked

natural–psychological-dynamics’ behind any retrospective or prospective registry-worldview’s/dimension’s reference-of-thought validation-conceptualisation/epistemological relationship to knowledge/ontological-construal. Ultimately, the very transversality→of-affirmative-and-unaffirmative→disambiguated→motif-and-apriorising/axiomatising/referencing→between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness reference-of-thought is ‘the very paradox of ’meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness reference-of-thought’ with the transcendental de-mentative/structural/paradigmatic causality as to projective-totalitative–implications-of-prospective-nonpresencing,-for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring nature of transcendence-and-sublimity/sublimation/supererogatory—de-mentativity as of a crossgenerational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior registry-worldview’s/dimension’s reference-of-thought not factoring its prior relative-ontological-incompleteness reference-of-thought. But this is simply valid on the fact that a more profound axiomatic-construct on a given domain of reality as of prospective relative-ontological-completeness reference-of-thought is of intemporal-or-ontological prioritisation as of its apriorising/axiomatising/referencing→(of-existential-contextualising-contiguity)—conflatedness relative to a less profound axiomatic-construct on that same
meaningfulness-and-teleology as of organic-knowledge Being correction of the prior reference-of-thought, such that the prior reference-of-thought logical-dueness doesn’t even arise as the prospective reference-of-thought is the relatively complete ‘ontological-resetting’ in an ‘organic effecting-wholeness-as-of-profoundness-and-completeness-to–meaningfulness-and-teleology’ over the prior reference-of-thought ‘effecting-parsimony-as-of-shoddiness-and-incompleteness-to–meaningfulness-and-teleology’; just as the introduction of chemistry science carries an organic effecting-wholeness-as-of-profoundness-and-completeness-to–meaningfulness-and-teleology over a non-positivism/medievalism alchemic material construal. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence-and-sublimity/sublimation/supererogatory–de-mentativity, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-‘notional–firstnaturedness–temporal-to-intemporal-dispositions–<so-construed-as-from-perspective–ontological-normalcy/postconvergence>–existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. A second weakness of many critiques is by naively misrepresenting post-structural meaningfulness, and going on to criticise this. For instance, such arguments about post-structuralism as a theory that has no worldview are not made by poststructuralists who in their transcendentally-enabling-level-of–ontological-good-faith-or-authenticity/objectification/desubjectification-as-objectification–as-to-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-motif-and-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality as antinihilism have been rather questioning openly what the reality of the meaningfulness they construct.
implies, as a basis for further intellectual development. This explains the convoluted responses of say Derrida because that is the intrinsic-reality insight at hand, and the issue is rather how to further develop. This will be tantamount to criticising early quantum physics for contending that the fundamental particles are rather like waves and evasive without yet establishing an advanced basis of the science. Knowledge is not an exercise of one set of individuals arguing against another nor is it a popularity contest but rather it is all about finding out what constitutes intrinsic-reality as it permits ontological-primemovers-totalitative-framework; intrinsic-reality being the superseding transcendental enabler, and not any humans no matter their statuses. A third weakness has been by relating to poststructuralists as if they have got to get all their ideas right on by the instant, as if the theoretical framework isn’t in development like all theoretical frameworks (by the same token imagine all the unanswered questions that underlie quantum physics for over half a century that are still being elucidated, for instance, string theory which is so highly speculative but is still credibly a basis for research and analysis). The purpose of a theoretical framework is not to provide an immediate answer for everything but rather to provide a framework for constant critical development of ideas. Otherwise, it will be best to develop a correlational construct that may statistically be coherent with many arguments at any given point in time but is of little predicative or projective value because it hasn’t got a profundity as a genuine theoretical construct which may actually be mostly incoherent with many arguments at its earlier stage but provides a wealthy framework for the continuous articulation of ideas and resolutions, and this is actually the point of a theory in the very first place. It is thus no accident that many other disciplines have found post-structuralism as a relatively ideal tool for invoking much needed insight. A fourth criticism has to do with the ‘political nature’ of human affairs obviously, and even the intellectual is not beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been the case throughout human history) and further so in a social domain that is not immediately amenable.
to prejudicate-effectivity–sublimation–(as-to-underlying,-ontological-commitment<implied—self-assuredness-of-ontological-good-faith/authenticity~postconverging–de-
mentating/structuring/paradigming—as-being-as-of-existential-reality>) as with the natural
domain even though the latter equally faces similar issues but to a lesser extent. When we come
to reflect that the leading poststructuralist of his time had an entire school, rather than focusing
on developing research criticisms of his work and other poststructuralists (which would have
been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his
recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think
that intellectualism and ideas occur in an absolute neutral environment particularly when of
socially-perceived disturbing implications. While it is generally recognised that knowledge is
determined on its own merits as an interest-free principle, the fact is in the real world of
‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human
mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and
extra-intellectual meaningfulness becomes fair game. Fifthly, the argument of unintelligibility
of post-structural meaning is outright ridiculous with respect to the exegetical aims of its
authors, and no less so as expecting advanced chemistry, biology and physics writing to be
popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-transference
permeating all subject-matters and disciplines, which speaks to the idea that the ‘ordinariness of
thought’ is not the sound basis for construing issues raised in terms–as-of-axiomatic-construct
of profoundness of contemplation. The ontological-contiguity—of-the-human-
institutionalisation-process by its deferential-formalisation-transference is an exercise of
shrinking the melee of common sense wherein spheres previously opened for common
opinionatedness are shoved away as ‘deferred to’ specialisms whether institutional or
subject-matters by the mere effectiveness, with ‘informed common and individual opinions’
being the panache for the expression of sovereignty whether about the polity or individual
choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that there is a common sense social science is a falsehood no more than there is no common sense natural science, and intellectuals are irresponsible when peddling the notion that readers shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness and rather expect that they should be able to satisfactorily engage at the same intellectual level (‘reference-of-thought’) involving advanced studies and research on the basis of ordinariness of thought. This should not be confused with a popularising exercise meant to stir popular interest like popular science, though in fact there is no truly popular science for that matter but serious/candid science. Such a confusion can hardly arise in the natural sciences because of the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ in constraining veracity/ontological-pertinence of thought by the immediate effectiveness of studies, discoveries and inventions wherein a flaw thought proposition will be proven wrong by its ontological ineffectiveness with relatively little concern for third-party convincing over the transcendental-enabling/sublimating/supererogatory-de-mentativity that is existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness’ and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity’ in the social sciences allows for propositions to crop up that are hardly constrained by immediate effectiveness of studies, discoveries and inventions, such that such propositions will often border on popular thinking or the political (technically) or a concern priorly driven with garnering support and agreement, rather than of genuine intellectual strife for ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory-de-mentativity. In this regard, the central tenet of poststructuralists with respect to their pursuit has been transcendentally-enabling-level-
with respect to their reflections, studies and research at all cost, even at the cost of many poststructuralists not recognising explicitly that they are poststructuralists or not recognising similarities in their works with other poststructuralists, so because fundamentally they can only vouch for their authentic reflections and analyses without a ‘surreptitious pretence’ for such amalgamation which will undermine their ontological-good-faith/authenticity with regards to conceptualising intrinsic-reality/ontological-veridicality, with the idea that the notion of a commonness of their ideas and as a movement will take care of itself if they are truly articulating an intrinsic-reality/ontological-veridicality that reflects that commonness; more like the Indian story of blind men who came across an elephant and each one sincerely/authentically said what their capacity enabled them to say, no more no less, with the idea that if what they say is of-the-reality of an elephant, that notion will take care of itself but their first posture is to say authentically what is in front of them. This speaks of the essential nature of all sciences wherein the researcher considers the most determinant element to be not itself or other humans (who are together mortals; mortal because they/humans don’t really invent any rules of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or utilise them as ‘supposed inventions’ –and the scientist is all about a validation by intrinsic-reality/ontological-veridicality-as-the-transcendental-enabling/sublimating/supero ergatory–de-mentativity in contrast to a mental-disposition of social-aggregation-enabler where the emphasis is naively about convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-veridicality transcendental enabler thus leading to subontologisation/subpotentiation in-a-social-dynamism-of-meaningfulness-misappropriation, rather than the supersedingness/precedingness of intrinsic-reality/ontological-
veridicality transcendental enabler) but the superseding transcendental-enabling/sublimating/supererogatory~de-mentativity which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by effectiveness of ontological-primemovers-totalitative-framework and projection; with the latter wholly the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating/supererogatory~de-mentativity that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘soverignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the transcendental-enabling/sublimating/supererogatory~de-mentativity whatever the jargon required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating/supererogatory~de-mentativity of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of ontological-primemovers-totalitative-framework ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation—and—existence—as-sublimating-withdrawal,—eliciting-of-prospective—
motif-and-apriorising/axiomatising/referencing narratives (for instance, the developing sciences and institutional specialisms) that induce corresponding untenability/internal-contradiction/internal-incoherence/institutional-constraining by effectiveness on the subtransversality-<in-desublimating–existential-eventuating/denouement>-of-motif-and-apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that…, physicists say that…, etc. and not a common sense posture of the sort I think that…, thus relegating the melee of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness. Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality-<in-sublimating–existential-eventuating/denouement>-of-motif-and-apriorising/axiomatising/referencing intellectual criticism but raising subtransversality-<in-desublimating–existential-eventuating/denouement>-of-motif-and-apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted above. The fact is the melee of common sense as subtransversality-<in-desublimating–existential-eventuating/denouement>-of-motif-and-apriorising/axiomatising/referencing hasn’t got the requisite intemporality\textsuperscript{77}/longness in terms-as-of-axiomatic-construct of \textsuperscript{11} universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology\textsuperscript{100} that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper’s purported construct for aetiolegisation/ontological-escalation in grasping the phenomenon of postlogism\textsuperscript{8} in general
and the general background human science conceptualisation; together with its exposure for falsifiability/**validation from subsequent critical analyses**. Such that there will tend to be ‘confusion of **reference-of-thought**’ where such subtransversality-in-desublimating-existential-eventuating/denouement-~of-motif-and-apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than ‘to defer’, or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As our melee of common sense defers when it comes to the natural sciences, it defers when it comes to the legal science, it shouldn’t expect otherwise but to defer when it comes to rigorous post-structural and other social science constructions however their approximations, and so as the best construction potential of human meaningfulness and teleological possibilities. On that same token the notion of validation of supratransversality-in-sublimating–existential-eventuating/denouement-~of-motif-and-apriorising/axiomatising/referencing with respect to subtransversality-in-desublimating–existential-eventuating/denouement-~of-motif-and-apriorising/axiomatising/referencing is not one of contending/argumentative validation at a same contending pedestal but rather as a validation of the supratransversality-in-sublimating–existential-eventuating/denouement-~of-motif-and-apriorising/axiomatising/referencing reference-of-thought as intellectually-and-morally institutionalising and not implying its equivalence with subtransversality-in-desublimating–existential-eventuating/denouement-~of-motif-and-apriorising/axiomatising/referencing melee of common sense **reference-of-thought**, wherein for instance a consistent demonstration of a chemistry science (as supratransversality-in-sublimating–existential-eventuating/denouement-~of-motif-and-apriorising/axiomatising/referencing effectiveness earns chemistry science the deferential-formalisation-transference of no longer being engaged at a same contending pedestal as the melee of common sense with respect to human social contention about material constitution in
order to avoid the circular drawback of constantly making arguments in wooden-language-\(\text{imbued—averaging-of-thought—}\) as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-\(\text{nondescript/ignorable—void}’\)-with-regards-to-prospective-apriorising-implications> terms—as-of-axiomatic-construct, such that social deference is now institutionalised as ‘chemists say that/it is said in chemistry that’ rather than a social melee of common sense equivalence of ‘chemists think that but I also think that going by my common sense’. This argumentation is not idle as the social sciences as ‘being closest to human conscious sense of sovereignty’ tend to be most affected by such fallacies as highlighted that should be superseded by all knowledge whether natural or social-construct, and while such notion are often intuitively grasped with other formalisms whether institutional, legal or in the natural sciences subject-matter specialisms, for the social sciences there is a need to actively bring this notion to the consciousness-awareness-teleology\(^{100}\) in order to circumvent such nature of knowledge fallacies with regards to an emotionally charged domain that is the social. This equally explain why the studies of the social are easiest prone to ontological-bad-faith/inauthenticity\(^{64}\), whether beyond-the-consciousness-awareness-teleology\(^{100}\)-<in-existential-extrication-as-of-existential-unthough>, as even where contending intellectual postures are of relative elevated formal knowledge, it is quite easy for a pedantising/muddling/formulaic-hollowing-out—in-subontologisation/subpotentiation with wooden-language-\(\text{imbued—averaging-of-thought—}\) as-to-leveling/ressentiment/closed-construct-of—meaningfulness-and-teleology-as-of-\(\text{nondescript/ignorable—void}’\)-with-regards-to-prospective-apriorising-implications> mentality in order to advance one intellectual posture, and so as intellectual politics rather than genuine intellectualism. Seventh, as advanced by this author the ontological-normalcy/postconvergence of intrinsic-reality as reflecting holographically-<conjugatively-and-transfusively> the ontological-contiguity\(^{67}\) —of-the-human-institutionalisation-process\(^{68}\)
validates and restores the notion of essential meaningfulness (the notion of a center – be it conceptualised as an ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness’-of-`reference-of-thought’s-devolving-as-of-instantiative-context as to existence-potency’s-sublimating-nascence,-dislosed-from-prospective-epistemic-digression~rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’) to post-structural thought as its scholars had rather previously mostly focussed on disambiguating/clarifying the certitude/lack-of-certitude of human meaningfulness and thought. Even then the practical application and conceptualisation of post-structural meaningfulness has always been one that has tended to restore a sense of re-equilibrium with respect to perceived vested interest and skewed power relations whether with regards to its articulation in feminist studies, postcolonial studies, power relations in social settings with regards to appropriate deliverance and more responsive public services, etc. as post-structuralism has often been a framework giving weaker and subjected meaningful frames public voice. Thus the so-called ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation-as-to-the-nondisjointedness/entailment-of-prospective- nonpresencing’ of post-structuralism’ has been in real and practical world terms more a question of abstract reconstructive thinking since such practical applications have tended to be effective further highlighting the need rather for more decentering contemplations. Besides, post-structuralism practical emphasis has mostly been methodical rather than dogmatic. In the bigger scheme of things, this author further highlights that post-structuralism by implying ‘decentering’ is implying transcendence-and-sublimity/sublimation/supererogatory-de-mentativity or an ‘existential-reference/existential-tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of analysis/knowledge-construct has moved to the prospective/transcendental/superseding
reference-of-thought putting into question the now-and-present way of thinking as prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract articulation of principles is of existential-tautologisation/existential-reference neutrally. For instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining ‘meaningfulness-and-teleology’ from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoness or existence-in-reverberation or existence-potency~sublimating–nascence,-disclosed-from-prospective-epistemic-digression. In other words, abstract post-structural construct as any other theoretical constructs have no commitments to upholding any value-disposition and teleology but rather construe the ontological possibility conflated as of existential reality. The idea of discretely eliciting value-disposition and teleology choices/options is a secondary exercise of human social application (with teleology fundamentally construed as ‘phenomenal/manifest conceptivity/epistemic-reflexivity in existence as ontological, so-reflecting disposedness-as-to-orientation/value-construct/valuation–and–derived-parameterising) and entailment-as-to-totalising-contiguous/coherent–factuality-of-variability’, and so with regards to the specific human-subpotency with regards to overall reifying-and-empowering-reflexivity-of-ecstatic-existence-as-panintelligibility (imbued-and–hermeneutically/reprojectively/supererogatingly/zeroingly-educing’–human-subpotency–epistemic-perspective-of-projective/reprojective—aestheticising-
re-motif–and–re-apriorising/re-axiomatising/re-referencing–conceptualisation)), and specifically with regards to the practical application of post-structural thought as a re-equilibrium exercise derived from the ‘theoretic reshuffling-of-the-cards/putting-into-question’. Thus post-structuralism being so construed as ontologically-driven (having a center as of ontological-normalcy/postconvergence graspable by ‘the dynamics of metaphysics-of-absence (implicit-epistemic-veracity-of- nonpresencing-⟨perspective–ontological-normalcy/postconvergence⟩) or postdication insight with respect to metaphysics-of-presence (implicit-‘nondescript/ignorable–void ’-as-to-presencing—absolutising-identitive-constitutedness’), involving diminishing–human-epistemic-abnormalcy-or-preconvergence //increasing-relative-ontological-completeness—is-of-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness—is-of-reference-of-thought—devolving-as-of-instantiative-context due to human limited-mentation-capacity-deepening as ‘shallow limited-mentation-capacity to deeper limited-mentation-capacity—(as of relative apriorising/axiomatising/referencing—(of-existential-contextualising-contiguity) conflatedness) development’) effectively heralds post-ideology as ideas and notions are validated/invalidated by their demonstrated ontological-veracity/ontological-pertinence. In order words the supposed ontological-terms of notions and ideas are the basis for their analysis as ontologically-pertinent or impertinent, and so more than just perfunctory analyses constrained by the limiting framework of institutionalised-being-and-craft constructs and setups but at an existentialism/full-depth-of-existential-implications level highlighting the precedingness/supersedingness/ascendency of ontologically-driven analysis over ‘habits’, ‘conventions’ and rights-of-precedence/entitlement fallacies. Post-structuralism as such should posit to remedy and supersede the inherent ‘conceptual hyperbole’ imbued in the often ‘poorly-ontological, non-ontological or metaphysical constructions permeating ideologies’ and
projected as worldviews, to ‘restore existential veracity/ontological-pertinence as the central notion behind worldview construction and representation’, and so beyond just ‘present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and anthropological depth with respect to human mentation, meaningfulness and institutional-development–as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence-{implicated-epistemic-veracity-of- nonpresencing-<perspective–ontological-normalcy/postconvergence>} or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting–as-to-conflatedness1/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued–‘notional~firstnaturedness—temporal-to-intemporal-dispositions-<so-construed-as-from-perspective–ontological-normalcy/postconvergence>’–existentialism-form-factor and a social world is inherently hampered by a blurriness7 and distance of ontological-primemovers-totalitative-
framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity’. Thus approaching a scientific study of the Social on the same operational basis as that of the natural world is necessarily deficient as the latter’s immediacy of concurrent ontological-primemovers-totalitative-framework /intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating/supererogatory–de-mentativity as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposuring that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/in-reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the ‘very strength’ of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is this author opinion, is not strong enough (of sufficient ontological-completeness-of/in-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought–devolving-as-of-instantiative-context for the further development today of the study of the Social as of its fleeting nature (on such terms of what predicates should take precedence).

It must be said that the notion of transcendental enabler with regards to the Social today is rather relatively weak such that critically a lot of the basis for the social sciences today is influenced rather by practice, authority, and more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought>, rather than truly ontological-primemovers-totalitative-framework deterministic
ontological ‘projected constructs’. Consequently despite the projected candour, the study of the
social is inevitably permeated with ‘intellectual-ontological-bad-faith/inauthenticity’ (unconsciously or consciously), and by this it will be naïve to think that all issues of
intellectual disagreements with respect to the study of the social are necessarily in purely
logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant
constraining of the natural world can do to thinking by mere ontological-primemovers-
totalititative-framework under the rational-empiricism postconverging–de-
mentating/structuring/paradigming is often weakly possible with the Social particularly where
there is perceived interest to act otherwise. This is particularly the case with regards to the
undermining of social criticism and especially post-structuralism with the intellectual standards
of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by
‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-
teleology^0^<-in-existential-extrication-as-of-existential-unthought> abused as objective bases
of intellectual criticism get discarded easily for highly subjective ones); and this author equally
holds that a ‘fully emancipated social science’ will only prevail with the requisite
pivoting/decentering of understanding as deprocrypticism–or–preempting—disjointedness-as-
of- reference-of-thought psychoanalytic-unshackling/memetic-reordering/institutional-
recomposuring, which should enable the attainment of a suprastructural/beyond-the-
consciousness-awareness-teleology^0^<-in-existential-extrication-as-of-existential-unthought>
level of social thought involving notional–deprocrypticism as preempting—disjointedness-as-
of- reference-of-thought. More like in many ways the level of thought in the natural sciences is
wholly divorced from our consciousness-awareness-teleology^0^ and is fully transcendental-
sublimating/supercritical–de-mentativity by confirmatory existence/intrinsic-
reality/ontological-veridicality with little or no social-aggregation-enabling but say for human
organisational issues and wrong preconceptions induced by social-aggregation-enabling. This
arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently strong transcendental-enabling/sublimating/supererogatory-de-mentativity. While in the natural and mathematical sciences the subject-matter by itself is highly transcendental-enabling/sublimating/supererogatory-de-mentativity this is not the case with the subject-matter of the social due to its high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising ~self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction requiring rather a further strengthening of ontologising rules as of knowledge-notionalisation and utter-ontologising-recomposuring (notional–deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-reference-of-thought) beyond the present just positivistic/rational-empiricism striving social science bringing together profound insight with causal effectiveness. This doesn’t necessarily imply a naïve mimicry of the experimental approach as is often the case it can be argued as prevalent in the psychological sciences, and even in the natural sciences there is need for thorough insight when experimenting like say much of quantum physics is often based on elaborate abstractness of thought that is merely validated by critical confirmatory experiments. In fact, this author will contend that the overall ‘insightful empirical’ conceptualisation of this paper is actually more profound than catches the eye in a naïve empirical sense that cannot see beyond our positivistic registry-worldview to recognise human successive transcendental states like recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires insight and it is more than just a matter of obtaining results because an experiment has been made which is certainly simplistic as the very existential state of things when disambiguated is actually a more profound notion of experiment. It is interesting to note that this argument on the specific basis of (conscious or
unconscious) ontological-bad-faith/inauthenticity\textsuperscript{54} for the requisite condition of a ‘fully emancipated social science’ is more than just of circumstantial and idle implication but is rather construed as a de-mentative/structural/paradigmatic notion much like saying it is impossible to have a fully emancipated science in a transitory non-positivism/medievalism to positivistic social-setup still emphasising essences and supranatural causations over a transcendental-enabling/sublimating/supererogatory-de-mentativity of rational-empiricism/positivising based knowledge of intrinsic-reality, as transcendental-enabling/sublimating/supererogatory-de-mentativity positivistic contentions will still be undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity\textsuperscript{75} in the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of \textsuperscript{94}reference-of-thought/axiomatic-construct. Likewise, the positivism–procrypticism meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology\textsuperscript{100} of social-aggregation-enabling with respect to its social reality subject-matter as of its spurious/remote nature, for a more profound transcendental-enabling/sublimating/supererogatory-de-mentativity (unlike the relative case with the physical reality subject-matter as immediate) as required for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of–meaningfulness-and-teleology\textsuperscript{100} as of prospective notional–deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only credible logic this author can think of is that post-structuralism as one of the major critical theories given its potential ontological vigour has been seen as a threat with a deliberate covert non-intellectual effort to stifle it and limit its influence often having to do with misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one of the central issue with regards to post-structural thinking with respect to other intellectual postures has had to do with the
unusually high level of accusations of its proponents of misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather ‘a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis’. Consider in this case one media-driven and popularised argument that Karl Rove ‘we make our own reality’ quote during the Bush mandate, is due to post-structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes-rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical applications of post-structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity’ of ‘parodying’ of poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in ontological-good-faith/authenticity. Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding
cure for diseases. This is no more different with post-structural thought which is not a metaphysical/ideological advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science issues but political economy issues that require a criticism with respect to social choice about the political economy, but this has been usurped uncritically as if of a natural economic allocation mechanism (a falsehood). This author makes this latter point on the belief that knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of speculative thinking allowed to this author in this paper, it is such a proposition together with
the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism since the 80s arises out of such (it is herein contended) ‘intellectual triteness’ by such critics particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual standards they have been able to show elsewhere, together with the notion that these have tended to be unusually media driven in inducing a populist effect. Imagination will point to the idea that something much more ‘cynical and non-intellectual’ must be at work but passing for legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment more or less grasping the true implications of a non-medieval positivistic thinking on the whole intellectual, belief system and social-construct, and cynically upholding notions they knew better to be wrong but for their overall sense of preservation of their present and their present interests. This impression can be extended as well with respect to the idea of the social implications of postlogism as-of compulsing–nonconviction/madeupness/bottomlining

Thus in all registry-worldviews reference-of-thought, postlogism\textsuperscript{78} -as-of- ‘compulsing–nonconviction/madeupness/bottomlining-\langle<decontextualising/de-existentialising–of-attendant-intradimensional–apriorising/axiomatising/referencing>-induced-disontologising’-of-the-‘attendant-intradimensional–ontologising’–imbued-<contextualising/existentialising–attendant-ontological-contiguity> , -in-shallow-supererogation \textsuperscript{-<disontologising-perverted-outcome-sought-precedes-existentially-veridical–‘attendant-intradimensional–apriorising/axiomatising/referencing’-logical-dueness>} once it is ‘as of socially-functional- and-accordant’ \textsuperscript{104} (beyond the case at childhood where it is accompanied by overt delirium and social \textsuperscript{104} universal-transparency \textsuperscript{71} \langle\textsuperscript{transparency-of-totalising-entailing,-as-to-entailing-\langleamplituding/formative–epistemicity>totalising–in-relative-ontological-completeness } \rangle of the defect) as at adulthood, the postlogism\textsuperscript{78} ‘disjointedness-as-of- ‘reference-of-thought’ misappropriated ‘meaningfulness-and-teleology\textsuperscript{100} in arrogation tends to extend as conjugated-postlogism\textsuperscript{78} ‘disjointedness-as-of- ‘reference-of-thought’ misappropriated \textsuperscript{56} meaningfullness-and-teleology\textsuperscript{90} in arrogation involving the temporal elicitation of derived- perversion-of-reference-of-thought-\textsuperscript{-as-effectively-apriorising-in-nonconviction/madeupness/bottomlining-as-to-shallow-supererogation}', and it is thus naïve to construe postlogism\textsuperscript{78} without such a corresponding differentiation of social analysis in the construing/conceptualisation of ontological-veridicality. Now the criticism of populism-driven critiques of post-structuralism is
not raised idly, as an exercise that purports to articulate such breadth and depth of novel ideas as herein necessarily requires that the authorship effectively assume the profile and presumption that the implied knowledge construct warrants (which obviously every truly intellectual spirit will appreciate for what it is, if not agree with the arguments). Such an articulation is driven by the idea that knowledge as a transcendence-enabling construct is more than just about its craftiness/technique but part and parcel of the intellectual exercise is to articulate meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced with the evasive nature of quantum theory the physicists never said reality is wrong since it is difficult to understand, likewise it is naïve to imply that the reality reflected by post-structuralism is wrong because it doesn’t quite fit into our ordinary everyday way of thinking (that is exactly the point, our ordinary everyday way of thinking is in want of its further development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-unshackled)!
